COSMIC AWARENESS ASKS: ARE THESE MESSAGES A BENEFIT OR A DETRIMENT TO YOU ?

(Are the Messages Helping in Your Integration Into a Higher Spiritual Being ?)

SOME REASONS FOR INCONSISTENCIES IN THESE COSMIC AWARENESS MESSAGES (How Awareness Tries to Get Through)

C.A.C. General Reading,
March 5, 1992

OPENING MESSAGE:

This Awareness wishes to make some observation and some discussion regarding some inconsistencies in regard to messages given by this Awareness through this Interpreter; that this particularly in regard to the nature of these readings and how the messages can be slightly distorted or how they can come out different from what this Awareness intends.

This Awareness indicates that over the past 2 years, the UFO phenomena has been discussed and explored from one end to the other and has been generally covered and this Awareness indicates that in the covering of this phenomena there have been different focuses. In some cases the focus would be on abductions, in other cases the focus might be on the types of aliens involved or the purposes of aliens or the general overview of the effect or purposes of the presence of the aliens or on the human reaction to the aliens on government relationship with the aliens; these are different ways of looking at the same problem.

It is much likened unto entities looking at an elephant from different sides. This Awareness indicates that any of the descriptions of the elephant by entities from looking at different viewpoints might be interpreted by others who see from other viewpoints or by the same person when looking at the elephant from another viewpoint as being inconsistent with each other's or even one's own previous observation.

This Awareness indicates that there have been some few instances in which this Awareness has given certain information wherein at a later time other information might be given that appears inconsistent with the first. For example, the reference to the Greys in one instance might give a certain kind of information and in another instance might give a contradictory indication. This does not necessarily mean the information is inconsistent. It may be that the Greys themselves are inconsistent with each other, and that the messages are consistent with the differences in the nature of the Greys.

One can say that humans are generally benevolent, friendly, gregarious persons, relating to each other, helping each other in times of need, and this may be ultimately true in a certain context of a message when viewed from a certain viewpoint in watching humans, but then, in another context, at some later time, the same viewer may be looking at humans and see that they are violent and cruel to each other, and thus, one can say that this person, in describing humans, is inconsistent. The messages are inconsistent and the entity appears to be inconsistent with his or her view of humans. This Awareness indicates it is not so much that the entity is inconsistent but that the humans do not fit into a single category and thus, the descriptions from one time to another or from one frame to another may be inconsistent with each other. That this can account for many of the apparent inconsistencies in some of the UFO messages that have been given over the past 2 years.

Many Terminologies Are Unclear to Entities

This Awareness indicates that another factor involved in the method of trance readings or the action of an Interpreter attempting to read messages from this Awareness is that the terminologies and ways of extracting are quite unclear to most readers or persons who are recipients of those messages and therefore, most entities have certain ideas as to how these messages come from this Awareness, and it may be that the messages do not come at all in the way entities perceive.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

This Awareness indicates for example, most entities think that Awareness simply speaks to the Interpreter and the Interpreter then repeats it, or even more common as a belief is that the Awareness is using the Interpreter's mouth to speak. It is likened unto "Let me borrow your pen and your hand so that I can write my message to you." This is the nature of a medium, wherein a spirit takes over an entity and moves the entity's spirit out of the body and begins to express through the entity and many entities believe this is the way this Awareness speaks through the Interpreter.

This Awareness indicates that it is not so. This Awareness suggests rather, that this Awareness is simply static energy that is aware. It does not impose *Itself* on the Interpreter. The Interpreter does not simply exit his body totally to allow this Awareness to impose *Itself* into the body of the Interpreter and speak with the Interpreter's vocal cords. It is more a situation in which the Interpreter must be in a state of high alert, a state of high awareness.

The Interpreter must, in fact, merge with Cosmic Consciousness by being in extreme focus, focusing into the Cosmic Energies in such a way as to be receptive to the energies of this Awareness and that is precisely the job of the Interpreter. It is to focus, and the second part of the Interpreter's job is to interpret the energies that he or she perceives from the Cosmic Consciousness and to translate those energies into words that can be understood and which are representative of the impressions the Interpreter gets from his or focus of the Cosmic Energies.

This Awareness indicates that therefore, it is not even as precise as someone translating from one language to another. The entity who attempts to translate say, from Russian or Chinese or some other language into English, has a much more precise technology for translating than does the Interpreter for this Awareness, for the Interpreter for this Awareness, in focusing on the energies of this Awareness, must experience certain impressions and find English words to describe those impressions with some accuracy.

If you can fully understand this, you can appreciate how it becomes possible on occasion for the focus to be disturbed slightly and a word, a name, or a concept to become distorted in its delivery, wherein even a word may be left out from the interpretation of a perception or an impression to the final suggestion in sentence form.

The Calcium/Magnesium Mix-Up

Thus, as it is translated or interpreted from impression to sentence form, if the focus gets distorted or disturbed, the sentence may come out distorted or disturbed and not convey accurately the impression that was delivered by this Awareness. This Awareness indicates a classic example is in a recent message given by this Awareness pertaining to the use of calcium in proportion to the use of magnesium. Magnesium in standard use, according to the general standards of your society, should be one part magnesium to two parts calcium.

This Awareness indicates that *It* attempted to convey through the Interpreter that three parts magnesium to two parts calcium is a more accurate and beneficial level, but in the interpretation, the focus became disturbed and the wording was distorted, and the message came out "three parts". This Awareness indicates again this same thing occurred: the message came out that "three parts of magnesium or three times the amount of magnesium to calcium was the proper proportion." This is totally wrong.

This Awareness indicates that the way this error occurred was in the way it was worded, whereas three times the amount of magnesium, as generally proposed would be a correct amount, but three times the amount of magnesium as calcium would be completely wrong. This Awareness indicates that three times the amount of magnesium in the proportion or ratio that is generally proposed would be three parts magnesium to two parts calcium. Since calcium is usually two parts to one part of magnesium, if you tripled the magnesium without doing anything to the calcium, then you get three parts magnesium to the two parts of calcium and this would be correct.

This Awareness indicates that if you state it slightly different: "Three times the magnesium as calcium," then you have upped the amount of magnesium to 6 parts of magnesium to one part of calcium and that is totally incorrect. That is the error that occurred in the previous message and interpretation. This Awareness indicates the correct interpretation is: Three parts magnesium to two parts of calcium. As you can see, a slight break in the focus can alter an important message, causing things to become quite distorted.

This Awareness indicates that even with this percentage it is still, in terms of calcium/magnesium, it is still advisable to consult your doctor in regard to your own personal situation, for you may already have an excess of magnesium in your system, and to add extra magnesium might not

be beneficial for you. This Awareness indicates that for a general rule of thumb, three parts of magnesium to two parts of calcium would be a better ratio than is the normal standard.

This will help to prevent the skin from becoming calcified and the bones and joints from becoming too stiff too early in life. This Awareness indicates however, that the magnesium/calcium relationship also affects the cells of the body and can have effects on other areas of one's personal health so that it is advisable to apply it according to your personal needs, not necessarily as a general need.

ED's Note: This information on calcium/magnesium, released in issue 92-2, was corrected in issue 92-5. Although this information to this point is repetitive and boring, Awareness is making a point, and what follows gets better and better.

This Awareness indicates that from this particular example, entities can see how certain messages might get distorted and why this Awareness advocates that entities not blindly accept everything this Awareness says through the Interpreters, for the Interpreters are not infallible. The readings are not infallible, and the focus can be broken and messages can be distorted.

This Awareness indicates that by being aware of this, entities can get great value from these readings. It is important to go through all the information and then do your own evaluation, using these messages as you would use directions from a service station attendant in trying to find or locate a particular point to which you wish to travel.

You cannot assume the service station attendant who gives you directions is going to be absolutely without ever failing, correct, and therefore, as you leave and try to follow the directions, you must still be open to using your own best judgment, and when you come to the big tree that he mentions and where the entity says to turn right, but the road goes to the left, and there is no right turn, you must use your best judgment and assume he made a mistake

The Real Purpose of the Awareness Readings

This Awareness indicates that it might pay then to ask someone else locally, to consult a different advisor or director or doctor, or teacher. This Awareness indicates that the purpose of these messages through this Awareness is not to substitute for your own thinking, but to give a general guidance so that entities can perceive directions toward which to travel in their thinking, in their concepts and ideas. *It* attempts to give books and refer entities to individuals or other works for further pursuit and further study in those areas which entities seek information.

This Awareness indicates that the pursuit of information in itself is not the ultimate purpose of humanity, for you can pursue and seek information until it comes out your ears, and still you may not find happiness. You may not find peace, and you may not find salvation in terms of your spiritual needs. What you really seek in life is to be at One with the Creator, and if the information can lead you to that and can make your life more comfortable and move yourself in closer harmony to your creator, then these messages have been helpful to you.

If these messages are only used to build your ego, to make you feel that you are learning something that others don't know and therefore, are different from and above the crowd, then these messages are failing in their purpose. If these messages are simply to entertain and give you something that you could probably get from a tabloid magazine: the bizarre information about others in the world, so that you feel there is something really mysterious and intriguing "out there," and they do nothing for your own soul growth, then these messages are failing in their purpose.

If these messages can help you to have better relationships with others, if they can help you to feel more at peace in your home, in your environment, in your world, so that you can have more time to develop and pursue your soul growth purposes, then these messages are beneficial to you.

This Awareness suggests that they do not have to be 100%⁴ accurate in every word in order to serve you in this manner, nor do they have to be focused strictly on spiritual things in order to serve you and lead you into better integration in your life. This Awareness indicates that even financial readings, readings dealing with mundane things, can be beneficial in helping to give you more time and more peace of mind so that you can pursue your spiritual purposes with greater ease.

