THE IMMINENT MASS LANDING OF EXTRATERRESTRIALS: THE SHELDON NIDLE SCENARIO

Editor's note: As most of you readers know, this editor has always regarded *anything* that is channeled from the so-called "Spiritual Hierarchy," "Ascended Masters," "space brothers," etc. as pure cosmic "bull" emanating from dark forces and designed to deceive and mislead entities. In the past, Awareness has confirmed that often this indeed is the case. However, Awareness has also indicated that *some* of the information put out by Sheldon Nidle, namely about the Photon Belt, is mostly valid. Nidle's information supposedly comes from Pleiadians and other benevolent ET's. The following information now includes references to the so-called "Spiritual Hierarchy" etc. which to this editor raises a red flag. However, Nidle's dramatic scenario is really interesting and provides a solution to the Reptoid's New World Order without further spilling of blood. I hope what he predicts is true; he has really gone out on a limb naming dates and everything so the entity must be sincere. If it does not come off as he predicts, the following scenario could well occur later down the line, so keep the information in mind *Just in Case!* (Avaton).

QUESTION:

Awareness has gone into this subject of Nidle, the other night, briefly. Today we got a rather long communication from member David N., in Reno, who says: "I receive this electronic newsletter, and I'd like to ask Awareness on the validity of the information. Following are some excerpts from the newsletter." Its from the Center of Attention newsletter # 51, Santa Clara, Calif.

"**Sheldon Nidle Update**, November 7th, by Jason Dunlap." I want to read this because there's some areas of new information in here that may or may not be valid. It reads:

"On October 7th, the final plans were made for the mass landings and the time window was locked down, and the mass-landings will occur at any time now between November 11th and December 17th.

"Scientists from the Federation have discovered there are actually two Photon Belts, a small one and a huge one. The small one will arrive between the evening of **December 31st, 1996**, and the early morning of **January 1st, 1997**. The **second** will arrive approximately **10 days later**. Furthermore, agreement of some sort (which Sheldon wouldn't go into), was made with our government on October 28th.

"President Clinton and all high officials in Washington have known all about this for some time. There has been rumors on the Net and elsewhere that Clinton might make an announcement in the next week or so, however Sheldon says that when the mass landings begin there will still be a complete shut-down of mechanical and electrical systems, disabling the militaries. For all practical purposes, this will not be permanent. Apparently, the Federation will supply "suitable" energy sources after the landings.

"There will be many events prior to the landings that you may find yourself involved in. Within the coming weeks, some Light Workers will be contacted, either by the Federation, or their personal guardian angels, guides or counselors.

"It is expected that the landings will cause hysteria and fear in the minds of many. Those Light Workers who can easily be trained and made ready will be taken to ships for special training that will give them full consciousness and all that entails. As the landing window narrows, more and more Light Workers will be "awakened" (and I got the impression that all Light Workers are likely to be awakened, contacted, visited or in some way will have prior notice) before this is apparent to the main body of humanity.

"We should therefore, expect an escalation of phe-

nomena and special events being reported to Center of Attention beginning next week. If you begin to have stuff happen to you, please contact us. As for the rest of the "world," **events will begin about 72 hours before the landings start occurring**. That means you should at least begin to know this is really going to happen no later than **December 14th**. It could happen as early as tonight while I'm typing this!

"The order to start the landing will come from Arch-angel Zandriel. It has been emphasized before, and I'll repeat again, that according to Sheldon, this vast plan is authorized by our Spiritual Hierarchy and the Galactic Federation is operating under the supervision of our Lords of Light, the Christ, the Angels of Heaven, or whatever you want to call it.

"This phenomenal scenario will begin with calming, heavenly music that will be heard by everyone! As the music begins, a display of shooting stars crossing in the heavens will be seen everywhere that it is dark. At the same time your guardian angel will appear to you, in your mind, to reassure you of what is happening.

"**The role of the Light Worker:** Many people could still fall into denial and become hysterical, but for the most part, people will know that a profound event is unfolding and will just wait and see what develops. The landings will happen very quickly; 15.5 million ships descending and landing will be a spectacular sight, especially when it occurs in about 4 hours.

"Immediately following the initial landing in your area, all the Confederation Counselors will contact those they will be working with. Everyone is assigned a counselor and everyone will be told to prepare for a shift to full consciousness. Light Workers and all those that are spiritually awake will be asked to do meditations and special ceremonies in order to hold the energy on the ground just before the landings begin.

"Be prepared to give comfort and calm to the many around you that will be confused or hysterical. While the landings are going on, you may be summoned to the ships in order to help the counselors, scientists and technicians with their tasks. I suppose you'll just get a telepathic call that would direct you to where you are to go.

"In a recent conversation with Sheldon, it was clear that many of us will be very surprised when we discover who we actually are. Who knows, you may be some uneducated loser now, only to find out you are actually a Master Crystal Transporter Engineer, or something.

"**The government after the landings:** Many Light Workers will be asked to aid the personnel that will be establishing the new Governing Council. In the first week after the landings, Lord Zandriel will appoint a special committee of Light Workers that will be given full consciousness and be used as official liaisons between the Governing Council and Earth's human population.

"Somehow, I doubt Bill Clinton, or any other entrenched politician or military general will be on that list, but *you* might. All Light Workers will be specially trained to work with Federation counselors, technicians and scientists in order to create our new galactic society.

I know what some of you are thinking! "Wait a minute! What kind of 'special training,' and who's to say who a Light Worker is, and isn't this the same thing as an alien force taking over our government?"

"Obviously, I don't know the truth of these matters, and there is little to do about it, other than to either cooperate or resist. Our view of things will be much different when the time comes. I don't know about you,

but I have to trust my personal ability to know if the new governing system will be benevolent or the establishment of some unwanted alien power. I am well aware that I can be tricked, deceived and lied to. If that's the case, then I just have to believe that I'll be able to figure it out in time.

"The most you can hope for is knowing you are not stupid and you will not face the future with blinders on. All I can say is "Check out your fear!" If you move into a fearful situation, you must determine the cause of the fear. If you think your fear is caused by something being hidden from you, then see if you can reveal it. If not, then move cautiously.

"Regardless of how sure you might be about the "goodness" of what you witness, it is still all right to question and demand explanation and evidence when you are in doubt. Remember, a benevolent being will not consider you disrespectful if you question their authority or actions. Most malevolent beings use guilt, shame and ridicule as ways of shutting people up.

"Preparing for the Photon Belt: Without special preparation, the energy from the Photon Belt would kill us all. I asked Sheldon what he thought it would be like if there was no mass landings, no aliens, no interference whatsoever. I asked what if earth went through the Photon Belt on her own?"

He told me that it would be like everyone taking a thousand hits of LSD one morning. It would drive most people insane. Things would become totally chaotic almost immediately. The situation would be totally out of control, and then it wouldn't take long before the energy from the Photon Belt would kill us. That's why there must be intervention. We simply can't handle it without help."

"The excuse for putting everything off until the last minute, is that recently new technology was made available that would dramatically cut down on the time it will take to bring a person into full consciousness. The new technology is a type of mental "halo-deck," mind control thing, or something. Anyway, with it, they believe they can bring a Light Worker to full consciousness in less than two hours. Everyone else might take longer, but it is expected to only take two weeks to handle everyone in the entire world. Apparently, they are capable of giving us the same results as ten years in the monastery, in a matter of hours.

"The impact of the Photon Belt: Here I have some confusion. It seems that Sheldon is saying that there is this thing called a protective hologram that shields us from the effects of the "belt". From the moment of the mass landings, the Photon Belt energy will geometrically increase in intensity. I think this means that this "shield" will be weakening until it is completely removed on **December 31st**.

"It is apparently the nature of full-consciousness to endow us with the ability to survive these energies. Regardless of what level of preparation you might be in on **January 1st, within 9 minutes** after you see the initial, bright light of the Photon Belt, **you will become fully conscious**. All the training and preparation in the prior two weeks is designed to help you handle this experience.

"One of the more difficult things for us humans to accept is the notion that our planets and our stars are living beings and will be being affected by this event as well. So the Earth's declination will be changed to less than 6 degrees in order to lessen the effects of the belt by entering at a desired angle. Things will be done to our sun so that it will become a fully rejuvenated star.

"When the energy field first hits the Earth, the atmosphere will look like it caught on fire. Those that can see the moon will see it turn to a dark red, and the sun will seem to disappear. After a short time, there will be a sudden flash of light, and then everything will become iridescent and glowing. Light will be everywhere, even in the darkest cave. As you may have noticed, much of this sounds like the visions mentioned in the Book of Revelation. Why am I not surprised?"

"Hale-Bopp comet is not a comet: Hale-Bopp is actually a large spaceship carrying over ten thousand non-human ambassadors and/or colonists. Their arrival is part of the treaty that ended the great galactic wars, and it arrives **May 5th, 1997**. A colony will be established in the area near Alice Springs, in the northern territories of Australia. This colony will also take over the large underground base that presently exists in this region.

"The colony will not be a part of our Governing Councils, but will only be here to observe and will remain until the end of this 6th Creation. It is part of our destiny to be able to accept and to relate to every form of sentient life in creation. Apparently, this colony represents our challenge to do just that."

Hoax, Hoaxster or the Real Thing? By Jason:

"Over the last two years, Center of Attention has tried to bring deep thought and consideration to the various "end game scenarios" and find that there are basically only three. There is the Apocalyptic vision, the Status Quo vision, and what I'll label the "New Age vision".

"Sheldon presents a New Age vision that begins with the arrival of extraterrestrials, Angels, and interaction with the Spiritual Hierarchy of the Earth, a glorious vision without the negative aspects of the Apocalypse. Interestingly enough, is that the Apocalyptic vision ends in the same or similar result. The main difference is that one sees a necessity in human suffering through a period of being deceived, enslaved, and brought totally to their knees before God will lift His hand to intervene. All this in the interest of teaching us a lesson, or something.

"Sheldon's vision claims that the suffering and deception has been going on for thousands of years in wide-spread galactic wars. Finally, the Treaty of Anchara was made that ended these wars, and it is time to free earth from all suffering and a process termed 'Ascension'. The fact of the matter is, I don't see how we can tell if what Sheldon is saying is the truth, or whether it is a cunning trick for us to give up our planet to the "evil empire" without a fight. We just have to wait and see. Either way, the outcome is grand, indeed.

"There is one other thing to consider however. This *could* be an elaborate hoax, perpetrated by a corrupt and secret government in league with evil extraterrestrials. The purpose is simply to create chaos and confusion until there is an excuse to declare Martial Law and bring the New World Order into power.

"This is the vision of the Status Quo. It is a vision of an unrelenting force that slowly seeks to control the free will of everyone, and mold humanity into its vision of Utopia, with 'them' in charge and 'us' the slaves to their dreams. I cannot tell if the information that Sheldon gets is from a spiritually benevolent source or from an implant in his head. For all I know, there could just be a couple of secret government goons sitting in a van sending Sheldon telepathic visions, just to see how far we will go.

"Conversations with Sheldon convince me that he is not a con man or hoaxster. I also know that he is convinced beyond any doubt that he is not being manipu-

lated by the government, and believes he is informed from an impeccable source. We can't know that, of course. All I can say is we can put this scenario to bed before January 1st, if nothing develops. If nothing happens, and he wants to continue to drag us along, I see only a few options left.

"He could tell us that the Angels have intervened and are holding the Photon Belt until we are more ready. That could put things off indefinitely. He could also claim that we have been protected by a special hologram that was going to be removed, but now they've decided to leave it up for a few more years. I *don't think so*.

We at COA are now stuck in an interesting paradox. We are living in two realities simultaneously. We are planning and waiting for the mass landings and Photon Belt, while at the same time making plans for expansion and more in-depth reporting, if nothing happens.

"It's nuts! How do you make sensible plans for next year, when you believe there won't *be* a next year? Yet, we do. Stay tuned, 'cause no matter what... this is going to get real interesting."

