*How can women today
who live moral lives
attract worthwhile
males?*

**.... Also, the significance of
Jupiter entering Aquarius**

INDEX IS ON PAGE 16

The Significance of Jupiter Entering Aquarius

OPENING MESSAGE:) (1/16/97)

This Awareness wishes to comment on several areas of interest. This Awareness indicates there is seen that which is the entry of Jupiter into the sign of Aquarius, coming near the end of this month of January. It will be in the sign of Aquarius for approximately a year. This Awareness indicates this joining Uranus which is already in its own rulership sign of Aquarius,--this can have numerous implications.

A "Space Event" Probable in February

For one thing, Uranus is the planet associated with sudden unexpected surprising things, and also, it is related to flight and to space. With Jupiter moving into conjunction with this sometime in February, it is suggested that a new space event may take place during that early part of February. This Awareness indicates that this may require attention and focus on space, or that there could be some airline incidents, particularly because of Mars being opposed to these planets in Libra.

This Awareness indicates that in general, however, considering what is happening, it is quite likely to have something to do with the Hale-Bopp, the so-called 'comet' and its companion, which the government still does not want acknowledged as being real. This Awareness indicates that the Hale-Bopp comet is supposedly to come near the earth in a cosmic sense, millions of miles from the earth, but near the earth, approximately in March and April, and this of course will take much attention and be of significance in the news.

A Possible Announcement of ET Contacts

This Awareness indicates that it appears there will be something besides this, however, that may make news relating to space or to extraterrestrials, or to some announcement, possibly of an admission of extraterrestrials contacts at some time, either in the past or present or in the upcoming months.

This Awareness indicates that the entry of Jupiter into Aquarius can be of great significance to the masses in general in that it can be beneficial to the pursuit of greater freedoms. It can create situations that may become somewhat chaotic in some ways, and yet in its overall long-term effect, can be helpful to humanity's general freedom and the pursuit of greater freedom.

This Awareness indicates that it may well also herald difficulties in governing of the masses around the world. This Awareness suggests that this also is seen as helping to bring on more difficulties for the president and his wife for a period of time, but that it is likely to be short-lived and may be continued again later in the year, wherein new problems arise for these entities.

Artistic Endeavors to Blossom, Internet to Expand

This Awareness wishes also to comment on cultural values in regard to artistic and inventive creativeness that this conjunction will help to trigger. There is likely to be more creativeness in many ways and electronics and the Internet and all of this may be opened up because of the new television systems for entering the Internet via the TV set. This appears to be well-timed with this conjunction of Uranus and Jupiter

The Commingling of Cultures: Shakespeare's Plays Updated

This Awareness indicates that there is also an area that relates to the topic discussed in yesterday's reading having to do with taking different cultures or different elements and commingling them in order to be creative. This Awareness indicates that something is happening at this time in film relating to the Shakespearean plays written some 400 years ago. You may have noted that many of his plays are now being put into film in a way

that has not been done before. They are being updated into modern-times.

The story of Romeo & Juliet for example, which has been used in stories such as West Side Story, is now being updated into current time to be presented as likened unto a conflict of cultures related to gang-wars, and the putting of Shakespeare's play on film creates a situation that is totally unique, for plays were not written to be seen so much, as heard. The very idea of a stage play is to present the words to the audience, to tell a story with actors acting out the story, but the words were the focus of the presentation.

In movies, the focus is the seeing, the sight, the imaging of a story, and most movie writers know that you cannot write soliloquies and long pages of dialogue. You must have scenes that carry the story, carry the show. This Awareness indicates Shakespeare's stories usually contain long soliloquies of many different words being spoken, which is a "no-no" in films, and therefore, to bring his work to film is taking it out of its element and taking a great risk. Not only may the film be of improper quality, but it can also damage the credibility of Shakespeare if it is not done well.

You will see some of the directors who take this work of Shakespeare, and when there are long soliloquies, they may cut down the message, distorting his play which would be an unusual and generally improper approach, for the sake of the film, or they may add many different scenes while the soliloquy is being spoken in the background, and this is the more common approach for directors in using these kinds of plays on film.

In other words, rather than holding the camera on the speaker while he speaks some thirty or forty lines, they may have the scenes changing frequently with the lines and words being spoken as a kind of narrative behind the images that are being shown. This Awareness indicates it is a way whereby film and stage-plays can be brought together without losing the quality of either.

This Awareness suggests that there are several of his plays now being made into modernized films, set in current time. Although these stories were 400 years old when presented by Shakespeare, they can and have been brought up to present age, with a background based in present time and presented in such a way as to revive interest in the work of this entity.

This Awareness indicates the story Richard III has been put into the time of approximately 1930, or the late Twenties, in a mythical country which appears to be likened unto early Nazi Germany or some dictatorial type fascist country that is unnamed in the story, and in its presentation in that time, the lines written by Shakespeare some 400 years ago become very pertinent and very meaningful, and the situation becomes quite poignant when set in a more modern era, even more poignant than when it is viewed from a 1600 Century background.

This Awareness indicates that the same can be said for Much Ado About Nothing, which is also a kind of vague modern setting for this play, which is now into a movie version. This Awareness indicates that Hamlet has also been put into a more current setting and revived into film again for the umpteenth time, but again, it has considerable power in terms of its dramatic presentation, because the creativity these directors are able to bring through this commingling of cultures, the 1600's brought up into more modern settings, create a situation in which the story comes alive again in a different way.

This Awareness suggests that entities may wish to

indulge themselves in these movies and much can be learned about creativity and artistic methods by seeing how the commingling of cultures or commingling of ideas from one medium to another, or one background to another, is fruitful in helping to create a new form, a new setting for an art form.

This Awareness indicates this is nothing new in art, but these are individual examples that have not been done in quite the same way previously, and it can be very much worthwhile to entities who may not have fully appreciated Shakespeare in the 1600's which are so far removed from their own world, that they may not have felt any kind of attachment to the story or background.

This Awareness indicates that this is mostly for entities who do have some artistic interests in play writing or in movies or stage presentations, but it also can be interesting to those who simply like a good story.

For more on Shakespeare, please refer to "Revelations of Awareness" issue No. 95-6 (The Mystery of William Shakespeare); \$3.00 from CAC.

The O.J. Simpson Civil Trial Finally Over

This Awareness indicates the OJ Simpson trial is almost over. The entity being a Cancer, under the sign of Cancer, his birthday being July 7th, faces a Square to Saturn in his 10th House which has to do with prestige and reputation, and which is opposite Mars in his 4th House, which has to do with his domestic life, and Saturn is a planet of restriction and difficulty, which would suggest that the entity may have a negative outcome in this trial, which damages his reputation.

This Awareness indicates that on the other hand, at present, the Sun is in Capricorn, which is his 7th House: 7th House has to do with law and karma, and marriage and the public in general. Jupiter and the Sun both being in Capricorn favor him at the moment, but these are due to move on the 21st into Aquarius.

This Awareness indicates that this movement into Aquarius, his 8th House, triggers change. It can be favorable change for him, or it could be that the change may signify some change in his general fortune. This Awareness indicates because the 8th House is the 2nd House from the 7th, which is the public, or his adversary in this trial, and the court in general, the 2nd House from the court would be its money house. Thus his adversary may take money or get money from the movement of Jupiter and the Sun going into Aquarius, but at the same time, Jupiter and the Sun going into Aquarius from OJ Simpson's chart, his Sun in Cancer, can indicate that he will get money from partnerships, the money of his partner. Therefore, even if he loses in terms of this trial, it does appear that in the long-run there will be something favorable for him that comes out of it.

This Awareness indicates that of course he cannot be tried for the crime again. He will not go to jail. He can only lose money from this civil case. This Awareness indicates that it does appear that either way, it will not be devastating to him, and in the long-run, he can gain from whatever occurs. The damage to his reputation caused by Saturn in Aries would be of a relatively short period. It will be seen for some time as possibly causing difficulties, but Mars is in Libra and moves back into Virgo in retrograde and then moves on through Libra, so that by mid-Summer, this will no longer be a strong aspect in his chart.

This Awareness indicates that Pluto, which rules the masses, being in Sagittarius, gives this entity a favorable situation as far as the masses are concerned, and thus, it looks as though the entity will probably regain his

credibility within a reasonable time sometime this year. It may be that the jury will not find him guilty in this civil case.

It is not totally clear as far as the astrological energies are concerned, but it will be a surprising event because Uranus is the planet of surprise. It usually sides with the underdog, and brings things about that are called upsets. It will upset the expected outcome, and this Awareness indicates it is a question of what is really expected.

The media appears to have played a major role in trying this case, or at least the media has attempted to try the case, and it may be that this implication brought on by the media of his guilt may be overturned or upset from the findings, or it may occur in some other way so that even if the entity is found guilty, its damage to his reputation will be only for a short time.

This Awareness indicates It still maintains that the information from Skolnick about the Asian Mafia being involved in these murders is accurate. This Awareness does not wish to imply that O.J. Simpson is without sin. This entity has done numerous things that were less than honorable, including having some ties with Mafia-type entities, but this Awareness indicates part of the reason he was excessively concerned about Nicole's activities relating to drugs is that he knew she was flirting with danger from these entities, and could not influence her to get free of the associations she was forming.

Ed's note: This reading was given Jan. 16th. Several weeks later on Feb. 5th, OJ Simpson lost the civil verdict. Sherman Skolnick released a bulletin: "The reason is simple but heavy. He could not tell the truth for fear his entire family would be wiped out." If you want more, please refer to "Revelations of Awareness" issue No. 95-16 (The OJ Simpson Verdict); \$3.00 from CAC.

How the Militias are Being Set Up by Government Agents

This Awareness indicates that in relation to the militia in the United States, there are government plants or agents who often work into the militia groups and attempt to steer them in directions of attempting to take actions that could involve them in some kind of criminal activity.

This Awareness indicates essentially a person has the right to speak against the government without being harmed by law, or a person has a right to have weapons, but if you speak against the government and also are amassing weapons, it is perceived as a conspiracy to attack the government or use force against the government, and often a militia will be involved in teaching, and the teaching may talk about what the government is doing and how it must be stopped, and so forth, but if that same group is also amassing weapons, then of course it is perceived as being a conspiracy to attack the government by force.

Therefore, occasionally the government will plant agents in a group to try to get the group who has weapons and who practices shooting or playing war games, to speak out against the government and thus, they have them for conspiring to overthrow the government. Or, on the other hand, the agent may enter a group that teaches against the government, who gives out information that is anti-government in nature, but who does not have weapons, and this agent working for the government, trying to set up the group, may try to bring in or cause weapons to be made available to these entities in such a way as to implicate the group and claim they are trying to overthrow the government by force.

Most of the militia groups are aware of these attempts and these techniques are trying to locate any agents that attempt to use the groups in this way so that they can simply report to the authorities that a person has attended their meetings who is wanting to introduce

guns to their organization, or if they are a gun club or sharp-shooting club or something of this nature, they may say that this person has come into their group trying to incite the members into some kind of violent activities, and by reporting these agents to the local police, they manage to avoid the trap that is being set for them.

A Warning About Joining a Militia

This Awareness indicates it is important for any entity to be aware of this dual requirement that can put you in jail. If you are a weapons-carrying person, do not speak out against the government. If you are teaching anti-government information, do not have weapons in your group, or do not study in the making of bombs or other types of weapons. Do not play war-games if you are an educational group teaching about the government or Constitution or laws.

This Awareness indicates there are also many who come into these groups trying to incite them to take some kind of action. They will say "How many more freedoms must we have taken from us? Must we wait until they come into our homes and take our guns? When are we going to stand up and fight like men?" These entities are trying to incite violence from the militia groups. The militia groups generally know better than to respond to this kind of agitation.

