MIND CONTROL in America

---What is Love?

INDEX IS ON PAGE 16

THE BOOK: "TRANCE FORMATION OF AMERICA" AND MIND-CONTROL

QUESTION: (CAC GENERAL READING, 9/28/96)

A question from JD in New York. She sent this question in before Awareness discussed this particular book. She writes: "I have just finished reading Trance Formation Of America, the true-life story of a CIA mind-control slave, by Cathy O'Brien, with Mark Phillips. It is the most disturbing book I have ever read, due in part to the chillingly unemotional manner in which the victims detail the most hideous and revolting physical, mental, emotional abuse and tortures to which she was repeatedly subjected.

"In the past, Awareness has indicated that certain things were or are done by the New World Order cabal which sounded so outrageous and improbable that I had great difficulty regarding them as likely fact. In addition, I had accumulated other snatches of purported information from seemingly reliable sources, including my own deductive and noetic faculties.

"The cumulative total of these had not even vaguely prepared me for the shocking horrifying picture given in revolting detail in this account of the heartless, ruthless, arrogant, power-drunk machinations. It names names, intimate details specified --of the New World Order planners.

"This extensive first-hand account of trauma-induced mind-control wove the previous fragments into a coherent and totally credible picture of vulnerable persons, mostly female, often juvenile,--abused skillfully, mentally fragmented, trained and controlled for use in political and lucrative operations including prostitution, pornography, blackmails, secret communications, drug and money running, and as programmed sex toys at the beck and call of handlers, pedophiles, sadists and even murderers.

"The program designation is given as "MK-Ultra Project Monarch." I should like to ask a number of questions sequentially." {I'd better just ask it in sequence rather than read the whole thing}. "First, can Awareness confirm the contents of this book as essentially factual?"

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates the entity presented the information as clearly, as concise and as accurately as she could. The problem was there was so much more that she could have inserted that was not inserted because of the lack of room. There was much that could have been emphasized further which was often understated.

The Search for Child Pornographers

QUESTION:

"Is the primary purpose of the heralded search for child pornographers primarily in fact a search for sexual abused children who can be acquired for this mind control slavery program, using as leverage the threat of prosecution of the porn vendor who is usually the child's parent?"

COSMIC AWARENESS:

This Awareness indicates that this is correct in regard to the Monarch project; that not all efforts to prevent child pornography are linked to the Monarch project.

How Many Have Been Victimized?

QUESTION:

Next: "When did this project gear up? And how many people to date have been thus victimized?"

COSMIC AWARENESS:

This Awareness indicates this began in the late Fifties and early Sixties. It became conceived during that time and became active in the mid-Sixties. The rest of the question be repeated please.

QUESTION:

How many people to date have been thus victimized?

COSMIC AWARENESS:

This Awareness sees this as having been several thousand, but most were not prominently known. Most are anonymous persons. Many of the missing children on milk cartons are victims of such programming. This Awareness indicates there is a joke among these entities, wherein they refer to these abductees as the 'Milk Carton Kids'.

QUESTION:

Next: "What percentage of these are female?"

COSMIC AWARENESS:

This Awareness indicates this approximately two thirds.

QUESTION:

Next: "What percentage of these began their victimization at government hands while still children?"

COSMIC AWARENESS:

This Awareness suggests this as approximately 80% or more. It is relatively rare that the government agencies use adult entities for such purposes, unless they have already some history in being the victims of pornography. This Awareness indicates that in many cases the intelligence agencies use these entities for spying or for international intrigue operations in which the entity would be subjected to using sex to lure some foreign official into an action that would be promoted for the purpose of espionage or some other activity.

QUESTION:

Next: "What percentage came from child care institutions?"

COSMIC AWARENESS:

This Awareness suggests this being approximately twenty percent; that the child care institutions involved in such activity would be those specifically set up for this kind of action or which had been perverted from their original intent, such as Boy's Town in Nebraska.

This Awareness indicates that most child care institutions have been given a bad rap, being blamed for things which give the government the appearance of trying to protect children, when in most cases, the institution was not guilty of any such crime.

QUESTION:

Next: "What percentage were simply abducted from their families, if any."

COSMIC AWARENESS:

This Awareness indicates this being approximately 50%. (?) There are certain networks wherein abductees are moved and brought into centers for further processing into these government agencies for the further indoctrination into the pornographic industry.

QUESTION:

Next: "Were these victims exclusively Americans?"

COSMIC AWARENESS:

This is negative.

QUESTION:

Next: "How many have been killed, as Cathy O'Brien was slated to have been?"

COSMIC AWARENESS:

Over the past 40 years, this is seen as approximately 4,000, though not all of these 4,000 were in the Monarch program itself; some being on the fringe, or used

without being fully involved in the program.

How Many U.S. Citizens Knowingly Participate?

QUESTION:

Next: "Approximately how many U.S. citizens are *knowingly* involved in the training, handling and use of these slave?"

COSMIC AWARENESS:

The term 'knowingly' is a limiting term. This Awareness suggests this as being less than 2,000 entities.

Is "Project Monarch" Still Operating?

QUESTION:

Next: "Ms O'Brien was rescued by Mark Phillips in 1988. Has the "program" continued unabated since those days?"

COSMIC AWARENESS:

This as in the affirmative. She has been struggling to free her daughter from the program. As of now she has not been successful in totally freeing her daughter in spite of efforts in courts and in spite of the work and effect of her book.

What Can be Done to Stop this Project?

QUESTION:

Next: "Although the account would not be believable by most, nor would most care to wade through such repulsive details, the book **has** been published in two editions thus far, and undoubtedly discussed on the Internet. What else can be done to put an end to this shameful and horrible situation which is being kept secret? Investigations are stonewalled under the National Security Act."

COSMIC AWARENESS:

This Awareness indicates entities could purchase copies of the book, send them to their Congressional and Senatorial leaders with the demand that this be investigated by Congress and that the entities involved be investigated. This Awareness suggests also copies to be sent to, or summaries of the book to be sent to news media outlets, to churches and to various officials, locally and nationally and in this manner, entities can begin to stir up more and more concern.

Contact and Confront all the Missing Children Organizations

This Awareness suggests also those groups that are looking out for children should be given copies with questions: "What are you doing about this kind of thing? If you can't do something about it, why do you exist as a group, taking donations for the sake of missing children?" Put people on the spot. Get people to buy two books every time they want to order one, and have them send a copy to someone in a prominent position who might do something.

Write Letters! Get this Information on to the Internet!

Put information on the Internet about this. Put information in your newspaper editorials about this. Get information out as far and wide as possible. This Awareness indicates that once the New World Order is set up, it will be impossible to bring up such a topic. Likewise, more and more of the children will officially be taken from families with the statement that they have been abused or neglected, and these children will be put into situations of what is termed 'white slavery,' being sent to foreign countries for further pornographic use.

This Awareness indicates that this is part of the agenda in the final outcome of the New World Order's plans: to use people as commodities and to use them as slaves. Indoctrinating and training the young people into being used will be brought into play in the early days of the New World Order, but not likely before "the Mark" has been installed in the use of the chip implantations,

and not likely will there be any opportunity for such activity prior to the removal of guns from the American people.

This Awareness indicates at present, the proliferation of hand guns among the American people is the greatest deterrent to hinder and hold back the New World Order from implementing its complete control over the lives of the masses of people. There is very little respect for the masses. They are seen as likened unto possessions from the viewpoint of these world elite planners and corporate executives, and therefore, they do not have a compassion or respect for the people. They are seen simply as excessive resource.

There is too much of humanity, in their mind, and they have little concern for individuality or the feelings of entities. They are seen as 'consumers' or in many cases 'useless consumers,' particularly if they cannot earn their own consumption value. If they consume more than they produce for the government or the corporations, they are seen as strictly useless meat on the hoof.

This Awareness indicates that attitude is that which is of no respect to individuality, and therefore, these entities see that they can do anything they want if they can simply get by with it, and the New World Order is being used to set up the situations so that they can get by with anything they want in order to utilize human resources, just as they would utilize mineral resources or vegetation resources and timber resources, et cetera.

The Bottom Line: Can Money be Made From This?

The value system in the last 30 years has been altered so greatly that there is little value left in regard to human values or spiritual values. The making of money is the bottom line value in the modern society, and everyone is more interested in "How can money be made?"

Taking organs from **this** person to give to **that** person is not for life saving, it is for the money that comes from such cannibalism of the various organs, and likewise, with all of the other aspects of the human resources, the bottom line is "Can money be made off of this activity? What other activities can be encouraged that will make money?"

In New World Order Prostitution and Pornography Will Increase

Thus, prostitution and pornography will become an even greater and more open industry after the New World Order is fully implemented. At present it is an industry that is hidden behind the scenes. This Awareness indicates that generally, when something of this nature is implemented into society, there is a way of impressing society that it is necessary for the security of the nation or of the people, and when this is used as an argument, in most cases, the people will accept it.

This Awareness indicates however, as has been said, entities who put too much value on security open themselves to become victims of maximum security, thus, slavery and bondage becomes the outcome of excessive security and entities give up freedoms and the right to express themselves, or the desire to have decency as representing their governments and leaders.

At this time, the value of decency has eroded so greatly that most politicians can be indecent and still win the election if they can show how they are helping the masses improve their lifestyle and their security in their lives. There are many entities who have been conditioned to think that money gives them freedom; that money and security are the bottom line for a happy life. They have not fully thought through how much value there is in being free or in being able to go from

one place to another without having to get permission from some authority.

As entities become more dependent on government it puts them back into the situation they experienced as children when their parents were overbearing, overcontrolling, and when as children, they could only dream of growing up and becoming independent adults. But many adults do not know what to do with their freedom and thus enjoy subjecting themselves to an overbearing government and are willing to lose their freedoms in order to have greater protection and greater benefits from the governments that they choose to serve them.

When this becomes the greater value, they can be persuaded to remain placid and quiet and silent and go along, to get along, even when the government begins to raid their neighbor's homes, take the neighbor's children, et cetera, and they will not ask: "What happened? Where did they go?" or if they do, and the government simply says: "We are taking care of the entity's family. The entity committed crimes and we have moved the family to a safe place," the masses will say "Oh! That's good!" without further investigation.

This Awareness indicates if they **did** attempt to investigate, they would run into those who stopped them from going further in their investigation. They would run into stories and statements to assure them that "All is well, the entity will get a fair trial, the family is relocated in a nice place, in a nice home, and therefore, you need not worry about their safety and their welfare any further."

Meanwhile, the family may be up on the blocks being sold into white slavery or shipped to another country for further use as human resources in slavery or in prostitution or some other money-making activity.

Inner Workings of New World Order Exposed in O'Brien's Book

This Awareness indicates this book by Cathy O'Brien is a powerful, ugly, disturbing book, that discloses firsthand the inner workings of the New World Order and those entities who are so well known, whose names are household names, so that entities upon readings this book will be disturbed, will be upset, angered, frustrated, but they will at least not be led like sheep or cattle to the slaughter without knowing *who* is behind this project.

This Awareness indicates if there are enough people who awaken to this diabolical activity that is now progressing, it may not be possible for these entities to continue their program. They are really a relatively small group when compared to the millions of people in the world. It is just that they have control over the media, and because they have control over the media and over money, they are able to keep others quiet and to intimidate the masses.

This Awareness indicates once the masses awaken like a giant mob or a giant army of citizens, these entities would have absolutely no chance of ruling a New World Government to subject the masses to slavery.

