Excerpt from CAC Reading #61-7/22/99 Grace Interpreter

A STRUGGLE WITH THE CONCEPT OF A PERSONAL GOD

QUESTION:

A question from Charles Holzhauer, he sent in over the Internet. He writes: "Background to questions for Awareness: I have been struggling with the concept of a 'personal god' for some time. From my fairly extensive reading, including CAC material, I had gotten the idea that *It* created the universe, then left it alone, except to provide the energy for creation to continue.

Since there is free will, *It* does not interfere in people's lives, but lets them learn their lessons the hard way, if they so choose, in this view. *It* appears to me to be remote from our lives. *It* may love us, but if *It* does not intervene to help us, that love is of little help to us on this earth plane.

It is hard for me to pray or try to "get in touch" with such a Creator. I have Christian friends who take the opposite view. They attribute almost every good thing that happens to them as "God's Blessing" on them. They seem to see God as micro-managing every aspect of their lives.

A Christian woman, Joni, tells the story how she became a paraplegic. She had broken her spine diving into a sand bar at the ocean. At the moment a crab bit her friend's foot. This got her friend's attention to realize that Joni was in trouble. Joni says God thus saved her life!

Many Christians see a personal God of Love who constantly showers blessing on them. It seems to me that these people have the belief that *It* has entered into a contract with them, that if they enter God, God will bless them abundantly. Although I have been attending church for about 3 years it is quite difficult for me to have any type of personal direct relationship with *It*.

Questions (I'll read all 3 of them): To what extent is *It* a Personal God who actively intervenes in people's lives?

To what extent can we have a personal relationship with *It*?

What type of relationship does *It* want to have with us?

And finally, does *It* want us to worship *It*? And if so, how? Thank you" Charles says.

COSMIC AWARENESS:

This Awareness suggests that this question elegantly inquires into the nature of the self, in all of its manifestations, its place within All That Is and the connective pathways, as well as recognizes some enduring distortions and limitations within mass-consciousness which have yet to be exposed. This Awareness suggests that religion, each being its own form of symbology communicating Universal Truth, yet distorted in its own unique way, often accepted as a package deal which creates mixed thoughts, mixed actions, mixed outcomes and as always, is reflected with mixed feelings.

This Awareness suggests that the entity expresses a very common conflict wherein the package invokes a positive joyous resonance with the concept of a Creator, a Divine Intelligence, wise enough to design the universe, the stars and the wonders of the earth, and all the elegant life-forms within it, contrasted with the painful recognition that such intelligence has apparently abdicated a controlling role, given the pain and chaos and violence and hopelessness that is also emotionally experienced in daily living.

This Awareness suggests that as entities begin to recognize and attune to the evaluative role of Spirit, then and only then can such conflicts be resolved. Then and only then will lasting Universal Understandings of the "God Force" begin to unfold, for then and only then will they be recognizing the only natural available source to God's Word that has been offered within the Creation, specifically, within the biological makeup of the human form.

This Awareness suggests that it is difficult indeed for entities to align themselves with doctrines which both celebrate a Creator and continuously revile the Creator for creating or allowing the sinful and evil aspects of life to continue. Such conflicts prompt the kind of mental gyrations cited which can find God's intervention of the bite from a crab, and deny the implications of His failing to prevent the accident in the first place.

The Idea That Evil is a Valid Force is Not True

This Awareness suggests that the conflict of course springs from the limited idea that something else is also at work, that evil is a valid force, while it is actually simply symbolic of the dysfunction of a phenomenally functional system which is misunderstood and therefore, abused.

This Awareness suggests that each question be asked in sequence for an individual answer.

To What Extent Is *It* a Personal God Who Intervenes in Our Lives?

QUESTION:

To what extent is *It* a Personal God who actively intervenes in people's lives?

COSMIC AWARENESS:

This Awareness suggests that the God Construct, the Universal Consciousness of All That Is is far more elegant, loving, instructive and available than entities might suggest, but that in the expanse of this love and the desire for expansion of self, that All That Is has graced individuals with the empowerment and ability and guidance to manifest their own Destiny Paths with complete freedom and guidance in order to gain uniquely creative experiences from each and every form of consciousness.

In the Grand Design: The Gift of Free Will From God

This Awareness suggests that along with such grace and faith came the biological safeguards which are intended to move the entity in purposeful directions, to guide the mind toward highest and best use of free will, but to hand over the creative reigns of control within the Grand Design to complete the concept and gift of free will.

This Awareness suggests that each individual creates each and every positive and negative event, utilizing this gift of creative power and consciousness of All That Is. This Awareness suggests that entities who in one moment give glorious thanks to God for a happy event and turn around and deny His controlling or intervention in a negative event are simply inconsistent in their logic and would benefit by examining the cherished beliefs.

This Awareness suggests, however, that the guidance and love and caring and wisdom is constantly available as entities begin to attune to the incredible system at work within them, to only recognize the creative empowerment and freedom of mind to attend and attune and respond to the evaluative feeling signals which arise following each event the mind has created, for this is the first and clearest voice of Spirit; the evaluative polar guidance of All That Is, in reflection of whether or not the Divine Destiny has been attained in that moment.

This Awareness suggests that through this fabulous design, the Creator could make co-creators without intervention or minimizing the freedom of the creative imagination, yet safeguarding that freedom with the purposeful evaluations to point it in the best most purposeful directions, for as value is fulfilled in experience, joyous feelings resonate outward and empower the expansion of All That Is.

This Awareness suggests that that if entities pray for a Higher Power to intervene and in turn abdicate their personal power and accept the chaotic events and meaningless patterns of experience that they themselves are creating, that such a cycle shall continue and shall be signaled with the spiritual signals of pain that indicate the energy is being filtered and diluted and obstructed from its full and complete expression in the physical form, that purpose is stymied and value is left unfulfilled, and less universal expansion has been attained.

We can continue.

What Type of Relationship Does god Want to Have With Us?

QUESTION:

His next question is: "To what extent can we have a personal relationship with God? What type of relationship does *It* want to have with us?"

COSMIC AWARENESS:

This Awareness suggests that there is a far more intimate relationship available with this energy source as entities begin to redesign the mindscape to the specifications of Spirit.

This Awareness suggests that although the guidance begins in the rudimentary form of pure pleasure and pure pain to offer the initial guidance to construct the mindscape, that as the mindscape becomes more and more detailed and successful at attaining long-term pleasure, that specific neural pathways of the brain, which now lie dormant, open, to unfolding in ever more meaningful and connected ways, so that experience is filled with the intuitive insights and direct symbolic understandings and guidance of the higher aspects of self which connect ultimately with that force known as God, and restated more accurately, as the consciousness of All That Is.

Recognize Synchronicity and Find Meaning in the Pattern

This Awareness suggests that even with simple removal of major limiting mental constructs, that entities begin to experience and recognize the synchronicity of events, the cause and effect relationship between their thoughts and feelings and the events which arise, to notice and find meaning in the patterns of experience and the coincidences that they consider to be luck of a good or bad nature, Divine Intervention or Satanic intervention, and many other such superstitious concepts that remove direct responsibility and creative power from the entity and displace it elsewhere.

This Awareness suggests that as the neural pathways unfold, such recognition of the creative empowerment of each thought becomes ever more impressed upon the mindscape and successful creation and acceleration of physical experience, of self-development and expression and value fulfillment, which resonates with the highest forms of emotion, wherein fear and anger and other forms are rarely encountered.

You Have Access to the Akashic Record

This Awareness suggests that as this process continues, that the natural development of the human brain structures and the neural pathways between brain hemispheres, that the natural intuitions and meaningful insights are acted upon in ways that develop all inner

senses, which ultimately can allow the direct and complete access to Universal Consciousness, direct information from other aspects of the self, as well as information about the species and Universal Information contained in what is often known as the Akashic Record.

External Forces Do Not Control Anyone's Lives

This Awareness suggests that the current understandings and abilities of humanity are of but a tiny fraction of what the design can become, and the abilities which now lie dormant, as entities non-purposefully, but consciously, misdirect Will Energy through their belief structures, such as those that insist external forces are controlling their destiny in any way, shape or form. We can continue.

Does God Want Us to Worship It?

QUESTION:

His last question: "Does *It* want us to worship *It*? If so, how?"

COSMIC AWARENESS:

This Awareness suggests that the concept of worship contains the erroneous assumption that human beings are lesser, are unworthy, are incapable, and are subordinate to some controlling force. This Awareness suggests that with the love of the Creator and the grace bestowed upon the creations, that human beings are afforded the grandest role and the highest honor by being given the gift of free will, and that any accurate concept of worship would be living up to the respectful challenge, to best utilize that free will along the purposeful dictates of the spiritual signals.

The Concept of Grace and Punishment, Pleasure and Pain

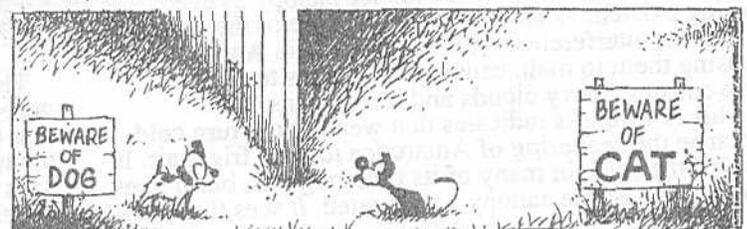

This Awareness suggests that the concept of grace and punishment, of a life of virtue and an afterlife of heaven, or a life of sin and an afterlife of hell, are both simply symbolic of the pleasure and the pain that is the voice and evaluative guidance of Spirit and of God and of All That Is.

This Awareness suggests that entities are worshipping and living within the Word of God when they design a mindscape following the urges of pleasure to accomplish a daily existence, where short-term pain is often endured through learning experiences and adaptations and necessary communications to effect changes which will accomplish long-term pleasure.

This Awareness suggests that entities who disrespect or resist the Word of God shall be satisfied with attaining short-term pleasure, but that shall endure lingering long-term pain, which ripples both throughout a given life and across space/time. This is the condition symbolic of hell, and it is indeed self-inflicted by simply misunderstanding and allowing the painful limitations to recreate the painful circumstances that seek to reflect and correct the painful limitations.

This Awareness suggests that any religious doctrine that defiles humanity and recommends the prostrate worship of some magnificent and perhaps punitive deity is simply adding further conflict and limitation to the mindscape and shall ultimately be rejected.

MUTTS By Patrick McDonnell

A POLAR SHIFT IN THE YEAR 2000?

QUESTION:

A question from Laura DeNardo, Phoenix, Arizona. She writes: "A few weeks ago on the program 'Sightings' on TV, they said in the year 2000, the planets in our solar system would all be in a straight line, with the sun and two planets on one side of us, and the others on the other side of us. It would cause a lot of strain on the earth.

As a result of this strain, there could be a polar shift. Does Awareness see this as a possibility, and if there is a polar shift, there will be great destruction on the earth's surface. What about the inner earth? will the oceans and seas flood the interior also?"

COSMIC AWARENESS:

This Awareness indicates that this is negative. This Awareness indicates in reference to the polar shift as well as in reference to the flooding of the inner earth. This Awareness indicates that *It* does not see either of these events occurring. *It* does see the alignment described, but does not see the shifting of the poles.

This Awareness indicates there has been talk of this for quite some time. The poles historically do move through gradual changes in an arc of 23 degrees. This appears to be a common and stable action, but as far as a sudden polar shift, this is not seen.

Planet Alignment and Density Change

FOLLOW-UP QUESTION:

Does the lining up of the planets in the year 2000 have anything to do with the density change?