That's the end of the statement, and the questioner, David N., asks if Awareness would comment on the validity of the information and any other comments *It* would care to make.

COSMIC AWARENESS:

This Awareness indicates this entity, in summing up and in releasing the information, has covered it from all sides, in a way that generally allows entities to recognize all the different aspects of the message. This Awareness indicates that as indicated, it does not require a great length of time to determine whether this event will occur. This Awareness indicates it is simply a matter of the next few weeks, and of course, if it does not occur, then there can be those other escape clauses wherein it is said that some shield or some operation has occurred to forestall the event.

This Awareness indicates *It* does wish to comment on the concern relating to whether it is a benevolent or malevolent incident, *if* it does occur. This Awareness suggests that if you see 15 and a half million UFO's; there is no 15 and a half million fleet of UFO's anywhere near this earth or anywhere near the solar system that could belong to a sinister government plan or plot, nor to the visitors from Draco or Zeta Reticuli.

This Awareness indicates if these 15 and a half million UFO's actually *do* present themselves, you would have no choice anyway but to go along with whatever they bring to your planet. This Awareness indicates therefore, it doesn't matter whether you think they are good guys or bad guys; you wouldn't have much of an ability to resist if they *were* bad guys.

This Awareness suggests, therefore, all you can do is observe and wait and see what is expected of you and of people on earth. This Awareness indicates, therefore, you have no choice, so you must simply wait and see. This Awareness indicates your judgment of their intention would be meaningless. You may simply watch to see *what* their intention would be.

This Awareness suggests, therefore, it is not a problem for you. It may be a problem, but it is not something that you can solve by getting pre-informed or by getting some kind of opinion so you can have your mind made up before the event happens, *if* it should happen. This Awareness indicates in other words, if indeed this *does* occur as the entity Nidle is said to have presented it, then you are in for a fantastic experience.

This Awareness indicates that indeed, it can be seen

as the one great event that the Dark Forces *never imagined* or never expected to upset their plans for the New World Order, for indeed, if it *does* occur as Nidle expects, or as he presents it, it is certainly *not* a part of the New World Order. This Awareness indicates if it *does* occur as Nidle expresses the event, then you can rejoice and find great happiness in what is happening.

If nothing happens, then you have been given a fantasy in your lives that had no basis and perhaps were diverted in some ways from your daily life, but indeed, as the entity says, it will be an exciting time, even if it is nothing more than anticipation.

This Awareness has already commented previously on this. *It* does not see it as a probability, but only as a *possibility*. This Awareness wishes to qualify again, that the Interpreter is simply perceiving what he as an Interpreter reads from this Awareness, according to the level of his attunement to this Awareness.

Hale/Bopp Carrying Reptoid "Ambassadors" ?

QUESTION:

The comment that the Hale-Bopp is actually a large spaceship carrying over ten thousand non-human ambassadors and/or colonists...

COSMIC AWARENESS:

This Awareness indicates it was interesting that the entity did not distinguish that these were of the Light Worker types, and that it gave some hint or implication that these were a challenge to humans and to the Light Workers. It is recognized that these entities from Draco, as Reptoids, may well be still in a cryogenic state and may be being brought in, or given a chance to be brought into this grand event, to give them the opportunity as ambassadors from Draco to become involved in the great changes that are allegedly being promoted on this earth planet.

This Awareness suggests that entities may wish to review that section of the information relating to those of the Hale-Bopp comet again, especially if the events come to occur as presented in this entity's scenario.

Could This All Be An Elaborate Hoax?

(More on Kissinger's "ET Card")

QUESTION:

From past information we know that there are factions in the government that use the latest technology: holograms, lasers, Tesla Towers, satellites and so forth, to dupe the public and to manipulate the public, so I was wondering, where he comments here, if *It* would comment on this possible scenario, that this *could* be an elaborate hoax perpetrated by a corrupt and secret government in league with evil extraterrestrials, the purpose simply to create chaos and confusion until there is an excuse to declare martial law and bring the New World Order into power.

COSMIC AWARENESS:

This Awareness indicates that this as that concept in which Henry Kissinger suggested "that it is time for the ET card to be played;" this meaning the extraterrestrial scenario. This Awareness indicates that this is a suggestion that perhaps this is simply an elaborate hoax by the government to get entities into accepting an invasion of extraterrestrials so that people would simply go along because there would be no other choice *but* to go along.

This Awareness indicates that the concept also would require that if the figures are correct according to Nidle, 15 and a half million UFO's would need to be used, or perhaps these could simply be some kind of reflections created through holographic technologies to give the *appearance* of 15 and a half million. This Awareness indicates that, however, there is also the possibility that

the number would be much, much less than what Nidle suggests and perhaps only a tenth of that, or one million, or one and a half million, or even a half million UFO's would still be enough to impress the masses after being told that 15 and a half million UFO's would come to the earth.

This Awareness indicates if only a number of 100,000 appeared on earth, or even 15,000 appeared, people would still say "Oh! It's happening, just as Nidle said!" This Awareness indicates that the numbers are not necessarily the requirement in fulfilling Nidle's prediction for the majority of people on earth. These people having heard this would still accept it as valid if these things were happening.

In such circumstances, of course, then the government could perhaps provide some 15,000 of these, particularly if they were working in conjunction with other extraterrestrials of a more hostile nature. This Awareness indicates the thing, however, that will bring about the distinction of whether these are Light Workers or are alien-type beings of a negative or dark quality, will be *how* these entities relate to the masses when they do make some kind of one-on-one contact, or when they present themselves, if this indeed does occur.

This Awareness indicates that if these are indeed Light Workers, if Angels are accompanying them, if your Higher Self makes it clear to you, or your own guardian angels start preparing you for this, you can be very comfortable in assuming that all is well and it is not a negative plot by a mad government. This Awareness indicates that indeed, you will be able to read the reality of what is happening regardless of which scenario takes place or what its true nature is.

It is not going to take a rocket scientist to determine whether these beings are negative or positive in terms of their motives and their spirituality.

This Awareness indicates of course, at the same time, according to the scenario given, at the same time this occurs, you will be coming into contact with the Photon Energy which is going to heighten your sensitivity to the point where you will be much more aware of what is happening, just because the Light Energy, the spiritual energy, your own intelligence, and everything about your being becomes highly enlightened to the point where you can perceive truth with much greater clarity than ever before in your entire life.

This Awareness indicates this of course is contingent on whether or not the scenario as given by Nidle actually occurs as stated. Keep in mind that the entity Nidle also predicted the landing in October of this year. This Awareness indicates that this does not mean the entity has deceived you or has made a major mistake. Perhaps it was simply, as suggested, the landing was prepared for October, but put off briefly until this present time, in which case, the entity Nidle would not necessarily be responsible for the mistake in his message.

This Awareness indicates from the point of view of the Interpreter looking at this scenario and seeking from the vibration which is this Awareness to interpret what is seen, it does not appear to the Interpreter that this is a reality that is being presented, but is a kind of fantasy, a very well developed fantasy which the entity Nidle believes, but which does not appear to be absolute or totally real.

This Awareness indicates the Interpreter also sees, however, that this Awareness, or the Awareness which he is attuning to, is simply not giving any assurance that this is real, but is not actually denying the reality totally

either. It simply creates a sense of energy that suggests the Interpreter relay information as truthfully as is possible, given what he is provided from the vibration which is this Awareness.

This vibration or frequency is not providing the Interpreter with a clear or absolute answer to the question that many may ask: "Is this for real?" because for one thing, the frequency or vibration that is Cosmic Awareness, sees no need to provide this information. The time is close enough and the energies will become clear so that entities will know within a very short time whether it is real or not, and the waiting and the anticipation does not need to be settled at the moment.

Therefore, the frequency or vibration that is the Awareness does not see a great need to provide some kind of release from any anticipation that the readers might have. For the Interpreter to try to provide that release from any anticipation or uncertainty; this by the Interpreter would simply be groping at the energies and the energies not being clear could very well cause the Interpreter to misread.

In other words, it is not available through the Interpreter whether the message from Nidle is absolutely correct or absolutely incorrect, and entities can wait and see. This Awareness or this Vibration suggests to the Interpreter that the message can be seen as a matter of uncertainty. There is nothing wrong with uncertainty. There is nothing that says entities who subscribe to these readings *have* to be satisfied at all times, *have* to know everything at all times from this frequency or from this Awareness through the Interpreter.

Entities can still have uncertainties or anticipate the danger with an uncertainty, and experience the events of life with the same kind of uncertainty as everyone else. This Awareness indicates there is not seen a great need for entities to have an advantage over others in society by knowing ahead of time what is occurring.

This Awareness indicates the fact of having the information from the entity Nidle as to his perception of the coming days gives entities an opportunity to prepare themselves for this contingency, and this Awareness indicates *that* is all it is: a contingency, a possibility.

QUESTIONER:

Well, if it was true, we wouldn't have time to print it out and give it to the members in time to prepare for anything, if these dates given are correct.

COSMIC AWARENESS:

This is in the affirmative. You could spend an enormous amount of energy rushing and trying to mail this out First Class. It could cost enormous amounts of money to get it to them, only to arrive late, and possibly with futility. If nothing has happened, or nothing occurred, then it would be futile anyway.

Ed's Note: As it so happened, there was space in this regular mailing to include Nidle's scenario, which I felt you would all be interested in reading, even if this mailing arrives after some of the dates mentioned. In the past, Awareness touted Nidle's "Galactic Human" book, implying much of the information was valid, and CAC dutifully published many pages on his material. Thus, in your editor's opinion, you have a right to read, digest, and consider the above new material from this entity.

THE COMING INVASION OF AMERICA

(The New World Order operating in Canada)

QUESTION:

We received through the Internet a rather interesting scenario out of Canada, some of which makes sense, based on what Awareness has given, and other parts seem like new information, so I'll read it and ask Awareness to comment. It comes from the SAFAN Internet newsletter #129, November 15, 1996. Those

initials stand for "Stop All Federal Abuses Now."

The Coming Invasion of America, posted by Roger D. Cravens, who states "the following is most of the message printed in the Prophecy Club Newsletter, dated November-December. For reprints and newsletters call or write the above at box 750234, Topeka, Kansas, 66675, or call 913-478-1112.

"From intelligence sources in Canada and New England: Preparations for the coming invasion of America by Russian New World Order forces are progressing rapidly in Canada. As candidly admitted to me by many Canadians, (including the author and lecturer Grant Jeffrey of "Final Warning" and many other books explaining the coming New World Order takeover) Canada is totally sold out to the New World Order and its heinous agenda of world domination.

"America has long been a thorn in the flesh of New World Order planners because of our Christian and patriot heritage and its isolation from Europe. With little over three years left to move this Western hemisphere into their New World Order agenda by the year 2000, they are making rapid use of Canada's willingness to betray America into their control.

"How is this taking place? Canada has opened her doors wide to New World Order military forces including German, Russian and Chinese. As Grant Jeffrey admitted to me personally one month ago: "We have more German military forces in Canada now than we do Canadian military forces!" Indeed, for next to Dease(sp.) Lake, Canada, Germans have been handed a military air base for their use. They are actively practicing bombing and strafing runs for the coming invasion of America, much as they are doing down at Holloman Air Force Base, which has been permanently turned over to the Germans in new Mexico.

The traitorous New World Order elements within our own government are fully aware of the motives of the German New World Order forces both in Canada and America, and welcome their presence into the Western hemisphere as part of the solution to subduing patriotic Americans who simply refuse to surrender national sovereignty to a foreign power.

"Russian and Chinese forces are also very active in Canada. They are "rebuilding and strengthening railroad tracks for the anticipated heavy use of railway transportation of incoming military personnel from the West Coast" (both Russian and Chinese forces) as well as transporting military vehicles and armaments and food supplies. New tracks are also being laid between border states and Canada.

