PREPARING FOR THE NEW DIMENSION

(PART 4): THE GRAND EXPERIMENT HAS BEGUN AND THE WHOLE UNIVERSE IS WATCHING

(CAC General Reading, April 17, 1995)

A HEALING MEDITATION FOR THE READERSHIP (Strange Energies Are in Motion at This Time)

OPENING MESSAGE:

This Awareness wishes, before the readings begin, to bring healing energies to the energizers, after which *It* wishes to send healing energies to the subscribers of your newsletter.

This Awareness indicates that at this time, this Awareness wishes entities to close their eyes temporarily, and visualize a pool of White Light energy overhead, and see this White Light energy coming down through the crown of your head, filling your head with White Light energy that begins to heal any areas that are not of the highest spiritual and physical health.

Visualize this energy coming down through the head, down through the neck, the shoulders, into the body, down to the bottoms of your feet, as a kind of liquid light that fills your being, exudes out of the pores, filling the aura with White Light.

This Awareness wishes to fix this energy and let it continue to heal in all ways and to give energy to create vitality, to create good feelings and to enhance the spiritual and physical welfare of your bodies. This Awareness indicates that it strengthens the souls, it drives out the negativities, the flu bugs, or whatever have had an influence.

This Awareness wishes at this time to send healing energies to all those who are subscribers, and asks each of you to visualize the sack of mail that goes out periodically, as carrying White Light energy to the recipients, so that all entities who take up, who touch or read these messages come in contact with that White Light energy and the energy fills them with this White Light energy which, as a kind of liquid light, flows through their bodies, filling their bodies totally, exuding out through the pores into the auras of each entity, so that the auras are filled with White Light energy that heals, that brings joy and happiness to these entities, that protects them.

This Awareness indicates that there are strange energies in movement on this plane at this time, because of the changes that are occurring in the vibrations on this planet, and entities are evolving into a higher frequency, preparing for transition into a higher dimension. It is affecting the DNA on cellular levels and this change that is occurring results in some disturbances in these cellular levels which sometimes is experienced as a kind of painful and disturbing energy.

This Awareness indicates that many entities on this plane have been going through these changes and experiencing various types of energy disturbances which is reminiscent of illness or flu, or sickness or other forms of discomfort in a physical sense. This Awareness indicates that as entities pass through this, suffer the disturbances on cellular levels, they also undergo a change in frequency and move into further preparation for the increase in their vibrational levels.

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Paul Shockley, Interpreter

Entities are preparing to move into higher octaves. Their own vibrational frequency will be reflected in a higher octave, so that they undergo a total change. This Awareness indicates that each individual has his or her own frequency and pattern of vibration, but the vibrations can move into a higher octave. It is not something that is done without entities experiencing it.

It is something that is experienced, and it can be somewhat disturbing and entities undergo the movement from one octave to another and the frequencies rise, and the entities feel certain minor painful disturbances, but its because of this change that entities experience that which will allow them to move from this dimension to the next without passing through the death ritual.

This Awareness indicates that entities will be moving toward a Light Body very gradually throughout this year and through several years to come, as they move into a higher frequency and into the next dimension. This Awareness indicates that much of the disturbances that entities have experienced earlier this year are caused by this change in physical frequency.

This Awareness suggests that the movement appears to be that which will affect all entities on earth. There will be some who pass through the death experience, but most entities will undergo the movement without the death and reincarnation experience, simply because of the body moving and adjusting to the higher frequency rates, and the changes that occur on molecular and cellular levels.

Why Awareness Came at Mankind's Greatest Hour of Need

This Awareness indicates that *It* wishes to reflect briefly on the human experience during the past several decades. This Awareness indicates that when the entity Ralph Duby began to channel this Awareness, this Awareness suggests that *It* came at mankind's greatest hour of need. This Awareness indicates that this statement was quite a literal statement. Most entities hearing this, thought that it was a reflection on the needs of humanity to preserve itself from nuclear war; that the threat of nuclear war was so great that this Awareness had come to speak to humanity.

This Awareness indicates, however, it was something different that entities on earth were not yet aware of that was a greater threat than the threat of nuclear war. This Awareness indicates that your sun had become extremely unstable. It was preparing to experience or express itself into a process that occurs to some systems, whereby the sun would have, if left alone, exploded certain radiant energies out into the solar system, the distance reaching beyond Jupiter and affecting the polarities of all planets between the outer reaches of this radiant energy and the sun itself, to reverse these polarities of the planets and to cause these planets to have an effect that would cause the disappearance of all artificial energies such as metals, plastics; things that were created chemically.

Although these are made from natural elements, the artificial qualities involved in the making would be disturbed by the polarizations being reversed so that these things would literally disappear and only those things that are natural would have remained and some of those too would have been destroyed, at least temporarily.

This Awareness indicates that this was well-known by entities of the Galactic Confederation; that Earth was about to undergo this cosmic experience, along with other planets, but it was recognized that the earth was highly populated with entities and the question was asked whether the entities were worth saving, and if so, whether they could be saved from this natural phenomenon.

This Awareness indicates that at the time, human consciousness was still in a lagging mode, and yet there were certain spiritual values and potentials that were recognized. Therefore, some of the entities, particularly those from Sirius, felt that humans should be saved, if possible. This is partly because the history of Sirius in its creation of humans on earth as they were developed into higher beings through genetic engineering as described previously in other readings and in other works.

How the Sirians Found Ways to Save Humanity on Earth

This Awareness indicates the Sirians, those from Sirius, were most interested in seeing humans survive, in the same way that a father would want his children to be given the chance to survive, to determine the eventual destiny of those children. And therefore, these entities took a special interest in humans and began doing certain research to discover what could be done to prevent this destruction of life on earth, and it was determined that there was a possible way whereby the polarization could be nullified.

This Awareness indicates that in August of 1972 there were certain Sirian space ships that were moving into certain patterns and positions and these ships, using laser beams, began to send energies out from one to the other, reflecting these beams of energy so that an influence in space had an effect on the sun to diminish its potential. It was shortly after the first week in August that an enormous amount of solar flares were recognized. It was printed in certain scientific journals and it was recognized that this was one of the most far-reaching and greatest recording of solar flares that had been thus far witnessed.

This Awareness indicates that the experiment was successful in that essentially the danger has been repressed so much that it was contained locally around the sun and did not reach out as had been expected through the solar system to areas beyond Jupiter. Whereas, it had been expected that the experiment might save only a handful of humans, it turned out that it saved essentially the entire race of humans, far more than had been expected in the most optimistic circles.

Alternative 003: Salvation on Mars & Moon for the Super-Rich

This Awareness indicates that you may recall the concept of "Alternative 003" and that there were efforts by the super-wealthy people on earth, (the 2000 plus or minus members of the super-wealthy families), who sought to find a way to survive after they had determined that the earth would not last, would not be able to continue. They sought first to move to the moon.

This of course was prior to the moon landing, and they moved to the moon. The Germans being there as early as the 1950's decade, and Russian and United States entities, working together, moved there in the late Fifties and early Sixties. Using the moon as a further launch pad for exploring Mars, they reached Mars for the first time in the Spring of 1962.

This Awareness indicates that the public landing on the moon took place in 1969, but they had been there many years before this event occurred. This Awareness indicates that this was part of the "Alternative 003" scenario whereby the so-called Movers and Shakers would be taken first to the moon, and then to Mars, to set up a new world which would be safe from the destruction that was foreseen as bound to occur on earth.

This Awareness indicates that all of this was possible because of the Orion Greys' technology that helped the United States, Russia and other countries, including Great Britain. This Awareness indicates that these countries had totally trusted and devoted themselves to the guidance of these Greys and to the technologies that were presented by the Greys, and these super-wealthy families were simply trying to find a way to save themselves, but had little concern for saving the masses on earth at that time.

This Awareness indicates that after a certain amount of time had passed, it became clear that these entities now had a way to preserve themselves by going to Mars. Mars had been the home of the Orion Greys for some time, or had been a home. This Awareness has spoken years ago about the activities of the cloning that took place on Mars, and suggested that these were from Orion entities; that Jehovah was a space renegade from Orion whom had cloned certain entities on Mars and later transplanted them on earth.

This Awareness indicates that these Orion Greys had long lived on Mars. The pyramids and monuments known as Sedona on Mars are part of their previous creations or constructions. This Awareness indicates

that thus the super-wealthy entities thought they had everything quite complete. They were especially worried that the earth was going to self-destruct because of a wobble related to the polar shift that the earth was destined to have.

They saw this as something that could not be stopped, and thus, by creating for themselves a new place whereby they could escape to Mars, they saw themselves as having the ability to preserve their own lives, and they could take everything they would need to start a new civilization there.

This Awareness indicates that there was, however, a discovery that the poles of Mars were also shifting and that all planets have polar shifts, and thus, they realized that their intense efforts were for nothing. This Awareness indicates that it was shortly thereafter that they began to realize the Greys they had trusted were not the highly evolved entities they had believed them to be, but that there were others from other planets and dimensions who had higher knowledge, and these entities were willing to share that higher knowledge in a way that caused the super-wealthy entities to realize the only way they could ever escape the fate of destruction was through energies of love compassion for all beings on earth.

A Change is Occurring in the Heads of World Planners

This Awareness indicates that this was a fairly recent discovery, but it was such a discovery that it has caused these entities to become more concerned about environment, to recognize that all humans are in this together and that they must trust higher beings of a more spiritual base, rather than simply entities based on greed and technology.

This Awareness indicates in other words, there has been a shift, although it has been somewhat gradual, even in those areas of those entities who had previously looked at the masses on earth as being useless consumers, and recognizing that the Movers and Shakers need the useless consumers, and need to learn to love them, and that the mass of consciousness must be in harmony for any to survive.

This Awareness indicates that this concept is spreading with greater and greater strength among those who are in power through the monetary controls and through the political and the organizational controls, also the spiritual or religious controls, so that as time passes through this decade, and times come closer to those critical moments, more and more entities are raising their vibrations into higher and higher spiritual frequencies so that the change that occurs will become a dimensional shift of such speed that the universe has not previously experienced this type of evolution.

This Awareness indicates that huge numbers of extra-terrestrial and inter-dimensional beings are watching earth because it is such a unique experiment, to have evolution move so quickly. This Awareness indicates that if all goes well in this movement, the program used for speeding earth evolution will be used on other planets also, and thus this is a very significant place and time in the history of the universe for entities to be living. There are many entities from other dimensions and other places who want to come into this life at this time, into this human experience, in order to be part of the grand event.

This Awareness indicates that entities should cherish their life at this time, for its unique opportunity to be part of this great event that is occurring in the universe, on this earth, and recognize that even though there

- will be some pain and suffering involved in experiencing these enormous changes, you are extremely fortunate to be part of such an event, and if you move through these frequencies and vibrational changes without mental disruption or resentment or repression or trying to avoid what can't be avoided, you will have a much easier transition from this dimension to the next.

The Dangerous Program to Blow Holes in Atmosphere

This Awareness indicates of course that the photon belt experience will also help entities to make the transition much easier. This energy shift has already begun, though it is not yet as strong as it will soon be. This Awareness wishes also to mention the "Alternative 003" program advanced from one stage to another by these entities, sought to blow holes in the atmosphere, to release the gases and pollution from the earth by using atmospheric nuclear testing. This was likened unto another alternative. They believed that they could release this pollution around the earth and in the atmosphere, if they could simply open a hole for these gases to escape.

What it *did* was to create nuclear pollution in the higher stratosphere which has since been gradually floating downward to the point wherein now the problem is how to avoid the radiation from the attempted care of the previous problem because the nuclear cloud created from the atmospheric testing is still coming down.

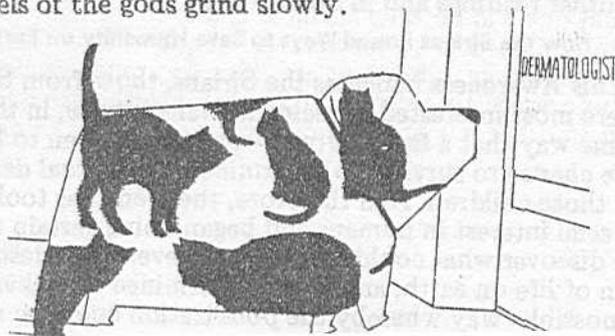

It is now as low as levels wherein airline flights occur. This Awareness indicates that there is also the further attempt to head off this problem by creating the weather control programs such as that which is called HARP, which has been set up in Alaska to affect the strains of energy, the weather movement, the jet streams, in an attempt to gain some kind of control so that these nuclear fallout energies will not descend into the more crowded areas.

This Awareness indicates that it does not appear that this effort will be successful, but it *does* appear that the Sirian extraterrestrials will intercede, and along with the photon belt and the projects relating to that, this situation will be defused before real harm is done. Entities will have begun to move into a higher dimension well before the fallout descends into their living space.

Cosmic Awareness Brings Good News! (For a Change)

This Awareness indicates it is seldom that this Awareness has the opportunity to give such good news to entities. It has long been concerned about the negative things that entities have been doing on this planet; It is quite pleased to report these more positive events that are now in the making.

