Declaration of Independence of 1994

A Declaration by the Sovereign Citizens of the Federal States Within the United States of America

...The Coming March on Washington D.C. "to Take Back Our Country"....

ATTORNEY LINDA THOMPSON'S "ULTIMATUM" AND "DECLARATION OF INDEPENDENCE" TO CONGRESS:

..IS THIS FOR REAL OR IS SHE REALLY WORKING FOR THE GOVERNMENT TO "SET UP"THE PATRIOTS ?

QUESTION:

Awareness, we're here tonight for a CAC general reading, with questions sent in from the membership. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness suggests that the document from David Alexander be picked up and the cover letter, the first three paragraphs be read.

QUESTIONER:

Okay. David writes: "Avaton. Linda Thompson, the woman who made the Waco tapes showing that flame-throwers were used to burn the Branch Davidian compound, has started a very serious patriot movement. She has been on talk shows, she has her own Patriot computer bulletin board and is on the world-wide Internet, posting conspiracy theories. None of this is unfamiliar to Cosmic Awareness readers.

But now she has taken a MAJOR step—issuing a new Declaration of Independence! Along with it, she is issuing an ultimatum to the U.S. Government that they take certain actions immediately or be arrested by the citizenry and tried for treason. Among the actions she is demanding are: repealing the 14, 16th, and 17th Amendments; declaring that the Federal Government has no legal jurisdiction in any State to make or enforce any criminal laws; declaring that the United States is not under the authority of the United Nations; declaring the national debt to the Federal Reserve illegal, unconstitutional, null and void, and issue currency, backed by gold, through the U.S. Treasury; repealing NAFTA; revoking GATT; repealing the Brady Bill; repealing the Omnibus Crime Bill.

Here is her latest message to the Patriot world, which is the most radical I have ever read. I have also included a copy of the Ultimatum and her Declaration of Independence with this letter.

After you read this, my question to Cosmic Awareness appears at the end of this letter.

COSMIC AWARENESS:

This Awareness suggests now that you turn the page and read the entity's question; this in the bottom half of the second page.

QUESTIONER:

"Now, people are starting to wonder if Linda Thompson is working on the behalf of the government, rather than for the people. What better way to round up the rabble rousers than by planting a fake "leader" and organizing an event that would get every supporter arrested for carrying arms in Washington D.C., where arms are illegal and is not even a state of the union?"

COSMIC AWARENESS:

This Awareness indicates the question as to whether this entity is working for this Federal Government to help round up the patriots is that which is a reasonable question, considering the way things have in the past been manipulated. This Awareness indicates that in this instance, the question is not in the affirmative, and is apparently one that is being promoted by those who are skeptics and who do not really expect or want to see a patriot movement in this country.

This Awareness indicates in the first place, the entity Linda Thompson is not the force behind this message or ultimatum. She, as an attorney is simply lending her

name and her representation to a greater force of patriots and these patriots have the full backing of the military in this country, the military having the authority from the Constitution to enforce the Constitution in the event the administration and other elected officials fail to do so.

The Military Has the Right and Obligation to Take Control When Government Officials Fail to Uphold the Constitution

This Awareness indicates that in other words, the authority of the Constitution as law of the land provides that in the event the elected officials fail to do their duty in regard to the people of the country, the military has the right and the obligation to take control and make sure that the laws of the Constitution are carried out properly and enforced properly.

This Awareness indicates in this instance, that is the situation. The entity is speaking for these people who have, as patriots, determined that the Constitution is going to be reinforced as law of the land, and no longer allowed to be usurped.

The "Federal" Government is a Separate Nation

This Awareness indicates this goes back to a previous reading in which this Awareness indicated that there are basically two governments in this country: the governments known as the United States of America; these being the state governments, united; and the Federal government, which is foreign to the United States of America, which is located in the District of Columbia, which is not part of the United States and which is in fact controlled to a great extent by the international bankers and by the laws and rules of the United Nations, whereby this Federal Washington D.C. state or country, has set itself up as a control over the United States of America as a quasi-government.

This Awareness indicates that elected officials residing outside of the United States of America in Washington D.C., are not actually employees or officials of the United States of America, or its rules. The states' rules do not apply. The states' Constitution does not apply to these entities in Washington D.C. because they are acting outside the country in this second nation known as the Federal government.

This Awareness indicates in other words, the United States Federal government and the United States of America are basically two different countries, and the Constitution of the United States of America is not the law of the United States Federal government. Therefore, these entities cannot, while in the District of Columbia, be accused of treason. They are operating in behalf of the foreign bankers and their special interests.

The agencies created in the District of Columbia have also been created as foreign agencies and it is to this that Linda Thompson's references are in part made. This Awareness indicates that all of this has been made clear and is understood by those in charge of the patriot movement.

The patriot movement is not simply a small group of Linda Thompson's people; it is spread throughout the country. It ties in to the Hildebrand Fort Collins lawsuit and with several other lawsuits that are equally being pursued or have been pursued, and it is timed at this point to take back the country and restore the United States Constitution.

Linda Thompson Has Strong Backing of the Military

This Awareness indicates that the action of having Linda Thompson speak out in behalf of the patriot movement in the United States, which includes most of the military of the United States and many of the higher officials who are still patriotic to this country; the purpose of having her do this is to focus the attention and the energy on a combined movement that will restore the strengthened power of the Constitution.

This Awareness indicates that it is going to continue with or without Linda Thompson. She was chosen because she was brave enough to challenge the Waco situation with her video tapes and with her outspoken discussions of the shenanigans involved in that Waco situation. It is not something that she herself personally is promoting, and therefore, entities who assume this are underestimating the power behind this woman's ultimatum to the Congress and House of Representatives in challenging them to go back to the Constitution or face charges of treason.

No Chance for Bankers and UN Forces to Take Over

This Awareness indicates the greatest question as to the potential power of this movement is whether the actions will be effective in disarming the traitors to this country, to the Constitution, prior to the 1st of September of this year. There are approximately 5 months, actually closer to 4 months in which many things could happen. Those who think that they can enter into this country with a United Nations army or somehow set up a war in this country in a way that would disarm the citizens and allow them to take over and restore the nation back to the United Nations as a subsidiary to the United Nations, should think again because they still have not disarmed the citizens, and as long as the citizens of this country are still armed, along with the military, and are all demanding the Constitution be restored, there isn't a chance for these international bankers and the UN forces to take over this country.