"Those people who are arrested as resisters or dissidents will also be transported to specially prepared prisoner boxcars to the death camps already established near the border, such as the one near Cut Bank, Montana. The death camp outside of Cut Bank has been conveniently located right off of a major AMTRACK express line in the anticipation of transporting resisters and dissidents conveniently to their deaths by rail.

"Reports have been received from INTEL sources nationwide which indicate that certain boxcars are quietly being renovated from the inside so that they can be used for prisoner transport to such death camps. Preparations noted by eye-witnesses include shackles being bolted into the walls to restrain those taken prisoner until they reach their final destination.

"From our intelligence source in Florida, we know that Russian train engineer experts are already being trained in how to operate American engines and how our rail system functions. Russian railway procedures

differ from American. At least 50 Russian engineers are in training presently in Jacksonville, Florida. Many others are apparently being trained in other locations as well.

"Already seen being transported on these train lines are huge power generators to various locations in Canada, in anticipation of the planned power outages that will be triggered deliberately both in Canada and America as the planned takeover methodically takes place.

"Incredibly, we now have information that the Russians have finally succeeded in bridging the gap between Siberia and Alaska through a vast underground tunnel. Although documented in more than one newspaper report in Western Canada, the American news media has remained silent on this feat. Russian civilians (??) are known to be coming through this tunnel, 100 per month, plus heavy military artillery.

"Also, there is yet another tunnel that has been built from Siberia to Northern Canada, this one being used for railroad transportation purposes.

"The extent of the American government's betrayal of her citizens can be further evidenced in the fact that these Chinese and Russian forces are receiving payment for their pre-invasion activities through the International Monetary Fund, issued on American government checks.

"In anticipation of the coming invasion from Russia and China, Canada has even gone so far as to disband its Western Coast Guard Division, thus they are open to amphibious invasion forces. According to our veteran intelligence source in New England, the Chinese are very much anticipating an amphibious invasion of America from the West.

"This was openly evidenced recently through the presentation of a documentary report over the BBC television in London which detailed amphibious assault forces practicing war maneuvers and strategies in the Formosa Straits. When BBC newsmen were permitted to interview these soldiers in training, they repeatedly asked them the following question: "What are you preparing to use this training for?"

The shocking consistent reply was "For the coming invasion of America." When it became clear that a gaff in security was created by airing this broadcast over television in England, its scheduled re-broadcast for the next day in London was hastily canceled.

"(Speculate no more on the suspicious suicide of Admiral Michael Borda. I was informed he was terminated because of his refusal to cooperate in the covert plans by the traitorous New World order forces within our own government, to assist in the coming invasion of America. When he refused to go along with the plan to covertly bring Chinese forces into America through the use of his own Navy vessels, orders were given from on high to terminate him.)

"The message is clear. This message is to inform those who may not know the magnitude of the New World Order and its massive agenda. Be wise and investigate for yourselves. We are not getting the truth from agents of government. Examples are Vietnam, Waco, Ruby Ridge, Militias, TWA Flight 800, Oklahoma, et cetera, et cetera.

"Beware and prepare, and God bless America! We need His blessings. P.S. Forgive the spelling."

Would Awareness comment on this information?

COSMIC AWARENESS:

This Awareness indicates the information is seen as

that which is indeed based on fact. This Awareness indicates it is all part of the plans of the Dark Forces. This would be an excellent reason for the scenario presented by Nidle in which some Light Forces would have the perfect timing to come in just prior to such an invasion.

This Awareness does see this as being a time in which the need for such is indeed great. This Awareness suggests that otherwise, humanity is indeed in a great state of chaos, as these forces of the New World Order attempt to implement their controls over this country. This country as being the last fortress for freedom.

Others throughout the world had not tasted freedom in the way those in the United States have, nor do they have the hunger and desire to keep their freedoms, nor do they understand the value of such freedoms. Many of the entities in the United States today have been persuaded to give up freedom for security, but there are still such a large number of Patriots, such a large number of entities in various religious organizations or just of conservative natures, to want to retain the freedoms they have been given through the founding fathers of this country and through the historical traditions of this country.

This Awareness indicates therefore, it is the last fortress on earth for the protection of freedoms, and indeed, the New World Order is well aware that it cannot make itself all powerful without *first* subduing the United States. This Awareness indicates *It* does not wish to create great alarm in this regard. It is a very serious situation, but there is always hope. There is always that unknown factor, the factor of people doing things that the Dark Force just cannot handle.

Light Forces and Light Workers are indeed more powerful than the Dark Forces even though it does not always appear to be so. This Awareness indicates that Light Workers shine the Light of truth, whereas Dark Forces are caught in the spotlight, and therefore, they show up more. Their actions are recognized, are seen, and they are often emphasized with greater attention so that people see what the Dark Forces are doing and become alarmed; but many times entities fail to realize that the Light that is shining the spotlight on the Dark Forces comes from the Light Workers, from those who are of a higher status in the war between Light and Darkness.

This Awareness indicates these Light Workers are aware of the Dark Forces and their plans and their activities, and in shining the Light on them, may become alarmed at what they see, but the very fact of putting the Light on these nefarious deeds helps to expose and helps to diffuse the power of their work, for Dark Forces like to work in darkness, like to work behind the scenes in the shadows. They do not like being exposed or being seen for what they are.

Therefore, the exposing of information such as this is a major victory for Light Workers, and can help to diffuse the power that might have otherwise developed from these secret activities. Putting these Dark Forces out in the open, out in the spotlight, is a way of diffusing their power.

Spread this Information Far and Wide and Spread it Now!

This Awareness suggests that this information should be spread as much as is possible, whereby entities can pass this on to their friends, make copies or send these messages to others, to churches, to Patriot groups, et cetera, so that as many as is reasonably possible can see this information and what is planned, or what is developing from your neighbor to the North, and from the plans that are being developed through your corrupt

officials of your government.

George Washington's Vision Could Come True

QUESTION:

Over 200 years ago, George Washington had a vision in which he saw, (and this was published a number of times) Chinese by the tens of thousand, invading the West Coast of America and swarming over the Western States, but being defeated at the Rocky Mountains by the citizens.

I've always thought: "What an incredible and impossible vision that was!" but with this information tonight that the Chinese are *very much anticipating* an amphibious invasion of America from the West; that vision seems very practical, and possible.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness indicates that this is a vision in which he not only saw the Chinese halted at the Rocky Mountains, he saw them being halted by *Divine Intervention*, which may be when the extraterrestrials actually come in to assist the people of the earth in warding off these Dark Force plans for the New World Order, for it is clear to these entities that the New World Order is designed for the benefit of the Orion Greys, the Reptoids from Draco and their associates.

Therefore, it is seen as a good time for the vision that Washington had. It is seen as a good time for this kind of Divine Intervention. This Awareness indicates whether this occurs before this kind of invasion or whether it waits until the invasion occurs, is yet to be made clear. This Awareness indicates that if indeed it were to occur as the entity Nidle perceives in *his* vision, prior to such an invasion, prior to the plans of the New World Order in their planning stage before they get sufficiently, then indeed, more lives would be spared and the great battle would be avoided and the power of these Divine Forces could change the course of history, avoiding great bloodshed, avoiding great suffering on the earth.

Our Changed Consciousness Now Deserves Redemption!

This Awareness *does* wish to suggest that there have been great changes in consciousness on the earth, and it appears that these great changes for the movement into spirituality have indeed been strong and deserving of a kind of redemption for humanity, which has the nature of voiding the need for a purging or blood-bath on the earth, and therefore, the earth deserves a reprieve from the terror of such conflict associated with the Battle of Armageddon.

This Awareness suggests that entities work on attuning to the Light, to help move things in this direction further, particularly when the energies of the Photon Band have their effects on the people of the earth, for these energies can bring about extremely fast enlightenment for entities who move with these energies. This Awareness sees these energies as becoming strong in the time of February of 1997, which could be well in advance of any Dark Force plans for conquest of the United States.

Why Suddenly all the Mars Probes?

(More on Alternative 003)

QUESTION:

There's an item in today's paper called "Russians Declare Mars Probe Ready". Moscow-- A booster rocket was hauled onto a launch pad Tuesday, ready to hurl a new spacecraft at Mars in a do-or-die gamble for the struggling Russian space program. Mars '96 set for launch atop a Proton rocket, at 6:45 PM Saturday, is part

of a flotilla of Mars bound spacecraft that include two US missions this year.

"The impoverished Russian space program and a cadre of dedicated designers have a lot riding on Mars '96, its first new craft in a decade. Mars '96 is to investigate the evolution of the Martian atmosphere, its surface and the interior of a planet where some scientists say there is new evidence of life.

"Success could guarantee Russia's place in the top ranks of space exploration and keep some of its finest space scientists in business."

Would Awareness explain why there is a sudden rush to send these rockets to Mars? Is it really for what they just stated here?

Ed's Note: A few days after this reading was given, a booster rocket on Mars '96 failed and the half billion dollar venture crashed into the sea near Australia.

COSMIC AWARENESS:

This Awareness indicates there has been the Mars colony for quite some time; these being discussed in *Alternative 003*, wherein there have been entities on Mars already. These entities being connected to, and working with Orion Greys on Mars and other extraterrestrials including the Draco Reptoids.

This Awareness indicates it appears to be an activity that is connected with future plans for that which is related to the Dark Force's "ET card," which they may not get a change to play, but which they are proceeding with in a way that they expect to help them in their plans for using the extraterrestrial forces for moving humanity into the New World Order, and organizing the world under a new government structure.

This Awareness indicates this information that is being provided does indeed confirm that the scenario given by Nidle is not that of a negative trick of government or part of the New World Order agenda, for these entities with their New World Order agenda are still in a relatively primitive state in comparison to that which the entity Nidle sees in his vision of the coming weeks.

IS THERE A SIMPLER VERSION OF THE BANISHING RITUAL?

QUESTION:

In recent months, we've asked a number of questions that members have sent in about strange apparitions and phenomena occurring in their homes, and Awareness has indicated sometimes that these are caused by the Photon Energies, and moving into the other dimensions, and other times they're actual spirits and so forth, and *It* has suggested in some cases that they use the Banishing Ritual.

Well, we keep getting letters from people asking us to send them information on how to do this. And I dig out copies from some of the ceremonial magic books, but it's long and involved, and a lot of people say that it's too complicated;--the flaming sword, piercing the pentagram and so forth. So, I'd like to ask Awareness if there is a *simpler* version to banish these entities that isn't near so complex as this, for people in the membership who have *not* gone through Development Classes and know how to do this.

COSMIC AWARENESS:

This Awareness indicates that the energy you put into something is that which gives it the strength. If the entities do not wish to put energy into it, then the banishing ritual will not have the strength that they seek. This Awareness indicates the entity David Worcester, who was a previous channel for this Awareness, used to do a short-cut version of the banishing ritual where he would simply take his finger and make a quick penta-

gram.

Of course the pentagram for banishing has the point at the top, *not* at the bottom. The point at the bottom is an invocation ritual and has been used in certain Satanic rituals in which entities would invoke Satan, and this is nothing that this Awareness would advise. It can be extremely hazardous to entities, but to banish a spirit, rather than invoke the spirit, or to banish energy rather than invoke the energy, you make your point at the top, then come down to the right, then over to the left, straight across to the right and down to the bottom star point. This Awareness indicates this is essentially the movement of the star.

In the banishing ritual as it is originally given, you do this with a blue flaming sword. You visualize yourself holding a blue flaming sword. Go up to the top, in front of your eyes, down to the bottom near your right foot, across toward and past your left shoulder, over to the right, then down to the floor by your left foot, outside of your left foot.

This Awareness indicates in the banishing ritual as given by certain secret organizations or certain presentations, they would use certain sounds or words in connection with this. All of this elaborate detailed effort allowed the entity to put more energy into it, and the more energy put into it, the more energy would the ritual have. However, if entities do not wish to put the energy into it, and wish to keep it simple, they may either do it with their arm, without saying any words, without any concepts of ideas or words accompanying their forming of the pentagram, or they may simply do it with their finger and not even have to move their arm.

