CONCERNING "LOVE", "RELATIONSHIPS" AND "LIVING TOGETHER"

Paul Shockley

Trance-Interpreter

Q. (A long explanation is given of her relationship with her boyfriend).
... I'm fed up with Jim taking attitudes when he feels like it. I long to know how long before letting him visit, take me out etc. I long to know if God wants us to live together etc.

A. This Awareness indicates that this kind of relationship as that which is all too common in this culture; that there is the desire on the part of one in the relationship to assist and to help another to find their proper expression in life, while receiving certain gratifications from that one being helped; on the side of the other there is a sense of dependency that has never been cleared from the childhood affection and dependency on parents.

This dependency being transferred through the other partner in relationship does often create that which is of a nature approaching a form of masochism-sadism type relationship on a very subtle level in terms of certain areas of consciousness between entities. This Awareness indicates in your case this entity as dependent on you for certain sustenance and service that others have always previously provided, which provision this entity has not yet outgrown a need for. This entity does need to be weened from you and others in his society in this respect.

This Awareness indicates that entities must ever and always assist and encourage those in their relationships to act in a responsible manner. That you are tolerant in allowing these entities to come within your relationship, but that you keep that relationship clear wherein they must act in a manner that is also clear.

This Awareness suggests that in your case this entity has shown some affection toward you, and you yourself felt a great need for this kind of affection and desire to hold onto that affection. You must understand that affection cannot be locked up, bottled, chained or imprisoned in any form; that affection does come and affection is often withdrawn, and this is often the way of relationship.

This Awareness suggests that in your social affairs that you "hold closely with open arms", for in such relationship you shall find an open-armed caress as that which allows entities to feel the freedom to approach, without fear of being ensnared by you. In such free relationship you need only insist they be clear and real with you all along the journey. ~~Wherein they wish to leave, what chains would hold those entities?~~ And would you have them bound so? This Awareness suggests that when your relationships are based on communication instead of possessive schemes, this allows everyone around you to be at ease, and new acquaintances will feel much more at ease when coming into relationship with you.

This Awareness indicates this can draw in many who are searching for true relationship. This Awareness indicates you shall find yourself moving into new levels of relationship, of deeper quality and greater meaning to you as you begin looking more at yourself, realizing that you are total, that you are beautiful, that you are loved by many and can love many others.

This Awareness suggests you need not be dependent on anyone but may be inter-dependent on all entities within your society.

This Awareness suggests that you understand this entity and you are likened unto a see-saw, who have played certain games of personality levels, have made certain discoveries of self, through the reflection of your mirroring relationship, but this is now creating more blocks than growth.

This Awareness suggests you not worry about this entity, unless this entity asks for your assistance or wishes to communicate with you on some situation. This Awareness indicates that wherein you attend to your own concerns and give your attention to those areas of your life which are truly meaningful to your own soul growth, you shall find a peace within which needs no support from any outside entity. This Awareness indicates when this occurs you will find yourself moving into relationships of beauty, with many other entities who feel your peace toward yourself.

This Awareness suggests that the word 'respect' as being that which relates unto 'looking again', looking twice, and that you respect yourself by looking twice as deeply at your abilities and to not rely on the whims of others for your emotional security. This Awareness indicates that you understand the whims of others are usually centered on themselves and have very little to do with you as an individual; that usually this type of irrational and irresponsible relationship is the reflection of entities who spend 90% of their time concerned with their own welfare, and 10% on all others. This Awareness indicates that entities often call this a relationship of love, but it is simply an arrangement for a period whereby they may gain through a liaison with another entity.

This Awareness suggests that you learn the difference between arrangements and love; that arrangements are based on those relationships for convenience which do gratify certain personal needs; that love is that which occurs without your ever having a choice in the matter, and that no entity who truly loves can limit his love to any other particular entity, but may love all entities equally though in a different manner with each.

This Awareness indicates you understand being in love is being in a state of love and is not directed toward any object which creates your love for you; that those who focus upon others and desire an object of love are simply expressing desire, through a seeking action related to relationship arrangement levels.