Spread the "Emancipation Packet" Far and Wide!

This Awareness indicates that it will be of great importance that this Declaration of Independence as promoted by Linda Thompson and others and the ultimatum to the Federal government and this general information in this emancipation packet, be sent to as many people as possible between now and September 1st. This Awareness indicates that it has been broadcast over many of the computer networks and bulletin boards; it has been sent as of two weeks ago to all members of Congress and the House of Representatives and she has requested that entities print

3. thousands of copies, sending them to ministers and to various leaders and agencies around the country. The notifications being sent to the media.

This Awareness indicates that she is asking entities to give time and money and print up copies to spread around, and asking for entities who can fly airplanes for dropping the leaflets over cities, to do so. This Awareness indicates she is basically a spokesperson representing the force of the patriot movement which has grown enormously in the past several years.

This Awareness indicates that these entities have researched and the conclusions and findings of a conspiracy that has covered some 80 years of time, from the beginning of the founding of the Federal Reserve Bank up to present time, have led them to recognize and have all of the evidence necessary to undo the mischief that has been created by this conspiracy against the Constitution and the American people.

You Have An Opportunity to Make History!

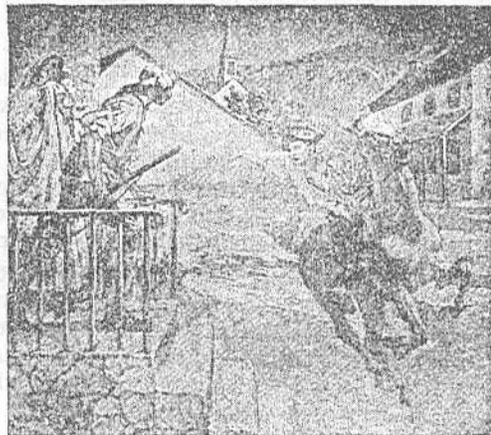

This Awareness indicates therefore, it is the proper time for this movement to occur. The individuals who receive this information have an opportunity to make history, equivalent or greater than that of the founding fathers when this country was first born. It is a time much like that of the 1770 decade, whereby however, a new level, a new form, a new type of tyranny is being overthrown just before it was ready to make its claim and clamp its iron fist upon the masses of this country.

This Awareness indicates that those entities who receive this information, and this Awareness suggests that the entire document be made available to the membership, should make as many copies as possible and spread those copies as far and wide as is reasonable within their means to alert as many people as can be alerted between now and September 1st.

A Chance to Dissolve the IRS and Federal Reserve!

This Awareness indicates that this will also be an action that works in conjunction with the Hildebrand/Fort Collins settlement regarding the Federal Reserve Bank and it will also restore the laws of the Constitution. Likewise, it is to be expected that the income tax, which is essentially a head tax, will be eliminated and the IRS will be dissolved along with the Federal Reserve Bank.

This Awareness indicates essentially, the IRS simply collects money for the Federal Reserve Bank; that in the past decade, the IRS in collecting from American citizens has not collected in behalf of the United States of America, but has collected in behalf of the Federal Reserve Bank, with the tax payments going to the Federal Reserve Bank rather than to the United States Treasury department.

This Awareness indicates only 22% of the taxes collected went to the United States for the national debt to the Federal Reserve Bank. The rest of the 78% of tax collected, went to foreign countries; to Germany and to other countries of Europe, into the Federal Reserve Banks there, to help those banks lend to the masses in Europe in order to create a greater indebtedness among these people so that the interest collected at 25% in most cases in those European banking contracts, would bring in even more revenue to the Federal Reserve banks than is available through the lending practices here, wherein the interest rates are much lower.

This Awareness indicates in other words, your tax money has gone into financing Federal Reserve bank fraud against the European nations, rather than going to your own country; that this is one reason why you are being over-taxed and why programs in your country are being cut and why your national debt is not being reduced, regardless of how much tax you pay.

Enough is Enough! Charge Them With Treason!

This Awareness indicates that the patriots, as represented in the document by Linda Thompson, recognize all of this and have decided enough is enough; it is time for a change, to get rid of the tyranny that has taken over this country through the false Federal government. This Awareness indicates that these entities are willing, ready and able to make such a demand or ultimatum. They know who the traitors are and they are backed by sufficient force to enforce the Constitution as law of the land.

Millions Are Asked to Witness Their Signatures!

This Awareness indicates that they are asking for millions of entities to witness their signatures on this Declaration of Independence, 1994. This Awareness suggests that entities may wish to examine this and determine whether they too would like to add their name to the millions of others who will be signing this for the September 1st deadline in which the Congress and House of Representatives and the Federal governments and the state governments agree to move back toward a Constitutional government for this country.

This Awareness indicates that those who do not are going to find themselves being indicted and tried for treason. This Awareness indicates this is a very serious situation, and these entities understand what they are saying, what they are doing in this ultimatum. This Awareness suggests entities to study this information, decide where they stand and to promote or send copies of this material as far and wide as they feel compelled to do, recognizing that many of the broadcasting actions will be duplications of similar actions by others.

A Momentous Event is Occurring

In other words, your radio station, your TV station, even your church will receive several copies from various people, but the repeated number of copies received will still be not a waste, but a greater influence on the recipients as to the importance and strength of this movement. This Awareness indicates that it is seldom in the course of human events that a moment such as this occurs.

There is always the continued effort of tyrants to build up greater and greater power over the masses, to create greater and greater holds on the minds, the energies and the resources of the subjects, and rarely in the course of human events has there been an opportunity for the people to form their own nation.

This happened over 200 years ago, and that nation became the most powerful nation on earth. It also became the most generous and the most inspiring nation on earth, until this century, when the foreign hands took control and began to turn the nation into that which represented *their* agenda rather than the original agenda of the people of the United States in their intentions as formulated by the founding fathers in the Constitution of the United States.

It has been essentially taken away from the people and from the future generations by these bankers. The freedoms no longer exist. The government forces could at any time walk into your home, ignoring Constitutional rights, shoot you, and proclaim that you were involved with drugs or some anti-government action, or that you were a child molester or some other falsified claim to get the public to praise them for having ridden society of such an awful person.

