"Deliver us, Lord, from this terrible beast"

The Mystery of the Chupacabras

--the "Goat Sucker"

....Photon Belt Update ...Olympic Games Alert

OPENING MESSAGE:

The Surrender of the Freemen to the FBI

(What the Controlled Press Didn't Tell You)

(CAC General Reading June 17, 1996)

This Awareness wishes to comment on current news related to a message given by this Awareness in the last set of readings. This Awareness indicates that this is in reference to the Freemen on Montana who in the last few days surrendered themselves to the FBI. This Awareness indicates that there is certain information that was not given through the press or to the press, in regard to the conditions under which the Freemen offered to negotiate a surrender.

This Awareness indicates that this in part has been mentioned as special material possessed by the Freemen that they wished to preserve for their case in court, and that this has been briefly mentioned by the press, but the press is careful not to disclose or perhaps even understand the significance of the material the Freemen plan to use in their defense.

This Awareness indicates this has to do with their explanation that the Federal Reserve Bank is essentially doing the same thing that they have done in the act of creating monetary value on paper without any significant backing behind it. This Awareness indicates in fact, the Freemen have claimed certain liens as collateral against their monetary paper, whereas the Federal Reserve Bank has no backing whatsoever behind their Federal Reserve Notes other than the faith of the people and the acquiescence of the people's government.

This Awareness indicates that one of the key factors in the Freemen surrender has to do with the entity Eustace Mullens. This Awareness indicates that this is the entity who wrote the book on the Federal Reserve Bank. This Awareness indicates that this entity wrote this book back in the Fifties or early Sixties to explain how the Federal Reserve bank operated and how it was formed and created against the laws of the Constitution. It is the classic from which most other books of this type were based.

Eustace Mullins Badly Needed to Help Freemen in Court

This Awareness indicates that this book called Secrets of the Federal Reserve as that which led to this entity being harassed throughout most of his life, although he wrote other books also which led to further harassment, and not only for this entity, but for members of his family as well. This Awareness indicates that the Freemen sought and received agreement that the entity Eustace Mullens would be allowed his testimony or serve as a witness for them in their trial. This Awareness indicates that this is crucial for their case.

This Awareness indicates along with the information they have, which they will also attempt to introduce, it is critical for their case. This Awareness does however, see that there will be considerable effort to keep either of these evidences and witness from being allowed in this case. This Awareness indicates that the negotiation was not necessarily a negotiation with the FBI, but with an individual who did not particularly or precisely represent the FBI or the justice system, but who created a negotiated settlement which was generally agreed upon by the FBI and justice system. It is a matter of whether this will be fully honored, or whether there are some forms of loopholes or some way of circumventing the agreement when the time comes; whether these entities will indeed be able to introduce their argument and evidence into the Admiralty courts of law, which are generally in charge of this country at this time.

The entities did seek to have common law, and a common law court, but this was not negotiable and was not agreed to. Therefore, they will be entering into the Admiralty court of law, which is the courts of law that generally rule this country, and this can be seen by the gold trim around the United States flag in the courtrooms of this country. The Admiralty Law was put in place during the Civil War, when Lincoln declared a state of martial law, and it has never been removed since that time, but can only be sustained by creating a war every two years. Otherwise it would have to be rescinded.

To Maintain British Admiralty Law: We Start a War Every 2 Years

Therefore, you have all of these little wars, including such wars as war on poverty, war on crime, war on drugs et cetera. This Awareness indicates that it will be of great interest to entities to watch this Freemen trial. It is not likely it will be televised because they might give information that is to be kept from the public, if it were televised. It is more likely that the judge will deny testimony on certain topics wherein the judge will argue or state or agree that it is irrelevant or not permissible because it is outside the scope of the trial or purpose of the trial.

This Awareness indicates that it was the intention and hope of the Freemen that they could bring the issue to the public, even in this kind of court of law. It is highly unlikely that this will be successful. This Awareness indicates that although there is quite probably to be an attempt at bringing this out in the court of law. This Awareness indicates that entities who can follow or receive information or transcripts from the trial could receive great benefit from the information given in this trial if it is possible to get such information.

Million Man March on Washington in September

It is quite likely that the trial will be handled in such a way to not allow this information to come out. This Awareness indicates that in regard to the Million Man March on the first of September by the organization known as CALL, the Committee Against Legal Loopholes, in which one million lawsuits and indictments are to be filed against government officials who have violated their oath of office; entities should watch for actions or events that will in some way defuse this effort. More than likely there will be personal attack on the leaders of this action, although there will be many others as backup actors in the scenario.

Government May Attempt to Stop Million Man March

This Awareness indicates that if these entities are wise, they will have a second set of indictments and lawsuits ready to file by others in the event the convoy is stopped, or in the event there is some kind of harassment placed upon the leaders so that these other documents can be filed, even if there is a concerted effort to block the immediate plan, but this Awareness indicates that this may not be anticipated, and entities may be unprepared for the events that could transpire to block the efforts.

This Awareness indicates sees it as highly unlikely that the people behind the New World Order will simply sit back and allow this to happen without some kind of effort to stop it, and this Awareness indicates that these entities surely are fully aware of the plan as given for this action of September 1, 1996.

Should CAC People Organize for the March?**QUESTION:**

In regard to that Million Man March, we got a letter from Paul L., Burnet, Texas. He writes: "I have been doing a lot of soul-searching regarding the September first, second Million-Man March on Labor Day, 1996. I have quietly but effectively been working "behind the

scenes" for three decades now, primarily because I was murdered twice, and on TV so much of history: marches, riots, demonstrations, wars; and with age, I never lost my 'firebrand' spirit; just the need to be more of a philosopher rather than a warrior.

"Can you organize CAC members for the march? If so, I would drive there and put my life on the line once again." I'd like to ask Awareness if it would be advisable for CAC members to sort of organize and participate in that march?

COSMIC AWARENESS:

This Awareness indicates that the best approach for entities would be to contact the organization sponsoring the march to find out more about it and consider joining when it goes through your area. You may not wish to go for the full march. It is approximately 3,000 miles from San Diego to Washington DC. This Awareness indicates that entities may wish to simply march through their own locale with the people for a time, or entities may wish to travel further.

This Awareness indicates it is important that entities be flexible if they are joining this kind of activity, and be very much aware that almost anything could happen and that entities should be extremely apprehensive and cautious in joining this kind of activity, but this Awareness indicates that providing the march actually does get started, and large crowds are involved, it could be an historical event that entities would look back on and recognize that it was a great time to be alive and to be involved in such an action.

This Awareness indicates it is somewhat too soon to predict the outcome of the event or the nature of its unfoldment. There are many factors involved. This Awareness indicates that there may be many other events occurring that can help to secure the action, make it more safe and more viable, and there also could be efforts to disrupt and create panic and defuse the action, if that appears as a possibility for those who would wish to do so.

This Awareness indicates *It* also sees the strong possibility of certain militia forces joining to protect the entities and convoy involved in this march. It does see the possibility of this being a totally peaceful demonstration and action, but it also sees that such significance in terms of its purpose could be a motivation for those who would wish to disturb and disrupt such activities at any cost.

This Awareness indicates it would be an action for those who are adventurous and courageous and quite patriotic to become involved in such an activity. For those who are timid, who wish to be safe rather than to have their freedoms secure, it would not be to their best interest to be involved in such an action.

The Summer of '96 a Critical Summer for the U.S.

This Awareness indicates it is a very critical summer for the direction of the United States as a nation. It may determine whether it remains a nation based on freedom that has long endured for this country, or whether it is a turning point in which the country simply fades away and becomes part of a global system that devours freedoms and personal hopes and energies of individuals for the good of the New World Rulers and their scenario of what is right for others.

Who Is Burning Down the Black Churches?

QUESTION:

There's been an epidemic of arson fires throughout at least nine of the Southern states in the last 6 months or so, and it seems like almost every day there's another one reported. These are churches, Protestant churches, mostly

Baptist churches that are being torched. There's been at least 32 of these and the Bureau of Alcohol, Tobacco and Firearms has been investigating this and so far has said there is no evidence of a racist conspiracy or anything like that.

They arrested a 13 year old white girl in a recent fire in North Carolina, and said that she did it, and NBC Nightly News quoted Federal officials who said that the girl is suspected of being part of a devil-worshipping cult. But basically there's been references that they couldn't find this being connected to militia groups so far, and that sort of thing. Could Awareness explain what exactly is going on, and is there some sort of a conspiracy in regard to all these church fires?

COSMIC AWARENESS:

This Awareness indicates *It* does not see a particular conspiracy in regard to entities having a central leader who is directing the creation of these fires, nor does it appear that there are racial motives behind this. There have been reports of many black churches being burnt, but it has also been noticed that many white churches have also been burnt. This Awareness indicates that it does appear that there are entities who are very hostile to the Protestant churches, partly because of their stand in regard to the abortion issue, partly because they are generally opposed to the New World Order, and partly because there are many hostilities directed toward the entities as being kooks or crazies or fanatics, and many entities feel that they are doing something worthwhile for society.

This Awareness indicates some of these entities are involved in Satanism, or have leanings in that direction. Some are involved in the movement toward the New World Order, and feel that the Fundamentalist Christians are a hindrance to their movement toward this New World Order and the so-called Liberalist movements. This Awareness indicates that these appear to be more or less isolated or small groups, if there is any conspiracy; that the actions appear to be from individuals loosely connected, or not connected at all and that it appears that some entities are just simply hostile toward those Fundamentalists. They have gained much hostility from watching the Fundamentalists on television through the televangelists. Some are tired of having televangelists threaten them with hell or are tired of going to church and being threatened with hell, et cetera, and it is their way of lashing back.

This Awareness indicates that likewise, the tendency of some entities to move toward devil-worshipping as a backlash against the coercion of the Fundamentalist doctrine. This Awareness indicates that there appears to be a kind of backlash which stems from feelings of guilt or rejection of the Fundamentalist teachings wherein entities either feel guilt from the teachings or hostility toward the teachings so that they are embittered and angry at the Fundamentalist Christians for their stand on various issues, topics and ideas.

This Awareness indicates it does not appear to be a general conspiracy of any particular group that has chosen to target the Christian Fundamentalists, or to target the churches of any particular race. This Awareness indicates of course, there are some individuals who are hostile toward blacks or toward certain white churches for one reason or another, and may decide to burn that church because of something someone said or something someone did or as a kind of vengeance, but for the most part, it is simply isolated individuals with a kind of grudge against the teachings of these churches, wherein the entities do not like the message.

In some cases, it is simply a matter of entities doing it for kicks. In some cases also, it is from entities having heard about churches being burnt and wanting to be part of the 'movement'; thus someone who has no basic hostility toward Fundamentalist churches may simply decide "That's great! Let's burn one too!", and thus the entity sets out to burn a church so that he or she can feel that he or she has taken part in the new fad or new activities that make the news.

FOLLOW-UP QUESTION:

At least 32 of these churches are all black churches, and it struck me that it was possible, but Awareness indicated this wasn't the case, that it could be some type of government conspiracy to polarize the blacks against whites, sort of like they did with the Hot August Night situation; that the blacks are beginning to feel that they are under attack by the whites.

COSMIC AWARENESS:

This Awareness indicates that this would be a possibility if it were confined to the black churches, but it has been noticed that many of the white churches have also been burned. It does appear that more of the black churches have been targeted, but this is not significant enough to indicate a strong trend in that direction as of yet.

Is There a Gasoline Conspiracy in California?

(New World Order Making Third World Nation of U.S.)

QUESTION:

A question from John S., Pacifica, Ca. He writes: "There is something strange going on in California regarding the gasoline being sold here. In the early spring of this year, gasoline prices shot up all over the country. A number of spurious sounding reasons were publicized to explain this; what seems really just price-gouging by the oil companies. In California however, an additional reason was given. The gasoline had been reformulated to burn cleaner, supposedly by 15%.

"All service stations in California were required to sell this 'new gas.' Now we are hearing stories in the news media about drivers getting lower mileage, and some say 20% lower, and many cars have started to run badly, to stall out, and have seals and other critical engine parts damaged by this new gasoline. So now we have the situation in California where drivers are paying more for gas, getting lower gas mileage and having costly damage occur to their engines.