The Relationship Readings

This Awareness indicates that *It* especially wishes to help entities relate to each other so that they can work in harmony, so that each working in harmony will have more time to develop spiritual paths and purposes. For without these opportunities to develop in a harmonious environment, entities will find it much more difficult to focus on or have access to spiritual energies and unity.

This Awareness indicates therefore, *It* gives information that helps entities to find more integration in their lives with their world, with their universe, with their associates, because this integration helps them also to integrate with the Divine Forces of the universe.

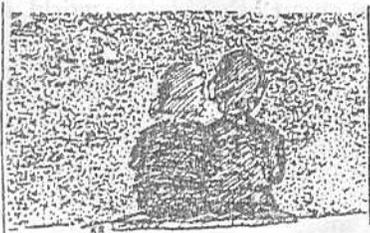

This Awareness indicates that the mere knowledge that may be imparted from these readings to entities in itself is of little value. The information that is of value is that information that helps entities to integrate in their world, in their society, in the universe itself, and if entities become more concerned about gathering knowledge than in integrating, they have missed the purpose of these messages, and perhaps the messages are doing more harm than good.

This Awareness indicates therefore, those who would knit-pick over words, over the preciseness of idea expressed in a message from this Awareness, are more likely concerned with the knowledge than with the overall and general integration that can come to them from gathering the general information presented by this Awareness through this interpreter or through similar interpreters; the general information as that which is the more lasting.

This Awareness indicates it is a fact, for example, that long-term memory tends to forget all of the details of information that entities study. The details are those knit-picking points that entities like to point to and argue about, and there are many that entities could, if they wish, point to and argue about. These are not important to this Awareness nor should they be important to entities who are seeking to integrate themselves into the spiritual life, in their world, into their community.

The more general and broad messages given by this Awareness, generally are not so easily picked at and can be remembered and will be remembered more easily by long-term memory, and therefore, just the reading of these messages and the remembrance in long-term memory of the general information that has come, even with the loss of the details; this long term memory as that which directs and guides entities in their spiritual integration toward the Higher Forces.

This Awareness indicates it is this purpose for which these messages are given. This Awareness indicates the color of eyes or the number of nose-hairs a Grey alien might have; any details of such nature are of absolutely no consequence whatsoever to the soul growth of entities or the integration of their spiritual being into higher levels. Therefore, this Awareness does not concern *Itself* greatly with those minor inconsistencies which have been pointed out by some who have read these messages.

Say something wise.
Love someone.
Say something wiser.
Love yourself.

THAT RECENT "TURN-AROUND" IN THE ALIEN SITUATION: WAS THIS INFO IN ERROR?

FOLLOW-UP QUESTION:

Was there any inconsistency during the last session with the information about the virtual turn-around in the alien situation?

COSMIC AWARENESS:

This Awareness indicates that the biggest problem with that message is that it may not have been worded clearly enough for entities to fully understand what was meant. You may recall this was a reading in which you, yourself, were having extreme allergy problems and this detracted from the focus, and this may have contributed to the poor focus of the Interpreter in the giving of this message.

ED's Note: Vikki's cottage, where these readings are given, is surrounded by trees, over a hundred of them, blackberry bushes, salal, stinging nettle, and many other wild growing plants, plus fruit trees, roses, rhododendrons, daisies, etc. plus numerous grasses and Scotch Broom etc., all of which pollinate. No matter what time of year it is, there is always something pollinating, and unfortunately, your editor is often allergic to pollens and occasionally snuffles and sneezes and wheezes during the readings, due to difficult breathing. However, this is the first time Awareness has ever called attention to this problem. Also, due to the isolation of the cottage, the extreme quiet and good vibrations from the forest and streams on the property, plus the fact that this is the only place the CAC readings have ever been given, none of us involved would have it any other way. The worst times for my allergy problem occur in the summer and fall when Paul arrives with huge fresh watermelons from the fields in Oregon. These are popped into the refrigerator and are devoured late at night after the final readings for the day. Of course, being watermelon is my favorite fruit, I am highly allergic to it, and all of us know the consequences. I pork out and usually sleep it off, but occasionally it combines with the pollens around and an occasional explosion occurs during a session, but usually these outbursts do not effect the Interpreter or the focus of the readings. (Sorry about that, folks; I am working on the allergy problem and hope that Awareness never calls attention to it again.)

The Planned Reptoid Invasion is Still on Course

This Awareness does wish to clarify what was intended in that message as *It* has felt some concern that entities might misread the information. This Awareness indicates that *It* was not attempting to refer to the aliens' situation as having turned around, and this is a disturbing term to describe this scenario. The situation has not as yet turned around. There have been some changes that have occurred and there has been some reduction in the threat, but there is still the oncoming threat of the Reptoid invasion.

This Awareness indicates however, that what *It* sought to relay to humans is that they need not despair over this concern because in the long term future, (this Awareness suggests within the next five years), there will be a great turn-around in terms of this threat. This Awareness indicates that essentially, the Zeta Reticuli Greys are eliminating themselves from existence, genetically so. They are desperate in trying to find a way to preserve their species and as yet their closest approach for doing so is through the half-breeds, half-human/half-Grey, and they are not really very effective in preserving themselves this way, for they are relying more on the half-breed than is a mutant between human and Reptoid than from the human and Grey, or the human and the Orion Grey, moreso than from the Zeta Reticuli.

There are not very many successes in regard to the Reticuli Greys half-breeding with humans. This Awareness indicates that if the Zeta Reticuli cannot function as a species, it will not be a meaningful mercenary army for the Reptoids and the Reptoids do not like to fight their

own wars; they prefer to have others doing it for them, and it is likely that they will attempt to use the human half-breeds for this purpose and this does not appear to be something that will succeed.

This Awareness indicates that basically, what *It* attempted to give in the last reading which you speak of was not a resolution to the situation, but a sense that in the end, humans will prevail. There may be a mutation that develops as a result of this infusion of these alien forces, much as there was a mutation of alien forces that led to the cro-magnon type and homo-erectus types in the past.

This Awareness indicates that this may be the beginning of a time in which a new species emerges. This Awareness indicates, however, that it does not appear that the human race is doomed by the invasion of these alien forces as one entity expressed it. This Awareness indicates the entity stated "It appears the human race is doomed by the aliens." This is not the case.

It appears that the Zeta Reticuli are more likely to have come to a dead end on this planet. There may be some surviving elsewhere to carry on their species, but that these entities who are here will not carry on the species for much longer.

This Awareness indicates that you are not out of the woods, so to speak, yet, in regard to the alien scenario, however, it is preordained by circumstances, not by fate, that these entities will not prevail against you in the end. These entities lack the spiritual qualities that are prevalent within humans and the spiritual qualities are those which will guide and prevail with the human species to see it through this crisis.

THE NUKING OF ALIEN BASES SCENARIO --DON'T RUSH TO ANY CONCLUSIONS

FOLLOW-UP QUESTION:

The turn-around that I mentioned was the implication from the reading that the alien threat was virtually eliminated when the government nuked, and is still nuking, the underground bases, and the Reptilians no longer having an advanced force here on earth in the Greys, working to prepare the earth for their planned invasion, now have second thoughts and the grim scenarios indicated by Awareness will not in all probability, ever occur. That was basically what I thought the members would get from that reading and then they would relax and figure there was no longer anything to worry about.

COSMIC AWARENESS:

This Awareness indicates that it is not as complete as your summary sounds. There are still many of these bases on earth that are inhabited. Whether this will be pursued further as an effort to eliminate these entities is not seen at this time. There are many who do not wish to pursue this conflict for fear it will... This Awareness indicates that certain factions or types of Zeta Reticuli have been eliminated. You must remember that there are 7 types of Zeta Reticuli alone and there are many types of Greys on earth besides Zeta Reticuli. These Zeta Reticuli sometimes are hostile to one another. One type being hostile to another type will be helpful in the elimination of one group, but if they themselves were threatened or felt there was a threat they can be quite a force to reckon with.

This Awareness indicates there are still many powers on earth that have not been fully neutralized. They are passively controlled somewhat by treaties and by certain agreements with your governments. This Awareness indicates that there are some very harmonious energies present on earth that were not present 6 months ago, and therefore, it looks as though the threat has been neutralized considerably, but to say it is a total turn-around is not quite accurate. It does not happen that quickly.

A Possible Mid-East War Before Election a Greater Threat

This Awareness indicates that there is little reason for entities to be frightened, if indeed they were frightened before at this time, because the threat has been defused considerably, and there is no doubt the ability to defuse it even further if necessary. It appears that the powers in the world are at a kind of poise or juncture whereby peace is possible, even with the presence of many of these aliens.

The concern at the time as to whether the peace will be disrupted lies mostly in the threat of the Reptoids and this is still some distance away. This Awareness suggests that there is probably a greater threat to entities from war of man against man at this time. This is not yet clear, but that there does appear to be a strong potential for another Middle East war prior to election time. It is not clear that this will occur, but it is a strong possibility.

CAN HALF-BREEDS GROW UP FAST ENOUGH?

FOLLOW-UP QUESTION:

In regard to these half-breeds, if they're being bred with humans, it seems to me it's going to take them awhile to grow to adulthood in order to be used possibly by the Reptoids. How many...

COSMIC AWARENESS:

This Awareness indicates that they have been doing this for some 30 years or even more since the early 50's. This Awareness indicates that these entities are made so as to grow much faster than normal humans in terms of size so that a young teenager would be full grown in terms of years.

This Awareness indicates that the activity has been speeded up. They use implanting of eggs and sperm in breeders underground and take the fetus at as little as three months, put it into incubators and finish its growth in nutrients that speed up its incubation time. This Awareness indicates that this operation or activity is at a frantic state at this time, trying to develop as many of these as possible.