This Awareness suggests you not expect everything to turn 180 degrees around toward enlightenment and wholesome expressions, for things do not move that quickly just because someone says it is happening, but things are changing in that direction. It takes time. The wheels of the gods grind slowly.

This Awareness indicates also that you not think of destroying evil, for all things must be transmuted into good. When you move into the next dimension, instant karma, instant cause and effect will be a major part of the experience. Thus, if you carry with you anger or hostility or thoughts that are negative in nature, if you enter into the new experience with fear, whatever occurs in your mind will create its own reality.

Thus, if you fear some evil force, the evil force will immediately appear for you to deal with. If you see yourself needing strength to deal with the evil force, then you will immediately have some kind of strength or weapon, and your war will start in that dimension. If however, you see only peace and wish only good things to occur, you need only to think of them, for reality follows thought.

Whatever you think becomes the reality, particularly the more you enter into that 4th dimension. This Awareness indicates that the 3rd dimension is the place wherein you presently live, and in this dimension, cause and effect move much more slowly. They are not instant, and therefore, it is more difficult to recognize that what you receive as your reality is the result of your having thought certain things in your past.

Beware Your Intention Behind a Thought!

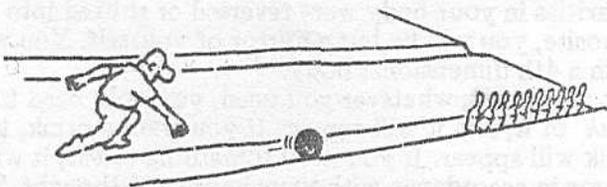

When thought creates reality in this dimension, it does it so gradually that by the time it occurs, you may have forgotten your thoughts that brought it on.

This Awareness indicates there is another aspect in this however. Some thoughts create reality, some thoughts do not. Those thoughts that you think which have no intention of being manifested do not manifest; it is the *intent* in your thinking that brings about the reality or denies the reality of the thought to develop.

If you do not intend a certain thought to become reality, it will not. If you say "I wish he or she were dead!", with intention behind your thought, you create an energy that tends to push toward the reality. Of course your own thoughts are not the only thoughts in the universe that are creative, others may also be thinking. Others may look at this person whom you wished were dead and say, "I hope you are healthy and live long! I hope you are protected. I wish you well!", and these thoughts will help to cancel out *your* thoughts.

This Awareness indicates that the important thing is to recognize that when you think thoughts with intention, beware! Your intentions may influence something to become a reality. It is not certain, but it is an energy that influences, and if other energies do not cancel out your influencing energy, you may get what you wished for, particularly in the 4th dimension where things move much more quickly in terms of cause and effect.

This Awareness indicates as entities move into this 4th dimension, these thinking patterns, these thoughts and intentions will become stronger and more potent, therefore, you need to be very careful about what you think and what your intentions are. This Awareness suggests therefore, start now, before you get into the 4th dimension, and become very careful about your own thinking.

PERSONAL KARMA YOU CARRY OVER INTO 4TH DIMENSION: HOW IS IT HANDLED ?

I think Awareness may have just answered this question of T.K., in Santa Barbara, California, but I'm going to ask it anyway. "This question concerns personal karma, with respect to the earth's dimensional shift occurring from the photon belt. When this occurs, how will entities be able to balance negative karma which they have needed to "work out" by incarnating in the physical plane? *Experientially, how will karma operate in this higher vibration?"*

COSMIC AWARENESS:

Instantly. This Awareness indicates that entities will need to adjust very quickly; they will find it very much like being children again. There are new rules. There are *new experiences*. You will notice that a child entering this plane learns enormous amounts of information in a very short time because everything is so new to him or to her, and when the child looks about in this world, they see so much more than an adult who has been here would see.

The adult recognizes many things from so many experiences with it or with them, that they take them for granted, but the child sees things for the first time and each time it is awesome. It is fantastic. It is riveting to their attention, and therefore, they learn enormous amounts of information very quickly.

When you enter into a higher dimension, you too will learn much more quickly than you can imagine. When you realize that your thoughts are creating, are manifesting before your eyes, you will learn very quickly what to think and what not to think.

This Awareness indicates it is likened unto a scene in the "Ghost Busters" movie wherein the Ghost Busters were warned that anything they thought would come to be, and therefore, they all agreed not to think about anything that could be negative. Suddenly, the Pillsbury dough-boy became manifested as a giant creature and the Ghost Busters knew someone had thought it into existence. The one who had thought of this entity quickly defended himself by saying, "It just popped into my mind! I couldn't help it!"

This Awareness indicates this is the way it will be in those higher dimensional levels. Entities will have things popping into their minds, only to have to deal with them. Quickly, entities will learn to control their thoughts after a few negative experiences such as this.

WHAT TO DO WHEN THE SIRIANS LAND ?

QUESTION:

Another question from T.K. "It was indicated in the book *You Are Becoming a Galactic Human*, that entities from sirius will manifest to us to explain and prepare us for the dimensional shift.

COSMIC AWARENESS:

This is in the affirmative. Much of this will be explained for entities to help them prepare themselves.

QUESTIONER: (CONTINUING THE QUESTION):

Okay. He asks: "Is this seen as occurring, and if so, would Awareness describe a possible scenario of how this might occur, especially considering the negative elements which continue to exist on this plane? If not, what is seen to assist those who know nothing of this great change?"

COSMIC AWARENESS:

This Awareness indicates that this will occur in such a way as to allow entities to adjust their thinking and their awareness to the changes that are occurring. It will not be

something that entities will be inclined to resist for any great length of time or with any great strength of resistance.

How can you avoid something that you see with your own eyes? How can you deny something that is before your face?

HOW TO CONDUCT YOURSELF FROM HERE ON IN

QUESTION:

One other question from Tom. "How would Awareness advise us who are aware of the iniquities of personal, social and governmental elements in our lives attempting to enslave us, and who are aware of the spiritual future which awaits us in the higher vibration approaching, to conduct ourselves within our present lives and interactions with the issues about us?"

COSMIC AWARENESS:

This Awareness suggests you have a certain amount of faith that things can change; that entities can change, and that you work to help enhance that change so that the world becomes a better place because of what you do, because of what you and others do to bring about these necessary changes.

This Awareness reminds you all reality follows thoughts. Therefore, keep your thoughts on the highest and best, particularly when you enter into higher frequencies. It does not necessarily require highest and best thoughts when you are in lower frequencies because these do not move with sudden results because of thought.

Thought can be critical when you are in lower frequencies, but as you get into higher frequencies, you must learn to move beyond critical thinking and more into faith and visualization in your thinking. Visualize the highest and best, rather than criticizing What Is.

ARE THE REPTOIDS NOW THE "GOOD GUYS"?

QUESTION:

A question from J.M., in Minneapolis, Minnesota. She writes: "I have some questions. According to an October 1994 tape recording of a lecture by Sheldon Nidle, not only is humanity on earth moving toward the Light, but the Dinoids and Reptoids have made a truce with the Galactic Federation and are "good guys" now.

"This sounds fishy to me. They say that all of the universe is finally, after millions of years, moving toward the Godhead. The Reptoids have agreed to drop claims on our solar system, if they are allowed to visit us, trade with us, and help to counsel us when there is a mass landing of spaceships to help humanity.

"They say at first the Reptoids will just talk to the people in Light centers because most people will be afraid of their appearance. The Reptoids say that because they helped to instill fear patterns in humanity, that they know how to remove them. Does Awareness see this as true, and if not, what is going on?"

COSMIC AWARENESS:

This Awareness indicates that this is part of the transition that is occurring; that this will be very slow in its movement; slow in your perception of time. In cosmic time it will be extremely fast. The evolution of entities in a spiritual sense is occurring so quickly in a cosmic sense that it is likened unto a flash of light across the universe, but in terms of your personal experience, it may seem to be quite slow; it may take two or three decades for these behaviors to manifest without fear and conflict being part of the experience and relationship between your culture and others.

This Awareness indicates that cautiously moving, cautiously hoping, cautiously looking for the highest and best, you can move toward the highest and best in relationships, even with those whom you once saw as being your enemies.

This Awareness indicates it is in the best interest of these Reptoids to be on a friendly basis with all entities in the universe, and in this galaxy, for trading between cultures can be exceedingly enjoyable and profitable, even moreso than warring with other cultures.

REMOVING PARANOID ABOUT THE PHOTON BELT

QUESTION: (We're All in This Together, Gang!)

Ever since we released this photon belt information, quite a few of the readers have sent in questions concerning the more mundane activities that they normally go through, such as they wonder such things as if there are special glasses that would protect their eyes from the belt?, and how would the photon energies affect the gardening of vegetables and fruit?, and will the air in the house be breathable?, and during the time of darkness, will it be totally black?, that type of question. Without going into all of this stuff, could Awareness sort of give a brief rundown to assure the readers that the evident paranoia isn't really necessary?

COSMIC AWARENESS:

This Awareness indicates that entities tend to be concerned about their comfort zone; their comfort zone is that which they are used to. When you were in the womb, that was your comfort zone, and entities were in a comfort zone whereby if they could have known or asked about, "What is going to happen when I have to leave here? What will it be like?", this Awareness indicates they might not want to leave, because they do not know the one to which they are going.

This Awareness indicates that the changes that will occur will be as different from your comfort zone as will the changes that you experienced when you left the womb. This Awareness indicates it may be shocking; it may be disturbing. The anxieties, the uncertainties as to what is going to happen can be quite disturbing, but it will be no more harmful or dangerous than that which you experienced when you left the womb. You can do it!

Everyone else will be going through it along with you. Therefore, this Awareness suggests you not worry, not think too much. Just wait and do it! This Awareness indicates all you have to do is move from moment to moment with whatever is happening.

Flashlights are not likely to be of any benefit or value because batteries will not work. Polarities will shift. Therefore, you can worry and frustrate yourself to the point of agony, but why do this before the problem, or you will simply create a problem that may not be of any significance at the time the situation occurs.

This Awareness indicates the Sirians will provide you with information, with utensils, or tools necessary. It is part of the plan to provide entities with the information and the necessary tools for shifting into the photon belt. This Awareness indicates that when polarities change, this can be a most unusual experience because if all the polarities in your body were reversed or shifted into the opposite, you will be but a mirror of yourself. You will be in a 4th dimensional body.

At that point, whatever you need, you only need to think of it, and it will appear. If you want a drink, the drink will appear. If you need something to eat, it will appear in accordance with your image and thought. This

Awareness indicates it is useless to worry prematurely; 7. it will only make things difficult between now and then, for you to not know the rules until the rules that will be changed become a reality in your new experience.

FOLLOW-UP QUESTION:

So that would apply then to the major paranoia we get letters about, which is the days of darkness, where they're afraid of the cold and the days of the sunlight, where they're afraid that they might be blinded. That sort of thing?

COSMIC AWARENESS:

This is in the affirmative.

**WHAT IS THE ORIGIN OF THE PHOTON BELT?
(Earth is Now on the Road to Sirius!)**

QUESTION: (JD):

Awareness, we've been hearing about this photon belt. I am not for one clear as to whether this was a pre-existing belt in some area of space into which we are orbiting, or what is the origin of this photon belt and nature?

COSMIC AWARENESS:

This Awareness indicates it appears to be that which we are moving toward and which will, when entered, move the earth at the solar system into another place in the galaxy, at what would be considered a very rapid speed. Within 17 years the earth and solar system being moved to Sirius.

This Awareness indicates that it appears that this is a kind of cosmic connection between this solar system and the Sirius star system that has always been. The word "always" refers to since the creation of the galaxy; that has always been part of the galactic behavior. This Awareness indicates it is seen as a connective relationship between the star system of Sirius and the solar system, in the same way that a parent and child, or man and wife have a connection. There is a cosmic connection between these two, energy-wise, and the photon belt is a kind of carrier in the process of the mergings between these energy groups.

THOSE HERDS OF HUMANS THE REPTOIDS CONTROL?

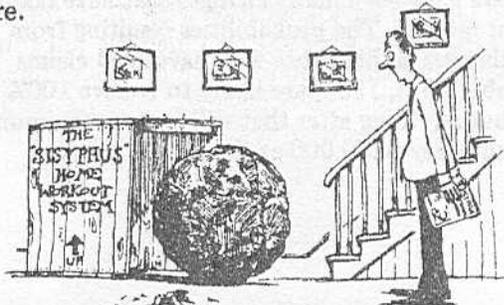

QUESTION:

A couple of questions from R.S., of Vancouver, British Columbia. He writes: "In *Revelations of Awareness* issue 93-5, Awareness mentioned that the Reptoids have herds of humans on other planets. Won't these people get to go through the photon belt also?"

COSMIC AWARENESS:

This Awareness indicates that there will be changes occurring all over the galaxy when the shift into the higher consciousness occurs. This Awareness indicates that many of those humans as herds on those other Reptoid planets have themselves a karma to work out that comes from their own past-life experiences.

This Awareness indicates that when their karma has been completed they will then be allowed the opportunity to move to whatever further experiences they desire. This Awareness suggests that some of these entities may incarnate into other than human forms, if that is their desire.

WHAT ABOUT THE "NIGHTMARE HALL" CREATIONS?

QUESTION:

Another question Robert asks is, "How will the grotesque genetic mutations in Level 6, Nightmare Hall, underneath Dulce, New Mexico, be affected by our solar system entering the photon belt?"

