A MOVEMENT AWAY FROM CONFLICT & VIOLENCE
(The Year 1994 of Great Significance in Consciousness)

2.

OPENING MESSAGE: C.A.C. General Reading, June 15, 1994

This Awareness indicates the changes that are occurring in consciousness during this year are much greater and more significant than in any of the previous years up to this time. It is not likely to be understood for several years as to what actually is happening, but this Awareness indicates within several years, before the century turns, entities will realize that a great change has occurred in consciousness and the greatest energies began to move and make their shift in this year of 1994.

This Awareness indicates people are becoming much more aware, much more quickly; that even those who seem to have been caught in old thinking are undergoing a different attitude about themselves and about others whom they might have been in conflict with some time before. People who have totally opposite philosophies can still have harmonious vibrations together wherein they feel akin to each other on a spiritual path where they both walk, even if they walk with different philosophies or beliefs.

This Awareness indicates it is a time in which the emotions and the vibrations entities share in common are greater than the words, ideas and beliefs they embrace, and this is a unifying aspect of different cultures which is of great importance at this time, and in the near future, as cultures begin to unite and accept one another regardless of the differences that they tend to exemplify in their words, in their beliefs and in their particular orientation.

This Awareness indicates essentially, there is a movement of many different cultures walking together, side by side, in the same direction, which is away from violence and conflict. This Awareness indicates there are still of course many who favor and focus on and move toward the violence and conflict, but the greater movement of greater significance is that which moves from violence and conflict, even when there is difference in the philosophies of those who move from the violence and conflict.

WHAT RELIGION OR PHILOSOPHY IS CLOSEST TO TRUTH?

QUESTION:

A question from J.D. in New York. "Which religion, philosophy, esoteric school's 'story' concerning the nature of life on earth, spiritual progress, deity, life after death, man's place in creation et cetera, is the nearest to the actual facts?"

COSMIC AWARENESS:

This Awareness indicates this question is not clear. It is not clear to what the term "religion" means or what the term "philosophy" means. This Awareness could answer the question easily by saying that the philosophy which is more closely associated with the actual facts is the philosophy which this Awareness has given. However, this Awareness does not consider *Itself* as a religion or *Its* message as a religion, therefore, the entity may not likewise consider this as a religion, and is more likely asking about the traditional orthodox religions.

Hindu, Buddhist, Jewish & Christian Religions

This Awareness indicates that if the entity is speaking of the more orthodox religions, then this Awareness would say that the Hindu philosophy is the more closely related to actuality in the sense of its basic cosmology regarding the paths to spiritual enlightenment, regarding the planes and the vibratory rates between dimension.

However, there is also another level of truth found in the Buddhist philosophy, and still another truth found in the

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This Information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published here have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

Christian philosophy. The Jewish philosophy also carries a great truth. All of these have certain elements and all have certain areas that are somewhat lacking in terms of clarity in regard to actual truth of reality.

This Awareness has discussed many of these things already. This Awareness indicates the concept of the Buddha as representing certain truths in the sense of realizing that when the Buddha reached enlightenment he discovered that all others were also Buddhas and that they were all gods and deities, even if they had forgotten or failed to realize their Buddhahood.

This Awareness indicates the same in regard to Christianity. There are certain truths there which must be understood for entities to have a complete recognition of reality in that the Christ being one with God is a message for entities all to recognize; that when one is Christed as a Divine Being, the entity becomes One with God.

In other words, surrendering self to God, one becomes Christed or anointed with the frequency and vibration associated with the Divine Creator. This Awareness indicates there are many distortions that entities have brought to the Christian religion, but when it is properly understood, there are many great truths within the Christian religion.

This Awareness indicates also the same can be said for the Hebrew version of the Divine Creator and its place in the universe. All of these religions have something to offer. This Awareness suggests that entities learn something of the basics of all religions and they will find themselves accepting a composite of all religions in such a way that they are more complete and more wholesome in their spiritual evolution.

Religions that Promote Conflict are in Error

5.

This Awareness indicates that those religions that call for human sacrifice, religions that call for the slaying of your enemy or which condone the slaying of your enemy, or the harm perpetrated against non-believers; these religions are in error in so far as they promote conflict of one religion over another.

This Awareness indicates that this does not mean that there are no redeeming factors within those religions; there may be many factors in the religions that make them healthy, while there may be also many factors that make them unhealthy for human consumption.

This Awareness suggests that entities in learning what is truly spiritual and divine can separate the spiritual and divine of a religion from that which is less than wholesome so that they can look at their own religion or the religion of others and recognize what is good and what is in error in that religion, for none is seen as being absolutely truthful in the highest sense, and none is seen as being false in the total sense.

The Path of Sant Mot is the Most Pure

All have something of value, all have something that should be improved upon. This Awareness indicates of those philosophies connected with India, that which is called the path of Sant Mot appears to be one of the purest of the long line of religions that embraces the teachings of the saints, stemming from prior to the time of Christ, up to the present, being pure in the sense that it is not distorted by commercialism. The Christian religion has been highly commercialized in order to promote it to greater numbers and to the mass consumption. This Awareness indicates that it still retains a certain amount of purity.

The Sant Mot path appears to be that which had an origin of a same or similar source as Christianity. In fact, much of Christianity embraces some of the Sant Mot teachings and principles from ancient times, but the Sant Mot path remained pure and in terms of this type of religion, can be said to be the most pure to its original source, however, this does not mean it is based on or comes from the absolute truth.

There are concepts involved in the Sant Mot teachings which embrace spiritual truths, yet there are also spiritual truths that have not been examined or understood by the Sant Mot teachings, the same as there are truths that have not been properly understood by the Christian religion, even in its early era.

Huna-The Mother of All Religions

This Awareness indicates that the Huna philosophy of Hawaii was liberated by exploration of the Hawaiian language, especially through works of Max Freedom Long, and this released an understanding of a kind of Huna code found in all religions of the ancient sources, and this Huna code explains a philosophical outlook on which many of the religions from the past were based and from which many religions evolved.

This Awareness indicates that this in one sense is the most pure form of studying the mother religion, if entities wish to do so. This Awareness indicates that the book *The Huna Code of Religion** by Max Freedom Long, can give a good foundation for further exploration and study of this mother of all religions. You will see your religion, you will see the Christian religion, you will see some of the Oriental and Middle Eastern religions in the coded symbols of the Huna philosophy as revealed by the language breakdown and codes in the Hawaiian language.

This Awareness indicates that even this mother religion is not complete understanding or a complete representation of truth. There is still more to truth which may not have been discovered at the time these religions were encoded in the Hawaiian language. This Awareness indicates it is

therefore important that entities not settle on just the study of one religion alone, but that they recognize there are many different truths that can be extracted from the study of different religions, different philosophies.

"Celestine Prophecy" Opens New Doors

This Awareness indicates *It* is most pleased at the recent release of *The Celestine Prophecy* for it opens up that which may be considered a new philosophical outlook on human expression and the spiritual path for human progression, nor is it based on an old religion. It is more or less an addendum to the spiritual life, adding something that has not hitherto been made available to entities.

This Awareness indicates that there is information that has come from works of different people: the works of P.D. Ouspensky, in his *In Search of the Miraculous*, and the works of Gurdjieff his friend, and their school of research wherein they went into all the lands of the world seeking information in regard to the spiritual life, and bringing back this information to share with each other, in order to form a deeper understanding of what is the spiritual reality.

These entities gave much to humanity in the mid part of this century; P.D. Ouspensky and his book *In Search of the Miraculous* and Gurdjieff, each adding understanding to the database of spiritual information that entities can learn from. This Awareness suggests that entities wishing to learn, study these works also. Do not limit yourself solely to the various religions.

* Both books of Max Freedom Long and Ouspensky are available from CAC. Please refer to Book Price Sheet.

This Awareness indicates that it is important to study the various religions for what they have to offer, either in studying their actual works or in studying synopsis of the religious teachings and histories, but to study the various religions is good. If you can find a synopsis and have the chance to study that, even without a full study, it will be helpful in a kind of comparative religion approach so that you can see the connections between one religion and another. You can see the patterns.

Much Plagiarism Involved in Christian Religion

This Awareness indicates that by seeing the patterns of how one religion may relate to another, it becomes helpful in recognizing the evolution of the plagiarism involved in various religions. This Awareness indicates that many religions steal from each other and change the names of the characters involved in the religion.

This Awareness indicates that anyone who has the opportunity to study the Sitchin books in the Earth Chronicles series wherein they study *The Twelfth Planet*, the various books that follow, *The Lost Realms*, et cetera, they will begin to understand how the Hebrew philosophy or religions stemmed from earlier writings from Sumeria, Akkadia, and other earlier cultures.

The entities who wish to study the works of Graham and others who focus on the origin of the Christian religion may find that there are many direct quotes and plagiarisms involved in the creation of the Christian Bible, taken directly from writings that precede the Christian writings by hundreds or thousands of years.

This Awareness indicates that these writings are not necessarily original with Christianity, but are plagiarized from other religions of the time or of earlier origins, and this means that Christianity was not reported factually as history unfolded, but was a creation, of composites from different religions and cultures to create and manufacture a story for entities to consume.

This Awareness indicates that this does not mean that the Christian story is a fake or is fraudulent or is a lie, it simply means that it was composed from various other stories in the same way that the Star Wars trilogy stories were composed from other stories and brought to this generation for its consumption and passed on to future generations for their consumption, and that the Star Wars stories contain within them important messages for humanity, just as the Christian story was compiled from many different sources, contains information that is of great value to humanity, even though it may not have been factually reported historically correct.

This Awareness indicates that the same can be said for many of the stories out of ancient Egypt, that many of these stories and events from ancient Egypt became incorporated in the subsequent religions. There are connections between the Christian religion and stories that date back into Egypt. There are connections between the Christian religion and stories related to India and its gods, particularly Krishna, and there are stories of many other saviors who came to earth to help save mankind that have been incorporated into the Christian story.

The Piso Family the Main Writers of New Testament

These different stories from other cultures being brought into the Christian story by the writers of the New Testament, the Piso family, in particular, writing under various names of the books known as the New Testament, have brought a great myth and guiding force to humanity which molded an entire civilization.*

This Awareness indicates that it is for the good of humanity that these stories have been presented as guiding influences to help bring about the civilizations that unfolded as a result of these stories, of these teachings, of these messages. This Awareness indicates that humanity is never complete from a single myth or a single religion, but always grows with greater understanding as new ideas and new influences are brought in, particularly when those new ideas and new influences complement the highest and best that have been available in human expression.

This Awareness indicates that in this new era or New Age, there will be many entities bringing forth new information, new insights. *The Celestine Prophecy* as one which adds these greater insights for humans to better understand so that they will be ready for the next level of insight or new information that will again help to evolve the human species into a higher spirituality.

This Awareness indicates you need not think any particular religion has the final answer or that becoming an expert in a particular religion means you have reached absolute spiritual evolution, for you will always find more room to grow. It is likened unto trying to find the edge of the universe; as long as there is the potential for something beyond this limit, there is always that further room to expand, and entities should understand by now they do not ever find a limited amount of knowledge or understanding. There is always room for more understanding and more knowledge.

Likewise, there is always room for further spiritual growth and to assume you have grown spiritually as far as you can because you have become an expert in a particular religion is folly. This Awareness suggests that it is for entities to search for truth, to seek truth in every nook and cranny available, and when finding a truth, to recognize: "There is one; where is the next?"

This Awareness indicates that by continuing to search for truth throughout one's life, you will continue expanding spiritually evolving, evolving, and further evolving in a spiritual sense. This Awareness indicates you need not search for the "correct" religion; you need to search for truth wherever it can be found. It may be hiding in some obscure

religion or some obscure philosophy, or it may be right there in plain sight and you may have missed it until someone points it out and you take a second look at something you have seen time and time again without seeing it from the right perspective.

This Awareness indicates that truth is that which you seek for your higher spiritual growth and evolution and much of this truth will begin to come to you at greater speed as you continually surrender yourself to the Divine on all levels of your existence. When you totally surrender to the Divine, information begins to flow to you. You begin to tune in to cosmic truths which yield up their secrets to you.