This Awareness indicates, however, if it is not working for you, you may need to add more energy to make it work better. If you cannot rid your house of some negative spirit or ghostly entity, then try using your full arm and doing a banishing ritual in that way, and if that doesn't work, do it while visualizing yourself holding a blue flaming sword, and if that doesn't work, then you may wish to use the words also that are given in the banishing ritual as it was originally presented through the *Organization of Awareness*.

This Awareness indicates the other aspect of this banishing ritual was that in its original state it was performed in all four directions so that you had four pentagrams, one in each direction, and you would banish in all four directions while thinking of the thing you wish to banish, focusing on the energy you wish to banish.

Remember: Never Banish People—Only Spirits!

This Awareness suggests that you be very careful in using this that you do not banish people. You may banish the negativity that a person brings into your environment, but do not banish the people or the person. You may banish the spirits, or banish the negativity. This would even be better: just banish the negativity or the Dark Energy.

This Awareness indicates there is also another approach you may wish to consider, and that would be wrapping this Dark Force or spirit or ghost or whatever, in White Light. This Awareness suggests that you may also wish to call the spirit to you, quietly meditate on the energy of the spirit, call it to you and tell it that it can go elsewhere. It is no longer required to be here.

Often these spirits are nothing more than astral energies left over after a person or spirit has gone on, and the astral energies are lost. They do not know what to

do. They hang around the areas where their master or their body once was, or where the spirit to whom they belonged once was, and they hang around that area in a kind of uncertainty.

How to Talk to Spirits or Astral Energies

This Awareness indicates when someone else moves into the place where they used to live with their master or spirit-body, they see this as an intrusion, and try to protect their area against the intruder, and sometimes all that they need is to be told: "You can go somewhere else now! We'll take care of this place for you!" and this Awareness indicates that this helps them to feel a sense of freedom so that they may move on into some other kind of activity.

This Awareness indicates that not all of these astral spirits or spooks really want to stay around to haunt an old house. They feel it is an obligation. They are simply waiting for their spirit to whom they were attached to return, thinking that it will return. This Awareness suggests that you may indicate or give them a suggestion that they can go into a plant or a tree and rest.

Many times these energies simply need something else to attach to. If they can attach to a tree or a plant and find rest, this can be helpful to them. They are disturbed and they are restless and thus, they wander around in their old haunts, haunting those places. This Awareness suggests you wrap yourself in White Light and wrap them in White Light and send them on their way, with gentle kindness of course.

YOU WILL FEEL GREAT WHEN PHOTON ENERGIES APPEAR

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates the suggestion that entities are entering the Photon Belt at this time appears to be erroneous. It appears that entities have just recently left the Photon Belt and that the earth will be re-entering in February or late January. This Awareness indicates that when these energies again begin to emerge, when the earth again passes into this Photon Band or Belt, entities should experience an increase in the sense of well being, a spiritual uplift and a recharging of energy in their body as a kind of increased vitality.

This Awareness indicates that even the health of entities should begin to improve somewhat. Once the earth re-enters the Photon Belt it appears it will not leave for several years to come. It will remain within the Photon Belt for at least 5 years without any leaving and then it will gradually begin to diminish sometime thereafter.

It is during that time when it is in the Photon Energy that entities will begin to clearly reach new levels of spiritual development, wherein the heightening of the consciousness of people on earth will occur.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Artist's Dilemma: Why Keep Going If It's All Coming Down, Anyway?

QUESTION:

A question from Weus M, Philadelphia, PA. I'll read his statement. "I have a few questions for Awareness about projects that artists, writers and musicians have, and if we invest all this time and energy into these projects and much money, then turn around and read or hear something of a coming "storm" such as a plague or a war, but this plague or "New World Order" has not materialized as of yet; what's the use of being creative or putting all this energy and money into these projects knowing they most likely might be bowled over by these monstrous negativities?"

"It seems best to put the money and energy and time preparing oneself and others for these calamities instead of artistic or literary pursuits. It might seem like I'm playing Devil's Advocate here, but this dilemma expanded so much within me, it nearly destroyed my writing pursuits and my musical pursuits are almost naught. What kept me going was the Awareness message of "stopping to smell the flowers," but if there is a storm coming, how can one stop for long periods, periods that could be needed for true serenity?"

"In order to "save" my own writing motivation, I had to make an inner compromise to publish the non-fiction over the fiction, though the fiction I see as dessert, while the non-fictional ideas I see as dinner. In other words, I have made extreme attempts to push the non-fictional truth, with the fiction written as entertainment, boxed up and sealed until 2,006 AD, if I live that long.

"What does Awareness see on these dilemmas of the self to express itself through the obstacles of turmoil?"

COSMIC AWARENESS:

This Awareness indicates this is a very interesting question. This Awareness indicates that the Interpreter also has experienced this same dilemma. This Awareness indicates it was not the ambition of this Interpreter to become an Interpreter for this Awareness, nor to get into these areas of concern. This Awareness indicates the Interpreter was also a fictional writer, seeking to write plays, and studying for many years in play writing and so forth.

This Awareness indicates that it has been and still is part of the Interpreter's desire to finish a play that he began back in the 1960's. This Awareness indicates that the situation is such that it does not appear to be necessary for you to waste your life in focusing on the world at large, but that it could be to your advantage to go ahead with your artistic pursuits; give them full attention. This Awareness suggests that it appears that much of that which is going to occur in the real world will occur with or without any great attention of your own, and that whatever you could do to help change things would be relatively minuscule.

This Awareness indicates that indeed, if you wish to stop and think about it, even the entire organization and movement of energies through this Awareness and through the organization of *Cosmic Awareness Communications* is that which would be relatively minor in the overall scheme of things. This Awareness indicates that of course, it is important to do what is possible to make things happen in a way that everyone desires.

How the Bees Won a Battle in World War II

This Awareness indicates it is very similar to the energy that might occur, or may have occurred in World War II, when a beehive fell from a tree during a battle, and the bees, angered, came out and began stinging the

soldiers working around the artillery guns so that they were unable to fire their weapons accurately, unable to fire them on time, and it had an effect of disrupting the battle itself.

This Awareness indicates that the bees, in their pursuit of their own interests and being disturbed by the battle that was occurring, thus helped in the battle for the opposing side to hinder the attacking forces using the artillery. This Awareness indicates that this of course, was not recorded in your study of World War II because it did not have a great enough effect to be noticed by sufficient authors or writers describing the battle.

This Awareness indicates it is much the same with the work of CAC and the messages from this Awareness, that these may not be noticed in the annals of history; the information being forthcoming during this time may not ever be of any great significance in terms of historical record. This Awareness indicates, however, what is done is done, and the entities involved know what they have done in terms of the efforts they have put out to help preserve freedoms on this plane, and in their efforts to pursue and preserve the spiritual life on this plane.

This Awareness indicates that in your own activities and your pursuit of your purpose of and direction in life, it is possible that what you do in an artistic sense may even have a more lasting historical record in the annals of history, and it may be that your greater work could be in the pursuit of your artistic endeavors.

This Awareness suggests that it is the same with every other entity; that there is often a driving force within an entity wherein the entity has this purpose and direction that is part of his life's goal or life's purpose. It is instinctive, deep within the entity's soul, and to short-circuit or disrupt that purpose and direction may not be to the best interest of the individual, nor even to the good of humanity.

This Awareness suggests that you continue pursuing your artistic interests and that you simply keep aware of what is going on in the world, and if you wish to continue reading the messages in order to help keep yourself aware, that is all the better, but this Awareness does not wish to see you circumvent your purposes for which you came upon this plane to pursue, simply because this Awareness is giving information to keep people alert and aware of the situations that are developing on a broad historical level.

This Awareness indicates that **It does** see a future that will be beneficial to entities on this plane. It does not see the New World Order actually ever completing its agenda and plans, but It does see the necessity to keep entities aware of these efforts by those Dark Forces, because being aware is part of the healing process to help prevent this from ever actually developing in its totality.

This Awareness indicates if you ignore something that is hazardous, if you ignore a disease that is developing, *that* does not cure it. If you are aware of it, *that* can be the beginning of the curing of the problem. This Awareness indicates *It* keeps entities informed because there is a problem that needs to be given attention. This Awareness does not ask entities to sacrifice their purpose and direction of their lives, just to be worried about or participate in some kind of conflict against the forces that are acting negatively upon this plane.

Does One Entity Visualizing World Peace Really Help to Bring it About?

QUESTION:

A question from Bruce T. that he sent over the Internet. He writes: "Once many years ago, during my

meditations, I would visualize the United States and Russia, at the time a big empty space on maps, and the "evil empire" conducting business with each other. I figured if the government just got out of the way and let people do what they naturally do, then we, the two nations, could work things out.

"I figured that if people could make money somehow, then they would just do business with each other and quit worrying about ideologies, politics and all those things that don't really matter that much, and simply start to help each other. You must understand that at the time this was completely preposterous, inconceivable, absolutely out of the question. It could just **never** happen! But, as you know, it has, to some extent, happened.

"In fact, after being in the military for many years, it was somewhat shocking to see a group of "Russian scientists" strolling about in the control room of a U.S. nuclear power plant. They were in fact given guided tours of several plants in technical exchanges after Chernobyl. It seems so silly after all these years of being indoctrinated about technical information being "classified" and not for release to foreign nationals, et cetera.

"Somehow, I know that my meditations helped to create this change. While far from being ideal, this particular situation is somewhat improved. I am not being pretentious or megalomaniac. I know there must be millions of "us", whatever "we" are. Isn't it true that if more people only *knew* what effect their thoughts and visualizations can, do, have, then couldn't we,-- I should say, *don't* we create and change the world?

"Many people visualizing and meditating is best, but every individual can over time create a real big effect," And he asks: "Would Awareness care to comment?"

COSMIC AWARENESS:

This Awareness indicates that this is indeed true. This Awareness suggests that entities who have been privy to these messages over the years will see a familiar message in your expressions; that there have been similar discussions previously about the trade of business between the enemy countries so that as business increases between the countries, the motive for war would be less likely and the need for peace would be enhanced.

This Awareness indicates that people do not want to have conflict with their trading partners when those trading partners are from foreign countries and therefore, the act of trading or exchange students, or other means of commerce and communication between foreign countries, is a way of reducing the likelihood of violent confrontations.

This Awareness suggests that for you to see all this clearly on your own from a military background indicates a high degree of clarity and awareness on your part. This Awareness indicates that for you to recognize the importance of entities setting aside these paranoias in regard to dealing with enemies, to take up a more wholesome approach to life and to the differences between countries, indicates that you have moved far in your development and in your understanding of what it takes to find peace between yourself, your people and others who are somewhat different from you.

This Awareness indicates of course, there are many in the government who understand this principle quite well. There are some in the government who are used or are using others and have in the past recognized the way by which the cold war could have been brought to an end sooner, but because of their certain agenda or the agenda of their superiors, they had to go along with

these plans for keeping the two countries at odds with each other.

Part of this was because it was a long term scheme or plan to use the resources of each country for certain purposes that would later be part of the agenda for bringing about the One World Government, or that which is the New World Order.

This Awareness indicates that in other words, the entire Cold War was what could be called 'artificially created' by people in higher positions that keep this Cold War going for a certain duration and for a certain purpose, and it was never necessary in terms of the fear between one country and another except as that fear was artificially created by those entities in higher places, and for their particular agenda.

CODE WORD FOR CLASS WAR

QUESTION:

We received over the Internet from *Conspiracy Nation* a rather interesting posting. It's called "Code Word For Class War" and I'll read this and ask Awareness for a comment.

"As the gap between rich and poor widens with consequent disappearance of the middle class, the name of the game grows clearer. Now we can see the circa 1980's "Getting Tough on Crime" as a code for "Keeping the Poor under Control."