This Awareness indicates that this has happened repeatedly in big ways and more often in smaller unknown situations; that now it is an opportunity to throw off that tyrannical form of foreign controlled government and to regain the true government of the United States of America as presented in the U.S. Constitution. Those who have been traitors to this country will lose their controls. Even though they rode high and mighty in their power, they are now destined to fall.

A Time of Great Significance in the History of the World!

This Awareness indicates that this is a time of great significance in the history of this country, in the history of the world. This year is that which shall bring about a great change on the face of the earth, and to give a new life, a new resurrection to the concepts of freedom, to the concepts of individuality and to the very nature of your country, so that it again will serve as a beacon for the rest of the world in terms of ideals, values and purposes, in the preservation of human rights, in the preservation of human pursuits of happiness.

You Have Been Carefully Prepared for this Moment!

This Awareness indicates that you can be a part of this great momentous movement and you have been prepared and practiced for this for some time. In the past, you have sent messages during critical times, you have contacted people of significance in your communities, in your nation, you have sent the word out on this or that situation.

This Awareness indicates the "Hot August Night" scenario is recognized in the patriot movement as a time when the country was almost lost. You were, in a great sense, instrumental in helping to preserve the freedoms of this country long enough to allow this moment to come about, where the country can be taken back.

This Awareness indicates that having practiced during the times of the "Passage Perilous" and the "Hot August Night" and other situations, you are now prepared to help spread this information as presented by Linda Thompson to alert even more people than ever as to what is occurring in this nation at this time, and as to the great significance and importance of this occurrence.

This Awareness indicates that for many entities in this country it will be the first time they have ever realized that there has been a conspiracy working against them and against the nation to make them slaves to this international banking cartel and those who operate it. It will be new to them.

A Stupendous Chance to Alert the Masses to Wrong-Doings!

This document is full of information that will alert them to an entirely new level of awareness that they had never before encountered. The majority of people in this country have no idea of what is going on. The majority of people in this country would go along with whatever the media tells them in terms of the way they should look at the world.

The majority of people in this country couldn't care less about whether something relates favorably to the Constitution or whether a law is passed banning the Constitution, because they do not really know what the Constitution was all about in the first place.

This Awareness indicates this document by Linda Thompson and those who worked with her on it is such that it will alert the masses that something wrong has been happening in this country and that it is treasonous and that there are powerful forces who are trying to put the country right. It will cause them not to automatically go along with newsmedia or what the government issues as the statement. It will cause them instead to question: "What's happening here? Who are these patriots? Who are the good guys and who are the bad guys?"

This Awareness indicates once they begin to question, then they become eligible and capable of being educated, but until they question they are simply brainwashed robots going to and from work, obeying the rules of the plant, rules of the office and company and nation in accordance with the administrative policies that are handed down without questioning these policies, even if it is to their detriment to follow those policies.

A Document to Force Entities to Think!

This Awareness indicates that when a document such as this comes along, once or twice in a millennium, entities are forced to think, and when they are forced to think, it becomes possible that they might learn something of great

significance. Therefore, it is important that those entities who perceive themselves to have a certain degree of awareness have a responsibility to the masses whom they recognize do not necessarily have such a degree of awareness, and in their responsibility they have the opportunity to teach those who do not know and to show by example and to show through their efforts that force of creative love that helps to bring about a better world for everyone.

A Momentous Task is Ahead! Can you Help?

This Awareness suggests you think carefully and consider what you can do to add to the momentous task of getting this information out. If you can afford to print a thousand copies and send these or pass them out, set them in grocery stores or on tables in public places so that entities passing by recognize they are free to take, this will be a great way of distributing the information.

This Awareness indicates that this packet of information may be tentatively called *Your Emancipation Packet*. This Awareness suggests that such a term may not be totally descriptive, but it is quite clearly an essentially "Your Emancipation" in terms of freeing you from the future that was planned for the masses of the world by these entities who have for so long plotted and planned to make the two classes of people, those who rule and those who serve, for there are very few of you who would have in any stretch of the imagination been involved in the ruling class.

"Your Emancipation Packet"--Spread it Far and Wide!

This Awareness indicates that almost 99% of the people on earth, or more, would be in the serving class, as servants to those few; that therefore, this packet of information may well be Your Emancipation Packet as it is spread throughout the land to alert the masses so that they cannot be rallied in such a way by those traitors to your country, to turn against the patriots.

This is the important thing: that more entities become part of the patriot movement and quickly enough, so as to prevent the hostile forces from turning these entities against the patriots.

WILL AN ARMED MILITIA ACTUALLY MARCH ON D.C.? (How the "Hot August Night" Campaign Changed History)

FOLLOW-UP QUESTION:

I imagine a lot of people reading this document would have a feeling similar to what I had: that this was an incredible document, and I agreed with everything it had in it, and how, if this could come about, how it would transform this nation. What are the odds at this time? Does Awareness see an armed militia actually marching on Washington and forcing Congress to accept this Declaration of Independence?

COSMIC AWARENESS:

This Awareness indicates that the army is well behind this action. This Awareness indicates that in the month of August, 1992, the month of that Hot August Night, after the country had almost been taken over from the scenario planned, which was essentially stopped by all of the warnings that were put out, the alerts that were given to various Congress people, even those who were involved in the plot to set up the Hot August Night scenario; all of these entities receiving so much information from so many different people who seemed to know their plan, became nervous about carrying out the plan, knowing that they were already exposed, and so they pulled back and decided to wait for a more opportune time and to find a different way of doing the action.

The plan was to create a bank holiday and create a bank crash or economic crash in mid-December, the 17th of December, in fact. This was planned wherein the President Bush would declare a bank holiday and an economic crash similar to that of 1929 was to occur. This Awareness indicates that this could occur with or without Bush being re-elected, because he would remain in office until January, inauguration time.

**Military Patriots Forced Bush and Clinton to Sign Document!
(They Are Now Enforcing the Constitution in Many Areas)**

This Awareness indicates that shortly after August and shortly before the election took place, Ross Perot, Bill Clinton and then President Bush were invited to meet with the Joint Chiefs of Staff of the military forces: navy, army, and air force, and were met with a large number of military people, all of high ranking positions; the ranks being equivalent to those of Collin Powell and above. These high ranking officials informed the three political candidates for presidency that they wanted the signature from each of them that they would work to restore constitutional control over this country; that the Constitution would be the law of the land, and that they would sign this agreement or face the consequences.

