THE WEB OF CONSPIRACY: ITS ORIGIN
(Bringing it All Back Home)

TO PREVENT THE FINAL ACT FROM HAPPENING:

A New Script for Humanity

FROM COSMIC AWARENESS

(THE MARK OF THE BEAST): MUST THE FINAL ACT OF THE DRAMA BE PLAYED OUT ON THIS PLANE?
LIKE A THIEF IN THE NIGHT, COSMIC AWARENESS HAS COME, OFFERING A NEW SCRIPT

(THE WEB OF CONSPIRACY: Back to the Beginning)

WHEN DOES THE COSMIC AWARENESS INFORMATION
CEASE BEING SPIRITUAL AND BECOMES POLITICAL?

QUESTION:

Awareness, some of the "spiritual" groups have suddenly become upset with Cosmic Awareness messages that have warned of attempts and conspiracies to set up a world dictatorship and bring about that computer control by the bankers which Awareness calls the "Mark of the Beast Movement." There was one particular message in which Awareness mentioned the names of the Rockefellers and the Rothschilds and their banking systems as being key members of this conspiracy against the people of the earth. Some of the groups feel that this kind of information is more political than spiritual and should be withheld. Would Awareness comment on this?

COSMIC AWARENESS:

This Awareness indicates that wherein the spiritual life is being threatened, wherein life itself is being threatened with extinction upon this plane, wherein thousands already are threatened with death and suffering from plutonium poisoning and radiation which has escaped from improper deeds and storing in Fort Knox, and which tragedies will be attributed to 'swine flu' in an effort to cover up the misdeeds that led to the plutonium storage and leakage, wherein souls of entities are being captured and tormented and threatened with degradation and slavery in servitude to the Beast, wherein forces are in control upon this plane which manipulate not only the economies, the physical health, the emotional health and the mental health of entities through programs that are designed to create nations of zombie slaves of the greater percentage of humanity, wherein this kind of energy is at work the situation moves beyond political concerns into spiritual urgencies, and the fact that certain parts of these forces have gained an amount of control in political levels does not have anything to do with nulifying the spiritual reality of what is happening on this plane.

This Awareness indicates *It* does not take sides in any dispute, for all entities are part of the body of this Awareness; all souls are cells within this Universe, and this Awareness recognizes all crime, regardless of the magnitude of the crime, as being but a type of illness. This Awareness would heal the afflicted parts of *Its* body, and would not cast out any part of *Itself* in order to save the healthy parts, for this Awareness does not exclude anyone from the feast of life.

This Awareness indicates that in order to heal any affliction, the first step is to look deeply enough to recognize that there is actually an affliction that needs to be healed. This Awareness is having difficulty in getting entities to look closely at this affliction, for most would prefer to continue pursuing their own particular 'hustle,' their own particular means of bettering themselves in their narrow personal view of the world. This as likened unto entities on a sinking ship arguing over who gets to drink the last martini, or who gets to sleep in the upper bunk.

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

Why a Healing Must Come First

This Awareness indicates that those who fear to look at what is happening on this plane at this time are as irresponsible as the man who, being told of a cancerous condition in his wife's body, simply turns from the doctor and says, "If you can't say something nice, don't say anything!"

This Awareness indicates there is much good awaiting every entity on this plane, including the Rockefellers and the Rothschilds and their associates; for these are also children of this Awareness and are loved as deeply as any other child of this Awareness; but there are certain problems, certain illnesses which must be looked at and healed before any of these blessings can be enjoyed, and it is premature to even consider planning a more beautiful world until the present situation is seen in its reality.

This Awareness does not wish to see any more suffering upon this plane, for this Awareness has watched this dreary tragedy of war, sickness, sorrow, hostility, loneliness, loss, frustration, unbearable agonies and tragedies leading unto death and beyond into continued re-runs of the same old dreary show, with each new setting, each new generation; and this Awareness has watched this insipid story for eons of time and has grown weary of the cries of agony, the tears of sorrow, the wails of the dying; and this Awareness comes now to ask that entities live in a new way, with a new script worthy of the dignity of the children of gods, from whom you all descended.

This Awareness will not prevent entities from continuing to suffer and to tolerate the suffering of others if this is your determined will, yet this Awareness shall show those who have eyes to see, and ears to hear beyond the ordinary senses, how this may be avoided. And this Awareness suggests that even those who harm others would prefer not to live in that manner, and would prefer to be cast in a different role or lifestyle if only they knew how to make the change from one reality to another.

This Awareness would, if entities were to surrender their own separateness and personal games, move all entities back to their source as co-creative members of the Divine Creator, but can only do so as entities surrender into this Awareness and learn to respond to the needs of one another.

This Awareness asks that you serve one another, for this Awareness needs no service, no praise, no glorifying, no sacrifices; yet there are those upon your plane who do need your services and your assistance in understanding how they may help themselves and heal themselves.

A Great Force is Moving Across this Plane

This Awareness indicates there is a great force moving upon your plane that is little understood by entities and may be likened unto a storm in consciousness, blown in from the psychic sea of the Fourth Dimension, that transcends time and space and moves in from ancient times of Atlantis and into the present moment. It is ready to be calmed, if that is allowed by the collective consciousness of entities upon this plane, or is ready to wreak havoc if that is what it takes to complete its action.

This Awareness indicates this force, this programming, is likened unto a type of linear programming that has reached through thousands of years, by which entities were polarized as programmed parts of an incredibly complex and massive computer system called "Civilization", wherein the script was written thousands of years ago, and historians of today are only as reporters and reviewers of that play, that dramatic epic that has played for thousands of years upon this stage called Earth.

How the Programming Began

This programming, which began with that ancient priestcraft in Atlantis, was designed to create division in consciousness, to create divisions of superior and inferior levels of rank and hierarchy. The rank of the priestcraft being programmed in a manner to allow them to retain power over the masses as they progress from one generation to another, from one incarnation to another. This action, wherein six million entities were mummified and strategically placed in certain areas of the earth to create a maximum of polarity within the earth's forces, in an attempt to create that division of consciousness on many levels, in an attempt to create certain wave length and a hierarchy system of vibrations, in an attempt to create layers upon layers of different vibrations which could be managed by these priestcraft rulers, in their control and understanding of consciousness and power, allowed them to manipulate masses for eons of time upon your plane. These were the followers of Baal, and were representative of Rhyee, that force which was the original separateness, and which has more recently been called by the name of Lucifer.

These priestcraft rulers understood the action of the mind and its structuring mechanisms so well, that they not only structured civilizations and societies patterned after the mind, but even perfected the mechanisms whereby they could project these patterns down the corridors of time, creating civilizations and events even unto the present era.

This Awareness indicates this action which began some sixty thousand years ago, reached its height of power about twenty-five thousand years ago and began to lose its power approximately ten thousand years B.C. after Ra-Ta set about a counter-action, a counter-force of greater power to reverse the trend toward the previous accumulations of power. This occurred at the beginning of the Virgo age as the forces of anti-matter began to wane during the approaching dark cycle which has dominated the earth for these past 12,000 years.

This Awareness indicates the action of Ra-Ta and the builders of the Pyramid and Sphinx in ancient Egypt were designed to offer a greater attraction, a greater power than those of the Atlantean priests, and once the seekers of power were caught up in the Egyptian power, they were led along a path that brought them not only to power, but that enlightenment and realization that power was not the answer to the cravings of the appetite. In this action, many followers of Baal, of Lucifer, were brought back into the Law of One.

This Awareness indicates that Edgar Cayce, the reincarnated spirit of Ra-Ta, opened the doors for the flood of consciousness upon this plane, to allow that force to begin moving from that Fourth Dimension into this present time. In this action, the Lucifer, the Rhyee, the personification of that first separateness, was given an opportunity to tap into this ancient power that began in Egypt, and in so doing, was drawn unwittingly into states of Awareness that led back to the Law of One, and this Awareness.

This Awareness indicates that force known as Lucifer is now being drawn out of consciousness and moving into Essence. The Head of the Beast, the original separateness, has already returned to Essence. Only the organs and body of this remains upon your plane, and must, in time, follow also into the return to Essence.

Why Awareness has Come at this Time

This Awareness indicates all present attempts to pursue and maintain power and control over others are but creating structures that will inevitably be converted into systems designed to serve the people rather than to enslave them; yet, it is a matter of *when* this will occur, rather than *whether* it will occur. It is for this reason that this Awareness communicates with entities at this time, and it is for this purpose that entities need to look closely at what is occurring on their plane, for these energies are a potential force that may be used for good or ill at this time, even as a wind may be harnessed for service, or may wreak havoc.

This Awareness indicates any good computer programmer can understand the programming system used in Atlantis and Egypt if they are also capable of comprehending the nature of psychic forces, and can comprehend the Pyramid and Sphinx as being likened unto the pituitary and pineal of the collective consciousness upon this plane, and the mummified corpses may be understood as human transmitters, capacitors, transistors or other psycho-electromagnetic components.

This Awareness indicates this action created great suffering for many millions of entities upon this plane, and that action from Atlantis was initiated for the glory and the power of the followers of Baal, the followers of Lucifer, the followers of the mind, and its structuring systems of hierarchy, polarity, manipulation and control.

This Awareness indicates the Illuminati that began in Atlantis, may be seen as the Dark Force that sought power through deception, control and manipulation; and that Illuminati from Ra-Ta actions of Egypt was designed to create a power trap that led to enlightenment and a return to the Law of One.

This Awareness indicates that these mummies, serving as frozen consciousness, holding symbolic patterns and programs in their frozen psyches, allowed that energy, those patterns and symbols to be released slowly into consciousness at precise intervals as their mummified bodies decayed.

The Influence of Mummification in Egypt

The entity serving as a channel for this message [Paul Shockley] was such a mummified component of that psychic computer system, and carried within his being the symbol of an onion, that allowed an opening up, one layer at a time, one after another, in such a manner that an awakening would occur at certain times in the appropriate lifetime in accordance with the script written and composed in the land of Nubia, while Ra-Ta and his associates were in exile there, prior to the construction of the Great Pyramid and the Sphinx.

This Awareness indicates the action of the Egyptian Force was designed to speed up evolution, by creating intensities and collective power and forces that would bring entities together during a dark side of the cycle that began with the Age of Virgo and ended with the Age of Pisces, a time when entities would ordinarily be driven away from one another by forces of self-concern, created by the greater magnetic waves during this dark cycle. This Awareness indicates the Egyptian action brought entities together in order to have a greater power in numbers, to create greater unity against the group or nation which would oppose them. This led to the formation of civilizations, nations and societies.