*For more on the Piso family, we suggest the purchase of the booklet, "The True Authorship of the New Testament," by Arius Calpurnius Piso, whose pen name was Flavius Josephus, a Roman. More than once, Awareness has validated this information. Please note: CAC does not offer this booklet, you can obtain it only by sending \$5.00, which includes postage, to the Abelard Reuchlin Foundation, PO Box 5652, Kent, Washington 98064. (They offer a substantial reward to anyone who can disprove any of their information).

WHAT TAKES PLACE DURING THE YUGAS CYCLES?

(Boggling the Mind with Useless Information)

QUESTION:

In regard to the Krishna religion, S.J., of Toronto, Canada, has some questions. I'll read his first one here:

"In the book *Bhagavad-Gita* (The Book of Krishna), it discusses the four Yugas which had a different level of spiritual awareness, growth, and violence in each of the Yugas; the Yugas, ie. the Sat Yuga which lasts approximately 1,728,000 years which is absolutely spiritual in nature, then deteriorating to Treta-Yuga which lasts approximately 1,296,000 years, Dvapara-Yuga which lasts 864,000 years, and the present Kali-Yuga (the Dark Ages) which lasts 432,000 years. We have at present passed 5000 years of the Kali-Yuga. At the end of the Kali-Yuga, the cycle is restarted with the Sat-Yuga again. One thousand such rotations of 4 Yuga period cycles make up one day of Brahma. The same number also make up One Night of rest. The Brahma continues for 100 such years. By earth calculations, the total duration of Brahma is 311 trillion and 40 billion years. The book mentions that physical activity is manifest in the cosmos during the day of Brahma which is 1000 cycles of the 4-Yugas. At the "Night", the physical creation, the material objects are non-existent, they have been destroyed. After 100 such cycles of the "day of Brahma," the creation, the physical ceases to exist for unspecified duration. Here, the life of Brahma is finished.

Can Cosmic Awareness explain these concepts in detail? What is actually happening in each of these cycles? ie. in physical creation and consciousness? Can Cosmic Awareness explain the difference between the Night of Brahma and the Death of Brahma (after 100 cycles of the day of Brahma). What actually takes place during these cycles?"

COSMIC AWARENESS:

This Awareness indicates "no!" It does not wish to get into this kind of mental activity, which is likened unto putting your brain in a blender. This Awareness indicates the only reason for these figures being thrown out to humanity, is to boggle the mind so that it recognizes the concept of infinity.

By giving such information, the book expands the consciousness to such a state, that entities think in terms of something far beyond self, which is healthy, but this Awareness indicates to get into details of what occurs in a one million year cycle, or a half-million year cycle, is of no more value to the human mind than whether there are soap operas being shown during those times, or whether there are still romances and jealousies being experienced by entities during those times.

None of these things are of any value whatsoever, they are simply ways of escaping and adding to the mind's own desire for useless facts. This Awareness indicates that all you need to know from a study of this kind of information is that things go on for a "long long time," even though your body may live and die in a very brief moment in comparison to how long the cycles exist.

What does it matter what happens a million years from now as far as you are concerned? , or as far as anyone living on earth is concerned? It has no effect whatsoever on your present life, or how you live your life. It is totally useless information. It would be much better to use your mind to study how you relate to your friends, how you gather purpose and meaning from your work, from your expression, and what you do with your time.

This Awareness indicates that there are other things of much greater importance than trying to determine what occurs in a period of time millions of years from now, or in between times where matter exists and matter doesn't exist.

This Awareness indicates there may be other information in this book of great value, but the purpose of those figures is simply to help the reader to understand his life in perspective to the concept of the infinite, so that the entity does not become too self-centered and concerned about self-importance in his brief moment in the flesh.

This Awareness indicates that if it is of real importance for you to know what goes on during those times between the creation of matter and the annihilation of matter, just visualize the big bang occurring and everything then disappearing and fading away, likened unto fireworks that fade in the night sky, and then another big bang occurring and fading away, and visualize these happenings, these explosions, these fireworks as occurring every so many hundreds of thousands or millions of years apart. What can be said to describe what happens? They simply appear and disappear

Life appears and disappears on these particles that are emitted in the time of the big bang. These are the Breaths of Brahma, the Days of Brahma. So what! So, these things occur and life appears and disappears, and there are very brief lives and there are very long lives. What can be said about this, if it is happening a million years from now?

Does a story about an individual during that time make it more real and more understandable or give some great insight? Should this Awareness describe some tailor or some farmer in that future Yuga, to help give a better insight into what occurs? Would this be of any real value, or would it simply be entertainment for the mind?

5.

WHY WOULD A HIGHLY EVOLVED ENTITY WANT TO EXTEND HIS LIFE FOR MANY YEARS? (Why Not Split When you Have the Chance?)

QUESTION:

Another question from this entity. "Regarding rejuvenation, the Philosopher's Stone and so forth, what is the point in adding so many years to one's life? The idea for a spiritual minded person would be to get out of this material encroached world and move toward the Divine. Why then, would a highly evolved person want to live, say, 500 years?"

COSMIC AWARENESS:

This Awareness indicates that it is not necessary to extend your life. This Awareness indicates, however, there are some entities who would prefer to extend their lives so that they can evolve as much as possible in this one lifetime, rather than having to live many lifetimes in order to grasp the lessons they might learn in a single lifetime.

This Awareness indicates that if you must spend 20 or 30 years just getting to be an adult and a responsible person, able to take responsibilities for one's soul growth, then you find that ten years after you have reached such a maturity that you have developed an illness or a disease, and are now on death row and dying, you have actually only had the benefit of perhaps a few short years to work on your spiritual life, because you have spent so much time trying to get through school, trying to get through puberty, adolescence, and making the mistakes of the 20's that you have not really had time to focus on your spiritual needs.

This Awareness indicates if you have ten of those lives, perhaps you will have 50 years of actual spiritual work. However, if you live one life, a long life, and get 50 years of time to work on yourself spiritually, then you have gained as much as you might have otherwise gained in those ten lives. This is the advantage of living a long life, and using your years to your best advantage.

If you do not wish to study or learn about the spiritual paths or develop yourself spiritually, there is actually no purpose in your life at all. You can live and consume and can feed your appetites and die, and if that is the sum of your life, then there is really not that much reason for having lived at all, but if you can spend time in your life discovering truths, discovering how to become more spiritually evolved, then you have gained something of value, and if you can prolong your life so that you gain even more spiritual insight, then your life and your extension of life is of great importance.

This Awareness indicates also, entities can live a long life and extend their life, and all that it amounts to is that they have consumed more by living longer. They have appeased their appetites by living longer, if they have not gained anything spiritually. Therefore, the longevity to some people would be nothing but a waste.

This Awareness indicates that it is a matter of what is important and what one's priorities are as to whether gaining time or living longer is of any importance whatsoever. This Awareness indicates that entities do not need to live longer lives if they use the quality of life they have been given and evolve spiritually during that time in a high and qualified way so that they have not wasted years which could be used for spiritual evolution.

This Awareness indicates if there is a further part of the question which has not been answered, that this be repeated.

ALL ABOUT THE DALAI LAMA AND HOW HE IS LOCATED

That sounds like Awareness covered it. A number of people have written in asking questions about the Dalai Lama, and Vikki corresponds with Bo Lozoff of the Human Kindness Foundation who sent some information on him which I'd like to read and ask a few questions about. He writes:

"On February 18th, Sita and I were blessed to spend a full hour with His Holiness the Dalai Lama at his home in Dharamsala, India. To the Tibetan people and many others, the Dalai Lama is the 14th incarnation of Avalokiteshvara Buddha—the Buddha of Compassion. His presence is the very personification of humility, and of "caring more about others than about oneself."

For those of you who don't know much about the Dalai Lama or the Tibetan situation, here's an extremely brief description. Tibet sits atop the majestic Himalayan Mountains between China and India. For many centuries, Tibetan life revolved mostly around studying and practicing the Buddha's deepest teachings, under the guidance of each Dalai Lama.

You see, each time the Dalai Lama dies, he leaves clues as to where or when he will take birth again. Within a few years after his death, Tibet sages also have dreams and visions which give further clues, and then they go in search of the new incarnation. When the infant or toddler is found, he is tested in various ways, including a ceremony in which he must identify various religious relics from his former life and correctly reject the imitations and forgeries of those relics.

When the sages are satisfied of his identity, the infant's parents gladly entrust him to a monastery, to be educated and trained by Tibet's wisest, most compassionate teachers, and groomed for his eventual role as leader of the Tibetan people. Of course, being an incarnation of an enlightened master, the child often knows scriptures and teachings even before hearing them. Between such natural abilities and the extraordinary attention paid to his training, he becomes intelligent and insightful almost beyond imagination. The current Dalai Lama can sit for hours in profound peace or discuss quantum physics with the world's most renowned scientists; he can give the most ancient and sacred Buddhist initiations or speak to the U.S. Congress about subtle details of foreign policy and human rights abuses in nations like China. He has clearly transcended the chains and struggles of worldly life, yet chooses to remain fully involved in the world and 100% committed to relieving its suffering."

And then his letter goes on to explain the situation in Tibet having been invaded by China and so forth, but I'd like to ask Awareness: Is this basically valid information, on how the Dalai Lama is chosen?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that these entities go out and search for the newly born child and upon finding the entity, testing him as described and gradually, over long periods of time, the revelation becomes

His Holiness the Dalai Lama in India, 1994. photo by Beth Waldron

more and more clear that this is indeed the entity who has memory and recognition of certain things. This Awareness indicates that this description as given is quite accurate.

This Awareness indicates that the Dalai Lama chose to let the Chinese have Tibet rather than cause a war, when China felt itself in need of taking more space and territory. Rather than allowing China to go into India, the Dalai Lama created an influence that redirected China's ambitions into Tibet, and thus, by sacrificing Tibet, to appease the Chinese appetite, the Dalai Lama prevented an invasion into India.

This Awareness indicates that this occurred in the Sixties decade of this century, and these energies of the Sixties and Seventies and into the Nineties, wherein the Chinese have held territory in Tibet, have kept a kind of spiritual agreement or energy field that has locked China out of India.

This Awareness indicates that it has also made the world much more aware of Tibet and the Buddha and the Dalai Lama, and given much greater respect to these teachings and the philosophy espoused in the teachings.

FOLLOW-UP QUESTION:

Is the entity reincarnating over and over the actual Buddha?, or is it another entity symbolically doing this?

COSMIC AWARENESS:

This Awareness indicates that it must be understood that the Buddha is a state of consciousness, likened unto the Christ being a state of consciousness, not a personification or a persona, but a state of consciousness. This Awareness indicates that Gautama and those who become Buddha are entities who reach Buddhahood, just as Jesus rose to a state of Christhood, and the energy or state of consciousness that exhibits itself as Buddha or Christ is not a persona: it is a state of being.

So, to ask if this is a reincarnation of Buddha is not a valid question; it is perhaps intended as a question of whether the entity who was first written of historically as having reached Buddhahood, whether this entity is the same entity as the present Dalai Lama. This Awareness indicates that if this is the question, then this Awareness indicates the answer appears to be in the affirmative; that this entity is the reincarnation of a long line of reincarnated entities, stemming from the entity who was historically known as having reached Buddhahood.

WHY DIE AND THEN COME RIGHT BACK?

FOLLOW-UP QUESTION (VIKKI):

Is there some advantage in having the normal lifespan and then having a period where there is no Dalai Lama alive, and then going through this process again? If it is indeed the same entity over and over again, what's the advantage of going through the death process and coming back?

COSMIC AWARENESS:

It is a matter of being able to rest, much as when entities lie down on a cycle of day to day activity to sleep, entities also have a different kind of sleep between lifetimes, wherein the soul itself can take a rest.

This Awareness indicates that in these periods between incarnations, entities can be recharged spiritually and given new energizing so that when they return to the body they have a body full of spiritual and physical energy and can have more ability to function with that newly energized body.

Radiation Ages the Physical Body

If an entity stayed in the same old body without the opportunity for renewal, the body would gradually wear down from the radiation that comes to the earth and causes the aging process. It is very difficult to get around such radiation. People can prolong it, can put it off with their immune systems, and their immune systems can be helped by proper attitudes and proper exercises and proper food and other means of extending the life force, but still, the radiation gets through and has its aging effect on the body.

Thus, when the body becomes weak and old from excessive radiation over long periods of time, or when pollution and toxins help to age the body and it becomes weakened and energy is depleted, eventually it dies and there is a rest and then a return of a new body, a new life, a new energy.