COSMIC AWARENESS:

This Awareness indicates these entities who enter into the next dimension will have the ability to create according to their thoughts whatever form they desire. This Awareness reminds you that the 4th dimension essentially can be equated to the realm of imagination. It is very similar, and if one can imagine something, that becomes the reality in that dimension.

Many things can be experienced and many things can change. The action in a dimension of this nature is different from what you experience in your reality. In your reality most of the substance or reality of your world is solid and does not easily mold to your thinking. You want to make a chair on the desert, but you cannot simply think a chair on the desert; you have to find a way to turn stone or sand or sagebrush into a chair. It is not impossible to do so; it is just more difficult than in the realm of imagination.

In the 4th dimension, you would simply think a chair into existence. You would not need a tool. If you wanted a tool, you could imagine the tool coming into your hand, and as you receive the tool, you can imagine the tool to create the chair, but while you were doing that, your child, your wife, or your friend may have simply imagined a chair just like yours, and be sitting there waiting for you to finish with your tools and with your creativity, to get your chair. It is a different set of rules in that dimension.

**IS THIS THE ASTRAL PLANE
THE SPIRITUALISTS DESCRIBE?**

FOLLOW-UP QUESTION:

Awareness, that 4th dimension just described sounds almost precisely like the plane the spiritualist books describe that entities go to after death, wherein they mentally can conjure up anything that they want to simply by thought. Is this basically what they were tuning into in those books such as *Beyond the Vale*, *Life in the World Unseen* and some of those other spiritualist books?

COSMIC AWARENESS:

This Awareness indicates that this is possibly the same description, or a similar description. This Awareness indicates that there are many books with many kinds of descriptions and a blanket answer for all cannot be given, but most of these books have some description of a similar nature that may be referenced as the same.

FOLLOW-UP QUESTION:

One of the books I recall, for example, had on this plane some old hellfire and brimstone preachers with a congregation around them sitting around this pit in which an entity was being pulled up out of the fire and then lowered again, and this was a way they envisioned an entity being punished eternally in hell, and the book says that these entities brought that concept over with them when they died and they were simply acting it out through thought and creating it with thought and that they could unthink it any any moment that they wanted to and progress on to a more enlightened stage, and that's the sort of thing they described. It was a plane of thought, somewhere on the astral, where you created everything by thought.

COSMIC AWARENESS:

This Awareness indicates that this essentially is the same, and that entities need to learn how to hold their thoughts, create proper thinking in order to experience the highest and best.

ED's Note: my mother was a spiritualist and exposed me to many books on this subject, most of which come from England. Years ago, I loaned my collection out, but forgot to whom, so I no longer have any. Also, I do not know if or where this type of book is still available. You might contact spiritualist churches and organizations if you are interested.

YOU HAVE ALL BEEN IN THE 4TH DIMENSION BEFORE
(Birth and Death and No Need for Fear or Dread)

CLOSING MESSAGE:

This Awareness indicates there are many experiences that entities have a potential for; there are many things that entities have already experienced, but have forgotten. Many entities have already been in that 4th dimension, and when they return, they will feel reasonable comfort, although they may not remember having been there before.

This Awareness indicates it is no more freaky or terrifying, or needs not be terrifying than being born in this dimension, for every death is a birth and every birth a death. When entities leave the 4th dimension to come into the 3rd dimension, it can be perceived as a death, even though those in the 3rd dimension will see it as a birth.

This Awareness indicates when entities leave this 3rd dimension, or three-dimensional world, others may see it as a death, while the entity leaving this world and entering the next, will see his or her experience as a birth. This Awareness indicates that when an entity is born in your world, everyone cheers, but the entity cries. When an entity dies from your world, everyone cries, but the entity cheers.

This Awareness indicates that the movement from one dimension to another is peaceful at its moment of truth, but entities are always fearful and experience pain, mental or emotional pain, and dread when contemplating the movement from one dimension to another.

This Awareness indicates that this movement that is coming will be a death to the 3rd dimension and will be a birth into the 4th dimension. It will be a transition that entities need not dread, need not fear. The pain involved will be so gradual that it will not be recognized as death. It will seem more as gradual change and an experience that is very profound and very revealing as entities move from one dimension to another.

6. CURRENT EVENTS UPDATE: WHITEWATER SCANDAL, HILLARY'S TRIP TO AFRICA, O.J. SIMPSON MURDER TRIAL, HILDEBRAND CLAIMS; THE "CONTRACT WITH AMERICA"

4/18/95

This Awareness wishes at this time to cover a few items that have been occurring which have not made media news but which are nevertheless important to many entities in this time. This Awareness indicates there are certain items that will not likely be brought out for most entities, but which should be discussed briefly.

Blackmail in the Whitewater Investigations ?

This Awareness indicates the Whitewater situation as that which would have been brought to the foreground previously, but certain entities wishing to push this into focus have been thwarted at least temporarily by other powers that are trying to keep this from coming to the front.

This Awareness indicates that the trip of Hillary and Chelsea Clinton to Africa and other places overseas recently was necessitated by information they received that she was to be indicted on the Whitewater situation, but by going overseas at that time, it stopped the indictment while certain other behind-the-scenes maneuvering occurred to prevent the action from being furthered by those who sought the indictment.

This Awareness indicates that the Whitewater situation is being pushed by certain elements of the Republican party, but there are also those in the Democratic party who are informing those of the Republican party that they cannot call the kettle black without first looking at themselves and they are informing many of those in this party that would make a scandal of the Whitewater situation, that they too have certain skeletons in their closets, which will be brought out if this is continued against the Clinton administration.

The O.J. Simpson Murder Trial

This Awareness indicates that also, the OJ Simpson trial is being prolonged to keep it in the front of the news so that another scandal relating to the Whitewater situation cannot have room on television at this time. It is more or less a way of distracting the people's attention from the Whitewater situation, to keep them focused on the Simpson trial as a way of helping to prevent the charges being brought into greater mass-focus.

This Awareness indicates that this appears to have been relatively successful, and it does not appear that the Whitewater situation will gain a great amount of focus. Of course, it still creates sufficient news to satisfy the masses that justice is still working in this country, by presenting the activities relating to the Simpson trial as a major focus for entities to observe the workings of justice.

Claims Against Federal Reserve: an Update

This Awareness indicates that in another area that is not likely to make the news; this relating to the claims program relating to Scott Hilderbrand and others that have filed suit against the Federal Reserve Bank. This Awareness indicates that there have been many changes that have taken place in recent months. The probabilities resulting from some of the changes is that those who have filed claims before December 28th, 1994, are likely to receive 100% of their claims, but anything after that will have a maximum cap of approximately \$250,000 as the payoff amount available.

9. This Awareness indicates that these entities are no longer taking claims at this time and cannot or will not take any further claims until the litigation which they have again reintroduced into the courts, known as the Redress of Grievances, has been completed. That this has been introduced in the courts in Colorado, and is a test of whether the nation is under the Constitution or is under martial law.

This Awareness indicates that when this has completely run its course in the court, then new claims can be registered, but the cap on these claims is \$250,000 per claim. This Awareness indicates that this is a very brief summary of the changes that have occurred in recent times.

There have been also notifications to all Congress and senators and to state governors of all states of the Redress of Grievances and notification to these entities that if they are not supportive of the Constitution to which they have sworn allegiance, they are guilty of treason, and it remains to be seen how this will turn out. It depends in part on the challenge in the court in Colorado. This Awareness indicates that from time to time *It* will update entities on the basics of changes that are occurring in this regard. This Awareness indicates there have been rumors that some entities have been paid on their claims, but that Federal agents have harassed them in efforts to get them to give back the money. This Awareness indicates that this does not appear to be anything more than rumors.

It appears that the entities are told when they receive their money not to speak to anyone about it. This Awareness indicates that it appears these rumors of Federal agents harassing claimants is totally untrue.

Republican "Contract" and the Patriot Movement

This Awareness indicates that there appear to be very subtle changes and activities occurring that have been initiated by this Patriot movement which are partially being initiated and partially being distracted and diverted by the Republican Contract with America.

In part, there is a parallel in some of the effort of the Contract with America with actions promoted by the Patriot movement, but in part, some of this activity is nothing more than diversionary, to create a modification of the patriot program.

This Awareness indicates that there is also some effort to thwart the Patriot movement. This Awareness suggests that in the Patriot movement there is a recognition that the income tax was initiated without Constitutional backing; that it had never been properly ratified and that it was illegal from the beginning, which would mean that all taxes paid would have been illegally and fraudulantly assessed and taken by the IRS, and in the efforts of the Patriots, this should be returned to the masses.

This Awareness indicates that the Contract with America is focusing on the issue in such a way as to distort this and to speak of the different types of taxation, such as the flat tax, or a consumption tax or something of a different nature, even getting rid of IRS, as if it were a solution to the problem that the patriots have been focusing on.

This Awareness indicates that whether their approach to this taxation situation defuses the patriot's efforts or confuses the masses to allow them to continue and to accept the present system remain to be seen. This Awareness indicates it may also serve as a way of getting a new kind of authorization for taxing the masses.

This Awareness indicates that the tidbits that this Awareness wishes to speak of have been spoken of and this Awareness suggests that the questions for this reading may now begin.

IN JAPAN: WHO IS BEHIND THE NERVE GASSINGS ?

(Expect More Earthquakes and Disasters in Japan)

QUESTION:

Several people have written to ask if we'd ask Awareness what's going on in Japan where this "cult" they call it, was killing people with nerve gas, and the entities appear to have large quantities of it, and for what purpose, and who is really behind all of this?

COSMIC AWARENESS:

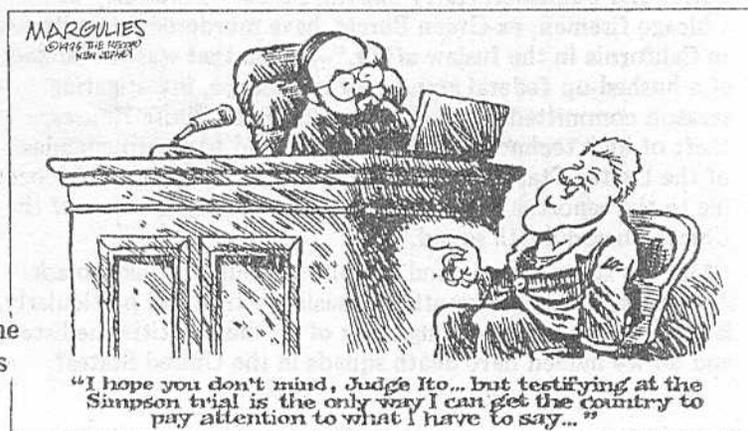

This Awareness indicates that there are seen certain powers in the world that do not want to see Japan become the economic power that it has been becoming in the sense of its economic prosperity, in its rapid growth. That this has in part resulted in the recent earthquake; that the nerve gas is essentially using certain entities in this religious cult to further destroy the stability of Japan.

It has not as yet been successful, but it *has* shown the enormous seriousness of the intent to destroy the fabric of Japan's culture and economy. This Awareness indicates that certain entities involved in that religious cult are being assisted, funded and guided by forces of a dark nature, some from foreign countries, some being related to alien forces, or that which would be called extraterrestrial forces.

This Awareness indicates that *It* does not wish at this time to name these foreign or alien forces that wish to decimate Japan. This Awareness indicates that Japan has been developing economically, culturally, and through a certain type of independence, has been doing quite well, and their well-being is seen as a threat to certain other countries and to the world economic planners.

In part, these entities have not always gone along with those who have their particular agenda for the world. The Japanese are quite different in this regard, and are seen by these entities as needing to become more cooperative with the economic planners, those who would control the nations of the world.

This Awareness suggests that you will likely see more earthquakes in Japan and perhaps more political upheaval in that country throughout the rest of this decade. These things will be a continuing effort to destroy the strength of the country as it has developed, to weaken that country so that it will be more submissive to world economic controllers.

"ENEMIES OF THE STATE": WHO'S ALL ON THE HIT LIST? ¹⁰
(Are There Really "Death Squads" in the U.S.?)

COSMIC AWARENESS:

QUESTION:

David A. sent me some stuff that he picked up on the Internet from a radio program by Sherman Skolnick of the Citizen's Committee to Clean Up the Courts, this program from Chicago. We've given information to Awareness from this entity before and *It* vouched that the information was valid.

Briefly, I'll read a little of this, he says: "Years ago the king of England would issue a Bill of Attainder, designating a certain person as an "enemy of the state," they and their family to be banished from the realm; all this without a verdict of courts of law. The U.S. Constitution prohibits passing a Bill of Attainder. Despite this, the federal government has massive computers with a National Security Index, listing persons who are "enemies of the State"--political dissidents, outspoken critics of the government. In case of a 'national emergency or other such excuse, they are to be rounded up and shipped off to concentration camps in remote areas. All that, and more, without a verdict of courts of law.