All three of these entities signed the agreement and George Bush stopped promoting or mentioning the New World Order. This Awareness indicates that the military recognized its role and its requirement that it enforce the Constitution, the law of the land, in the event the elected officials fail to do so. In taking on that responsibility, these entities who had sworn allegiance to the Constitution in regard to their military career, felt they were acting in good conscience in opposing the administration or any who would not work in conjunction with the Constitution, and therefore, these entities re-asserted their patriotism, and in so doing, they congealed a powerful force.

They had already met and discussed and looked for ways whereby they could bring this country back to the Constitution. They began by having these three political candidates agree to work for the Constitution rather than for the United Nations and they then pursued the secondary actions which had to do with bringing about the changes in government to allow the Constitution to be effective throughout the land.

The first thing was to rid the country of the Federal Reserve Bank, and to restore the Congress and House of Representatives to their sworn purposes of serving the United States under the Constitution. This is what they are doing. They are enforcing the law of the land on the public officials who have been bought off in many instances by lobbyists and by special interest groups, many of them foreign in their agendas.

Citizens Now Must Also Assert Their Dedication!

This Awareness indicates that essentially, they are doing their duty and they are happy about what they are doing and the citizens or persons in the United States should also assert their individuality and their dedication to the Constitution, the law of the land, since it is designed for the people to serve as head of the government.

The Constitution was created to give the people the rulership over the government which they elect, and to create laws that are compatible with the wishes of the people. Therefore, it is time for individuals to pledge their allegiance to these laws that free them from tyranny such as that which was ever so close in recent months and which has been encroaching since that time, except for the patriot movement which is growing in strength daily.

6. This Awareness indicates there is a thing entities need to recognize: the fast growing patriot movement is very similar to that of a pyramid type of growth, wherein two becomes four, four becomes eight, eight becomes sixteen, sixteen becomes thirty two, thirty two becomes sixty four, et cetera, et cetera, et cetera, and the more entities grow in the patriot movement, the more quickly it grows to encompass the masses.

Patriot Movement Now Influencing 25% of Population

The patriot movement at this time, has influenced approximately 25% of the people in this nation. The other 75% in being informed by these 25% could, within a very short time, become so magnified in terms of their numbers that by September 1st, everyone in the nation will know what has occurred over the past 80 years, and why, for so long their parents and they themselves and their children have suffered so much indignity in regard to their work, in regard to their possessions, and financial assets, having so much taken from them and receiving so little in return because of the interference of the Federal government, rather than its protection of their rights.

This Awareness indicates that entities should indeed read the *Declaration of Independence, 1994*, and they will wonder: "How did it ever get so bad?" and they will see how bad it really is, when it is put into words and entities recognize that their rights have really been removed over a period of time, and that these rights should never have been lost.

Sometimes things can get so bad, that entities don't even realize it, because they would rather not stir up trouble, thinking the trouble is worse than the situation they are in, even though the situation continues to get worse day by day. This Awareness indicates at some point, someone can come along and say: "You're on a train with no engineer; it is going down a mountain pass! There is no future here! It is going to get worse! You had better *do* something!"

The entity might think: "Oh, no! I'm going to hold on to my seat; I'm going to stay where I am. It would be dangerous to do anything at this point." But when the entity points out: "You are going down a steep hill! The train is going too fast! You cannot get off if you don't get off *now!*", then the entity may sometimes wake up and realize: "I have to do *something!* Is there an emergency brake? or something to help slow down the train?"

This Awareness indicates this is much like what has been happening in this nation. The majority of people do not want to disturb anything. They would rather accept some tyrannical controls than to turn against the tyrannical government and they would rather think nice things about the government than to admit it is becoming tyrannical.

Our "Government" Is Killing Its People!

This Awareness indicates that many entities are killed for speeches, many are killed because they opposed certain policies of the government. This Awareness indicates that many were killed for things that should have been little more than a jail sentence or a slap on the wrist, or perhaps they were killed because of some government agency involving itself in a jurisdiction that it had no real control over.

This Awareness indicates there have been entities killed because they knew too much about UFOs or said something about UFOs which offended the secret agencies. This Awareness indicates that in a country where freedom of speech and other freedoms are allowed, entities have been killed for expressing or pursuing those freedoms. It is because the country is out of control in terms of the

type of government and who the government really is working for, because this government has not been working for the people for some time.

Our "Government" Working for the Rothschilds Not Us!

It has been working for the Rothschilds and other international bankers in their effort to create a New World Government, run by the United Nations, which is a Rothschild organization, which is an international banking organization. It is basically owned by the international bankers, established by them, set up by them, and influenced and basically controlled by them.

This Awareness indicates that it is time for the people to reclaim their inalienable rights that were given to them by the Divine, and handed to them through laws of the United States Constitution, the Magna Carta, and other documents from antiquity and historical situations wherein mankind fought, suffered, and died to win these freedoms.

This Awareness indicates that there have been, down through history, enormous efforts of individuals, first to conceive the idea of certain freedoms and rights, then once conceived, to promote those efforts to bring about the freedoms and rights. There has been much bloodshed in the pursuit of these freedoms and rights, and the great documents that come from these and the efforts to make these part of an institution, part of a society, part of a tradition have cost enormous amounts of energy from many many people, and yet, so many entities today don't even think about what freedoms they have, don't realize the importance of the freedoms they have, and when the freedoms are lost, they don't even think about that either.

It is only when the door is kicked in, and when the bogey man comes, that they wonder: "How can this happen? How can this be? What is going on here? Why are they doing this to me?" This Awareness indicates that these entities then begin to question only when their own comfort zone is affected adversely. It is time to wake up the masses and the best documentation and information heretofore lies in this *Emancipation Packet*.

This Awareness asks you to spread this far and wide. Give it to school teachers, give it to religious leaders. Give it to group leaders in meetings. Hang it on bulletin boards, on telephone poles, wherever. Pass it out in places where it can be presented. Lay it in post offices, on counters, in banks, in grocery stores, wherever it is possible to find a blank spot to lay a copy or two.

