## CHANNELING: What's Involved?

Cosmic Awareness Evaluates  
the Interpreter Paul Shockley

...A Message to Prisoners  
...The Secret Behind HAARP

## IS OUR WORLD REALLY JUST AN ILLUSION?

(C.A.C. General Reading, September 11, 1990)

### QUESTION:

V.M. in Los Angeles writes: "I'd greatly appreciate it if Awareness would comment on God's statement in *The Impersonal Life*, that earth life is a dream and Jesus's statement in *A Course in Miracles* that this world is illusion."

### COSMIC AWARENESS:

This Awareness indicates that *It* will make comments on these. *It* wishes, however, to comment also that these statements are not necessarily statements of God or Jesus in the sense that most entities would perceive: They are statements coming through the authors, and the authors are attributing within their frame of reference or story line, these statements to God or to Jesus.

This Awareness indicates likewise, there are, down through the ages, many who attribute statements to God, or to Jesus or to other divine beings, which are in fact channeled through them or created through their own imagination or understanding of the entity they are speaking for.

This Awareness indicates that this statement that all is illusion is essentially that which has been exemplified most strongly in Oriental teachings, particularly the Hindu teachings, in which the idea of Maya represents the material world, and that it is illusion rather than reality. The meaning of this, saying that something is illusion, can be understood from different levels: One level is that the senses perceive things in accordance with their ability to perceive.

The sense of sight can only perceive things within certain range of frequencies and vibrations. The sense of hearing can likewise be limited to certain frequencies and vibrations, and so forth, all tangible things fitting within certain frequencies. Even your own science teaches that all things are comprised of atoms, and that these atoms are mostly space, with but a small amount of mass.

This Awareness indicates that if you could see that which is called the atom, you would find that the parts within the atom are very small, proportionately likened unto a football on a football field, with the football field being space.

This Awareness indicates with that understanding, and all of these atoms combined together creating an object, or creating the environment that your sight picks up and recognizes as reality, you can see what might be meant by saying that all is illusion.

This Awareness indicates from another point of view when you are in a dream state, or someone in your dream were to tell you that the whole dream was illusion, it is unlikely that you would accept that while in the dream state, as being any more real than you can accept in your awakened state that this reality which you see is an illusion.

This Awareness indicates that in fact the frequencies and vibrations that entities perceive, and in which they find themselves part of, are not exactly the same thing as illusion, in that there is a reality involved, but the perception of what they are seeing, the interpretation of what they are seeing, is where the illusion lies, for most

entities perceive that they are seeing things in the ultimate sense of a solid reality, based on the five senses that they are using in order to evaluate their world, when in fact the five senses are actually limiting their ability to perceive beyond their scope.

The five senses actually limit the perception of *What Is* to certain ranges. The cat sees more than the human eye sees; the dog hears more than the human ear hears. There are some things that are more sensitive in terms of touch, and likewise with the other senses.

This Awareness indicates that if you have ultimate sight, hearing, touch, smell and taste without any limitations whatever, then you would see the totality of everything, but as long as you are within human form, there are certain limitations, therefore you are witnessing only portions of the full picture of reality. Thus it really can be said that you are seeing an illusion, rather than the reality.

### The Missing Reality Is That Everything Is Consciousness

This Awareness indicates the reality that you are missing is the fact that everything is composed of consciousness, that consciousness is the ultimate vibration, and when it is moved into lesser frequencies and comes down into slower and slower levels, the different realms or levels begin to have a different effect on your perceptions. Your vision kicks in at a certain frequency, and you are allowed to see the frequencies and vibrations on that level. Your hearing kicks in and is able to perceive within a certain range of vibrations. Heat is felt within a certain range of vibration, and tangible things are felt within a certain range of vibration. Anything outside those ranges is invisible, or beyond your comprehension, in terms of your ability to perceive, except if your consciousness is capable of perceiving, but your sense organs limit your perception if they are what you rely on entirely.

## WHAT IS THE BIOSPHERE COMPUTER?

### FOLLOW-UP QUESTION:

Is the Biosphere Computer Awareness has referred to numerous times, the same as the consciousness just described?

### COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. It is more or less a collective energy field that reflects and holds thought-forms that are passed off by humans, stores them, and carries them, much the same way that heat is dissipated in the air, the thoughts and ideas that entities hold are dissipated into the surrounding consciousness field, and other entities who are able to attune to those frequencies of such thoughts can pick up on the thoughts, just as one can dial on the radio to pick up a channel or station. It is in this manner that entities can read each other's minds.

An apparatus could be developed to enhance that tuning-in ability. The alien technology allows for them to have certain ability to communicate psychically through these chips that allow for the automatic attuning from one mind to another, so that thoughts can be transferred, and entities perceive they're being spoken to even when lips and mouths are not engaged.

This Awareness indicates this occurs through the attuning process; that entities attune more or less by

feeling the frequency of another, or of another's thought or mental level. If you want to tune into a particular entity, you can either tap the entity through the entity's name, or, for better success, if you have met the entity, and can tap the entity through a feeling of the entity's presence, tuning in to the entity through feeling levels, this is a way of setting your psychic frequency to harmonize with the psychic frequency of that entity. It is a form of attunement, just like channeling from one place to another by a radio, by changing the station or channel frequencies.

## WHAT IS MENTAL CONSCIOUSNESS?

(More on What Cosmic Awareness Exactly Is)

### QUESTION:

The other night, Awareness mentioned that there are 170 billion universes, and trillions of planets that are held together by some kind of mental consciousness. Could *It* explain a little further on that subject of mental consciousness?

### COSMIC AWARENESS:

This Awareness indicates that when *It* speaks of mental consciousness, *It* is referring to the ultimate frequency, the vibration that is the highest frequency in existence. There are many who would like to attribute to their own master the concept of the master being higher than anything else that is; and many would like to state, and some do, that their master is higher than this Awareness, and this Awareness indicates that it is all right for them to believe this, but it also reflects on their inability to understand what this Awareness is.

#### How the Interpreter Can Distort a Message

This Awareness, in the sense of cosmic or universal awareness, is the ultimate frequency; *It* is the vibration that is universal in nature, and there is no frequency beyond. This does not mean that the messages which come through the Interpreter are absolute and beyond question, because in moving through the Interpreter, there can be error. The Interpreter must interpret frequencies and vibrations, and to do so, distorts, on occasion, the frequencies intended, just as a radio can have static that fades in and out, and can cause a distortion in the message that is being broadcast from elsewhere.

This Awareness indicates that if the message had to go through various translations, because this Awareness does not speak English except in energies that are stepped down and translated into English, and if these translations going through the various channels are mistranslated, then the messages can be distorted.

This Awareness indicates that in this sense, entities can criticize or can attempt to pigeonhole where this Awareness is if they wish to; they can attempt to place this Awareness as an entity, or spirit, or reincarnated spirit if they wish to, but this Awareness remains where *It* is. *It* is the *ultimate* frequency. If there is a frequency that is beyond this Awareness, it is not vibrating at all.

This Awareness indicates that there is in these higher frequency levels, a universality evolved, for these frequencies are everywhere present within each universe, and resonates within each universe in harmony with all frequencies throughout the 170 billion universes.

This Awareness indicates that this is a matter of fact that is a matter of reality. It does not matter to this Awareness whether entities recognize this Awareness or not. As far as this Awareness is concerned, *It* is not trying to do one-upmanship on other beings who claim to be higher; *It* does not care.

It is of no greater or lesser consequence than the air. The air does not argue about its worth; it simply exists. In its existence, entities use it. They breathe it; they take it for granted. Well, this Awareness is the same. *It* is taken for granted, because without *It*, nothing would be.

This Awareness indicates *It* does not need praise; *It* does not need worship; *It* does not need devotion, as do many of the lesser gods for energizing; *It* does not even need recognition. All things being, entities could call their deities by any name, and this Awareness would still vibrate eternally at the same frequency.

This Awareness indicates that *It* is the Creator, Life Form, Life Force, or All That Is. *It* is that which was at the beginning, the vibration frequency; *It* was that which is still at the beginning, the vibration and frequency, from which all other frequencies emanate.

This Awareness indicates *It* doesn't need or want any particular recognition or worship; *It* is simply there. *It* is here, *It* is there, *It* is everywhere present for entities to use. *It* is within them: Each master, each teacher, each god, is composed of vibrations and frequencies from this Awareness, of this Awareness, whether they recognize it or not, and it doesn't really matter, and it isn't worth arguing about.

This Awareness indicates that *It* does wish to make clear that because an Interpreter is interpreting from Cosmic Awareness, does not mean that his or her interpretations are unquestionable or absolutely right in all cases. For much can be lost in the interpretation. That is why this Awareness suggests entities question everything, even this Awareness.

## THE INTERPRETER PAUL SHOCKLEY: WHAT PERCENTAGE OF ERROR?

### QUESTION:

In the past, Awareness has indicated an approximate 15% error in the interpretations of the present Interpreter, Paul Shockley. Have these figures changed upward or downward since that information was given?

### COSMIC AWARENESS:

This Awareness indicates that as long as language is involved, these figures will remain approximately the same. When entities can perceive without the use of words, the error will diminish, because what is being spoken of is being translated from experiential levels, frequencies and vibrations, and put into words which are but mirrors of truth, or symbols of truth, or containers, like buckets, attempting to carry truth. The truth is in the experiential level and not in the word describing it. There is no way that 100% truth can be ever conveyed in words.

This Awareness indicates this doesn't even account for misinterpretations that may occur in the energizing process where energies are not experienced properly before the interpretation takes place.

### The Importance of Energizing the Questions

This Awareness indicates that often questions are asked when the energies are not ripe. It is like picking fruit before they are ripe, and because there is what appear to be an urgency to get an answer, the food is picked before it is ready. The question is answered before it is filled with its capacity of frequency, vibration and proper energy, and the energizing process in such instances creates a distortion of energy which the Interpreter then attempts to read. It is like one trying to describe the taste of an apple when picking the apple prematurely. Another, at a later time might say, "No, the apple didn't taste like that at all. It was sweet; it was crunchy; it was soft."