COSMIC AWARENESS:

This Awareness indicates that this density change will have occurred prior to this. It will be that which is already in effect before that time begins. This Awareness is not certain as to what entities perceive as the density change. This Awareness sees this as the entry into the photon belt. The density as that which becomes lighter, rather than heavier, more etheric, and less material.

An Ice Canopy Around Earth?

(Noah's Ark a Spaceship?)

(What Really Caused the Deluge?)

QUESTION:

Another question from Laura. "I have just learned that the earth had an ice canopy around it at one time. There were openings for space ships to come and go. When Noah began to build the Ark, which was also a space ship, he told the people it was going to rain for 40 days and nights. Almost no one believed him because it had never rained before.

"We know it did rain for 40 days and nights. what happened to the ice canopy? (she asks) Did it melt and cause the deluge?"

COSMIC AWARENESS:

Aliens the Real Cause of the Deluge

This Awareness does not accept your premise. *It* therefore cannot answer the question. This Awareness indicates that *It* does not see the ice canopy as ever having existed. What *it* sees as the cause of the deluge was alien interference with the ice caps in Antarctica causing them to melt, causing the oceans to rise, and also causing heavy clouds and heavy rains.

This Awareness indicates that weather did turn cold because the scattering of Antarctica ice and frigid air. *It* cooled the earth in many of its other regions, but *It* does not see that an ice canopy was created. *It* sees that snow

and frigid air affected some of the earth in regions that were normally warm and free of ice and snow.

This Awareness indicates that *It* finds it difficult to respond to questions from a premise that is in itself questionable. This Awareness suggests you reconsider the source of your information as to its accuracy.

Noah's Ark a Spaceship?

FOLLOW-UP QUESTION:

Her reference to Noah's Ark as a space ship; is there anything to that?

COSMIC AWARENESS:

This Awareness does not see this as being correct either. This Awareness indicates on a symbolic level, Noah's Ark refers to a 60 degree arc of the sky, and an age; the story of Noah being that of an age. This Awareness indicates it appears to be a reference to a 60 degree arc of time, an age, as are all the other patriarchs of the Bible representative of ages past. These ages, similar to that which is likened unto the Piscean Age, the Age of Aries, and Age of Taurus.

This Awareness indicates that *It* will give more information on these ages at some time in the near future. This as being symbolically represented in the Bible as patriarchs; these stories being handed down from ancient times, long before the Hebrews. The story of Noah being that which dates back to Sumer and Ur, some thousands of years before the Hebrew Bible was written.

WHO WERE THE ANUNNAKI?

QUESTION:

Some questions from Will Berlinghof, in Calgary, Alberta, pertaining to the *Earth Chronicles* by Sitchin. I'll read his statement which contains several questions.

"In his *Earth Chronicles* series, Zechariah Sitchin talks about the Anunnaki, from the planet Nefilim, as being the originators of modern human life and civilization here on earth.

"His writings seem to suggest that only the Anunnaki were involved with mankind's evolution, but Awareness has often spoken of other extraterrestrials also being involved, notably the Sirians, Pleiadians, Vegans and Arcturians. Can Awareness please explain how these other groups work into the overall early picture of mankind's history?

"Were they part of the Anunnaki, or separate to them? Were the Orion Greys and Reptoids the Anunnaki, or were they too separate? In other words, who were the Anunnaki? One specific group, or a conglomeration of ET types?"

COSMIC AWARENESS:

This Awareness indicates that the Anunnaki, as described in the Sitchin books, were a conglomerate of several different ETs, but consisted primarily of Sirian and Draco or Reptoid entities. This Awareness indicates the Reptoids participating in genetic engineering that led to the development of the early stages of mankind, in his completion of the Neanderthal form and the work of the Sirians taking this a step further, to create the Cro Magnon, and Homo Erectus types so that the being became more likened to the present stage of human.

Various Genetic Engineering Activities Occurring

This Awareness indicates that there were various genetic engineering activities occurring on the planet at that time. This time being that which was in the last ten thousands years of Atlantis and prior to the Great Flood. This Awareness indicates that this being such that the development of the more evolved human species took place over a period of several thousand years, but that

major changes occurred in some respects very quickly, with slower effects occurring over some generations of time.

This Awareness indicates that the Orion influence developed along some later genetic experiments which helped to create the Semites in the latter years of Atlantis. This Awareness indicates that this has been described previously. It was related to experiments on Mars, wherein these entities were then transported onto Atlantis and the work continued there for some time.*

*Please refer to Revelations of Awareness #79-25 in reference to Jehovah. (The Secret of the UFOs; \$5.00 from CAC.)

This Awareness indicates, of course, these genetic experiments in almost every instant coupled the gene pool of the technicians of the particular star system or ET groups, with those of native humans, particularly those which ranged from the Neanderthal, up to Cro Magnon and the upright man, the Homo Erectus type. This Awareness indicates that technically speaking, the Neanderthal could be classed as an upright man, but was still very closely linked to earlier types the more primitive types.

Where Are the Anunnaki Today?

QUESTION:

Will asks: "Are the Anunnaki still around today, and if so, how are they involved in mankind's current affairs?"

COSMIC AWARENESS:

This Awareness indicates that this being an amalgamation or grouping of various ET types; this title of Anunnaki as that which is no longer an organization, or pact or union. It is somewhat like speaking of NATO, and speaking of NATO some 50,000 years from now is not to be construed as a group of ET types. NATO are not particularly extraterrestrial types or culture. It was an amalgamation or union or grouping of various types.

This Awareness indicates that this is the same with the Anunnaki. They were a group of ETS that joined together in the work of upgrading the human species on earth. This Awareness indicates that the Reptoid influence on earth has in recent years begun to grow, but its plans have been recently thwarted as has been described in recent readings.

Sirian Influence on Earth Is Increasing

The Sirian influence is now beginning to make itself known to earthlings and will become stronger in its influence on earth affairs. The Sirians influence as that which will be helpful in guiding the planet through the photon belt.

Atlantis and Lemuria Absent from Sitchin's Work: Why?

QUESTION:

Another question from Will. "Having read all of Sitchin's books to date, I find that nowhere does he make reference to Atlantis or Lemuria, two of this planet's important civilizations...."

COSMIC AWARENESS:

This Awareness indicates that the entity focused almost entirely on the historical references from Sumer and some of those generations or cultural generations that followed Sumer. He studied those areas and linked them to other cultural generations that followed historically. Continue.

QUESTIONER:

Will goes on: "My question is this. How do Atlantis and Lemuria fit into the overall picture? Were they separate to history as Sitchin presents it, or somehow part of it? The Anunnaki were supposed to have been

here at least 300,000 years before the advent of modern man, a period that would have taken in or at least touched the Atlantean civilization, yet no mention. Why?"

"Further more, many Atlanteans and Lemurians are supposedly reincarnating at this time. Did many of them also incarnate into the historical times and events that Sitchin describes?"

COSMIC AWARENESS:

This Awareness indicates that the entity Sitchin, being oriented in orthodox scientific tradition, has not fully accepted the reality of a civilization known as Atlantis. Most scientists conceive of Atlantis as being either a myth or some small island in the vicinity of the Mediterranean Sea.

This Awareness indicates that historically, Sitchin has not put forth great effort to research the concept of Atlantis or Lemuria. This Awareness indicates that the Lemurian influence and development of that civilization dates back approximately 150,000 years and was influenced greatly by the Sirians, entities from Sirius.

This Awareness indicates that Atlantis began approximately 50 to 70,000 years B.C., and existed down to approximately 10,000 years B.C. This Awareness indicates that the parallels of these civilizations were linked for some 50,000 years, wherein Lemuria disappeared approximately 25,000 years B.C. and wherein Atlantis had reached its height by that time.

This Awareness indicates that approximately 20,000 B.C., are where these references to Sumer can be found. Sitchin's work in studying Sumer, Ur and similar civilizations occurs in the latter days of Atlantis, but most of the references found in relation to these Middle Eastern cultures do not speak or mention much about Atlantis that is easily defined as referring to Atlantis.

This Awareness indicates there were, of course, contacts between Atlantis and other civilizations around the globe.

MANKIND'S SPIRITUAL POTENTIAL

(Why No Mention of This in Sitchin's Work?)

QUESTION:

Will's last question here: "While Sitchin presents a brilliant overview of mankind's early history and development, nowhere does he tackle the issue of man's spiritual nature. While I find it of utmost interest and worth to understand mankind's roots, I must admit to feeling slightly depressed by the perspective that mankind has always been manipulated to do the whims of the "gods."

"Was there ever a recognition by the Anunnaki or other alien types, of mankind's spiritual potential, and encouragement of the same, or is this a more recent development independent of any alien intervention?"

COSMIC AWARENESS:

This Awareness indicates that the Sirians, the Lyrians (from Lyra), the Pleiadians, and quite a number of other human-like ETS, or extraterrestrials, did have and do have their versions of spiritual understanding, recognizing a deity in the universe. The Sitchin focus was on a particular civilization that had great influence on Western civilization.

You cannot say that Sitchin's research located the origin of humanity. It simply located an origin of modern Western civilization. The Orientals would have a different origin, for example.

This Awareness indicates that the influence of the Sirians also played a part in the civilization that Sitchin researches as being the early civilization of man, but the

Sirians also had an influence in other cultures that Sitchin does not even appear to recognize. It is a matter of the entity's focus. He was focusing mostly on the Tigris /Euphrates area which is, in Western society, historically known as the cradle of civilization.

SCANDINAVIAN AND GERMAN GODS, ELVES AND MONSTERS: REAL OR MYTH (The Gods in Sitchin's Books Begin to Make Sense)

QUESTION:

Some questions along this line from Rasma Kidd. I'll read her statement. The questions are included in it, and then I'll go back and ask specific questions. She writes: "The last book you sent me: *When Time Began*, by Sitchin, I read with great interest and later read it again.

"Sitchin's explanations make more sense than what is generally accepted. Now I am thinking that perhaps all of the so-called gods are extraterrestrials and at different times from different planets

"The mythology of the Scandinavian and German ancient gods is so bloody awful: continuous warfare, bloodshed, violence. Where did these gods come from and why? They did not seem to accomplish anything else but continuous bloodshed.

"There are some references to elves who could be influenced to do something by offering a cauldron of blood; for small Greys to swim in, perhaps? The various weird and horrible monsters in these stories could be created in underground laboratories like Dulce, New Mexico.

"The description of the dwelling place of the gods appears to me now could be a space station, what with the silver walls, silver ceiling and a great seat for their chief god, the captain, perhaps, who looks out the window and sees all the land and everything.

"The group of the gods lived there. It is called Asgaard, and they commute to earth every day across a "rainbow" bridge. A large powerful being called Hjeimdal guards the bridge. The description of this being defies imagination, it is so weird. It sounds to me like someone describing something one has no idea what it is and what it does and how it does, whatever it is.

"They see the results and then rationalize that according to their own understanding. I do the same, I suppose, and I think this Hjeimdal is a robot designed to guard, observe, communicate, and when necessary, protect. The gods are said to come on horseback, except one of them who likes "to wade across the river."

"The chief god is said to have "an eight-legged horse." Maybe it wasn't even a horse, but how else could one describe it if one doesn't know what it is? Also, they have unusual weapons, throwing something like bolts of lightning, and a special glove one has to use with the weapon, which is shaped like a hammer.

"There is also a long description of a world tree. It is so fantastic and makes no sense whatsoever. Could it be a huge computer, or some huge, powerful piece of machinery in the space craft?

"There are continuous references to the generations of children fathered by the gods. They are pictured with better looks and better abilities than ordinary people. All over the world the mythologies mention the "sons of god" who start a ruling class because of their being superior to the ordinary people.