This Awareness indicates that there is a Law of Relationship which needs be given for you to study; that the Law of Projection and the Law of Respect as being beneficial to you at this time:

THE LAW OF RELATIONSHIP:

The Law of relationship states that all parts or partners are in relationship though some are close and some remote. A close relationship insists that gears and wheels must mesh in workable arrangements; all hubs, axles, hooks, and levers must be properly secured according to any function or relationship arrangement or agreement. Their driving forces must be derived from a common or compatible source of energy, and any new innovations, arrangements, or activities of any part or partner that changes the general relationship or any other part or partner of that relationship, must be noted, acknowledge and discussed, and agreements must be made to allow, dis-allow or re-arrange the relationship to accommodate the change. And any part or partner suffering excess pressure, pain or function from the arrangement, must learn to squeak and moan or gripe and groan until its needs are noticed, discussed and attended to the satisfaction of all parties of the relationship, and all parties must have time for regular lubricating oils of smooth communication. For without the oil of clear communication, even the best relationships will generate friction, grit, grime, dirt, heat and will grind to a halt.

THE LAW OF PROJECTION:

The Law of Projection states that the film that projects, depicts, and creates the events of one's life story is stored within one's consciousness and can only be changed from within. The intimate conversations, attitudes, and the relationship one has within one's own consciousness, is reflected in experiences on the outer screen of life: one is both camera and projector of his life story. Those who wish to see a world premier of new and joyous experiences instead of reruns, trash films, soap operas, tragedies, problems, illness and hostilities, must refuse to bring or to allow such films, concepts or images to enter their theatres or be filed into their

storage banks. Those who seek out, allow or enjoy filming such trash do surely fill their cameras with the material that may eventually become part of their outward life. Those who allow only the highest, clearest and the best thoughts, ideas, words, experiences and images to enter their studio, shall create and project films that show a life of joy and art.

THE LAW OF RESPECT:

The Law of Respect is that principle of looking twice, or more precisely, looking twice as deeply, for respect goes beyond the surface appearances and superficial glances to discover a deeper meaning, purpose or basis for discovery. Without the principle of Respect the Book of Love will never be read, the tree of life will never be seen in full bloom, and the thousand rainbows of the Land of Essence will never be viewed. But with the Law of Respect in action, the mysteries of the Universe, or any part, will open layer after layer like the unfolding of a thousand-petaled lotus.

HEALING AN ENTITY THROUGH IMAGING

Q. Awareness, the doctors say my daughter has cancer of the intestine and planned to operate on her tomorrow, but have postponed the operation until they can clean up her "asthma". They plan to operate later this week. Please give a trance healing to her that will bring perfection and cosmic awareness to her in the here and now.

A. This Awareness indicates that there is that energy field within your psyche, within your sphere, which does need cleansing. This is that which has improved in many ways; that there is the movement of energy touching through your experience and cleansing your attitude allowing you to describe a life for yourself.

This Awareness indicates that those who are moving on this journey with you do understand your needs and do move in a great sensitivity. This Awareness indicates that it is essential for them to understand and to project the highest images of your action and your movement, that you be seen moving into greater and greater health from each moment, to each following moment. This Awareness suggests that you understand the present moment disappears and is succeeded by a following moment which takes its cue, and its command and its essence from whatever was programmed and registered in the previous moment.

This Awareness suggests you understand that in moment-to-moment experiences, you are capable of programming your next moment according to your own wishes, that in ultimate reality this is exactly what every entity forever does: entities do program their own and each other's moment-to-moment existences, and that you, and those with you, are capable of programming yourself into perfect health and vitality. Wherein you fully understand your moment-to-moment creating with attentive command of your experience, you may let each moment become one slight step higher and more harmonious than the moment before. This Awareness suggests you not worry about the ultimate end, but that you give attention to each moment, visualizing the slightest and the most minute change towards a higher more healthy and more vibrant life. This Awareness suggests even as you read this in attention, you are now well on your way toward higher realms of existence.

Q. Is there any message for her and her husband and daughters who need her?

A. This Awareness wishes these entities to visualize this entity as moving toward greater health, to give love but not to give excessive worry or concern, to give images of great health and joy, to listen with attention when the entity feels negative, but to help the entity move on through these negative levels to that which is of a greater love and joy. This Awareness suggests that these entities in their evening and morning times prior to falling asleep, just as they are falling asleep, and upon awakening, that these entities visualize this body as being in perfect health, with a brilliant light moving in through and restoring greater health with

each imaging. In this manner there becomes that assistance on their part, working through the psyche of this entity and giving that suggestion of healing and health and vibrant living.