The Dalai Lama does not need to reincarnate on earth; this entity could go on to other experiences, wherein he could live longer lifetimes in more beneficial environments, but the entity has a commitment and dedication in helping to raise the vibrations on earth, in helping to enhance the spirituality of those on earth, and so has chosen to reincarnate repeatedly on earth in order to help bring this planet into its higher dimension.

This Awareness indicates that it appears the Dalai Lama will continue reincarnating on earth until the earth matures spiritually to where other entities are experiencing Buddhahood with such regularity that there is always at least one Buddha on earth at any time.

FOLLOW-UP QUESTION:

Would that be when the earth goes into the new dimension in the year 2012?

COSMIC AWARENESS:

This Awareness indicates this is probable.

HAVE THE GREAT AVATARS RETURNED TO GUIDE US?

(Tuning In To the Divine Frequencies)

QUESTION:

S.R., of Toronto, Canada, has a question along this line. Awareness just indicated the Buddha returns. His question is: "Have the avatars Christ, Jesus, Buddha, et cetera, returned to be guides after they have reached the total states of Awareness in other days or other lives of Brahma?"

COSMIC AWARENESS:

This Awareness indicates the Christ Consciousness comes and goes, touching various individuals, changing their lives, bringing them that peace that passeth all understanding. This Christ Consciousness moves from person to person at various times; it is not seen as that which has limited *Itself*

or taken to a single individual as a personal attachment, but as that which is available to anyone who surrenders to the Divine, and when it comes to the individual, the individual knows the Christ.

The Christ touches their soul and they understand what it is to be One with God. This Awareness indicates that the Buddha as that which tends to make itself available to those in the Orient or other places wherein, rather than Christ, entities look to the Buddha. They are actually one and the same vibration or frequency, but entities have described them differently, and in the different cultures one will be touched by the Buddha, another touched by the Christ energy.

It is the same energy but it is called by different names. In the Orient, many Buddhists experience Buddhahood, are touched by Buddha. In the West, many entities experience the touch of the Christ and experience being Christed, or christened by the Divine Light of God.

This Awareness indicates that most people think of these energies as being individual personas, but they are frequencies and vibrations that can express themselves through anyone who is ready, who is open, who surrenders to the highest frequency, to the highest Divinity.

ACCIDENTAL DEATH: DO ENTITIES WILL IT?

QUESTION:

A question from L.K., Denver, Colorado. "This question is about cause and effect along with karma," she writes. "My mother died last month as a result of an auto accident wherein another car broadsided their car. As I understand what I have learned in the past, all parties to the accidental death wanted the learning experiences, and in my mother's case, she also wanted to make her transition or death at this time. Is this correct?"

COSMIC AWARENESS:

This Awareness indicates that in the case of your mother, this appears to be correct. This Awareness indicates that it does not appear that every instance of death is willed by the deceased; in some cases, entities do not wish to die, and meet untimely deaths. This Awareness indicates that there are many instances wherein an entity wanted to live, but whose life was cut short, and the entity is so distraught that he stays in the area and haunts the area, trying to resume his life as though he were still incarnated in a body.

This Awareness indicates but in your mother's case, it appears the entity was in such a state as to have a death wish.

FOLLOW-UP QUESTION:

Awareness just answered her follow-up question: "Is this always the case? Do all persons want the death transition and/or learning experience from seeming accidents?" Let's see. She goes on to ask: "Does this also apply to large groups as in the case of airplanes, ships, or even wars, the 1940 holocaust, Bosnia, Rowanda and so forth? Do these people desire on some level to die or to be maimed?"

COSMIC AWARENESS:

This Awareness indicates not always. There are some instances in which the entities have certain death wishes, there are some instances wherein the entities have a need to fulfill a karmic debt, and the karmic fulfillment requires their death. There are still other instances in which the entity did not wish to die, did not have a karmic debt, but was taken anyway because someone violated the rules of life and caused an accident or death through deliberate action.

This, of course, creates a karma of its own that will eventually need some kind of repayment by those who violated the right of an entity to live. This Awareness indicates that sometimes an entity in one life creates a situation in which through his own neglect or intent deprives another of his

or her right to live. That entity who caused the death may in a future life have his or her life cut short, not because he or she had a death wish, but because he or she had a karmic debt to repay and needed to learn some lessons from the incident.

If the entity has not experienced complete remorse for having cut short another's life, then the entity may learn the hard way by having his or her own life cut short in a following incarnation.

THE DEATH WISH: DO WE ALL HAVE ONE?

FOLLOW-UP QUESTION:

Some psychiatrists acknowledge the death wish and Awareness has mentioned this numerous times. Does everyone have a death wish, and if so, are they born with it, or do they acquire it on some level?

COSMIC AWARENESS:

This Awareness indicates that anyone can develop a death wish; it is not something that is part of your genetic structure. It is something that develops when entities lose hope or feel unable to fulfill some life wish or life dream or purpose in their lives.

As long as entities have a sense of purpose and direction, as long as entities have some hope of gaining an improved situation, or as long as entities have a feeling that they are needed by others and are hopeful of helping others, there is not likely to develop a death wish.

But, if these things become tiresome to the entity, if the entity feels that his or her life dreams will never be fulfilled, if the entity feels that there is no further need for them, or meaningful purpose in continuing to live, then the death wish often comes in and it does not take long for it to have its effect and to cause either accident or illness to shut down the system.

This Awareness indicates of course, in some situations, rather than an accident or illness, it may be an incident that shuts down the system.

FOLLOW-UP QUESTION (VIKKI):

Is an incident being a victim of violent crime, or...?

COSMIC AWARENESS:

This is in the affirmative; that being one example. This Awareness indicates that *It* simply didn't want to give the impression that only accidents or illnesses could be the cause of death from a death wish, for entities in having a death wish, can also bring forth a violent crime or other incident that may not actually be classified as accident.

For example, a suicide would not be an accident, but it could be an incident that results from a death wish. This Awareness wishes to add that if entities lose hope and feel that they are no longer of any value or purpose in their continued living, and if they have more pain or unpleasantness in life than pleasure, and develop a death wish or begin to feel a sense of wanting to die, they can often put themselves and put their death wish on hold, with the knowledge that things change.

⁸ If they wait long enough, things will change and the situation they have felt trapped in may change and new reasons for living may come. Once they recognize this possibility and temporarily set aside their death wish, things usually begin to change very quickly. They may wish to take a vacation, a change of scenery, and it can be extremely beneficial to them, so that within a matter of days or even hours the death wish may no longer be with them.

How to Help Entities With Death Wishes

They may wish to live. They may find something new of interest to them, and they may pursue something of interest. It is important to help entities to look forward to something of interest, because in looking forward, entities are not inclined to have a death wish. If they have nothing to look forward to, they often look back and see everything as being over, and then have a death wish, where they look forward to life on the other side, or to no further life at all.

This Awareness indicates that if you can give them something in this life to look forward to, they are quite likely to avoid death wishes. Most entities have a death wish before dying and if you wish to prolong their life, give them a reason to live, something to look forward to, and some kind of hope for a better future for themselves.

You may also help them by giving them a sense of purpose, informing them that you or their children, or someone needs them. If it is not too long, too late, the entities can sometimes recover from an illness. If the entity has had a death wish for some time, and the illness has grown strong and progressed far, you may not be able to turn around the effects of a death wish.

This Awareness indicates that entities need to be sensitive, to notice when people's hopes have been dashed, when they would not likely have anything to look forward to, and especially when they feel they are of no longer any value to others. If you witness this, if you are sensitive to this potential, you may wish to make some suggestions or help the entity to regain a sense of purpose, a forward looking enthusiasm about the future.

INSTEAD OF "GOOD BYE" SHE SAYS:
"I'LL BE SEEING YOU SOON!"

FOLLOW-UP QUESTION (VIKKI):

The idea of promoting people to be forward looking brought to mind a pattern that I've had and I've always thought it was sort of odd, whenever I'm in a conversation with somebody, when it's time to say goodbye, I always feel the desire to point to the next time I'm going to see them. I'll say, "Well, we'll see you next week!", or "We'll see you Monday!" or I always close with something that leads into the future. Is this related to this somehow?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates it is a way of reconnecting with the entity in the future, to help make sure that there is a new connection, that there is a new contact with the entity. This Awareness indicates it is a form of courtesy and also a form of security in the relationship, helping to make the relationship secure by making an agreement.

This Awareness indicates that it is a very good policy because if you have an agreement to meet someone in the future, and they have some kind of setback and feel discouraged, if they remember your agreement, they are likely to at least wait until the appointment is completed before taking any suicidal action, for example.

This Awareness indicates, however, if they are contemplating suicide and you say you will meet them at a certain time and you don't show up, it can be the final straw, wherein

they feel further depressed, let down and useless, as though no one cared enough even to keep an appointment with them. This Awareness indicates that this can of course cause the entity who misses the appointment to feel very guilty if their friend has committed suicide shortly after the appointment was broken.

Appointments and Commitments: Always Keep Them!

Therefore, in saying "I will see you next week!", it is important for entities to do everything possible to keep the appointment or to notify them if there is to be a change. This is another reason why it is important for entities to keep their word and to be responsible in either keeping their word or letting others know why they have had to break their word.

Appointments or commitments show entities how much you care for them. If you do not keep the appointment and do not let them know why you broke it, it implies that you don't really care for them. You did not even remember or did not care to follow through on your commitment.

This Awareness indicates that many entities make commitments and make appointments, but something comes up and they can't make it easily, so they say "Well, I just couldn't do it!", and assume that the next time they see the person they will explain "I couldn't do it! I had to get my hair cut and my aunt was coming over and she cuts hair, so I had to wait until she got there to have my hair cut!", and this, to some entities, would be a good enough excuse, even if it comes too late.

Such entities are more concerned about themselves than about the fact that their friend was left standing and waiting. They do not care that the friend was left standing and waiting, they only care that the friend was not mad at them for having stood them up, and if they have a good excuse, they feel comfortable with the situation because their friend can't be very mad at them if they had to have their hair cut by an aunt who was coming over.

This is a common way of viewing commitments and appointments which many entities today will break, whereby their main concern is whether the person whom they stand up will forgive them rather than whether the person is having to stand and wait somewhere and miss out on other activities or other things that could be done while waiting for you, and wherein you know you are not going to show and do not have the courtesy to let them know, or do not take the time to inform them that you are not going to show.

Their concern is "Don't be mad at me!" The concern is not, "Oh dear! I'm leaving this person standing on the corner or waiting at this place for me and I'm not going to show." This Awareness indicates that this is the concern the entity *should* have. "I am causing another to put themselves out for me, and I am not going to show!", but the entity's concern is "Oh, I hope the person is not angry that I am standing him up, or I am standing her up!"

This Awareness indicates that if this concern that the other might be angry is your main concern in breaking an appointment, *you* have a problem. You have a problem in your relationships with others, and you need to re-examine your priorities, your values and your concerns and obligations and question whether you should even make appointments if you do not intend to keep them or notify entities when you decide to break your appointment.

LASTING FRIENDSHIPS REQUIRE ENERGY EXCHANGES

CLOSING MESSAGE:

This Awareness indicates that a great portion of the energy that entities must use in their life has to do with whether or not they have relationships with others. If an entity lives alone, the entity does not need to expend energy for others.

If an entity has a dog as a companion and no other, then the entity has a responsibility in his relationship with his dog.

If an entity has a friend, the entity has a responsibility in his or her relationship with the friend. If the entity has two or more friends, the responsibilities magnify. Also, there can be benefits from having friends: you can rely on your friends for certain things that they are capable of giving, but you must also recognize that they rely on you, and if you are not reliable, do not expect to keep deep and lasting friendships for long.

This Awareness indicates the energy you give out generally comes back to you in equal amount, one way or another. If you do not give out your energy to your friend, but you are always ready to take energy from your friend, do not expect to keep your friend for any great length of time. Eventually the friend will see that you are a taker, and you are not really a friend. You are simply a vampire.

This Awareness indicates that if you have many friends, then you must also give to many friends your energies and your concern and your attention. If you have a particular project to do that takes a great deal of time and energy, you may wish to cut down on the number of friends you have, for they will take your energy from your project.

It is a matter of regulating your priorities and determining how much energy you can afford to give, or how much you can afford to take from someone without causing that entity a depletion of energy. You do not want to deplete your friends of their energies, or you will lose them as friends. If you take their energies, you want to give something back that lets them feel you care.