Controlled Press Trying to Make Militias Look Dangerous

Occasionally you will hear of some militia group that was arrested. This Awareness indicates the bikers in Arizona who were recently arrested as a militia group, were not really militia. They were simply bikers, but they were **called** militia, because the press wanted to make it look as though these were a typical militia group. There is much effort of the press working with government agencies to create the impression that the militia is a danger to this country.

In general, the militia is simply attempting to protect the laws of the land in the event that the government or any groups seek to destroy the law of the land --the law of the land being the Constitution of the United States. This Awareness indicates that many will say that: "What's wrong with our police force? What's wrong with our army? Aren't they enough to protect the country? Why do we need militia?"

What Really Motivates the Militias

This Awareness indicates that the militia argument is that the army and the police force are being controlled by an illegal government, a shadow government that has arisen in the midst of the elected officials and has taken over the Congress or the elected officials through manipulation, through bribery, or through other means, to the point where these entities are no longer truly representing the people of the country, but are working now to promote the New World Order which is a foreign directed organization trying to take this country over in order to set up a One World Government which destroys and denies the sovereignty of this country.

This Awareness indicates that many of these Patriots do not want the sovereignty of this country to be lost after so many entities worked for so many hundreds, thousands of years to create a system that protected the rights of individuals in the manner that is typified by the U.S. Constitution.

This Awareness indicates also, many of these entities in the militia see that the "Right to bear arms," is not a privilege, but a *right*. They see this as something that was not granted by the Constitution, but something that the Constitution recognized existed as a right, in that people have a right to protect themselves against *any* who would violate them. And this Awareness indicates

that these entities do not see that there is any discussion as to whether the Constitution gives them the right to bear arms. They see this only that the Constitution recognizes their right and that right comes from God.

The right to be a free people is not something that is granted by the Constitution; it is something that is **recognized** by the Constitution. This Awareness indicates that these entities do not want this right to be usurped or destroyed simply because the Constitution might be destroyed. They see this as being an inherent right of all living beings, to protect themselves, and that the Constitution basically was written to protect the masses against government; that the government was limited by the Constitution, and that the only purpose of government is to serve the people, and not the other way around.

They do not see that people should serve the government, but that the government is there to serve the people, and that the people **own** the government and that the government needs to obey the people through the elected offices and representatives that the people provide for the government to administer as needed.

This Awareness indicates of course, there are repeated attempts to make the militia appear to be crazy people. In many instances these entities are portrayed as fanatics, as fools, as having evil purposes or intentions and any time something happens, there is the attempt to make it appear that the militia was behind it, such as the Oklahoma City bombing. There was no evidence whatsoever that the militia was in any way tied to this.

Government Agencies and MOSSAD Linked to Okla. Bombing

There is of course, a greater amount of evidence that the government agencies and possibly the MOSSAD were tied to this bombing, but the press attempted to make a link to indicate the militia was behind the bombing, and did it so quickly and so strongly that even today, many people still think that the militia was behind the Oklahoma City bombing, even though it was made clear eventually that there was no evidence linking the militia and the bombing of the building. The only link they could find that even remotely brought the two together was that the entity McVeigh attempted to join a militia movement and was not allowed in.

The Influence of the Christian Right in the Militias

This Awareness wishes to comment also on something somewhat related, but still different; this having to do with the Christian Right. Many in the militia belong to or are associated closely with the Christian Right. Many of these entities are anti-abortionists; some are religious extremists in the Fundamentalist sense. This Awareness indicates that many entities in thinking of the militia believe them to be bigoted Right-wing anti-Jewish anti-Black people.

Blacks and Jews also Belong to Militias

This Awareness indicates many think of them as Nazi-type, and indeed there are a few groups that have Nazi tendencies and have prejudices against Blacks or Jews, but this Awareness wishes to point out also, there are many blacks in militia groups, and there are Jews in militia groups also, and it is not something that is a blanket racist grouping of entities. You cannot simply group all militia groups under the name 'racist' or 'bigotry'. They are not all the same.

The majority of them are very tolerant, but they are patriotic to the purposes and the traditions and the values on which this country was founded. This Awareness indicates some of these entities do have the extremist religious point of view, as strong fanatical Christians. This Awareness indicates that in many ways it would not be healthy for a whole society to be ruled

by such religious extremists. You would have something similar to that which occurred in the Dark Ages with the burning of heretics and so forth.

Christian Religion Still has Certain Healthy Values

But, there are certain benefits and certain values in the Christian religion that are essential to a healthy society. The concept of compassion, the concept of entities helping each other, of caring for one another, of respecting the souls of other people, of respecting their right to be, their right to live, and to have their own freedom of religion, the freedom to worship, the freedom to think, to talk and to share common interests with each other. These are common with the general Christian values.

There are of course those who are fanatics, as with any religion, and these entities can be manipulated into taking negative types of actions just as down through the ages religions have been used to make war on other forms of religion and belief, but this Awareness indicates it is important for entities to recognize the higher qualities of Christianity, for they are the qualities that made this country the vibrant and healthy country that it became, preferably before the recent two decades when it began to decline in its morality and its social values.

This country at this time is deteriorating in terms of its once glorious honor and prestige. It is now a fact that most entities prefer chasing money than following honor or integrity. They are willing to give up honor and integrity to get a few bucks, a little extra money here or there. This Awareness indicates you see it not only in the highest levels of government, among those who are the great leaders, but you also see it on the streets and among the people with whom you deal in business.

There are still many honorable business people, but these become more and more rare, and when you find a good honest business person you generally return to them for their type of business as you need it. This Awareness indicates that this honesty in business and in relationships generally came about because of the influence of Christian values down through the years as this country developed.

Many Con Men Will Lie and Tell You They Are Christians

Now, most con men seeking to trick you out of your money, will first introduce themselves as Christians, thinking that that is a ticket to get you to open your wallet so that he can take your money and invest it and skip the country. This Awareness indicates for many people who have had contact with the Christian values, they can be fooled by these entities who call themselves Christians, but do not hold the values. This Awareness indicates that this has caused great harm to the credibility of many Christians.

Christians Need to Organize a Defense Movement Similar to the Jews' Anti-Defamation League

This Awareness indicates *It* wishes to discuss this briefly because *It* sees that in this movement toward the New World Order that there is much effort in many levels of society to denounce Christianity, to give it the reputation of being racist or bigoted or otherwise fanatical and dangerous. This Awareness indicates the Christian movement does need to organize in the same way that the Jewish movement organized in the creation of some kind of organization, such as the Anti-defamation League, organizing the Christian movement so that they begin to speak out against those who attempt to label them as buffoons or idiots or bigots or dangerous fanatics, et cetera, so that they can express their voice.

Christians Being Set Up for Massacre Like Hitler Set Up the Jews

Otherwise, this Awareness sees them as possibly

becoming the scapegoat for the New World Order regime and the 4th Reich, even as the Jews were made the scapegoat during the reign of Adolf Hitler. If you take the same languages used in the time of Adolf Hitler and his propaganda machine and apply it to the United States and the terms that are being thrown out about Christians, you will see there is a strong parallel, and that essentially Christians are being set up to be massacred as a way of ridding the country of Christians, because they are the strongest voice in promoting values of morality and of spiritual eternity for the human soul.

This Awareness indicates if you can get rid of the idea of the human soul and life after death and the continuance of one's existence, then you can manipulate the masses and the government becomes the god of the people. This is the result of years of work in Communist China and it is this policy that emerged in China that encourages the New World Order to rid the world of religions other than those that are sanctioned by the New World Order government.

Christianity to be Sacrificed by New World Order

This Awareness indicates you have seen what happened to the Tibetans in China and their religion. It can soon become common with the Christian religion in the United States to have the same kind of treatment. This Awareness wishes to warn entities to be very much aware of this because it does appear that the plan for the shadow government moving toward the New World Order in setting up that which they consider to be the 'New Age' is to sacrifice Christianity even as Jesus was sacrificed at the beginning of the age.

This Awareness indicates that when Jesus was sacrificed at the beginning of the Christian age, he called himself the "lamb". The lamb or ram, was Aries, symbolized the sign of Aries, moving out of Aries into the Age of Pisces, in which Christianity has been a dominant influence.-- Pisces being fish. Pisces means 'fish' in Latin and Greek, and the God of the Piscean Age was called the Fisher man.

Moving now into the Age of Aquarius, the god of the Aquarian Age is the Man Pouring Water, or in some symbolism it is a Woman Pouring Water. At any rate, it is a person serving others, giving water. Water represents in alchemy, electricity, and this is an age of electricity, and the pouring of water symbolizes serving others.

Benjamin Creme's Maitreya Using Water to Play the Messiah

In Jesus' talks with his disciples, he said that he would return, and in his message of his return, someone said "How will we know you?" He said "There will be a man who comes into the city carrying water. This will be me." This Awareness indicates of course the Maitreya is attempting to play that part, carrying water and using this water in order to play the part of the new Messiah or the return of the Christ, but essentially, the message of Jesus was: The man carrying water represented the Aquarian Age, and this Awareness indicates that the Man Pouring Water symbolizes the electricity of the age and the electricity is a form of frequency or vibration, and it is that symbolism that he spoke of.

The New World Order Satanists Plan a Blood Sacrifice

This Awareness indicates that it is seen that the New World Order expects to sacrifice Christianity in order to bring about the change and movement into the New Age. The blood-letting is part of the ritual. This is satanic in nature, and the satanic energies require blood-letting and it occurs either in wars, or in a case like this, the artificially created wars of internal strife.

Therefore, you can expect an attempt on the part of these planners to destroy the essence of Christianity, of

anyone who claims to be Christian, and it is important for entities to understand that most Christians know this. Most Christians understand this is the game plan, and that is why many of them form militia groups. It is a self-protection. It is because they know the plan of the Anti-Christ is to destroy them, to prevent them from continuing or to have their religion intact.

The Hindu Cattle Worshipers are Symbolic of End of Taurus

This Awareness indicates there is no reason why the Christians should be destroyed, anymore than it would have been necessary to destroy cattle-worshippers among the Hindus. The cattle-worshippers are remnants of the Age of Taurus. The slaying of the bull at the ending of the Taurus Age simply was symbolic of the end of the age, and cattle worshippers are simply remnants of those who worshipped the golden calf, or the calf or bull of Taurus, during that age.

This Awareness indicates there is no reason why entities cannot continue to live in the Age of Aquarius and still, have allegiance to the god of the Piscean Age, the Fisher of men; but it appears that those who are of the satanic inclination want a blood-sacrifice to usher in the New Age. This Awareness wishes to comment that they are **not** the ones who are bringing in the New Age.

The Age of Aquarius is simply a cycle that appears; it is not something that these entities can manipulate into existence. It is simply the movement of heavenly bodies through space that cause things to occur and these movements lead to a timing and an energy flux that is called the Aquarian Age or time of the Aquarian Age, and it has nothing to do with Satanism, but the Satanists are trying to take control of the energies of God's Cycles.

This Awareness wishes entities to be aware that the New Age is not satanic. The Satanists are attempting to control the New Age.

The Origins of Jesus and Satan

This Awareness wishes to comment further from an astrological sense. Prior to the discover of the planet Uranus, Saturn was the ruler of Aquarius, of the Aquarian sign. Saturn is symbolic of the planet of hardship and difficulty. It was called Set in ancient Egypt, and it was from Set and Horus, the brothers, that the term 'Jesus' and 'Satan' evolved.

Horus became in Hebrew the equivalent of 'Jesus,' and Set became 'Saturn' or 'Satan'. Therefore, Set or Saturn, ruling Aquarius, would have some inclination of being an Age of Satan in the symbolic sense, except for the discovery of Uranus, and Uranus as a planet has been recognized astrologically as symbolic of Horus, or Jesus, the bringer of the new.

