Helping People Become Aware

The Evolvment of the Soul

WHY IT IS IMPORTANT TO THE SOUL TO HAVE PHYSICAL LIFETIMES

(Why Put Off Something that you Must Eventually Learn?)

QUESTION:

A question from J.M. She writes: "How important is it that we as human beings strive to reach full Christ Consciousness and ascension in this particular lifetime? I have been following the teachings of both Ramtha and Mafu for some time, and they both insist that the opportunity to achieve this will not be available again for eons of time. Is this linked to the genocide plan, and the supposition that there will be many fewer physical reincarnations available in proportion to the number of souls who wish to reincarnate? Also, can this step in consciousness only be made while in a physical body, or can it ever be achieved while in spirit?"

COSMIC AWARENESS:

This Awareness indicates that the particular opportunities that are available while in physical form are of such unique qualities that they cannot be achieved while not in physical form. This Awareness indicates that indeed it is the physical experiences which are at the source of the opportunities. It is as though one were to ask: How can I become a better mountain climber?, when the entity does not wish to climb mountains. The action of the experience of climbing the mountain is necessary for the entity to acquire those skills.

This Awareness indicates that one can live in a world in which mind is of greater power than the physical reality, and can express self through mental projections and images, but until one has encompassed a physical reality in which the mind must challenge that apparent physical reality in order to overcome and to prove itself master of the physical reality, the mind never reaches its greater potential. The same can be said for the soul development; that wherein there is a challenge to the soul's development, it will be of greater growth in meeting such challenge, thus, the involvement in physical matter as that which allows the soul to have a greater challenge and therefore to become its full capacity in meeting that challenge.

This Awareness indicates in reference to the potentiality of not having an opportunity again of this nature for some time, that this as a general statement which may or may not apply to each individual in the same way. This Awareness indicates however, that in a sense, there can be challenges at this particular time which create opportunities of greater growth in a more brief period of time than those which might occur in the next century for example. This Awareness suggests however, that even in a future lifetime in physical form, there can be great opportunities for growth. This Awareness indicates often entities are presented with ultimatums that they must make it in this life, or they will have little opportunity to make it again. This is an old ploy for getting entities to work to do the best they can.

This Awareness indicates that the Christian religion has a history of implying that there is only one chance and none other. This Awareness indicates that there can be more opportunities for growth, but if one can grow and develop in this particular lifetime, which is the lifetime you are most concerned about now, then that would be to one's advantage. Why put off learning something that you must eventually learn? This Awareness indicates the rewards for having learned the lesson will be greater the sooner you learn the lesson, and the greater rewards will allow you to move into still more challenging and more rewarding experiences.

A Stagnant Life Today Could Set a Pattern for Future Lives

This Awareness indicates that entities who wish to be lazy, to kick back and relax and let life take its course without their being concerned to the point of improving themselves, generally will find themselves stagnating, rather than simply keeping even. It is to an entity's advantage that they grow and develop as much as possible,

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

because one cannot stand still without stagnating. This Awareness indicates that the stagnation an entity experiences in a lifetime may have its own karma which may carry over into future lifetimes, so that the entity continues to stagnate because of a pattern that has been established previously.

This Awareness suggests therefore, it is important that entities realize the value of self-improvement, of growing and developing the highest and best that they can project in their expression of life. This Awareness indicates that intensities such as have been presented during this unique time, a time of transition between two ages, offers opportunities of greater growth than might occur in, for example, a hundred years or in the next century, wherein the disturbances that are presently felt have been pacified and routines have been set up; in such a pacified situation in which routines are part of the environment, entities do not tend to grow as quickly or as rapidly in terms of soul growth and evolution as they might grow during times of chaotic or disturbing situations.

This Awareness indicates indeed, these times classify as times of chaotic disturbances and uncertainties for most entities on this plane. These may either be directly felt by entities or may be witnessed by entities who see these disturbances affecting others.

WILL EARTH LIFE EXPERIENCE REALLY BE DENIED? 3. (Do We Really Care?)

FOLLOW-UP QUESTION:

Then this isn't valid, where she says that she's heard that the opportunity to achieve this will not be available for eons?

COSMIC AWARENESS:

This Awareness indicates that the validity is only in the sense of the peculiar or specific lessons because of the specifics of these particular times. It is likened unto an entity who travels on an adventure into a remote area in which there are many hazards. The entity may learn considerable lessons from overcoming those hazards, but these lessons may not necessarily be applicable to other areas in the entity's future experiences, so one can say that the opportunity for learning these particular lessons in terms of this experience may not be repeated again, but then, the question arises: Who cares? There will be other experiences and other lessons which may be also of value.

This Awareness suggests however, that it is presented to entities, experiences on this plane, in which an entity can learn or disregard the lessons of those experiences, and if the entity disregards those particular experience/lessons at any point in his or her growth, there is a certain loss in terms of the value of having experienced that lesson/opportunity. This Awareness indicates for example, if you go through a month of intense living situation, and learn nothing from it, you are likely destined to repeat some similar situation again, thus experiencing all the negativity again in a similar situation, so that the next time, you then have the opportunity to learn some lesson, and if the lesson is not learned, you may still again repeat a similar situation, whereas the entity who learns something from a situation is not required by circumstances to repeat the same situation, or if the entity does learn from the situation, the next time the entity repeats that similar situation, the entity knows what to do, how to respond to the situation in such a manner as to pass through the experience more easily.

Learning from Trials and Tribulations

This Awareness indicates the entity who has never been sued in court, may have an extremely difficult time in the first experience, but if the entity learns considerable lessons from the experience and is again sued, the second time becomes less traumatic, because of the lessons learned. If the entity has learned no lessons, the second experience may be just as traumatic as the first. This Awareness indicates the entity who has learned from both experiences, and who, on a third occasion is again sued, may find the third time that it is still easier. This Awareness indicates that one who has been sued hundreds of times, take it as par for the course and thinks little of it. It is a question of the trials that one goes through, the tribulations that one goes through, whether the entity has been able to learn from the previous and similar trials and tribulations or whether the entity must face each trial and tribulation without the benefit of having learned anything from the previous trials and tribulations.

This Awareness indicates that each time an entity learns something, it is in essence part of soul growth, part of one's development, but if entities simply go through experiences, for example, one relationship that turns out badly, followed by another, and another and another, and the entity never seems to learn and continues picking the same types of relationships without having learned anything in terms of selectivity or discernment, then the entity may continue to have poor relationships with others. If the entity cannot see mistakes that are made, and correct those mistakes, then the entity may repeat, repeat, repeat, the same errors, the same mistakes and continue suffering the same outcomes.

Thus, the entity who learns from an experience gains the benefits the experience had to offer and is better off for having had the experience, even if it were a negative experience, because of the lesson that had been learned, because of the growth the entity experienced from the negative situation.

WILL FUTURE SOULS BE DENIED REINCARNATION?

FOLLOW-UP QUESTION:

Is it valid where she says in this question that there will be many fewer physical reincarnations available in proportion to the number of souls who wish to reincarnate?

COSMIC AWARENESS:

This Awareness indicates that this is not an area that can be answered with yes or no; that there are potential hazards for the human race in terms of the loss of large numbers of masses in future times; this through disease, through war or through other situations. There are also potentials for continued growth and a certain degree of peace and harmony for some time, depending on how the energies are dealt with. This Awareness reminds you the future is not fixed; that one might envision a depopulation of the earth to such a degree that only a few survive, or one might envision a continuation of the present population with a more peaceful scenario in future times, in which the people who presently live have children, and their children have children, in a world in which greater organization, harmony and structure continue.

This Awareness indicates that depending on what entities do, this time may be extended or reduced, so that there may come a time in which depopulation of the earth occurs, or there may be an extension of peace and harmony so that the earth remains highly populated for many years even throughout several centuries. The question implies that an individual may not have the opportunity again to reincarnate, and experience a future lifetime on earth because of the depopulation of the masses, as though everyone, or great numbers of entities are going to be whisked away, unable to enter the door and come back for another chance.

This Awareness indicates that these implications depend on what happens to the greater population of the earth as well as to the theoretical individual who is being spoken of. One entity may come back, another may be stuck on the other side, unable to return. It is not something that can be answered so simplistically as implied in the question. This Awareness indicates that if entities are thinking that: "Hey! If everything is going to continue like it is, I won't grow in this life, I'll wait til the next time and do my spiritual growth!", then this Awareness suggests that this may be an illogical approach for the opportunities may or may not be presented to you, but if an entity becomes overly concerned and states: "Hey! Things are going to get much worse. I may not be able to come back. I must grow as well as I can, as fast as I can. I feel a sense of desperation. I must evolve. I must evolve. What can I do to evolve more?", the entity may become so overly concerned about evolving that the entity hinders his own growth and disturbs his own peace to the point whereby the entity stops evolving and becomes a nervous wreck, hindering any opportunities for evolvment.

Opportunities to Evolve Occur Daily

This Awareness suggests the opportunities for evolvment come to you on a daily basis, as you face situations, as you look at alternatives and options, determining what to do, whether to denounce this person, judge this person, insult this person, compete with this person, or whether you seek to find some reconciliation or find some way to understand and resolve a difficulty. Opportunities come to you when you are presented with choices, with learning opportunities, with situation that allow you to find ways to improve your response, to respond in a new way that makes you feel better about yourself, than what you might normally do. Opportunities come to you when you find information through the writings of others or the teachings of others or the expressions of others that enhance your ability to better understand yourself and others; these are the ways whereby you evolve, and these come to you on a daily basis. It is not something where you must concern yourself with: "Hey! I've got to get evolving here! I may not get to come back again in my next life for many centuries!", and whereby such concerns create worry and

frustration, fear or feelings of inadequacy.

This Awareness suggests that you simply move from moment to moment, searching out the highest and best response to every situation, meeting the challenges, doing what feels to be proper to you, being careful as to how you judge others, avoiding judgment if possible of others and self, discerning clearly without condemnation, understanding as much as you can without feeling that your view is the ultimate view of things. This Awareness suggests that as you become more receptive to hearing the various points of view, and discerning the flaws and the correctness of those views, you are evolving. That discernment is part of the evolution of your soul, and it occurs moment to moment, day by day, throughout your lifetime.

This Awareness indicates that by placing your allegiance, your loyalties, your attachment to those things which you hold to be the Highest and Best conceivable, the Divine Laws, energies and concepts; by aligning yourself, attuning yourself with these Highest and Best, you will be evolving at your greatest speed. This Awareness does not advocate that entities use threats to get others to evolve, and perceives the statement that 'this is your only chance for many lifetimes to really evolve,' sees this as a kind of threat; that the threats are much like sales pitches, in which entities are told: "If you don't buy it now, you may not get the chance to buy it again, because we aren't coming back this way for many many years."

This Awareness indicates the opportunities are always there for entities to do a little better, or a little worse. This Awareness suggests that every moment contains the Highest and Best and also the lowest and worst, as options within that moment, and this Awareness suggests you move toward those opportunities that give you, and allow you to express the Highest and Best in every moment.