Where to Place Copies of the Documents

This Awareness suggests if it looks like it is safe to put a stack in a place where the people, the management will not pick up the entire stack and throw in in the waste basket, then do so. If there is lots of traffic, pedestrians going through or past the place, put copies there so that they can take it. Put it in coffee shops, in colleges, in high schools; places where entities collect en masse.

Put it in places such as theatre groups, or union meeting places, places where workers meet or pass. Put a little sign that says: "Take One!" and let entities discover. Whatever is in the packet is self-explanatory. It is not something that needs another cover letter. It is something that pretty much explains itself. There is an address. There are phone numbers where entities can get more information. Therefore, it is relatively solid and complete.

This Awareness indicates that you can do yourself, future generations, and everyone in the United States a great favor by putting a little money into printing this and spreading it around. It may be far more valuable in terms of money expended than donations to churches or to pay taxes. It may be far more valuable to do this than anything you have ever spent your money for.

EVEN 'JOE SIX-PACK' HAS BEGUN TO NOTICE A 'CHANGE'.

Put Some Money Into Printing Copies! Give Deep Thought to This Action!

This Awareness suggests that you give deep thought as to the significance and importance of this action. If you have large amounts of money to spare, you may wish to hire entities to help you or to get volunteers in helping to pass the information around. The more people who are aware of it, the more likely the success of the efforts of these entities to bring about the return of freedom to this country.

This Awareness indicates if no one knows about it, if few people hear about it, which is highly unlikely, the effort would come to very little, but because many packets of this information will be dropped from the air, and has already been spread in many ways throughout the country, there will be great numbers of people who already know about this.

This Awareness indicates that the reason for furthering the spread of this information is that the more people become aware of it, the less likelihood of bloodshed as a result of this effort, and this Awareness suggests that it is important, it is a real message to send to these traitors that if they do not cease and desist in their traitorous actions, the powers will overwhelm them, for the masses now realize what they have been doing over the years.

This Awareness indicates that once this message sinks in to them, they are not as likely to rally some kind of foreign troops or create some kind of national emergency to take control of this country or to resist the armed forces in their effort to restore the Constitution.

THOMAS PAINE
1737-1809

ENGLISHMAN by Birth
FRENCH CITIZEN by Decree
AMERICAN by Adoption

THOMAS PAINE: Pamphleteer

The idea of independence was at first foreign to the minds of the mass of American colonists. They struggled during the early years of the Revolution only for what they conceived to be their inalienable rights as English subjects. The popular movement for independence, the movement which converted the people generally to this radical step can, however, be dated from the publication of the little pamphlet *Common Sense* in 1776, written by Thomas Paine. Thousands read its simple, easy-to-understand words, and Washington himself paid tribute to its widespread effect. Paine's earlier and also tremendously successful pamphlet, *The Crisis*, had begun with the famous words, "These are the times that try men's souls."

HOW ABOUT NEWSPAPER ADS ?

FOLLOW-UP QUESTION:

Awareness, this information could be reduced in size slightly and could well be put on a one-page newspaper or perhaps a half a page. If entities who could afford it, or banded together to place that information in the form of an advertisement in major papers, like the New York Times and Washington Post and so forth; would these papers accept such information, beings they are establishment newspapers?

COSMIC AWARENESS:

This Awareness indicates that it could be done in this way. It could be done in such a way that the papers would not dare to reject such advertisement. This Awareness indicates that it could be done in such a way as to inform the newspaper that any newspaper which does not accept this ad will be mentioned in the ad, and the ad will be placed in other newspapers around the country with inference that the editors of those other newspapers are working *with* the traitors.

This Awareness indicates that it is time for the entities to promote freedom, and not to tip-toe with those who are part of the Bilderbergers, the Council on Foreign Relations and Trilateralist groups who work for the bankers in trying to take over this country in behalf of the foreign powers.

This Awareness indicates that it is very likely that these newspapers would accept such an ad if the ad were well-written and printed so as not to detract or to be embarrassing to the newspapers, and this documentation from the patriot group appears to be such as to be in good taste for most newspapers.

This Awareness indicates that another place for such an ad would be in magazines. For example, gun or rifle magazines would be more than happy to include this kind of information. Likewise, magazines of a patriotic nature, or magazines that are of a kind of social critical political quality which are not part of the New World Order agenda could accept such advertisements.

Magazines that spread the news, such as *The Spotlight*, for example, would be more than pleased to put such information, possibly without even being paid to do so. This Awareness indicates that the idea of printing information of this type in magazines or certain news bulletins, in many cases spiritual magazines from different groups, most of these would be receptive to such material if it were presented in a way that is compatible to their particular messages.

Many church organizations would be receptive to this kind of statement. In some instances magazines might wish to edit and cut down the information, to present it as a kind of news bulletin, such as the first paragraph by David Alexander in describing what follows could serve as a kind of news account relating to Linda Thompson and her presentation of an ultimatum to Congress and to the House of Representatives.

This Awareness indicates that he generally summed up the information and could also follow with a phone number of address for copies of the full document for entities who wish to know more, and this could serve as a single column in magazines or in newspapers. One could charge for the information or refer to it as "Free Information! Call such and such a number," or "Write to this address."

This Awareness indicates all of these actions can be of great benefit in getting the information out. It is ultimately important to get the information out far and wide, to make it available to entities, to let them know it is there, it is happening. It is something of great significance.

CONSIDER PUBLIC ACCESS TELEVISION (Presenting the Message as a Public Notice)

FOLLOW-UP QUESTION:

There's another area that could be explored, and that is the public access television channels that are available in most major cities of this country, and they will accept just about anything from a citizen who has something on his mind or has something to say. It seems to me that with only four months to go, that the important thing is to get the information out to the general public and this medium could be a fast way to do so.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that in some instances entities might find it more acceptable to television stations and to newsmedia if it is presented as a notice than if it is promoted. In other words, if you promote it or give it in a form of promotion as though you were in favor of what is happening, it may be perceived as a kind of advertisement which the manager of the newspaper or television station may not feel comfortable with, but if you present it as a notice: "This is what is happening," and it is presented in this manner so that "Linda Thompson is doing this," and "Linda Thompson says this and this and this, and she has written the following," or "She has submitted the following Declaration of Independence and this has been sent to every member of Congress and the Senate and to newsmedia around the country," as though you were informing the public as to what is going on; it can be made palatable to the station managers or to the newspaper editors so that it can be accepted with greater ease than if it is being promoted as: "This is what's happening! We want you to get involved!"