"Just how many different extraterrestrial influences do we have in mankind on earth? Where are these beings now? Who planted their genetic material in earthlings? Actually, are there any such beings as "true earthlings?"

created to be earth inhabitants for their own sake, rather than somebody's slaves?

"I would like to put these questions to Awareness, and also include a question about the Scandinavian and German gods. Who were they and what was their purpose of being on earth?" A lot of questions there.

COSMIC AWARENESS:

This Awareness indicates it appears the influence in the Scandinavian region of the earth was that which came from the Draco constellation moreso than others. This Awareness indicates that the influence into Sweden, Norway, Finland, Denmark and England being especially noted. This Awareness indicates also, to some degree, in the area known as Germany and Poland.

This Awareness indicates that these entities were a war-like people. Of course, they were much the same as modern-day Reptoids, as has been described by entities who have been abducted. This Awareness indicates the elves and such are descriptions of small Greys, similar to the modern day Zeta Reticuli. There are also the tall Greys, being those entities from Orion, the Elohim, and these entities all had their influence on mankind, and myths and stories about these entities began to take root in the culture of the Scandinavian and Northern European people.

After these entities began to leave the earth, the stories began to become exaggerated, embellished, changed and modified to that which is quite bizarre. This is a natural course of evolution, when things are no longer observable; that in the telling, the facts get distorted.

The Earth Tree is a Grid Around the Earth

This Awareness indicates that several areas of the question are distorted enough to create misunderstanding of things that are fairly simple. For example, the earth tree is a reference to the grid that surrounds the earth which was used by these entities' ships for travel and for navigational purposes. It is what might be termed a magnetic tree or grid-work.

This Awareness indicates that there were a number of other elements, but these are not seen at this time.

Descriptions Sound Like Dulce Monsters

QUESTIONER:

In the German mythology, the various weird and horrible monsters in these stories, she says, could be created in underground laboratories like Dulce. The description of the dwelling place of the gods appears to her now could be a space station, what with the silver walls, silver ceilings, and a great seat for their chief god, the captain.

COSMIC AWARENESS:

This is a good observation on her part.

What is the "Rainbow Bridge?"

QUESTIONER:

And they commute to earth every day across a rainbow bridge

COSMIC AWARENESS:

This Awareness indicates that this as a reference to light energy, which the entities use for traversing from the ship to the ground. It could equate to the blue light, as described by those who speak of being beamed up by blue lights into ships.

What Is the Eight-Legged Horse?

(How Writers Embellish Some Stories)

QUESTIONER:

And she says the gods are said to come on horseback, except one of them who likes to wade across the river, and the chief god is said to have an eight-legged horse.

COSMIC AWARENESS:

This Awareness indicates that this eight-legged horse sounds like a genetic creation. Arriving on horseback across a river may be referring to actual approach in a particular locale, and the one who wades across the river on foot could be literally doing such. This Awareness indicates that not everything is symbolic. Some could be quite literal and noteworthy enough to write down.

Whoever writes the stories of these gods and legends simply reports in a way that makes the reader tune in to the essence of and the high points of the story, the reality being described. Writers often embellish or distort to make it more interesting, or may create a feeling through poetic license and imagery so as to capture the sense or feeling of some reality that is long passed.

Writers Can Embellish Images that Confuse Readers

Writers also find that when they do not have all the facts, they can create an embellishment of images that help to convey the sense or feeling of what happened. This can confuse readers who want to take it all literally as though it were actual and factual. It especially becomes confusing to reader when the writer mixes reality with fantasy and embellishment or poetic license.

Generations of Children Fathered by the Gods

(They Could Sire Children and then Irresponsibly Split)

QUESTIONER:

Rasma asks: "There are continual reference to the generation of children fathered by the gods. They are pictured with better looks and better abilities than ordinary people. All over the world the mythologies mention the "sons of god" who start a ruling class because of their being superior to the ordinary people.

COSMIC AWARENESS:

This Awareness indicates that this may have been in relation to genetic influx into the human race, wherein the raising of the genetic quality of humans by extraterrestrials participation was seen as helping the human race to evolve more quickly.

This Awareness indicates that, of course, the extraterrestrial beings did not feel they had an obligation to hang around and raise their children. They could sire children, then split the scene and not be tracked by the Justice Department or Welfare. They could simply abandon those children to be taken care of the best they could

This Awareness indicates that their logic and rationalization is that they were doing Earth a favor in having children from their superior genes. This Awareness indicates that in retrospect, earthlings can agree, though at the time they might have felt somewhat resentful at having some angelic being come down from the sky and give them children they could not well afford.

Where the Anglo-Saxon Race Came From

This Awareness indicates that the influence of the Pleiadians and Vegans took place largely in Russia, to a lesser degree in Scandinavia, and children in those areas, born from the Vegans and Pleiadians were the seeds of what may be termed the Anglo-Saxon race of people.

Where the Oriental Race Came From

This Awareness indicates the yellow race appears to have come largely from beneath the surface of the earth, having gone there long before from that which is known as Lemuria. The Lemurian society being mostly a surface people, but moving in part, into subterranean levels. These entities, having some contact with subterranean Greys so that there was a slight genetic influence on the Lemurian race by the subterranean Greys.

This Awareness indicates that these subterranean Greys at the time were more highly evolved, more spiritually oriented than those described in present times as the Deros or underground Zeta Reticuli. This Awareness indicates that the influence on the Lemurians appears to be that which more closely ties or links with what Richard Shaver described as the Teros; the Teros being a group of humans who live underground, who have sustained a continuous war with the Deros, a war of survival against the Deros, and these are the entities who evolved along a more spiritual line.

These Teros appear to be the types that mixed with the Lemurians to create the yellow race, the Orientals.

Are There Any "True" Earthlings?

(More on the Humanitarian Sirians)

QUESTIONER:

Then her last question: "Actually, are there any such beings as "true earthlings" created to be earth inhabitants for their own sake, rather than somebody's slaves?" Would that be the Sirian influence mentioned?

COSMIC AWARENESS:

This is in the affirmative. The Sirians had a humanitarian affection for their creation. They were a spiritual and compassionate people themselves, and their interest was in helping to seed the earth with their own kind, rather than create slaves.

They also enjoy thwarting the efforts of the Reptoids in their desire to make slaves on the earth, and have the slaves mine the earth for its precious minerals and commodities.

All the Good Guys Originated From Lyra

This Awareness indicates the Sirians essentially were from Lyra, as were the Pleiadians, Lyrans, Vegans, Arcturan, and those from Andromeda. This Awareness indicates that these entities all see themselves as spiritual brothers and sisters. They are dismayed at those renegade groups such as the Orions and Reptoids, or Draconians, and those who perceive themselves as independent, seeking power over others.

Rael: Is He a Willing Agent of the Elohim?**QUESTIONS:**

There's some questions from JD in New York about ETs today, not in antiquity. She writes: "A Frenchman, Claude Vaunohan (sp), known as Rael, claims to be a willing agent of the Elohim, supposedly the ET race which created an earth race in Biblical times as described in the Old Testament.

"Is he speaking the truth about his ET contacts and experiences? (she asks) and if so, where does this scenario fit in with all the other similar ones reported by other contactees?"

COSMIC AWARENESS:

This Awareness indicates the entity has a very unrestrained imagination. The entity also has an extraordinarily high appraisal of himself. This Awareness indicates the entity imagines himself to be some near-deity in his essence, and actually has no contact whatsoever with the Biblical Elohim, other than the same as other people might have.

How the Elohim Used Space Dust to Create Planets

This Awareness indicates that the Biblical Elohim, a word which is plural, meaning "gods" were beings that helped to tamper with polarities in the universe, and which, playing with electromagnetic energies, created the structure around which space dust could be drawn to create certain artificial heavenly bodies.

This Awareness indicates in this way they were able to create heavenly bodies that were formed from space

dust around an electromagnetic skeleton or shape, and in the practice, could create an artificial planet or moon. This Awareness indicates by artificial, *It* means it was created by these efforts and activities, rather than by spewing from a star, or sun energy that cooled to become a planet, as a blob of matter floating around the sun.

This Awareness indicates that the entity, who sees himself as having some special role with the Elohim, is simply playing a role that gets attention and a sense of self-importance. This Awareness sees no substance in his claim that is greater than what any other person could make with the same degree of truth.

This Awareness indicates that in other words, you yourself could claim the connection with the Elohim, but it would not be any more truthful than that of this entity, and also, it should be noted that there *is* indeed a grain of truth in this claim, for all entities who have been created through the work of these Elohim must have some connection with them.

This Awareness wishes entities to understand, this claim by this entity is nothing unique or special. It is simply imagination run wild, to satisfy his desire for greatness. This does not mean the entity is insincere. The entity may truly believe these fantasies, these delusions of grandeur.

Does Rael Actually Have ET Contacts?

FOLLOW-UP QUESTION:

I've seen some of the literature they put out. They call it the Raelian movement. It's supposed to be all over the world. Does this entity have any actual contact at all with any ETs?

COSMIC AWARENESS:

This Awareness indicates it does appear the entity has some contact with disincarnated spirits that are fairly intelligent, who can offer a convincing argument or story, partly because the entity himself is highly intelligent in this regard. This Awareness indicates most of the message comes from the entity's own consciousness, rather than from some extraterrestrial, but it is occasionally that an extraterrestrial or disincarnated spirit will speak or influence his speech to some degree and may give information through him that seems somewhat unworldly.

Thus, there is a ring of truth that comes through some of his material in that it is enough unrelated to earthly reality as to seem to be from some other orientation, some extraterrestrial orientation. This Awareness sees this essentially as a kind of sales job or cosmic hype, full of sound and fury, with nothing but sizzle, and no substance to speak of.

Benjamin Creme's View of ET Craft

QUESTION:

Another question from JD in New York. "Benjamin Creme reports that most of the space craft experienced here today are from Mars or Venus, are only temporarily solid, or physical, but normally exist in the four levels of "etheric physical matter" which are contiguous with solid physical, liquid physical and gaseous physical, and are created by thought, in factories which are themselves created by thought.

"He adds that earth humans traveling in such craft do so, not physically, but by first leaving their physical bodies. Also, that these neighboring "space brothers" create the patterns in grain fields. Can Cosmic Awareness confirm this information?" she asks.

COSMIC AWARENESS:

This is negative.

QUESTIONER:

It can't confirm, or the answer is negative?

COSMIC AWARENESS:

It cannot confirm this.

Does Objective Reality Really Exist?

QUESTION:

Another question from JD. "Our entire world-view is based on the postulate of the existence of an objective reality which we can observe, study, manipulate, et cetera. To what degree and in what fashion, if any, does an objective reality exist?"

COSMIC AWARENESS:

This Awareness indicates to the degree that entities can recognize all things are in change, are in flux, and nothing is indeed solid, and everything is part of consciousness. If an entity can understand that, then the entity has a grasp of reality.

How to Determine if ETs Are Friendly or Hostile

(If They Are Hostile How Do You Protect Yourself?)

QUESTION:

Another question from JD. "If an apparent ET craft and/or beings were to be seen, is there some way to immediately determine whether it or they are friendly or predatory, hostile? If the latter, is there something we could do to repel or escape them?"

COSMIC AWARENESS:

This Awareness indicates there are so many scenarios involved in such a situation; that each scenario could require a different type of action or reaction on your part, to discover who and what they are. This Awareness indicates that in a crude sense, if they are holding a weapon on you, you will know that they are not friendly.

If they offer you an open hand or some kind of indication that they are not a threat to you, you will know that they are relatively friendly. At least they do not wish to frighten you. If, on the other hand, they exhibit fear of you, you may recognize that they could become dangerous out of fear, even as you may be threatening if you are afraid.