How Can Cathy Get Her Daughter Back?

QUESTION:

A few more questions on this from JD. Next: "Cathy's daughter Kelly is being held as a mental patient by the state of Tennessee, "for reasons of National Security," to prevent Mark and Cathy from deprogramming and rehabilitating her, as Mark has done with Cathy. Please tell us what Cathy can do to get her daughter back?"

COSMIC AWARENESS:

This Awareness indicates that one of the things that

readers of the book can do is to send messages and demands, flooding the state of Tennessee, in terms of its governor, in terms of its governing officials and in terms of the institute that holds this entity, demanding that they free her, demanding that newspapers and media take the story, go to this entity, and interview the entity, attempt to tell the story on some of the tabloid shows on television.

It is unlikely that this will actually occur, but the pressure may grow sufficiently to cause these entities to eventually want to quietly usher her out into her mother's care. This Awareness indicates at least they will know that the public is aware of what is happening to this child and they will be aware that if they simply elect to kill the child, then they will also be thrown into the spotlight, because so many entities are aware of the situation of the child being thus held.

What Can We do to Stop the New World Order?

(Knowledge is Power. Spread the Knowledge!)

QUESTION:

Next: "Whereas the New World Order planners have cornered drug markets, petroleum supplies, weapons and economies, "black wealth;" what can be done to stop them?"

COSMIC AWARENESS:

This Awareness indicates this is the big \$64.00 question. There is no sentence, there is no paragraph, there is no reading that this Awareness can give that will serve as an answer to that question. This Awareness indicates what is stopping them right now is the fact that the masses still have some 75 million guns and that the masses do not fully trust the government, do not trust the government to represent the people, and the Patriot Groups are growing stronger.

These are the main things that are stopping the New World Order planners. They are desperately trying to find ways to defuse the information coming out against them. They are also trying to find ways to disarm the militia and the citizens of this country. This Awareness indicates that it is still a struggle, and it cannot simply be answered by a question to this Awareness. It is something that is happening.

This Awareness indicates this is likened unto asking during the middle of World War II: "What can be done to end this war?" The question seems to be meaningful, but there is not some answer for such a question. The answer that, "Well, they're working on an atomic bomb" would not actually answer the question as it was intended, for the ending of World War II, because it is not a question of what will **end** this war, or what will be done in the conclusion of this war; it is a question: "What can be done to end this war?" with the implication being: "What can we as entities do?"

Each Person Becoming Aware Adds to the Power of the Masses

This Awareness indicates that each entity, by being aware, adds to the power of the masses. Entities who are not aware are simply uninvolved bodies, human meat on the hoof, as they would say, and they contribute nothing to, or nothing of value to the ending of the crisis, or to the resolution of the crisis. They are simply there, like a tree, like a bush. The bushes and the trees in battle, do not play much of a part. They may be used for entities to hide behind, or they may be slaughtered during the war, but the bush and the tree have no motivation to do anything in regard to a battle.

Likewise, entities who do not know what is going on, who are not aware, are much the same. They may be used, and they may be slaughtered or victimized, but they do not know why, and they do not know what they

are doing, if they do anything. If they hide the enemy, if they help the enemy, if they fight the enemy, then perhaps, out of the personal frustration, they may end up doing something to support the masses, but they may also just as easily support the enemy because they do not know what is going on.

This Awareness indicates what entities can do to spread the information. This book itself is a very powerful weapon against the New World Order, and the more entities have this in their hands, it is actually more powerful than the gun, and if entities have this information then they can do more for the prevention of the New World Order than if they have never heard or witnessed or understood these things.

The Writings of Thomas Paine Helped America Win Its Freedom

This Awareness indicates it is not the first time that writing, the pen, is used to win a victory. Thomas Paine and his writings helped to win the Revolutionary War, helped to turn the tide against the supporters of Britain, and in favor of the Colonies and their independence. This Awareness indicates that this book can do much the same.

Knowledge is Power: Get These Books!

This Awareness reminds you of the two other books: **Treason: The New World Order** by Gurudas, and the book by Icke: **And The Truth Shall make You Free**; these two books also have powerful information. Knowledge is power, and knowledge can help entities to better improve their lives, and with these books, entities can be much more powerful as individuals and can help others to have more power also, and the empowerment of the masses is essential in throwing off the yoke of tyranny.

What Percentage of Officials are Part of New World Order?

QUESTION:

Next: "What percentage, approximately, of the United States government upper level officials, Congress persons et cetera, are part of the New World Order cabal?"

COSMIC AWARENESS:

This Awareness indicates that there are many entities in the upper echelon that have some connections. Those who are part of the Council on Foreign Relations, (CFR), and those who are in the Bilderbergs, and those media personnel who are also involved in those organizations, and the Trilateralists: these entities are more or less in what the entity refers to as the 'cabal.'

The entities work to some extent with a certain amount of understanding for the New World Order. To some degree they are not completely informed, partly because their focus is not so much on bringing off the New World Order; they are more interested in being elected and in enhancing their own power and prestige. They see the cooperation with the New World Order agenda as benefiting their position, their personal position, and therefore, they go along, to get along.

Many of these entities, if the tide turned suddenly, would also turn their allegiance to the winning side, to become more of a Patriot, if they saw that would enhance their personal prestige and better their status. This Awareness suggests that approximately half of the government in legislature and in the Executive Branch and the Senate would be considered as part of the cabal.

Freemasonry a Major Player in New World Order

The entities in the Justice Department appear to be even moreso, more than half as working in this direction. For one thing, those in the Justice Department are more controlled by their Freemasonry backgrounds and

these entities being more influenced by Freemasonry, because Freemasonry is a major player in the New World Order, will have an influence through the use of the courts and the law, and the judicial department, will have an effect on many individuals and situations, so that these entities, while perhaps being approximately 60 to 65% involved in the New World Order, can in some ways have an even greater than 60 to 65% effect on the outcome.

This Awareness indicates, however, none has as much potential as the millions of entities who make up the masses, the citizens of the country. If this citizenry ever fully awakens, it will be impossible for the New World Order to gain any degree of power. It will crumble, and many of these entities will scramble to hide and deny their involvement.

Buy These Books and Send Them Far and Wide

This Awareness indicates that this book, and these other two, and any other similar books, do indeed constitute some extremely powerful weapons in the struggle against tyranny. How long these books will be available is of course an issue of great concern. They should be purchased and spread far and wide as quickly as possible. If entities could spare \$300.00 to purchase copies of these books to send to others, to awaken them, it would be a great move on the part of entities, in the preservation of decency and of the values that have made this country an ideal, likened unto a modern-day Camelot, in which legends are made, the future will look back and realize it was indeed a time of magic and wonder, when people were free.

Other Mind-Controlled Slaves are Suddenly Waking up: Why?

QUESTION:

One last question from JD on this subject. "I have corresponded with the author, (subject) and read additional evidence she sent me. It appears that numerous mind control victims have recently begun having conscious recall of memories, supposedly effectively suppressed. What caused this? Is it due to the nearing Photon Belt energies? or the waxing energies in our world of the spirit of truth?, or perhaps waxing Aquarian Age energies, or some other astrological influence?"

COSMIC AWARENESS:

This Awareness indicates these are influences; they are not the only cause however; they are contributing causes. Another cause is that the mind itself, the very nature of the human spirit is such that it tends to examine its own programming from time to time, and entities who developed as children will eventually, at some time in their life, begin to examine their childhood, those feelings, those thoughts, those experiences that have disturbed them, and they may begin to unravel certain insight, that help them better understand what occurred, and memories will flash back to them, things they had suppressed and forgotten for many years.

Some Dr. Beter Informants Were Mind-Controlled

It is the human spirit that does not accept slavery, even of the mind, does not accept being enslaved, nor does it accept the enslavement of consciousness, and the human spirit eventually begins to seek freedom and find a way out of its programming and conditioning into slavery, and thus, there were, in the Sixties and Seventies, statements suggested by Dr. Beter, in his contacts with CIA agents, that many of these entities were programmed to forget what they knew, but were beginning to remember, and had begun to inform him of information that was not intended for the public.

Likewise, the same thing occurs today, with many of

these Monarch programmed people. It was assumed that the mind control could be used to totally create new areas in a person's mind so that they could be totally controlled. But this Awareness indicates there are many, many cases of the controlled mind breaking free and recalling things that had been suppressed, either by drugs and hypnosis, or by trauma.

This is the result of the human spirit and its need to be free.

During the 60's Psychedelics Awakened the Masses

This Awareness indicates in the 1960's, when the MK-Ultra programming was first brought into experimental stage and the use of LSD and hallucinogenics and psychedelics was introduced into groups, the intent of the CIA was to find out what effect it would have in helping to control the masses, but they suddenly found that it was causing the masses to awaken and to throw off programmings that had been put in place over many decades, so that suddenly they had people in the streets objecting to the war in Vietnam because they had taken some LSD, or some peyote, or some other psychedelic, and had seen that the war was just a designed program to help the corporations gain greater powers, to help the munitions people to get greater wealth, and they began to protest the war and seek to save the lives of entities in that war, and stop the government from sending young boys into battle for a war that served only the corporations.

These entities, having used these particular types of drugs that awakened their consciousness, instead of being guinea pigs to find a way to control the masses, became free of mind control that had been put upon them since childhood. Many threw off the mind control from their childhood religions. Many threw off the mind control from government propaganda and tradition and tradition, and sought new ways of doing things, and sought ways to find greater freedom, and to spread that freedom to others.

This Awareness indicates that the weird dress was simply a rebellion against the mind control of fashion, and of traditional dress. And these entities wanted to show themselves to be free of that kind of social control, and this Awareness indicates that essentially, those psychedelics helped entities to free their spirit, to become more free than they had ever imagined possible, and this Awareness indicates that this is again the dream of the current day user of drugs. They want to find freedom. But today, the drugs have been more selectively introduced into the country: drugs that tend to enslave entities, rather than free them.

Current Drugs Like Cocaine Create More Dependency

Even the current drugs of a psychedelic nature are not as pure, or are not as freeing as the ones used in the Sixties. There are many entities who think that cocaine, which gives them a feeling of power, is actually a drug that is freeing them of their weakness. It does not free them of their weakness; it simply creates another form of dependency.

They depend on the use of the drug to feel good, to feel important, to feel that they have some kind of personal power, and thus, they become more enslaved by the drugs that are being brought into this country by certain Shadow Government agencies, such as that which was run by George Bush and Clinton, and others through Mena, Arkansas, in the last decade.

This Awareness indicates that these same forces are still bringing in drugs to the country to seduce and lure the youth into thinking they find freedom through the use of these drugs, when in actuality, the drugs being

issued into this country today are simply adding to the controls on the minds of people.

Awareness Compares the Marijuana of Today With the 60's Weed

This Awareness indicates even the marijuana that youth is involved in today is much different from that which was used in the Sixties. Today there is a greater amount of TCP in the marijuana. It has been added to the marijuana to make it more powerful and more addictive, and the entities are not as able to throw off the addiction or to become free in their thinking. They simply find their brain becoming more numb from the use of this substance.

Their ambition begins to wane. They find it difficult to do anything except seek something to eat, to keep their blood-sugar up, and when the blood-sugar drops and they need to build up the blood-sugar, they manage to find enough energy to get up, to eat something, and to increase their blood-sugar level, but this is about the extent of their activity.