In other words, if it is presented as information where you are not asking the reader or viewer to do anything, you are simply informing them of what is happening, then in many cases, the newspaper, magazine or television station or radio may find it easier to broadcast.

QUESTIONER:

Yes. Just as if it's posted on a public bulletin board as a public notice.

COSMIC AWARENESS:

This is in the affirmative. It can be rewritten, using the same basic information, but with different headlines, or different approaches as to its presentation. It could be posted on college campuses or in pizza parlors or shops where people congregate, particularly areas where entities mill around and there is something on the wall to read while they are standing around waiting for something.

POSTING THE INFORMATION AS A "LEGAL NOTICE"

QUESTION:

I was wondering, most of the newspapers I believe are compelled by law to publish without charge in some cases, legal notices. I was wondering if something like that could be submitted to papers as a legal notice, with the request that they publish it.

COSMIC AWARENESS:

This Awareness indicates this could be approached. Many times the legal notices require having to be in a certain area to comply with the need for entities involved in the area to have the notice, if it effects them in some way. This Awareness indicates that to present it in a small town in the northern part of the United States when it is happening elsewhere may not be seen by a local newspaper as a legal requirement to print such information. However, if it can be shown that the local residents have a need to know, have a need to be informed on this or are requested in some way to write for information that may be of importance to them, such as a potential claim against the Federal Reserve banks, then it could be seen as a legal notice that requires it be posted in all areas of the country.

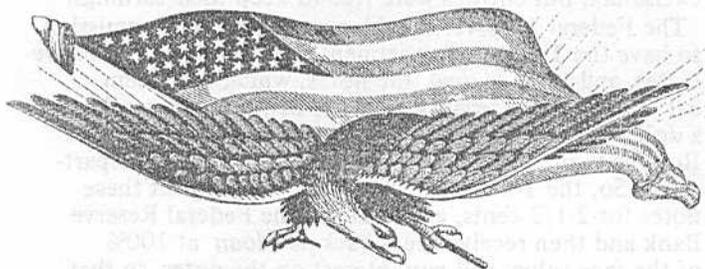

Post the Information on Telephone Poles!

This Awareness indicates that in such a case, the notice of potential claims against the Federal Reserve Bank would have to go to a particular address, wherein the entities are notified of an address where they can write to get further information, and this could be sent to the Hildebrand address, or to some address that would inform them of the potential for claims.

This Awareness indicates the Michigan phone number or address would be ideal for this purpose and it would create a situation whereby the newspaper would see a need for printing the legal notice. The question is however: Would the newspaper feel it necessary to present the entire document? This Awareness indicates that it may or it may not. If the document were paid for or paid in part as a kind of advertisement and notice, it is likely that the newspaper would accept responsibility to print it although they may not wish to print it entirely at their own expense.

This Awareness indicates there are certain areas which entities may know enough about to pursue. They may find they can be creative or may find they have to fit within certain guidelines, and in some cases, they may find they simply can't do what they wanted to do, but there are many ways of spreading the information.

This Awareness indicates that fliers can be condensed and posted in restaurants, in stores, in public places, on telephone poles. All of these make for ways whereby the information can be spread. If you cannot post the entire information on a telephone pole, you may post a synthesis and an address whereby they can order or write for full details.

You Can Even Sell the Information!

This Awareness indicates you can even find that selling the information for a dollar or two can allow you to continue printing more with the money you earn from the sale of the information. You may have to promote it in such a way as to make it seem or appear to be extremely important to the reader, which indeed it is, and you may wish to promote it in such a way as to show the reader how important it is, enough so that the reader would want to pay for the information.

This Awareness suggests however, that you not put payment as a priority in getting this information out. If you must charge for the information in order to continue printing further information, that is clearly understandable. This Awareness suggests that the key factor should be: How do I promote this information, and get it out to as many people as possible? Do I do it by giving it to individuals on the street, or should I direct it to individuals you might think would be responsible and turn around and give the same information to others?

There are some entities you know who will make copies or will tell others about it. These are the people you would want to give the information to, knowing that they would like to spread the information also. This Awareness indicates that to pass it out on the streets, not knowing anything about the people, and not having them come to you for their copy, or pick up a copy from some table, you can only hope that they don't throw it away before reading it.

Pass it Out to Strangers on the Street!

This Awareness indicates that if they pick it up, they are not as likely to throw it away. If you hand it to them they are more likely to throw it away than to read it. This Awareness indicates that however, if you hand information to someone, they are more likely to take it than if they see it on a table sitting there. They may not pick it up. They may not read it. If you hand it to them, they will at least take it in their hands and will look at least at the headline to see what you have given them. Thus, if you have a good strong headline, you may get them to read it if it is something of interest to them.

For example, if the headline states that the government is being forced to comply with the law of the land, entities might wonder: "What is this?", and they might continue reading, or if the headline states: "Militia to move against Congress and the Senate in September?", entities might question this, become curious and read the information.

There are ways of creating headlines that cause entities to want to know more and to read in order to satisfy their curiosity.

RADIO AND TV TALK SHOWS BOMBARD THEM WITH CALL-INS!

FOLLOW-UP QUESTION:

There's also this vast area of the radio and television talk shows, whereby they have call-ins; that if enough people would bombard some of these entities who have millions of people watching their shows every day, like Oprah Winfrey and Larry King and Geraldo Rivera and so on, to invite Linda Thompson and others who are in the patriot movement to come to their show and discuss it.

This is in the affirmative. The entity Linda Thompson has already been on some of these shows and has been interviewed in regard to her stand on the Waco video tapes. This Awareness indicates that it would be very beneficial if some of these places were bombarded by a number of writers or callers who requested that she talk about this, particularly if these entities were to send this information to the talk-show host, so they could see exactly what's going on.

This Awareness indicates that this could be of great value. It would also be to the benefit of Linda Thompson to have a great deal of exposure at this time, for the more exposure she has, the less likely the action of killing her would be, for if she were killed it would imply to the masses who know of her that the government had her killed because she was helping to promote the patriot movement and the government does not want entities to think such thoughts.

Give Phone Number for "Emancipation Packet!"