These half-breeds number in the millions at this time. This Awareness indicates that they have become somewhat careless in their operations and lose many of the small ones, but because they are frantic in trying to preserve and develop a carrier for their race, this continues at accelerated speed.

This Awareness indicates that more can be given at a later time on this particular topic if there is further interest. This Awareness indicates that it appears that the majority of your readers would prefer to get beyond the UFO concerns at the present, or have a break from this topic.

FOLLOW-UP QUESTION:

Well, I had one question. With all the nuking going on at these bases, where are all these millions of adult half-breeds living, or do they walk among us in disguise?

COSMIC AWARENESS:

This Awareness indicates there are many bases underground. It is not as though they have attempted to destroy all of these. This Awareness indicates that it appears there have been several of these that have been nuked, but there are very few in the Northern areas or in the Southern areas that are even known to the authorities. Many of these bases are well hidden and unknown to the authorities. There are a certain few within the United States that are known, and some elsewhere that are known.

FOLLOW-UP STATEMENT:

I'm not sure most of our membership, from the letters we've gotten, are sick and tired of the alien information because it is rather well balanced out with more positive information, generally, in the newsletters we put out.

I'd say the majority of our readers agree the information is heavy and a little scary, but feel it is necessary to keep them informed because the alien situation is related to so many things that are occurring in the news these days, and it helps them to read between the lines and to possibly make plans in their own lives for the coming future events.

WHY CERTAIN ALIENS ARE INTERESTED IN THE MAGNETISM OF OUR EARTH

QUESTION:

There's a question from J.M. in New Jersey. I'm not sure if I've asked this question before. I don't recall it. I had it outlined in the book and was going to ask it anyway. He writes: In the book *Cosmic Top Secret*, by William Hamilton, (the third), and on the page 109, a former security officer, Thomas C., at the joint U.S. government underground base near Dulce, New Mexico, is quoted as saying: "The aliens don't want the land, the gold, the minerals, or the water that we possess, nor even the human nor animal life. What they do want is the magnetic power that surges on and through the earth. The aliens harvest this magnetic power in a way unknown to us. The aliens recognize this power as more valuable than any commodity on our globe." Would Awareness comment on that please?

The book "Cosmic Top Secret," by William Hamilton III, published by Inner Light Publication, New Brunswick, N.J. 08903. It is also available from CAC. Please see Book Catalog Price Sheet for current price.

COSMIC AWARENESS:

This Awareness indicates that the entity perceives something that most entities miss in regard to the alien technology and use of magnetism; that this is, of course, a high priority among certain aliens; not necessarily the whole strata of aliens would fit into this category. There are some who could care less about magnetism and are interested only in the genetic reproduction and cloning and preservation of their species, but there are some scientists among these aliens who focus on power and technology who have a strong interest in the magnetic fields of the earth, and it essentially serves as kind of electric dynamo, electro-magnetic or magnetic dynamo in the same way that we might want to harvest the energies from a great dam which produces electricity, if the natives around were not able to understand the purpose of the dam and the production of electricity.

The persons who understand these magnetic powers and how to capture and use these energies are of a technological training that allows them to think in terms of value and commodities that are unusual to most of their fellow aliens and therefore, their focus is on that purpose. The entity who made the observation is one who was fortunate enough to receive information relating to this and not become side-tracked by other interests of the aliens. There are still many other interests of the aliens besides this however.

This Awareness indicates that this ties in somewhat with the works of Bruce Cathie and the grids which are used by craft for piloting or navigating around the earth for these special spacecraft using this power. This Awareness indicates the power of course can be captured for use in leaving this planet also. It does not necessarily have to be used on the planet.

FOLLOW-UP QUESTION:

Is magnetism unique to the earth?

COSMIC AWARENESS:

This Awareness indicates it is stronger on the earth than on most of the other planets in the solar system and this is largely because of the churning of the water and the heat of the inner core. The movement of the energies within the earth are those which help to enhance the magnetism of the earth. This Awareness indicates that Venus also has a strong magnetism, it being harder to harvest because of the intense heat and hostile surface.

This Awareness indicates Jupiter also has a strong magnetism in comparison to other planets of the solar system.

FOLLOW-UP QUESTION:

J.M. had one other question. "Is this magnetic power the same as the so-called aura of the planet earth, and do the aliens benefit from this aura and harvest it also?"

COSMIC AWARENESS:

This Awareness indicates that the magnetic power does appear to have some relationship to that which is known

6.

as the *Aurorea Borealis*; that this energy does not appear to be easily harvested. It does not appear that it is harvested as easily from the atmosphere as from certain vortices on the earth surface itself.

DOES RADAR AND ATOMIC ENERGY USED ON EARTH HAVE ANY USE OR ATTRACTION FOR THE ALIENS?

(A History of Aliens and 'Foo Fighters' on the Earth)

QUESTION:

J.J. in New York asks: "If radar and the atomic energy used on this planet has attracted aliens or could be used by aliens?"

COSMIC AWARENESS:

This Awareness indicates that the aliens began to make themselves known shortly after the release of atomic energy on the earth. It appears that it alerted them to the technological changes in mankind's development and caused them to become more curious. It must be recognized that some of these aliens had been here long before, and also that some of the aliens were already present on earth, having made communication as early as the late 1920's and early 30's, and thus, these entities may have been the ones seen in the early 40's during World War II, which were known as the 'Foo fighters'.

This Awareness indicates that many Allies, seeing these Foo fighters thought they were new Nazi aircraft, but the foo fighters never engaged in any kind of battle and gradually the Allied forces lost some of the concern about the Foo fighters. These entities apparently were just observers of World War II. This Awareness indicates that after the release of atomic bombs in testing and in the war use in Japan, the UFOs became more widespread in their appearance, especially around those places where atomic plants were being built and therefore, showed their extreme interest in the human use of nuclear energy.

This Awareness indicates that it does not appear that the aliens who were already on earth were the ones who made contact with governments, but that new visitations, especially those from Orion and from the Pleiades occurred after World War II. The Pleiades attempted to warn governments about the Orion aliens, but to no avail, and the Orion aliens created the first contract or peace pact or agreements with the United States government under Truman, which led to the building of the Dulce base and others; this in 1948 and following.

The Zeta Reticuli came later and formed their particular agreements with the U.S. government in the early 60's.

ANY DAMAGE TO OTHER PLANETS BY OUR NUKES?

QUESTION:

"Could we hear about the damage, if any," she asks, "our nuclear fissions have done to nearby stars, planets, cultures, as well as those in other dimensions congruent with ours?"

COSMIC AWARENESS:

This Awareness indicates that this appears as extremely minimal; that to this point, there appears to be very little noticeable damage to any distant stars from your use of nuclear power. Most damage being that which has occurred on earth.

FOLLOW-UP QUESTION:

Did it have any influence on other dimensions?

COSMIC AWARENESS:

This Awareness indicates that nuclear energy, because of its extreme radiation, does influence other dimensions and does cause harm and damage in those dimensions.

QUESTION:

Thank you. Does Awareness have a closing message?

THESE MESSAGES NOT INFALLIBLE, BUT DO SERVE A PURPOSE

(Closing Message)

COSMIC AWARENESS:

This Awareness indicates that with the clarification of the nature of interpreting, and with the understanding that the focus is a primary and essential aspect of the readings, it becomes less stressful for the Interpreter who heretofore felt extreme responsibility to interpret the messages with absolute and total accuracy and commitment to accuracy.

This Awareness indicates that It asks entities to read the material and know that simply in the reading you will learn what is important in the material, and that you do not have to study or memorize details and the specifics, and that even where there are some discrepancies you may simply note the discrepancy and ask yourself: "Is it possible this discrepancy is not necessarily a discrepancy in the message, but represents a discrepancy in the enigma of things?", for generally, there are many different sides and many enigmas in complex things.

An entity can be both merciful and hostile, and if one describes the entity as merciful at one time, is the entity failing to be honest if he described him as being hostile at another time? Thus, the complexities of the dichotomy and the discrepancies of a personality when being described may not necessarily be a sign that the description is in error. The description may be correct and the dichotomy or discrepancies may lie in that which is being described.

This Awareness indicates that with this understood, the messages may have more meaning and you may be better able to avoid a feeling of mental puzzlement or confusion when running across something that seems to counter something elsewhere.

This Awareness indicates an example being that at one point this Awareness described the Greys as being insect-oids. At another point they were described as being based on reptile or from some other genetic, even plant-like substance. These were all correct, but the way the wording came out, it would sound as though this Awareness was not being consistent. It is however, that there are types of Greys and the balance, proportions of plant, reptoidal or insectoidal genes are variant in these different types and depending on which type is looked at, may determine which type is being described at that time.

GOD IS ALIVE, MAGIC IS AFOOT!

(Excerpt from a C.A.C. General Reading, April 9, 1992)

OPENING MESSAGE:

This Awareness indicates that a few years ago, this appears to have been in the late 60's or early 70's, the entity Buffy Saint Marie released an album containing a song, (this appears to have been written by Leonard Cohen), "God is alive, magic is afoot." This Awareness indicates that in this song it begins to explain that God is alive and magic is afoot, and that even though there have been many times and many instances in which man tried to stop magic, tried to destroy God, tried to destroy magic, it would simply cease being in one place and surface elsewhere and that they could never catch it to destroy it entirely.*

* From Leonard Cohen's book, "Beautiful Losers."

It would pop up here and there, and continue being, continue expressing magic, regardless of how many wise men, how many efforts were made to destroy it. This Awareness indicates that you can expect the same in coming years, even if the Ahriman forces do gain a strong foothold in the society, for magic, the spirit of God will continue to express Itself from place to place, from moment to moment, here and there, and all entities should be well aware that wherever you are, there will always be some Divine Spirit that you can associate with, you can place yourself near, you can move toward in any moment.

