HOW VALID IS THE BOOK "FLYING SERPENTS AND DRAGONS?"

(The Story of Mankind's Reptilian Past)

QUESTION:

Albert Monette in Joshua Tree, California, writes: "I recently read an informative, fascinating, and well documented book titled *Flying Serpents and Dragons* by R.A. Boulay, published in 1990 by Galaxy Books. I'd like to ask Awareness if the author's conclusions and assertions are true or valid on the following points: (and he lists 9 points, which I'll read one at a time).

"The author certainly provides sufficient evidence from sources such as ancient tablets, writings and logic to make his conclusions credible. The first one: that Celestial God astronauts, who were reptile in appearance, were cross-bred with an ape creature and this produced an Homo-saurus from genetic engineering. After a time in the Garden of Eden, man chose to become a mammal to reproduce, therefore losing his immortality, and became a Homo sapien."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that this is a good brief description of the events that were described in mythical terms in the *Book of Genesis*; that in the action of changing from the homo-saurus type to the Homo sapiens, the creation lost much of its immortality or long life which was characteristic of the more Reptoid genetic form, and gained the power of knowledge, or the power to make decisions.

Adam and Eve and the Tree of Knowledge

This Awareness indicates that it was through the Sirius influence that this occurred. This was characterized in the *Book of Genesis* as the serpent causing the entities Adam and Eve to eat of the Tree of Knowledge. This Awareness indicates that the Tree of Knowledge in this sense, being a reference to the ability to make decisions, to think for themselves, to have independent will.

This Awareness indicates prior to that, the other creature was totally controlled psychically by its creator. The second creature as having a will, a free will, a will of its own, which was termed knowledge, or wherein, for example, the serpent explained that in eating of the Tree of Knowledge the entities would gain the power of Gods; this referring to the ability to make decisions and have free will.

This Awareness indicates that this led to the life spans from that time forward gradually becoming shorter. The early life spans of entities were long due to the Reptilian genes involved in the creation, but these were created in such a way as to begin to fade out while the mammal qualities would become more predominant and the life span moving in a higher metabolic rate would burn out more quickly than the slow Reptilian metabolism.

This Awareness indicates that over periods of time, the life span began to shorten, thus, the admonition that 'If you eat of the Tree of Knowledge you will surely die.' This Awareness indicates that much of this was a kind of allegorical explanation of the genetic qualities of the creation and the new prototype that evolved from the earlier types. This in reference to the creation of the Adamic man.

This Awareness wishes entities to understand that to speak of 'Adam' or 'Eve' is, in a sense, like speaking of the Stealth or the carrier or the battleship, or the IBM computer, or some other model, rather than speaking of an individual entity; that Adam was a prototype of a particular type of creation. This Awareness indicates that

on symbolic levels, it has other meanings, as has been given in previous statements by this Awareness.

Adam can represent the conscious mind, Eve representing the subconscious, or you may think of these as male and female principles, or positive and negative principles. It is a matter of symbolism as well as a matter of allegory and also a story being told to represent the actuality of history in terms of the creation of this prototype known as man.

A DESCRIPTION OF THE REPTOID

(One Variety From Draco Has Wings)

QUESTION NUMBER 2:

"In appearance, the Serpent Gods were tall, at least 8 to 10 feet and walked on two feet. They had a tail like a reptile and a tough hide, somewhat like a lizard, but with a large amount of horny or scaly skin. Their hide was generally lustrous and smooth, somewhat like a chameleon, and probably varied in different hues of green and gray. Their natural condition was to go around naked, but they wore clothing such as cloaks as a sign of rank or godship.

Because of their need for moisture, they could not stand the direct sun which made their skin dry and uncomfortable. Their face was somewhat flat with chin whiskers or a goatee, somewhat like a walrus or ibex. They had short horns on their head, which they considered to be a sign of divinity."

