A Message From Death Row

A Serial Killer of 8 Women Seeks Reconciliation

(C.A.C. General Reading, June 19, 1996)

The Real Reason U.S. Troops Are in Bosnia

OPENING MESSAGE:

This Awareness indicates that an area which entities should keep an eye on is that area where the U.S. troops have been sent on the peacekeeping mission in what used to be the Yugoslavian region; the Bosnians, Croats and the Serbs, being a multi-cultural area. This as an area which has a history of conflicts and serves as a basic pattern for testing. The idea is to bring these multi-cultural groups together to make them suitable for the new UN New World Order. This is the basic job of the American troops in the area.

The purpose for this activity is to practice or to examine the problems involved or essentially to serve as a dry-run practice for similar actions in the United States which is also a multi-cultural area. This Awareness indicates that if it can be learned as a way and methodology for bringing these groups together to make the region suitable for the New World Order, many of the same tactics and problems can be dealt with when it is brought into the United States.

This Awareness indicates that indeed, many of the same troops may be brought home for this same purpose, for preparing the various cultures using similar methods learned in the Yugoslavian area, so that these methods can be applied in the United States at some later time. This Awareness indicates that if things do not go well in that region, then it will be a hindrance to the New World Order and its plans for global controls of other multi-cultural nations.

A MESSAGE FROM DEATH ROW

(A Serial Killer of 8 Women Seeks Reconciliation)

QUESTION:

We received an unsolicited manuscript, for lack of a better name, from Michael B. Ross, number 127404, on death row in the Connecticut State's Prison in Somers, Connecticut. He wrote this, he says, seeking reconciliation from Death Row. And I'd like to read it because, for one thing, I've never heard a condemned man discuss this sort of thing, and another reason is there's a couple of questions in it, so I'll read it. It's rather long.

"My name is Michael Ross. I am a condemned man on Connecticut's Death Row. When most people think of Death Row inmates, I'm the one that they think of. I'm the worst of the worst, a man who has raped and murdered eight women, assaulted several others, and stalked and frightened many more. And when I am finally executed, the vast majority of the people of this state will celebrate my death.

"Sometimes, when I close my eyes, I can see the hundreds of people who will gather outside the prison gates on the night of my execution. I can see them waving placards, drinking and rejoicing, and I can hear their cheers as my death is officially announced.

I have lived here on Connecticut's Death Row for over eight years and a half now. I live in an eight by ten foot unpainted concrete cell for 23 hours a day, --24 hours a day on weekends. I come out for a hour of "recreation" five days a week. Other than that, the only other times that I come out is for a 15 minute shower, five days a week, and for the occasional visit, (one half hour, through the glass, on a telephone).

"I eat all of my meals in my cell, brought to me in a styrofoam box three times a day. I live in a single cell, so I live alone, and since I can only talk to the two people on either side of me, I often feel quite alone.

One of the results of this almost total isolation is that

after a while a person is forced to look at himself. I'm not talking about the cursory, superficial manner in which most people look at themselves, but rather a quite painful, unrelenting search of one's very soul.

"Many inmates in prison and many of those on Death Row are able to lie convincingly to themselves in order to see themselves as basically 'good people' who are the innocent victim of a corrupt judicial system or of an unfair and uncaring society in general. Sometimes it is very difficult to honestly see ourselves as we truly are, and much easier to blame others as justification for our actions. I know this to be true, because for years, this is exactly what I did.

"During this period, I was angry, so very angry, at everyone and everything, except for the one person that I should have been angry with-- myself. It took a very long time, years in fact, for this anger to subside, and for me to begin to accept who I was, and what I had become, and even longer before I was ready and willing to accept responsibility for my actions.

"Two things primarily led to this transformation. Much of the credit for the first goes to a psychiatrist from the Sexual Disorders Clinic of the Johns Hopkins Hospital in Baltimore, Maryland,--Dr. Fred Berlin. He diagnosed me as suffering from a paraphiliac mental disorder, and was indispensable in my fight to get the Department of Correction to acknowledge my disorder and to treat it with the medication that I now receive.

"The drug, Depo-Lupron clears my mind of the vile and noxious thoughts of rape and murder that plagued my mind for so long, and the drug eliminates the previously uncontrollable urges that drove me to commit the crimes that put me here on Death Row. That monster still lives in my head, but the medication has changed him and has banished him to the back of my mind. And while he is still able to mock me, he can no longer control me. I control him. I am human again.

"You cannot begin to imagine what a milestone this was to my life. Try to imagine a time that a melody or some catchy tune got stuck in your mind, playing over and over and over again, driving you crazy. The harder that you try to push that tune out of your mind, the louder and more persistent it becomes. Now try to imagine that instead of a harmless yet annoying tune, you experience filthy and despicable urges, desires and fantasies of the degradation, rape and murder of innocent women. Day in and day out. They fill your thoughts and fantasies when you are awake. They are in your dreams when you sleep.

"Imagine trying to control the urges day by day, hour by hour. And try to imagine the self-hatred, loathing and abhorrence that you develop toward yourself when you fail. If you can imagine this, then you will have only begun to understand what I have experienced, what I had to live with, and what I had become. And only then will you begin to understand the true blessing that this medication was to me.

"But the medication was only part of the story of my personal transformation. It gave me back my mind--a clear mind, free of the malevolent thoughts and urges. And it allowed my humanity to awaken, giving me back something that I thought I had lost forever. But this was just the first step, and perhaps the easiest, for I didn't have to do anything--the medication did it for me. Now began the more difficult part of my transformation: an examination of myself, a very profound, very painful and ongoing examination.

"Now that my mind was clear for the first time, I began to see, *really see!* It was like a spotlight shining

down on me, burning away the mist, exposing every shadow of my being. I began to see things as they really were. I began to see things that I didn't like. And many of the things that I saw brought me great anguish.

I saw how weak and afraid I really was. I had always thought that I was strong and confident. I saw how I had allowed the monster in my mind to take control of me. I saw what I had become. And worst of all, I saw the pain that I had brought to so many, such great and unceasing pain.

"After my eyes were finally opened and I saw the truth of what I had become and what I had done, I began to feel things, --unpleasant, disturbing feelings. I began to feel the terrible agony and distress that I had brought to so many: my victims, the families and friends of my victims, my own family. And I also began to feel the awesome weight of my responsibility for my actions, and of my responsibility to the people that I have harmed. And finally, I felt a profound sense of guilt. An intense, overwhelming and pervasive guilt that surrounds my very soul with dark tormented clouds filled with a mixture of self-hatred, remorse, regrets and sorrow. All of which leaves me with a deep desire to make amends and achieve reconciliation, --something which under the circumstances seems all but impossible.

"Yet, it is this sense of reconciliation that I yearn for the most. Reconciliation with the spirit of my victims. Reconciliation with the families and friends of my victims. And finally, reconciliation with myself and my God. This will be the final part of my transformation, and undoubtedly the most difficult part.

I am fortunate to have a good friend and guide for this part of my journey: Reverend John Gilmartin, a member of a group called *Murder Victim's Families For Reconciliation*, who makes a 6-hour round trip drive to see me once a month.*

"I have traveled a great distance and have gone through quite a transformation since that day when I first set foot on Death Row, most of it alone, and I am very grateful and thankful for the help that Reverend Gilmartin has given me over the past 18 months. With his help, and if it is God's will, I will achieve that reconciliation that I so desire, and hopefully complete my transformation into one who is worthy of redemption and forgiveness.

"My journey is still far from over, but at least now I can see that there is a light at the end of the tunnel. May God give me the strength, perseverance and moral fortitude to complete my journey before I am finally executed."

And then he gives a note where people can reach this Director of the Murder Victim's Families For Reconciliation. Does Awareness have any comments for that document?

*Contact Pat Bane, Director; Murder Victims Families for Reconciliation, PO Box 208, Atlantic, Virginia, 23303, or call her at (804)-824-0948, "and please tell her that Michael Ross sent you."

***COSMIC AWARENESS:**

This Awareness indicates that *It* has long suggested to entities that they discern clearly, but judge not. This Awareness indicates that this is an example of why entities should be very careful to avoid judgment; that the 'discerning' is that which is critical and very important also, but judging and a sense of condemning is that which entities need to be careful about, and this is one reason; for entities cannot honestly and clearly condemn others without having experienced what others are experiencing.

This Awareness indicates that this entity gives a clear case of a kind of demonic possession that separated him

from his ability to be free of the demons that drove him. This Awareness indicates that this is no excuse for what happened, but it **does** explain something that most people do not even comprehend in a remote manner. This Awareness indicates that the entity seeks to reconcile or resolve some of the guilt, some of the agony that he experiences from what he has been, from what he has done.

Much of this has to do with the medication that he is receiving. Just as medication can be equated in a sense to drugs that others may find are influencing them to do something of an evil nature; in this case, the entity has taken medication or drugs that influence him to see the more spiritual side of things, wherein he has some degree of remorse for his behavior.

The Entity Must Feel Remorse, Not Expect Forgiveness

This Awareness indicates that what is important for this entity is to accept that his crime, being so extreme, as it was, it is not for him to expect forgiveness from his victims' families, or for him to expect understanding from society. It is for him to *feel remorse*, and only that; for him to feel remorse for what has happened to his victims, and to the families of those victims. If this entity can feel remorse in a total sense, then in that experience of extreme remorse, the entity stands a greater likelihood of having Divinity forgive much of his karma.

The Divine can create a grace that forgives, but only if the remorse is great enough. This Awareness indicates it is very common for hardened criminals to get religion after they have been caught and arrested and face conviction. This is a way whereby many of them give the pretense that they are now reformed, and because of this, many entities are not impressed or do not buy into their so-called redemption or reconciliation.

This Awareness indicates that even if they **are** forgiven by God, it does not necessarily mean that society will forgive them, or that their karma for their debt should be forgiven by the victims' families. This Awareness indicates that the entity, if *truly* remorseful, will feel that death is a minor punishment for the crime of having killed eight other people in the manner given. This Awareness indicates that the entity, of course, in this letter, has not asked for leniency, but is expressing a remorse and has examined self to realize the extremity of his crime, and this is a good step, and a turning point for the entity himself.

This Awareness reminds the entity that death is not the end. It is the end of a phase. The end of one life is the beginning of another. As you pass through into the next experience on the other side, there will be further opportunities for your reflections on this life, and for your preparation for a future life, in which you can have other opportunities to repay the victims for your crimes against them, or opportunities whereby you can pay someone; if not those particular individuals, you can do something to benefit others, to help repay the karma in a different manner by giving service to others who are in need.

This Awareness indicates that this opportunity that will come to you in future lifetimes is that which you can look forward to as a way by which much of the extreme karma you have reaped from your sowings will be made available to you for future reconciliation. This Awareness indicates with this understanding, you may wish to feel grateful to the Laws of Divinity to have such a opportunity to balance your karma.

This Awareness indicates that in the sense of remorse, the greater the remorse you truly feel, not so much that which you express to society at this time, but

what you **truly** feel; this is the remorse that will help to alleviate some of the extreme karma that you have reaped from your negative behavior. This Awareness indicates that it would be of benefit to society to have your letter published after your death, preferably in a local newspaper, so that entities can actually comprehend better what you have experienced from this situation, and how you came to do what you did.

The Entity's Letter Should be Published in Newspapers

This Awareness indicates that this reading may also be published, but that is not necessary. It is something that could be of benefit if desired, but the important thing would be to publish the letter which you wrote, so that society in general could have a better understanding of what goes on in the deep dark regions of a mind that is extremely sick from possessive energies of dark demonic forces operating within a being.

This Awareness indicates it may help others of similar experience to seek psychiatric or similar help or spiritual help, before they have reached such an extreme as to commit similar crimes. This Awareness suggests that at the time of your passing over, your focus must be not on your own needs. You should not fear death. You should focus on the *need* to find the highest and most spiritual energies possible when you pass into the next realm, and seek forgiveness from these energies, and seeking forgiveness, you must be ready to pay the debt in whatever manner is put upon you by those spiritual forces that await on the other side.

