CAC General Reading # 3-9 3-10-96

## FREE ENERGY: How to Become Independent of Your Local Power Company

### QUESTION:

Awareness, we're here for another CAC general reading. Does Awareness have an opening message?

### COSMIC AWARENESS:

This Awareness wishes to discuss what may be another major change in the course of human history. This Awareness indicates that this has been briefly mentioned in previous readings from CAC, but has not been elaborated on. This Awareness indicates that this has to do with what could be thought of as free energy. This Awareness indicates it is a way of making electricity at a much reduced cost, compared to the way electricity is made by the power companies.

This Awareness indicates that this was discovered some ten or more years ago by entities working with solar and refrigeration units, wherein the entities found that solar panels could be used to heat water, but began to think in terms of using refrigerants in the panels instead of water in the solar panels because refrigerants in some cases, can be made to boil at temperatures below freezing; in fact, some of these refrigerants would boil at 40 degrees below zero, and the boiling process could be used to drive a turbine with these refrigerants, to make the turbine produce electricity.

This Awareness indicates that the entity making this discovery and working with it eventually began to build an organization and put ads in the newspaper in the Seattle area, offering to help entities become independent of the power companies, by installing a box on their roofs which would produce enough electricity for their home, and to their neighbor's homes.

This Awareness indicates the power companies immediately came down on the entity and accused him of fraud and tried to put him out of business, eventually leading to his arrest and the confiscation of all of his research and materials, without even so much as a hearing on the subject. The newspapers were brought in to help convict the entity, in the mind of the public, of being a fraud operation, though there was no evidence that he had even taken any money from anyone at the time.

The entity then left the Seattle area, began working in New Hampshire, and the Seattle authorities contacted the authorities in the area of New England where he had moved to and caused him similar problems there, and the entity finally moved to California and began making a plant for manufacturing his panels in that area. The same thing occurred there, and the entity was again brought to court.

By this time, he had scientists with strong credentials attesting to his work as being authentic and the authorities in California threatened the scientists, telling them that if they testified, their lives and their families' lives would be in jeopardy. Thus, these well-known scientists were frightened off, and one left the country to avoid further problems, but after approximately one year, he came back to testify on behalf of the entity, saying that he simply could not continue to run away from what he saw as his duty.

Therefore, the court was unable to convict the entity of any fraud and the entity was then released, but was called back to court several months thereafter because he went back on the street and again began telling people how to build these devices for their homes. The entity being brought back into court was told: "Do you know why you are here?" He answered "No, I do not." The judge

explained: "You're here to be sentenced." He asked: "How can I be sentenced when I haven't been tried or found guilty of anything?"

### Sentenced to Two Years in Federal Prison Without a Trial

The judge explained, "You see that man over there with the handcuffs? He simply walks over and puts the handcuffs on you and they take you off to prison for whatever length of time I tell them to hold you!" And thus, he was escorted into prison without a trial, and served two years, being released at that time on parole. The entity then finished his parole and was off of parole for some time, and then they reinstated his parole, which is unheard of, but the entity was then again said to be on parole, and any further discussions of the free energy projects would bring him back into prison, for violation of his parole.

### New Ads and Seminars Presented March, 1996

This Awareness indicates the entity took out ads in *USA Today* during the month of February and announced the various cities that he would be lecturing in on the free energy, and that he would end up in Washington DC on the 5<sup>th</sup> of march, presenting the information to the government agencies, at the FBI, CIA, Department of Defense. The President and all Congress and Senator-persons would be invited to this lecture.

The seminars were free of charge and the entity went forth giving these seminars, knowing that his activities were violating the parole that had been issued in the state of California. This Awareness indicates that the intent of the entity was not to destroy the power companies, and he explains clearly that the power companies and the gasoline and petroleum companies control such a huge amount of the economy, that their collapse would bring about a crisis to this country, including a crisis to the world economy, and therefore, many of the authorities saw him as security risk for the nation and the world.

### The Inventor's Ideas Could Destroy World Economies

This Awareness indicates that his discoveries could trigger the loss of trillions of dollars in the economy if people stopped paying their power companies or their gas companies and developed these free energies for their own vehicles or for their homes, and thus, the entity was seen as a threat to society in general. This Awareness indicates it was not that he had committed a crime, but that his ideas could destroy the economy of this, and other countries.

Essentially, it would destroy the economy of the power companies and those oil companies that feed off of the masses for the energy provided.

This Awareness indicates that the entity realized that he had to work *with* these companies, rather than against them, and thus, his intention in going back to Washington DC, was to find a way to work with the companies and to help the companies make money in a different way, while giving the energy to the masses.

### How an Automobile Runs on Free Energy

This Awareness indicates that before going further, this Awareness wishes to briefly explain some of the further applications of this entity's thinking to power vehicles with closed energy systems. By 'closed energy systems', this means no exhaust whatsoever.

By putting refrigerants into an engine, in which there is enough warmth to cause those refrigerants to boil or expand into gas from liquid form, a piston can be caused to move, and the compressed gas or liquid of a refrigerant, being expanded into gas through ordinary temperatures, which might be below zero, or above, can cause the refrigerant to expand greatly to the point where it pushes the piston, which in turn can move energies, and once the

piston has been pushed, the gases then, having no pressure on them, condense.

Thus, the condenser becomes part of the engine. They can condense and return to liquid or to the uncompressed gas, and fall into a storage place to be reused, so that there is no need for exhaust, and thus, pollution is eliminated.

#### **Working Models Being Shown at Seminars**

This Awareness indicates that this concept is more than just an idea, for in his seminars and lectures, he had working models available and running for the viewers, for the audience to witness, and these were made to work on Chrysler engines so that he could modify an ordinary Chrysler engine, using his system, to make it run on the refrigerant gases without having to create an entirely new engine for automobiles.

This Awareness indicates that the entity further found certain elements that could be made to hold high amounts of heat, in terms of hundreds and thousands of degrees of heat in the substance, which could be then put into a container that would not allow heat to pass through it, so that it became likened unto a thermos bottle, with thousands of degrees of heat inside.

The entity also found, through some of his scientific associates, a way by which this could be encased in such tough housing, that even in a crash, the heat would not explode, would not get out, and would be perfectly safe. Therefore, the entity found a way by which heat could be stored and could be used to help run these engines, if heat was needed.

#### **Usable Heat can be Stored for Months**

This Awareness indicates that the heat also could be taken on camping trips, whereby entities could use that heat for cooking for months at a time without renewal. This Awareness indicates that all of this was explained in terms of the way by which it worked; the names of the elements and the devices that were used, and how they functioned, so that an engineer or a scientifically minded person, and even laymen who hardly knew anything about mechanics could understand the general principles involved.

This Awareness indicates that there was nothing mysterious about it, and the entity even provided drawings and diagrams and explained how these things could be purchased from hardware stores to be made by individuals, if they so wanted to install such things on their homes. This Awareness indicates that the entity also offered the audience the opportunity to have these things installed by his company on their homes and to pay back the company for the installation as energy was saved.

#### **How a Family Will Pay for Installation**

In other words, if the electric bill of an individual's house ran so many hundred dollars per year, any savings from that amount would be paid to his company for the installation of his device on their roof, and over a period of years, would pay off the installation and the cost of having the device put on the roof of the home, from the money that was saved by avoiding the electric company.

#### **The Compromise with the Power Companies**

This Awareness indicates that in his approach in Washington DC, to the electric and power companies and the agencies of government, he maintained his offer with the suggestion that the people who owned stock in the electric company could trade their stock for stock in his company, and therefore, the electric companies could own his company on the condition that these devices would be installed in this manner on the homes of people across the country without further charge, and that the stock in the electric company, being traded to his company, would

allow his company to also help the electric and oil companies to find other ways by which to earn further money.

#### **Oil Would Go Into Plastics and Save Forests**

This Awareness indicates his idea was that the oil companies could create plastic from the oil to substitute for wood taken from the cutting of timber, and thus producing siding and plastic beams for home-building that would never wear out in the way wood does, would never need to be painted, and would never have termite problems, and that the oil companies, in switching to textile for clothing and wood-substitute plastics, could earn just as much, if not more, from the oil and petroleum than by burning it and polluting the atmosphere with the noxious gases and residue of the petroleum.

#### **A Non-Polluting Trash Burner**

This Awareness indicates that the entity, making this proposal, still is planning to be of help to both sides: the public and to the power barons, so that the pollution on the earth can be reduced and eventually eliminated. This Awareness indicates that he has other types of inventions, such as a kind of trash burner that would fit in the basement, no larger than a small refrigerator, but which can burn almost anything, such as glass, rubber, wood chips, or plastics or other substances that would normally pollute the atmosphere, but wherein no smoke or noxious gases escape from this trash burner at all.

#### **Books and Non-copyrighted Videos now Available**

This Awareness indicates that the entity has made numerous tapes from his various lectures and has several books written which he made available at the seminars. This Awareness indicates that the material for the video tapes are not copyrighted, but entities are encouraged to view the videotapes, then send for copies of their own, so that whatever money is earned by his company can go into making more videotapes for more entities to spread the information and to educate the public.

This Awareness indicates that there will be more information coming from this Awareness on this subject in future readings. If there are urgent inquiries at this time, entities may contact the Interpreter at the Goodship for information on how to borrow copies of the videotapes that contain the seminar material and on these videotapes, entities can see these devices working, and how they work, along with the diagrams on the sources of material and of further information available from this entity and his company.

This Awareness indicates that the Interpreter has several copies of these videotapes and has decided to make them available on a loan. Of course, entities are free to make copies of these videotapes once they have been on loan. It is suggested on the tapes that they may wish to purchase more information or purchase other tapes to loan to their friends and to their associates also.

The spreading of this information is a key to helping to change the structure of the power system so that more and more people become free from the controls of the power barons and free the earth from the pollution involved. This Awareness indicates for example, the power lines that run around the country create radon gas, which is cancer causing, and which is very harmful to people.

#### **The Secret Tax You Pay to Politicians and Oil Barons**

This Awareness indicates that it is not well-known, but there is a tax on energy such as electric bills and gasoline that is used strictly for the benefit of Congressional and Senatorial entities so that they will vote in favor of electric and power companies and the petroleum companies in their lobbying for different rulings. This Aware-

ness indicates that it is a form of bribery, and yet it is also a tax against the public for the energies that the power companies offer, and it assures the power companies that they will always have the vote of Congress and the legislators and the Senate for anything that they desire.

#### **This Information Needs to be Spread Far and Wide!**

This Awareness indicates that this is yes, indeed, a conflict of interest, but nevertheless it is there, and this explains why the power companies can afford to put people out of business who become competitors in this way. This Awareness indicates that *It* wishes to help spread this information so that the people can begin to have a better chance of surviving in the future with a greater opportunity for free energy.

This Awareness wishes to point out that the energy is not exactly 'free'. It is taken from the sun; it is taken from the temperature of the environment, but even in cold temperatures, heat can be produced using these technologies, and it is all explained clearly on these tapes.

#### **Who is This Guy--Nicola Tesla?**

##### **FOLLOW-UP QUESTION:**

Who is this entity? It sounds like Nicola Tesla has returned!

##### **COSMIC AWARENESS:**

This is not Nicola Tesla. The entity is working for a private company. The name of the entity is unclear at the moment. This can be provided by the Interpreter from the material that is in his possession. This Awareness indicates that it is a relatively brief name, but it simply is not clear at this moment. This Awareness suggests the Interpreter provide this information by telephone when he returns to his home; also the name of the corporation. This Awareness indicates it is different from the Tesla material in that it is using refrigerants.

#### **Will Null Zone Effect These Energies?**

##### **QUESTION:**

Will this energy created be affected by the null-zone energies?

