## ***How the New World Order is Taking Control Right Under your Nose***

What the world planners really have in store for humanity

## THE TRIAL OF THE FREEMEN

OPENING MESSAGE: (8-7-96)

This Awareness wishes to speak briefly in regard to the situation with the Montana Freemen, who recently, this approximately July 17th, had a common law court hearing wherein they were acquitted from any of the crimes they were accused of and perceived that they would be released within a matter of days, arguing that the only legal way they would remain in jail would be for the courts to find some flaw in the procedures of their trial and that there were no flaws, therefore they would have to acknowledge the right judgment of the Grand Jury to release them.

### Common Law Courts are Worthless in a Sense

This Awareness indicates that there is one flaw which they have not understood or did not fully understand in the argument. While the legalities may have been absolutely correct, they have no way of enforcing their ruling. This Awareness indicates that this makes the common law courts almost worthless in a sense, unless they can find some kind of law enforcement to make those rulings stand.

This Awareness indicates in other words it comes down to "Might Makes Right," even in today's world. This Awareness indicates the Patriot Movement has set up common law courts across this nation, and these courts are based on common law courts that existed prior to Lincoln declaring martial law during the Civil War. This Awareness indicates that martial law, as defined at the time, is essentially the same as Admiralty Law, or the law of the sea. It is military law, and it has existed in this country and has taken over the courts, and is symbolized by the gold braid around the American flag in the courts of this country.

This Awareness indicates that Admiralty Law is the same law that is known as British Admiralty Law which was at the base of the cause for the Revolutionary War. Admiralty Law was in the colonies at the time wherein the Revolutionary War began and the people did not like the Admiralty Law being used on them, and it was in this sense that the taxation and other oppressions were being placed on the colonies, and the colonies, in rebellion, began to throw off the yoke of the British.

This Awareness indicates that again entities are under the Admiralty Law, and it reflects the same law of the origin of this country. This Awareness indicates that the common law courts are arguments in terms of law: law of the Constitution, law of the land; which would commonly be legal and enforceable, except for the fact that this country is still under Admiralty Law and for the fact that the common law courts do not have available to them the means by which to enforce their rulings.

This Awareness indicates that *It* doesn't mean these courts will ever have such enforcement; it is very possible that these courts are simply being put in place for some future use. It is possible that there will be some military forces that can bring about an enforcement of the common law rulings or decisions.

### The Hildebrand Case & Selling the Federal Reserve

This Awareness wishes also to reflect back to other court decisions; the Hildebrand case, for example, in Fort Collins, Colorado, resulted in a settlement in which the entity Scott Hildebrand and others were made receivers of the various banks which had been sued, including the Federal Reserve Bank, and as receivers, had legal control of these banks, and Hildebrand called for the National Guard to protect the assets while they were to be distributed to the Treasury Department, and it was in November of 1993 that the Federal Reserve

Bank was turned over to the Treasury Department, essentially sold to the Treasury Department.

This Awareness indicates that technically, legally, this took the Federal Reserve Bank out of the hands of the 13 families, the international banking families that had previously owned it, who were taking the moneys from tax-payers and sending money through the Federal Reserve Bank to other Federal Reserve Bank branches in other countries, and for which the national debt was paying great amounts of money because of the loans these entities were making to the Treasury Department.

### Controlled Press Prevented Public From Knowing Truth

Essentially, the entity did all the legal steps, everything correct in diminishing the national debt and buying back the Treasury of the United States so that it could have its own money system again. The only thing is that the press did not give information on this, and the masses did not support it, because they did not know what was happening, and the National Guard and the military was not called in to enforce the ruling, and while the Treasury Department cooperated fully with Scott Hildebrand, and much was done behind the scenes, not enough was done in public to make the thing really worthwhile.

### NWO Agenda and 13 Families: Still Business as Usual

The public still does not know what took place, and unless it can be broadcast far enough and wide enough, the intent of those 13 families is to keep a lid on the action and continue as though nothing has happened and ignore the case entirely. Total ignoring of anything that does not fit into their agenda, and keeping any press from releasing information on this will more or less allow them to continue their effort toward taking over this country and getting rid of those things that they do not want in their New World Order.

This Awareness indicates this does not necessarily mean that it was futile. It may be in limbo for a time. It may be that a time is coming in which this, along with the judicial system, and other things that have been prepared, will have their moment. This Awareness indicates *It* cannot say much in this regard at this time, because it is still very much uncertain, but it is *not* a dead issue, even as the common law courts are not totally worthless. They are simply ineffective at present.

## How The New World Order is Taking Control Right Under Our Noses

This Awareness wishes now to discuss the means by which the New World Order is taking its control right under your noses. It has much to do with educating the masses and this Awareness will discuss some of these techniques at present so that you can become more watchful as these efforts are conducted.

### No. 1: First Get Rid of Individuality

This Awareness indicates the intent of preparing the mind of the masses to accept the New World Order in its new paradigm or pattern, is to first get rid of individuality. If entities have opinions, they cannot be easily manipulated, and therefore, the first thing is to make it difficult for entities to have strong opinions on anything, and to do this, they break down the certainties that entities have long held.

Various things such as religion, things such as history, for example, are being changed, altered, rewritten to make people more tolerant of opposing views. This Awareness indicates history has been rewritten, leaving out the great men of old. The heroes of your country are no longer part of the new history. Instead, the history books will speak of 'movements,' social movements.

Society, socialism, social changes and psychology are the main focuses of altering consciousness as used by the purporters of this New World Order, just as these were used in promoting Communism. Psychology used to label entities who had strong opinions, or who could not be easily controlled, allowed the society to work with or handle those entities that had opinions, by giving them some kind of anti-social label, a label of being out of synch or not in step with society or proper behavior.

#### "Political Correctness" the Major Tool of the New World Order

Thus, psychology being used to indicate there is something wrong with an entity; likewise, sociology was used to influence the masses into what is now called 'political correctness.' 'Politically correct' is a term that means 'popular,' the popular *accepted* behavior. Politics has to do with many people or many things and it has to do with the masses or dealing with the masses. 'Poli' means 'many,' and it is through politics that an entity is elected to an office and the entity has to satisfy the many.

Thus, 'political correctness' means satisfying the masses, and entities who do not satisfy the masses are politically incorrect, and this political incorrectness is an indication of individuality, which is the great sin of this time. Individuality is not allowed in the New World Order, because individuals cannot be easily manipulated, cannot be easily herded along with the crowd.

This Awareness indicates that one person has said if entities are not taught right and wrong, and are simply herded by the leaders or elite into a certain type of behavior with the crowd, then those entities do not develop the ability to make choices. If they cannot choose, they are no longer responsible for any kind of character building.

They cannot develop a character or any kind of personal integrity. They are simply obedient or not obedient. They are simply following directions, or not following directions. If you think of this in its real meaning, they are simply robots, or they are not robots. If they are not robots, then they are making decisions, they are able to choose. This Awareness indicates that this is a very crucial stage in human history.

#### Our Reptoid Creators First Tried to Make Us Slaves

You will recall that in the Sitchin books the entity spoke of the first creator of the Cro Magnon type who made the human Cro Magnon model for the purpose of slavery, for the purpose of becoming a worker in mines, a worker in gathering ore from the ground for their plans. This entity sought to create from the Neanderthal types the perfect Cro Magnon slave, but along comes the new space god from Sirius who interfered with this creation and gave him the ability to choose, to make choices.

This Awareness indicates this story is represented in the Biblical story of the Garden of Eden, wherein the first god created Adam, and the second god, the serpent, interfered and tempted him to eat of the fruit of knowledge, knowledge being the ability to make choices, and this was to allow mankind to be equal to the gods; in other words, equal in the ability to choose.

#### Garden of Eden Story Got Turned About After Eons of Time

This Awareness indicates that this was seen as an 'evil' event for mankind, while in fact, it was a perversion of the reality of the story, and by the time the story had come down through ten thousand years or so to the Hebrews, it had been turned about so that the story implied that the serpent was the evil being and the original creator was the Divine Being.

This Awareness wishes to clarify this, in that the original creator was a geneticist from Draco, and was a Draconian, and this is why these Draconians, or what has been called the Reptoids, claim to have a hold on humanity and claim to have jurisdiction on this planet, and the second space god that interfered with the original creation was from Sirius, and this entity used the symbolism of the serpent as his identity.

#### The Sirian Geneticist Allowed Man to Think & Become Spiritual

The entity was not actually a serpent, but that was the symbolism of the Sirian at the time, and the entity took from the mammals, and genetically introduced a mammalian brain on top of the reptilian brain that the Reptoids or Draconians had first introduced into mankind, and the mammalian brain allowed for the growth of the cortex and the frontal lobes of what is now the human brain.

This allowed for mankind to have the ability to think and make decisions. This Awareness indicates that essentially, the Sirian geneticist or genetic engineers working on mankind created the potential for humans to become more spiritually developed, and indeed to become equal to those early space gods.

This is not talking about the ultimate Divine God of the universe, *It* is simply talking about those space gods or entities from space that genetically influenced the development of humans in the origin of the Homo Erectus and the Cro Magnon types.

#### The Ability to Think is Now Being Programmed Out of Humans

This Awareness indicates that what is happening today with this New World Order program is that the ability to make decisions or the ability to have an opinion **is being programmed out of humans** so that entities can fit in the New World Order. They are not to have individuality, or to have opinions about anything. They are simply to be similar to each other, accepting of all things, and obedient to those who are the elite.

This Awareness indicates it is moving through various groups wherein the focus is to take away leadership in a society. The focus is to work in groups that have not had strong leadership or representation. By getting away from the representation of a group of people the entities do not have a great identity. They do not feel identified, and these entities, being brought together, can be moved easily into certain type of behavioral patterns.

#### New World Order Working Through Small Minority Groups

Thus, the small minority groups without much representation are the groups through which the New World Order begins its educational process. These are women's groups, minority groups, social and racial minority groups, and these are the entities that are being manipulated first to become forces or groups that influence the changes that are to be experienced for bringing about the New World Order.

This Awareness indicates that the plan is to basically ignore the more structured organizations and churches and religions that have strong structure or strong opinions or strong leaders. These educators also work on non-government groups, because the government already has its individuality and structure, and by working on the non-government groups, they do not have to deal with that structure.

There **will** come a time when those things that are structured will be seen as not essential and may be forced to change in order to fit in the society of the New World Order. This Awareness indicates that those persons or groups of types of people who are strong in a society are to be more or less non-essential and non-recognized.

By not recognizing them and letting the minority and the undefined people rise in greater number, working together for some social neighborhood or community action, the group or the society begins to grow up around the governing body and the governing body begins to diminish, begins to lose its place.

This Awareness indicates that it is very much likened unto the preparation and activities that were used both in Nazi Germany in the early days of Hitler, and also in the Communist era of Russia when it began to inflict Communism on the people.

This Awareness indicates that the action is to get the groups empowered, and individuals will lose *their* power as the groups are the enforcement of the change that takes place. This Awareness indicates it is likened unto starting little grass roots fires. If enough grass root fires are started, and these little groups grow bigger and bigger, then you have some powerful energies that can overwhelm the structure that may have existed in that environment.

#### The Focus of Schooling Children: To Have Non Opinions

This Awareness indicates that it is starting both in society and also in the classrooms for children. The children are being taught *not* to have strong opinions on things. They are being taught that its okay to be 'whatever;' there are no right or wrong answers. These arguments that there are no right or wrong answers allow the children to tolerate each others' mistakes or to tolerate anything including lack of social structure, lack of opinions, whatever. It is all simply socializing, and: "Are the children socializing well enough? Do they have good friends? Are they getting along well with each other?" This is the focus of schooling, more than the teaching of structure or even educational concerns.

#### Reading, Writing and Arithmetic Being Replaced with Socializing

The focus on reading is limited in comparison to what entities learned 30-40 years ago. Reading, writing and arithmetic have taken a back seat, and socializing is much in the front. This Awareness indicates that in other words, *they are teaching children to become politically correct* in behavioral patterns.

By not being individual, by not having opinions, an entity can politically satisfy everyone, and most politicians will try to say something that is not too extreme or not too opinionated so that no one gets offended, and this politicizing of children and individuals throughout the nation is part of the programming to make sure that humanity can be moved and herded into the directions of the New World Order.