In the days that follow, they are again without ambition. They cannot seem to get up the energy to do anything, even to think about what should be done. They simply want to relax, want to find something more to help them sleep or relax, and once it begins to wear off, and they do get energy, they may have enough ambition to get out and try to find some more. And thus, they are enslaved by the drug, and their habits.

This Awareness indicates the overindulgence makes this an extremely hazardous experience for the entities, much worse than that which was experienced in the 1960's by most entities who have some contact with the fresh marijuana leaf and had an occasional experience in using it. Such entities also lost some of their normal ambition, but they would also occasionally have some interesting insights and understanding of things that gave them the feeling that there was some worthwhile benefit from the use of the substance.

Today, it is just to make the body feel good for a moment, for a time. It is a kind of relaxant, and entities seem to think it is beneficial, though their lives begin to fall apart. No one wants them to "crash" at their house because all they do is eat and sleep, and they are not able to get up to help to do anything, to show any ambition or initiative for doing anything but pampering themselves.

These entities only get energy enough to show some kind of initiative when their comfort zone is threatened, when they are told they must leave, or when they are told they cannot have anymore of the drug they desire. When this occurs then they suddenly get energy enough to rant, rave, scream, curse or whatever they do in such a situation.

If they are forced by necessity to take a job it is usually only long enough to get some money, to get some more marijuana so they can "crash," so they can relax and enjoy the oblivion that is brought to them by the TCP, which, by the way, damages the brain and makes it less effective and less able to think clearly.

"DIVINE INTERVENTION" AND MASS LANDINGS THIS FALL?

(Sheldon Nidle Group Says Spiritual Hierarchy is Intervening)

QUESTION:

David N., Reno, Nevada, forwarded some information he got over the Internet. It was a question: "Can you ask Awareness to comment on the validity of this information? I received it over the Internet." And it's called, the subject: "Latest on Mass-Landings," and it has to do with Sheldon Nidle's group. "Subject: Sheldon's report mass-landings, new reality."

Let's see. There's some dialogue before it gets into the information. "You can contact victory net. com. for more information. This message I'm sending you is available to the planetary round table members." Anyway, the report: "The Galactic Federation wants us to get our planetary advocacy groups together as soon as possible.

"I started a group in January, '96 called Mission: Peace. Sheldon is starting a main center in Maui. It will be a think tank and provide resources. He has written a new book which is at the printer now entitled First Contact. You can call Operation Victory to purchase a copy." And then it gets into the main message here.

"A more detailed timetable. The Fall of 1996. The major reorganization of Federation personnel and of the Angelics for the revised mass-landings scheduled will be accomplished by October 7th, 1996. Cloaked advanced energy devices will be put into earth's orbit by October 16th, 1996. It will monitor all planetary defense systems.

"The mass landings will not happen before October 28th, of '96 unless something happens. Major displays of ships in all major world capitols will be scheduled some 24 to 72 hours before the actual landings. The Angelics will begin to broadcast using scalar waves, information about what is to come some 24 hours before the landings.

"There will be a major series of statements from some of the world's most respected spiritual leaders, some 24 hours before the landing. It appears that Billy Graham and Mother Theresa will be involved. The new scenario for the mass-landings will now begin some 24 hours before the actual mass-landing operation begins.

The angels will employ a special series of energy and music sessions that will help to prepare for the operation by setting themselves into their "wave formation" about 24 hours before the landings. All information needed to complete the operation will be transmitted to the crews some two hours before each wave lands.

"Maui and the rest of the Hawaiian Islands will be used by the fleet operations commander as a prime base camp in the first three days after the landings are completed. Remember that Lord Zandrial is in charge of the landing fleet and of earth's governance. Know that his process will restore you to full consciousness with all the wonders and blessing that such a transformation can create.

"Be aware that it will also return to all of you your lost memories as well as the reasons that you have chosen to incarnate here. Your angelic counsels have now reached a point where they are joyously preparing to await your full return to them. The new bodies and the integration they will bring will allow you to fully experience the wonderful role of being a planetary guardian.

"You are about to learn how to be a home in the space/time dimensions that make up Creation. Become knowledgeable by carefully preparing yourself for this change. Be open to these energies and allow yourself to take advantage of those trainings and those counselings that you are all about to receive.

"The Photon Belt was successfully encased in a new interdimensional hologram, on July 13th, 1996. It is now ready to encounter planet earth and our solar system. Our sun was put into its new interdimensional hologram on July 12th, 1996. This system will allow only the gradual introduction of photon and anti-particle emissions around the planets. It will act as a safety buffer to prevent any harmful effects from occurring.

"These series of holograms are scheduled for dissolution between December 26th and December 31, 1996. We must remember that this coming change in our reality has been caused by a Divine Intervention that makes possible our new reality. The Federation scientists will monitor the dissolution of the holograms and ensure the successful employment of the Photon Belt.

"The revised schedule for the mass-landings and its great emphasis on the crew, us, means that we have to do all that is possible to ensure its success. The remaining time will be quite eventful and will be one of the most momentous times in the recent history of our beloved planet.

"The Maui center will function as the hub for a vast change in global consciousness. The Spiritual Hierarchy wishes to remind all that they contacted for these changes that they are not in violation of free will. The Spiritual Hierarchy also wants to remind us all that they are in charge of the process and that they send us their light and love. So do not be fearful of what is about to happen.

"It is only a method to bring us back to full consciousness. We will have victory. In summary, we are now in the process of creating our PAG's and Centers." (They don't explain what the PAG is) "This process will be vastly accelerated by the early Fall period. The mass-landings and the Photon Belt are on schedule to be completed before the Third Harmony Cycle of this next Tzolkin, (approximately January-February, 1997).

"The Spiritual Hierarchy is accomplishing a Divine Intervention which will completely alter our reality and ensure our victory." That was the end of the communication. And the entity wants to ask Awareness if that is valid information?

COSMIC AWARENESS:

This Awareness indicates that there is a great deal of intense energy building for the months of October and November, and for the rest of the year. This Awareness indicates that the information this entity provides is his interpretation. It is not necessarily absolutely accurate in the way he presents it, but there is indeed a great event and energy influx into the earth plane at that time with energies from other dimensions having their effect on the earth.

The use of the term "Divine Intervention" is a good term for describing these energies. This Awareness indicates that the details of the entity's message and the particulars are not necessarily to be taken literally. This Awareness indicates that the time is only a week away for the first part of the entity's prediction to occur, approximately a week or a week and a half, and entities will begin to get some understanding of the kind of accuracy before this mailing is actually in their hands. (

This Awareness indicates the next month will be one which brings surprises and causes entities to sit up and take notice. The month of November may be even moreso, and it is correct that February of '97 will again become an important time as the Photon energies again become stronger.

QUESTIONER:

Yes. These 'Spiritual Hierarchy' organizations have predicted these mass-landings a number of times in the past few years and nothing has happened.

Ed's note: Don't hold your breath. In my opinion, anything that comes from the so-called "spiritual hierarchy" is B.S. Their track record is zilch! I still think the Dark Force controls them.

Why are Women in Prison Having Seizures?

QUESTION:

A question from S. B., Buffalo, New York. He writes:

"I know two men who are prison guards here, and they both say that inmates with AIDS, HIV, are close to 70%. Also, one guard said that he'd been a guard for eight years, and in the first four he was in a men's prison and saw only a few men who had seizures and convulsions, but since he's been at the female prison, he's seen a lot, "hundreds," he said, having seizures numerous times."

And the question is: "What are they doing to the women? Is it something in their food, or the shots they are giving to them?"

COSMIC AWARENESS:

This Awareness indicates it appears to be related to shots and also foods. They are being used as guinea pigs in some kind of experimental project of experimental drugs, in which they are unknowingly being injected and fed certain substances to see what effects these will have on the masses in general if injected or if put into the diet of persons in the public domain.

This Awareness indicates that this appears to be related to some kind of genetic research.

AIDS Exceptionally High in Prisons?

(Homosexual Being Used as Experimental Guinea Pigs)

FOLLOW-UP QUESTION:

About the high percentage of AIDS (70%) in the prison, is that valid information?

COSMIC AWARENESS:

This Awareness indicates this appears to be correct. It is likened unto the early days in San Francisco when AIDS first began. A high concentration of homosexuals caused the spread of AIDS in that area. In the prison, the homosexual activity is far greater than it was in San Francisco, and this is seen as a percentage that is quite accurate.

This Awareness indicates it also is seen that some of these entities are likewise being used as guinea pigs in the sense of certain tests, certain medications, certain projects being used on the prisoners to monitor the effects of potential treatments and also of potential biological warfare research to determine how to spread a disease and how to cure the disease, how it can be enhanced or diminished. The entities are simply seen as people who are unable to do anything about such a project of experimentation, and therefore, many involved in these research activities feel safe to continue such programming.

Experiments May be Used Later in Concentration Camps

This Awareness indicates it is also seen as a kind of preparation for methods that might later be used in the concentration camps to help rid the concentration camps of people, whereby the prisoners in the concentration camps of the future can be injected with biological warfare or with drugs that keep them passive or which can be used to eradicate them, while at the same time preserving body parts for use in operations and organ transplants.

What's to Become of the Animals?

QUESTION:

A question from Cal F., Crete, Nebraska, who writes: "I am an animal lover and have had various kinds of animals all my life. Right now I have three horses, three dogs and fourteen cats. I would like to know what the future holds for our animals, and how they will survive all that we will be going through."

COSMIC AWARENESS:

This Awareness indicates in general, in the various wars in the past, animals have suffered greatly, but tend to be able to survive and come back after the war has

ended. This Awareness indicates in some situations wherein mass-famine is a great concern to humanity, cultures have totally devoured some of the species of animals so that they do not come back until there is a major change and animals then can be imported from elsewhere to repopulate the area.

This appears to be a possibility for some areas of the world during the coming changes, if the famine problem becomes acute. Otherwise, this Awareness does not see a great problem for the survival of various species, except in terms of some of the species who are already endangered.

WHY NOW THE ANNOUNCEMENT OF POSSIBLE LIFE ON MARS?

(Is Kissinger's "ET Card" About to be Played?)

QUESTION:

Alice E., of New York City writes: "NASA scientists, life on Mars! So now the scientists at NASA have discovered that "life exists on Mars" from pieces of a meteorite that allegedly fell from Mars some 3,000 years ago. Are they serious? Or are they prepping the man on the street for more eye-boggling information? What's next?" she asks.

COSMIC AWARENESS:

This Awareness indicates this is part of the preparation for the government to play what Henry Kissinger calls the "ET card," in which they would suggest that the earth is in danger of being invaded by extraterrestrials, and the only way to prepare is to set up a world government, a world in which all nations work together to be prepared for dealing with the threat of alien invasion.

When Ronald Reagan Spoke of the Aliens

This Awareness indicates you will recall that President Reagan spoke of this in Iceland, when he asked "I wonder what the people would want if they were to suddenly realize that the earth was being threatened by some outside alien force? Would they be open to Russia and the United States becoming allied to fight such a force?"

This Awareness indicates all in all, Reagan gave four such statements about alien influence and this has been a back-burner on the agenda for moving into the New World Order. This Awareness indicates that this Mars announcement is simply preparing the masses for the potential of releasing information about aliens so that they can at some time give further information, or in some future date introduce aliens in a way as though they were our friends.

This Awareness indicates that in order to give the earth to the Orion Empire and the Draco Federation, it must first be informed that there are indeed extraterrestrial beings who have been in contact with the earth, and the New World Order is actually in preparation for such contact, or such agreement. Whether or not the agreement takes place on its prescribed agenda is a matter of question.