This Awareness indicates that in the future entities shall gather together and heal one-another through group imaging; that this as that which is being done in certain religious orders even today. This Awareness indicates that even three entities can effect great changes in the health of another through such imaging.

Q. Is there a closing message, and can we have a cleansing for those involved?

A. This Awareness indicates this as having been effected, that all the forces of an adverse nature whether suggestive or of spirit or of energy levels have been moved, vanished from this entity's realm of experience and those who are in contact with this entity are also free of any adverse forces.

CONCERNING THOSE WHO DON'T PAY THEIR
OWN WAY ON THINGS

Q. This is L.M. with a question about Cosmic Awareness Communications in Olympia. This question being a problem that has recently occurred with the mushrooming membership. They no longer have the help of SM, who was responsible for much of the work: collating etc. They are also having a problem in that a very small percentage of the membership are sending in money to support the over-all action. Would Awareness please indicate how this could best be handled?

A. This Awareness indicates this as seen as likened unto a thousand guests who come to eat at the diner. That ten of the guests have brought their wallets, and the others have come to feast on the good food which has been advertised and talked about. That those who are preparing the food have only enough for a few.

This Awareness indicates that wherein those who have paid or are willing to pay for their dinner stand waiting to be served and are being crowded out by those who are hungry but would prefer to spend their money elsewhere.

That the proprietor of this diner who neglects those who have paid or who are willing to pay and all future customers in order to be the "nice fellow" who serves the hungry from the street who prefer not to pay for their meals, as one who does deny his services to others who could, and willingly would, contribute to his action.

This Awareness suggests that this as that which does carry with it certain karmic Responsibilities.

This Awareness suggests that this proprietor may take on the aspect of one who feeds the hungry at his own expense, and in so doing may serve them well, and may eventually be rewarded for this by assisting those who need the help, but that this proprietor must look to see what training and what guidance he is giving those who come for free handouts.

That entities who approach this diner for free handouts, while spending their energies elsewhere, are simply being trained to assume that spiritual growth is theirs for the asking, and is being passed out freely without their even having to give much energy or attention to receive this.

This Awareness wishes entities to understand that there is nothing more important in their life than the spiritual development and growth and their movement toward awareness. This Awareness indicates that wherein the action is based on the Law of Gratitude and entities simply take and take and take without returning any to the source, that they are not expressing gratitude. And that this source for their

action as that which is contribution to the force of greed.

This Awareness suggests that wherein the Law of Gratitude is applied correctly, that entities shall be encouraged to return energy to that which they truly feel a gratitude toward. That wherein there is that gratitude, they will in some way express that gratitude.

This Awareness indicates wherein there is no gratitude, that further action in that direction is likened unto casting pearls before swine.

A MESSAGE TO "NEW AGE" GROUPS

Q. Would Awareness please comment on the enclosed letter from "The Evolving Mind" group which has written to Cosmic Awareness Communications. I would particularly like to hear any comments from Awareness concerning the next to the last paragraph where they state: "We have very little interest in enlightening the general public. Their future is not our concern nor our problem." This is not a facetious question. Things seem to be moving so fast anymore that maybe his statement is true. If it is, is CAC wasting its time advertising in the publications now being used or should we stop hitting the "general public" and concentrate our information to "New Age" type people and groups? Most of our members are new to the Awareness movement so we send them the general info: the major manuals (Meditation, Healing, Transpersonative etc. as well as selected "heavier" info concerning life after death etc.). What information would Awareness have us specifically send to these people that we are not sending or plan to send?

A. This Awareness indicates that there are many entities working at present times in many levels. This Awareness indicates that the general action of this group as that which is necessary and essential at this time. The merging of those energies on that level as that which can become very beneficial within the next two years.

This Awareness suggests that the entities involved in this action, working together may understand the strength and the joy of co-creative action. That this becomes an action of essential wonder as co-creative energies open the way to realms unknown before by man upon this plane.

This Awareness suggests that you be very aware and attentive in any action of co-creation wherein there is anything other than the inclusive attitudes. This Awareness indicates there will be no reward, but sorrow for any who feel they need only save themselves, and need not care for others. This Awareness urges you to beware the Spiritual Snob who lurks for fertile ground within your midst, for it carries a great karmic danger to your group. Be also aware of the Law of Unity, as there can be nothing and no-one excluded unless they exclude themselves by being unwilling to live in those levels of attention which express the clarity of relationship and action necessary to your work. This Awareness indicates that your action of ordering your lives so as to be capable of serving others in a manner that brings quality and quantity together as that which will be most rewarding to you. This Awareness indicates this as referring to keeping your house in order whereby you can serve many well. This Awareness indicates that wherein this is done, there can be the consequence whereby you yourselves can give to yourselves as your own karmic debt.