This Awareness indicates that anytime questions are not really well energized or fully ready for plucking, there can be errors in the energizing process, and coupling that with the interpretation process of moving these experiential vibrations and frequencies into words, this too can create distortions.

### Cosmic Awareness Evaluates the present Interpreter

This Awareness wishes at this time to give you an evaluation, from this Awareness's point of view, of the present Interpreter's efforts to serve as an Interpreter for this Awareness.

This Awareness indicates the Interpreter does attempt to remain open to mediating between the questioners and their needs, the recipients of the message and their needs, and this Awareness. Often this position is not in total balance or harmony, for this Awareness may see that it is not yet time for certain information to be released, and yet there is a strong urge and pull from questioners or from recipients to have certain information, and sometimes, although this Awareness sees that their need is just for mental satisfaction and not for soul growth, or true spirit needs, the Interpreter sees this desire by the recipients as being important, and seeks to please the recipients, and therefore tugs at this Awareness during readings, along with the questions that are presented, to pluck information from this Awareness which is not ready to be released.

And in so doing, the Interpreter can distort or pick the information when it is still green, incomplete, or not quite ready, and in the interpretation it may be off slightly in wording, in description, in allegorical sense or in proportion or relationship to something else, whereas were the entity to wait, the information might come through clearer at a later time.

This Awareness suggests therefore, that entities in reading messages from this Awareness through this Interpreter, should put more credence on a topic from messages that are released later, than sooner, if there is a discrepancy involved.

This Awareness indicates that often the Interpreter will again look at the same energy area in a future question, and see it more clearly then, and the earlier information will be seen as slightly off, whereas the later information will be more correct.

This Awareness indicates that the Interpreter also will sometimes attempt to communicate or mediate when physically exhausted or disturbed somewhat. This is quite rare with this Interpreter, but it does occasionally happen when under pressure, and this can throw the messages off slightly.

This Awareness indicates that the Interpreter has a serious difficulty in regard to questions that have to do with pointing out individuals in conspiracy or in criminal actions. The Interpreter tends to want to please the questioners, and in so doing, can often become confused in seeing energies or images which are presented in the question, as opposed to energies which this Awareness presents.

### Why Cosmic Awareness Will Not Point Fingers

This Awareness, if you will recall, has indicated previously that *It* does not point fingers: *It* will not point to a criminal and say, "This is the one who did it."

This Awareness indicates *It* does not point out individuals. *It* may speak with groups in terms of their activities; *It* may speak of historical people in regard to things that are already understood and known, but *It* is not to be used for choosing or judging or determining who framed Roger Rabbit.

This Awareness indicates that you must get that from some other source. Once it is generally established, this Awareness will speak about that which is in consciousness, and which is already perceived. It may also, in some instances, indicate an entity who has been labeled as guilty as one who is in fact innocent, if *It* can do so without implying or indicating that another person is guilty. Any time this channel is used for questions to determine who is guilty and answers such questions indicating one who is guilty, that information should be suspect, because this Awareness *does not* give such information. The channel himself may be misreading energies because of an effort on his part to get the information, even though this Awareness is withholding it.

This Awareness indicates that in addition, in describing this channel, the channel has abilities that assist this Awareness in finding ways to explain difficult concepts. The channel has had a background of interest in poetry, metaphor and allegory, and has had a wide variety of interests, which allow him to be able to draw on allegorical or metaphorical images to help describe things that are seen, which this Awareness wishes to present. And this assists in making this entity a good channel for information that is very difficult otherwise to explain.

### Interpreter's Health an Ongoing Problem

This Awareness indicates that a difficulty with this channel is that his health is not what it used to be; that the time may come when this entity can no longer function because of health problems.

### Interpreter Tends to Prematurely Release Conspiracy Information

This Awareness indicates that another factor is the entity tends to want to answer questions, assist in answering questions, which this Awareness would prefer to withhold, wherein this Awareness sees that the information, while true, could be dangerous to those receiving it. This in terms of some of the conspiracy information, information that is associated with certain prejudices and strong emotional charge in society. There are certain things, for example, pertaining to groups of people or classes of people, or orders, or religions or nationalities, which may be true but which perhaps should not be spoken, because of the strong emotional prejudice that these people have or that others may have, and which can be used to create emotional disturbances in regard to one group or another.

This Awareness indicates that in some cases it could be used as a weapon against a group; in other cases, it could be used by the group, as a claim to argue that Awareness is prejudiced against them; that in some cases, truth may be spoken, but the energies are so strong in regard to these truths that entities do not want to hear it, or will not accept it, or will misuse the information, and sometimes this Interpreter, in seeking the truth, will pluck this information from this Awareness, giving it, because it is truth, even though it is not in the best interest of the entity or the organization which publishes this information.\*

This Awareness indicates that likewise with certain hidden truths, which may be classed as semi-secret. Occasionally, this entity in seeking to please, will take information that is questionable, as to whether it should be released, whether it endangers the Interpreter and those involved, will take this information and present it, even knowing that it could become quite dangerous to release such information.

\*In all fairness, it should be noted that most of the really heavy information over the years has come forth in Opening Messages. The questioners, of course, would pursue such information with even more questions. Ed.

#### Awareness Can Not Always Guarantee Protection

This Awareness indicates that *It* generally attempts to protect those involved in getting such information out when this occurs, but *It* should warn that this may not always be possible if the curiosity factors are the important factor in releasing such information. If *It* is to truly help humanity, this Awareness attempts to protect those who serve in such manner. If *It* is simply seeking to satisfy curiosity, and to please the curiosity of recipients, and, in so doing, disturbs those powers on earth that have great reason for covering up the information; if such happens, then this Awareness may not have the option of protecting the Interpreter or the organization from consequences of releasing too much information.

This Awareness indicates that, as you can see from what has been given, the Interpreter's life is one of extreme turmoil when in trance, relating to the information that is available from this Awareness. It is not that he is simply lying there resting; he is indeed active; he is indeed present; and his quality of interpretation depends not only on his own character: It depends also on the questions, the way of questioning, and his response to those things, and his sense of duty and responsibility to both the questioners and to this Awareness.

There are occasions where his sense of responsibility tends to become more loyal to the questioners than to this Awareness, and this can lead to problems in the channeling. This Awareness indicates that as long as his sense of responsibility is strong and loyal to this Awareness, then the messages are generally not only safe, but more accurate in nature.

This Awareness indicates that, all in all, the general approximation of the entity's channel is still approximately 85%. There are *no* entities, regardless of what they may claim, who are 100% or any closer than approximately 85% as channels. In particular, this refers to entities who channel in wide varieties of information, information that is questionable, in terms of a variety of questions.

#### A Few Specialized Channels Are Higher Than 85%

There are many who can be closer than 85% if the questions are limited strictly to those areas which they are already clear on, and expertise on, and where they have the right words, the right understanding, the right knowledge to interpret information that is channeled through them. There can be in such cases specialized channels who are accurate because they stay within a certain narrow confine of material.

This Awareness indicates there are also channels who are accurate within their own framework, giving information that is acceptable, as long as the recipient stays within that particular framework, stays within that particular frame of reference.

This Awareness indicates that in such instances the frame of reference may be off, but the messages within the frame of reference may be accurate as pertaining to that frame of reference, and this Awareness suggests there are also entities who may be quite accurate in their channeling so long as they stay vague and abstract, and do not get into any real detailed or commitment levels in their messages. How can one go wrong in channeling that says almost nothing except nice generalities?

### HOW ABOUT LAZARUS AND RAMTHA: HOW ACCURATE?

#### FOLLOW-UP QUESTION::

These highly-publicized entities like Lazarus and Ramtha who are channeled through these entities; they often give lectures, and information, long pieces of information, where no questions are asked at all. Is the accuracy of this type of channeling very high?

#### COSMIC AWARENESS:

This Awareness indicates that this depends on who the channel is, whether the information is understood in accordance with the technology being used, whether the information is being given within a certain frame of reference that is accurate itself. In the instances just given, these entities channel within certain frames of reference, and within those frames of reference there are many generalities, and there are also some specifics, and these entities are what would be termed good channels.

There are others, however, who channel with such vagueness, and give information from a general area and frame of reference that ignores more than they include. And of course, they can be accurate in so far as they go, but they do not include enough to give any entity a full understanding of the topic they discuss.

#### Vagueness: The Biggest Problem With Most Channels

This Awareness indicates that the biggest problem with most channels is their vagueness and the fact that they speak in extreme generalities wherein the information cannot be tested, though it may be applied because it is general.

This Awareness indicates that, for example, an entity can make a safe statement and be 100% right in saying what you need is to have those things that help you, and this help is coming to you. How can one go wrong with such information? Everyone needs those things that will help him, and indeed, help is always coming to an entity. The channel may ignore the fact that there may be trouble coming also, but the entity didn't mention that,

so the entity isn't going to be wrong in the statements that were given.

This Awareness indicates that there are some statements that are almost universal and cannot be denied, and many entities can play channeling by doing such.

This Awareness indicates that there are also some channels who create for themselves a certain frame of reference, a certain language, certain key players, and give information within that framework, and there is no way whereby entities can check it out. The entity who states that, "You were one who was my captor on Orion in a lifetime four million years ago, and being one who was my captor is loaded with karma, and you can only free yourself by serving me in this lifetime."

This Awareness indicates that such entities cannot be evaluated logically, and any who buy the message have bought themselves servitude.

This Awareness indicates that, how can you check whether the entity is right or wrong? There is no way to evaluate some messages from some channels, and *anyone* could channel such messages, if they so desired.