"How could this have happened? Was it a costly but innocent blunder? Or was this action part of a conspiracy to damage cars and cause greater pollution, or is it something else?" he asks.

COSMIC AWARENESS:

This Awareness indicates there is a concerted effort to turn the United States into a Third World Nation, wherein the economy suffers so much that entities will be on par with many of the other underdeveloped nations of the world. This is part of the New World Order plan; to bring the United States down economically so that the production and wages of individuals in the United States is not any greater or any higher than that of Mexico or any of the other countries of the world.

This Awareness indicates that by creating poorer quality in terms of manufactured goods, in terms of the energy needed to run the country, in terms of transportation and travel, entities will find themselves becoming less productive; their cars running badly will make it more difficult for them to get there on time, to do the things they are supposed to do, when they are supposed to do them. It will cause the prices of things to go up. It will

create a greater possibility of an economic crisis in this country which is a major part of the plan for bringing this country down in the near future.

This Awareness sees that this is intended for the year 1998. The economic crisis will start before that, but will become more deepened so that the year 1998 is a time in which the country is ready for global takeover. This Awareness does not mean that this will happen; It simply is discussing the plan as intended from present time. There are many other possible things that could happen between now and then that can change the plan.

This Awareness indicates that essentially, there are many forces moving in the world with different agendas, and one group's agenda may not necessarily be the same as another's, and therefore, the plans of one group are not necessarily assured, even if they have great masses of energy working to carry out those plans. This Awareness indicates there are often other forces at work that will begin slowly as a whisper, and grow quickly into a scream, or into a great force that overwhelms the mass of energy that thought it had total control.

Where is that Elusive Health Insurance Bill?

QUESTION:

A Question from Joseph G., Bozeman, MT. He writes: "On page 2 of issue 96-8, Awareness referred to passage of a 'health insurance bill' which included that UN Codex rider. I sent out about a hundred letters concerning this rider to vitamin companies, et cetera, and referred to the health insurance bill. I and others have called Congress to verify this and get a copy, and they don't know what we're talking about.

"Right now there is a health insurance bill making its way through Congress, but it's not passed yet. Can Awareness comment on this further by giving more details, such as the House and Senate Bill numbers and title of the one that did pass in April. If at all possible, can you Fax me the answer?" He's leaving town he says.

We got another similar from Garudas in California. He writes: "I read the latest newsletter last night about the Codex and coming damage to alternative health. This morning I called the Citizens for Health of which I am a member. This is a lobbyist group that got the recent law passed that provided better protection of alternative health. In the past they have warned about the Codex standards being introduced into the United States to ruin alternative health.

"I was told that the Health Insurance Bill is still in committee. It isn't yet a law, and they were very interested in what I said about a rider being added. They have very close relations with many in Congress who support alternative health and can probably get this rider removed, if it can be identified. The reason why I Faxed you is that these bills are often hundreds of pages long and the language can be very vague. Can you get back to me with specifics as to what part of the bill this rider has been added to, and/or which member of Congress has added it so they can more easily identify it to get it removed. Obviously time is very important here."

Can Awareness clarify that information?

COSMIC AWARENESS:

This Awareness indicates that it was the intention of this Awareness to have the Interpreter send a copy of the bill numbers and information pertaining to this to you as an editor prior to the publication of this reading. Apparently the Interpreter forgot to do this. This Awareness indicates that it is something the Interpreter can do upon his return to his home where he has the information on this bill. This Awareness indicates that you may wish to

stay on top of the Interpreter until this information is in your hands.

This Awareness indicates that one of the problems the Interpreter had and which hindered him from doing this right away, was that the information had been Faxed to him and was a very poor copy. Some of the information was unreadable, and therefore, the bill numbers and some of the information is available and yet some is unreadable, but with this, one should be able to find a clean copy of the material from their representatives or senators. This Awareness suggests the Interpreter be given a reminder until the information is Faxed to the editor.*

*The Interpreter told me later the Bills are S.1028 and HR 3103. He says to phone Ken Anderson at 1-800-645-8088 for exact details. Ed.

FOLLOW-UP QUESTION:

Both of these entities were told that the bill is still in committee and is not yet a law. Awareness was emphatic that it was a law, that it had been passed, it's just a matter of time before they enforce the law. Is that correct?

COSMIC AWARENESS:

This Awareness indicates it appears that this has already been passed. According to the information that is available to the Interpreter, the bill was already passed in late April. This Awareness indicates that it is unlikely that the information is incorrect, but it would be miraculous and helpful if something had occurred to prevent its passage. This Awareness does not see this however.

Mass Dreams of the Future: How Valid?

QUESTION:

We received on the Internet, some interesting information. I'll read a little bit about this because it seems to confirm what Awareness talked about earlier this year about food shortages coming. It says that "Dr. Chet Snow, author of the book Mass Dreams Of The Future did a massive study which involved over 2500 people in which future-life progression, (opposite of past-life regression) was conducted by Helen Wambach, Ph.D.

"The first period analyzed was the late-1900's which was foreseen as a time of dramatic, social economic and geophysical change affected the entire planet. This material in its context will be periodically updated as more facts become evident." They add, "In the early part of the investigation into the 1990's, oddly enough began with December, 1996. At that time there were many discussions about food, the increasing price of food, and the critical matter of food storage.

"There was a discussion of how food should not be in direct contact with plastic containers. From the research we conducted for Matrix 3, volume 2, we now know that plastic contains phthalates, which may over time contaminate food. The solution was to store the food in other types of containers before putting them in plastic containers. A television broadcast in late 1996 was observed and it was apparent that the president at that time was younger than Reagan, had prominent ears and had been a prominent governor or senator in the 1980's, not someone I would have predicted as President a dozen years earlier."

"It was seen that by the end of 1996, the general price of food will skyrocket, probably as a partial result of the extreme weather in the first half of 1996. In late 1996, a radical group in Israel surfaces intent on removing Arab inhabitants from the occupied territories, especially Jerusalem, in order to reestablish the Biblical kingdom of David and Solomon. There would be a proposal to tear down the mosque at the dome of the rock, a proposal that would tremendously anger Arab neighbors who swore a Holy War if such a plan were carried out.

"It is evident that by late 1996, world weather will continue to be in the news with widespread flooding of coastal areas, a rise in sea level, and increasingly intense storms. The winter climate will become cooler and wetter. Freak storms will establish new record temperatures and conditions of drought and rainfall around the planet. The planetary economy will be in a tailspin." It goes on and on, through 1997 and 1998 and so forth. I'd like to ask Awareness about the validity of this method of gathering this information by regressing people, or progressing people forward into the future, and the validity of this Dr. Chet Snow's book The Mass Dreams of the Future?

This evidently was posted from something that appeared in Valerian's Leading Edge publication.

COSMIC AWARENESS:

This Awareness indicates that this has validity to a degree, depending largely on the number of people who have participated. The more participation, the more numbers of participants, the more likely to come up with a valid forecast of the future. If one were to use this method using three or four people, the method would be much less likely to have validity than if the method were used on a large number of people who came up with similar information, even without being in touch with each other.

This Awareness indicates in this manner, the validity can also be more verifiable, because as large number of entities foresee the future with parallel visions, the future's parallel visions become verifiable to each other. This Awareness indicates that in the case of Dr. Snow, this appears to be the way the system was performed, using large numbers of people over various times to look into the future, but this Awareness does not recommend entities put great stock in using a few of their friends to foresee the future.

This Awareness indicates that to do so would bring about many interesting future scenarios but the accuracy is not reliable. This Awareness indicates that the work of Dr. Snow appears to be relatively reliable, although the future is not fixed, and things can change according to energies set in motion at any given time. This Awareness indicates that this information as given in the reading of the material appears to be generally accurate. The details not necessarily complete or totally accurate.

This Awareness indicates that *It* had previously suggested the likelihood of neither Dole nor Clinton being elected in 1996.

FOLLOW-UP QUESTION:

It also predicted food shortages by December of 1996, did *It* not?

COSMIC AWARENESS:

This Awareness indicates that *It* did predict food shortages. This is in the affirmative. This Awareness suggests that entities *do* need to become somewhat prepared for these food shortages; that storing of the most basic foods that can be stored such as rice and grain; flour for cooking and the various substances needed in baking and for cereals, should be stored for emergency purposes. This Awareness indicates that your cereals as prepared in supermarkets in your boxes of cold cereal or hot cereal may become too expensive or may even be unavailable at some point in the future and you may find that having wheat on hand that you can grind, or having oatmeal or having rice available to cook may be what you need to supplement the small amount of food that is otherwise available to you. This could complete a meal for your family, just having this extra food on hand.

This Awareness indicates especially in winter time. It is difficult to try to grow food in the winter time. This Awareness indicates storing of nuts, storing of fruit that will survive through the winter, such as apples and pears can also be beneficial, if these are kept in cool places or in places where they can be stored. This Awareness indicates that entities can store carrots and potatoes in cellars with a small amount of dirt over them and these in a dark cool place can be stored for quite some time without spoilage.

DID THE "CURSE OF THE EVERGLADES" BRING DOWN FLIGHT 592?

QUESTION:

In a recent Weekly World News tabloid, there is sort of an interesting theory to this Flight 592 which recently crashed into the Everglades. I'd like to read a little of this and ask Awareness to comment on it. It says:

"The tragic fate of Flight 592 which plowed into the Florida Everglades killing all 110 on board is the third horrifying event to take place within a five-mile radius. The first was in 1841 when 213 Seminole Indians committed mass-suicide, rather than be captured by the US Army. The second was in 1972, when Eastern Airlines Flight 401 crashed into the vast swamp killing 101 of the 176 passengers.

"Incredibly, the sites of the three tragedies, each roughly 5 miles from the other, form a precise equilateral triangle. "Some locals are already beginning to call the area the Triangle of Death" noted a local historian. The spot where Flight 592 crashed on May 11th, about 20 miles Northwest of Miami is a remote forbidding region known for its tall razor-edged grass, poisonous snakes, and blood-thirsty alligators. Beneath the murky chest-high swamp-water lies a layer of dense quicksand-like muck built up from decaying vegetation over the past 4000 years.

"The area is little changed from how it was more than a century ago when a brutal war was being waged between the US Army and the Seminole Indians. Many members of the tribe were black slaves who'd fled from Southern plantations and intermarried with the Indians and the government was eager to return them to slavery. In February of 1841, General Thomas Jessup made an offer of peace to the Seminoles and hundreds of them assembled at Fort Jupiter, while he petitioned the US government on their behalf, but as they camped out, the crafty general ordered them rounded up.

"About 150 of the Seminoles were captured, but others ran. One large band fled to the Everglades hoping to take refuge in the swamps, but the army, outfitted with newly patented Colt repeating rifles, doggedly pursued the band and surrounded them. "Rather than be captured, the Seminoles decided to take their own lives," reveals Summerhill. Men, women and children slit their throats and cast themselves into the swamp water.

"When the soldiers closed in they didn't find a single body. The corpses had all vanished into the impenetrable mud. "Only one of the Indians chickened out and was later captured," says the historian. "He told his captors that the leader of the band, a powerful medicine man had laid a curse on the area. He said the curse would not be lifted until an equal number of souls of the invaders were taken."

"It appears that the curse claimed its first victims more than a hundred years later on December 29th, 1972, when the Eastern Flight fell from the sky. The scene was nightmarish. Many survivors were trapped in the muck. Rescue workers couldn't see them or hear their

screams over the sound of the air-boats. Strangely enough, the latest air-wreck brings the number of plane crash victims to 211, just two short of the number of Seminoles who died in 1841.

"Notes the historian: "Perhaps when two more people have died in the Triangle of Death the curse will finally be lifted." Will Awareness comment on that information?

COSMIC AWARENESS:

This Awareness indicates that many of those who have died; the 211, were reincarnation of the soldiers involved in pursuing those Seminole Indians. This Awareness indicates that it appears that this story is essentially correct and one of karmic implications. This Awareness indicates that the creation of a curse of this nature as that which can be accomplished by certain entities under extreme duress; those who have a deep understanding of Shamanism and the power of the mind. It is not something this Awareness condones.