It does not mean that either you or they are hostile, just because you are both afraid, but out of fear you might do something in a hostile reaction. This Awareness indicates that you are looking for some sign and evidence that the entity is friendly.

This Awareness indicates that you will be vulnerable regardless of what happens, and your vulnerability will be part of the equation. If you are vulnerable and afraid, you may do something rash that causes the entity to react to your movement or your reaction. The entity could even become dangerous to you because of your own reaction to the entity.

This Awareness indicates *It* does not see any clear way to determine whether the extraterrestrial is friendly or unfriendly, dangerous or safe. They do not have a universal code signal that says "I am a nice guy!" or one that says "Don't tread on me, or I'll squash you!"

This Awareness indicates that it would be nice if there were arm bands or color codes or something that this Awareness could give to let you use for determining whether the entity was friendly or hostile, safe or dangerous. But this Awareness does not see anything.

It is the same kind of chance or risk that you encounter when you meet a stranger on a street. You do not know if the stranger is a nice guy or a dangerous person. You only can discover by getting close enough to the entity to give them the chance to show you whether they are nice or dangerous to you.

This Awareness does not recommend that it is necessary to approach strangers or extraterrestrials with this test in mind. You do not need to know whether a stranger or an extraterrestrial is friendly, unless you have this great need to talk to or communicate with or get to know the entity more intimately.

If you do have a great longing to be close to extraterrestrials, or if you have a great longing to meet some stranger, then of course you must take the risk of meeting someone who might turn out to be dangerous to you.

Wrap the Entity With White Light For Protection

This Awareness suggests that emotionally and psychically you can wrap the entity with White Light, doing this without any sign of what you are doing. Simply visualize White Light being wrapped around the entity or coming down as a light out of a shower-head, covering the entity and wrapping around the feet of the entity and back up the sides, and covering the entity with a light that spreads to create three layers.

Visualize this as a plastic-type substance if you wish, that turns into electromagnetic fields of light, or use the hoola-hoop circles of light and spin them, as this Awareness has described in the past. If this entity is a negative creature, it will feel uncomfortable at being wrapped in light. If the entity is more positive and spiritual in nature, it should become quite happy with the effect of the light.

It is likely it could even appreciate you on an unconscious level and maybe contact you or recognize you in some way, seeing that you are friendly and are more or less blessing it. Entities who reject the White Light when it is sent by someone are probably very uncomfortable at being influenced by some spiritual blessing, and the entity might even become frustrated or angry and want to get away from you.

This Awareness indicates that this is perhaps the best way to determine whether a stranger or an extraterrestrial is benevolent or malevolent in nature. This Awareness indicates that you may wish to wrap yourself prior to wrapping the stranger or the extraterrestrial, so that you yourself are protected also.

Did UFOs Seize Airplanes and Passengers?

QUESTION:

Another question from JD. "In the Fifties, there were a number of incidents in which airborne UFOs seized airborne planes and departed with them and their passengers, never to be seen again. Which ETs did this, why, and what was the fate of the planes and their occupants?"

I'm not sure where she got that information.

COSMIC AWARENESS:

This Awareness indicates that it appears there were some events similar to this which occurred in the Fifties. These entities would have been the Orion Greys. This Awareness indicates some of these disappearances occurred in special places such as the Bermuda Triangle. This Appears to have been a place in which there were numerous disappearances.

It appears that these areas were vortices in which entities could go through a kind of time warp or inter-dimensional portal, where they would enter into another dimension. They could return into this dimension after several days or several years of time in the other dimension and back in this dimension in a matter of hours or weeks or longer.

Travis Walters' Interdimensional Disappearance

This Awareness indicates that when entities change dimension and then come back to this dimension, they can re-enter into almost any time period they choose, thus, they may come back prior to their leaving or around the same time they left, or shortly after they left, as in the case of the entity Travis Walters, who disappeared in the hills of New Mexico, and was gone long enough that entities believed he was murdered.

Efforts began to find evidence to convict his friends of murder, but before this occurred, Travis Walters reappeared with an unusual story of having been abducted by the UFOs he had contacted while in the hills. This Awareness indicates there are other stories of entities who have been gone for many years who return and do not know why so many years have passed. They may still remain youthful in appearance while their friends have aged considerably.

This Awareness indicates this is from entering into another dimension for some time and then coming back to a particular earlier time in their previous dimension.

Spielberg's Movie "Close Encounters"

(How Much Was His Creative Imagination?)

QUESTIONER:

I believe in the movie *Close Encounters Of A Third Kind*, Steven Spielberg had similar incidents occur. Where did he get the idea for that? I believe there were military airplanes that disappeared years before, and out steps the pilots just as young as they were at the time of their disappearance.

COSMIC AWARENESS:

This Awareness indicates the entities researched many stories, many concepts, many theories and some of these being presentations of allegedly true incidents such as described in the Bermuda Triangle legends and some being stories of time warps and so forth, and the entity has a good imagination, to the point of being able to bring one part or one concept together with another theory and come up with ideas that make a good story.

Creativity comes about in many different ways. The entity is quite creative in taking something from one place and putting it into another; from one time, putting it into another time; or from one story, and mixing it in with another story.

This Awareness indicates there are many different ways to be creative and his stories did not need to be based on fact. They only needed to be entertaining, and the entity was creative enough to find entertaining concepts and ideas, and present them in a way that made people feel like it could be true, considering the fact that the movie was fiction, it *could* fit into the premise of the movie.

This Awareness indicates that in creating a movie, you do not have to make it fit into the premise of world reality. It only has to fit in the premise of the movie's story. In his story, when this occurred, the audience was not yet oriented to the premise or reality on which the movie was based, and was simply open, curious, watching, waiting to see what happens.

Once the premise is set in a movie, the following actions need to fit within the rules of that premise, but in the movie, this premise was created at the beginning and helped to create the rules for the premise of the movie.

The Fantasy Story of Hansel and Gretel

This Awareness indicates in the story of Hansel and Gretel, the witch who was planning to eat the children is understood. There is no reason to say, "This is not true! Witches do not eat children! This is highly questionable!" There is no one around to be skeptical, because

skeptics are not allowed in the story. Skeptics just don't exist in that story.

The story is that Hansel and Gretel went out in the woods and came across the home of the witch. The witch invited them in, and planned to eat them, and they, in their desire to escape ended up pushing the witch into the oven and escaping from the doom that had been planned for them.

A logical person could say "How did this happen? That these little children ended up killing this person just because they thought she was a witch, or thought she was going to eat them? These children should be taken before a grand jury and investigated to see if it was murder, or if it was simply manslaughter or if it was just an accident or misunderstanding on their part."

This Awareness indicates this is mixing world reality with fantasy story. The fantasy story had its own reality, and its own reality does not spill over into world reality, nor do people in the world expect their reality to spill over into the fantasy story. This Awareness indicates that it is much the same with the Spielberg movie. You don't have to apply world reality to the Spielberg story in order to make it real within its own premise.

As long as it stays within its own reality, it is acceptable to the public, but if you try to mix realities, mixing world reality with the Spielberg story, which is fantasy, you are going to have problems.

Why So Many Contradictory Predictions From ETs and Various Channels?

QUESTION:

One last question, this one also from JD. "Why are we receiving such contradictory predictions from ETs and channels: peace versus war; calm versus earth cataclysms; Antichrist horrors versus a golden age of peace and brotherhood, et cetera? Even regarding our history, the ET visitors offer us different accounts."

COSMIC AWARENESS:

This Awareness indicates the world is filled with misinformation. If there was a true prophet somewhere who would explain what is coming in the future, and do so in a perfect way that is perfectly accurate, there would be someone out there taking this entity's words, twisting them and attributing their version to him or to her, to make sure that whatever the entity is assumed to have said is distorted enough that many people will not believe in the entity after the information has been given, or likewise, they will present counter-information that they want to hear, as opposed to the information that this entity has given.

This Awareness indicates that also, if information is being given by entities, the onlooker may say, "Hey! Cool! That's really neat! I'll bet I could do that," and this entity then may begin to spout information in a similar way, hoping something he or she says might also be correct, as it was with the other entity.

This Awareness indicates that it is not to be wondered at that entities spout predictions that don't occur, or that are in conflict with other predictions. It is to be wondered at that entities find this unusual or strange, that entities expect these prognosticators to all be in agreement and to be right, each and all.

Why Predictions Made Often Don't Occur

This Awareness indicates it is no easy matter predicting the future, because the future is not fixed; it does not confine itself to the word of some prophet. This Awareness indicates there are those entities who are considered great prophets of old, and there are masses of people who think that Biblical prophecy is coming true,

but this Awareness asks you: Are you sure? Where has the Biblical prophecies actually and literally come true?

Sure, you can find things symbolically that match. You can see that the Social Security number is similar to what was spoken of in ancient times as the number of the Beast. This Awareness indicates you can see these things as similar, but they are not precise. They are not certain to be the same thing. You can see that wherein the Biblical prophecy says "The Beast shall rise from the sea," you can say "Oh, that means the political arena. The sea is the sea of political activities." maybe so, maybe not.

This Awareness indicates that someone gains power in the political field and you can say, "He must be the Beast! He rose from the political field and now has great power!" This Awareness indicates had the prediction not ever been made in the first place, there would be people rising from political fields and gaining power. That is not unusual. If the entity writing the prediction wants to be right, all he would have to say is that there will be people rising from the political field and gaining great power.

But it is so boring to say that, because everyone knows it anyway. So the writer says, "An entity will rise from the sea, and gain great power and have influence over all the nations!" and people will say, "Wow! Really! Who is this gonna be?"

This Awareness indicates that if you look at it in this way you can ask yourself: "Are these Biblical predictions really coming true? Or are they just saying things in a way that we think applies to things that are true? Are they saying things in such a way that make us wonder whether that might be what the writer meant?"

Anyone Can Make Predictions That Happen

This Awareness indicates that most entities make the ability to do some prognostication to some degree. They see the clouds forming and the weather feels different. They can say, "It's going to be colder tomorrow, and it may snow," and they may be right. If the clouds form, it grows colder and snow falls, they can say, "I was right!" and everyone says, "You're a great prophet!"

This Awareness indicates this is something almost everyone can do. There are some things that require more input, more information. Thus, an entity checks out all the stock market trends, the economic trends, the various business contracts that are being created, the interest rates, the political pressures, and sees that tension is rising in certain areas which will require some kind of military reaction, which will require businesses make more arms, which will require more productivity from industry, which will require more work force and more activity among small businesses that lead to the industrial complex in its effort to make more production.

And the entity can say, "Industry will thrive! The economics will thrive! There may be danger on the horizon and threat of War!" and the entity is seen as a great prophet if these things come about.

If the entity leaves out one aspect of the equation, he may be dead wrong. For example, he may not yet know that the president is prepared to fire a diplomat and replace him with another diplomat, and in so doing, create a negotiating team that helps offset the threat or danger of conflict so that none of these industrial activities preparing for war need to occur, and thus, the economy does not thrive from that particular situation and the threat of war does not develop, and the entity who made the prediction, even after all of his efforts and all of his analysis could not very well claim to be a great

prophet because he forgot to or failed to know about the new replacement of the diplomatic staff.

This Awareness indicates that few people would take the Biblical prophecies so seriously if they knew from the beginning that it really was meant for that particular generation in which it was given. The entity said, "This generation will not pass away before these things come about." But entities now, because it is 6,000 generations later, entities now ignore that part, and look at it as if it is referring to this particular generation of the here and now, and they see that there are things that can be, with a little imagination, hooked up with the Biblical prophecy to make it appear to be talking about the here and now.