This Awareness suggests that you may keep your group exclusive in its action and communication from the public but you cannot keep your services from the public without eventually creating a karmic overload. This Awareness suggests that all will enter together eventually, and those who appear as first shall find themselves last. This Awareness suggests that entities who find themselves rising too far spiritually above the general public, may find that they are unable to further progress spiritually until they are capable of turning with love to serve and to create the space whereby the blind may see, the weak may stand, the ignorant may

learn, and the lonely may love themselves and others. This Awareness indicates that unless you can turn your love to those who appear less than you, you shall find yourselves being less to yourselves.

This Awareness indicates a message for all New Age groups at this time: This Awareness suggests during the next two years that all New Age Groups shall begin intensive communicating and sharing of information and literature with one another, whereby this shall lead into a new network of communication, and that shall bring about those directions, communication and interactions which begin creating that New Age Government referred to as the Unified States of Awareness. This as a government based on relationship without power. This Awareness indicates the power shall be in the communication and relationship of entities working together. That within the next two years this becomes essential and serves as the basic formation of the New Age governing services and the New Aquarian Age social action.

WINNING AT GAMBLING WITH THE
HELP OF AWARENESS

Q. Ever since my childhood I have always entertained the idea of participating in games of chance with the purpose of donating most of the profits to help the needy ones. I tried hard, but somehow, I failed and could not carry out my wishes. Now I am convinced that my problem has its origin with me, and nobody else is to blame for my bad luck. My real desire in life is that there be a sudden change for the better..that my luck will change to a certain level so as to enable me to win in games of chance.

A. This Awareness indicates a comment here. This Awareness indicates that in the concept of playing with games of chance for the purpose of helping others, that this in itself is an act which is of a noble cause, yet there is that motivation behind this cause which may be looked at for any forms of justification.

This Awareness indicates that wherein an entity justifies a desire to partake in games of chance and expects that because these games of chance are for a noble cause, that this action may appear to be worthy of winning, that this is based on the assumption that there is that force above such as a God, or this Awareness, who rewards entities for having what appears to be noble causes. This Awareness indicates wherein there is seen a motivation of a desire to win of gambling and a justification for such winning by the statement that this is for the needy: This Awareness indicates It sees the entire action and is not easily deceived or persuaded nor impressed by noble appearances or by noble justifications.

This Awareness indicates wherein there is the sincere need and desire by any entity to help those in need, the means will become available.

This Awareness indicates wherein the sincere desire to help those in need is strong enough, there will also be even that which may be called "good luck" participating in your lifestyle which is that which is helping the needy. This Awareness indicates that you understand good luck does come to those who are one with the universe and need very little for they have the entire universe in which to play and speculate with the energies of attention and that which is called the Law of Magic; that the message continue.

Q. ..."A change in the element of luck so powerful that it would defy the laws of probabilities or even have control over the odds against me in order to win in games of chance such as Lotteries, Sweepstakes, dice, cards, bingo etc. I do honestly promise to donate (give) according to whatever I receive (win) to organizations such as Cosmic Awareness Communications and the The Aquarian Church of Universal Services."

A. This Awareness indicates a comment. This Awareness suggests a re-reading of the last 3 or 4 lines.

Q. ... (Question repeated).. "I do honestly promise to donate according to whatever I receive to organizations such as Cosmic Awareness Communications etc..."

A. This Awareness asks you to ask yourself if you are attempting to entice this Awareness into giving you good luck on the premise that you will pass it on to the Awareness channels. This Awareness indicates that wherein you desire to do service for others, truly desiring to do this, you may look at what you have and what you are, and what you can do even as you now are, and may do something no matter how small to assist someone, no matter who it is. This Awareness indicates when any entity does this, then the Cosmic Laws given by this Awareness recognize and reward your service to others in a manner that is proper and in accord with the Law of Gratitude. This Awareness indicates then you shall have more than good luck, increasing proportionally as you service others.