Your *willingness* to repay the debt is that which is as crucial as is your remorse, and the remorse and willingness to repay the debt are absolutely crucial for your being reconciled from this crime.

THAT "MONSTER" LIVING IN HIS HEAD

FOLLOW-UP QUESTION:

Would Awareness go into a little more detail on this, which he considers "that monster that still lives in my head, but the medication has changed him and banished him to the back of my mind, and while he is still able to mock me, he can no longer control me,"?

COSMIC AWARENESS:

This Awareness indicates there is within most entities, a dark side. This entity allowed the dark side to have control over him throughout most of his life. The entity put forth little effort to curtail or to diminish the power of the dark side, but let it reign in his life, and thus, the dark qualities of the entity's character, personality and being became dominant, and it is an area of his consciousness that has been strong, and the medication has given him an insight as to what is 'normal' as opposed to what is 'abnormal' but which was common for him.

He was 'abnormal', but that was his common way of being, and now he has medication which allows him to see that the common way of being 'abnormal' is not the 'normal' for others. This Awareness indicates that this medication has given him a glimpse of a different kind of life, a more humane life. This Awareness indicates that because of this he can now see that what he was before, what dominated his being was a demonic quality or personality that he allowed to have dominion over him.

Demonic Quality Could Follow After Death

This Awareness indicates that when this entity loses his body and moves on as a soul, that demonic quality may still be attached to him, and it still may be necessary for him to work to rid himself of the demonic qualities by continually diminishing them, and the remorse that the entity feels, and the willingness to pay for his crimes is that which will help rid him of that

demonic quality in his being.

This Awareness indicates that as he continues to move toward greater and greater remorse for his crime, without seeking some kind of redemption from society or forgiveness from society, but focusing entirely on remorse and his own sorrow over what he has done, the entity's chances of ridding himself of that demonic quality will greatly increase and the entity can have an opportunity for a future lifetime in which he will not be plagued by such extremes, and the entity can then live a productive life that has positive meaning and does not end in such tragedy for himself or for others.

This Awareness indicates it appears the entity has come quite some distance in terms of soul in evolution from the time he committed these crimes to the present time, but that he still has far to go before he is totally free of that demonic quality that haunts and possesses him, and that the freedom from this demonic quality can only come through his recognition of extreme remorse for his crime against these entities, and the further and greater and longer and more pronounced the remorse, the weaker will the demonic qualities become.

This Awareness indicates without such remorse, the entity could live a half-dozen or more lifetimes with extreme karma required to repay this series of crimes. With *extreme* remorse, the entity may find that the amount of time can be reduced to even one lifetime of karmic repayment.

"Karma" Is Reaping What One Sows

This Awareness indicates to explain the term 'karma' as used in this message: the act of reaping what one sows, results in an effect from the cause, and the entity's cause was the crime, and the effect was the outcome of the crime as it affected the entity himself, rather than the victims. That is the karma this entity received.

The fact of the victims' suffering is that which the entity needs to fully experience and recognize and acknowledge and feel remorse for, and if the remorse *equals* the suffering of all the victims and of their families, then the karma the entity has received from this will be close to being balanced.

FOLLOW-UP QUESTION:

Then this 'monster' as the entity calls it, within, is an aspect of his own self. It is not a disembodied spirit or entity?

COSMIC AWARENESS:

This Awareness indicates it would be convenient and handy if an entity could simply point and say: "The Devil made me do it! Otherwise, I am a very innocent and nice person!", but this is not the way things are. This Awareness indicates that the entity has to accept total responsibility for allowing that monster to grow within, as part of himself, and he cannot simply create a schizophrenic personality and say: "That part of me is monstrous! It is not me!" This would be cheating the laws of karma, if it were to be acceptable.

This Awareness indicates the entity has to accept the fact that he *allowed* the 'monster' to become part of himself, to take over that which was good within himself, and to squeeze out the good part of himself. Allowing the monster to take control of him was his first crime. Allowing the monster to hurt others was his second crime. The entity's way of overcoming karma from the crimes is to suffer equal to the suffering he has caused others, and in fact, the entity is likely to need *more* suffering than he has caused others.

It is not simply suffering for the sake of suffering; it is remorse and sorrow for the suffering caused others, and it will continue until the entity has equated his suffering

to that which he has caused others. This Awareness indicates that is the way whereby karma works. It is not something that society imposes. It is not something that God chooses for an individual. It is the *Law of Cause and Effect*, which is a Cosmic Law, applying in the universe to all things equally.

It is as certain as the law that says: "When something moves, there is something toward which it moves, and something from which it moves." It is a principle that is 'fact', not theoretical, or not something to argue about. It is a law as real as the law that says "Heat moves toward cold, and cold absorbs heat," or the law that says "Hard things striking soft things cause soft things to give."

This Awareness indicates that these are principles of the universe. They are not mere statutes or rules of some game or society, to make it difficult for some people. They apply to all things equally. *The Law of Karma* as a law that applies equally to all beings. The greater the crime, the greater the karma, the greater the remorse for that which has resulted in suffering. The more one suffers, the more remorse is required by the one who caused the suffering.

What Should the Entity Have Done When He First Heard the Demon Thoughts in His Head?

FOLLOW-UP QUESTION:

This description where he asks that the reader try to imagine that instead of a harmless yet annoying tune in your head, you experience filthy and despicable urges, desires, and fantasies of the degradation, rape and murder of innocent women; I'd like to ask Awareness in retrospect what *It* would have suggested the entity do at the first time he became aware of these voices in his head, or whatever, before he committed the crime; what would one do to try to exorcise these demons out?

COSMIC AWARENESS:

This Awareness indicates that these demons didn't suddenly pop in. They grew over periods of time. This Awareness indicates that these concepts, these ideas, these thoughts began to grow and grow, and the entity allowed this to happen. At some point he may have said to himself: "I'm tired of this! I don't want to think about this anymore!" and he may have become angry. In this case, the demon thoughts might still continue, because sometimes an entity's resistance to a thought might cause the entity to continue thinking.

It is likened unto the Hindu guru who was asked: "How can I learn to concentrate so that I can levitate when I meditate?" and the guru replies: "You must first learn to control your mind." "How can I learn to control my mind?" "You must never think of pink monkeys." And the entity then goes away and says, "Thank you master. I'll work on not thinking of pink monkeys." Two weeks later the entity comes back and says to the master: "I can't do anything! You have made me crazy! All I can think of is pink monkeys. The more I try not to think of pink monkeys, the more I think of pink monkeys!" And the teacher says: "You see? You cannot control your mind! You must learn to control your mind before you can even consider levitating when you meditate."

This Awareness indicates that it is the same for this entity. First he allowed these thoughts to go through his mind. Then he became fixated on the thoughts and became frustrated because he could not stop thinking the thoughts. This Awareness indicates one can always look at one's mind and say, "I will not continue this action! I will think about something else!" If you think about something else, there is no room to think about that which you seek to avoid thinking about, but you

must keep your mind busy on something else.

This Awareness indicates that the mind can only think one thing at a time, and therefore, thinking about math or thinking about some future plan for a project of yours, for which you may wish to dedicate your life, or thinking about the welfare of someone; these are ways whereby you can free your mind of any strange obsession and put your mind onto something more productive.

This Awareness suggests you may wish to study some kind of class. Perhaps you wish to study computers or something complex that will require much thought. But keeping your mind active on something positive does not leave room for the mind to dwell on negatives. This Awareness indicates that it is very simple. But there are many entities who allow their minds to become fixated on the negatives, and they keep thinking about the negatives until the mind is habitually tied toward a negative thought that repeats itself over and over and over, likened unto a negative mantra, so that the entity is hypnotized by these negative thoughts and obsessed by negative thoughts.

This Awareness indicates there *does* need to be a place where entities can go when they are hounded by negative thoughts, to have their minds altered enough by suggestion or by assisting entities so that they begin to develop positive thoughts, more constructive thoughts. This Awareness indicates that if entities could go to a psychiatrist or psychologist or therapist and receive some help without it costing an arm and a leg, or whereby the entity could actually receive help from some minister or counselor of a nature that helps the entity's thinking rather than trying to indoctrinate the entity into a particular religion, and whereby the entity can think in ways that help to interest and develop a new direction of thought; this would be of great benefit, but it is ultimately and finally up to the individual to guard his own thinking.

Schools Need to Teach People How to Think Clearly

It is too bad that your educational systems do not teach entities how to control their thinking, how to control their minds; they are too much part of a society's programming needs to actually show entities how to think clearly. Instead of showing entities how to think, many of the schools simply try to use programming techniques to make entities think along certain lines, and this is not what is really needed by many of the entities in society.

Did the Entity Have a Deep Hatred of Females?

FOLLOW-UP QUESTION:

I've read that entities like this who commit crimes against women have a deep-seated hatred, for some reason, of females.

COSMIC AWARENESS:

This Awareness indicates it appears that this entity had experienced molestation as a child, and that this was part of his deep-seated psychiatric problem, which eventually led to these ways of thinking. Much of what he experienced as a child was forgotten and buried in his subconscious, but it was there, and surfaced, and caused the strange fantasies that became obsessions. Along with the anger that he felt from the childhood molestation, he also experienced the fantasies and anger together, and this triggered the images of violent actions toward women.

This Awareness indicates, however, this does *not* excuse the action. It simply explains the action, how it got started. Entities must find a way to control their thinking so that they do not become victims of their own

mind, for in becoming victims of a demonic mind, they themselves become demonic and victimize others. You cannot simply pass off your responsibility by blaming it on some experience in your life, for there are many other entities who have experienced other similar problems as children who *did not* develop this kind of reaction to those childhood experiences.

Explaining the Criminal Mind Is Not a Solution

This Awareness indicates there was a generation of psychiatric and psychological studies that focused on and concerned itself with the act of explaining the criminal mind as being the result of a society that was not healthy for the entity who became demonic in behavior, and many of those criminals then used their psychological problems as an excuse for their criminal behavior.

This Awareness indicates this only led to further actions by criminals in attempts to excuse themselves, explain themselves, or find justification for their crimes. It is not a solution. The solution occurs only when an entity discovers that he or she is having thoughts that are subhuman, that are not healthy, and takes the steps necessary to put the mind on something more lofty, more spiritual, more wholesome, more healthy. Entities can indeed work to become more conscious of what is good and what is healthy, so that they put their thoughts on those areas that are healthy and good so the mind does not have room to be involved in getting fixated on negative patterns of thought.

This Awareness indicates of course, entities having such problems could benefit if they had help from others who understand these things. The problem is there are not a lot of people who understand these things, and many of the religions are more concerned about converting followers to the religion than they are about helping an entity whose mind is troubled with negative thoughts, with thoughts that are totally unhealthy; and even if they were concerned about such thoughts, they might not have a good understanding as to how to help an entity unless the entity spoke their religious language.

Many Families of Molested Children Don't Want Counseling

Many entities may have troubled thoughts and many religious people may wish to help them, but they don't speak the same language and many times the entity needs professional help, but cannot afford the cost, or is afraid of the stigma of asking for professional help from a psychiatrist or other professional. Sometimes families do not allow the children who need professional help to attend a psychiatrist because it might reflect on the family, or the child might tell something of the family's deep secrets.

This Awareness indicates that a child having been molested at a young age, going to a psychiatrist, could easily give away family secrets and a parent recognizing this would be very hostile toward sending a child to a psychiatrist or professional counselor for treatment. This Awareness indicates that these are things that need to be better understood in order to eventually nullify crime in society.

How Drugs Affect the Mind Needs to be Understood

Of course, there are other causes of crime; drugs being such. For even as the drugs used as medication for this entity helped to clear the criminal mind, likewise, drugs of another type might help cause a criminal mind to become fixated on some criminal action. Therefore, drugs and other types of trauma affecting the mind, need to be better understood by society.