This Awareness indicates if you look at it carefully, take it literally, instead of symbolically or metaphorically, you will see that it says "This generation," in which the book is being written: "This generation will not pass away until these things have come about." Does this make the entity a bad prophet? Or did something fitting those prophecies happen in that generation, and if so, why do we apply it to the present generation, 6,000 generations later?

This Awareness indicates that prophecy is essentially guesswork based on probabilities and trends that are potentially likely to occur. The question is: How can any two prophets be expected to reach the same conclusions about anything regarding the future?

Books and Channelings That Parallel Awareness Information

This Awareness indicates it is a wonder that entities could expect prophets to agree with each other. It is a wonder that entities could expect channels to come up with the same information. This Awareness finds it almost uncanny that information *It* gives is often recognized through the channeling of other sources, who come up with the same or similar information.

This Awareness indicates that the book *You Are Becoming A Galactic Human* is filled with parallels to information this Awareness has given. It also is filled with some areas that can be seen as discrepancies. This Awareness indicates that *It* anticipates questions regarding these discrepancies and *It* recognizes that most entities think the parallels can be taken for granted; that both the author's channeling and the channeling through this Interpreter should be the same, or should match.

This Awareness indicates the channeling through this Interpreter has been focused more along other lines than the photon belt and the events that may relate to humanity. That entity has spent 30 or 40 years, or several decades anyway, focused on this topic of his book and has had much time to reflect, work and research, while this Interpreter has focused on other things, and it is amazing that the information between the two channelings coincide in some of the major areas, but this Awareness recognizes that this will not be seen or appreciated so much by readers, who will be focused on "Hey! Awareness says this! and this man says that! They don't agree!"

This Awareness indicates that *It* notices that some of the things the entity says are not quite the same as what this Awareness anticipates or sees in this regard, but both are of value, and where there is discrepancy, what is wrong with allowing discrepancy? Why does everyone have to be in absolute agreement with each other?

This Awareness indicated before, that at least 15% error should be expected in these messages, based on language and implications and unclarity in reading the messages of this Awareness. This Awareness indicates

that the entity in the book speaks of a Galactic Federation. This Awareness has referred to the Galactic Federation, but this entity also speaks of the spiritual hierarchy and this Awareness notices that when he speaks of the spiritual hierarchy, he is speaking of it in a way that is somewhat different than what most entities think of when they speak of the spiritual hierarchy.

Nidle's Spiritual Hierarchy Not The Same as Besant's

Most entities think of the spiritual hierarchy in the manner that is presented by Annie Besant or by Clare Prophet or others like herself, and this Awareness has previously indicated that these entities of the so-called spiritual hierarchy have done nothing of significance for humanity, and this Awareness indicates that this entity speaks of the spiritual hierarchy as working with the Galactic Confederation, and this Awareness sees that when he speaks of the spiritual hierarchy, he also refers to Christ, and refers to spiritual beings or angels, and guardians that are taking care of the earth; and he sees this as a different kind of definition than that which was given by Annie Besant or Clare Prophet, and this Awareness indicates that this kind of spiritual hierarchy which this entity speaks of, appears to be a reasonable definition and *It* can see why the entity refers to it as the "spiritual hierarchy."

Partly the entity wants to recognize all of the spiritual groups; wants to recognize the Galactic Command and wants to recognize people on earth who have faith in these different groups so that they do not feel left out when he writes his book. And this Awareness understands this. It is not a debate as to whether a spiritual hierarchy exists under this particular definition.

This Awareness questions whether the spiritual hierarchy as described by Annie Besant and those who followed her has any real substance or has done anything of any substance for humanity. This Awareness indicates in other words, there are things in his book that appear to be in disharmony with things that this Awareness has spoken of, but which may not actually be that far apart, and which may only be a matter of semantics, word meanings, rather than disagreements about facts.

This Awareness indicates that there are quite likely some areas where there will be disagreements about facts in regard to this book and messages given by this Awareness. This Awareness suggests that you not get too concerned over an argument about, "How right is Awareness?" "How right is this person?" "Which one is right and which one is wrong?" and "Why can't they all be right so I can have the absolute truth and therefore be superior as a being since I would have absolute truth?"

Entities are really concerned about ego things, of being right and being perfect, by getting the right information, and not having something that is unreliable. This Awareness indicates that there is much that is unreliable, wherein you may even misunderstand the meaning of a word to the point where you think you got a wrong message, but maybe you just didn't understand the meaning.

Paul Shockley "Far From Being a Perfect Channel"

This Awareness indicates that *It* does not claim that everything that comes through this channel is right. This channel is far from being a perfect channel. This channel sometimes doesn't even know what word this Awareness is trying to feed it, and therefore, it will try to get a feeling for the word and may come up with a word that is totally wrong in its meaning from what this Awareness intended.

Also, this channel sometimes does not get the proper meaning of a concept, and may not present it perfectly. This Awareness indicates as an example of error in

channeling: Some time ago a question was asked about pedophiles. The Interpreter did not know the meaning of the word "pedophile" and thought it had something to do with foot fetishes, and therefore interpreted differently.

This Awareness indicates that this is a simple example of misinterpretation, and it can be of great hazard in the effort to get information from this Awareness through to the reader, if the Interpreter does not have full understanding of all words and does not have sufficient background to deal with all concepts.

This Awareness indicates that it is very likely that the writer of the book may have some areas of imperfection in his research and view and channeling activities. Therefore, you can't expect that channel and this channel to be in perfect synchronicity. This Awareness indicates *It* has talked enough about this, and assumes the question has been answered.

(Thank you. The Law of Gratitude is given)

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

VISIT THE TEMPLE OF LIGHT IN YOUR DAILY MEDITATIONS

Deposit your energy in this cosmic Bank. Withdraw it when needed for healing or personal use. Keep in touch with CAC when you start getting results!

VISIT THE NEW C.A.C. HOME PAGE AND DOMAIN ON THE INTERNET

Much is happening here and new changes are an ongoing thing. We have combined our 2 sites with Dave Alexander's newest C.A.C. Home Page link. Just type in <http://www.CosmicAwareness.org> or <http://www.CosmicAwareness.com>

This site contains current information which is changed often. On this page you can click on our regular staff Home Site as well as a list of current books and resources, various topics in back-issues of the newsletter and Dave Alexander's terrific revitalized Cosmic Awareness site! Dave's site has a wealth of information on the Awareness Movement, the philosophy, the newsletters, readings on Christianity and many other subjects, plus the famous Dr. Beter transcriptions.

WHAT REALLY HAPPENED DURING THE "MYSTERY RITES IN EGYPT?"

(Why Kept So Secret: Was There an Alien Connection?)

QUESTION:

A question from Chris Largent, Wilmington, Delaware. He asks: "What really happened during the 'mystery rites' in Egypt and Greece, such as the Eleusinian? Why were they kept so secret? Does it have to do with the aliens? The Demeter myth, after all, looks like a tale about the Space Gods."

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. These rites were those which were given by aliens to the priestcraft in order to preserve a certain order and control over the masses during the following years after the alien presence on earth. This Awareness indicates that the alien contact with humans and their alignment or relationship with humans was such that they left a priestcraft, an order of priests to help guide and mold the direction of humanity, and the priestcraft was given certain information and role-playing in the hierarchy system of control that was used to keep the masses in a kind of order so that upon the return by the aliens, the humans would have evolved according to their particular programming.

This Awareness indicates that this was that which came down from the time of Sumer and carried through into subsequent civilizations and cultures. The Templars being the more recent versions of these priests, the Freemasons being a spin-off of the Templars but without full understanding of the role of the Templars. The Templars being more or less destroyed prior to the creation of the Freemason organizations.

This Awareness indicates that information on this is available in scattered parts and fragments in various works, in writings of old and also in the Bramley book *Gods Of Eden* and also from some of the recent writings related to the Holy Family, such as *Holy Blood, Holy Grail*, and books following that particular theme, which traces the movement of the Holy Family from Israel to England and into the Americas.

Also, the Sitchin books; *The 12th Planet* carries some fragments of this information. This Awareness indicates that likewise, certain books relating to the Templars and to the Eleusinian mysteries and books on Mithra may have information that relates to this question.

Any Truth to the "Holy Grail" Story?

FOLLOW-UP QUESTION:

Is the Holy Grail legend only a myth, or does it actually exist, and if so, does it have guardians of some sort as the legend depicts, even to this day in things like Spielberg's Indiana Jones series?

COSMIC AWARENESS:

This Awareness indicates the Holy Grail is essentially a symbolic metaphorical story referring to the family in which the entity who depicted the Christ, the family carrying the blood of that Holy Family, is the Holy Grail, and the concept of the cup as a substitute for the genetics of the family.

This Awareness indicates essentially, the entities Joseph, Mary and the children and the entity representing Jesus of Nazareth, or the entity Jesus of Nazareth depicted in the Biblical story as being considered a Holy Family and the carrying the blood of that family is symbolized in the story of the Holy Grail as a cup from the Last Supper, but it is also a metaphor of the genetic family, which many sought to destroy and the family

moved from Israel through Spain, France and into England, to escape that destruction, because the church wanted the scenario of the New Testament version to be seen as the truth and the end of the entity Jesus, and wanted the entire story of the myth to be recognized as the reality.

In fact, the entities of the Holy Family were a kind of threat to the myth that was being perpetrated by the Roman Church. These mostly as descendants of the Holy Family. This Awareness indicates that much of this is available in the book *Holy Blood, Holy Grail*, and other related materials and books.

FOLLOW-UP QUESTION:

What percentage of that book *Holy Blood, Holy Grail* would Awareness say is valid?

COSMIC AWARENESS:

This Awareness indicates that the basic theme that the family, the offspring and the descendants, especially of the family of Jesus and Mary Magdalene, as that which moved through Spain, France and into England. This thread of information or tracing of the family is that which carries truth. Much of the details of the writing is kind of fill-in material.

This Awareness indicates it is also truth in regard to the relationship of that family and the dragon, or what would be termed later as the Pendragon Society; that these were connected in that time. The church did not want this family to ever be recognized. The Templars helped to preserve and protect the family until the Templars themselves were destroyed by the church.

This Awareness indicates there is approximately 75% of the book that is based on truth and 25% or perhaps slightly more that is based on speculation, some of which is correct; therefore, probably, 75 to 80 percent of the information is correct.

Was Jesus Homosexual?

FOLLOW-UP QUESTION:

There was another book that came out about that period, the name of it escapes me, but basically their major claim was that their research led them to believe that the Essenes were basically a bunch of homosexual men and that the person who did the role of Jesus was also a homosexual. Is there any truth to that?

COSMIC AWARENESS:

This is seen as negative. This Awareness indicates the Essene community was one in which men, women and children worked together. It was a highly evolved spiritual community where there was much co-creative effort between the entities. This appears to be an attempt to slander that community or to attribute qualities to the community that are simply not valid.

The Naga Race in India Who Preserved Texts

(Were These the Enki Serpent Types?)

QUESTION:

Another question from Chris Largent. He writes: "In India, the saving of some of the sacred texts is attributed to the Naga race, underground. Were these the Enki serpent-types who, after breaking with the Reptoids were trying to help humanity, or was something else going on?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be correct. It also relates to the preservation of information and the promotion and maintenance of the priestcraft and relates to the preservation of religious symbols and icons from ancient past, and the secret schools. The Esseneian, Mithraian and Eleusinian mysteries also relate to these entities and to the material that these

helped preserve, as also did some of the writings from Tibet.

The Templars also were the recipients of much of this sacred or secret information that was handed down from these entities which the Indians referred to as Nagas.

What Are The Roots of the Tarot Symbols?

QUESTION:

Another question from Chris Largent. He asks: "Can the Tarot be a tool for self-examination? With the sudden interest in all kinds of card decks, it seems so. What are the roots of the Tarot symbols?"