#### On the Agenda of the New World Order: Depopulate the Earth

This Awareness indicates the other part of the programming which this Awareness wishes to discuss briefly, has to do with much of the general agenda: depopulating the earth. The New World Order seeks to make sure that everything is controlled, the population is controlled, travel is controlled, education is controlled, economy is controlled, consumption is controlled. In other words: Do not consume too much. Production is controlled: How much do you produce? Do you produce enough for those entities to have something to consume?

#### Reptoids Behind New World Order Would Again Make Us Slaves

This Awareness indicates that this kind of control of all of the aspects of humanity is intended to help make humanity ready for complete servitude to the Draconian masters **who are behind this New World Order**; that *these entities in time seek to have the slaves they once created genetically*, but which were tampered with by the Sirians.

This Awareness indicates it is because of this Sirian interference with the Draco creation that many entities still think the Sirians will rescue humanity, and because of this, regardless of the influence of the Pleiadians to discourage the Sirians from doing so, there is a good likelihood that Sirians may come to the rescue of humanity, if humanity cannot rescue itself.

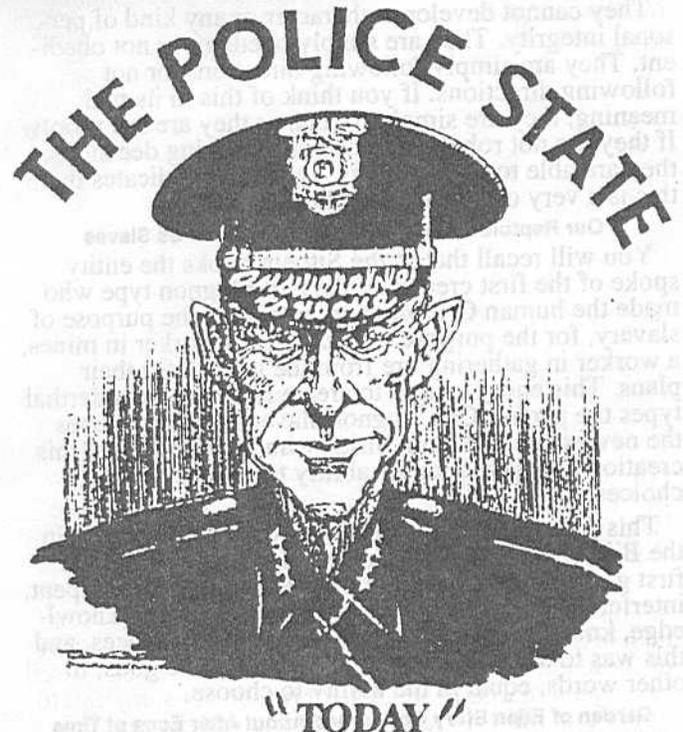

This Awareness indicates however, the geneticist from Sirius **did** give humanity the ability to make decisions, and over the countless years, humanity's spiritual qualities have enhanced and grown so that mankind may be able to discern and make proper decisions and may be able to overcome the programming that is now being put upon him.

By 'him' this Awareness means 'mankind,' (and is) not referring to male as compared to female. *It* is speaking of all humans; so that the humans may overcome the programming being placed upon them by these Draconian plans or deeds, who are bringing forth this New World Order, or trying to bring this about.

The likelihood from the view of this Awareness is that mankind has a very good chance of awakening enough because development of consciousness has indeed grown considerably and is in the process of further growth, so that mankind will not allow the Draconian programming to control mankind's existence.

#### Photon Energies May Serve as "The Rapture"

This Awareness indicates that the Photon energies are there also to help in this regard. This, in fact, may be in some ways thought of as the force that serves as the Rapture or uplifting of humanity at a time of crisis, in this Age of Tribulation. This Awareness indicates that this is a kind of thumb-nail sketch of the overview of what is occurring to humanity at this time.

#### Some Phony Patriots in Montana Freemen

( More on David Koresh and the Branch Davidians )

#### QUESTION:

In a recent *Cosmotone Newsletter*,\* channeled by James Jacomini, which Awareness has verified in the past as being valid information, he has some interesting aspects here on the Freemen. He writes: 'The Freemen

is not a real Patriot group. They are all people hired to play a part. The situation is completely phony, and was orchestrated as part of the campaign against real Militia and Patriot groups.

"This scam is the work of a Scandinavian-based European landowner's cartel. Janet Reno is an agent of this group. The FBI is heavily controlled by this cartel. The cartel runs covert operations in many parts of the world to protect the status quo, particularly with regard to their interests. The European landowner's cartel has its power base and military technology. They are the ones who have control over the anti-gravity technology, UFO, which was given to them by the Greys.

"Many countries and private individuals have purchased UFO-type ships from this cartel. They have been for sale since the mid-1960's. The potential sale of these ships is sometimes used for bargaining purposes. The anti-gravity vehicles made by the European landowners group do not have the ability to go into the astral plane, nor do they have the invisibility mode. These ships cannot go to other solar systems and are normally not used for space travel.

"The Greys did not give anyone these aspects of the technology. Nevertheless, these ships make excellent spy vehicles, and they are in high demand. Only two groups have spent the necessary time and money to equip the ships with the high-tech hardware needed to explore the solar system.

"There are many of these ships that are used for fun by wealthy insiders." And it goes on talking about David Koresh and so forth. Would Awareness comment on that aspect of the Freeman?

#### COSMIC AWARENESS:

This Awareness indicates that this is generally or partially correct. This is in reference to the Montana Freeman. This Awareness indicates there are many, many more Freeman around the country who are very sincere and very clear in their patriotism; that these entities in Montana appear to be in close connection with government activities, much in the way that David Koresh worked for the CIA and some of his associates at Waco were all CIA agents, and the purpose being to bring down the Davidian groups, because they were very much outspoken against the New World Order and they were being used, the agents were using the groups to help bring down Christianity in the press, in the eyes of the public, and especially overseas.

This Awareness indicates that the effect did work better for them overseas. The European view of the Davidians was such that they appeared to be absolute nuts and Christianity appeared to be quite weird in the United States as a result of the entire situation. It is only after certain publicities objecting to the actions of the government that some questions have arisen, even in Europe about what the U.S. government was doing in Waco.

#### Freemen Created Impression all Militia Groups Were Crazy

This Awareness indicates that the Freeman of Montana is much the same kind of situation, wherein some of these entities, not all of the entities, were being used to create a dramatic staging for public consumption to imply that militia groups are a bunch of crazies. This Awareness indicates that to a great extent, for the majority of people in the United States, the staging was very effective in its purpose and the other Freeman around the country have suffered a great loss of credibility because of this.

Yet, those Freeman around the country were not writing checks or doing anything illegal. They have simply studied these laws and understand those things

which some of the Freeman in Montana spoke of, such as the fact that the Federal Government is a corporation, incorporated in London, and that the Republic of the United States, for which the flag stands, is indeed that which granted the freedoms exemplified in the Constitution, but which has been eroded in more recent times when the corporation of the Federal Government has had its influence.

This Awareness indicates these Freeman also recognize that taking any part of that corporation's perks such as social security, or licenses for secular marriage, or anything of the nature of the corporation's perks or services, subjects one to being a citizen to that corporation, rather than of the Republic, and that in so doing, one loses their claim to citizenship in the Republic of the United States.

These Freeman have a clear understanding. They did not exhibit the extremes of those Montana Freeman. They did not write bank notes and take people's money, although they understand the principle behind what those Freeman were doing as being just a mirroring of the Federal Reserve Bank, but they have had some representational damage because of these entities, and this of course is what the government sought.

By 'government' this Awareness is referring not to the people of the United States, but to the particular shadow government that is running Washington DC and the Federal Government. This is what was sought by this staging in Montana. They have soiled the reputation of the true Freeman and of the Patriot groups to some extent.

## ENTIRE PATRIOT FAMILY MURDERED BY NEW WORLD ORDER ASSASSINS

(Patriot Leaders and Gun Promoters are Being Taken Out)

#### QUESTION:

We received a bulletin through the Internet from the SAFAN Internet Newsletter. It's Stop All Federal Abuses Now! Newsletter #39, dated July 5th, 1996. I'd like to read this to Awareness and ask *It* to comment: "New World Order Assassins Murder Entire Patriot Family: Friends suspect Federal agents had Motives to Attack Family.

"The bodies of Bill, Nancy and Sarah Mueller were found June 29th, 1996, in the Illinois Bayou River north of Russellville, Arkansas. They had been missing since January 10th, 1996, over 5 months. Bill, 55, was an ex-Special Forces veteran and sold guns for a living at gun shows. They were dedicated Christian patriots who believed in American values and liberty, and they openly displayed patriotic materials on their tables during the shows. They were well-liked in their community and deeply admired and respected by their friends. They had no known enemies.

"However, after the Oklahoma City bombing, ATF agents approached gun show promoters and told them to forbid the display or sale of any written materials, cassettes or videos that were not gun-related. The promoters resisted this at first, but the ATF threatened them with unknown tactics until the promoters were pressured to submit to ATF orders.

"This upset Mr. Mueller, because he believed it was his Constitutional right to display and offer patriotic and Christian materials. Among the articles banned were bumper-stickers, many books and the Patriot Report. A few weeks before their death, Bill had sent a written formal complaint to the head of the ATF concerning the illegal strong-arming of the gun-show organizers.

"Also, a few months before their disappearance, their home was broken into while the Muellers were at a gun show. Only gun-related items and a few coins were taken. The loss was estimated at \$40,000. There were no leads and no suspects.

"Then, two months before their deaths, Bill was approached by an ex-military man, who told him that Bill's name was on a secret "observation" list at the Pentagon. It was discovered that other names on the list had been killed and their guns stolen. This greatly concerned Mr. Mueller and he expressed his concerns for the safety of his family.

"January 10th, 1996, at 9:00 PM was the last time the Mueller family was seen alive. Several days later, their friends found their house door ajar, and their jeep Cherokee and their luggage trailer, which they kept loaded with all their gun show wares, gone. Nothing was stolen from the house, no overturned furniture or signs of a struggle.

"Three weeks later their vehicle and trailer were found several miles away, empty of the guns and their savings. Nancy's purse, containing her credit cards, was found in the vehicle.

Five months later, their bodies were discovered when a fisherman snagged one of them in 20 feet of water on the Illinois Bayou River. All three had plastic bags over their heads secured with duck tape. Bill and Nancy had handcuffs on their legs and wrists.

The bodies were discovered 27 miles from where the vehicles were found. The vehicle and trailer were found about 10 miles from the Mueller's home. Highway 27 that connects all three locations is extremely winding and takes at least an hour to drive.

"Friends of the Mueller's believe, without any doubt, that the family was murdered by professionals. They also believe that those with a motive for silencing Bill are federal agencies who are enforcing gun control.

The tactic of killing an ex-military man and stealing his weapons is not new in America. What is shocking is the massacre of an entire family. It is known in patriot circles that ex-military men with special training and high clearances are listed, targeted, and being systematically hit by professional assassins. This program is of such a secret nature that the FBI, CIA, and Pentagon are not fully aware of its existence and are not, for the most part, in the command structure.

"A few years ago, after multiple assassinations of ex-military men, patriots tracked down the source to a rogue group, but with new information surfacing concerning lists seen in the Pentagon, no one can be sure where the leadership originates. A few things are certain, however; the professional hit squads have no fear of being stopped by authorities, and they often use foreign soldiers, particularly Belgium, Soviet-Bloc and Spanish-speaking soldiers.

"Patriot intelligence analysts have concluded that these assassination squads are targeting ex-military Special Forces, ex-CIA, and ex-FBI who are considered patriotic and gun-enthusiasts or collectors. They try to make the hits look like accidents or health problems. If that is not possible, the targets are simply murdered by any means necessary.

"The common thread between these murders is the theft of the veteran's guns. The assassins then take the guns and get them into the hands of the minority gangs in the major cities. According to reliable sources in a government agency, the goal of the covert agents is to eliminate militarily skilled individuals who could train others to defend America during a crisis, then to get the

stolen weapons into the hands of gangs to further violence and gun-related crime in the cities.