The Curse of King Tut's Tomb a Similar Situation

This Awareness indicates, however, it is something that has occurred not only among these entities, but in other situations. This Awareness reminds you also of the King Tut circumstances surrounding the intrusion into the tomb of King Tut and those who were victims of the so-called curse of the mummy and the curse involved in raiding or opening the tomb of King Tut. This Awareness indicates there are forces involved in these things that have to do with setting energies into consciousness and attaching those entities to a particular area.

This Awareness does not wish to explain how this is accomplished, but does indicate that this is sometimes accomplished and has been done down through the ages by different types of entities who have understood the nature of affecting consciousness through the use of imagery and the setting of energies into a particular locale. This Awareness indicates that the energies may also be removed by those who set the energies. It is more difficult for others uninvolved to remove those energies.

This Awareness indicates that it is possible to remove such energies, but it is extremely difficult for an outsider to remove that kind of energy that is set, especially during times of great duress as occurred for these entities at that time. This is in part because not only was the priest or Indian medicine man involved who set the curse, but all of those who perished participated in feeding that curse so that it became more powerful.

Were Thought-Forms Created to Guard the Suicide Area of the Everglades?

FOLLOW-UP QUESTION:

Awareness once explained how thought-forms of certain types of creatures were created to guard these ancient tombs, and I was wondering, was there some sort of thought-form created in this situation?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates you must understand thought-forms are simply energy pockets of consciousness that hold a certain information. Recall that this Awareness has indicated "All Energy is Information. All Information is Energy." Thus, the entities in setting a curse simply set a picture of information. You may think of it as the development of a picture; when the picture comes into focus when it is being developed, it is said to be 'set'. When it is complete it must be removed from the developer and put into a neutralizing solution so that it stops turning dark, otherwise it will become so dark that it no longer contains a picture.

This Awareness indicates likewise, when an image is

held, it is essentially a thought-form. If it is set, the thought-form stops flowing or moving and becomes fixed. If it is fixed in time and place, then it remains in that time and in that place, and continues to hold the information and energy.

What is that Dizzy Sort of Feeling Lately?

(More on the Effects of the Photon Energies)

QUESTION:

A question from JD in New York. She writes: 'My friend Shirley and I were discussing a common experience. Occasionally, for no apparent reason one suddenly feels woozy, dizzy, faint, light-headed, reeling. Life just sort of seems to be suspended, and then after perhaps 10 or 15 seconds, it passes and one returns to normal. What is this?' she asks.

COSMIC AWARENESS:

This Awareness indicates that this kind of experience sometimes happens to entities who have been sitting relaxed and who stand, which causes the blood to rush from the brain. This also has been experienced by entities when their blood sugar suddenly drops. This Awareness indicates, however, it does not appear that this is the particular situation for you. This Awareness indicates that this appears to be a circumstance that has been happening to quite a few people as a result of the Photon energies that are involved in the flux of consciousness at the present time; that there are more cases of this kind of experience than normal, and it appears that this is partly what is happening to you.

The Photon energies appear to cause an entity to feel not only light-headed, but the focus of vision becomes altered somewhat so that the point at which you look appears to be surrounded by a kind of light energy, but the exact focus is covered by energy so that you cannot make out the clarity of vision. In other words, you stare at something, you cannot see what you are staring at, but you can see around it and there is a kind of energy field with foggy-like vision, and this may last for several seconds. It has to do with the Photon energy that your vision and your consciousness attunes to wherein a clarity of vision is lacking, but a sense of self-awareness increases.

You become more aware of self, but less aware of that which you view, yet you become also very much aware of your own viewing process, recognizing that you are not seeing clearly, and that you are attuning to a kind of extra energy that blocks your sight. It appears almost likened unto looking at a negative rather than a clear picture or clear photograph. The negative energies show up, the photograph is blocked by the negative energies.

This Awareness indicates it has to do with a polarity shift in the Photon energies of light.

WHAT IS MAIN CAUSE OF PROSTATE CANCER IN U.S. MALES?

QUESTION:

Another question from JD. Awareness may have given this information. "What's causing prostate cancer in most of our male population in the united States?"

COSMIC AWARENESS:

This Awareness indicates that this information has been generally covered in Dr. Clark's books on flukes and parasites and the use of solvents in the diet and in other products that are so commonly used in society today.* This Awareness indicates that also there are additional influences from the diet that compliment the flukes and parasites and solvent activities on the body and help to cause this disease to take hold and grow.

Diet alone is not an absolute cure or prevention, but diet can enhance the effect of the flukes and parasites and the solvents in causing the cancerous conditions.

*"The Cure for All Cancers" by Hulda Clark, Ph.D. Available from CAC. Please refer to Book Price Sheet.

Any Harm in Long-Term Use of Colloidal Silver?

QUESTION:

Another question here from JD. "Is there any harm in making colloidal silver part of one's daily diet, long term?"

COSMIC AWARENESS:

This Awareness indicates that it appears to be generally beneficial, however there does appear to be some situations in which substances being sold as colloidal silver are not absolutely pure colloidal silver. There is that which is silver nitrates, which are often passed off as colloidal silver. One can tell whether they are using silver nitrate as colloidal silver because the silver nitrate tends to turn the stool very dark, almost black. If the stool becomes extra dark one can presume that instead of colloidal silver, you are taking silver nitrate, which is being marketed as colloidal silver. This is not healthy for entities.

This Awareness suggests that the colloidal silver appears to be beneficial, but that even that should be limited to a certain amount of time, such as two months with a month off so that the body has the opportunity to readjust and normalize between uses of the colloidal silver. This Awareness indicates that this helps to keep the body from becoming immune to the colloidal silver and its effects.

If entities use the colloidal silver without a break, the body may begin to build up some kind of resistance to the silver particles in the liquids of the body so that the body is attacking these silver particles to get rid of them. Over a period of time the body could gradually strengthen its attacks on the silver particles so that it more or less becomes immune.

This Awareness indicates that this is a kind of general statement that is not precisely accurate, because the silver particles are hardly particles, they are so small, but in a general sense it helps to explain why you would not want to use colloidal silver without taking a break once and awhile. This Awareness indicates that the use of colloidal silver for three weeks out of a month or three months out of four appears to be a good ratio.

FOLLOW-UP QUESTION:

The entity Wain Roland who developed the Wain Water tells us that after using it for major problems, like a half a bottle a day for a couple of days, that entities can, thereafter, use one capful of this water on a regular basis. Does Awareness see this as having any detrimental effects?

COSMIC AWARENESS:

This Awareness indicates that this small amount would be beneficial on a regular basis. Using large amounts over long periods of time would not necessarily be harmful, but the body would simply begin to counter the benefits after some lengthy time.

HIGH RANKING U.S. OFFICERS TOLD TO PLAY BALL WITH NWO OR RESIGN NOW

QUESTION:

We received over the Internet from the Minute Man Press, a posting called "High Ranking Military Officers Told to Get Out If They Don't Support the New World

order!" The source is Perceptions Magazine, 10736 Jefferson Boulevard, Suite 502, Culver City, California, 90230. April 25.

"The electrifying rumor that "high-ranking US military have been told to "play ball" with the New World Order agenda or get out now" which has been circulating since late March got further verification yesterday afternoon thanks to an alert Patriot in Los Vegas.

"A source has reported "Yes. The Joint Chiefs have rewritten the Uniform Code of Military Justice, (UCMJ) to state that the United States will accept orders and commands from the United Nations." When asked how he thought the military would sell this to the American public: "They don't care what the public thinks." Anyone wishing to verify this report can obtain the revised UCMJ as soon as it is available.

"We have received information that "There have been high-ranking officers that within the last couple of weeks have abruptly resigned from the military. We are talking about line-officers, full bird colonels through 3-star Generals. There have also been low-ranking officers, but the report that we have is that they were concerned about the resignation of line-officers as well as full birds and above. Anyone not wanting to go along with this new World Order would be given an honorable discharge. Anyone who did not make a decision within the allotted 100 days, ending the middle of May, 1996, would be given a dishonorable discharge."

"In addition, General Shalikhshvili, Chairman of the Joint Chiefs, was ordered to change the Uniform Code of Military Justice, the UCMJ, so that any soldier or officer not obeying any order, regardless of whether or not such order is lawful or constitutional, they will be court-martialed." And the posting ends: "Something is coming, we had better be ready."

Would Awareness comment on that information?

COSMIC AWARENESS

This Awareness indicates the information appears to be accurate. This Awareness indicates that this may be foretelling of the near future. It is seen by this Awareness that something is very likely to occur before the Million Man March or shortly thereafter, probably before the election in November that will force entities to choose to follow the New World Order or to make a stand in opposition of this.

A Second Revolutionary War "Is Highly Likely"

This Awareness indicates that it appears that this is coming from directions by those powers behind the New World Order in which there are efforts to enforce the changes on this country. This Awareness indicates that it is seen as a time of decision and the decisions will create enormous conflicts. This Awareness indicates that a second revolutionary war is highly likely. The war between England and the states is likened unto a mirror in distortion in which the Rothschilds and the United States creates a greater revolutionary war in which this country will again decide its future ties with the English powers and those of the 13 Families who wish to rule the world through the New World Order.

Those Addicted to Power VS Those Addicted to Freedom

CLOSING MESSAGE:

This Awareness indicates that entities are living in an historical time, not that unlike the time when this country found its roots of independence. The freedoms that once were common in this country have already been lost. There is the facade of freedom, but anyone who looks deeply will realize that these are only illusions of free-

dom, yet there is that deep sense within most entities in this nation that freedom is essential for the continuance and spiritual fulfillment of mankind in general, and most entities prize freedom more than security, and therefore, it is unlikely that entities will simply cower and grovel at the feet of tyrants, and therefore, this Awareness sees a conflict looming for the tyrants of the world and the people who love their freedom and liberties and want these freedoms and these liberties to endure for the children and grandchildren and future generations.

This Awareness indicates that there are some entities who have become addicted to power. They are addicted in the same way that entities can become addicted to drugs, wherein they are willing to rob, cheat, steal, even kill for their addiction if necessary, and these entities who are addicted to power are so afraid of losing their power, that they must control everything and everyone right down to the slightest eyebrow twitch so that everything they have in their realm is under their control.

This Awareness indicates there are also entities who are addicted to freedom, to liberty, to the opportunities for soul growth, and these entities are likewise willing to spend their future lives promoting and securing those freedoms and the liberty for themselves and for their children, and therefore, there are two powerful forces that will clash, and this Awareness does not see this as being defused in any near future. This Awareness indicates, however, the possibility of compromise is always present, but this Awareness does not see the tyrants as being willing to compromise because a compromise means giving part of the control to the other, and those who are addicted to power and control are not willing to give up any part of the control to any other individuals within their realm and domain.

The Control that Controls Control Awaits

This Awareness reminds you also that there is a control that controls control, and that is the control known as "death" and those who would have absolute control may find that they are inheriting the control that controls the control.

(The Law of Gratitude is given)

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Interpreter for this reading is Paul Shockley

"If ye love wealth greater than liberty, the tranquility of servitude greater than the animating contest for freedoms, go home from us in peace. We seek not your counsel, nor your arms. Crouch down and lick the hand that feeds you. May your chains set lightly upon you; and may posterity forget that ye were our countrymen."

--- Samuel Adams

Extraterrestrial Intruders: How Much Longer?

("We Shall See the Four Horsemen")

QUESTION: (6/19/96)

A question from Robert S., Vancouver, British Columbia. He writes: "Enclosed is an editorial from the Spring, 1996 British magazine: *Flying Saucer Review*. The comments by editor Gordon Creighton are interesting and typify those he makes. Would Awareness have anything to add to his editorial?" That was his question. I'll read the editorial. It's called "How Much Longer to Go?"

"Some recent events near at home may have induced a few folks here and there to ponder deeply upon the "whys and wherefores" of it all, but that will have little effect, since as Gurdjieff taught us, most of mankind is fast asleep.