The Satanist Can Not Ever Rule the New Age

Jesus, or Uranus, was then assigned to be the ruler of Aquarius and Set, Saturn, or Satan is no longer the ruler of Aquarius: it is a sub-ruler, and it is the ruler of Capricorn, which will be the next age. This Awareness indicates therefore, entities who are speaking in terms of symbols, but who think that Saturn or Satan is the ruler of the New Age of Aquarius, are totally in error, because of the discovery of Uranus, which is seen as the true ruler of Aquarius; the influences being more appropriately connected with the qualities of Aquarius.

Thus, the Christ energies removed Satan or Saturn from the Age of Aquarius, and although these energies are attempting to gain control of the New Age, they simply will not, cannot do it.

QUESTIONER:

Is Awareness through with the opening message?

COSMIC AWARENESS:

This is in the affirmative. There may be more that could be discussed, but this is sufficient for the present.

The Spiritual Consequences of Joining the Fight Against the Rogue Government

QUESTIONER:

(Thank you). Some questions from Wayne H., San Angelo, Texas, that might be pertinent to some of this information. He asks, "What would the spiritual consequences be for myself or anyone else who may decide to join the fight, if or when the rogue government makes its move?"

COSMIC AWARENESS:

This Awareness indicates that this question is not fully clear in asking what would be the consequences of joining a fight.

QUESTIONER:

The **spiritual** consequences.

COSMIC AWARENESS:

This is helpful in clarifying. This Awareness indicates that *It* prefers that entities not focus on or plan on indulging in violence. *It* prefers that entities focus on trying to find a way to defuse the enemy without resorting to violence, preferably prior to the time when violence would be a necessity. If entities can move at the right time and do the right thing, they can influence those who would be the enemy to back off and recognize the hazards of engaging in violence as being futile.

Instead of Violence Go "Right at Them!" with Words and Letters

It would of course require massive organization of the people to let the would-be tyrant know "You are not going to control us!" This Awareness indicates *It* does not see a value in entities running to hide. As the entity Cathy O'Brien said, they told her: "You can run, but you cannot hide! There is no place to go!" She later replied: "There is one place to go! Right at them!"

This Awareness indicates that this essentially is the way by which entities can confront and deal with the oppressing tyrant. Go right at them, but do it at **your** timing, not at theirs' and it does not have to be with violence. This Awareness suggests that you go at them with words, with information. Force them to face reality.

The Movement on the Internet to Write Letters

This Awareness indicates there is a movement on the Internet started by a woman who asked that entities write letters to everybody in government. Send off as many letters as possible, 12 weeks in a row, writing hundreds of letters, even if they are Xerox copies, for 12 weeks in a row, demanding that they stop the insanity of selling off the rights of the people and get back to the Constitution.

She asked entities to write these Congress-people, the Executive Branch and the Judicial branches and all of the people they know in government, sending hundreds of letters. She says of course, "It will cost you postage. It can be expensive for a time." But 12 weeks in a row, to **demand** that the government return to the Constitution and acknowledge the Constitution and to arrest anyone who fails to abide by his or her oath of office to the Constitution and to get them out of government if they do not follow the Constitution.

She suggests that if you do it for one week, entities will become tense and concerned at so much mail coming with these demands, and after a week, it drops off, and the people then feel, "Oh Well! That was just something that happened and it's over now!" If you do it for two weeks, then they wonder: "What's going on

here?"

If you continue doing it for 12 weeks, by that time, something *will* be done. They cannot continue to ignore it. This is occurring for three months and it is occurring in a great amount of incoming mail from all kinds of people all around the country, and they cannot ignore it, and many of these entities realizing that they have not followed their oath to the Constitution, will also become nervous about their position, and they may begin to re-think their allegiance to the country and to the people who elected them.

This Awareness indicates this entity has requested that after the 12 weeks it may be necessary to continue to do this even further, but that at least 12 weeks will bring about a major awakening by government officials that the people are not asleep. The people are not zombies or robots under mind control, and the people will not simply allow the government to do anything it wishes.

This Awareness suggests that this appears to be the kind of action that entities can take to prevent the probability of a future revolution. This Awareness indicates there are many who think a revolution is inevitable, but this Awareness suggests that it is possible to turn things around *without* a revolution. If entities plan to do things in a non-violent way and their attention is on accomplishing something without violence, but a power causes a violent situation to occur, then it is possible that entities may also resort to violence; but this Awareness does *not* wish to promote anyone into an act of violence.

Remember How Gandhi Beat the British Without Violence

Remember the entity Gandhi when he led his people in a protest and the British determined they were not going to let these entities into a plant, and the entities walked up to where the guards stood and were beaten, but did not resort to violence themselves, and these entities were carried back to have their wounds tended, and more went to the guards to go through the gate, and they too were beaten and were brought back to have their wounds tended, and there was the press describing the event, and this information went out across the world.

They continued to come throughout the night and repeatedly were beaten, and yet they continued to come. This Awareness indicates the effect of that action was that the British had given everything they could to destroy the will of the people and could not do so, even though they used the violence, and no violence was returned against them. Therefore, the people of India had beaten the British at their own game and the British could no longer control the country through brutality or force.

Nazi Death Camps were Kept Hidden from Public: Without Publicity, Self Sacrifice was in Vain and War Went On

This Awareness indicates that there is much to be learned in this; that entities can truly win even without resorting to violence. Of course, it is necessary to have some way of relaying the information to others. It is also seen that thousands and thousands, even millions were killed in Nazi Germany without the world knowing about it until it was all over, and though these entities sacrificed themselves, or were sacrificed, their deaths did little to stop the oppression, because the information relating to their deaths was kept hidden and people did not know what was going on in those death camps until long after the masses had been killed and buried.

This Awareness indicates it was only after the allies liberated some of those camps that it was discovered the immense crime that had been created by the Nazis. This Awareness indicates therefore, without some kind of

exposure, self-sacrifice is not going to be of any great significance. This Awareness indicates that it is better for entities to *head off trouble* before it actually happens, **by getting information out ahead of time** and informing the world that you are **not** going to go silently; it **can** have an effect.

Government Bullies & the Legalization of Marijuana in California

This Awareness indicates the recent government statements in regard to the California Initiative to allow ill people to use marijuana, in which the government said: "We will arrest any doctor or any person possessing or using marijuana for illness, even if the state of California has passed a law allowing this!"--this statement made prior to the date in which the law took effect;--yet even though it was presented by the Federal government with an intent of intimidating doctors and the people so that they could not have the courage to use the marijuana even for sickness, many of the entities, on the day when the law took effect, began to smoke marijuana.

One private club filled with AIDS patients, people who were already dying of AIDS, went into their club and were given marijuana and shared marijuana and smoked marijuana, even inviting the press in to photograph them doing so. This takes away the intimidation effect of the government's earlier statement. Now the government cannot simply win by intimidation.

They will have to enter and arrest these AIDS patients and the people who provide the marijuana for them, and what is going to happen in the public's mind when government forces and police are dragging out dying people because they have smoked marijuana in order to ease some of the pain they suffer? Is it really going to benefit the government to do this? Is their position going to be admired by the masses, or questioned by the mass of people?

Use of Non-Violence Eliminates Negative Karma

This Awareness indicates there are ways to do things without resorting to violence. This Awareness indicates it is up to entities to find those ways and use them at the proper time, for timing is everything. Karma goes, in regard to reaction to violence being forced upon you, or the threat of violence being forced upon you or your family; this threat of violence, or actual violence, does tend to alleviate much of the karma that would have ordinarily come if you were to be violent without such threat of violence upon you.

The Degree of Violence If You are Forced to Defend Yourself

As the entity Yogananda explained: if you are forced to defend yourself and are forced to use violence in order to defend yourself, consider whether you are *worth* defending, and if you are, then you have a right to defend yourself, even if it does require violence.

This Awareness indicates that the degree of violence needed for one's defense should be considered also. You only need to assert as much force as is necessary to defend your life or defend yourself or those you love; you do not need to go overboard and use a sledgehammer to crush a threatening bee or hornet. If you can move the hornet out of doors without shooting it with a cannon, that of course is the proper approach.

Do not use violence just for the sake of violence. Protect yourself with as *little* force as is necessary, but do not think that you can just brush it off if it is something of greater magnitude, for you can simply invite a powerful reaction that can destroy you or your loved ones. This Awareness indicates in other words, protect yourself with what is needed to protect yourself, but not excessively, beyond what is needed. That would be the balance or ideal approach.

Unfortunately, that which is the ideal or balanced approach is not always necessarily clear in the time of a crisis.

Why Then Were Thousands of Reptoids Killed?

(How was Shoemaker-Levy Incident Viewed Spiritually?)

QUESTION:

Another question from Wayne H. "If it plays into the hands of the Dark Forces to use violence to meet violence, then why was it okay to destroy the Shoemaker-Levy invasion force of Draconians? I consider the destruction of the Shoemaker-Levy invasion force a major victory for mankind, but wonder how it was viewed spiritually."

COSMIC AWARENESS:

This Awareness indicates that it was not viewed well from those Draconians who sent the ship out to conquer earth. It was viewed well from the human standpoint. This Awareness indicates that this is something that needs to be understood from a different perspective.

How Awareness Views the Taking of Life

This Awareness indicates in terms of the primal creative force of the universe, all life is sacred, and this Awareness sees all life as being sacred, and therefore, the loss of these entities was a great loss to this Awareness. It also sees that these entities would have created havoc on earth, and that would have been a great loss to this Awareness, because of the havoc and destruction that would have befallen humanity on earth.

This Awareness indicates that *It* does not in *Itself* choose sides between life when one life is threatening or extinguishing another's life. *It* does not choose sides of one over the other. If an animal attacks another animal to get a meal, this Awareness is not going to chastise the winning animal and protect the prey. This Awareness simply recognizes that part of *itself* got eaten by another part of *Itself*.

The "Human Condition" a God Prototype from Lyra

This Awareness indicates there is, however, another level of this situation; that being the aspect of what you term the 'human condition;' there is that which is a kind of human prototype spirit. Humans came through Lyra in this galaxy, and the humans were quite different and unique from other beings, and this prototype that helped to create and bring about this human creature may be thought of as a human god.

It is a kind of mythical creature because it does not have a human form, but it does have a consciousness that is closer to human than any other, and because it is more closely associated with its own creation, the human being, it has an affinity to its creation, the human beings, whether they be Vegans, Lyrans, Sirians, Earthlings, or Andromedans, or whatever.

These entities of human nature were created uniquely different from some of the creatures that are scattered elsewhere in this galaxy. The Reptoids, for example, are based on Reptilian genetics, having used some human genes in the make-up of their species, and likewise, the Greys were once humans before they began genetic engineering to change themselves, to rid themselves of emotions, reproductive faculties and other qualities. These were at one time human, but they commingled with insects and other creatures to create what they now are.

Reptoids and Other Ets not Truly Human Get Less Respect from the Energy who Created the Human Species

Any of these extraterrestrial beings that are not truly human are seen by this energy that was the creator of the human species; these are seen as less than proper, because they are part human and part animal. These

creatures are not seen or given the same respect as the pure human by this energy which was the creator of the human species.

This Awareness indicates therefore, that energy of that creature, or creation of the human god, preferred seeing these entities crash through the Shoemaker-Levy 5 into Jupiter, and likewise, the ships that were involved in causing this to happen, had a more personal reason other than spirituality in bringing about this crash.

Cosmic Awareness Does Not Take Sides in Conflicts

This Awareness indicates that it was not something that this Awareness instigated. *It* does not divide the Red Sea so that Moses or similar followers can pass through only to close on the Pharaoh. *It* does not take sides in struggles between species or nations or individuals, even if entities pray in the sense of praying to God that they win the war, or the basketball game or the game of checkers; this Awareness does *not* take sides in these conflicts regardless of how large or how small, but *It* does provide awareness for those who are open to become aware, and if that awareness helps the entity to gain some advantage, then that can occur, and that advantage might be just enough to help that entity win the checker game, or whatever.