"This tactic helps justify the need for Crime Bills, Anti-Terrorist Bills, and eventually seizure of private fire arms." Part of the message was omitted at this point. Then it goes on. "There is no place at the New World Order table for American Christian patriots. Resist or die. Slavery is not an option. Accepting serfdom in a declining U.S. economy and remaining quiet is not a viable option either. You will eventually be singled out and dealt with accordingly.

"The only chance we have to stop the inevitable destruction of our American Republic is to educate the nation to our common peril, and prepare to survive. We must try to win the hearts and minds of the people. After we have done that, we must be able to survive economic and political upheavals. The enemy will not willingly let go of the reigns of power.

"The conspirators will unleash every weapon at their disposal to prevent real Americans from regaining power in this nation. If the conspirators for a New World Order are willing to murder entire families they must be afraid of patriotism, and are ready and willing to eliminate more patriots.

"Highly decorated and qualified military veterans have determined who is at risk at being targeted next. This is a generalized brief list: 1) Ex-military who had secret security clearances; 2) Ex-military who had electronic warfare training; 3) Ex-military who were trained in anti-submarine and surface warfare; 4) All specially trained military from Vietnam era and up; 5) Ex-military that are involved in militias; 6) Gun-dealers who are ex-military or patriotic; 7) Militia men, patriots, ex-CIA, ex-FBI, ex-Secret Service, retired military officers, active and retired conservative politicians and their aides, patriotic sheriffs and law-enforcement officers, publishers of conservative newsletters and the patriot press, and 8) Families of the above mentioned."

And he closes it: "There are no survivors of the family to console or protect. But we will not forget them. They will be remembered and appreciated as long as we live. And we will tell the story of who they were and what they believed in and how they loved God, country and liberty. In doing this, they will live on in us. Farewell good friends. George Eaton," the editor of this paper.

That was the end of his message. Would Awareness comment on that information? Is it basically valid?

**COSMIC AWARENESS:**

This Awareness indicates the information is valid. It speaks loudly. It speaks clearly. There is little that this Awareness can say to add to what is in that message. Any further comment would simply detract from the power of its message.

**FOLLOW-UP QUESTION:**

Then the writer and his line of reasoning is basically correct in regard to the murders?

**COSMIC AWARENESS:**

This is in the affirmative.

**QUESTIONER:**

Heavy stuff. Okay. Thank you)

## **NEW ORAL CHELATION PILLS FROM SILKWORM ENZYME**

**QUESTION:**

Albert Monette sent in some information on a silkworm enzyme which dissolves plaque and cleans arteries. He says that he's not an employee or agent and he doesn't get any remuneration for sending this

information out. He's sending it to various health food stores. He writes:

"I'm trying to share this information, so thousands who are suffering from inflammatory or cardiovascular diseases, may benefit from this product rather than going through the expensive process of chelation therapy or the risky form of bypass heart surgery," he says. And the information is called "Serrapeptase, enzyme which dissolves plaque and cleans arteries."

It says "Dear health conscious colleagues and friends; Serraflyzyme is an enzyme discovered by Dr. Hans Nieper, a German scientist and researcher in Germany. It's being used as non-steroidal anti-inflammatory agent such as aspirin and ibuprofen. Dr. Nieper discovered that this enzyme would dissolve dead tissue such as plaque in the arteries and clean them out, but it would not harm live tissue.

"Four tablets of 20 milligrams of Serrapeptase was given daily to patients with blocked arteries who needed heart surgery. After 18 months, these arteries were almost totally free of plaque. This agent works by itself and doesn't require anything else and has no side-effects.

The bacteria of the silkworm makes this enzymes and dissolves the dead tissue or cocoon fiber away, so the worm can escape, to become a butterfly.

"Serrapeptase is sold retail in 5 milligram tablets, 100 tabs per bottle, for \$16.00 by the Life Extension Foundation in Hollywood, Florida. Telephone 1-800-544-4440. There is more information available on the subject which can be mailed to you.

It can also be purchased wholesale by health professionals direct from the importer under the name of Serraflyzyme (Silkworm Enzyme)-ECOLOGICAL FORMULAS-CARDIOVASCULAR RESEARCH, Ltd. 1061 Shary Circle, Concord, CA 04518. Phone 1-800-888-4585.. The enzyme is sold in Europe as Anaflazyme, and in Asian countries, under the trade name of Danzen for cardiovascular diseases and is proven to be extremely beneficial.

"Considering its proven efficiency in a wide range of inflammatory diseases, its lack of side-effects and economic dosage form, SP may become widely accepted in the U.S. as an alternative to non-steroidal anti-inflammatory agents. So far, it hasn't been approved by the FDA.

Thus far, the problem of plaque or fatty deposits in the arteries can only be resolved with chelation therapy or surgery which is very costly and risky. Serrapeptase is a safe and inexpensive treatment to resolve the problem effectively." Would Awareness comment on this enzyme which is made from the silkworm?

#### COSMIC AWARENESS:

This Awareness indicates that this appears to be of considerable benefit. It does not appear to be as quickly effective as chelation treatments would be, but it appears to be much more inexpensive, and this can be of great benefit because entities can begin using it, and over long periods of time can keep the arteries clean. Once they are completely clean then it would be possible to keep them continually clean by using this from time to time in smaller doses.

This Awareness indicates, however, in terms of chelation, it would require a continual rescheduling of chelation treatments over one's time to assure the arteries and veins are cleaned, but an ideal approach might be for entities to have a series of chelation treatments to help get the veins and arteries cleared quickly, and then follow through with the use of the

enzyme over a period of 12 months, and then to a lesser degree thereafter.

This Awareness indicates that it appears to be a good alternative to the use of chelation and a very good alternative to such things as surgery, which could be extremely dangerous for entities.

#### FOLLOW-UP QUESTION:

How would it compare to oral chelation pills such as Cardio Guard?

#### COSMIC AWARENESS:

This Awareness indicates this appears to be something that would work more quickly, and would be less expensive. There are certain benefits in Cardio Guard in that it has other substances in it which can be beneficial in supplying nutrients, whereas this is an enzyme to break down plaque and pollution, but this Awareness indicates of course you can always take nutrients along with this, if you wish.

This Awareness suggests this would be a good alternative to Cardio Guard which is quite expensive in comparison to this product: approximately triple the cost. By using this product you can have approximately the same rate of benefit, perhaps even quicker benefit at one third the cost of Cardio Guard.

### The Chupacabra: The Killings Go On

#### QUESTION:

Awareness has given information previously on this strange creature called the Chupacabra, or the Goat-Sucker. But now Charles P., of Westminster, Colorado, writes that the Chupacabras have spread to the U.S. and Mexico. "They are killing people. There are three or four different kinds, and the newer ones are more bloodthirsty and deadly. They fly. They suck hard. No teeth on some varieties. Dead ones have been found. Lots of news on Spanish language TV. Less censorship and editing. More UFO and strange phenomena information. This is happening now!"

And he says "Awareness may wish to comment on this."

#### COSMIC AWARENESS:

This Awareness indicates it appears that this is a genetically engineered creature that is associated with UFOs and it appears that some of these have actually been brought to this planet from other non-terrestrial places. The purpose apparently is to introduce these creatures to earth. This Awareness indicates it is something from extraterrestrial sources, but appears to have been brought here by certain renegade type aliens who were not officially authorized to bring them, but who, in a kind of rebellious attitude, brought them as an expression of hostility to humans.

These that came from extraterrestrial sources appear to have been genetically engineered elsewhere, on those extraterrestrial planets many millions of years ago. They are also related to that creature that has been called the Mothman in *The Mothman Prophecies*, by John Keel, although they are quite a different species. It was a genetic cousin to the Mothman, both being from extraterrestrial worlds.

This Awareness indicates having been brought to this plane, they are reproducing quickly, and there will be more sightings and more and more deaths related to these creatures. Eventually they will be recognized as a threat and there may be some effort to eradicate the creatures at some point by various officials.

This Awareness indicates at this time, the situation of humans being killed is quite rare, as rare as lightning strikes killing people. This Awareness indicates that you would be more likely to win the lottery than to be killed

by such a creature, so there is no reason to become overly concerned at this time. There is the **potential danger** in the future as this creature reproduces and develops its further population.

**FOLLOW-UP QUESTION:**

Is it true, as he states, that this new version can fly?

**COSMIC AWARENESS:**

This Awareness indicates it appears to be correct.

Ed's Note: For more information on this creature, please refer to "Revelations of Awareness" Issue No. 96-10 (The Mystery of the Chupacabras--the Goat Sucker); \$3.00 from CAC.

## Communications From the Dead Via High-Tech

**QUESTION:**

Philip L., Valley Stream, N.Y., writes: "Here's a book review of a topic that is sure to be of interest. It's called *Conversations Beyond The Light*. It shows that with high tech equipment that you definitely can communicate with the next density. I highly recommend it for CAC members. And he encloses a review of this book which appeared in the June-July *Nexus* magazine, which I'll read, and ask Awareness if this of any value, or is this just more of some of the misinformation that we get from the spirit world?"

"*Conversations Beyond The Light* by Dr. Pat Kubis and Mark Macy, published by Griffin Publishing, with Continuing Life Research, (P.O. Box 11036, Boulder, Co. 80301, \$12.95 postpaid).

"With the advent of high tech communication systems comes some rather convincing evidence for the continuation of life after death. The Luxembourg based paranormal research group CETL has been receiving video messages from the "other side" since 1986 and, more recently, cross-dimensional communications-- pictures and text-- via computer hard drives and print-outs.

"According to authors Dr. Pat Kubis and Mark Macy, CETL researchers are in touch with the third or mid-astral-plane group called Timestream, made up of scientists who have passed on but who still desire to continue their life's work from other dimensions-- scientists like Tesla, Edison, Einstein, Curie, the 16th century physician Paracelsus, and lesser known researchers who were working in the field of electronic voice production (EVP) before their deaths. They claim their efforts are assisted by beings on planes higher than the mid-astral.

"*Conversations Beyond The Light* is a fascinating analysis of some of the communications that have been transmitted and received. The evidence would seem to constitute valid proof of the existence of an afterlife, and indeed, a vast variety of choices available to the individual depending on soul purpose and desires.

"We find out what life is like in other dimensional locales, what it's like to speak with departed loved ones, and are given sound spiritual advice on reincarnation and abortion, heaven and hell, and Akashic records, and even how to conduct your own EVP and ITC research."

That was the book review. Does Awareness see that book as being of any substantial validity?

**COSMIC AWARENESS:**

This Awareness indicates it appears the book is referring to certain devices that are being used which tune to frequencies and the frequencies have to be interpreted, therefore, much of what comes from this runs through some mechanical or human interpreter, and it is in that area where error can occur. Even if it is electronic or mechanical in nature, there is human technology involved that may not make absolute interpretation possible.

This Awareness indicates it appears that whatever the interpreting quality is, that is where there is potential for error, and therefore, some of the information may be distorted from what is being picked up by the equipment. This Awareness indicates otherwise, it appears to be of considerable quality.

## He Claims to Visit Bigfoot's House

**QUESTION:**

A question from Robert S., in Vancouver, B.C. He writes: 'On a weekday, CKNW radio talk-show here in Vancouver called The World Tonight with Philip Till and John Maccomb, there is a strange little segment John hosts every evening around 6:50 called 'The Weird Tonight.' I think Avaton was on it once a few years ago.

(I don't recall that one! Ed)

"A favorite guest in that segment is an 81 year old man named Stan Johnson from the small town of Oakland, Oregon. Stan claims to have a close relationship with the Bigfoot entities and goes with them frequently to their home in the 5th dimension. Most recently, Stan was on the radio denouncing the movie *Independence Day* on behalf of the Ashtar Command.

"Stan, who says he's also been to Sirius IV in his astral body, insists for Ashtar that ET's are predominantly peaceful and loving. When asked about alien abductions, he simply claims that very few have occurred. Does Cosmic Awareness see any truth in Stan Johnson's story, particularly about the Bigfoot, or is the poor old fellow just mentally unbalanced?"

**COSMIC AWARENESS:**

This Awareness indicates there is very little truth in this entity's stories, but there is much imagination in his experiences that he **believes** to be true. Much of what he says is convincing because he believes it, but it is mostly his own imagination that is at play.

**FOLLOW-UP QUESTION:**

Is it possible indeed to visit a Bigfoot on another dimension?