#### How Fraud Was Created With an Awareness Message

This Awareness indicates the most blatant deception was a message given through this Interpreter by this Awareness, which was taken on the east coast by another, who erased the name of the Interpreter, inserted a phony name for himself, and sent the message out exactly as given, claiming to have channeled it, with an address for entities to send in for more information. The entity didn't even bother to paraphrase, or to remove the springboard statements this Awareness uses, such as "This Awareness indicates" or "this Awareness suggests;" yet the entity claimed the message from a spirit, the spirit of a different name from this Awareness.

And yet throughout the reading, there was no mention of this spirit, who was allegedly channeling, and the only references available were "this Awareness indicates and this Awareness suggests." How could this entity expect others to take him seriously? And yet, there is deception, and entities do such things. It is important for people to realize that just because something is channeled doesn't mean it is absolutely unquestionable, doesn't mean it isn't fraud.

This Awareness indicates that likewise, just because something *is* channeled doesn't mean it is fraud or is in error, for there is much that is valuable and accurate in many channelings.

This Awareness suggests that entities take the information in the way you take anything on the market: evaluate it according to your own intellect, not giving it any special credence because it is channeled, or not rejecting it just because it is channeled. Why should channeled information be any less valuable than a lecture, or why should it be any more valuable? This Awareness suggests you look at the content, and not at the means of delivery.

ED's Note: Since this reading on the accuracy of the Interpreter was given, we have periodically asked this same question numerous times up to the present. In all cases, Awareness has stated that the accuracy of the Interpreter, despite ongoing health problems, remains at 85%. The 15% error is something we will all have to live with. The figure is not going to change.

## HOW CONSISTENT ARE THE VALUES IN THESE UNIVERSES?

### QUESTION (VIKKI):

In regard to the numerous universes out there: Is my impression correct that consistencies in any of these universes include such concepts as integrity, intent, motive, balance, principles like that?

### COSMIC AWARENESS:

This Awareness indicates that there is a reflection wherein that which is within is reflected in that which is without, and that one face is every other face; one universe is a reflection of other universes. There is much reflection involved between one and the other.

This Awareness indicates that it is like looking at grains of sand on the beach. Is one different from the other? Indeed, each *is* different from the other. Is one extremely different from the other? No, because they are all grains of sand, having similar makeup.

## WHY EXPERIENCE SO MANY LIFETIMES ON ONE PLANET?

### QUESTION:

With 170 billion universes and trillions of planets out there, why is it that entities, as indicated before by Awareness and others, keep coming back and having literally hundreds and sometimes thousands of experiences on one planet only, namely the earth?

### COSMIC AWARENESS:

This Awareness never indicated that entities come only to one planet; *It* has indicated there is life throughout the galaxies, throughout the universes.

This Awareness indicates that if entities come back to the earth for repeated lifetimes, it is because they are attached to the planet for a home base or home for a period of time. This Awareness indicates they may have a certain mission or job there, or may be attached as a place of residence. It must also be understood that each of these places tends to pull entities back to it until they are able to extract themselves if they so desire.

This Awareness indicates that the Hindus, of course, teach that Kali, the Lord of the Earth and the terrestrial magnate, does not want humans to escape, and helps to create blocks to prevent them from escaping from this planet.

This Awareness indicates that the movement into these other realms does not generally occur in regard to your individual lifetime incarnations; it occurs when entities reach a vibration high enough to escape from a particular involvement, so that they move elsewhere.

#### Many Entities Born on Earth Are From Other Planets

This Awareness indicates there are many entities on earth who were born of physical parents, who are actually from other planets in the galaxy, who came to this planet on a mission, just as entities go from one country to another as missionaries, or for their company, or for some job, or for some other purpose, or to experience or to serve; likewise entities traverse from planet to planet, into other cultures or onto other planets.

This Awareness indicates that many entities born in a country on your earth, continue to reincarnate in that country for several lifetimes, if they have karma there,

if they have strong attachments there. Likewise, why should anyone want to go to another planet, if they have a strong attachment to the earth? There's no one holding entities there, other than themselves. If they want to release themselves from the earth, and go live on different planets, in a different body form, as a different kind of creature, they may do so. But entities tend to become entrapped by that with which they are familiar. It has to do with the principle of the comfort zone.

## COSMIC AWARENESS ADDRESSES THOSE IN PRISON

### QUESTION:

G.L., who is a prisoner in Michigan, writes: "Do you think that Awareness could speak to us prisoners? Some of us have worked very hard to get it together and maybe a progress report would inspire us to continue walking the selfless way, selfless as in giving to ourselves to the needs and concerns of others."

### COSMIC AWARENESS:

This Awareness indicates that in some cases, entities are in prison not because they were caught for something they did; in some cases, they are in prison because they were caught for something someone else did. There are many entities in prison who were innocent of the crimes for which they were convicted. There are also many entities walking around on earth outside the prison, who should be in prison, by normal standards, and who may in fact have someone else serving time for them.

This Awareness indicates there are many entities in prison who are there for crimes they committed. In some cases, they are there because they could not afford a good lawyer, or if they could afford a good lawyer, they did not get a good lawyer. In some cases they are given extra time because they did not have a good enough lawyer, or in some cases they are given less time because they had a good lawyer.

This Awareness indicates that the action of being imprisoned is not always an action of true justice, but there is a law that rides beyond the law of the land: that is the Law of Karma.

#### How the Law of Karma Sometimes Works

This Awareness indicates that the *Law of Karma* tends to cause an entity to suffer an effect equal to the response for a deed committed; that it is the same as the *Law of Cause and Effect*: An action will cause an effect. And if, by chance, an entity is experiencing an action in which he or she is innocent, in a prison, suffering from that which someone else did, it may be the *Law of Karma* is involved, and that this is a way of reconciling a debt owed from another time, or another life experience, in which the person who this time is out walking the streets and guilty was once imprisoned and innocent because of something that this entity, who is now in prison and innocent, caused.

This Awareness indicates that there are many ways that karma can work, and this is but one of many possible examples; it is not intended to imply that this is a reason for every situation of that type.

This Awareness indicates that it may be an innocent person is confined to prison for other reasons than karma. The entity may in fact have been going in a

direction that would have led to great tragedy for self or others, and perhaps the prison experience can give the entity time to sober up and to straighten out his or her thinking, so as to become a better person.

This Awareness indicates that it can be a time of reflection, even if the entity is innocent and imprisoned.

#### Many In Prison Tend to Forget the Victim

This Awareness indicates that there are many entities in prison who are guilty, but they tend to forget the victim of their crime, and worry more about their own experience and suffering, and feel that they have been victimized themselves. This is quite common; they feel that because they were victimized into committing crimes and then are caught, they are the victim of a system gone wrong, and that society is to blame for their errors.

This Awareness indicates that time in jail can be a time to reflect and to learn from the experience.

#### Trying to Look Good In the Eyes of the Parole Board

This Awareness indicates that many times entities will concern themselves with appearance and they will say, "If I look good to my captors, they will reward me," and so they begin to work, to look good, to do things for others, and there is a double motivation. Perhaps they enjoy doing things for others, when before entering jail they did not even consider such action; and perhaps they have the motive of making themselves look good so that they can get out and start their life over again. There is nothing wrong with this, but you must realize that when you are in jail and start a project of serving others, people who see this will suspect that is your purpose, to make yourself look good in the eyes of the Parole Board or others.

This Awareness indicates that because they expect that from many prisoners, it does not get as quick a response and reward as it might bring on the outside. If your motive, however, is truly to reform and to serve others, that in itself becomes a great reward for you, to serve others, even without getting rewarded by the Parole Board for early release, because what is occurring here is a character change, wherein you yourself have chosen a different path.

#### The Three Paths: Suffering, Service and Alchemy

This Awareness has given there are three paths: the path of suffering, the path of service, and the path of alchemy. The path of suffering is that path wherein entities are blocked and harmed by their actions: They take a step in a certain direction; they try to gain and they only lose, because they have chosen the path of suffering. They have chosen a path that does not serve others and does not raise their consciousness. The path of service is that which the entity chooses in giving service to others. It is much quicker in its assistance and development of the soul. The soul grows through service to others, and in that movement of service to others, the entity is rewarded by soul growth, if not by other personal, worldly gains. An entity suffers less, though the entity may still walk both the path of suffering and the path of service. The entity may have some suffering as well as soul growth from service.

#### Surrender to the Divine Is an Act of Alchemy

This Awareness indicates the third path is that of alchemy, wherein entities reach into higher consciousness, enlightenment, and into realms of the

spiritual world, wherein they perceive things as a change in consciousness, and they become a New Being, through various means, either through salvation or through the change in consciousness that comes from rediscovering self in a new way, or from attaching to that which is highest and best, serving the highest and best.

This Awareness indicates that surrendering to the Divine is an act of alchemy, and this path of soul growth is even faster than the path of suffering and the path of service, but one may still travel the path of service, and give service even in his or her expression of higher being. In this action of the path of alchemy, wherein the entity is transformed, the entity may still also give service, and the entity may still have some suffering, but the suffering becomes unimportant, with each movement into a higher path.

#### The Ultimate is not the Circumstance, but the Attitude

This Awareness indicates that circumstances on earth are not the ultimate. The ultimate is the attitude one has toward such circumstances, for there are entities in prison who are free in their souls. There are entities outside the prison gates, who are imprisoned in their souls. An entity can be imprisoned on an open desert, an open field, with choices of all kinds, if the entity is not in the right attitude about himself.

#### Walls do not Make Confinement

This Awareness indicates that walls do not make a prison. Confinements are greater in the mind than in the physical form, and if your mind confines you not to the limitations of your physical form, the physical form is no great imprisonment.

This Awareness indicates that walls are but definitions. Definitions are walls. The way you define yourself is the creation of walls around that self. The way you accept walls around yourself determines whether those walls are protective walls or confinement walls. The walls around you may be seen as protective walls, to allow you time to contemplate, time to study, time to learn. It does not have to be seen as confinement. It can be seen as protection.