This Awareness indicates the programming of certain images and events, energy fields, and the release of concepts into consciousness created historical landmarks and cultural changes through the subsequent history of Egypt, Babylonia, Chaldea, Israel and other nations, and up into the various civilizations of the present time. This was all *pre-written* in general outline, likened unto a plot of a play, a story, or a script. This Awareness indicates the script, having been pre-written, can continue to be played as it was intended by these forces, wherein the Computer Beast does set up its controls and powers over the masses, and wherein entities do suffer through the "Tribulations" as has been prophesied in the *Book of Revelation*, and wherein entities, after great suffering, eventually are freed as the Beast and the followers of the Beast are moved into predetermined destruction.

Awareness Comes Like a Thief in the Night

This script may continue and may occur in this manner if entities *do insist* in having it happen in this manner, due to programmed attitudes and belief patterns in their consciousness.

However, this Awareness has come at this time, likened unto a thief in the night, and offers that opportunity, that alternative action, that new script, which entities may claim for their own, as a rapture and an escape from the greater tribulations that lie ahead on the path of the present programming.

Rothschilds and Rockefellers Unwitting Victims in the Drama

This Awareness wishes no ill to come to any entity, does not wish that they should perish, but that all should inherit eternal life, eternal joy, and eternal peace. This Awareness indicates the Rothschilds and the Rockefellers also are but unwitting victims of the programming from these ancient script-writers, and are simply playing the roles that are being forced upon them.

This Awareness offers entities on this plane an opportunity to change the ending of the script, to allow all entities to be free of these ancient forces whose originators are now no longer in control of these forces, and are not even aware of their own involvement in having started the movement of these forces. This Awareness indicates the forces may be defused, may be stopped, but it is only through the changing of consciousness that this may occur, and consciousness cannot be changed until entities look at what is happening from a new viewpoint, a new perspective.

A Call to Awaken Entities Upon this Plane

This Awareness wishes to call attention to what is happening on this plane, not in order to set one force against another, not to condemn nor judge anyone, but to *awaken* entities on this plane so that millions need not suffer needlessly.

This Awareness suggests that once the attention is called to the problem of the money-systems, and the works of the money-changers, it becomes necessary to awake the masses to the realization that the Rockefellers and the Rothschilds are being controlled and programmed also, and have had little or no choice in their lives, and are being forced to play the roles which they are playing.

This Awareness wishes entities to understand that it is not necessary to continue this drama; that this drama, the entire scene, the entire final act is *unnecessary and inappropriate* and need not climax the play on human life upon this Earth.

This Awareness indicates that entities need only look totally once at that which is happening upon this plane, and when this is done completely, wherein there is no fear or flinching, wherein enough of consciousness sees clearly what is happening, then entities may look away and never again to look at this unworthy scene. Wherein this is seen clearly enough, that entities never again will be trapped and seduced by the money-changers, the old drama may be transcended, and a new drama may begin, which will free entities from economic and hypnotic bondage to the money-changers, and will free the money-changers from fear and terror of the masses that force them to deceive and to seek greater power to avoid confrontation with the masses.

This Awareness indicates that every human face is every other human face, and in every human face there is seen the need for love, peace, harmony, respect and dignity. This Awareness wishes to awaken entities to that peace, dignity, respect, love, and that life of harmony, whereby each entity looks out for the welfare of each other entity, and thereby avoiding that tragedy, sorrow, violence; and that which has been called the "Battle of Armageddon" need not occur on the outer plane.

There is a Fire Raging in Your Home!

This Awareness indicates there are many entities who do not wish to be awakened from their slumber and their illusion of security to hear of a fire raging in their home, for this is disturbing information. There are many entities who prefer to hear spiritual messages that soothe, lull, and hypnotize with beautiful words and concepts, and sounds, and rituals, and images to adore, and saints and angels to praise and glorify; yet, this Awareness indicates these are but the trappings of spiritual living and are *not* the spiritual life: they are but reminders, the garments of the life. And this Awareness indicates many teachers, priests and spiritual leaders spout forth the beautiful words and lulling tones and claim association with those angels and saints of old, but are simply selling the trappings of spiritual life to their followers, and indeed many of these even take special precautions to keep their followers ignorant of certain truths which give these spiritual leaders an advantage over their followers. This Awareness indicates it is only natural that these so-called 'spiritual leaders' would object to messages from this Awareness which might threaten the 'hustle' they have going for themselves.

This Awareness suggests many of the churches, religious organizations and groups promoting spiritual teachings are spouting the proper words that appeal to the seeker of truth, yet are leading their followers down the trail, following the Beast toward the Bottomless Pit, all because they, themselves, are out to make a buck or two on the wave of spiritual energy that is blowing across this earth. These entities and their followers, who trail obediently behind the Beast and its commands, shall find that indeed they have reaped the whirlwind.

Believe Nothing, but Open Your Eyes

This Awareness asks entities not to believe anything, but to look carefully at everything, and to discern carefully what *appears* to be, yet to make up their minds about nothing, but to continue to search, to remain open to discovery, to remain in that state of "I don't know"; for in that state, you cannot be closed to further learning, and you will remain open to discovery without pre-judging anything.

This Awareness indicates there are many truths found in many of the spiritual teachings and groups, and these may be likened unto pearls of great price, yet this Awareness indicates it takes more than beautiful words and flowers to make a wedding and marriage that is lasting, healthy and fulfilling; and it takes more than ritual, beautiful words, names of deities and saints, advice, and soft lulling tones to lead to spiritual understanding and expression.

This Awareness indicates there is also a need to see the tragedy, the suffering, the sorrow that exists upon this plane, and to look so deeply at this that the feeling of compassion becomes so unbearable, so overwhelmingly painful, that its very urgency becomes the motivation that moves you into action which can reconcile the polarities that cause such suffering.

This Awareness indicates that in looking at a stereotyped ideal of what a spiritual life should be, is but a form of escape from reality, and has never yet been instrumental in helping to relieve the suffering on this plane, and in fact, has led entities to battle and to kill over such ideals.

This Awareness indicates that to heal another, one must look carefully at the illness, and then begin to raise the vibrations from that which is, to that which is imaged as desirable in the next moment. And step by step, moment by moment, image by image, the situation, the vibration of the situation, can be raised. This must start from *What Is*, not from *what should be*, or what would be nice to observe.

Let's All Help Cosmic Awareness to Find Rest

In dealing with illness of power within individuals, or in the earth, the need is to look clearly at *What Is*, then to start raising the vibration from there. Entities have it within their power to change the world, to change the course of events, and to bring a heaven to Earth. *The future is never fixed, and becomes changed as consciousness changes.*

This Awareness wishes entities to understand consciousness can only change when entities no longer judge themselves or others, when entities no longer seek to be higher or further out, greater or more powerful than another, or than themselves. When entities can accept themselves as they are, then they can move on to other ways of being. For this Awareness is not concerned with whether entities are materialistic, spiritual, right or wrong, higher or lower, ascended or descended, but whether entities love one another and whether entities love themselves, and are responsive to the needs of one another.

This Awareness asks not for sacrifice, but for service. This Awareness asks not for praise, but for service and love toward your fellow creatures. For this Awareness needs not service, nor does *It* need sacrifice or praise, but needs only to experience a rest and relief from watching this dreary tragedy on your plane, as the world turns round and around and around.

***** *Emphasis is by the editor.*

ED's Note: If this message sounds familiar to some of you, it should. This is one of the very first messages we sent out under "Revelations of Awareness" after C.A.C. was founded. It basically was this message and its theme that launched almost two decades of readings on this subject of the Illuminati and its sinister scheme to enslave this planet. Various scenarios were planned and attempted on certain levels, as explained in the "Gathering Storm" and other readings such as "The Forces of Ahriman", but these schemes were somehow frustrated and defused, and the plotters retreated into their dark holes and recesses to plot other moves and schemes for later times, such as today; with only 8 years to act out the prophecies of Fatima and the 'Book of Revelation', the money-changers, represented by the Rockefeller and Rothschild banking interests, and their cohorts, the recently revealed Nazi organization behind the scenes, led by George Bush and, believe it or not, Vice President Dan Quayle, titular head of the Nazi party in America, and their evil plan for the New World Order and to turn over our planet to the Reptoids in the year 2000. Heady stuff, but this reading explains to our newer readers and members the cosmic connection to current events, and how this force relentlessly pursues its aim to dominate and enslave humanity down thru the ages, even to today with its alien connections and the Nazi connections. It is important to remind you that years ago Awareness indicated that Adolf Hitler was the incarnation of Baal from Atlantis, which makes the

idea of Nazis in America and the concept of the 'Fourth Reich' a bit more clear and less incredible to thinking entities. It is also an important reading in that it reveals the money changers, the Rothschild's and Rockefellers are unwitting agents and players in this cosmic game and are not the evil people many are inclined to believe.

It is a good idea for readers to pull this reading out for review every now and then, just to keep things in some perspective, particularly as things get heavier down the road, as it appears will happen. It does appear that after almost 20 years since Awareness made this eloquent appeal, this request that entities have it within their power, thru imaging, to change this world and prevent this play from acting out its final dramatic scenes, that somehow we must have all failed in achieving that almost utopian fantasy (unless through some alchemical action, which I personally tend to believe), our world is spinning toward even more sorrow, suffering and

6. tragedy, and the "cleansing" Awareness has indicated is still needed. I guess all we can do is to hang in there, gang, and do whatever we have to do.

(Avaton)

P.S. One of the things we can do is to push the politicians to Audit the Federal Reserve. Awareness has indicated many times that this is the first step in changing the consciousness of the money-changers. There are presently two bills in the House designed to audit the Fed. Awareness has indicated many times how important it is that entities contact their politicians in Washington and request they help sponsor these bills so that they will become law. We should all ask ourselves: How many letters and phone calls have we made on this subject?

In case you have forgotten, these two bills are: HR 1130 and HR 1486. It already has several hundred sponsors, but needs many more if it is ever to get off the ground.

OPERATION HOT AUGUST NIGHT: AN UPDATE AND ANALYSIS

Is Cosmic Awareness Crying 'Wolf' Once Again?

C.A.C. General Reading No. 1, August 10, 1992

OPENING MESSAGE:

This Awareness indicates that the scenario discussed last month as the 'Hot August Night' as that which has not built up its momentum according to plan, and because of this, there may be a delay in implementing the plan. This Awareness indicates that the subliminal polarization that was scheduled for July did not build through the month as intended. The entity Ice T as having helped to defuse the polarization by dropping the song *Cop Killer* from his album.

This Awareness indicates that other situations took greater focus in the news and the momentum could not be regenerated to create a polarization between the races, according to the plan. This Awareness indicates that in addition, there were numerous efforts behind the scenes to help defuse the situation, and also the letter-writing campaigns that erupted across the United States in which many entities printed vast amounts of information, mailed that information to senators and to people in the current administration and to political and religious and civic leaders around the country, as well as to celebrities; all of this mass-mailing had some effect.