This Awareness indicates that it is perhaps a problem also that a trance reading generally can last only for one or two hours, and therefore, all of these middle clarifications cannot be included in getting a message out, and therefore, there may be questions left within the message that need further explanations. This Awareness wishes to point out that the trance reading with the Interpreter and the effort by the Interpreter to stay focused and to collect proper impressions and translate those impressions is not perhaps the most satisfactory way of collecting information, but it is generally a good way to collect general information that cannot be otherwise traced or located or which is not compiled in a central location.

Therefore, it has its place, even if it is not perfect, in terms of academic standards. The ideal would be, if it were possible, the ideal would be to have books on an astral level which the Interpreter could read, quote from, and use for references and which would be absolutely already translated into English so there could be no error in translation and whereby the information could be asked about at any time there was a question, and answers could be readily available through some kind of self-help screen or addendum, but the consciousness of entities does not work in a similar manner as computers and computers do not contain information that has not been placed there for them to retrieve.

Therefore, the situation is that the Interpreter, receiving Awareness messages, interprets to the best of his or her ability and occasionally there are things left to be desired about the method because it is not infallible to those who are quite concerned about absolute wording and consistencies.

(The Law of Gratitude is given)

Thus, from moment to moment you may move toward that which is highest and best within that moment, and in so doing, you can avoid the darkness, avoid the appearance of evil by staying in the Light of the Divine Forces.

WILL POSITIVE EXPECTATIONS PROTECT EARTHLINGS FROM BEING HARMED BY REPTOIDS?

QUESTION:

A question from J.J. in New York. "My friend Janice insists that if earthlings achieve a sufficiently high vibration of love, light, positive expectations, etc., that there is no way that negative entities or experience could become part of our reality. Is there anything to this? Could, for example, an enlightened saint, sitting in meditation be immune to the intentions of a hungry tiger or Reptilian? Is there something we as a race could do mentally, and or spiritually, to eliminate the likes of Greys and Reptilians from our reality, or at least drive or keep them off the planet, or is it entirely a physical matter of power and force, weapons and military might?"

COSMIC AWARENESS:

This Awareness indicates the Greys particularly do not like to deal with entities of high spiritual vibration; they have an apprehension toward these entities. In part, they desire being worshipped, and they want people to be obedient to them and be devoted to them, and if entities are devoted to a spiritual deity or to a spiritual purpose over them, they have little need or use for them; therefore, they will tend to avoid those entities who are highly spiritual and go for the ones whom they can influence easily to become devotees of themselves.

This Awareness indicates that they would like their followers to be devoted to them and not to some other deity or spiritual being. This Awareness indicates the Reptoids are a different matter. They do not have a similar need or desire to be worshipped; they simply want power.

This Awareness reminds you that during the Roman times when Christians were being persecuted in the arena; these entities were highly spiritual and were still being eaten by lions and slaughtered by gladiators, so the concept of absolute protection through spiritual enlightenment is not historically a sound concept. Of course, entities can always argue that while if they had been truly enlightened, they would not have been harmed, and who can argue with that? This

6. Awareness indicates that it is a way of saying: "If you are harmed you were not truly enlightened!", and thus you keep the argument alive. Even if you yourself are eaten in the process, you can then say: "Well, I must not have been truly enlightened, because the lion is eating me!"

This Awareness indicates that some people would rather keep their argument alive and well than to check it out for its validity. This Awareness indicates however, that in regard to the Greys, they prefer to avoid those who are highly spiritual; they prefer dealing with entities of low mentality, low IQ, who are obedient and awestruck by them. Such entities are more cooperative.

The Greys are actually somewhat afraid of humans because they do not understand the unpredictable emotions and they know that humans are physically stronger than they are and could, in certain circumstances harm them, thus, they like humans who are very cooperative with them, who will obey and follow directions without question, and preferably, because they love them so.

FOLLOW-UP QUESTION:

So, in other words, even if an entity attains a sufficiently high vibration of love, light and positive expectations and so forth, this is no guarantee that it will provide immunity from the Reptoids?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that even the entity Jesus and other saints have died at the hands of those who were of the Dark Force.

MORE ON REPTOIDS AND THE PLANETOID NEMESIS

FOLLOW-UP QUESTION:

Sitchin describes the visitors, the Reptilians, as using humans as labor, not as food. Is there a discrepancy there or ...?

COSMIC AWARENESS:

They were created not so much for food, but to work the mines; that was their purpose. The use of the humans as food became a secondary feature of less importance to them at the time of the creation.

FOLLOW-UP QUESTION:

Why do these Reptoids come at 3600 year intervals?

COSMIC AWARENESS:

That is the orbit of the planet on which they reside.

FOLLOW-UP QUESTION:

Is their planetoid Nemesis, launched from a sun-orbiting planet of eccentric orbit, as Sitchin claims?

COSMIC AWARENESS:

This Awareness indicates that this appears to be correct.

FOLLOW-UP QUESTION:

Launched from a sun, orbiting a planet, is that correct?

COSMIC AWARENESS:

This Awareness does not follow the wording. It appears that the planet has an orbit of its own. This Awareness suggests the question be repeated; it does not appear clear.

QUESTIONER:

It's the way she writes. She thinks faster than she writes, and you have to add in her thoughts inbetween. "Is their planetoid Nemesis launched from a sun or an orbiting planet of eccentric orbit as Sitchin claims?"

COSMIC AWARENESS:

This Awareness indicates that it is not actually launched from any place, because it is in constant motion. Its origin would be its launch-place or launching site, and in its present passage it is simply following its orbit. The orbit carries it close to the solar system which allows it to revisit

earth on a periodic basis of every 3600 years.

This Awareness indicates that it traverses or comes close to other suns and planets on its orbit and one could call this a launching, if it uses the energies of other suns to help turn it or hurl it back on its continuing orbit, but it does not launch in the sense of a rocket launching from a sun, or from a sun that is orbiting a planet. This is not seen as an accurate description

QUESTION:

Another question from J.J. "Are all races which have achieved at least our degree of intelligence and civilization upright bipeds?"

9. COSMIC AWARENESS:

This Awareness indicates this as negative. That even on your own planet, dolphins have achieved higher intelligence than human consciousness, but their construction of cities is not anywhere in sight, thus, depending on what you measure or use as a standard of measurement to determine the evolutionary level of intelligence will perhaps discount the dolphins.

If you measure the dolphins' level of intelligence by brain size or intellect alone, they surpass humans, but if you measure humans' intellect and value by their capacity to create structures, they would surpass dolphins. Thus, much of your question has to do with definitions that are not clarified as yet.

IS THE INFORMATION COMING FROM CRESTON VALID? (AWARENESS DESCRIBES LIFE IN THE VEGAS SYSTEM)

(C.A.C. General Reading, March 11, 1991)

OPENING MESSAGE:

This Awareness indicates that there is a certain energy in the consciousness of the Interpreter that needs some clarification in order to help in putting the entity's mind to rest; this is in regard to information received by the Interpreter earlier today from an associate who received a channeled message from his contact from the star system Vega. This Awareness indicates that this entity, an associate of the Interpreter, will be putting out information through the Aquarian Church and possibly through *Cosmic Awareness Communications*, if it is desirable, through a newsletter called *The Alien Digest*, based on 25 years of research into UFO sightings and information, and also from more recent contacts with his own home planet in the Vega system, through his contact known as Creston.

This Awareness indicates that the entity shared information with the Interpreter that came from Creston in a semi-dream state last night, and it has created a certain emotional disturbances in the consciousness of the Interpreter. This Awareness indicates that the matter concerned a statement by Creston that the Orion Greys are planning to move into the next phase of their world agenda on June 1st of this year, in which they will increase greatly the number of abductions of humans.

An Important Meeting on Vega Regarding Aliens on Earth

This Awareness indicates that this was disturbing to both the associate and to the Interpreter upon hearing this information. This Awareness indicates that the information is valid, and along with other information from Creston which was given at the time, whereby the Vega Group had an important meeting during the past month and has chosen, rather than to bring back their people from earth, they have chosen to support them, even to the extent of a possible declaration of war against the Greys, if that becomes necessary.

This Awareness indicates that this is a major event, and not something to be taken lightly. This Awareness indicates that the activities of the Greys in following their agenda as creating a greater threat to the masses on earth through these abductions, genetic experiments and the extraction of glandular substances. They also will be focusing on greater mind control with the intent of convincing entities to volunteer to be abducted, to volunteer to meet with them, and to volunteer to serve them in any capacity the Greys may desire.

This Awareness wishes to warn entities, such acts of volunteering for these experiments, genetic engineering and other uses, as that which will lead to great personal endangerment and contribute negatively to the human race.

This Awareness indicates that the genetic weakness of the Greys as that which motivates their particular actions in this regard. Their lifespans are becoming increasingly short and they seek to lengthen their lifespans by fusing genetically with humans, but they also seek to use humans to do their fighting against other humans when it fits their agenda to use military force to take control of the planet.

This Awareness indicates that it appears the Interpreter needed to settle his consciousness in regard to whether or not this information was valid that came from Creston. This Awareness suggests that the information is valid; that the entity Creston appears to be a trustworthy source in regard to the situation on earth with the alien presence on earth.

ED's Note: CAC has previously listed this information, but info on the "Alien Digest" can be obtained by writing: Alien Digest, P.O. Box 1116, McMinnville, Oregon 97128. (As of today, there have been 3 issues published on Creston's channeling).

THE VEGA SYSTEM: LET'S HEAR ALL ABOUT IT !

FOLLOW-UP QUESTION:

Can Awareness tell us something about Vega?