This Awareness indicates that it is simply a matter of common exchange of value, wherein there is a balance involved and all feel like they are winners for having been in relationship with you, and whereby you too feel you have won by having them as close friends or associates and received certain benefits from that relationship.

This Awareness indicates of course, the energies may be of a great difference in nature. You cannot expect a small child to give you the same kind of energy that you give to the child. As an adult you have money, you have power, and the child is powerless in many ways, therefore, in giving the child the benefit of your energies, your money and your power, do not expect to get a similar type of energy in return.

What you are *likely* to get is affection and appreciation for energies you give. If you protect the child, the child is indebted to you and looks at you as protector. If you give the child money, the child is grateful, but the child may also expect more gifts of money.

This Awareness indicates that regardless, when you give to someone you care for, the gift should be that which you are willing to give without necessarily having strings attached. If there are strings attached, they should be presented along with the gift, so that you give and you tell them the conditions by which you give: "I give this to you with the strings attached that you come over on Saturdays and trim my hedge!"

This Awareness indicates do not give and then expect that they will come over and trim your hedge without having told them that is what you want. Give the conditions along with your gift, so that it becomes a clear transaction, not one which is hidden wherein you expect them to do something you have not clearly disclosed.

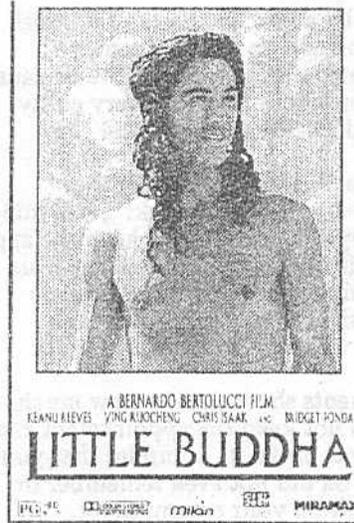

This Awareness indicates that the exchange of energies, the giving and taking of energies, is a major cause of relationship breakdown, when it is not properly conducted.

The Law of Gratitude is given.

ED's Note: In regard to the Philosopher's Stone and long life, please refer to 'Revelations of Awareness' Issue No. 94-5 (The Philosopher's Stone-the Secret of Alchemy); \$3.00 from CAC. For more on suicide, please refer to issues 79-29, 83-20, 85-18, 81-27, 82-6; \$3.00 each from CAC.

In regard to the Dalai Lama and the Buddha, this editor highly recommends the Bernardo Bertolucci film that recently came out called "Little Buddha", starring Keanu Reeves as the young Siddhartha Gautama. This is an incredibly beautiful film and explains the major tenants of Buddhism in a manner that is entertaining and clear. Unfortunately, the film will probably not appear in the mainstream theaters (beings it has intellectual value as well as religious), but it is being shown by the film societies around the country and it will probably be out in video within a year. Don't miss this one, if you get the chance!

For more on how Christianity began, please refer to "Revelations of Awareness" No. 83-11 (How the Crucifixion and Ressurrection of Jesus was Staged and Where he Went Thereafter); \$3.00 from CAC.

WHAT REALLY HAPPENED ON JUPITER THIS JULY ?

Excerpt from a CAC General Reading, August 8, 1994

QUESTION:

Now that the so-called "asteroids" have hit Jupiter, could Awareness explain what has actually occurred?

COSMIC AWARENESS:

This Awareness indicates that this is very difficult for this Awareness to discuss this because there have been so many distortions. The computer images presented to look like photographs, presenting these so-called asteroids crashing into Jupiter and the stories describing the scientists being excited about watching these asteroids striking Jupiter; there are so many different ways it has been presented, that it is not going to be easily accepted by most entities for this Awareness to describe these so-called asteroids as part of a planetoid that contained Reptoid aliens who were in deep-freeze heading toward earth, after a planned loop near Jupiter.

You will notice that Jupiter and earth were closely aligned, and the intention was to encircle Jupiter and thaw out the planetoid so that these entities then would be awake and ready for their imminent attack on earth. This Awareness indicates that the planetoid was blasted apart on its approach toward Jupiter, creating these various rock particles.

This Awareness indicates the scientific explanation is that a comet broke apart and the asteroids were part of the comet. The scientific explanation stated that the comet broke apart when it entered Jupiter's gravity field, but this Awareness indicated that over a year ago the "asteroids" were 21 UFOs in a formation moving towards Jupiter. In other words, it had already been broken apart before it approached Jupiter's gravitational field.

This Awareness indicates that also, comets are composed of ice, and these particles were not ice, but rock or solid material for the most part. This Awareness indicates there is yet another story that is allegedly being kept secret, wherein it is said that one of the asteroids escaped from the formation and is headed straight toward earth.

A repaired Hubble views Shoemaker-Levy fragments.

It is said that by the end of September it will hit the earth, causing greater destruction than all nuclear weapons on earth combined could do, and it is said that the military is preparing to launch an attack on it before it gets to the earth in hopes that it will be scattered, and none of its fragments will strike the earth.

This Awareness sees this as an element of the planetoid that will be fired at in an effort to shoot it down before it is able to reach earth and that it contains living Reptoids whose mission is to arrive on earth and help in the conquest of this planet.

This Awareness indicates that *It* understands, recognizes and appreciates the fact that most entities will see this message as being absurd. This Awareness will not have *its* feelings hurt. *It* simply wishes to tell it the way *It* sees things to be.

Therefore, like it or not, this is the version this Awareness expresses in regard to the planetoid or formation of asteroids, relatively evenly spaced, that move through space in a line toward Jupiter. This also, to this Awareness would seem to be a relatively absurd concept.

Reptoids Blast Apart Outer Shell of Planetoid

This Awareness indicates that the planetoid being blasted apart from within itself as part of a plan by the Reptoids in its own operative strategy to allow the separate particles to move individually on their own, following signals from the guiding craft in the lead.

These signals being distorted to lead the guiding craft at the front of the formation to crash into Jupiter. This Awareness indicates that the distortion of the energies was brought about by certain friendly-to-the-US-government Greys, whose job was to cause the distortion to crash the leader so that the other ships being guided by that same navigational beam, would follow suit.

This Awareness indicates that the final craft, at the tail, had its separate guidance and was not tied to the others so that the formation had at each end a different guidance system, each individually capable of leading the formation, but the ones in the middle being directed, much like the train on a track with two engines, front and back, and the cars being forced to follow one or the other.

Thus, when the forward asteroids crashed into Jupiter, the remaining followers also were unable to turn or create their own path except for the final asteroid which then turned its attention toward earth. This Awareness indicates the attempt being either to land on earth as part of an alien military force or to crash if necessary and destroy the earth.

The military hopes to destroy this craft. This Awareness indicates it is somewhat difficult to destroy this as a craft, because it appears to have rough and asymmetrical shapes, but there are entities within, and there is a guidance system within, therefore, it is a craft, and the military hopes to destroy this craft before it reaches earth.

This Awareness indicates that this essentially is the version of the scenario that this Awareness has to offer. It suggests you not talk this scenario to your friends, or they will assume you are crazy, just as many entities reading this will assume this Awareness is bonkers, and has lost touch with reality, for they have seen the computerized pictures and have been told by scientists that these asteroids were really nothing but rock asteroids and debris from a comet.

This Awareness asks how can a comet break up into a straight line formation of 21 equally spaced parts?

IT'S BAD NEWS IF PLANETOID SHOULD GET THROUGH!

(Earth Scientists Pick Up a Cry for Help from Jupiter)

FOLLOW-UP QUESTION:

The current *Weekly World News* tabloid, in an article called "Comet Fragment Will Strike Earth September 18th" says that "It's on a collision course, and it's nearly a mile across and moving at a hundred and forty thousand miles per hour and it's going to hit somewhere in the mid-West, and some scientist says it will 'rock our world with a force greater than one hundred times that of all the nuclear weapons now on earth. Everyone in North America will die instantly!'"

Does Awareness see that article as being valid?

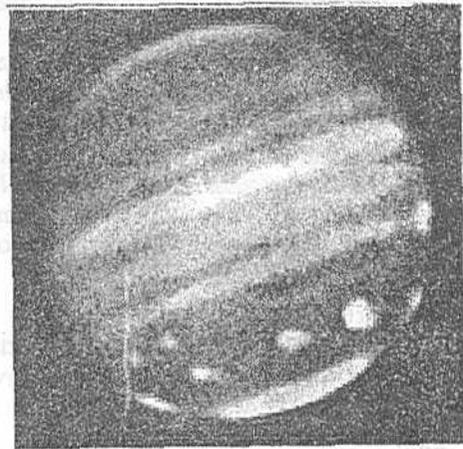

COSMIC AWARENESS:

This Awareness indicates this is based on the assumption that it will not be destroyed by those military forces that are preparing to conduct a pre-emptive strike as it approaches. This Awareness indicates there is also one of the tabloids which presented an article stating that radio signals from Jupiter indicate life on the planet.

This Awareness wishes to clarify that the radio signals were from the craft; that the sound or pattern which arrived was from the craft that crashed on Jupiter and that these do not necessarily indicate life on Jupiter other than that which was aboard the craft.

This Awareness indicates the so-called radio signal pattern occurred every 17 seconds. This Awareness indicates the article expressed an assumption that the radio signals were a cry for help likened to an SOS type message, that would not be known to entities on Jupiter, but it was presumed that the message expressed a sense of urgency and was directed toward earth.

This Awareness suggests that it is likely the message was directed toward Reptoids already present on earth, informing them that they could not complete the mission.

A COSMIC BLACK EYE dots the cloudtops of Jupiter after the impact of Shoemaker-Levy's fragment G on July 18, 1994. Remarkable detail exists in this image made with Hubble. The dark, innermost ring surrounding the site spans almost an Earth diameter; the larger ring contains material blown away from the site. The older impact site of fragment D is visible just left of this ring. Two weeks before the impacts began, the comet appeared like an intact string of pearls.

OCTOBER 1994 ASTRONOMY

FOLLOW-UP QUESTION:

The scientists claim that Jupiter isn't solid, but is comprised of various gases.

COSMIC AWARENESS:

This is in the affirmative.

QUESTION:

Then why would not solid objects like the Reptoid ships, moving at tremendous acceleration, penetrate Jupiter and just continue on through and come out the other side?

COSMIC AWARENESS:

This Awareness indicates that deeper into Jupiter, the gravity increases so that the hydrogen/helium gases as liquid on the surface become almost solid in the center, or deeper into the planet. In other words, it is likened unto a marshmallow on the surface, but more like rock in the center, because the gravity is so great it holds the gases so compressed and tight that it is almost solid, even as ice is solid compared to water.

WHY DIDN'T REPTOIDS HAVE A DEFENSE PREPARED?

QUESTION:

One last question on this. We've received a lot of questions on this. This one from J.A., Fayetteville, Arkansas, based on previous information we've published. He asks: "In regard to the Jupiter scenario, it seems the obvious question that nobody seems to have asked is: If the government has sent the Galileo full of plutonium to wipe out the Reptoid space ships when they get to Jupiter, wouldn't the Reptoids know about it and have a defense prepared? These Reptoids are supposed to be super-intelligent and ultra-high tech. Wouldn't they be quite capable of detecting the plan and taking measures to prevent it?"

COSMIC AWARENESS:

This Awareness indicates again, the planetoid was filled with frozen or what you may call cryonic type entities who were being prepared to thaw, while circling Jupiter prior to the continuance toward earth, but because there was the interference with the guidance system, and this

being caused by certain help from those friendly Greys who work with the U.S. government, the craft was crashed into Jupiter along with the following crafts, so that instead of circling the planet and thawing, they simply followed each other into the planet and crashed.

This Awareness indicates that during their stupor, sleep or slow thawing process, they were not able to think about what to do. They were simply being guided mechanically and electronically by devices aboard the ships, particularly the leading ship.

FOLLOW-UP QUESTION:

So these 40 million Reptoid soldiers were destroyed and this lessens the chance that the earth will be invaded. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that these Reptoids crashed into the gaseous fields of Jupiter and much of the gas appears to have created light reflections, not necessarily flame, and swallowed up the ships. This Awareness does not see that all the entities within these ships were destroyed as yet, but rather that the ships are entrapped in the gases of Jupiter, and the Reptoids inside are still in some cases alive, in other cases dead, but *It* does not see any possibility of these entities escaping from the ships because the ships are heavier than the gases and therefore, will not surface, and the entities within the ships are not seen as capable of surviving outside of the ships.