**COSMIC AWARENESS:**

This Awareness indicates that it is possible in a psychic sense, to do such. You can even tune into a rock, but whether or not this entity actually visits a Bigfoot, or has the ability to recognize the reality from the imaginary is quite a different question. It appears that most of his experiences are simply imaginary.

## Will the "Moon Landers" Ever Stop Lying?

**QUESTION:**

One last question, this also from Robert. "Recently I read a book review of a science-fiction book co-written by Apollo II astronaut Edwin 'Buzz' Aldrin. It continues to disgust me, that even after 27 years since their trip to the moon, Aldrin, Neil Armstrong and Michael Collins are still lying about what they saw. Does Awareness see any of these men coming clean any time soon?"

**COSMIC AWARENESS:**

This Awareness indicates that this is unlikely because these entities are still under allegiance and control from the government. They may, perhaps on their death-bed, explain something, but whether this would ever be released to the public depends on who it is that hears their death-bed confession.

"We are grateful to the Washington Post, the New York Times, TIME Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost 40 years. It would have been impossible for us to develop our plan for the world if we had been subjected to the lights of publicity during those years. But, the world is more sophisticated and prepared to march towards a world government. The supernatural sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries." -David Rockefeller speaking at the June, 1991, Bilderberger meeting in Baden, Germany.

## A Major Change on this Plane: A Totally New Health Program Based on Eliminating Parasites

OPENING MESSAGE (5/1/96)

This Awareness indicates that there is now in the making, major changes on this plane that are just beginning to be made known. This Awareness has discussed two of these; the financial change that was recently mentioned, and the energy devices that are becoming available. There is also a health program relating to a totally new approach to dealing with diseases and health problems which has been provided as information to those at CAC and in other parts of the country, having to do with getting parasites out of the body which have a role in almost all diseases.

This Awareness indicates that there is information available now for almost anyone who wishes to pursue this line of interest, and it is becoming more and more accessible for the masses, beginning even within this month. This Awareness indicates, however, time for getting things organized will be necessary, but this Awareness indicates it will be something that almost everyone in the readership will be interested in pursuing. This Awareness indicates it will be valuable for individuals in maintaining their own health, restoring health and also in keeping their family and friends healthy.

This Awareness indicates that this has to do with ridding the body of parasites so that the body can restore its own good health in a health environment. This Awareness indicates more information will be made available as this continues to unfold. This Awareness indicates the significance of these things is that they have the potential for far-reaching changes on the earth itself throughout the world, being as significant as the discovery of oil for the use in automobiles and transportation.

The material or information involved in these is not necessarily new information. It is more of a rediscovery than a new discovery. This Awareness indicates that as entities become aware of the potential and the significance of something, they often find that it leads to a new application or a reapplication of something of great value to humanity in a different time. These are older technologies but being used and applied to newer purposes and to current needs.

### This is the Beginning of the Re-Awakening of Humanity and of Good Health

This Awareness indicates that it is the beginning of the reawakening of humanity and of good health, good energy and greater freedoms in terms of financial and life energies for the benefit of those persons who are ready to witness a growth of the spiritual movement. This Awareness indicates you may consider this as a time in which the practical application of new technologies is being introduced in part with the energies of the Photon belt as it makes itself known.

This Awareness suggests you may also think of the Photon Belt as likened unto an added astrological influence that has not been available in the astrological energies of the past. It is not necessarily astrological in nature, but is influencing in the same manner as astrological influences of the past have had their influence on humanity. In this case, the Photon Belt is an astronomical influence that is also influencing humanity.

## IS DR. HULDA CLARK'S NEW BOOK VALID INFORMATION?

QUESTION:

In regard to parasites, Dr. Hulda Clark, who is not a medical doctor, but is a research professor, researched for many years that area, and then started doing actual

field-work with patients suffering from various diseases. She's published two books: The Cause And Cure of AIDS and The Cause and Cure of All Cancers, which was based on the removal of the parasites from the body.

She has now come out with a third book called The Cause And Cure of All Diseases, which basically is based upon the same information. And I would like Awareness to confirm or deny the information in her new book. I believe it would be a good basic book for the members to read before they start any of these programs.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that this book is that which contains an enormous amount of information from a totally different view of the healing profession, from the viewpoint that shows how the diseases are almost entirely associated with the presence of parasites in your personal body or in your environment. This Awareness indicates that there is the need for some qualification of the term 'all' in the title of this book, but not 'all' diseases can be cured through this study and work with parasites.

There are some diseases that occur from injuries that may not be completely affected. This Awareness indicates for example, if the pancreas has been damaged or destroyed by some accident such as a stabbing wound or automobile accident that crushes the pancreas or destroys it, then the entity is going to need to be treated for diabetes, insulin injections, regardless of whether there are parasites or not.

This Awareness indicates that there may come a time when a new pancreas could be grown through some other means such as perhaps the Dr. Merkel water and techniques of growing organs in the body, but until that is available for entities, some cases of diabetes will remain a problem. This Awareness indicates that likewise with other diseases, 'Dis-ease' refers to an ailment or problem, and 99% of the ailments that entities have today result from the influence of parasites in the body, and ridding the body of these parasites can rid almost all of the diseases that entities suffer from.

This Awareness indicates that there are some exceptions as indicated, for example, injuries to the eyes are not likely to be healed by ridding the body of parasites, if the injuries are not caused by the parasites, but this Awareness indicates as a general blanket statement, the title of the book is 99% correct.

## Do Saints Have a Cosmic Bank Account?

QUESTION:

A question continued from yesterday from Dr. James D., of Burbank, California. He writes: "Many people, especially Catholic, pray to patron saints for assistance in time of need. As in most magical operations there is a price to be paid. Who pays the price? Does the Saint or Egregor\* of the Saint have a cosmic bank account with a credit balance merited by the acts of martyrdom in God's services, or does his bank account become replenished by the continual prayers of the devoted?"

"Does the energy of the Saint actually intervene, or is it just the Higher Self in response to the entity's sincere supplication in its hour of need?"

\*I could find no reference for this word. Ed.

COSMIC AWARENESS:

This Awareness indicates that it is much the same as a parent and child relationship. If a child, supposing a child of four or five years of age, comes to a parent and prays for relief. "I have a terrible headache, mommy!" Does the mother sacrifice herself to take time to help the child with her headache or does she get some kind of personal ful-

fillment out of this effort? Does she get a kind of purposeful existence by being available to the child's needs?

This Awareness indicates does the child pay for the headache relief? Of course the child expects the mother to help her find relief for her headache. This Awareness indicates that the child does not have the money or the usual compensation to give for the relief needed. Likewise, an entity praying to a saint may not have the kind of compensation that could be worthy of a saint or would be worthy of the cost of a saint.

This Awareness indicates that what could you pay a saint that would be appropriate for the saint's attention given to you? This Awareness indicates that all that a child can give is appreciation or affection of love in return for the help given by the mother, and all that a mother wants or expects from a child is for the child to live a good life. This Awareness indicates that where is the compensation other than the subtle insignificant feelings and actions that exchange between the mother and the child?

This Awareness indicates that these are the payments between the entities in their relationship, and these become the more precious and more important relationships in the entity's lives. This Awareness indicates what mother would sum up her life of service to her daughter without realizing that "The more I gave her, the more I got out of the relationship!", and what daughter would not recognize that "My mother did so much for me; it certainly made me appreciate her and live my life in a way that she would admire."

This Awareness indicates that these are not payments in terms of the ordinary values of society, but are payments that actually help make society what it is, wherein so many entities are connected by the glue of love and that glue of love helps hold society together in a way that is healthy for all who are within the society, providing a place for entities to grow and live and serve one another freely without keeping books on every little debt or payment given or favor shared.

This Awareness indicates that there are some things that are too important to be put down in books in terms of grace accounts or karmic accounts.

### Which Energy Comes to the Rescue?

(More on St. Twinkle Created by the CAC Membership)

#### FOLLOW-UP QUESTION:

Does the energy of the saint actually intervene or is it just the Higher Self coming to the rescue in response to the entity's sincere supplication in its hour of need?"

#### COSMIC AWARENESS:

This Awareness indicates it is more than likely a combination of energies. The energy of the entity appealing to the saint gives energy to the saint, and the saint would give energy back. The saint might not even exist without the attention given to the saint from those who seek the help of the saint.

This Awareness indicates that it is likened unto the discussion of Saint Twinkle, the entity that was created by the collective consciousness of CAC members some years ago. If entities pray to Saint Twinkle then they are giving energy to Saint Twinkle, and the energy given to Saint Twinkle can be returned to those who need assistance from Saint Twinkle.

#### A "Good Luck Hair" From Your Head Will do the Same Thing!

This Awareness indicates you can do the same thing with a good luck stone, or a good luck charm, or a good luck pencil, or a good luck pin, or a good luck hair. You could take a hair from your head, hang it from a string, take the string up to a special place, make a shrine, and

have your associates, neighbors and friends worship the hair and give energy to the hair, and there will be some entities, sometimes in your community who will say "I've prayed to the hair for a miracle and it returned the miracle in exchange for my prayer!", and this will be something that entities will find does work.

What is actually happening is they are getting back energy that has been given to the hair. You may call this hair a saint if you wish, or you may just call it a hair, or it could be a wire or a rock, or it could be an old piston from an old '41 Chevrolet. It doesn't matter. If enough entities give energy to it, and someone needs energy from it, it contains energy that can be useful to the entity seeking its help.

This Awareness indicates it is a matter of devotion, storing of energy, storing of psychic energy through a kind of devoting of energy into a focal point, and when entities can devote enough energy into a focal point so that others can take that energy and use it, it is likened unto an energy bank for the community to draw from, and to deposit into. Thus entities deposit into the energy bank and other entities draw from it.

#### You Can Start a Religion and Have Miraculous Icons

Likewise, you can create religions in this same way and receive miracles from these religious icons. This Awareness indicates it is simply a matter of moving consciousness and energy or vibration from one place to another, creating a focal point for vibration and having it stored for use by others when needed, or stored for use by yourself when needed at some later time.

If everyone draws from the energy bank at the same time without returning anything, without sending anything to the energy bank in exchange for what is taken, then the energy bank will gradually become depleted. But the very fact of drawing from an energy bank will usually cause it to become a greater focal point.

Someone says "I asked the Energy bank for help and three days later I received a check for 49 million dollars!", and everyone says "Wow! What an Energy bank that is!", and they all pay attention to the Energy bank and re-feed the energy so that the Energy bank again has energy. This Awareness indicates there are many ways this takes place.

#### That Chain Letter That Has Been Around the World 20 Times

There is that famous letter that has been around the world umpteen times and must be passed within 24 hours to keep the movement going, to keep the chain going, and it began with some little old dried-up mock in some little old dried-up village in some little old dried-up country and has gone around the world umpteen times and everyone who has received the letter has become "filthy" rich except for a few people who did not send the letter on, who had "terrible" luck; one whose wife died and whose job fell through and who was almost totally destroyed with bad health, and whatever else can be thought of to put in the letter about this poor sap who did not keep the chain going.

This Awareness indicates this whole thing is of course absurd, because the letter, if it had gone around the world that many times, would not have the information that is supposed to have occurred in regard to its movement around the world. There is usually no address, so no one knows where to send the information as to what happened to them when they got the letter and threw it in the garbage. This Awareness indicates that these are absurd letters, but they are focal points for energy-grabbing, and some entities will grab energy from such a letter and think that "Oh my goodness! I've got to send this off! I don't want bad luck! I'm not so much greedy for good

luck, but I certainly don't want this bad luck to happen!"

Thus, the entity is all tied up with his energy focused on some absurd letter that has to be responded to out of fear. This Awareness indicates that this way they keep the letter going around the world umpteen more times. This Awareness indicates that this is simply an energy-grabbing device or method, similar to that of hanging the hair in the town square to let the people focus on.

There are many ways that entities can be creative in order to come up with something that they can focus their energies on in order to have something to draw from at some time in the future, and if they believe in these, then they are more effective in terms of good luck, or bad luck, or prayers answered or curses made.

This Awareness indicates that if an entity is expecting a curse, then whenever the entity trips on a curb it will be assumed that the curse caused it. If an entity is expecting a miracle, then whenever the sun comes out from behind a cloud, it is part of the miracle. If it rains, it is part of the miracle. If the clouds gather and shut out the sun, it is still part of the miracle, because the sun was getting too bright anyway.