COSMIC AWARENESS:

This Awareness indicates that it draws much of its energies and philosophy from other highly advanced systems, focusing greatly on a governing system that evolved out of Andromeda. The planets associated in the Vega system are not named so much as numbered. They generally go by their location and are thought of in terms of their number rather than a particular name. Although they may have names, these names are not universally known, and the standard of addressing a particular planet is by its number, rather than by a name.

The Vega Council is capable of telepathically observing individuals in other planetary systems such as on earth. These entities have sent a number of their military types onto those planets of the galaxy that have become targets for takeover by the Orion Empire, The Network, or the Reptoid Federation.

The people, the common people of Vega are very similar in appearance to humans and have many of the qualities of humans, live in families and have certain organizational structures which may be considered as cultures or groups. They work in a kind of collective community volunteer capacity. There is not seen the use of money in their systems.

This Awareness suggests that the money system as introduced by the Orion Empire and this also on earth is the result of the Orion influence. This Awareness indicates however, that many in the Vega system trade services or things with each other. There is generally a kind of giving that takes place in the society whereby entities in the society are given a certain quota in terms of land, in terms of properties, and the communities often help each member of the community in a kind of sharing action, wherein homes are built and help is provided through granting of favors and charity of one member of the society to another or of many to one, or one to many.

There is a kind of mutual concern for each other which generates activity to help when there is a need in the society. This Awareness indicates that the reincarnation into physical form on other planets such as the earth by members from Vega is that which is strictly voluntary. There is no military conscription. It is simply a matter of volunteer activities, in which an entity may choose to be born on a particular planet, at a particular time, under particular circumstances in accordance with the greater Galactic Plan, to which Vega is a contributor.

This Awareness indicates that there are other systems that contribute to this galactic effort to free the earth and similar planets from domination by the Orion Empire and the Reptoids and Greys, since these types generally end up enslaving the masses on the planets, and the Galactic Confederation prefers to see planets that are more or less free from slavery. These then, when free from slavery, tend to be more inclined to trading with the Galactic Confederation and to further the commercial activities of the planet so that free travel and trade without conflict becomes available in regard to that planet.

THE VEGAS SYSTEM & ITS CAPABILITY FOR WAR

FOLLOW-UP QUESTION:

In the event Vega does come to the assistance of earth against the Greys, what type of capability for war do they have, and how important is it in the scheme of things?

COSMIC AWARENESS:

This Awareness indicates that it is a highly populated area. They are allied with the Pleiadians and those from Arcturus and with many from the Dog Star known as Sirius, and also with those from Lyra. This Awareness indicates that they have a strong influence in the galaxy as well as a great number of persons who are well trained militarily to do what they need to do.

The greatest concern they have is their concern as to whether there is sufficient commitment by entities to repel the Greys and Reptoids from the planet earth. They do not care to interfere if there is not strong alliance among earthlings with their efforts to help repel the Greys, the Orion types and the Reptoids.

In other words, they do not wish to upset an alliance between humans and these aliens, if the humans actually want such an alliance. This Awareness indicates that through careful study of those contactees whom they have sent to earth, they have concluded that their people would prefer to stay and fight against the intrusion of the aliens than to be rescued and taken back to Vega, and this has been quite convincing to them as to the value of the mission, and as to their adding more commitment to the mission to help free earthlings from their influence of the alien intruders.

They do have sufficient power to cause the aliens to retreat in fear when in their presence.

WHY ABDUCTIONS ON EARTH ARE INCREASING

FOLLOW-UP QUESTION:

In relation to more abductions in June, is this because...

COSMIC AWARENESS:

This Awareness indicates this is the start of an ongoing phase in the alien agenda. It will continue beyond June.

QUESTION:

Is this being increased because those with previous contracts are all implanted by now and they need still others so they will try to entice those who have not made contracts?

COSMIC AWARENESS:

This Awareness indicates that the alien Greys are especially vulnerable because of the inherent weakness genetically in their system, and they are growing more desperate to restore their genetic needs in order to survive. If they are unable to find the breakthrough that allows them to merge their genes with humans in a way that will restore their vitality and help increase their lifespan, they will not likely survive; that the time is growing short for this.

Premature Senility is Hitting the Greys on Earth

They are growing more desperate. They are experiencing what has been termed premature senility or rapid aging, in which they age very rapidly in comparison to humans, and cannot survive very long. It is for this reason that they are constantly seeking new energies for their cloning processes and trying to develop a system or method that will allow them to create within their genetic structure or modify their genes to become a new species that can live longer lifespans.

They are desperate and they do not care how many guinea pigs they need to take in order to find the answers they seek. This Awareness indicates that much of their problem stems from radioactivity in their cultural past which has made many of them sterile and incapable of natural reproduction and has weakened the genetic patterns of those who are used for cloning.

This Awareness indicates that essentially, the problem increases rapidly with each passing week and the dangers for them are so acute that they are willing to risk being seen, even involved in abductions openly, in order to get their human guinea pigs to work on their projects.

KEEPING ALIENS OUT OF YOUR LIFE

(Clark Kent's UFO Detectors a Possibility)

FOLLOW-UP QUESTION:

These abductions will probably be confined, as in the past, to those younger entities who don't smoke and drink and use coffee and so forth; is that correct?

COSMIC AWARENESS:

This Awareness indicates that the classifications used in describing these abductees as younger people who do not smoke or drink alcohol or drink coffee is not actually appropriate; that this was in reference to the alien desire to get certain glandular substances. That in terms of sexual experimentation, these particular qualities of behavior are not as important as when selecting abductees for glandular strippings, or the taking of glandular substances.

These abductions, dealing with genetic engineering efforts or the use of individuals for guinea pig-like experimentations, allows them to select many different types of people, not necessarily those who are more pure in their behavior and diet.

FOLLOW-UP QUESTION:

It would seem then, what entities really need is some way to detect these UFOs in order to avoid being abducted. There's an entity by the name of Clark Kent (no relation to Superman), who advertises in UFO magazines about some kind of device he sells and calls a UFO detector. Is this type of thing actually valid or is there something else Awareness could suggest that might help people?

COSMIC AWARENESS:

This Awareness indicates that it appears to have some benefits; that depending on the price, it may be worthwhile for entities to have the use of such an object in the monitoring of UFO activities. This Awareness suggests however, that if an entity is generally quite hostile in expressiveness toward the UFO that would be involved in abduction activities, the natives of that UFO would tend to avoid the entity if they sense this kind of hostility.

The reason being that they do not wish to encounter hostile humans aboard their ship for they are unpredictable and can cause injury and pain if they are hostile towards the aliens. The aliens prefer to pretend, this particularly the Grey aliens, prefer to pretend to be gods and to have humans worship them as gods, and when this can be accomplished, they like to keep their human followers in the position of worshipping them as some kind of idol-type being.

This Awareness indicates that therefore, if an entity feels oneself being threatened by abductions by UFO aliens, the entity should simply express rage and hostility and the aliens may choose to get the person off the craft. The best approach of course being to express yourself outrageously when on the ground rather than in outer space,

so that when ejected, you land on something solid and not too far away. 11.

HOW ABDUCTION FLEETS OPERATE

FOLLOW-UP QUESTION:

These aliens who abduct people into these crafts; is this some kind of floating laboratory? It seems to me that there would be a lot of duplication going on. Is this true, or is all of this experimentation going on in one large ship up there that's like a laboratory?

COSMIC AWARENESS:

This Awareness indicates that the organization by the Network is that which is monitored and controlled from the top down, and while there is some duplication between different ships, it is still more or less guided centrally so that each abductee or each project on the alien agenda is taken care of from a particular plan and monitored by the forces that supervise the settings.

The plans are often hidden so that even those who carry out the plans are not fully aware of their purpose or nature.

DID RUSSIA SELL THE U.S. A CAPTURED UFO?

(Our Welcome a Big Surprise to Friendly Aliens!)

QUESTION:

Paul S. writes: "This week's March 11, 1991, *Weekly World News* has an article on an alien spacecraft that came to land in the USSR. The Russians made the alien passengers or crew captive and sold the rather large craft to the United States for \$650 billion dollars. It can travel at 90,000 miles per hour and the U.S. Navy used it to gather intelligence on Iraq as well as to strike targets once war broke out.

He says: "This seems a bit far-fetched and I'd like to check it out with Awareness. The tilt of the article was it would make war unfeasible since it uses laser weapons and can melt tanks and so forth, down in a short time." Is there any truth to that story?

COSMIC AWARENESS:

This Awareness indicates that this is one of those very bizarre and unbelievable stories printed in the tabloids which has substance to it. This Awareness indicates that it appears that the facts quoted in the article were mostly true; that there was the purchase of a craft from Russia, and that it was used in and during the war with Iraq. This Awareness indicates that it appears the craft was used for spying and for helping to target certain strategic places.

This Awareness indicates that it was considered highly valuable to the U.S. because it was fully operational, intact and easier to maneuver than other craft which they have gotten from the Greys. This craft did not come from the Greys, but came from other beings.

FOLLOW-UP QUESTION:

Is this the same UFO craft that supposedly landed in a park or somewhere in Russia near Moscow a few months back?

COSMIC AWARENESS:

The craft as that which was described as having been confiscated along with the crew.

FOLLOW-UP QUESTION:

I believe the aliens in that one were the tall Nordic looking Greys, I believe.

COSMIC AWARENESS:

This Awareness indicates that it appears these were blonde types, Nordic types in the description of some; that they were not described as Greys.

FOLLOW-UP QUESTION:

Well, this craft described in this March 11th story that landed, evidently peacefully, these apparently were friendly aliens rather than malevolent aliens. Is that correct?