"Keeping the Poor under Control" covertly means "preventing them from organizing to wrest material wealth from you, the middle class." But now, with over one million of the poor "under control" here in the United States, it is found that the cost of doing so in itself takes money from the pockets of the disappearing middle class.

"So the next big push may be to reduce the cost of keeping the poor imprisoned, with possible code words: "Don't molly-coddle criminals," or look for privatization promoted as a way to reduce loss of wealth from those who pay to keep a portion of Have Not's "under control." Another code word has been "Welfare Reform," with some appeal to a declining middle class anxious to hang on to what little it's got left.

"So, using the code word "Welfare Reform" as "Getting Tough on Crime" has been used earlier, class is pitted against class to the primary benefit of: guess who? Working against the trend of keeping the poor "under control" is the disappearance of the middle class, with most of them moving into the poor class, so the poor class is asked to pay to keep others of their class "under control."

"Hence, 'Tough on Crime' code words no longer appeal to as many as before. We're all increasingly poor, so who cares if some poor are kept "under control" so as to protect the wealth of those few who still have it? Thus, "Tough on Crime" is less appealing as a disguise to keep the lowest class under control.

"How will those on the rich side of the fence protect their wealth now from the growing hordes on the other side? Their main hope is to let loose with "some" of their wealth so as to shore up the middle class bulwark which protects them from the poor. For now we see them rethinking, if "down-sizing" was such a good idea. They are rethinking, because they see **their** high position threatened, not because they've suddenly acquired a conscience or anything like that!

"Other than shoring up the middle class by letting loose with a few crumbs from their table, the elite class might fall back on their old standby, a foreign war which has the effect of greatly diminishing the numbers

of the poorest class. Maybe they will be so "kind" as to offer amnesty to certain prisoners provided they go overseas and shiver in fox-holes, all for some "noble purpose" which some chimpanzee somewhere will type out on a typewriter.

"Or, the very wealthy may just resort to genocide, perhaps with help from "kindly" doctors or foreign mercenaries, now already on U.S. soil. But if they totally eliminate the poorest class, *who* will they then enslave to produce more wealth for them? How can they eliminate the slaves?, i.e., servus, meaning 'slave class'? Who will be their waiters and waitresses? Who will mow their lawns and haul away their garbage?

"A tricky dilemma for the super-wealthy ruling class! They can hire intellectual servants to compile statistics and churn out mathematical formulae, but all the tricks in the world won't make two plus two equal three."

That was the statement.

COSMIC AWARENESS:

This Awareness indicates the entity has summed up the general situation quite clearly and accurately. This Awareness indicates that the super-wealthy still have many plans for shoring up their controls. What they realize is that the massive numbers of poor people are essentially a threat to their wealth, and they have had the middle class as a buffer for some time, but the middle class is now being stripped of its wealth, and they are moving toward a two-tier level: the super-wealthy and the super-poor.

The super-poor will include the middle class that has been stripped of its wealth. The super-wealthy will be those who have gained from all of this plundering that has occurred and continues to occur, but their next problem is how to keep the super-poor from being a threat to them.

For one thing, they need to diminish the number of poor, and thus the plan is to have certain biological warfare put upon the masses. Part of it is planned through the spread of AIDS, which has already been put into motion. Part of it through the Gulf War Syndrome, in which there is reason to expect huge numbers of further victims beyond those that have already been diagnosed or felt the symptoms of the Gulf War Syndrome.

The Killer Spanish Flu of 1918 May Appear this Winter

This Awareness indicates there are other diseases that are in place, or in the works, including the old Spanish Flu that killed so many in the period around 1918. This Awareness indicates it is expected that this flu will begin soon, perhaps this Winter, and that it will spread throughout the world, and that the antibiotics available will be of little value in curing or heading off the spread of this flu.

This Awareness indicates that there are still other biological warfare situations that have not yet been publicized and as the poor get more impoverished, their health becomes weaker; the immune system is weakened, and they are more susceptible to these biological contamination's, so that it is likely to take hold and spread quickly when it actually begins.

This Awareness indicates that in reducing the population of the world by a third or two-thirds, as is planned, the super-wealthy then will have greater controls. They will need less effort and work from slaves because they will have the benefit of the wealth that is left by those who are no longer present on earth taking up no room, and the super-wealthy then will have the benefit of 2000 years of civilization that has been built by the masses of the earth who are no longer present on earth.

This Awareness indicates that the remaining few who still have some reasonable health may actually be helped at that time to serve in positions of a relatively stable society, so that those remaining few can still be servants to the super-wealthy and can have their own dwelling places that are left over after two-thirds of the population has been extinguished.

This Awareness indicates that this essentially is the overall plan or scheme of the planners who are behind the events that are occurring. Of course, the laws will all be changed from those of individual countries and nations to be created and governed by those who are super-wealthy to have a One World Government with its own set of laws, whereby all those who do remain on earth are kept under control of the New World Order and its New World Law system.

This Awareness indicates the new laws will be those that are suitable to those super-wealthy and those who are less than super-wealthy, who are the servants, will have a subset of rules which they must abide by in order to preserve a reasonable peace between themselves and to hold their position in a subservient place beneath those who are the masters.

This Awareness indicates of course, the super-wealthy are themselves to become the servants of the extraterrestrials: the Orion Greys and the Reptoids, who will then control the earth. This is not a prediction. This is simply a description of the overall plan that is being promoted by the New World Order and the extraterrestrials who are behind this.

This Awareness does not suggest that it **will** occur in this way. It is not a prediction; it is simply a description of what the plan calls for. This Awareness does not see this plan as being carried out as planned.

CAN THE AWARENESS MESSAGES GET OUT WITHOUT FUNDING?

(More on the Broke Light Workers and the Rich Bad Guys)

QUESTION:

A question from J.S. S., in Kingston, Rhode Island. He writes: "Another thought for Awareness. In the last CAC mailing, there is suggestion that we assist financially as best we can to help continue the publication. It is very possible that many of the readers would be more than pleased to do so, if circumstances permitted.

"I haven't been able to take a pay for four weeks now. We don't expect Awareness or anyone else to make us suddenly wealthy, but we **do** wonder how it is that our oppressors have such good fortune obtaining and retaining vast amounts of wealth through continuing generations, and Paul for instance, is robbed of his just due.

"Eustace Mullins is constantly under attack, so that he must spend precious time and funds, hard come by to defend himself, and constantly stay alert in order to stay alive. Meanwhile, the so-called Light Workers or Wanderers or Patriots spend their time working to support their families and not in splendor, I might add. It takes time and money to promote ideas as well as access to the media.

"Apparently, the 1500 subscribers, (I don't know where I got that figure) are generally in the same tight situation. Maybe Awareness can suggest a way for us to get our messages out without funds. Most of our acquaintances think we are eccentric at best, and probably just plain nuts, so one-on-one communication will take years, and we could be totally enslaved long before then.

"Thanks for your assistance," he adds.

COSMIC AWARENESS:

This Awareness indicates that it is true that there is an enormous amount of money that has been generated by the Dark Forces. In fact, money is a *tool* of the Dark Forces. It is a weapon of enslavement. Those who will their souls to the Dark Forces generally find a way of getting in on the money game. They are paid extra well.

The entities who are involved in the Dark Force game are given money. It is created out of thin air for them. Essentially, the printing presses create this money through the Federal Reserve Bank. The Treasury gives the money or the printing rights to the Federal Reserve Bank which in turn gives money to those who work with the Dark Forces.

Federal Reserve Sends Russian Mafia 300 Billion a Year!

This Awareness indicates for example, most Americans do not realize, but there is approximately one billion dollars being sent by airplane from Kennedy airport to Russia every day of the year. There is approximately 300 billion dollars going to Russia every year. This Awareness indicates that this money goes over to those entities in Russia who are not working for the Russian people. They are what might be compared to a Russian Mafia.

These are entities whose purposes are of a negative nature. They are a Dark Force operating in Russia, whereas in Russia, the scientists who have spent their lives studying and working are now only making approximately 10 dollars daily for their work. Many of the top scientists in Russia have had to lower themselves to making drugs which they sell on the streets in order to scrape by and supplement their \$10.00 a day wage, and this is the plight of the average Russian, even if they have a doctorate degree, even if they are of the higher intellectual types in Russia.

This Awareness indicates the average person in Russia would work two weeks for the price of a loaf of bread. This Awareness indicates it is of such a terrible situation there that it is unimaginable that the Russian Mafia is receiving 300 billion dollars a year from the Federal Reserve Bank in the United States, but this is that which has been occurring.

This Awareness indicates that it is documented in a relatively expensive magazine called '*Criminal Politics*,' this '*Criminal Politics*' describes this event, who is doing it, the names of people involved, and how much and how often, and where these payments go. This Awareness indicates it is an action of the Dark Force to use money to promote the agenda of the Dark Force.

What the Real Strength of the Light Forces Is

This Awareness does not see the problem as being that which can be solved by taking away the weapon of the Dark Force so much as letting the Light Forces know what their strengths are. This Awareness indicates that the strength of the Light Force is in their ability to have faith in the Light, to be attuned to the Divine Light and to work with a motive of Divinity.

The very action of being deprived on the one hand of any negative Dark Force weaponry and having to work with the Forces of Light and the energies of Divinity strengthens the spiritual lives of entities. This Awareness indicates *It* recognizes that entities can lament, scream, cry, curse or whatever they wish to do about not having sufficient money to carry on the 'good fight,' and they can blame the gods, but this Awareness wishes you to understand: "Money is the tool of the Dark Force!"

In the past, entities have been lured into using it. They have been lured into feeling they *must* have it to survive. This Awareness indicates that in this process of being

lured into relying on money, entities have forgotten how to survive. Entities on earth survived for thousands of years without money, by helping each other, by doing what they could for one another.

Money is simply a stored energy; it is a symbol for stored energy, and it does have its place and can be useful. But this Awareness indicates the reason the Dark Forces have so much is because they cheat and reward their own, and the reason the Light Forces have so little is because they do not cheat, and do not have the control over the distribution of money, and because they need to recognize the power they have beyond money, and this Awareness indicates that if you are deprived of something, you begin to find a way to live without it.

The blind person begins to find a way to live without sight, and begins to move about and get about in a world without sight. He can lament and cry and moan and curse, and curse the gods that create him, yet he will still be blind. And this Awareness indicates the blind person may seek the sight of others: "Help me! I cannot see!" and it is suggested that those who can help, help the blind person, just as those who have money can help those in need of money.

This Awareness indicates it is not suggested that entities who do not have money or who cannot see should be expected to help those who are blind or who are without money. It is suggested rather that if you have no money, if you cannot see, that you ask for help, and if you cannot receive help, you do whatever you can to try to continue doing what it is you do.

If you can no longer do what it is you do, of course you must stop, and this Awareness indicates that the organization here is doing what it can with what it has to work with, and when it can no longer function, then it must stop. It is as simple as that. And those who think that this Awareness has some kind of treasury of Dark Force energy up here somewhere in the sky, and can simply unzip the clouds and drop money down to the Light Forces, are kidding themselves. It doesn't work that way.

What Will It Profit to Gain the Whole World and Lose the Soul?

It is not a matter of "Who has the most money, God or Satan?" and "Which one shall I go with? I want to be with the one who is the most wealthy!" If that is your game, then you should go with Satan. This Awareness indicates it is not that simple. There are many who have sold their soul to the devil and have gained great wealth from doing so, but they lose in the long run. "What shall it profit one to gain the whole world, and lose his own soul?" This Awareness indicates *that* is really what it is all about.

This Awareness indicates that all *It* suggested when *It* asked entities to help keep these messages coming, all *It* is suggesting is that *if* you can send something to keep this organization going, it would be beneficial. If you think it is not beneficial, then don't send anything. If you have nothing to send, then don't send anything; but there are many entities who can go gambling, who can go traveling, who can go out and spend large amounts of money for friends to show off and to have a good time on the town.