This Awareness indicates it sounds as though the entity asking the question is struggling with the question of: "When is it right to use violence? When can I use violence? And didn't Awareness use violence in causing the Shoemaker 5 to crash into Jupiter?" This Awareness did *not* instigate that action, *It* simply reported it.

This Awareness indicates that if entities resort to violence, that is not something this Awareness is going to condemn you to hell for. It is simply that *any* use of violence carries some kind of karma to one degree or another, particularly when the use of violence is pre-planned and intentional, and particularly when it is unnecessary.

This Awareness has long before indicated to entities that if you come into a situation and you say, "Oh my goodness! This is terrible! Something has to be done! This is getting really, really bad! I have to do something! Someone should do something! Isn't somebody going to do something?" and you sit and you watch what is happening.

This Awareness has suggested that you *not* do anything. That you stare at what is happening, become more and more aware of what is happening, without responding, and in that action of not responding and becoming more and more aware, you begin to feel a desperation, and in your desperate feeling, you realize that someone just *has* to do something! This cannot go on! "I must do something! Someone should do something! Why isn't someone doing something?"

This Awareness suggests you *not* do anything. This Awareness indicates that in your resistance and your continuing effort to avoid reacting or responding, the energies build to a point where you suddenly explode and find yourself doing something without having decided to, without having given it a decision. When you *don't* decide to do something, but are *compelled* to do it, there can be no error. It is not a karmic situation.

You have not decided to involve yourself in violence. You simply found yourself reacting violently because the situation demanded it of you and there was no choice in it. This Awareness indicates if this occurs, you do not acquire karma. This Awareness indicates that you must be very careful that you do not simply pretend that you are being dragged into a fight, or dragged into violence. It must be a genuine situation.

Ed's Note: for more on Shoemaker-Levy 5 please refer to "Revelations of Awareness" issue No.94-13 (Deliverance?); \$3.00.

The Story of the Interpreter who Came to the Rescue

Also, This Awareness suggests that you be very cautious about such things. This Awareness indicates *It* wishes to tell a story that the Interpreter may not really appreciate, but which does truly explain this situation. There was a time, approximately 15 years ago, when the Interpreter and his friend Harry Dodge were walking up to a restaurant for coffee. As they walked across the street, they heard a girl scream, and then a glass was thrown, and glass broke.

The Interpreter looked and said, "What's happening?" The entity Harry said, "Never mind. Let's just go on!", and the Interpreter said, "Well, she sounds like she's in trouble!" and he went across the street. He called up on the porch and no one answered, but he heard her and the man's voice and she was very upset. He went up to the door, knocked on the door. No one answered.

He knocked again and yelled, "What's going on in there? What's wrong?" and there was no answer. Then a man answered from inside the door and said, "Go away!" and the Interpreter said: "What's happening to that girl? Is she all right?" "Yes. She's all right!" the man answered. The Interpreter said: "Open the door!" and the man opened the door.

The Interpreter then asked: "Where is she?" The man said, "Get out of here!" and the Interpreter said: "I will not get out until I find out if she's all right!" and pushed on the door. The man then began to push against the Interpreter and ran into the next room. The Interpreter followed and the man fell on the bed and began kicking at the Interpreter, kicking him in the ribs, and broke his rib. The man then ran outside and the Interpreter then followed him out and the girl was sitting out there with a policeman, and she pointed to the Interpreter and said: "That's him! That's the guy!"

And the Interpreter said: "Who, me?" and the man who had been in the confrontation with the Interpreter said: "That's him! He tried to attack me!" and the police began to reach for the handcuffs, just as another policeman came around the corner and the policeman said: "I found him out back!" and the other policeman with the handcuffs asked: "What is going on?"

The Interpreter explained: "I heard this girl scream and came up to the door to find out if she was all right, and the entity would not open the door, and when he finally did, he struggled with me and we had a confrontation and he kicked me in the ribs!" and the policeman with the drunk said, "Well this is the guy that came through the window and ran through the house. He ended up in the back yard on the ground."

Then the policeman with the handcuffs explained, "Well it sounds like this fellow was just trying to be a good citizen, trying to help you out." The situation then calmed down and the Interpreter walked away wondering: "What has happened here?" Essentially, although the Interpreter did not really want to get involved, he kept watching, just as this Awareness had indicated until he could no longer hold himself back and became involved in a situation that required an immediate reaction, and yet he had interpreted things incorrectly.

There was a drunk who had been throwing up in the bushes below where this boy and girl were sitting, and she screamed and threw something at the drunk. He became angry and climbed up on the porch. The boy and girl went through the window and he followed and ended up in the back yard. Meanwhile, the Interpreter, misunderstanding what was happening, got involved and got a broken rib.

This Awareness indicates in other words, it is important if entities can, to at least find out for sure what is going on in order to be sure that you are not doing something unnecessary or engaging in violence which is not needed.

What Effects Will Photon Energies Have on New World Order Conspirators?

QUESTION:

One last question, this also from Wayne H. 'Would Awareness explain the effects the Photon energies have on those involved in the New World Order conspiracy? I am more interested in physical symptoms that I may be able to spot in individuals I see regularly on TV.'

COSMIC AWARENESS:

This Awareness indicates that until this Photon energy comes excessively strong, you are not likely to really notice much in terms of physical symptoms. There can be some agitation or nervousness or apprehension that entities begin to feel. If the Photon energy begins to have an effect on their minds, on their consciousness, they may become aware of the error they have involved themselves in and may begin to dislike what they are doing, even dislike what they have become.

This Awareness indicates that even this is not likely to show in terms of a physical nature; it is not likely that you will see any particular physical feature occurring because of the Photon energy. More likely as you yourself develop a higher consciousness from the Photon energy, you will be able to sense the consciousness of others to know where they are in terms of how they feel about themselves and about others.

You Will Begin to Pick Up the Thoughts of Others

This Awareness indicates that when the energies become strong enough, entities will begin to have psychic abilities not where they have to struggle to read someone's mind, but where the minds of others begin to invade their own minds, wherein they begin to hear thoughts from other people without effort. They become receptive and pick up, even as one wearing headphones might pick up telephone calls directed to them through their headphones.

They begin to hear these voices from others and know what another is thinking without any effort to do so. This would be when those Photon energies are beginning to have a major effect on the consciousness of individuals. Those who are more sensitive will be the first to begin to perceive such things.

1997 Will be a Year of Great Interest to Many

CLOSING MESSAGE:

This Awareness indicates that much of what occurs this year will be so gradual that it will not be shocking. There may be a few incidents that entities will hear about or witness through television or the media or otherwise, but this is not seen as being something that will directly impact an individual in his or her daily life, at a particular moment.

Over a period of time entities will recognize that there have been some very unusual changes that have occurred during the year. It will be a year of great interest to most entities.

(The Law of Gratitude is given)

RECENT BUMPER STICKERS SIGHTED:

Real women don't have hot flashes, they have power surges.

"Sometimes I wake up grumpy; Other times I let her sleep."

HOW CAN WOMEN ATTRACT WORTHWHILE MALES?

QUESTION:

(3/7/96)

A question from Jane C., Tucson, AZ. She writes: "I've been receiving your newsletter for over a year now and still can't wait to devour it, as soon as I get it. I'm so hungry for 'real' information that strikes a chord in me, instead of the usual sludge that comes out of the mainstream media. This is the first time I've written to you, although I've wanted to many times.

"I've picked a topic very common among women I know, seen on TV and read about: Relationships. Many women like myself try to live moral lives, loving others in an accepting generous way only to attract men who become abusive and steal from us. I come from a loving family, was never abused as a child, and in other aspects of my life, own a successful business and have many good friends.

"When it comes to men, I'm a total failure and am working on my second divorce. What are some concrete steps women can take when dating, to see a man as he really is, instead of the person we create in our minds while in a romantic haze? And how can we attract men that respect us and treat us as equals?"

COSMIC AWARENESS:

This Awareness suggests that the first step is creating a proper attitude toward men in general. This Awareness indicates that this requires that you look at men in a realistic way rather than as an expected behavior to fit into your particular mold or design for the man you want in your life. This Awareness indicates in other words, rather than hoping and thinking that this man may fit your criteria for a good mate, look at the man for what he is. Discover the man you are with, rather than expecting him to be what you want.

The Problem With Men Who Grew Up Without a Father Figure

This Awareness suggests that you should expect the entity not to be what you want, and let yourself be surprised if he is. This would be a better attitude, because there has been an entire generation of men who were raised without proper male models as guides. This Awareness indicates that this generation of men who have grown up without a father figure has created a generation of men who rely on women for their support.

First it was reliance on the mother, because the father had either abandoned the family, or the mother had kicked the man out, or otherwise it was a fatherless family, and the child grew up without a proper male model. This Awareness indicates that the entity does not know what a provider is, what a protector is. The entity does not have in his experience the role of a proper father figure, one who provides for and protects the family.

Many Men View Women, Like Mother, as Servants

This Awareness indicates the entity **does** have those qualities of self-importance, and thinks that the proper attitude is to present a posture of self-importance and therefore, the entity will protect his ego against any kind of criticism or assault, if criticized by a woman. He looks at a woman as a servant in the same way he viewed his mother as his servant. This Awareness indicates he may appreciate his mother, but he still sees her as being a kind of servant.

A Generation of Wimps Now Seek Nurturing

This Awareness indicates that most women raise their children trying to give them what they can, particularly if there is no male figure in the family, to the point where the mother becomes the provider as well as the nurturer, and the boy growing up in such a family,

without a male model to fashion himself after, sees women in the role of providers and nurturers, and therefore, when they search for a mate, they simply want someone to take care of them, want someone to provide for them and to nurture their physical needs.

This Awareness indicates that this is not the kind of man you would want or should have as a mate, and it is not easy to help such entities to mature, to become a proper father figure for the family. This Awareness indicates that in other words, there is a generation of wimps who are macho in their expression, but wimps in terms of their ability to handle responsibility and commitment.

This Awareness indicates that you should expect this kind of thing out of men because approximately 6 of 10 men will be this type of person. This Awareness indicates that therefore, do not hope for too much from the man you meet, regardless of his appearance and his suave behavior or his charm, or whatever else attracts you to him.

Watch Whether He Keeps Commitments

This Awareness indicates that the next thing is to watch how he treats you in terms of his commitments. If he says he will meet you at a certain time, does he keep those commitments or does he stand you up? If it happens once, and there is a good reason for him missing his appointment with you, that may be excusable, but if it happens repeatedly, then you know this entity cannot keep a commitment. His word is not trustworthy, and he may have very little respect for you.

If the entity expects too much from you, expects you to do different things to help him complete his comfort zone, wherein you are expected to comfort him, to nurture his appetites and needs, then you may have a wimp whom you must mother along and satisfy in terms of his every desire. This Awareness indicates that this is not a good sign. If the entity respects you and does not try to force his appetites on you, but allows you to have your own self-worth and appreciates your self-worth, then this entity may have something worth continuing the relationship for.

Unfortunately A Gentle Man Often Turns Off the Female

This Awareness indicates that often women turn off the gentle person, the one who is respectful of them. They feel the man is not macho enough, and rather than recognizing that the entity is relatively sensitive and considerate, they see him as weak and catering to his needs, and they may miss out on a good relationship because they think that a more macho-type man is a better protector.

This Awareness reminds you that most women need protection from their own mate more than from any other outside threat, and therefore, the macho man may not be the best one for them, but it is one thing to understand that logically, and quite another to understand it emotionally, and often entities get involved much too soon in their intimacy and their relationships before really knowing who they are involved with, and therefore, logic and understanding go out the window and emotions control them.