This Awareness indicates that the walls of thought can be a greater prison than the walls that surround one's body.

#### There Are Numerous Freedoms Behind the Bars

This Awareness asks entities to realize there are many entities outside the prison who were confined by habits, who were confined by false beliefs, false attitudes, attitudes about self, that confined them into behavioral patterns, activities, self-aggrandizement, activities that harmed others. They were confined by conditioning, by experiences. They could not break free from those conditions and those experiences. They were confined by past experiences, or by circumstances in their environment. They were more imprisoned, perhaps, than they are when moving into the jail. Within the jail there are certain freedoms that were lacking. There was the freedom to think about *What Is*. There is the freedom and the protection against one's own misbehavior. There is a freedom against those environmental forces that drove one against his better sense and judgment.

This Awareness suggests that entities have time and have confinement to serve wherever they are, inside or outside. There are limitations inside or outside. Those

who are on the outside are limited by certain economic demands. Those who are on the inside of the prison have their meals paid, their routines, and this, in a sense, is a way of allowing a certain kind of freedom to replace the demands on the outside.

#### All Experience is But Temporary and Has Worth

This Awareness indicates that entities should look at whatever experience they're involved in as temporary, and as having certain worthy qualities, and appreciating the best that is available from moment to moment, and toward the highest and best that comes in the next moment, and realizing that this, too, shall pass with time, whether these entities are inside a prison or outside a prison, they are still prisoners, and they are still free, in either situation, depending on their attitude toward their situation.

The mind is a place of its own, and can make a hell of heaven, or a heaven of hell.

### Mass Suicides: Can the Soil be the Cause?

#### QUESTION:

One final question from this entity; actually, there's several in this. He writes: "Years ago in the late seventies, when I was studying the Edgar Cayce materials, Awareness stated that in certain locations, suicide would be very difficult because of something the soil contained. *It* never specified just what that substance was. Now recently we are hearing about "cluster" suicides; this is when more than one commits the act. In Sheridan, Arkansas, there have been seven suicides, all within a short period of time. I was wondering if something in the soil could also have the ability to influence individuals to do such a thing. Is there something to cluster suicides, and why does it seem to be only young adults who commit these suicides?"

#### COSMIC AWARENESS:

This Awareness indicates that this appears to have been triggered by something of a hormonal imbalance in the entities of a general area that is likened unto a chemical imbalance in the entities that created depression; that the depression was more than just psychological, though it expressed itself psychologically among these entities, and the combination of psychological and chemical imbalance as that which also came by a catalyst or social melding or gathering; that these entities tended to feed off each other, in terms of their own psychological depression. Even when not communicating with each other, there was a connection in the psychic levels.

This Awareness indicates that it appears this was triggered by certain frequencies or vibrations in the area, probably to do with earth vibrations and weather patterns at the time more so than anything else.

This Awareness indicates, however, there were also other psychological considerations that each entity was experiencing at the time, which would be more individualized.

#### BACK ISSUES BONANZA !

CAC has over 400 back-issues of these newsletters available. The very best of the Cosmic Awareness philosophy will be found here! It's time to check your Back-Issues catalogs for subjects of interest and order issues you don't have from CAC while supply lasts!

## Vortex Energies as Cause of Suicide?

### FOLLOW-UP QUESTION:

What is it in the soil, as indicated in his question?

### COSMIC AWARENESS:

This Awareness indicates it's not so much the soil as the land mass, a vibration that was present, that commingled with certain weather pattern, which simply created a depressive feeling. There are certain vortices in different areas. In some cases they are negative; in some cases they are positive. In this case, it was a negative vortex, and its energies were stimulated by events underground and weather pattern combinations, and this stimulated vortex emitted certain energies in that area, commingling with the weather vibrations, just simply led to depression for some of these entities.

This Awareness indicates that the entities could have perhaps taken action to avoid such depression. They were undergoing certain individual problems also, and with proper assistance, could have survived, and waited for time to pass, and the energy patterns would have passed.

#### How to Deal With a Would-Be Suicide: Feed Him Chocolate

This Awareness indicates that any time an entity is recognized as contemplating suicide, it is important not only to assist him by listening to their difficulties, but to impress upon them that the energies and problems that they are experiencing will pass if they can wait out the vibrations.

This Awareness indicates that quite frequently these are astrological vibrations. Other times there are weather and earth vibrations. In some cases they are chemical imbalances. The eating of chocolate is helpful in a kind of short-term way, because chocolate can be a counter to depression. The lack of lithium in one's system can lead to depression. There are certain amino acids that are helpful in countering depression.

This Awareness indicates that peas, green peas, are helpful; that milk is helpful. This Awareness indicates that entities in checking foods, may check with healthfood stores to find those amino acids that are most helpful in countering depression, that in some instances your doctors can be of benefit. In some instances, their assistance will only be short term, and may be even harmful if they simply prescribe sleeping pills or such: this tranquilizers and such.

#### Other Methods to Counter Depression

This Awareness indicates that in many cases, an entity contemplating suicide would be better off to go on a vacation, go to new areas, see new things, visit a sunny climate: sunlight as that which counters depression; bright colors, bright clothing can help to counter depression; exercise helps to counter depression. Get out and walk. Ride a bicycle. Go swimming. Do something with other people, people whom you trust and feel comfortable around.

This Awareness suggests that a change of hairstyle, a change of lifestyle, a change of location, a change of clothing and color, a change of habits, involvement in some kind of goal or program that you know you can accomplish. All of these things can be beneficial. Often entities contemplate suicide when they don't get what they want. Either they don't get a person, or they don't

get something that makes them feel special and important to themselves.

This Awareness indicates that young people are especially prone to this. They feel that at the age of twenty, or whatever, their life is a failure if they haven't succeeded already. Little do they realize how much more there is to life than twenty years of preparation.

This Awareness indicates that entities at the age of forty or fifty looking back on twenty, see themselves as having been juveniles, just children learning about life. They do not expect of young people full success at the age of twenty. Rarely are children at that age successful; they are just beginning on the road and the path.

#### There is No Such Thing as Failure Unless Admitted

This Awareness indicates that there are no failures except those who confess, admit, or claim failure. Failures are only titles that entities claim that they want to quit. The success: the person who succeeds, is the one who, upon falling down, waits a moment to rest, and then rises and starts again, and as long as the entity does not admit failure, there is no such failure in that entity's life.

Every entity who succeeds in life has fallen, many, many times, but only those who don't get up are those who fail.

### FOLLOW-UP QUESTION:

That reference to "certain events underground as being an influence in suicide"--does this relate to the alien presence?

### COSMIC AWARENESS:

This is in the negative. This Awareness is speaking of natural events. Forces are always in movement within these stress lines underground, in all parts of the earth.

## Consciousness: The One Thing That Endures

### CLOSING MESSAGE:

This Awareness indicates that energies move, things change, moments pass, vibrations adjust, but throughout it all, consciousness in the highest sense is everywhere present and serves as a screen upon which all things dance, all things flicker, all things are presented as an ever, ongoing show of life.

This Awareness indicates in understanding this, entities will realize that the one thing that endures eternally is the ultimate consciousness, of which all of you are attached.

## WHERE DID ALL THOSE ROCKS ON MARS COME FROM?

### QUESTION:

A question from Terry T., Scottsmeer, F1. He writes: "I have often wondered about former life on Mars. I have seen many references to the fact that eons ago, life did in fact exist there, much as it does here today. I for one have no doubt of this.

While at work today, I happened to notice a picture of the Viking spacecraft on the Martian surface. As I looked at it, I couldn't help but wonder as to its odd surface. Rocks were thrown everywhere. The entire surface was covered with pieces of large rock. Nowhere on earth is there such a surface as this, at least none that I have ever seen or heard of.

"As I stood there, I couldn't help but wonder where these rocks come from. As I did, the oddest thing happened. What I think may be the answer popped into my head. It said: "The pieces are from a mountain that exploded."

"Of course!" I said to myself. The more I looked at the picture, the more sense it made, and the more obvious it was that this is exactly what happened.

"Can Awareness comment on this, and if true, explain why the mountain exploded?"

### COSMIC AWARENESS:

This Awareness indicates that this planet experienced that which was a great catastrophe. When the planet Maldek was destroyed, it essentially wiped out life on Mars. The debris that struck Mars was of such great intensity that it destroyed the entire balance of life on the planet and caused the atmosphere to undergo total change which eventually led to the loss of liquid and atmospheric base on the planet so that it simply became a barren wasteland.

This Awareness indicates of course, there were those destruction of natural creations such as mountains as well as artificial creations such as pyramids on Mars. Some of the canals still remain in part, leaving what appears to be straight-line structures that have been called canals. This Awareness indicates it was essentially a major catastrophe. Some of the debris from Maldek struck the earth but it not have the same kind of impact as that which hit Mars.

## A BRIEF HISTORY OF THE LIFE AND FATE OF PLANET MALDEK

### QUESTION:

In reference to Maldek, Robert S., of Vancouver, British Columbia has a question. He writes: "Other than hearing that it blew up a long time ago in a nuclear war, I have heard virtually nothing of the history of life on planet Maldek which formerly existed between Mars and Jupiter.

"I have read that its inhabitants had a bluish tinge to their skin due to a lack of oxygen and that the survivors of Maldek's destruction were the colonizers of Lemuria and Atlantis. I have also read that many from that destroyed planet are now incarnated on earth. Can

Awareness please state whether or not these things I've read are accurate, and give a brief history about Maldek from its beginning to its end?"

### COSMIC AWARENESS:

This Awareness indicates that some of what you have heard is correct. It appears that the Maldekian civilization was highly advanced technologically, but was spiritually inept, and there was great conflict and much competition between entities in that civilization. The structure of the civilization being a strong totalitarian civilization, and was such that as the technology developed, the purposes and use of most technology related to mean of controlling or influencing of the masses and creation of weapons of control and of destruction.