COSMIC AWARENESS:

It appears these entities were essentially friendly, seeking to make contact. The response to their arrest was that of surprise to them. The confiscation of their craft was also a major surprise to them.

FOLLOW-UP:

That price of \$650 billion dollars....

COSMIC AWARENESS:

This Awareness indicates that this was \$650 million dollars; that the entity apparently has misquoted the price. It was approximately two thirds of one billion dollars paid for the craft.

A STORY ON HOW ALIENS USE MIND CONTROL

(Weird Goings-On at the Monroe Institute)

QUESTION:

We got a letter from M.G. in New Jersey. There's a couple of questions in it. I'll read his letter. It makes more sense. He writes: "I teach basic Astrology and Psychic Phenomenon at a local High School's adult evening classes in the fall and winter. One of my students gave me the 'Nightmare Hall' issue. After reading it, I couldn't get a good night's sleep for three nights. I copied it and passed it on to others who need to know, and I joined your organization. I've distributed 85 copies of the long 'This May Save Your Life' summary sheet you sent, and have given it to both classes as well as everyone who will take it. I even sent a copy to friends in Greece. Thank you for composing that. I've also showed the Cooper video to over 100 people already. I'll be showing it at a seminar in April, as well as handing out your summary.

So many people, many of whom should know better, only want to know the nice flowery stuff and they panic when a Reptilian shows up with a knife and fork. The alien material is so vital and we must continue to be informed. Of course I'm sure some of your membership are government/alien plants who write you to try and discourage your bold and revealing information. Please don't be swayed by the rose-tinted glasses crowd or others who try to get you to cease this and deal only with 'nice' stuff. We all need this information.

I have some questions. If they already have been asked, please excuse me for being new to your membership. I have been to the Monroe Institute's Gateway and Guidelines Programs. Monroe wrote "Journeys Out of Body" and "Far Journeys," as you probably know. The Institute he operates in Faber, Virginia, was set up with an alien guidance and pillars of energy were placed in certain areas on the property. I have seen, as have others, these aliens who are guardians of the Institute, although they seem out of phase with the physical. Are these aliens from the Pleiades or elsewhere? While in their isolation booth, I was experimented on by aliens who looked like the Dulce group. They said they wanted to find a way to synthesize emotions and used a beam to generate sorrow in me. They tried to get me to fear as well by using images. They failed at fear and were surprised when it failed. Another alien (different) came in, argued with the experimenters and threw up a net-like barrier that cut them off from me. I sensed a strong, loving vibration from my rescuer. Can the Awareness comment?

COSMIC AWARENESS:

This Awareness indicates that it appears the aliens were playing the good cop/bad cop scenario for your benefit; that the second alien who rescued you as one who was seeking to create a relationship with you that could be used for further manipulation according to their mind control efforts. It appears the entire activity was that which was designed to influence and control your consciousness or control your mind to some degree.

This Awareness indicates that it does not seem that they had perfected their experiments effectively enough to have much influence on you, however, it does appear that they have developed sufficient techniques to help establish a program of mind control that can be effective under certain circumstances. These circumstances, however, are quite limited.

FOLLOW-UP QUESTION:

This information that the Institute was set up with an alien guidance and pillars of energy were placed on certain areas on the property...he says: "I have seen, as have others, these aliens who are guardians of the Institute, although they seem out of phase with the physical." Are these aliens from the Pleiades or from elsewhere?

COSMIC AWARENESS:

This Awareness indicates that they do not appear to be from the Pleiades. The entities appear to be those who were born on earth as half-breeds, having some human qualities.

QUESTION:

His letter goes on: "The Monroe Institute has a few former military intelligence officers working for them in key positions. They refuse to discuss any alien matters. Are they government plants?"

COSMIC AWARENESS:

This Appears to be in the affirmative.

WILL CHANGING OUR BELIEF SYSTEMS END THE REINCARNATION CYCLE?

QUESTION CONTINUES:

"Monroe states we are incarnated for learning emotions and experiencing numerous situations connected with them. He states belief systems, including the owe/pay system of karma is a tool used to keep us reincarnating. Once we get off this wheel, we can break this cycle." Would Awareness comment?

COSMIC AWARENESS:

This Awareness indicates that it appears the philosophy as that which is accurate in some cases, depending on if the entity breaks free from the wheel. It has more to do with an entity's expanding awareness than with any particular behavioral activity as to whether an entity will continue reincarnating or will move on into other realms and destinies beyond the physical.

FOLLOW-UP QUESTION:

I've read this before, that the reincarnation cycle is a tool used to keep people from returning to the Godhead, and if they once quit energizing the idea of reincarnation, that they could break free of this cycle. Is that true?

"The people here are non-aggressive and suffer from severe incontinence."

COSMIC AWARENESS:

This Awareness indicates that it is possible for entities to move beyond the creation of karma, and thus prevent or reduce the energy of reincarnation so that they move on into other dimensions toward greater freedom. This Awareness indicates, however, that it being possible, is not always actual; that by reducing one's karma, either through altered behavior or through a change in consciousness, entities can help break themselves free from karmic repercussions and can move into higher vibratory states by not carrying those karmic energies with them. This can assist in freeing the entity karmically so that the vibrations and frequencies are diminished, because of the greater emphasis on avoiding karmic behavior and activities.

WHICH OCCULT AREAS ARE ALIEN-CONTROLLED? (Satanism and Witchcraft are Alien Connected?)

QUESTION:

M.G.'s letter goes on here. Comments made about witchcraft and the occult are guided by the aliens. Satanism is an obvious evil, but occult includes everything from astrology to channeling to Satanism. Most people confuse Wicca and witchcraft with Satanism. Then there's black and white magic. Has this been clarified,--which areas of the occult are controlled by aliens?

COSMIC AWARENESS:

This Awareness indicates that much of that which is associated with Satanism has a strong inertia from the alien influence; that the areas of witchcraft generally are more free of alien influence and are based more on tradition. This Awareness indicates that the witchcraft activities also tend to deal more with spirits and the spirits of witches or spirits of the dead, rather than alien energies.

This Awareness indicates that there are also those energies associated with nature that are frequently touched and used in the witchcraft activities. This Awareness suggests that these energies associated with witchcraft are generally of a negative or nonhelpful energy to the individuals.

THE SCHOOL OF WICCA: WHAT'S GOING ON?

QUESTION:

He has a few other questions here. He writes: "Gavin and Yvonne Frost operate the worldwide School of Wicca. Yvonne is a Mensa woman and Gavin worked in the aerospace industries in California. Both quit their jobs to organize The School of Wicca. They do teach the use of Vril and instruct how to make Vril sticks (wands). They do stress "harm none," including yourself. Can Awareness comment on them or their organization? Is this alien backed as well?"

COSMIC AWARENESS:

This Awareness indicates It does not see any particular influence from alien technology or alien beings. It appears the energies are those that make use of psychological qualities, including, but not limited to hypnosis or self-hypnosis and other mental suggestive forces to alter the consciousness of individuals for some purpose or meaning associated with the ritual.

It appears the techniques used are in accordance with psychological understanding of the mind, but tend to go beyond the normal expectations of a typical mind. The activities appearing to seek control in order to manipulate and influence energies for gain.

ARE ALIENS 'FRIENDLY LITTLE FELLOWS'?
MAYBE YOU SHOULD EXAMINE THE EVIDENCE

CLOSING MESSAGE:

This Awareness indicates that the entities who choose to believe that all aliens are friendly little fellows tend to argue that those who believe in hostile aliens have seen too many science-fiction movies about hostile aliens and are therefore, naive. This Awareness indicates that one needs to keep one's mind open, and even if you believe that most of the aliens, or all of the aliens are friendly little fellows, do not deceive yourself into thinking that because you reject one argument which you believe is based on fallacy from having seen too many UFO science-fiction movies, that your summation that the fellows are friendly little guys who want to do nothing but make your life more comfortable, is consequently the proper answer, for just because you don't buy one argument, does not prove that your other argument, or the opposite, is necessarily true.

(Examine the Evidence, Not Your Preferences)

This Awareness suggests you go by the evidence, the stories from abductees, and you will find a greater correlation from actual stories than if you simply make assumptions or reject stories by presuming the opposite.

This Awareness indicates that there are many who think they have an open mind because they reject one side of the argument and accept the other side. That is not evidence of an open mind. It is simply evidence that you bought into one side of the argument. The question is whether you have a good reason to buy into that side of the argument, or whether you foolishly accepted it.

You must examine the evidence, not your preferences.

This Awareness suggests the Interpreter be brought from trance.

ULTRAVIOLET AND BLUE RAY DAMAGE TO EYES

QUESTION:

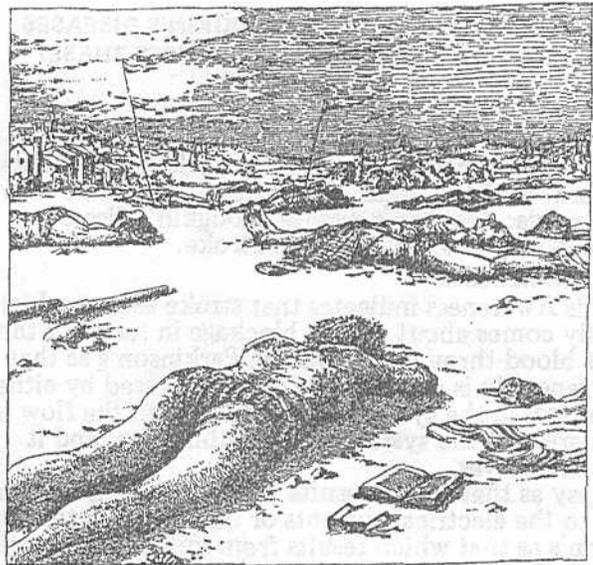

A question from Dr. J.P. in California. He writes: "I believe this to be a question about which many of your subscribers would be interested, perhaps vitally concerned Years ago, there was no warning about effects of ultraviolet and perhaps blue rays upon the eyes. Lack of warning now catches up with many seniors. Eye specialists say ultraviolet and perhaps also blue rays exposure over a period of time cause not only cataract, but also eventual progressive damage to the receptors at the back of the eyes, which means progressive loss of the sharp vision necessary to be able to read and drive a vehicle, etc. There is no known cure. The question is: what, if anything, can be done about it?" Then he adds a P.S: "I am aware of healing procedures, such as 'As ye believe,' helpful prayers, and so forth, but the world is filled with those who cannot do those things successfully and they must rely upon more mundane methods, so my question needs a mundane answer."