##### **COSMIC AWARENESS:**

This is possible for it to be affected for a short term, because electricity requires a turbine or armature to be turned, creating positive and negative energies, and anything relating to the positive/negative energies could, during that null-zone, which is supposed to be approximately five to seven days, could be affected during that time, but it would not be for more than a very brief time and the engines for the automobiles would not be affected by the null-zone because they are enclosed and do not rely on electricity to run such engines. They work more like that of the steam engine, but rather than using water to create the pressure of steam, these would use refrigerants to create pressure to drive the pistons, to make the engine turn.

#### **Ozone "Crisis" Used to Take Freon Off the Market**

This Awareness indicates the entity also pointed out that the reason the refrigerant Freon was taken off the market was to attempt to assure that this use of Freon would not be available for these engines that this entity was working with, and that the ozone crisis which was used as an excuse for taking away the Freon energy was false, because Freon doesn't rise into the atmosphere, but is heavier than air and would sink and fill the Grand Canyon rather than going up into the atmosphere.

This Awareness indicates the entity also noted that as soon as Freon was taken from the market, the Dupont's, who put out the Freon, had another refrigerant which sold for ten times the amount and worked just about as well as

the Freon, and that this substance can also be used in these engines, so that nothing has really changed, except the price of the refrigerant, and that in his engine it doesn't matter if the initial cost is ten times more expensive because it is not burned or lost anyway. Whatever amount is put into the engine remains there and is recycled over and over and is not discarded in exhaust or released anywhere in the atmosphere.

##### **FOLLOW-UP QUESTION:**

So that whole scare-story they put out about Freon was actually a hoax?

##### **COSMIC AWARENESS:**

This is correct.

#### **Problems With The Ozone Layer**

##### **FOLLOW-UP QUESTION:**

But that doesn't mean there isn't problems with the ozone layer.

##### **COSMIC AWARENESS:**

This Awareness indicates that it appears the ozone layer has *always* had holes in the area near the poles, but it was only recognized in recent times. It appears that these holes near the poles are caused by certain currents that flow from the poles into the atmosphere; these being electric currents or electromagnetic fields that flow from the poles up into the atmosphere and cause a spreading of the ozone, and that these ozones in the higher regions simply open up for those currents of electromagnetic energy.

This Awareness indicates the question may be asked: If there *is* ozone in these higher levels, why doesn't *it* sink to the Grand Canyon? This Awareness indicates that the ozones in those higher levels are generally created in the atmosphere by forces that create a lighter-than-air type of ozone and that the Freon that is created is that which is heavier-than-air, and the ozone is not heavier than air, but is not affected by Freon, for the Freon does not rise to those heights.

#### **Will the Inventor be Successful?**

##### **QUESTION:**

Well, does it look like to Awareness that the entity is going to be successful and is able to work with these oil barons and be able to make this available to the masses?

##### **COSMIC AWARENESS:**

This Awareness indicates that the approach the entity has used in spreading the word to the American people, in educating the American people to this technology, in letting the American people have the diagrams and designs for these instruments and motors and devices, is that which leaves little opportunity for the power barons to destroy the information. Too much information has been released, too much detail is available to anyone with an inventive mind, or anyone who is mechanically inclined.

This Awareness indicates that there would be within a short period of time, great numbers of people building these things for themselves and for their friends and neighbors, even if the power barons do not cooperate, and therefore, there is a good chance that the power barons will cooperate; however, it may be necessary to use some strong persuasion before they realize their exclusive control over energy is at an end.

#### **Does this Device Produce AC Current?**

##### **QUESTION:**

Then for all of the household appliances that entities have, this new device would have to produce alternating current, would it not?

**COSMIC AWARENESS:**

This is in the affirmative. This Awareness indicates that it is capable of producing in a box of approximately 6 by 6 by 6, enough energy to run three households.

**QUESTION:**

So essentially, then if one family installed one of these devices and made a deal with the neighbors on each side...

**COSMIC AWARENESS:**

Or with the electric company to send power back to the electric company, so that the electric company did not have to buy more power from the nuclear plants. It can also benefit the electric company. Continue.

**QUESTION:**

Well, I was just thinking that by the original family installing the unit and extending lines to the two neighbors and charging them a certain fee which would go to pay off the developer, that they would be able to pay for the installation a lot sooner.

**COSMIC AWARENESS:**

This is in the affirmative.

## HOW COULD JUDGE SENT HIM TO PRISON WITHOUT A TRIAL?

**QUESTION:**

Can Awareness explain how that judge got away, without a trial, sending that entity to prison?

**COSMIC AWARENESS:**

This Awareness indicates that this is the same way that judges are bribed by people with unlimited amounts of money to do other things that are not legal. The Hildebrand and Scott cases are similar, wherein the judges simply make their rulings in spite of the enormous amount of evidence against those rulings, because they have been paid to do so.

**QUESTIONER:**

But that's unconstitutional!

**COSMIC AWARENESS:**

This is in the affirmative.

## Where is the ACLU When We Need Them?

**QUESTION:**

Where is the American Civil Liberties' Union and a good lawyer in those cases?

**COSMIC AWARENESS:**

There can be good lawyers involved, but if a judge has the power to do so, and is paid by the powers that control a community, then that judgment stays. If an entity wishes to appeal he will need to have enormous amounts of money to go through sufficient court procedures to try to overturn the ruling, or to complain about the way the court proceeded, but if the records for that trial are destroyed or otherwise hidden, the chances for the entity to have a fair hearing get hindered also, and there are ways whereby entities can simply use power in place of law.

### Inventor Goes Public to Avoid Being Murdered

This is not something new. It is something that is rarely used in your society in civil matters or even in criminal matters, but when it comes to someone challenging the really big boys, the banking establishment or the power barons, there is not limit as to what kind of coercion can be used, even to the point of murder. This Awareness indicates this entity has had his life threatened. This Awareness indicates that there is always that potential for killing him, but he decided long ago that his best way to avoid being killed was to go public as big and as fast and as far-reaching as possible, so that the public would know him and understand what happened if he was to be killed.

## Are There Houses Using This System Now?

**QUESTION (VIKKT):**

Are there at this time houses that are using this system?

**COSMIC AWARENESS:**

This Awareness indicates according to this entity's information, this is in the affirmative. This Awareness indicates that this is on the videotapes, along with the precise scientific explanation of how these things work. The truly advanced technological specialist is given information that would satisfy his or her examination and inquiries, but it is also presented in a way that the average person can likewise understand the general principles involved.

There are tables and charts in terms of the amounts of energy produced and temperatures involved, et cetera, to the most detailed specifics that an entity would require, and there are the overall general explanations so that those who cannot grasp the specific details can understand the general principle of how these things work.

## Will Solar Panels Work in Cloudy Areas?

**QUESTION:**

These solar panels will work even in places like the Northwest, which has a majority of cloudy days as against sunny days?

**COSMIC AWARENESS:**

This Awareness indicates that the refrigerants boil at 40 below zero and therefore create the necessary heat for making electricity and even if there is snow on the panels, even if there is freezing cold such as 30 below, it can still create electricity.

## Will an Automobile Require a Solar Panel?

**QUESTION:**

Does the device, when being used in an automobile, have some sort of external solar panel?

**COSMIC AWARENESS:**

This is not based on the same use. It needs no solar panel in the automobile. It is based more in terms of a steam engine, but instead of using water to make steam, it uses liquid refrigerants to make gas, and the gas presses, just as the steam presses on the piston.

### Engine Requires No Maintenance for 250,000 Miles

The entity demonstrates in his seminars the running of such an engine without any fuel being put into the engine via carburetor and without any exhaust coming out; simply by the opening of a valve to let the refrigerants in. This Awareness indicates that the entity also explains that these engines do not have the high heat of gasoline engines and therefore, do not need as much lubricant, needing only a small amount of lubricant, and the entity also noted that there was a kind of lubricant available that allows these engines to run a quarter of a million miles without any maintenance and that the life expectancy of the engines would be approximately a half-million miles or more.

## This Invention Will Save Our Environment!

**QUESTION:**

Well, that invention does indeed sound like it can alter our history, clean up the environment, stop the cutting down of the old growth, and probably create thousands or maybe even millions of jobs around the world.

**COSMIC AWARENESS:**

This is in the affirmative. This Awareness indicates just changing engines in entity's cars, adapting them for this new technology, would create an enormous industry.

## How to Get Full Information On These Free Energy Devices

### Ed's Note:

Before CAC would publish this reading, I did some extensive research. It seemed too good to be true. Also, why was the inventor not killed like so many others in the past who invented free energy devices? As it turns out, there were attempts on his life, many threats of destroying his family and false imprisonment for several years.

The entity's name is Dennis Lee and he has formed a huge company called Better World Technology. However, since he is still on "parole" and starting a business would put him back in prison, he turned it all over to others so he doesn't own anything and doesn't sell anything. However, the products are in production, a farm pump unit is already being marketed. The home unit, which essentially is a "super heat pump" are also in production and announcements will be forthcoming concerning this and numerous other products he invented, all based on the sealed refrigerant principle which he discovered after "God" spoke to him one night.

The Interpreter told me his two videos were copies of copies and not too clear, so I ordered a set of new videos from the company, (very sharp and clear) along with a 200 page book called *THE ALTERNATIVE: a True Story, with Solutions to America's Most Pressing Problems*, by Dennis Lee. The book tells the entire incredible story to date, complete with pictures and documents. The book is required reading for those who wish to become dealers. There are also very revealing chapters on the Illuminati, the New World Order connection, names of the families who own the Federal Reserve, etc. (It sounds like it came right out of Awareness readings!) Price: \$19.95 plus \$3.00 shipping and handling from address below.

## Hand Tremors and Facial Rashes

### QUESTION:

Thank you.

Now for some questions. A health question from Esther H., St. Ignatius, MT., which sounds rather urgent, or I wouldn't ask it. She writes: "In issue 96-1, you answered a question to a lady concerned about her hand tremors

being caused by toxicity tied to the Photon Belt, et cetera. You assured her that in her case, it was not the cause.

"I have been experiencing hand tremors, and also, much more to my concern, a facial rash around nose and mouth which has persisted since April of 1995. Everything has been tried, from allopathic creams and lotions, including cortisone. One prominent dermatologist in the area finally said, "At your age, you will have it the rest of your life!"

"I refuse to accept his opinion and turn to alternatives. I have tried Cayce's Castor Oil, Tea Tree Salve, Pitch Salve, various vitamins, selective eating in case it was allergies, secret Native American Salves; even urine. Nothing helps. The space syrup you wrote about doesn't help. I am really desperate. Any help on the rash and the tremors, which may or may not be tied together, would be most gratefully appreciated."

### COSMIC AWARENESS:

This Awareness indicates that it appears there can be benefit from the use of Beta Carotene for anything of this nature associated with the skin. This Awareness indicates that drinking aloe vera juice can also be helpful. This Awareness suggests that two ounces daily should be sufficient. This can be put into fruit juices. This Awareness suggests that you avoid citrus fruit juices however.

This Awareness indicates that in regard to the tremor, that there is seen a benefit in using calcium and magnesium combination, with the magnesium being approximately two parts magnesium to one part calcium; this for approximately one month. This Awareness indicates there is also some benefit seen in consciously causing your hand to tremor. By becoming conscious of the tremor and mentally working with it, you gradually gain control of the nerves and energies that cause the tremor.

### An Exercise for Eye "Tics" and Tremors

This Awareness indicates that this also is beneficial for entities who have what are called tics, wherein an eye, for example, might flutter uncontrollably. Wherein this starts to happen, immediately try to flutter the eye and your mind begins to control that involuntary action. Repeat this every time there is the tremor or the fluttering, and gradually your mind begins to take more and more control so that it is no longer an involuntary action, but becomes subject to the mind itself.

Thus, when your hand is trembling, mentally tremor the hand so that your brain is involved in making the tremor happen. This is a way of gaining control over something that is normally involuntary.