This Awareness indicates that if one is expecting a miracle, everything that happens will be seen as part of the miracle. If one is expecting bad luck, then everything that happens is going to feed into that expectation. If one wins a lottery and has been expecting bad luck, the entity will say "What is this going to do to my life? How am I going to survive this? This could be horrible for me! Now what can I do?"

#### It's the Attitude: If You Believe in Saints you Expect Things

This Awareness indicates it is simply a matter of what attitude entities have toward things that are happening and how they prepare themselves to meet changes in their lives. If entities believe in saints and pray to saints for help, do you think those entities are going to relax or sit back and wait without any kind of expectation? And if they are expecting something, do you think those entities are going to allow anything good to happen to them without attributing it to the saint?

This Awareness indicates that it is all part of the game of thought, and it can be great fun if entities really get into it. You can have a reality that is so much fun, or you can make it miserable, if that's your preference. This Awareness indicates as entities move more and more into the Photon Energies they will find that the mind is indeed busy creating all kinds of faces, surfaces, events in the new reality, also facets of new reality, but this Awareness warns you that reality is only new if you are not familiar with the reality you perceive. If you keep seeing the same old thing all the time, then there is no new reality for you. Therefore, you may wish to alter your view of reality occasionally so that you can see a new reality, something that you want to see, something you will enjoy being with or living with for some time to come.

#### Rules Required When You Change Your Reality

Many people do not want their view of reality changed. They want it to remain the same. They want it to be the same ever since "Momma died." Or "ever since I lost my job." Or "Ever since I lost my big fortune at the gambling table, when God frowned on me." This Awareness indicates that these entities have a reality that they cherish and do not want tampered with and are not ready for the new reality that they could have when they are ready for a change.

This Awareness indicates this allows all these entities to have the reality they seek to have, which they view as their reality. This Awareness indicates that realities do not change overnight. This Awareness does not wish to

give the impression that all you have to do is create a new idea or new picture of reality and it will change immediately. Things change more slowly. You have to hold an attitude. You have to dwell on a new reality.

Dwelling on a new reality is likened unto dwelling in a new city. You cannot simply visit a city and say "This is my new city!" You have to dwell there. In the same way you cannot simply visit a new reality and say "Hmph! How come it doesn't stay? Why doesn't this remain with me?" You have to dwell in that new reality for some time to make it stay.

## Why Did Saints of Old Endure Torture and Keep a Smile on Their Face?

(Separating the Bull from the Papal "Bull")

#### QUESTION:

One other question from this entity James D. He asks: "How is it that the saints of old were able to suffer the insane torments of the Roman persecution with smiles on their faces, if it weren't for the intervention and divine ministrations of the angelic realm? Or did their single-minded focus strength of faith access in time of acute stress latent powers and abilities that are unknown to the common humdrum of ordinary third-dimensional experience?"

"From what I know, saints and angels are essentially 'specialists' and have certain affinities vibrationally for certain individuals. It is much like alternative medicine. If there is no harmonic resonance, there is unlikely to be any meaningful interplay between the one who prays and the one who is prayed to and asked to intervene. In other words, no use to call a plumber when you need an electrician unless the spiritual entity knows both."

#### COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates in reference to the saints of old, having smiles on their faces; how is it certain that these were not grimaces which they were expressing while being tortured? Or how is it certain that they were smiles of a real nature, and not simply drawings of artists imagining how they must have smiled while being tortured? This Awareness indicates there are no certainties in regard to this, that these saints were enjoying the torture.

This Awareness indicates that however, in regard to the probable meaning of your statement, it is probably a reference to the question: "How could these saints endure the pains they suffered and still be dedicated to their commitments?" This Awareness indicates that in this day and age it still occurs. The entity discussed in the reading yesterday, wherein the daughter visited her father who had been arrested after leaving the Montana complex described how he kept a positive attitude even though he had been tortured, and how his dedication still remained strong to help make the world a better place for his daughter to live.\*

\*A reference to the Freemen of Montana tortured by FBI (See Issue 96-8) Ed.

This Awareness indicates it is not likely the man was smiling while being tortured, but inside, in his mind, he may have known the significance and importance of his position, of his role in life to the point where he was not terrified by the torture. He was perhaps not intimidated by the torture. Likewise, the saints of old may not have been smiling, but they may not have been intimidated by the torture of the time, and therefore, because of the dedication to something more important to them than pain or so important that the fear of pain was less disconcerting to them than the loss of that to which they were dedicated, this may have been what held them in their steadfastness.

### Torture Overcome in the Movie "Braveheart"

This Awareness indicates the recent movie Braveheart gives a strong drama of this kind of dedication to freedom, wherein the entity was tortured in an effort to make him swear allegiance to the King who had been taking freedoms from his people, and the torturer kept telling him "All you have to do is renounce your position and swear allegiance to the king!", and he would refuse and be tortured further. Finally, after extreme torture he said he would speak.

When it was time, when it was quiet, when the crowd became quiet to hear what he had to say, he screamed out "Freedom!" This Awareness indicates the entity remained steadfast in his loyalty to freedom, even beyond that concern for pain. This Awareness indicates it is simply a matter of priority. What is more important to entities: comfort, or certain principles on which the comfort of others may rest?

This Awareness indicates that the saints were 'saints' because their own personal comfort was of less concern to them than the comfort and rights of others to whom they were dedicated. The greater joy for them was to see the rights of others, the comfort of others, the principles of good prevail, and this was far more important than their own personal comfort. This Awareness indicates that this makes the difference between a person who could be a saint, or a person who could simply be an ordinary coward.

This Awareness indicates not everyone who cannot stand up to torture is not necessarily a coward. They might simply be a person who is less dedicated and more inclined to compromise, but they simply don't have the integrity and dedication that would be required of a saint. This Awareness indicates on the good side, the person might be classed as a 'survivalist,' one who compromises and survives, and some might admire that more than admiring the saint.

### Perhaps a Saint is Simply a Fool

It is a matter of where entities set their values, and once their values are set, how they label others in regard to those values they have set. The saint could be considered by some as the fool. "He gave up his life for others! What a fool that entity is!", or others might consider the one who saved his life to be brilliant. Someone else might say "he is scheming and conniving!" These are all words to describe, and words describing things are simply labels that are not necessarily fixed. They can always be questioned.

### Should People Put Labels on One Another?

"Is that entity really a saint? Is that entity really conniving? Was that entity a saint simply because he was just stubborn? Maybe he was just stubborn. Maybe he would die rather than answer or give in to that king! This Awareness indicates that maybe there was nothing saintly about the entity! He just didn't like being tortured and wasn't going to give in to it! Maybe he just didn't have it figured out right!

There are many ways entities can look at a situation, but usually, when a label is put on someone and the public hears the label, then it usually sticks somewhat until someone comes along and says "This label doesn't have to be on him! He was not a coward! He was misunderstood! He was not a saint! He was just a stubborn man!" This Awareness indicates that taking one label off, and replacing it with another is very common. Many of your national heroes have lived with labels for hundreds of years and then someone comes along and takes the label off and says "He was not a hero! He owned slaves!" "He was not a hero! He was just an

ambitious man!"

This Awareness indicates that these labels need to be recognized as labels, not as stone engravements. The tombstone that says "Here lies a great man" is just a label. Is it accurate? Or is the man lying there simply a memory, a figment of one's imagination?, the creation of some journalist who wanted to become famous by following the footprints of some renegade outlaw, and making the outlaw famous, so that when the entity dies he gets a stone that say "Here lies a great man"?

This Awareness indicates that these labels need to be looked at for what they are: Just labels. Often an entity will be classed or labeled a villain when in reality, if you could stop and talk to the entity, you might find that there is total perfect logic behind everything that he did and he was not guilty of any villainous act, but that there was some reason that was never made clear to those who put the labels on him.

This Awareness indicates that it is important for entities to be very careful about the use of words as though they were business signs or advertisements willingly placed there by the shop that holds a name out for themselves, or the person whose name is labeled by some sign that entities have put upon him or her. This Awareness indicates the people place a sign on a woman and call her names, and the entire town reads the sign; it is likened unto a storefront with a sign that says what the store offers. But if the store sign is placed there by someone else, is this a way to do business?

Should other people put the labels on you? Should other people put labels on each other? If business were conducted in this way, you would have one competitor across the street going over and hanging a sign on his competitor on the other side of the street that says "Shoddy Shoe Store" or "Joe's Stinky Fish Market." If businesses conducted their behavior by hanging labels on each other, you would have total chaos. You would have war.

### Many "Friends" Are Their Own Friend's Worst Enemy

This Awareness indicates people do that to each other. One person hangs a label on a friend that shouldn't be hung on an enemy, but it's there, and the friend has to live with that label because the person keeps pointing to it. "This entity is stupid! My friend here is stupid! I wouldn't say this if he weren't my friend, but he is my friend and he is stupid. He shouldn't be running for office!" Many 'friends' are their own friend's worst enemy. They should not be called 'friends', but they call themselves 'friends' and label their friends with names of enemies, or names that hurt their friends.

### How to Insult and Label an Entity Without Using a Label

"Oh! I really like that dress you're wearing! It really looks good on you! It looks so much better than it did when I had it!" How sweet. This Awareness indicates there are many ways to label another entity without even labeling them. This entity has just informed all of her associates that she has given this dress to her friend, and her friend receives charity and the dress looks nice on her because this lady has given her friend the dress, and therefore, the friend is inferior, but she looks good anyway. And of course the giver is generous. She gave her the beautiful dress that makes her look better.

What does this do to the one who is wearing the dress? She will probably take it off when she gets home and never wear it again, nor will she ever want to get another dress from her friend. This Awareness indicates that there are many ways that entities can use words to label things, to insult. There are also ways whereby entities can help lift up each other.

### People Should Allow for More Mutual Admiration

This Awareness has always felt that people should have 'mutual admiration societies' whereby they lift each other with admirable words. "It was really nice for you to do that for that person!", and to tell others about the good things that each other does, rather than to criticize when the person leaves, when there is no one present to hear your criticism except those who know the person, but will not talk to the person about your criticism.

This Awareness indicates that it is important for entities to consider the use of words as labels. Can they help? Business people will often, for example, refer others to another business. "Well, we are out of those now, but I think Smith's down the street has them in! You might try there!" Could people refer someone to another? "I can't really help you on that, but George is good at that kind of thing! George might be able to help you!"

This Awareness indicates that as entities begin to appreciate each other more and share the appreciation with others, the esteem of each individual gets social boost. More and more people begin to appreciate others by what others have said about the person, and it becomes important. When your esteem is boosted socially it makes a big difference.

### Building Up and Tearing Down the Public Image of Others

This Awareness indicates there are many entities who worry about self-esteem. Self-esteem is not a hard commodity to find. There are many entities who have great esteem for themselves, but this Awareness indicates that besides self-image, there is public image. Public image is that which is often being torn down. Everyone tends to tear down the public image of each other, but sometimes it is very important for them to start building up the public image of others so that other's lives become a little easier and they can function a little better so that they do not have to rely so much on hand-outs or on crumbs from the public, so that when they walk down the street they can feel more than just self-worth, they can feel a social worth.

### Words Like Saints Carry Energy--Give and Take Energy

This Awareness indicates that there is much that needs to be understood in regards to the use of words, for these words, like saints, carry energies. Saints can give and take energy. Words can give and take energy. People can give and take energy from one another by the use of words, by the words placed on entities. This Awareness indicates that some labels tend to stick harder than others, and some labels tend to slide off.

It is noted that the more unusual the label, the more likely it is to stick. The more common the label, the more likely it is to slide off, so that if someone calls a person an unusually negative name it will tend to stick. If someone says "How 'ya doing, ya old molester!", what does that do to the entity? It is a strange label. How does the entity get it off? This Awareness indicates that there are some entities who are artists at labeling others and if this artistry turns toward labeling others with negative labels, it creates a lot of sticky things on other people.

This Awareness indicates that *It* has diverted somewhat from the question because one thing leads to another. The question had to do with the energies of saints, but this has led to energies related to terms.