Many think that psychiatrists have learned all there is to know about the mind or that the churches have the

answer for everyone, but this Awareness suggests that understanding of the mind is only scratched. There are so many things more that need to be understood and there are many areas of research that still need to be conducted before entities have a clear understanding, and these areas need to be conducted in such a way that the average person has access to the information necessary for the average person to cleanse his or her mind from these aberrations that could be so harmful to a healthy life.

This Awareness indicates at present, it appears that death is one of the only ways entities can cleanse the mind, if they are trapped in certain circumstances and have no clear way of cleansing the mind through those methods that are available in society, for there are not always clear and easy accesses to having one's mind made clean and healthy, and therefore, entities either go overboard mentally and are classified as insane, or they may simply go partially insane and live in society, wreaking havoc occasionally when they go extreme for brief periods, or they may simply become totally insane to some degree, while maintaining a part of themselves in society and appearing 'normal' in such a way as to allow them to continue to function in society while hiding part of themselves which is totally antisocial and not fit to live in society.

This Awareness indicates that entities of society who are responsible beings in society need to re-evaluate what can be done to help all entities have a more clear outlet for their mind, or to have repairs for the mind when it goes awry, without the entity having to suffer extreme financial or social damage by going to a professional for help.

Emphasis is by the editor.

"Cyber-Cash: Is it the Answer to the "Beast"?"

QUESTION:

In another area, we received a sample newsletter called Strategic Investment. The editor was James Dale Davidson, and he talks about 'cyber-cash'. I'd like to read this and ask Awareness to comment. He writes: "cyber-cash! The people are about to take-over control of the money from the government! A company in Amsterdam has launched the most revolutionary experiment in the history of banking. It has invented a new form of digital money which allows users to pay for purchases on the Internet in complete privacy. They don't pay in dollars or marks or pounds. They pay in E-cash, a new form of private money.

"This development is in its infancy, but when cyber-cash reaches its full potential, the elite of the information age will do their business in private international money not issued by any government. Transactions will take place electronically in unbreakable code. No one but the buyer and the seller will know what happened. The international money will be backed by gold or other real assets, unit per unit.

"For example, you may sell a luxury home on a Caribbean island for a million dollars of cyber-cash, meaning the title to a million units worth of gold in a Swiss vault is transferred from the buyer's name to your name, and you transfer the deed to the vacation home to his name, all by computer, all done internationally, all private, all untraceable. As with many coming developments, this will be a return to the Middle Ages, to the way things were done before big centralized governments got into the act.

"Paper money was originally a receipt issued for gold in a vault. Then the issuers figured out they could issue many receipts for the same bar of gold. Who would

know? Modern banking was born, a fraud from start to finish. Naturally, the government got into the game, seeing the profits to be made. The game is about to come crashing down in every sense of the word 'crash'.

"Governments will resist cyber-cash in every way they can. The IRS already holds that you have to report your profits on cyber-cash transactions and pay the taxes, but they are going to lose. The thing will be too big for them to control. Cyber-cash will be the next and final step in the government's loss of control. The underground economy will be 'the' economy. There will be no other, and it will be global."

Would Awareness comment on that information?

COSMIC AWARENESS:

This Awareness indicates that this offers a redemption from the fraudulent money system that is in control of people throughout the world at this time, or it will simply introduce another form of control if it is misused. This Awareness indicates that there is no greater protection of this cyber-cash system to keep it from being misused than there was of the money system when it first developed. This Awareness indicates that it will all depend on whether protections can be put into the system that will be truly firm and not able to be tampered with so that those wishing to control the power structure could somehow distort the system for their own gain.

This Awareness indicates it appears that it will be beneficial at least for a time necessary to get it up and running, but this Awareness cannot assure that it will remain pure and beneficial or protected against fraudulent tampering at this time. It cannot assure at this time that it will remain free from possible fraudulent tampering. This Awareness indicates that it **does** appear to be another paradigm or system of its own nature that could help to defuse the New World Order, and as suggested, bring those tyrannical governments and the money system used by tyrannical entities to a halt.

Will The Flu Epidemic of 1918 be Resurrected?

QUESTION:

We received over the Internet a rather interesting posting from Dr. Eileen Nauman. It's called "Spanish Flu Epidemic Resurrected! Pandemic influenza: Disease Archaeology." Dated May 30th, 1996.

"On May 28th the *New York Times* published a report from the Associated Press, Toronto, that a team of Canadian doctors is planning to open the graves of seven people who died in the 1918-19 pandemic of influenza, at that time called the "Spanish Flu," in an effort to retrieve a sample of the virus.

"The team said it will use extreme caution in probing the lung cavities of the frozen remains, which are located on a Norwegian island in the Arctic, and transporting the specimens to laboratories so as not to run the risk of releasing the highly lethal pathogen.

"Toronto pediatrician Peter Lewin, a member of the team, said that if they find what they are after "It will make medical history." If found, the structure of the virus will be analyzed and a vaccine could be made which could prevent a similar pandemic in the future."

Would Awareness comment on that article?

COSMIC AWARENESS:

This Awareness indicates that this could also be used to revive and return the Spanish Flu as another germ warfare project. This Awareness indicates that the Spanish Flu was a most vicious form of influenza that wiped out so many people it was likened unto a plague that ravaged almost an entire generation in the time

following World War I. This Awareness indicates that it struck not only in the United States, but also in Europe, and millions died from this flu.

The antibiotics of today would not likely have great effect on this, particularly since the bodies of entities have been given so many antibiotics they are becoming immune to them, and the Spanish Flu could be engineered genetically so as to resist the present-day antibiotics.

This Awareness indicates therefore, it is not something to think of as a harmless action, without knowing the real motives behind the work of this team, for they may simply be working as part of a group to bring back another disease to help wipe out more of the earth's population, which is, of course, part of the agenda of the New World Order.

DOES MEDITATION MAKE PRAYER UNNECESSARY?

(The Pros and Cons of Prayer and Meditation)

QUESTION (3/9/96)

A question from Jerry K., in New York City. He writes: "There is something which I believe needs more clarification. I hope Awareness can answer this question. There has always been much talk about "prayer" and "meditation" and "Oneness with the Divine." I remember reading in one of CAC's issues that prayer is asking or requesting the Divine for something, and meditation is more like joining or merging with the Divine.

"If meditation is merging with the Divine, then would that not make prayer unnecessary? What I mean is, if we merge with the Divine, would that not make a person one with the Divine, and therefore, make it so that the Divine knows your needs and wants and automatically helps you?"

"The reason I ask this is because in Huna, it is always recommended that we pray to our Higher Self by giving our low manna and visualizing what it is we desire. Would not meditation make prayer unnecessary?"

COSMIC AWARENESS:

This Awareness indicates that in meditation, an entity does not particularly have any personal need other than to be with the Divine. This Awareness indicates that as an individual you may have a number of needs that you individually cannot fulfill; therefore, in asking for help from the Divine, you as an individual can benefit from prayer.

This Awareness indicates that normally in meditation, an entity does not take his or her needs to the Divine to join with the Divine, though the Divine can be aware of those needs and can bless you, so that many of your needs are taken care of, but if you, as an individual, feel that there are special needs that have not been fulfilled, you may wish to indulge in petitioning the Divine through prayer.

This Awareness indicates that entities would like to find some simple formula for having everything they want. This Awareness indicates that in other words, they would like for God to bless them, to give them their life's bounty and treasure without having even to ask for help. This Awareness indicates that meditation is not the solution for that desire, but what happens when entities meditate is they feel less needy and more blessed by being close to the Divine, and they may simply trust the Divine to give them whatever is necessary, according to the will of the Divine.

This Awareness indicates if entities think that meditation is a way of getting something that is a better approach than prayer, it is not necessarily going to fulfill that expectation. This Awareness indicates that it should be realized that in some cultures, entities do not ever ask the Divine for help in anything; they simply take what is given for them in their life, and they believe that the Divine gives them what is needed in their life. To ask for special benefits for some entities in these cultures would be sacrilegious to them.

This Awareness indicates that *It* does not wish to have entities feel this way: that they cannot ask for help; but *It* does wish entities to know that prayer isn't everything for everyone. There are other ways of being spiritual other than praying for things. This Awareness indicates that the greater purpose of prayer is to ask for Divine help in spiritual blessings rather than in material blessings, however, in some instances, entities need material help, and this Awareness indicates that this can be of benefit

for these entities.

This Awareness does suggest, however, that meditation can give an entity a feeling of oneness with God to such a degree that material things matter very little, and the need to pray for things becomes less important.

FOLLOW-UP STATEMENT:

I believe the Quakers defined meditation as listening, and prayer as asking.

COSMIC AWARENESS:

This as in the affirmative. Another way would be to think of meditation as being receptive to the Divine, prayer as asking for Divine Intervention in your life and its affairs.

How Does One Know if One is Living According to the Will of the Divine?

Another question from Jerry K. He asks: "How do you know if you are living according to the will of the Divine?"

COSMIC AWARENESS:

This Awareness indicates you are living according to the will of the Divine when you have surrendered self to the Divine. To that degree of surrender to the Divine, you are living according to the will of the Divine. This Awareness indicates it is a very simple formula.

Are Your Thoughts God's Thoughts?

QUESTION:

Another question from this entity. "If the ultimate reality is that you and God are One, then are your thoughts God's? Or because of the fact that the Divine created countless points of individual consciousness within *Itself*, are your thoughts unique? I use the word 'unique' instead of separate from the Prime Mind."

COSMIC AWARENESS:

This Awareness indicates consciousness can be one with the Divine Consciousness. Thoughts are not the same as consciousness. Thoughts have much to do with the individual personal self. The self tends to indulge in thinking, and the thinking is a manipulation of images, ideas, and words for self purposes: to enhance the self, to address the self, to excuse the self, to indulge the self, to promote the self, to gather things for the self; that is what most thinking is, and most thoughts using images and words and concepts for self-purposes to promote the self.

Consciousness is Without Thought

This Awareness indicates 'consciousness' however, is without thought, can be without thought, and can merge with Divine Consciousness to a point wherein the two become one, and one can simply be aware of being with Divinity without even thinking such thoughts as "Wow! Look at me! I am with Divinity!" This Awareness indicates that these thoughts are thoughts that promote the self, and therefore, by looking beyond thought, by watching thoughts from a consciousness level rather than indulging in thought all the time, one can rise above thought, rise above self, and become one with the Divine Consciousness.

In consciousness, one can observe the thoughts as they move through one's mind, and can watch these thoughts and learn what is happening in regard to one's thinking. One can learn much about one's self by watching one's thoughts, but if you start judging yourself, evaluating yourself, thinking about your thoughts, it is just another form of thinking. It is a way by which the self tries to one-upmanship itself, stand above itself and judge itself, and thus think it is better now, because it can look down on self and criticize and ridicule self, thinking that

"Wow! I'm really improved now because I can see how awful my self is!"

This Awareness indicates the new stance is nothing more than another attempt to put self in a higher position of greater glory and grandeur. By simply observing rather than judging or manipulating thought, or trying to be above one's thoughts, one can actually see things from a discernment that allows one to become more aware without necessarily becoming more egotistical.

Consciousness Observes Without Judgment or Evaluating

This Awareness wishes to remind you that vanity was the downfall of Lucifer. Lucifer represents the mind and the thinking mind especially. Consciousness is that which is higher, in that it is not indulging in thought without being aware of what is happening in the thoughts. This Awareness indicates that the consciousness is simply aware. It discerns without the thinking process, without the judging process, without evaluating or giving itself a pat on the back for being so observant or so aware.

This Awareness indicates that when entities can simply observe from a consciousness level, they are able to learn more and become more aware, but when an entity begins to become aware and learn more, if that entity then begins to pat itself on the back for being so observant or so aware, it is just another effort of thought of the Luciferian mind to take a step up in a higher position on the pyramid of importance, and the self-importance then becomes even harder to let go of.