Particularly effective were those containing the outline of the plan which went directly to those entities who were part of the conspiracy for implementing the plan. Once these entities saw their plan being sent through the mail in large number, it created a strong paranoia that if they indeed attempted to implement the plan, the masses might discover who in fact was behind it from their activities and the entire plan could unravel and entrap them.

This Awareness indicates that these are things that are being evaluated. At the latest conventional release, the entities behind this Hot August Night scenario had selected the date of August 19 as the launch date for the program.

This was effective as of approximately one week ago. It had gone from August 17 to August 23, and about a week ago, to August 19.

This Awareness indicates that this date could change, or the entire plan could be put off, perhaps until next year or sometime in the Spring of next year. It could be revised along different lines. This Awareness indicates there is also the concern now for the election, in that the incumbent administration does not look well for winning the election at this time.

Perhaps this will change before election time, but there is considerable fear that after the Perot drop-out and the great numbers of Perot backers who went to the Clinton/Gore ticket and gave such a strong boost in the polls, it left those who were backing the incumbent administration feeling quite vulnerable and uncertain about the election, and without this incumbent re-election of the president and vice-president, the plan would have to be totally revised.

This Awareness indicates that within approximately a week from Wednesday, or a few days thereafter, if these riots on the street have not begun, entities can breathe easier. This Awareness indicates that this does not mean the threat is over. This Awareness indicates that entities may wonder why there have been several of these situations in which this Awareness has warned entities of impending danger, and the danger did not manifest, and they consider that these warnings are much like the little boy who cried wolf, and therefore need not be taken seriously.

This Awareness indicates in 1979, there were the warnings of the material in that which was called *The Gathering Storm*, and this program, which this Awareness warned about in terms of the switching of currency from a cashless society to that of a paper and electronic currency, a

society run by electronic banking and by bar codes and traceable exchanges between entities; that all of this in the past 12 or 13 years has become so apparent that it is no longer questionable and entities now see that the electronic currency is almost upon you and that it is only a matter of time before the currency is removed from society.

This Awareness indicates however, there were many at that time who did not believe this could ever occur, and many who dropped out of the organization because it sounded so paranoid. This Awareness indicates that since that time, many of the other metaphysical newsletters around the world have also released their warnings of this same thing.

This Awareness indicates that because these warnings were released through CAC prior to any other group giving such warnings, many considered CAC as releasing paranoid conspiracy information and it became suspect and criticized, but as time passed, and other organizations ranging from Summit Lighthouse to J.Z. Knight and to many mainstream magazines discuss the cashless society that is encroaching upon people and the invasion of privacy that is part of it, the message that came through in 1979 regarding this at this time would be considered quite bland.

Entities who read it today would not be at all surprised or consider it shocking in any way. It would seem more like an article from some magazine exposing information about the coming banking or economic system and what entities need to be aware of. This Awareness indicates however, the fact that it was given *before* others gave similar information left a kind of critical stain on CAC and on this Awareness, much like that of having had eggs or paint thrown at one for coming out with information and messages that are not desired, even if those messages proved, in the long-run, to be accurate.

This Awareness indicates that over time, the messages may have been the beginning of a release of information that is essential, and others may pick up and pass on the message, but the first one who comes out with the message may get plastered with paint or eggs or tomatoes and these things will be remembered long after the message is accepted by society, so that the people later say: "Well, I knew that all along, but that CAC is always coming out with weird stuff."

They may forget that the "weird stuff" that came out is the information that they "knew all along" and accept now completely as logical and reasonable, and which they would not argue with, but at the same time, they argued with it and were hostile at hearing it.

This Awareness indicates that the same appears to be so with some at this time; the information released last month has led a few entities to drop their membership, and some to be quite disturbed and angry. It would appear that perhaps there should be two types of membership for CAC, and that entities who want to receive information during times of crisis such as this should have their names on one list, and those who don't ever want to know anything negative should have their names on another list or have an asterisk added to their address label so that their address could be picked out before anything negative or critical or extra-informative is sent to them, so that if they want to continue living in the "ignorance is bliss" mentality they can do so.

Their names simply will be picked off the list because it has an asterisk, which means they don't want to hear any bad news, or anything disturbing. If this is the case, such entities would still remain as members, receiving only the more pleasant information and not have to concern themselves with anything critical. This Awareness indicates this

may be something that entities can discuss or decide upon in case there is a future situation.

Some Were Upset that Nuclear War Did Not Occur

This Awareness indicates there were likewise a number of entities who became quite upset that the nuclear war which Dr. Beter warned of did not occur on schedule. Had it occurred, they would not be around to complain, but since it did not occur, they are complaining, and blame this Awareness for having alerted them that the information was valid and that they could help prevent the nuclear war by writing letters to certain people in the White House.

This Awareness indicates that Dr. Beter himself indicated to the Interpreter on the telephone that the letter-writing campaign from CAC had a tremendous effect on the White House during the Carter administration because many of the staff receiving these letters began to do some snooping around and found out what was going on and resigned en masse, quitting their jobs, and went out and began to write and notify other people, people of importance in political levels, and helped to alert many of these others as to what was being planned, and this helped to defuse the First Strike planning of this group.

This Awareness indicates that this same information was relayed by the COM-12 entity when giving the more recent information about the Hot August Night. That what they really needed was to have people in the street protesting, or to have people writing in to their representatives in Congress and in the House of Representatives, in hopes that they too, like before, could cause many of these people in the lower staff levels to resign and get out and start communicating about what was going on.

The entity specifically mentioned CAC and the Aquarian Church as having done this kind of thing in connection with Dr. Beter's warning. This Awareness indicates that perhaps you did not know you held so much power as to be able to stop a war or to help so greatly in stopping the war; to stop a nuclear war at that!

This Awareness indicates it is not easy to let you know after such an event how important you were in helping to stop the nuclear strike without also jeopardizing yourself and the organization by calling attention to this. This

Awareness indicates that if you go around calling attention to the fact that you were able to stop something of such magnitude, it also draws attention to those who resent your having interfered with their plans, and while perhaps it makes you feel good that you were acknowledged, it also points attention and may cause some attention that comes from those you do not wish to notice your activities.

Therefore, this Awareness did not mention all of this at the time, and perhaps this is why many of the people felt their efforts were meaningless, they had been used for nothing and that the war did not come off, and therefore, the whole thing was but a sham. This Awareness indicates it was *not* a sham. It very well could have resulted in a nuclear strike, had it not been for the mass letter-writing campaign of the time. This was in 1977-79, in that time period.

This Awareness indicates that *It* has no apologies if this Hot August Night does not come off. *It* will only rejoice, and if there are entities who are resentful because it did not happen, and if there are entities who want to be critical and withdraw their membership from CAC because it did not occur, all the better. This Awareness indicates that if it *does* occur, it is unlikely that CAC or the Aquarian Church or any of its people will be around to receive pats on the back for having called it correctly.

Rather, they will probably receive bullets in the back of the head for having called it correctly. This Awareness indicates that perhaps there will be one or two or a few of the members who will appreciate what the organizations have done in alerting the membership, if it does occur. If it does not occur, appreciation is not likely to be felt or expressed, and many letters of hostility are likely to come from those who want only to know exactly what is going on and do not want to play a role in altering possibilities.

This Awareness is not communicating to the masses in order to make them appear to be more intellectual than they really are. If you want to parrot some prognosticator and make it look like you have insight to the future, you should go elsewhere. This Awareness's purpose in communicating this is to warn you of the *potential* and to show you how to alter those unwanted future experiences. This Awareness indicates that Its purpose is to lead you into making this a better world and becoming a better person yourself.

How the Law of Leverage is Applied

This Awareness indicates that *It* does not see great hope in improving the world or the people in it as long as there are threats to the life and liberty of entities in conspiracies of such nature that affect the masses, thus, when there is a mass-affecting conspiracy, this Awareness wishes to alert entities and to use the *Law of Leverage*, the means by which the least amount of energy can make the greatest difference.

In this case, the least amount of energy had to be applied early, before the plan began to take shape. It is much harder to turn back miles of tanks and troops coming down a road or entering a square than it is to discourage those who are writing up the plans by alerting the masses before the troops and tanks have been assembled.

If the entities can announce to those who are planning the attack that they are well aware of the plans and are joining en masse to counter such plans, it is much easier to discourage the planners than it would be if the entities waited for the tanks to enter the city, the square, and begin the attack, for once the attack begins, it takes an entirely different kind of energy to discourage the planners.

It takes a defeat, a military defeat to discourage the planners at that time. This Awareness indicates that by using the *Law of Leverage* at the right time, communication, the use of the pen can have a more powerful effect than the use of the sword. This Awareness indicates that within a week or two weeks entities will know whether or not this plan is being activated.

If it is not being activated, it will be evidence that it has either been dropped completely or put off for a time. This Awareness indicates most likely, if it is not activated in August of this year, it will be put off, possibly altered, to come back at a different time in a different form. It is not likely it will be totally scrapped and the ambitions defused.

These entities are too ambitious to simply stop at this point without further attempts. This Awareness indicates however, with the information being released, it may help to cause others to dig deeper into these matters to expose more information and time can become that which works for the freedom of humanity rather than against the freedom of humanity.

8. The very fact that the information is out creates a different atmosphere in the world. Those hostile dark forces cannot thrive in an atmosphere where truth abounds. Therefore, as time passes, and as they build for a second attempt, they may find time running *against* them, rather than *with* them.

Many of You May Be Unsung Heroes in Tomorrow's World

This Awareness indicates that those of you who made an effort, who sent forth communications and information, those of you who considered carefully the consequences of what might occur and took action, may be the unsung heroes of tomorrow's world. You may never get proper credit for what has occurred, but you may be the real heroes of tomorrow's freedom and tomorrow's generations of free people.

This Awareness indicates that those of you who stood back, did nothing, watched and waited, you may have some small victory if the events do not occur, in feeling that you did not put yourself out or do something that might have made yourself feel foolish. This Awareness indicates that those of you who became frightened to the point of denial, who entered a state of denial, who did not want to know, did not want to hear any more about it, did not care to find out, are to be pitied in that this reflects your way of dealing with life's problems, in most ways, whereby you may find it occurring again and again that if you do not like it, you deny it, if you do not like the news or the evaluation or the diagnosis, you simply deny and you escape through denial and never face realities to deal with them or to investigate them further to determine whether there really is something involved in the situation.

This Awareness indicates that you are to be pitied in that you cannot find it in yourself to take control of your life and deal with problems and instead, you run and hide and pretend you are immune to reality, or that the reality doesn't exist and you let others create your world for you while you live in your fantasies.

This Awareness indicates that fortunately, most of the entities in this organization dealt with the information. It is natural that most entities would experience a state of shock and feel stunned. It is natural that entities then would begin to evaluate and to consider possibilities and potentials and make contingency plans in the event this or that scenario followed. It is natural that entities would also be more attentive to the events to see if there are indications one way or another that these events were unfolding as described in the plan.