## WHAT IS THE "GREAT ATTRACTOR"?

### QUESTION:

Stephen M., in New Jersey, sent in a little article from the new York Times, from February 13<sup>th</sup>, 1996, which I'll read, and then he has a question.

It says "New Evidence is found for the Great Attractor. Astronomers have found new evidence for the existence of the Great Attractor, a huge region of matter that is drawing in the Milky Way galaxy with its gravitational pull.

The region in earth's Southern sky is a vast area of galaxies and unseen matter that is more dense over all than the surrounding areas. It was called the Great Attractor after scientists noticed galaxies streaming toward it. Now astronomers have sighted a massive galaxy cluster that appears to be at the Great Attractor's core.

"Scientists had predicted such a concentration of matter there, but had not found one before," said Dr. Renee Korteweg, an astronomer at the observatory of Paris Meudon, outside Paris.

She and her colleagues reported the finding of the current issue of the journal Nature. Some scientists believe the existence of the Great Attractor has been proven already, but to most people who are not expert in the field, the new finding "will make the whole Great Attractor picture much more plausible," she said.

Scientists had known of the galaxy cluster before, but had not realized it was so wide, or massive. That is because much of its light is blocked by dust in the Milky Way.

The study also found evidence that the cluster lies at the Great Attractor's core. The cluster is about 300 million light years away in the direction of the constellation Norma. It contains perhaps ten percent of the great Attractor's mass.

"Dr. Alan Dressler, an astronomer at the Carnegie Observatory in Pasadena and a co-discoverer of initial evidence for the Great Attractor, said the new finding "strengthens the case for the Great Attractor."

And Stephen's question is: "I was wondering if you'd ask Awareness what the Great Attractor is? Does it have any connection to the Photon belt energies, and why is our galaxy and others streaming toward it?"

#### COSMIC AWARENESS:

This Awareness indicates that this is likened unto an enlarged version of the Black Holes that became recognized in the past several decades. This Awareness indicates that a Black Hole is that which has a strong gravitational pull and draws in anything that comes near, including light, so that it appears black, because light does not escape from it. Light is being sucked into it.

This Awareness indicates that anything that goes through a Black Hole becomes so condensed by the gravity that an entire planet could end up being the size of a golf ball when it passes through the Black Hole, but it also comes out on the other side, and in coming out, everything expands again into larger sizes.

#### The "Big Bang" Theory of the Universe

This Awareness indicates that much of the universe that is known by consciousness as being part of the expanding universe is actually on its way out of a similar condensed state of being. This Awareness indicates that the astronomer Hoyle spoke of the "Big Bang" as the origin of the universe. This Awareness indicates that he saw everything expanding outward from a source in the ancient past, billions of years before, and saw that the universe was coming out of some point, and it was likened unto a big explosion.

This Awareness indicates essentially, it is similar from this same phenomenon except from the other side. This Awareness reminds you of a statement made previously that 'Nature abhors a vacuum.' There are vacuums created, caused by magnetism, and the magnetism is such that it draws things in and eventually must let them go outward, and this Great Attractor is similar to that of the Black Hole, whereby it pulls on galaxies, not simply on stars and planets, as are theorized about Black Holes within the galaxy.

This Awareness indicates that it will eventually become recognized that these magnetic fields are equally balanced by radiant fields. This is what Ancients referred to when they spoke of water and fire; water being the magnetic field, and fire being the expansion or radiant field of energies; and air being that which is in-between in the movement to and from magnetism and radiance.

This Awareness indicates the Photon Belt is not associated with this any more than are other things in the galaxy, although everything can be affected by this at some time in the future.

## Was Atlantis in the Fourth Dimension?

(Was the Alien Force Withdrawn at That Time?)

#### QUESTION:

A question from Tom K., in Santa Clara, CA. He writes: "Given that the earth solar system in its 25,960 year cycles, has passed through the fourth dimension and then returned to the third dimension obviously many times in its existence, suggests that our physical system rotates about an axis, probably the center of our galaxy, and that within the environment of this rotation, there are "fields" of energy which raise the vibrations of the system and then lower the vibrations, corresponding to the vibrations of the fourth dimension and the third dimension during its transit.

"My questions would be about how these dimensional periods have affected the entities living within these periods. Awareness seems to have indicated that in the period following approximately the year 2012, the alien force will be withdrawn from its influence of earth. Was it similarly withdrawn during the later Atlantean period, when earth must have been in the fourth dimension?"

#### COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates that the time of the building of the pyramids, which was after the fall of Atlantis, began the fall of consciousness. This Awareness indicates that this was in the Age of Leo, and for the time period following that, down to the beginning of the Piscean Age, the energies became more and more condensed and magnetized, so that entities' consciousness focused more and more on self, rather than on others, and the expansion of consciousness began at the beginning of the Piscean Age, but it took throughout the entire Piscean Age before enough expansion occurred to allow entities to recognize that there is a greater importance in love than in seeking security.

#### Personal Gain and Security Part of the Fall of Consciousness

The seeking of personal security and personal gain was part of the fall of consciousness, the turning inward on self, the development of self, the promotion of self; but wherein consciousness begins to expand, entities look outward and recognize the importance of others and begin to embrace the world and others around them psychically, and in their consciousness, so that the consciousness begins to recognize a kind of expanding experience, and this is the beginning of the awakening of consciousness into the more expansive dimension, or dimensional shift.

#### A Visualization to Understand the Fall of Consciousness

This Awareness suggests that you visualize an image with this Awareness for a few brief moments. Visualize that there is that which is fog or steam in appearance; that this fog or steam is magnetically charged. Perhaps it has some kind of metallic quality to it, so that upon the introduction of a magnetic into its midst, the fog or steam begins to condense, condensing into drops of water, for example, and this fog or steam being condensed into drops of water is at its lowest level of vibration. In fact, it may even condense on down into ice or crystals, and this becomes likened unto a comparison for consciousness.

Imagine consciousness having been expanded out into a broad field, but is then condensed down into crystals of self, and this selfishness of consciousness becomes the lower level of its cycle, but it then begins to vaporize and become expansive again, and when it expands enough, it merges with all that is around it, and thus, likewise, the consciousness of entities begins to expand in such a way as to have greater awareness of what is occurring around them.

### How Consciousness Fell Through the Various Ages

This Awareness indicates that the end of the Age of Leo reaches the Age of Cancer, and it is during the Cancer Age that the fall of consciousness, the contraction of consciousness starts to occur. In the Gemini Age it moves further; in Taurus, which was the Age of the Golden Calf; and in the Age of Aries, which was the Age of David and the early Hebrew era, and into the Age of Pisces, which was the early Christian era, consciousness fell to a deep concentration.

It begins to rise again in the Age of Aquarius, Capricorn, Sagittarius, and during these times, particularly by the time of the Age of Sagittarius, entities will begin to understand totally the whole nature of creation. The entire act of Cosmic Creation, Universal Creation will be clearly understood by entities.

In the movement into Scorpio, life and death will still be well understood, but there will be the recognition that the fall of consciousness into death is simply a transition into another state of being. This Awareness indicates it was during this time that the mummification process was first introduced into Atlantis. This Awareness indicates that then Libra and the laws and rules of Creation are fully clarified and understood during that age, and then into the Age of Virgo, wherein a clear analysis of everything and the understanding of cause and effect, and the creation of things from the energies of the universe will become playthings to humanity.

This Awareness indicates then again the movement into Leo, wherein the Sun Worship or emphasis on the sun as a life source becomes a major part of the understanding and science of humanity. Humanity by this time may have gone through several changes in terms of dimensional embodiments so that the ethereal bodies may have, during some of this time, been the dominant body. During the Age of Cancer, the ethereal body begins to become more solidified and more physical in nature.

This Awareness indicates there are of course always some physical bodies that survive through these times without undergoing great change: these being mostly through those unevolved entities whose consciousness cannot quite adjust to the higher frequency. This Awareness indicates that in the Age of Cancer, the concept of a beetle rolling up a ball of dung represents the wrapping of energies around the physical body to give it a more solid quality, and the Age of Gemini, the Twins, represents a time when there is a balance between the physical and the spiritual, and both are recognized as equally present.

This Awareness indicates then gradually, in the Taurian Age, the physical becomes dominant, and in the Age of Aries, the physical is spurred by spirit to act out in a very aggressive way, though it remains physically embodied. In the Age of Pisces, the physical body becomes less important than the emotional body, and entities' emotions then begin to take over their awareness to the point where they still have the physical body but their thoughts have much more to do with their emotions than with their physicalness.

This Awareness indicates in the Age of Aquarius, the entities begin to recognize themselves as vibratory beings in which there is the physical, the spiritual, and all kinds of energies coalesced together that are part of a consciousness, and this may become more crystallized in the Age of Capricorn, wherein entities truly begin to think of themselves as agents of God or representatives of the Divine.

This Awareness indicates that in some cases, the entities will feel totally lacking in this, and others will feel totally involved. Such entities may become megalomaniac

in their view of their Divinity. Others may become humiliated in feeling they are not One With God, or that they lack Divinity, but there will be the extreme focus and concern on the self during this time as a spiritual being in regard to a kind of evaluation that occurs among the humans experiencing the Age of Capricorn.

Sagittarians, following the Capricorn Age will become more accepting of the spiritual energies and it will become the more important focus; that the focus on the spiritual energies will become far more important than anything of a physical nature during those times. This Awareness indicates that this will be close to the year 6000, when this begins.

### What Happens When the Solar System Draws Closer to Sirius?

#### QUESTION:

Tom's question continues. "Further, Awareness has indicated that through the influence of the entities of Sirius, the solar system will be drawn closer to Sirius. How does this affect this assumed cyclic dimensional shift?"...

#### COSMIC AWARENESS:

This Awareness does not follow the reference to this cyclic dimensional shift. Which cyclic dimensional shift does the entity refer to? Does this refer back to a previous question?

#### QUESTIONER:

Yes. It refers back to the question Awareness just answered about the cycles, through the fourth dimension and back to the third.

#### COSMIC AWARENESS:

This Awareness indicates that it does not appear to have any particular effect on this. It is simply a movement of the solar system in regard to its place in the heavens, in relation to planets into star systems. It does not throw it off course entirely. This Awareness indicates that it *does* create a kind of diversion from its general course, which is relatively temporal, as it moves in closer proximity to the star system of Sirius, but it *does* change and move back from that position during the coming age.

This Awareness suggests the question continue.

### That 1000 Years of Peace Predicted

#### QUESTION:

Tom asks: "What of the projected 'thousand years of peace' which has been suggested?"...

#### COSMIC AWARENESS:

This Awareness suggests a pause. The 'thousand years of peace' suggested by whom, by what? This appears to be a reference to some Biblical prophecy. This is not clear.

#### QUESTIONER:

Okay. "And what of the projected 'thousand years of peace' which has been suggested, after which the alien force will be allowed influence?"

#### COSMIC AWARENESS:

This Awareness indicates that this suggestion of the alien force being allowed influence; that this is also some reference the questioner understands, but which has not been made clear, and this Awareness does not see the source of this questioner's information, nor does it see this as being substantiated by anything. This Awareness indicates that a 'thousand years of peace' also followed by 'alien influence' is not seen as anything that this Awareness has previously indicated. Therefore, this entity is mixing information from other sources in question, presuming that the information that he has drawn is part of a reality that this Awareness understands, and this

Awareness does not recognize what the entity is referring to.

This Awareness suggests the rest of the question may be stated.

## PERIODS OF DIMENSIONAL SHIFTS FROM PAST TO PRESENT

### QUESTION:

Well, it seems like it's just as confusing. But he has one other question, that I think Awareness just answered this one during this session, but I'll read it. "Awareness indicated that the Age of Aries was the low point of the lower vibratory frequency, and yet, some 2100 years later, at the Age of Aquarius, we are approaching the fourth dimension. Frankly, I am confused. Would Awareness please clarify the periodicity of these dimensional shifts and the relationship to the Ages and the effects upon previous civilizations such as Atlantis and Egypt which *It* has spoken frequently about?"