COSMIC AWARENESS:

This Awareness indicates these symbols go back at least to the Egyptian alphabet. The Egyptian alphabet having only 16 letters, but these 16 letters were the earlier version of the Hebrew Tarot. The Hebrew Tarot extending to 22 letters. Each letter being a philosophical concept symbolized by a character or shape, and these philosophical concepts also serving as symbols for various and differing ideas which, when arbitrarily put together, could form a sentence of ideas or concepts, showing a progression from one idea or concept to another.

This Awareness indicates depending on how one selected these letters, or characters, one could apply it to a personality for whom they were to represent, or one could apply it to events for which they were divining or seeking information. This Awareness indicates in the earlier versions of Tarot readings, using these alphabets and symbols, one could, for example, take the name of a person, and the cards that related to the letters, making up the name, and from these letters divine the qualities of the individual.

Numerology Grew Out of the Early Hebrew Tarot

This became a kind of rudimentary form of numerology, and numerology grew out of this early Tarot divination, whereby you analyze the person by the letters of the name at a time when these letters symbolized an alphabetical philosophical complexity. Thus, the Aleph of the Hebrew Tarot or the Beth of the Hebrew concept, A and B found in a name, would carry the implication of those concepts shown in those Tarot cards as aspects of the individual whose names contained A and B or Aleph and Beth.

Thus, numerology, when applied from this, would simply make use of the letters of one's name and supposedly reflect the characteristics of the individual according to the philosophical means of the letters involved. This Awareness indicates, of course, much of this has changed since or deteriorated some ways to accompany later Greek forms of numerology which were not based as clearly on the Tarot meanings of letters.

FOLLOW-UP QUESTION:

In regard to self-examination by Tarot, Sam says you can't; the Tarot will not answer questions for the person who is reading them. It has to be read by someone else. Is that correct?

COSMIC AWARENESS:

This Awareness indicates it is very common in any kind of divination or psychic process that one who is attempting to read something for oneself is likely to distort and make errors in the reading because it is very difficult to be subjective in your motive and purpose while still being objective in your interpretation or what is presented.

It is a problem between the two ways of observing: objectively, and subjectively, for they do not both go together well. It is better to have someone else who can

read the energies according to their own objectivity than to subjectively want a certain outcome and try to read the energies objectively yourself.

How Come 50 Different Tarot Decks Today?

(Which Deck Should a Serious Reader Use?)

QUESTION:

For many years, the Rider-Waite Tarot deck was the one most prevalently used as far as I could determine, but nowadays, if you go into a New Age type bookstore, there must be anywhere up to 50 or more new kinds of Tarot cards. Does Awareness see any of these newer ones being as strong in their divination properties as the Rider-Waite deck?

COSMIC AWARENESS:

This Awareness indicates the work by Paul Case as that which is the more accurate in the sense that it goes back into the original Hebrew alphabet and meanings in a more clear and metaphorical and symbolic representation. That if one is to enter into studying the Tarot, it would be best to start with the works of Paul Case, and then one could go into the New Age decks of the various types with that basic understanding and apply that understanding to the new decks and get even further insight into the Tarot, as it relates to modern concepts.

It would then enhance or embellish the Tarot of the Hebrew alphabet as presented by Paul Case. If one goes strictly into the new without that deeper understanding, entities are simply parroting whatever the developer of the new Tarot presents to the practitioner, and those symbols may not be accurate in the deepest symbolic and allegorical and metaphorical sense.

This Awareness indicates that it is important for entities to realize the Paul Case Tarot book and deck is based on the Hebrew alphabet, wherein the alphabet carries symbolic information, philosophical symbols, so that words can be deciphered in their deeper meaning in accordance with this Tarot. It is not simply a card that means some abstract concept or word. It is a full philosophical concept, having levels of depth and greater broadness in meaning, so that it can be interpreted from many different levels according to the particular application necessary.

For example, a letter may have a secondary meaning of hook or nail, and that hook or nail may not apply to all circumstances for which the reading is given, but it may have some special significance when given in regard to a particular pursuit or question, and if you know that the letter means hook or nail, as a secondary meaning, then it becomes extremely important and helpful in the proper interpretation of the question being asked.

This Awareness indicates that by understanding this in regard to a particular card, when you have the New Age deck or new Arthur deck or one of the other decks, the Crowley deck or something else, and you come across that particular version of the card, you also recall the Paul Case deck based on the Hebrew alphabet and its various meanings, even while you are interpreting that new card which may not list the hook or nail for, example, as a secondary meaning.

Then, in your interpretation, with that realization that this card is to the X-deck; the Crowley deck, or the New Age deck or the Arthur deck, or whatever; the same as the other card was in the Case deck. You have more to work with in interpreting the purpose or meaning of that particular card you are using, for you can interpret it not only from the new version, but also from the original version of the Hebrew alphabet too.

This Awareness indicates the Waite deck as that which is very close to the Paul Case deck and many entities use the Waite deck because it, for some reason, gained more popularity. It is not quite as precise in the interpretations as the Paul Case deck, nor is it quite as authentically representative of the original Hebrew alphabet.

FOLLOW-UP QUESTION:

It was my understanding that the archetypal symbols used in the Waite deck are based on the Case information, that these symbols had been in consciousness much longer than a lot of the symbols used in the newer decks, and therefore, you could extract more information. Is there any truth to that?

COSMIC AWARENESS:

This is in the affirmative in reference to psychic interpreting for a reading. That the longer something has been used in a psychic sense, the more psychic power it holds, so that an Interpreter has not only the benefits of the written material, but also the benefits of the psychic energy that accompanies the symbol from time immemorial.

Padre Pio's "Battles" With Demons

QUESTION:

Another question from Chris Largent. "Padre Pio's "battles" with demons have always made me wonder. He sometimes emerged bruised or bleeding. What's going on here? Also, he felt stabbed or attacked sometimes, though there were no physical marks."

COSMIC AWARENESS:

This Awareness indicates this appears to be a battle on the psychic level or what may be termed the inner plane. It does not appear that this was an actual physical external conflict.

The Significance of the Holocaust Museum

(Pres. Tudjman Says 900,000 Not 6 million Actually Died)

QUESTION:

In today's paper there's an article about the holocaust museum which is being opened in Washington DC., which is controversial in the first place, and I'll read a little bit of this. It says: "As world leaders gathered for the opening of a holocaust memorial museum here, holocaust survivors and historians yesterday condemned an invitation to Croatian President Franjo Tudjman, who has said that fewer than a million Jews died in the holocaust and has called Israelis "Judeo-Nazis" for their treatment of Palestinians.

"Trudjman, in the 1988 book, *Wasteland; Historical Truth*, estimated that 900,00 Jews, instead of 6 million, died in the holocaust, according to Serbian, French and English translations cited by Nobel laureate Elie Wiesel and Nazi hunter Simon Wiesenthal.

Trudjman's book also says Jews were among those who ran a Croatian concentration camp. He says he's not anti-Semitic and that some of the information was mistranslated."

But that's the first time I've heard that figure of 900 thousand Jews instead of the 6 million which came down from the original 10 or 12 million they originally put out. Does Awareness see any truth to that?

COSMIC AWARENESS:

This Awareness indicates it appears there were more than the smaller number and less than the 6 million claimed. This Awareness indicates, however, it is not the numbers which are of significance. The significance is that so many were slaughtered in such a manner; that any attempt to prevent such reoccurrence is absolutely necessary.

This Awareness indicates that there were others besides Jews who should also have their memorial, who should also be remembered and mentioned, but even more important, a part of these memorials should be dedicated to a warning of the steps and dangers that led to the holocaust.

This Awareness indicates that by pointing out the steps and dangers leading to the holocaust entities can have the insight from history to prepare themselves when they see those same steps being taken in their time, in their country, in their culture, so as to ward off continuation that might lead to that same kind of blood-bath under whatever kind of regime or government.

It Could All Happen Again..Unless

This Awareness indicates in other words, it could happen again unless entities learn what can be done to prevent it, for if you do not see it coming, it may be too late when you discover it here.

This Awareness indicates that these things were set up to occur in such a way that without full understanding those people in those situations were not aware of what was going to occur until it was too late. The entities being told to take a number, being told to report to certain places, being told to board trains without being told where they were being taken or without being told everything about their journey, being told to enter that gateway, being told to dispose of their clothing; all of these things that occur one step at a time without knowing the nature of the full journey gave no complete information as to what they were being led to.

It is likened unto leading the lambs to slaughter in a way that the lambs did not know until the slaughter had come upon them. This Awareness indicates that if the public is aware of these procedures prior to their implementation, then such a holocaust may not be repeatable. But if they simply look at a holocaust and say: "Oh, those poor people!" there is really nothing there to prevent a reoccurrence of the same thing happening to them, the viewers, the sympathizers of the earlier holocaust.

What is the Appeal of Nazi Recruits Today?

FOLLOW-UP QUESTION:

What is the appeal for Nazi recruits in the United States today? Power, or what?

COSMIC AWARENESS:

This Awareness indicates it is both power and it is a way whereby they can vent their frustration at their own ineptness. Many times they feel inept because they cannot get a job, cannot succeed easily. They feel they have done something to imply a competence which they are not being credited with, or they feel they are not given a chance to show their worth, and they look around to find a reason, a scapegoat, an excuse, and they say: "The Jews are keeping you from having your good job!" or they say: "The blacks are keeping you from having your job!" or "The immigrants, the Latinos keep you from getting a good job!"

All of these arguments about other races, other individuals interfering in your life give you an excuse and a sense of outrage where you can vent your anger that you have not been successful, or are not being given the opportunities and then, of course, your anger can be cultivated into hatred and into action.

What good is hatred and anger if you cannot act on it? And so, these entities then begin to mold their recruits into purposeful, meaningful directions that allow them to act on their convictions, which are based on hostilities, and they throw up these ideals: "You are preserving

the white race, you are preserving the values." This Awareness indicates it is the same mythology for any race to create its soldiers, its bigotry and its racial dominance efforts.

This Awareness indicates it is seen also in the black community wherein these entities are taught that they are not being given just even breaks because the white control society and they have no jobs or occupations or opportunities because they are in a white controlled society, and they are also informed that they are superior and are capable of doing much more than they are allowed to do, and their anger and frustration swells and is cultivated and is encouraged, and they are trained in some cases to become soldiers for their race.

This Awareness indicates that it is not any different except that they are representing a different race and perhaps the Nazis, having had more time to perfect their methodologies, are more skilled at training these entities that are some of the other races, in their efforts. There are always some in every race that would attempt to promote their race or their creed or their religion or their culture by these means so that they can extend their power over others and make claim to greater wealth through violence, through domination of the opposed race or culture or creed or religion or group.

Religious Vandalism in Bosnia?

QUESTION:

A question from Eileen Violet Walker, in Tehachapi, California. She writes: "Dear Vicki I'm reading, as the Awareness suggested, the three Cathar books. Excellent. Suddenly there is Bosnia, with the tombs of the Bagamils, Bosnia and Herzegovina having been the center of heresy at one time, I flashed to the *Spotlight* articles after the Gulf War about the destruction by Israelis of two of the most ancient Christian churches, one in Hussein's tiny home town.

"My question: Is the permitted bombardment of Bosnia a cover for the same kind of "religious vandalism" on a massive scale?"

COSMIC AWARENESS:

This Awareness indicates that this may be so. It is not necessarily clear that this is a planned or inspired effort for this purpose, but the results may be the same. This Awareness indicates that essentially that war is a religious war, and therefore, your assessment is quite probably with merit and value. This Awareness indicates that there is no doubt but that many would want to see this destruction.