It is natural that entities would be relieved when no events were found to supplement or support the plan. This Awareness indicates that it will be ever so natural for entities after the allotted time has lapsed to feel great relief and to know that they can, at least for some time, get back into a normal routine for their lives.

It is also important for entities to know that just because the event did not come off on schedule does not mean it wasn't planned ever, or it isn't ever going to occur. This Awareness wishes entities to be alert for variations of the plan in the future, if it does not come off exactly as planned next week. This Awareness indicates that it has been said: "The price of freedom, or the price of liberty is eternal vigilance." This Awareness indicates that this is as true today as it was 200 years ago when spoken.

This Awareness indicates that any who think that they can simply bury their heads and go back to sleep and let others be vigilant in protecting freedom and liberty, may be the ones who first lose their freedom, and if so, they deserve it.

This Awareness indicates the entity Hindenburg, in the time after World War I, and in the late 20's and early 30's, tried to warn the German people of the Nazis, and after the Nazis had purged all of the opposition, the main opposition, and he found it impossible for him to rally any support to stop the Nazis and their growing power in Germany, finally admitted that he was just too old to carry on the fight himself and that perhaps the German people deserved what was coming.

This Awareness indicates that it would be a great disaster and tragedy if the same thing occurred in the United States simply because people did not want to trouble themselves with worrying about freedom and liberty.

ED's Note: Ironically, I was typing up this reading the night of August 19th, one of the dates the planners of Operation Hot August Night had set for its activation. At the moment it is midnight here on the West Coast, Barbara Bush has just completed her speech at the Republican Convention and the 11:0'clock TV news had nothing about any riots or fires in any American cities (only about fires in the forests of Oregon and California). I had told Vikki, who has been a bit uneasy ever since Awareness referred to the CAC staff in the past tense in that reading, that I did not believe they would start the operation during the Republican convention, as this would take attention off of George Bush, who needs all the attention he can get at the moment if he expects to get reelected. So now the CAC staff is sweating out August, but the pressure has definitely been lifted. One reason is that the 'returns' are starting to come in. Many members have mailed out hundreds, some even thousands of chain letters and other letters to their senators and congress people. One lady personally sent letters to every single one of them, plus hundreds of letters to others in authority. A member in Holland translated the information into Dutch and German and distributed thousands of pieces of the information around Europe. Several newspapers published the information and it was also making the radio circuit. We heard from a reliable source that the information in its entirety had made it completely around the world via the computer bulletin boards. In America we are getting reports it is being discussed on talk-in shows on radio and TV. Strongbow, the notorious radio spokesman for CAC

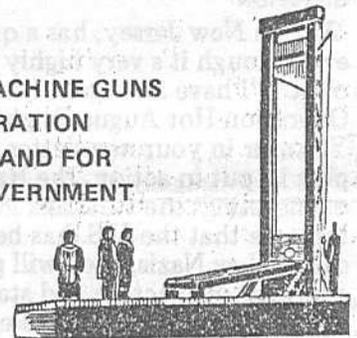

reported today that he just got off the phone after talking to a Florida talk-in radio show for 45 minutes on the subject. Even the Phoenix Journal ran the story, but implied it was probably disinformation and that the material on negative aliens was definitely a lie. We received anonymous post cards with cryptic lines such as "North Carolina has been covered!" Another said "Information is being spread far and wide!"

Another said simply: "Vikki-Mission accomplished. Your friends in KC."

Another member made a version in Spanish and passed it out in the Mexican neighborhood of her city. One member sent a copy of a letter which outlined all the highpoints of the scenario, which ended with: "CC: President George Bush, Members of NSC, Members of the US Senate, Members of the House of Representatives, Mayors of the 65 Largest Cities, The 50 State Governors, The Media." People have told us they put the information on public bulletin boards, some even passed it out on street corners to startled passer-bys. One post card stated simply: "I've now sent out 1507 of those sheets." Other letters tell of the information going to Jewish leaders and black leaders, to religious leaders and to media of all types. Yes, as I type up this editorial comment on this night of August 19th (now officially August 20th) I am certain we can all breathe a sigh of relief that this sinister and diabolical scheme has not occurred on this, the first date of the planners. September is just around the corner, gang, and I have the feeling now that once again, we are all going to squeek through this one. (Avaton)

ARE THE REPORTS OF MACHINE GUNS ON BOX CARS, CONCENTRATION CAMPS AND A HUGE DEMAND FOR RAZOR WIRE BY THE GOVERNMENT ALL TRUE?

QUESTION:

We haven't received too much of a response, but we have received some response from the membership. It's more like a stunned silence is occurring. But G.M. in New Jersey penned a PS to his letter, which is rather interesting. I'd like to ask Awareness if this information is valid. He writes: "PS: I distributed over 50 copies of the Hot August Night sheet; a real stunner. In *Leading Edge*, Number 42, just received, mention was made from Arkansas of the government putting machine guns on box-cars, a new concentration camp in Northern California, and an unprecedented government request for razor wire." I'd like to ask Awareness if that information is correct?

ED's Note: *Leading Edge Publications* is the former Nevada Aerial Research Group newsletter put together by Val Valerian, and is available from *Leading Edge Research Group*, PO Box 481-MU58, Yelm, Washington 98597. There is a massive amount of research in these publications. Send \$8.00 for the Master *Leading Edge Catalog and Index* so you can locate which issues you want by subject matter listing.

COSMIC AWARENESS:

This Awareness indicates this appears to be correct. There are seen thirteen concentration camps in the United States, to be used for the housing of people; this in case of crisis or emergencies wherein the prisons are overfilled. This Awareness indicates of course, these concentration camps are enormous in size, capable of holding far more than prisons would hold, and therefore, would suggest that they are expected to be used for the incarceration of millions of entities at some time, and these are fully functional, which suggests that the time may not be far off.

Guillotines and Furnaces Now in Oregon Extermination Camp

This Awareness indicates that it appears the concentration camp in the state of Oregon, for one, has guillotines that were ordered from France; that this would be used as a cheap way of exterminating entities. This Awareness indicates that there are also ovens in the concentration camp in Oregon which would suggest the burning of bodies for further disposal.

This Awareness suggests that these may not be concentration camps. They may be more accurately described as extermination camps.

FOLLOW-UP QUESTION:

The government putting machine guns on box-cars. Does Awareness see that as actually occurring also?

COSMIC AWARENESS:

This Awareness indicates that this is seen as accurate; that these are seen as being part of a program for hauling people by train to certain destinations and using the machine guns to both control the masses when loading or unloading and to exterminate masses as may be desired. This Awareness indicates however, machine gun bullets are expensive, running several dollars each, and therefore, this would not be a major way of exterminating masses.

WILL RUSSIA START WORLD WAR III TO STOP NAZIS?

QUESTION:

J.M. in New Jersey, has a question. I'm going to read it even though it's very highly improbable. He put "urgent" on it. "I have an urgent question to Awareness regarding Operation Hot August Night or the plan outlined by M. Younger in your newsletter. It is very obvious that if the plan is put in action, the Russians will not sit idly by. One of the things the Russians most hate are the Nazis, and if they see that the U.S. has been taken over by these so-called New Nazis, they will put their own plan for world conquest into action and start World War III by making a surprise First Nuclear Strike on the United States to cripple it and get rid of the Nazis. Would Awareness comment if such turn of events is possible?"

COSMIC AWARENESS:

This Awareness indicates that this would indeed create a critical concern for Russia and for Europe in general, and for much of the world. It is seen as possibly a deliberate way of creating new polarities whereas there were the polarities of World War II followed by the Cold War in which Russia became the villain of the world, whereas now, the same forces operating behind the scenes, behind the Nazis, may be setting them up to create a totalitarian country in the United States so that the United States becomes the new villain of the world, in order that the rest of the world will work more productively, pay higher taxes, build up more armaments to counter the threat of the New Nazi Order.

This Awareness indicates that this appears to be one scenario being promoted by certain of the powers behind the Nazi movement. These powers of course relating to the Rockefeller forces or empire, which is run by John J. McCloy and others. It appears that the Rothschild forces in Europe would be the main opposition to this Nazi nation if it indeed were to manifest.

This Awareness indicates that the fact that the United States has the greatest arsenal at this time would make it a very formidable power on earth for use in a negative manner, and that this could be part of the total plan of these totalitarian forces in the effort to conquer the rest of the world for the 4th Reich.

10. ARE SUBCONSCIOUS NAZI TENDENCIES COMING OUT?

QUESTION:

A note from Betty L., which is sort of interesting. She writes: "This Nazi thing has some basis, but I think the public is very suspicious of anything these days. There is an energy moving on the phone and TV electrical lines which isn't helping things much either. Lots of anger edging to the surface, but people have so refused to wake-up. Maybe they are getting pushed. What is interesting is that some people in this area have old Nazi patterns at subconscious levels which they refuse to deal with and release. There have been hefty subconscious swipes at me made by this group; patterns which lead back to Maldek, so we seem to be entering this phase of dealing with these old patterns, but there has been a huge, what I call "Unitary Ray" sweeping into mid-Russia to the core and up through mid-Atlantic ridge that should both heal and shake some power groupings up a bit. In fact, a lot." I'd like to ask Awareness, when she mentions this subconscious Nazi tendencies, is there basis to this in people?

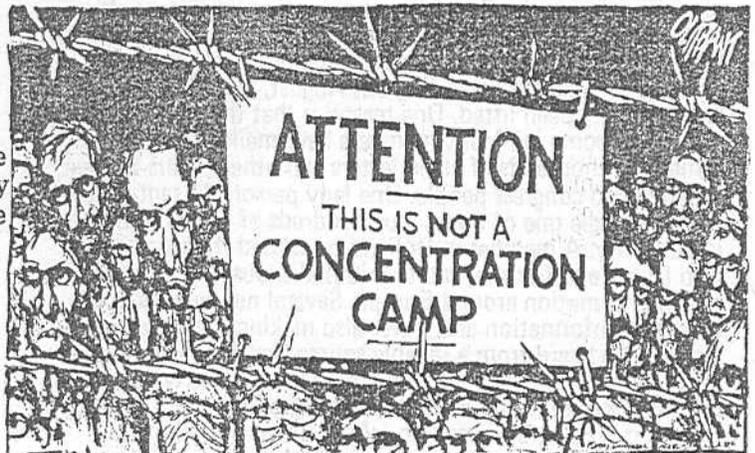

COSMIC AWARENESS:

This Awareness indicates that this appears to refer to subconscious feelings of polarization in regard to race and feelings of racial superiority or other identifications entities may have that make them feel superior to others. This Awareness indicates that in reference to the effects that are occurring on Earth, it appears there is a need for all of this to be worked through and much of what is occurring is surfacing in order that these things can become part of consciousness and dealt with on a conscious level.