### COSMIC AWARENESS:

This Awareness indicates that terminologies such as 'fourth dimension', 'third dimension' et cetera, are those which are commonly thrown about without any clear definition and entities speak of not only third and fourth dimension, they also speak of third and fourth and fifth densities, and these have not been clearly defined either. This Awareness indicates that therefore, entities should not get too concerned about these terms because there is no standardized definition for the use of these terms.

There are 12 vibratory houses in the 25,960 year cycle. These are called Ages. There are not simply two or three or four dimensions; there are different vibratory rates in each of these 12 signs or Houses or ages, and to switch into the Aquarian Age is that which creates a different vibration that is composed of certain frequencies of a particular nature that lead away from imagination of the Piscean Age, which is a water sign which has to do with emotions and a water element in terms of positive, negative, neutral, and stability, or fire, earth, air and water.

The Piscean age is that which is water, and therefore is associated with intuitive and imaginative energies. The Aquarian Age is that which is Air and has to do with a frequency associated with telepathy and higher consciousness and knowledge; the act of knowing as opposed to believing, and it can be referred to as a different dimension.

### Imagination is the True Fourth Dimension

This Awareness has frequently described imagination as the fourth dimension. This also was a definition used by Cayce for the fourth dimension, which would imply that the fourth dimension was in the Age of Pisces. This Awareness indicates that Aquarius is not so much a time of great imagination; it is a time of greater telepathic and intuitive understanding, along with more of a clear Gnostic knowing, through the intuition of experience, so that one in the Aquarian Age does not have to believe in vibrations. An entity in the Aquarian Age feels the vibration, just as one in the Piscean Age could feel air, while others in some other age might not even believe in air because they could not see it, feel it, or touch it.

This Awareness indicates that in the Aquarian Age, entities simply know and accept WHAT IS better than during the Piscean Age. This Awareness indicates that whether this should be called a new dimension or new age is a matter of choice. This Awareness indicates that essentially it is a New Age, but in recent times, the use of the term New Age, which has come under extreme criticism from the Christian Right, as that which has

often been avoided, and entities begin to refer to it as the New Dimension, or the Fourth Dimension.

This Awareness indicates that much of the difficulties in communicating these things has to do with the fact that the terms of the human language are always being changed to suit the needs of the moment or the particular culture at the moment, and therefore, there can always be some discrepancy because something that was said does not seem to track in regard to something else that was said. This Awareness indicates that there has to be a leniency in regard to the terminologies being used from one time to another, when these terms are not following a standardized dictionary.

If you look for the terms in the dictionary: "Fourth Dimension", you are not likely to find anything close to what is the meaning from a metaphysical standpoint. You will see 'time or space as the fourth dimension' but you will not likely see a state of consciousness as being described as the Fourth Dimension, or 'imagination.'

This Awareness suggests the question may be repeated. It appears that this was simply a discussion of the terms and may not have answered the entity's question.

### QUESTIONER:

I think it did. "Would Awareness please clarify the periodicity of these dimensional shifts, and the relationship to the ages and the effects upon previous civilizations such as Atlantis and Egypt, which *It* has spoken frequently about?"

### COSMIC AWARENESS:

This Awareness indicates that this 'periodicity' of the different ages was described in a response to a previous question to some degree. It has been described elsewhere in other readings also. But the confusion has been enhanced with the mixture of terms 'dimensions' introduced when it should simply have related to the vibrations of the various ages.

This Awareness indicates it is likened unto speaking of octaves in music and using different octaves to describe vibrations, and someone introducing the term 'dimension'. "Would Awareness describe the E Dimension?, the F Flat Dimension?, or the G Dimension?, or C Sharp Dimension?" This Awareness indicates by introducing the term 'dimension' it creates a feeling that there is something different about the octaves than when you use the terms that are truly associated with the ages.

This Awareness indicates likewise, when speaking of 'densities' it also creates an added uncertainty as to what is the correct meaning of the words.

## Humanity Needs to Understand Its Roots

### QUESTIONER:

Thank you.

In conclusion I'd like to read Tom's final statement here. It isn't a question, but it helps to clarify where he's coming from, and I think a lot of people agree with this. He writes: "I suppose that these questions represent the machinations of the conscious mind needing to 'tie down' seeming ambiguities, but yet, history has been sequential and specific.

"Perhaps it is like the TV series ROOTS, in which the blacks were informed of their history. Indeed, I think that the whole of humanity needs to be informed of *their* roots from time before recorded history, that they may understand, and therefore, the only concise source of this history. Awareness, needs to be questioned sufficiently that this sequential history can be brought into a form that the rational mind can understand in clarity.

"The historians need to have information which flows,

as from the branches of a tree, into the trunk; the compilation of the events of what the world has experienced into a coherent history: 'Our History.' It would be wonderful if this could be accomplished, if the emergencies of these times would allow it."

#### COSMIC AWARENESS:

This Awareness indicates that in the movement into the Aquarian Age, the Capricornian Age and the Sagittarian Age, entities will grow more and more to acquire the insight through the vibratory rates associated with those ages, to understand, to know all things from the past, to understand the vibrations and what they mean, what they attribute to in terms of human experience, so that they can glimpse the ancient past by observing the ages as they unfold down through history and recognizing these astrological ages as adding this or that, they can then likewise substantiate their intuitive findings by looking for the artifacts that substantiate these theories and data which they extrapolate from the meaning of the ages and the vibrations associated with those ages.

### Precise Clarity in These Readings Not Possible

#### QUESTION:

Thank you. Does Awareness have a closing message?

#### COSMIC AWARENESS:

This Awareness indicates that it would be nice if this Awareness could rattle off all the detailed information of the entire past history of humanity in relation to the ages, in relation to the vibrations, in relation to all of those things which entities might ask about in regard to their origins, their personal and their collective origins. This Awareness indicates that it is not as though the Interpreter can pick up a book that has all of this information in it, or even pull open some file cabinet and read from the files of the Akashic Record.

The Interpreter can only explain in his words and with his experience, those symbols, those images that this Awareness gives to the entity in response to questions that are asked, and therefore, it is not a precise clarity of information that is handed to the Interpreter, nor does the Interpreter hand this information in a precise way to the questioner; so because there is the vagueness in this Awareness presenting symbols and imagery to the Interpreter and the vagueness that sometimes comes through the Interpreter's off-kilter interpretation of some symbol or image, or whereby the Interpreter must intuitively guess at the meaning of some image or symbol that is not clarified for him, there will be some lack of specific clarity in response to questions that entities ask, and therefore, it is an imprecise form of gathering information.

#### The Most Precise Way to Gather Information

The most precise form for entities to gather information, if they so desire, would be for them to vibrate in resonance, in perfect harmony to the question they seek answers for, and in so doing, they can have the experience of the question being answered by the vibrations they experience, and therefore know the answer. But this does not mean they can always explain the answer to others.

This Awareness indicates that it then becomes a situation in which *they* are the Interpreter, and have to find words to explain what they experienced. Therefore, the problem of clarifying what is experienced still exists when it is passed on from one who experiences a particular bit of information. This Awareness indicates in other words, as entities move more into the higher frequencies, they may garner information for themselves, but they may still have some difficulty in sharing it with others.

This Awareness indicates entities can understand this, even if they try to explain Awareness messages to others who are not familiar with these messages. This Awareness indicates that the interpretation of the Awareness messages also causes a loss of information when being transferred.

#### WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

## Did a Shell Oil Drill Rig Strike a UFO?

### QUESTION:

In a magazine called *Nexus*, which we exchange with out of Australia, they reprinted an article from *UFO Official*, dated August 1978. I'd like to read this and ask Awareness if this information is true. The caption is: "Did Shell Oil Discover a UFO?"

"The Shell oil company oil rig Pacesetter 2, was set up on the continental shelf, 90 miles off the coast of New Jersey, in the area known as Georges Bank.

On their first drill test, they struck metal. Thinking it a sunken ship or submarine from WW II, they checked with the War Dept. and West Germany, but there were no records of losses in that area.

Sonar scans recorded an object approximately 50 feet in diameter, in 600 feet of water.

On June 8th, 4 winches were lowered, and the object raised. The object was covered in barnacles, except near the top center. It had small rectangular openings all the way around it.

When the barnacles were chipped off, a "flying saucer shape" was revealed. The oil rig boss immediately radioed his superiors in Atlantic City.

Three Shell officials arrived by helicopter, along with a physicist from Massachusetts Institute of Technology.

The preliminary inspections revealed that the object had been submerged for approximately 600 years, contained equipment that was "out of this world", and was unidentifiable.

They discovered a basket-ball sized sphere of silvery appearance. When held at arms length, the object did not fall. (The ball was found in the exact center of the craft).

Another helicopter arrived containing 5 CIA agents who produced authorization documents from the White House, and informed them that a ship was on its way to collect the craft.

The CIA tried to stop the physicist from dismantling the object any further, but a Shell Oil official told them that everything on the Rig belonged to the Shell Oil Co., and they would not surrender the object until the ship arrived.

Further exploration by the physicist revealed a cylindrical object with a red button on the end. When pressed, a thin white ray shot out and traveled about a mile before petering out. An assortment of other gadgets was discovered, including a rod which produced a bolt of electricity resembling lightning, that punched a sizable hole in clouds overhead, and a lump of "putty" like substance, which caused an immense explosion when a small piece was thrown into the sea.

The CIA ship arrived shortly after, and the agents on the ship started placing the strange looking gadgets into duffel bags. These along with the saucer and parts were then transferred to the ship.

The man who reported this returned to Atlantic City with Shell officials. All men on the rig were sworn to secrecy, not to divulge any of these happenings.

No announcement about this object was ever released."

That was the end of the article. Would Awareness comment on that article?

### COSMIC AWARENESS:

This Awareness indicates that it appears to have been based on a true event. It appears that the information was released from memory by one of the entities present, rather than from notes taken. That it does not appear

there were any notes taken at the time, but that one of the entities at a later time compiled the information into a story for the reprinting of the information.

This Awareness indicates that this *UFO Official* magazine as that which quite frequently carried stories that were pure fiction, however, it appears that this particular story has some substance of truth to it.

### FOLLOW-UP QUESTION:

Had this UFO been in the water 600 years, as they figured?

### COSMIC AWARENESS:

This Awareness indicates this appears to be accurate in general.

### FOLLOW-UP QUESTION:

They discovered a basketball- sized sphere of silvery appearance, which held at arms' length, the object did not fall. The ball was found in the exact center of the craft. What was the purpose of that?

### COSMIC AWARENESS:

This Awareness indicates that it appears that it was some kind of instrument associated with the guidance system of the craft, perhaps similar or related to a gyroscope.

### FOLLOW-UP QUESTION:

How about the cylindrical object with the red button on the end, which when pressed, created a thin white ray which traveled about a mile before petering out?

### COSMIC AWARENESS:

This Awareness indicates that this appears to have been a form of weapon.

### FOLLOW-UP QUESTION:

And the rod which produced a bolt of electricity, resembling lightning, that punched a sizable hole in the clouds overhead. Was that also a weapon?

### COSMIC AWARENESS:

This Awareness indicates it appears that this was a source of power for the craft. That the discharging in this manner was not its usual purpose or intended purpose.

### FOLLOW-UP QUESTION:

How did the UFO get there, and where did it come from?

### COSMIC AWARENESS:

This Awareness indicates that it appears that it was designed to be a submersible craft, capable of entering into water, but that something occurred which caused it to malfunction. This Awareness indicates that it appears it was on a local journey from the South; that it had been stationed on the earth for some time. It appears it was from a stellar system known as Zeta Acari (sp?).