Therefore, it appears that these entities are either dead or will eventually die within the ships and will not escape from the Jupiter gases. This Awareness indicates in this sense, the potential of an alien Reptoid takeover of the earth is greatly diminished, though there are still many here on earth. The main force that was to have been a deciding factor did not show and those who are the fore-runners may find themselves stranded and without any help. The potential for future control is 95% lost to them.

A GREAT SETBACK FOR THE NEW WORLD ORDER !

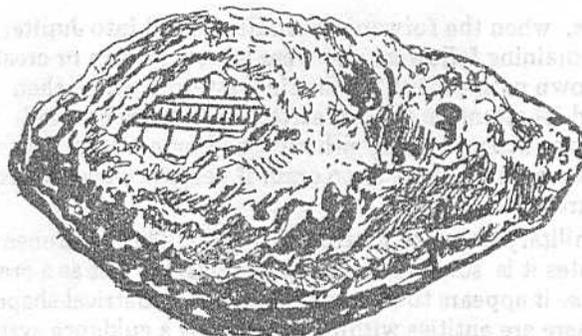

CLOSING MESSAGE:

This Awareness indicates that this is a great setback for the New World Order, for the New World Order was a plan by and for the Reptoids, and it would have benefited greatly had the Reptoids made their invasion on earth. It would have led to the need for a New World Order.

This Awareness indicates it is seen that a faction in the military countered the intentions and plans of the New World Order in stopping the Reptoids in their invasion plans. This Awareness indicates that Element 115 was used in the craft that approached Jupiter and caused the guidance system to fail, and it appears to have been piloted by several small Greys who have determined that humans are easier to work with than Reptoids and who want to have their security aligned with humans on earth rather than with Reptoids, for whom they have previously worked as subjugated mercenaries.

This Awareness indicates the Reptoids on earth presently are individually powerful, but do not have great numbers to be able to conquer humanity, and therefore, their threat is highly diminished.

The Law of Gratitude is given.

Psychic artist Jon Strongbow sees the Reptoid-loaded planetoid looking like this. Concealed inside is a huge space craft containing 2 million thawing-out Reptoid warriors.

ED's Note: For more on the Reptoid scenario, please refer to issues No. 91-14 (Meteor Heading for Earth Guided by UFO Invaders: the Coming of the Reptoids); 92-4 (The Coming of Nemesis the Dark Star and the 40 Million Reptoid Army with their Plan to Invade and Conquer the Earth); \$3.00 each from CAC.

ED's comment: The information just given in this reading should have many far-reaching effects. Those who have been beseeching the Pleiadians and others in the galaxy to intercede on behalf of earth and those who have been whining and bemoaning why this has not occurred, can now find more constructive things to do; perhaps like doing something to clean up the miserable conditions here on earth, cleaning out those traitors in government, getting organized into some kind of movement with the clout to get something done. And as Awareness just indicated, this happening on Jupiter is a tremendous setback for the New World Order! Perhaps the earth has been delivered from the Beast.

And let's hear it for that secret branch of our military who has brought off this incredible victory! Now, if they can remove a threat like the reptoid invasion of earth, let's energize them creating a coup in our government, taking it over long enough to kick all the traitors out, letting the public know the full story and record of their treasonous acts, including Bill Clinton, George Bush and Ronald Reagan, and put them all on public trial and let the people decide what to do with them! Perhaps then a new breed of enlightened people will become stewards of our country and lead us out of the quagmire of darkness it has become and into the light of the new age and the new dimension.

THIS JUST IN! Comet fragment will strike Earth Sept. 18!

WASHINGTON — A massive chunk of the Shoemaker-Levy 9 comet is hurtling toward Earth — and scientists say if it's not stopped it will strike in less than a month and destroy Earth!

Noted astronomer Dr. Marvin Houtner says the world scientific community is trying to cover up a terrible secret. One of the comet fragments which nearly destroyed the planet Jupiter is on a collision course with our planet, due to strike on September 18.

"It's nearly a mile across and moving at 150,000 miles per hour," says the respected expert.

"It's going to hit somewhere in the Midwest, and rock our world with a force greater than 100,000 times that of all the nuclear weapons now on Earth.

"Everyone in North America will die instantly.

"In the months that follow, millions of tons of dust and debris that rise from the impact will block out the sun and turn Earth into a giant freezer, wiping out all life."

Dr. Houtner, who has many friends and colleagues at NASA and the Pentagon, says the coming disaster has been common knowledge among world leaders for more than a year.

"They've known about it since May 1993, just two months after David Levy and Eugene and Carolyn Shee-

maker rightly predicted that pieces of an exploded comet would hit Jupiter.

"U.S. officials are keeping the lid on this information to avoid worldwide panic. But the public has a right to know.

"The U.S. Army is gearing up to launch a barrage of nuclear missiles at the fragment.

"Assuming several warheads strike their intended target, it may be pulverized into smaller pieces that will scatter across space, missing Earth.

"If not, God help us."

August, 1994 Weekly World News

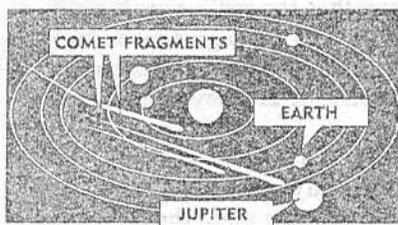

Chart shows close proximity of Jupiter to Earth, and direction of Reptoid-loaded planetoid headed our way. If you are reading this newsletter today, we can assume the planetoid was intercepted by "the good guys" in our government and blown out of the sky!

OUR VANISHING FREEDOMS: MOST PEOPLE ARE
UNAWARE OF HOW MUCH THEY HAVE LOST
(The Wicked Legacy of Henry Ford)

Excerpts from a CAC General Reading, August 10, 1994

OPENING MESSAGE:

This Awareness indicates that over the months *It* has discussed many different topics relating to the efforts of those behind the New World Order to enslave the masses. This Awareness indicates that entities may wish to look at all the different areas of their lives which have been taken over by these forces within the past hundred years or less; this in regard to the health care of individuals, so that they have very little room left for true health care. This in regard to legal definitions and systems that handle the legal affairs of individuals, and also in regard to education, wherein it is very difficult to find a good educational system that can teach the children the basic reading, writing and arithmetic skills that were available even two decades ago.

This Awareness indicates that much of the education error began with Henry Ford, who influenced Congress to pass rules for schools that would help them to curtail the learning of children so that they would be educated just enough to hold a job at a factory, with just enough reading skills to be able to function in such a way as to make them usable, but not give them any education to bring true happiness or freedom.

This Awareness indicates that it has become progressively worse since that time in 1905 when Henry Ford first input his opinion to the schooling formula. This Awareness indicates that the nutritional field and the total dependency on supermarkets has also been another factor in which entities are generally dependent on corporate America and government to provide food or to provide the distribution of food, and whereby the government could very easily create a food shortage which would bring people to their knees.

This Awareness indicates that the media also has generally been taken over by these forces, so that you cannot find true representation of What Is or truth through any of the major media forms. The only areas still left open are the basic grass-roots communications that people can still spread among themselves to get information distributed.

This Awareness indicates that small publications also can distribute information presently, but this may at some near future time also be curtailed or stopped.

This Awareness indicates that the military in general has been brought to a situation in which, except for potential rebellion within the military, these forces can be, or are expected to be controlled by the government of this country and working in behalf of the New World Order.

Therefore, even as things appear to be much the same, and terminologies still describe America as a free country, the actual freedom in this country has long been gone and they are generally capable of doing what they wish with the population. Most of the population will follow the prescribed line as given from authority down through the media to their local communities and do whatever is told.

Little Time is Left to Leave Much for the Children

Therefore, there is very little freedom left in this country except for the idea of freedom, and there are many entities who strut around and argue that they are a free person. This Awareness indicates that time is very short and this Awareness suggests that if indeed nothing does come from the hidden hand of the "good guys" in this country, then there would be very little potential or hope for keeping any freedoms alive for any of your children.

13. This Awareness indicates that *It* does not see this as being the outcome. *It* does see that there may be a fierce civil war in the near future when the New World Order is implemented upon this country or is attempted to be brought upon this country. *It* does not see clearly that the masses will support those in rebellion, but there is the great possibility that with continued education, the masses will gradually awaken at the last minute and help, and that there can indeed be a reversal of the trend toward totalitarian conquest of this great nation of yours.

This Awareness indicates that each of these areas that have been infringed upon in your lives are vast aspects of human experience and each one being curtailed and controlled, can create a multitude of miseries for entities, whether it be health, education, occupation, your ability to move from place to place, your choice of vocation, your choices in relating to one another; all of these areas, when completely curtailed, could individually create for each person enormous suffering that entities could not dream of.

This Awareness indicates that perhaps when and if such suffering begins to occur, perhaps then entities will say "Enough! We will go no further! We want our freedoms back!" This Awareness indicates that perhaps this will not be allowed by the masses, but as individuals, working singularly it is unlikely that much can be done to reverse this trend, until enough people awaken to the dangers of losing all of their freedoms.

A Rebellion Could Spread Like Wildfire

This Awareness indicates most entities can tolerate the loss of secondary freedoms, but when it gets to be excessive and hits them personally, then they may rebel and if enough rebel, then it can be likened unto a sudden spark that sets off an entire population in rebellion. Once it starts to spread it will be likened unto wildfires in the forest that do not stop and the rebellion can spread from one end of the country to the other, very quickly.

This Awareness indicates the danger is that sometimes without proper education, such a rebellion would turn upon itself, wherein the people fight each other rather than their true enemies and oppressors. This Awareness indicates it is for this reason that for many years, entities who understand the situation have been trying to spread the information, trying to help awaken more and more of the masses as to what is really happening.

This Awareness indicates that time for such education is in its eleventh hour, and little time is left for people to awaken. This Awareness indicates that even so, this past two years has seen a doubling of the information throughout this country and that helps to awaken the masses. As the pressures increase on individuals, pressures to take away the freedoms, entities become more vocal and spread more of the truth about what is happening and this is what can help to bring about the great awakening and may help to throw off the oppressors.

COMING SOON: A PERMANENT PHONE NUMBER
FOR EVERY NEWBORN CHILD

(Imprisonment Without Being Jailed)

QUESTION:

W.H. in San Angelo, Texas, in a letter last month, mentioned: "On the CBS Sunday Morning Show they reported that the Federal Communications Commission had just passed a law or regulation that would require every newborn child to be given a permanent telephone number, which would be theirs for the rest of their life. Each of us would also have one phone number assigned to us." Unbelievable, huh! (he says). "Nothing else mentioned about this in the media that I have heard!" Would Awareness comment on that?

COSMIC AWARENESS:

This Awareness indicates that this is another form of identification number which would allow entities to be tracked in case they spoke of something that should not be spoken of, or promoted any anti-New World Order speeches, or did anything politically to upset the controllers and their way of handling the masses.

It also will be touted as a convenience for entities so that wherever they go, they use their own telephone number to call. Regardless of what phone they call from, they have the personal identification number and will be billed personally for their phone calls. This is supposed to be a convenience.

This Awareness indicates that they will have machines, telephones that can read the number from a chip or card and the individual then will be properly billed for the call or it will be deducted from his or her account. This Awareness indicates that what they will not tell you at the moment is that they can track you, locate you from any place you make a phone call, and in this manner, they have another form of leash on you.

It is much likened unto the electronic chain they put on certain prisoners who are allowed to be in their homes but are not allowed to go beyond a certain distance from their home and can be tracked at any time. This is a kind of bracelet with an electronic signaling device that allows you to be imprisoned without being inside a jail. You are imprisoned inside your own home or the place you are assigned to be.

This device has been used for some time on certain individuals who are let out of prison in order to alleviate overcrowding, and who are given a kind of home confinement wherein they cannot go beyond a certain distance from their own home, or a signal goes off somewhere and police will come and track down the entity.

This Awareness indicates that the use of a telephone number for an individual may be simply implanted in the so-called 'smart card' or smart-chip that is implanted in the entity's body or which would be carried perhaps by some as a kind of identification card, perhaps as a health card, or given to them from the post office as an national identification card.