If indeed the Sirians or Pleiadians intervene prior to such action, it may prevent such a contract from occurring wherein the earth becomes part of the Orion and Draconian alliance, but the agenda is still in force and preparations are still in motion, and the announcement of life on Mars is just part of that preparation.

This Awareness indicates do not be surprised if something even more dramatic is introduced soon. Part of the reason for such an introduction is to first awaken the masses to the possibility and idea of extraterrestrial life, and secondly to do it in such a way that it is not a threat to religion, or to mankind in general, so that

entities can get used to the thought of life outside of earth.

This is something that officials have never acknowledged before, for fear of panic, for fear of the threat to religious teachings and for fear of the threat of security to the masses. You will recall that Orson Welles' War of the Worlds radio broadcast led to a number of suicides and mass-panic and the government has never forgotten this, and therefore, have for some 50 years kept information about extraterrestrials hidden from the public.

"Independence Day" Ad Causes Panic in Spain

FOLLOW-UP QUESTION:

I read that only last week this panic occurred in Spain when their television commercials for the movie Independence Day were put on, and that several hundred people panicked and the phone lines were overburdened and so forth, because the scene happened to show the White House, I believe, being shot at by the aliens.

Cosmic Awareness:

This Awareness indicates that many entities may have turned on the channel after the preview had started and not being aware that it was an advertisement for a movie, and therefore assumed it was some kind of newscast.

Von Daniken's "Gods From Outer Space" Shown on Major TV Network

QUESTION:

Last night we watched, on a major television network, ABC, I believe it was, a two-hour documentary of Erich Von Daniken's Gods From Outer Space, where he was trying to prove that aliens influenced us clear back to the beginning of history, by showing scientific evidence, aerial photographs from above of the Nazca lines for example, in Peru, and drawings within the great pyramid and so forth, and with no photos at all of UFOs and hardly a mention of them.

This seemed to me to be another obvious attempt of getting the public into the idea that aliens, friendly aliens, have been around for a long time.

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that much of his earlier work was criticized heavily from the religious organizations and experts of a religious/scientific orientation, but it still had considerable impact on the thinking of entities. The criticism from these so-called 'experts' helped those who could not accept the arguments of Von Daniken to relax and put it aside so that they did not have to be forced into a realization of extraterrestrial life.

This present presentation is a similar type of expose, designed to find out what kind of feedback for the arguments of Von Daniken will be forthcoming to determine whether humanity is yet ready for the expose of extraterrestrial life.

This Awareness indicates that more evidence was given in this showing than was made available in his previous work, and it becomes more difficult to put it down as some work of a "kook," because the entity for one thing, did not promote a clear argument, he simply asked "How can this be?" and raised questions which can only be answered by the explanation of alien technologies in the past.

It is the kind of program that forces entities to think about the possibilities of an alien life force out there somewhere.

Government Has Rules on Dealing with Aliens (You Could be Arrested for Not Following the Party Line)

CLOSING MESSAGE:

This Awareness indicates there is a State Department memo that has been around for some time that deals with what to do if you see a UFO or have an encounter, and part of the memo warns entities not to harm the extraterrestrials. It also asks that entities notify certain authorities and to remain silent to other than those authorities.

This Awareness indicates there is considerable amount of directive in terms of not harming those extraterrestrials. Anyone who is caught killing or harming the extraterrestrial will be considered as having committed a major felony. This Awareness indicates there is also information from the State Department about entities' attitudes and statements regarding extraterrestrials. They are to follow the government line, and anyone after a certain time who does not subscribe to the government line can be arrested and held for breaking the law.

This Awareness indicates that obviously, this memo has not yet been put into force, but there is likely to become a time when entities cannot talk freely about UFO's without the threat of arrest for countering any government propaganda or programming.

This Awareness indicates that this would imply that at some future time there will be a specific programming given by the government in regard to UFO's and that all entities must accept that as the authoritative and unquestionable argument in regard to these objects.

This Awareness indicates of course, if that is the case, and if it does come to be enforced, then many of the things that have been given will be censored in terms of speech, and entities will simply have to parrot the line of the government.

This Awareness indicates of course, all of this could change if the 'friendly extraterrestrials' were indeed to come upon the earth prior to the implementation of this programming.

WHAT IS LOVE?

QUESTION:

(3/8/96)

A question from Terry T., Scottsmeer, Florida. He writes: "I am a student of love. I have discovered that love embraces those who embrace it. I have also found that it is very subtle and exact with its love. This love, which all strive for, is literally driven away by our material preferences, not because there is anything wrong with material possessions, but rather because we allow our energy to be drawn away by our fixation with them.

"It is our lack of attention that keeps us from love and from experiencing/achieving our dreams. Should Awareness agree with this, could you give additional information on just how entities keep themselves distracted from the very love they seek?"

COSMIC AWARENESS:

This Awareness indicates that essentially, the action of love in its more altruistic sense is that of giving of self. This Awareness indicates that there are many different kinds of love. There is that which is self-love, which is seeking love for self from others, which in turn implies that a person thinks they are loving if they get what they want in terms of someone else's love. They will say "I love you!", which really means "I like what you do for me. I appreciate what you do for, me!" It does not necessarily mean that they love the person. They simply enjoy the relationship because they are getting something special from the person.

This Awareness indicates that this is the more primitive type of love, the more basic type of love, without the altruism of self-giving. This Awareness indicates that there are of course the more mature types of love wherein an entity gives of self in order to help the other. In some instances this follows from that action of getting love. If one really enjoys getting love from someone, they may find themselves becoming more appreciative and protective of the person who loves them to the point wherein they give their energy to help that person who loves them so that a reciprocal action begins, a reciprocal love begins to grow.

Small Creatures can Teach an Entity to Love

Thus, they not only **get** love, but they start to **give** it also. Sometimes entities are unable to do this with people, and they can only do this to animals or small creatures whom they can trust completely to be loving to them, but even a small creature, if the entity can reciprocate and give love to that small creature, can be of great help in teaching the entity to love.

This Awareness indicates that it is not so much **teaching** the entity to love, as it is giving the entity a **chance** to love in a way that is not risky to the entity. This Awareness indicates that some entities cannot love if there is any risk involved, and risk varies from person to person. What is one person's opportunity to love is risky to another person. But small animals, pets and such creatures are often seen as a non-risk love expression, and entities can love their cat, their dog, without feeling that the dog or cat might abandon or reject them or turn against them at some point. Therefore, there is little risk involved in giving themselves freely in loving the dog or the cat.

Why Many Young Girls Want to Have a Baby

This Awareness indicates that when an entity can give love to another human being, this becomes a form of more mature love. Young girls often want so badly to have babies because they think that the baby will never reject them and will be very loving to them, and they can give their love to their baby, which they were not

able to get from their mother or from others in the family, and therefore, they seek to have a baby, simply because they want to be loved by their child.

This Awareness indicates that this is not uncommon. It is quite a common motivation for many of the young mothers who take a risk to have a baby. This Awareness indicates that even this can help an entity to learn to love. If they can love a small child who is totally trustworthy of them, then they become more trustworthy and can give their love to this child.

The more mature entity may find it possible to love someone who is older and more discerning than the baby, someone who has the choice of giving or withholding love. This Awareness indicates that this entity, in giving love to someone who is more discerning and more critical, takes a risk when giving love, and they can be disappointed, they can be hurt, or they can be benefited by taking such a risk.

This Awareness indicates that some entities are so mature in giving love that they will love another who is really not worthy or has not demonstrated any worthiness or love. They will love the person even though the person may lash out at them, may express hostility, and yet the entity continues to love that person because the entity does not actually **need** the love of that person. The entity only needs to give love to that person. The entity is so full of love that his or her purpose is not to get love from others, but to give it to those who are in need of love.

Thus, the entity will give love to a person whom others would say "doesn't deserve your love." This Awareness indicates that this kind of altruistic love is of a much higher nature. This Awareness indicates that of course, all these expressions of love are but reflections of the truly basic need of individuals to have a love of God. The ultimate love that entities can experience is that total love of God; the love of the Creator, wherein an entity loves without demands.

An entity who **truly** loves God does not say "I'll love you if you make me rich! I'll love you if you'll give me the person I want in my life. I'll love you God, if you'll satisfy my appetites, my needs, my hungers, my yearnings." The entity who truly loves God is yearning for God's love, and to devote one's own love to God, and in that process, there becomes the union of oneself and the Divine energies, so that an entity is merged with the Divine.

This Awareness indicates that anyone who loves God will find it much easier to love God's Creation, and all those involved who are participants of the Creation. Thus, such an entity who love God loves everyone else also. This Awareness indicates that this appears to have answered the question. If there is any other aspect of the question that is left unanswered, that this be repeated.

QUESTIONER:

That area where he talks about "It is our lack of attention that keeps us from love, and from experiencing and achieving our dreams."

COSMIC AWARENESS:

This Awareness indicates the word "attention" has to do with attending and focusing on that which is the subject of the attention. This Awareness indicates that in giving attention, one must give of self. You focus and you give of self; you attend, and you give of self. If you cannot attend or give attention, then you are seeking attention, seeking to gain something for self, and of course there is not a real expression of love in that activity. There is a 'desire' for attention or love from elsewhere.

"Know Ye First the Kingdom of Heaven":

QUESTION:

The entity goes on to another question. "This leads me to another topic, relative to attention. The quote "Know thyself first. Seek you ye first the Kingdom of Heaven." Can Awareness comment on this as to the importance of it to individuals? I find the truth in these words relative to an individual entity.

COSMIC AWARENESS:

This Awareness indicates that the statement "Know Thyself" is essentially that which has been attributed to Socrates as an admonition to a student, that if he wishes to know anything, he must first know himself. This Awareness indicates that to know oneself can lead to knowing much more than one would imagine, for if you go deep enough within yourself, you become aware of TA, you become aware of the Divine Forces that lie deep within your own existence.

This Awareness indicates that in the statement "Seek ye first the Kingdom of Heaven;" it is a admonition that your search for treasure in life is best served in seeking the Kingdom of Heaven rather than seeking the treasures of Mammon or matter. This Awareness indicates that this concept "Seek ye first the Kingdom of Heaven" should also be associated with the statement "The Kingdom of Heaven is Within."

This Awareness indicates understanding these together helps entities to better understand what is truly meant by the statement, for the true treasure that entities seek may come best through the focus, not out there, not looking for heaven 'out there' in some market-place or through some other person, but actually looking for the Kingdom of God, the Kingdom of Heaven Within, so that entities find that by going deep within oneself, they discover the spiritual source of all treasures that they might seek.

We See Everything Physical as Significant but Does it Have Soul Value?

QUESTION:

Another question from Terry T. "It is my impression that all the strife, mayhem and destruction on planet earth is really, in the truest sense, but an illusion, and has no real merit relative to worth or value as we humans would put on it. In the Grand Scheme of Things, everything here is temporal, and not real, though it seems very real to us.

"The fact is that soul goes on forever, and physical action is but clay in the hands of soul. As such, we bind ourselves to the reality we find ourselves in. The strife is of our own choosing. Our interference in other lessons too, binds us to our own predicaments. In short, we have allowed ourselves to be deceived relative to the priorities of life, as such. We see everything physical as significant, when in fact, the physical has no more value to soul than do dreams appear to have to the common man.

"Is this understanding close to the role that is played out on earth by soul?"