ARE THERE OTHER PLANETS SIMILAR TO EARTH WHERE ENTITIES CAN ALSO SPIRITUALLY EVOLVE?

(Are you Curious for a Change or Earthbound by Hamburgers?)

FOLLOW-UP QUESTION:

In the unlikely event that there would be some kind of war, or the Global 2000 planner's scheme might actually come to pass and there were very few entities left, there are other systems and other planets in the universe where entities could go for life experiences and growth that would be similar to earth, is there not?

COSMIC AWARENESS:

This is in the affirmative; that the question of whether entities would go is to be considered, for entities go to those things to which they are attached psychologically. If entities are earthbound or attached to things of the Earth, psychologically attached to those pleasures of the Earth, they are likely to linger in the atmosphere of earth. If entities have a psychological attachment to those things which are spiritual in nature, to that which is Divine, they are likely to go toward that which is the more abstract and Divine experience after death.

If entities have no particular allegiance to the earth, such as a patriotic individual who is absolutely devoted to those things of the earth, the sensations of the appetites, the favored beer, the favorite car, the favorite types of women or the favorite types of men, the favorite things which draw the entity so much to the earth plane; if entities don't have this particular allegiance or patriotism to the earth and its sensual appetite drawing power, they may choose some other planet out of curiosity.

If entities have a strong curiosity about other systems, other planets elsewhere, that is where their allegiance or their interest or their loyalties are toward fulfilling their curiosity, and therefore the curiosity which they are loyal to may be sufficient to draw away from the earth plane and to go toward some other system whereby they can experience and express themselves in a different setting. It is a matter of attachment. To what are entities loyal to?

4. To what are entities attached to? To what are entities bound to?, for those entities who are earthbound, they may linger in or around the earth until they can again re-experience physical sensations, and this in some instances may require that they forego other experiences in other areas while waiting to reenter into this earth plane.

CAN YOU BE ONE WITH GOD
AND STILL HAVE A BEER
AT THE TAVERN?

IS EARTH THE ONLY PLACE
FOR SEXUAL PLEASURE?

FOLLOW-UP QUESTION:

Many people would probably be drawn back to earth because of the sensual pleasures, the sexual experience and so forth. Is Awareness saying that this earth plane is the only place where this type of experience can be experienced?

COSMIC AWARENESS:

This Awareness indicates that this is in the negative; that these experiences may occur in other areas also, but if the entity is so earthbound and so drawn to particular sensual data that he or she is familiar with in terms of a patriotism toward a certain place or a loyalty to a certain type of person, or particular tavern or particular type of beer or other appetite pleasers, the entity may not even perceive of going elsewhere, because the entity never got weaned from the earth appetite pleasure-seeking, and so the entity is stuck, much as an entity may be stuck in an entire lifetime on Long Island or some city on the earth plane, never having the curiosity or wanderlust to go out and seek new territories, or find new frontiers. The entity may be perfectly content to walk back and forth from his home to his local bar for many years without changing the routine or pattern because of the attachments that have been formed.

Attachments Determine Where the Spirit is Drawn

This Awareness indicates that likewise, an entity who is so physically earthbound in regard to the satisfaction of his or her appetites, may have little interest in looking elsewhere, may not even conceive of life on other planets, or in other systems or on other planes or other frequencies, and so the entity, seeing nothing else anywhere beyond those areas which he or she has been attached to, upon passing over, may linger in the same areas, much as a ghost, haunting a particular place, and the entity may be drawn again to that same family or group of friends or particular location. The entity, having attachments that are the greater part of the entity's soul, will follow those attachments. If the attachments are to a particular place, group, family or certain loyalty, the entity will gravitate to that area. If the attachment is to that which is spiritual, abstract, Divine, the entity may seek to merge with those higher frequencies and vibrations.

If the entity feels that there is some other realm to which the entity may go, and that other realm calls, or stirs a longing within the entity, then the entity can drop the earthbound attachments more easily and move on to those other realms or areas. This Awareness suggests that the path toward a spiritual life is based upon an individual's longing to be with the Divine Creator, and when that longing is greater than any other longing, the entity, no matter where he or she is, will be attached to the Divine.

This Awareness indicates that many entities think that if they are truly longing to be with God, they must pass over and forego all earthly experiences and move toward God. This Awareness indicates however, that the longing to be with God, or whatever you call the ultimate Divine Force, is in itself the attachment to that Divine Force, and

IS-REINCARNATION A RETURN TO KINDERGARTEN? (More on Illusion and Who you Really Are)

QUESTION:

S.P., Charlotte, N.C., is a relatively new member, and she sent in pages and pages of questions, which I'm not going to ask now, but she writes an interesting statement, and I would like to read this and ask Awareness to comment. She says: "I am sending these questions to your attention. They are very important to all of us. The readers must have their interests stirred up concerning what is most important to them; their spiritual growth, their spiritual and physical freedom. It appears most people are in a state of lethargy/apathy about this. They must have a strongly defined interest in this so others do not take control of their lives and future to their own detriment.

"The cause of earth's problems must be healed. Healing the symptoms here and there will not cure the problem. When the beings on the other planes and dimensions have a perfect healing, there will be no negative consequences for us to deal with. There will be the desire to work together for the common spiritual good. When sufficient numbers of people are awakened to this understanding, the limitations and all areas that are not for our highest good will disappear. We can and will ascend from all physical planes and return to our oneness with God. When we are in a really godly knowing state there is no need for physical experimentation, physical experiencing, because we will already know what it is like and what it will present, and therefore, to do so would be redundant, nonproductive and a waste of time and energy. In our future, we will have more productive things to do. Do you see what I'm trying to point out? To be in the physical somewhat separates us from God, a duality. Certainly that is not for our highest good. Look what pollution it has caused this physical plane, look what it has done to this beautiful planet. To continue to reincarnate is akin to volunteering to stay in kindergarten the rest of eternity."

Would Awareness comment on that please?

COSMIC AWARENESS:

This Awareness indicates that the action of being within a physical body is that which creates for an individual an opportunity to live in an illusion that is created by the senses, the illusion being that which the senses create through their misreading of that which they perceive. For example, the eyes can only see a small portion of reality, and the eyes tend to imply that there is matter of a certain nature out there, when in fact, matter is of a totally different nature than what the eyes perceive. Your scientists understand matter as energy and as a bunch of shimmering atoms, yet the eyes do not perceive this understanding.

This Awareness indicates the ears can only hear a small portion of the sound that emanates from the universe, and the taste and smell and touch, the feeling mechanisms are limited. This Awareness indicates that because entities are locked into these physical forms, in which the senses give false information, entities have the experience of residing in an environment that is based on illusion, or limited view of reality, wherein they only see a small, a very small percentage of reality. They only perceive a small percentage of reality.

During this experience in the physical body with the organs of perception, entities have the opportunity to discern truth that lies beyond the lie of the perceived reality, or they have the opportunity to buy and embrace the lie of the perceived reality, believing that their senses tell them What Is. This Awareness indicates that in this sense, physical life makes evolution toward truth more difficult, but it is an opportunity of great magnitude to be put in a situation in which you are forced to discern the lie and the truth, while being given false data from your receptors, from your organs of perception, which will allow you in such opportunity to become much more discerning if you choose to search for truth, and

it can occur anywhere, for the Divine Force is everywhere present in the universe, and one need not pass over to be with God. One needs not leave the earth, needs not leave the body, needs not pass through death's door, to be with the Divine.

If one's longing to be with the Divine is great enough, that is where the attachments are and that is where one's attunement is, and the entity is one with the Divine. This Awareness indicates however, if one is claiming to be desirous of unity with the Divine; if one says: "I want to be with God but I just have to have another drink at the tavern," and the entity's loyalties are split, and the entity is drawn with great loyalty to that experience at the tavern, wherein he or she creates a division of loyalties, then the entity is more loyal or more attached to that which wins out in the struggle, and if the entity creates a polarity or choice between God and the tavern, then the entity will, in choosing the tavern, be rejecting God.

This Awareness indicates however, if an entity sees himself or herself as being one with God, and seeing that as the ultimate experience, and the primary attachment, it is not inconceivable that the entity, in carrying God in his or her heart, in being one with God, could also walk into a tavern and have a drink, if that drink does not become primary or of greater importance. Thus, an entity may be one with God and still have a glass of beer, but if that ice cream cone becomes more valuable and more important to the entity than his or her allegiance to God, then the entity is following the ice cream cone, and the loyalties to the ice cream cone separate the entity from God.

This Awareness indicates it is so simple. It is a question of where your highest loyalties lie. To what is more important? Is your mate more important than your relationship with the Divine? Is your ice cream cone more important than your relationship with the Divine? Is your drink more important than your relationship with the Divine? If your relationship with the Divine is of more importance than anything else, then all of these other things can be available to you without divorcing you from the Divine.

if you have the time and inclination to look beyond the illusion.⁶ The majority of entities accept the illusion as a reality and believe what their senses tell them, and the majority of entities therefore are trapped in the maya or false perceptions of reality.

This Awareness indicates however, that those who become capable of eating not of the Tree of Knowledge, provided by the five fruits of the senses, but are capable of moving into the Tree of Wisdom, eating of the Tree of Wisdom, seeing beyond the five fruit of the Tree of Knowledge, into that universe of frequencies and vibrations that lie beyond the five senses; these entities have a unique wisdom that come from developing discernment, and this quality is that which cannot be taken from them, so that they are not again easily deceived by the Prince of Lies, by the illusion fostered through the five senses.

Perceive the Truth Beyond the Illusion

This Awareness indicates that such entities who understand the realities that lie beyond the five senses and what they perceive; these entities again are inhabitants of the Garden of Eden, the Kingdom of God. Those who eat of the Tree of Knowledge of the five senses and perceive not beyond those five senses, those entities are lost. Those entities are expelled from the Garden of Eden and are caught in the web of matter. For those who do not buy the illusion of the five senses, the web of matter does not exist, except as an illusion, and those entities perceive the illusion without being caught in the illusion, and such entities recognize that consciousness is the reality and matter is the illusion.

This Awareness indicates that you need not worry about escaping from life or from physical experience, but rather that you concern yourself with seeing, perceiving the truth beyond the illusion, and let the illusion continue without being caught in it. You are not matter. You are mind. You are consciousness, and all that which is called matter and is perceived by your five senses, that also is but illusion and is, in reality, consciousness. This Awareness indicates the earth itself is consciousness being processed, information being processed into its own particular system, which you perceive as matter, but which in reality remains ever and always consciousness.

THE HIGHER PRINCIPLES OF UNIVERSAL REALITY --UNDERSTANDING FRAGMENTATION OF GOD

QUESTION CONTINUES:

She writes: "These questions are the product of much research and contemplation, using logic and intuition. When the correct number of minds are awakened to the truth that will set us free, we will have the unlimited blessings God desires to give to us. We must step aside, outside of the artificial, superficial environment created for us, to delude ourselves, to control us. One of my main questions is: Why don't we have protection from the reliable, trustworthy and legal galactic and intergalactic confederations with good spiritual values, as concerns negative space people, intruders, outsiders, abducting our people, animal mutilations and so forth, conducting illegal and illicit experiments with our people, animals and so forth, and interfering from other dimensions with the spiritual growth of the peoples of earth?"