It Is Best to Let the Head Rule, Rather Than the Heart

This Awareness suggests that perhaps entities should let their head rule, rather than their heart, for the heart can always follow when you have a good understanding of someone's true worth. This Awareness indicates that in other words, being cautious about the man of your dreams, so that the man is evaluated before the dreams begin is the best approach for entities such as yourself who want something meaningful in a relationship.

An Entire Generation of Men Have Been Damaged

This Awareness indicates you should realize that an entire generation of men have been damaged. Approximately 60 percent of them have been damaged, almost beyond repair. Therefore, it is important for entities to be very cautious and to know what kind of man they are dealing with before getting too intimate with them, for the woman has the most to lose in an intimate relationship. The man can simply walk away and state to himself: "She tried to trap me! And *no one* can trap me! I'm a free soul! A free spirit! And therefore, it's *her* problem, not mine!", and men will leave the woman pregnant or with her heart broken, or both, without so much as a twinge of guilt.

Women Try to Control Men Through Sexual Relations

This Awareness indicates that for many men, women are just there to be used for their own gratification. This Awareness indicates that much of this problem for the woman is caused by the woman's sense of values because she also looks at men as something that she can control. There is a tendency among many women in today's society to think that they can control men through the use of sex; that men want sex, and therefore, by giving them what they want, the man will be controlled by the woman. The problem is that the woman doesn't stop to think: There are many sources for sex, and the man does not need to depend entirely on *your* sex for his gratification, and often feels that if it is too expensive in terms of demands on him, he will just walk away and find sex elsewhere.

Be Like Grandma—Know the Man Before You Sleep With Him

This Awareness indicates that the problem with this kind of thinking for a woman is that she often loses because she failed to anticipate that the man does not hold her sex in as high esteem as she holds it herself. This Awareness indicates therefore, this Awareness wishes to caution entities to think more in terms of the older standards, the standards that your mother or grandmother were raised with, whereby you do not commit yourself sexually until you *know* whom you are sleeping with, and whether this entity is truly worth your surrender of your honor and affection.

HOW TO ATTRACT MEN THAT TREAT WOMEN AS EQUALS**FOLLOW-UP QUESTION:**

Is there anything a female can do to attract men who like she says "that respect us and treat us as an equal". Was that included in Awareness' statement?

COSMIC AWARENESS:

This Awareness indicates that you only receive respect to the degree that you respect your own honor, your own rights, your own self. If you truly respect yourself, you will not let others who are disrespectful treat you in a disrespectful manner. And if you respect yourself, men will then sense that you are someone to be respected, and they will treat you with greater respect.

This Awareness indicates that if you have no self-respect, if you simply want to have someone hug you, love you, make you feel special, for a few instances, a few moments, a few weeks or for the night, then your instant gratification can easily be fulfilled without much difficulty, but the karma that follows is that which you may not want. It may be extremely difficult for you, and such repeated behavior in which you do not respect your virtue, your self-respect and honor, can lead you to become less and less self-respected, and therefore, others also will not respect you.

PLEASE SEND US QUESTIONS!

We really need good questions! Put on your thinking cap and send them in! Send by mail, FAX, or E-Mail to C.A.C. Many thanks!

This Awareness indicates that *It* cannot emphasize the need enough to respect yourself, your honor and your virtue. Without virtue, without self-respect, men see only a means by which they can satisfy their own appetites which may for the moment be extremely powerful, needing release. This Awareness indicates that if you are simply this kind of woman, you are likened unto simply letting yourself be a vessel for the man's urges, and there is no relationship of significance involved.

This Awareness indicates, however, if there is self-respect and you demand certain respect from the entity, that will make a different kind of relationship, one that involves a certain standard of behavior from the man. This Awareness indicates that you may think of it in terms of not so much seducing the man or letting the man seduce you, but rather think in terms of making the man come up to certain standards if he is going to have a relationship with you, and set those standards well ahead of time, for your own clarity, so that you do not cater to the appetites of some man, but rather you live by certain standards and create a situation in which the relationship can only evolve when those standards are met.

This Awareness indicates that if the man recognizes what is necessary to meet those standards, and if the man cares enough, he will hold you in much greater esteem than if you simply present yourself openly for him to use in satisfying his appetites.

A Form of Prostitution, Loose Morals Cheapen a Relationship

This Awareness indicates that there has been a great loosening of morality and standards of behavior because of the contraceptives and the attitudes of entities, and this has diminished the significance and importance of developing a relationship before becoming involved in the intimate acts of love.

This Awareness indicates that it has cheapened the acts of love to the same level as prostitution, wherein the entity may not offer herself for two dollars or five dollars, or fifty or even a hundreds dollars, but may offer herself for a good evening on the town, and a lot of praise and compliments and a promise or two for future encores, so that the entity feels, "Oh, I now have myself a man. He's coming back next week, and we can do it all again."

This Awareness indicates that the entity might as well set a price and acknowledge that they are simply prostituting themselves for the good time of the night out on the town. This Awareness indicates that from the point of view of the man, it is simply another ego expression. The man might say to himself, "I would never go to a prostitute. I would never pay a woman for sex, when all I have to do is buy her drinks and say the right words to her, murmuring in her ear about her beauty and about my love for her. Why should I pay fifty or a hundred dollars, when I can have her for twenty dollars worth of drinks and a few gentle kind words and promises?"

This Awareness indicates that it is simply another form of prostituting oneself for a good time. This Awareness indicates that when entities begin to realize this, that they are not really much above the level of a prostitute, they might have a different attitude toward the quick easy relationship, so that they are more cautious, more careful about whom they relate to, how soon, and why they are giving themselves so fully to this person who is essentially but a stranger to them.

Do they really know this entity just because they have had a meal or a few drinks, or watched a movie with the entity? Do they know anything about this entity? This

Awareness indicates it is not much different from the relationship that a prostitute might have toward a man, who is willing to give her a certain amount of his earnings for such satisfaction as he desires, but most women do not think they are prostituting themselves with a quick, cheap easy relationship. They think instead: "This is the beginning of a great romance! This is the beginning of a lifetime of happiness for me! This is the person who will fulfill my needs throughout this lifetime!"

This Awareness indicates they delude themselves with drink, with deception, with confusion, and dreams, and they *think* they are in love, but they find themselves having, in the back of their mind, a feeling of uncertainty and insecurity, and they hope things work out, and when things don't work out, they seem to be extremely surprised. "How could he have treated me like that? I was so good to him. What could I have done to make him love me more?"

In the Realms of Love, Think in Terms of Investment

This Awareness indicates that you might have been a little more reserved. Perhaps by being a little more reserved, the entity would have invested more in you and therefore, held you as a greater prize because the investment required more from him. This Awareness indicates that it is important in the realm of love to think in terms of investment. How much has an entity invested in you? How much have you invested in that entity?

This Awareness indicates whoever invests the most is the one who has the most to lose, and whoever invests the most emotionally, or in terms of risking their lives for the other and their energies for the other, has the most to lose and expects the most to gain, but does not necessarily have the assurances of any gain whatsoever.

If you give your heart, you are investing in someone: the person to whom you have given your heart to. If you give your love, you are investing in that entity. Would you invest your money in such an entity who might be simply a con man? Yet, entities think that by investing their virtue, their lives, their energies, their heart, their love, they are somehow controlling the situation so that the investment will reward them in some manner.

This Awareness indicates that you think carefully about your investments in other people. Are they really worthy of those investments? Have you really anything to secure your investment with? Are they a secure vessel for your investment? Would you take your money from the bank and meet someone on the street, have a few drinks, go to a party, a movie, and then invest your money in that person, ask them: "Would you take care of my money I had in the bank until the bank opens on Monday? Would you hold this for me?" Yet entities will invest their heart, their very lives into the keeping of someone whom they hardly know.

The Purpose of Marriage is a Mutual Contract

This Awareness indicates the purpose of marriage is to serve as a contract between two parties who are willing to invest their lives into the keeping of the other, and for them to reach that stage of marriage, they have to know each other quite well. In earlier times, entities would 'go steady,' which meant they would be together quite often, see each other quite often, and relate quite frequently, or they would get engaged, which meant they would commit themselves to a trial relationship to see whether or not it could lead to a more permanent relationship called marriage.

This Awareness indicates that this was a way of gradually developing a relationship between entities without either being totally committed to the other until

there was some clear recognition of each others' integrity, of each others' respect for one another. This Awareness indicates that it doesn't matter whether someone respects you or not; it only makes a difference if you have invested in that person. If you have not yet invested in the person, then don't worry if they respect you or don't respect you.

Once you have given something in the keeping of another, you want them to respect you. When you give yourself intimately to someone who respects you, then you have a relationship, but until you know whether that entity respects you, you have no business giving them anything of value to you. If you give yourself to someone who does not respect you, you may have lost whatever you have given. If it is your heart, your love, your emotion, or your body, then you may lose something of great importance to yourself.

This Awareness indicates in other words, you should never be surprised that someone has used you and didn't respect you. You should rather wait and find out if they respect you before you let them have anything of value, and then you will not be surprised. This Awareness indicates that it is simply a matter of whether your relationships are cheap and meaningless or whether they are precious and of great quality through mutual respect that has grown prior to giving yourself totally to another.

This Awareness indicates that it is for this reason that many religions advocate no sex outside of marriage. This Awareness would add that marriages are of different types. The use of the state marriage licenses is that which has been introduced only within the last century. This Awareness indicates prior to the state license, marriages occurred within the church, often within a tribe, and sometimes as common law marriages, but there was that which was a commitment.

The commitment being that which was a lifetime commitment on the part of the two before the entities would engage in sexual behavior, so that even the common law marriages did not simply happen from meeting and coming together within a few days for sexual relationship which then led to repeated relationships of an intimate nature.

Most of the common law marriages of the past had to do with entities getting to know each other long enough to where they entrusted their lives to the other with full awareness that the other was trustworthy. When you have a trustworthy relationship, then the nature of intimate sexual relationships becomes much more meaningful than simply a close encounter of the love type.

The Close Encounter of the Love Type

This Awareness indicates that the close encounter of the love type is but a pseudo-relationship. It is one in which entities pretend they have a relationship. They haven't even yet come to know each other, and therefore, they are simply pretending love.

WHAT WOULD A CONSTRUCTIVE MALE MODEL BE LIKE?

(How Can Women Gain Power Without Being Destructive?)

QUESTION:

Another question from this lady. She writes: "I recently read that only 6.7% of the world prison population is female, and many of them are in for assaulting or murdering abusive spouses and boyfriends. In the overall picture of relationships between countries, races, men and nature, men and women, men and men; the male energy is on a massive path of destruction, while the female seems suppressed, subverted and powerless.

What are some of the ways women can become powerful and help bring balance to the planet without following the destructive male model? And what would a **constructive** male model look like? I'd like to visualize that!", she says.

COSMIC AWARENESS:

This Awareness indicates that the male hormone testosterone is that which tends to make men more aggressive, more assertive, and consequently more violent in nature, whereas the female hormone, estrogen, which is the dominant hormone in females, tends to make them more nurturing in their expression.

This Awareness indicates that as women age, their testosterone becomes more dominant, and as men age, the testosterone becomes diminished so that men become more mellow with age, and women become more dominant with age. This Awareness indicates that this can have an effect on relationships, to give them a different kind of balance than those relationships of younger entities.

Why Some Women Should Have an Older Man

This Awareness indicates that the younger females are much more compliant and much more responsive to the male energies, whereas the male energies of the younger men are much more demanding, much more aggressive. This Awareness indicates that it is for this reason that *sometimes the better relationship for entities occurs with the woman having an older man who is less demanding, particularly if the woman is approaching an age wherein her own testosterone begins to assert itself, giving her a greater assertiveness.*

This Awareness indicates that *It would suggest that younger people be much more hesitant to marry because the relationships will be more likely to have the extreme dominance of the masculine energy and the more recessive passiveness of the female energy, which can result in abusive husbands over the lives of their recessive wives. This Awareness indicates those instances in which the wife strikes back at her abusive husband may come after years and years of suffering.*

This Awareness indicates that unfortunately, this kind of aging change that occurs is not likely to be a solution for dealing with the male/female relationship, because the younger people have their drives, their appetites for love, their need for being in relationships. It begins, quite early in the early teens, even with puberty, and becomes stronger as time passes until they have reached into the more mature levels of the thirties and the forties.