COSMIC AWARENESS:

This Awareness indicates that you have tapped into the concept of relativity in your analysis, for all things are relative. This Awareness indicates that in your view that pain and suffering is of no real importance because in the scheme of eternal things it is so temporal and so meaningless that it simply doesn't count for any relative importance; this is correct, but during the moments of pain and suffering, relative to the injured party, it is going to be extremely difficult to convince them that it is of no consequence just because eternity will make it

insignificant.

This Awareness indicates the entity experiencing the pain and consequence relative to the moment will not find it easy to experience the eternity relative to cosmic lifetimes. This Awareness indicates that what appears to be relative on the one hand is not relevant or relative on the other. This Awareness indicates the entity who is experiencing the moment of intense pain and suffering couldn't care a whit about eternity and its role and how it nullifies the experience of the moment, for this entity is in the momentary experience and cannot experience the relative Eternal Now because of the present now, which is relatively more significant to the entity.

This Awareness indicates it is this kind of nullification that allows certain entities to think in terms of "For the good of mankind, we'll slaughter this city, slaughter these people. Everyone will benefit from this action. We will wipe out all of these entities who are threatening to spread disease to the rest of the world! And by destroying this city, and these people, the rest of the world will be better off in the long run!"

This Awareness indicates in a relative sense, in the view of the overall good, the sacrifice of the individual or the small group may appear to be more meaningful, but this Awareness indicates it goes back to that same kind of thinking that was involved in the old primitive beliefs that throwing the virgin into the volcano to save the rest of the tribe was a way of appeasing the gods, and therefore, the sacrifice of humans for the good of the group or the good of the masses, for the good of the tribes, for the good of the nations, was excusable.

This Awareness indicates that it is likened unto the argument in the lifeboat, which is overcrowded: "Who should be thrown overboard that the rest of us will have a better chance of survival? Who do we feed to the sharks?" This Awareness indicates in a relative sense, whoever is selected will see it as not being ethical. Those who are in the majority, seeing the sacrifice of one person for the good of the rest, who are the survivors, will think of it as ethical and valuable and meaningful to sacrifice that one entity.

This Awareness indicates that this has long been a question in ethics; as to whether the individual should be sacrificed for the good of the many, or whether the many should sacrifice some in order to preserve the rights of the individual. Thus, in the United States and its basic founding fathers and the approach of the thinking to the Republic, it was determined by these entities that the rights of the individual were more important than the rights of the crowd, and that the individual rights should be respected and protected, and in so doing, it would also protect the rights of the masses, because the masses are made up of individuals.

Thus, by protecting the rights of the individuals, the masses themselves would have individual rights and thus have greater protection. This Awareness indicates that this appeared to have solved the thinking in regard to this type of relativity in considering whether one's suffering matters or not, when viewed from the broad scale of the masses or of eternity.

This Awareness indicates that there is always the reemergence of this kind of thinking and this argument will continue to reassert itself for further generations, for further thinking, and there are always those who have the majority with them, who are ready to sacrifice individuals in order to preserve their own power and group force.

This Awareness indicates it is part of that which is called the mob rule. It is also that which Detougeville, (sp) the French author who came to the United States in

its early years wrote about and discussed in his book *The Tyranny Of Democracy*, wherein he saw that the danger of democracy is that individuals may be sacrificed by the majority rule, and how this could become a serious problem of democracy.

This Awareness indicates that it is again being a part of the thinking of the Globalists in the New World Order, that individual rights are not as meaningful or as important as the Global view of a New World Order, which is of much greater importance than the rights of individuals.

This Awareness indicates that this kind of approach, thinking that the masses and the Global Change or the Cosmic Eternity nullifies any consideration for the individual or the suffering of individuals in the larger scheme of things, allows for all the atrocities to be justified in the tyrannical systems that have long been attempted in earth history.

It was behind the Nazi atrocities in their grand scheme of creating a new World Order, a Third Reich. It has been a part of many different philosophy-driven tyrants down through the ages; that they are doing something for the good of their country or for the good of humanity, and that the individual must give way and be displaced for the good of the New Order, the new attempt at creating something of greater importance.

This Awareness indicates it was a very strong philosophy in the role of Communism as individuals were pushed aside, sacrificed as being unimportant in regard to the significance of the party itself and the goals, and agenda of the Communists. This Awareness indicates this is nothing new, nothing unique in terms of thinking, but it is still very much a common concern among people, to keep things not only in cosmic perspective, or not only to see the global changes that entities would seek to promote; it is still important to understand the basic need of caring for the individual during times of crisis, so that the group does not sacrifice the one just to further the group's interest.

That being said, it is also recognized that it is unlikely to end. It is likely that the group will always be ready to sacrifice the one in order to further the group's interest, and because of this likelihood, mankind will progress spiritually very, very slowly. When mankind can recognize the rights of individuals to be, without unnecessary pain, the rights of individuals to life, liberty and the pursuit of happiness, the spiritual growth of mankind will accelerate.

Our Divinely Guided Nation is Now Threatened

This nation was divinely guided toward that purpose. It is presently being threatened for those very purposes, wherein the masses want to sacrifice the individual rights in order to promote some kind of mass movement that would help individuals in the higher structure to have greater control over the masses, who are seen as being of less importance, and in lower levels of the structure. Wherein those masses have no individual significance or rights when viewed by those in the higher echelons of the society.

This Awareness indicates that this country's action of turning the pyramid upside-down and giving the lowly individual the right to choose the government, the right to be the government, the right to express his or her opinions freely; this was an extremely unique experience for human history. It was extremely successful, and all nations sought to be as prosperous as this country, because the prosperity and the happiness and the freedom and liberty developed from these concepts made the country totally unique in the annals of history.

This Awareness indicates, however, this is now being threatened by those who would say "The suffering of individuals means nothing when viewed from the higher, more eternal point of view. It is of little significance, relative to the scheme of eternity!" This Awareness suggests that entities think more carefully about what you are giving away. It is likened unto wanting to change the dirty water in the bath and throwing the baby out with it in order to clean the bath-tub.

This Awareness indicates not only does the individual who is tossed out into oblivion get lost in the scheme of things, but all other entities of the masses also lose their individual rights in the process. If it can happen to one, it can happen to all, by this kind of concept or thinking.

CAN WE CO-CREATE WITH GOD?

QUESTION:

Another question from Terry: "It is my understanding, he writes, "that we have a tremendous ability/power to work with God, though most do not, out of ignorance. Is it true that we **can** co-create/ co-work with God?"

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness indicates that it is also very important to know what is meant by the terms used. It is one thing to say they are working with God, but it is important to realize that there are some entities who have used these terms in ways that were not God-like. The 'Son of Sam,' for example, insisted that God kept telling him whom to kill next. This was that serial killer who killed many entities.

This Awareness indicates that there have been numerous mass-murderers who felt that they were doing the work for God, who have felt that their killings were in behalf of or inspired by God. It is important for entities to have some understanding of what is meant by 'God,' and of what 'God' as a Creator would have entities do. If your "God" is one of violence, one of vengeance, one who would slaughter and destroy in order to get his way, is this God truly a Divine Creator, or is it simply a monster parading under the name of God?"

This Awareness indicates that *It* does not wish to alarm entities unnecessarily, but *It* does wish entities to be very careful about thinking they are aligning themselves with God without having a clear understanding of what the terms mean. This Awareness indicates that essentially, the Divine Consciousness permeates everything in the universe and is everything in the universe, and working with the Divine Consciousness of God means that everyone, regardless of choice, can be and is attuned in some way to God, unless the entity confuses or deludes self into thinking he or she is separate from Divinity.

The entity who starts to think in terms of "Me and God against them" is not really attuned to God, because there is no "them" to God. It is all part of God, and the action of separating oneself is an action that separates from God. This Awareness indicates that God would not destroy another being without realizing that God is destroying part of *Itself*. This Awareness indicates that therefore, it is important to realize when you are speaking of working with God, that this should be a natural experience of all entities, not an exceptional one, and that working with God can occur when entities simply live a life that allows them to work with others, to be with others, to serve others, to help others; to work with nature itself, with the energies of the cosmos.

This Awareness indicates that it does not require that an entity become some powerful party in a social movement that allows the entity to claim some kind of

significance as a agent of God. This Awareness indicates these entities are more likely separated from God, rather than aligned with God. The more one seeks separateness and significance of self, the more likely the entity is pulling away from God.

Those Who Follow Lucifer and Satan

This Awareness indicates that an entity who surrenders to God tends to lose self-importance, tends to give up personal power and the pursuit of personal power, but the entity who seeks personal power by aligning with God is more likely to be attempting to promote self under a false god's name. This has happened repeatedly down through history. The more noteworthy entities known are Lucifer and Satan, who think that they are essentially divine beings, parading as God.

This Awareness indicates that there are those who follow these beings and denounce God, but this Awareness indicates that often the very name 'God' serves certain Satanic and Luciferian purposes if the entity uses the name 'God' for the promotion of self.

ARE WE INTERFERING WITH GOD WHEN WE INTERFERE WITH ANOTHER?

QUESTION:

Another question from Terry T. He writes: "The significance of our neighbor being a reflection of God seems to be greatly misunderstood and disregarded as a reality. I must admit that I too sometimes forget this when dealing with others. But as I contemplate it and the significance of it, especially when we consider the many spiritual references to it, I see that it is very important..

"If there is a master galactic accounting system and each person is a spark of the Creator, and I believe this is so, then it only stands to reason that each is having its own divine experience and that each is in fact, Divine. Thusly, to interfere with another literally is to interfere with God." And he adds, "Is this an accurate understanding?"

COSMIC AWARENESS:

This Awareness indicates that this is essentially correct. This does not mean that entities should be forbidden to interfere with each other, particularly wherein an entity is separating from God by promoting self at the expense of divine energies. This Awareness indicates in other words, if an entity such as a great tyrant is involved in sadistically destroying the lives of others, and all entities were to say "I shan't interfere with this entity's expression, because that entity is also part of God!", it should be realized that the entity basically is part of God, but is misguided and is separating from the purposes of God by those violent acts, and therefore, the violent acts may call for others to interfere in order to save the welfare of those whom he would otherwise victimize.

Without Interference What Would Hitler Have Done?

This Awareness indicates if it had not been for interference in the agenda of Adolf Hitler, for example, how many millions more would have been slaughtered in his name? This Awareness indicates that although Adolf Hitler may have had some inner core of divinity, it was being totally ignored by the entity as he separated himself more and more from Divinity and promoted self over God, over the Divine, and this entity being on the wrong path, taking the wrong course, might have been interfered with much earlier so that his behavior might never have gotten to the extreme of being able to sacrifice so many for so little had entities interfered at an earlier timing in this entity's life.

Epileptic Seizures: Do They Cause People to Murder Others?

(More on the Limbic Reptilian Brain)

QUESTION:

In regard to the violence put out by people like the Son of Sam, Marc T. sent me over the Internet, an article taken from the magazine called The New Scientist and I'll read a little of this. It says: "A few people who commit brutal and inexplicable murders may have suffered brain seizures that temporarily override their inhibitions against killing," claims a psychiatrist at Harvard. "Later, when they recover, they are horrified at what they had done", says Annaliese Pontius.

"They suddenly find themselves with a dead body. They have no idea what happened or why," she says. Pontius, who has worked with hundreds of murderers, says that only 14 have shown symptoms that suggest a seizure, which she calls the limbic psychotic trigger reaction. The fits temporarily overcome the control over impulses normally exercised by the frontal of the brain.