Several times in recent years however, I have mentioned the powerful evidence that our present so-called "human" species is not the first intelligent community to have appeared on this planet and that as all its predecessors had, it too "has a date someday with destiny."

"And another of our teachers, the Indonesian Sufi, Muhammad Subuh, who knew a lot about such matters, hinted that there have been at least *five or six* such earlier "hurrianities" here, (the last being covered by our term 'Atlantis') and that all were destroyed and replaced in due course by others raised up by this same Divine Creative Power.

"While we know absolutely nothing about any of these earlier "previous occupants," or about why they were "scrubbed," we should not overlook the fact that, if our own fragmentary religious traditions are to be believed, this present mankind of ours was *vitiating, gravely tainted, almost right from the start, by certain elements mixed into them that are not even "human" at all, but "something else."*

"These "Sons of Belial" or "Sons of Satan" (Beni-Belial) (which refers to the Jewish word) as they are called in the Hebrew Old Testament, are unfortunately still very much with us and aiming for a big and conclusive triumph soon.

There is an important Mongolian prophecy dating from an extraordinary event in the last century and predicting that "the enemies of the Divine Spirit and of the Divine Spirit In Man will come."

"These happenings will be accompanied by enormous changes on the earth. As to when precisely, no man can say, but my own feeling is that the "time-slot" conveyed by Edgar Cayce to myself and my foreign office colleague David Rodgers in New Orleans 53 years ago, was probably about right. In other words, around the end of this century.

As I wrote 5 years ago in an editorial: "We shall see the *Four Horseman!*"

That's the end of this little editorial, and Robert asks if Awareness had any comment or anything to add to it.

COSMIC AWARENESS:

This Awareness indicates the entity is referring to extraterrestrial intrusion on the earth. This Awareness suggests that the negative forces the entity speaks of are already present. This Awareness has mentioned this previously; that these entities are those from Draco who work with the Orion Forces, or Orion Empire; that the two: Orion and Draconian extraterrestrial forces are already present.

The Zeta Reticuli have been recruited to work with these entities, but that there are factions within the Zeta Reticuli who have begun to break away, and who have a desire to work more closely with humans, because humans are more compatible and compassionate to their own needs. This Awareness indicates that this information has been given, and that the only comment on this

editorial is to put the information from the editorial into perspective as it relates to the information This Awareness has already given in regard to extraterrestrial visitors or intruders.

If Things Get Too Rough Sirians and Pleiadians May Help Us

This Awareness indicates also, there is still likely to be further contacts from Sirius and the Pleiadian, contacts which can be beneficial to humankind, but that this will more likely occur if humans are unable to withstand the pressures of the negative extraterrestrials. If they are not able to withstand these negative extraterrestrials, there is a strong possibility of some assistance from the Sirian forces.

The Pleiadians have a reluctance to get involved, because having done so previously, they realize it did not serve the purpose of humanity sufficiently. It simply helped humans to become more dependent on others rescuing them as opposed to humans learning from the experience how to avoid the negative forces from the beginning. This Awareness indicates the Pleiadians tend to prefer that humans learn how to deal with these negative forces rather than to serve as rescuers from the negative forces for humanity.

The Sirians are somewhat naive in this regard and may offer assistance. It would dismay the Pleiadians if this were to happen. They would prefer the Sirians leave the humans to their own resources in dealing with the negative forces.

When Will the "Landing" Be Announced?

FOLLOW-UP QUESTION:

Many of our readers keep writing in asking us "When is this going to occur?" Does Awareness see any change in the time-schedule?

COSMIC AWARENESS:

This Awareness wishes an explanation of what the occurrence is in reference to.

QUESTIONER:

The so-called "landing" of these entities on earth, of course, and the announcement to be made by the governments.

COSMIC AWARENESS:

This Awareness indicates that the negative forces essentially have already landed, are already present. Apparently the entities are referring to the rescuing forces of the Pleiadians or Sirians, and this Awareness suggests that the Pleiadians do not wish to be put in the position of rescuing humanity. They feel that humanity has the ability to take care of its own problems, and only by taking care of its own problems will humanity mature and grow enough so that this does not repeat again.

This Awareness indicates that the Sirians are more likely to intrude because they have not yet had this experience of having previously rescued humans only to see it repeat itself, as occurred with the Pleiadians. The Pleiadians are inclined not to rescue again, because having done so once and seen it not being of great benefit to humanity, they see that humanity failed to learn from its association with the negative forces, and repeating the association at this time, the Pleiadians feel it is important for humanity to get in deep enough to realize it was a wrong move, and therefore, by extracting themselves from the grips of the negative forces, humanity would learn not to get involved again at some future time.

The Pleiadians may inform the Sirians that this is not a good move, to rescue humanity, but whether the Sirians will listen or adhere to the Pleiadians' request is yet to be determined. This Awareness indicates that much will depend on who communicates the most with the Sirians

or whether humanity appears capable of taking care of its own problems, or if people just remain asleep, waiting for someone to rescue them and if that occurs, whether those who are expected to rescue will actually succumb to the pleas of humanity, or will simply decide to let humanity learn its lesson and learn to rescue itself from the negative force's grip.

Waiting for Godot--Those Who Expect the Rapture

This Awareness indicates the Pleiadians understand that the negative forces are not overwhelmingly powerful on earth, partly because the reinforcements were unable to arrive as planned, and those that do remain on earth as forces manipulating the leaders of the earth, are in themselves not as powerful as they could have been, nor are they really powerful enough to coerce humanity into yielding to them without the consent of humanity in general. Therefore, entities who are waiting for the 'God of the Machine,' as the Greeks termed it, or 'waiting for the cavalry,' or waiting for the extraterrestrial arch-angels or the 'rapture' or whatever rescuing force is expected and anticipated; these entities may be likened unto 'waiting for Godot.'

In the play "Waiting for Godot" the entities waited and waited and waited, and Godot never came. This Awareness indicates that it may be the same for entities who wait to be rescued from the so-called 'alien oppressor' or humanity in this present scenario. This Awareness indicates that humans have the ability to rescue themselves, and if someone has the ability to rescue themselves, is it really necessary for others to come to their rescue? Or is it not rather indulgent and placating to humans to continually rescue them? Does not this tend to enable them to go back into their careless sleep and playing with the negative forces, letting negative forces have more dominion over them, knowing that eventually they will be rescued if they get themselves in trouble from such activity?

This Awareness indicates in other words, It is saying: "If you are waiting for the rescuer, don't hold your breath!" This does not mean the rescuer is absolutely not coming, but this does mean you would be foolish to hold your breath, waiting for the rescuer. The entities who wait for rescuers tend to be entities who promote the victimization complex. They promote themselves as victims by waiting to be rescued.

THE PHOTON BELT AND ITS EFFECTS: AN UPDATE

QUESTION:

A couple of questions from an entity in Pasco, Washington, who only signs the initial 'M' on this. He writes: "I'm wondering if Awareness could please comment on the validity or lack of, of the Alex Collier Material. He claims to be in contact with the Andromedans.

His material seems to make sense, but part of it is definitely in conflict with our friend Mr. Nidle. His whole scenario is a bit different than Sheldon's, but it's the main point of contradiction I'm concerned about.

"The points in question are these: Firstly, there is the claim that the Sirians are indeed coming, but they are really not the lofty beings that some say they are, and basically have their own best interests at heart. They supposedly want our DNA. It seems everyone wants our old DNA these days!, because we've been to the 11th Level or something like that. They supposedly want to control us.

"Second: He says that Hale-Bopp is full of reptiles, not the lovely individuals Sheldon speaks of. This should be an easy one! Who is in there? I realize that most all

material is going to have a slight mix of truth and inaccuracy. There are going to be things that are open to interpretation. What I'm interested in is how this directly conflicts with a scenario that a lot of people are putting a lot of hope and faith and energy into. Please shed whatever light you can on this.

COSMIC AWARENESS:

This Awareness indicates that the first thing to understand is that Andromeda is a *different galaxy* altogether. This Awareness indicates that they are not part of the Milky Way galaxy. This Awareness indicates that these entities do have high spiritual qualities and high intelligence, and they do have some spill-over influence into this galaxy. This Awareness indicates that much of the higher spiritual qualities of those in this galaxy come from having had contact with Andromeda, and others in that galaxy.

This Awareness indicates that there are many modifications or variations in how information is perceived and expressed by entities such as Nidle, when he reads the energies from Sirius, and not everything that Nidle has said in his book is 100% accurate in terms of the language used. For one thing, much of what he is speaking of is somewhat vague, even to him, as a recipient of the energies, and he has simply tried to convey as carefully as possible what he 'thinks' he picked up from his contacts.

Channels Like Nidle Not Always Precise

Entities need to understand this because if they think channels are always precise in their statements, then they put too much stock in the channel, for channeling is a very artful activity, rather than a scientific activity. It is likened unto listening to a professor describe a piece of modern art, in which nothing is really clear. You are getting the professor's interpretation. If you wanted the artist's interpretation, you might get something totally different, but then at the same time, the artist might not know exactly what he was doing when he painted the picture, and in general, the action of modern art is simply designed to create patterns or images that the viewer can interpret in his or her own way.

Much is the same with channelers. When an entity channels energy or information based on energy received, the entity puts into words what he perceives is meant by the energy that is perceived, and therefore, distortions may occur based on the channeler's perception or desire for meaning. This Awareness indicates that when entities ask this Awareness for *Its* evaluation of such channeling, whether *It* is accurate or not, and this Awareness indicates *It* is generally accurate; this does not mean *It* is 100% accurate in every line or every concept. *It* means that in general, there is truth to the interpretation.

This Awareness indicates that those who want absolute undeviating clarity in interpretation, such as would be found in a law book or an owner's manual, will not find such absoluteness through any channeling, and would be better off to stick with something else, such as law books or encyclopedias for their search for information.

All of these channeling activities that entities seek are simply efforts to put psychic images, symbolism, energies into words that help to convey what is seen or sensed, but the words may be distortions rather than absolute accuracies because you are dealing with uncertain substances to begin with. It is not likened unto reading numbers and figures of fact. You are reading steam, mist, hints of meaning, and trying to put words on these fleeting images that are experienced by the channeler.

This Awareness indicates that in a general sense, the Nidle book had considerable value and meaning in helping to explain the energies that occur when the earth

passes through a certain area of its orbit, wherein essentially the solar system passes through the area and the earth follows in the solar system. This Awareness indicates that this work of Nidle does have certain value in a general sense.

Barbara Clow's Book "The Pleiadian Agenda" is Recommended

This Awareness indicates there is another book now available that also has certain value in regard to the Photon Belt; this being the book by Barbara Hand Clow called *The Pleiadian Agenda*. * She speaks of this Photon Belt and the movement into this, but she also has a different interpretation from that of Nidle, and this Awareness indicates that both of these entities are generally correct, as long as you allow them to have slightly different interpretations.

*Barbara's book is available in most book stores or can be ordered from Bear & Company Publishing, PO Box 2860, Santa Fe, N.M. 87504 or call 1-800-WE-BEARS.

This Awareness indicates it is likened unto asking "Who is correct about World War II? This author, or that author?" Both of these authors may be able to look at battles of World War II and yet come up with different interpretations of what actually happened in those battles, or the significance of the battles themselves to the overall war effort. That does not mean that one is wrong and the other is right. It means that each interpreter has seen things from a different perspective, and entities should not presume that in order for an author to write something in a book it has to be 'gospel truth.' It only has to be interesting and close to validity for it to be worth printing.

Hale/Bopp Comet Contains Negative Intruders

This Awareness indicates that insofar as the comet known as Hale-Bopp, it does appear that this is more of a negative intruder than positive. It does not appear that it is from Sirius, and it appears that it is something more closely associated with Draco. This Awareness indicates the energies on this are still muddled, and therefore, this Awareness does not wish to comment completely until there is more clarity. The energizing of this needs to become more clear before complete discussion takes place.