## Is Control of Sex in U.S. Caused by Aliens? (Why the Hostility Toward Pornography?)

### QUESTION: (9/21/91)

A question from John S., in Tulsa, Oklahoma. He asks: "Is the control of sex in the United States part of the Reptoid or Grey program? In the Bible there was control of it, and the Bible people keep going back to it. There seems to be a repressive movement on sex, by prosecutors. James Worthy (sp) from the Lakers, was fined \$1,000, and some other stuff: the closing of adult establishments, the fact that the Greys and other space groups are doing breeding experiments, and more is being brought to light on this, and the fact that there is a repressive movement on sex: There must be a connection to space entities. Would you ask Awareness about this?"

### COSMIC AWARENESS:

This Awareness indicates that this does not appear to be from directives associated with aliens on the planet at this time; it appears more to be related to the program-

ming use of sexual energy for political power by certain groups having strong religious orientation and military interests.

This Awareness indicates that the repression of sexual energy creates a tension within entities that when used for mind control or mass population control, can be harnessed or channeled into certain avenues of expression. This Awareness indicates it is likened unto taking the pent-up energies of someone and blocking those energies so they cannot be released, and then pointing in a particular direction and telling the entity to "Go fight that person!"

The entity will have much pent-up energy from the blocked sexual energies that will be released in the battle. This Awareness indicates that often any group or organizational plan to create warriors will attempt to restrict sexual energies in order to use that energy for channeling toward a more violent release of the energy.

This Awareness indicates that this is not to suggest that there is a sinister motive of this kind behind efforts to close down pornography shops or such. It is more that there is a common disdain for sex among certain religious cultures who see the sexual energy as being that which is to be used for sacred purposes and not for self-indulgence.

#### The Original Purpose for Sexual Inhibition

This Awareness indicates that the original purpose for sexual inhibition through religious teachings was to prevent diseases from becoming a social problem. By keeping entities from indulging in sex, it was helpful to the society in keeping disease from becoming rampant, when there was little or no protection from such sexual liberties except abstinence.

This Awareness indicates that it also helped to spur entities into marriage which would then allow them to have more sexual freedom with their partner and bring forth more children. The action of having had sex inhibited and repressed would cause them to become more promiscuous in marriage and more free, and therefore more fruitful in raising larger families. It was the taboos on sex that helped to increase the population at a time when it was low and needed to be increased.

This Awareness indicates that the moral code associated with sex in early Christian days had a purpose for practical social value, moreso than mere morality. This Awareness indicates that this moral code as that which has been a key element in Christian dogma from that time to the present, and there are many who still adhere heavily to this moral code and therefore, entities having this kind of background and value system are strong in promoting the curtailment of unnecessary or unacceptable sexual expression in society.

Thus, the hostility toward pornography and so forth are part of the social value system of a society that has Christian ethics. It may be said to be even more stringent among Moslems and some of the other religious cultures in the world. This Awareness indicates it is not seen as something that is a conspiracy to control people in the sense of using the sexual energies for controlling the masses, but rather it is today, more of a social value that some entities feel to be key and important to preserve and maintain if society is to remain healthy for families.

This Awareness indicates that even entities who do not necessarily have Christian values may have similar values regarding sex so that they do not like the exploitation of sex in commercial ways, such as pornography or prostitution, as it cheapens and degrades humans and has a negative influence on the values of society.

This Awareness indicates that if the question has not been covered sufficiently, that it be re-asked.

### How Many Reptoids Are in the U.S.?

#### QUESTION:

It seems to be have been covered sufficiently. He had one other question: "In the information published so far, Awareness did not indicate in that issue, how many Reptoids there are in other countries, similar to the 25 million in this country. This seems to be a very high percentage.

#### COSMIC AWARENESS:

This Awareness indicates that *It* does not recall stating there were 2 million Reptoids in this country; it does not appear that this is accurate, if it was so stated. This Awareness indicates that there does not appear to be more than 25 million Reptoids on earth. It does not even appear to be that number. This Awareness indicates the entity may be lumping all of the Zeta Reticuli and other aliens together in this figure, perhaps even some underground half-breeds and humans are being lumped into this figure.

#### QUESTIONER:

Well, his basic question was: Other countries of the world, do they have a percentage of Reptoids?

#### COSMIC AWARENESS:

This Awareness indicates this appears to be in the affirmatives in some areas; particularly strong in this regard are certain areas in South America, wherein there are caverns and underground caves which these entities use, especially in the Northern part of South America in the mountainous areas.

### That Oregon Pictograph: Alien-Made or a Fake?

#### QUESTION: (9/21/91 READING)

Tom N., of Ventura, California, sent in an article, that he said appeared in the current UFO Magazine, Vol. 6, No.3 about suspicious elements that sparked investigation of a symbol on the Oregon desert, and it says briefly:

"On September 14th, 1990, the news services released a story about the discovery of a giant pictograph about a quarter of a mile wide, appearing in a dry-lake bed east of Steens Mountain, about 70 miles S.E. of Burns, Oregon. It was reported to have been discovered by Idaho Air National Guard Pilot, Lt. Bill Miller, of the 190th tactical Reconnaissance Squadron, based in Boise, while on a flight on August 10th.

The sign was soon noted to be of an ancient Hindu meditation symbol called a Sriyantra, oriented precisely North-South, and etched into the dry-lake bed with furrows about three inches deep. These observations were made by my colleague who visited the site on the morning of September 15th and took video shots. Decker and Newman confirmed the reported absence of any vehicular tracks alongside any of the furrows, and so forth.

It's a long article, but he would he would like to have Awareness comment on this. Is this of alien work, or of something else?

#### COSMIC AWARENESS:

This Awareness indicates that this has been covered by the news networks since that first release as being a pictogram designed by a group of artists from Portland who went over to the area, staked out the area and using certain trenching materials devices, created these lines.

This Awareness indicates however that this argument of the news services that it was the creation of certain artists from Portland leaves many questions, particularly how these were created without leaving any tracks, and also that the earth was of such density that the kind of

tools they claimed to use would be nearly impossible in that scope, for that large of a pictograph to be dug in that kind of hard dirt.

This Awareness indicates that also, in the general vicinity at the time, there were cattle mutilations that occurred down the road from that site. *It* suggests that this is indication of some type of alien influence or craft involvement and that the artist story was but a cover-up.

## DID TWO JOKERS IN ENGLAND DO ALL THE CROP CIRCLES?

### QUESTION:

Two old fellows in England made the headlines by saying they're the ones that did the crop circles in England, that it was all a hoax. That's another cover-up also, is it not?

### COSMIC AWARENESS:

This Awareness indicates that often there would be crop circles appearing in many different places at the same time, hundreds of miles apart, in England. How did these entities get to all of those places at once? There have been crop circles all around the globe. How did these entities get to all of these places at once? Sometimes, simultaneous crop circles, the same night, appearing the next morning in multiple places around the globe, which would require that these entities go from one place to another during the night to create their designs, if they indeed claim that they are the cause of all of these crop circles.

This Awareness indicates that these entities may have created a few designs, but they are not able to claim that they have created *all* of the designs. This Awareness indicates that anyone can claim anything, but to offer the evidence would be impossible, for the entities forget that there are records of these circles appearing in China, in Europe in England, in America, and all around the globe.

## Why Did Aliens Use the Sriyantra?

### FOLLOW-UP QUESTION:

This Sriyantra, (I'm probably not pronouncing it right) design is very complicated, and it's part of the Hindu religious practice. Is there any significance that this particular symbol was made by these aliens or whoever?

### COSMIC AWARENESS:

This Awareness indicates it appears that it was simply an action much like that which would occur if you were to invade an island of savages and wanted to make your mark, to let them know you are there, and that you have a knowledge and technology that surpasses those of the natives. This Awareness indicates essentially, what these entities were doing is, they knew the forest rangers and airplane path flew over that area, and that their design would be seen, and they selected a design of some historical familiarity, and they put it across a large field so that it could only be recognized from the air with the intention of getting the public to puzzle over the markings, create curiosity and wonder: "What's going on?"

This Awareness indicates that this is but one small mystery being created to keep the human mind open to possibilities. The human mind would like to close and assume it knows everything and has answers to everything, and therefore, stop the mysteries, for when there are mysteries, entities question and speculate and become unsure of their authorities and the authority figures of society like to keep all mysteries solved so that the public is not questioning authority.

This Awareness indicates that the aliens like to have the

public questioning authority because it makes their authorities seem weaker and unsure and more vulnerable, and it stimulates thought among the masses and new ideas or new concepts. This Awareness indicates that it is for these entities, who indulged in this, more likened unto a game than anything. It was not likened unto their deciding some scheme or plot to disturb society. It was more like carving initials on a tree or like the two in England who created crop circles with certain sticks.

This Awareness indicates that there are entities who enjoy a good joke, even among the aliens. In this case, there was a tad bit of mischief in these entities who selected to create something of a mystery for the humans to try to solve. It would be somewhat likened unto an entity, a child for example, going out into the chicken yard and creating a scarecrow in the middle of the chicken yard to see what the chickens do in regard to it, whether they come to it out of curiosity or stay away from it in fear that it is human.

This Awareness indicates that it is not seen as something that entities need to make into a matter of great concern.

## What is that Design on Celeste's House?

### QUESTION:

Along this same line, Celeste H., of Galena, Illinois, in a letter writes: "Since I joined your organization, I have purchased one third ownership in a metaphysical bookstore in Dubuque, Iowa, and we have been handing out Mr. Cooper's reports to those who seem interested. It has come to my attention however, talk around town of course, that the media is shutting down any reports of circle formations in the crop fields.

This is crop circle time of year in the mid-West and I'd hate to think that the lid is on just before the show begins. I would like to ask a question that has been a mystery to me for several years now, and that is: What is the cause of the circle that is now on the northwest side of my house? Not that this is any life-threatening issue of national importance, but I can't find anyone that has a clue as to what it is."

Would Awareness indicate if these crop circles are being put in places other than fields?

### COSMIC AWARENESS:

This Awareness indicates that It does not see clearly a response or answer to this question of this entity. This Awareness indicates that the entity might wish to examine the kind of effect that made the circle, whether it is natural or artificial. For example, is it slashed on the house, or dug into the wood, or some kind of acid that eats into the wood of the house? This Awareness does not see the circle clearly, and cannot describe the nature of the circles; therefore, *It* cannot give a clear response to the question.

## Donavon Masters Branded by Aliens

(What is a Government Control Extenuation Number?)

### QUESTION:

In the UFO Magazine, October-November, '91, there's an article by Christa Tilton and Donavon Masters called "Branded By Aliens; The Abduction of Donavon Masters." This South Carolina man was taken by a group of ETs to an underground lab, where a series of bizarre experiments were conducted on him. A small tattoo was even placed at the base of the abductee's back. I'll read just a little of this.

He says: "Three of my friends and I were taken to what I perceived to be some type of underground installation or UFO base. I say "friends" because that is how I perceive them although I had not met them at the time. I

remember feeling as though I had been drugged and as if everything was kind of going in slow motion. We were placed on and strapped to a conveyor belt by our wrists and ankles.

"The conveyor was activated and as it began to move, our bodies were passed through blocks of pure intense light. These blocks of light, perhaps laser scanning devices, were either green or blue in color. At each block there was what I perceived to be a robot controller. They also were either blue or green in color. Their color corresponded to the color of the light in front of which they stood.

"The robots were in human form, but with no distinguishable human characteristics. Along the wall in the first room were barrels of some substance which had a very pungent odor. These barrels were stacked one on top of the other."

It goes on, but essentially, Donavon Masters was taken to an underground facility filled with all sorts of futuristic technical equipment. A military guard, a *human* military guard watched over him as he was experimented upon by smallish aliens who branded him with a strange tattoo.