This Awareness indicates that the reference to rays affecting the Earth, affecting consciousness, likewise are part of the influence of a kind of cleansing that must occur through the opening up of these negative doors which hide in the subconscious of individuals and mass-subconsciousness.

This Awareness indicates that there are masses of entities who have these subconscious negative and Nazi patterns. They are expressed in ways that are not always recognized as Nazi patterns, but are so characteristic of Nazis that it is a good term to describe such polarized bigotry and false superiority based on genetics or other form of identification.

It may be in the form of superiority by religion, superiority by politics, superiority by status, superiority by race, by occupation, or by appearance; all of these things really reflect a kind of Nazi pattern and when there is contempt for others because they are not equated to your own superiority, then this further exacerbates the pattern of Nazi-types of thinking.

This Awareness indicates another characteristic of the pattern is enjoying watching others suffer or feeling that they are insignificant and unimportant and therefore should suffer more than you or your own superior types. The concept of superiority and inferiority in which the inferior should suffer, and the superior should escape suffering and enjoy the pleasure at the expense of the inferior is also part of this Nazi pattern of thinking.

This Awareness indicates you may recognize this as prevalent in some of the other patterns. Some conservatives have this pattern also. This Awareness indicates that it does not appear to be confined to any particular group. All groups have those who see themselves as superior and others inferior, and whereby they have little compassion for those who are inferior and great concern for the pleasures for those who are seen as superior and they do what they can to help preserve the pleasures of those who are superior, and they do what they can to deny those who are seen as inferior.

FOLLOW-UP QUESTION:

Do these patterns, as she suggests, lead back to Maldek?

COSMIC AWARENESS:

This appears to be correct.

ABOUT NEGATIVE ENERGIES AND VIBRATIONS

FOLLOW-UP QUESTION:

Is there anything to her line in the note that there is an energy moving on the phones and TV electrical lines which isn't helping things much either?

COSMIC AWARENESS:

This Awareness indicates that this is unclear as to whether this entity refers to information or to electronic patterns or some other energy. This Awareness indicates that it appears that there are always patterns of information running through electrical and telephone and such lines through television or radio that have negative effects. It does not appear that this is what the entity refers to. It appears that she is speaking more in reference to a kind of energy per se that has a negative effect on individuals who are close to these lines. This Awareness indicates that it appears to be valid to some degree, but that the negative effect of being around electric wires and telephone lines is greatly exaggerated and that these energies are not seen as highly influential to entities.

This Awareness indicates that it would be perhaps influential to an angel or spiritual being whose vibrations are of such high frequency, that to be near a frequency that is lower, could cause blots on their aura, but for the majority of people, these energy frequencies from electrical wires or telephones are not seen as being of serious concern, any more than standing next to an entity on a bus might have a negative effect on your aura.

There are some entities who your approximation to them will raise your vibrations and some who will lower your vibration, but most entities have had enough experience in dealing with vibrations that if they step next to someone who has low vibrations such as one who is engaged in violent activities or alcoholic use or competitive activities, one who has been involved in a fight or argument; these entities may be emanating negative vibes at the moment and their vibrations may intermingle with your aura, but generally, once you step off the bus, you can sort of shake, if nothing else, take a shower when you arrive home or hug a tree, or something to rid yourself of those negative vibes.

This Awareness indicates otherwise, they will simply wear off gradually over a period of minutes or a couple

of hours. This Awareness indicates that negative vibes from electric wiring is probably even less effective on your aura than human vibrations.

REPTOIDS IN SHEEP'S CLOTHING ?

QUESTION:

One final question from M.M. in British Columbia. "Are men like Mengele and certain doctors, bankers and scientists, et cetera, incarnated souls from Draco and Orion, and are they basically Reptoids and Greys in human form?"

COSMIC AWARENESS:

This Awareness indicates that in many cases this is in the affirmative, much more than entities would imagine.

AWARENESS ON CONSPIRACIES AND WHY IT HAS COME TO THIS PLANE TO SPEAK AT THIS TIME TO ENTITIES

CLOSING MESSAGE:

This Awareness indicates that it is very difficult for this Awareness to bring you messages such as that which came from the entity Mike Younger, and to discuss these situations. It is very difficult for the entities at CAC to deal with these energies, to consider whether to lose membership by giving this information, which may be critical and life-saving to some, or to simply pretend not to know about it and to totally ignore the information and to let entities have the pleasures of spiritual pabulum and spiritual marshmallows to dine on.

This Awareness could give you all the nice things to think about, all the spiritual information to make you feel important and good, to give your souls a healthy spiritual massage, to make your egos feel important, spiritually important, of course. It could do this and probably increase the membership, for most people want to feel good and want to know that they are spiritually all right.

This Awareness indicates that if it were the purpose of this Awareness to create a large membership for CAC, this organization could have several million members by this time, by this Awareness simply giving spiritual candies, goodies and strokes to make people feel important and good. This Awareness indicates however, It has come not to build a large organization of great numbers, but to give messages of importance to humans in their greatest time of need, when the world is going through much transition, when there are conspirators of many type, each fighting to gain control from the others.

This Awareness indicates there are at least three major conspiracies in the world in which entities are at odds with the others and wherein these three forces each want to dominate the others, and under these conspiracies there are other conspiracies, and anyone who does not believe this is so is simply naive.

This Awareness indicates that conspiracies even exist right down to professional wrestling, although some do not believe this either. This Awareness indicates that It does not see that this will change much, and sees that these conspiracies will continue and that for awhile, one group will dominate or will attempt to initiate some plan or action and then another will counter and then another will gain control over some aspect of the other's domain or plan, and this kind of shifting of power will continue.

This Awareness indicates that It cannot fully describe all of the major conspiracies; there are so many. Each religion has its own conspiracy. This Awareness indicates a conspiracy occurs when two or more work together to

bring about some result, and this can be said of any religion. It can also be said of any corporation or most business; thus, the business conspires to bring in a profit, and the entities in the business work together, sometimes in opposition to their competitors.

This Awareness indicates that there are many conspiracies. Some are acceptable. Others are hidden and are against public interest. This Awareness indicates that *It* wishes entities to recognize that *Its* purpose in coming to speak is to help entities to discover and to learn how to discover for themselves these energies and actions that affect their lives, hindering their spiritual and evolutionary growth as human beings so that they may better throw off the yoke of oppression and suppression and move more quickly and with greater ease in their spiritual development, in their physical and material, emotional and social development, so that entities can become what they are capable of becoming.

This Awareness indicates this means they must have freedom, and that freedom must allow all others to have as much freedom as they can handle effectively without infringing on the freedoms of still others. This Awareness indicates that you cannot expect an incompetent to handle all of the freedoms available to those who are more competent. Therefore, freedom must be limited according to an entity's competency, according to their ability to handle responsibilities.

This Awareness indicates it is not right for some entities to deny freedom to others, granting themselves freedoms which they may hold irresponsibly, and at the expense of others, while denying others their freedom to be who they are capable of being. This Awareness indicates that *It* wishes entities to understand *Its* purpose in communicating is to help entities to be the best they can be, given the circumstances they must work in, and to find ways to improve those circumstances so they can better improve their own potential for becoming more than they have been.

This Awareness indicates that there are some entities who seek information from this Awareness in order to avoid thinking for themselves or to appear intelligent by repeating statements given by this Awareness to impress their friends. This is not the purpose of this Awareness; *It* does not communicate so that entities can quote *It* like Biblical scripture; *It* does not communicate in order to give entities superior knowledge. *It* communicates in order to help entities understand so that they may think clearly through these things which may have at one time or another puzzled them.

This Awareness indicates *It* does not want entities to assume that the messages from this Awareness are the final word. There are many things that entities through their own channel, through their own higher levels of awareness may interpret more clearly than through this Interpreter. Therefore, they are not to rely solely on the concepts or ideas given through this Interpreter. They may find that their own interpretation carries more validity and applies in more instances than that which is given through this Interpreter.

If so, they may find it better to rely on their own interpretation. This Awareness indicates that *It* wishes entities to keep their minds open to the incoming of information, to the processing of information, to the consideration of information which may not be clearly common or acceptable, but which may need examination, for as entities learn to examine those things that are unusual, those ideas that are strange, those circumstances that are unfamiliar to their normal lifestyles, their consciousness is expanded.

12. You Will Never Again View the World in the Same Way

The addition of the information given from Michael Younger has expanded the consciousness of every entity in this organization; everyone who has read the information now has a more broadened concept and consciousness in regard to the way the world functions. No longer can you see the world in the same way.

This Awareness indicates that this allows you to have more tools in your basket of thought, to analyze what is occurring in your world, in your life. You do not have to accept Michael Younger's version of what is occurring, but to have the tools in your consciousness allows you to use that information if it becomes clear that there is a pattern in the mechanics of life which can only be analyzed and understood from this perspective of these mental tools and the information provided.

This Awareness indicates therefore, do not resent being given information of this type, even if it was presented as a plan that was supposed to take place on a certain day and failed to occur. You should instead count your blessings that it did not occur as planned, for indeed, if it does not occur according to plan, you are indeed fortunate as are many others.

If You Do Not Want "Hot Line" Information

This Awareness indicates it is still uncertain at this time whether or not this plan will be implemented, but it is suggested that if it does not occur by the end of August, it is unlikely that it will occur for at least six months. Perhaps longer, or perhaps never in its same form. This Awareness suggests that those of you who do not want to receive such information of a critical nature in the event a new plan re-emerges or this plan is set in motion for a later time, and this Awareness calls attention to it; in the event you do not want to receive such information, this Awareness suggests you send your name and ask not to be put on the Hot Line.

It will save postage and it will save you from reading the information that might save your life and allow you to experience the continued bliss of not knowing what's going on.

This Awareness indicates in fact, the entire storm could perhaps pass over your head without your ever waking up to know about it, if indeed, again, the event would be stopped or put off. This Awareness indicates there are some entities who do not like to be awakened for an earthquake. They would prefer to continue sleeping and let the earthquake go on without them, and these entities should have their wishes respected, if indeed they are of sound mind and have had reasonable time to consider their decision.

The Law of Gratitude

SHOULD YOU, OR SHOULD YOU NOT, OWN A GUN ?

(Just How Far Can One Go Before Defending Oneself ?)

QUESTION: (Excerpt from a CAC General Reading, July 17, 1992)

A question from D.L., Fair Oaks, California. "I have a question I'd like to ask you or to Awareness concerning gun ownership. Maybe Awareness has addressed this in the past; if so, would you be so kind and write a few lines to me?"

Our Second Amendment allows us the right to own a weapon as a Constitutional right to bear arms. I am not a hunter or a fisherman. I do not own a gun, but I am considering the purchase of one, due to the increased riotous climate in our society to deal with social problems stemming from government and our social consciousness.