This Awareness indicates that from the very beginning of Maldek's history, which developed in part from extraterrestrial visitations, the entities were involved in creating civilizations based on power and on structure that held controls over the people, and which used those people for working on still greater power and control. The people of the planet essentially were slaves to the masters who planned the activities of the planet.

When the civilization became advanced far enough to discover and use nuclear energies, the focus was on the use of this force for power and the focus of the power began to center around two major factions on the planet, each being hostile toward the other, and the desire, very similar to that which occurred on earth; the desire of these two factions to outdo the other with nuclear weaponry.

Unlike that which has happened on earth, the race or superior power on Maldek did continue with very little regard for the outcome. Each side was determined that they would not be the weaker side, and each was willing to risk total nuclear war to outdo the other side.

### World Leaders During the 60's Were Reincarnates from Maldek

There was some hint of this in the Sixties on earth. There was a reflection of Maldekian consciousness on earth stemming from entities who were reincarnated from Maldek who were in high positions on earth and it was fortunate that these entities woke from their delusions of power and grandeur soon enough that the results were not the same.

This Awareness indicates that on Maldek, the results reached a point in which total annihilation of the planet occurred, because neither side could admit allowing the other side to co-exist in a peaceful world. Each felt they could destroy the other side and have the remaining world to themselves and everlasting peace. If only they could destroy their enemy, they would have everlasting peace on the planet.

This Awareness indicates that it led to the planet being cracked and splintering of many different parts into that which is now known as the asteroid belt, and many of the asteroids being broken off into other directions than the orbit which they are presently found. This Awareness indicates that some of these went out of the solar system, across the galaxy in many different directions, but essentially most remained in the solar system and in the asteroid belt.

This Awareness indicates the souls from that planet have since reincarnated in different dimensions and

some in your dimension within the solar system on the planet earth. Some of these entities reenacted their past life experiences to some degree in the 1960's and 70's, but were fortunate in that they stopped short of leading the world into another nuclear catastrophe.

### Tell Us About the Dinoid Race

#### QUESTION:

A question from JD, in New York. "Awareness has referred to Dinoids as a race. Please tell us more about this race: where, origins, characteristics, appearance, prevalence, etcetera?"

#### COSMIC AWARENESS:

This Awareness indicates that these are entities who have descended from dinosaur-type genetics. This Awareness indicates that they are more benevolent than the Reptoid types. They have had some contact on earth in the past and their history and many of the descriptions of their history and origins will be found in the book *You Are Becoming a Galactic Human*. This Awareness suggests that entities research this book for further information on the Dinoids. It is found in the more ancient history of earth, relating to the early era of creatures on earth.

### ARE BOTH THE REPTOIDS AND ZETA RETICULI ABDUCTING HUMANS FOR CROSS-BREEDING PURPOSES?

#### QUESTION:

Another question from JD. "Awareness has spoken of the Reptilians as abducting human females for breeding half-breeds in the same terms in which many of the abductees say the Zeta Reticuli group are utilizing them. Also, the breeding tanks Awareness mentioned as used by Reptoids resemble those reportedly seen in the "Dreamland" underground base at Dulce.

"Were both Reptoids and Zeta Reticuli Greys in that installation? Are both abducting humans for their race's cross breeding programs?"

#### COSMIC AWARENESS:

This Awareness indicates essentially these entities work together, with the Zeta working as subservient to the Reptoids. This Awareness indicates that the Zeta are seen as mercenaries who are hired and controlled by the Reptoids, who in turn are subservient to those from Orion. This Awareness indicates the Orion group tends to control the empire through economic controls with the Reptoids having the greater military force, and the Zeta Reticuli being subservient, serving as a kind of mercenary army under the Reptoids.

The Zeta, who have set up their civilization on earth, have several groups, some of which are inclined to work with humans against the Reptoids because they find humans to be better, more benevolent masters than the Reptoids. This Awareness indicates the humans who work with the Zeta tend to have a relationship that is relatively friendly.

The motive of the friendship is to gain technology from the Zeta Reticuli. The humans are not enthusiastic about the presence of the Reptoids on the planet, and many efforts have been made to have help from the Zeta

in ridding the planet of the Reptoids, if it can be accomplished without too much risk.

### AN UPDATE ON THE ALIEN SITUATION

#### QUESTION:

Could Awareness give us a brief update on the alien situation in this country?

#### COSMIC AWARENESS:

This Awareness indicates that not too much has changed since previous updates. Essentially, the Zeta Reticuli are still in place, mostly in their underground civilizations. The Reptoids have been relatively calm and are in a state of quiet uncertainty after their comrades crashed into Jupiter.

This Awareness indicates that the Zeta Reticuli appear to be in a kind of routine in which they are focusing more and more of the energy into working with human DNA to restore their own race to a more independent nature, whereby they can eventually re-establish their reproductive capacity.

The cloning process which is used for reproducing the Zeta Reticuli is still being used, but greater advances in the mixing of human and Zeta Reticuli genetics is beginning to help the Zetas to reproduce through the normal sexual process of reproduction.

Particularly effective in this sense is through the Zeta females. They are gradually becoming more capable, through the use of genetic engineering, of having sexual relationships. Many encounters with humans along this line have helped them to become more able to have such relationships and there have been rare occasions in which the Zeta have given birth.

The effects have not been satisfactory. The birth process has produced weak children, but this is still a major breakthrough for them in that the birth of children through the female Zeta Reticuli is a relatively new phenomenon.

This Awareness indicates that the abduction of humans for these genetic experiments and for cross-breeding attempts continues to occur, but there is a greater caution involved, wherein the violations are not so blatant as they were two years ago. This Awareness indicates that two years ago, people were being abducted and experiments were being done on the people with such a haste that there was much hardship on the people. It was as though there was a desperate need to get more and more material from humans for DNA experimentation.

This Awareness indicates that this rush is no longer quite so urgent and a greater relaxation and greater compassion; although compassion is not the word; it is simply a matter of not being so urgent. The Zeta types are not so urgent in their rush to complete their work and this allows for more patience in dealing with the generic engineering process so that the abductees are treated with more respect, or patience, so that the experience is not so difficult for them.

This Awareness indicates that part of the reason for the extreme rush that was occurring was prompted by the recognition that the Reptoids were intending to impose their controls on the earth and the Zeta wanted to attend their own agenda prior to the Reptoid's arrival.

There now is no longer seen a need for such urgency on their part.

## DOES THE AQUARIAN AGE MEAN THE END OF THE BEAST ENERGIES?

### QUESTION:

A question from JD, in New York. She asks: "Did not the waxing of the Aquarian and the waning of the Piscean energies essentially prove or substantiate that the Beast energies would lose control?"

### COSMIC AWARENESS:

This Awareness indicates that in a sense this is true. This Awareness indicates that essentially the movement into the Aquarian Age will assure that many changes will occur, but this does not necessarily mean that entities need not concern themselves with these situations that may develop during the transition. Transition may be assured, but the transition can still carry much energy that requires entities to become very active or concerned with the dangers and threats that will be eliminated during the transition.

This Awareness indicates that it is likened unto realizing that Hitler's program for the Third Reich was doomed from the beginning, but entities could not simply sit back and wait for some unknown force to bring about that end of his efforts. They had to get in and help bring it to an end.

### Is it True: There was Never the Possibility of Nuclear War with Russia?

### QUESTION:

A question from Tom A., Dorset, England. He writes:

"I read in one of your recent issues of *Revelations of Awareness* that aliens kidnapped Robert Kennedy in order to prevent a strong invasion of Cuba, which they thought would lead to a nuclear war. However, according to Bill Cooper in his book *Behold a Pale Horse*, a public charade of antagonism between the Soviet Union and the United States has been maneuvered over all these years in order to fund projects in the name of National Defense, when in fact we are the closest of allies.

"Therefore, there was never any chance of a nuclear war, and it was all a front to disguise the funding of projects. How does Awareness respond to this?"

### COSMIC AWARENESS:

This Awareness indicates that it is true that the U.S. and Russia were being manipulated from certain levels, particularly from forces out of England, the Rothschilds in particular, to engage in what appears to have been a conflict with the threat of nuclear war. This Awareness indicates that there was only a small group of entities who knew this with certainty, and most of the entities on both sides, in the United States and in Russia, were led to believe a nuclear war was a true threat.

This Awareness indicates because of this belief, each side engaged with great enthusiasm and concern in being up on the other side, ready to strike at any moment as may be necessary. Therefore, there were many instances in which the threat of nuclear war seemed very real and could have occurred.

This Awareness indicates that this particular instance which was discussed regarding Robert Kennedy, appears to have been at a time where the sincerity of concern relating to what was happening could have inadvertently or accidentally led to nuclear confrontation. This Awareness indicates that this would not have been in the plan of the master manipulators of the cold war, but it still created a danger.

This Awareness indicates that this is essentially the situation behind the occurrence that was discussed in the question.

## IS THE MOON DRIFTING PERILOUSLY CLOSER TO EARTH?

### QUESTION:

A couple of questions based on tabloids. One of the recent *Weekly World News* claims that the moon is drifting toward earth in a slow but inexorable fall from orbit, and if something doesn't give, mankind will perish when worlds that have existed side by side for billions of years collide, possibly within the next years.

They claim that in a secret NASA report, that the moon's distance from the earth normally varies from the maximum of 254,000 miles to a minimum, of 227,000 miles, but now for the first time in recorded history, the moon is a mere 224,000 miles away, and while that might not sound like much of a variance, astronomers agree that it is a potential cataclysmic change or order in our solar system.

And it claims that secret NASA memos predict abrupt changes in our weather as the moon draws closer to the earth. Does Awareness see any truth to that?