Q. .. "Indeed, I trust that it be well to request a solution to my problem of bad luck by means of the Trance Healing from Cosmic Awareness, and in doing so that it will be justified in the rendering of my energies and efforts in good faith toward a noble cause--the achievement of my goals.

A. This Awareness indicates that It shall now indeed send you that healing which shall assist in bringing about your good luck... (pause for healing). This Awareness indicates this as that which is dependent entirely upon your deepest motives; that the honesty of yourself to yourself as to your true motive in this action, is that which shall bring about the change in your luck. This Awareness indicates wherein your true and honest motive is to benefit yourself greatly and give a token amount to some other, hoping that this will be a justification for this healing, then this Awareness will give you that amount of good luck which is seen honestly by yourself. This Awareness indicates wherein you are honest with yourself regardless of what your motive is, to that degree of honesty this Awareness will increase your good luck. That it matters not to this Awareness at this stage of your development, whether your motives are of generosity toward others or of personal need for yourself. What does presently matter to this Awareness, is that you be totally honest to yourself, and that you give attention to your true motivations without judging yourself in any way. This Awareness indicates when you become totally honest with yourself you shall discover you are having good luck as never before.

This Awareness indicates: Lots of luck, Gustavo!

CONCERNING LIFE IN ATLANTIS
RHYEE, THE COUNCIL OF 12

Q. Cosmic Awareness indicated in my Life Reading in 1972, Dan Spivey, Interpreter, that I was "indeed close to this Awareness" when I moved within the Council of 12, approximately 11,480 BC. Will Awareness please tell me the most significant aspect of that lifetime, my name, sex, role within the Council of 12, and how long did I live?

A. This Awareness indicates there is seen that which appears to be likened unto a pyramid top, a mountain, this as in Atlantis. That this was a type of retreat for those entities who were working deeply in terms of mind control and certain forces of conscious manipulation of others. This Awareness indicates this also was being greatly influenced by those who were propounding that which was the ancient Law of One. That the action of these 12 was originally brought together to bring about that re-establishment of the Law of One in the Continent of Atlantis. That the feeling was that wherein this was re-established, that certain aspects of Atlantis could be saved from further destruction.

This Awareness indicates that the council of 12 itself was in a state of disruption and could not work together in this manner. This Awareness indicates this gradually did fall apart and many of these entities went to various parts of the world; that

the entity Hep-sut moved then into Egypt along with approximately seven others from the Council of 12. Of these seven others, two continued trying to establish power in Egypt under their old forms of the worship of power in terms of that which was known as "the sons of Baal".

This Awareness indicates that five of these 12 did travel to other parts of the world. There were those who went into Spain, and England; there were two, one in each area. One of these established the original action of that which is the Basques. That three did move into the Americas. One moved into that which is North America, two went into South America and established that action which later became the Mayan empire and certain other tribal groups splintering from that.

You were one who traveled with Hep-sut into Egypt and did begin working with Ra-Ta and Hep-sut and the king of Egypt at that time. This Awareness indicates that this information as available in the Cayce book on the pyramid and its builders. This Awareness indicates that you as one of the Atlantians mentioned who did tempt Isris to persuade Ra-Ta to break the code he had instituted of one mate per male. That in tempting Ra-Ta to break his own code, you were working to rid Egypt of the influence of Ra-Ta. This would have assisted in helping to re-establish the Atlantean Council and its control of the kingdom of Egypt. You were working with three others.

This Awareness indicates Hep-sut was one who traveled with Ra-Ta into Nubianland at the time of his banishment. You served in Egypt for some after that, and did then serve as part of the action of bringing Egypt into great turmoil. During this time you began straying further from this Awareness.

This Awareness suggests you understand this action as occurring over several incarnations ranging for several lifetimes to this point. This Awareness suggests that you also understand at that time entities were able to recall easily their previous incarnation, and their purposes and directions and actions from previous lifetimes. This Awareness indicates that in this sense this was likened unto one long karmic trip wherein you changed costumes or bodies several times. This Awareness indicates that the Atlantian life spoken of as being on the Council of 12 as that which was of a duration of approximately 350 years. That the name at that time as Koekt. That this action of the Council of 12 did extend as a powerful psychic influence in consciousness for approximately 2000 years as the 12 continued reincarnating from life to life together. This Awareness indicates that at the time of the building of the pyramids wherein Ra-Ta's followers were mummified with certain concepts in mind to be used as counter-active forces toward those of the followers of Baal; that this began upsetting the controls of those forces. This Awareness indicates that you understand the term "Rhyee" and the "forces of Rhyee" as synonymous to the forces of Baal. That Baal was the name given at a later date in response to one who was a classic example of the forces of Rhyee.