Donavon says: "I remember thinking over and over: What is happening to me?" Then I heard a reply from one of the aliens: "You have just been implanted with your government control extension number."

I'd like to ask Awareness if that information is true, and if so, what is a "government control extension number?"

#### COSMIC AWARENESS:

This Awareness indicates that this appears to be a number by which entities can be identified and sought; by the implant they may be found from anywhere. The experiment appears to have been that which was a trial-run for a certain number of people, to test the effectiveness of the implant, so that as this entity moves about, the monitoring of the entity may be tested to determine if he can be located and pin-pointed simply by the satellite scanning device that seeks that particular extension number in the chip implanted in him.

This Awareness indicates it is very similar to those chips implanted in animals for tracking animals over time and space.

### Who Were the Robots in Human Form?

(More on Organic Robotoids and Synthetics)

#### FOLLOW-UP QUESTION:

What were those robots in human form, which this entity is describing?

#### COSMIC AWARENESS:

This Awareness indicates that these appear to be what Dr. Beter referred to as synthetics and/or robotoid types, entities who are not fully developed as complete duplicates of some particular being. This Awareness indicates that the general form may be created without giving individuality to that form, the individuality of a particular person. This general form can still function as a being. These so-called robot humans appear to be the general basic form prior to any individualization.

### A 2000 Year Old Robot Found in China?

#### QUESTION:

Speaking of robots, the August 13th, 1991, Weekly World News has a story called "A Two Thousand Year Old Robot Is Found!", has been unearthed in rural China and its monster brain is still working. Chinese military scientists are trying to get the armored robot to respond to their commands. At first archaeologists thought they had found a long-dead relic from an

ancient Chinese dynasty. Instead, they'd unearthed a 9-foot Goliath whose powers can only be guessed at."

It goes on, but is this a planted story, or is this robot an actual creation of aliens at one time?

#### COSMIC AWARENESS

This Awareness indicates that there does not appear to be any real substance to this story. It appears to be something that was written simply for entertainment and money.

## WAS GEN. JAMES FORRESTAL MURDERED

### Because He Knew About the Aliens ?

#### QUESTION: (READING OF 9/26/91)

In the John Lear Document which he released December 29th, 1987, he referred to General James V. Forrestal. I'll read what he says here:

"The horrible truth was known by only a very few persons. They were indeed ugly little creatures, shaped like praying mantises and who were more advanced than us by perhaps a billion years. Of the original group that were the first to learn the horrible truth, several committed suicide, the most prominent of which was General James V. Forrestal who jumped to his death from a 16th story hospital window. General Forrestal's medical records are sealed to this day."

Now, Forrestal's death has been shrouded in mystery. The papers called it suicide, and that was the official government statement; however, I've read in conspiracy information that he was pushed out the window and now Lear is saying that he committed suicide because of his knowledge of aliens. Could Awareness straighten out the facts of this incident?

#### COSMIC AWARENESS:

This Awareness indicates that it appears the entity knew too much and spoke too much about what he knew and was murdered under circumstances that could be made to look like suicide.

#### FOLLOW-UP QUESTION:

He knew too much about the aliens?

#### COSMIC AWARENESS:

This is in the affirmative. The entity was not cooperative with those who would cover-up the alien presence.

## Did Flying Saucers Panic Washington DC?

#### QUESTION:

Another question from this Lear report, he writes:

"In July of 1952, a panicked government watched helplessly as a squadron of 'flying saucers' flew over Washington D.C., and buzzed the White House, the Capital Building and the Pentagon. It took all the imagination and intimidation the government could muster to force that incident out of the memory of the public.

Thousands of sightings occurred during the Korean war and several more saucers were retrieved by the Air Force. Some were stored at Wright-Patterson Air Force Base, some were stored at Air Force bases near the location of the crash site.

One saucer was so enormous and the logistic problems with transportation so enormous, that it was buried at the crash site and remains there today. The stories are legendary on transporting crashed saucers over long distances, moving only at night, purchasing complete farms, slashing through forests, blocking major highways, sometimes driving two and three lowboys in tandem, with an extraterrestrial load a hundred feet in diameter."

Is that information true?

**COSMIC AWARENESS:**

This Awareness indicates that this appears to be in the affirmative; that these of course are incidents that took place over a period of time, not all during a particular short time period. That the description as written makes it sound as though it all occurred in 1953, whereas this is seen as covering a longer time period.

**Was There Any Media Coverage?**

**FOLLOW-UP QUESTION:**

Was there any media coverage in 1952 when a "panicked government watched helplessly as a squadron of flying saucers flew over Washington?"

**COSMIC AWARENESS:**

This Awareness indicates that this event was filmed and has been released to the public, aired on television numerous times. The images of these craft over Washington D.C., has been shown publicly, but generally without any comment from official sources. Some entities argue that it is trick photography or that these were flights of birds. This Awareness indicates that these do not fit a pattern of birds.

These lights above Washington D.C. often were stationary and in patterns such as circles, or wedge shaped patterns and therefore, cannot be compared to bird formations or flights of birds passing over the capitol. The argument that it is trick photography has satisfied many of the public into dismissing the claim.

**FOLLOW-UP QUESTION:**

These UFOs were Greys, weren't they? The Greys?

**COSMIC AWARENESS:**

This Awareness indicates that this appears to be those from Orion. Not the Zeta-types.

**THE ABDUCTION & MUTILATION OF HUMANS: HOW COMMON IS THIS?**

**QUESTION:**

In another part of his report, he was explaining how these entities needed enzymes and so forth, and it says, regarding cattle mutilations: "The body absorbs the solution, then excretes the waste back through the skin. The cattle mutilations that were prevalent throughout the period from 1973 to 1983 and publicly noted through newspaper and magazine stories and included the documentary produced by Linda Howe for the Denver CBS affiliate KMGH-TV, were for the collection of these tissues by the aliens.

"The mutilations included genitals taken, rectums cored out to the colon; eyes, tongue and throat all surgically removed with extreme precision. In some cases, the incisions were made by cutting between the cells, a process we are not yet capable of performing in the field. In many of the mutilations there was no blood found at all in the carcass, yet there was no vascular collapse of the internal organs.

"This has been also noted in the human mutilations, one of the first of which was Sergeant Jonathon P. Louette at the White Sands Missile Test Range in 1956, who was found 3 days after an Air Force major had witnessed his abduction by a "disc-shaped" object at 0300 while on a search for missile debris down-range. His genitals had been removed, rectum cored out in a surgically precise "plug" up to the colon, eyes removed, and all blood removed with, again, no vascular collapse.

"From some of the evidence, it is apparent that this surgery is accomplished in most cases while the victim, animal or human, is still alive."

If that information is true, how common is this abduc-

tion and mutilation of humans? We know that they're doing it with cattle, but actually killing the humans rather than just implanting them...?

**COSMIC AWARENESS:**

This Awareness indicates that this has been ....the word "common" is very difficult to define in terms of degree. This Awareness indicates that there have been numerous reports of human mutilations. These *do* occur. Of the percentage of abductions, only a small percent resulted in human mutilations; that some human mutilations *do* occur and it is for this reason that the government began to alter plans.

This Awareness reminds you of a time in approximately 1987 when Mike Farrel, known best through his MASH performances, hosted a UFO government cover-up program in which he delved deeply into the UFO scene, including Project Aquarius, and began to release information about government cover-up of UFO cases. The purpose of this UFO release was to begin conditioning the masses to accept the presence of UFOs on earth. Shortly after this program aired, the government discovered that aliens had been abducting and mutilating humans, and at this time, panic set in as to whether the public should know or whether the government should do something about the alien problem.

It was decided not to release further information on the aliens at the time and it led to certain government/ alien conflicts in which a group of scientists and SWAT team-type entities entered into the Dulce facility, only to be wiped out. This Awareness indicates that this realization that the aliens were abducting and mutilating humans began to surface more and more as other reports of human mutilations occurred, including findings of human parts within vats of liquid and crashed saucers that had human parts aboard.

This Awareness indicates the situation was too common, but not what one might call "very" common. The purpose of much of the human mutilation was not only for these body parts, but also for the extraction of adrenalchrome from the human; this being a drug aliens traffic in, and use for space currency. It requires, of course, the drug be extracted from a live human, who dies in the process of the extraction.

**THE DILEMMA OF MJ-12: TO TELL OR NOT TO TELL THE PUBLIC**

**QUESTION:**

In this Lear Report, he's talking about in the early days that MJ-12 was formed. He says:

"Meeting at the "Country Club", a remote lodge with a private golf course, comfortable sleeping and working quarters, and its own private airstrip built by and exclusively for the members of MJ-12, it was a factional fight of what to do now. Part of MJ-12 wanted to confess the whole scheme and shambles it had become to the public, beg their forgiveness and ask for their support. The other part, (and majority) of MJ-12 argued that there was no use in exciting the public with the "horrible truth" and that the best plan was to continue the development of a weapon that could be used against the EBE's under the guise of "SDI", the Strategic Defense Initiative, which has nothing whatsoever to do with the defense for inbound Russian nuclear missiles.

"As these words are being written, Dr. Edward Teller, "father" of the H-Bomb is personally in the test tunnels of the Nevada Test Site, driving his workers and associates in the words of one, "like a man possessed".

And well he should, for Dr. Teller is a member of MJ-12, along with Dr. Kissinger, Admiral Bobby Inman, and

possibly Admiral Poindexter, to name a few of the current members from MJ-12."

I'd like to ask Awareness, is that information true?

COSMIC AWARENESS:

This is in the affirmative.

### Did Bill Moore Interview and Tape an ET?

QUESTION:

Dr. Teller is supposed to be a genius in physics. Is...no forget that. I won't ask that question. One other thing he points out in this is about video tapes. He is talking about how they claimed they had a movie film on the crucifixion of Christ and so forth. He says:

"Another video tape allegedly in existence is an interview with an EBE. Since EBE's communicate telepathically, an Air Force Colonel serves as an interpreter. Just before the recent stock market correction in October of 1987, several newsmen, including Bill Moore, had been invited to Washington, D.C. to personally film the EBE in a similar type interview and distribute the film to the public. Apparently, because of the correction in the market, it was felt the timing was not propitious.

"In any case, it certainly seems like an odd method to inform the public of extraterrestrials, but it would be in keeping with the actions of a panicked organization, who at this point in time doesn't know which way to turn."

Is that true that Bill Moore actually saw, and there is in existence, an interview with the EBEs?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative; that this was to have been released after the Mike Farrel film, as a follow-up for further release of information to the public, but upon discovering the aliens were involved in human abductions, and mutilations, the concept of informing the public became unreasonable to these entities who felt they didn't dare answer further questions publicly until they understood the full scope of what the alien agenda was all about, for they did not know how to present this information without further understanding of the alien agenda.

### IS CARL SAGAN, OTHER SCIENTISTS, SCI-FI WRITERS ALL LYING?

QUESTION:

Towards the end of his report, he explains why the television networks and the anchor-men like Dan Rather and Tom Brokaw would turn down UFO information: if they got it, they wouldn't put it on the air. They don't find the news, they just read it, and they don't talk about things that may make them look ridiculous to the public.

Then he says: "Well then, you ask, what about scientists? What about Carl Sagan? Isaac Asimov? Arthur C. Clark? Wouldn't they have known?"

"If Carl Sagan knows then he is committing a great fraud through the solicitation of memberships in the Planetary society, "to search for extraterrestrial intelligence" Another charade into which the U.S. government dumps millions of dollars every year in the radio-telescopes in Arecibo, Puerto Rico, operated by Cornell University, with-guess who? Carl Sagan.

"Cornell is ostensibly searching for signals from outer space, a sign maybe that someone is out there. It is hard to believe that relatively intelligent astronomers like Sagan could be so ignorant.