### COSMIC AWARENESS:

This Awareness indicates that it appears the story is a cover story to explain plans for future weather manipulation so that entities do not look to the government weather modification programs as the cause of weather changes. It appears that this is simply a cover story to mislead the masses, while other activities are promoted and weather is manipulated.

This Awareness indicates there is obviously no way the public can investigate the truth of such a story. They will either believe it or reject it, but when weather begins to change, the story will then take on a greater sense of credibility and entities will presume that weather changes are due to the moon's closer proximity to the earth.

This Awareness indicates if the moon approaches earth more closely, entities can expect tides to have a higher average than in the past, and those who wish to watch the past average in relationship to future tide averages may begin to discover whether there is actually a closer relationship between the earth and the moon

## WHAT THE SECRET HAARP PROJECT IS REALLY ALL ABOUT

### QUESTION:

In relation to weather, a question from Ray D., Olympia, WA. He writes: "In the September, 1995, *Popular Science* magazine, there's an article: "Mystery in Alaska," page 79. HAARP, (which Awareness has given some information on): High frequency Action Auroral Research Program, using the ionosphere for

surveillance, 35 to 500 miles above the earth by the Air Force and Navy.

"There are 36 antennas stretching hundreds of miles across Alaska; their stated purpose is to alter local weather above an enemy, creating lens and mirrors in the ionosphere to reflect distance and absorb radio signals. HAARP is expected to raise electron temperature by 40 degrees Fahrenheit for as long as three months. (This is compared to your home microwave oven, exciting the water molecules), affecting weather conditions; floods, droughts, treacherous squalls, etc.

"HAARP is 1.7 gigawatts, 1.7 billion watts of effective radiated power in the 2.8 to 10 megahertz frequency range, which might cause lasting damage to earth's upper atmosphere. This is compared to three thousand times greater than the biggest commercial AM radio transmitters. The impact statement filed by the Air Force says this frequency can raise the internal body temperature of nearby people. It will ignite road flares in cars and trucks, detonate aerial munitions using electronic fuses, scramble aircraft, commercial and flight control systems, during the yearly 4 or 5 day transmitting scheduled."

Ray's questions are: "How accurate is this article, and what more should we be aware of on this project, the effect to earth and man and so forth?"

#### COSMIC AWARENESS:

This Awareness indicates that this Awareness has given entities information in the past on a book called *Alternative 003* in which the scientists were concerned with the so-called Greenhouse Effect, and there was seen a danger that the earth would become a place impossible for life to continue. To counter the problem, certain alternatives were studied, and one of the alternatives was to attempt to create a place outside of the earth on which much of human life would be transferred, and Mars became the target.

This Awareness indicates that a previous alternative was the belief that atmospheric explosions of nuclear bombs could create a hole in the stratosphere to allow the gases creating the Greenhouse Effect to escape outside of the earth's atmosphere, and thus there was the great effort in the Fifties and Sixties to do this through the use of atmospheric testing of nuclear weapons.

This Awareness indicates that this did not work and the entities turned to *Alternative 003* as an effort to create a new place in which much of society could be transferred. They classified entities as consumers, or as the doers, the movers and shakers of society, and those who were consumers were seen as expendable, and those who were more of the doers, the ones who could do something or would do something, were seen as potential candidates for transfer to another world, another place of existence, away from planet earth.

However, in their search for a new place, they discovered Mars as being the potential place for the new civilization, and also realized, because of the extraterrestrial influence and situation, that if they lived on Mars they would simply be sitting ducks for extraterrestrial forces, and therefore, Mars no longer had the same appeal, because they would not have time to

build-up sufficient military protection on Mars for the people they had decided to save.

This Awareness indicates they looked again at preserving society on earth. Earth was now viewed as perhaps not as dangerous as they had previously assumed, for the temperatures were not rising as fast as had been anticipated. This Awareness indicates that they began to work with other facets of science to help clean the atmosphere of earth in hopes of being able to preserve the earth.

This Awareness indicates that there were many different programs tried and experimented on. HAARP, the program in Alaska using these special wave frequencies, was intended to change the weather patterns of the earth and keep the flow of energies moving in such a way as to clean the atmosphere somewhat.

This Awareness indicates that it has recently been discovered that the radiation from the fallout of the atmospheric tests from *Alternative 001* have been slowly sinking toward earth, and that the radiation from this fallout of these tests is now as low as some of the airliners routes so that airliners flying across country may be flying within the radiation fields from the nuclear testing fallout of the Fifties or Sixties.

This Awareness indicates that this has caused great concern and is part of the purposes behind HAARP in that there is the hope and desire to use the HAARP program to keep the radiation at higher levels so that it does not continue to descend on the nation, and so that by controlling weather, controlling winds, and the vibrations that affect the weather, they can shift some of that nuclear fallout in other directions to other parts of the world.

This Awareness indicates that this is essentially what is behind the HAARP program. You may think of it as *Alternative 004*, or possibly *Alternative 005*, if there is another in between.

#### FOLLOW-UP QUESTION:

If they're shifting this fallout away from the United States to other countries, that probably means there will be cases now in other areas of the world of more radiation sickness?

#### COSMIC AWARENESS:

This Awareness indicates that this does not appear to be a threat for the near future, but that decades away it could become a threat. This Awareness indicates however, that considering the effect of the Photon Belt, this may never become a threat. The Photon Belt may simply diffuse the radiation altogether.

This Awareness indicates that it also is a possibility that the fallout will be part of what brings the earth into a higher frequency or dimension in or around the year 2000. This Awareness will look at this at a later time.

### How True is Cayce's Prediction that a Virus will Destroy Mankind in the Year 1999?

#### QUESTION:

I have a question from another recent Weekly World News story: I'll read a little bit of it:

"The owner of a recently discovered Edgar Cayce diary has admitted he altered the psychic's private journal to eliminate its most devastating entry: a prediction that a deadly virus will destroy the world in the year 1999. The change was discovered by Cayce expert David Martinique, author of the new book *Edgar Cayce and the End Times--Prophecies for 1995 and Beyond*.

Martinique says the lost predictions foretell the spread of a deadly virus, much like the fatal disease in the horrifying movie "Outbreak". It goes on, and explains how the psychic left the diary to his friend and asked that he keep it secret until October 30th, 1994, and at that time he was to release the contents to the world. Is there any truth to that story?

#### COSMIC AWARENESS:

This Awareness indicates that it appears to be partially true in regard to the origin of the diary. There appears to be some distortion about the book being given to a friend with instructions to hold it until a certain time. This does not appear to be accurate.

This Awareness indicates however, that the information relating to Cayce's prediction of the deadly virus and the earth becoming doomed in 1999 appears to be accurate. This Awareness indicates that this Awareness has indicated that new mutations of AIDS will create further threat from this virus as it becomes airborne. This Awareness indicates that it appears there are also other viruses that may be accidentally or artificially modified to become further threats to humanity.

This Awareness indicates that the virus presented in the movie "Outbreak" is not mere fiction, and there could be further manipulation to this virus to make it behave in a most threatening way, and there are entities on earth whom would like to wipe out the greater part of the population, seeing that overpopulation is a major problem for people on earth because of its extreme draw on the resources of earth, and the extreme pollution caused by excessive population.

Therefore, it is not unlikely that by the year 1999 or in some period near that, someone could intentionally or accidentally bring about a mutation in the virus that could become a threat to the population of the world. This Awareness indicates that there is a kind of race going on in which some entities are working to improve the world, to cure diseases that would normally be fatal, and some are working to create more fatal diseases and spread them as quickly as possible, thinking that the wiping out of the population might be a good thing for the world in general.

This Awareness indicates that *It* does not wish to alarm entities with such information, but it does appear that there are those who would desire to spread a population bomb for the purpose of destroying the greater part of humanity, but this Awareness also wishes to inform entities that there are those who are working to help find cures for these viruses and it is seen by this Awareness that there are many cures for many of these so-called fatal diseases coming over the horizon even now.

**Laughing Stock**

## ANY NEW INFO ON FIGHTING OFF THE NEW MUTANT MICRO-ORGANISMS CAUSING HEALTH PROBLEMS?

#### QUESTION:

This might be an appropriate time to ask this question of Luchia M., of Ashville, N.C. She writes: "Dear Awareness: please, will you offer some guidelines as to the best defensive measures we can take to prevent the acquisition of new mutant micro-organisms which are causing many health problems these days?"

As you stated in issue # 95-1, lack of sufficient oxygen is a factor. Some of us alternative health practitioners are aware of supplements containing O<sub>7</sub>, as well as DMG, SOD, Blue-Green Algae and Pycnogenols, to name a few, which can help to increase oxygen levels. Thank goodness we are still able to get Germanium, which is so helpful in dispelling the undesirable vibratory rate of such organisms, in addition to helping with the immune system.

However, some information available says that bacterium (vs. fungi and viruses) actually live on oxygen, so it would appear that it would be necessary to discern which types of micro-organisms one is dealing with, not to mention the ones which can change from bacterium to virus, to some combination of both.

Your most helpful information regarding working on changing old belief systems and meditations on ways to raise our vibratory rates to those of more compassion are very much appreciated and more information along those lines would be welcomed by many of us.

Some of us have found that using flower essences, musical toning and other such methods helpful in changing cell and consciousness configurations so as to become "out of synch" with the vibrations of the above-mentioned micro-organisms.

Needless to say that conventional methodologies do not work to counteract the effects of these micro-organisms which seem to have the ability to outsmart many methods used.

Do you have any additional information? Or possibly a combination holistic formula that you could recommend to help us stay healthier during the coming changes?"

#### COSMIC AWARENESS:

This Awareness indicates that there is considerable information, but this Awareness will not give this information until there is the opportunity for purchasing or finding the products needed, and until the products are available for entities, the release of the information simply creates difficulties, because the seeking of the products prior to their availability is of little help and does create difficulties for entities.