For example, 'saint' is but a label, and entities have an idea of what a saint is to be, what a saint should be, what a saint is expected to be. They may have simply been people doing the best they could in a very unique unusual circumstance that thrust them unwittingly and unwillingly into sainthood.

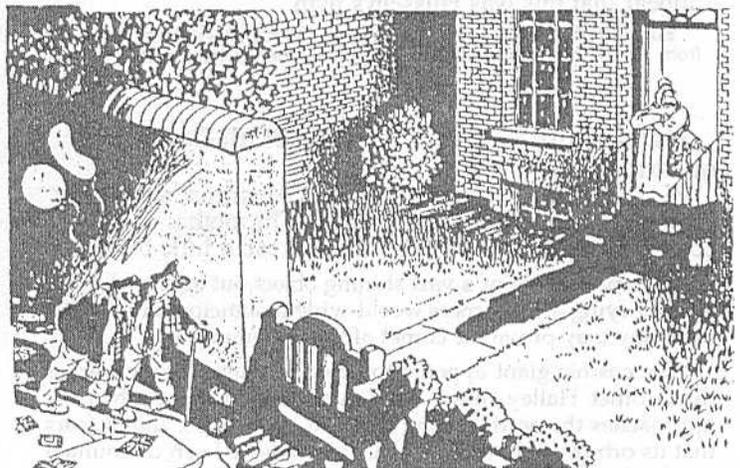

They may have been made saints by society without

ever thinking of themselves a saint, without ever wanting to be a saint, perhaps without ever really being a saint at all, but the label sticks, the label hangs there in history and entities continue to pray to the label and the name and expect miracles, and they may get very upset if the miracles don't come on time.

This Awareness indicates *It* is simply making a point that it is important to look beyond the words at the energies involved and the realities that lie behind the labels and the words.

## SADDAM HUSSEIN'S RELATIVES SPLIT TO JORDAN: HOW COME?

### QUESTION:

How did Lieutenant General Hussein Kamel, the son in-law and powerful Senior Aide to Iraq's President Saddam Hussein, his equally high-level brother, two of Saddam's daughters, and indeed an entire entourage of black Mercedes, especially made for the Iraq regime elite, manage to flee undetected across an empty but meticulously wired "no-man's land" and peacefully enter Jordan? Why did they do this, what is going on over there?

### COSMIC AWARENESS:

This Awareness indicates that in response or in answer to the question, one could ask another question: What guard or what army officer is going to stop this entity who is of such high rank, and for what reason, and by what authority? This Awareness indicates the very fact of who he is gives him license to travel wherever he wishes to go.

This Awareness indicates that the entity has tired of living under the control of an entity whose ego and self-worth is over-exaggerated, and the entity recognizes that there are many in the military who would prefer he were the leader so that they could get a new start based on more acceptable policies in Iraq, and therefore, the entity was morally and psychologically encouraged to make this move and to make an announcement to the outside world that Iraq is ready for change but that Hussein must go.

This Awareness indicates that it is simply an effort by those forces in Iraq to change leadership. Since there are no elections, there is no vote. There is only the idea of the coup or this type of overthrow. This was the manner chosen by those higher authorities in Baghdad and Iraq to help bring about the change that is needed.

This Awareness indicates that it could be a good time for Hussein to step down, to resign or retire from his present position. He could do so on the excuse that it will help to preserve the peace and he could thus let his relations, his son-in-laws take charge after reaching agreements with Western countries that certain sanctions be removed from Iraqi business and social and a military affairs.

This Awareness indicates that whether Hussein will actually step down and preserve the remaining years of his life, or whether this action will lead to further conflict or inner strife within Iraq is not clear, but it has created an opportunity to allow the entity to step down as leader and to allow someone else to take over, and it may be that this was the purpose of the action, although it does not appear that this was Hussein's plan.

Ed's Note Since this reading was given, Saddam's relatives all returned from Jordan in a convoy. Saddam promptly ordered them shot.

### Hale-Bopp: Is it the "Mother of all Comets"?

#### QUESTION:

We received on the Internet, from Australia, an excerpt from a scientific magazine. It says "The mother of all comets intrigues scientists!" and I'll read a little bit.

"The appearance of a vast shining object out beyond Jupiter is electrifying astronomers world-wide in anticipation of what some say may prove the comet of the millennium!"

"The cosmic giant appears to be one thousand times larger than comet Halley, huge enough to shine in daylight as it approaches the earth during the next 15 months. Initial fears that its orbits might intersect the earth's have been discounted by the latest observations which indicate it will turn away

between us and Mars.

"Astronomers say they still do not know exactly what the glowing object is; either the biggest comet yet seen, or a smaller freak that is blowing off an immense cloud of frozen gases as its approaches the sun. Designated 1995O1, the comet was spotted on July 23rd by amateur astronomer Allan Hale of New Mexico, and Thomas Bopp of Arizona.

"It is expected to take the name of its discoverers as comet Hale/Bopp, and outshine in public attention the spectacular Schumaker/Levi collision.

Dr. Duncan Steel of the Anglo-Australian Observatory said last night the comet lay directly over Australia near the constellation Sagittarius. However, attempts to study it here have been hindered by cloudy weather. It is about a hundred forty million kilometers away from earth and is the brightest object observed so far in the region beyond Jupiter.

Its brightness indicates either that it is extremely large or is blowing off an enormous halo of frozen gas and ice.

"The interesting thing is that this comet is well out beyond Jupiter where comets are usually inert," Dr. Steel said.

It could be that this is a giant new comet arriving from the Oort Cloud (sp), never having passed into the planetary region near the sun and is rich in volatile ices like carbon dioxide, methane and ammonia which would evaporate out where it is now. But it is so bright it must be over a hundred kilometers in size.

"The comet Halley is an irregular blob, measuring 15 km by 12km by 8km, making the newcomer ten times the breadth and one thousand times the bulk.

Observatories worldwide are training their instruments on it and evidently, the Harvard University astronomer Dr. Brian Marsden said it was unheard of for a comet to be visible with small telescopes at such a distance. "It could become the comet of the millennium as it comes towards the sun over the next near or two," he said.

A number of our readers have sent in questions asking Awareness to comment on this comet.

Ed's Note: this comet is no relation to the comet Hyakutake which appeared in our skies during March and April of this year 1996.

### COSMIC AWARENESS:

This Awareness indicates that this appears to have had numerous names in past history. It has been referred to as Wormwood, Hercules, and this Awareness indicates that this does not necessarily mean that these are proper or correct names for this comet. This Awareness indicates that it is likened unto an automobile that comes into the city every twenty months and people recognize the automobile being that of someone they know or knew, and calling the automobile by the name of the person they knew who once had an automobile like that, or was believed to be similar.

This Awareness indicates that the comet described in 20,000 B.C. which comes back ten thousand years later, may be totally renamed so that it no longer carries the name of that which came by ten thousand or twenty thousand years before.

This Awareness indicates that in other words comets do not carry names in the same way that computers or automobiles have their brand name written on them. They come by looking fresh and new each time, and unless there is some distinctive marker or signature or shape, they are not always recognizable from one millennium to another, particularly when all of the entities from the earlier millennium are no longer present.

This Awareness indicates that in other words, to identify this with some previous comet would be a futile activity and one may as well accept it under the new

name that has been given because there is no one around your planet who can recognize who this new comet is.

This Awareness indicates that all that can be considered with any significant meaning is the effect of such a comet and event. This Awareness indicates it does appear that there have been scientists in the last decade who were aware of this incoming body and that there have been some efforts at discovering more and concerning the effects of such a comet's entry into the solar system.

The emphasis and focus on comets, particularly beginning with the appointment of Dan Quayle as a person put in charge of this kind of authority, concerning himself with the potential of comets entering the solar system; this approximately five years previously, was the result of certain scientists becoming aware of this and knowing it would eventually enter the solar system.

#### Is This the "12th Planet" Sitchin Speaks About?

This Awareness' also has mentioned certain comet movement. This Awareness indicates also the entity Zecharia Sitchin spoke of heavenly bodies moving into the solar system, and this may be for some entities, a fulfillment of his prediction. It is a question though of whether this comet was being confused with Zecharia Sitchin's concept of a 12th planet that entered the solar system every so many years.

This Awareness indicates energy on this will continue to build. Sightings will be studied as it becomes more visible, and information will be more available as time passes. This Awareness does not see it as a direct threat to the earth at this time. It does not see this as something on a collision course. This Awareness indicates that it is however, seen as a very significant phenomenon in cosmological history for the solar system, and entities will have much to focus on as this evolves and as the event continues.

This Awareness indicates *It* sees more information becoming available in the months to come.

#### Why Awareness Can't Tell Us Right Now Whether this Comet is Wormwood

##### FOLLOW-UP QUESTION::

So, Awareness sees this as an actual comet and not a Wormwood-type space expedition loaded with aliens?

##### COSMIC AWARENESS:

This Awareness indicates this is not at this particular moment clearly defined. This Awareness indicates that with many situations, with many issues, definitions are not always available in certain stages of development. The clarification may be forthcoming in the coming months, but at this time it is not absolutely clear.

This Awareness indicates there are reflections of something this Awareness saw earlier and described earlier as a force outside of Pluto, but this Awareness is not saying, nor is it clear at this moment that this is the same. This Awareness indicates that there was previously seen an action, a body moving from Orion toward the solar system in the direction of Pluto. This does not clearly reveal itself as being the same, but this Awareness wishes to hold this in reserve and not clarify at this time.

This Awareness wishes to state that if you see water being frozen, the opportunity is not always available to the observer, to announce that the water is ice, or to say that this is water, not ice. There are things that form, and during the formation or during the changes that are occurring, if you announce that something is something, definitely, it can be an erroneous announcement.

##### Some Things Not Absolute to Cosmic Awareness

This Awareness indicates that at this moment there are seen certain energies in regard to this comet that are not

formed clearly enough to make a statement that is final. There are of course, as this Awareness realizes, entities who think that everything should be absolute to this Awareness. This Awareness indicates that there are certain things that are absolute, and this Awareness can speak of these in absolute terms. There are other things that are not always absolute.

It is not always possible for this Awareness to absolutely describe something that is not absolutely clear to this Awareness, and while entities might think that this Awareness should be able to clearly see everything, at every instance when asked, this is simply not the way things are.

##### Does Awareness Always See the Falling Sparrow?

This Awareness indicates that this Awareness gives attention and the attention clarifies, and the clarification often yields information, but if the attention is not strong enough to clarify sufficiently, then the information is not clear enough to describe absolutely. This Awareness is said to see the fallen sparrow; that every thing is available to this Awareness. This Awareness indicates that this is what people expect. This Awareness indicates that *It* is supposed to see every speck of dust in the universe and be able to describe every speck of dust. This Awareness indicates that *It* wishes entities to understand that there are specks of dust forming at all times and there are specks of dust that are losing solidity at all times, and therefore this Awareness does not see every speck of dust because they are not yet formed and therefore, *It* often needs to wait a few more split seconds to describe a particular speck of dust that has been in formation.

This Awareness indicates likewise, the sparrow that falls may not fall at exactly the precise moment of a question and this Awareness may need to wait for certain moments for the sparrow to fall. This Awareness indicates in other words, not everything happens just because humans expect things to follow in a certain way, and just because humans think that this Awareness has absolute, total, complete, immediate grasp and observation of everything at every split second, it does not follow in that way.

##### Time is Required to Clarify an Energy on Some Questions

This Awareness in order to observe, needs to have attention available to make the observation, and this comes about when using an Interpreter. It comes about through the energizing process, and the energizing not only comes from individuals sitting in on the reading, but also on energies that build around a particular concept, so that when a question is asked on Monday the 4th, the energies around the concept may be of a certain volume and weight, but by July 24th, the energies may have built to ten times the volume and weight and the answer to what is seen by this Awareness will be much clearer by the 24th than they were on the 4th.

In other words, time can be an ally in clarifying energies on a particular question or concept. In the same sense energies at a particular time may diminish as time passes. This Awareness indicates that the act of questioning on a particular concept tends to build the energy for that concept around that concept, so that the energies begin to build in volume and strength because the question was asked on Monday the 4th even though the answer may not be available in total on Monday the 4th.

By the 24th, the fact that the question was asked on Monday the 4th may have provided time for the energy to build, so that when the question is asked again when the opportunity is available for further observation, the clarity may be much greater and the answer may be more available and voluminous.