The Idea of Surrendering Self to the Divine

This Awareness indicates that the idea of surrendering self to the Divine means not to step up as a higher self, proud of your greater self, becoming equal to the Divine, and therefore seeing yourself as a great and grand being, but rather to allow yourself to dissolve as you merge with the Divine.

Are We Truly Co-Creators With God?

(Are We Responsible for Our Wants and Needs?)

QUESTION:

Another question by Jerry K. He asks: "Are we truly co-creators with God, within God? I have learned from my spiritual studies that God, or the Divine, provides for all of our needs whether we realize it or not. This is the Prime Consciousness caring for Its creations, Its children. This is God manifesting for the needs of the individual free-willed points of consciousness within itself.

"Yet, if we truly are free-willed, and if we are co-creators with God, within God, then are we responsible for our wants, knowing that our needs are already taken care of by our Creator?"

COSMIC AWARENESS:

This Awareness indicates that the Creator God essentially provides you with your needs; It does not necessarily provide you with your wants. You can want one thing, but need something exactly the opposite. You may want to possess a certain person, but you may need to lose that person in order to become more sensitive and aware and respectful of persons like that.

Why Hunger and Deprivation is Sometimes Necessary

This Awareness indicates that likewise, you may think you need some material pampering or benefit, but you may actually need to be deprived of such. You may need to have hunger a little longer in order to learn something or gain some understanding that you may never have allowed yourself to experience, unless something outside your own wishes intervened in your life to give you that greater hunger and that greater experience of needing.

This Awareness indicates therefore, the Divine may put you in a position of lack for the lessons you need to

learn about life, so that you can benefit from these lessons at some later time. This Awareness indicates in other words, your needs may be much greater and may be provided for you by the Divine, but your wants are not necessarily guaranteed just because you seek to be One with the Divine.

This Awareness indicates that you may even need to learn to beg. Perhaps that is the need, and you may need to learn to beg from friends and others. Perhaps that is your need. It does not mean that you are being less provided for because you have had to beg, or that God has deserted you because you have to beg. It may simply mean that God wants you to experience the position of having to beg for your needs.

Your Needs Are Like a Vacuum Which the Universe Abhors

This Awareness wishes also to help entities to better understand a certain principle that applies. Your needs are likened unto vacuums, and the universe abhors a vacuum. Wherever there is a vacuum, there is something rushing to fill that vacuum. Wherever there is something that is in excess, too much, and there is a vacuum elsewhere, that excess will be rushing away to fill that vacuum, wherever it is.

Therefore, if you have too much, you may find yourself losing for some unknown reason, losing something in order for the universe to fill some other needy person's wishes or some other vacuum elsewhere. If you find yourself too empty, know that it will not last forever, because there is a need and that need is a vacuum, and it will be filled in time.

This Awareness indicates that sometimes you can speed up the process of filling the vacuum simply by letting others know of the vacuum that you feel. Sometimes, others will simply ignore your need and let the vacuum continue to exist for awhile, but whatever the situation, the vacuum is there for a reason, and the excess is also likely to eventually balance out. There is a constant shift.

Just as in weather, there is the high-pressure and low-pressure zones which are constantly shifting and trying to fill the vacuums or low-pressure areas, and in the process going overboard and creating high-pressure zones somewhere else. This movement and change in temperature, in coolness and warmth, creating vacuums or low-pressure areas, and high-pressure areas, allows for some things to have too much, and other things to have too little, so that there is a wind of change that shifts and fills the void or that creates excess somewhere for awhile.

This Awareness indicates that during those voids, prayer is simply recognizing the vacuum and opening a communication, asking for the void to be filled. The very act of asking, emphasizes and focuses on the void, and therefore helps to bring about a quicker response. This Awareness indicates in other words, the use of prayer can be helpful to an entity suffering a vacuum, but when one prays without needing anything, the entity may simply be praying for some greedy purpose; those prayers may not be necessarily answered because there is no vacuum.

Why One Often Dies After Prayers for Healing

If one simply wants too much, and prays for more than is rightfully his or hers, or prays for that which belongs to someone else; those prayers may not be answered at all. This Awareness indicates that likewise, illness is a vacuum. It is a need. There is a need for healing, and prayer can sometimes help bring about a healing. Sometimes it does not work. It does not heal; the prayer does not bring about the healing, and the entity prayed for may die from the illness.

This Awareness indicates in such a case, it is because the entity has already lived sufficiently, learned what is

needed, and is ready to move on, or needs to move on more than to recover. This Awareness indicates in other words, prayer simply draws attention to the vacuum, to the need. The universe, having excess somewhere, can often give energy to fulfill that need.

The Cosmic Mind is everywhere present, filling the universe, and can pull from one area where there is too much to fulfill a vacuum where there is a need. It is no problem for *It*, but entities need to understand that not all prayers are answered, because the Divine Mind may realize there is a need to have a need, and when someone needs to have a need, that need will continue without interference, until the Cosmic or Universal or Divine Mind recognizes that the need now needs to be balanced and fulfilled, and at such a time, then the vacuum is filled and the need disappears and the healing occurs.

How to Determine How Much Help to Give?

FOLLOW-UP QUESTION (VIKKI):

In cases, where you see a need, or know of a need, especially when it's in the family, how is it best determined how much to try to help the person, or in the example Awareness just gave, if their need is to get to a position where they have to learn how to beg; are you getting in their way even with your best intentions?

COSMIC AWARENESS:

This Awareness indicates that it is all a matter of feeling. It is not something that can be determined by thought or formula. If you feel a need to help someone, then it is proper. If you feel a need to withhold that help, then it is proper to withhold your help. Someone else may see you standing back doing nothing, and become angry with you, and that may be proper for them to do so, and it may be proper for them, having seen you standing back and doing nothing, to jump in and do something themselves.

Perhaps the entire situation, where someone else interferes and helps this entity is what is needed. This Awareness indicates that you simply go by your instinct and your feelings. You do not have a formula for such things. If you really **must** help someone, then you find yourself helping them because you feel like helping them. If you really **must** withhold your help, then you will feel like withholding your help and it will be the appropriate action for you.

More Problems From Answered Prayers?

QUESTION:

Someone once observed that there are more problems that have been created in our world by answered prayers than by unanswered. Does Awareness see any truth to that?

COSMIC AWARENESS:

This Awareness indicates that those who have had their prayers answered might disagree, or if the prayers were answered but the results of the answered prayer turned out to be more harmful than helpful, they might agree with that. This Awareness indicates that sometimes the prayer can be answered, but the entity does not enjoy what he wished for or prayed for because it was not really what the entity needed. Therefore, there is some truth to that. There is the same "Be careful what you wish for, for you may get it!" This can be applied also to prayer: "Be careful what you pray for, you may get it!"

What Can Happen When You Get What You Wished For

This Awareness reminds you of the recent ad wherein the entity has three wishes. He wishes for lots of wealth, and he gets gold all around him. He is in some kind of cave with gold everywhere around him. Then he wishes for beautiful women, and he is surrounded by beautiful

women. He has one more wish. He asks for "long life" and suddenly turns into the energizer bunny rabbit, beating on a drum that keeps on going and going and going.

This Awareness indicates this is an example of an entity getting what he wished for. There was also a recent movie, not very recent, but in the last decade, with Dudley Moore, wherein the entity had seven wishes, and each of the wishes was manifested in such a way that it left him in a worse condition than before. This Awareness indicates that just because you get what you wish for, or just because you get what you pray for does not necessarily mean that your troubles are over. There can be troubles in getting your desires fulfilled.

Life has a Way of Giving and Taking at the Same Time

Life has a way of giving and taking at the same time. The only thing that can give you a full happy life is being close to the Divine and loving others without great reservation. Giving yourself to helping someone who is truly in need can be one of the most rewarding experiences you can have, and surrendering yourself to the Divine, rather than trying to become Divine yourself, or trying to become a great leader or god-like figure; you are much better off giving yourself to the Divine than trying to become the Divine in the sense of personal self.

IS EVIL BEING USED TO END EVIL?

QUESTION:

A question from Robert S., Vancouver, British Columbia. He writes: "To me, karma is simply the soul's individual sense of experiential balancing. Karma is not 'cause and effect', but the soul's idea of 'moral' cause and effect. In other words, all souls collectively agreed to holding to the illusion that there needs to be rewards, and especially punishment from past lives in order to drive one to experience the full range of being human.

"We have all completed this experience many times over. It has become extremely redundant. Evil truly is needless because it has all been done before: over and over again. Humanity has had its fill of cruelty, of suffering, yet, like a record stuck in a groove, it repeats, choosing evil constantly. In this sense, the higher spiritually loving purpose, although obviously not consciously intended, of Hitler and the Nazis, among others, has been to exemplify evil excess to the extent that humankind is nauseated and driven to work this poison out of its system.

"Could Awareness please comment on my view and how evil is ultimately being used to end evil forever?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that the very nature of evil exemplifies that which turns people off; perhaps if not immediately, then over a period of time. This Awareness indicates that when an entity is saturated with watching evil or seeing evil, then they may become self-aware and notice when the beginnings of an evil thought or action starts to build in themselves and the witnessing of evil around them may help them to stop the evil from building within themselves, because it reminds them too much of what they have seen elsewhere.

This Awareness indicates that gradual change **does** follow. It is likened unto the wolves that chase the caribou to weed out the weak and to leave the herd strong. The evil chases those entities who are weak. They are then weeded out of society and society is stronger.

How to Deal With a Persistent Negative Force (Why the Dark Force Will Keep Attacking You)

QUESTION:

In line with that last question, a question from Terry

T., Scottsmoor, Florida. He asks: "Why does the negative force attack us on a continual basis? No matter how much progress I make spiritually, a negative force is always at my throat it seems. Is it possible to oust it forever in the physical plane, or does one have to wait until he reaches the soul plane before one is rid of its constant intrusions into one's life?"

COSMIC AWARENESS:

This Awareness indicates that generally, the more Light an entity acquires in his or her life, the more the Dark Force wishes to put out that Light, to attack that Light, to shut off the Light, because the Light tends to disturb the environment of the Dark Force, and if everyone could have their Lights turned on, the Dark Force would have no place to hide.

This Awareness indicates therefore, any time you are progressing spiritually, you should expect the Dark Force to attempt to shut you off. This Awareness indicates consider it part of the territory of the spiritual life to be attacked by those Dark Forces. This Awareness indicates if you came into the spiritual pursuit in hopes of getting away from difficulties and having everything rosy and nice, you have been misinformed.

This Awareness indicates that the saints and the martyrs of old did not get heavenly rewards for being nice. They got punishment sometimes, or sometimes they got crucified, or otherwise harmed for their devotion to the Divine. If you can live a good happy life and still be spiritual with a minimum amount of harassment by Dark Forces, you must consider yourself extremely lucky.

This Awareness suggests that you not expect only blessings for being as spiritual as possible, for you will also receive attacks from the Dark Forces for being as spiritual as possible. The one thing that you can expect, however, is that when being attacked by Dark Forces, if you draw closer to the Light, the particular Dark Force attacking you at the time will not be able to have much effect on you because it cannot move closely to the Light to continue harming you.

It does not like being near the Light. Therefore, the more spiritual you can be, when being attacked, the better your chances of warding off the attack of a Dark Force.

To Get Rid of a Dark Force, Just Say "No!"

QUESTION:

Another question from Terry T. He writes: "Most people have no idea that they are violated daily, hourly, by the negative force. Is there anything that one can do to raise their conscious awareness of the presence of this force and these entities in their lives? My understanding is that once you are 'consciously aware' that it is present, you can put it on notice and tell it is trespassing and to be on its way!"

"It can, by Universal Law, only go where it is invited, and not being conscious enough to know it is present is a form of invitation by the default of allowance. Is this true? And if so, would it benefit others to become more aware of their inner interferences in order to be able to rid themselves of unwanted, uninvited entities?"