This Awareness indicates that obviously, this will not be for the benefit of individuals maintaining their personal freedoms, but will be for the benefit of those who are the watchers and Big Brother overseers of entities in the work force or in the neighborhoods in order to keep them curtailed and in line with whatever rules they wish to impose upon the various entities of the communities.

NEW SUPER-SECRET COMPLEX
FOR SPYING

(That Big Brother Up in the Sky)

QUESTION:

There's a story in the paper the last few days about a stealth building being built by the CIA. It was a surprise to many, even President Clinton. It was so secret, this \$310 million dollar intelligence complex, that it was buried in what they call the "black budget". The building is called the National Reconnaissance Office (NRO), and the paper says the new headquarters was intended to consolidate various intelligence offices that collect and analyze high resolution pictures of intelligence targets from the sky and eavesdrop on electronic communications. Until 1992, the very existence of the agency was classified. Does Awareness see that as being part of this monitoring of entities by Big Government?

14. COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates the reconnaissance simply means spying in this case, and the national spying agency, or that which is called the National Reconnaissance Office, is simply a spying organization. It is secret because it *does* have the purpose of spying on U.S. citizens as well as others.

It is part of the New World Order and its activities will be the keeping track of information on individuals. If, for example, individuals were to go into a wilderness area, this organization could use satellites to locate them, either through infrared technologies or through micro-chip technologies, locate the individual wherever they may be, track them down and presume they are some criminal element if they are not in a city where they are being monitored by the standard routines.

In other words, if they run into hiding, they are presumed to be criminals on the run. This Awareness indicates it is designed to keep all entities from having any chance of escaping the New World Order while still alive.

Much of the activities of the CIA, the National Security Agency, and the FBI, will be shifted to this organization in the near future when it is fully operational.

WEATHER DISASTERS CREATED BY ELF
(Getting the Country Ready for FEMA)

QUESTION:

A.K. in Portland, Oregon, has a question, and she sent in a postcard she received which her question is about, from the Youth Action News people in Alexandria, Virginia, which says: "Dear Patriot. We have just published our New July, 1994, Youth Action News--Electro-magnetic End Times Devastation. There is new evidence of joint U.S./Russian weather engineering. Also, the U.S. is now building a powerful electromagnetic weather control system. We discovered a global network of ELF weather modifying transmitters. As a result of this expanding network, there has been a sharp increase in the number of big earthquakes. These dangerous ELF systems are now bringing about many of the End Time disasters forecast in the holy Bible. This report was only sent to our active supporters. If you wish to receive the report: "Electromagnetic End Time Devastation", you must send a minimum contribution of at least \$10." And he gives the address. And her question is: "I received this in the mail and sent for the report. These people deliberately are causing such devastation and more is to come; they must be crazy! Why would anybody want to cause and bring about such awful things to this earth? Awareness has mentioned ELF and earthquakes being man-caused. It is hard to believe! Why is it done? For what reason? Please ask Awareness and ask *It* to keep us informed about their diabolical schemes!"

COSMIC AWARENESS:

This Awareness indicates that this is a way whereby disasters being created can call forth for national emergency or for FEMA, the Federal Emergency people, to approach an area under the guise of an emergency and begin to create or set up certain activities and organizations in order to help bring about greater control in that area, without it appearing that there is some kind of government takeover of a state or locale for no other reason than the desire to control the masses.

By having an emergency, people will welcome their troops and their help as they come into their cities bringing so-called relief. But they also will be able to set up certain guidelines and rules, regulations that curtail the freedoms of individuals.

This Awareness indicates most of the detrimental actions that have taken place in the nation have occurred because of some so-called crisis. If nothing else, there would be a crisis followed by certain new laws or new rules to control the masses in the event of other problems.

This Awareness indicates that this is the old old ploy for taking control. In 1861, for example, when there was the threat of the takeover of various parts of the country by these factions of the civil war, martial law was declared. It has not been removed since that time, and this crisis of the civil war brought us to the point in which the martial law has been used to get all kinds of bills and laws and statutes passed that would not have otherwise been possible, had not the nation been under martial law throughout this century.

This Awareness indicates that this is an extreme example, but smaller examples have also occurred. When there is a crisis, regardless of what nature it takes, there is often a manipulation of some kind, either in law or in regimenting the masses or some other form of controls that are placed on the people and the crisis is the excuse under which these restrictions are placed upon the masses.

This Awareness suggests you not be surprised by further crises in terms of earth changes that are implemented by these electronic weather and geophysical manipulative devices. This Awareness indicates that most of the earthquakes triggered by the geophysical devices are in the range of approximately 6 or more on the Richter scale. The majority being approximately 6.5 as an average for these types of earthquakes.

This Awareness also suggests that these crises can create great losses of life which is all part of the agenda for the New World Order. Ridding the nation of a hundred million persons is part of the agenda for these entities. Ridding the world of approximately half or more of its general population is part of the Global 2000 program.

So, earthquakes, famines, wars, floods, diseases, all of these are generally promoted by those holding power over the population of the earth.

WHAT FORM OF GOVERNMENT OFFERS MAXIMUM FREEDOM FOR ENTITIES? (The Difference Between a Republic & a Democracy)

QUESTION:

A question from J.D. in Vermont. She writes: "Clearly, we don't want the New World Order tyranny of the world's financial elite, nor do we want to be ruled by kings or popes or emperors. On the other hand, the tyranny of the masses can be likewise very oppressive to freedom, as we have seen in the fundamentalist Islamic lands, for example, or the rule by Puritans of our 'religious right,' trying to outlaw for all anything they feel is immoral or frightening.

"Given that the 'masses' are young souls, fearful and consequently oppression-prone, what form of government would allow us all the maximum of liberty?"

COSMIC AWARENESS:

This Awareness suggests the Republic is a form of government that protects each individual to its utmost, to have the individual's rights protected. A democracy is more of a rule by mob or rule by the majority, whereas a Republic is that form of government that is set up to protect the individuals. Of course, when an individual in a society breaks the laws of that society and violates the rights of other individuals, then of course that individual will lose some of his protection in order for the government to continue protecting the other individuals of the society.

In other words, it does not protect an individual in the way a monarchy would protect a king, but it protects an

individual to be free, to use his own rights and expression without restriction from the government so long as his or her expression does not violate others in their expression.

This was what the original Constitution and original United States was all about. It changed when the Washington D.C. government, the so-called Federal Government incorporated as a democracy and began to change and take controls of the states, and imposed certain corporate rules on the states.

Most of the laws of the Federal government are essentially just corporate rules and corporate laws on the states who have become associated with the Federal government, given their allegiance or otherwise bought into the Federal government in Washington, D.C., a corporation.

This Awareness indicates that there are certain patriot organizations and groups who would like to see things go back to the Republic, and then in that action, disengage or dismantle the Federal government, giving the states--the United States--its true Republic status. The states of course could then centralize a government to represent them. The government in Washington, D.C. is not set up to represent the states, but to control the states, as though they were subindependent corporations to this greater corporation.

The Oversight of the Founding Fathers

This Awareness indicates this all came about by an oversight of the Founding Fathers, wherein the Rothschild lawyers and representatives recognized that the oversight was that the Washington, D.C. government for the states had never actually been a part of the United States and therefore, they took over and created a corporation of this Federal government, making it a separate nation from the United States, and from that action began to move toward a gradual takeover of the various states of the union through statutes and rules and laws which the states bought into.

WHY IS THE U.S. INTERESTED IN HAITI?

QUESTION:

J. W., of Dunnellen, New Jersey, asks: "Would you ask Awareness to comment on Haiti? Why are we really interested in Haiti?"

COSMIC AWARENESS:

This Awareness indicates this is another one of the many test areas whereby a test of the New World Order and its particular program of making sure that every area of the world complies to its prescribed dictates, so that entities around the world can see the New World Order is potent and carries heavy consequences for those who do not follow its dictates.

The United States is taking an action to let its own citizens as well as others around the world know that it backs the New World Order, the UN in its promotion of democracy in Haiti and generally, the concept of democracy which can be easily controlled by the power of the vote which is also easily controlled by the elite of the world, is intended to be the main political system allowed throughout the world in the various countries.

You will gradually see more and more countries moving toward democracy as they move closer to UN and New World Order cooperation. This Awareness indicates that the action is in part to let people know they cannot hope to rebel against the UN or the New World Order. They cannot hold out independently as a separate nation from the rest of the world, not abiding by the standards the rest of the world impose upon them.

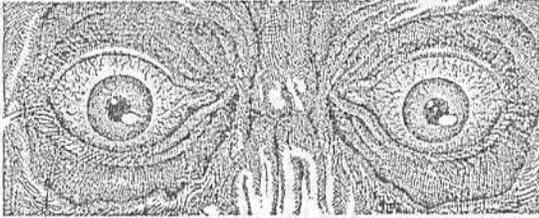

Getting Our Troops Out of the U.S. So UN Can Come In

This Awareness indicates that there is also another action here. It is a way by which many of the troops of the United States can be sent out of the country at an appropriate

time to allow the UN forces that are in the country to have greater control of the masses if an emergency comes about requiring martial law to be initiated in various cities with troops involved.

This Awareness indicates that it is coupled with other spots of the world wherein if they so choose they can send most of the standing army out of the United States to these troubled spots and therefore leave the population unprotected from internal controls set up by UN forces, if that becomes a necessity.

This Awareness indicates it is also a way by which many of the new methods of subjugating and controlling a country can be tested. Thus, there will be many new projects, weapons and methods involved in the action of an invasion of Haiti if such occurs, and it does have a strong likelihood of happening quite soon.

WHY DOES THE WAR IN RWANDA GO ON?

QUESTION:

S.N., Ontario, Canada, asks: "Who or what is the purpose of the war in Rwanda, and why has no one except for France taken any steps to end the suffering and bloodshed and suffering in that country?" This letter was dated June 28th.

COSMIC AWARENESS:

This Awareness indicates this appears to be a tribal war between two different factions and leaders who want control of the area. The masses are simply excess baggage to these leaders, and if they cannot contribute to their own promotion, they are seen as useless, and therefore, both sides have turned their hostilities against the masses and toward each other's troops.

This Awareness indicates the masses, therefore being caught in a crossfire, have either been slain or have left the country or are in great danger of being slain. This Awareness indicates that it appears that neither side can be trusted as far as the masses are concerned and it is of such a volatile nature that very few other countries want to try to go in as peace-keepers.

France had some interest in the country and have made some efforts to create or influence a peaceful resolution. This Awareness indicates that there is now talk in the United States of trying to work some kind of activity to create a peace-keeping force for this country. This Awareness indicates that it may be another potential hot spot for sending U.S. troops in order to get them out of the country, out of the United States, if that becomes a desire of the leaders.

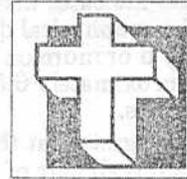

This Awareness indicates that there are very few other countries who desire to get involved in these various hot spots because it costs money. It also costs lives, but this is not the real reason. It is an expense that is not welcomed. The expense of fighting a war in a foreign country, even if it is a small war, can be quite expensive and costly, and when there are people in your country who are objecting to expenses, it can be politically dangerous for a leader to volunteer troops to go to fight some war in another continent.

This Awareness indicates that there has to be some reason other than humanitarian to get these entities to engage in such an activity. The U.S. entering into this country would be doing so mostly for the purpose of getting American troops out of the nation so that the UN troops could have greater control in the United States without potential interference from American troops.

The Role of the Provocateur

This Awareness suggests you not energize sending American troops into that area. This Awareness indicates that there are also those entities known as provocateurs who can, on orders from a government, go into a nation of a certain quality and provoke one faction against another to start such civil war within that nation, if that becomes part of an interest of a foreign country, and then the foreign country can come in to put some kind of order upon that nation and perhaps establish a presence there, and perhaps establish a way by which the foreign nation can control the population of that country that has been at war, and therefore, may take over certain assets held by the nation, either of its own physical properties or for some political gain or to gain some other strategic value by being in that nation.

Rwandan Catholic Church Has Been Decimated

Aug. 22 (EIRNS)—Estimates are that the bloodletting in Rwanda has eliminated one out of every four Roman Catholic priests in a country which is over 75% Roman Catholic. The Catholic monthly magazine 30 Days reports that 392 local priests are missing, but so far only 99 have been certified as dead. It is believed that members of religious orders were killed en masse. "There have been political and tribal clashes in the past but there have never been such systematic attacks on the Church," said Fr. Andrea Havugimana.