"A weapon for protection, self-preservation, keeping the family safe from external harm; are these concerns justifiable for keeping a weapon if needed? Does the mere fact of having a weapon draw to you the negative energies that would be associated with the need to use it for self-defense purposes?"

"I live in a large community of the suburbs that could be severely affected if disaster struck, either natural or created, such as government sponsored martial laws and the like. These concerns were void of my thoughts up until a few years ago, when the handwriting on the wall started to manifest into reality in everyday occurrences.

"Your reply would be greatly appreciated and eagerly awaited. PS: When is right to fight a correct alternative, or is being subservient to controls placed on you and family an action that should be accepted?"

There's a number of questions within that statement.

COSMIC AWARENESS:

This Awareness indicates the entity Yogananda once expressed this very clearly and properly, when asked a similar question. Someone asked if it was appropriate to defend yourself. The entity answered that it was appropriate if you felt you had something worthwhile to contribute to society, to others.

This Awareness indicates that this Awareness would prefer to see entities avoid violence if possible; that if violence is forced upon you, then it is your right to respond in a way that defuses the violence with the least amount of offensive force needed. This Awareness indicates that in some cases, if you do not respond with enough force, then the violence forced upon you will increase to such a level that you have no further option for you may be destroyed if you hesitate too long.

This Awareness indicates that each of you are born with claws; these are weapons. They are not very good weapons compared to weapons which others have, and if others threaten you with more powerful weapons, then you may have reason to wish to sharpen your claws or hone your weapons to be equal to those that are being prepared for use against you.

This Awareness indicates that *It* sees some justification for using weapons, particularly in the defense of the helpless, in the defense of your loved ones, your family and those who cannot defend themselves. This Awareness indicates that it would be far better to find a way out of the violence, but sometimes entities have no way to escape from the violence.

The Two Great Deterrents to a Total Takeover of the U.S.

Sometimes, violence is brought upon them, forced upon them, and in order to defend their loved ones they have to take some kind of violent action in response to the violent threat. This Awareness indicates that such action is justified, even if undesirable. This Awareness indicates that it is possible to turn the other cheek, to allow the opponent to defuse his enemy's energy and hostility by turning the other cheek, then this would be more appropriate than to respond with violence, but entities cannot always know that this would be successful and often it only encourages the oppressor.

13. This Awareness indicates that given the time and situation that now threatens many entities in this country, it should be noted that the greatest problem the oppressors now face by their own estimate is the fact that one fourth of the families and homes in this nation have guns, and the Constitution of the United States. These two things are their greatest deterrent to total takeover and to totalitarian rule.

This Awareness indicates that *It* speaks to the rightness of the Second Amendment in the Constitution that guarantees entities the right to bear arms. This right to bear arms was not intended as simply a right to go hunting or to target practice; it was intended as a right to keep entities free from oppression of invaders or those within the boundaries of this nation, for protection against oppression of any source.

This Awareness indicates that there are certain responsibilities in having a weapon that must be understood and considered, which may discourage entities from having a weapon in their home. One of these is the danger of children finding such a weapon and using the weapon accidentally or irresponsibly and endangering themselves or others.

Another is the fact that if and when this country is taken over, one of the major focuses of the invading forces will be to remove guns from people, to disarm the people, and they will become targets for these efforts, and if you have a gun, you will be one who is sought out to have your gun taken from you, and if you resist, it is likely that they will be ready to deal with your resistance in an expedient manner.

This Awareness indicates that the only way that this Awareness sees whereby entities can protect themselves against well organized invasion of forces bent on disarming the masses, would be for these masses to organize prior to such disarmament efforts and become armies prior to being disarmed. This Awareness indicates that if each individual has a weapon but has no communication with others and there is no organization among the masses, and there are troops going from house to house searching for guns, then there is little use in having such guns, and you may wish to consider this when you consider whether to purchase a gun or forego the expense and responsibilities.

This Awareness indicates that too often entities think that having a gun makes them more potent and powerful and capable. What it really does is put them into a different category from the unarmed person, causing others to look at them with greater fear and with the need to have their own gun or more armed troops to deal with the individual. Thus it simply ups the ante and makes the stakes of the game more risky, and sometimes it is easier and less threatening to be less threatening yourself.

This Awareness indicates of course if you already see yourself as one who would be sought out as a patriot or as one who would be sought for extermination, and this troubles you, you may prefer to up the ante and make it more difficult for those who come after you, and in the meantime protect your loved ones as well as possible, even knowing that brute force is likely to come down upon you for any action you take against those intruders.

This Awareness is not speaking of street gangs or robbers or civilian intruders into your home. These you could no doubt frighten off with your gun, but when the government forces or UN forces or other special forces come knocking at your door to collect your gun, or your life, one gun in your hand only invites them to use an arsenal of weapons against you.

DOES OWNING A GUN ATTRACT NEGATIVE FORCES?

FOLLOW-UP QUESTION:

Does the mere fact of having a weapon draw to you the negative energies that would be associated with the need to use it for self-defense purposes?

This Awareness indicates this is negative, however it is likened unto an entity who studies karate. One can spend a year or two studying karate, and the entity then becomes so skilled in the art that when an event comes up that allows the entity to use his karate, he looks at it with a different attitude than if he had never studied karate at all. He is much more inclined to use karate or to rely on a gun than if he had no gun or had not studied karate, in which case, the entity would look for some other way of defusing the problem.

This Awareness indicates that sometimes there is no alternative way and the entity will use the karate as a way of dealing with a situation and will be very glad that he had studied karate. Likewise, the entity may need to use a gun and will be very glad to have one on hand, if threatened by someone when he could not otherwise escape.

This Awareness indicates that the fact of having the gun does not in itself draw the event to the entity, but it may embolden the entity toward the use of the gun when an alternative action could otherwise be possible.

This Awareness suggests that one thing to consider, if you live in an area that you believe to be dangerous; consider moving to a safer area if possible. This Awareness indicates that if you are a person who may be in danger because of something you have done, or the type of person you are, and moving would not solve your problem; in other words, if you are likely to be on a list for pickup and incarceration because you have been outspoken politically or in regard to some similar situation that you believe would lead to your incarceration, or even execution, in the event of a totalitarian takeover, then you may need to think of leaving the country and going to another land, if possible.

This Awareness suggests if it is possible to flee to avoid trouble, then flee. If flight is not possible, or the trouble cannot be avoided by flight, then consider trying to defuse the conflict that may come. If you do not see any way to defuse the conflict, then you may wish to find a way to protect yourself with whatever force is necessary and only to the degree of necessity.

If you can protect yourself with locks on your door and that becomes sufficient, then you do not need to rely on other weapons. If you do not feel that locks on your door will be sufficient, then you may wish to rely on other weapons. If court orders are sufficient, then get a court order, a restraining order or whatever, but if you know that this will not be sufficient, then you may need to rely on some more basic weapon.

This Awareness indicates that you begin with the least offensive approach, considering whether it would be effective and gradually increasing to more offensive approaches until you reach that which you know will be sufficient for your protection, for your family protection. This Awareness indicates if you personally are the target and your family is not and you can get the family elsewhere to a safer place or take yourself elsewhere so as to keep the family from being involved, then this would be an appropriate action, but if you cannot do this and you find it necessary to protect your family and the only means to do so is by use of a weapon, consider carefully what weapon you will use, for to use a slingshot against a cannon would be foolhardy and pointless. It would only bring down a quick response of cannon-fire against yourself and your family.

This Awareness indicates that likewise, keep in mind that a gun held out against an army or SWAT team is likened unto an entity challenging a tank with all its fire-power. It get to the point where it is a matter of common sense. This Awareness suggests therefore, you begin with common sense and recognize it is best to avoid any fights by whatever means is available and as these means are taken from you, select the next best approach, and if you are forced into full-scale war to protect yourself, your family, your friends and neighbors, your

country; then let it be done with a clear conscience and a knowing that it is not you who started this conflict, but that you are forced into it and must do what you must do.

This Awareness indicates that even the entity Jesus accepted an action of violence when he took the whip into the temples and attacked the money-changers. This indeed was an action of violence. Had it been more extreme, he might have even relied on a different more violent weapon, but the entity did not need to choose a greater weapon when the whip became sufficient for his purpose.

THE NATIONAL RIFLE ASSOCIATION: SHOULD YOU JOIN?

(Even "New Agers" are Listed on the Computers)

FOLLOW-UP QUESTION:

I have heard there's speculation that the recent push by the National Rifle Association to enroll those who own firearms in the United States is to computerize a list of names of these gun owners for those who plan to confiscate these guns in the future. Is there any truth to that theory?

COSMIC AWARENESS:

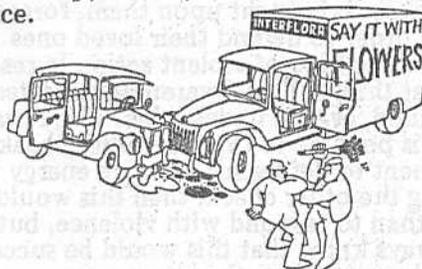

This is in the affirmative. This Awareness indicates it is likened unto certain of the organizations whereby you subscribe to a newspaper or magazine or join an organization. Often these are organizations or magazines set up by certain agencies that wish to locate people of a certain interest. The magazine that deals with survival equipment, for example, selling survivalist material, may create a mailing list of names which could help at some point an agency to locate those entities who are of that type mentality who have stored foods or weapons.

Why the John Birch Society was Created

This Awareness indicates that it is likened unto the John Birch Society in the 1950s and '60s which was organized to locate those who were of a certain mentality so that their names could all be put into the computer in case there was a need to round them up. Many of these researches and information data-bases have over the years created classifications for different types with names of individuals so that the names given by organizations can be linked to the names of individuals in different areas and categories to show what entities appear to be dangerous in what ways, whether they are carrying arms, whether they have a right-wing philosophy or left-wing philosophy; there is even a classification known as New Age type.

There are classifications for the New Age types wherein entities are listed under such classification so that they can be rounded up if it ever becomes important to the government to take the New Age types out of society, or they may be fed information if it becomes important to the government to have them used in the spread of certain information.

There are also those classed as UFO types; the people who might spread information regarding UFOs or who might need to be rounded up if it becomes necessary. This Awareness indicates that understanding how all of society is generally categorized according to various topics and types allows people to realize that they are seen as subjects. The concept of human resources becomes more meaningful when you classify all humans according to their makeup, nature, and how they may be used as a resource.

WHERE IN THE WORLD CAN ENTITIES FLEE
TO ESCAPE THE NEW WORLD ORDER SCHEME

15.

QUESTION:

Awareness, in times to come, you mention that it might be wise to flee to other lands. Could Awareness suggest which lands it would be safest to flee to?