COSMIC AWARENESS:

This Awareness indicates that this is true, and that entities recognizing a negative force can simply order it away. There is that banishing ritual which this Awareness has given which can be used, or you can simply state if you wish: "Out of my life! Be gone! I will have none of you! None of your meddling in my life!" This Awareness indicates that if it is said with conviction and sincerity, then that Dark Force will keep away. This Awareness indicates that if you do not make a firm statement, it sees

the area as being opened. It is being likened unto territory without a fence. It can walk across the territory because there is no fence, there are no "No Trespassing" signs, and therefore, it feels it has the right to enter into your domain, because you have not indicated a rejection of it.

Reject it, and it leaves. Ignore it, and it may feel it is an indication to stay. Just say "No!"

What Signs Indicate Mankind is Progressing?

QUESTION:

A question from Michael C., in Seattle. He asks "What trends can I watch for to know if as a species, we are becoming enlightened and creating an 'easy' transition, or if as a species we are tending toward hanging onto the old way, therefore creating a 'tough' transition?"

COSMIC AWARENESS:

This Awareness indicates it appears the entity wants to evaluate humanity's progress on the spiritual path by watching for signs or trends. Is this the question?

QUESTIONER:

I believe that's what he means.

COSMIC AWARENESS:

This Awareness indicates that there are many things that occur in the media, but the media is not necessarily always on top of what is happening in the masses, although most of the time it does a relatively good job of reflecting what is occurring. In general, however, the masses are what indicate the changes in consciousness that are happening in the world. Do you see people being helpful to one another, being courteous to one another, being willing to serve one another, or do they seem to be grabbing from one another, and if so, how many in comparison are grabbing, to those who are helping? Do you see more violence than good?

This Awareness indicates that it is a matter of being observant, not only observing what is presented by the media, but also what is seen among the masses, your own neighborhood; those around you. Are there really people out there helping each other? Giving their energies for one another? If so, how many? How many are being served in this manner?

This Awareness indicates that *It* would like to ask this entity a question: What will you do with the information that you find, if you discover how well humanity is moving spiritually? Is it in some way going to be helpful to others, or is it simply something to satisfy your own curiosity, and if it is simply for your own curiosity, what is it for? Why are you curious? What will you do with the information by which you evaluate humanity's spiritual progress?

Can this be used to assist the masses to move more quickly in a spiritual pursuit?

The Autobiography of a Mummy: Should Strongbow Write a Book on the Interpreter's Past Lives?

QUESTION:

A question from Jon Strongbow in Seattle. He writes: "Awareness, in 1977 I was working on a novel and needed to know a little about the mummification process in Atlantis and Egypt, so I conducted several interviews with the Interpreter Paul Shockley. During these sessions Paul told me he was interested in doing a book project concerning the history of mummification, how the programming of the mummies has controlled and influenced civilizations down through the ages, and how the effects of mummification were felt in subsequent lifetimes by the various entities involved.

"This book was to be written as a novel or a story that

also tells the history of the Interpreter: how he was mummified and why, and how it affected him down through the ages, and how it eventually led him to become involved with the Awareness organization, and to become a channel for Awareness. The book would also discuss how mummification is happening even now, in the form of consuming preservatives in processed foods. It would be a sort of history lesson from the Awareness frame of reference, as well as an entertaining and interesting read.

"However, this story, which Paul suggested be called The Autobiography of A Mummy (most likely because he had just finished reading The Autobiography of a Yogi) was never started, let alone finished. Now, nearly 20 years later, going through my papers, I have found some of the transcriptions I made from these conversations, and it renews my interest in this project. I was supposed to ghost-write it.

"I also thought about considering the recent debacle concerning the Interpreter's health; that it might be a good idea to pursue this project while he is still on the plane. It shouldn't take too long, perhaps merely a few weeks of conversations and taped interviews, providing Paul is up to it, or interested in it, and I would do the rest of the work, submitting it to Paul and Avaton for final word.

"A book like this could conceivably be put out chapter by chapter, along with the readings, or could be obtained chapter by chapter for a fee from the membership, or could even eventually become published by a big publishing house and turn a lot of people on to the incredible body of knowledge that is the Awareness Material. Would this be a worthwhile project, and can Awareness recommend that it be undertaken, or does Awareness have any suggestions or comments?

"As you know, I have been transcribing the Awareness material for about 16 years now, so I feel almost qualified to undertake such an ambitious project. Of course, it all depends on the Interpreter, and if he is ready, willing and able. Thank you, Jon Strongbow."

COSMIC AWARENESS:

This Awareness indicates that this could be a very beneficial project and it does appear that the Interpreter would be cooperative in this, when his health improves. This Awareness indicates the Interpreter has had some difficulties for the last several months, and is not readily capable of much intense activity in this regard at present time, but give two months for the Interpreter to improve in regard to his health, and check with him at that time.

This Awareness indicates that Saturn is in his 6th House of Health, and will remain there for some time, causing some difficulties, however, there are other planets that will be moving to help balance out that negative effect, so that the entity may have times when the health improves and he will be then more able to have the energy to do those things that are necessary.

This Awareness indicates that much of it has to do with commitments on many different levels, and the amount of energy available to this entity for this project. This Awareness indicates it does appear that in June and in the summertime in general, that the entity will have more energy for this kind of project, but that you may wish to check earlier within approximately two months to see how his energy and health is in regard to such work.

ED's Note: If you think this might be of interest, you can drop a line to CAC and we will forward it to Jon. If enough interest is expressed, it might help light a fire under the interpreter.

IS THE RIGHT TEMPORAL LOBE THE SEAT OF MYSTICAL EXPERIENCES?

QUESTION:

A question from Raymond C., Dingman's Ferry, PA. He writes: "Just finished reading Dr. Melvin Moore's book Parting Visions. As in his other books, he mentions neuro-surgeon Wilder Penfield's work in stimulating the right temporal lobe of the brain that produced out of body psychic experiences and so forth. As a result of this, many doctors and scientists attribute these experiences to some body irregularity or effect of drugs that person may be on, although there are studies that show that people heavily dosed on drugs do not have these experiences.

"All this is very interesting, but seems rather incomplete." His question, evidently, is: "Is the right temporal lobe the seat of mystical experiences, Cosmic Consciousness, and is this an area one can focus on in meditation to help induce mystical experiences?"

COSMIC AWARENESS:

This Awareness indicates that the spatial and language aspects of the right brain, and its sensitivity to intuitive and spiritual concepts is that which allows it to have those special qualities that, coupled with the pineal and pituitary, and energies flowing through the chakras to the pineal and pituitary, help it to become more aware of spiritual energies and experiences.

This Awareness indicates that for the most part, the left brain deals with the thinking and the logical mathematical and more material aspects of experience. The right brain being more associated with the spiritual, spatial and linguistic and poetic aspects of one's experience. Also the more psychic areas that one experiences will normally flow through the right brain. Sometimes these work through pineal and pituitary areas which help to bring a closer harmony or merging between the left and right brain lobes.

DID WILDER PENFIELD DISCOVER A VIDEOTAPE IN THE BRAIN?

FOLLOW-UP QUESTION:

Years ago I read one of Wilder Penfield's books or articles. He was a Canadian surgeon, who one day in the process of operating on some entity who was in a light state of consciousness, not fully drugged out, but was aware of what was going on; the doctor touched a particular spot and the entity suddenly started talking about how he was back walking the streets of New York as a child, with his mother, and he passed an organ-grinder, and he started humming the tune of the organ-grinder, and he went on, saying that people passed him in the street and he described them vividly, and he remembered even snatches of conversation they were having and so forth.

This incident led Penfield to more experimenting along this line, and I don't know where they get the thing that it's associated with drugs. My impression was that he was tapping in to an entity's total memory somehow; that it was like a video-tape of the entity's mind that somehow recorded everything in the entity's life; everything he heard, experienced, tasted, smelled; that sort of thing. He even described the smell of walking down the street, cheap wine, urine and flowers and so forth.

Is there in fact, (I believe it was the right lobe also) a sort of videotape installed in an entity's mind that actually does record all of this stuff? And if so, what is its function? Does it have anything to do with the Akashic Records?, or when the entity passes over?

COSMIC AWARENESS:

This Awareness indicates it is essentially the collection of experiences and memories that is recorded on the brain, or in the brain, to remind you that a videotape in itself is simply a piece of material. It is a piece of matter. It does not have experiences of its own, but if, through the use of electric currents and magnetic pulses, if these are presented to it in such a way that they can be retrieved by an instrument that recaptures the input material, the videotape can be played so as to produce a movie, a show or some activities that appear to carry real images and real people.

This Awareness indicates that likewise, the brain itself is but a piece of matter, but coupled with its qualities, certain electrical and magnetic and nerve substances within the brain, it can hold what later can be retrieved as memory. This Awareness indicates it is more confusing to entities of today's world than the videotape, because the videotape is more accessible, and entities can hold it, handle it, put it in the recorder, play it, or use it to record new data over the old, and entities think they understand it quite well. But the brain is mysterious, because it is hidden away and it does not behave exactly like a videotape.

Microchips Being Made From Aborted Fetuses

You cannot simply push a button and get immediate perfect playback of memory. This Awareness indicates that there will come a time no doubt, when some of the other means of recording will become more commonplace. Already there is a technology that allows the use of protein to be put in microchips. The protein has been extracted from fetuses that were unborn, or aborted prior to birth and put into microchips in the same way that silicon or other substances are presently used in microchips, and the engineers and scientists working on this recognize that the protein taken from these fetuses allow a more effective microchip than those made from silicone.

This Awareness indicates that the protein stores memory just as does the silicone, but it can store much more memory on a much smaller space. This Awareness indicates that in other words, the brain has a super-quality that surpasses the microchips and videotapes and other material products that are being used for storing information. This Awareness indicates that *It* is not discussing the morality of such at this time, but simply pointing out that the protein and substance that makes up the brain is very much similar in a more highly evolved way to the videotape and microchip used in computers.

Demented Cattle and Explosions in Somalia**QUESTION:**

A question from Robert S., in Vancouver, BC. He writes: "In a rather strange story on an all-news TV channel: Loud explosions were reported along the coast of Somalia. In that area, skin was said to be falling from people's arms, and cattle were acting demented. The government of Somalia said it couldn't explain such oddities, but it wouldn't discount the possibility of UFO's being involved. What does Awareness see as the cause of the explosions and the effects on the coastal people and cattle?"

COSMIC AWARENESS:

This Awareness indicates that it appears to be a weapon-testing procedure, testing vibratory sound-waves or weapons using sound and vibration. This appears to be related to ultra-low frequency, lower than the ELF frequency waves. This Awareness indicates that it does not appear to be UFOs from outer space. It may be an unidentified flying object of a terrestrial nature that is using these weapons or testing these weapons, or it may

be from a ship on the surface. It is not seen clearly the nature of the vehicle testing or holding the weapons, nor from which government it is being used, but it does appear to be related to work done by Tesla.

Longer Lifespans and the Needs of New Souls**QUESTION:**

Another question from JD in New York. "How do we understand the relation between longer modern life spans and the need of so many souls lately to spend more time in a body? Not long ago, a large percentage of incarnations died in childhood and youth. Suddenly this has become quite rare. Did the prior groups of souls have different needs than the current one or is this an unrelated aspect due entirely to medical advances?"

COSMIC AWARENESS:

This Awareness indicates that there are certain medical advances that have occurred recently. There is better nutrition that has occurred recently in certain areas of the world. This is not everywhere. This Awareness indicates it is also noted that there are longer lifespans for some individuals in certain parts of the world. This will indicate that these particular areas, or people born into those areas are experiencing less karma in their lives than those who enter into a time period or location in which their lives have been shortened.