"The National Security Index includes, but is not limited to, the following:

- (1) Illegal Tax Protesters--ITP--those who agitate against the state and federal income tax. For example, those who claim the 16th amendment to the federal Constitution was fraudulently obtained (Remember, the 16th amendment underlies the IRS), and those who claim the IRS does not follow their own rules.
- (2) Members of groups who agitate against corruption of local, state, and federal officials.
- (3) Certain college professors and other educators who advocate ways to combat what they perceive as unfair government policies.
- (4) Members of "Posse Comitatus" [CN--literally, "power or authority of the county"] who advocate use of the local county power to remedy lawlessness of government officials.
- (5) Members of groups that agitate against the ultra-rich, who label such groups "reds", or "communists."
- (6) Those who advocate the second amendment; that is, the federal Constitutional right to bear arms to offset the tyranny of the central government.
- (7) Witnesses whose testimony could be used to finger high government officials for crimes...such as treason!

Some very well-informed people believe that, over and above listing such groups and persons in a national computer, that there are "death squads"--right here in the United States! Now we know there *are* death squads used to torture and "snuff out" dissidents in Central and South America. A west coast editor and publisher, Harry Martin, states: "Three city of Chicago firemen, ex-Green Berets, have murdered key witnesses in California in the Inslaw affair."--a mess that was the subject of a hushed-up federal grand jury in Chicago, investigating treason committed by the Reagan and Bush White Houses, theft of high technology, and secretly sold to sworn enemies of the United States, such as Iraq and Iran and others. According to the report, a west coast district attorney is aware of the Chicago-based death squad."

And the story goes on and on, but basically, I'd like to ask Awareness if this information is basically true and particularly, is there a computer keeping track of all these entities he listed, and do we indeed have death squads in the United States?

This Awareness indicates that they are not necessarily called death squads, but it is a similar activity. They are professional hit-men for certain agencies in the government; essentially the same thing as the term as it is used in Central and South America.

This Awareness indicates that a discussion of these lists of individuals has been mentioned in previous readings; that of course the list is in computers.

This Awareness indicates that the action of taking out individuals occurs on a minor scale quite frequently. This Awareness indicates that the potential for a major crackdown on entities in this country is quite strong. There are many who expect this to occur sometime this spring and by June at the latest, cracking down on Patriots and on tax-avoiders and those who protest taxing.

This Awareness indicates of course, all of this is connected with the belief that super-wealthy individuals in the world are assisting to set up a world government which they control without resistance. This Awareness indicates that this is essentially the same thing this entity speaks of in discussing these lists and the types of entities who would not be acceptable in that new view of a New World Order.

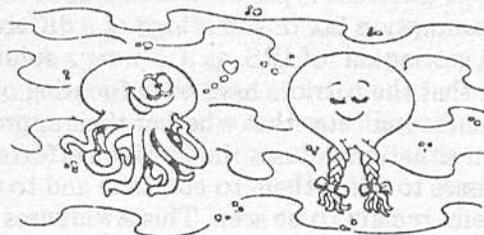

This Awareness indicates there are also many forces seeking to have greater control of the Internet so that information of this type cannot be presented to reach the public.

Good Things Are Also Occurring

This Awareness indicates it is not all doom and gloom however, because there are other forces working that are not under the control of these entities or their plans; these being spiritual forces that are acting upon this plane at this time, whereby these negative dark forces have certain limitations in terms of time, in terms of their effectiveness and in terms of how they can be hindered through greater communication and focusing of attention.

Word has been spreading through many different forms of expression and many of these entities perpetrating a world dominated by these people are finding it more and more a reversing of the idea of who is in control. This Awareness indicates they often think they are in control, and they are beginning to panic at the thought that the masses are awakening and realizing who they are and what their agenda is and they begin to recognize their time is short and thus they control quickly or unless they give up all plans of controlling the masses in a dictatorial world.

This Awareness indicates that as these spiritual energies increase, their chances of domination increase and their need for cooperation with the masses becomes more apparent if they are to survive. This Awareness indicates that the spiritual forces working on this plane for the good of all seek not to destroy these entities, but to win them over to the idea of people working together, regardless of any prior differences or historical adversities.

QUESTION:

A question from J.G., Bozeman, Montana . He writes: "I've heard from other sources that the negative forces through certain US government agencies plan a serious incident in *early June* to institute martial law and take-over the country and so forth, but if these mass-landings occur at about the same time then it would seem that the takeover attempt will fail. Would Awareness please comment on this scenario?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that there has been considerable information relating to that time in early June for the instituting of a serious attempt to crack down on people in this country who may be seen as a threat to the New World Order. There are many who are preparing for this, many who are concerned about this time.

It does appear that if indeed this occurs in early June, that if a force from outside the human leaders of this planet is introduced into the equation it could alter the situation completely, giving an opportunity for a new kind of gain the human affairs quadrant.

This Awareness indicates that there are so many potentialities in these coming months that entities can only wait and watch. There is little that entities can do to prepare for the many potential scenarios.

HAS NEW WORLD ORDER INFILTRATED THE MILITIA? (Rothschilds Target Ross Perot as Unwitting Agent)

QUESTION:

Along this line, a question from K.S. in Portland, Oregon. He writes: "I recently spent a couple of weeks working with Lyndon LaRouche's organization. I learned a lot but it didn't last long since it turns out they are "axiomatically opposed" to the idea of higher consciousness (although I have seen LaRouche deal with the subject by other names). Based on what I learned from that intelligence organization, I have a question:

"It appears that the militias have been heavily infiltrated, and are being steered toward a neo-confederate formation by Rothschild forces. This seems to take the focus off the Constitution and onto just tearing apart the strength of the national government; it also suggests a danger of the militias being pushed to act, just as Clinton may be attempting to save the country (LaRouche has indicated that Clinton will have no choice but to evoke the emergency powers to deal with the financial crisis). Does Awareness still see the militias as capable and reliable as a means of resisting the New World Order, or are they being set up to play into the hands of the One Worlders?"

COSMIC AWARENESS:

This Awareness indicates that it *does* appear that there are forces acting in this country at this time that could play havoc with the powers that are in place. This Awareness indicates that *It* sees the heavy influence of Rothschild forces playing into various national affairs. This in Japan, for example, and also in the United States, it appears that there is a growing rift between the U.S. administration and the Rothschild agenda which is often covered by the appearance of harmony.

Something Sinister About Oklahoma Bombing

For example, the appearance that the British are helping the U.S. to find the culprits involved in the bombing of the Federal building is more of a friendly gesture for public consumption. It does appear that there is something somewhat sinister involved in the bombing that reflects into or ties into the British Rothschild concerns in the United States, as a potential warning to the Clinton administration.

This Awareness indicates that this is not clear at this time, and that there may be some other more pertinent and meaningful influences behind this bombing. This Awareness indicates there *does* appear to be some growing rift between the Rothschild agenda and the current administration in the United States. This Awareness indicates that it appears also that the entity Ross Perot has in part been targeted by these forces to be used to help influence the militias and patriots of this country for the benefit of Rothschild forces.

It is not that the entity has elected to do so, but it is that there appears to be an attempt to use this entity's organization in such a manner that it can be beneficial to the Rothschild influence. This may not occur, but it appears to be a target for an effort to disrupt the agenda of the militia and Patriot movement.

This Awareness indicates that there has been certain information released to cause great concern among the Patriots and militia groups about the threat of government crack-down. It appears that this was a kind of misinformation project to read the reaction of the groups.

There was information released that the government was going to crack down on militia organizations and Patriot groups during the month of March, and nothing happened, but the organizations did tend to panic as a result of that release of information and the panic was monitored in such a way as to determine how well organized these militia groups and Patriots actually were.

This Awareness indicates that this could be part of a larger plan to prepare for such an action or to cause the Patriot groups to attempt a preemptive action at some time in the near future. This Awareness indicates that it *does* appear that the administration is shifting away from the tendency to cater to Rothschild plans, while at the same time trying to keep itself in a strong position without appearing to be a threat to the Rothschild agenda.

This Awareness indicates it appears there should be caution in considering the present administration an enemy of the Patriots. The Patriots may at some time in the near future find the present administration is actually leaning toward the same goals as the Patriots.

This Awareness indicates that it *does* appear to be true that there are subversive elements even in the Patriot and militia movements that could cause havoc among these groups, in turning their actions in such a way as to cause extreme problems for themselves and for others.

This Awareness indicates that the Rothschild agenda and forces have long had the ability to manipulate groups and masses and organizations within countries so as to create a conflict between one group and another, and these entities appear to be masters of "divide and conquer."

ED's Note: this reading was given April 20, 1995, one day after the bombing in Oklahoma City, and was the only reference made to it during the April series of readings from Awareness. Because the entity suspected of the crime had attended some militia gatherings, the media of course proceeded to depict the militia as racist, anti-Semitic Nazi kooks

THE HEADS OF MONTANA MILITIA ARRESTED
(Government Using Computers to Test Public's Reaction)

FOLLOW-UP QUESTION:

Actually, there were some arrests in March of the heads of the Montana militia which a lot of the Patriots look to as the leading militia group, next to Michigan's, in the United States. These entities were arrested on trumped-up charges and held on excessive bail for several weeks, I believe. And the last edition of the *Spotlight* said that they have been released, but I was wondering if perhaps that was the extent of the harassment of the militias which the rumor that was going around said would occur in March.

COSMIC AWARENESS:

This Awareness indicates that this appears to have been an action that was designed to intimidate and also an action to get feedback to the strength and will and resolve and the way the people or militias would respond to government interference in their affairs. All of the information from this March action is being put into computers to evaluate what kind of response from what kind of action can be expected.

Patriots Putting Liens on Properties of Judges

This Awareness indicates that the entities in Montana are also being targeted in part because of the same problem Schwasinger and the others involved in the Hildebrand claims have experienced, because they have put liens on judges for what they perceive to be the judges' abuse of constitutional powers. They perceive these judges as having done certain things that are not legally correct, and therefore, have put liens on their properties in order to force them into court.

This Awareness indicates that the judges have turned to the concept of "Obstruction of Justice" as a remedy for Patriots who put liens on their properties. This is the charge that was used against Schwasinger and others in the Patriot movement. It has been used in some of these cases whereby some of the entities have appealed these rulings by these judges and in some instances it has been ruled that the court's findings or the Judge's findings of Obstruction of Justice is wrong.

There is, for example, a rehearing of the Schwasinger case to determine whether the entity should be released from these charges of Obstruction of Justice or whether the entity's action was indeed an Obstruction of Justice. There are still hearings on these things occurring and it appears that certain entities in Montana have been singled out for this purpose.

The only entities involved in being arrested in the claims situation are entities who have put liens on judges who have ruled unfavorably to their interests and these liens have resulted in the judges charges of Obstruction of Justice. It is understandable that when a judge finds all of his property heavily liened because of some decision that he has made, he will do whatever is possible to free himself of those liens and thus the bringing of the charge of Obstruction of Justice would be a reasonable reaction of such a judge.

It is a question of whether the judge's behavior or reaction or the plaintiff who put the lien on the judge will have a greater benefit in a court of law. This Awareness indicates that some of these law cases are being held in common law courts and enforced by federal marshals. In some cases the courts have already ruled in favor of the people over the judge and the common law marshals have assured that the ruling of the courts are carried out properly.

It is a struggle behind the scenes that is part of a war between the patriots and the people who are attempting

who plan to overthrow the government. Of course they never were asked by the media why the militia is growing by tens of thousands almost monthly these days, or what exactly was the purpose of the U.S. military in inserting a microchip implant into the buttock of the accused bomber, a 'hero' of Bush's Operation Desert Storm. It would do Awareness people to seize upon this tragic situation to write the editors, make call-ins to the talk shows etc. and catalog some of the violations our 'government' has and is daily perpetrating against its citizens, whom they have sworn to protect, not wage war against. To name but a few: the daily atrocities made in the name of 'drug control'--kicking down doors in the middle of the night, often the doors of innocent senior citizens; confiscating their homes, cars, their assets; the same with the FDA who daily bust the clinics of natural healers, confiscate their records and assets and throw them into jail without bond, who daily are removing natural herbs from healthfood stores and anything else which has any real healing properties. Remind them of the IRS atrocities, ask them why their own media polls show that 85% of the people of America, when asked what they fear the most, is their own government! Ask why is this? The only reasons I have heard or read as to why the bomber and the militia people "hate" the government is because of the government forces attacking Randy Weaver and murdering his wife and child, and the attack and murders of the Branch Davidians in Waco. These two things are only a drop in the bucket as to why people are angry with this government. Too many people are still asleep. We need to give them more reasons than these two common examples of our eroding constitutional rights. But as long as no one asks the media to explain these daily violations to citizens by various government agencies, they will continue to talk about 'cults' and 'lunatic fringies'. In other words, when Ted Koppel or other talkline hosts asks "why are these people so angry with our beloved government that they would take up arms against it?"--call him up and tell him. Start making a list of the daily atrocities and ask him how come he never checks out such stories and discusses them on his program. One of the SPIRAL groups sent me a 2 page chain letter which lists many of these atrocities. I will try to get copies of this information as soon as possible. This is a rare opportunity to spread information that could really make the masses wake up and start asking important questions.