COSMIC AWARENESS:

This Awareness indicates all these so-called negativities, whether they be demons or aliens, are part of the creation of consciousness which entities have perpetrated over eons of time in their mental expressions and creations. This Awareness indicates that in the beginning was the vibration. The vibration was pliable. The pliable vibration was consciousness. This consciousness was capable of being molded into anything, and it created reflectors, and these reflectors were conscious of the consciousness. They reflected the Creator, and these reflectors of the Creator themselves began creating with consciousness, with vibration and frequency, and there are many who think that God, the original creator must have created evil.

This Awareness indicates that *It* created reflections of *Itself* and these reflectors created other reflectors, and all these different reflectors were information processors, processing fragments of Universal Consciousness, and gradually after many duplications and reflections, many of these reflections began to take on more and more fragmentation so that they did not contain sufficient amounts of the Universal Consciousness, but contained only fragmented consciousness and the consciousness was self-centered on their own particular fragmentation, and such fragmented consciousness is self-interested, and self-interest leads to vanity, and vanity is that which leads to egotism, and egotism implies that there is something out there which is of competitive nature, different nature, or of inferior or superior nature which must be reckoned with, and the egotism or vanity which these reflectors held, created for them a sense of polarity, and the polarity between beings as that which led to the perception of good and evil, and some beings felt themselves to be good, and others to be evil, and some reflectors felt themselves to be good, even though accused of being evil, and some reflectors felt: "Well, so what if I'm evil! What does that matter? So long as I get my way!"

This Awareness indicates in this manner various beings came into existence as reflections of certain fragments of consciousness, and these fragments are information processors and they process within their limited knowledge, their limited understanding of themselves, and the information which they process is based on ignorance of the whole; they ignore part of the totality and focus strictly on their own fragmented view of things, and thus, the separation of these entities, the separation of their consciousness, their attitude of being separate is that which creates for them the sense of isolation, separateness and competitiveness toward other fragments, or toward other beings.

How the Darkness Could Fade Away

This Awareness indicates that the suggestion that entities can heal these dark beings, or these fragmented beings is in itself a unique suggestion, for to do so, would be to imply that these fragments which are termed negative beings, can be made into good beings, and this in itself is erroneous in that the very nature of separation is that which creates the illusion of evil; that the so-called badness or evilness of these beings is simply the result of their belief that they are separate from the whole, but at the same time, the suggestion that these entities can be healed is that which has certain merit in that if these entities somehow can be made to realize they are not separate, their fragmentations are but illusion, and that they are in fact, part of a greater whole, and that their perception is what limits their experiencing of the totality of cosmic mind, then these entities could rejoin Universal Consciousness, not being reflections based on fragments of consciousness, but they can expand their sense of attachment to become One with Universal Consciousness, and in so doing, that illusion known as evil, or the competitiveness of their egos and self-interest, will begin to fade and disperse.

"And to think that one day it could all be in paperback."

This Awareness indicates it is not something that individuals can do to them. It is something that can come about as entities become aware of the nature of the fragmentation of the reflectors of consciousness, so that the individual in allowing his or her reflection of consciousness to go being the fragments and merge with the Universal Consciousness, as these experiences multiply wherein more and more reflectors disperse their fragments, put down the information that is being processed as a fragment, lay that aside to merge with the Universal Consciousness; as more and more entities do this, the reflectors of consciousness begin to see the greater Light that emanates from this higher attunement of more and more reflectors rejoining Universal Consciousness, and in this process those fragments, which are known as dark forces, will find themselves facing greater and greater Light, and the polarities will diminish, and they will see that they are part of that greater and greater Light, and their reflections must reflect not the fragmented portion claiming itself to be good, but the Universal Light, and in so doing, they then become more universal themselves, and their fragmentation cannot hold, and they must rejoin in the reflection of that greater Light.

This Awareness indicates that in understanding this previously given message, recognize that each of you is a reflector. You may reflect fragments of consciousness, the fragment which you call yourself, or you may reflect Universal Consciousness, or you may reflect and degree between the two, so that whatever level of fragmentation, or limitation, you are a reflector of some information being processed that receives energies from Universal Consciousness, whether it be total or whether it be fragmented.

All Error is Based on Ignorance

This Awareness indicates that all error is based on ignorance and ignorance is in fact the ignoring of some aspect within Universal Consciousness; when one ignore something the fragments or breaks off from the total realization. When one totally realizes everything, one is attuned to Universal Consciousness and there can be no error, but as entities fragment or accept a portion of consciousness that sees itself as a part and ignores the whole of its being, then that entity is operating from an ignorance of the totality and is fragmented and the self that it perceives is a small self, in comparison to the total self.

When One Says, "I am God"--Is He Really?

This Awareness indicates that this implies that an entity who has no aspect of fragmentation, who does not ignore part of the universe, who does not ignore the total, who does not see oneself as fragmented or does not see the smaller self as being the subject, but who sees oneself as being the total universe, who lets go of the fragmented separated self; such an entity becomes One with Universal Consciousness, and is One with the universe, but such an entity cannot speak for the small self locked in the body and say: "I am God!" for you cannot be the small self locked in the body and be the entire universe at the same time.

It is like the train conductor who can identify with the train moving down the track and feel himself being the train on the track, or he can see himself as the engineer sitting at the wheel of this giant train, and if someone calls and says "Train 64, where are you?" and the engineer answers and says: "I am on track 29!", the engineer is speaking in behalf of the train; but if the engineer speaks and says: "I am sitting in the caboose," or in the engine, or in one of the cars, the entity cannot be speaking for self, while still speaking for the train.

The Son of God VS the Son of Man

You cannot wear two hats. You cannot say: "I, the little boy who was born here, in this time, am God!", but you can say: "I am God," when speaking for the universe, when speaking in behalf of the universe; thus, when Jesus spoke and said: "I am the Way, the Truth and the Light!", it was the Christ Consciousness, the Universal Consciousness speaking through the man that gave such a message,

and when Jesus spoke as himself, the man, and asked the disciples: "Whom do they say I, the Son of Man, am?", he was speaking in terms of the son of man, not as the son of God.

He was speaking for himself personally, not as a deity. He made a clear distinction between the Son of God and the son of man. The Son of God as that force which spoke through him in behalf of the Universal Consciousness which said: "I am the Way, the Truth and the Light," and the son of man, which spoke to his disciples, spoke in reference to the small self, the fragmented self, the portion of consciousness known as the man, the historic Jesus.

This Awareness indicates that there are some who say: "I am God," and they are speaking in reference to their historical mental spiritual being inhabiting the body; and these entities are false, for they cannot, as separated selves, be God. Only when they speak in behalf of Universal Consciousness, wherein the Universal Consciousness speaks through them, expresses through them, only then can they indeed be taken seriously, and in taking them seriously, you cannot point to that individual standing over there with one foot propped against the wall, saying: "that entity there with his foot propped against the wall is God," for that is not so, even if the entity has but five minutes earlier spoken in behalf of the the universe, saying: "I am God!"

The Divine Force, the Universal Creator is Defined

It is the voice that came through, as the Universal Voice, using this entity's speaking mechanism that is God, but the entity himself is but a fragment of the Universe, and therefore is but an agent of God, a reflector of the Divine. This Awareness indicates that this appears to be a most difficult concept for entities to understand. They continually create religions around individual men and women, promoting them as deities, when in actuality, they are but channels, they are but agents or representatives of the Divine Force that speaks through them, or for whom they represent. The Divine Force of the Universal Deity, the Creator, was not born in this century, or in the First Century. The Divine Force, the Universal Creator was born before centuries existed, before time began. The Divine Force, the Universal Creator was Consciousness Itself, was Universal Mind, and created all of these concepts and ideas which entities refer to as things and beings, out of that mind that was at the beginning, which was called the Word, the Vibration, the Frequency, or Consciousness.

The Divine Force, the Universal Creator has never changed *Its* essence; *It* always was and always will be Consciousness, Vibration, Frequency. *It* will always speak through *Its* creation. *It* speaks through *Its* individual creations, through *Its* people, through *Its* prophets, through *Its* wind, rain, through *Its* weather, through *Its* earth, through *Its* planets, through the creation of *Its* galaxies, through the child, through the flower. *It* speaks through all things, to all things. This Awareness indicates that you cannot point to a flower and say: "That is God, the Universal Creator!" You can say it is a reflection of the Universal Creator, or it is part of the Universal Creator, or it is at one with the Universal Creator. It is a *portion* of the Universal Creator, it is an *aspect* of the Universal Creator, and you can say this about any other being or any other thing in the universe, even about concepts and ideas.

Democracy is a Portion of the Universal Creator

Democracy is but a concept, yet it is an aspect, a reflection, a thing created. It is a portion of the Universal Creator. All things that are, reflect Universal Creator, reflects the consciousness that began all things, that created all things. This Awareness indicates that entities create for themselves too much confusion in regard to who is God. Is this entity in India truly God? Is Mohammed God? Is Jesus God? Was Indra God? Was Krishna God? All of these entities were *agents* or reflections of God, all things reflect the creator, and many can reflect more clearly than others.

There are those villains in history. Those villains are also reflections of God but they distort, they distort the reflections with their own separateness, egos, and the misunderstanding and ignorance of the greater creator, and therefore, they appear to reflect that which is less than the Highest, or that which entities call evil.

But even that which entities call evil is in itself a reflection of God that has been improperly fragmented so that it cannot reflect correctly, the wholeness or holiness of God. It reflects instead the broken, separated self-centered fragment of the self-interest that has evolved in its particular system of processing information. This Awareness indicates if entities can begin to better understand the Univer-

8.
sal Deity as Consciousness that permeates all things in the universe, and that all things in the universe are but fragments or reflectors, and all beings are but reflections of that Universal Consciousness, then entities will have grasped the Higher Principles of Universal Reality and the true spiritual essence of reality, and will not easily be deceived by those who would promote fragmented portions of the Godhead as being the Divine Creator or being a God of all.

This Awareness indicates the God of All is the All Itself.

The Law of Gratitude is given.

WHAT MOTIVATES "THE AMAZING RANDI"? (How "Psychics" Can Rig for Deception)

(CAC General Reading, April 28, 1991)

QUESTION:

A question from L.H. in Canada. "There's a famous physician named James Randi who was always writing books and appearing on talk shows, debunking the entire world of paranormal phenomena. He offers a check of \$10,000 to anyone who can prove that any paranormal situation can be recreated in controlled conditions. To the best of my knowledge, that check has never been awarded to anyone. His most recent debunking took place in Australia where he had an actor appear as a trance channeler who made appearance on TV while Randi stood back-stage and fed the actor through an ear-piece connected to a transmitter, the general answers that spirits are prone to give. Randi claims that no TV host was able to immediately tell that it was a hoax. Randi often appears on TV with regular household spoons to show how easily they can be bent by hands while others claim that their mental powers actually bend the spoons. Every time I see James Randi debunking the paranormal on TV, I can't help but get the feeling that at one time or another in history he had to be as vociferously in favor of the paranormal as he is now against it. My question is: If this is true, then why did he choose to experience the turnaround?"