New Light Shed on the "Seven Days of Darkness"

This Awareness indicates that as time has passed in regard to the concept of the Null Zone, it appears that this so-called 'Seven Days of Darkness' is more of a symbolic experience relating to the nature of light than actual darkness in terms of visual perception. The changing of the polarities that affect the Null Zone appear to affect also consciousness itself, so that there is a dulling of consciousness for approximately seven days which suggests a similar darkening in terms of visibility, but the visibility may not be quite as dark as previously suggested or implied in the Nidle books.

It appears that it is as much a darkening of consciousness for seven days as it is for light, but that the darkening is not total blackness either in terms of consciousness or in terms of visible light. It is simply a diffusing or depolarization of photons in terms of particles that make up light, so that things become less defined. The foggi-ness of diminished consciousness, similar to that of entities dropping off to sleep, and the similar foggi-ness in terms of visual light are seen as being more likely to accompany the Null Zone than actual darkness in terms of visible capabilities.

Nidle's Book Better Off Not Having Been Written

This Awareness indicates that it would have been better for the book not to have been written or for information not to have been given and for entities to simply go through the experience, as has occurred previously when

the earth moved through this sector of the galaxy, because entities can adjust easier to what is happening and not have to do mental gyrations of trying to control it with their mind, trying to figure out what to do with their mental capacity.

It is often better for entities to simply find themselves in the midst of a circumstance rather than to have to plot out their future plans for an upcoming circumstance or crisis, but this Awareness indicates that is not the case this time. Scientific capacity to look forward into time and space allowed this movement to be anticipated, and the scientific community leaked certain information, and certain entities getting some of the information, were able to put forth certain information to the masses, and the masses now are pondering and worrying, trying to figure out what will happen in terms of the actual day to day experience that they will be enduring during some future time period, which they do not fully understand and which they wish to know in terms of the precise dates.

You are Already in the Photon Belt

This Awareness has indicated previously that you are *already* in the Photon Band. It is often called 'belt' in the Nidle books. It is called 'band' in the Clow book, and being in the Photon Band, you do not even know it without being told; thus, it is a subtle experience that may become more obvious as time passes, but this Awareness indicates you could perhaps have passed through it without being told and you might simply realize upon looking back that a lot of change occurred during those particular years, but to have it explained as was explained by Nidle, entities expect extreme dramatics, extreme changes, sudden darkness, sudden light, or sudden changes in terms of this or that in their society.

The "Big Weather Changes" May Only be Just Ho Hum

These sudden changes may not be sudden at all. They might occur quite subtly and quite naturally. This Awareness indicates that there will be weather changes, storms, and other changes in the atmosphere that accompany these changes in light. This Awareness indicates that these storms and atmospheric changes may not seem so extreme, when they look at statistics on how many storms or how much weather change occurred; entities will be able to see that it was a very unusual time, but the entities might not otherwise even realize what an unusual time they have experienced.

This Awareness indicates in other words, if you did not know or did not anticipate or did not have the sophistication of tracking changes in weather, atmosphere and other similar things, much of the movement into the Photon Belt might not even be recognized by many people.

You Will be Able to Measure Changes in Your Consciousness

This Awareness indicates the main thing this Awareness wants you to watch is the changes in your consciousness. Are you becoming more aware during this time? Are you more sensitive? Are you more inclined to be compassionate to others? What is happening to you in terms of your own spiritual sensitivity and growth, in terms of your visual and physical and perceptual consciousness? Are you seeing changes in yourself? This Awareness indicates that this will be something you can measure. Much of the rest may not be as easy to measure until you have statistics available.

This Awareness indicates that the Nidle book, as with all books, tends to be written in a way that makes it more dramatic. When a writer writes of a basketball game, he does not tell you of all the dribbling that is unimportant; he does not tell you of all the passes that led to nothing. He does not tell you of all the running up and down the floor that amount to nothing of significance. He tells you

only of the more dramatic parts of the game. Likewise, with the Nidle books, the entity dramatizes, and dramatizing generally means focusing on the exaggerated or more notable parts of a story.

Stories of Photon Belt Focus on Exaggeration

This Awareness indicates therefore, the dramatizing of the story of the Photon Belt may take on a kind of exaggeration of everything, and entities are expecting this exaggerated experience to come down as written, but this Awareness suggests it will probably be much more subtle, with less exaggeration, and there may be times when you are totally bored as you experience the Photon Belt because there is nothing to do this afternoon, and you are waiting for something exciting to happen. Other times, there may be some kind of excitement, but you may not even put it in reference to Photon activities without somehow being shown how it relates.

We are in Photon Belt Until November 30, 1996

This Awareness indicates that from February through approximately November of '96, the earth is in the Photon Band. After November it will leave the band for approximately two months and then return again, and without being aware of this, you will probably not even notice it. This Awareness indicates after 1998, it will be in the Photon band for approximately 12 years, and during that time, great change in consciousness can be expected, wherein entities become more closely aligned to that which is termed 'Cosmic Consciousness,' but over a 12-year period of moving into Cosmic Consciousness, it may be so gradual that entities hardly recognize anything is happening to them.

Some are Moving Toward Cosmic Consciousness, Others are Not

While many are moving toward Cosmic Consciousness, others may be moving in the opposite direction, and this is creating a split in the dimensional shift; for entities to go into a higher frequency or dimension in one direction, or go toward a lower frequency and dimension in a different direction. This can occur of course, while entities are still in the same world, in the same space with each other, but one person may be of a lower dimension, and the other may move into a higher dimension, until eventually they have no recognition of each other or very little recognition of each other. The body of one may simply fade out of sight of the other.

It is not as though there is some fork in the road whereby entities are divided: "You go this way! You go this way!" It is not like that at all. The fork in the road is really just subtle vibrations that entities attune to, rise in higher spiritual dimensions, or which they hold onto to go into lower frequency levels.

Will Wanderers Tend to Remain Here on Earth?

QUESTION:

Awareness, these Wanderers who come on missions to uplift humanity here on earth that Awareness has referred to at various times, wouldn't they tend to remain on earth to help the unfortunates that remain, rather than move into the higher dimension?

COSMIC AWARENESS:

This Awareness indicates this is a matter of personal choice. The entities were not drafted to their duties on earth. This was a volunteer action. It is a matter of whether they wish to remain, or to go into even deeper vibratory levels, or whether they wish to move into the higher frequencies, along with other developing human types.

Getting Computers Ready for the Photon Belt?

QUESTION:

A question from Hazel A., Berkeley Springs, West

Virginia, concerning the Galactic Human transition. She writes: "We would like to ask Awareness if we could know at this time any modifications which could be made for computers from electronics to photon energies. One of our sons is in that business with a major TV station in Philadelphia and would like to be working out some details needed for this transition." Or is that not going to happen?

COSMIC AWARENESS:

This Awareness indicates that this is a technology that is dependent on certain basic changes that must occur in higher social and commercial order than merely people working in a TV studio or constructing electronic equipment. For example, you cannot construct a TV that will work on the moon, if the moon does not have hydroelectric power or other forms of electricity that would power the television that is taken to the moon.

To create a television set that uses photon energy on earth would not be something that entities could expect to work unless there are the connecting technologies to tap into the photon energies on earth, when the earth is into the Photon Belt. This Awareness indicates that this will come in its own way, in its own time; that this Awareness cannot provide you with the technology for making this kind of connection for all of your television sets and all of the electronics.

This Awareness indicates that it essentially will come down to some device that converts photon energy into electricity, and allows your electrical appliances to use that type of electricity that is generated from photon energy. This is something that can be developed in time. It is not something that entities need to struggle with or worry about at present. You cannot work on something like this until the timing is right. Your television sets will not work with photon energy at this time. Your television sets work with electricity. Electricity is still in use, and until the photon energy can be converted to electrical quality, your television sets will not run on photon energy.

Will Tesla Technology Be Used

FOLLOW-UP QUESTION:

"Also, (her question goes on):"how valid is the information given about this in the book You Are Becoming A Galactic Human which we have read with great interest? Very few people seem to know anything about this, however there is a project going on at Princeton, New Jersey, University regarding Tesla's energy information. Is this the way the Sirians will be teaching us?"

COSMIC AWARENESS:

This Awareness indicates that there are a number of studies in regard to the conversion of photon energies to electricity that are happening in different places on earth at this time. That this appears to be that which will develop these technologies necessary for converting from electricity as presently used into photon energy electrical devices. This Awareness indicates that it may be possible to change the devices themselves to run on photon energy, or it may be possible that the photon energy can be converted to electricity so as to run electrical appliances that are already in existence.

It appears that for the most part, the electrical appliances already in existence will not be easily adapted to photon energy, but if it could be developed, this would save much manufacturing expense, because there are so many electrical devices in the world. This Awareness indicates that more likely, new devices will be created that run on photon energy of a non-electrical nature. This Awareness indicates there are already certain technologies that have been developed to work along similar lines

that can be further enhanced in studying this technology.

This Awareness refers to fiber optics and the use of light in terms of storage and storage retrieval in computer discs, the use of laser discs or light discs for storing information as that which is related to the further study of photon energy. Photon energy essentially is a light technology that can be developed rather quickly.

What About "Kyron"?

QUESTION:

One other question from this person in Pasco, Washington. "Also, would Awareness please comment on the Kyron controversy. Is Kyron a 'goodie' or a 'baddie'? This Kyron implant thing has a lot of people spooked."

COSMIC AWARENESS:

This Awareness indicates that the idea of something being able to implant entities from a psychic level is not that which entities feel is trustworthy. They wonder "How can I be sure this is to my benefit? How can I be sure that this implant is coming from a spiritual being rather than from some demonic source?" This Awareness suggests that from the viewpoint of this Awareness, it is *all* hoax. There is very little substance other than suggestion.

TUELLA AND ASHTAR BOOKS: HOW DO THEY COMPARE WITH NIDLE?

QUESTION:

While we're discussing this area, a question from Alvin C., in Brooklyn, New York. He writes: "The book You Are Becoming a Galactic Human was great, and a question to ask Awareness is: "How do Galactic Humans and the books Project: World Evacuation compiled through Tuella, by the Ashtar Command, and On Earth Assignment compiled through Tuella by the Ashtar Command, be compared.?"

"I have been told by Elizabeth Clare Prophet that to go on those spacecrafts meant certain death. I've also been told to be aware of the blue light beam that will transport us up to space ships. What's one to do? My only hope is that when it occurs, I will be with my wife Bea."

COSMIC AWARENESS:

This Awareness indicates that it does not appear that the Tuella scenario of the Rapture is valid. It appears that if this occurs, it will be simply a trick of negative extraterrestrials rather than of the more spiritually or divine types. This Awareness indicates that entities avoid this kind of "Rapture." This Awareness indicates it appears that the Elizabeth Clare Prophet message is more closely accurate than the Tuella scenario.

Draconians Eat Humans Like Humans Eat Chicken

This Awareness wishes you to keep in mind that *It* has indicated the Draconians *like* the idea of 'rapturing' humans, taking them to their planets, and putting them in the fields, because the Draconians *eat* humans the way humans eat chickens.

What Happened to Karla Turner?

(The Assassinations of UFO Researchers Continue)

QUESTION:

A question from Robert S. of Vancouver, British Columbia. He writes: "On the back page of the Spring, 1996 Flying Saucer Review, the sudden death of UFOlogist Karla Turner is mentioned as having occurred last January. Does Awareness see her illness as having been natural, or was she murdered?"

The little bit that they mention, I guess it's an obituary: "Karla Turner, Ph.D., one of the very bravest and most outspoken of all the American investigators, died on January 9th, 1996, of a peculiarly rapid and fulminating

type of cancer of the liver. Those who remember Waveny Girvan, our third editor from November '59 until November '64, will know that he too died of *precisely* the same kind of fulminating liver cancer.

"There are many folks in the USA who harbor the gravest of suspicions as to what agency provoked the death of Karla Turner. Knowing what I do about the case of Waveny Girvan I am obliged to say that I fully share all those suspicions." And Robert was asking the question based on that statement.

COSMIC AWARENESS:

This Awareness indicates that it appears there was foul play involved; that this was brought on by a particular toxin that has been used for producing cancer in entities. This Awareness indicates that in February of '96 Phil Schneider, a friend of Creston's (Ron Rummell), who was determined to find out who in fact killed Creston, also was found dead. This entity had been strangled by a cord tied to his wheel-chair. This Awareness indicates these assassinations still go on, even with all of the information about UFOs that is out today.