OKLA. UPDATE: NEW PROOF GOVERNMENT IS LYING

Also, since we started putting this particular newsletter together, there has been almost overwhelming evidence coming through the Internet and SPIRAL organizations, that the bombing in Oklahoma City was deliberately engineered by agents of the U.S. government in order to have an excuse to go after the Patriots and the militias of this country. There were two bombs that exploded and seismographs recorded them; a retired FBI agent came on the Mark Koernke radio program in Chicago and explained why it was impossible for the 'fertilizer bomb' to do all that damage; instead, it was a 'barometric' bomb, and the agent phoned the man who designed this bomb originally and he confirmed that this was the type of bomb that had to have been used in Oklahoma. After this information was released, the radio show was eliminated and the patriots and the ex FBI agent being interviewed now fear for their lives. If space permits I will try to get this information to you at the end of this newsletter. Today, Clinton went on the air attacking the patriots and militia, calling them "hate groups" and they must be dealt with. (Today is May 5th) and we are getting more info over the Internet that troops are already in movement in some states, that foreign troops are involved. Heavy things may have already occurred by time you get this newsletter, which is not scheduled to go out for another 9 days. Clinton is also trying to get the Internet under government control and sensorship. Who can blame him with all the damning information about this conspiracy that is coming over the Internet. If the information proves to be true, lets hope the public gets the truth this time, for the blood of Oklahoma City appears to be on the hands of this entity, along with Janet Reno and others.

to carry out the Rothschild agenda which is promoting^{13.} the New World Order and its various agencies that are attempting to usurp the Constitution and gaining control of the nation in order to bring it under the control of the Rothschild UN, or New World Order.

This Awareness indicates that when *It* says the name 'Rothschilds,' *It* refers not only to the Rothschilds, but to the family grouping that make up the 2000 or so people who are part of the control in the creation of the New World Order; these entities being the wealthy people of the world who control the banking system as used throughout the world.

The Rothschild's name is used because they appear to be the more prominent family, but there are other families also involved; a total of approximately 2000 super-wealthy people control the world's economy, are behind these actions of promoting the New World Order and trying to bring down any country that has a strong nationalism.

RUDE PEOPLE: WHY SO MANY?

HOW TO DEAL WITH THE PROBLEM?

QUESTION:

A question from F.K., Indianapolis, Indiana. He writes: "It seems that nowadays, the world is filled with rude entities. I have lived in three different apartments in two different areas of the country over the past 5 years. Invariably I end up with a neighbor who likes to blast his or her stereo at all hours of the night. The pizza delivery man leaves his car stereo at full volume while stopping to make deliveries in the neighborhood. People no longer use doorbells; they use car-horns instead.

"I know Awareness has previously mentioned something about this being due to over-population of the earth with souls from the planes of limbo now being incarnated. I have two questions about this behavior. First, are things really this bad everywhere?, or is there something about me that may be attracting this type of people to me? And second, how should I handle rude entities in such a way as to express love, yet not be victimized by their actions?"

COSMIC AWARENESS:

This Awareness indicates that there is nothing wrong with you that causes this behavior. This Awareness indicates that it is a matter of how you deal with the behavior for your own sake. It is unlikely that you will have much influence in trying to teach or help others to become more polite if they are basically rude. It is like trying to take some crude rock and make a diamond out of it. It is almost impossible in the short time you have with an entity to be of much influence.

This Awareness indicates however, you can, by example, give them a glimpse of human courtesy, so that if such entities are being rude to you, you can be polite to them, and not let yourself be agitated by the behavior of a barbarian. This Awareness indicates simply recognize the entities are barbaric in nature, and do not try to make them something they aren't.

Simply acknowledge that you are speaking with a demented person, or an untrained person or one who is rude, or you may even consider them a diamond in the rough, but don't expect the entity to behave any better, or do not feel you have an obligation to make them behave any better, and you will not feel quite so agitated by them.

This Awareness indicates that it appears there will be a very strong movement by these entities to involve Oriental countries in conflicts so that they can eventually be brought under greater control by the super-wealthy families.

Rothschild Forces Plan Wars & Disruptions in Orient

It is for this reason that Japan is being targeted and also China and Eastern Russia and some of the countries to the south of China are all being focused on as the new area for conflict and war to erupt so that the "divide and conquer" plan can be implemented by these super-wealthy money barons in order to bring about a new kind of super-power in the East that is dominated by these wealthy families.

This Awareness indicates that the Orient is so far too independent in terms of independent countries for the super-monetary powers to be comfortable with. They do not feel they have sufficient control over these Oriental countries.

This Awareness indicates that if you found a rattlesnake at your door, you would not expect it to become likened unto a pussy cat. You must recognize it for what it is, and do not become angry that it isn't a more friendly being, a more courteous being. It is what it is. Accepting that, you simply save yourself from being endangered by it.

Keep your distance. Be as graceful as you can, as you move away from its presence. This Awareness indicates if you can simply close the door without being attacked, that is one way to gracefully maneuver away from its presence. If you can close the conversation without being attacked, that is another way of moving out of harm's way.

Do not expect a rude person to be courteous in return. If they are courteous, consider yourself fortunate. This Awareness suggests the best thing to do in regard to rude people is to stay away from them. It gives them enough space that you do not offend them, to give them an excuse for being even more crude than they already are being.

This Awareness indicates that courtesy should not be presented with fear or with hostility, but simply matter-of-factly be courteous and leave. This Awareness indicates that some people perceive courtesy to be weakness. They perceive an entity who is polite to be weak and may attempt to assert themselves forcefully, thinking that, "This weak person will not resist!", will not cause them any problem.

It is for this reason that as you politely leave, you make sure that your departure is a strong movement away, and that you not be hesitant about leaving. This Awareness indicates that if you hesitate in your actions, they will see that also as a weakness and may yell at you: "Get back here!"

This Awareness indicates that you do not want to give them that reason to call you back; you simply make the proper move at the right time to leave. You may thank them for whatever it is you need to thank them for, and tell them you must go, and you may wish them good luck as you leave. These are ways of being relatively courteous and at the same time, making your strong departure.

This Awareness indicates that of course there is no guarantee that crude and rude people will allow you to depart courteously, and you may still find problems from such

people. It is best to avoid being around such people if possible. If you can have a barrier between yourself and them, that too is helpful, or if you are with others, that can be helpful.

This Awareness indicates that essentially, the quicker you can get away, or the more you can avoid close proximity to such people the better off you are. Do not feel it is your duty to educate such people to be courteous, for it is futile. If you lived with such a person over long years of time you might be able to have an influence in teaching them to be more courteous, but without living with such a person over long periods of time, any effort would simply create antagonism between yourself and that entity and could lead to serious problems.

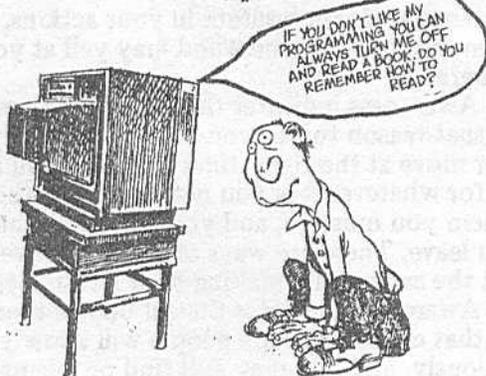

This Awareness indicates part of the cause is that the economic environment of the modern world today requires that both parents work, and the children in the family have very little parental guidance or influence. By the time the parents get home from work, they are too tired to spend much time with their children. Thus, the children learn their values from their peers, who in turn have learned their values from each other, or from television viewing or movies.

Unfortunately, most television and movie scripts are there to make money and the way to make money is to entertain the audience, and entertaining the audience generally means having defiant characters in your script, characters who defy authority, characters who break rules, characters who are socially retarded and lacking in values and children learn from this how to behave because they get so little guidance from their parents.

This Awareness indicates one child learns it from television, and passes on the same behavior to other children until they are all mimicking each other, saying crude things, rude things, speaking with street language that is of a vulgar nature, and such entities gradually grow into adults, so that their behavior now influences their children and it becomes common for both adults and children to be less refined than were their parents or their grandparents.

The rudeness develops largely from lack of proper guidance, and the spread of rude behavior from one entity to another, passes on to the children, so that the children think this is the proper way to be and they become rude to each other, and the parents are too tired from too much economic trouble and job stress to deal with their rude children.

Most parents, rather than trying to help their children, simply seek to get affection from their children. Because they are so much in need of strokes and love, they do try to take it from their children. Rather than giving their children the love they need, they seek to take it from the children, and thus, the children are again given more reason to be rude and hostile, because they cannot really get much love from their parents.

FOLLOW-UP QUESTION

Awareness, if seems in the past couple of years there's been almost a conspiracy, or an organized effort to change the role-model image for the kids, via television. For example, one of the most popular shows is a thing called *Married With Children*, where rudeness, for example, is usually featured, and on the MTV music channel, which all the teenagers evidently watch, they have these cartoon characters called Beavis and Butt head, who are probably the epitome of rudeness and crudeness.

Is there something going on here, that this type of thing is now being put in the face of TV watchers, particularly teenagers, to influence them perhaps?

COSMIC AWARENESS:

This Awareness indicates it started more or less with the *Roseanne* show and has spread from that to other shows, wherein entities insult one another, all in fun. It is as though the insults are seen as really fun in putting others down. It is much like children in the early grades of school, who join together to make fun of one of their classmates and in making fun, they all have a great time, except for the one who is put down and insulted.

This Awareness indicates you can imagine walking into a group of such children, and saying, "Don't make fun of this little girl! How would you like to have people making fun of you?", and the children all turn and say, "Can't you understand? We're just having a good time! We're just having fun with her! Don't you have a sense of humor?"

And you can see that these entities have it all figured out. That harming another, if it's fun, is all right, and thus when it is portrayed on television and entities laugh when someone is insulted, they begin to take on similar values in thinking that it is all right to insult others.

Usually, in these television programs, the father is the butt of these jokes and is made to appear totally inept and basically stupid, and this is great fun. It is really fun for people to bring down the authority figure, and make them eat crow or make them into the butt of their insults.

Question Authority is Still Valid

This Awareness indicates that it is a way of changing the values of a society so that authority figures are not given respect and this began at a time in the Sixties when entities wore buttons that said: "Question Authority!" Questioning authority had a reason at the time; there was good reason to question authority. There is still good reason to question authority. There is no harm in questioning authority, particularly when authority controls the lives of others.

You should be able to question whether authority has the right to control your life in a certain way. This Awareness indicates however, to take it to such an extreme so as to ridicule authority for no reason, and to bring down tradition for no reason and to rebel against anything that is meaningful in society, or which seems to have purpose, just to be rebellious, is of little value, and to do so creates a society that is chaotic in nature.

The glue that holds society together can be torn apart, so that nothing is valued, so that values are meaningless. One entity tramples on the values of another as a form of rebellion. It is the same thing as an entity stomping on authority, or stomping on someone else's dreams and values. What is the reason for such behavior?

This Awareness indicates that those who perpetuate this type of behavior are simply ungluing society's

values, taking away things that are meaningful from society, and letting the thoughtless people of society believe that they have the right to destroy art, value, imported things, properties, systems that are set up to serve the people, and if these entities begin to create chaos in society, it creates a situation wherein those who promoted the chaotic behavior can now step in and guide the movement of the chaos in a new direction which they wish to establish.

They can make things so difficult for entities that entities will cry out for guidance, will cry out for authorities to come and help them put Humpty Dumpty back together again. This Awareness indicates that when they do show up to try to bring order, the order may not be that which existed before. It may be a totally new world order, which is the desired purpose and outcome of those who manipulated the old society to collapse, so that it could be recreated into the new society of their intention and purpose.

Conspiracy of Rudeness Originates From Tavistock

This Awareness indicates that these things are all seen as well thought out psychological forms of manipulation, much of which comes out of the Tavistock Institute from Great Britain which has many agencies in the United States and in other places throughout the world. Much of the Pentagon, much of various agencies in the United States, have been influenced or given programs from Tavistock for the purpose of manipulating civilizations and masses of people to behave in certain ways and the influence has been having its effect on the generations that are now growing toward adulthood.

Your society is being manipulated and trained psychologically, as well as in terms of values, to become readily manipulated into the programs for the New World Order. When younger people have no respect for the older people, they are easily manipulated by heroes, or people who appear to side with them, or to join with them and work them into a frenzy of excitement.

This Awareness indicates that this is the way the Red Guards worked China in moving young people into certain frenzies of expression. It is also a way whereby entities in this country could be moved into frenzied expression, which is desired by those agents of the New World Order.

Depravity Runs Amok on MTV Music Channel Kids Watch

This Awareness indicates that parents should be very careful about what their children watch on television. The MTV channel began with the showing of video music, and ten years ago it was essentially harmless and entertaining to the children. Today, things that pass as entertainment are actually corruption of the children. There is much on MTV that most parents would be shocked at seeing, let alone wanting their children to watch.

This Awareness indicates there is an influence that promotes suicide through various songs. There are certain rap songs on MTV that promote the killing of girlfriends or teachers or others by the rap singers. There are many songs that are depraved, which these young people watch, that most parents would not allow their children to see or to have in their record collection, if they knew what was being said, yet they do not watch MTV themselves so they do not stop the children from watching, thinking it is still a channel for children who like popular songs.

This Awareness indicates that parents would be wise to watch and listen carefully to the words of some of these songs aimed at children, or to simply have your cable company cut off the MTV from your television.