"None of the 14 had any history of violence. They were all loners who tended to dwell on unhappy incidents in their past. In each case, a seemingly innocuous stimulus reminded them of a past event that triggered the killing. For example, one man who lost his father as a child, had always felt guilty about his death. One day, as he was passing a pond, he spotted a man fishing who reminded him of a photograph of his father casting a line. He drowned the stranger and then tried to kill a woman who intervened.

"He stopped when he recovered his senses. All the cases share common characteristics which has led Pontius to propose that they suffered a seizure. In all the cases, the murderers report some kind of hallucination, such as seeing auras or flashing lights just before they killed. All experienced what psychologists call "flat effect" during the effect. That is, they experienced no strong feeling such as rage.

"They often suffered delusions of grandeur immediately after, and during the killing they showed signs of physical arousal, such as sweating, upset stomach, and ejaculation. "These otherwise unexplained physical symptoms are consistent with a seizure," says Pontius. She stresses that the men did not offer seizures as an excuse for their actions, and often turned themselves in to the police, or even tried to commit suicide when they realized what they had done.

"More research is needed to test her ideas," she says. Robert Fisher, professor of Clinical Neurology at the University of Arizona in Phoenix, is skeptical. "The idea that people suffering from epilepsy might become violent during a seizure has been discredited many times, but has left a lasting stigma on many sufferers," he says. "Any proposal that indicates murders arise from epileptic-type seizures ought to be backed up with very compelling research," he says."

Can Awareness comment on that story?

COSMIC AWARENESS:

This Awareness indicates that the entity who compared this to epileptic seizures misconstrued what the psychological researcher was saying. This Awareness indicates there is a considerable difference between epileptic seizures and the type of limbic activity described. This Awareness indicates the limbic activity is that which refers to the reptilian brain, which is the more primitive survival part of the brain that runs down the spine and it is that which the mammalian brain was placed over.

This Awareness indicates that the frontal lobes or cortex was then introduced over that, but when entities are cornered to the point of being threatened in extreme, so that their lives are endangered, the limbic brain kicks in and its purpose is to survive. That is basically what it seeks to do. It does not think. It does not have any ability to be rational. It only seeks to survive. It is a reptilian type of brain and will kill or flee as necessary for its own survival.

This Awareness indicates that in traumatic experiences, such as the child losing his father, this can make a strong impact on the reptilian brain in which the child's father becomes symbolic of the child himself, and seeing his father die can become a kind of symbolic threat to the child's well-being or the child's life, so that when it kicks in at a future time, it may trigger that limbic reaction as described in the assessment of the psychologist.

Low Blood-Sugar Can Trigger the Limbic Brain

This Awareness indicates that it is indeed something that entities **do** need to understand and research. This Awareness indicates that this can become very important when considering also that simple things such as low blood-sugar can trigger the limbic brain into reacting for purposes of survival.

This Awareness indicates there was recently a story given by a man who took his child up on the roof of a building and began holding the child up in the air and dancing around on the roof, and the entity began pretending he was throwing the child off the roof, and generally endangering the child.

The people rushed to call the police. The police, upon arriving, tried to coax the man down, but the man continued to act irrationally, and only when the man touched an electric wire and was shocked did he fall and the child was then rescued from the man. Otherwise, the entity would have very likely killed the child.

This Awareness indicates that on further investigation, it was determined that the man's blood-sugar was extremely low and it was theorized that his survival instincts, the limbic system, had taken over and had caused the entity to act without any kind of self-control or any kind of rational constraints. This Awareness indicates that this can occur with entities in ways that lead them to create crises, or traumatic events or violence, simply because they have allowed the blood-sugar to get too low, to the place where their limbic brain feels a life and death threat, and the entity then reacts, and there is not enough blood-sugar to keep the rational brain working properly, and there is then no self-control.

Heavy Trauma and Accidents Also Trigger Violent Behavior

This Awareness indicates that accidents can also trigger limbic brain behavior to cause expressions of violence, by some entities. Heavy traumatic episodes in an entity's life can also trigger such behavior. This Awareness indicates in other words, not all murderers (commit) murder because they decide it is what they want to do. This is the way most of society would like to view murderers. They would like to think that anyone who kills another has a choice of killing or not killing. Anyone who murders someone decided to murder them, or in some cases, the entity may have been pushed over a period of time in numerous decisions which eventually led to the choice of killing or not killing and the entity chose to kill.

This is the way that most of society wants to view these incidents, but in reality, the majority of killings of other people comes about because of some derangement in the mind of the killer, especially at the time of the

killing.

Low Blood Sugar Violence: What Karma?

FOLLOW-UP QUESTION:

Would the 'Lords of Karma' when looking at this entity, dismiss the whole thing by something like "Well, he's not responsible because he let his blood-sugar get low."

COSMIC AWARENESS:

This Awareness indicates that much of the karma from such behavior would be modified by the chemical imbalance the entity was dealing with, but the chemical imbalance may have been caused by other neglect prior to the incident, and the entity might have karmic repercussions from allowing himself to get to such a state as to have this problem in the first place.

Hitler's Brain Syphilis Helped Reduce Some Karma

The entity Adolf Hitler would, by most reckoning, suffer eons of karmic debt, which would be stretched out over thousands of years of negative karma, but because the entity had syphilis of the brain, which led to much of his sick behavior, his psychotic behavior, the entity will not be held accountable for the full scope of his behavior and the results that are so commonly associated with the entity.

He **will** be held accountable for having allowed himself to get syphilis of the brain, and for some of his decisions that could have been made from a higher more ethical standing, wherein he made a clear choice to take an evil path rather than a higher road. But all of the millions of entities who suffered will not necessarily see their karmic pains experienced by this entity's future lifetimes. The entity will not suffer as much or as long or as frequently as did those whom he caused suffering.

Drugs and Alcohol in relation to violence

FOLLOW-UP QUESTION:

In this article just quoted, this researcher stated it was only 14 entities out of hundreds that she interviewed, which shows this isn't all that common. Isn't, however, as indicated before by Awareness and in other books, that most of these senseless violent crimes are basically caused by an entity becoming either possessed by the dark force or spirits because of indulgence in alcohol and drugs and so forth, so he loses all control; he has not maintained contact at all with those higher aspects of himself?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates in law, an entity who commits an act of violence from drunkenness or from drugs is not excused. In the military, an entity who goes out and gets drunk is not excused from reveille early in the morning, even though he might want to sleep until noon or three o'clock. In other words, there is very little area for drunkenness or drugs to be an excuse for entities to avoid responsibility.

Wives who Enable their Besotted Spouse

This Awareness indicates there may be some wives who take pity on their drunk husbands and attempt to help them feel better the next day or forgive them for their abuse the night before, but this is only enabling them to continue their way of life, their abusive behavior and their drunkenness. It does not really help them for the wife to cater to their abusiveness or their drunkenness.

This Awareness indicates that likewise, the Lords of Karma do not forgive easily those who commit violent crimes from drug or drink, for in these cases, the entity having chosen to use the drug, to drink the alcohol, put himself or herself in a position of being irresponsible

and doing something that is unforgivable, and irresponsible.

If someone else drugged a person, if someone else gave them excessive drink and caused them to become irresponsible, to have an auto accident or whatever, then of course the karma would be shared, or possibly even attributed to that other person who caused the incapacity of this irresponsible behavior.

Assassins Created and Programmed by the CIA

For example, there have been books written about the CIA creating, preparing and using entities to commit assassinations by training them under hypnosis and drugs and giving them certain code words to trigger the assassination they have been trained for by the hypnosis and the drug combination. Such entities who commit these assassinations, if they were not compliant or personally aware of what was happening to them, might not even acquire any negative karma for their crime, or they might only acquire negative karma for having let themselves be controlled by some CIA agent or hypnotist, if they had a choice in the matter.

This Awareness indicates that may be where their karma would come from: for having let themselves get put into such a position of being irresponsible. The agents of course, who create such assassins, are consciously aware of their activities, know what they are doing, and are to be held accountable in a karmic sense, and those in authority over such agents are also karmically held accountable, assuming they know what is happening and authorized such (activity).

Ed's Note To understand how the CIA programs entities through mind control, read the book "Trance Formation of America" by Mark Phillips and Cathy O'Brien, the latter who was made into a sex slave for the political elite. A shocking expose which names our leaders and politicians who sexually used this entity over and over again, who would perform any perversion at any time for these entities who knew the secret code words that trigger such action. WHO KILLED TOMMY DARR?

FOLLOW-UP QUESTION:

In regard to his limbic brain theory on these entities who murder people, a question from JD in New York. I wonder if this might possibly apply. She writes: "I recently learned that an old friend, Tommy Darr, was brutally murdered in a woods through which he was passing (in order to leave grain for a flock of wild turkeys he "adopted") en route to the firehouse to do blizzard emergency work.

"Dubbed the 'Gentle Giant,' he was amiable and kindly. His having either enemies or a secret life is inconceivable to those who knew and loved him. Weeks later, the police can find no motive, no suspects; leaving the bizarre question: Who killed Tommy Darr, and why? And why so brutally?"

COSMIC AWARENESS:

This Awareness indicates that it appears that this was an entity or group of entities who were out for a kind of war-game type adventure, who just by chance happened upon this entity and to impress each other began thinking about and discussing killing the entity as a kind of sport. This Awareness indicates that much of this comes from that camaraderie of machoism that some entities tend to promote when getting together, like hunters trying to outdo each other in terms of "How macho can you be compared to me?"

This Awareness indicates it appears that it was simply an action done in sport, and this is the reason there was no real clear motive found or any clear evidence to link the killing to any individuals. It appears they did not

even know his name. This Awareness indicates it appears there were three entities involved, possibly a fourth who witnessed the incident. One or two may have actually participated, and it is possible that given sufficient time, those who witnessed but did not participate, may speak out or leak information about the incident so that in some future time, the mystery will be solved but this Awareness indicates it does not appear this will occur for a considerable amount of time.

She Remembers Being Born in Exact Detail

(Was This a Walk-In Experience or What?)

QUESTION:

A question from Ellen K., Worcester, Mass. She writes to Vicki: "Dear Vicki, after being a member of CAC for one year I finally gathered the courage to ask Awareness: I remember being born! All these years it is as clear as the time it happened. I remember! Waiting for the child to be born; standing with three of my "friends." The baby came and suddenly I was in this body. This was the most embarrassing moment: getting slapped.

Next, put to bed in a crib with cold starched sheets; then a man dressed in black spoke the ancient language asking God to have mercy and take me back! Wow! I got the impression my stay was going to be short. I started to cry and scream, which is what I needed to do, because I had pneumonia. Penicillin was not invented in 1930. I remember the nipple in the bottle going to the back of my mouth, trying to turn over and hitting myself, my arm waved about and struck my face. I remember the dress my mother had when I was one year old and the apartment we lived in. I also remember the carrier with the bobbing doll made of beads.

"I talked to my mother before she passed on, and she did not believe me until I spoke of the man in black. She asked what he said and I told her he spoke the ancient language. I understood him. She then recalled that she had the Last Rites read for me. The 'ancient language' was Latin. Mother looked up and ask: "Who are you? Where did you come from?"

After all these years and reading Ruth Montgomery, plus Awareness has mentioned "walk-ins." Please, before I travel the Yellow Brick Road home, (wherever that is!) where did I come from, or was that a natural birth?