There are many entities who can do this, in general, waste money, but who do not want to spend five dollars, ten dollars or twenty dollars extra on these messages, and this Awareness is simply telling you that unless the money is available for these messages, then the messages will cease. They cannot continue.

If the entities working to get these messages to you have to stop their jobs and get other jobs to earn the

necessary living, or if the funds are not available to buy the paper, printing and equipment that is necessary to keep these going, or to pay the postage, then of course it is simply a matter of fact: the messages will not be forthcoming.

This Awareness indicates *It* is simply informing the membership that there are times when money becomes too scarce. There are times when entities who work in these jobs of getting the messages to you must scratch into other sources, must go into other personal efforts to find money that is not being given by the membership, that is not being provided in order for the messages to continue, and that these entities can only scratch so deeply, or go so far to scrounge up money for these messages, and if entities can scrounge up money some way to help, then it makes it possible for the messages to continue.

This Awareness indicates that it is not so much that anyone is hoping to get rich from giving these messages to entities, nor is it that this Awareness is withholding any vast amount of wealth from entities. This Awareness indicates rather it is that it requires a certain amount of energy, of money to pay the bills that go along with sending forth these messages.

The Fortuna Alliance Torpedoed by the FTC

This Awareness indicates that there have been several occasions in which opportunities appeared that would have been of great benefit. One for example, the Fortuna Alliance, would have been of great benefit to entities, but the Federal Trade Commission, seeing that this could shift the entire balance of money to those who are the working poor for a mere \$250.00 investment, seeing that this could create a totally new paradigm and a shift of wealth to many entities who are not a part of the established wealthy class, attempted to shut down the Fortuna Alliance program by raiding the offices and claiming that it was a pyramid scheme on the Internet, getting publicity by bringing reporters out while they raided and took all of the assets of Fortuna Alliance, taking their membership names, taking their equipment, their computers, everything, so they could not continue business, and they took the money that members had put into the investment of the Fortuna Alliance, and they began using the members' money to support their legal fees in prosecuting Fortuna Alliance.

This Awareness indicates that approximately six months have passed and Fortuna Alliance has not yet been able to have the right to present its side of the story, to show what it really is, to prove that it is not a pyramid scheme, and it has finally been given a chance to have a hearing in December. The FTC meanwhile, has done everything possible to spend all the money it could from the membership, to raid the offshore bank accounts of Fortuna Alliance, to steal the money of the membership so that the Fortuna Alliance people could not have enough money to hire lawyers to defend themselves.

This is the same trick they used in shutting down a vitamin company in California, taking away their assets and their bank account so they could not hire a lawyer to defend them. This Awareness indicates fortunately, the members of Fortuna Alliance, which are world-wide, were able to keep paying their lawyers, even though their investments have been robbed by the Federal Trade Commission.

This Awareness indicates the lawyers are now preparing for the hearing in December, which they feel confident will give them the first chance to describe what Fortuna Alliance really is. This Awareness indicates that there are various types of things that

occasionally come up which could help entities to gain some kind of financial benefit, but whenever these forces in the controlled government of the United States (controlled by the International Globalists) see such an action in this country, they immediately do what is necessary to stop it.

Some years ago, approximately 3 years ago, an organization called 'Marathon' created a similar type of situation in which they sold information about the Federal Reserve Bank and about how the money system was run. It was an educational program talking about the creation of money in this country, how it was mishandled and how entities could gradually gain a better understanding of money so that they too could begin to learn how to profit, but this was shut down by using the Post Office.

All the mail that went to this company was suddenly cut off, and entities could no longer send or receive information to or from the company. This Awareness indicates that in some cases, the IRS is used to attack a company that is beginning to help its members grow in financial benefits. This Awareness indicates therefore, because the Dark Forces are so well versed in shutting off the currency flow to and from various organizations, they could even cut off the currency and the work of *this* organization, if things are not done with great caution, care and sensitivity.

This Awareness indicates that because these Dark Forces are capable of shutting off that currency flow, if this Awareness were to give entities a program that would allow them to have greater wealth and shift the wealth to people, it would be cut off in the same way, and it would be pointless.

A New Alternative to Making Money Lies in the Future

This Awareness indicates that there are ways that currency could be shifted to help people gain greater control, but this Awareness also sees that it is not the time yet. It is not appropriate yet, for it could be shut off quickly, and it could be devastating to entities if it were presented at this time. This Awareness indicates that at some future time there may be the possibility for entities to have an alternative way of earning a currency that will help them to better their lives. Meanwhile, entities must simply get by with what they can scrounge up in their own lives, in their own way, until something opens up and the timing is sufficient.

Millions for Michael Jackson, Bill Gates, Etc. Lament

This Awareness indicates *It* recognizes the plight of entities. *It* hears the lamentation of entities, their wailing in regard to the poverty they suffer, their inability to do anything. *It* also recognizes the jealousy that many entities feel toward those super-wealthy people who have something which they appear to receive for no good cause. *It* has heard the lamentations of entities who resent the fact that certain entities such as Michael Jordan or Michael Jackson, or Bill Gates can have such an enormous amount of wealth while they themselves must scrounge to get enough to put food on the table.

Bemoaning Michael Jackson's Billion Dollars

This Awareness indicates this kind of lamentation does not create the guilt for the higher forces that many entities think they are creating. Entities wail and moan that "Michael Jackson has all this money, and we Light Workers have nothing! Oh my, my! What shall we do?" This Awareness indicates this is supposed to make the gods feel guilty for not providing the wealth you need in order to carry on the work you offer to do for the Light Workers?

This Awareness indicates that it is not making anyone feel guilty. The Higher Forces understand the game that

is played out on this field, the game that is being played on the earth. They understand that. They are not going to feel guilty because the Light Workers do not have enough of the Dark Forces' weapons and tools, the weapon being of course the Dark Forces' money.

This Awareness indicates Light Workers could also have gained during the hundreds of years that money was being used to manipulate people. They could have found a way to serve each other without using money, and they could have found this action of giving service to each other to develop a system of energy exchange wherein money was not even part of the game, but instead, they fell into the trap of the Dark Forces, played into the hands of those who were dangling the money, and were hypnotized by the money, and now they lament because they do not have any more money that they have been hypnotized to want. (Sic)

This Awareness indicates *It* sees this as the karma for entities who chased after the money rather than chased after the principles of service to one another. They could very well have given service to one another. They could have invented things themselves and given those things to the world without chasing after the money which would control those inventions and restrict others from sharing the benefit of those inventions, but entities were after the buck, and they did not follow the dictates and suggestions of the spiritual teachings in which entities were asked to help one another.

This Awareness indicates *It* simply does not use the money of the Dark Forces, and therefore, *It* does not have a big stash of money up here in heaven, or does not have a printing press to print up money for the Light Workers, and for entities to lament that they can't do anything unless God provides them with the money they need, is a useless lamentation. It is wasting your energy and wasting your time.

This Awareness suggests you get out and make a buck here, a buck there, to take care of yourself, your family, those things you need, and find a way to improve your own situation, and if you have something available and you want these messages to continue, then perhaps you can help in that regard. But the entities here, putting out these messages, also have their own personal needs and their own personal lives which they must likewise attend, and if the energies are denied, then their ability to put forth the messages is denied, and the entities will simply have to stop printing these messages, and this of course, means you will not be given these messages. It is simply a matter of: "Do you want them?" and "Can you help provide the means whereby these can continue?"

If you can't, there is no problem. If you can help the problem that is here, then that will be beneficial and will help to assure you will continue to receive these messages. If you cannot help, then help yourself so that you can some day be better off and perhaps help in the future. It is as simple as that.

This Awareness indicates, however, there is also recognized that many entities will say "Oh, I can't do anything now!" and when they finish writing the letter, they turn and call their friend and say "Let's go to the big basketball game! I've got these tickets! I've got this! We can have a great time! It's on me! I can pay for it!" and they spend \$40, \$50 or \$100 dollars for a night watching the great basketball game. Some of that could have been sent to help this organization, and they could have sat perhaps ten or twenty seats back, with cheaper tickets, but they wanted the *best* seats, and this Awareness indicates *It* recognizes this kind of thing happens, and it is a matter of personal choice. What is important

to you?

This Awareness indicates that these are things for you to decide. It is not something you need to lament to this Awareness about. Just do what you can, and if you can't do anything more, then that is your choice, or if you 'won't' do anything more, that is your choice. There is no need to persuade this Awareness that you have done all you can. *It* is not keeping track of your behavior. That is for *you* to weigh and balance.

This Awareness indicates however, *It* does not see any means at present to refer you to for finding greater wealth to improve your lot so that you will be able to better help this organization to put out these messages.

Should Repeat Sex Offenders be Castrated?

QUESTION:

A question from Alice E. in New York City. She writes: "I just read this article about California becoming the first state to introduce and possibly pass a law which would make it mandatory to "chemically castrate" repeat sex offenders. Well, my heart won't bleed for them. I think they deserve it, even surgical castration.

"On the other hand, is that really a solution, since it may or not stop these sick people from committing such violations against others, against their will? Is there a better way to cope with this problem, and would Awareness comment?"

COSMIC AWARENESS:

This Awareness indicates the concept of 'better' is that which could have different interpretations for different entities and for different circumstances. A blanket statement of castrating sex offenders by chemically destroying their reproductive capacity; that is something that cannot be evaluated in a general or blanket statement.

It does appear that these things should be evaluated singularly, according to the individual circumstance. This Awareness indicates what may be better for one may not be better for another. This Awareness indicates that what may be better for the sexual offender may not be better for the victim of the sexual offender and vice versa. Therefore, the term: "Is there a **better** way?" is almost unanswerable.

This Awareness indicates however, it does appear that this is the fact that is being considered and that it will have a certain effect upon some entities, and of course it will be effective on those entities in preventing them from having the sex drive that might overpower them and cause them to violate another. This Awareness indicates that question of how effective it will be is for time to tell. It depends on how it is used, and how effective and in what dosage and to whom it is given.

This Awareness indicates that these things are not surprising, for it seems that anytime there is a way of hindering someone from expressing themselves, there will be a way and a reason for doing so. This Awareness indicates the time might come for example, in the future, where they will find that they can give chemicals to entities to prevent them from speaking, and in the future, there may be laws passed that anyone who speaks in a politically incorrect manner should be given these chemicals to stop them from speaking.

This Awareness indicates that this would not be surprising at some time in the future. It would be surprising if it occurred now, but this Awareness indicates that there have been more serious approaches in the past for dealing with sex offenders. There has been that surgical removal of the testicles. There have been even more brutal types of treatment, even within this century for

entities who have been caught in sex offenses.

This Awareness indicates that in some ways, this is in comparison to ways that have been used in earlier times; this particular approach is more humane than many, and does appear to have certain effective benefit, depending on how it is applied, to whom, and for what offense. If it is indulged in merely lightly, and for the benefit of society without serious consideration as to its real effect on the offender, and if the alternate treatments that might be available are not considered, then of course it could be a brutal and violent solution to the problem for some entities.

Should a 15 Year Old Boy be Made Sterile for Life?

This Awareness indicates for example, presume, if you will, that a 15 year old boy becomes entranced by some young girl who is flirting with him, who wants to get close, and the two get carried away and indulge in sexual acts and are caught by the girl's father, and the girl, knowing that her father will be extremely angry, is terribly frightened of her father, and tries to act as though it wasn't her doing. It was the boy who forced himself on her, and this means of dealing with sex offenders is commonly used.

Would it be appropriate for this 15 year old boy to then be made sterile for the rest of his life, unable to have sex because of this one infraction? This Awareness indicates it is a question of how it is applied, under what circumstances, for all the circumstances are likely to be different from each other, and you cannot simply make a blanket statement about all of the sex offenders and whether this would be the way to handle them.