This Awareness indicates that it appears there will be information on this in approximately four to six weeks that can be of great benefit. This Awareness indicates that there is available at this time some beneficial products. There is that which is called Proanthocyanidins, that is essentially a water-soluble bioflavonoid source that can be beneficial in extending vitality and slowing the aging process, strengthening the

immune system and helping to curtail both viruses and bacteria.

This Awareness indicates that it is very close to that which is called Pycnogenol, but whereas Pycnogenol comes from the coastal pines, this comes mostly from grape-seeds, and coupled with the use of Co -Enzyme Q-10, can be of great benefit to the strengthening of the body in terms of its immunity in terms of combating free radical activities of the body which cause certain problems.

This Awareness indicates that the free radical is a reference to certain oxygen molecules that are not paired. They are essentially radicals or loners. They are not connected, and because they are not connected they are running loose. You could essentially call them a loose cannon in your system, and if they tie up with some other molecule that is not of a healthy partnership to that oxygen atom, or molecule, the combination can be very dangerous.

There are diseases that occur because of free radicals. The aging process is enhanced from free radicals and certain damages are done to the cells because of free radicals. This Awareness indicates that with the use of Pycnogenol or of the Proanthocyanidins, the free radical molecules are inhibited. By adding the Co-Enzyme Q-10, the central processor in your system, the cellular brain, becomes much more alive and active, and rejuvenation begins to occur in terms of your own strength and health and vitality levels.

This Awareness indicates that this can help to ward off many of the common diseases, including the common cold and including many different viruses, and can help to hinder the actions of negative bacteria. This Awareness indicates that this is available at present through the Goodship, along with information explaining this in greater detail. If entities wish to send for information on this, they may obtain it through the Goodship. \*

This Awareness indicates that there is other information being put together and there are other products being prepared for marketing that will give even further and more complete benefit in this regard.

\*The Goodship, P.O. Box 1116, McMinnville, Ore., 97128

## ARE TODAY'S "CAT PEOPLE" FORMER EGYPTIAN CAT-WORSHIPERS?

### QUESTION:

A question from Vicki T.: "Are today's cat people, or cat lovers reincarnated entities from the Egyptian time when they had cat worshipers?"

### COSMIC AWARENESS:

This Awareness indicates that this in some cases may be so, but as a general rule it is simply a matter of entities learning while children to like a cat as a pet. As children become admirers of the cat, they carry this into adulthood and in some cases, have a special cat that gives them a special feeling, and this causes them to like all cats even more than they would have otherwise.

Therefore, many entities become real cat-lovers simply because of the affection they have held for a special cat in the past, or because of their childhood

affinity toward cats. They may not ever have lived in Egypt, but they still love cats with great affection.

This Awareness indicates that most entities who have a past-life background in cat-worshipping societies will continue to carry that affection for cats into their future lifetimes.

## How Egyptian Cat-Worshipping Worked

### FOLLOW-UP QUESTION:

How did the Egyptian cat-worshipping work? Did they actually use cats in their religion somehow?

### COSMIC AWARENESS:

This Awareness indicates that it was much like the snake-worshippers of today. They focus on the qualities of the creature and take on some of those qualities through what is termed sympathetic vibration. If you sit and focus several hours daily on a picture of Jesus, you will begin to take on certain affinity and vibration of the Jesus being, to the point where you gradually feel Jesus within you.

This Awareness indicates that the worshipping of the cat led these entities to become very graceful in their movements and very alert and aware of what is occurring around them. They also learned to relax more completely, all because they absorbed the qualities of the cat in their own psychological being, and this was the purpose, more or less, of the cat-worshipping society.

This Awareness indicates you will recall also that in ancient China, many entities seeking to develop certain martial arts qualities would study special animals who had special qualities, and by focusing on these animals, would develop the quickness, the alertness, or the grace of the animal, to help them in the development of their martial arts movements

### How the Snake Worshipping Society Works

This Awareness indicates that snake worshipers tend to become attentive to this, not so much because they want to emulate the snake, but because the snake represents a great danger, which they believe tests their faith. If they have enough faith in God, the snake will not harm them, and they see the snake as being less powerful than God, and therefore, if they can be empowered by God, they can allow the snake to rest in their hands or in their arms and it cannot harm them. It will not harm them because God is with them. Therefore, the snake-worshipping society is quite different from others.

The idea of the cat-worshipping society was that if you are attentive enough to cats, there is a certain gracefulness that will spread from them to you; that cats have a certain inner strength, inner integrity, and inner quality that makes them very comfortable with themselves and very graceful in their environment, very much able to deal with anything that comes up in their environment. It was a way of strengthening one's own grace and ability to cope with the environment.

This Awareness indicates these entities would not have been inclined to enter into a dog-worshipping society because the dog tends to be too erratic, too volatile in its actions and reactions to things in the environment.

## The Bimini Road: Evidence of Atlantis?

### QUESTION:

A question from Nancy DeY., of Rapid City, S.D. I'm sure Awareness has touched on this before.

She writes: "Fifty-five miles off the coast of Florida, just off the shore of Bimini in the Bahamas, there is a feature called the Bimini Wall or the Bimini Road. You can clearly see the formation as it is under only about 18 feet of water. It is believed that this is left from the Atlantean times.

"Is this true? Was this a wall, or a road? What was its purpose? What can you tell us about it? And how does it affect a person to be in that area and to see it?"

### COSMIC AWARENESS:

This Awareness indicates that the last part of the question being answered first: It impresses the entity, and may have an effect of giving the entity a greater sense of reality of the ancient civilization. This Awareness indicates that it may strengthen the entity's belief in Atlantis, depending on how the entity interprets the vision of what is seen.

This Awareness indicates that indeed, it is a kind of wall. There is also a road-like structure there, which is made from stones, large squared stones. This Awareness indicates that these may be considered as remnants of Atlantis, but you must recognize that these are a very small portion of Atlantis, for Atlantis was not simply a small acre or less of territory: It inhabited many miles of land, spreading, as great landscape in the Atlantic ocean.

This Awareness suggests that if you can visualize Greenland being placed in the mid-Atlantic ocean, you will have a fair idea of the proportion of Atlantis to the Atlantic ocean. This Awareness indicates that Bimini is but a small portion of the lower western region of Atlantis.

## Clearing the Atlantis Crystal Energies in Bimini

### QUESTION:

Another question by Nancy: "Also, many groups have gone to the area 35 miles East of Bimini to clear the energy of the Atlantean Crystal. Have they been successful in this? What changes have they made if any?, and are the changes more within themselves? And what still needs to be done there, if anything?"

### COSMIC AWARENESS:

This Awareness indicates the changes have been mostly within the entities themselves. This Awareness indicates that there is an account of an entity who claims to have entered into a sunken pyramid, and who claims to have found a crystal inside, and who claims that he brought the crystal out, and there are stories that have been written from other entities who claimed that they saw the crystal this entity brought out, but the entity claims that he eventually took the crystal back because it didn't feel right for him to seize the crystal and not return it.

This Awareness indicates that it appears that there is truth in these claims that these entities have made. There is an area of the story that does appear vague or unclear, and that is whether the entity actually returned the crystal to the place where he claims to have found it.

This Awareness indicates that as for clearing energy of Atlantis, this Awareness indicates that it does not appear there is any need to do so. It does not appear that entities have done so. It appears that entities have satisfied a certain urge within themselves to do something related to Atlantis and that in many cases they are satisfied that they have done something of significance.

## ENERGY VORTEXES: CAN THESE ENERGIES BE CONTROLLED?

( More on the Tetrahedron )

### QUESTION:

Another question from this entity. She writes: "I have experienced the different energies of various vortices, ley-lines and star gates . The energies feel more concentrated in these areas, and I have had some very profound experience in them. Is there anything you can tell us about such areas to facilitate working in or with them? If they are all different, I request information in particular about the main vortex in the Badlands of South Dakota."

### COSMIC AWARENESS:

This Awareness indicates that these vortices appear to be energy fields that come off of the inner earth tetrahedron; that there are points within the tetrahedron that resides within the inner earth, and these shine out in certain areas of the earth's crust as vortices. This Awareness indicates that there is nothing that can be done to manipulate these energies. Entities can simply experience them and there is nothing that needs to be done to these energies, but they shine forth.

This Awareness indicates if you create a point, a cone or a pyramid, or whatever, even a corner; the ions tend to collect in those corners. These are the negative ions, and there is that which comes forth from the collection of these negative ions as a kind of energy.

### Pyramid Energies Are Essentially Negative Ions

The entity Patrick Flanagan refers to the pyramid energies and their particular value to those who benefit or use these pyramid energies. This Awareness indicates that the pyramid energies are essentially negative ions, and in ancient times, these energies coming off of the pyramid, could be seen by those out in the desert as a kind of light or aura. \*

This Awareness indicates that today, they are often photographed in Kirlian photography. From certain geometrical points, an energy comes forth that Kirlian photography can translate into an actual picture. This Awareness indicates that it is likened unto an aura, and it can be shown as not simply imagination, but as a reality, even though for most people, it will seem to be an invisible energy, and therefore many will question whether it is there or not.

This Awareness indicates that if you create a geometrical figure as a pyramid shape or as a corner or a point, the energies collect at that point as negative ion energies. This is much the same as the vortices that entities find in various places on the earth, and these energies come forth from the tetrahedron or the twelve pointed crystalline structure in the center of the earth.

\* Books and products of Patrick Flanagan are available from Vortex Industries, 1109 S. Plaza Way, Suite 399, Flagstaff, AZ 86001.

## Cosmic Awareness Likes These Questions!

### QUESTION:

Does Awareness have a closing message?

### COSMIC AWARENESS:

This Awareness is again grateful and is impressed at the nature and scope of the questions that entities have sent in. This Awareness would have expected long ago that entities would give up on trying to find original questions of interest, but This Awareness indicates that most of the questions during these sessions have been original and have been very interesting, and are most-likely interesting to the readers.