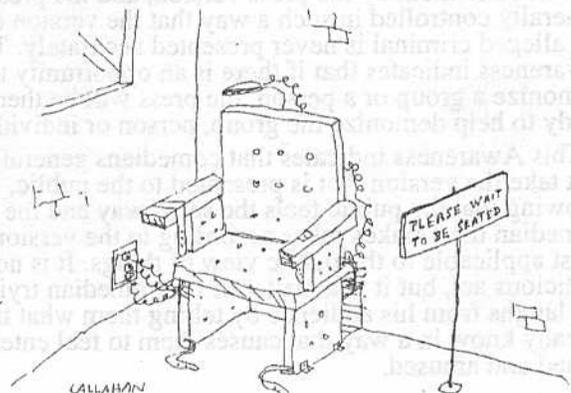

When the lifespan is shorter and the suffering is greater, there is more karmic energy in those lives that has been dealt with in the shorter and more difficult life experiences. Whole nations can exist in such a way that karma lifts and many entities live longer, happier and more healthy lives, which would indicate that these entities in general have less karma than those in other areas. This is in reference to negative karma.

Why Are IQ Scores Rising so Rapidly?**QUESTION:**

Another question from this entity JD: "It has been noted that IQ scores have risen sharply on average world-wide in the past 50 years. The gene pool cannot change that fast, so what accounts for it? The tests are designed to measure innate intelligence and are often given to pre-schooled children. I suspect more evolved souls are incarnating here recently."

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the frequency or vibration of consciousness on earth is advancing, is rising, and this accounts for the higher IQ average. This Awareness indicates it is during this recent time, the movement into the Photon Belt, that the IQ will rise dramatically among newborn children as well as other entities already on earth, for those entities on earth also are partaking of the energies of the Photon Belt which can boost their IQ also.

Are Asteroids Going to Hit the Earth?

QUESTION:

We received another letter this week from Teresa in Spain. In the letter she mentions: "Concerning the same items I mentioned in my last letter, I am enclosing a cutting from the prestigious weekly German magazine *Der Spiegel*, which is similar to *Time* magazine in the U.S., which states that "United States NASA Scientists in charge of space flights have made an alarming discovery in space." It's in the May 9th, 1996 issue.

"In the constellation of Cancer, there is a comet and four gigantic, up till now unknown asteroids, racing at incredible speed throughout the solar system, two of which are menacingly near to our own planet. Experts throughout the world are warning, they could collide with earth." Does Awareness see this as valid?

COSMIC AWARENESS:

This Awareness indicates this appears to be a correct statement, the asteroids being such that they have their own particular individual movements. It is worded in such a way as to sound as though they were racing around without any direction or pattern, but these asteroids have their own particular direction and movement. This Awareness indicates that it is not as haphazard as it may sound.

This Awareness indicates that the comet also is not part of the asteroid pattern. It is on its own course, following its own path, which can be monitored and plotted by science, if desired. This Awareness indicates that *It* does not see any immediate danger to earth from these heavenly bodies. This could change at some time in the future, particularly if there are any interferences to the directions of these movements, but this appears to be unlikely.

Why Does Jay Leno Knock the Freeman?

QUESTION:

A question from Robert S., in Vancouver, British Columbia. He writes: "Although I enjoy the comedy of Tonight Show host Jay Leno, his jokes about the Freeman in Montana make me think that he and other comedians are either cold-blooded opportunist for mocking others, propagandists for the U.S. government, or both. While Leno may have some reason to criticize Dr. Jack Kervorkian's radical pro-euthanasia stance, (although calling Kervorkian a murderer displays Leno's ignorance), to condemn the Freeman in a smug and sarcastic way as though they were White Supremacists and terrorists displays a blind faith in the U.S. government's version of things, which time and again has proven to be lies." Could Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates that approximately 90% of the people in the United States believe whatever is presented to them by the press version, and the press is generally controlled in such a way that the version of the alleged criminal is never presented accurately. This Awareness indicates that if there is an opportunity to demonize a group or a person, the press will be there ready to help demonize the group, person or individuals.

This Awareness indicates that comedians generally just take the version that is presented to the public, knowing that the public feels the same way and the comedian then makes jokes according to the version most applicable to the public view of things. It is not a malicious act, but it is a matter of the comedian trying to get laughs from his audience by telling them what they already know in a way that causes them to feel entertained and amused.

This Awareness indicates *It* does not intend to excuse that kind of comedy, but it should be expected. Entities should not be shocked at someone's laughing at another's misfortune in such situations, because comedians have often gained humor and laughter at the expense of others. This Awareness indicates there are very few people who understand the philosophy of the Freeman, and while the philosophy may have very sound logic, the majority of people do not, and therefore, the sound logic does not compute to them because they are not logical anyway.

Is DHEA Really "The Fountain of Youth:?"

QUESTION:

A question from Betty A, in Washington DC. She writes: "Dear Avaton, I wish to ask a general question about a product recently entering the market and to ask Awareness if it is a worthy product, helpful to the anti-aging process as claimed and related ills, if it can be an aid to maintaining good health, et cetera? The following quotes from an article about the product." And she included an excerpt from a publication called *Life Times*, March-April, 1996, which I'll read the parts she's outlined.

"If you're over age 25, then your DHEA is decreasing as we speak. DHEA, (dehydroepiandrosterone) a naturally occurring hormone, is produced by your adrenal glands. As your DHEA diminishes, you age and experience many of the following symptoms: lack of energy, excess weight, insomnia, constipation, diarrhea, PMS, poor memory, back pain, depression.

"DHEA is the most abundant steroid in the human bloodstream and research has found that it has significant anti-aging, anti-obesity, and anti-cancer effects. It is often called "the mother hormone" since it serves as a critical building block from which the body produces other hormones like testosterone, estrogen, progesterone, and some 15 other hormones that are essential for good health.

"According to Biochemist Dr. Norman Applezweig, DHEA de-excites the body's processes and some of the diseases of aging caused by runaway production of nucleic acids, fats and hormones. DHEA regulates their production and thereby slows down aging. Our bodies seem to be programmed to reduce the natural production of DHEA sometime between the ages of 20 and 25. From that point on our bodies degenerate and we begin the process of "aging".

"In our early thirties, our bodies can produce about 30 milligrams per day of DHEA. By the time we reach our sixties, DHEA levels are barely detectable, under 5 milligrams per day."

COSMIC AWARENESS:

This Awareness indicates that the substance is indeed of importance to entities. It can be beneficial in helping to slow the aging process. It is also beneficial in helping in healing many various types of problems that may develop in the body, particularly those that are related to aging. This Awareness indicates that there is a source of DHEA found in the Mexican yam which is quite common as a source, or it can be purchased elsewhere from medical sources at a more expensive cost.

This Awareness indicates that this substance is generally quite expensive, but because it has been found in the Mexican yam, it can now be obtained at a less expensive cost. This Awareness indicates the source of information this entity has quoted does appear to have contact with sources for the Mexican yam and also for other more traditional sources.

FOLLOW-UP QUESTION:

Is that other product Awareness just mentioned from Mexico, is that called Endogen?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that this is the brand name marketed by the source from which the entity received her information on DHEA which was quoted early in her statement, the name being "Life Support."

QUESTIONER:

Yes, we'll put an editorial comment after this reading. We'll give them an address where they can locate this stuff.

COSMIC AWARENESS:

This Awareness indicates it is a difference between a price of approximately \$100.00 for the usual or traditional DHEA or around \$30.00 dollars for the source made from Mexican yam.

Ed's Note: There was no address given for the "Life Support" brand, but Vikki found an Internet source for ENDOGEN called LIFE PLUS, a company founded in 1936. Their information states ENDOGEN is not available in stores, is all natural, has no preservatives or artificial colorings. According to Dr. Julian Whitaker, MD, "DHEA is the closest we've ever come to the fountain of youth." The price for a one month supply of ENDOGEN (90 tablets) is \$27 and can be on your doorstep in less than 4 days from the time of your toll free ordering. For more information or to order, call: 1-800-572-8446 and mention Lady K's pin number which is 321-972 as the company pays a small percentage on initial referrals to those who refer this product to them. (Lady K is the official CAC Tarot reader and can use any extra income at this time.)

THE KARMA INVOLVED IN ABORTION

(The Incoming Entity Also has Certain Responsibilities)

QUESTION:

A question from Tom E., in West Unity, Ohio. I'll read his letter. "Was it Constantine, or Augustine who put the nix on reincarnation? His metaphysical; reasons were based on his poor opinion of human nature, that we would live a wild and irresponsible life if we felt there would be "another chance" with many future lives, and thus weaken the political power or appeal of church authority: "One life, one death, one birth."

COSMIC AWARENESS:

This Awareness indicates it was Justantine, the Emperor Justantine.

QUESTION CONTINUES:

Thank you. His letter goes on.; "Now comes Brian L. Weiss M.D, a traditional psychiatrist, Yale Medical School and Chairman of Psychiatry at Mount Sinai Medical Center, Miami. Dr. Weiss re-discovered the past-life phenomena in one of his patients, opening the karmic door, and even finding "the space between lives" which has resulted in *Many Lives, Many Masters* by Simon & Schuster, --a remarkable book springing from orthodoxy, as it were.

"In my own life a question has been generated regarding participation in an abortion. Will the aborted soul be a part of my present or karmic future? Can I attempt amends through prayer, and how else? Can I make karmic restitution, perhaps only in part, through what exercise, of my now-life and free will? After I hear from you, perhaps I will also ask the same question of Dr. Weiss."

COSMIC AWARENESS:

This Awareness indicates it appears that some entities can avoid excessive karma from the act of abortion, particularly if the entity who was aborted had not been invited to the womb, who was instead intruding with full knowledge that he or she was unwanted. This Awareness indicates in other words, the unborn can also have some responsibility for his or her own actions, and

if the entity is aware of being unwanted, but does not care whether the host mother wants to be impregnated or not, and is willing to violate the mother by coming into the womb in a violation of the mother's desires, then the entity is in part responsible for being in an unwanted situation, and therefore sharing in the karma of the abortion that may follow.

This Awareness indicates that for the most part, this is rare, but it appears that in your case, this was a situation that occurred, and therefore, the karma is much less great than would ordinarily occur.

FOLLOW-UP QUESTION:

So making amends in a case like this can be accomplished through prayer and perhaps mentally contacting the aborted entity?

COSMIC AWARENESS:

This is in the affirmative; in this particular instance especially.

WHAT ARE THOSE SPHERES EMBEDDED IN ROCK 2 BILLION YEARS AGO?

QUESTION:

A question from JD in New York. She writes: "Strange metallic spheroids have been extracted from deep rock in the Wonderstone silver mine near Ohosdal in the Western Transvaal, South Africa, for the past three decades. They are somewhat flattened spheres, one inch to four inches in diameter, steely blue, with reddish reflection, with tiny flecks of white fibers embedded in the metal, which is a nickel/steel alloy not occurring naturally, nor meteoric.

"They contain a strange spongy material which disintegrates into dust on contact with air. The rock encasing them has been dated to at least 2.8 to three billion years ago. Specimens have been observed to slowly rotate on their own axes. What is the origin of these, and what are they, and how did they end up embedded in pyrophyllite rock?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be from some extraterrestrial source, as something that has fallen upon earth at that time. It was absorbed and held. This Awareness indicates that of course, the origin came from a source totally unknown at this time, therefore, a name would of be of no purpose or significance, because no record of such a name would exist elsewhere.

This Awareness indicates the main significance of such information is that it suggests intelligent life that lived many billion years ago, out there somewhere in the universe.

QUESTIONER:

That's a long time ago.

COSMIC AWARENESS:

This is in the affirmative.

QUESTIONER:

There's some people who claim the earth wasn't even around that many billion years ago. That can't be true can it?

COSMIC AWARENESS:

This Awareness suggests the time again be s.ated.

QUESTIONER:

2.8 to 3 billion years ago.

COSMIC AWARENESS:

This Awareness indicates that the majority of scientists perceive the earth as having been around for more

than 3 billion years. Some estimate 8, but the majority estimate three or four billion years. Of course, at that time, it was more of a molten type surface rather than a hard dry surface.