### The Slight Problem Awareness Has With the Interpreter

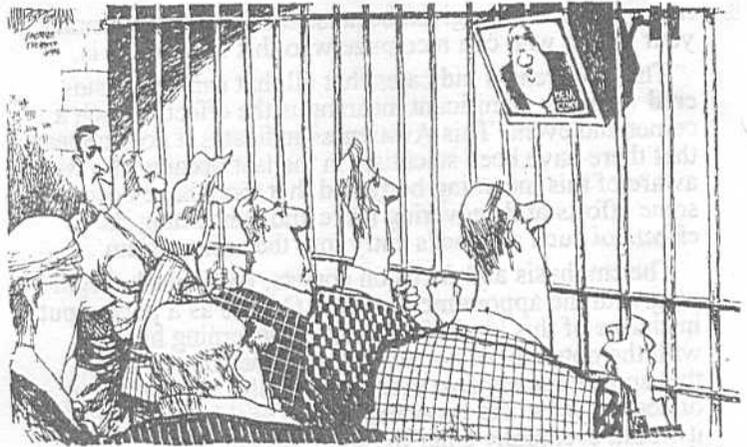

This Awareness indicates that this Awareness has a slight problem with this Interpreter in comparison with earlier Interpreters in that this Interpreter feels a kind of obligation to get an answer out for every question, and therefore pushes forth energy from himself while in trance to help energize the answer, and this Awareness indicates that often this tends to create a situation in which a thing that is in balance, neither yes nor no, neither available or unavailable, will be pushed for a polarization, a polarized position so that either a yes or a no or an available answer is pushed into focus.

When this occurs, it is risky in that something which is teetering and what you call "sitting on the fence" and not yet naturally clarified, is pushed into a position of being decided, and this can lead to error, and this Awareness does not approve of the Interpreter trying to help energize an answer to every question when the question's answer is not yet ready.

This Awareness indicates that the entity Ralph Duby and the entity David Worcester and others generally did not have this problem. They would simply let the next follow without answer, or they would suggest that the question be energized further. This Awareness indicates that the present Interpreter feels a sense of inadequacy or guilt if an answer does not follow quickly or within a reasonable time after the question has been asked, and this is a problem for the entity's use as an interpreter.

This Awareness indicates for the most part, the entity is able to avoid these nebulous areas in regard to the need to answer every question. This Awareness is simply wishing at this time to caution the Interpreter that answers for every question at a particular time is not necessary and asks the Interpreter to let this Awareness determine whether the question be answered, or to wait.

ED's Note: This problem does not rest solely with the Interpreter, your editor is also responsible for pushing certain questions and creating follow-up questions if he did not feel satisfied with the response. The main reason is money. The Interpreter understands the precarious financial situation that has haunted CAC since the beginning and he desires strongly to give us our moneys worth for his service, for without answers to our questions there would be little use for our newsletter. He too has been plagued with financial problems as long as we can remember and for that reason he is paid the maximum amount per reading that CAC can afford. Currently he is getting \$600 a reading, which amounts to \$5.00 per minute for the average two-hour reading. Often he will silently look for symbols which attempt to answer a question, like the one just previously asked, looking and reaching for 3 or 4 minutes, before seeing anything which could be a partial answer or simply a statement that Awareness does not see anymore energy on that questions and requests we ask the next one. He realizes CAC can ill afford non-answers which consume expensive trance time, and I am sure this is a major reason he pushes Awareness for more information as indicated in the previous rap.

"AND I WANT TO THANK ALL MY FRIENDS BACK IN ARKANSAS WHO HELPED ME GET WHERE I AM TODAY..."

### A Dark Forces Conspiracy in Hollywood?

(He Sees the Number "6" Occurring Too Often)

#### QUESTION:

We received a letter from James Dalton in Studio City, California, which I'll read.

He writes: "To whom it may concern: Everyone! As of this July, 1996, I will have been in California for three years, out West more than three years. I have approached the entertainment industry from many different directions, angles and levels. I have encountered and observed, watching closely, a "dark circle" of dark negatives forces, surrounding, enclosing, blocking, possessing, screening out the entertainment industry, preventing positive forces within from gaining control and outward expression as it should be, and keeping positive forces out.

"This indicates nothing less than an occult et cetera, conspiracy of considerable proportions and magnitude. Only some of the signs of this in TV and movies are the extreme reoccurring inordinate disproportionate appearance and use of the number "6" occurring in many different forms: verbally, written, spelled. The numeral 6 itself on signs et cetera, disguised as numbers that add up to 6 like 15, 20/40, et cetera, and in the number of objects, lines, rows, people and so forth and so on.

"The consistent use of counter-clockwise motion. The hidden or obvious use of inverted pentagrams, pentagons, 5-pointed stars, the use of blood-red, and blood-red and black combinations. Also, Hollywood phone numbers, especially important ones, are filled with sixes. Society in general, red and black combinations are most commonly available. (Sic)

This is at least partly the result of the presence and activity of witchcraft, particularly black witchcraft, black magic and Satanism.

"The "Church of Satan" which is based in Los Angeles, has been hovering over and had its hooks into the entertainment industry since the 1960's. I have observed Satanic activity in Orion, Paramount and others. It is important, imperative even for every true Light Group to have the responsibility to be aware and take action and counteraction to the activity of the separate dark forces which must not be allowed.

"If you can get your psychics and or intuitive perceptions to "look" in that direction, and/or members to write general letters and so forth, it will be like a massive scanning, probing, brilliant, spotlight shining on the situation, which will act as an expose, and be likened unto an 'exorcism' of the entertainment industry which will also affect all the rest of the world which is so strongly influenced by "Hollywood."

"There are also Light Forces at work in the entertain-

ment industry. Not all of them are dark, but the Light is overshadowed by the dark ones. If all of us can direct ever-increasing Light Forces into and through and around the Light ones, in addition to other approaches, it could knock out the dark and tip the scales back to the Light, which would gain central control and open new and greater doorways and pathways of Light.

"This is a 'form letter' sent to at least four other philosophical and/or metaphysical organizations. You have my permission to distribute this letter to other constructively interested people. My name is irrelevant." And he signs it: "For Truth, Justice, and the Universal Way: James Dalton."

Would Awareness comment on that letter, please?

#### COSMIC AWARENESS:

This Awareness indicates that the letter does indeed point out some very pertinent concerns and realities in regard to the entertainment industry. Obviously, some of these things could be coincidence, but when it becomes overwhelming, the coincidence begins to become more than mere coincidence and it is also relatively clear to most entities observing Hollywood that there *is* a Satanic force working through much of the entertainment business.

#### A Satanic Conspiracy is Very Real

This Awareness indicates that it is not simply a supernatural Satanic force, but a physically *real* Satanic conspiracy. This Awareness does not wish to give Satan a sense of reality, but Satanism as promoted by individuals *is* a reality, and the Satanism promotes a kind of energy that can have adverse effects on the masses. This Awareness indicates it can be used to promote negativity and the negativity can be harmful to the masses.

This Awareness suggests therefore, that this *does* need to be made more clear to the masses, and the masses need to take some kind of action in countering these energies and forces that are being promoted by Satanism. This Awareness indicates that the entity's letter could well be presented to churches and religious groups across the nation to get these entities active in countering the effects of Satanism in the Hollywood scene.

#### James Dalton's Letter Should be Made Available for Churches

This Awareness indicates that these entities are very strongly motivated against Satanism and can be expected to take considerable aggressive action in helping to point attention to this and to raise concerns and work to counter this, just as occurred by similar religious groups in the 1970's when Satanism was found in the music industry presenting lyrics in backward recordings under the artistry of various groups.

This Awareness indicates that if the entities from this organization could have a copy of this entity's letter and were asked to Xerox or make copies of the letter and get them into the hands of ministers and priests and religious leaders in their area and around the country, this could start the action of helping to defuse the influence of Satanism in the entertainment industry, and because the entertainment industry is so powerful an influence in the world, it could go far in helping to diminish the influence of Satanism in the world.

#### Calling Attention to a Problem Starts the Healing Process

This Awareness reminds you that calling something to attention is that which helps to start the healing process. It has previously suggested that you cannot expect negativity to go away just by ignoring it, and although it is important to keep a positive attitude, it is not sufficient just to ignore a negative when the negative is already there and has its hooks sunk into the body of something.

Just as cancer can take hold of an entity and the entity

cannot rid the cancer just by denial or by refusing to acknowledge its presence, likewise, Satanism can have its hold on the entertainment industry and you cannot make it go away just by ignoring it. But by focusing attention on it and dealing with it very vigorously in the same way one would deal with cancer, in a vigorous action, quickly and completely, it is possible to then rid the body of Hollywood from the claws of Satanism.

#### Is the Use of the Number "6" Significant?

##### FOLLOW-UP QUESTION:

Is the constant use of the number 6, as he suggests here, actually part of the Satanic energy?

##### COSMIC AWARENESS:

This Awareness indicates that much of this is mere coincidence, but entities can notice if it is more prevalent than mere accident, if there is a preponderance of the use of this number, then it is more than likely intentional on the part of someone working in this Hollywood scene or on that particular movie script. This Awareness indicates that it would not take much for an entity to subvert a movie so that it had much subliminal images of Satanism without the director or producer even realizing this was being done.

This Awareness indicates that in other words, the producer, the director, even the actors might not be aware of what is happening in this regard, but some technician might be a Satanist, working with an actor, or working with props may be making sure that these symbolismisms are appearing on the screen for the public to consume.

#### Those Bloody HBO Movies

##### FOLLOW-UP QUESTION:

I've noticed on the pay channels on television they show these movies that evidently actually appeared in theaters, where people, particularly teenagers, would see them, but almost without exception these movies they show consist of blood and gore, particularly lots of blood. These stories sometimes are disguised as science-fiction or monster movies or police chasing drug dealers and so forth, but there's always an incredible amount of blood dispensed in the scenes: police mowing down the bad guys, for example, blood spurting out of all the bullet holes, people falling in great pools of blood, and there's other movies where they have monsters of various kinds that manifest out of various dimensions, very much concerned with blood and gore.

It was my understanding that these types of movies were designed to harden the public, to suggest to the public that this sort of thing is more usual than unusual and had to do with the world planners. Now, are these people that put out movies like this, who wish to desensitize the public, also in cahoots with these Satanists, or are they one and the same?

##### COSMIC AWARENESS:

This Awareness indicates that Satanism is prevalent in the planners for the New World Order; that many of the great leaders in government are indeed Satanists. You know that yourself. This Awareness indicates that there has been enormous amount of evidence in this regard. This Awareness indicates that you may wish to recall the books relating to the child molestation situation of Nebraska and other types of exposes that have come out showing these world leaders tied in with these kind of activities.

This Awareness indicates that these are indeed part of the Satanic agenda and movement. This Awareness indicates that the use of Satanism as a way of controlling an entity so that the entity can be kept in check when given a position of power is frequently a requirement for

the entity to hold an office or to be given a promotion in a government agency. If the entity is present at a Satanic ritual in which someone is sacrificed, the entity is then easily controlled in the future, because there is evidence that could be used against the entity, whereby the entity could be linked with the murder, or the death of someone.

This Awareness indicates that these are tricks of control used in Satanism and when these entities have control over each other through the diabolical manipulations of such behavior, they can make sure that before someone is promoted, they can indeed count on that entity to back them, to lie for them, to cheat, to do whatever is necessary, even to kill if demanded for the sake of power. And therefore, the pursuit of power as an agenda for Satanism and the control and power over each other in the Satanist movement becomes the key factor in keeping everyone quiet, in keeping everyone in line.

This Awareness indicates that this is also a means whereby people in government know they can count on each other, and if someone slips or steps out of the Order, they will be eliminated by someone in the Satanic Order because each person in the Satanic Order is controlled by someone else, and will have to obey orders, and if the orders say to kill this fellow member, they will do so, or they themselves become vulnerable.

This Awareness indicates that this is the power that the Satanist movement gives entities, and entities getting into it for the sake of power must also realize they will be controlled by the power of other members and will never be free to escape. This Awareness indicates that there are few entities who ever can escape the Satanic movement, yet there are some who do.