CONCERNING "EXORCIST" TYPE FORCES
POSSESSING AN ENTITY

Q. It seems to me that my present emotional-mental illness started at birth. But my specific current "attacks" started 7 years ago. Even as I now attempt to write this explanation these negative forces are turning my head left and right, 180 degrees, very fast, like in the movie "Exorcist". They have been harassing me daily for 7 years. Will Cosmic Awareness please heal me and tell me the real cause of this illness and why didn't my I AM GOD SELF stop those negative forces from torturing me for the past 7-8 years? Will Cosmic Awareness please keep me in the white light of God and tell if I may ascend in my light body in this lifetime?

A. This Awareness indicates that you understand that the forces which are acting upon you are those which are mirroring certain judgment levels within your psyche which you do allow to channel through and do allow to have their control over you through the mechanism of rejection and fear and belief in evil. This Awareness

indicates that you understand those forces are but mirrors of yourself. That wherein you can totally accept yourself for what you are, even as this Awareness accepts you for what you are, that these forces will then become likened unto guardian angels. This Awareness indicates that the rejection of the influence of these forces as that which is likened unto the rejection of your right hand for moving at a time when you were concentrating on your left. This Awareness indicates that there are certain reactions to every action, and wherein your so-called conscious mind makes judgements and certain separative maneuvers, then the so-called unconscious mind will have certain reactions to this. Wherein one judges this "unconscious" reaction as being negative and becomes very frustrated at this and wishes to control it, one will simply find that this unconscious mind rebels even further. As this continues the conscious and the unconscious minds experience war with one another.

Wherein the conscious mind begins calling the unconscious names such as "bad", "guilty", "evil" or that which is possessed by evil forces, that this does become a truth to the limited awareness of the conscious mind.

This Awareness indicates that one can continue this to where one is at total extremes with oneself and at total war with oneself unto the appearance of possession and unto complete alienation from oneself, from society, from family, and from all others. This Awareness indicates that one can continue this until one is alienated, in appearance, from one's God since that is what the conscious mind is programmed to believe and to expect.

This Awareness indicates that all of this is but the reflection of your intimate conversation and communication with yourself, about yourself and about your world. This Awareness suggests that as you learn to speak and converse with yourself only those words which express unity and harmony, which express that which is the Law of Love, the Law of Unity, the Law of Freedom...when these are expressed in your way of speaking to yourself or speaking about the world in which you live, (which you must understand is but an extension of yourself, a reflection of what is within), when you speak in terms of Love for self and for those extensions of your self, then your entire being and your society come into balance. The war shall cease and you shall find harmony with those forces.

This Awareness suggests that you cannot separate yourself from any part of the universe without being at war with all those parts. This Awareness suggests you understand that there is no evil but that you named it so. There is no negativity but that you called it so. That you understand the positive and negative are but a process of energies in motion. This Awareness asks which is right: the swinging forward or the swinging back? The standing up or the lying down? The being happy or the being sad? The being positive or the being negative? The color pink or the color blue? This Awareness suggests that you understand these are all concepts of the mind, and the mind is but a computer presented for the game, player, or the programmer to place within it those symbols which it wishes to maneuver. This Awareness suggests that you not confuse yourself with the computer, for you are the programmer and can program every action of your experience so long as you do not become lost in the cobwebs of Rhyee: the computer itself, the mind--for understand the mind itself in its judgements, structures, concepts and ideas is that which was known as Lucifer, which is the bright and shining angel, until one falls victim to it and becomes tempted and eats the fruit of the Tree of Knowing, good and evil, of division and separateness, which leads one to fall into the deep sleep of believing the mind to be oneself.

This Awareness suggests that you may be the guardian observer of Lucifer, the observer of the mind, and may not judge it; for any judgement is but an action of the Luciferian-mind. As you observe your mind in its attempts to judge itself and castigate itself and overpower itself, as you observe this without condemnation or judgement by simply discerning its games, and recognizing it as a computer; you will find it more and more into a state of rest. Wherein your mind is trying to

outdo itself and you are working to outdo certain aspects of yourself, working as mind, attempting to control through will-power, rather than being aware and attentive, there will be physical reactions to this attempt.