ED's Note: In regard to rudeness, I had a follow-up question about this, but it was so indelicate I did not know how to present it to Awareness without being crude. However, most of you readers can handle a little indelicate subject, I am sure, so here is the situation, and you must decide how you would have handled it.

A few years ago I bought season tickets to Seattle Opera and one night I took Vikki T. to see *La Boheme*, Puccini's romantic and lyrical masterpiece about struggling poets and artists in the ghetto of Paris. By the middle of the first act, I was really into the story and the music, enjoying it immensely, when suddenly my nose started to twitch, followed by an intense burning sensation. Then my eyes started to water and I found myself shifting uncomfortably in my seat. It was then that I realized the unthinkable had occurred; someone had just passed some really vile smelling wind right there in the Seattle's staid old opera house. As the stench rolled over what seemed several rows of seats, then hovering directly over the section we were seated in, I tried very hard to stare innocently at the stage and not even sneak a peak at Vikki sitting next to me, who I knew would react if she thought that I had anything to do with the incredible rancidity which was now all but overwhelming. But it was by then too late, for Vikki too had caught a whiff, actually more than a whiff, and just as I felt her foot kick me hard in the leg, out of the corner of my eye I saw her turning to look at me, her eyes narrowed and an expression of disbelief that almost bordered on horror. I looked at her and opened my hands in a gesture that said, "Don't look at me. I didn't do it." (You can't talk during an opera or the ushers will kick you out, so all I could do was make a helpless gesture). By then the fume was like a dark cloud, hovering over our heads and moving slowly down over our faces and creeping painfully into our noses like an invading parasite. By then I had broken into a sweat and starting to gag from the now overwhelming stink. I began to wonder if I was passing out and whether Vikki should go for help. But Vikki's eyes were streaming and blinking wildly and it seemed she was starting to stand up from her seat, while on stage Mimi was telling Rodolfo her touching story of her life in a soaring aria of incredible beauty. The audience in the opera house was taking a bath in this melodious music, all except a small circle of entities surrounding Vikki and myself: we were being subjected to a bath that stank so badly it was almost sticky like brown paint or something. Vikki looked at me and I looked at her, and I knew then she just realized it was not me after all who had released that almost lethal gas, for we suddenly both recognized the stench. It was a meat fart! No mistake about it. The audacity of it all; someone had really and truly released a meat fart in the opera house, and during a love scene in *La Boheme*, and gotten away with it. It had been a "sneaker", one of those silent killers that innocent looking entities sometimes release, like a thief in the night who creeps intentionally into your life to do mischief. But who was the culprit? It wasn't me this time, for no other reason than I was a vegetarian at the time. Who was the guilty party? About 40 entities in a 10 foot radius must have been wondering the same thing, for by now everyone seemed to be looking at everyone else around them; one man was unabashedly holding his nose as his flaming eyes turned to those around him. And then I spotted the culprit! It was the woman sitting in the row in front of me, and just in front of Vikki. She was a very stout woman and I knew it was her because she was the only person who was staring intently at the opera while all those around her were writhing painfully in their seats. She was wearing a long white gown with some kind of necklace that caught the light; the coat behind her in her seat was some kind of fur. As I rubbed my streaming eyes and stared at the back of her head, she must have somehow picked up that I was on to her despicable little secret; she knew that I knew that she was the one who released that awful nose-burning stench, for she turned her head slightly and I saw her glance at me through the corner of her left eye, almost to say tauntingly: "Prove it!" Mercifully, the first act came to an end, and we all staggered out of the opera house, gasping for air. I noticed the stout lady waddling up the incline just ahead of us and I prayed she was heading to the Ladies' room where hopefully she would finish the job in style. I had resisted the impulse as we left our seats to lean over and examine the seat the entity had just vacated, namely because the firm hand of Vikki T, noting my intent, pulled me rudely back by the scruff of my neck.

16. DOES OUR SUN EXIST IN OTHER DIMENSIONS ALSO?

QUESTION: (JD):

Yesterday Awareness spoke of the time in 1972 in which the sun was in danger of exploding out as far as Jupiter. At the time, was this only a phenomenon at the 3rd dimensional level, or does the sun exist in other dimensions as well? Further, has the solar system planets in other dimensions as well as the third, which are invisible to us with our instruments? And were there other third-dimensional entities who would have been affected by this in our solar system? And would those of other dimensions within our solar system who were in range have been affected by this in any way had it happened?

COSMIC AWARENESS:

This Awareness indicates that this effect could have spilled over into other dimensions; that this is much likened unto your own personal physical body being affected in such a way as to affect your astral body. There are for planets astral bodies in other levels of dimensions that exist simultaneously with the physical body of the planet.

This Awareness indicates that when things occur on one dimension, they have a kind of reflective occurrence on another dimension, although this is not always devastating in one dimension, while in another dimension it can be very devastating. In other words, the physical body can be destroyed on one dimension, but in the astral plane the physical body may remain intact.

ARE THERE OTHER PLANETS NOT THIRD DIMENSIONAL?

QUESTION: (JD):

Will you tell us whether there are other planets in our solar system that are not third dimensional?

COSMIC AWARENESS:

This is in the affirmative, however, you must understand that in 'our solar system' refers to things of this third dimension, and when you speak of other planets that are in other dimensions in the solar system, this would refer to other planets in another dimension that inhabit the apparent space of your 3rd dimensional solar system.

It is likened unto saying "There is sound going through this cube of space; there is also heat going through this cube of space. If sound is shut off, does it affect the heat that moves through this cube of space?" This Awareness indicates that obviously it does not have much effect on the heat in the cube of space.

Likewise, if there are planets in your space in which the solar system is set, and something occurs to the solar system, it does not necessarily effect the planets on another dimension inhabiting that same space.

This Awareness indicates it is also parallel to say that the human body inhabits a certain time and space, but inside that human body is the soul, which also inhabits that same time and space. If something happens to the soul, such as a movement out of body to another place or to the astral body, in which the astral body travels, or if instead something happens to the physical body in that time and space, what effect does it have on the remaining body, the soul or the astral body?

Just because they are in the same time and space does not necessarily mean that they are affected by some influence acting on one of the bodies. The other bodies may still be totally independent of any influence or intrusion into that time and space because they are in a

After fresh air we returned to our seats for the second act; I could still catch a whisper of the fetid cloud she had vented 25 minutes earlier. I was still amazed that she had gotten away with it; she had actually lit a fart in the opera house, a silent seep so deadly I had almost vomited from the stench. Presently, the stout lady with the fur coat waddled stony-faced down the aisle and took her seat. A picture of innocence, she did not look at anyone, but stared discreetly at the stage. As the curtain rose for the second act, I noticed that the 2 people that had been sitting next to her on her left, were now absent, as were two others who had been sitting directly in front of her. I was vindicated, Vikki had told me during the intermission, and she too had the culprit fingered by now. There was nothing we could do with this rude and inconsiderate overly-stout and rotund female entity who sat in front of us. I had considered telling the usher, hoping he might eject her. But what would I tell him? "Hey, there's a fat lady with diamonds venting farts out there!" No, I couldn't do it. I just sat there and tried to bring down some White Light over the entity in hopes she did not repeat the offensive and vile deed. And she didn't! However, near the end of the third act, she released another one. It too was a sneaker but not quite as painful as the first. (I wondered if I still had any hairs left in my nose after that first volley). I made a gesture as I clenched my teeth, like I was going to whack her in the back of the head, but Vikki touched my arm, restraining the impulse. We suffered in silence the rest of the opera and I took a good cleansing shower when I got home, for the fetid burning rubber smell had permeated my hair.

My question to Awareness would have been: Here was a rude and inconsiderate entity who laid a gaseous violation on a lot of entities and she got away with it. How should we have dealt with this situation so valuable lessons could be learned by all?

There is a book called "Fart Proudly"--Writings of Benjamin Franklin You Never Read in School", available from Barnes & Noble, wherein this Founding Father of our country wrote the following, suggesting a remedy for such redolent situation:

"It is universally well known, that in digesting our common food, there is created or produced in the bowels of human creatures, a great quantity of wind. That the permitting this air to escape and mix with the atmosphere, is usually offensive to the company, from the fetid smell that accompanies it. That all well-bred people therefore, to avoid giving such offence, forcibly restrain the efforts of nature to discharge that wind. Were it not for the odiously offensive smell accompanying such escapes, polite people would probably be under no more restraint in discharging such wind in company, than they are in spitting, or in blowing their noses. My prize question therefore should be, to discover some drug wholesome and not disagreeable, to be mixed with our common food, or sauces, that shall render the natural discharges of wind from our bodies, not only inoffensive, but agreeable as perfumes. If it be converted to a perfume: for the pleasures of one sense being little inferior to those of another, instead of pleasing the sight he might delight the smell of those about him, and make numbers happy, which to a benevolent mind must afford infinite satisfaction."

Franklin had a good idea, but after 200 years no one to my knowledge has come up with a product that will do the job. As we walked toward the car, I asked Vikki what she thought about the event. There was a long pause, then unsmiling, she turned to me and said: "Well, Avaton, if she'd been sitting in church, she'd probably be sitting alone in her own pew." I did not respond to the pun; I didn't want to get her going. We passed a Washington Natural Gas truck parked at the curb; on its side emblazoned in huge letters were the words: "Gas Makes Sense." I shrugged and walked on without comment.

WERE OTHER PLANETS CONCERNED FOR EARTH?

FOLLOW-UP QUESTION (JD):

Then in that event, I would ask whether humans were the only concern or whether there were other sentient beings?

COSMIC AWARENESS:

This Awareness indicates that it does appear there were a number of concerns; the concern for humans was mostly due to the fact of Sirians having fostered humans or having been a kind of parent to humans and because of their emotional ties and dedications to humans, the Sirians were quite forceful in trying to preserve humanity.

Other entities in the universe, other groups, some did not care one way or the other. Others thought that it was hopeless and therefore, did not wish to stay around and watch the demise of humanity. Others felt that "If there is a way, do it, if not, let's just write it off."

This Awareness indicates that was mostly the Sirians who wanted humans to be saved, and also there were many who saw the potential for the destruction of the solar system as a potential for disturbance in other dimensions, for these kind of things have happened before, and *do* create a disturbance. It could be thought of as likened unto whether people are concerned about the nuking of some city because they care about the people or because they fear it might cause an earthquake that would affect their area.

This Awareness indicates therefore, there were various aspects of the situation that creates different concerns for different entities.

IS THE DIMENSIONAL SHIFT REALLY 'HEAVEN' & 'HELL'?

QUESTION:

A question from K.G., Chicago, Illinois. He asks: "Am I correct to think of the coming dimensional shift as being akin to the evolutionary path of humanity dividing, with some people ascending into higher vibratory levels which one might even call a "heavenly realm" and others, through love of self, i.e., feeding the ego or being totally selfish and self-involved descending into a more grave vibration, entering a descending spiral that is akin to a "hell"?"

Curiously, this seems very relative to descriptions in many religious texts and would actually be applicable to Christian teachings, even though I am not aware of any church currently preaching exactly along these lines, i.e., Awareness mentioned that it would be a million or more years before those who descend in consciousness would again be able to rise up to higher levels. Surely this would be the "eternity" of hell mentioned by seers who are mentioned in Biblical texts. Could Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates that this evaluation is relatively accurate; the area of uncertainty is related to the million year figure. This Awareness indicates that it is really a matter of how long it would take an entity to evolve into a higher frequency in order to escape from a lower vibration, when those lower vibrations tend to be entrapments, or if an entity is surrounded by low vibration experiences and circumstances, it is very difficult without some higher frequency being introduced, for entities to raise themselves out of that lower frequency into a higher frequency.

"Hell, yes!"

This Awareness suggests for example, that the earth has had help from higher frequencies through the visitation and teachings of gods or masters, spiritual teachers and masters, for many thousands of years, and even so, it has been very slow for entities to evolve spiritually to the present stage. Were this present opportunity for entities to move into higher frequencies with the photon belt and its influence of Divine Light; were this to occur in a short time, the evolution of entities on this plane could be increased considerably and very quickly, to bring them into higher frequencies very soon.

This Awareness indicates that were this not to be part of the future circumstances for any foreseeable time in the future, human evolution would remain very much static. This Awareness indicates that in other words, those entities who do not take advantage of this opportunity to evolve spiritually may not have such opportunities for a long time to come.

WHICH DENSITY IS BEST FOR ATTAINING ENLIGHTENMENT?

("Frequencies and Densities" Are Defined)

QUESTION:

N.M. in New York City, asks: "Would it be easier to "attain enlightenment" from 4th or 5th density than from 3rd, or from 6th and 7th for that matter?"

COSMIC AWARENESS:

This Awareness wishes to suggest that 4th and 5th density would be enlightenment compared to 3rd, and that as entities move into these higher densities, as they adjust to the experiences of the higher densities, they will be attaining enlightenment. This Awareness indicates that the term "densities" as pertaining to these movements into different dimensions means different things to different entities, but to this Awareness it is the same thing as "frequencies" and when you speak of "higher densities" this Awareness interprets this as "higher frequencies."