COSMIC AWARENESS:

This Awareness indicates that the act of prevention is that which must be seen as the solution to avoid such problems as this.

This Awareness indicates that there are, of course, certain glasses, sunglasses, which help to filter the ultraviolet and blue rays from the sun. These may be worn especially on bright days. This becomes a greater problem now that the ozone layer is being depleted. There was a time when these things did not matter nearly so much, wherein entities grew older and still maintained good vision.

This Awareness indicates unfortunately, many entities have already lost much of their good vision, and there is little that can be done to reverse this kind of damage to the back of the eye when it has happened.

Summer's Battlefields

This Awareness indicates, however, that in some instances, it is not so much the damage to the eye that is causing the poor vision; it is more of the inactivity of muscle that is needed for focusing properly; and this can be helped.

This Awareness indicates that, of course, one can simply get stronger glasses, or have contact lenses, or have certain operation on the eye lens to focus it more, for its proper alignment, but this Awareness is not referring only to those artificial methods.

The Dr. Christopher Eyewash

This Awareness indicates that the entity Dr. Christopher as one who developed many herbal techniques, using herbal compounds that he learned from schooling and which originally came from Indian Medicine Men and from other sources down through history, and this entity put in his book much information on the use of these herbs.

This Awareness indicates that he has an eyewash formula in his book that helps to remove toxins from the muscles around the eyes, so that the muscles then can regain their original flexibility and focus properly, and in many cases, this will assist the entity in restoring proper vision, providing the damage is not real, in reference to that in the back of the eye.

This Awareness indicates that in any case, the use of this eyewash as being helpful to better vision, and/or to better relaxation of the eyes, and cannot harm the vision through its use. It is likely that there will be some improvement, even if there has been some permanent damage to the eyes, due to blue or ultraviolet light.

This Awareness indicates in many cases, it can even return complete, perfect vision to entities.

ED's Note: It appears the Dr. Christopher eyewash which used to appear in his catalog, has been taken off the market. However, our local healthfood store informs us the same formula is available in the Dr. Christopher Eye Remedy now being sold in capsule form. Instead of swallowing the capsules as stated, you cut the capsules open and dump the contents into a glass of distilled water. This creates the original eyewash which Dr. Christopher formerly sold.

Like the original, the capsule contains red pepper, which can be applied directly to the eyes without problem, strange as that may seem.

The formula is marketed under the name 'Herbal Eyebright Formula,' by Nature's Way Products, 10 Mountain Springs Parkway, Springville, Utah 84663. Write for their Nature's Way Healthcare Catalog. It's free. Or call 1-800-489-3635.

PARKINSON'S, ADDISON'S, HODGKIN'S DISEASES
EPILEPSY AND STROKE: WHAT CAUSES THESE?

(Will Massage Help?)

QUESTION:

E.J. has a couple of questions. She's into body massage. She wanted to know if the following diseases are disorders of the brain, or do they all originate from the neuralgia: Addison's disease, Hodgkin's disease, Parkinson's disease, epilepsy and stroke.

COSMIC AWARENESS:

This Awareness indicates that stroke as that which generally comes about from a blockage in terms of the flow of blood through the system. Parkinson's as that which generally is triggered by damage caused by either heavy metal in the system or disturbance to the flow in certain areas of the system, or a combination, and it affects the nerves.

Epilepsy as that which results from a short-circuitry in regard to the electrical currents or odic force in the system. Hodgkin's as that which results from imbalance in regard to certain functions in the metabolism, and also this resulting in having effects on both the brain and the neurological system.

Addison's appears to be the result from damage to the neurological system. It also appears to have some genetic origin, along with changes that occur in regard to an entity's metabolism. This based partly in terms of aging, and partly in terms of environmental disruptions to the balance of the metabolism, such as toxins in the sytem, as well as effects on the flow of energy, the odic force, and its currents through the meridians.

This Awareness indicates that both Addison's and Parkinson's, as well as the epilepsy, can be helped considerably with acupuncture treatment. The removal of toxins from the system can be beneficial for these also, and also for Hodgkins.

FOLLOW-UP QUESTION:

She wanted to know is massage of the cranium and/or cervical plexus, or where, helpful?

COSMIC AWARENESS:

This Awareness indicates that this can be helpful in the sense that it can improve the circulation in these areas, and in some instances, wherein acupressure is used in conjunction with the flow of the meridian currents or the odic force; if this is done properly, this could also be beneficial. It would take one who is trained in acupressure or acupuncture to know which points are most beneficial in regard to these energy currents and the proper flow. But the cranial massage can also be beneficial, in that it can assist in enhancing the circulation in these areas and this, by bringing new energies into the areas, can be beneficial in a limited sense. It is not seen as being something that would bring about a total cure in most cases, although for some, there may be a near-complete cure, particularly if the entity's situation is not extreme.

This Awareness indicates the massage may be most helpful in regard to Addison's and also to epilepsy, depending on how the massage is administered.

HOW TO DEAL WITH A STROKE

(More on the Value of Chelation)

FOLLOW-UP QUESTION:

She has another question: When someone has had a stroke on the left side, and the right side and speech is affected, is there any method that would improve the person's rehabilitation?

COSMIC AWARENESS:

This Awareness indicates that the chelation treatments wherein EDTA is placed into the blood stream to cleanse the circulation throughout the body, allowing fresh blood to circulate, can totally, in some cases, reverse the effect of stroke, if it is caught soon enough after the stroke. The longer a person waits, the less effect it will have; that there can be complete or near-complete remission in the event the chelation treatments begin directly after the stroke, within weeks or days, depending of course on the severity of the stroke and also, even with severe stroke, there can be considerable improvement; and even when the stroke is not treated immediately, there can be improvement, if chelation is administered for a long enough period of time.

This Awareness indicates that in lieu of chelation, one can also take certain substances orally, such as the EDTA substance Lipex, and zinc and Vitamin E, C, and those noted for helping to remove cholesterol from the system, the EPA substances, and these can be beneficial. They are not as effective as the regular chelation treatments.

This Awareness indicates that anything which improves the circulation will assist in the reversal of the effects of stroke, and the sooner administered, the better. And the most dramatic is that of the chelation.

HOW TO DEAL WITH BOREDOM AND DEPRESSION

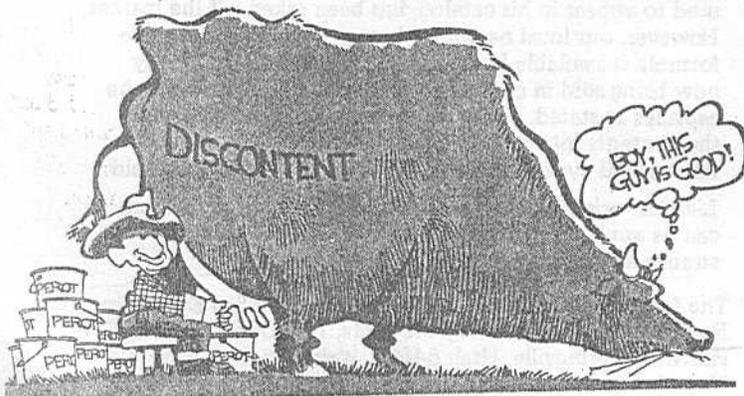

(Opening Message, C.A.C. General Reading, March 9, 1988)

This Awareness wishes entities to consider that which is boredom. This Awareness indicates there are many entities who experience that feeling of boredom in their lives; that this is associated with depression and discouragement. This Awareness wishes entities to consider this, especially if you are yourself experiencing boredom or you know others who are experiencing boredom. This Awareness indicates that any entities who experience boredom will also find times of being depressed and discouraged. This Awareness suggests that these are very hazardous to a happy life.

This Awareness wishes to assist entities in understanding how to deal with these emotional problems, the feeling of boredom and the feeling of depression, for they go hand in hand. This Awareness suggests that you cannot be bored and you cannot be depressed unless you are inactive in some ways, or the activity is not something you yourself desire to be involved in. This Awareness suggests therefore, that entities who are experiencing either the feeling of boredom or of discouragement, or that feeling of depression, should consider finding some outlet in the form of an activity that is of interest to them; something that they have perhaps have always wanted to explore, but never really saw a need or urgency to do so, or something which perhaps they wanted to be involved in, in terms of group involvement, working with others on some project, but felt perhaps they would be rejected or did not have the time, or could not find a good excuse for such unimportant involvement.

This Awareness indicates that many times entities would like to do something, but they feel it would interfere with more important things. This Awareness indicates that it is during times of depression or of boredom that these things can be very meaningful and beneficial in your life, and that if you move out into some area which is of interest to you, but which you normally would not be involved in, you will find a new energizing to your life.

This Awareness suggests there is no excuse for being bored, when there are always ways to get out and do something. This Awareness indicates that there are many entities who

are isolated, who have little contact with others at a distance, or if there is a neighbor or friend, perhaps the entities live miles apart. This Awareness indicates there are some areas where entities have no neighbors for several miles, and perhaps they do not have much in common with those neighbors, and to find a cultural outlet for exploring things of interest may require that they drive many miles to another town.