The path to this Awareness is the path of least resistance and greatest attentiveness in the sense of not resisting, but in discerning truth. This Awareness indicates that when you discern truth, you also must understand truth cannot be held onto; it can only be discerned in moment-to-moment experiences, for the truth of one moment is not the truth of another. Wherein you move from one moment with a concept of truth into another, the next moment is entered with a prejudice based on the old moment's truth, and in that prejudice you are incapable of discerning truth of this new moment. Yet, understand, the truth of your illness in one moment needs not be carried into the next moment; that illness may be seen as a falsity in this moment.

This Awareness suggests that you understand that mind is an action carrying knowledge or concepts in boxes of "words" or other symbols from moment-to-moment; and what is carried influences the truth of that moment. This Awareness suggests that wherein you watch the mind in action without condemning it, but simply watching it and being attentive to what is carried as it plays its games, while not becoming too overly-concerned about it -- simply watching it move as you would watch a train, while simultaneously taking in the beauty of the total experience, and experiencing that which is total unity with this train of thought and judgements---running through this valley of the shadow of death, and this shadow of life, and the shadows of being; while watching these forces moving through without judging, but in simply observing: then you move into that level of awareness wherein you become yourself, and can begin to discover Who, in Fact, You Really Are.

At this point your light body receives its nourishment and begins to grow. At this point you discover that the material body is that body which matters, but matters only because the mind said this or that mattered, and the material body had to reflect the mental commands. This Awareness indicates you understand your material body is the reflection of your polarized mind concepts, and that as these concepts begin to change and relax in their extremes, that also the material body comes in to greater balance and harmony; and the light body begins to emerge and grow.

This Awareness suggests you understand there is nothing evil within you or passing through you. That there are only the thoughts and games of the mind. That the mind as Lucifer is not evil, but is simply a mechanism for certain levels of creation and expression. This Awareness indicates the mind is likened unto a movie projector. That the movie projector is not evil. That entities watching the projection may resist certain scenes and dislike certain actions, and experience certain traumas, but that it is all but the show and entertainment for certain aspects of consciousness who wish to maintain concepts of separateness for the significance of being individual.

This Awareness indicates this as that which began with Rhyee which reached its peak in Baal and was mirrored by Ra-ta and brought back into unity with the unifying actions of many in the past and with David Worchester, Ralph Duby, Dan Spivey, and those many other forces, events and openings of Awareness in this present time. This Awareness indicates this including Albert Einstein, this including Walter Russell, this including the thousands of entities who sang, danced, rioted, took drugs and looked into each others eyes, those who spoke lovingly to strangers, and those who broke through racial barriers, broke through sexual barriers, broke through national barriers, broke through age barriers, and broke through religious and political barriers to communicate with those who were different and alien to their own background and identifications. This Awareness indicates and suggests to you now to become acquainted with yourself, for you are a beautiful person and have many beautiful qualities that need nurturing and attention.

CONCERNING THE MERGING OF
BLACKS AND WHITES

Q. I am forced to live in an ugly, dangerous black neighborhood against my will, because of poverty. Will Cosmic Awareness please, please move me into a safe place in a white neighborhood in the city and state that Cosmic Awareness wants me to do my work in, and please tell me the name of this city and how soon can I move there?

A. This Awareness indicates this as that state of unity, that you may move there immediately. That the black and white must reconcile. Wherein the black and white merge in mystical marriage of love and unity, wherein all those forces which have moved in conflict throughout all time and dramatized the extremes of polarity, do come together, even in your own attitudes, then you shall discover that beauty and harmony which you have requested. This Awareness suggests energy is wasted in fear and hostility, and without these you may move quickly to freedom. This Awareness gives freedom to you. Will you accept? For you cannot carry hostility within and have harmony without.

CONCERNING RHYEE AND THE
FALL OF MAN

Q. During the time I was ill, or "possessed", my sister changed about me. Calls the police when I try to visit. What can I do to make her friendly again?