This Awareness indicates it appears that there are still those in certain agencies who want to keep the lid on 'something.' Somehow these entities are feeling threatened by the UFO information that is being released to the public.

QUESTIONER'S COMMENT:

It seems to be pretty common a threat that the FBI and some of these government agencies use, like the other day in the Internet message which I read to Awareness from a daughter of one of the imprisoned Montana Freeman, and she was told that they would get her father one way or another, if they had to inject him with cancer. It seems that this is a pretty common thing they can do to kill people and get away with it.

COSMIC AWARENESS:

This is in the affirmative.

Why Did Maldek Entities Reincarnate as Sasquatches?

QUESTION:

Another question from Robert S. "Why did most of the evil entities of the former Dinoid civilization on Maldek reincarnate on earth as one of the human/ET hybrids known as Sasquatch, or Bigfoot?"

COSMIC AWARENESS:

This Awareness indicates this is a matter of choice along with karma; that there was a certain amount of karma involved. These entities, being social outcasts from that time, were forced to live outside of society, but they had a certain degree of choice as to how and where they lived, and in what form.

Couldn't Life on Earth Provide Enough Suffering for These Bigfoot Entities?

FOLLOW-UP QUESTION:

Could not these entities have found enough suffering in human form alone to pay what they see as their karmic debt? And will earth entering the Photon Belt help free the Bigfoot entities of their slavery to the Ahriman forces which Awareness mentioned in *Revelations of Awareness*, issue #83-18?"

COSMIC AWARENESS:

This Awareness indicates the opportunity for these entities is always there, but it is given in increments that would be quite slow in terms of evolutionary growth. The entities have been stunted in terms of evolution, but they still have the opportunity and they are taking advantage of the isolation to live peaceful, constructive lives to the

best of their ability and therefore, they are ridding themselves of considerable negative karma simply by being uninvolved in society and keeping their peace.

They are taking responsibility for their own kind, their own families, and they are avoiding humans so that they do not create more karma from conflicts with humans. This Awareness indicates in this manner, they are essentially developing spiritually in their own chosen way.

WILL NEW WORLD ORDER PLOTTERS DISRUPT OLYMPIC GAMES?

(Will Deadly Disease Germs be Released to Create a Plague?)

A question from Elizabeth H. in Spokane, Washington. She writes: "I listened to a lecture at a Conscious Living Expo today, and heard some information that I'd like Awareness to verify or not. What a lady said was that the "One World Government people were planning on setting off a canister of some sort in the Texas Panhandle this summer during the Summer Olympics. It would contain a deadly virus that would kill many people in Atlanta attending the Olympics. Many thousands would be watching the Olympics on TV. Apparently the wind would carry it Eastward. The media would be told it was the militia who dropped it, and people would blame the militia and Patriot groups. It might be just a trigger to cause a Federal Emergency to be called." What does Awareness say about this?

COSMIC AWARENESS:

This Awareness indicates that this would not be surprising. That there is very likely to be something of this type occurring to stop the movement of that which this Awareness spoke of as the Million Man March on Washington D.C. for September 1st. This Awareness indicates that such an event would create the excuse to stop the trucks and stop the march and to clamp down on the militia, and if necessary, by their standards, start a war within the United States against the militia. Having 7000 UN troops available already at the Olympic games would be a start for employing those troops and a precedence for bringing in more UN troops, even without people realizing how many more were present.

This Awareness indicates it is seen as a very strong potential for this scenario to occur. This Awareness indicates this also would fit into plans for depopulating the world, particularly the United States, which is essentially a bastion of freedom, which would have very little place in the New World order; for entities who have been raised on freedom, who have experienced and prized freedom as being the greatest gift in their life, are not likely to make good citizens in a New World Order that is formed to enslave the masses.

Global 2000 Plot Could Easily Depopulate the U.S. in Weeks

This Awareness indicates that the entities at the games, having been given a contact with some bacterial warfare, could very easily return to their homes, wherever they live, and carry the germs or viruses with them, to help spread it further around the world. This Awareness indicates this could lead to a depopulating of the earth in a very quick manner, which is something that has been discussed for some time, relating to the Club of Rome scenario of bringing down the Global 2000 plan of depopulating the earth to approximately one third of its present population by the year 2,000.

This Awareness indicates that it may not come to those exact figures, but it could go some distance in reaching an approximate level of such, depending on what kind of bacteriological warfare is planned.

HAS TEXAS SECEDED FROM THE UNION?

(Biological Attack from Panhandle Could be for Revenge)

QUESTION:

"Also, I heard Texas was on the point of seceding, or has seceded from the nation, and would make their own currency backed by gold. That's why the Texas panhandle would be used as the peak place to set off the virus bomb. If enough people hear about this ahead of time, maybe it can be avoided or dissolved," she says.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the state of Texas essentially has a unique situation because it needs to renew its statehood every year. Whereas other states declared themselves part of the union once and for all, Texas reserved this as a yearly action, and recently, Texas decided to avoid the action by declaring itself a sovereign state. This Awareness indicates it is not the only sovereign state, but it appears to have gone somewhat further than others who declare themselves as sovereign.

This Awareness indicates it has even directed George Bush, Jr., the governor, to vacate his office. This Awareness indicates that this of course does not sit well with the New World Order leaders, and such an action in Texas could bring about a martial law in that area, so that forces brought into Texas could take over the state in behalf of the New World Order under the guise that Texas was being irresponsible, was a renegade state, or whatever else they wish to say about it, and this Awareness indicates that this *could* be a plan for the state of Texas, as well as for bringing down the United States as a country and making it ready for UN take-over.

This Awareness indicates it is quite likely that the games will be used for some purpose of this nature, because all of the world will be focused on these games, and to have this kind of focus and move it into a take-over of the United States for purposes of the New World Order would send a strong message to other countries: "Don't mess with the New World Order! We'll get you one way or another!" This Awareness indicates that this is seen as a very strong possible scenario, although there may be others on the back-burner, and there may be alternatives to this scenario in the works.

Will Pleadians Land in Israel this October?

(Maitreya the New World anti-Christ to Finally Make Appearance?)

QUESTION:

A question from James S., in Greenfield Park, Quebec, Canada. "I am enclosing a statement from an alien source on a possible landing in the next couple of months. Has Awareness commented on this?" Now, he doesn't say where this alien source came from, but I'll read it: "April, 1996. (Evidently he got it from something published) The next major event on the planet by the New World Order will be in the area of Jerusalem. There will be news involving extraterrestrial contacts and it will be stated that "They are here to help us!" and that they are from the Pleadian system, but this will not be the truth. They will be lying. The alien group will be aligned with the Orion group, and this will begin the process of the introduction of the being posing as Maitreya, a false Christ.

"This will be a New World Order trump card, and will occur no later than October, 1996. This event causes problems for the global economy, creates confusion before the general election in the United States, and affects the structure of religious belief systems and mass-consciousness." Would Awareness comment on that, please?

COSMIC AWARENESS:

This Awareness indicates that this appears to be something that very well could occur. This Awareness indicates that it appears to have some energies that are valid. This Awareness indicates that the details as given may be of some slight uncertainty, but the timing appears to be proper, and the scenario appears to be correct. In regard to the statement of the commentator, that it was not Pleiadian, but Orion, this appears also to be correct. The governments of the world have already been working with Orion forces for some time.

It has long been recognized by most of the UFO community that the Pleiadians are more likely to be trustworthy than Orion types, and that by claiming these entities are from the Pleiades, it would pacify the UFO community and those who know anything about the Pleiadians. Therefore, it appears that this scenario in its totality is relatively accurate. Keep in mind however, that all plans may change, if there appears to be reason for changing the plans.

This information being put out ahead of time often can defuse an action, because if entities knew it was coming, then it loses much of its effect, and therefore, the more this is spread, the less chance of it occurring. This Awareness indicates that this is the beauty of the Internet. There are certain things that occur on this earth for a reason. The Internet is one of these things: It informs entities when the controlled press cannot.

Kissinger's "ET Card"--Make Peace or Die From ET Threat

This Awareness reminds you of the statement of Henry Kissinger, after the Oklahoma bombing, when he spoke and said: "It is time to play the ET card." This Awareness indicates that the ET card was used in the Peace Accord at Dayton, Ohio, and this is a continuation of the ET card. In Dayton, Ohio, the leaders of the factions in the Bosnia/Croatian/Serb war were brought in, taken down an elevator underground, shown the remains of the alien bodies, warned of the alien threat to humanity, and told that they had to find peace in their area because there was a grave threat to humanity by extraterrestrials.

This Awareness indicates that in this current scenario, it can be seen that the extraterrestrial visitation would be to introduce the Antichrist as the Messiah returned, and to some degree this could be countered by a following scenario of what would be called 'hostile forces'. In the event true Pleiadian or Sirian invasion were to follow, if the Sirius or true Pleiadian craft came to rescue humanity after the Orions had already come to the planet to claim that they were Pleiadians, the governments could say "We are now being invaded by hostile extraterrestrials and we must fight to keep them from taking the world from us! Our Pleiadian friends will help us defend against them!"

FOLLOW-UP QUESTION:

So, if this so-called 'Maitreya' the new Christ is brought forth, and there is some kind of ET landing, or we're told there is, we can be pretty sure that these are the negative aliens: the Orions?

COSMIC AWARENESS:

This is in the affirmative.

Why the Mystery About Photon Belt?**QUESTION:**

Mario M., in New York, asks "If the actual entry into the inner layers of the Photon Belt is a predictable scientific event, why is there so much mystery about it?"

COSMIC AWARENESS:

This Awareness indicates that because not everybody understands; not everybody knows about it. It is some-

thing that some of the scientists know about, and many of the scientists are willing to talk about among their own peers, but the information is being kept from the public. Except for Nidle's books and a few others, and some channelers, the information is not readily available to the public. Naturally, this would create a mystery.

Does the UN Now Own Yellowstone Park?**QUESTION:**

One of the things that came in over the Internet was a news report recently: "The United Nations made its initial claim of jurisdiction of Yellowstone National Park. Following an invitation by Assistant Interior Secretary George Frampton, the World Heritage Committee, a bureau of the United Nations Environmental Scientific and Cultural Organization declared Yellowstone "in danger" over the reopening of a gold mine near the park.

"By signing the World Heritage treaty in 1972 and requesting Yellowstone's designation as a World Heritage Site in 1978, the US pledged to manage the park according to treaty requirements." In other words, it's implying that the United Nations now owns and controls Yellowstone Park. Is there any truth to that?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that it is one of many United States National Parks that is destined to be, or has already been taken over by the United Nations.

Why the Media Doesn't Tell Us the Truth

(Cosmic Awareness Lists Some Alternative News Sources)

FOLLOW-UP QUESTION:

How come the media doesn't...

COSMIC AWARENESS:

The media is controlled by the New World Order and its leaders and its money. There are very few sources of information that are not part of the controlled press. This Awareness suggests the *Spotlight* magazine, the *Media Bypass*, and *Criminal Politics*; these appear to be major alternative news sources that are not yet controlled. There are others of a smaller market, such as church publications, but those are the major sources of information that are not part of the controlled media. Even CNN, which for many years resisted being controlled, and brought news that other networks would not broadcast, has in recent times become more managed by the higher New World Order powers.

Be Alert. Be Prepared. Send More Questions!**QUESTION:**

In closing, a request from member Clarence Robinson, in Saint Lucia, the West Indies. He writes: "Please ask Cosmic Awareness to spare Saint Lucia from any hurricanes this year, 1996. Thank you." Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that there have been many very important and focused questions asked in this reading, and this Awareness appreciates the general concern of many of the readers in sending these questions. They are for the benefit of others, and they are questions that everyone needs to understand. This Awareness wishes to thank you for these questions and asks you to continue sending questions of benefit to all.