The Ica, Peru Warehouse with Ancient Carvings of Present Medical Practices

(More on the Atlans and Titans)

QUESTION:

Another question from JD. "A Dr. Cabrera has a warehouse in Ica, Peru, containing some twenty thousand stone boulders, tablets and baseball-sized rocks engraved with pictures of extremely sophisticated surgical skills and medical practices, such as step by step heart-transplant procedures. Most of the stone is gray andesite, which is extremely difficult to carve. What is the origin of these stones, and please give information about the culture which produced them."

COSMIC AWARENESS:

This Awareness indicates that these appear to come from underground caverns which were once the home of entities historically referred to as Titans. This Awareness indicates the entity Richard Shaver mentions these Titans, and it appears that these and other ancient civilizations were relatively high in technology, having the ability to sail from this planet to others, having high ability in terms of medical skills, in terms of arts and language, and they also had certain technology associated with levitation of stones and the capacity for creating laser-like weapons and tools.

FOLLOW-UP QUESTION:

Where do these entities come from?

COSMIC AWARENESS:

This Awareness indicates they were native to the earth. They also had contact with other planetary civilizations. At that time there was life on Maldek and they had trade-routes to and from Maldek. They also were involved with Lemurians on earth and had agreements and relationship with the Lemurians for their commercial joint ventures in various extraterrestrial endeavors.

It appears that these entities were able to fly to certain planets in the Orion constellation, particularly that which is known as Clarion and Betelgeuse. There is also seen contacts with Sirius and some Pleiadian contacts and also Vega. There appear to be others that were much more rare and more distant. Zeta Reticuli was an area which they had little contact with, likewise with the Draco constellation. The Draconians were not a friendly culture, and they tended to avoid those entities.

This Awareness indicates there were Atlans; these were giants living in Atlantis at the time, and the Titans and Atlans being those giants whose descendants were later known as the Nephilim, as mentioned in the Book of Genesis.

FOLLOW-UP QUESTION:

I believe Awareness once mentioned that these Atlan entities are still alive and still inhabit caverns and things in the earth. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that these are very few in number and are generally not active on the surface of the earth and the ones that remain are much smaller than they were at the time of their greater civilization; this being from approximately 75,000 BC, to 20,000 BC. This Awareness indicates this being pre-deluge era, before the Great Flood.

THE STRANGE ARCHAEOLOGICAL SITE AT ACAMBARO, MEXICO

(More on the Dinoids)

QUESTION:

We received some information on the Internet that might correlate here to this information given. It says "In 1944, an accidental discovery of an even more controversial nature was made by Waldemar Julsrud at Acambaro, Mexico. Acambaro is in the state of Guanajuato, 175 miles Northwest of Mexico City. The strange archaeological site there yielded over 33,500 objects of ceramic; stone, including jade; and knives of obsidian (sharper than steel and still used today in heart surgery).

Julsrud, a prominent local German merchant, also found statues ranging from less than an inch to 6 feet in length, depicting great reptiles, some of them in active association with humans, generally eating them, but in some bizarre statuettes, an erotic association was indicated. To observers, many of these creatures resembled dinosaurs.

Julsrud crammed this collection into 12 rooms of his expanded house. Their startling representation of Negroes, Orientals and bearded Caucasians were included as were motifs of Egyptians, Sumerian, and other ancient non-hemispheric civilizations, as well as portrayals of Bigfoot and aquatic monster-like creatures, weird human/animal mixtures, and a host of other inexplicable creations. Teeth from an extinct Ice Age horse, a skeleton of a mammoth, and a number of human skulls were found at the same site as the ceramic artifacts.

Radio Carbon-dating in the laboratories of the University of Pennsylvania and additional tests using the thermo-luminescence method of dating pottery were performed to determine the age of the objects. Results indicated the objects were made about 6,500 years ago, around 4,500 BC." Could Awareness comment?

COSMIC AWARENESS:

This Awareness indicates that this appears to have been a kind of museum-like place controlled by the Dinoids. This Awareness has mentioned the Dinoids previously. They were an evolution of beings that came from the dinosaur era, but which were developing along the line of humanoids, based on dinosaur DNA. This Awareness indicates that the Dinoids are different from Reptoids; the Reptoids coming from Draco, the Dinoids from what appears to be an area close to the star Altair, where the Interpreter and energizer originated.

This Awareness indicates that these Dinoids visited earth along with some of the Reptoids, and there was a strong curiosity about the different types of beings and a project wherein various beings were assembled in what might be presently called a kind of museum of humanoid types. Some of course were not humanoid at all. Some were animal in their appearance.

History May be Made this fall

CLOSING MESSAGE:

This Awareness indicates there are significant events coming up during the last part of August and during the month of September. Many changes are likely in terms of national and perhaps even global concerns. This Awareness suggests that you watch the news, watch the events that are occurring, for there is likely to be history made during this time, and that history is that which will affect your future lives to some degree; favorably in some ways, and perhaps not so favorably in others.

Current Events Update

OPENING MESSAGE: (8/1/96)

The Labor Day March on Washington, D.C.

This Awareness indicates that it has some information that it wishes briefly to relay. This Awareness indicates the Citizens Against Legal Loophole, the CALL organization which is planning the march on Washington DC to restore the Constitution on Labor Day, is at this time still planning to continue. This Awareness indicates there has been some concern from many entities as to whether this was still on because nothing had been heard from the organization. The organization recently put out a mailing that stated it was still, on, and asked entities to let others know that the march was still scheduled.

This Awareness wishes to comment to entities that if they are planning to participate in this gathering in Washington DC on Labor Day that they keep their eyes and ears open and be flexible. In other words, play it by ear. This Awareness indicates that it is potentially historical on the one hand in that it could be a turning point in history. On the other hand it could also be dangerous if there is an attempt to disrupt or put a stop to the march, although this does seem highly unlikely. This Awareness indicates that if there were to be an attempt to stop the march it appears it would occur beforehand to the leaders of the march rather than when large crowds have gathered.

The Hildebrand Case and the Sale of the Federal Reserve

This Awareness indicates there have also been inquiries regarding the Hildebrand case. This Awareness indicates that this is still alive. It appears to be in a kind of calm or limbo, but it is not dead. This Awareness indicates this has to do with the lawsuit against the Federal Reserve Bank. This Awareness indicates that the indications are that the Federal Reserve Bank was sold to the Treasury Department in or around November of 1993. This Awareness indicates that this was the manner by which the case settled with the sale of the Federal Reserve Bank to the Treasury Department and can be understood as a reason why the Federal Reserve Bank continues to exist and function as though nothing has happened.

The Common Law Court Found the Freemen Innocent

This Awareness indicates that there are, of course, many powerful people seeking to *pretend* that nothing *did* happen, and in their pretense, hoping somehow to ignore the court settlement and the events that transpired. It is much likened unto that which occurred to the Freemen. This Awareness indicates that the Freemen case was also decided in a Common Law court, wherein the Freemen were acquitted; however, the martial law court which has ruled this country since Lincoln declared martial law during the Civil War, has more or less ignored the common law ruling.

This Awareness indicates that the Federal judge presiding over the case allowed the Common Law court to proceed and allowed the proceedings to follow the course of common law; however, the court recorder and prosecutors and others in the martial law courts, the admiralty courts, have issued statements that this did not occur; that the judge did not turn the court over to common law jurors and are ignoring the ruling of the Common Law court as much as is possible so that they can continue with their own trial in the martial law courts or admiralty court.

The Admiralty Court Exists Because the U.S. is Under Martial Law

This Awareness wishes briefly to remind entities that the admiralty court is the court in which the gold braid

goes around the American flag which indicates the court is under martial law, or under admiralty law, from the martial law status of the country. The country has been under martial law since Abraham Lincoln's executive order putting it under martial law, and in order to continue staying under martial law, the country has to have some kind of war every two years. Thus, the war on drugs, war on poverty, et cetera, and the admiralty laws are used in the courts in such a way that they are not necessarily tied to the Constitution, although the Constitution is said to be the law of the land.

The admiralty law, like any military law, has its own set of rules. This Awareness indicates it is also likened unto a corporation, which has its rules or laws, and when the laws of a corporation affect an entity in a way that is contrary to his or her Constitutional laws, then the entity can sue the corporation and rely on the Constitution, but this is often ignored by the corporations and most entities do not have the funds necessary to follow through to sue a corporation in order to have the Constitutional rights adjudicated.

The Federal Government in D.C. a Corporation From England

This Awareness indicates that likewise, the corporation that is the Federal government in Washington DC, which was incorporated in the last century in London, England, which the Freemen have pointed out has its rules; these are the Federal statutes and so forth; and these too are designed for certain purposes but are required to follow the Constitution; however they do not always follow the Constitution, and if entities feel their Constitutional Rights have been violated by a Federal statute, they have the option of suing the Federal government and the statute for a constitutional ruling in the Supreme Court.

This Awareness indicates however, the ability to follow a case through the Supreme Court to test a Federal statute is not always easy, nor is it inexpensive. It is very costly, and very difficult and may take years. This Awareness indicates that for these reasons, the Federal statutes are extremely difficult for entities to overturn, and by carrying on the martial law in this country and using the Federal statutes as law, the Constitution becomes less and less effective, because it becomes more and more expensive to use, and therefore, gradually, over periods of time, more and more statutes and more and more corporate rules had their effect over the masses to the point where entities begin to feel that they do not have any rights, and whereby even judges in courts of law dismiss and refuse to allow constitutional points of laws to occur in their courts.

The Judicial System is Really to Protect the D.C. Corporation

Why should they allow constitutional points of law in their courts when they are actually military courts? This Awareness indicates that most entities think the judicial system is there to protect the rights of entities according to the Constitution, the law of the land, the Bill of Rights and so forth, but they are *really* there to keep order in society and to protect those who have the power and the money and to assure that no one disturbs the infrastructure of the corporation being promoted from London or the state rules and those that are promoted by the courts as military organizations.

This Awareness indicates the Freemen sought to change this, to make the people aware of what had happened in this country, how things have been turned around and what the laws of the corporations are in terms of their true relationship with the common law and the law of the Constitution, but those involved with the statutes and the military law are entrenched in recent

tradition to such a degree that they totally ignore the law of the land, and the Constitution, and go by their own statutes and the military law.

This Awareness indicates thus, the Freemen are being said to have been acquitted through some communications, but the prosecutors and some of the others in the admiralty courts say they will still be tried, and the probability is that they will continue to ignore their case as it has been laid out, and have their own trial and in all likelihood convict the entities, but there has been some awareness that has come from the action of the Freemen, in that many entities have been given the hint, and many others have been given opportunities to educate those who are not fully aware of the role of the Federal Reserve Bank in its past as creating money in the same way the Freemen created money, which they are being charged with as a crime, so that if entities have any real understanding of law, they will see that if the Freemen are guilty, then also guilty is the Federal Reserve Bank, for it has done the same thing that the Freemen have done.

The Press Works for those Who Promote the New World Order

This Awareness indicates the press of course works for the people who bring you the New World order, who bring you the means by which this country will eventually be enslaved, and the press is *not* going to promote clear and honest reporting on these kinds of issues. *The Spotlight* covers things much better than other magazines or press outlets. *Media Bypass* is another.

There are things from the Internet, that give some clear reporting, and this Awareness indicates there is another outlet, but the name does not show, which gives good information for the most part. This Awareness indicates that in general, however, except for these underground or more obscure sources of information, most people will only receive what the world planners want them to know, and therefore, they are not likely to get the full story.

The State of Texas Recently Became a Sovereign Republic

This Awareness indicates for example, the state of Texas recently became a sovereign Republic, but there has been no press release across the nation of this event. The entity George Bush Jr., as governor of Texas, was informed that he must vacate his office and has done so. The Texas Republic now operates not as a state, but as a sovereign Republic. This Awareness indicates that you have not seen this in your newspapers, for the press is not working to give you the full truth on things. They are there to help promote the agenda of the New World Order. This Awareness indicates that this kind of information is not something that the New World Order wants others to know, and they will make their effort to get the Texas Republic back on track.