COSMIC AWARENESS:

This Awareness indicates the entity appears to have a kind of hostility toward things that have been presented to him as paranormal in that he was disillusioned on several occasions during this lifetime and presumed that all paranormal situations were fakery. This entity being thus angered by the fakery has found a way to make money by exposing or by accusing others of fakery.

This Awareness indicates that there is much in the field or realms of the paranormal that can be faked. This does not mean that all of the events in the field are faked. It is possible to duplicate through fakery many of the true expressions of psychic phenomena, and since it is possible to reproduce it through fakery, many assume that it must be fakery. This Awareness indicates that it is very difficult to prove when something is not fakery on the basis that it must be repeatable under controlled conditions, for psychic phenomena does not yield itself easily to controlled conditions and repeatable expression. Much of psychic phenomena is the intuitive and spontaneous expression that comes to entities during certain times or certain situations, and some psychic phenomena occurs spontaneously, even without the entities involved knowing such is about to occur.

This Awareness indicates in other words, the tests that are being used to judge psychic phenomena by this entity are rigged in favor of a finding that will not favor the psychic phenomena. They are set up so that the psychic phenomena situations will most likely fail. This Awareness indicates that there may be some especially talented psychic who could duplicate, but there is little reason for them to risk failure, for if it is true psychic energies, they cannot guarantee the absoluteness, whereas one who is faking it could guarantee the apparent psychic action.

This Awareness indicates that in the past, there have been so-called psychics who have had implants in their teeth and people elsewhere broadcasting information to them so that they could appear to read social security numbers, etcetera, from the stage to people in the audience who were simultaneously showing their social security number to someone talking with them who was rigged with a transmitter that transmitted information of the conversation to the one on stage whose teeth were receivers of the information and the information coming into the entity's teeth was then broadcast through the bones so that the ears could hear the information.

This was a common trick used by entities who could present television shows that made them look extremely psychic. Some of these entities found that they could make more money by debunking the psychics and pretending to be showing themselves to be what appeared to be psychic, while arguing that it was all a trick, and causing people to wonder how it could be done.

Tricks Used by the 'Amazing Kreston'

This Awareness indicates that these shows were popular in the 60s and 70s especially; there were a number of such presentations in local shows such as state fairs or county fairs wherein entities could amaze the audience. This Awareness indicates an example of this kind of action was the so-called Amazing Kreston; that many of the things he presented were indeed amazing, if entities didn't know that he had with him certain advanced electronic implants which could be used for receiving information from a distance.

This Awareness indicates that even though the entity argued that it was all tricks and there was nothing psychic about himself, he was still deceiving or misrepresenting, because he did not give the facts as to how he was conducting the action, and to do such action in an attempt to betray or to expose other psychics as frauds is somewhat hypocritical if the entity does not explain how he does his act, for the way he does his particular act is not necessarily representative of or proof of the same technique being used by others.

This Awareness indicates if the audience does not understand this, they are deceived in part by the performance being given.

Does the Amazing Randi operate independently or is there some organization or force behind him?

COSMIC AWARENESS:

This Awareness indicates it appears there are entities who work with this entity. It makes use of technologies, much of which the entity uses in connection with contacts from other than his particular staff. This Awareness indicates this being designed in part not just to make money for the entity and his staff, but is designed in part to discredit anything of a psychic nature so that the orthodox science and education can have the greater control over the people's consciousness.

It is an academic situation, in which there are traditional elements in society that do not wish entities to believe in any kind of psychic phenomena whatsoever. This is partly influenced by churches and partly influenced by the academic society. This Awareness indicates of course the reason is obvious; that if psychics had any credibility, many entities would cease to support the churches in their programming of society, or the academia of society would lose much of its support and control over the masses whereas entities turn to psychics instead of psychiatrists and doctors or professors of learning or ministers, and the control of the society begins to diffuse.

ST. JOHN THE BELOVED: DID HE LATER PROVE CHRISTIANITY DELIVERED ON ITS PROMISES?

(More on Billy Meier and "The Talmud Emmanuel")

QUESTION:

A question from E.M, who writes: "I am seeking information on the entity known as Saint John, the Apostle, the Beloved, the Revelator," and he was wondering if there's any new information given by Awareness. "A subject worth researching," he says, "is the fact that no one is said to have loved Jesus more, had more faith or been more favored by Jesus than he, and as such, this person's resulting experiences after that life would tend to be proof whether the practice of Christianity actually can deliver on the promises made by the present-day preachers, or if it just leads to feeling real good and it does not permanently raise individuals above the incarnational wheel of illusion. Could Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates that in an earlier Ralph Duby reading, this entity was identified; that entities may wish to refer back to these earlier readings. The entity being one who lived in Canada with a family. This entity was not at that time heavily involved in Christianity, though the entity does have an affinity and appreciation for Christianity.

It appears the entity was more drawn to the teachings and spirit of the teachings than to the organized religion that developed over the several thousand years since. This Awareness indicates that the Christian religion has been so altered that entities who embrace it in today's version are not receiving the original teachings as given, and therefore, they are receiving a kind of artificial recreation, largely influenced by the Pharisee Paul and his cultural background as a Pharisee which influenced the nature of the church in its early stages, and this diversion in church dogma has been handed down ever since, thus changing the basic tenets and teachings of the founders of the Christian religion.

This Awareness suggests a book, *Talmud Emmanuel*, by Professor Deardorff; the name of the book *Talmud Emmanuel* as that which is based on the alleged direct and original teachings of Jesus; that the term Emmanuel, spelled with a "J" at the beginning, later being changed by the Greek to the name Jesus as that book which has been recently discovered through the assistance of Pleiadians and their contacts with Billy Meier.

The MOSSAD did apparently try to keep this book from being brought to light, and in fact, the original documents were destroyed by the MOSSAD, but much of the original had been interpreted and copies saved. This Awareness indicates that the entity James Deardorff, through his contacts with Billy Meier, became the person who was given authority to write about the material and to work with translators and to work on the translation.

The MOSSAD also attempted to assassinate Billy Meier for his involvement in bringing this book out. This Awareness indicates that in reading these passages of the *Talmud Emmanuel* which is to be released very soon, entities can read the original teachings and make comparisons with the modern version after the modern version had been

tampered with by Matthew, Paul and other translators of the work.

This Awareness indicates that much of the material will be seen as identical, other parts of the material will be seen as having been changed considerably, or having information added to the documents by the writers and translators, partly reflecting their own philosophical interpretation or their own particular points of view.

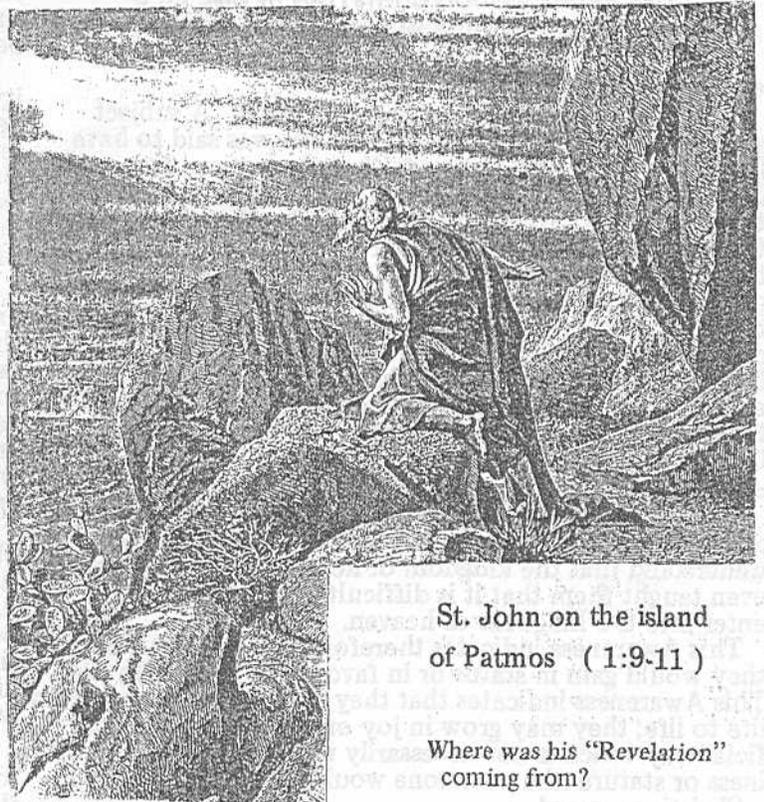

This Awareness indicates that it is valuable for entities to see how these documents relate or are changed. For example, in the *Talmud Emmanuel*, reincarnation is seen as a reality, but later documents have reversed the terms and wording so as to change the position of the teachings. This Awareness indicates it is suggested that entities who are curious may order this. It appears that CAC will have this book in its catalogue shortly after it is released to the public.

This Awareness indicates there is already a book discussing the *Talmud Emmanuel* by James Deardorff, and it is called *Celestial Teachings*, describing how the book came into the hands of Dr. James Deardorff and how the material affects the interpretation of the Biblical work and scholarship. This Awareness indicates that biblical scholars who have examined various aspects of the biblical teachings are quoted and studied in this book and entities can see how the Bible has been the result of many minds tampering with documents of the past.

This Awareness indicates the Bible is not a book written by the hand of God; it is a book taken from other works, from earlier writings and in some cases, taken word by word from documents of other faiths, and compiled, and then in many cases, altered according to the doctrines that the writers wished to promote as religious messages.

This Awareness indicates that one of the messages of the Pleiadians gave to Billy Meier was that the religion that has been handed down to humanity is generally false, and that the true religion is closer to metaphysics, having to do with the creative forces of the universe, that the Universal Creator has been misrepresented in the religious teachings and that these religions would in time be seen as false.

The introduction to this book *Talmud Emmanuel* as that which would assist in clarifying the life and role and teaching of Jesus or Emmanuel.

St. John on the island of Patmos (1:9-11)

Where was his "Revelation" coming from?

WHY DID THE MOSSAD DESTROY THE TALMUD EMMANUEL?

(Did the Book Prove Jesus was Not a Jew ?)

(FOLLOW-UP QUESTION)

What basically about that book *Talmud Emmanuel* prompted the MOSSAD to destroy it?

COSMIC AWARENESS:

To destroy the book for the reason that it would, if presented on a public scale, would be a threat to the organized religions, which the Zionists generally control, even including the Protestant and Catholic teachings.

This Awareness indicates that it would, for example, influence entities to question such teachings or messages as to the idea of the Israel nation being the nation of God's chosen people. This Awareness indicates that it would lead entities to question a great number of set principles in the various religions. The MOSSAD also wanted the information destroyed because the teachings of Immanuel were the original challenge to the priests of Israel, the Old Testament and the Jewish or Hebrew teachings of old and many of these older teachings are still called upon to influence the present day attitudes of the world toward Israel.