This Awareness indicates that the energies that these entities experience need to be understood in terms of how to deal with these energies and it is important for women to realize that men, being assertive and active with their hormonal drives, are more likely to take action when confronted with an urgency rather than to sit and talk about the urgency, whereas the women may be more inclined to talk about the problem and may want the husband to talk to them about this or that situation.

This may be their solution for dealing with the problem: expressing themselves verbally. But men tend to want to express themselves physically in terms of activity, in terms of actions and decisions. This Awareness indicates that when women realize this is the male answer to a problem, they may find it important to put the male energy to work, rather than to simply unload their emotions through talk, through discussions, and therefore, by putting the man's energies to work, they may find that the man then becomes more appreciative and useful to the woman.

Try to Find Something You Can Praise the Man For

Most men will do anything they can to please the woman of their choice, but if they cannot please her, they become extremely agitated and upset, even angry with her. Therefore, it is important for women to give the man something that he can do that she will feel comfortable about praising him for. She needs to let him know how pleased she is with what he has done. This will improve the relationship considerably.

This Awareness indicates that the man needs to be appreciated for what he **does**. The woman needs to be respected for her needs and for the things she says. She needs to be **acknowledged**. It doesn't mean that the man has to satisfy her every complaint, but it *does* mean that the man has to *hear* her every complaint, has to *listen* to her every complaint and express an understanding and sympathy in her behalf.

This Awareness indicates if the man can express his recognition of her complaint, if he can acknowledge her needs, and if he can recognize what her feelings are and respect her feelings, then she is satisfied. If she can acknowledge his efforts to satisfy her, if she can recognize his worth in the things he does in her behalf, then he is satisfied. He will be very pleased if he can please her.

Don't Try to Please a Man Unless He Requests It

This Awareness indicates too often the woman tries to please the man without any request on his part. She will do things for him and then feel that because he did not seem to appreciate her, because he ignored her, he is not recognizing what she has done for him, and she may become very upset.

If she complains to him that she has cleaned the house, she has done all this for him, and he did not recognize her and he just turns her off and says, "So what are you complaining about! I go to work, I do this, I do that, for **you!**"; there is a breakdown in communication, but if she can realize that her voluntary help or assistance to him is not of great importance to him; that what is truly of importance to him is her *appreciation* of what **he** does for **her**, and not so much that he recognizes her efforts toward pleasing him; then he will be more satisfied.

And for her point, if he can listen to her complaints, acknowledging that she has good reason to be upset with him because she had done all of this work: cooking his meals, cleaning his home and so forth, (even though she may not have noticed that he worked all week in her behalf); then if he can acknowledge her complaints as being legitimate, **she** will be satisfied.

This Awareness indicates that these are key elements in a good relationship, in helping each other to feel better about themselves and toward each other. This Awareness indicates that there are many areas wherein entities need to listen not so much to what each other says, but what they are saying behind their actions and behind their words.

The man who works at a tough job all week feels he is *doing this because he loves his wife. But does she recognize that this is an expression of love? Often she will only see an expression of love if he says to her: "I really love you, dear!"* This Awareness indicates that she needs to recognize his **activity** is an expression of love. He needs to recognize that her need is to **hear** him say it, not only in action, but in words also.

This Awareness indicates if **he** can give her those little strokes and words of love several times daily, she will be happy, and if **she** can acknowledge and recognize his efforts in his work, his lifetime dedication as a means of providing for her, then he will be happy in

continuing his occupation, for even though the man is perhaps working at some job that enhances his self-esteem, in most cases, the man is actually doing it all for the benefit for his family, particularly of his wife, and does indeed need to know that she appreciates his efforts.

Does One Take On An Abusive Persons' Karma if They Seek Justice and Not Revenge?

QUESTION:

One last question from Jane. Actually, there's two questions in it. She writes: "I was told by a friend that when a person finds themselves in an abusive relationship, they must find a way to 'justice,' not revenge, or they'll take on some of the abusive person's bad karma and keep being taken advantage of. Is this true, or are we just supposed to get the abusive person out of our lives and "turn the other cheek," letting the forces of karma work in their own way and time?"

"I've tried to find some justice in the legal system without success."

COSMIC AWARENESS:

This Awareness indicates if you are in an abusive relationship, then you must do whatever is possible to extract yourself from that relationship without creating greater karma in the process. This Awareness indicates in other words, if you can extract yourself without causing the other entity to suffer, such as a revengeful act of destruction to the other entity, it is better than creating a karmic debt because of the abusive relationship.

An Abusive Relationship is Already a Karmic Relationship

This Awareness indicates that essentially, an abusive relationship is already a karmic relationship. The entity who is the victim of the abuse has, for some reason, allowed the perpetrator of the abuse to develop a control over the victim, and this has contributed to the karmic balance that is the abusive relationship. Thus, the victim is not always totally innocent, because the victim may have let things get out of hand to the point wherein the perpetrator felt he had the right to abuse the other.

If that entity being abused had made a stand early in the relationship, it may never have developed to that point where it now allows the perpetrator/abuser to abuse the victim. This Awareness indicates in other words, if you are going to develop a relationship in which one is dominant and the other is recessive, the recessive person has to play the role of the abused before that relationship can fully develop.

In other words, if someone is going to kick someone while they are down, the one entity has to get down first, in order to be kicked. If the entity refuses to lie down and be kicked, then there can be a struggle and a conflict, but in most cases, the abuser is not going to welcome or indulge in a fight to get the abused to play

the victim, if the victim fights too hard to avoid that role.

The Sado/Masochistic Relationship

This Awareness indicates that in other words, people tend to fall into playing the role. One person may be psychologically dominant, more assertive, and the other person begins to try to please. Gradually, that effort to please becomes more and more strong until the dominant person becomes more and more dominant and eventually, the dominant person becomes over-assertive and highly aggressive, and the one trying to please becomes ever-more catering and demeaned by the situation so that the person becomes a victim of the dominance.

It grows gradually. It does not suddenly appear. The sado-masochistic relationship is not usually that which appears from the beginning: "Hey! I am a masochist!" "Well! That's interesting! I am a sadist! Let's get together and have a sado/masochist relationship!" This is not the way these things develop.

This Awareness indicates that in other words, there is a kind of development based on mutual consent, mutual agreement, that leads to these abusive situations. This Awareness indicates that if entities have self-respect, they will not allow themselves to fall into these circumstances.

This Awareness indicates of course there are exceptions to this, such as situations in which some entities are given so much power over others that the ones who are the victim of the situation have little choice. This could happen, for example, in a situation of war-time or in a prison situation, or, for example, wherein there are entities armed and powerful and entities who are disarmed and weak.

The elderly, the weak, the child, already in a relationship with someone who is overly powerful and has an attitude of being assertive and abusive, can create the relationship immediately, so that it does not depend on mutual consent of the child agreeing to be victimized. There are exceptions in this sense. This Awareness indicates however, there are many such relationships that develop over time, and therefore, the abused is simply asking for it, because they do not stop or stand up for their rights.

This Awareness suggests that if you are in a relationship that is becoming abusive, the sooner you break that cycle, the sooner you get out of it, the better your chances of getting free before suffering too much damage. The longer it goes, the more you tend to fall into the role of the abused, and the greater will be the abuse over periods of time.

This Awareness indicates that often it becomes essential for entities to get outside help because they may not be able to extract themselves from the abusive relationship without some kind of external help. This Awareness indicates that it may even be dangerous to try to extract themselves without some kind of external help, and it is important that the help be really dedicated and meaningful rather than simply complaining to someone who talks to the abuser and then goes away because they don't want to get involved. This can lead the abuser to become even more abusive to the victim.

This Awareness suggests if that question was not completely answered, that it should be repeated.

QUESTIONER:

I think it was pretty well covered. I'll repeat it. Jane writes: "I was told by a friend that when a person finds themselves in an abusive relationship they must find a way to get 'justice,' not revenge, or they'll take on

some of the abusive person's karma and keep being taken advantage of. Is this true? Or are we just supposed to get the abusive person out of our lives, and turn the other cheek, letting the forces of karma work in their own way and time?"

COSMIC AWARENESS:

This Awareness indicates that getting revenge is not the appropriate way. Getting justice can also be a form of revenge. Getting free is the more important choice, even though it may leave that entity also free to continue his abusive actions toward others or to return at some point and perpetrate further abuse on the entity. But justice is that which, if properly sought and found, can be the solution for both the victim and the perpetrator of the abuse. Justice being that which is within the concept of social laws or Universal Laws or Karmic Laws.

This Awareness indicates that obviously, you cannot always control these laws, therefore, it is more difficult to get justice when you are in a weakened position. It would be better for all if justice was found, but because it is often so difficult to receive proper justice, the main goal for many such entities would be to simply get free from the entity perpetrating the abuse.

This Awareness indicates that many of the women in prison for having harmed their abuser is the result of their seeking revenge. In some cases, however, some of these women are in prison for harming the abuser when all they wanted was to get free of the abuse, and their method of freeing themselves may have led to violence toward the abuser, yet they may be suffering from a karmic or legal justice that is perhaps unfair to the victim of the abuse, but which also may be the result of karma from the residue of the relationship which they extracted themselves from.

This Awareness indicates that any rate, they are free from the abuse of the relationship. Even if they find themselves in a prison, many will be appreciative for the peace in the prison, rather than having to remain in the abusive relationship. This Awareness indicates in other words, it is better if entities can avoid violence toward the abuser, but in some cases it appears entities feel the need to be violent in order to become free of the abuse and may suffer some consequence for that choice.

Will Photon Belt Affect Male/Female Energy?

QUESTION:

She had one last question here. "Also, as the Photon energies become stronger, will they change the way karma works and the imbalance of male/female energy?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative; that the Light Energy as that which appears to enlighten the consciousness of entities to the point where the more gross expressions will be diminished and the higher more spiritual expression of these energies will become more pronounced, allowing both male and female to be more spiritually evolved or angelic in nature, therefore creating better relationships between themselves, between the sexes.

This Awareness indicates that a considerable amount of karma is being created by the male and female relationships at this time, more so than in earlier generations, because of this shallow, disrespectful generation that has developed in recent years, whereby men have less respect for women, and women have less respect for men. The developing hostility toward men by women is that which is creating a greater karma. It is

also that which is deserved by men because of their lack of respect toward women.

This Awareness indicates that for awhile, it will be difficult for men to develop relationships with women, even if they are desirous of such because women will have such little appreciation or respect for men, but after some time, men will become more concerned about having a decent relationship with women and will begin to work and think and study: "What is it that women want? What is it that I can do for the woman of my dream?", and they will begin to learn and desire to learn how to please the woman.

Books and Videos Available to Help Relationships

This Awareness indicates that there are a number of counselors in this regard who have products on the market to help entities who are serious about understanding the opposite sex. This Awareness indicates there is that book that has helped many: Men Are From Mars, Women Are From Venus. This book has been very helpful for many entities.

This Awareness indicates that there are others of a similar nature. There are cassette courses on relationship. There is seen a cassette course by; this appears to be Dr. Barbara De Angeleo; or something similar to that, in which she works with male/female relationships, and advertises on many of the late night television infomercials.

This Awareness indicates there appear to be other books of a similar nature, or course available that can be helpful to entities who wish to learn more about cultivating healthy relationships between men and women, and these can be very helpful in terms of turning around the disruption in relationship that has occurred during the past two or three generations.