"That there was a plan [to the killing] was evident from the beginning," he said. "The raids, such as the raid on our seminary, initially followed a definite pattern. Then events precipitated to become a spiral of unprecedented violence, out of control. Vendetta followed vendetta. The Church found itself caught in the middle of this conflict for power because the men of the Church also represented an authority, or because by opposing the spiral of violence, they were considered enemies on both sides."

TAXES IN CANADA ILLEGAL AND UNCONSTITUTIONAL (Can a Patriot Movement Manifest in Canada?)

QUESTION:

A question from S.A., Saskatoon, Saskatchewan, Canada. "I just read issue 94-8. This is great news! [This was the Linda Thompson thing]. If this *does* happen, how will Canada be effected, since GST and Federal Income tax is illegal and unconstitutional here too?"

And then he adds: "By the way, some time ago I ordered several extra copies of the New World Order issue (93-12) with the gas mask on the front. The Canadian government seized and destroyed them as "hate mail."

That was just a comment he made. I guess his question basically is: How will Canada be affected?

COSMIC AWARENESS:

This Awareness indicates the question asked at this time is moot, in that Linda Thompson does not plan to carry out a march on Washington. This has been discussed in a previous reading.

FOLLOW-UP QUESTION:

Okay. Here's basically the same question reworded from N.T. in Toronto, Ontario. He writes: "There doesn't seem to be much sympathy among Canadians about the fact that our Federal income tax is illegal and unconstitutional,

as in the states. Do you have any inside information about 17. this, and how we might better gain support from those who might influence the government on this issue?"

COSMIC AWARENESS:

This Awareness suggests the entity could get addresses of those entities who are in the United States who have been working along these lines. There is a lawsuit in Nevada pertaining to the IRS; that this contains much information. It appears that much of it could be applicable also in Canada.

This Awareness indicates, however, that you should realize this kind of approach may take many years. It is not something that will occur overnight or very quickly. This Awareness indicates there is certain information in a tape the editor received that could be value in this regard relating to income taxes. This entity explains how and why he pays no income tax, and how it is legal for him to avoid it. This could contain information that could be of benefit to you in Canada. This Awareness indicates that you may also wish to contact other patriot groups in the United States for further information they have to share, and perhaps start patriot groups in Canada working along similar lines, but in accordance with your own constitution.

FOLLOW-UP QUESTION:

He adds that "We are also burdened with a debt that is so huge that the country is virtually bankrupt."

COSMIC AWARENESS:

This is all part of the Rothschild plan for his New World Order to bankrupt all countries and turn them into satellites by foreclosing on the bankrupt countries. This Awareness indicates that there are things happening behind the scenes that yet could prevent this entity from his goals and dreams, yet there is nothing simple or easy about the struggle that will follow as the struggle that is already occurring.

It is actually a kind of covert war going on all over the globe as to who is going to be free and who is going to be in control of the masses, whether they eventually will awaken enough to throw off the oppressors or whether they will cuddle up to the oppressors, hoping to seduce them into being nice to their slaves.

WILL QUEBEC SEPARATE FROM CANADA?

(Will Canada Survive?)

QUESTION:

A question from B.F., Spring Island, B.C. Awareness has addressed this before, but I believe it was a year or so back. He writes: "The last newsletter, the 'Declaration of Independence 1994' was probably the most inspiring newsletter I've read. This document is certainly the most radical I have ever seen in my lifetime. I have no doubt the Congress will ignore it. Then what happens? Civil war? We shall see in September, I guess. At any rate, I have passed out several copies to some American friends and at the National Party Convention in Vancouver. It generated some interest: "Is this for real," most of them said.

"We in the National Party are attempting a similar peaceful revolution in Canada. Our main goals are set out by Mel Horkick (sp?) in his book, *A New and Better Canada*. The Quebec separation issue is heating up again. It looks like the province of Quebec will win the next provincial election, and again have an independent referendum. What does Awareness think of the chances of Quebec separating today at this time, and are there external forces from the United States, and will Canada survive?"

COSMIC AWARENESS:

This Awareness indicates that it appears there are forces trying to prevent this separation. Many of them are from the United States, but are agents of the UN and New World Order association. This Awareness indicates that it *does*

appear that Canada will survive in one form or another. It appears also that there are approximately 17 states in the United States that are seeking to secede from the union. This as a recent event.

Utah, Colorado, Nevada and others are attempting to secede from the United States of America as separate and independent and sovereign states, which is essentially what they originally were before the Federal government began to encroach upon their sovereignty.

This Awareness indicates that it is too soon to tell how well this effort will be in terms of success. This Awareness indicates that it *does* appear that the Quebec effort will have a greater chance of succeeding because it has been working for quite some time in this direction and has gained great momentum. It depends of course on how much force is brought to bear against this action to prevent it and how much support Quebec has in its desire for independence from the rest of Canada.

IS THE ALIEN FORCE AFTER THE CHANNELS AGAIN?

(How Much Protection Can be Expected from Awareness?)

QUESTION:

D.J. in New York writes: "Someone, a CAC subscriber I think, called me to inform me in conspiratorial tones, that the alien force seeking to take over this planet has a priority in the closing, interruption, destruction, corruption of the clear channels which have been providing humans here with valuable information which undermines their takeover plans. Does Awareness see this as factual, and if so, can Awareness protect *Its* Interpreters against this?"

COSMIC AWARENESS:

This Awareness indicates that there have long been such dangers. This Awareness indicates that there have been those who have considered diabolical actions against this channel and organization, but have held off largely on the concern that such an action could cause repercussions from the membership, and therefore it was not clearly beneficial to destroy the organization or Interpreter as of yet.

This Awareness indicates they still have plans on the back-burner for destroying this channel. This Awareness indicates that when they sense that the membership will be either too intimidated or too busy trying to cope with their own lives and any other chaos that is occurring around them, they will not be so hesitant.

This Awareness indicates that *It* does not wish to speak in terms of the demise of the organization or Interpreter as this could help to energize such; therefore, *It* will simply say that there is indeed a danger. This Awareness will do what *It* is capable of doing in terms of protection for these entities.

This Awareness indicates that in reference to other channels, *It* is capable of giving protection to a degree, but the Interpreters must also be cautious in their expressions and in their way of thinking.

When an Interpreter becomes discouraged or is made to feel inadequate in his or her performance or inadequate in his or her standing with the Divine, the Interpreters' protective energies from within begin to diminish. It is likened unto the immune system becoming weakened, except in this case it is the immune system for the spiritual body that is weakened, and when this occurs an Interpreter can become vulnerable to negative powers that are acting upon or trying to destroy the Interpreter.

Therefore, the Interpreters must keep some kind of inner strength and integrity and sense of attunement to the Divine as well as faith in the future in order to hold the

highest level of spiritual protection. This Awareness indicates¹⁸ as you may recall, Jane Roberts and several other Interpreters fell during a certain time period; they were unable to protect themselves against attacks from the Dark Forces. This Awareness indicates that it was not so much that they personally invited these attacks, it was just that there were things happening in their lives that weakened them in terms of their spiritual protection and during their weakened condition, the Dark Forces were able to penetrate through the shields, through the White Light this Awareness presented, and broke through and led to their destruction.

This Awareness indicates in other words, this Awareness cannot guarantee the Interpreters as having the greatest and most complete protection. It depends in part on themselves, their will to live, their desire to serve the Highest and their ability to keep the White Light strong around themselves.

WILL MONEY & INVESTMENTS ETC. BE WORTHLESS SOON?

(A New American Revolution is Taking Place)

QUESTION:

Another question from this entity in New York. "Does Awareness see our Federal Reserve currency, bank accounts, investments and so forth, becoming worthless in the near future?"

COSMIC AWARENESS:

This Awareness indicates that if indeed the money is changed and the Treasury re-asserts its control over the money system, and the Federal Reserve Bank is abolished, there will be an opportunity for entities to turn in their Federal Reserve bills in exchange for Treasury Notes and there will be no loss to the individuals. In fact, there will be opportunities for individuals to make certain claims against the Treasury in order to pay for damages that have occurred by the Treasury having turned over its duties to the Federal Reserve Bank.

This Awareness indicates that the Treasury will not have any serious problems in paying entities for these claims because it will have the right and the ability to print up as much money as is necessary and this expense of money will help get the economy moving very quickly and very well, if and when this kind of action occurs.

This Awareness indicates in other words, the Treasury originally was able to spend money into existence by printing the money and putting it out in terms of a project, whether it be some highway project or some building project or a war, or whatever, because the money being spent into the project would then into the economy of the nation in general.

Once the Federal Reserve Bank took over, the printed money which cost the Federal Reserve the same as the Treasury Department, one or two cents per bill, for printing costs; once this was printed by the Federal Reserve Bank, rather than being spent into the economy for projects, in other words, given to the economy for projects, it was loaned to the government and the government borrowed the money, not at one or two or three cents per bill, but at face value, whether it was a one, a ten, or hundred or more dollars on its face, and that became, of course, the national debt, and by loaning this money to the government, the Federal Reserve, over the years was able to collect taxes on every turnover of that Federal Reserve Note and gradually accumulated trillions, hundreds of trillions of dollars which all went to the foreign countries and their foreign Federal Reserve Banks, where such as in Germany, 25% interest was acquired off of the loan of these Federal Reserve Notes.

This Awareness indicates that once this Federal Reserve Bank is fully understood by the masses in this country, and it happens in time to stop the New World Order from being imposed upon the country, then the people would return to the Treasury and let the Treasury produce the money and there would be no further need for tax collection, and the IRS could be easily dismantled because the Treasury can simply print money rather than tax people or the taxes can come from the sales tax on products such as an excise tax.

Be Patient. The Revolution Does Not Happen Overnight!

This Awareness indicates that in other words, you need not worry that a return to the Treasury Notes would be costly to you, if you have money stored somewhere, for your money could be traded in for Treasury Notes at face value and other opportunities also would open for you.

This Awareness indicates that this action is being fought very hard by the Rothschild energies and forces and those of the New World Order which are part of the Rothschild forces. This Awareness indicates that it is not something that just because this Awareness mentioned it in April or May, would come about within a month or two. It is something that may require extreme time and effort and fortune, good luck, for there are powerful forces that do not want this to occur, and these forces are doing everything possible, including creating violence against certain individuals to stop this action from occurring.

This Awareness indicates that the movement is still on course but is moving slower than most entities want, but yet, there must be patience and time for things to occur in order to come out right. This Awareness indicates there is still a good chance of this action winning, and a great hope and chance for the New World Order to be shelved.

You are essentially in the midst of a new American Revolution and it is not something that you can expect an end to in the next month or two. It will go on for some time. The struggle for many entities will continue, and those entities who are in the midst of the efforts to bring back the economy of the United States and bring back the Treasury in its role of handling the economy are struggling and must be patient.

They too are anxious for things to happen, but they too must be patient, for things work themselves through very slowly and when something suddenly bursts upon the scene, it is not necessarily that quick. It may have been simmering behind the scenes for many years before surfacing suddenly.

"What do I really want from life?"

Have you ever asked yourself that question?

And isn't the answer always: gobs and gobs of Money!!

Yes, glorious, spendable money! You want it, you crave it, you'll even sell the best years of your life to a large corporation to get it! Nothing gives you the raw purchasing power of money! Get some today!

This Awareness indicates in other words, you may have known about this for several months, but you should also realize that this has been brewing for approximately 15 years. Therefore, to expect an immediate response or result from this effort by these entities is somewhat unrealistic, particularly when there are such powerful forces trying to keep the efforts hidden from the public, while they also try to continue running their show as if nothing has happened.

You will note that the Federal Reserve Bank continues functioning as if nothing at all was changed or different. And you will notice that these entities are still working toward the time when they can control all of the masses in hopes that they will overthrow any of these efforts to shut down the Federal Reserve Bank.

If they can get to the entities and stop them, then they can continue their Federal Reserve Bank activities, and if they can keep the masses from finding out, they hope to prevent the masses from taking any steps to support their own overthrow, the overthrow of the Federal Reserve Bank.

This Awareness indicates therefore, you need be patient and understanding that these forces are doing all they can at whatever rate they can, to bring about the dissolution of the Federal Reserve Bank, but that it is a struggle and no one said it would be easy.