This Awareness indicates that if you have a different meaning for the term "density" in this regard, then the meaning is a semantic problem that needs to be clarified. This Awareness indicates that there are many entities who refer to higher and lower densities; this is a rather recent way of speaking of these things, and for the most part, this is perceived as referring to lower and higher frequencies.

This Awareness uses the term "frequencies" in an electronic sense, because many entities are familiar with electronic frequencies. The higher frequencies are that which moves up the electromagnetic scale through sound, sight, color, into various radiation; gamma and higher frequencies, into that which this Awareness describes as levels of consciousness. The higher levels being levels of consciousness.

This Awareness indicates that *It* sees these as defining dimensions, defining what are termed "levels" and defining different degrees of enlightenment. This Awareness indicates the higher levels of vibration are frequencies of light. The lower levels are frequencies of sound, and therefore, if sound levels are moved into light levels, there is an enlightenment of the frequencies and the terminology of light in this manner, on this level of the electromagnetic scale should continue into higher levels wherein frequencies that move into higher levels above light may still be termed "spiritual enlightenment."

Therefore, with this semantic clarification of the use of words, this Awareness assumes there is some mutual understanding of the terms behind this question so that entities wishing to understand this Awareness's message regarding density can interpret that "densities", "4th and 5th densities," "6th and 7th densities," is, according to the terminology used by this Awareness, speaking of frequencies on the electromagnetic scale.

WHAT IS THE 4TH AND 5TH DIMENSIONS ?

(More on the Photon Belt Energies)

QUESTION:

M.B., in East Hampton, Connecticut, asks: "Around 2012 or 2013, are we going to evolve into the 4th or 5th dimension? Some people say 4th dimension, and some say 5th. Would Awareness please clarify?"

COSMIC AWARENESS:

This Awareness indicates that this would be the 5th dimension. Entities are already frequently entering in and out of the 4th dimension. The 4th dimension has been described as imagination. It is a dimension in which entities can move; when entities go to sleep they enter a 4th dimensional stage. When entities awaken, they move back into a three-dimensional reality.

When entities begin to fantasize they move into 4th dimensional energies. This Awareness indicates that the 5th dimensional shift is that which is to occur when the photon light energies have had full affect on the human body and raise the human body to that which will be classified or called "light-beingness" or the beingness of an entity who is composed of light.

This Awareness indicates that to clarify further, your body, even at present time is composed of light, although most entities do not understand this or think this to be true. But the atoms, and all the particles that make up the atoms are basically energies of light. But because there is a denseness involved, entities call it matter, and the denseness creates what appears to be a time-line with finite qualities that are related to static or animated energies which entities call life and death, or dead matter and living matter.

This Awareness indicates that this is the 3rd dimensional interpretation or the energies of reality. In the higher

18. dimension the mind would see the body as being light energy, and would perceive this light energy as being immortal, and in that perception of immortality, the light body, or light energy body would prevail over the so-called death of 3rd dimensional reality.

3rd dimensional perception in other words, would cease to be, and immortality and 5th dimensional perception would take its place. The 4th dimension is a kind of bridge between, wherein entities entering into the 4th dimension can accept either 3rd or 5th dimensional perception. This Awareness indicates that more entities will experience the 4th dimension in a greater degree of permanence or contingency during the period between the null zone and the arrival in the Sirian vicinity in 2012 or 2013.

In other words, during the trek or travel to that place in the years that follow the null-zone experience, while in the photon belt, entities will be more frequently thinking and operating from a 4th dimensional experience. Thus, it will be more likened unto a sleeping zone or sleeping experience so that time will go rather quickly.

There will still be some degree of 3rd dimensional perception, but more 4th and 5th dimensional perception will begin to increase as time passes toward that 2012 and 2013 year.

ASTROLOGY AND THE DENSITY CHANGE

QUESTION:

A question from M.M., New York City: "Regarding this whole issue of transmutation to 4th density, Awareness, would the natal astrological chart transits, progressions, and the solar return chart have any influence of any kind? I mean in 4th and 5th densities."

COSMIC AWARENESS:

This Awareness indicates there would be some influences, but there will be other influences affecting these as entities move into these higher densities. This Awareness indicates in other words, it is not a wiping out of underlying influences of an astrological chart, but more likened unto covering that influence with other influences, a layer of new influences operating over the underlying influences. Both would be present.

This Awareness indicates in other words, an entity with a Mars square Uranus on earth in 3rd dimension, might have this aspect touched off occasionally, creating excessive rebellion or temper or other problems, but when moved into a higher density or frequency, the energies would not be gone, they would simply be covered by other energies, so that the strength of the negativity would be diminished.

It is likened unto two people trying to fight with a blanket over them, or a net thrown over them. It makes the fighting more difficult. The higher energies placed upon this kind of astrological transit would make the extremism of the aspect very much diminished. The entities would not be so extreme in their rebelliousness, in their conflict. The energies of the underlying astrological influences would be much more subtle in expression.

"Are there gaseous clouds around Uranus?"

QUESTION:

Some questions relating to the reading of yesterday. This first one from M.M. in New York City. He writes: "I read *You Are Becoming a Galactic Human* and it's a book that leaves you with a great sense of hope and inspiration. I'm now gathering together all of the New Age thought at the present moment, and I want to ask Awareness: Would it be correct to assume that from 1995 to 2001, is the shift from 3rd Density to 4th Density and from 2002 to 2012 is the shift from 4th Density to 5th Density, with the actual entry into the photon belt sometime during 1995 or 1996? Would this be affirmative? In other words, the shift from 3rd to 4th would be a process of about 7 years, and the shift from 4th to 5th would be a process of about 11 years, with the actual change into 4th Density during 2012?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be generally correct. The timing is not precise; that is something that will occur according to certain necessities understood by higher beings, but which are not to be given precisely to individuals.

HOW COME SOME PEOPLE HAVE SUCH AN EASY LIFE?

(Why Some Entities Have Affairs)

QUESTION:

A question from F.K. in Indiana. He writes: "It seems that some entities get through their entire life without major problems. They do well in school, get married, and raise a family, and may never face many of the trials and tribulations that others face. Will Awareness comment on the karma of such an entity?"

COSMIC AWARENESS:

This Awareness indicates that such entities generally are riding on good karma that they have acquired from previous lifetime experiences, or which they developed in childhood through harmonious environment and value systems that allow them to remain satisfied with normal living experiences.

This Awareness indicates that there are some entities who simply cannot tolerate the good life and would become bored and want some kind of excitement or seek to have more than they are given in their normal life. Some entities having a perfect home, family, marriage, and loving spouse, will be unsatisfied and their karma of dissatisfaction causes them to reach out for more.

Thus, they may engage in an affair with someone other than their spouse, or leave their family, abandoning them and going off with someone else and thus create a karmic situation that may lead them into a much more confused and unpleasant life, wherein they not only create unpleasantness for their family, but also eventually for themselves.

This Awareness indicates yet, there are still others who would see an ordinary occupation or career as being unsatisfactory and seek to do something wherein they could have greater wealth sooner, or have a much better life without working for it, and thus become involved in some kind of shady business activity and end up eventually in jail, imprisoned, or in a situation that carries enormously negative karmic results.

This Awareness indicates that some people are more balanced and willing to settle for reasonable rewards in life, whereas others want something enormously

exciting, adventurous or feel excessive greed or immense hostility that create karmic situations, when they could have had a reasonably harmonious life, had they not had these extreme emotional drives.

This Awareness indicates the entity who grew up in an harmonious environment might settle for harmonious environments in his or her later years, but the entity who grew up in a hostile environment,--an alcoholic and abusive father for example, might also retain hostility from the abusiveness received as a child, so that the hostility in his or her later experiences surfaces to disrupt the normal harmony that is given, and in disrupting the normal harmony, creates a situation that causes a disintegration of the entity's family, so that the entity loses that harmonious opportunity and moves into a different situation.

The entity may energize further hostility because of the loss of the harmonious situation, and with the further hostility the entity is then unable to regain a normal harmonious circumstance for his or her life and the entity goes from one situation to a worse situation, and may be still worsening with each turn of events.

This Awareness indicates that likewise, some entities need excitement. They have learned in their childhood to become addicted to adrenalin and their excitement of the adrenalin rush becomes important to their existence. They do not feel important or alive if they are not in conflict or in some adventurous excitement, and therefore, harmonious situations become deadly boring to them. They want out. They want excitement. They want adventure. It is likened unto a narcotic. They are addicted to adrenalin rushes, and thus, they get into fights or they get into situations where they must run, must flee, or must fight for survival.

Some entities live their life seeking such excitement and do not feel they are truly alive if they are not in some kind of adrenalin situation. This Awareness indicates that such people are karmically out of balance, but they enjoy that imbalance and it is as though they are addicted to a drug that causes their life to be chaotic at times, and that becomes equivalent to a karmic punishment in their lifetime.

This Awareness indicates that to put it another way, your emotional imbalances and your values or your imbalances of values can be equivalent to your karma. It can develop from childhood, or it can carry over from previous lifetimes so that even as a young baby, your temper tantrums or your need for excitement may be not caused by childhood experiences, but may be brought over from past-life experiences, and developed gradually in this life until they become obsessive in nature, causing you to act out your karma from the previous lifetime.

Most Karma Caused by Deep Emotions & Values

This Awareness indicates that as a general rule, karma is not caused by thoughts, but by emotions and values that are buried deep in the subconscious, and these emotions and values often result in thoughts that are developed out of these emotions and values, so that an entity's concepts and beliefs may actually reflect the karmic emotions and values of one's subconscious.

This Awareness indicates in other words, your philosophy is not necessarily the cause of your karma, but may be the result of your karma which is based on emotional and value imbalances or harmonies. This Awareness indicates that likewise, a healthy philosophy can help to bring your emotional and value karma circumstances into better balance. Thus, if you have a proper philosophy,

you may to some extent balance your karma, thus improving your karma through philosophical concepts.

This Awareness wishes to put this in another way: If you have a good healthy philosophy, it can help to bring about improved karma. It can help to bring about improved karma. Your karma can be improved by your healthy philosophy.

GETTING ALL THOSE ALIENS STRAIGHT
(More on Deros, Ahriman & the Asuras)

3/1994

QUESTION:

Another question from M.M. in New York: "Awareness, would it be correct to assume that the Reptilians control the Dracos, and that the Giza force is an outpost of the Reptilians on earth and that the Dracos use the Reticuli as mercenaries?"

COSMIC AWARENESS:

This Awareness wishes to clarify one area. Essentially, the Dracos and the Reptilians are the same. The Reptilians are from Draco; they are the Dragon People; they are those of the past who have been referred to as the Dragon People. This Awareness indicates the Orion Forces tend to control the Draconian or Reptilian people when it comes to monetary control; they have a much better grasp of the money system than do the Draconians.

Therefore, the Orion Forces have through monetary controls, a certain amount of control over the Reptilian or Draconian forces. The Draconians have influence over the Zeta Reticuli groups, the small Greys, in that they hire them and pay them for certain actions. They set them up on earth through payment, have them come to earth to create underground bases and camps which were later used by the Reptoid or Reptilian or Draconian groups.

This Awareness indicates that the so-called Asuras and the so-called Deros are also related to these; the Deros being an ancient group of origin from the Zeta Reticuli, who were abandoned on earth underground in caves and in tunnels underground for thousands of years who have, over these thousands of years, become quite demented and without scruples or morals of any kind.

This Awareness indicates the current Zeta Reticuli realize these entities are essentially leftovers from their ancestors, but do not care for them, do not get along with these Deros, and do not want to have anything to do with them. In some cases there is outright hostility; in some cases there is silent tolerance with a certain kind of contempt for these Deros. The Deros, in turn, have a contempt for the Zeta Reticuli. They both recognize they have a common ancestor.

This Awareness indicates the Asuras appear to be connected in part with those from Orion and also from certain connections with Draconians or the Draco or Reptoid groups, but these Asuras tend to be an off-breed group, neither pure Orion nor pure Reptoid, more of a combination who have been around for great periods of time, but separate in their race or species, so that they cannot be classed as Reptoid or Orion in nature. They are more of a cross-breed between these two.

There is a high intelligence along with a very low level of compassion or any redeeming behavioral qualities. They are very much inclined toward hostility and destruction in their attitudes toward anything of a human nature. They also see themselves as being of high worth in comparison to any other species.

They see themselves as having the right to use any other species as they wish and do not see any other species as having any other redeeming value, except in that they can be used for certain things. The Asuras are essentially to the Dark Force of Ahriman, that same hierarchy level as the angels would be to the Divine Forces.

This Awareness indicates that the Asuras are the arch-angels of darkness; they reside mostly on non-physical levels in dimension that are not tangible to the human senses.

FOLLOW-UP QUESTION:

At last reports, the Asuras were whisked away by the Pleiadians, I believe it was, and isolated.

COSMIC AWARENESS:

This Awareness indicates this is in reference to those entities that were in the pyramid; these being of a particular group of entities. This Awareness indicates this being not entirely or exclusively Asuras. This Awareness indicates that these entities who had set up residence under the great pyramid were of a somewhat different name in regard to what they called themselves, although it does appear that many of these entities also could be classed as Asuras.