This Awareness reminds you of the book *Be Wise As Serpents* and the entity who put this book together, for this entity put the book together with the information given to him by Satanists who had turned to him for help and who had turned to Christ as a means of escaping the Satanist movement and have told their stories, which this entity put into his book.

This Awareness indicates that there is much in this book that explains the Satanist movement. It is unfortunately not something that has been published in large editions and therefore is not easily available to the public.

#### FOLLOW-UP QUESTION:

Is the author that entity in Portland, Oregon?

#### COSMIC AWARENESS:

This is in the affirmative.

ED's Note: several years ago I ordered a large book called "The American Focus on Satanic Crime" Series Volume #1, edited by Alan H Peterson, Director of the National Clearinghouse on Satanic Crime in America. ## GORDON MICHAEL SCALLION EXPOSED AS A PHONY

(Beware If You Are on his "Earth Changes" Mailing List)

#### QUESTION:

Another question from Carole M. She writes: "In a related question on Scallion, the following was recently posted in the Millennium Matters Folder of America On Line, and it was the subject: "Matrix Institute; Gordon Michael Scallion to Art Bell. And it reads: "It's too bad you continue to host Gordon Michael Scallion. He is some sort of intelligence, possibly government, a totally fabricated individual. He appeared on the scene in early 1990. There is no record of him before then.

"His early biography varies incredibly with his current ones. His early work used the term "remote viewing" extensively. "Remote viewing" is a term that was coined by Soviet Intelligence during the Cold War for their government-hired psychics who gathered information for military uses. This is a term that is extremely uncommon, unless if a psychic was professionally trained for intelligence gathering. This term was never used by Edgar Cayce or Aaron Abrams Abramson, a truly gifted earth-sensitive.

"You notice that now he rarely uses the term since he has picked up more "New Age" jargon. The predictions that he makes rarely if ever happen. They are always extremely outrageous and designed more for response than for credibility. Another suspicion is that he is collecting names just for that reason. In the Eighties, Elizabeth Clare Prophet and Earth Changes Survival Group in Montana came under the scrutiny of the law when they were caught with illegal stores of weapons. Now that we've witnessed the horror of the Oklahoma bombing, it is certain there are security businesses willing to pay for lists of people interested in or part of Earth Change Survival.

"Since people rarely do things against another person, but usually for themselves, another suspicion is that he has been created to represent a consortium of business investors who wish to drive down the price of West Coast real estate; bring it down to bring in foreign money. Did you know that in the last five years, depressed Los Angeles real estate has been purchased at an incredible rate by the Japanese?

"Or is he just an average every-day nice-guy psychic who wants to share his gifts with the world, with a 1-900 number? I hope this information will provoke you to think. Suspicion is healthy. It allows the truth to emerge. You have a duty as a gifted journalist to state the truth.

"A final thought: The name is bogus. Gordon for the Gordo Tectonic plate that runs through California; Michael for Nostradamus; Scallion for Nostradamus's first mentor and teacher. Unfortunately you, along with thousands of others have been used in this cunning propaganda." And her question is: "Would Awareness please comment on whether or not there is any truth to the above, or is it simply more disinformation intended to discredit those who are trying to keep us informed?"

#### COSMIC AWARENESS:

This Awareness indicates that most of what the entity in the article indicates is correct. This Awareness indicates that this entity does have connections with certain government sources, and many of his earlier predictions, particularly those predictions of earthquakes in the 6 point to 7 point range which have been accurate, were accurate because the entity was informed of the intention of creating these earthquakes by certain government informants. This Awareness indicates that these being informants to him.

This Awareness indicates that the 6 point to 7 point range as that which is created from the use of cobalt bombs and earthquakes being created within that range are common to the activities of both Russian and U.S. government agencies when wishing to cause such phenomenon. This Awareness indicates that there are some instances when greater Richter Scale amounts have also been triggered by these cobalt bombs, particularly when set off in certain places, so that an 8 point earthquake is possible, even from the use of these cobalt bombs. In some cases, the extra low frequency, or ELF waves, have been used to cause the earthquakes, and the entity has been informed of these earthquakes prior to their events.

#### Why *Weekly World News* Keeps Predicting Extreme Weather

This Awareness indicates that the use of psychics to forecast events has been a way whereby the agencies can cover up their involvement by making it appear to be of a natural order. This Awareness indicates that you will recall that in the spring of 1995, *Weekly World News*, which this Awareness has indicated is a CIA-backed tabloid, predicted the hottest summer on record in which entities would swelter across the United States, many entities would die from excessive heat, et cetera, and the same *Weekly World News* predicted the winter of '95-'96 would bring extreme cold, worse than anything that had been recorded within the United States.

This Awareness indicates that thereafter, excessively hot weather **did** occur, not to the degree the paper indicated, and in the winter, excessively cold weather has occurred, but not to the degree the paper has indicated, but sufficient to be a classed as a severe winter. In some cases it was record-setting, depending on where you were and when.

This Awareness indicates that the reason for putting these predictions out is because there were to be weather modification projects such as that which is known as HAARP in Alaska, altering the jet-stream and using frequencies and vibrations to change the weather and to affect the jet-streams. And by stating that these predictions were based on Nostradamus' predictions of some 400 years ago, it makes it seem as though this was nature. The entity Nostradamus could not have foreseen that the U.S. government would someday create a project called HAARP, and therefore, attributing the prediction to Nostradamus, it would look like this was a natural phenomenon that was seen 400 years ago, and therefore could have nothing to do with government weather modification programs.

This Awareness indicates that it is simply a matter of using a smoke-screen to deceive the masses and to make it less likely that the masses would become suspicious if there were strange things happening to the weather, if records were being broken, and this would prevent entities from looking at the potential of government weather modification programs, because they have read in the tabloid that it was predicted some 400 years earlier by Nostradamus.

This Awareness indicates that Scallion, in predicting earthquakes, is doing much the same in regard to making these appear to be some natural phenomena that he is picking up on through his psychic attunement. This Awareness indicates that this may help entities to recognize that the entity's predictions may be more accurate than if they were strictly psychic, because the entity may have some kind of insider information to rely on.

This Awareness indicates however, some entities might prefer not to have their name involved in his mailing list for fear of being put on a government list.

## The "Toronto Blessing"—Laughing in Church

(One of Many Ways to Find the Spirit and Heal)

#### QUESTION:

Another question from Maxine B. It's rather strange. "What does Awareness think of "Toronto Blessing," where hundreds of people are slain in the spirit and break out into uncontrollable laughter at a church in Toronto, Canada. There are also similar manifestations at a church in Pensacola, Florida, as well as in other places. Is this a move of God for these 'last days'?"

#### COSMIC AWARENESS:

This Awareness indicates that it has been discovered that laughter can heal many kinds of illnesses. Laughter is a levitator. It levitates the spirit. When entities are depressed, or heavy in spirit, laughter is likened unto an elevator that lifts the spirit into higher levels. It is a way of releasing trauma. It is a way of releasing heaviness and depression and guilt and other negatives, and therefore, some of the churches have realized this and have made use of laughter to help heal entities who were very disheartened, very sad or very hostile, very unhappy, and it is something that has worked to help heal entities of even terminal diseases.

Not everyone can laugh their troubles away, but in general, the laughter helps at least to some degree. This Awareness indicates there are reports of entities who have not laughed in twenty or thirty years, but who attend these services and after several times attending, suddenly begin to laugh for the first time in twenty or thirty years, and find their laughter has had an effect on their illnesses, so that they become joyful and happy people, and the illnesses depart.

This Awareness indicates that in other words, religion doesn't have to be heavy, doesn't have to heap guilt. There are many ways of finding the spirit, and laughter is one way that can be used. If it is used properly, wherein entities are not laughing at someone to put them down, then indeed it can be uplifting.

#### FOLLOW-UP QUESTION:

I don't understand that term she used, "slain in the spirit."

#### COSMIC AWARENESS:

This Awareness indicates that this may simply be a term. It does not have to have any definition other than that which they give it. It is seen by some entities that they are slain in the spirit of God to break from their old negative mold and become free of that negative mold. This Awareness indicates that there are many ways to define what happens. It is not necessary to understand the term that she uses, as long as the principle of what occurs is understood.

#### FOLLOW-UP QUESTION:

Is there anything metaphysical about this, or does the preacher just crack one-liners, jokes and so forth, to get the people laughing?

#### COSMIC AWARENESS:

This Awareness indicates it is something that began; it appears this generally in earlier situations in which this occurred, the preacher would get up and start reading from the Bible. He would read something, generally quite sincerely, and quite solemnly, and someone in the audience would begin to giggle, and someone else would begin to chuckle, until someone broke out laughing. Others would break out laughing and then the entire church would begin to laugh, because it was contagious, and the laughter then began to affect those who were still being very solemn and very still and humorless, and this was the way it worked in the earlier churches that used this system.

This Awareness indicates that it was not a situation in which the preacher acted as a comedian in the usual

sense. He did not crack one-liners, he simply read verses from the bible, and the people began to create the laughter. But of course, there was some understanding before all of this happened, that this would be the way things went. It is probable that these entities in a small group worked out the plan and began to inform others within the church of what they were intending to do. They perhaps had seen the power of laughter help to heal others in other situations, and therefore knew that if they introduced it in the church it would have similar benefits. And therefore, the laughter started with the parishioners, rather than joke-making from the preacher.

This Awareness indicates that there is a movie that recently aired. It appears to be called *Loy*. This Awareness is not absolutely certain that this was the name of the movie. It was a movie about black people in a rural area wherein a tragedy had happened some years before, and a bridge was destroyed between the white section and the black section, and some of the entities in the town had great hostility and blamed losses on an entity in the white section, while an entity in the black section became a major force for holding the black section of town together.

This Awareness indicates it appears the story centered around a young girl who was visiting the town and did not know all of the rules that the powerful black lady had imposed on the town. She imposed rules on the town because she was the one who had the money to fund various things and events in the town, and therefore, had control through the use of her money.

This Awareness indicates the young girl visitor was involved in a joyful dance outside of the church and got several of the blacks dancing along with her, having great fun in their joyful dance, and the solemn townswoman who was so powerful saw this and stopped the action, and was very distraught over the activities of the young girl, but the young girl still didn't realize she had violated any law or done anything profane, and she kept expressing her high-spirited self, until even the townswoman began to like her.

Gradually, over a period of time, things began to happen. At one point the young girl was seriously injured by an accident and people thought she might not live, and when she began to revive, everyone was joyous and they again entered the church with joy at her revival, and even the people of the town inside the church began to express joy, particularly after the preacher himself made an announcement that religion didn't have to be all solemn. It could express the joy of God. Religion should be a joyful thing. And in his sermon, he began to lead the people into singing, and some of the people began to clap, and some began to dance, and the entire church was dancing joyfully, and with great excitement and spirited worship, and this little girl had been the basic cause of this kind of expression.

This Awareness indicates it is from this type of realization that many of the people who helped start the movement of the laughter movement in churches was inspired. If entities go to most black churches, they see this kind of joyful worship. They see joy in the worship of God, rather than the heavy solemn seriousness that is commonly associated with most churches. This Awareness indicates that it is from this kind of joyful worship that many of the concepts of laughter in worship were developed, and these churches that began to use this found that they had greater membership and more participants coming to the church for the joy of the spirit, and therefore, it has spread into different regions of the country.

## WHEN CHRISTIANS GET NAKED IN PUBLIC

### QUESTION:

I've read there is a religious sect in Canada called the Dukhobors, I believe it is; that these entities have a tendency to spontaneously get naked during their congregations and other times. Is this sort of the same thing? That as they all get naked and view one another they start laughing?

### COSMIC AWARENESS:

This Awareness indicates that the Dukhobors were a Russian group of people who did not understand English well, but who were being persecuted in Canada by some of the English-speaking people and were taken to jail. In protest, they took their clothes off. It was a way of protesting their arrest and this gave them the reputation of being strange or unorthodox or perverted, and it was effective in that they were then more carefully handled and left alone except in absolute critical needs for arrest, because it then became commonplace for them to use nudity as a protest for being harassed or arrested.

This Awareness indicates that these entities now are citizens mixed in with the regular population. They have their businesses in the towns. They are English-speaking for the most part. They do not now operate in a community of isolation. These entities are generally mixed in with other Canadians.