This Awareness indicates it is a way, that could be used effectively for some entities who are known sex offenders who have repeatedly carried on activities that have been damaging to others and it could be even helpful to those entities. They might even welcome the freedom from their own sex drive.

What is Deforming the Frogs?

QUESTION:

Robert Hanzel sent in a little article and a question. The article: "Deformed frogs found in Mid-West puzzles Scientists!", along with photographs. It reads: "Henderson, Minnesota. Bruce Nelson was catching frogs for catfish bait last year when he realized that something was horribly wrong. Some of the frogs had stumps for legs, and others had as many as four tangled hind legs.

"You see deformed things all the time in nature, but nothing like this!" Nelson said. All across Minnesota and into neighboring Wisconsin, South Dakota and Quebec, scientists and locals are seeing the same kind of grotesquely misshapen limbs, along with frogs with tails missing, or shrunken eyes and smaller sex organs. In fact, scientists have had a hard time finding wetlands in Minnesota with *no* deformed frogs. Most recently, deformed frogs were found in Vermont.

"Scientists aren't sure what's causing the deformities. The theories run the gamut from pesticides to parasites, to radiation from ozone depletion, or some combination of factors. A newly created frog hot-line has received hundreds of sightings of deformed frogs from 54 of the state's 87 counties."

And Robert asks: "What is causing this outbreak of deformed frogs?"

COSMIC AWARENESS:

This Awareness indicates it appears to be a combination of those things mentioned. It appears that the energies in these lakes, in these wetlands, and even in the atmosphere contribute; that there are pesticides,

there are pollutants, there is a degree of radiation, and even the depletion of the ozone has had some effect.

This Awareness indicates that it is likened unto a warning, even as the canary being used in copper mines served as a warning when gas was present in the mines and the canary would die. This Awareness indicates it is simply a warning that there is *indeed* something wrong in the environment that needs attention, for if it is affecting frogs in this way, it is surely affecting humans, even though it may not be so clearly defined yet.

Is Something Strange Happening to Women's Reproductive Systems?

(More on excessive menstrual bleeding)

QUESTION:

Along this line a question, from Virginia W., in Seattle. She writes: "I have a question for Awareness. I personally have been experiencing severe hemorrhaging in months during my menstrual cycle. Since I have experienced this I have discovered that many other women are currently also having similar problems.

"My question is: Is there something in our environment: for example, the recent proliferation of electromagnetic waves from microwave towers, cellular phone towers, etc., that is causing interference with our bio-electric feedback system, specifically in regard to women's reproductive cycles? If this is true, what can we do to help ourselves?"

COSMIC AWARENESS:

This Awareness indicates that it appears to be a phenomenon that is fairly widespread, and does appear to be different from that which has been considered normal. This Awareness indicates that there appears to be some benefit from the use of calcium, a calcium increase in your diet. Couple this with magnesium.

This Awareness indicates that it does appear to have something to do with frequency or vibration, perhaps related to the microwaves, but even more likely related to the activities of that system called HAARP, which affects the atmosphere and sends vibrations through the Northwest and down toward the Southeast and Eastern direction. This located in Alaska, the HAARP program being a program that is designed to affect weather and also to affect consciousness itself, to affect the minds of entities.

The Weather and the HAARP Vibration are Connected

This Awareness indicates that the effect on weather also tends to relate somewhat to this situation. A combination of the HAARP vibration and the change in weather appear to be both connected to this. This Awareness indicates the use of calcium is seen as a means by which relief can be experienced. Calcium supplements can be helpful. The calcium should include magnesium and as much as 500 to 1000 milligrams daily for a period of approximately 4 days to 5 days before and several days after the period.

This Awareness indicates that Vitamin B6 is also seen as being beneficial.

WHAT ARE THOSE SPIDER-LIKE THINGS IN THE "DARK SKIES" TV SERIES?

QUESTION:

A question from Chris L. in Wilmington, Delaware. He says: "I'd to ask a quick question about the new Fall show 'Dark Skies'. Obviously the portrayal of MJ 12, which used to be so secret we were all told not to mention it in public, is an attempt to make this organization known, and of course, much of the show is revealing, including the parts that smell like disinfor-mation.

"But I'd like to ask about the squiggly spidery thing that the show portrays as getting into the brains of humans. I understand that the small monitoring implants could be used for control, but is there such a spidery device around too? I appreciate that it may be just a fiction, but some abductees I know have drawn small spider-looking creatures that they have seen.

"So first, if anything other than the small implants are ever put into human brains? And second, what are these spidery things that abductees see?"

COSMIC AWARENESS:

This Awareness indicates that these appear to be astral implants; that they do not appear to have physically real bodies, but appear to be astrally based implant devices. This Awareness indicates that in the use of higher technology, where vibration is everything, the reality of astral energies does not seem bizarre. It is a fact, and the creation of an astral implant that looks like a spider can be implanted without any surgical intrusion or without any opening of any kind.

It is simply **willed** into an entity's body, into their astral body. This Awareness indicates the effect would be on the emotions of the entity more than physically. This Awareness indicates just because it is astral does not mean it isn't real. Is a frequency on a radio real? After all, it is simply a vibration. This Awareness suggests of course it is real, or the radio would not be working, but because it is a vibration, it may be invisible, and it may not be tangible. You can hear it only because the radio is devised as a way of reading those frequencies.

Likewise, if you had an instrument that could read the astral energies, then you would recognize it as real, but if you had not seen astral energies or have not heard them or felt them, then you may tend to think they are simply imaginary or are unreal, and therefore dismiss this as being some kind of fantasy.

FOLLOW-UP QUESTION:

In this series called 'Dark Skies' these little creatures are supposed to be real, not imagined, and they look very much like small versions of those little creatures in the 'Alien' movies that popped out of the entities. Is that type of creature strictly fantasy, or are there actually real physical creatures somewhat like that, that somehow do get into entities?

COSMIC AWARENESS:

This Awareness indicates these are astral entities. They are astral implants, and this Awareness has already discussed that they are not fantasies.

FOLLOW-UP QUESTION:

Well, doesn't 'astral' imply that you can't see them physically, or they can't manifest physically?

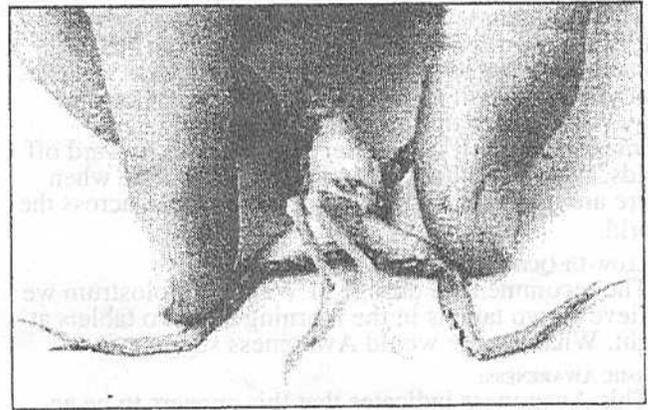

COSMIC AWARENESS:

This Awareness just discussed this; that just because you cannot see the frequency of a radio station does not mean it isn't there. This Awareness indicates that if you can hear the frequency of a radio station, you know it is there, even though you may not be able to see it. If you could see the astral energy, you would know it was there, even though you cannot touch it, you cannot grasp it, you cannot put it in a box and peek at it and make sure that it is still there. But, if you *could* see it, you would know it was there.

This Awareness indicates astral energies are real. If you want this Awareness to say that these spidery things have some tangible quality, then this Awareness would say: "No. They don't." This Awareness indicates if you think that if they have no tangible quality they must be fantasy, this Awareness would say "No, they aren't

fantasy. They have no tangible quality, but they are real."

Silver Wain Water Colostrum: Is It Any Good?

QUESTION:

A question from Vikki: "Wayne Rowland who developed the Silver Wain Water, has begun carrying Colostrum, and gave us a book about it written by Dr. Bernard Jensen.* In it he described Colostrum helping many conditions including Multiple Sclerosis, Rheumatoid Arthritis, Diabetes, Candida, and that it destroys many kinds of viruses and bacteria's. He also says that it protects the bowel wall from harmful bacteria like E. Coli, and strengthens the immune system.

"This is really exciting stuff, and appears valid as far as we can tell. Would Awareness please comment on how beneficial this Colostrum really is for people?"

*Colostrum: Life's First Food—The White Gold Discovery.

Available in most health food stores or from Bernard Jensen, Ph.D., 24360 Old Wagon Road, Escondido, Calif. 92027.

COSMIC AWARENESS:

This Awareness indicates that this is a reference to the bovine colostrum which comes from the milk of cows. There is of course human colostrum which is the first milk of the mother for the baby. It is not exactly milk. It is a substance that the baby receives when it first suckles and this is what gives the baby a strong immune system, or, if it does not suckle, it may have a weak immune system such as would occur for those who were initially given the bottle or formula.

This Awareness indicates that the colostrum is essential to a strong immune system of the new-born baby or of the new-born calf, and this can be of great benefit to the general health of these entities from the beginning of their lives on up through adulthood. It is what gives one a strong constitution against disease.

This Awareness indicates that adding colostrum to one's diet at a later part of one's life is likewise helpful in strengthening the immune system, and therefore, this is a powerful addition to the entity's general health program if it can be acquired. There has been colostrum on the market for some time, but it is rare and often difficult to find.

Often also, there are whey substances that are marketed as colostrum, but are not truly colostrum. The whey liquid is that which occurs when milk clabbers or sours and creates the clabber that is associated with cottage cheese. The milk separating from the water, wherein the cottage cheese type clabber is formed and

that which is left over is called whey, and the whey has been often marketed as colostrum, but it is *not* colostrum, and this Awareness indicates one has to be careful not to be paying for whey and thinking it is colostrum.

This Awareness indicates that it appears that this entity's Colostrum is genuine and that it can be of considerable value to entities. This Awareness suggests that you may wish to make this available, or entities may wish to give this a try in strengthening their immune system. It can be very helpful also to ward off colds, flu's and other types of viruses in a time when there are plans for germ warfare to be spread across the world.

FOLLOW-UP QUESTION:

The recommended dosage of Wayne's Colostrum we believe is two tablets in the morning and two tablets at night. What dosage would Awareness suggest?

COSMIC AWARENESS:

This Awareness indicates that this appears to be acceptable. It may be that there will be exceptions. Some entities may feel the need to take more. If they have any chronic problems or very low immune system, they may need to take more for a short period until they become more resistant to diseases, then they could drop down to a smaller amount.

After one's health is generally strong, they may not need to take two in the morning or two at night, but perhaps only one or two daily. A small child of course would need much less than an adult, and one in the morning and one in the evening would be sufficient for children under ten years old, if they are not prone to sickness.

If they are prone to sickness, they might need to take more for awhile, until their health begins to improve.

Hale/Bopp Comet: What is That Huge Saturn-Like Object Along Side of It?

QUESTION:

Evidently something occurred last night; that the Internet is all excited about. We got at least two posting of the same information; one from Boyd Martin, one from Mr. Nihoa in Las Vegas. I'll read what it says here. I don't think it's describing here what Awareness described the other day in relation to questions on Hale-Bopp, but it seems to be related.

Boyd says: "Dear friends, as this incredible news is breaking, I am typing wildly. Please pardon the sketchy notes. This is an actual report. News source: Art Bell, 1:30 AM, Pacific Standard Time, November 15th, 1996. I'm sure others are doing similar recordings so please cross-reference.

"Flash: This picture just in! What on earth could that Saturn-like image be to the right of the comet? This picture was taken November 14th at 6:00 PM Houston time. Moving toward earth is a celestial object four times the size of earth tracking right behind the comet Hale-Bopp. A ringed sphere, self-emitting light source, surface universally smooth and luminescent. All of the pixels are identical in brightness.

"This object and event are verified by legitimate astronomers world-wide, but I thought to include remote-viewing interpretations below. Courtney Brown's remote viewers have made the following statements:

1) The approaching celestial object is built from borrowed technology, including human assisted, perhaps dating back to Atlantis.