DO CONDOMS INTERFERE WITH MALE/FEMALE ENERGIES?

QUESTION:

A question from JD in New York. She writes: "To what degree, if any, do latex devices such as condoms or diaphragms interfere with the nourishing, healing and counterbalancing energies exchanged during heterosexual coitus?"

COSMIC AWARENESS:

This Awareness indicates how does one measure the degree of interference of a piece of rubber in a sexual expression? To what degree? This Awareness indicates there is no standard of measurement as to the degrees of non-interference or interference that can be discussed in terms of answering such a question.

This Awareness indicates that to the degree that it interferes according to the disturbance of the feelings of the reactions. This Awareness indicates that this is a question that simply calls for a different kind of question. There is no way that this Awareness can answer the question. This Awareness indicates it is better for entities to have the latex interference than to have a kind of thick rubber such as used in thumbstalls or inner-tubes.

This Awareness indicates that this question is impossible for this Awareness to respond to. It is probably not what the entity actually wants to know. The way the question is worded is probably giving a different meaning than what the entity actually seeks.

QUESTIONER:

I wonder if she isn't meaning something in the area of, for example, there is supposed to be an electrical type energy that is exchanged between the male and the female, and Dion Fortune, in a book mentioned there is

also a psychic thing; and I think she's asking if people use these devices, these latex condoms and so forth; do they interfere with this electrical charge between the male and the female?

COSMIC AWARENESS:

This Awareness indicates that this is absolutely correct. This Awareness indicates that to what degree cannot be stated. To the degree that entities are sensitive to such interferences; that is the closest that this Awareness can come to answering that part of the question. This Awareness indicates that obviously, the interference of any object to cut off the touch and sensitivities is going to be cutting off that touch and sensitivities.

This Awareness indicates that there is no device, there is no standard by which these can be measured. For one thing, every individual, every couple will have a different sensitivity to these feelings, and therefore, there is no way of measuring. There is no standard by which the sensitivities can be measured. They are simply a matter of feeling.

There is no way to determine what electrical energies are stifled, or how much stifling occurs.

CONSIDER RESPECT AND THE CHILDREN IN A RELATIONSHIP

CLOSING MESSAGE:

This Awareness indicates that there is a considerable amount of difficulty in today's world regarding the male/female relationship, and entities **do** need to have a greater understanding, but the most important aspect and the beginning of this understanding comes from developing deeper respect for oneself and for others. Also, not only respecting entities of one's own sex, and the opposite sex, but also the developing of a respect for children and their rights in a relationship.

Many times entities get into a relationship without thinking about the children and what that relationship means to them. This Awareness indicates that parents often become very incensed over the child's selection of friends, but they think nothing in terms of the rights of a child to be involved in the parent's selection of **their** friends. The child may have a great desire to have some say in whom the mother chooses as her friend, but the mother does not recognize the child's rights in such selection of her friends. She does, however, insist on selecting the child's friends; who the child can associate with.

Is there not some similarity in terms of rights, when a family brings in a new member, whether it be another child or whether it be a new boyfriend or some other; shouldn't the entire family be involved in discussing and helping to make these decisions, or somehow participating in the acceptance of these entities into the family?, for it changes the entire dynamics of the family, and when a mother simply brings in a new man into the family, and the children are not consulted, it can leave them with a sense of being displaced.

The mother has in a sense rejected the child in favor of some stranger, and the child's sense of belonging may be totally shattered. This Awareness indicates that there may need to be some damage repair to the family, when a new entity enters into the relationship of a family. This Awareness indicates it becomes even more damaging to a child when the mother brings in one man for a period of time, then ousts him and brings in another a few weeks later, so that the child is confronted with various boyfriends, in and out, over a period of time. This Awareness indicates this can be of great damage to a child in terms of his or her sense of loyalty,

and in terms of his or her feeling of belonging to a family.

This is especially difficult for children when the man comes in and practices playing the father-role over the children, when the child knows that this entity will only be around for a short-time based on the past performance of these 'boyfriends'. This Awareness indicates there are many difficulties for entities involved in the new lifestyles that are taking the place of traditional families.

(The Law of Gratitude is given)

THE INVISIBLE ENTITIES WHO REALLY RUN OUR GOVERNMENT

(Why Our Elected Officials Really Don't Know What's Going On)

Opening Message: (CAC General Reading, 1/17/97)

This Awareness indicates *It* wishes entities to understand that the elected officials of your government are *not* the ones who run the country. They follow orders from above. This Awareness indicates that they are essentially approximately the third level down, and the entities who actually run the country are behind the scenes, operating invisibly.

This Awareness indicates with this information or this realization, *It* also wishes you to understand that those who are behind the scenes have information and knowledge that will **never** be presented to the elected officials so that the elected officials are essentially kept in the dark about many things.

This Awareness indicates it is in this way that the elected officials are able to be used for various purposes, because they do not always know what is going on. This Awareness indicates the technology available to those who are behind the scenes, the invisible government, is that which is far, far advanced, **far beyond** anything most people can imagine.

This Awareness wishes entities to be aware of this arrangement so that they do not perceive or believe that the elected officials have some kind of knowledge about what's going on, or that they are being willingly in control of the masses against the interest of the people. Most elected officials have **no more** information than do the people who have investigated to find what they can find in regard to things that are behind the scenes.

Occasionally, of course, elected officials, because of their position, will receive information from disgruntled employees of various agencies or from various scientific groups or otherwise from various sources who give them inside information on things, and in this way, many of these elected officials **do get** information that is not necessarily available to the public in general, but very little of the truly hidden information is given to the elected officials.

This Awareness suggests that the questions may be continued at this time.

SECRETS THE CATHOLIC CHURCH DOESN'T WANT YOU TO KNOW

QUESTION:

Conspiracy Nation recently sent out on the Internet a rather interesting statement called "Catholics on Rampage to Rally Around the Pope" and I'd like to read this and ask Awareness if this information is basically true.

In Spanish, "El Papa" means "the Pope", "La Papa" means "the Potato". This is why I call the Pope, the Potato.

Alarmed at recent information about the Catholic Church published by *Conspiracy Nation*, will the Potato soon visit our shores? Will he bring his special Potato car with him? At any rate, some of his loyal followers aren't wasting time. I have been deluged by E-Mail from angry Catholics who demand that I stop what they call "Catholic Bashing"

Some have even frightened this editor by their threat to cancel their E-Mail subscriptions, yet, in spite of my trepidation's, I delve more into this area. In the book Foreign Conspiracy Against the Liberties of the United States, author Samuel F.B. Morris (acknowledged inventor of the telegraph) wrote that "Popery is now what it has ever been, a system of the darkest "political" intrigue and despotism, cloaking itself

to avoid attack under the sacred name of religion."

This does not mean that there are not good people sheltering underneath the Vatican octopus (But wouldn't these be good people irrelevant of the cabal which claims them?) Yet the subject of "Deep Catholicism" (to borrow from Peter Dale Scott's concepts of "Deep / Esoteric Politics") is a proper subject for investigation by *Conspiracy Nation*.

The renown conspiracy research organization, A-albionic, has had as their logos, that "The Overt and Covert Organs of the Vatican and British Empires are Locked in Mortal Combat for Control of the World."

What's the plot? (Quid coniuratio est?) Morris writes that "The Pope, the supreme head of the Catholic Church, claims to be 'Vice Regent of God', 'supreme over all mortals,' 'over all Emperors, Kings, Princes, Potentates and People,' 'King of Kings and Lord of Lords.'" The Potato has at his command an enormous intelligence network. His priests are his eyes and ears throughout the world. Consider too the power which these Jesuits and other Catholic priests possess through *the confessional*, of knowing the private characters and affairs of all of the leading men in the community.

Morris explores the Catholic Church's use of "glory-giving titles:" One of the plainest doctrines of American Republicanism, which is essentially democratic, is, that mere glory-giving titles, or titles of servility, are entirely opposed to its whole spirit. They are considered as one of those artificial means of king craft, by which it fosters that aristocratic, unholy pride in the human heart, which loves to domineer over its fellow man, which loves artificial distinction of ranks, a privileged class, and of course which helps to sustain that whole system of regal and papal usurpation which has so long cursed mankind.

Bishop Fenwick, a Catholic Priest, is "His Grace" of Cincinnati. Another priest is only "His Reverence," and Bishop Flaget, and all the other Bishops are simply "Monseigneurs," this title in a foreign language being less harsh at present to republican ears than its plump, aristocratic English translation: "My Lord Bishop of New York," "My Lord, Bishop of Boston," "My Lord Bishop of Charleston," et cetera. As we improve, however, under Catholic instruction, we may come to be quite reconciled, even to "His Eminence," Cardinal so-and so, and to all the other graduated fooleries, which are so well adapted to dazzle the ignorant.

What is the source of the constant, noxious anti-Semitic postings to, for example, newsgroups such as "alt. conspiracy?" On the surface, the authors seem to be free-floating morons, but is there a more cunning force behind them?

Immediate speculation is that it must be CIA engaged in "dirty tricks," meant to tar the reputation of conspiratologists. But what major world power is it which has a centuries-old history of anti-Semitism? The Vatican! Yes, on the surface, the Catholic Church has made efforts at reconciliation with the Jews. Yet remember what was said before about "Deep Catholicism."

Notably, Ambrose Evans Pritchard writes, in a recent article on the anti-Jewish Ku Klux Klan, that that hateful organization no longer excludes Catholics.

Conspiracy Nation is an Equal Opportunity Investigator. This means it will look wherever it pleases. As can be expected, the searchlight falls even on some who will howl, "Turn off that light!" When that happens, we turn up the light even more.

That's the end of the posting. Is most of that information valid that he talks about here?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. The entity originally mentioned the Vatican and its opposition to the British, and this Awareness wishes to point out the British as long having a history relating to the controls from the Rothschild family, and that the

Rothschild family represents much of that which is Jewish in its origins.

The Conflict Between Catholic Fascism and Zionism

This Awareness indicates that the conflict between what may be termed fascism and Zionism, is essentially behind what this entity is speaking of. Fascism as that which emanates from the Catholic Church, and the history during World War II should be examined, because the Catholic Church *never actually* denounced the work of the Nazi's. In fact, of course, the Fascism in Italy was right there in the midst of Catholicism, and Catholicism in the midst of the Fascist rule by Mussolini.

Catholic Church Actually Promoted Communism

This Awareness indicates there have been many who have seen this connection, wherein the Catholic Church was very much oriented in the Eastern Communist nations, and helping to spread certain ideologies to gain control of Communism in the various Eastern nations, including Russia itself. This Awareness indicates that many thought that Catholicism was opposed to Communism, but others saw through it and saw that Catholicism was actually *promoting* Communism in many of these countries.

This Awareness of course suggests that the promotion may have simply been a way whereby Catholicism could make inroads into the Communist countries. This Awareness suggests also that you will recognize the New World Order as a process that involves both Zionism and Fascism and that there often appears to be a kind of cooperation between these elements, but underneath it all, the cooperation is only a facade, and though they appear to be both working for the New World Order, there is beneath it all, a genuine dislike for each other.

MOSSAD is in Conflict with the CIA

This Awareness indicates part of this will be seen as the reason for anti-Semitism surfacing in various ways, sponsored in part by the Catholic Church, but done so in a kind of secrecy. Thus, the MOSSAD in its movement and controls in the United States is in conflict with the CIA, although they occasionally appear to work together. This Awareness indicates it is likened unto double agents working together on a project, but each trying to get what it can from the other without being blatant about it.

Who's Who in the Shadow World of Espionage?

This Awareness indicates that the MOSSAD essentially controls the FBI, and the Catholic Church essentially has control over the CIA through infiltration of various agents. Whereas the Rothschild family has been long involved in promoting Zionism through the British influence; the Rockefellers have been essentially involved in promoting Fascism, which is why Rockefeller, through the Project: Paper-clip, brought Nazi German engineers, scientists and politicians into the United States after World War II and helped set them up in government positions working for the government in various ways.