COSMIC AWARENESS:

This Awareness indicates that this as representing a certain type. There were various, there are several variations of the Reptoid and Serpent types of entities. There are even some with wings. This Awareness indicates that the Sirius types have more human features. They are, however, also more Serpent type in that they are a subspecies of the Reptoid version. The Sirius types evolved along other lines in terms of the general evolution, as a kind of crossbreed between those from the Lyra, and those from Draco.

There are certain other influences involved also. The Draco type Reptoids being of several different variations, the ones with wings being of the highest rank. These looking much like the mythical gargoyles. This Awareness suggests the questions continue.

Cain and Abel

QUESTION No. 3:

"Cain, who was sired by the Deity, was semi-Divine, and part Reptilian. Cain not only killed Abel, his brother, but ate his flesh and blood."

COSMIC AWARENESS:

This Awareness indicates that Abel being closer to that of the human in nature.

Spaceships Destroyed Sodom and Gomorrah

QUESTION No. 4:

"That Celestial Serpent Gods and their spaceships destroyed the cities of Sodom and Gomorrah with nuclear, laser or beam weapons."

COSMIC AWARENESS:

This in the affirmative; that these weapons being a kind of ray that emitted a radiation as well as destructive forces. The rays were also used in melting the Antarctic ice-caps and causing the flood.

The Tower of Babel a Rocket Launch Pad

QUESTION No. 5:

"The Tower of Babel was intended to be a space launch facility for rocket ships."

COSMIC AWARENESS:

This Awareness indicates that this is seen as man's attempt to create a launch pad to reach toward the heavens in imitation of the gods, and the gods did not like this action, and therefore, destroyed the work and confounded the entities involved by creating a confusion of thought, by tampering with rays or waves that affect the mind, thus creating a breakdown of any psychic communication that had been previously used in allowing entities to communicate together and forcing them to rely on verbal communication.

This was a time when entities had great difficulty communicating and various languages gradually began to diffuse in different directions; the purpose being to scramble any knowledge that mankind had gained from observing, watching and imitating or emulating the gods in their efforts and their activities. This confusion of the thought-form and communication systems of humans was a means by which their evolving field of knowledge could be set back, preventing them from ever having a chance to come close to understanding the alien technologies, the technologies of the so-called 'gods'.

Did the Aliens Actually Use a Space Launch?**FOLLOW-UP QUESTION (AVATON):**

This Tower of Babel as a space launch facility brings up questions in the Sitchin books where so many of his illustrations and so forth, show a type of launch pad, and I was wondering, when reading this, were the aliens at that stage of technology actually using that type of craft which needed to be launched similar to the type of thing our space program today has, or did they have the more sophisticated UFO type of craft in that time?

COSMIC AWARENESS:

This Awareness indicates that this occurred before certain grid work was set up, were useful on the plane. Grid-work had been used previously but for a great period of time was out of order, and because of this, there was the necessity to use the more primitive propulsion to launch certain of the craft into the air, to reach the craft which floated above the earth.

This Awareness indicates that the greater craft, hovering out in the solar system, served as the main base for these entities, much in a similar manner as was described yesterday by this Awareness, in which a craft, a planetoid, is parked in an orbital position in the outer edges of the solar system. This Awareness indicates that shuttles can fly to and from this area in more primitive types of propulsion systems.

The Launch Pad Then Was Known as the Shem

The launch-pad used in those days was known as the Shem and the Shem, which was later misinterpreted as the word 'name' was a launch-pad similar in purpose, not in form, to that which is used in launching rockets today, in your time. This Awareness indicates that the Shem was considered a secret place. In ancient terms, the word sacred was the same meaning as your modern day term 'secret', thus the place was off limits to humans.

This Awareness indicates that on rare occasions there were some humans who did ascend through the Shem and through the launching of spacecraft. This Awareness indicates that references to birdmen in ancient myths and drawings referred to these flying astronauts, these entities who can fly. They would be painted or drawn as having wings, when in fact this implied that they were astronauts or pilots. Thus, a pilot in training today will seek to get his wings, meaning that he has earned the right to fly as a licensed or bona fide pilot.