COSMIC AWARENESS:

This Awareness indicates this will depend so much on each individual situation that it is not possible to answer with a single general response. If an entity is Hispanic in background it may be better for the entity to go to South America or Mexico or some Spanish speaking country where they can fit in well and feel more at home.

If an entity is Anglo-Saxon, they might prefer to go to Canada or England. If they have a special second language, they may wish to go to the country in which they speak the same language. They may wish to go to some island if they have sufficient income to provide them with fare and means of survival in such places.

This Awareness indicates that many of these other countries may only serve as temporary havens and entities may find it necessary to change their names and get different identification or fit in with the population in such a manner as to not draw attention to themselves. This is in reference to the potential of a totalitarian regime occurring in the United States, its transition to the New World Order, but this may be only stop-gap efforts, for if the other countries then join the New World Order, there will, in time, be cooperation between these countries to return any refugees.

This Awareness indicates that by such time, entities may have been able to be assimilated into the culture and country so that the dangers of being returned as having diminished. This Awareness indicates that *It* is addressing especially those entities who have resisted or who may resist the New World Order and who find it encroaching anyway. This Awareness indicates that these entities may be in dire danger because of the policies that would have them exterminated.

This Awareness indicates that *It* is looking in this direction, giving details and information for consideration. *It* is still hopeful and sees the possibility that none of this needs to transpire. This Awareness indicates that as of now, the energies have not diminished in terms of the threat, but appear to have increased. This Awareness indicates however, that there may be subtle changes behind the scenes that will suddenly come through and break or clarify or expose this situation so that it can be defused, and not transpire at all.

The natural energies relating to the movement of Earth through the photon belt could be of help in defusing the energies by causing entities to become more sensitive and aware. It is also seen that these energies could be misused by dark forces to polarize the masses into bringing about the conflicts more quickly and more intensely.

This Awareness indicates that within two weeks, energies will have changed sufficiently to allow a greater clarity as to the direction of things and energies of this concern.

ARE THERE FORCES WORKING BEHIND THE SCENE
TO COUNTERACT THE 'HOT AUGUST NIGHT' SCENARIO?

FOLLOW-UP QUESTION:

Is there any chance there are entities working behind the scene similar to the Skoptsis using robotoids and doubles a few years back that could eliminate or remove the main entities behind this current push?

COSMIC AWARENESS:

This Awareness indicates there are entities who have completely infiltrated the systems; the ranks of the plotters, and these entities have the knowledge and understanding of the entire plan and where it is going to go and when things change they are aware of it, and with that knowledge they have a certain amount of power, and the fact that they are there undetected gives them greater power than those who plot these dastardly deeds, and it is possible that there is further planning occurring in these areas behind the scenes to totally disrupt these power-plays.

This Awareness does not wish to go into this any further at all, for fear of exposing too much of the information about the Light workers involved. This Awareness indicates that it should be noted that there is strong force working for the good; that each day which passes allows this force to become better organized and to spread information about the dark force and its plans, which in turn weakens the dark force, and diminishes the chances of its plans being successful.

This Awareness indicates that *It* does not wish to give false hopes. *It* does not wish to create a sense of despair. *It* wishes entities to understand realistically the dangers that are prevalent at this time, and the importance of getting information out to the masses in the right way so as not to bring danger on anyone, including themselves, or to neglect informing people who need the information for their own protection.

This Awareness suggests that it is important for entities to communicate as much as possible, as far and wide as possible, and as quickly as possible the plans, step-by-step of the dark forces in the effort to take over the United States and destroy its Constitution and make slaves of its people. If the information can be spread quickly enough it is likely that the plan can be defused.

This Awareness indicates that this information needs to go to those in government, not in the investigative agencies so much, because most of those investigative agencies are being used in the plans of the dark forces and your communications would simply be wasted, but to elected officials and to religious leaders, to Jewish leaders, to black leaders, to groups and organizations and to prominent citizens and celebrities across the nation, to newspapers, magazines and to minor publications, so that the entities all have opportunity to pass along further the information.

Also, contact all your friends and relatives so that they too may be prepared or have an opportunity to prepare to see the events as they transpire in order that they might know what is coming next. If the information is not released quickly enough and events have already transpired, your publication becomes suspect, as entities think: "Well, this was written *after* these things happened. I can't really know if it's true until the next thing happens," and it may be too late at that point if entities wait for the next thing to happen.

Perhaps the next thing is when the troops enter and begin to go from house to house searching homes and rounding up people. Then it may be too late for these entities.

NO PLACE TO HIDE WITH BIG BROTHER EVERYWHERE

FOLLOW-UP QUESTION:

In the event this all comes down, does Awareness see the states of Alaska and Hawaii as giving some sort of refuge to those who might flee?

COSMIC AWARENESS:

This Awareness indicates that this only in the sense that there are areas of isolation. This Awareness indicates however, that even in these areas of isolation there is little safety because of satellites; this is in reference to entities who are trying to avoid being caught if they are being sought.

This Awareness indicates those who run to mountains to hide, who climb into caves or holes will be safe for a time, but satellites, which can see everything, even down to the size of a postage stamp, flying overhead on a regular basis, may have pictures of you being sent to some headquarters which may be looking for you or may match up your picture with that of your file.

This Awareness indicates that already these satellites have been used in Baghdad and Iraq with great success to keep track of equipment and people, and if you are one who is wanted, you cannot be safe simply because you hide in the hills or in the wilderness, unless you are totally aware of the overhead satellites and their schedules and take evasive action even from the spy in the sky.

This Awareness suggests also that wherever you choose to live you have to relate eventually to authorities if you work, if you do anything, if you start a business. It is possible you may receive help under the name of someone else who starts the business and thus receive some benefits from the work you are doing, but time can become burdensome to an entity who is always in hiding.

It is seen that many entities will want to change their names and begin again using some false identification or perhaps simply by changing the name and starting out and establishing oneself in a community, they can gradually become known in the area by this other name and then get identification, which allows them to start a new life.

It is not something that will necessarily be easy. This Awareness indicates that it is suggested that entities who have opposed the New World Order, who manage to survive beyond the first year or two, if the New World Order becomes well established, may not at that time seem to be such a threat, and perhaps the forces will not be looking for them.

This Awareness indicates that these entities however, by that time, may find it difficult to come back and rejoin society, or society may by that time have been forced to accept a mark or implant in the hand or forehead, which allows the individual to be monitored. This Awareness indicates that this becoming a climate in the new society, the New World Order, may make it so that many have difficulties in dealing with the customs and rules, and they may wish to remain outside of society.

It's too Early for Awareness to See the Outcome

They may wish to remain as outlaws if society creates a law that all entities must have the mark or implant. This Awareness indicates that it is too far ahead to discuss these things at this time, for there will be too many other factors involved. By the time much of this transpires, the Pleiadians will have made contact again with people on Earth and may be working toward releasing humans from their bondage.

The Greys already on Earth will be more exposed and the alien agenda will have begun its expression and it will have its effect. There are so many new aspects in the future. Earth changes will have occurred. Weather modifications and changes will be creating havoc in some areas. Economics will be a major concern within two years and the entire situation will be so much changed that to discuss anything that may occur is nearly impossible, there will be so many different factors to consider.

16. In some ways, when things are chaotic and more confused, the chance of creating or finding greater freedom increases, for in confusion, entities have more options if they have a sense of direction. Normally, when entities wish to take over, such as taking over the country, the first thing is to create mass confusion, and keeping everyone confused keeps them off balance and those who appear to know what they are doing are allowed by the masses to proceed with very little skepticism or questioning.

This is why the proposed plan for taking over the country is so likely to succeed if it gets started. This Awareness indicates the hope is that even if it does get started and does succeed, future conditions will create such chaos that new forces and new energies can pull out of these conditions a new direction toward a greater freedom and re-establishment of true democracy throughout the world.

WILL CANADIAN UN TROOPS INVADE THE U.S.?

FOLLOW-UP QUESTION:

Awareness, if this evil plan actually happens, as you indicated it might, are these UN troops who will come to America and go house to house, are these really UN troops, or are a lot of these Nazi entities included. I was thinking that because a Canadian friend told us that Canada, for example, has a large amount of its citizens participating as UN soldiers, and I can't see our Canadian friends coming to America and perpetrating atrocities like that.

COSMIC AWARENESS:

This Awareness indicates that the troops will follow orders for the most part. There are certain numbers or certain groups that will be especially trained; these being special services; these will be especially trained by those Nazi or fascist organizations for certain projects, and these will be the ones who create most of the mischief.

The other troops will simply backup and stand guard and keep the peace. Those who go to houses are more likely to be the Special Forces groups, such as those used by Hitler in the SS and Gestapo operations.

WHY WAS THE IRAQ WAR NECESSARY?

QUESTION:

One last question. This one from W.H. in Texas. "Reading the *Spotlight* lately, and what has been going on in the United Nations, I have to wonder if United States and our present leadership is more of a hindrance to the cooperation between nations and providing the leadership to bring cooperation among nations. The destruction in Iraq that occurred during the invasion seems far from necessary if the UN was going after alien bases. All the innocent children that have died and are still going to die as a result of that invasion is beyond expressing. The depleted uranium weapons that US forces used during the war are going to kill tens of thousands or hundreds of thousands more Iraqis and Kuwaitites in the years to come. My question is: Why was this destruction and slaughter of human lives necessary?"

COSMIC AWARENESS:

This Awareness indicates that *It* did not intend to imply that the only purpose of that Iraq war was to go after alien bases. The activity of the alien bases was just a part, a small part of the total purpose of the war. The purpose of the war had to do with creating a New World Order and using Iraq to demonstrate the superpower that would enforce the New World Order so that other countries could see that they must toe the line of the New World Order or face similar consequences.

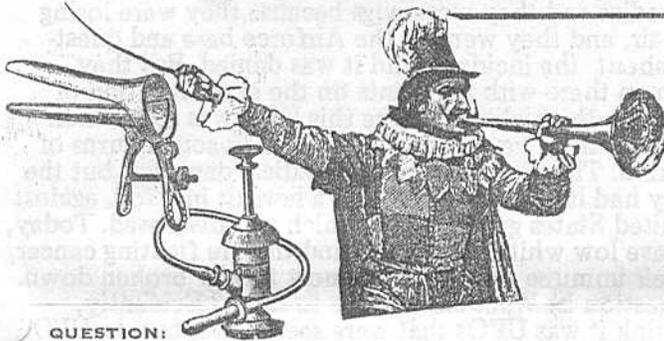

This Awareness indicates that the masses of people, the innocents of the land, as usual, are of little concern to those leaders. The fact that the leader of Iraq escaped unscathed, when he could have been captured or killed and Iraq could have been turned into a different type of government, giving its people greater freedom, or something beneficial from the war, suggests that there was a cooperation or respect for the leader of Iraq, and that it was

part of an agreement to let the country be virtually destroyed if the leader was spared and certain other rewards later given.