A. This Awareness indicates that your sister became frightened by things which she did not understand which you were expressing. This Awareness indicates that you may write to this entity, including this reading, whereby you open yourself totally and vulnerably to her in your many lifetimes, and as an explanation to her of what you are and what you have been. This Awareness indicates that in so doing this, you open certain doors in her consciousness which allows her also to begin to understand the urgency of the work you are doing and are about to engage in. This Awareness indicates that there now is a message for this entity:

This Awareness indicates that you understand the movement from the past to the present as that which was very difficult for many entities; that this as that which began with the separation of Lucifer or Rhyee from the rest of consciousness. That this as that which was the beginning of duality in the universe. That the separation was symbolized in the religious teachings of God and the Devil, or good and evil,

That the separation was symbolized in terms of day and night, or days and evenings. That the separation was that which was created by the one consciousness dividing the light from the darkness, the heavens from the earth, the radiance from the magnetism.

That the so-called radiant forces were those which were termed "good", the magnetic forces were those which were termed "evil". This Awareness indicates that the magnetic forces did create matter. That the movement then was that which was called the Fall of Man...the Fall of Lucifer...the Fall of the Angels.

This Awareness indicates that Cain as that which represented the mind in man, and Able the consciousness in man. That in terms of Atlantis and Lemuria, that Lemuria was Able and Cain was Atlantis.

That Cain was that force which did focus as a male principle, as Atlantis, as Mars, (Adam). That Lemuria was that force which did not focus, but was receptive as the female principle, Venus, (Eve).

This Awareness indicates that neither of these is good or evil, but likened unto a process of teeter and totter, day and night, up and down, to and fro. This Awareness suggests you understand that the concepts of right and wrong are concepts which are being removed from consciousness. That these are those areas of the mind which have

created polarities which have created separateness, which have created division, which have created belief, which have created matter, which have created those tragedies and sorrows and separations and errors which have been the creator of karma and reaction to that.

This Awareness suggests that you understand also that this as that which is no longer valid for the coming age. That the coming age as that which requires and insists that all entities move into the state of unity. That you love one another. That in loving one another, you understand that every human face is every other human face. That only the mind creates the division and description to separate such.

This Awareness suggests that you understand that the mind based on duality-thinking is Lucifer, and is now being chained by levels of awareness and shall be chained for at least one-thousand years, while greater understanding occurs throughout consciousness.

This Awareness suggests that you understand these levels of Christ Consciousness or crystal-clear consciousness, awareness consciousness, and Cosmic Consciousness as those which do not allow for any form of rejection or denial; as those wherein any entity involved in denying another may not do so in any manner that excludes that entity of his right and the proper return for energy and experience that he has accrued.

This Awareness indicates this in terms of whatever the earning, however it is earned; that entities who love another shall surely find themselves loving themselves in turn.

This Awareness indicates that you understand this not as a threat by some "Being" hovering over you, but rather as a level of awareness being expressed to you so that you understand and know what is true in this circumstance; and that whereby you ignore your responsibility to others but by deluding yourself and paying the consequences, according to the Law of Karma. This Awareness indicates that the Law of Karma is that law wherein entities arrange within themselves on any level to make just payment for any action committed that affects the welfare of oneself or another. The Law of Karma is irrevocable and may be depended upon to bring those who stray from the Law of Unity back into balance through this divine justice of the universe.

This Awareness indicates this may be understood as a cosmic principle. This Awareness indicates that you are blessed by this Awareness and shall receive the reward that you in your awareness dictates as proper.

Q. Was there a healing performed for this entity?

A. This Awareness indicates that a healing shall be given for the entire situation. That there is much karma in terms of group involvement in this situation. Wherein this comes into an alignment, that there shall be a mirroring reflection on many levels throughout consciousness. Wherein these entities become capable of relating clearly and in the Law of Unity that this as that which shall trigger a new awakening by this earth. This Awareness indicates this on many levels as reaction to the triggering mechanisms in consciousness.

This Awareness indicates that you understand there are certain entities who were involved in archetypal structuring and maneuvering of consciousness, who did help to bring about the formation of societies and civilizations. Wherein these entities are capable of releasing some of their separate identifications and controls and allowing individuals the respect of being one with them, as part of their role neither superior, nor inferior, but simply different and therefore proper and allowable; that these entities then can affect great changes in the established order of things and bring harmony to this chaotic world. This Awareness indicates this as the urgency of the present time.

This Awareness suggests that you study the Law of Unity, the Law of Freedom, and the Law of Magic, and set yourself free so that you may free others.