It was seen as a teaching that might not be to Israel's benefit. This Awareness indicates that the book, for one thing, identifies the entity as Aramaean rather than Jewish, and this is one aspect of Christianity that the Zionists have long worked to promote; that Jesus was a Jew, when in fact Jesus was Aramaeic, which is an area in Persia, near that which is known as modern-day Syria. It is an area in which entities are of the Aramaeic faith.

In the time of early Biblical writings, these entities lived in that which would be the areas now known as Southern Turkey, Northwestern Iran and Northern Iraq; that this was the general area of the Aramaeans; that area which is now noted as the area where the Kurds are experiencing their difficulties.

ED's Note: CAC does stock James Deardorff's book *Celestial Teachings* and can get upon request his book *Talmud Emmanuel*. Please refer to the CAC Book Price List for current prices.

DOES BEING A GOOD CHRISTIAN IN ONE LIFE MAKE FOR REWARDS IN FOLLOWING LIVES?

FOLLOW-UP QUESTION:

In E.M.'s previous question, when he says: "A subject worth researching, the fact that no one was said to have loved Jesus more, had more faith or been more favored by Jesus, as such this person's resultant experiences after that life would tend to be proof whether the practice of Christianity actually can deliver on the promises made by the present-day preachers, or if it just leads to feeling real good, and does not permanently raise individuals above the incarnational wheel of illusion." I think this is a concept a number of people have written about, that if somebody was, for example, a disciple of Jesus in one life, the entity, when reincarnating in future lives, would keep becoming even higher and higher in status. This is a fallacy, is it not?

COSMIC AWARENESS:

This Awareness indicates that the entity Jesus did not teach his disciples to gain status; the entity taught them to understand that the kingdom of heaven was within, and even taught them that it is difficult for the wealthy to enter into the kingdom of heaven.

This Awareness indicates therefore, this assumption that they would gain in status or in favor financially is invalid. This Awareness indicates that they may grow in spirit from life to life; they may grow in joy or in some other beneficial way which is not necessarily measured by the happiness or stature that someone would like to attribute to a Christian reward.

10. This Awareness indicates that it is not necessarily a guarantee that just because one is a Christian in one life they will be the Christian in the next life. They could be born in some other locale under some other teaching. This Awareness indicates they might not even be aware of the Christian philosophy.

This Awareness indicates that the value of the Christian philosophy essentially is in what entities make of it, to improve or change their lives, to give them greater joy and happiness in their present lifetime. This Awareness indicates that can be said for other religions also; that there are principles within most religions to help entities to live a better life, and as entities apply these principles, they generally live more comfortable and better lives in terms of how they do things and what they do with their lives.

This Awareness indicates that the belief that the Christian tenets will give an entity a better afterlife has merit in that the better life you live in the present, the better will be your afterlife, for you can expect that if you live a life of great hostility, greed or violence toward others, there will be a time of reckoning between lives in which you must face the reality of your failure in your life and you must choose the karma and the situation of your next life as to how it will be paid.

This Awareness indicates that karma is a consideration, and that grace is a consideration, and the entity who has lived a graceful life, a good life, will have a better afterlife, and in the act of reincarnation will have a better life in the future than one who spent his previous lifetime doing negative things, things that would be of a soul-degrading nature.

This Awareness indicates that of course those who are into Christian teachings with complete reliance on the dogmas taught in the churches to not believe in reincarnation and would argue that good works do not do anything for the soul, and therefore, being good is not the answer, being Christian is the only answer: these are arguments that many entities make.

It allows some entities to live their life exactly as they wish, while verbally calling themselves Christians, in the hopes that the name alone will carry them into paradise. It is much like an entity who sees himself as loyal to the king and thinks that by being loyal to the king he can rape, pillage and murder and get by with criminal activities, and all he has to do is tell those who would arrest him: "Wait a minute! I'm a friend of the king's! The king loves me because I am loyal to the king!"

It is likened unto this kind of situation in which the entity thinks that the local sheriff should let him off because he knows the king. This Awareness indicates that this is unfortunately not the way the universe works. One can claim to be Christian, and if not abiding by the principles that were taught as mercy by the Christ, the entity is only mouthing the name and playing on the name and not truly Christian at all.

Onward Christian Soldiers!

This Awareness indicates that these may be called hypocrites, regardless of what they call themselves and how they justify the behavior. There are many so-called Christians who are thrilled at the prospect of going to war, promoting violence and war against some other country, especially a weak country that they know they can beat, and they call themselves Christians, and if they win the war they think it is because they are such good people, and they gloat and brag about their victory.

This Awareness indicates that this is not what would be pleasing to their Christ. Their Christ would prefer a peaceful solution rather than a solution based on bloodshed. This Awareness indicates that the teaching of the Christ was to be rid of blood sacrifices; that these were not to be continued. The entity himself taught others to love one another, did not teach that they should kill one another in his namesake.

The Word 'Holocaust' Means Blood Bath

This Awareness indicates that there has been much distortion in the Christian religion. Much of it was due to influence from the Judaism, which has been heavily influenced

by older, earlier Talmuds and teachings that promoted blood sacrifice. The very word "holocaust" means "blood sacrifice," and the promotion of the holocaust under that name implies that these Jews who were killed in Nazi Germany were a sacrifice for the Jewish people or for those who remained. If they were a sacrifice, what were they sacrificed for? For whom?

The Real Reason for World War II

This Awareness indicates that it was a blood-bath. It is not seen as that which should be classed as a blood sacrifice for the Zionists. This Awareness indicates that essentially the war was intended and set up by Zionists and their associates to result in a finality that would give humanity an excuse and desire and reason for setting up a Palestinian planned homeland for the Jews.

This Awareness indicates that it would appear this could have been done without such a war, but that was the purpose of World War II, along with the purpose of certain actions to make money from the activity. This Awareness indicates that this is a matter of historical record and not the opinion of this Awareness. This Awareness indicates that essentially, the role of Christianity as a merciful religion or teaching has been perverted to make it a religion that appears to be quite violent in its promotion of wars for various causes. This Awareness indicates that some of these causes are not particularly admirable.

ED's Note: For more information on the disciples, and particularly on John the Beloved, please refer to 'Revelations of Awareness' issue No. 87-16 (The Disciples of Jesus Alive Today); \$2.00 from CAC.

THE HOLOCAUST, JEWS AND ZIONISM ...GETTING HISTORY STRAIGHT

FOLLOW-UP QUESTION:

There was an article out of Jerusalem the other day. I'll read a little bit of this. It says:

Holocaust was wages of sin, Rabbi says. A leading rabbi has outraged Holocaust survivors and secular Israelis by claiming that the Nazi genocide was God's punishment for sins such as violating the Jewish Sabbath and eating pork.

Hundreds of Israelis called a radio talk show Thursday to let off steam about the remarks of Rabbi Eliezer Schach, 97, an ultra-Orthodox rabbinical sage who, by a quirk of the electoral system, also happens to be the kingmaker of Israeli governments.

About 6 million Jews perished in the Holocaust, and tens of thousands of survivors live in Israel. The uproar over Schach's remarks reflected the deep sensitivity still felt in this country over the Holocaust, 45 years after the last death camp was liberated.

"Not for a long time has any single remark caused such an emotional reaction," said Razi Barkai, the host of the Israel radio talk show. He said calls ran about 3-2 against the rabbi.

At one level, Schach was simply repeating a theme common in the Bible: of divine retribution against the Jewish people for straying from the path of their religious law.

But at another level, many took his remarks to mean that the Jews somehow were to blame for the Nazis' behavior.

"The Almighty keeps a balance sheet of the world, and when the sins become too many, he brings destruction," he said.

These sins, according to Schach, include violating the sanctity of the Sabbath and eating pork, which is banned by Jewish dietary law. Some of Schach's sharpest critics were Holocaust survivors.

The article goes on and on...but would Awareness comment on this, please?

OSMIC AWARENESS:

This Awareness indicates that this is but a promotion of orthodox religion by an entity who is fanatically tied to that religion and it is his opinion, but it does not appear to have any real cause/effect relationship to the holocaust. This Awareness indicates that the nature of World War II as that which was another war on the stairway to One World Government, promoted by Zionists.

This Awareness indicates that most Jewish people are not Zionists, only a small number, and many of those who are Zionists are not Jewish. There is this organized political effort by certain entities to bring about this One World Government and World War II was basically set up through the entity Adolf Hitler to create a war that would tie America into European problems and which would keep that link between the United States and Europe so that gradually the One World Government would begin to emerge.

George Bush's Family Helped Fund Hitler

This Awareness indicates that the funding of Hitler by Zionists in the United States and in Russia and England as that which brought about the rise of the Nazi party and its weaponry. Without this funding from these individuals; from Ford, Rockefeller, from George Bush's own father, and others in the Skull and Bones Society; without this funding, Hitler would not have been able to build his war machine, or to start the opposition against the Jews.

This Awareness indicates that many of the Jews during that time were being labeled as the cause of difficulties in Germany, and these presses that promoted this anti-Jewish sentiment were Zionist controlled presses and publications. This Awareness indicates that the Zionists themselves saw that by creating hostility against the Jewish people in Germany, it could result in world opinion wanting to help the Jewish people find their own homeland in Jerusalem, in Palestine.

A Zionest New World Order Planned for Palestine

World War I led to Britain assisting in bringing about some Jewish rights in Palestine. World War II led to Britain and the United States and through the United Nations actually bringing about a Palestinian state which was controlled by Jews, and the eventual outcome intended being to have the United Nations moved to Palestine and this would be the seat or center for the New World Order, which would be Zionist in nature.

This Awareness indicates that many of the orthodox Jews are opposed to this Zionist effort. Others are used by the Zionists. Some are not even aware of the Zionists as being a political organization. This Awareness indicates that it is difficult to give information of this nature because of the extreme danger that is prevalent in any form of criticism of Zionism, for Zionism has controls throughout the world and gives the appearance that in any criticism of Zionist activities, you are criticizing the Jewish people. It is as though Zionism hides behind the skirts of Jewish people.

Zionist Movement Not a Jewish Movement

This Awareness indicates that this becomes argued as anti-Semitic. This Awareness is very much a part of and concerned with the Jewish people. They have been used and abused, not only by others, but by their own leaders in many cases. This Awareness indicates that the Zionist faction is small, but very well organized and can create havoc for almost any group that speaks in critical tongues of their behavior, yet truth somehow leaks out inadvertently or deliberately.

This Awareness indicates that there will be those who may call the messages from this Awareness "anti-Semitic" messages; this is not the case, for this Awareness is not attacking Jews. It is not criticizing Jews, It is criticizing that which goes under the name of Zionism, many of whom are not even Jewish at all. There are some who are Jewish. This Awareness indicates that the Zionist movement should not be thought of as a Jewish movement, but they have promoted this image for such a long time that most people believe they all are Jewish.