The name is not seen as to what they were called in terms of the label of those who were beneath the pyramid. This Awareness indicates that it does appear that most of those entities were of the Asura species, but they used a different name for their group, and it was that group that was removed by the Pleiadians. It did not imply that all Asura-types were taken by the Pleiadians.

FOLLOW-UP QUESTION:

That was called the Giza group?

COSMIC AWARENESS:

This is in the affirmative.

FOLLOW-UP QUESTION:

Well, my question basically was: Are these entities still confined so they can't create more mischief?

COSMIC AWARENESS:

In terms of the Giza group, this is in the affirmative. Much has been changing on the earth plane since these entities were removed. The changes have been for the better, even though entities may not realize the changes that have been occurring. The overall potential for good on earth has increased greatly.

Part 1, 4/26, INTELLIGENCE REPORT on the Oklahoma City Bombing

JOHN STADTMILLER:

Mark, without further ado, I think we'll bring on Mr. Ken L. Gunderson. Mr. Gunderson, are you there?

KEN GUNDERSON:

Yes, I am.

JOHN STADTMILLER:

Okay. Mr. Gunderson, I'm sitting here and I'm reading what you've been involved in -- what you've been doing since you retired from the F.B.I. You have quite a record of service, sir:

senior special agent for Los Angeles from 1977 to 1979;

special agent-in-charge of Memphis, Tennessee from 1973 to 1977;

in Dallas, in 1973, chief inspector;

from 1965 to 1973, you were assistant special agent-in-charge of New Haven, Connecticut and Philadelphia, Pennsylvania;

KEN GUNDERSON:

I retired in 1979. I was in the F.B.I. from 1950 to 1979. And I was in Washington, D.C. in the '60s, as a supervisor. And then I became a chief inspector in the early '70s. And from there I went to Memphis, Dallas and Los Angeles, where I headed up those three offices.

JOHN STADTMILLER:

Okay. Very good. Now, I understand that you can shed some light on the incident [bombing] that happened in Oklahoma City.

KEN GUNDERSON:

Well, several days ago, I received a copy of the seismogram, which is from the University of Oklahoma Geological Department, Norman, Oklahoma. This seismogram shows that there were two surface waves in the seismogram that was being monitored by the University of Oklahoma. Of course, they normally monitor for earthquakes.

But I called this morning and talked to Dr. Ken Luza. I asked him to read and interpret this seismogram for me. He told me that there were two surface waves on the morning of April the 19th. One was at 9:02 A.M. and 13 seconds, and the other was at 9:02 A.M. and 23 seconds, ten milliseconds apart.

[JD: Actually, ten seconds apart.]

I asked him what that means, and he said that this indicates that there were two detonations of a bomb, not one, as our Government would like to have you believe.

So, with that, I did a more little research, through some of my sources and contacts, and I came up with what I think is probably the bomb that was used. At least it appears to have been the bomb, based on my research and my contacts.

It was not a fertilizer bomb [as the U.S. Government states]. There are too many reasons why it was not a fertilizer bomb. The [actual] bomb is called an "electro-hydrodynamic gaseous fuel device" -- a barometric bomb. Now what that does ... it's similar to the Army Blue-82 bomb, which is called the "Daisy Cutter". The primary detonation sets up a cold [coal?] cloud, a chemical cloud, which is energized with the electrostatic voltage, and the second detonation produces an enhanced explosion due to electrostatic microfronts.

I called the person (whom I happen to know) who developed this bomb, and I relayed the information from the seismogram to him, and pointed out to him that there were ten milliseconds [or is it "seconds"? between explosions]. And he says that he is confident that that is the bomb that he invented, or that he developed.

Now, the bomb has a signature [such] that barometric pressure increases so rapidly and dramatically that it blows out the windows in buildings within a two-to-three-block radius. And, believe it or not, the bomb is the size of a pineapple.

Now, the reason that I do not believe, nor do my two technicians believe (and I talked to two individuals on this) that this was a fertilizer bomb is because there is not enough "breisance" in an explosion of fertilizer to cause the shock wave that destroyed that building.

JOHN STADTMILLER:

>From what I understand, with these blasts that we're talking about, we're actually talking about frequencies. And with the [Government-declared] fertilizer bomb [story], they [the Government] keep increasing the size of the bomb. It started out being a thousand to fifteen hundred pounds.

And now they're up to two tons of it. But, even still, that type of blasting device is a low-yield, low-frequency [device], not capable of doing the type of damage that was witnessed upon that Federal Building.

KEN GUNDERSON:

You said it before I did, and that's exactly what I was going to say next. And that is exactly what was said by the technicians whom I had talked to.

(to be continued)

I urge you to post the episodes of this ongoing series to other newsgroups, computer networks, computer bulletin boards and computer mailing lists. It is also important to post hardcopies on the bulletin boards of campuses, churches, supermarkets, laundromats, etc. -- any place where this vital information may be read by concerned citizens. Our people's need for Paul Reveres and Ben Franklins is as urgent today as it was 220 years ago.

Subj: Oklahoma Bomb Blast Thoughts
Date: 95-05-02 12:12:52 EDT

Just a few thoughts related to the bomb blast that was presented to me recently that I would like to share and get further comments on. (It was also suggested I watch the movie "Clear and Present Danger" for more insight on what may have occurred behind the scenes.)

- 1) The hole made by the bomb was about 8 ft. deep, and 30 feet wide. It was not possible for this amount of damage to have been caused by the fertilizer bomb alone.
- 2) The pillars supporting the building were each 3 ft. x 3 ft. made with reinforced concrete. The blast(s) took out 30 or 40 pillars which is why the floors collapsed. Again, too much damage from the truck bomb?
- 3) The only way for a truck bomb blast to cause the pillars to fall would be to take them out at the base, and the base of the pillars were in the underground parking garage which was 2 stories below ground level.
- 4) The engineers who designed the building (which they indicated was bomb proof) said that a truck bomb couldn't have done that much damage.

- 5) Each of the 20 or so barrels of fertilizer explosive in the truck would have had to have been wrapped 27 times with half-inch detonation cord. That amount of detonation cord would be somewhere in the neighborhood of 300 feet, which is an amount unlikely to acquire or steal without being reported or missed.
- 6) The detonation of *each* barrel would have had to been *precisely* orchestrated to occur *simultaneously*. If only *one* barrel had gone off a minuscule amount early, the rest would not have detonated. The skill to set this up was beyond that of McVeigh.
- 7) Seismograph measurements verified by at least two separate sites show two surface waves, one ten seconds after the first, that could not have been caused by anything other than a second blast.

TRANSCRIPTS OF OKLAHOMA CITY BOMBING PUT ME IN PERIL

Date: 95-04-30 00:10:01 EDT

Dear Friends,

I am notifying you that I will no longer be posting transcripts of information on the Oklahoma City bombing. I could just sneak off without explaining what happened to me, but I care enough about you people to tell you why I am going silent about this horrible colossal crime which has caused ghastly deaths, injuries and emotional devastation to our dear fellow citizens, as well as instilling the national fear and outrage which those in power need in order to seize upon a dictatorship that will make them supreme.

I have been notified that I am "abusing UseNet privileges," and that I will be punished if I continue. Since I can see the graduating punishment to come, I feel that I would be unwise to sacrifice myself by continuing alone. I was a U.S. Marine for four-and-a-half years, and I served in the Viet Nam War exactly thirty years ago in a place called Da Nang. I can still vividly recall and actually relive those months of fear and sometimes terror, when my life was in peril. One of the most vivid memories that will always be with me is the feeling of freedom that would shower over me with the morning sunrise. Oh, how we would give thanks to the radiant sunrise for washing away the dreaded night with all its lurking perils, as we thankfully accepted our blessing of one more day alive.

I thought that I could help to shine some sunlight through the dark night of terror that is threatening to overrun our home front like a Viet Cong attack. But I am not the sun.

I am only one candle that can be abruptly snuffed out by the young terrorists of the BATF/FBI/CIA/DEA/IRS/etc. who have not the intelligence nor the human sensitivity to realize what my buddies and classmates fought and died for in Viet Nam. Correction: ... what we believed we were fighting for in Viet Nam. Admittedly, I was stupid thirty years ago because I hated those "long-haired, hippy, anti-Viet Nam War, peace and freedom demonstrators."

But I was never as stupid as these BATF/FBI/CIA/DEA/IRS/UNAMEIT alphabet soup characters. These guys actually hate the United States Constitution, despite the fact that the Constitution is the only shield that protects them against the iron fist of corporate "New World Order" tyranny that is now crashing down upon the People of the United States.

Okay, I'll shut up about the Oklahoma City bombing. I won't post any more about it. Why should I be the only Marine standing up to a Viet Cong offensive, when all my buddies are lying dead around me? Hell, I'm retreating. I'm not going to wait until they plant some kind of incriminating evidence on me and frame me for some concocted crime. I'm not waiting until they kick down my front door, or until maybe some mysterious accidental death befalls me.

The transcript that was posted yesterday from Mr. Ted Gunderson -- a retired F.B.I. official speaking out on Mark Koernke's INTELLIGENCE REPORT -- is the last transcript that I will post about the Oklahoma City bombing. I would have posted it myself, but my Internet server was down, so a few friends were kind enough to post it for me.

I must tell you, as friends and fellow citizens of a potentially free society, that your potential for freedom is swiftly being crushed by the corporate czars of the "New World Order." These old men of the ruling elite are the wizards of oz who pull the strings of television's high-salaried talking heads who, in turn, mesmerize and zombie the unsuspecting American viewer each and every day. However, over the past few months, a threat to their monopoly over the minds of the American People has arisen on shortwave radio. That threat has just proven itself to be so serious to these old men of the corporate "New World Order" mass-communications media that they have launched an all-out propaganda blitzkrieg against shortwave radio. The focus of their firepower is Mark Koernke, who must have really struck a sensitive nerve with his videos, such as AMERICA IN PERIL, as well as his nightly one-hour broadcast of INTELLIGENCE REPORT, wherein he discusses with patriots, who call in, ways that ordinary citizens can defend their Constitutional freedoms.

The media moguls have smeared Mark up and down their corporate TV networks by trying to link him with the Oklahoma City bombing. I remain convinced that he is thoroughly innocent of these scurrilous and duplicitous charges. They have also tried to smear him as a racist. I have tapes of his broadcasts in which he has said that he doesn't care what race or religion or nationality a person may be. If that person supports the Constitution of the United States, then that person is his friend. He is a close ally of J.J. Johnson, an African-American leader of the Ohio patriot movement. The patriot movement welcomes all people of all colors, of all religions, of all nationalities and all ethnic backgrounds. It is the dirty old men of the corporate "New World Order" (as none other than President George Bush has dubbed it) who are the racists. They disdain everyone below their elitist station. They detest the common people, while manipulating them like a bunch of pliable children, through their network television propaganda, night after night -- fattening up the TV-viewing population, like a herd of sheep, first to be fleeced, then to be slaughtered.

Well, guess what, folks? Last night, April 27th, they forced Mark Koernke off the air. And you can bet it was because of what his guest, ex-F.B.I. official Ted Gunderson was reporting about the Oklahoma City bombing. Had I known how dangerous it was for Mr. Gunderson to be revealing this information, I would not have asked a few friends to post it. I only realized how dangerous it was when I learned, at 8:00 P.M. that evening, that Mark Koernke had been forced off the air because of these revelations, which I am now reluctant to repeat. I have decided not to fight them in their determination to silence me.

I worry for the safety of these courageous patriots of truth: Mark Koernke, John Stadtmiller and Ted Gunderson of the F.B.I. (Yeah, I guess the F.B.I. is like the Marine Corps. It has "a FEW good men".)

Last night, on Mark Koernke's empty time-slot, they broadcast an appeal, urging people to write personal letters, (not make phone calls) of support for the INTELLIGENCE REPORT. Your letters are the only force that can free the speech of Mark Koernke, for WWCN needs to show the suppressive Federal Government that the Public wants to hear this rare voice supporting everyone's Constitution. If some of you are glad to know that Mark has been silenced, then the day is at hand when you too will be silenced by the same empire that you now encourage.

Please help to liberate free speech and The INTELLIGENCE REPORT by writing a personal letter of support to:
 INTELLIGENCE REPORT
 c/o Viking International Trading
 9188 E. San Salvador Dr., Suite 203A
 Scottsdale, AZ 85258 Arizona

And please help to protect the life of Mr. Ted Gunderson by writing letters of support to him and by publicizing his deeds. He gave out his address during the final minutes of the final INTELLIGENCE REPORT broadcast on April 26th:

Ted Gunderson
 2118 Wilshire Blvd., suite 422
 Santa Monica, CA 90403-5784 California

I want to close by emphasizing to all of you that I will not be a lone martyr. I will fight in a Constitutional manner against the forces of George Bush's "New World Order." But I will fight only if a sizeable portion of the American citizenry will fight. One fool cannot hold back a boulder that is rolling down a mountain. It's better to get out

of the way and confront it only when you have a strong, determined crew pushing with you in-unison.

I urge you to post this information to other newsgroups, computer networks, computer bulletin boards and computer mailing lists. It is also important to post hardcopies on the bulletin boards of caspusers, churches, supermarkets, laundromats, etc. -- any place where concerned citizens can read this vital information. Our people's need for Paul Reveres and Ben Franklins is as urgent today as it was 220 years ago.