Also, you have not been told by your news outlets that over a dozen states have declared themselves sovereign. If 38 states declare themselves sovereign, then the Federal government will no longer have any jurisdiction or controls over the United States, for though they are states united, they are each sovereign. This Awareness indicates that you will not read this in your papers or in your news magazines or other outlets of information other than those underground types of publications.

Controlled Media Will not Tell the People About the March on Washington on Labor Day

This Awareness indicates the march on Washington scheduled for Labor Day could become an action of extreme historical significance, but keep in mind that there are powerful forces that will do whatever is possible to keep this from happening. This Awareness

indicates the press is not relating the information about this, and though these entities have called for people to put notices in newspapers, very little has been done in this regard.

Dennis Lee's Free Energy Program now Going National

This Awareness indicates the other area of interest to entities would be that of the free energy program which this Awareness has previously discussed, as promoted by the Better World Technology group represented by Dennis Lee. This Awareness indicates that these entities went to Washington DC on the 5th of March to present to Congress and to government officials and to the energy utility officials, to the government agencies such as the Pentagon and the CIA and FBI and other groups, their proposal to help solve the global environmental problems by the use of the technology that had been developed in which there is no pollution whatsoever, no exhaust from the automobile engines, and whereby the engines would run at hardly any cost whatsoever, using refrigerants that are enclosed in the motors, which do not leak or spill or cause exhaust when the motor is run.

This Awareness indicates likewise, the generators using such refrigerants to create electricity, by using the heat of the air outside to make the refrigerants boil and project the movements necessary for the creation of electricity. The entities gave their demonstration and gave the government and utilities officials a certain amount of time to consider joining with them to use this technology. In exchange they would allow the officials to use the technology, and allow those shareholders of utilities to switch to shares in this company, which would then become owned by the utilities companies, so that it would not have an adverse effect on the economies, which are based largely on fuel and electricity and power.

This Awareness indicates, however, the government or the agencies and the officials did not respond in the time allotted and therefore, the Better World Technology Group is going out for complete expression to build these technologies and make them available to the public. This Awareness indicates the schedule for these entities to promote their work has been set and they will be traveling from city to city. This Awareness indicates that these entities are expecting to begin promoting the energies and technologies for marketing to the masses on this tour.

This Awareness indicates that in all probability there will be harassment by the powers that hold control over present utilities and gas companies and fuel companies, but these entities have something that may overcome and help their cause. They have the public already half aware of their activities, a great number of people following their activities, so that if they are, for some reason, or in some way harmed in their efforts to bring this technology, everyone who has previously been aware of these entities' work will know what is behind the sabotage and the disruption of their programs.

This Awareness indicates these are things to be aware of, to watch. It is not urgent that entities jump into the middle of anything blindly. It is suggested that entities be aware, be cautious, but follow their own good sense in examining and helping in these programs as is appropriate. Keep in mind that these are areas that many entities with considerable amount of power will be hostile to, even though they are also extremely beneficial for humanity, if they can be properly promoted.

Election this Year Still is Uncertain

This Awareness indicates one other area of comment before questions begin; this having to do with what this

Awareness previously has mentioned was the likelihood of neither Clinton nor Dole becoming president in the Fall of this year. This Awareness indicates that has been stated, although it still appears to be accurate, Clinton's position has improved somewhat. This Awareness indicates however, there is still much time in which things can change to disturb that position.

This Awareness indicates there are many forces of the New World Order agenda who want to promote Clinton's continuance in office. Dole on the other hand has not been as favorably accepted by the New World Order agenda people, partly because so many Republicans have an agenda that does not fit into that of the promoters of the New World Order.

This Awareness indicates there is still time for many things to occur. The so-called 5th Column or Avenging Angel who has been working to disturb or disrupt the powerful people who have done so much corruption to politics is still at his job, and more entities are likely to resign or quit or move into a recessive mode, taking a back seat, staying out of the limelight, hoping things do not cause them to become targeted by this entity.

Hildebrand Still Maintains the Claims will be Paid

This Awareness indicates that Scott Hildebrand is still in jail, but is still very much optimistic that things are going well, and the entity still sees the Federal Reserve action as having been effective and that entities still have a good chance for a positive outcome in the efforts to receive their claims against the Federal Reserve Bank.

Party Head Orders Clinton to Resign

QUESTION:

In regard to Clinton, over the Internet there was an interview with Conspiracy Nation with Sherman Skolnick, and the interviewer says: "You've heard that Bill Clinton had a meeting recently." And Skolnick says "Within the last couple of days (This came out August, 4th) there was a meeting arranged by Robert Strauss, an elder statesman of the Democratic party, together with other leading Democrats. They told Clinton that they had been informed by Kenneth Starr, the independent counsel, that Hillary, most likely, if not for certain, would be indicted between the Democratic convention at the end of August and the November presidential election.

"Strauss told Clinton, (this is according to Strauss's friends) that the Democrats do not want an "October surprise" that could bring down the Democratic party with Clinton. They want him to resign two days before the Democratic convention. They intend to put up two people that they feel would be more suitable to the convention and the voters: John D. Rockefeller IV, and possibly Al Gore, depending how the public perceives whether Gore is so close to Clinton or not. If not Gore, then a running mate on the ticket would be John Kerry.

"The October surprise situation is, if an indictment comes against Hillary after September, assuming that Clinton becomes a nominee at the convention, it becomes an unprecedented situation. What will happen to Democrats running for Congress, or for the Senate?" And so the interviewer asks: "So we can look for the press to be stepping up attacks on Clinton these next few weeks?" And Skolnick says "Probably so. However, there are legal problems. Strauss's friends are not convinced that Clinton exactly made a candid statement that he "is" going to do as he's been ordered to do, that is, resign.

"They can embarrass him of course, by not making him the nomination at the convention. The other problem is legal. "Were" he to resign and he becomes a

private citizen, then if Hillary does get indicted, as Kenneth Starr has told Strauss, then Clinton himself can be named as co-defendant with his wife. He only has immunity from prosecution under the U.S. Constitution as long as he remains in office. You can only remove a U.S. President by way of impeachment. That's all you can do to him. You cannot prosecute him. At least that's the interpretation of that provision in the Constitution."

And the interview goes on, but can Awareness comment on that scenario?

COSMIC AWARENESS:

This Awareness indicates that this appears to be a very significant situation that very well could be the reason that this entity will not be available for voting in November. This Awareness indicates that it appears the entity will also have further trouble with regard to the sex harassment case that has already plagued him, but which has been put on hold because of his being president. This Awareness indicates that this will also come out if the entity resigns, and it could serve as such a distasteful event that many of the Democrats will vote Republican, or it could bring about a closer race between the new Democrat candidate or nominee and the Republican nominee.

Ross Perot's Party May be a Powerful Influence this Fall

This Awareness indicates that *It* still see that the entity Dole is not likely to be the Republican candidate at that time. This Awareness indicates that it is not fully clear that the candidate that will be in the election will actually be a Republican. This Awareness indicates it is seen that the Ross Perot party may be a powerful influence on this election in helping to turn the tide against Dole.

WHAT IS COSMIC AWARENESS

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Interpreter for this reading is Paul Shockley

Bob Dole a 33rd Degree Mason

(Masons the Driving Force Behind the New World Order)

QUESTION:

We received a posting from over the Internet that said that Bob Dole was on the cover of *New Age* magazine in July, 1987. Even back then, Dole was a 33rd degree Mason. The caption under the cover picture clearly says so. The inside story was entitled "The Most Wonderful Work." And the poster adds: "The most wonderful work of course was selling out his country to the British Empire, which has always controlled Masonry."

COSMIC AWARENESS:

This Awareness indicates the Masonry activities are the more powerful aspect of the driving force behind the New World Order, however, the Masons are controlled by those international bankers who are the more powerful controlling forces directing the bringing about of the New World Order. It is well understood by most Christian organizations and thus, right-wing organizations, that Masonry is indeed part of that effort to create a New World order, and that Masonry has down through the ages played an important part.

The entity Pike as being a key player in attempting to set up the works and organizations in the United States and also in other countries to bring about the One World Government, which is another term for what has recently been called the New World order. This Awareness indicates that these entities are likely to change the name from New World Order to something totally different.

The New World Order name has not been accepted well by the masses, and it is more likely that it will occur under some other name, or no name at all, just organizations getting established, being formed, until something happens and entities realize there is a complete control system set up world-wide that directs everything.

New World Order Promoting John Lennon's Song *Imagine*

This Awareness indicates the John Lennon song 'Imagine' as that which has served the New World Order to help bring about the concepts which it promotes and is likely to be heard more and more as an advertising or promotional song to get the young to accept the idea of no boundaries between nations, and no religion, et cetera. The efforts of these people to use John Lennon for this purpose as that which is seen as a way of luring the young people, and even the people of John Lennon's generation into thinking this is something that has finally come about and can be only for the good of mankind.

This Awareness indicates they do not inform entities that the purpose of 'no boundaries, no religion, and One World Government' is to enslave the 95% of the masses, for 5% of the rulers of the world, and that slavery is not really much to prefer over war that has happened in free countries during the past century.

This Awareness indicates that if you do not settle for the New World Order, then the alternative would be continued war, but the wars themselves have been financed and controlled by these same 5% of the people who have ruled in the past, and the 5% will now be rulers in the future and the 95% will be totally disarmed and without any power such as the vote, or any chance of throwing off the yokes of poverty.

This Awareness indicates the trick has always been, if you want to change people to get them to take certain bait, then you create fear over here, create a problem to make them run from it, so that they will go to that which

is the trap you have set for them. Thus you herd them into the pen or trap, and they think they have escaped something terrible.

Republican of Texas to Investigate CFR and Trilateral Commission

QUESTION:

In regard to Texas, Wayne H., a member who lives in Texas, writes: "I have some interesting news to pass onto you. I'm sure that you've heard the reports on the news about the Republican in-fighting at the Texas Republican Convention concerning the abortion issue, but what did you not hear? Some of the issues that were made part of the Texas Republican Convention platform were very interesting. I will start with the shocker, to me anyway.

"First, calls for an investigation "to determine whether the Council on Foreign Relations and Trilateral Commission are promoting the establishment of a One World Government." Two) Urges that the United States withdraw its membership in the United Nations." And he writes "There are a few other surprises and he'll send a copy of the article." Does Awareness see that as being significant?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates you have the largest state in the union absolving its allegiance to the corporation known as the Federal Government and presenting its investigations and work of discovering and seeking to disclose the work of the international conspiracy in its Council On Foreign Relations and Trilateral Commission, and by getting in to these investigations, they can make this information available throughout the state of Texas, and possibly throughout the United States also.

It is a very significant action. Entities may even consider moving to the state of Texas, just to be free from some of the encroachments of the internationalists on the rest of the states. More likely however, there will be a new movement among other states to become closely aligned with Texas and its philosophical activities and procedures. Those states that have already declared sovereignty are most likely to begin working with Texas in this action.

Attempt by Hunt Brothers to Corner Silver Market

This Awareness indicates of course, you will also recognize that Texas, in the early 80's, attempted to corner the silver market, and that was an effort by Texas to express its sovereignty at the time. By cornering the silver market, it attempted to create an economic sovereignty, and as a result of that effort by the Hunt brothers, the banking system called in all kinds of loans and financing from the oil companies so that Texas suddenly became economically depressed, and that economic depression spread far and wide throughout the state, and entities were leaving the state, and areas were becoming poverty stricken.

This Awareness indicates that it is likely that something of a similar nature could occur again because of this action; that the economic weapon could be used against Texas for becoming a sovereign Republic. This Awareness indicates Texas is somewhat unique among states because it never declared itself a state on a permanent basis. It always had to renew its statehood on a yearly basis. This time it did not renew its statehood, but declared itself a sovereign independent Republic.

It still abides by the Constitution, and recognizes the Constitution as the Law of the land along with those state laws that are compatible with the Constitution.