A Brief History of the Khazar Jews

They are for a large part Khazars from certain areas in Southern Russia who have an origin dating to Finland, as Finnish persons who floated down the Volga river and helped to set up the Khazar region, charging a toll for travelers on the river. This Awareness indicates that these entities later, much later, in the 14th Century, were

given a choice of either becoming Roman Catholics or Orthodox Catholics, and if they did not embrace a religion, they were subject to invasion by forces from Rome, or from the Byzantine Empire area of Constantinople.

This Awareness indicates that these entities reported back to the pope sometime later that they had chosen their religion, and it was to be Jewish, or Hebrew. They had embraced the Hebrew teaching and did not want to embrace either of the Christian religious teachings, therefore, they avoided the Orthodox and the Roman Catholic religions by embracing Hebrew teachings.

These entities became known as Khazar Jews. They are not genetically Jewish, and became Jews in the same way that Sammy Davis Jr. became Jewish, simply by taking on the religion. This Awareness indicates that they were of Finnish extraction. This Awareness suggests that these are the entities who then began to move into Europe into the banking establishment. They are generally light-haired and often have blue eyes.

This Awareness indicates that the movement into the banking establishment eventually led some of these to form great wealth and to gain great power. This Awareness indicates that thus, the later formation of Zionism by these entities has little actual connection to the Hebrew or Jewish people. The word 'Jew' was never even used before the 14th Century and it came into use as a reference to Judah or the offspring of Judah.

This Awareness indicates that therefore, when this Awareness speaks of Zionism, *It* is speaking more of these Khazar Jews which are not Jews, but who *pretend* to be Jews, and who, under the name of Jew often create great problems for masses and cause Jews to be blamed. They help to give the Jewish people a bad reputation, such as occurred in Nazi Germany.

How 'Counterfeit' Jews Created the Holocaust

This Awareness indicates it was known in Germany that the Zionists who were hiding under the label of 'Jew' were in fact bringing the country into more difficult economic situations and many of the German people became hostile toward these entities because of the near bankruptcy and economic crisis that developed in the country. Thus, there was already a strong anti-Jewish feeling because of these Jews who were not Jews. These may be referred to as counterfeit Jews.

This Awareness indicates that this was latched onto by Hitler and others of the Nazi party which essentially as a Zionist party to set up and perpetuate a civil war between the German people and their Jewish comrades or citizens, that later became known as the Holocaust, keeping in mind that the word 'holocaust' actually means sacrifice, a blood sacrifice.

This was the Jews, the counterfeit Jews, created a blood sacrifice of the Jews, for their own purposes. Their purpose being in part to get a control of areas in the Middle East: the Palestinian land.

ONE WORLD GOVERNMENT CENTERED IN ISRAEL

FOLLOW-UP QUESTION: (VIKKI):

So the creation of Israel fit into the One World Government plans as the location where the Zionists wanted their headquarters?

COSMIC AWARENESS:

This as in the affirmative. This relates back to a Zionist plan from the last century which saw their ambition taking them into various countries, the United States and Russia included, and then eventually coming back to a headquarters in what is now called Israel, and the country of Palestine. This Awareness indicates that this was seen as a long journey that would return to bring them the control of the world.

This Awareness indicates that the symbol for this journey was that of a serpent which would go into various countries and take control of the countries and then return to the new claimed land of Israel. It was seen that this was a destiny

¹² of the Zionist Jews. They saw this as being historically preordained.

This Awareness indicates that this would be likened unto a group of entities who, looking at various religions to determine which religion they wanted to embrace, comes across doctrines or documents of an ancient religion that has many prophecies and sees that these prophecies are highly unlikely, but that they would serve as a means of controlling public opinion, and if they could simply take control of the situation where these prophecies could be used to help promote a plan that would lead to the outcome prophesied, they could benefit from it.

These entities, not actually being Jewish, had to pretend or take on the name of Jew, thus they called themselves Jews in the 14th Century. Previous to that the entities who are now called the Jew in terms of non-Zionist Jews, these entities were descendants of Hebrews of different tribes and Judah was but one of the tribes, and the entities did not call themselves Jews. At the time of the 14th Century, the name Jew began to be used in describing all Hebrews. It was promoted by the Khazars, and the Khazars gained more and more power economically, because that is what their great interest was, and as they gained more and more power and called themselves Jews, other Hebrews began to use the term and identify themselves with the term Jew and began to rely on these wealthier people as spokespersons for them.

This Awareness indicates that this is enough of a discussion of this information; that entities who wish to pursue further study in this line, there are books available that the editor can list or pamphlets and other information that can be listed for further reference. This Awareness suggests that the pamphlet *Desert Shield and the New World Order* especially be included in that listing; that the pamphlet *Desert Shield* goes into this in considerable detail and also gives further references.

ED's Note: We have published this information several times in the past: books and sources relating to Zionism. However, the pamphlet "Desert Shield and the New World Order, is available from Northpoint Tactical Teams, PO Box 129, Topton, North Carolina 28781. Price: \$2.00.

DID ANY NAZI GROUP SURVIVE WORLD WAR II ?

QUESTION:

B.W. in Virginia, asks a question, some of this Awareness gave last night, but there might be something *It* wants to add. "I have been a conspiracy buff for many years. Recently I have come across *lots* of information about Nazi Germany that is truly bizarre. You have mentioned in the past about how the Nazis did not kill 6 million Jews and so forth. My question is: Is there a surviving Nazi group, for want of a better name, from World War II that is actually influential Today in international politics and even wars?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates that such information is hard to come by, but these entities were moved from Nazi Germany to the United States and given special occupations and jobs. Some in NASA, in the space program, and some in other occupations. These entities are still very much devoted to principles of a fascist type nature.

This Awareness suggests that the Interpreter can provide the editor with the name of cassette taped information that releases many of the names of these entities working in the government in the United States who have Nazi backgrounds. This Awareness indicates that the influence is still prevalent although hidden, and the entities are working with persons who are well known in your government; in fact, some of these entities may also be well known.

The New World Order

This Awareness suggests that it would be beneficial to make certain information of this cassette tape available to the membership at the time this reading is published. This Awareness indicates the so-called skinhead movement is that which is but a current reflection of the Nazi influence within the government; that these skinhead movements will become more and more noticed as the influence is allowed to grow and develop.

One may gain a greater understanding of how strong the Nazi influence in government is by recognizing the strength of the skinhead movements in the local areas and around the country. That this also applies to the Klu Klux Klan, which likewise is growing again in size.

ARE SKINHEADS AND KKK PEOPLE "PATRIOTS"?

QUESTION:

Some writers are tossing the Klu Klux Klan and the skinhead movement into the "patriot" bag, and this is not valid, is it?

COSMIC AWARENESS:

This Awareness indicates that this is not the same thing that this Awareness refers to when *It* speaks of patriots. This Awareness sees patriots as those who are loyal to the founding principles on which this country was based and the Constitution and the sacred doctrines and documents of the country. This Awareness indicates that there are many of the skinheads and Klu Klux Klan types who think that because they carry flags and promote themselves as patriotic that indeed they are patriotic, wherein they are simply trying to perpetuate a system of power and control over those whom they do not like, at the expense of others and under the name of America or Americanism.

This Awareness indicates that this is not a patriot or patriotic expression; to go after and violate other people because of the color of their skin or the nature of their philosophy or because they are somewhat different than the majority; that is, in fact, unpatriotic to do such things. This country was not intended as a country in which a certain class of people ruled over others who would in turn have no equal rights.

This Awareness indicates that the country evolved as one in which all people are alleged to be of equal value or of equal rights, even if not of equal opportunities. It is evolving to give equal opportunities on the one hand, but there are always those who oppose equalities if it gives another the chance to be equal, or to have an equal opportunity. This Awareness indicates that this conflict between those who want to keep others repressed and those who are repressed who want to have the chance that is available for others is that which is an ever-evolving process, but which needs to be looked at from the golden rule, or similar principles; that as entities fail to respect each others' rights, they deny themselves and others the righteousness and place in a world of justice.

13. This Awareness indicates that one cannot expect justice if one does not allow justice. There are many who do not allow justice to others, but want justice for themselves. You cannot deny rights to others and expect rights for yourself. There has to be some measure of justice or balance involved.

THE NAZI AND ALIEN CONNECTION DURING WORLD WAR II (More on the Hollow Earth and Adolf Hitler After the War)

QUESTION:

B.W. had a couple of other questions related to this. He writes: "Did the Nazis have and still have UFOs? Was Antarctica their base? Is it still? It is obvious that there is much deception and cover-up about World War II Nazis. I feel that this information (if it's not all garbage), is extremely important in trying to understand world affairs.

COSMIC AWARENESS:

This Awareness indicates that the Nazi Germans did have contact with aliens of the Orion system and did have some of the alien technology. The aliens, however, did withhold much from the Nazis, though they helped them to build some of their weaponry with the technology that was provided. The Nazis did have UFO bases or bases which they were working on to build UFOs during World War II. This was to have been a new Nazi secret weapon, along with the atomic bomb.

These were never completed in time as there was this great rush to end the war from the side of the Allies. This Awareness indicates that it is true that Hitler and Eva Braun and other Nazis escaped and some did enter into the South Pole as a place of refuge with the help of some aliens. This Awareness indicates that the entities have, even today, an established base in the area of Antarctica from whence UFOs are often launched and travel to and from.

This Awareness indicates the opening in that area as being approximately 1300 miles across, generally covered by clouds of an artificial making.

FOLLOW-UP QUESTION:

Hitler and these aliens: they didn't go into what Awareness has referred to as the Inner Earth or the Hollow Earth, did they?

COSMIC AWARENESS:

This Awareness indicates they have been into this area. They do have some contacts with entities in that area. It is a place whereby they can secure some food and supplies to sustain their base. They are not well liked in the area, but they do have access to sources of supplies from entities in the area.

DID ALIEN TECHNOLOGY EXTEND HITLER'S LIFE?

FOLLOW-UP QUESTION:

Was Hitler's life by any chance extended by alien technology down in that area?

COSMIC AWARENESS:

This Awareness indicates this to a minor degree. This entity has died and no longer exists on this plane. The entity was assisted by some of the more advanced medical techniques that aliens provided; that this came about in part because of the great wealth provided by the Nazis to the aliens in assistance for their help. That this was not a group of aliens representing the ones who are in close contact with the Western and Eastern governments of the world. It was more likened unto a splinter group of aliens, a few who helped set up Hitler prior to World War II in terms of alien technology and some of these stayed with him after the war ended, but most broke off and began to work more closely with the Allies, especially the United States and Russia, and this especially after the treaty in 1948 between the aliens and Earth governments.

FOLLOW-UP QUESTION:

There have been tabloid stories, almost like science fiction, that the surviving parts of Hitler, pieces of his hair and mustache or something, have been cloned, and that the world has not seen the last of Hitler. Would Awareness comment on that? Is that fantasy?, those stories?

COSMIC AWARENESS:

This Awareness indicates that it appears to be mostly fantasy; that there appears to have been some basis of truth to the story known as 'the Boys of Brazil,' in which certain cloning efforts were made, but it does not appear that these efforts were successful in terms of what the cloners wanted to do.