This Awareness indicates there are many crises on the horizon and entities need to be prepared by being aware as much as is possible to the changes that are encroaching in your lives from those future crises and the conflicts that are developing on your plane. This Awareness suggests you keep the faith and be prepared for difficulties. Prepare by purchasing some food for emergencies;

and tools and medical supplies and also be prepared in terms of taking care of your family and friends, when they themselves may be in chaotic, emotional or financial straits.

The rest of this year will be disturbing for many. Others may find it just a little uncertain or perhaps extremely interesting if they are in a safe place and situation. This Awareness indicates it is not likely to become a boring or overly peaceful time.

(The Law of gratitude is given)

Earth Now in Photon Energies Until November

OPENING MESSAGE: (4/30/96)

This Awareness suggests that entities become focused and aware of the changes that are likely to occur in terms of their own consciousness; become aware of things happening to your moods, your attitudes, your sense of well-being, and recognize the influence of the Photon Energy that is now affecting consciousness in general.

This Awareness indicates that this is the result of a movement of the earth into the belt of energy that will remain through the month of September, after which the earth will again depart that area, coming back later in the early part of '97 and with each passing year, the time spent in the belt will be slightly longer than the year before.

This Awareness indicates that by the year 1998 it will enter and remain there for several years so that by the year 2012, it will be well into the Photon Belt area and entities will, by that time, have the opportunity to become multidimensional, that is, entering into higher dimensions beyond the third and fourth dimensions, into those of other dimensional realities.

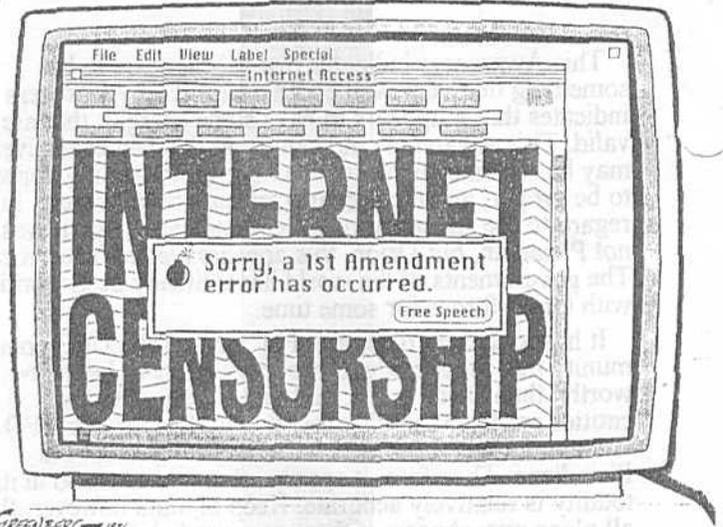

Expect Strange Experiences, Sharper Senses

This Awareness indicates that during this time period, moving into that in which the new sensitivities of the human being begin to emerge, people will have many strange experiences in terms of what their sensitivities feed them. They will become more capable in hearing, sight, sensing smells and sounds that they might never have been aware of before and they will experience more psychic phenomena, perhaps seeing spirits or being aware of voices that are speaking which are not of a physical source. In other words, hearing the voices of spirits, or other-dimensional beings.

That this will be part of the movement into the next dimension as humans emerge during the coming two decades. This Awareness indicates that there will be many who are focused on the phenomena described in Nidle's book *You Are Becoming A Galactic Human*, but this Awareness indicates that this phenomenon of the Null Zone and so forth will not be the major concern during the experiences that will come from this entry into the Photon Belt.

The major concerns will have to do with the rising of consciousness. Entities becoming more and more aware of a higher frequency of being, a higher sense of Who, in fact, they really are, a recognition of themselves as Galactic Beings, as Divine Beings emerging into Divinity.

This Awareness indicates it is that which can become quite exciting to entities, whereby mind becomes more dominant than matter, and entities who have been losing much of their vitality will find themselves becoming more strong, more healthy and in general rejuvenating in many ways, and that as time passes and entities continue to survive, they will find themselves moving into that which may be termed the New Being, a being that continues to exist not so much as physical but as a Light Body Being; one who merges between physical and Light, gradually taking on more Light, and recognizing the physical as being just the result of the Light Body.

This Awareness indicates that as this continues, entities will become more and more aware that death is but a kind of illusion and is unnecessary as entities merge more and more with the Light Itself. This Awareness could talk further about this, but it may as well come gradually and slowly as entities move closer into this Photon Belt energy, for if entities get too much information ahead of time, it will simply make them anxious and more curious and they may miss out on the immediate and necessary changes that are happening here and now.

This Awareness wishes entities to focus on what is occurring in the Here and Now, even moreso than in the future.

THE MONSTER THAT'S STALKING PUERTO RICO

("Deliver us, Lord, from the Terrible Beast")

QUESTION:

We've received several letters concerning a strange creature in Puerto Rico. In the April issue of *Fate* they have an article called "The Monster that's Stalking Puerto Rico" and I'd like to read a little of this, and a couple of questions from members.

It says that "For more than a century the Puerto Rican peasantry has fervently sung Libranos, señor, de este terrible animal! ("Deliver us Lord from the Terrible Beast!")."

Folklorists dismiss the possibility that there might be anything to these lyrics other than a fervent Christian urge to be delivered from the devil, who is described in bestial terms. But Puerto Rico's long history of paranormal phenomena can lead even the sternest doubter to read between the lines.

A new wave of mutilations has disturbed the normally peaceful Puerto Rican spring. It is different from the classic 1975 wave investigated by UFO investigator Salvador Freixedo, who lived on the island at the time. Only a few of the current cases include the extruded organs that characterize the "mutes" of the American Southwest. The gruesome new cases in Puerto Rico usually involve animals left entirely bloodless through a single neat perforation found on some part of the body.

Investigator Jorge Martin's research results have recently appeared in a special edition of his magazine *Evidencia Ovni* which was dedicated entirely to the mutilation phenomenon. The mutilation wave included a strong high-strangeness component. Bizarre humanoids resembling the Grey aliens were seen. One of these creatures was spotted early in the flap at Orocovis.

A police officer investigating a dead sheep on Enrique Barretto's property became aware that something was staring at him from the shadows. The creature was humanoid in appearance, three to four feet tall, and had orange-yellow eyes. Ordering his partner to stop the squad car, the police

officer jumped out and pursued the creature, but suddenly he was overcome by nausea and a pounding headache. He was rendered so helpless that his partners had to come to his rescue.

At 6:00 AM on March 26, 1995, Jaime Torres encountered a similar creature in the field where Beretto's sheep were kept. Torres, an avid UFO enthusiast, had come to the area the previous evening in hopes of learning more about what was going on. He and his brothers had been repeatedly seeing UFOs from their home in Orocovis' Barrio Gato since December, 1994. A skywatch he felt provided a good chance for seeing more UFOs.

In the early morning hours, Torres spotted a round-headed creature resting on a nearby tree branch. The creature had elongated black eyes, a fine jaw and a small mouth. This unusual being had chameleon-like pigmentation alternating from purple to brown to yellow. Its face was a dark greyish tone.

According to a lone witness the creature made a curious gesture, moved its head from side to side and produced a sibilant hissing sound that caused Torres to feel faint. Overcoming the sensation, he managed to watch the creature drop from the tree and rush into the dense foliage."

It goes on and lists all kinds of similar incidents.

On the morning of May 22, Don Francisco Ruiz, a cattle man in the town of Humacao on Puerto Rico's eastern shore, was stunned to discover that three of his goats and their young had been found dead without a drop of blood in their body. Officer Stephen Alvarez, a spokesman for the police department, said that the dead animals were found in the Punta Santiago section of Humacao. Puncture marks were found on the goats' necks, foreheads and legs.

The result of Ruiz's crude autopsy on his animals, performed on the spot, demonstrated beyond a doubt that the carcasses had been completely emptied of blood. This was the first case to take place outside the mountainous central municipalities of the island, but it would be by no means the last.

It goes on and on. And member Gary B., writes: "Incidentally, you might want to ask Awareness, if you haven't already, what this goat sucker creature is that has been terrorizing Puerto Rico and why their government is covering it up. To date this creature has been profiled on no less than three TV series, and I was wondering if the aliens created this being to cover their animal mutilations, as it reportedly kills in a similar manner, or what is really going on?"

And Ralph P. writes: "There is a Zeta hybrid creature running around the Puerto Rican countryside, feeding on the small farm animals: rabbits, goats and pigs. Many people have seen it, when responding to the cries of their animals. It feeds on their blood like a vampire. UNI-Vision, news and talk shows here in Denver featured it regularly for the last 6 months. UNI-Vision is a Spanish language channel where many UFO and non-mainstream stories are shown.

"The creature looks like a Zeta with fangs, green reptilian skin, a back ridge, and big red eyes, a tail and strong legs. It's very elusive. They have been hunting it with dogs. Can Awareness explain exactly what this creature is and where did it come from?"

COSMIC AWARENESS:

This Awareness reminds you that there are several hundred species of extraterrestrial beings visiting this earth, or who have visited the earth in the past two or three decades. This Awareness indicates that it appears there are many different varieties of creatures that look somewhat alike, and many that look quite different from

each other.

This particular creature that has been described, could well be a composite description of more than one type of being. It could be that there are several people giving descriptions of several different beings that are presumed to be the same one, and therefore, it is impossible to say that this is a particular entity from a particular place by the descriptions that have been given.

A Genetically Engineered Decoy has Been Created

This Awareness indicates, however, it appears there is also something in the area that has been genetically created by an advanced alien technology to serve as a decoy for their agenda, to keep the public preoccupied with that particular decoy, while other activities are occurring. This Awareness indicates it appears these entities are taking certain readings or samples of DNA from the natives in the area, and also during certain experiments in regard to the animals, through the mutilation process, where they draw blood and DNA specimens for their general scientific, if that is the proper word, "experiments."

This Awareness indicates the agenda of many of these entities is not only to discover more about the human race, but also how the human race and the animals of earth can be of service to their DNA technologies and studies. Many of these are looking for ways to improve their genetic stock through the use of human DNA and by gathering human DNA and working to genetically engineer further DNA with the use of combining animal and human DNA.

There are many different types of experimentation being pursued by these extraterrestrial cultures. This Awareness indicates, however, it is not only for their own genetic stock that these experiments are being conducted. They also engage in other kinds of genetic engineering experiments, such as the creation of this particular decoy, which serves as a kind of diversionary tactic to capture the attention of the public, to take it away from speculation about themselves and create a specific focus of attention on the decoy that has been created.

IS THE CHUPACABRAS NOW IN THE U.S. TERRORIZING PEOPLE?

FOLLOW-UP QUESTION:

Today we received over the Internet a newsletter of the Institute For the Study of Contact with Non-human Intelligence. It's a long, long story, but it claims...I'll read just a little of this.

The following text includes excerpts from a Boston Globe story dated April 13th also, plus new reports from Scott Corrales and Ed Conroy.

First reported in Puerto Rico almost two years ago, the Chupacabras "goat-sucker" is now gaining notoriety on the U.S. mainland. In recent weeks the beast was reported in Cambridge, Massachusetts and may also be blamed for a series of bizarre animal deaths near San Antonio, Texas, just a few days ago.

It also says it's been spotted in about 6 other states in the U.S., and "a strong smell of sulfur filled the air in the wake of the killing when they investigated some of these mutilations."

But anyway, my main question is "Are these reports true, that these creatures are also in various parts of the United States mutilating animals?"

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. It appears that there is a deliberate plan or mode of operation being presented to take the focus off of UFO abductions and mutilations and create another entity to be

the focus of attention on which to blame the mutilations. This Awareness indicates that it is relatively new. The mutilations of the past were not in any way related to such an entity, but now there is an entity who can be blamed for these mutilations.

The Chupacabras has Some Connection With Montauk Project

This will become more and more common, and this Awareness indicates that it is also related very remotely, without clear and direct connection, but with some definite connection, to the information surrounding the Montauk Project which was more commonly known as "The Philadelphia Experiment" in the time period around 1970's and early '80's. This Awareness indicates that similar energies are found in current and in those Montauk experiments relating to the manipulations of frequencies and vibrations.