When Speaking in Tongues—Who is Speaking?

A question from Eva Bronson, Toronto, Ontario. Awareness has covered this, but there's a new angle to it. She writes: "I have a question for Awareness. What causes the so-called born-again Christians to speak in tongues? They call them prayer language." And she wants to know: "Who speaks through them? Are they really angel languages as claimed? And I would really like to know also about the translators who claim to understand these languages. Some of them sound like lowly idiots!"

COSMIC AWARENESS:

This Awareness indicates that on some occasions, these entities who speak in tongues are simply speaking gibberish or meaningless noises. In other occasions, some are speaking a foreign language. There have been some in the past especially who claim to speak in tongues, who are simply speaking Spanish.

This Awareness indicates that often the translators are part of the entertainment squad who simply pretend to

be able to translate. It does not appear that there are any real angelic language messages in any but a rare few of these situations and that most people who get involved in speaking in tongues do so only because it makes them appear more spiritual among their peers.

This Awareness indicates that they want to look spiritual among their peers, and therefore, try to speak in some unintelligible voice with unintelligible words, which gives them the approval of their peers. This Awareness indicates that this does not mean that such a phenomenon as true speaking in tongues cannot occur. It rather means that it seldom occurs. There are certain angelic tongues and occasionally entities will slip into a kind of delta or theta consciousness level which allows them to be taken over by some spiritual being or perhaps by a disincarnate spirit which speaks through them.

This is not necessarily a high level spirit, but occasionally, it is a high level spirit which one could call angelic, but which may not necessarily be quite angelic enough to classify as a true angel. It is largely a matter of the power of suggestion at work.

Any entity who hears others going through some kind of non-understandable verbalizations and hears this enough will gradually get to the point where he or she can do a kind of imitation or mimicking, and it may be hard for anyone to tell the difference since they cannot understand the language anyway, and therefore, others hear this entity, do not know what the gibberish means and thinks the entity is also speaking in tongues, and those entities who claim to be able to interpret the message have their credibility on line as special interpreters of angelic tongues and when they describe that this entity was giving its message and that the message gave blessings to the church and its followers, who is going to argue? Even the one speaking in tongues does not know what he or she said!

They are not likely to argue with the interpreter of the language, and if the interpreter gets no argument as to his or her interpretation, he can safely assume it must have been correct, even if he did not really understand what was being said. He or she can assume that they have some special gift that they are not even aware of themselves, and that their hunch that this was a blessing for the church and its parishioners must have been correct, must have been a proper translation.

Thus, all the entities involved from the speaker of tongues to the Interpreter of the message can in good conscience justify their involvement, and no one suspects they are simply feeding off each other and nothing but a show has transpired, and that it is further fostering a kind of illusion.

And the following week, some entity in the church sits there wondering if he or she is truly spiritual enough, and if so, why is it that he or she has never had the experience of speaking in tongues, and the entity dwells on this, feels somewhat guilty and concerned, and when the opportunity for the speaking in tongues comes about, the entity having fretted over this concern for some time may simply blurt out a few lines, then shut up, testing the waters, to see what kind of reaction, whether hostile or supportive comes to him.

If he is totally ignored or if he is encouraged to further speak in tongues, he may blurt out further nonsensical syllables until recognition is seen to encourage or to discourage. If he were to be discouraged he would probably stop. If he is encouraged he will probably continue this until he is spouting nonsensical syllables in repetitive breaths, each assumed to be a sentence in some angelic tongue, which even the speaker does not

understand, and the interpreters of the language may throw out words of encouragement and words to represent what the entity has said.

This Awareness indicates, of course, on some occasions, spirits will speak through entities in foreign languages. Most of it, however, is nothing more than show and the desire to fit in with the expectations of one's peers in order to appear as religious as others in the group.

PETS AND THEIR MASTERS: IS THERE A KARMIC CONNECTION?

QUESTION:

Periodically, we like to publish information for our pet lovers out there who are always writing to Vikki, and even though Awareness has covered most of these questions, it seems like there's always more that people want. This question is from Cathy Walters, in Canton, Ohio, who asks: "Are we drawn to certain animals who become our pets from a karmic connection or debt? It seems relationships between pets and pet-owners vary so widely, there is more than just here and now reasons for them."

COSMIC AWARENESS:

This Awareness indicates that it is quite common for a pet to be drawn to an entity who has in some previous experience been linked. This Awareness indicates that most animals, and particularly those that are associated with the domesticated animals, are carriers of certain aspects and feelings of departed humans.

An entity dies, the emotions go into plants, the feelings go into animals, and the mind of the entity, the thoughts go into thought-forms which are often recognized as spirits or earthbound entities and the soul goes on to the White Light.

When the entity returns to physical reincarnation, it is as though a vibration sounds and all these parts from the plant, from the animal, from the thought-forms comes rushing back to the entity as he or she is reincarnated. This Awareness indicates that while an entity is out of body in a spirit form and while the entity's feelings are in animals, the animal may be attracted to someone whom this entity has known and feels comfortable with during his or her lifetime.

Thus, the animal may go to an entity who was a small child at the time the entity lived, because the small child liked the animal, and the animal feels comfortable and unafraid of the small child and also may feel protection toward the small child.

Thus, Uncle Charley dies, and feelings of Uncle Charley go into a collie or terrier or some other beagle or type of animal and that animal gravitates in such a way as to end up living with Uncle Charley's niece or nephew, because it enjoyed that niece or nephew when Uncle Charley saw and visited with the niece and nephew and Uncle Charley's feelings are compatible around the niece or nephew.

The animal does not have any mental memory, but it has feeling and attraction to the niece or nephew, and so becomes a pet of that niece or nephew until something happens where Uncle Charley needs his feelings back, and thus, Uncle Charley may begin the process of reincarnation on earth or on some other planet or on some other plane, at which time the animal then gives up its body and its feelings, which then return to Uncle Charley for his new sojourn in his new life experience.

How Emotions of Entities and Families Go Into Brush and Trees

This Awareness indicates that generally, the emotions which go into plants will only go into small plants or

bushes or into plants or bushes that are destined to be destroyed in a short time, such as weeds or brush if the entity expects to call back these emotions quickly. There are some, of course, whose energies have gone into giant trees, which may have been quite small at the time they entered the tree, and some of these emotions may reside in the tree for thousands of years.

In some cases, these emotions in trees are likened unto the emotions of a group, a collective of many entity's emotions, which overlay in the tree so that individuals may shed some of their ties in a group, leaving those emotional ties locked in the tree, even though they have gone on through many lifetimes separately, reincarnating numerous without taking all of their emotions with them, particularly those attachments that were formed toward a particular group which now inhabits, in an emotional sense, a tree that is growing taller and greater every year.

This Awareness indicates in other words, these trees may carry emotions from groups of entities or families and the emotions of those families and groups may be locked into the tree for hundreds of years and thousands of years after the family has moved on, after the group has reincarnated individually, time and again.

DO CATS REINCARNATE AS CATS?

(Vikki's Kitty H. Cat has Appeared in Numerous Lifetimes)

FOLLOW-UP QUESTION (VIKKI):

Are there cat souls that continue to come back as cats, as opposed to being a personality portion? An example was in asking about Kitty here; a Tarot reader told me Kitty H. Cat was a sacred cat in Atlantis, and I had served her as a servant, and that at various times during various lifetimes, Kitty would come as a cat again to associate with me on several occasions. Is this another kind of life where they develop?

COSMIC AWARENESS:

This Awareness indicates that these are not what you would call a cat soul, in the same sense as a human soul. They are a kind of magnetic center that jumps from one lifetime to another, sometimes after entering into human form or as a human magnetic center as part of a human soul, or part of the make-up of human individuality, but which exists within the human for a particular time, then is cast off, maintaining its magnetic center with some of its karmic memory, extending from one cast-off to another.

It is likened unto a center of energy that rides in an animal for a time, then rides in a human, then is discarded and goes back into an animal form and continues passing through time in this manner.

Energies From the Mummified Cat in Egypt

Such is not as common as one might think, in that most animal energies are not of this type. This has continued on for repeated lifetimes because the cat itself in Egypt was mummified and there is a mummified cat still in Egypt which helps to hold the energy of the individuality in tact through many lifetimes.

This Awareness indicates there was never a mention of the soul until Egyptian mummification began to occur. It was a design to hold souls together from one experience to another. This particular cat has what might be termed the rudimentary elements of a soul. It is not a full soul as might be found with humans, but it is a rudimentary soul because of its having been mummified in Egypt.

This Awareness indicates that most cats simply have spirits and the spirits often dissipate or move on to other experiences after a cat dies in its physical form. The magnetic center of this cat tends to hold together because of the mummification. It is gradually dissipating over time, but still holds energies in tact through quite an amazing degree for an animal.

Ed's Note: Kitty H. Cat has always been Vikki's favorite cat. He was a beautifully-marked brown tabby with Siamese that appeared at her door one rainy night and adopted her. It was gentle and well-mannered, "the perfect cat" in Vikki's eyes. He stayed for about 5 years and then Wilber appeared at the same door and adopted her. Kitty stuck around for a few weeks and then disappeared. We looked everywhere and posted signs but we have never seen him since. I suspect Wilber drove him off for some reason. Wilber, according to Awareness, carries some of the emotions of the late Sam Millar and for certain reasons known to him was scheduled to appear in Vikki's life at this time.

What Happens to Cats After They Pass Over?

(What is the Human Attraction to Them and Them to Us?)

QUESTION:

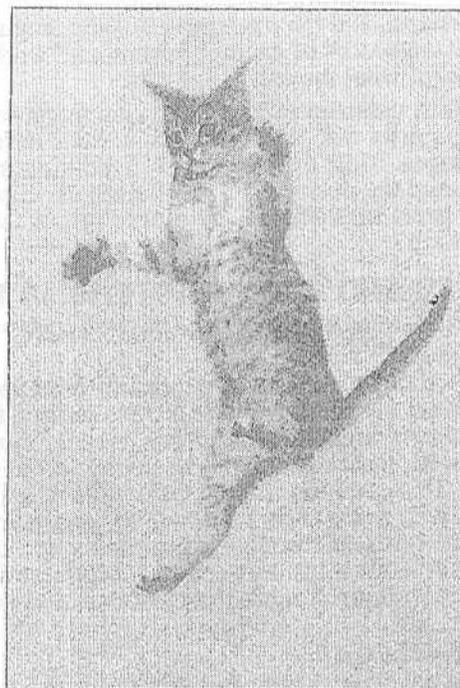

We have one more animal letter which contains numerous questions, but there is an interesting aspect to this. Most of the questions Awareness has answered previously. It's from Marie Bentley, East Hampton, CT. She says: "I've been trying to find information on what happens to animals, specifically to cats after they pass over. I searched the New Age bookstores and read the past Awareness newsletters, but haven't found enough information.

"We recently lost one of our kitties, Tommy. We found him alongside the road. We assumed he was hit by a car. We were devastated, and I received all sorts of information after he died. We buried him in the back yard and had a little funeral for him. I asked that the Light surround him and take him on his journey.

"Later on, I sensed that he jumped up in my lap several times and said: "I love you mommy!" in a high voice. I realize great comfort from this, and he comforted me. He stayed around for a few days and then said: "I have to go now!" He then dissolved and didn't come back except for once in a dream. I received from my own source that Tommy was tired of being in the physical body and wanted to go back to the animal soul level, because he wanted more freedom.

"He was a loner. We called him Nature Boy. I also received that he knew he was going to leave and was more friendly than usual the last few days just before he passed over. It was his way of saying goodbye. I received that his soul essence left his body before he was hit by the car and he never felt the impact.