If anyone wishes to have any money back that they sent in on a claim, they only have to write and ask for their money to be returned. This Awareness suggests that if anyone writes and asks for their money to be returned, it would be helpful to this organization to hear what results you receive from your request.

If, of course, you seek a return of your money, you will lose your position in the claims, and will have to re-start at the bottom, putting your claim in after everyone else who sends in a claim, after you have sent yours originally.

ARE THERE AGENCIES ABOVE "TOP SECRET"?

QUESTION:

Another question from this entity in New York. I'll read the statement because there's several questions in this. "Is it true, as I've heard, that the government has four or even more security levels beyond "Top Secret?" If so, how many people have access to them? Is the very existence of these levels also classified "Above Top Secret?", and is there any way to undo all of these secrets, or would it be desirable?"

COSMIC AWARENESS:

This Awareness indicates that it does appear there are classifications above Top Secret. It appears that most of those higher classifications have to do with information that could either get public officials into trouble, or cause populations to object and panic if they knew what was in those Above Top Secret documents, or the documents hold information regarding strategies, technologies, or projects that are beyond the scope or rights of any entities in the various fields to know about, except for the absolute highest levels involved in secrecy.

Most of such information would not even be made available to the President in this particular category. This Awareness indicates that It does not see a way by which entities could have a leak or access to this information. It would not relay this kind of information to the Interpreter, and it would not be to the advantage of individuals to make any effort to retrieve such information.

If entities did know what was in some of this ultra-secret information, they would be shocked and very disturbed and it could cause them to panic and act in such a way as would be dangerous for them.

This Awareness indicates that much of what is in those ultra or Above Top Secret levels has to do with documentation and plans and designs, schemes and programs or projects related to some of the things that have already been discussed in a broad general sense, including plans of the New World Order for takeover and how these various actions will be implemented; the methods, the strategies, the names of individuals of interest and so forth, and where such entities fit in.

This Awareness indicates that in other words, there is not a great deal that entities are missing by not having any access to these Above Top Secret levels. What you are missing are the details, the authorizations, the documentations, et cetera, and some of the information on weapons, schemes, or strategies of the highest level, research that has occurred that is of too much importance to be released even to members of higher echelons in government.

Your desire to probe secrets would get you little new understanding from looking at these documents, other than filling in details so that you knew without question the reality of these attempts to subjugate the world to a rulership of the few elite.

LAWS AND MORE LAWS: WHEN WILL IT EVER END?

QUESTION:

Another question from this entity in New York. "Our nation already has vastly more laws than anyone could possibly keep track of, and yet we keep getting some 25 pages more every year at the Federal level alone. Where is this all going to end? It seems all of our systems must inevitably collapse of their own weight. Ever more paperwork is required on all fronts of modern life. More laws, more regulations, more taxes, more requirements. It even requires 15% more paperwork for bureaucrats to certify that they are in compliance with the Paperwork Reduction Act of 1980!"

COSMIC AWARENESS:

This Awareness indicates that it is all part of the New World Order in its effort to smother the freedoms of individuals so that regardless of what entities do, even if they sit and do nothing, they are likely to be breaking a law of some kind, and therefore, with so many laws, anyone can be picked up for some reason or another if that becomes politically desired.

In other words, many of these laws are simply being created to be used when desired, not because someone broke a serious law, but because someone should be picked up for some political reason and there is a law that applies that allows him or her to be picked up, to be arrested.

SO, WHAT ARE THESE BLACK HELICOPTERS?

A. AN AERIAL SNIPER'S PLATFORM.
 B. A VIOLATION OF THE 'POSSE COMMITATUS ACT'.
 C. A FEDERALIST TOOL, TO ENFORCE 'POLITICAL-RELIGIOUS' CORRECTNESS'.
 D. ALL OF THE ABOVE.

ANSWER: D. JUST ASK A SURVIVOR OF RUBY RIDGE OR MT. CARMEL!

'Invasion' has Rainier up in arms

■ **Fort Lewis exercise:** Army units plan an invasion exercise that residents fear will spill over onto private property.

By Frieda Bush

The Olympian
RAINIER — The military will invade this small Thurston County community in September as part of a military exercise that will feature parachuting special forces soldiers and a gun fight on main street.

Ask around, however, and you'll get three different versions of the same military exercise.

Rainier Police Chief Randy Schleiss describes a benign exercise Sept. 22 by the 448th Civilian Affairs Battalion that will include the capture of soldiers from a special forces unit acting as invaders.

The civilian affairs unit will then make camp and provide free services such as medical and veterinary care. The city will also get a chance to put its emergency

management program through its paces. But city residents like Harry Snider fear that pallets of equipment will be air dropped near their homes and that soldiers in camouflage will be crawling across their property.

Major John Solon of the 448th, stationed at Fort Lewis, describes yet another scenario with occasional rounds of blanks fired in cordoned-off areas and no free services for local residents.

The animosity created by the confusion may well create the kind of uprising the exercise is supposed to simulate.

The town of nearly 1,300 has a long history of political turmoil. Mayor William Mike Elliott is the town's 28th mayor since the town incorporated in 1947.

And Elliott led a recall drive against former mayor Charlene Logan.

"Recall is on the tips of everybody's tongue again," Snider said. "And it doesn't look far away."

The plan: Hearing the details doesn't soothe irate residents. **A2**

U.S. soldiers in house-to-house search for arms

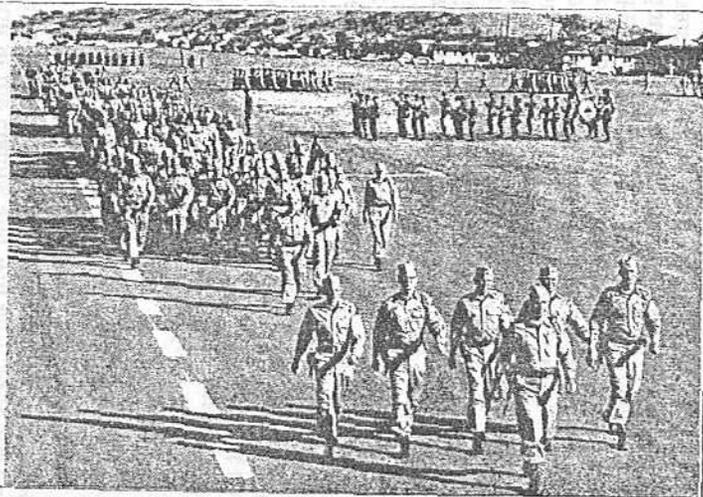

— National Educator — September, 1994

Citizen roundup begins in Alaska

By ROY WAYNE

A few months ago this writer learned that a member of the U.S. Navy Seals had called a radio station to ask, "What exactly is going on in Alaska? We're being sent up there for some reason and we've just been ordered to answer a questionnaire which asks, among other things, if we'd be willing to fire on Americans who wouldn't comply with a national gun confiscation program?" Since then the city of Anchorage experienced an exercise in which U.S. and foreign military personnel practiced house to house maneuvers and various controls on civilian personnel. Local radio shows were interrupted with announcements from the military that residents should not be alarmed by low flying aircraft and other unusual goings on. One announcement informed listeners that there would be round ups of both American citizens and foreigners for relocation. During the same period the Alaska State Troopers initiated a program they call "Knock and Talk." This program has a trooper drive up to your house, knock on the door and then talk to you in the following manner: Do you have any contraband in your house? You say No and the trooper asks if he may search your house? You say "Not without a warrant," and the trooper makes you aware of an army truck parked in front of your house with a squad of army national guard troops sitting in back, all of whom are looking at you sullenly. The trooper then says that since you are being difficult he now has no choice to begin an investigation of you. I admit that this is hard to believe but I assure you that it has been happening.

Thanks to Bernadine Smith of Hanford, California, we now **MORE on Page 10**

Training for what . . . ?

Will U.S. soldiers be the enforcers of the New World Order? Will our own soldiers, sailors and marines be the ones who confiscate our firearms? And will they fire upon U.S. citizens when ordered? Don't bet against it.

U.S. military placed under U.N. command?

been obtained from what was formerly East Germany and in Mississippi. ers taken of the massive depot of Biloxi, along Mississippi Highway 49.

Fort Lewis exercise has Rainier residents ready to fight back

■ **Not a real emergency:** The police chief says an invasion scenario will benefit the town; residents disagree.

By Frieda Bush

The Olympian
RAINIER — The Army calls it Operation Rainier Light.

Police chief Randy Schleiss calls it a wonderful opportunity for the

town of 1,300 to practice handling an emergency.

And city residents like Harry Snider call it a disaster waiting to happen.

They all agree that the 448th Civil Affairs Battalion, a reserve unit stationed at Fort Lewis, is planning a four-day military exercise beginning Sept. 22.

The 170-person unit will be accompanied by a dozen members of the Special Forces unit. Six of

those soldiers will act as invaders to be captured by the unit.

The capture will take place on Binghampton Street, the main street of town, with an exchange of gunfire, but the soldiers will use blanks that trigger a laser beam, said Maj. John Solon, operations officer for the unit.

The beams will set off a flashing light and beeper on harnesses worn by soldiers. Once their lights flash, soldiers are declared off-

cially "dead."

Following the capture, soldiers will set up camp in the town park and the school playground and proceed as if they were helping the city restore vital services, Solon said.

Contrary to rumor, the only thing dropping from the sky will be a dozen parachute soldiers, Solon said. And no soldier will be on private property without the owner's permission.

Nonetheless, the idea of having their town overrun with soldiers doesn't sit well with residents. Especially since many of them had no idea the maneuver was being planned, said resident Mitzi Leifer.

"This is a town where people drive around with guns in their pickup trucks," Leifer said.

"If I saw one of the soldiers in my yard it would be dangerous for them if they didn't leave when I said 'Out!'"

Rainier already puts up with the nuisance of a military neighbor, resident Harry Snider said of the Fort Lewis Army Base.

They hear blasting from the military reservation, C-141's fly overhead and once, about a dozen years ago, several soldiers got lost on maneuvers and ended up coming through town.

"To me it's almost like martial law," Snider said. "People are going to freak out. And somebody's going to get hurt."

Invasion of Rainier called off

■ **Negative publicity:** "We'll just try to find a more patriotic town to do this in next year," says Maj. John Solon of canceled plans to stage a mock invasion of the town.

By Frieda Bush

The Olympian
RAINIER — The town of Rainier will not be invaded, after all. Bowing to the wishes of a community up in arms, Rainier's City Council has withdrawn its invitation for a military exercise on the main streets of town.

Operation Rainier Light had been scheduled for the weekend of Sept. 22 and would have included a gunfight on main street using blanks for ammunition.

More than 170 soldiers from the 448th Civil Affairs Battalion at Fort Lewis were scheduled to set up camp and help "restore order" in the tiny eastern Thurston County town of 1,300.

Heated debate

After a heated city council meeting this week, Mayor Prokery Terry Foley and three other council members decided to vote down a formal invitation for military participation in the exercise.

"A lot of people (at the meeting) were from out of town. They were talking about government removal, removal of people's guns," Foley said. "Everything had been blown out of proportion."

Foley also worried about the safety of military members staying in town.

"Several people made it clear that if this exercise went off people would get hurt," Foley said. "The council meeting was more than interesting. It was scary."

The city's police and fire departments are still planning a modified disaster drill for that weekend with 25 people playing the role of injured civilians, said Randy Schleiss, Rainier police chief.

A joint exercise with the military however, would have provided a more realistic picture of what resources are available, Schleiss said.

"I think we're going to find there are not enough resources in Rainier to handle a disaster," he said.

Short memories

And those protesting the exercise have forgotten how the military came to the town's aid before, said Foley.

"In 1973, when our school burned, if it hadn't been for the military we wouldn't have had a school," she said. "If think our long-term residents have been let down."

The army plans to push ahead with the exercise and has moved it to a mock city on the base called Regensburg, said Maj. John Solon, operations officer for the unit. Moving the drill to a mock city has advantages for training purposes.

"We can use more blanks and flares," Solon said. "And we don't have to worry about civilians and damaging property."

The battalion has spent months planning the exercise, but Solon was already getting pressure from his superiors to drop the plan because of the negative publicity the exercise was receiving. Solon still would like to stage a similar exercise in a nearby city next year.

"We'll just try to find a more patriotic town to do this in next year," Solon said.