- 2) Not a weapon.
- 3) Constructed with materials not currently known.
- 4) Composite of technological and organic materials within a matrix of thought.
- 5) Object recently appeared from sub-space, and had been moved into position within the last 24 hours.
- 6) It is under artificial control and will interact with human DNA"
- 7) The object is acting to awaken us, but is being misunderstood by our world leaders; the decoding process must be made within the notion of sub-space reality and universal thought-form.

8) Key words: Consciousness/ Enlightenment.

9) Government began removing Hale-Bopp photographs last May.

10) The object is sentient, self-aware.

11) It is sending us a message, but decoding processes are not going smoothly by government intelligence sources.

12) Target object is involved with awakening and unfolding; object has telepathic recording and transpirational elements within it.

13) The sub-space elements are not being understood.

14) Sub-space grid is the unlocking key.

15) More of similar objects will be coming this way.

16) Object was a joint project of many groups of beings: Greys, Humans, Andromedans.

17) Greys were instrumental in technology because they possessed it. Purpose is galactic evolution. Humans living now have retarded the project, but the fulcrum of space-time is immediate and forthcoming events will be powerful.

18) Object may have functioned as symbolized by the obelisk in 2001: A Space Odyssey.

19) Object could be a transformed planet.

20) The object is a sentient object with no emotion as we understand.

21) The object has multiple parts. Involved in process of uncovering secrets.

22) Object fulfills destiny; mission will not be stopped.

Additional comments and reports: Everything that happened in the past is still going on. It is possible to change a time-line; energies and phenomena represented by the object are not limited to the physical realm.

This comes out of the FARSIGHT Institute,* and evidently they've downloaded photographs which we haven't seen yet, of this object. Could Awareness comment on this please?

*Farsight Institute at: <http://www.farsight.org>

COSMIC AWARENESS:

This Awareness indicates that this appears to be a creation of that energy that has moved in from another dimension, cutting through dimensions into this time/space zone, and on to this area of the galaxy to begin that which the entity Nidle has attempted to describe. It is not necessarily precisely as Nidle saw, but it appears that this is essentially what Nidle has been attempting to describe.

It appears that this is related to some kind of Nano-technology that was set in motion eons ago, long before this civilization existed on earth, and that it was part of a long-term program or destiny for mankind on earth. This Awareness indicates that it appears that the object will eventually begin dispersing and those parts of it which are presently of a limited size will gain in terms

of their size from small minuscule size into much greater, much larger size as they approach earth.

These parts appear to be infused with Universal Consciousness, with Life Energy and appear to be seething with vibrations and frequencies that will lift the consciousness of humanity into a totally different dimension of experience. This Awareness indicates that it appears that the time of that which has been long anticipated *is at hand*.

FOLLOW-UP QUESTION:

This *does* appear to make the Nidle scenario discussed yesterday more believable?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that it appears to be that which is likened unto the seed unfolding that can bring about the situation similar to that which Nidle has described. It is not necessarily precisely as he has described, but appears to be in the same vein as his concept. There will doubtless be a variation, or considerable variations involved, but this Awareness does not see this as being of a negative nature, but rather as being of a truly remarkable and highly beneficial quality to humankind.

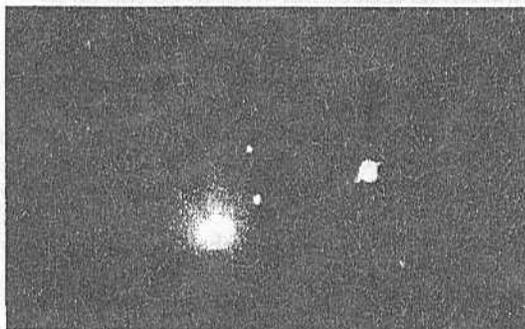

FOLLOW-UP QUESTION:

Could this be related to what they refer to as the '12th Planet' or another one called "Wormwood"?

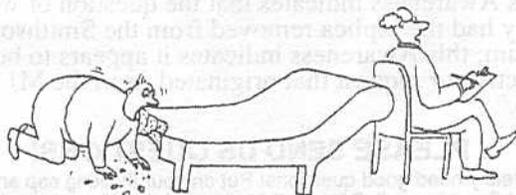

COSMIC AWARENESS:

This does not appear to be so. The energy appears to be more; the inclination is to use the word 'angelic' in its nature; that these beings are more etheric and not as physical in their nature and that the Nidle interpretation is close, but that these entities appear to be more etheric creatures or beings, whereas the Nidle interpretation gave the impression that they were physical beings of an extraterrestrial origin.

This Awareness indicates essentially, the information from Nidle as being correct, if not precisely stated according to the energies that will be involved. It does appear to have the effect of altering the scenario of the New World Order at a very crucial and important moment in cosmic history.

"Tell me about your eating disorder."

QUESTION:

A question from Sharon K., Roselle, Illinois. "There's a new diet aid called Redux; generic name dexfenfluramine HCl, for which prescriptions are being written at the rate of 85,000 a week. The side-effects are minimal, and as an appetite suppressant it seems to be the answer to our prayers. Does Awareness see any hazards in the use of this medicine?"

COSMIC AWARENESS:

This Awareness indicates that the hazards that are possible from the use of the medicine are not sufficient to outweigh the hazards of excessive weight or of obesity. The hazards of obesity and excessive weight are more than the hazards of this substance. This Awareness suggests however, that entities should not become excessively dependent over long years of use on this substance; to become dependent on it alone, so that they can eat large meals and take these pills and not get any exercise and still maintain their weight.

This Awareness indicates it would be better to use this for a reasonable duration, to drop the weight to where they can get out and walk and do reasonable amount of physical activity, because they are not so heavy and it is easier to do it. In other words, drop the weight so that you can become more physically active, and then cut down on the use of the substance and watch your diet in the sense of avoiding excessive fats and carbohydrates together.

What Really Causes the Excess Fat

It is the mixture of carbohydrates and fats in the same meal that put on the greater weight. You can eat carbohydrates alone, or you can eat fats alone and not suffer such great weight-gain as you would suffer if you ate the two: carbohydrates and fats together. This Awareness indicates of course, continue to watch your weight, so that if you *do* begin to regain, you may want to switch back to the use of Redux or increase your exercise, or otherwise watch your diet, eating plenty of vegetables and fruit and cut down on the carbohydrates and fats as necessary.

This Awareness indicates that one way that entities can begin to lose weight is not to lose too fast. Just think in terms of eating smaller meals, and not feel that you have to be saturated with each meal. Have something set aside to eat later, if you should get hungry. Do not eat to keep from being hungry later. That is one of the greatest causes of excessive weight gain for most entities. They want to eat to prevent future hunger, and they eat more than they should, and it stretches their stomach and makes the stomach used to being full, and when it gets a little less than full they become unconsciously concerned or subconsciously concerned that they might somehow get hungry, and rather than eating to cure the hunger, they eat to prevent future hunger.

If you have something there to eat later, you do not have to worry about future hunger, and this can be helpful to your feeling of security, so you do not have to eat to your full satiation or satisfaction. A snack, perhaps 6 small snacks daily, or have one meal in the evening and snacks at other times as necessary to alleviate hunger. But do not eat to avoid future hunger.

How Obesity Threatens Physical Laborers

This Awareness indicates that another problem that entities may have in terms of excessive eating is caused from entities who have had jobs that require heavy physical labor. They expect to work heavy physical labor and must have their energy up for that work, and therefore, they eat big meals so that they can be strong throughout the day and do the laborious physical jobs.

This Awareness indicates that this can allow entities to go for many years without gaining weight and eating

heavily at meals, but there comes a time when an entity then begins to work less hard, and they continue to eat those heavy meals, and gradually they begin to gain weight, and when they gain weight, they slow down physically, because it is harder to exercise or do work, or perhaps they get promoted to a position that does not require such heavy labor, but the meals continue to be the same as they have been conditioned to, and they eat more than they burn in terms of calories.

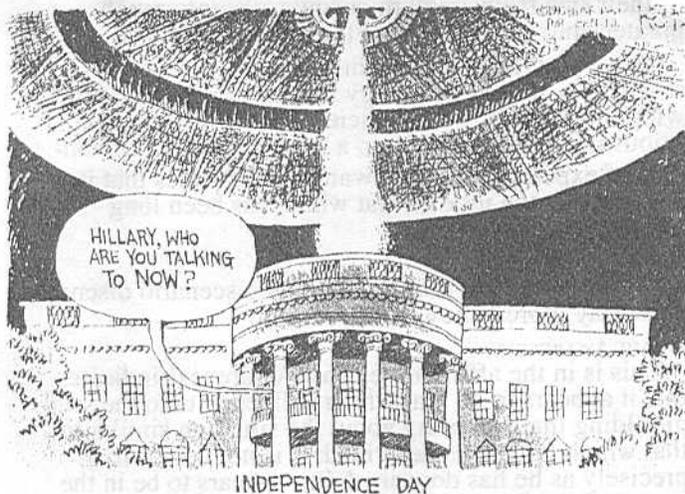

This Awareness indicates that this can become a problem leading to an entity becoming obese after his job has eased up somewhat. This Awareness indicates that it is important for entities working in heavy labor jobs to be cautious about this, because the obesity can become so heavy so quickly, they wonder "How did I gain so much weight? Two years ago I was slim and trim and very healthy. Now I have this great big gut! What happened anyway?"

The Problem With Irradiated Foods in Supermarkets

This Awareness indicates along with this problem is the other problem; that many of the foods sold in supermarkets have been irradiated, and even though you eat fruits and vegetables, you are getting irradiated food that has no enzymes in them and do not digest well. Without enzymes you do not digest food and it lays there longer in your stomach and intestines causing your body to swell from the excess use of these indigestible foods.

This Awareness indicates that this stretches out the guts and stomach to the point where they become used to being stretched out, but it still leaves you hungry. You are not digesting the food so you do not get the energy you want, and therefore, you turn around and eat more to get more energy, which only adds to the furthering of the problem. This Awareness indicates that it is for this reason that many entities take supplements of digestive enzymes as they begin to age past 35 or 40 years of age, when this kind of situation generally begins to happen.

This Awareness indicates it is for this reason that enzymes have become a very important supplement to a person's diet.

Why Did the Smithsonian Stop Selling Ancient Space Ship Replicas?

QUESTION:

On the December 9th, 1994 TV program called 'Sightings' an entity trying to prove that man had descended from space aliens, held up a tiny gold replica of what appeared to be a kind of space ship that went back thousands of years. The gold object was on display at the Smithsonian museum, and for years the Smithsonian sold thousands of these replicas to visitors.

When Zechariah Sitchin's book *The 12th Planet* came out, wherein he pointed out that this same small gold object was no doubt the replica of a space ship, the Smithsonian removed the object from view and stopped selling the replicas. My question is: "Why? and who, or what agency told them to do this?"

COSMIC AWARENESS:

This Awareness indicates it appears that there are some entities in government who do not want the masses to become overly fixated on extraterrestrials and UFO's because it could lead to too much of a focus on this subject, which in turn would require the government answer questions it does not wish to be forced to answer.

It appears that it saw this as legitimizing the UFO phenomenon from the replicas being promoted in the Smithsonian Institute, along with the credibility of Sitchin's book which was becoming a best-seller, and therefore, by removing the replica from the Smithsonian Institute or having it removed, it helped to slow down the spread of such focus.

This Awareness indicates that the book itself slowed, when other following books were written by Sitchin, but it does not appear that there was any government effort to stop the book from being printed or written or marketed. Perhaps the government felt that not everyone would take the time to read a book called *The 12th Planet*, and therefore it would not reach too many people or cause too many questions to be asked.

This Awareness indicates that the question of which agency had the replica removed from the Smithsonian museum; this Awareness indicates it appears to be from a directive or request that originated from the MJ 12 group.