This Awareness indicates that it does not appear that another Hitler will return. There are always possibilities of entities who have motives similar to Hitler's again resurfacing. This Awareness indicates that this could well occur in your own country unless entities are quite watchful.

DO ENTITIES REINCARNATE IN 3 DAYS AFTER DEATH?

QUESTION:

H.Y. in California, getting into another subject here: "Has Awareness ever said we incarnate three days after death? That makes it sound like a production line! Do we all incarnate very quickly? I was told in a reading that sometimes we incarnate on the astral and not the physical. I will be very happy if you can give any answers to the above."

COSMIC AWARENESS:

This Awareness indicates that there has never been a statement from this Awareness suggesting that there is a three day waiting period between lives. This is most likely based on a Biblical reference to Jesus being three days in the tomb. This Awareness indicates that this is not seen as being valid. That in some cases entities may wait for many years in terms of Earth time before reincarnation. This Awareness indicates that the timing is often a matter of personal choice. In some cases it's a matter of karma.

An entity who commits suicide may wait for much longer than an entity who simply dies to reincarnate. Of course, some entities are not interested in reincarnating and will go to other planes for other lifetime experiences and not return to Earth incarnation for centuries. This Awareness indicates that it is possible for an entity to be gone a very short time and to return very quickly, but three days does not appear to be very common, in fact, appears to be extremely rare, except in the case of walk-ins wherein an entity might walk into another's body after his own or her own body has given out. This too, of course, is rare.

FOLLOW-UP QUESTION:

In a reading through Ralph DUBY, I believe it was, years ago, Awareness indicated that entities in passing over not hover around those energies where Earth entities are having sexual intercourse, lest they be caught up into that energy vortex and find themselves being reincarnated again. Was that information in error, or was that....?

COSMIC AWARENESS:

This Awareness indicates that it is not in error. It is but a warning that entities who hover around such beings could very easily become entrapped in the energy and find themselves back on the wheel of life and death and rebirth. This Awareness indicates that normally, the process of passing over requires that the entity spend considerable number of hours or days in other realms, the realms mentioned as bardos, before returning to the space wherein they would come in contact with entities making love.

It might be several days or several weeks or in some cases, months or years, even centuries, before an entity might come back into an area or proximity with those making love.

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that there is a certain magnificent feature in regard to the United States. This being that the people are of a great diversity and can, because of that diversity, make choices and think for themselves more critically and with greater discernment than many other nations, where the people have had few choices and have been told what to think or what to do by their officials.

This Awareness indicates that because of this ability to think for themselves, to be discerning and critical, it will become more difficult if any nations attempt to impose Nazi controls or Zionist controls on entities. There is of course something that has recently occurred with the masses that is based on a kind of conditioning that has been presented to the masses wherein the masses have not had to think, have not had to worry much about the consequences of their choices. They simply take whatever happens and usually it turns out alright or not too bad, thus, there are many, especially in the younger generations who will allow others to dictate to them, and they are often easily influenced and manipulated by things that are presented in a deceptive way. Thus, they may be deceived into accepting a system or a way of life that appears alright at the beginning.

If they had a clear understanding they might never choose to accept it, but if they are deceived, they may accept it without knowing what they are taking. This Awareness indicates that this is the area which needs to be most carefully watched, so that entities learn to discern whether there is deception involved in the activities or choices that are being presented.

The Law of Gratitude is given.

For more information on Hitler and Nazis, please refer to 'Revelations of Awareness' Issues: 78-14 (Adolf Hitler and the meaning of the Nazi Holocaust); \$2.00; 78-29 (The Nazi Holocaust: the Karmic Play with a Cast of Millions); \$2.00; 84-8 (What Happened to Adolf Hitler?); \$3.00; 83-13 (Hitler's Backers); \$3.00; 78-29 (The Holocaust and the Law of Tolerance); \$2.00; 79-12 (New Light on the Holocaust Numbers); \$2.00; 86-17 (Rudolph Hess and the 'Secret of Secrets'); \$3.00; 92-12 (Operation Hot August Night); \$3.00; 92-11 (The Nazi Agenda and the Election); \$3.00; 92-13 (Operation Hot August Night: an Update); \$3.00 from CAC.

ED's Note: The tapes Awareness referred to earlier in this reading, which the Interpreter could provide, was a tape by Mae Brussell, a relentless researcher of conspiracies, particularly the murders of John and Robert Kennedy, whose radio show ran for 15 years or more, until she was murdered in 1988, injected with cancer after ignoring death threats. To her dying day, Mae Brussell tracked and attributed the Kennedy murders and many other conspiracies to Nazis in America. Her tapes and books were available from World Watchers International, Carmel, California, but I am not certain they still are. Her will decreed that a Mae Brussell Library be created and today there is supposed to be a Mae Brussell Library in Seaside, California. There are strong forces which want her research kept hidden from the public.

For more information on Mae Brussell, please refer to the book: "Conspiracies, Cover-Ups and Crimes," by Jonathan Vankin, published by Paragon House Publishers, New York, N.Y. Also available from CAC for \$24.95 plus \$2 postage. There is a complete chapter on Mae Brussell in this new book. This reading was given in April, 1991, and should make more sense to readers in light of the recent "Operation Hot August Night" information. Incidentally, the Interpreter could not locate the tapes mentioned, although he remembered them. Your best bet is to check Carmel, California.

A MINI FORECAST OF THINGS TO COME

15.

(Excerpt from a CAC General Reading, July 14, 1992)

OPENING MESSAGE:

This Awareness indicates there are many changes seen on the near horizon; this including social upheaval, earth upheaval, and genetic changes that begin within the human body. This Awareness indicates that these areas also include economic concerns in which there will be considerable change and fluctuation of the economies.

This Awareness indicates that these areas will touch into concerns regarding the aliens, but only remotely so. This Awareness indicates that most of the information relating to aliens has been given, but there are political and social and economic and geophysical considerations that are remotely related to the alien considerations.

This Awareness indicates that these will be the focus of some future readings and occasional mention of the alien considerations will be made; that what you have been given in regard to alien information will be of some value in better understanding these other topics and areas of focus.

This Awareness indicates the earthquake of approximately a month ago in Eureka, California, as that which begins a series of repeated earthquakes which, over a period of time, increase in magnitude, until there is a major quake that severs part of California. This Awareness indicates that this is but a beginning of earthquakes around the globe over the next several years, until late in this decade. More will be given later.

This Awareness indicates that the economic situation appears to be that which holds a shaky steadiness prior to the election, but quickly becomes fragile thereafter; that this will lead to economic disturbances throughout the globe. This Awareness indicates the political and social situation appears to be that which becomes more fragile and disturbed during the coming months prior to and following the election.

It is a time wherein entities need to be self-disciplined, need to evaluate their purpose in life and their priorities in terms of values. It is a time wherein entities will need to call upon the most spiritual aspects of themselves.

THE "OPERATION HOT AUGUST NIGHT" PRELUDE

(Is the "October Surprise II" Still on Schedule?)

QUESTION:

An entity who went to a UFO meeting in California recently informs us he heard a lecture there by a man called Mike Younger, which concerned disturbing information about Nazis taking over the United States and starting to create fires and riots and the shooting of police; this to begin next month in August. If this information is basically valid, should we prepare questions about it for a later reading?

COSMIC AWARENESS:

This Awareness suggests that the information as given as that which is valid. This Awareness wishes, however, to indicate that the information was the release of a planned event, and *It* does not suggest that the plan is certain to occur.

It is *planned* for the event to occur. It may be altered by circumstances beyond the control of those who planned for it. This Awareness indicates that nevertheless, entities should be made aware of the plan, so that if indeed it begins to unfold before their eyes, they will recognize it and know what is happening. Otherwise, they will simply be watching events that will appear to be spontaneous, simply happening without a force or plan behind them.

This Awareness indicates that if these events occur in accordance with the plan, and the plan has been already released, then those who have seen the plan, or blueprints, will say: "Oh, oh,....I heard about this, and now it's happening. It's not real. It's staged. It's being artificially created

in our country for this particular purpose, according to the plan."

This Awareness wishes to remind entities that *It* indicated some time ago, that if an invasion from extraterrestrials occurred, in or near 1992 or 1993, it would, in all probability, be a fake invasion. If an invasion occurred after 1995, 1996 or 1997, in that time period; it would most likely be real. This in reference to extraterrestrial invaders.

This Awareness indicates that according to this plan which is to begin next month as a count-down to the fake invasion, UFOs will be invading Earth sometime in October, prior to the election of November. This Awareness indicates that this will be referred to as "October Surprise Two." That it will be, in fact, a fake invasion, intended to bring the New World Order throughout the world, to rally all nations into a One World Government to deal with the invasion of Earth by aliens.

This Awareness indicates that this will be part of a plan that may or may not be carried off. At this time there is considerable force moving to effect and carry out this plan. The forces trying to stop this plan have less strength, but are quickly gathering strength. Therefore, it is a question of "Who gets there first?" Those who would stop the plan from occurring or those who would carry out the plan? At this time it is not clear as to who will win.

This Awareness suggests that questions on this should be presented after a review of the information has been given.

ED's Note: The questions asked the next day on this subject has been published as "Revelations of Awareness" No. 92-12 (Operation Hot August Night); \$3.00 from CAC.

IS THE ENVIRONMENT REALLY IN DANGER? (Is the Ozone Layer Really Being Depleted?)

(Excerpt from a CAC General Reading, July 16, 1992)

QUESTION:

A question from P.K., Buckeye, Arizona. I'll read his statement. "Over the past two years plus, there has been rising publicity and concern over the environment, especially the destruction of the ozone layers due to CFCs and the Greenhouse Effect CO2 build-up. The major corporations, especially those tied in closely with the New World Order, has jumped on the band-wagon whole hog, even when it costs them money due to increased production costs when meeting the new environmentally benign manufacturing techniques which are simply passed on to the consumer, one way or another. This has prompted the passage of all sorts of draconian regulations on business in general. The onus of meeting or side-stepping these new regulations has not impacted the major connected corporations at all. Some businesses are the ones, independent middle class ones, that are essentially crushed out of existence once targeted by the bureaucrats, which I believe is the intent of the regulators to begin with.

A scientist, Iben Browning, who recently passed on, offered some very convincing arguments discounting the supposed mechanisms of global warming and destruction of the ozone layer. This is the same man who was recently in the news about an earthquake prediction for the New Madrid fault in Missouri,--which did not occur. Actually, he was making a presentation at a local business gathering and offered an increased probability of occurrence of an earthquake at a time of high tides coincident with other forces that correlate with the occurrence of earthquakes. This was immediately taken out of context and sensationalized by the media, probably more to sell papers than anything else. Browning received great notoriety over his statement of increased probability of the San Francisco earthquake that occurred just recently. At any rate, he maintains that man's effect on the environment are in the major part completely countered by nature are really not the actual cause of the various anomalies the environmentalists attribute to man's

activities. The holes in the ozone that appear suddenly and then mysteriously disappear are due to volcanic eruptions emitting millions of tons of chlorine gas which destroys the ozone layer in the localized area. But, once the eruption ceases, the ozone replenishes due to cosmic radiation reacting with oxygen high in the atmosphere. The amount of CFCs emitted by man are a very small fraction of that emitted due to volcanic eruptions. Secondly, when accurate scientific temperature data (ie. away from large industrialized urban centers, large heat producers in the immediate area) a temperature decrease has been observed over the past 50 years. Global warming is nowhere to be seen. As a matter of fact, termites, through digestion of wood, emit more CO₂ than all of man's activities put together. The cutting down of the trees in the rainforests does take away some photosynthetic activity (reduces CO₂, increases O₂) only to be replaced by many times activity more due to the growth of grasses that take the place of the trees.