COSMIC AWARENESS:

This Awareness indicates the entity is asking whether this was a Walk-in experience. This Awareness indicates that it appears it was a natural birth. That much of what you recall was due to the unusual fact that you resided outside of your body during the birth itself. You stood outside and entered only after the birth had occurred.

This Awareness indicates that most entities enter into the body prior to the birth. Most entities enter the body several months before the birth and do not leave the mother's body until the birth. This Awareness indicates that this is an unusual situation, for an entity to step outside the mother's body during the birth time, and this is what has allowed you to remember your birth so clearly.

When Does the Personality Enter the Body?

FOLLOW-UP QUESTION (VIKKI)

Would that also account for the clarity up to the first year following the birth?

COSMIC AWARENESS:

This Awareness indicates that the entity appears to have had the ability to step outside of self during the

pre-birth time and also during the time thereafter, so that the entity could see things from a more clear perspective than most entities experience. This Awareness indicates that usually, the personality enters into the child at approximately the age of two, three, or four. This is a time when parents begin to notice the emergence of a personality in the baby. Prior to that it is simply a baby.

When the Lower Self and Middle Self Enter the Entity

After that entry of the personality into the baby, the baby then begins to take on a kind of individualism. This Awareness indicates that this appears to be the middle self in Huna terminology. The lower self is that which usually resides with the baby during birth, prior to birth and for considerable time after the birth before the personality or middle self enters into the child's body. This Awareness indicates that the lower self is the same as the subconscious, and the middle self is the same as the conscious mind.

In the case of this entity, the conscious mind appears to have begun developing prior to birth, so that the entity's consciousness was outside of the body when the baby was born and also was able to stimulate the memory between birth-time and the age of one year. This Awareness does not see this as a classical case of a Walk-in, in the sense of Ruth Montgomery's version of the Walk-in.

What Changed the Gentle Cat Stevens Into a Fanatic Islamic Fundamentalist

QUESTION:

A question from Robert S., Vancouver, B.C. "Not too long ago there was an article in a local newspaper about Yusuf Islam, the former composer/musician Cat Stevens, appearing at London's Harrads department store to record his first recording in 17 years: a 66-minute narration of the story of Mohammed, with three traditional religious songs. I have long been puzzled about how a person who seemed so balanced and wise and loving, who sang such wonderful songs as *Moonshadow* and *Morning Has Broken* could change so radically, and suddenly become an Islamic Fundamentalist.

"My suspicion has been that Cat Stevens, becoming Yusuf Islam, was due to some past-life involvement of some sort. Could Awareness please comment on this?"

COSMIC AWARENESS:

This Awareness indicates that it **does** appear this entity did have a number of past lives in the Moslem religion. It appears that the entity was also reintroduced to this religion by someone whom he greatly admired, to the point where he willingly studied, out of respect for that entity, the teachings of the Moslem religion, and found them to be interesting and of benefit in many ways.

This Awareness indicates that the Moslem religion, in terms of its basic information can be very inspiring to entities. It is likened unto Christian information, which can be very inspiring to individuals; but wherein the religion itself can be inspiring, often the promoters of a religion can give a bad name or cause the religion to appear to be somewhat ugly in its expression.

Witness for example the time of the Inquisitions. If Inquisitions were happening today, in spite of the beautiful rhetoric of material in the *New Testament*, entities would find Christianity to be quite an ugly religion, and many entities looking at the Moslem religion today may have similar feelings because of what occurs with many of the Moslem Fundamentalist groups, especially considering the effects of the Ayatollah in Iran, in terms of the seizing of the American

embassy and in terms of other terrorist activities that are carried out under the name of the Moslem religion.

This Awareness indicates that an entity who simply looks at the teachings themselves might not find it quite so disturbing.

FOLLOW-UP QUESTION:

I wonder about this too, when I saw, sometime back, I believe it was a TV interview with the former Cat Stevens, who had written these really gentle songs about loving one another and so forth, and he was asked, what did he think about Salomon Rushkie, (sp) the author of the book *Satanic Verses*, and which the Ayatollah Khomeini put a contract out on him for writing, and the former Cat Stevens agreed and said the man *must* be executed.

It just seems so strange that there should be a complete turnabout in a person like that who's embraced another religion.

COSMIC AWARENESS:

This Awareness indicates that someone influenced him into studying the religion, but also influenced him into accepting the dogma of that religion as promoted in present-time. This appears to have been through some kind of strong brainwashing techniques. This Awareness indicates it can happen to anyone; that brainwashing or promotion of dogma can occur to almost anyone if they are subjected to it in a way that is scientifically or methodically promoted.

Even those who consider themselves Christians can be prompted toward violence, though the Christ asked entities to 'turn the other cheek' and discouraged violence in his story, in his life. Still, Christians can be easily promoted toward violent activities in the name of their religion.

IS ALL SUFFERING THE RESULT OF KARMIC DEBT?

QUESTION:

(3/9/96)

A question from Ted H., Fond du Lac, Wis. I'll read his statement, which is rather long. "This question concerns information from the book *The Pleiadian Mission* by Randolph Winters. Randolph Winters spent a summer in Switzerland with Pleiadian contactee Billy Meier, and got his information for his book from his talks with Billy Meier and his study of Meier's contact notes.

"On page 55 of his book it says, 'Once you have murdered someone and you both have died, both of your spirits are on the other side and no longer in the material form. The debt you owe can only be repaid in the material, so nothing will happen as a consequence of this action on the other side. However, once your spirit form, and the spirit form of the one you murdered are both back in the material, the debt can be settled.

"It is not necessary that you know each other. It is only required that you both be in the material world at the same time. If the person who was murdered becomes ill or is suffering spiritually somehow and is in need of strength, he can take from the life force energy of the murderer to help himself. This is not a conscious act, for neither know each other or have any memory of the previous murder. They do not even have to be in the same part of the planet or in close proximity to one another. It is a natural function of energy and creation that moves the life force energy from the murderer to the injured party.

"The victim will receive a flow of energy which is taken from the life force of the murderer and will start to feel better. The murderer, without knowing why, will suddenly lose some of his life force and perhaps become ill in some way. Since the debt is a spiritual one, it is not necessary that the material consciousness of either party have any idea of what is going on."

And Ted writes: "Awareness, if this true, then I assume that this could be a factor to a lesser degree between entities concerning other karma and is not limited to the one example of murder. Is this the reason why someone who appears to do all the right things concerning health suddenly comes down with some disease, which leaves everyone wondering, 'How could this happen to this entity?'"

"Concerning less serious karma, is this the reason why some entities who seem to be doing 'all the right things' still are constantly troubled with minor problems all the time, but it's really hard to figure out why, and these problems do not seem to be linked to any other entity?"

COSMIC AWARENESS:

This Awareness indicates that this can be the reason for these mishaps. This Awareness indicates, however, it is not always the reason for such mishaps; that there can be mishaps that occur that are not directly caused by karmic debt.

Wanderers do Not Have Karmic Debts

This Awareness indicates that for example, entities who return as Wanderers, have for the most part reached a point in their spiritual destiny wherein they do not owe karma on the earth plane, but choose to return to the earth plane in order to assist in raising the vibrations of the earth plane, and these entities, regardless of the fact that they do not owe karma, still have mishaps in their lives.

Often, the earlier part of their life is very difficult, filled with illnesses and filled with difficulties in

relationships, and particularly difficulties with school and jobs. They often have a hard time fitting into the pattern of social life because they are essentially not used to physical realities and physical-type relationships. This Awareness indicates that these entities may even suffer illnesses of an extreme nature that are prolonged over long periods of time, but whereby these entities may gradually overcome the illnesses.

This Awareness indicates in other words, what this Awareness is warning about is that you not use this principle to simply write off someone's illnesses by saying, "Well, it's his karma!" or "It's her karma!" This Awareness indicates that this is common in some of the Eastern countries that believe in karma, wherein they see someone suffering, and they simply decide that "It's the person's karma! Therefore, why give any merciful assistance to the entity?"

This Awareness indicates by this standard that has been adopted in some of the Eastern countries, entities seeing someone suffering tend not to be helpful or merciful to that entity. They feel that if they helped the entity it would simply interfere with the entity's karma and prevent them from paying off their karmic debt, therefore prolonging the karma, and they see this as being a disservice to the entity, rather than a help to the entity.

This Awareness indicates that *It* wishes entities who are more aware to realize that not all suffering is the result of karmic debt.

Does a Victim Sap Energy Off His Murderer?

QUESTION:

Is this a pretty common method though, as he says here, as an example, of a murderer, who suddenly finds his life energy being drawn off of him by a victim of a violation in a previous lifetime?

COSMIC AWARENESS:

This is not uncommon. It is a situation that is quite likely to occur for entities having experienced this kind of karma. This Awareness indicates that likewise, entities whose karma is brought about by less violent actions may also find themselves experiencing some kind of set-back, while someone elsewhere benefits. It is that same principle of "The universe abhors a vacuum."

Someone is in need, and someone has more than they deserve, and the universe, through the **Law of Karma** will balance things out. Likewise, sometimes an entity is in need, but deserves the karma of being in need, and the universe does not give that entity the fulfillment of his or her need, because the entity has a karmic need for the needy situation, the needy experience.

Does Our Spirit Always Stay on Earth?

QUESTION:

Ted had another question. He writes: "On page 144 and 145 of this same book, they, the Pleiadians, want us to know that our spirit does not leave the planet and go to heaven or to hell. It stays right here on the earth where it started. Our spirit forms came out of creation and are evolving with the planet, and they stay with it. Our Akashic Records are only on this planet and are connected to us.

"It is not possible at our level of evolution for us to be born on another world or dimension. We simply do not have the ability. Our spirits rest in a band of energy around the planet the Pleiadians call 'the other side,' which is right here with us, only in energy form. Once we pass over, our spirits are still conscious and are aware of the material world for awhile."

And Ted asks "Would Awareness please comment on

this? And is the "band of energy" referred to as "the other side," the same band of energy around the planet called by scientists the Van Allen Belt?"

COSMIC AWARENESS:

This Awareness indicates that this is not precisely the same as the Van Allen Belt. This Awareness indicates that it is simply a certain vibratory belt, a vibration that the evolving soul cannot pass through until it reaches a certain frequency or vibration that is higher than the vibration of the band that surrounds the earth.

This Awareness indicates it is not exactly a band. It is more likened unto a sphere. This Awareness indicates that there is also some slight discrepancy in this information, in that entities who have already been freed from the earth's karmic vibration may have originated or lived lifetimes on other planets, and chosen or volunteered to come to this planet. These entities, upon passing over, are not necessarily locked into the planetary field, but can return to their home planet if they so choose.

The majority of such entities volunteering to come from some other planet or other world to this planet, do so with the intention of remaining until their chosen purpose has been completed, and most do not return to their home planet until their mission is finished. This Awareness indicates however, to say that entities on planet earth can never escape until the planet itself evolves is incorrect in regard to what this Awareness has referred to as the Wanderers.

This Awareness indicates that those who are evolving on the earth and whose souls were of a very primitive nature when brought to the earth or when they appeared on earth, will have a much more difficult time in terms of leaving the earth to go to heaven or some other dimension, or some other world, and the likelihood of this occurring in one lifetime is virtually nil.

This Awareness indicates however, for those whose activities are of the type that spends several lifetimes totally devoted to the Divine Energy; these entities, following the frequencies and vibrations of the Divine, can find themselves going into higher planes, higher levels of existence in terms of the electromagnetic scale, so that regardless of where they are, they are essentially in a higher dimension, a higher world, or a more heavenly state of being.