What about Isaac Asimov? Surely, the most prolific science fiction writer of all time would have guessed by now that there must be an enormous cover-up? Maybe,

but if he knows, he's not saying. Perhaps he's afraid that Foundation and Empire will turn out to be inaccurate.

What about Arthur C. Clarke? Surely, the most technically accurate of science fiction writers, with very close ties to NASA would have at least a hint of what's really going on. Again, if so, he isn't talking. In a recent science fiction survey, Clarke estimates that contacts with extraterrestrial intelligent life would not occur before the 21st Century.

If the government won't tell the truth, and the major networks won't even give it serious consideration, then what is the big picture, anyway? Are the EBE's, having done a hundred thousand or more abductions, (possibly millions world-wide), built an untold number of secret underground bases: Groom Lake, Nevada; Sunspot, Datil, Roswell, and Pine Town, New Mexico, just to name a few, getting ready to return to wherever they came from? Or, from the obvious preparations, are we to assume that they are getting ready for a big move? Or is the more sinister and most probable situation: the invasion is essentially complete, and it is all over but the screaming?"

I'd like to ask Awareness about his observations concerning Carl Sagan and Asimov and Clarke; are these entities all lying? They must be covering this up, are they not?

COSMIC AWARENESS:

This Awareness indicates that these entities have been hired or paid or used in the cover-up; that this is clear and is obvious. This Awareness indicates that it is only reasonable, that if something is to be covered, you hire people who have credentials to speak as authorities against any claims you wish covered.

FOLLOW-UP QUESTION:

You'd think Carl Sagan, being a reputable scientist or astronomer as well...

COSMIC AWARENESS:

This Awareness indicates there is really nothing reputable about some of the scientists. They have a certain area of reputable aspect in their career, but in general, they are often ready, willing and able to sell out to the highest bidder in order to promote their career and prestige and reputable characterization publicly even further.

This Awareness indicates that it is not surprising. There have always been scientists who refuse to believe the unusual in order to protect their careers. That it would be surprising if they actually indulged in searching for truth rather than in promoting their career.

### Is Nutrasweet Dangerous?

QUESTION:

Valerie B., of Warrenville, Illinois asks: "Is Nutrasweet dangerous? I read articles about it producing strange brain-waves and epileptic seizures in and an hypnotic state in people. I wonder if the aliens are doping the food. It would make a more cooperative doped-up bunch of zombies, highly suggestible."

COSMIC AWARENESS:

This Awareness indicates in small quantities, Nutrasweet is not seen as detrimental. Entities however, who use the substance on a daily basis frequently, over long periods of time, may experience adverse effects. There have been some reports of entities having suffered heart attack; this in a young person, for example, and a person who drank four Nutrasweet colas daily.

This Awareness indicates that the use of Nutrasweet is beneficial for those who need to lose weight, and as an

alternative for sugar, for those who cannot handle sugar properly, such as diabetics. This Awareness indicates that it should be used sparingly; that it can be damaging to the liver and to the kidneys if used excessively.

This Awareness suggests that in a normal healthy child it would be better to use sugar, rather than Nutrasweet drinks. The suggestion even more appropriate for children would be to use those fruit drinks that have fructose as a sweetener, rather than sugar or Nutrasweet.

**FOLLOW-UP QUESTION:**

There's no truth to the notion that the aliens are using this or something else to dope up people, is there?

**COSMIC AWARENESS:**

This is not seen as having any substance.

## ABDUCTED BY ALIENS AND MIBS TO A PLACE DEVOID OF LOVE

**QUESTION:** (9/21/91)

A question from L.M., of Sedona, Arizona. She writes: "I am ordering *The UFO Silencers* by Timothy Beckley because when I read your advertisement, it brought to mind something that happened to me 17 years ago while I was living in Houston, Texas. Though the experience took place during sleep state, I believed at the time that it was an inter-plane experience.

"It remains as clear to me now as it was at the time. I was seated alone in the back seat of a long black limousine, driven by a heavy oriental man who was dressed all in black and wearing a black snap-brimmed hat. It seemed to be prearranged and not done by force. He delivered me to a city that was silent and empty. I walked up and down the streets and saw no living being.

"Always before, when there was ever a situation on the inner planes that seemed threatening, I could protect myself by making the sign of the cross and calling on the *Christ Light*. Here however, there was such a complete vacuum without love, that my call seemed to have no effect. Just before awakening, I felt myself pulled, as if by a negative sucking force into a doorway.

"On awakening, I felt that I had been "allowed" entry into the area of the MIBs, so that I would be able to understand that there was such a place in creation, where consciousness expressed in a vacuum that knew not love nor light; a place without emotion, only control. Would you please ask Awareness if this experience took place within the earth or inter-dimensionally? I am also questioning why I saw my driver as not only rotund, but with very distinct oriental features.

"The drawings I have seen of the MIBs shows them as lean and tall. I would greatly appreciate anything that Awareness might give on this experience."

**COSMIC AWARENESS:**

This Awareness indicates that this appears to have been an inter-dimensional experience in which you were taken to a realm or area that these entities call home. It appears that the entity who was driving the vehicle in which you found yourself riding, was indeed an MIB.

This Awareness indicates that the fact that most MIBs are thin does not mean all have to be thin. The oriental features are common with MIBs, generally having olive skin and almond shaped eyes. This Awareness indicates that it appears that the consciousness of the city or place being devoid of love or any form of emotional affection is a common quality among the MIBs and that this has its connection with certain aspects of the Orion group of aliens; that the MIBs appear to be more connected with these entities than with the Zeta Reticuli or Reptoids.

## DURING ABDUCTIONS: WHAT IS THAT "ACCELERATING" FEELING?

**QUESTION:**

In a letter to CAC this June from a lady, L. B., she mentions an interesting thing here. "A good buddy of the metaphysical world always seemed to be well-informed, I commented on it to myself, and she dropped by one day to the shop where I work, with a stack of your newsletters. She is aware I am active as an "incubator" for the Zeta Reticuli, but my experiences have been fascinating, not fear and terror, but this past week I screamed at them to back off and not to touch me.

"I felt as though I was accelerating too fast into another dimension or density, and could just lie down and pass on. I'm 68, retired RN, but working in an import shop."

I'd like to ask Awareness, about this experience of accelerating, when these entities take these women into another dimension; this feeling of acceleration was too fast. She thought she could just lie down and die. Is that common?

**COSMIC AWARENESS:**

This Awareness indicates that it is seen as being a traumatic experience because of the intensities involved. The entity as growing older and more frail and still being treated as though she were a younger person, capable of serving their purposes as they had come to expect over the years.

This Awareness indicates that entities often feel these rapid changes in vibration to be more than they can handle. In her case, she is becoming too frail for this kind of intensity.

## Incubating Females and their "Handlers"

**FOLLOW-UP QUESTION:**

At age 68, she must have gone through menopause. How can a woman, after menopause, be an incubator?

**COSMIC AWARENESS:**

This Awareness indicates that they do not use eggs from her; rather they implant eggs into her.

This Awareness indicates that these entities dealing with her are referred to as "handlers". Each entity who has eggs extracted or implanted has his or her own special handler. The handler being an alien contact to generally bring the entity into the ship for the purpose of implanting or extracting eggs.

TYRANNOSAURUS PECS

## THE MYSTERIOUS DEATH OF RON BROWN (Many Unanswered Questions About Plane Crash)

There's been a lot of very interesting information coming over the Internet since the death of Ron Brown in the plane crash in Bosnia, and I'd like to read some of this and ask Awareness for a comment. One of these is "Rumors and Facts Surrounding the Ron Brown Plane Crash." This comes from Conspiracy Nation.

They write: "Thanks to the many readers who have passed along info on the recent crash of the Ron Brown plane in the former Yugoslavia. I summarized below what has come my way so far and I offer this information with the caveat that much of it has not yet been double checked by yours truly.

"Brown may have died on the anniversary of the assassination of Dr. Martin Luther King. To those wondering what the significance may be, there is at least some indication that CIA and CIA-employed assassins favor symbolism to surround their dirty work. For example, Dave Emery has gone into this use of symbolism in some of his lectures. It is reported that US Air Squadron Commander Lieutenant Colonel James Albright, who was responsible for the T-43 jet in which Ron Brown crashed, was known to be adamant about not allowing T-43's to fly in bad weather.

"Only five days before Ron Brown was killed in the crash of the T-43 flying in bad weather, Colonel Albright was relieved of his command, reportedly because he refused to allow T-43's to fly in unsafe conditions. US and Croatian authorities disclosed that the maintenance chief for the navigation's system at the airport where Brown's plane was headed committed suicide Saturday. Suicides aren't always what they're said to be. Sometimes murders are described as suicides.

"A reader sent an article from the Twin Cities paper dated April 5th, 1996 "Andrew Recounts Eerie Praise of Brown." The article says that a member of Minnesota's Democratic party, Mark Andrew, was in the White House on the morning of April 3rd. The eerie part about the meeting was that the President waxed eloquent about Ron Brown unprompted," Andrew said. Andrew said he was taking notes, and that "After the meeting ended, at about 10:30 Eastern time, we were standing at the door and there were about two of us in the room with the President, and two of his staff people came in and said about the plane crash."

"An E-Mail I received contained information reportedly from a group called National Vietnam POW Strike Force. It is alleged that 1) Cadavers from the Ron Brown shoot-down have arrived at Dover Air Force base in Delaware. All have chemical traces of Thermite, a chemical used in bombs to blow safes and bunker doors. Also the stewardess, who was alive on the ground, Shelly Kelly, was helped into the rescue helicopter with minor cuts and bruises. On arrival at the hospital she had bled to death from a neat three-inch incision over the femoral artery. Necropsy shows that the wounds are three hours apart.

"Clinton has ordered all cadavers cremated and others are trying to block the order. 2) The plane was flying in dangerous combat theater, and had on-board fuel for the landing at Dubrovnik and two extra approaches for safety reasons. The plane was still burning eight hours after impact. 3) In the April 17, 1995 Lear Jet crash in Alabama, a two star Air Force General was on the scene within 30 minutes. His job: "Execute any survivors." 4) There were no state department officials on this flight and that is extremely odd given its nature. 5) Ron Brown's law partner, at Patton Boggs and Blow was murdered in South Africa *within one hour of the plane crash.*"

"Sherman Skolnick, the Chicago-based investigator, adds that "Apparently the plane broke up over an area of some 17 square miles, which is unlikely for crashes of an airplane." I asked if it were true that some of the wreckage was in the sea, and some on the mountain. "Right," replied Mr. Skolnick. "And further than that, different pictures show a piece of the fuselage, which was up on

the hill, was moved, turned around in the other direction, probably for the purpose of trying to cover up sabotage."

In another interesting report on the Internet, it says "Ron Brown's Loose Lips Sealed His Fate." And I'll read some of this: "The April Issue of the American Spectator contained an article: "Why Ron Brown Won't Go Down". Shortly thereafter, on April 3, both Commerce Secretary Brown and his plane went down while on a landing approach to a landing approach to an airport in Dubrovnik, Croatia. 34 other passengers were on board.

2) Ron Brown, who at various times has been under investigation by the Commerce Department Inspector General, the FDIC, the Justice Department, the House Government Reform and Oversight Committee, and the Senate Judiciary Committee-- was only two weeks away from being indicted with respect to a bribe paid by Oklahoma company Dynamic Energy Resources.

"I am too old to go to jail" Brown loudly proclaimed. "If I go down, I'll take everyone else with me!" Brown assumed the threat would force Democratic big-wigs to rally around him, to make sure that the charges he faced were buried in an appropriate fashion, but Brown miscalculated. His own words buried him, instead.

3) Brown was flying in the same equipment that had ferried Hillary Clinton around Bosnia the week before. The aircraft had taken no intervening flights. 4) The plane was a 43-A, not a T-43A as reported. "T" stands for "trainer" but in this case the extra control stick for the instructor had been removed.