This Awareness indicates that even in such instances, entities can always buy or order books or videos or tapes, or something that can let them explore and study those things which interest them. This Awareness indicates that even if this is not a possibility, there are always little ways to fill the day with interesting things, such as some kind of handiwork or artistic pursuit, or cultural studies; things that can be of benefit such as sewing or knitting or creating, building, making some kind of home-made object which could be sold, which could be given as gifts, or which could be donated to needy people, or something of some kind whereby you enjoy doing something, and find a way to express the need to become active.

This Awareness indicates that perhaps there is something you have always wanted to create in terms of invention, and when you are bored, it is time to take action of some kind. This Awareness indicates that you cannot remain bored, you cannot remain discouraged and depressed when you are involved in a new activity. This Awareness indicates that for those who are closer to cultural outlets, such as in a large city, wherein you are also more able to meet new people; these are extremely stimulating opportunities whereby boredom can be easily overcome, by simply going into a class, a study group or an arts and crafts activity, or starting a new business, or meeting with individuals who have a similar common interest in something.

This Awareness indicates that where you can challenge the mind and explore new things, study something that is different, something that is of interest to you, wherein you can explore, search and discover and express yourself, this will overcome those feelings of depression, those feelings of boredom. This Awareness indicates it can lead to a new experience, a new beginning in your life. This Awareness suggests also that bringing in new people, going out and making new friends, with someone who is perhaps quite different than you yourself, can be of considerable value.

This Awareness suggests that entities often lock themselves in to a clannish little group, perhaps based on relationships or some family ties, or perhaps based on philosophy. This Awareness suggests that it is often very stimulating to meet someone who is out of your particular identification grouping, who has a philosophy or religion quite different from yours, and whereby you can sit and compare and discuss things to see where each other agrees and differs and defines areas of interest in each other's philosophy. Awareness indicates it can be quite stimulating to have a friend who is actually much different from yourself.

This Awareness suggests, of course, you need to have compatibility in order to have good friendships. The compatibility needs only be on personal level and not necessarily does it need to be in a philosophical sense. This Awareness indicates that considering all of the activity and opportunities and life that is teeming on this plane, there are so many things that are alive; even if there are no people around, you can make friends with the elements of nature, make friends with animals and plants, and there can be so much to stimulate an entity's interest, there is truly no excuse for sitting around being bored or being depressed, when there is so much out there that can serve as a friendship or an interest to you.

OH, NO!

OH, YES!

OH, MY GOD! THE BRAIN WORMS ARE COMING!

QUESTION:

The January 1st, 1991, *Weekly World News* has a story I'd like to read and see if this is fiction or it's something entities need to worry about. They write:

The deadliest threat to American health since the onslaught of AIDS is the Oriental Brain Worm, terrifying new reports now warn. Transmitted to the human body from microscopic larvae on unwashed vegetables or edible snails, the deadly worms fatten, grow two inches long and burrow into the brain.

The worm-called *Angiostrongylus cationensis*- has killed countless people in the South Pacific and Southeast Asia, according to professors at Tulane University's School of Public Health and Tropical Medicine.

It was discovered for the first time in the continental United States several months ago.

The worms go to the brain and die there. Their presence produces an inflammation of the meninges, the covering of the brain, the experts say.

The victim feels tremendous pain from an increase in the pressure of spinal fluid. He has severe headaches. If he survives, he can have lasting damage.

The parasite was first found in the United States in rats which swarm over the wharfs of New Orleans.

Rats carry the worm in the early stages of its development, passing it on to land snails and slugs which contract it from eating rat waste.

The parasite reaches man in its larval stage when tiny slugs are accidentally eaten with unwashed vegetables.

Sometimes edible snails are eaten uncooked when cooks taste them to see if the seasoning is proper.

While deaths from the bizarre and deadly parasite are fairly common in some regions, America has reported only one death attributed to the animal.

In 1961 a man in Hawaii died from the parasite. Doctors found out what he had after he was dead. The autopsy revealed the worms in his brain.

He was an oriental gardener and no one knows how he got the parasite according to the scientists.

Now the worm has been found in Cuba and Puerto Rico and other countries in this region. The discovery in New Orleans marks the first time it has been found in the continental United States.

That's the end of the article. Does this brain worm actually pose the threat they imply here, or is this more typical tabloid rhetoric?

PSYCHIC PROPHECIES

PSYCHIC PROPHECY WILL REVEAL THE ANSWERS TO YOUR MOST BURNING QUESTIONS OF THE FUTURE

COSMIC AWARENESS:

This Awareness indicates that it does present a potential threat; that it is something to be aware of and to consider so that entities are aware that in the preparation of food, the vegetables be cleaned properly, and particularly when the vegetables are to be eaten raw. This Awareness indicates that it is not advisable in other words, to cook or eat vegetables purchased from the store or from your local gardener without first washing the vegetables thoroughly.

This Awareness indicates that it does not pose a significant problem at this present time because it is not yet widespread, but there is nothing to keep this from becoming widespread since entities travel freely throughout the country and entities can carry this themselves or it can be carried through animals and other creatures, as well as fruits and vegetables. It could, in a few years, become a major problem.

FOLLOW-UP QUESTION:

The supermarkets nowadays have a very impressive line of particularly exotic fruits flown in from various other countries. Could this be one of the main reasons why this brain worm parasite could spread rapidly?

COSMIC AWARENESS:

This Awareness indicates that this could be a major cause for the spreading; that there are fruits brought in from the South Pacific and from various regions of the earth, and in many cases, entities purchasing fruit from the supermarket do not peel or wash the fruit before eating. This Awareness indicates that even in the act of peeling, the larva could be transferred onto the peeled part of the fruit without the entity being aware. It is suggested that even in peeling, the fruit be washed after such peeling,

AMERICA: NOW AT A HISTORICAL TURNING POINT

(From a C.A.C. General Reading, May 15, 1992)

OPENING MESSAGE:

This Awareness indicates that in the coming months entities will be bombarded with election campaigns and conventions and something new in politics, the independent candidate Ross Perot and his elected or his appointed running mate. The year will become very different from previous campaigns and elections in that the American people will be reintroduced to the United States as it has been defined to earlier generations.

These definitions, so commonly understood by earlier generations, have been lost in the past four decades whereby as the independent candidates run for office and the new generations of Americans become familiarized with the concept that they are the owners of the country and that the candidates are but their servants, and that the government works for *them*, and not the other way around, a totally new attitude is likely to spring up in this nation to give hope to the masses of a new kind of freedom that has not been fully felt for several generations, which was known in the Forties and to some degree even in the Fifties and prior, but which in the more recent years, especially since the Kennedy assassination which brought home to the people that they no longer counted and that those in charge were in charge of the masses; this new realization that can emerge during the summer and early fall, prior to the election and perhaps following the election, may become the most significant event in this latter half of the 20th Century.

This Awareness suggests entities watch carefully for this new kind of campaign that stresses the fact that the voters have ownership of the country and that the government merely works for the voters to manage in their behalf. This Awareness indicates that this is of extreme significance at this time and may be the most important turning point in this nation since the Civil War; this in reference to the nation's destiny.

It depends of course, on the outcome of the election, but even the education that occurs during the campaign will have a profound effect on the thinking of the youth of the country, of those born after World War II.

WILL ANYTHING RESULT FROM THE "EARTH SUMMIT"?

(Thin Ozone Areas Can Create Skin Cancer for Sun Bathers)

QUESTION:

A question from J.K., Bradford, Mass. "Is there going to be any positive outcome to the 'Earth Summit' being held in Brazil in June of '92? The United States and other industrialized governments are not planning to participate. The hopes and expectations have been reduced by environmental groups as time draws near. Can Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates that it appears that the United States will be represented by the President George Bush on a brief visit, this because it has been agreed that there would be no discussion of the high pollution levels of the United States that is part of the concerns being discussed at the environmental meeting. With that being agreed to, the President agreed to attend.

This Awareness indicates that the industrialization of various nations and their high pollution to the world conditions is a major concern that may not be addressed, or if addressed will not receive great publicity in those more industrialized nations, and the nations that are emerging, such as those which are often blamed for the environmental problems, such as Brazil, in cutting its rain forests and other countries; these countries will use as an excuse, that they should not be blamed for environmental problems, if the industrialized nations who are high polluters are not held to blame for the environmental concerns.

This Awareness indicates that it is possible that some good will come from the meeting in terms of the rain forests. It is possible that some good will come from the meeting in terms of keeping the seas more clean in dealing with the dumping of toxic and radioactive wastes, but it is seen that the meeting itself, other than spreading information about the seriousness of the conditions, will not actually result in many direct changes at this time.

A Caution for those Seeking Sun Tans this Summer

This Awareness indicates it may, however, set the stage for future meetings that are more productive. This Awareness indicates *It* sees a great concern being expressed about the ozone layer which needs immediate attention and which may even already be too late in coming. This Awareness suggests that entities should be made aware that the ozone depletion has moved down into the tropic zones so that exposure to the sun during this summertime can cause skin cancers and cataracts in areas where the ozone is thin, so that the masses may be subject to increases in these ailments.

This Awareness suggests that entities during this summer of '92 should be most careful about being outside, even on cloudy days, for the ultraviolet rays can come through those clouds and unless entities are covered with sun-screen and sun-blockers, such as hats or shade from trees, they may find that skin cancer or cataracts is the result. There will be many who will seek the sun for sun tans, and these entities are simply flirting with dangers. The little children should also be guarded against the sun's rays during this summertime. This is a very serious situation and entities should be made aware of the ozone levels in their particular area. This can be obtained through weather reports and the climate forecasting agencies.