WHAT THE AKASHIC RECORD REALLY IS

FOLLOW-UP QUESTION:

Is that correct that an earth entity's Akashic Records are only on this planet and are connected with us? I was led to believe that the Akashic Record was available to all entities, regardless of which dimension they were in.

COSMIC AWARENESS:

This Awareness indicates there needs to be a clarification of the term 'Akashic Record.' Most entities, from reading the Cayce material, visualize this as likened unto going down to some courthouse in the sky and looking up records from a file cabinet, or possibly from some computer that has been brought in to replace the file cabinets, so that the entity can read the records of an individual soul.

This Awareness indicates that this was simply a symbolic description through the Cayce readings and has nothing to do with the actual way by which the Akashic Records are stored. This Awareness indicates that in fact, the Akashic Records are simply the vibrations and frequencies that store the experiences of an individual soul, in a kind of sympathetic vibration associated with the frequency, the vibrational signature of the soul, so that in tuning into a soul frequency or vibration, one can

have access intuitively through higher consciousness readings of that particular soul, to information relating to that particular soul.

These Akashic records, in other words, are just the vibrational collection of the experiences or memories associated with the vibration of the soul itself. Everything has its own frequency, just as every fingerprint is different, and the frequencies of one thing differ from the frequencies of another, and anything that has been in contact with that one thing will reflect in the vibrations in some way.

Thus, by following a frequency signature, or unique vibrational pattern, one can trace through all of the various frequencies attached to that one soul or collection of frequencies, and find all of the experiences collected to that soul. This of course depending on how sensitive and how well an entity's consciousness can attune to this operation.

ADRAIN FROM THE PLEIADES:

IS HIS INFO LEGITIMATE?

(How Does It Compare With Billy Meier?)

QUESTION:

Ted has what appears to be another question here. He writes: "Note: near the end of this book there is information about a man referred to as Adrain, pronounced Ah-Dree-Ayne, who has been having contacts with the Pleiadians for over thirty years; his contacts starting even before those of Billy Meier. The difference was that in his case, the contacts were for his own benefit and he had not been asked by the Pleiadians to make his meetings with them known to the public.

"These are not the same Pleiadians who were in contact with Billy Meier, but are a group of Pleiadians who have maintained underground bases here on earth for several hundred years. They are from a sun system, not far from the main star in the Pleiades called Alcyone. Adrain was told that he would be allowed more photo sessions and information in order to provide a new level of awareness to the people of America.

"The Pleiadians believe that America can make a difference that will be felt around the world. Adrain was told that the Pleiadians had decided to start up their contacts again in 1995 since this was the year that would go down in history as the beginning of an Age of Change, dominated by natural disasters, such as floods, earthquakes, hurricanes, tornadoes and other natural events that would begin to reshape the world as we know it.

"Apparently, this Adrain has a lot of photos and a video of the Pleiadians he is in contact with, and you can get copies of both, taken in Florida by calling 1-714-777-7018, or write to the Pleiades Project, P.O. Box 406, Yorba Linda, California, 92686. You might want to ask Awareness if these are legit." So I will ask Awareness if that information is basically true, and if these photos and videos are legitimate.

COSMIC AWARENESS:

This Awareness indicates that it appears the information is correct. The photos as being correct; but that there is some discrepancy in some of the photos in regard to the way they were developed, so that there may be some distortion or lack of clarity in some areas to hide or prevent a clear perception. This may have to do with lighting, and simply the difficulty of taking good pictures by someone who is not a professional photographer.

This Awareness indicates it is something that is seen as being less clear in terms of the photographs than those taken by Billy Meier. This Awareness indicates

that in general however, for the most part, these are seen as accurate, and worthwhile. This Awareness indicates that the photographs and contacts this entity had from the Pleiadian culture does have information that is somewhat fresh and informative, that can add to and parallel much of the information available through the entity Billy Meier, in his publications and photography, though these contacts are from two different sources or cultures within the Pleiadians star system.

There will be some differences because of the different star system locations of these cultures that will seem to be a discrepancy in the Pleiadian culture, but you must realize that even on earth there are differences in various countries in terms of culture, and you can imagine that if the other planets had cultures on them in the solar system, how varied these various cultures might be also. Therefore, you should not expect a consistency in the Pleiadian philosophy of Billy Meier and of Adrain to be parallel to each other or other descriptions of their cultures to mesh perfectly.

"You look different—have you been evolving or something?"

Those "Underground" Cities

FOLLOW-UP QUESTION:

That reference that the Pleiadians have maintained underground bases on earth for the past 200 years; is he referring to physical bases or is this a reference to them on an inner dimensional type of thing?

COSMIC AWARENESS:

This Awareness indicates that the term 'underground' in this instance does not particularly mean under the surface of the earth, but likened unto an underground culture. Many of these entities walk around on earth within populated areas, but have their true identities well-hidden and they have contacts with one another, so that it is a hidden culture, just as there are underground cultures within your own country, your cities, et cetera.

FOLLOW-UP QUESTION:

Do these entities take up occupations like typical citizens and have social security numbers, et cetera?

COSMIC AWARENESS:

Some of these entities may do so. For the most part they manage to survive without dependency on governments, social security numbers and such occupations as the majority of people hold. But for certain purposes they may take up the ordinary type of occupation and get involved in society in a detailed manner so as to have identifications, licenses and social security numbers, et cetera.

FOLLOW-UP QUESTION:

So essentially these are benevolent beings who are probably here to help evolve the planet earth?

COSMIC AWARENESS:

This is in the affirmative, much like the Vegans, the entities from the star system Vega.

Is Our Reality Fiction on Other Dimensions?

(What Exactly is a "Paradigm"?)

QUESTION:

A question from Robert S., Vancouver, B.C. He writes: "For infinity to truly be infinite, everything that can be thought of must be real in some way. Does Awareness see that the books, television and radio shows and movies that are fiction to us on earth each have a reality of their own equal to ours? Is our reality considered to be fiction in some other dimensions?"

COSMIC AWARENESS:

This Awareness indicates that this is the same question that has been asked over and over in many different ways, and this Awareness wishes to clarify it again by pointing to the fact that all things are frequencies, all things are vibrations, including thought, including imagination, including the many concepts of collections of stories, plots, et cetera. They all have a reality, but reality to one paradigm may be unreality to another.

A paradigm is a pattern of reality based on a given idea of something with parameters. This Awareness suggests for example, a Royal Flush is a paradigm of a reality in the game of cards. The Christian religion is a paradigm of a reality according to the view of Christianity as promoted by those playing the game.

This Awareness indicates that the story-line of Star Trek has its own parameters, its own paradigm; within itself it is real; those outside, who don't watch it do not consider it as any form of reality. They do not get involved in the entity's lives or situations, they simply know that there is something going on over there that is fictional. They consider it fictional, but many entities getting deeply involved in the Star Trek series would find themselves feeling it to be a reality, just as entities involved in the Christian religion consider its teachings to be real.

Cats and Dogs Perceive Beyond the Ability of Humans

This Awareness indicates that many entities getting wrapped up in the 5 senses or that which is seen as the material world, will believe that these material things are realities, because their senses tell them so, until they start to realize that cats and dogs perceive beyond the ability of humans. Dogs hear things that humans can't hear. Cats see things that humans can't see, and there is a whole realm of reality that humans are missing, and that the senses that humans possess are limited, and that there may be much more to the so-called material reality than is even remotely imagined.

This Awareness indicates that this paradigm may be real and nonfictional to humans because of their reliance on the 5 senses, but to the more highly evolved spiritual person who sees the 5 senses as the tree with the fruit of knowledge, those 5 senses being the fruit from the Tree of Knowledge, and recognizing that they are not accurate, that they are not fully true, and seeing from a higher view from the Tree of Wisdom, recognize that there are things beyond the senses in the realms of vibrations, and such entities, more highly evolved spiritually will see the paradigm of physical creation based on the 5 senses as being fictional, as being illusion.

In fact, the Hindu seers and teachers often refer to the world known to most as reality as being 'Maya,' the world of illusions. This Awareness indicates that in other words, there is no clear division between fact and fantasy, reality and fiction, except for that division made by the mind itself, and the definitions that an entity chooses to accept in his or her paradigm.

What a "Paradigm" Exactly Is

By this term 'paradigm' this Awareness means his or her view of reality. If you view something as reality, that is your paradigm. If you view something different as reality, then you may have a different paradigm from

that of others. This Awareness indicates that there is one thing that must be understood in this conversation: it is that you can't mix paradigms and still keep the paradigms separate. You can't take a Full house in a card game and call it a Royal Flush without violating the paradigm of the card game.

You can't call fiction reality if you are still trying to hold onto reality as (being) a different paradigm from fiction.

DO ALIENS (THE GREYS) HAVE PETS?

QUESTION:

We have a couple of cat questions. John and Dolores V. in Las Vegas, Nevada ask: "Do aliens, Greys and others, have pets, and what are they like if they do?"

COSMIC AWARENESS:

This Awareness indicates *It* does not see these entities as having interest in pets. They do not have the kind of emotional natures that are associated with the energies requiring or benefiting from having a pet. They lack emotions, as has been given before, and have no logical reason to have a pet. Without a logical reason and no emotional reason, they would see this as waste of their energy and time. This Awareness indicates these entities are not even close to each other and do not have emotional ties to each other. They have dependency, a co-dependency on each other for security purposes only, and not out of what humans consider affection.

Keep in mind also that they do not have families. They are born from cloning processes in which hundreds are cloned at a time.

DOES NEGATIVE KARMA OCCUR WHEN WE NEUTER CATS?

QUESTION:

Mari B., in Connecticut, asks: "If we have our cats altered, either spaying neutering or claw-removal, does that provide any karma for the cat's human companion?"

COSMIC AWARENESS:

This Awareness indicates that there are karmic or cause and effect repercussions for any such acts, but they are minuscule in terms of general karma. This Awareness indicates that if you deny a cat from having its many potential litters of offspring, the karma may not necessarily be negative, because if you allow the cat to have a dozen litters of other cats, you are in part responsible for the welfare of all of those dozens of litters and other cats in their need for survival and comfort, and that could be more karmic for you in a negative sense than having your cat spayed.

What Karma from Declawing a Cat?

This Awareness indicates that declawing the cat stops it from having its protective weapons. It also could keep the cat from scratching some small child, but the situation needs to be evaluated as to whether the cat is actually a danger to a small child by having claws and whether or not the cat could keep its claws in order to have its protection without harming another person, or another small child. If so, then perhaps it would be better to let the cat keep its claws.

This Awareness indicates that is a matter of questionable karma, depending on the particular situation. In general, most cats should not be declawed unless there is some behavior or risk of the cat hurting some small child or someone to such an extent that declawing becomes the lesser of two evils.

THAT CAT IN DENMARK WITH GREEN FUR

QUESTION:

A question from Jan B. that came in over the Internet. She writes: "Did you see the Associated Press picture of a five year old girl in Denmark with her kitten Miss Greenie? The kitten is green and samples of its hair have been sent to a University hospital for testing. I remember Awareness mentioning blue babies, but green kitties? Could *It* explain this one?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be the result of a freak accident in which certain chemicals became ingested by the animal. It appears to be a chemical effect that was picked up by the hair of the animal in its growth. This Awareness indicates that this hair apparently is high in copper. This Awareness indicates that it is a freak incident or accident that has led to this particular situation.

WHAT IS COSMIC AWARENESS

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.