"5) Brown's plane was one of two planes in the fleet not equipped with a black box. It was, however, already wired for a black box, and the latter could have been purchased and put in place for the occasion for a mere \$80,000 or so. (The wildly varying cost estimates-- in one case six million dollars was cited-- are speculative noise. It is against Air Force regulations to transport government officials of diplomatic status or higher without a black box. Clearly, someone wasn't doing his job.

"6) Landing visibility was good. This was reported by two pilots who landed immediately ahead of Brown's flight. One of these pilots has had more than 8,000 hours flying experience. The statement of Lieutenant General Howell Estes-- carried on CNN and elsewhere--about visibility problems and terrible conditions of wind, rain and fog are either simply erroneous or constitute sheer disinformation. ("The Pentagon finally told that old fart to shut up" one source says.) Similar statement such as those by Don Phillips in the Washington Post that "The plane was fighting poor visibility when it slammed into a mountain" (April 12th, 1996) also seems to be part of an active disinformation campaign.

"7) "If you are even a quarter of a mile off course, the tower begins screaming at you," says a pilot who has flown into that airport. To be off more than two miles is impossible without having generated a great deal of control tower radio traffic. What do the tapes show with respect to Brown's flight?

8) The control tower tape is missing. While very suspicious, this could simply represent an attempt by someone to secure crucial evidence. However, there is a backup cylinder which keeps a backup copy of all traffic for up to three months. This backup cylinder is also missing! "The missing backup cylinder shows that this was a professional job," says a source highly connected in the Intelligence Community.

"9) The maintenance chief for navigation systems at the airport, Niko Junic, is said to have subsequently committed "suicide" at home on the Saturday after Wednes-

day's crash of Brown's plane. Junic is said to have shot himself in the chest, an unusual choice of techniques. His medical records show him to be a very stable, reliable individual.

10) Brown's plane made its approach to the airport from Tusla in the northeast. But part of the plane ended up on the mountainside about ten miles southeast of Dubrovnik, while another part ended up in the water, roughly 15 miles away--about 5 miles northwest of Dubrovnik in the Adriatic. This indicates the plane came apart at fairly high altitude.

"11) CIA trawlers have recovered part of the wreckage in the water. This, along with the wreckage on the hillside, not only shows unmistakable evidence of an explosive blast, but the type of detonator: ("descending detonator") that set it off. The downing of the plane was no accident. It was a deliberate act of sabotage.

12) When President Clinton appeared on camera to announce the disappearance and death of Ron Brown, his nose and eyes showed unmistakable signs of recent significant cocaine usage. Did the President need a lot of lines to get courage to face the public? Or was this just one more example of the type of hubris that lead to Brown's demise?

Like Brown himself, those responsible for his death have apparently miscalculated. Two of the most powerful organizations in the United States government have now decided that enough is enough and they aren't going to let the cover-up of the Brown assassination continue.

There's other information going back and forth on the Internet, but that's enough to give Awareness a good idea that a number of people think there's more to that crash than meets the eye, or what the controlled media has been telling us. Could *It* expand on that subject perhaps?

#### COSMIC AWARENESS:

This Awareness indicates that the evidence speaks loudly for itself. There is, of course, some question of interpretation of some of the evidence. The reference for example, to the president giving a speech and his nose showing signs of cocaine usage; This Awareness indicates that this is mere speculation on the part of the writer of the article; that the nose appearance could have been from some tearful concern about the loss of Ron Brown, though this may not seem likely in view of the evidence presented.

This Awareness indicates, however, that *It* wishes entities to recognize that there is indeed speculation involved in some of these accusations. This Awareness indicates that there is also some credible evidence that needs to be further examined and explored, but for the most part, there is strong evidence that something occurred other than that which was reported by the mainstream press.

This Awareness indicates considering the total amount of information given relating to the problems of the crash; the widespread range of rubble, the fact of the stewardess being led from the crash site to the helicopter with nothing but a couple of minor scratches and then ending up at the destination point dead from a deep gash that cut arteries, when the cut was three hours later than the crash cuts is very damning information, implying something foul occurred.

This Awareness indicates that the missing tapes and fact that the entity was threatening to blow the lid off of his fellow Democrats in terms of dragging people down, if he got threatened with a jail term; all of these things along with the suicides and deaths of key personnel, when

taken together, create a very suspicious picture of something other than a mere accident.

This Awareness indicates it is not the role of this Awareness to point fingers and to say that someone was murdered. This Awareness merely comments on the information and suggests that entities give it a complete look and the evidence screams out and speaks for itself. What more can this Awareness say that speaks any louder than the evidence itself?

#### FOLLOW-UP STATEMENT:

It's very strange, because in the last four years that Clinton has been in office, there's been some 40 to 50 entities close to him, and associates, that have died under very strange and questionable conditions, and this adds yet another.

#### COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness does not wish entities to leap to an assumption that it is necessarily caused by the President himself that these entities are dying mysteriously. It is quite possible that the handlers of the President may have something to do with this. This Awareness reminds you that there are people who 'handle' the President.

This Awareness reminds you also that if you will recall, some time back, when the President was delayed on the runway in Air Force One, this Awareness suggested that the so-called 'One Hour Haircut,' wherein the president tied up traffic on the runway while getting his hair cut, was not what it appeared to be and that this more likely was a situation in which a double was used to replace the President so that when he exited the plane at its destination it was not the same President Clinton who entered the plane.

This Awareness indicates from that time to the present, the entity has had 'handlers'; those who handle him.

#### CLOSING MESSAGE:

This Awareness indicates that there are many strange and unusual, indeed unbelievable things that occur in this bizarre world that do not fit into the paradigm or reality that most entities perceive. There is a totally different reality afoot, and most entities are not in touch with that strange bizarre reality of the modern day world.

## THE MYSTERIOUS MONGOLIAN DEATH WORM: DOES IT REALLY EXIST?

#### QUESTION:

I clipped an article out of a recent Strange magazine, which recounts a bizarre "Mongolian Death Worm, a shocking secret beneath the Gobi desert." I'd like to read a little bit of this and ask Awareness is this is fact or fantasy.

"Every so often a mystery comes along that even by cryptozoology standards is truly exceptional. The Mongolian Death worm is one such animal. I first learned of this bizarre creature in issue number 4 of World Explorer from 1993, the magazine of the World Explorer's Club, based in Kempton, Illinois.

"The article detailed an apparently recent expedition to Mongolia's Southern Gobi desert, in search of the Allghoi Khorkhoi, and was authored by expedition members Ivan Mackerle. The other members were given as a Dr. Prokopec, someone called Kropac, with an intriguing MASc degree, and a photographer named Skupien.

According to this article, the Death Worm, (somewhat easier to pronounce than Allghoi Khorkhoi) is said by the Southern Gobi's inhabitants to resemble a huge fat worm, more than four feet long, which spends most of the year hidden beneath the desert's hostile sands, but appears during June and July which are the hottest months.

"Such a creature, wholly unlike anything known to science, would already be of great interest to zoology, but what makes it immeasurably moreso is its unexplained ability to kill instantly, and sometimes, even from a distance. During their expedition, the team, perhaps thankfully, did not succeed in encountering a Death Worm for themselves, but learned a great deal about its terrible talents.

"While camping near the ruins of an old monastery, they learned of a boy who had accidentally touched a Death Worm that had found its way into a box and had concealed itself within it. So too did their parents when they attempted to kill their son's vermiform assassin. Truth or folklore? The team's interpreter Sugi, recalls an incident from his own childhood when a party of geologists were visiting the region. One of the men was holding an iron rod which he pushed into the sand close to where he was standing and dropped down dead. Moments later, the sand that he had disturbed with a rod began to heave, and out from beneath it emerged a gigantic fat worm.

"Other interesting details gathered by the team during its investigation included 1) the notable frequency of Death Worm sightings in areas harboring a cigar-shaped parasitic plant termed Goyo, found on the saxaul roots, which are poisonous; 2) The claims by an old woman called Puret, that when the worm attacks, it raises half of its body up through the sand, inflates itself, and secretes bubbles of poison from one end, ultimately squirting it forth in a stream at its unfortunate victim; 3) Puret's additional claim that anything contacted by the deadly fluid turns yellow instantly and looks as if it had been corroded by acid; 4) The widely held belief that the worm can even kill someone standing several feet away from it."

The story goes on, and they even speculate that somehow it's electric, and one of the things they say is:

"What is the Death Worm? Is it truly a vermiform invertebrate of some kind or could it be a highly modified snake? It is true that some snakes are often colloquially referred to as worms, but to my mind, the description of the Allghoi Khorkhoi are much more suggestive of a boneless soft-bodied beast than a bone-containing vertebrate animal, yet, if it is an invertebrate, how does it avoid desiccation, encompassed by the burning sands of the Gobi?

"Presumably, like scorpions, solifugids and other desert-dwelling invertebrates, it is encased within a water-retaining cuticle. Equally mysterious is its method of killing, for the various reports given above, include two quite different versions. According to Puret, it emits a stream of corrosive fluid at its victim, but as the merest touch of this fluid causes

death, the fluid must also be venomous too, and is presumably absorbed into the victim's blood while searing his flesh. Yet this modus operandi cannot answer how the Death Worm was able to kill the geologist who only touched it indirectly with his iron rod, nor does it explain the vehement native belief that the creature can kill even without touching its victim directly or indirectly.

"Having said that, there is an explanation for these latter capabilities, but one so radical and dramatic, that if shown to be correct, would expose the Allghoi Khorkhoi as one of the most astonishing animals in existence today. What if the Death Worm can indeed kill its victims not only with highly acidic venom, but also with electricity?"

And the article goes on, but that's enough description to ask Awareness if such a creature does indeed exist, and could it give more information on it?

#### COSMIC AWARENESS:

This Awareness indicates that this creature does exist, and essentially, the electricity is made from the acid in the body of the creature. You will remember that a nail inserted into a lemon can produce electricity. It can create a small or low-powered battery. In the use of acids in a battery there are various ways to create electricity, and this creature having such acid and venom, does carry electricity, more or less inadvertently, but it does give it a strong vitality, and poking the creature with an iron rod allowed the electric current to electrocute the engineer.

This Awareness indicates that its main means of defense is with the acid, squirting the acid, and the acid does contain a kind of venom that makes it ever more potent as a means of killing. This Awareness indicates that there appear to be colonies of these living in the Gobi desert, and in the lower hills near the Gobi desert. The combination of hot sands and certain plants help to make the acid in the body of these creatures. The mixture of heat and plant and digestive juices tend to create the toxins and the acids, and the acids in the body create the electricity.

It is a kind of battery worm. It is similar to the electric eel in that regard; that the eel contains certain acids that allow it to assert electrical currents also. The region is so remote that very few people have ever come in contact with this creature, and therefore, it has been relatively unknown.

#### FOLLOW-UP QUESTION:

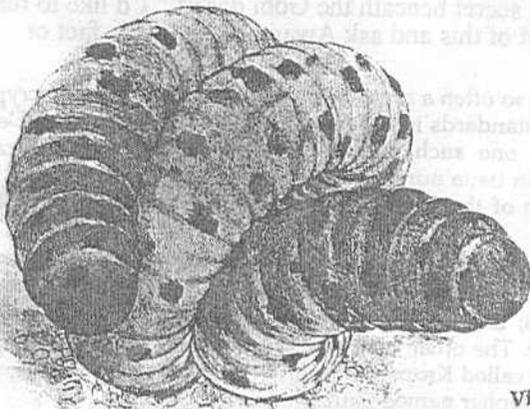

What do these creature feed on?

#### COSMIC AWARENESS:

Mostly desert plants. They can also get nutrients from the sand itself, because the acid helps to break down the sand and certain silicon substances are extracted that can be useful to these creatures.

This Awareness suggests that the Interpreter be brought from trance.