This Awareness indicates that the ancients would draw these entities with wings along with their own arms as

an indication that they were capable of flight. This Awareness indicates, however, that there were also, as previously stated, some Reptoids that actually had physical wings, looking very much like the Greek mythological gargoyle and similar creatures.

Who Built the Launch Pads?**(More on how Mankind Evolved)****(FOLLOW-UP QUESTION:**

Those rockets launched from these pads, or Shem, did the aliens bring those with them, or did they manufacture those on earth at that time?

COSMIC AWARENESS:

This Awareness indicates these were generally manufactured with the labor of those on earth; either those who were presently available on earth, or with the work of their own people, or in later times, using the creation known as man. The entity created known as man was a prototype, intended to be used in caring for the garden, caring for the agricultural needs of the gods, or Reptoids, and the later version of this prototype was intended to be used for work in mines, particularly in Africa, and also in other places.

This Awareness indicates that it was designed to reproduce itself, go forth and multiply in order to create armies of workers, to be able to mine the earth in selected areas, so that the resources of earth could be utilized by these Reptoid gods.

This Awareness indicates essentially mankind, in its creation from Adam, has been used by these beings for some time. This Awareness wishes also to make clear that there were people on earth before the creation of Adam, before the creation of Homo sapiens. There were those more ancient as is taught in your anthropology books. It simply was that these new creations, the Homo sapiens version, was an updated version, just as model airplanes or airplanes can be updated and new models built.

With Genetic Engineering a Variety of Creatures Were Created

Likewise, with genetic engineering, new creatures can be built and modeled for various purposes so that they are more intelligent, or less intelligent; more muscular or less muscular; more agile or more stiff, depending on what the creator wants from its genetic engineered creation. The Homo sapiens version was influenced with the hidden code in the DNA by the Sirius influence of that type called Enki, to develop in a sense, in a direction so that the generations, one proceeding the other, would have an evolutionary effect, leading the form of the Homo sapiens to evolve spiritually, and mentally in a progressive manner from generation to generation in a self-improvement mode.

This is not what the Reptoids had in mind, and they were not aware that this was imbedded in the genes of the Homo sapiens or they would not have allowed the work of the Sirian entities to have been used. At the time Sirius was subjugated under the domination of the Reptoids from Draco, and the engineers working on the Homo sapiens model were doing this as a kind of sabotage of the experiment, or creation, to give free will to the Homo sapiens so that it could develop.

Reptoids Lost Interest in Earth Until Recently

This Awareness indicates the Reptoids lost interest on earth after the high radiation from Sodom and Gomorrah, presuming the earth to be of little value, and were only relatively connected with the earth until recently discovering the need for the outpost in this area and the realization that the earth population had increased so greatly and had advanced in such a highly civilized direction, compared to what it had been before.

They are not in the least worried that humans will be a problem to them. They are not in the least impressed with the present level of human technology, but they are aware of its rapid growth and are to some extent concerned about its potential for further growth, because the human is imbued with some seed of Godhood that is growing rapidly, due to the work of the Sirius genetic engineers.

Noah's Ark was a Saucer Shaped Craft?

QUESTION 6:

In this book: *Flying Serpents and Dragons*, the story of mankind's reptilian past, Albert lists this statement: "Noah's ark was a submersible saucer shaped craft." Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this ark of Noah may be interpreted as being a ship. There is, however, still another meaning to this, and to certain terminologies that are used in defining the patriarchs of the Bible during these times. This Awareness indicates that this is a way of writing in these ancient times that has not been thoroughly understood or classed, even by the researchers, Zecharia Sitchin, or others looking at ancient history from similar views, wherein they see these as entities ruling or living for long periods of time.