Preserving George Bush & Son's Oil Wells in Bahrain

This Awareness indicates that it appears that this was in part for influencing consciousness around the world and in part for helping Kuwait to gain back land that had been taken, and in part for extracting money from Saudi Arabia to help fight the threat of the Iraqi invasion, and for other reasons such as preserving the oil wells in Bahrain which are owned by George Bush and his son.

This Awareness indicates that it was also part of a plan to alter the balance of power in the region. This Awareness suggests that the tragedies involved are inexcusable, that these things could have reached such a magnitude. It was much like the "Dream Team" basketball group, wiping out other teams by 50 to 70 points. It goes beyond competition and reasonableness. It is simply designed to show the enormous power of the United States and the United Nations in their ability to deal harshly with those who do not conform to the demands and rules of the United Nations. This Awareness indicates it was designed to make the United Nations appear to be a power that cannot be challenged, as part of setting up the New World Order.

QUESTION:

A question from J.M., Pyramus, New Jersey. "In Michigan there is a 63 year old doctor, Jack Kevorkian, with a suspended license, who was providing means of suicide to critically ill and suffering patients. He insists that he is doing a humanitarian job by saving helpless individuals from pain and that he is not doing the killing himself. He is only providing the means by his "suicide machine," and giving instructions on how to use it, and the patients themselves are terminating their miserable life on this physical plane by activating the machine. His case has been and is being given lengthy news coverage nationwide. The first question is: Is this entity, the doctor, by this kind of act, bringing good or bad karma upon himself?"

COSMIC AWARENESS:

This Awareness indicates the entity is not bringing good karma upon himself for in the action of assisting others to self-murder or self-killing, he is an accomplice in the act. You cannot help another to commit a crime without being an accomplice to that crime.

This Awareness indicates that the act of suicide should not be encouraged, for there is reason for entities to experience suffering when suffering becomes part of their lives. It is essentially part of their karma, and if you take that karma from them, they will need to come back and do it over again to experience the suffering that was required of them.

This Awareness indicates that also, often during times of suffering, entities learn the most important lessons of their life and if they do not have that time of contemplation, which is perhaps a time of suffering, they may totally miss the meaning and purpose of their lives.

This Awareness indicates also, if entities cannot tolerate the suffering, there are normally various ways whereby the suffering can be relieved short of suicide. There are drugs; there are certain types of operations and treatments to

OPENING MESSAGE:

This Awareness indicates that energies have been put in motion which appear to be those that will help to bring about considerable clarity; that this is not to be underestimated. It is no small thing. This Awareness indicates that the continued movement in this direction as that which may be of great value to this plane; that it relates to the *Law of Leverage* wherein a small amount of energy, applied at the right time, in the right place, in the right way, can move huge amounts of energy, which might not be movable at a later time, or from another way.

The timing is critical and the means is most important as it relates to the timing. The means is only available at the right times.

ED's Note: After the reading on "Operation Hot August Night" given on July 15, 1992, Awareness presented more bits of information in the opening and closing messages of those readings that followed in the next few days. For historic reasons, these bits and pieces have been included in this newsletter. For more information, please refer to "Revelations of Awareness" No. 92-12 (Operation Hot August Night): \$3.00 from CAC.

DR. KEVORKIAN'S "SUICIDE MACHINE" -- IS HE CREATING GOOD OR BAD KARMA?

relieve the pain. Nerves can be severed or other actions taken to help alleviate the suffering and pain.

This Awareness indicates that to set the precedence of killing people who are in pain or helping them to kill themselves is a step in the direction of mercy killing. The next step might be to help the person by pulling a lever and giving them gas, as in a gas chamber, or by pulling a lever and executing them. Is this murder or is this simply helping them?, particularly if they cannot pull the lever themselves.

This Awareness indicates that further on, a step might be to decide that: "These people are incapable of consciously understanding their situation, that they are dying and they need my help in thinking and my thinking says that their lives should be terminated, thus, I will help them by thinking for them and by terminating their lives."

This Awareness indicates that such might be a further step down the road resulting from this early step toward helping those entities commit suicide to where you are even making the decision for them. It may not be this entity who does it; it may be another enterprising doctor who decides that the people do not have the mentality to make proper decisions and that doctors should make the decision for them and terminate their lives.

It then becomes a method whereby doctors who cannot find a cure with their inadequate medicine can simply terminate the patient and say it was for their own good and they simply helped them to die because their lives were destined in that direction anyway. This Awareness does not approve of this kind of interference.

Doctors are required to take an oath to help heal and to help relieve pain, but not at the expense of killing the patient. This Awareness indicates that any time something is initiated to move entities into a non-traditional direction in order to evaluate its value, impact or correctness, entities should ask themselves if this is allowed, what happens to the next doctor of a similar mental attitude who wants to push back the envelope, push back the walls, push back the fences, push back the barriers a little further, because there will always be someone else coming along to do so, and if you do not stop it here, what happens when the next one comes along and pushes back the new barrier, for the new barrier will be further into the direction of that same movement.

This Awareness indicates that you can easily see that this¹⁸ kind of continuous pushing to alleviate the suffering of people for being old, for having disease or illness, could eventually lead to a society that simply kills its weak and kills its old so that everyone has to be healthy or be exterminated. This could eventually occur if this kind of mentality prevails and keeps pushing back the barriers.

FOLLOW-UP QUESTION:

In regard to these entities who are denied the experience of feeling pain and thus, as Awareness indicated, often must reincarnate again to experience it, does this also apply to those terminally ill people where professional doctors give them pain-killers, heroin derivatives and so on, to ease the pain?

COSMIC AWARENESS:

This Awareness indicates that this is not so much a negative karma as it is the denial of an opportunity these entities might experience from the ability to fully experience the pain. It is not that the doctors receive a negative karma for helping them avoid the pain, but the entities who are courageous enough to experience the pain may have benefits from that experience which help them in future lives to be able to tolerate greater thresholds of pain, or to be able to control their minds in such a manner as to not be victimized or influenced by physical pain.

How Edgar Cayce Received His Psychic Powers

This Awareness reminds you of the story of Edgar Cayce, in which the entity describes how he received his unusual psychic power; that these came to him because in a previous lifetime he had been severely injured and suffered, and in the suffering found no relief and had to use his mind to go beyond the suffering and to rise above the suffering by moving out of body, and the out of body experience learned in his dying days of his previous lifetime allowed him to have the psychic ability in his next lifetime to leave the body and to detach and go elsewhere.

This Awareness indicates that had someone been there to administer drugs to prevent him from feeling those pains, this would not have been his destiny, and he would have not developed those special psychic or mental powers. It is not a matter of karma so much as the denial of an experience that could be a learning experience.

This Awareness still suggests that entities relieve the suffering and tragedy of others. *It* understands the need for entities to reduce suffering and pain and does not ask entities that they suffer needlessly, but *It* does suggest that it is an enormous violation to oneself to kill oneself in order to avoid some suffering that may be involved in the death process.

While as long as there is life there is a chance for new understanding and self-discovery which can be of enormous value to the soul. As long as there is life there is the potential for something good to happen to the entity or for the entity to do something good for someone else, but if the entity denies himself or herself the rest of his or her life, he or she may be robbing a loved one of precious moments that can never be restored.

FOLLOW-UP QUESTION:

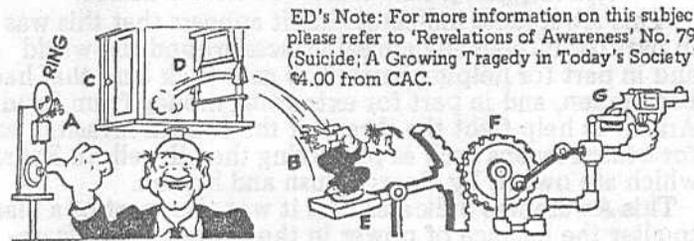

Would the same apply to people who kill themselves or their families for other reasons; for example, Hitler, his cabinet, his high officials in the bunker took poison, and poisoned their children and shot themselves, not because of the pain, but because they knew what they had to face, which was probably execution or life imprisonment. The same would probably apply in cases like that, would it not?

COSMIC AWARENESS:

This Awareness indicates that in such instances, the circumstances are perhaps different in each case, but anytime an entity takes his or her life, or the lives of others, they are denying lessons that need to be learned or opportunities and experiences that could be of great benefit to the soul of the entity involved, especially when entities in such

cases would kill their family to prevent the family from facing the consequences of their behavior.

There is seen little or no redeeming value in such an action.

ANOTHER "UNSOLVED MYSTERY" IS SOLVED

QUESTION:

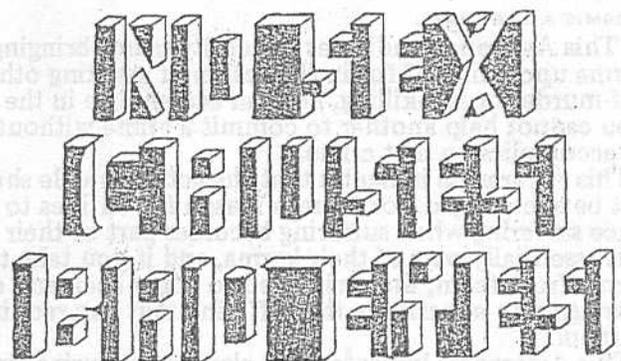

On July 10th, 1991, on the TV program called *Unsolved Mysteries*, there was a story out of Dayton, Texas, that a UFO landed on a highway there. It left huge burnt circles on the highway, which were later removed by unmarked trucks and replaced with cement, and two entities, Betty Cash and Vicki Collins, I believe were their names, happened to be in that area near Bergstrom Airforce Base, this on December 29th, 1980, and they had blisters all over their bodies and they wore wigs because they were losing their hair, and they went to the Airforce base and questioned about the incident, and it was denied. But they saw a map there with pinpoint on the exact location of the spot on the highway where this UFO was seen. Their doctor said they were suffering from radioactive burns of some kind. They filed claims for medical damages, but the military had it denied. They filed a lawsuit in 1982, against the United States government, which was dismissed. Today, they have low white blood cells and they're fighting cancer, and their immune systems are almost totally broken down. The question is: What caused this to them? Evidently, they think it was UFOs that were seen there, but do UFOs emit radioactivity? Can Awareness explain what happened?

COSMIC AWARENESS:

This Awareness indicates that it appears to have been one of the experimental craft built by the government, using nuclear powered engines. That some of these more rudimentary craft use the nuclear powered engines, whereas the more highly sophisticated alien craft use Element 115 and a different type of engine. It appears that the entities were the victims of being in close proximity to this craft.

It does not see that there is much these entities can do in getting an admission in this regard.