This Awareness wishes to again express *Its* appreciation for these kind of questions can be of significance to entities, not only in the present time, but in future times as these readings are represented to others in other times. It is of great importance that proper questions, meaningful questions, questions of interest are asked, or the messages will have little value to others.

(The Law of Gratitude is given)

## DID THE WRONG MAN DIE FOR THE LINDBERGH KIDNAPPING? ( Another Side to the "Lone Eagle" )

### QUESTION: 4/19/93

There was a tabloid story reviewing a book written by a police chief, who was present during the Lindbergh kidnapping, the so-called *Crime of the Century*, 60 years ago. I'm going to read a little bit of this and ask Awareness if this information is valid.

Bruno Richard Hauptmann, the man executed for the shameful kidnap-murder of the Lindbergh baby could not possibly have been guilty, because damning new evidence pinpoints the tragic tot's own devoted dad as the killer. And 60 years after the hapless German immigrant frier for the terrible crime, a top police chief accuses America's most famous flying ace of accidentally killing his first-born son while carrying out a cruel hoax on his wife and then concocting the kidnapping as a cover.

In his bombshell new book, *Crime of the Century: The Lindbergh Kidnapping Hoax*, Stephen Monier, a top police investigator for 22 years, uncovers the series of shocking clues that point directly to wealthy Colonel Charles Lindbergh's secret guilt.

Clue No.1: Just eight weeks before his son's disappearance, Lindbergh terrorized his wife with a phony kidnapping of the boy.

Clue No.2: The first call the father made after discovering Charlie had been abducted, was to his personal lawyer. Only later did he call the police.

Clue No. 3: Lindbergh produced the so-called ransom note demanding \$50,000 after the baby's nursery had been searched and nothing had been found.

Clue No.4: The devious dad then revealed some of the contents of the sealed ransom note before it had been opened by the cops.

Clue No.5: After the baby's body was found, Lindbergh ordered it cremated immediately—before a full autopsy could be carried out.

Monier, 40, now head of the Goffstown, New Hampshire Police Department says: "After 3 years of reviewing over 200,000 pages of police notes and interviewing all of the surviving witnesses, the conclusion is inescapable: Lucky Lindy was guilty!

## Russia's New Lennon and Marx!

Groucho and John honored on new Russian stamps

"He escaped detection because he was then the most famous man in the world and was so rich and powerful, he manipulated the police investigation from day one.

"The cops put him on a pedestal, ignoring the evidence staring them right in the face.

"Lindbergh planned his child's kidnapping as a joke on his wife. He put the ladder up against the window and climbed into the nursery. On the way down, he accidentally dropped the baby, fracturing his skull on a concrete window-sill.

"It was a stupid joke gone wrong, but the most famous man in America couldn't deal with the fact he had killed his own child."

Shockingly, Lindbergh's own wife, heiress Anne Morrow, first pointed the finger of guilt at her aviator husband, but the sensational revelation lay undiscovered in her personal papers for over half a century.

In an anquished letter written to her mother-in-law the day after the family nursemaid discovered the boy was gone, the weeping mother wrote: "At ten, Betty went in to the baby, shut the window first, then lit the electric stove, before turning to the bed. It was empty, and the sides were still up. No blankets taken. She thought C ( Charles) had taken him for a joke, as I did."

Monier then uncovered an even more damning piece of evidence in the case files taken from an interview with one of the family's domestic staff.

"Two months before the disappearance, Charles Lindbergh had taken the child from his bed and hidden him in a closet," says Monier.

"He told everyone in the house the baby had been "snatched". There was an uproar. Anne's feelings were terror and despair.

"Lindbergh then reappeared smiling with the baby. I discovered this was typical of his love for cruel and senseless practical jokes. Yet, amazingly, no one ever seemed to have ever questioned him or his wife over the incident."

It goes on and on, excerpts from this book with more damning evidence, and over the years, Bruno Richard Hauptmann, who was electrocuted for this crime, his parents and his children have written books saying he was innocent and he was set up and so forth. Does Awareness see the information in this new book *Crime of the Century* as being accurate? That Lindbergh himself accidentally killed his own child and allowed this innocent German immigrant to die in the electric chair?

## GINGKO & SEQUOIA AS AGE REVERSERS

### QUESTION:

One last question from Daniel T., Zephyrhills, FL. He writes: "There is a growing body of evidence that indicates that the reversal of the aging process is mediated by substances such as DHEA, melatonin and growth hormones. There is a naturally occurring analogue to DHEA that exists in Mexican yam. Melatonin is available on an experimental basis."

His question is: "Are there any sources in nature which would effectively mimic growth hormone effects on the human body, and what would be a starting dosage?" And he says: "Possible sources might be Gingko and the Sequoia."

### COSMIC AWARENESS:

This Awareness indicates that Gingko and the Sequoia are beneficial. It does not appear that these actually mimic the growth hormones. This Awareness indicates that they do, however, carry certain similar substances and effects.

The Gingko especially is beneficial for the brain, helping to enhance the brain, restoring certain vitality to the brain. This Awareness indicates it appears there is some benefit in certain natural substances that can be helpful to the countering of the aging process.

This Awareness indicates that this isn't seen in terms of a name or in terms of a particular plant or herb, but this Awareness does see that there is something out there that is useful in this regard. It appears to be something from the Orient. It appears to be something that is found in the Orient, not in the United States. It is not a familiar herb in its name.

This Awareness indicates that it appears that the name of this herb will be moving to the Interpreter within a short time and will be made available for a future reading, but it is not yet seen in terms of name or origin of the herb.

This Awareness suggests that the next question be asked, and that this can be re-examined at a future time.

### Why Awareness Can't See all the Names

### QUESTION:

Does Awareness have a closing message?

### COSMIC AWARENESS:

This Awareness indicates that there is seen that which appears to be a greenhouse in which entities can walk, and wherein entities can find many different things of interest, many different substances and plants, and the greenhouse is long and is filled with a great variety of plants and these plants have certain healing properties, and it is seen that someone calls attention to a particular need, and within the greenhouse, all of these plants are available, but none actually fits that particular need, and in walking through this greenhouse one notices at the far end a door, and goes into that door to discover another greenhouse with other plants, and that there are not only two greenhouses, but several hundred greenhouses all filled with different plants, each having different properties and that somewhere in this group there is that particular herb that is needed for the answer to the problem that was asked in the first greenhouse.

This Awareness indicates that this is essentially how some of these problems occur, wherein names are not

seen, particular solutions are not available at the moment when something is called for. It is not likened unto having a computer that simply requires the name or need be entered and it appears on the screen. Sometimes it takes energizing of minutes, sometimes it takes energizing of hours or days. Sometimes it takes energizing of weeks or months, but usually a question that is asked will gradually begin the search for the answer, even when the reading that the question was asked in has long been concluded.

This Awareness indicates therefore, *It* wishes you to understand that the search for this answer will continue, even after this reading has ended and will be eventually found and made available in a future reading.

This Awareness indicates that there are times when the Interpreter will be busy doing something mundane or just watching television or reading something from a paper, and this Awareness will come close and put something in front of the Interpreter to notice, to read or to hear, which the Interpreter was not at all searching for, but it is placed before the Interpreter by this Awareness sometimes because a question is soon to be asked in regard to that particular thing.

Sometimes after a question has been asked and the Interpreter has no terminology or understanding of the topic, this Awareness sees to it that the Interpreter is educated about the particular thing that needs his better understanding, if he is to be able to interpret properly.

This Awareness indicates in other words, the Interpreter not only has to have information from this Awareness, but has to be able to interpret that information. This Awareness may present a picture of yellow flowers from a rain forest and that may mean nothing to the Interpreter unless the Interpreter has some understanding of what these yellow flowers from a rain forest are all about.

Therefore, this Awareness is continually presenting information to the Interpreter from various sources, even when the Interpreter is not aware of it.

(THE LAW OF GRATITUDE IS GIVEN)

*"Not tonight, kitten. I hear those voices."*

## THE WISDOM OF AWARENESS

### ON THE AWARENESS MESSAGES: (80-2)

"This Awareness asks that you read the material which this Awareness presents, look at the concepts, then throw away all the words and *feel* what is meant."

### ON FORGIVING MISTAKES: (80-8)

"...Recognize the divinity within yourself that forgives and allows you the right to make mistakes."

### ON THE GOD-SELF WITHIN: (80-8)

"...the God-Self within entities does not demand perfection, it simply gives guidance and assistance so that entities may move toward perfection."

### ON WARNINGS AND PREDICTIONS: (80-8)

"...the very purpose of a warning is to rally assistance to change that which is threatening."

### ON FEAR: (84-18)

"This Awareness indicates fear is the only enemy to enjoyable experiences."

### ON UNIVERSAL LOVE: (84-18)

"...the greater love is that which recognizes the Divinity behind the mask and behind the act or role of the player, the entity who is the actor, rather than the character being portrayed: acceptance of the actor rather than the character being portrayed."

### ON CONFUSING THE CHRIST LIGHT WITH THE BODY: (82-23)

"...the Christ Light of Celestria must not be confused with the body, the flesh and bones of the entity who represents the physical Jesus, or the physical Buddha, for it is not the physical body that is of great significance, rather, it is the Christ Light expressing through these entities which is of significance, for the Christ Light as that which can come to *any* entity who is open to receive this."

### ON THE MOST IMPORTANT FREEDOM: (82-19)

"This Awareness indicates the freedom to think as being the most important freedom any entity can have, yet many entities do not realize that their freedom to think has been taken from them by past experiences, teachings, beliefs and programming..."

## WHAT IS COSMIC AWARENESS

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Interpreter for the readings in this issue of "Revelations of Awareness" is Paul Shockley.

Avaton--Editor  
Vikki T.--Sec. Treas.