Interpreter Confused About Goat Sucker Images and Montauk

This Awareness indicates it is a definite connection in terms of the similar technological types of activities, even though the connection is not directly related. The technologies are related. This Awareness indicates it is difficult to get this through to the Interpreter. It appears that the Interpreter is having some difficulty in reading the images and is hesitant in regard to putting words to images that are not clear because of the many different possibilities relating to those images.

This Awareness indicates that the Interpreter sees the Montauk project as that which relates to the creation of a creature that came out of a technician's mind which ravaged the base when it materialized, and which led to the shutting down of the experiment and research project, and the Interpreter does not understand when this Awareness presents images of the goat-sucker and indicates a connection, it is seen that the goat-sucker is a genetic creation. The Interpreter does not recognize the connection between the goat-sucker genetic creation and the Montauk beast that came from the vibration of a technician's mind and how these two could be related. Therefore, the Interpreter is having a difficult time seeing or describing any connection between the two situations.

This Awareness indicates that the alien technology not only uses genetic engineering to help create mutations, but it also has the same scientific understanding of the technological use of vibrations and frequencies and therefore, by setting certain frequencies and visualizing a certain type of being, along with some help from genetic engineering, the alien technology is capable of producing a combined image and genetically engineered creature.

The imaging of a monster or shape, along with certain genetically engineered molecules, can be used in this alien technology to help bring into manifestation a creature that suits the purpose for the alien creation or for their agenda, their needs. This Awareness indicates that this appears to be a relatively close interpretation of what the symbolism which this Awareness has presented is in connection with the Interpreter's ability to describe.

The Problem in Interpreting Certain Energies

This Awareness indicates there is a problem in interpreting, just as in language interpreters; someone who has a particular message to give wherein the interpreter does not know the first thing about a particular area of a field of knowledge and does not have proper words to describe that field of knowledge or the specifics of the language involved; how does the interpreter explain in proper linguistic terms to those of his culture what the other culture is trying to portray?

This Awareness indicates it is extremely difficult. The role of interpreters is to translate, but if there is no understanding on the part of the interpreter of that which is to

be translated, even if he does understand both languages, it is often difficult for him to translate. This Awareness indicates that likewise, this Awareness can present images, but not have the correct or necessary conveyance of what the images mean so that the Interpreter, in attempting to put this into words, can have some difficulty trying to convey symbols and pictures and images into proper language to be reasonably understood, particularly when *It* is speaking of a technology that is far beyond the interpreter's comprehension.

This Awareness indicates that this is the problem in this kind of interpreting process. This Awareness indicates that though the interpretation is relatively crude, it is best to recognize that there is some combination of technologies involved wherein the genetic engineering along with the vibration technology that makes use of shifting into time warps and other dimensional realities shifts is used to take advantage of mind imaging, and the manifesting process of the mind in bringing into reality, or third dimensional reality, the creature imaged by the technology experts of the extraterrestrial types through combined use with genetic engineering.

This is how these creatures, the creature known as the 'goat-sucker' was manifested. As time passes, perhaps it will become easier for the Interpreter to find a way to clarify the process. At present it is difficult for him.

Will the Goat Sucker Eventually Kill Humans?

QUESTION:

All of these stories claim this creature so far has confined his victims to animals, but they're afraid he could start killing humans. Does Awareness see that as a possibility?

Cosmic Awareness:

Anything is possible. This Awareness indicates its purpose so far is to divert attention away from blaming UFOs for the animal mutilations into seeing this creature as the cause of such mutilations, giving the public something else to focus on, something else to go after. It could always shift so that the creature might also turn against humans.

QUESTION:

So the abductions of humans by aliens is still continuing at a particular rate even to this day then. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that it has not ceased.

Ed's Note: Since this reading was given in April of 1996, the Internet has been alive with reports on the Chupacabra, which means Goat-Sucker in Spanish. The first sighting was in the Caribbean and it has since spread to Mexico, South to Brazil, North to Florida, and West to Arizona. The Chupacabra sucks the blood out of animals and seems to prefer the blood of goats. It is a bizarre looking creature and Paul in trance was blown away by the image Awareness was sending him; he could not describe the thing in words.

In Brazil the Chupacabra is making major headlines in the press. The May 13 edition of CNN News carried a brief mention of rumors concerning the possible capture of one or more alien beings in Brazil. Now we have heard that story made major headlines in that nation. The description given of the alleged aliens is oddly similar to description of the so-called Chupacabras. The report goes as follows:

On January 20, three girls were walking across a vacant lot on their way home. It was a bright sunny afternoon. All of a sudden one of the adolescents (16 years old) looked left and screamed. A strange creature was

squatting by a wall with its long arms between its legs; it had shiny, slippery skin and what looked like three short horns on its head.

"But what I noticed first of all were his eyes, huge and red," says the girl who saw it first. She was so frightened she turned to run but her sister and her friend couldn't move from sheer terror and just stared.

"It was the most horrible sight I've ever seen," said one of the girls later on. "It didn't look like anything I've every seen, It was neither an animal nor a human body," said one of the girls who is married and has three children. "The creature seemed afraid and only made a slight movement with the head. We ran like hell," she said.

Apparently, the day before, an elderly couple living on a small farm a couple of kilometers from Varginha woke up to the noise made by the cattle. They went out of the house to see a UFO over the front yard, about 5 meters from the ground.

Ufologists have flown to Varginha and concluded that this apparition was not only authentic but also the most extraordinary contact ever registered in Brazil. Professor John Mack, Ph.D., from Harvard, author of the recent book "Abduction: Human Encounters with Aliens" came to Varginha with the specific purpose of talking to the women who had seen the alien. Ten organizations which study UFOs have signed a document testifying the seriousness of the incident.

The complete story seems to indicated that the ET seen by the girls in broad daylight was the second one to be captured; the first was spotted 5 hours before, at 10:30 a.m. precisely, in a wood about three blocks from the place the girls are said to have seen it. This first creature was said to be captured by the fire brigade. In an article written for one of the most respected magazines in Brazil, the reporter wrote that the first ET was captured by the firemen, put inside a wooden box in an army truck and taken to an army camp a few kilometers from Varginha.

The day after, some people report having seen unusual movement in front of the local hospital (where supposedly the girl's ET was taken) before being again removed--this time already dead--to Campinas, a big city in the state of Sao Paulo. Army officers who were accused of conspiracy to hide the whole episode from the public, strongly denied everything. However, the Ufologists who were in Varginha claim to have a recorded statement given by somebody from the army who was directly involved in the rescue operation. This person, according to the specialists, said that when the ET was removed from Varginha to Campinas, the body was already smelling pretty bad.

In another Internet release from ISCNI (The Institute for the Study of Contact with Non-Human Intelligence):

"Progress of a Mystery--Goat Sucker Haunts Mexico"--Since early May, the horrifying "Goat Sucker"--whatever it may be--has spread terror across the length and breadth of Mexico and has taken on the dimensions of a folk legend. It has also been reported in various U.S. locales including Los Angeles and Tucson, leaving in its wake the tell-tale evidence of dead farm animals, many showing wounds that seem made by long fangs. "Rational" explanations range from foxes and coyotes to large blood-sucking bats--plus, of course, lots of vivid (or terror-stricken) imagination. But at bottom is a mystery. If this is the activity of normal predators, why now, all of a sudden, in such profusion? And what is propelling the tremendous spread of Chupacabras reports? Are we being invaded? Are we witnessing a genuine mass psychosis?

The following is based on a recent report by Rene

Villegas from the Reuters newswire: Mexico City (Reuter)--Is it a bat? Is it a witch? Is it from Mars?

This much is known: It is furry, has big bulbous eyes and sucks the blood of goats and other creatures. The mysterious vampire-like creature known as "Chupacabras" (goat-sucker) has gripped the fevered imaginations of many Mexicans.

While government officials appeal for calm, enterprising trinket sellers have jumped on the bandwagon with Chupacabras T-shirts and key-rings in the northern city of Tijuana, and are offering tours of sites allegedly linked to the creature.

Some say it is an extraterrestrial life form. Others say drought in Mexico's northern states has driven bats, wolves and coyotes to carry out the attacks to slake their thirst. Reports from at least nine of the 31 Mexican states tell of attacks on animals and one person by the fanged menace.

Witnesses say it sucks their blood until they die, leaving tell-tale puncture marks on the neck and other mutilations.

The designs on the Tijuana key-rings and T-shirts, taken from accounts of witnesses who claim to have seen the creature, show a giant, furry winged rodent with staring eyes and razor-sharp teeth.

The attacks are not just on goats. Reports from remote rural regions list sheep, cows, horses, hens, pigs and rabbits among Chupacabra's victims.

On Thursday, May 9, in the town of Zapotal in south-eastern Mexico, Violeta Colorado was jolted awake by the barking of her dogs. They had cornered some animal that had come into her yard. She could not see the animal, she said, but she heard it make a loud, unnerving hissing noise unlike anything she has heard before. The dogs kept it cornered for an hour, she said, but then it got away.

Only later, when the sun came up, did she find out that nine sheep had been killed in the pasture next to her house. None of the sheep had been eaten. Their throats had been punctured and their blood had been drained.

"I have never seen anything like it, ever," said Ramiro Santiago Lara, who has practiced veterinary medicine in the area near Zapotal for the last eight years. The normal predators of the region, including coyotes and jungle cats, rip their prey apart. These sheep had no wounds except the punctures. There was no blood left in them at all.

"It seems like a type of vampire," the veterinarian said.

Meanwhile, in the Veracruz region, 45 fighting cocks were reportedly found also completely drained of blood.

Only one man so far says he has been attacked. A shaken Angel Pulido, a campesino farmer from the village of La Alameda near Guadalajara in the western state of Jalisco, recently showed reporters two bite marks on the right arm he says he got from a giant bat that looked like a witch.

In Mexico City, Catholic Church officials have asked the public to remain calm, saying there is no proof that "the so-called Chupacabras is demonic or extraterrestrial."

Meanwhile, across the border in Tucson, Arizona, an evening news report on KGUN-TV Channel 9 described the early morning experiences of the Espinoza family on May 9. Either the father or older brother opened an entrance door around 2:00 a.m. and reportedly saw a bipedal creature 3 to 4 feet tall, with scaly skin, clawed hands, red eyes, and a row of spines from the skullcap and down the back.

This description, though unverified, corresponds well

with numerous stories from Puerto Rico, where the Chupacabras phenomenon started more than a year ago.

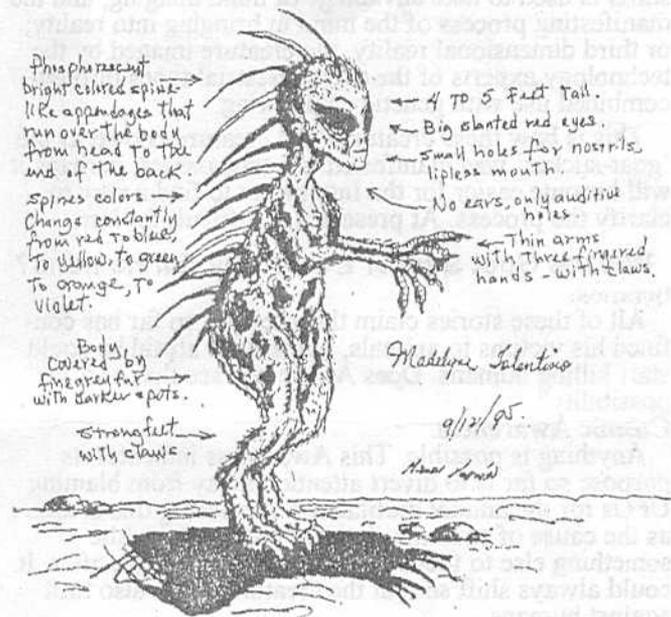

The older Espinoza stated the creature "mumbled and gestured."

At about dawn, a seven-year-old boy in the same house said the creature stood on his bed and briefly on his chest. Both the older and younger Espinoza family members described a smell "like a wet dog."

The Espinoza family called 911, and the metropolitan Tucson police did respond. A search of the immediate neighborhood and questioning of residents turned up nothing.