"I asked my source if this was really Tommy communicating with me. I received that this was from the "band of animal souls." Since we have been good to kitties and loved them, that portion of the animal soul

A cat enjoying one of its nine lives.

sent a thought-form of Tommy jumping up on my lap to comfort me and to allow the communication and that image included Tommy as well as other kitties.

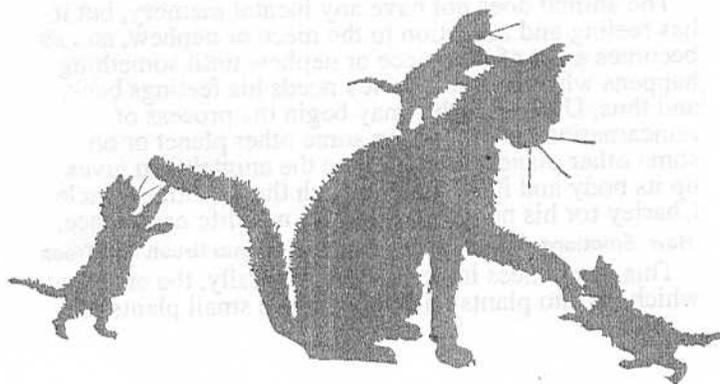

"Did my Higher Self engineer this? or is the band of animal souls aware of our love for them? Was this a combination effort? I would like to know if this is my imagination or if this information is true. Could Awareness comment on this and add information if animals reincarnate, can they stay around afterwards? Do they know before they are going to die? Did Tommy want to leave to find more freedom in the afterlife, to be happier, even though he loved us? Can animals eventually incarnate as humans, as other beings?

"Please add any other interesting note in regard to animals. What is the human attraction to them and them to us? Do they love? I hope these questions don't overwhelm you all at once. Our pets are so important to us and we love them like our children. It's important to know that they are taken care of and can evolve and go on."

There are many questions there, but can Awareness comment on her letter?

COSMIC AWARENESS:

This Awareness indicates that *It* cannot answer all of these questions. That essentially, in a general sense, most of her evaluation is correct; that animals are capable of developing rudimentary souls. These are basically magnetic centers. The magnetic center develops in accordance with the animal's self-awareness and sense of individuality.

Some animals do not develop individuality or self-awareness and therefore, are more spirit and lacking in magnetic centers. This Awareness indicates that usually, those who have a certain degree of comfort, loyalty and attachments to humans are inclined to develop a rudimentary magnetic center or soul.

This Awareness indicates that the concept of collective souls as that which would be the collective magnetic centers. This as having some validity in that there is a law that like attracts like and these souls become attracted to each other by their mutual and harmonizing vibrations and what might be referred to as a kind of archetypal cat-soul energy.

The Importance of Human Love for the Animals

This Awareness indicates that the love entities have for animals is very important in their evolution, particularly their soul and spirit evolution, and helps them to develop their magnetic center as an individual or individualized being. It gives them a certain degree of self-awareness. The more a human loves a cat or dog, the more self-aware the animal is, for they tend to reflect off of that human's reaction and response to them and this creates the self-awareness. They measure themselves by the reaction they get from the human.

That self-reflection helps to strengthen and build the magnetic center or individuality of the animal. This Awareness indicates it is quite logical, it is extremely rudimentary in comparison to what occurs with humans, but still it is there even for animals to experience.

FOLLOW-UP QUESTION:

Was the experience of Tommy jumping into her lap and speaking a few words in a high voice just imagination?

COSMIC AWARENESS:

This Awareness indicates that an image and a notion are what make up imagination, and this is something that occurs in different degrees of density. One could say this was just imagination, but all of materiality is an image and a notion or nation of images and is what you call reality.

To a degree, this experience she described was imagination, but the degree being very intense as an experience makes it also border on a reality, and thus it was more than just imagination. It was an experience for her, having a degree of substance in reality.

Do Animals Have Spirit Guides?

FOLLOW-UP QUESTION:

Do animals, such as cats, have guides or the equivalent of guides like entities have? For example, she was wondering how the death of her particular cat, it seemed like it was just time for it to go. Is there some type of guide over animals that sort of prods them or leads them in certain directions like that?

COSMIC AWARENESS:

This Awareness indicates that there are unseen guides and energies and forces that affect all elements of creation, moving them, directing them, guiding them. Even the winds, the branches of a tree can be influenced by these unseen guides and energies, vibrations, frequencies. Even weather and temperature can serve as a guide for energy that has an influence on something which might otherwise appear to be isolated.

This Awareness indicates in that respect, there are guides and energies even for cats, but if you are speaking of spirit guides and guardian angels, these tend not to take particular interest in cats and animals unless they are assigned to humans, who in turn are quite concerned for their animal pet, and in such cases, occasionally the human's guide or guardian angel will pay special attention to the cat or dog or other domestic animal.

Use White Light When Traumatic Events Occur

CLOSING MESSAGE:

This Awareness indicates that during this time there have been a great number of important incidents. The situation in Russia, the situation in Waco, the situation in Ohio, related to the prison riots and stand-off, and there are many others. This Awareness indicates that it appears there is a time wherein entities need to be constantly alert and attentive for situations that may come about suddenly and may affect them directly or indirectly.

This Awareness wishes entities to be prepared for these unexpected events so that they are not too shaken or too distressed when things occur. This Awareness indicates that in times of chaos or crisis, remember to wrap yourself and your loved ones in White Light. Just simply visualize a globe of White Light surrounding the entity and visualize this White Light moving into and carrying the entity into another such globe and repeating this for up to 9 times so that the entity is protected in these globes of White Light 9 layers deep.

Three layers would probably be sufficient, but for crises and emergencies, think in terms of 9 layers of White Light. This Awareness indicates you will be amazed at how helpful this kind of energy can be when there is a crisis.

The Christopher Reeve Healing Project

(Excerpt from CAC General Reading 11/10/99 Grace Interpreter)

QUESTION:

A number of people have written asking about the Christopher Reeve healing attempt. This letter from George Lee is typical. He writes: "I can't speak for everyone else, but as for me, I'm kind of curious about how our experiment went with the healing energies for Chris Reeves. You know, it's kind of odd, but on the day of the experiment, I turned on the TV set about noon, and there he was, talking about some trip.

A little later, about 2:30 or so, I turned on the set again, and one of his movies was playing: Somewhere in Time. It would appear that a lot of people were picking up on the energizing of Chris. Maybe Awareness would comment on this."

COSMIC AWARENESS:

This Awareness suggests that the experiment was far more successful than entities might even imagine. This

Awareness suggests that personalities have such little concept of the tremendous filtering mechanisms that exist within mass-consciousness and have been adopted within individual minds which have profound influence on the energy transmissions, the focused efforts of individuals and groups.

This Awareness suggests, however, that the physical-bound personalities have far less understanding of the power contained within each thought and each focused and energized envisioned concept. This Awareness suggests that for several reasons, a good deal of energy was diverted and filtered but that still a significant impact has been made.

This Awareness suggests that the number one filtering influence came from the personality Christopher Reeve himself, regarding a specific conflict in the mindspace, regarding the nature of the physical experience, the nature of health and healing in general.

This Awareness suggests that although the spirit of the entity was open and cried out to participate in a specific experiment through the experience itself of the injury and the attraction of the spiritual community to this individual as a figurehead or focal point for such creative manifestations, that free will, as always is allocated through the belief structures of the mindspace of the physical personality subject to gems and slivers and all of the filters and belief structures offered from mass-consciousness.

This Awareness suggests that the personality of Christopher Reeve has not encountered significant interaction with spiritual concepts and entities of active participation in the spiritual enlightenment to the degree that a majority of the belief structures in the mindspace placed the personality on the side of logic and ratiom and science as if it is opposed to intuition, inspiration and spirit.

This Awareness suggests that this experiment has been an elegant opportunity to recognize how ratiom and emotion, how body and mind have become polarized in many ways to the degree that such conflict and separation can unnecessarily occur. This Awareness suggests that when the entity opened itself in sending electrical energy impulses received and translated as an opportunity and a request to participate in such an experiment that the personality was able to receive very little of the enthusiasm, positivity and urges of his own entity, given this separation and intense focus upon the logical and the scientific aspects of the physical experience.

This Awareness suggests, however, that the entity and personality known as Christopher Reeve do experience intense spiritual enthusiasm and although the personality manifests and channels this enthusiasm through the passionate pursuit of medical answers and physical solutions instead of being receptive and participating in aligning with inner healing forces, so much more instantaneous and powerful that the enthusiasm applied through the medical focus has indeed brought about significant changes in the momentum of progress in medical science toward effecting cure to spinal cord injury.

This Awareness suggests there have been several breakthroughs and techniques already publicized, and that a good deal more progress will follow since a good deal of the psychic energy from so many has been infused to significantly get this particular ball rolling. This Awareness suggests that entities should stay tuned. This Awareness suggests also a relatively minor shift in the mindspace of Christopher Reeve, regarding the nature of logic and intuition can still allow significant spiritual energy to gather inner forces in addition to those who have found purchase in the scientific medical advances.

If there are further questions, we can continue.

QUESTION:

The entity has publicly stated that he expects to be healed and well on his, I believe, 50th birthday, through the advances that are being made right now by the established medical people. The fact that he *believes* this in itself should effect the healing for him on his birthday, should it not?

COSMIC AWARENESS:

This Awareness suggests that indeed, the power of that specific belief has manifested a good deal of the energy offered toward the bringing about the specific insights and discoveries, fundings and manifestations within the medical process and research community, that shall indeed effect his cure.

This Awareness suggests, however, that although this belief is significantly strong enough to channel and manifest those energies, it is such a strong and rigid belief that it is diametrically opposed to being open to receiving direct healing energies, insights and broadened sense of spiritual consciousness to active inner resources which can manipulate physical matter much more efficiently than can strangers.

This Awareness suggests again, the belief structures filter and channel Will Energy, for this is the mechanism of experience and free will for personalities to choose and define the physical experience. This Awareness suggests that it is only due to the filtering distortion of communication between entity and personality that the highest most rewarding Destiny Path often escapes the personality due to a lack of sufficient expansion of consciousness.

This Awareness suggests that what was just described as an unqualified success does indeed indicate that the energies collected and focused during the birthday celebration meditation for Christopher Reeve made a profound impact through his chosen belief structures in the direction from which he expects cure. Expectation is indeed the reflection of all belief structures and that if had that expectation included an openness within the mindspace to spiritual receptivity, miraculous healing, then far more objective success including the personality's standing and walking and indeed becoming complete and whole with circuitry unobstructed, could have been brought about.

This Awareness suggests that the entity perceived the offer of a mass-healing as the frivolous musings of illogic, and that particular belief structure diverted the energies into the physical medical community, and that nothing has been wasted, yet such is the desire of the mind, of the personality of Christopher Reeve. We have completion.

-HOW TO GET THIS NEWSLETTER BY MAIL- EVERY 4 WEEKS ! (More or Less)

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. (How many have you served, and how well? is the question we will all be asked at the Passing Over).

MEMBERSHIPS AVAILABLE (Honor System)

INDIVIDUAL: \$42 per year or \$12 quarterly
FAMILY: \$52 per year or \$20 quarterly
CONTRIBUTING: \$77 per year or \$25 quarterly
SPONSORING: \$144 per year or \$40 per quarter
BENEFACITOR: \$500 per year or \$150 per quarter
PATRON: \$1000 per year or \$250 per quarter
ANGEL: \$5000 per year or \$1500 per quarter
LIMITED INCOME: \$30 PER YEAR OR \$9.00 QUARTERLY

This is the last newsletter of the 20th Century. Our first newsletter of the millennium will be next, which will include the Cosmic Awareness forecast for the year 2000.