"Recent readings state that the alien influences is working toward altering the environment (which has an adverse affect on humans) to benefit their own biological mechanisms. Other inferences seem to lend support to global warming and ozone destruction beliefs of current concern.

I would like to run these previous concepts by Awareness for a validity check. Is the general state of the environment degrading according to popular public opinion? Who is the actual culprit responsible for this negative turn of events?

If damage or alteration of the environment is occurring, what is actually changing and what effects will it have on humanity?"

COSMIC AWARENESS:

This Awareness suggests these questions be asked individually.

QUESTION:

Is the general state of the environment degrading according to popular public opinion?

COSMIC AWARENESS:

This Awareness indicates that the state of the environment has been degrading to some degree caused by pollutants from some of the factories emitting smoke and pollutant particles into the atmosphere, especially those which create acid rain.

This Awareness indicates that there is also some effect on the temperature in certain areas caused by the cutting of forests in excess, and there is some effect of environmental damage caused by the dumping of wastes and toxins in rivers and oceans. This Awareness indicates that these are things that cannot be denied. This Awareness indicates there is also a problem with temperature caused by the pollutants of the volcanoes; both Mt. Saint Helen and the volcano in the Philippines, as well as Mt. Etna and others which have some contributing effect.

This Awareness indicates the oil fires in Iraq contributed partly to this, whereby these pollutants in the atmosphere have helped to create some effect in terms of polluting the lands within reach of these volcanoes and smoke, and to some extent affecting the weather to cause the El Nino effects that change the air currents and temperatures so that certain areas of the country, for example, become laden with drought.

The West coast and especially California has suffered a great loss of rainfall during the past decade, with California receiving the worst damage in this regard. Of course, other types of pollutants such as the radiation emissions from nuclear testing cannot be denied; these being effective in certain locations, and the environment near those locations.

This Awareness indicates that the question may be asked whether the environmentalists are exaggerating the problem or whether others are down-playing the problem, and that is a matter of subjective judgment, but there are certain aspects of the environment that are indeed being damaged and which cannot be ignored or denied.

16. (FOLLOW-UP QUESTION):

His question included: "If damage or alteration of the environment is occurring, what is actually changing and what effect will it have on humanity?"

COSMIC AWARENESS:

This Awareness indicates that with the depletion of the rain forests there are great losses in terms of potential medical uses; there is also loss because the rainfall will be diminished in the area. The forests help to generate steam and evaporation of water which in turn helps to make clouds. The forests also help to create wind currents as they cool the area, and the wind currents in turn help to bring in clouds and rainfall, thus, those areas could, if unchecked and continually depleted of forest, could easily turn into desert regions, and the entire South American continent or African continent or North American continent, where these forests are decimated could leave countries with little or no forests and considerable erosion of soil and loss of fertile land.

WILL ENVIRONMENTAL CHANGES EFFECT HUMANITY?

This Awareness indicates there is also the loss of creatures that live in these areas; the birds that carry seeds from place to place, even of bees that help to pollinate; these too might not be preserved so that fewer of the plants bare fruit as time passes. This Awareness indicates there are many ways these things can affect the weather, the social structure and the potential medical breakthroughs, in other words the health of individuals, by creating an atmosphere and environment that leaves little room for wilderness or unregulated life.

Who is Behind the Rape of the Environment?

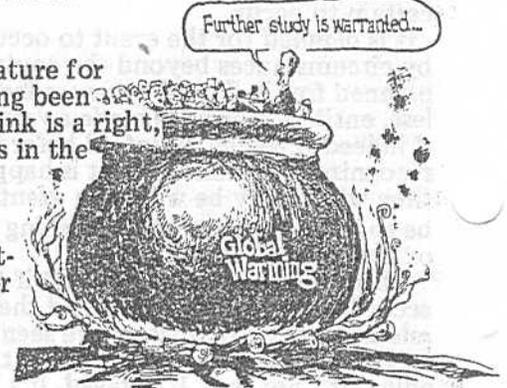

This Awareness indicates the question of who is behind this becomes rather obvious. It is not a single person, it is not a single party, it is not some mad heinous individual with a group of demonic henchmen. It is the little guy who wants to make more money and sees that he can cut corners here or there and pollute here and there without getting caught, or can cut these trees and get something for it and does not want to worry about the consequences to future generations or to others.

It is the large corporation that sees it can enter into this forest and cut enormous board footage and make millions of dollars for the stockholders and store up trees for hundreds of years to come. It is the country that sees this is a way of raising taxes, or getting surplus money for resources that are part of its country's wealth.

This Awareness indicates it is all from what appears to be justified rights of individuals and groups and nations, but whose interests are not involved in the preservation of tomorrow, of the benefits of a total society or the preservation of a resource that has global value.

This Awareness indicates that if it were possible for commercial capture of clouds to be formed as a business venture and some large corporation had the ability to capture all clouds on earth, and sell them individually to the various nations who paid the highest price, entities would do so, even if it meant that other nations would suffer drought and loss of produce.

The harnessing of nature for commercial gain has long been an action that many think is a right, even if it violates others in the process. It is time that entities on all levels begin to recognize the need for certain restrictions as to what is up for grabs and what needs to be preserved for the good of all.

This Awareness indicates that it depends, of course, on whether these countries somehow begin to see through the fake invasion, or whether they are entrapped by it.

This Awareness suggests the Interpreter be brought from trance.

WHY DON'T THE GREYS RETALIATE FOR NUKINGS?

(Greys Have Split From Dulce, New Mexico, Area)

QUESTION:

Another question from G.M. "Since it has been stated that the government has nuked a considerable number of the Greys, why haven't the Greys retaliated or the Reptoids done something? It would seem, from their position, a good time to trigger the implanted people or cause California to slide into the ocean."

COSMIC AWARENESS:

This Awareness indicates that most of the Greys have left Dulce, New Mexico, and have moved to other areas. This in part due to too many people knowing their location, in part seeking to find more solitude and quiet to do what they wish to do. This Awareness indicates that the Greys are still in reasonably large numbers. There are certain factions that work against each other and many of those that were destroyed were not valued by others that remain alive. Therefore, they did not seek to retaliate. In fact, it appears there was some cooperation with the Greys and government in eliminating certain types of Greys. This Awareness indicates that the Greys have become quite comfortable in being on Earth and are not looking to return to their relationship as subordinates under the Reptoids.

This Awareness indicates that this appears to be a situation that has calmed down considerably in the past year and that there are some Greys who are becoming, through the genetic engineering and half-breeding programs and associations with humans, are becoming more akin to human qualities, adopting certain feelings of independence, and this is also a new part of the equation among Greys.

WHY HAVE OREGON COAST WATERS CHANGED COLOR?

QUESTION:

On July 10th, a TV news show showed a story about the ocean along the Oregon coast; that in just one week, the ocean turned from its legendary deep blue to a pea-type green. This has never occurred before, and it has dumbfounded the natives and the authorities. Could Awareness explain what's going on there?

COSMIC AWARENESS:

This Awareness indicates it appears there is a combination of factors: weather conditions, ozone effects on algae and substances in the water, ultra-violet effects because of the ozone depletion and something that has caused an increase in the algae in the area and a release of algae into the water. Some of this appears to come from the deeper regions of the sea, and some from shorelines and rivers. It appears to be related partly to pollution, partly to ozone depletion and partly to weather conditions which affect the reflective colors of the water.

FOLLOW-UP QUESTION:

Does the so-called El Nino, which is supposed to be happening now, and bringing warming waters from the tropics have anything to do with it?

COSMIC AWARENESS:

This too, this as related to the weather influence.

CLOSING MESSAGE:

This Awareness indicates there are many areas in this reading that appear to have raised more questions than have answered. Much of that which this Awareness spoke of in the beginning was touched upon by questions, but still much is unanswered.

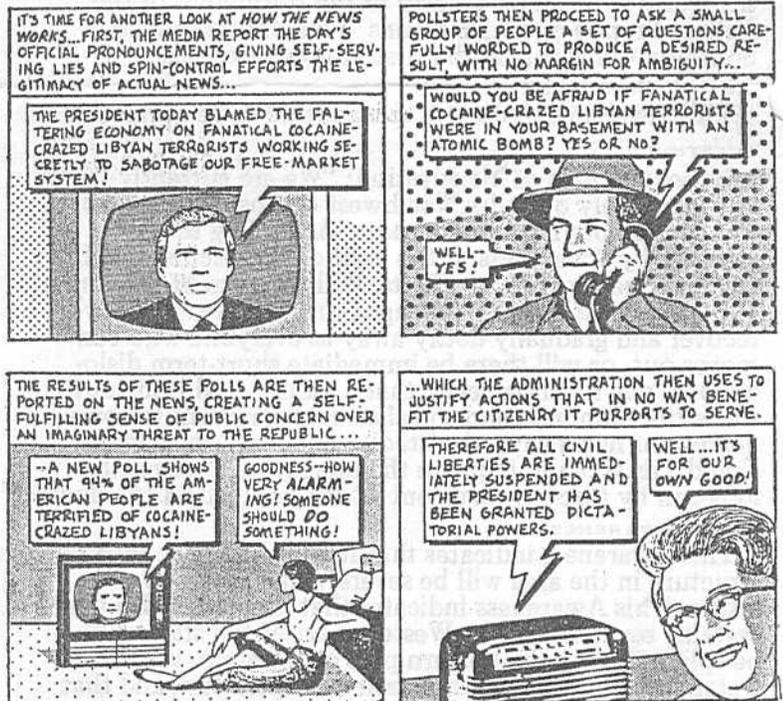

This Awareness indicates that there are some things that perhaps should never be answered, that may be too dangerous to understand fully. This Awareness indicates that there are some things that can be given to clarify many questions, but even in the clarification it may raise more questions that cannot be answered without grave danger.

This Awareness indicates that there are entities who say "I want to know everything!"; and there are those who say "Why did you tell me this? It is something I do not need to know. It is something I wish I didn't know!" This Awareness indicates it is sometimes quite difficult to discern what entities should or should not know. This Awareness indicates there are some things that must be told, and some things that must not be told.

There is that phrase which all entities have heard and clung to as gospel truth: "You shall know the truth, and the truth shall make you free!". This Awareness suggests sometimes entities know the truth and they are appalled by it and they do not feel free. They feel entrapped.

This Awareness indicates that even so, in time, the knowing of that truth helps them to become more free in one way or another.