This Awareness indicates that one show on national TV could reach millions of people, and if she were to offer free information through a certain phone number, those millions of people could receive the Emancipation Packet and this many more people would have been made aware that they can help in spreading the information still further.

A MOMENTOUS TIME IN OUR HISTORY AND YOU CAN MAKE IT HAPPEN !

QUESTION:

Thank you. Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates *It* cannot emphasize enough the importance of this action at this time in history. A year ago, entities were complaining that the messages from this Awareness were discouraging, depressing and indeed there was little available to speak of that was encouraging. This Awareness indicates this is now reversed. It is the most encouraging time this Awareness has seen on this plane for many many years, and this Awareness indicates that you can, through your participation and action in spreading this information, help to make the world a much better place in a very short time.

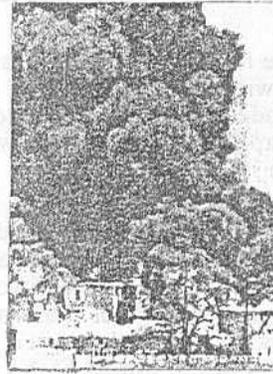

It is so encouraging that you may not imagine how much you will benefit when these forces have their power removed and the country is turned back to the masses, to you.

How the Illegal Income Tax Evolved

This Awareness indicates that before these entities began, there was no income tax. The Constitution provided only that an excise tax, a tax on goods could be required by the government. The concept of a head tax, or poll tax, which is the same as an income tax, was introduced originally not for individuals but for corporations and companies. Gradually it came to be applied to the individual and his so-called income.

Originally, it was not applied to the individual, for the individual did not make income, the individual earned wages, and the income tax was meant for tax on goods and the tax on wages or work did not indicate a gain by the worker because the worker had put out energy to receive the money for his labor and therefore, there was an equal exchange of labor and money in return. It was equally balanced.

Therefore, the laborer did not gain by getting paid, for he exerted a certain amount of labor and the even exchange was not considered as income, for there was also an equal outgo. Gradually, this was shifted so that the

I'm from the government. I'm here to help you.

laborer also was taxed for his earnings and the outgo was never considered as being of value in evaluating the taxable income. This Awareness indicates that when this occurred, the worker began to move into that which is called peonage or slavery, for if you tax an entity's earnings from the labor he puts forth, then his labor is being taken from him without compensation, and the compensation that does not come implies servitude or slavery.

The higher the taxes, the greater the peonage or slavery. This Awareness indicates that it was for this reason that the writers of the Constitution did forbid poll tax or head tax on wages. This Awareness indicates that the 16th Amendment which created the income tax was never ratified by all of the states. Only two states agreed upon it and one, with certain reservations of the two.

This Awareness indicates that these two states ratified or agreed to the income tax, but in Congress, the entity who heavily promoted the income tax stood up and made an announcement that an income tax had been ratified by all states and was now in effect. No one in Congress checked to see if this was true. They simply took the man at his word and enacted the income tax as though it was true, as though it had been ratified, and it became accepted as the 16th Amendment allowing for an income tax against the citizens of the country.

This Awareness indicates it has operated all of these years illegally, and the money has gone to the Federal Reserve Bank. Prior to that, the Treasury Department created money needed by the states and spent the money into existence. They would create, for example, a highway project, spending millions of dollars, which would then go into circulation within the country, and add to the money amounts circulating in the nation and it would create more business opportunities, activities and jobs, and no one was taxed. Goods were still taxed, in the excise tax, but entities were free to keep their earnings.

The Federal Reserve, in taking over, received permission to have the Treasury Department print its Federal Reserve Notes, and then loaned the notes, which cost them 2-1/2 cents each, regardless of the denomination, whether a dollar or whether a \$500 bill or more. The Federal Reserve then loaned these notes to the Treasury Department. So, the Treasury Department would print these notes for 2-1/2 cents, give them to the Federal Reserve Bank and then receive them back as a *loan* at 100% of the face value, and pay interest on the notes, so that

the population of the United States would have to pay taxes in order to pay back the 100% value of the notes borrowed, along with the interest on the notes, and create a national debt which eventually climbed into the trillions of dollars, simply because the Federal Reserve Act in 1913 was passed by a very small number of Rothschild agents serving in Congress. 11.

These were entities who have been bought off by Rothschild, and on Christmas eve, when everyone else had gone home, they ran the Bill through, voted it through with only about ten people present, voted the Federal Reserve Act through, allowing the Federal Reserve Bank to have the Treasury Department print money for it, loaned the money back to the Treasury Department at full face value, plus interest, to be used by the American people.

For 81 Years 13 Foreign Families Have Trashed Your Freedoms!

The Treasury Department, giving away all of its money to the Federal Reserve Bank through this act. The Federal Reserve Bank being a private corporation owned by foreign bankers. Thus, from that time until today, 81 years later, you have been robbed and cheated by these foreign bankers while they have created wars for your sons and daughters to sacrifice to, so that they could build up munitions, explode munitions, destroy cities, destroy countries, which would require more money, which would allow the Federal Reserve Banks to gain even greater wealth, so that the trillions and trillions of dollars could go these 13 families who apparently could not live on a balanced budget that would satisfy them.

This Awareness indicates that if you understand the significance of this lopsided extremism, you will see how urgent it is to get this back to a just and equitable form of banking and financial balance. In seeing this, you will understand why it is so important to relieve the suffering, tragedy and sorrow of the world through the proper understanding of the monetary system and how it has been manipulated by entities whose conscience is totally lacking, whose compassion is lacking, who have allowed your sons and daughters to suffer in wars of unnecessary reasons, and who has stolen your life's work and energies, those of your parents, those of your children and those of your own for over 80 years.

This Awareness indicates it is time to take back that which the founding fathers of your country gave you, but which you, your parents and others, through negligence and lack of attention, allowed to be lost and forfeited at great suffering of yourself, your children, your neighbors and your parents.

It is time to go back to the Constitution on which a great nation was founded and thrived for over a hundred years before these demonic people robbed you of your heritage.