Karl Ritter and Karl Marx Originate New World Order Concept

This Awareness indicates the New World Order essentially is a concept that sprung out of the Fascist movement in part from the work of Karl Ritter. In the Illuminati, the Karl Ritter work was designed to help promote Fascism, which eventually led to the rise of Nazism. This Awareness indicates at the same time Karl Ritter was commissioned to do his work, Karl Marx was commissioned to bring about the work for the eventual rise of Communism.

This Awareness indicates Communism is related to the energies and outgrowth of Zionism, and the Fascism

is related to the energies and outgrowth from the Catholic Church or the Fascist movement that was started in the Illuminati through the work of Karl Ritter. Both received their directions from Adam Weishaupt; this through the Bavarian Illuminati, approximately 400 years ago.

Are Photon Energies Making it Easier to Surrender to the Divine Creator?

(More on "The Little Self" and "The Big Self" of the Hippies)

QUESTION:

Vicki got an E-Mail note from a member who now calls himself "Amicus 888." Do you know who that was Vicki? [She shakes her head]. Well, it's rather interesting. I'll read it. He's asking a question. He writes: "Hi Vikki! I'd like to let you know about something which I am experiencing which many in the membership may also be going through. I really realized this after reading this most recent issue 96-15. No matter how bad things sound or seem, I don't seem to worry or think about it as much as I used to. I seem to be learning to "surrender" these worries and angers to my Higher Self.

"This is occurring in matters in my personal life as well as when I ponder on what is going on in the world. There was a time when I had no idea what surrendering to the Divine meant, or how to do it. Now it seems like it is automatically happening! I still feel stress in personal matters and so on, but it is not as pronounced as before. There is a force soothing my "flame".

"I feel as though I and my Higher Self are closer, or something. I also feel assured or safe or something. It is hard to explain. Does this have anything to do with the Photon Belt energies? Are others in the membership writing to you about this? I think the most important of this is that I now know (really know within) that surrendering to the Divine does not mean 'losing' yourself to the Divine, it just means losing your mask of illusion, your limited ego self.

"Little by little, I seem to be opening some part within myself. I can feel some thing opening somehow. Could you please write me back with any thought?" he asks.

COSMIC AWARENESS:

This Awareness indicates there was a time back in the Sixties where many of the Hippies had a term they used in trying to describe certain experiences from their psychedelic trips. They spoke of the 'little self' and the 'big self'. The little self was the ordinary day to day mundane self that must cope with everyday problems in life, but they had a concept of a bigger self, a self that filled the space around them, that reached out into the universe and experienced God, experienced life, experienced love, and the vitality that is everywhere present.

This Awareness would call this the "Cosmic Self." This Awareness indicates that these entities in speaking of the little self and big self, essentially have given terms that can be used in discussing this entity's question and his observations. In the surrender of the little self, entities do not lose self totally, but the self becomes something more cosmic in nature, and they actually become attuned to that Cosmic Self.

The Cosmic Self is the energies associated with Divinity *Itself*, and as entities surrender the little egocentric self and become more attuned to the Divine Self, they become more associated and recognizing of the Big Self. It is a very simple action. There are many ways to say it in different words. Perhaps this will help others to better understand the concept also.

This Awareness appreciates this entity's response to these messages because it shows that somehow this

message is being understood, and perhaps it will encourage others also to surrender self, to know that in surrendering the little self, there is no great loss of identity; that the identity simply takes on more.

An Exercise in Expanding Your Consciousness

This Awareness indicates another way to look at it is to think of the baby. The baby is very limited. It is in the womb, which is very confining, and that is the totality of its world at the time. After it is born there appears to be an area around the baby and the baby recognizes after awhile, the mother, and may be placed in a crib, and then that is the totality of its being. The crib forms a kind of fence around the baby.

After the baby has grown several years, this fence may be around its home, and the baby may be able to go out in the yard but still may be confined within the fence. This Awareness suggests that as the baby matures more and more, eventually it is allowed to go outside the fence and into the neighborhood, and the neighborhood becomes its world, and confined to the neighborhood. This Awareness indicates as the baby matures into its teen years, its world expands further. Into adulthood, its world expands to the point where the baby may be able to fly from one town to another for working or for other purposes, and the world expands enormously during those times.

This Awareness indicates eventually the entity becomes aware of the entire globe and that becomes its world. Eventually, if the entity continues to expand in terms of consciousness, the consciousness begins to recognize that the globe, the world is really just a small dot in the galaxy, and that the entire galaxy is much, much bigger than anything previously imagined.

This Awareness indicates the entity may then expand into a kind of galactic consciousness. Realizing how big this galaxy is, the entity can almost imagine having a galactic view of the world and himself on the world. If the entity's consciousness continues to expand, he may see that the universe, or the galaxies all clustered together, the trillions of galaxies may actually only be a small part of the universe and that there may even be universes beyond the one the entity perceives.

This Awareness indicates that the next step in recognizing expansion of consciousness is to realize that the entire galaxy may simply be the body of God. The entire universe may be the body of God. All the universes put together may be the body of God, or, if not a physical body, maybe they are the consciousness of God, and maybe an entity's bigger self actually can reach out to those extreme expansions of this universal consciousness so that when the entity surrenders the little self, the baby self, to become One with the Divine God Self, the entity is not actually losing anything.

How many entities actually regret having had to leave the crib and go out in the yard, or out in the neighborhood? In looking back you see that you have not given up anything; you have simply expanded your reality and your world as you evolve in your expanding consciousness.

This Awareness indicates that the action of surrendering self is speaking of the little self, the limited self, to where you expand yourself into a greater Divine Self through the surrender of your little self. This Awareness indicates that perhaps this will help entities to better understand.

Perhaps the word "surrender" is not a word you particularly like, if you have been conditioned to be competitive, but you don't have to use that word. You can use the word "evolve" into a Divine Self, rather than "surrendering" your little self. Think of yourself as

"growing" in consciousness rather than surrendering the old you to become the new.

This Awareness indicates, however, in any situation, whatever your terminology, you go from identification with the little self to identifying with the greater self. Call it growth or call it surrender-- whatever; but you cannot hold onto the little self and have Cosmic Consciousness. You cannot be self-centered and still be cosmically oriented.

NASA PHOTOGRAPHS HUGE UFO IN SATURN'S RINGS

QUESTION:

In the December, '96 issue of *Nexus*, there's an interesting article I'd like to read and ask Awareness to clarify. It's called "NASA Photographs Huge UFO In Saturn's Rings!"

On the 30th of January, 1996, the Alan Handlemann radio interview program on WRFX FM, Charlotte, North Carolina, featured a former NACA, (National Advisory Committee for Aeronautics now NASA) scientist, Dr. Norman Bergrun, revealing that NASA's Voyager space probe took photographs of a cylindrical object, about one and one half Earth diameters long, orbiting in the rings of Saturn. Dr. Bergrun says that streamers could actually be seen along the lengths of the cylindrical object, implying the existence of exhaust ports.

Now independent confirmation has been published in *Science News*, (February, 1996, Vol. 149, #5, page 71), where the Hubble Space Telescope was reported to have photographed a large, elongated non-satellite orbiting Saturn's rings in one photograph, but which disappeared from a follow-up photograph. Two other very big and very bright orbiting objects were photographed on the 22nd, May, 1995, and the 10th of August, 1995, but they disappeared by the 21st November, 1995.

Dr. Bergrun believes that the cylindrical object is intelligently controlled and has attributes qualifying it as a space vehicle. When asked why NASA had not managed to get a photograph of the huge vehicle before, Dr. Bergrun said that "They have a tendency to hide in their own exhaust."

The former NACA scientist says that exhaust from the lengths and ends of the vehicle appear as the material constituting the ring. When asked why NASA and other government agencies haven't released this information before, Dr. Bergrun answered that the 1958 Space Act provides that space data can be withheld if something is found that may constitute a threat, and that a vehicle of this size would be considered a threat and would be deemed to have great military significance. As such, it would fall under the "top black budget military intelligence agencies."

Dr. Bergrun has presented his discoveries in a book, *Ring-Makers of Saturn*, (1986), which contain the NASA Voyager photographs of this huge space vehicle orbiting in Saturn's rings." Would Awareness comment on that please?

COSMIC AWARENESS:

This Awareness indicates that the date on the book is more likely 1996. This Awareness indicates that it appears the information is correct and that the entity has released information that was not supposed to be released, was not intended to be released, but which in being released has created a situation in which more entities will become aware of the concept of extraterrestrial life.

In this sense, it has added to the potential for extraterrestrial announcement without creating great panic, because it was released in a very limited way. This Awareness indicates it appears the government does not want to officially release information about extraterrestrials because that official announcement would create panic in some areas of civilization.

This Awareness indicates the release of the information on the Mars moon rocks as having primitive life within them was broadcast worldwide and did not create great panic, and therefore, you can expect more announcements of information tailored not to create panic, but to gradually bring the public into the realization of the fact that earthlings are not alone in the universe.

Russia has Sent UFOs to and From Saturn

This Awareness indicates that Russians, in their space program have sent UFO's to and from Saturn. There has been established some connection or communication between earth and Saturn; this as long ago as the early 80's and even perhaps shortly before that.

FOLLOW-UP QUESTION:

What is the nature of that spaceship? Is it another Orion ship loaded with Reptoids?

COSMIC AWARENESS:

This Awareness indicates this appears to be something related to the life on Saturn, which has been mentioned in some publications as the Saturn Council. The life on Saturn entities are essentially human types from various places in the galaxy. Mostly these are benevolent beings and the particular craft mentioned does not appear to be hostile.

Boris Yeltsin's Strange and Rapid Recovery

(Up and Around in 2 days After a Triple by-Pass)

QUESTION:

A question from Lillian B., Clarksdale, Arizona. She writes: "The question that really bugs me is Boris Yeltsin's illness and rapid recovery. Having spent years as an RN in the Department of Cardiology, such events didn't happen that way..."

COSMIC AWARENESS:

This Awareness indicates this entity was replaced by a double during that operation.

QUESTIONER:

The question continues and that's what she asks. "Has he been replaced, duplicated, or whatever? If so, how were the physicians fooled? And do you think the new Boris Yeltsin will still be an alcoholic?"

COSMIC AWARENESS:

This Awareness indicates that this entity is likely to be much more manageable and healthy and is not seen as one who will be easily influenced by alcohol. This Awareness indicates the entity still has similar genetics, so he *could* become alcoholic again, but because he will be more managed and better controlled, it is unlikely. This Awareness indicates that the doctors were not 'fooled;' the doctors were part of the activity.

FOLLOW-UP QUESTION:

Does this replacement suggest that the United States will continue to get along with Russia?

COSMIC AWARENESS:

This Awareness indicates that these entities who are now his handlers are part of the New World Order and will continue to control him and Russia according to their agenda. This Awareness indicates the entity Lebed, who was fired by Yeltsin just prior to his operation, is still the most popular politician in Russia, but Yeltsin, who appointed Lebed and wanted Lebed as his right-hand man, was forced under threat of death to fire this entity, and knowing that he was ill-equipped to fight back because he was going under the knife, acquiesced to these demands prior to the 'operation'.

Of course his action did not save him, but the entity Lebed still remains the most popular person in Russia and may yet play a major role in what occurs in that country, although things do not, in general, look that good for the entity. He **does** know what is going on in the country and the people trust him, whereas they do not trust others.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

THE INTERPRETER FOR THIS READING IS PAUL SHOCKLEY

Avaton-Editor Vikki T.-Sec. Treas.

--HOW TO GET THIS NEWSLETTER BY MAIL-- EVERY 3 WEEKS! (More or Less)

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).