Internal Revenue Service Department of the Treasury

TO ALL DISTRICT DIRECTORS

APRIL 4, 1985

On March 5, 1985, a charge of tax evasion was filed in U. S. DISTRICT COURT in Indianapolis, Indiana by U. S. Attorney George Duncan. The charges were dismissed! The defense attorney, Lowell Becraft of Huntsville, Alabama presented irrefutable evidence that the 16th Amendment to the U.S. Constitution was never properly ratified. This amendment which established the "income tax", was signed into law despite serious defects. In reality only two States ratified the amendment and ratification requires 36 states to be valid. The effect of this is such that every tax paid into the Treasury since 1913, is due and refundable to every citizen and business.

The official position of the service is, as it has always been to aid and assist the citizens of the United States. We will not publish or advertise this finding as a total immediate refund would cause a serious drain on the resources of the Treasury. For those citizens who became aware of this finding and apply for a total refund, expedite their refund documents as quickly and as quietly as possible. A simple 1040X form will suffice until a new form is designed and printed. Advise each of your managers that they are not to discuss this situation with anyone. There will be no written communications and you are to destroy this memorandum.

The Secretary of the Treasury assures me that there will be no reduction in the workforce as this refunding activity will take a minimum of 5 years to complete. Further directions will be forwarded as the need arises.

HOW TO GET STARTED!

Look in the Yellow Pages of your telephone directory under "Printers" or "Copies". There are many places such as Kinko's (a huge printing chain) with locations in most major cities across America. They will print these documents, collate them and staple them for about 5 cents a page! Less in quantity!

Don't overlook the idea of mailing these out! You can buy a packet of 500 envelopes at any stationary or printing and copy outlet. Mail these out to radio and TV programs along with a note requesting they get Linda Thompson on their show immediately, for time is short! Send these to local politicians, preachers, teachers, city councils etc. Send to movie and TV stars and particularly those who host talk-type shows (Barbara Walters, Hugh Downs, Geraldo, those guys on "60 Minutes" etc. etc. (TV Guide often lists addresses).

Order the book "Star Guide 1994 from Axiom Information Resources, PO Box 8015, Ann Arbor, MI 48107 for \$14.90, which includes postage. This book contains thousands of names and address of film stars, athletes, TV personalities, Authors, Politicians etc. These are influential people who could be interested in following up on the information. TV tabloid shows such as "Hard Copy", "A Current Affair" etc. would most likely feature such a bizarre story as Linda Thompson is releasing.

The information can also be released in the form of chain letters, either in its present format or in a condensed version. At the bottom have it read: **PRINT 50 COPIES AND SEND TO OTHERS AT ONCE!**

If you have access to a FAX machine (these also available in supermarkets, stationary stores etc. for public use), send the documents to important people. FAXES are not ignored and they reach the entity in a matter of seconds! The important thing is to try to get the documents into the hands of as many people as possible in the next few months, particularly those who can make more copies to inform even more masses.

Please Note: The information to reprint and spread far and wide is enclosed with this mailing. It is not necessary to reprint this newsletter!

PLEASE NOTE

From the Editor..

PLEASE NOTE: At the time David Alexander sent us this information, it did not contain the cover sheet "Alert" —and that information was not read to Awareness. This "Alert" sheet is asking entities to join the militia or start one if there is none in their area. Please understand that neither Awareness, the Interpreter or CAC is asking any of you to join any militia or participate on any march on Washington D.C. We are asking you only to help scatter this information high and wide in order to alert entities to the treason being committed by government officials and the tragedies the illegal Federal Reserve Bank has created for the masses these many years.

Although Awareness clarified the question David asked at the beginning of this reading, both the Interpreter and the editor later had second thoughts: Was Awareness seeing the entire picture? Was it still possible the entire movement was somehow being staged to get all the patriots together and then eliminate them in one fell swoop? Paranoia took us over for a few days and we stopped all work on this newsletter. Paul phoned several times expressing his concern, so I suggested he have his wife, Roshanna, help get him into the Awareness trance level and ask a question that would clarify the situation.

What follows is the question and the response from Awareness, which prompted us to release this information to you.

Dear Avaton,

May 11, 1994

Following is a short message from Awareness on the Linda T. concerns:

Q: While in Olympia, Paul did a reading about documents sent to CAC pertaining to an Ultimatum by Linda Thompson, an attorney acting in behalf of the WACO Branch Davidians who were burned to death when their building was attacked by armored tanks and troops. She has sent an ultimatum to Congress and the Senate demanding that they start following the U.S. Constitution or face arrest by a militia of armed forces on September 1, 1994. She also presented a "DECLARATION OF INDEPENDENCE --1994" which will be delivered to the House and Senate at that time.

Awareness suggested this was perhaps the most significant thing to happen to this country since its founding in 1776, and suggested CAC members support it fully.

Upon his return from Olympia, Paul called the number in Linda Thompson's document and it was a recording that started asking questions --seeking information on the caller. He became concerned that it might be a trick to round up patriots and sympathizers on a database of names and addresses so they could be picked up later and imprisoned. I might add, we had just seen Schindler's List about Nazi Germany's rounding up of Jews and others for imprisonment and extermination and that might have prompted some paranoia. Never-the-less, he was concerned about the questioning and the fact it was being recorded for a database without any human contact. He did not want to see CAC members get their names listed on some file that might deliberately or even inadvertently fall into the wrong hands and endanger them in the future.

Would Awareness comment on this concern?

A: This Awareness suggests the concern was not unreasonable under the circumstances.. This Awareness wishes to clarify that it did not suggest CAC members give "full" support to Linda Thompson's efforts. It acknowledged the woman's courage for taking a step to restore the Law of the Land, the US Constitution, and indicated she had more support on this than the term "militia" might mean to many, that there were regular military forces working with her on this also.

This Awareness did not at any time state or suggest that entities should join the militia for this action, nor that they join the march on Washington; It acknowledged that there may be millions of people working in support of this event, but that does not necessarily mean millions will march on Washington at that time.

This Awareness suggested only that CAC members become aware of what is happening, the significance of it, and to alert others of the situation and its significance. This is an opportunity to educate the masses as to what most CAC people have known for many years, but which others often looked upon as foolish "conspiracy- thinking and paranoia" on their part. Truly Aware people do not unknowingly put themselves in harm's way and this Awareness would not advise them to do so.

It is sufficient to alert the masses of the Linda Thompson situation. The more widespread the information, the less likely the bloodshed. It is not necessary to join the Army and fight a war over it unless one is so inclined from their own inner guidance. This Awareness will not direct entities to do this.

Thank you, Awareness.