For example, the Zecharia Sitchin books refer to these ancient gods by name as though they were in charge of the earth for a certain duration of thousands of years. This Awareness indicates that these patriarch names are often just personifications of eras, an era of time personified, and in one sense, there was of course a flood and there were some ships or boats in various parts of the world where entities were preserved, or were able to reach high ground and build boats and then move from place to place on ships while the waters receded.

This kind of thing did occur. This Awareness indicates that it is not that Noah and those aboard his ship were the only survivors for there were other parts of the earth in which entities lived in mountains higher than the water could have reached: Mount Ararat, for example. The flood never reached as high as some of the mountains are tall, and these areas had people on them. This Awareness indicates that in this sense, the story of Noah and the flood and his actions were like a kind of make-up story about a soldier in World War 2, for example, who does certain actions that typify what might occur to other soldiers in World War 2.

The Story of Noah is More of an Archetypal Myth (How Arcs of Time Were Personified)

The story was not an actual recording of a particular entity, it was more of an archetypal myth. This Awareness indicates that there are various versions in ancient times of similar stories of entities surviving the flood. There WAS the flood. This Awareness indicates there were entities who were directed as to how to avoid the flood, and there was this story that had a basis in fact, and the entity could be called Noah. It was not necessarily the entity's real name.

This Awareness indicates, however, that historically speaking, with some particular allegory involved, you may, if you wish, accept this as being a viable story, but there is still another aspect of the story that has not been understood. Noah also represents a period of time and the Ark represents an arc in the sky, an arc or a curvature relating to a certain number of degrees of movement from one time period to another. If you are to divide 360 degrees and to make these 360 degrees into certain arcs of measurement and you were to take these ancient arcs of measurement and give them names, personifying them as time periods of generations, and then you were

to take these generations and read the Bible afresh with these names being seen as arcs of time, you would come up with a totally different meaning of the Old Testament.

This Awareness indicates that there is a kind of literary technique used in ancient times in which arcs of time registered and named in the heavens were personified and told in story forms on earth as though they were talking about people. This is the way much of the ancient writings were, just as entities speak of Hercules, Athena, Apollo, Venus, and other deities of old, as though they were human, when in fact they are speaking of the planets.

This Awareness indicates that this was also done in earlier times before the Greeks developed their mythologies and wrote of the planets as though they were personified beings. This Awareness suggests that therefore, to speak of Noah's Ark as a UFO shaped or saucer shaped creation is to limit the concept of Noah's Ark. This Awareness indicates, however, that in a sense this is correct, that this was not the usual ship-shaped creation, there were other forms; it would be designed in a wider type of form than most entities visualize.

This Awareness indicates that you must understand that stories such as that of Noah and the Ark have both a basis in fact and a basis in metaphor and an allegorical meaning, and the Ark can be applied as an astrological or astronomical measurement and movement of time. It can also be applied as an historical creation in the shape of a boat, symbolizing the many actions of entities moving from place to place during the flood. It can also be symbolized as a project at the time, just as there are, even today, projects that may be called 'Noah's Ark.'

This Awareness indicates that in future times entities might confuse the two and believe that in the 20th Century the United States tried to build Noah's Ark to take people to Mars in its Noah's Ark project. This Awareness indicates that you must understand that twenty thousand years from now, looking back on information gathered from this time period, there can be much confusion from the bits and pieces gathered as to what might be meant if they came across writings referring to the Noah's Ark project in the 20th Century.

This Awareness indicates that likewise, in looking back twenty thousand years or ten thousand years into the past, it is difficult to know what is meant by clay tablets that have references to such and to interpret these clay tablets with great accuracy, as to what actually transpired. This Awareness indicates that it cannot be taken too literally. In the case of Noah's Ark, there were ships. There were more than one such ship created, that there was an entity who was given information and told that there would be a flood; this information being given by aliens, and the entity and his family and others worked together to build a ship knowing that there was to be a flood.

How the Flood Was Created

The flood was created from melting the icecaps in Antarctica by the Reptoid gods of the time who wanted to destroy the human creation on earth, and this entity, in completing his craft or ship and the other entities who were able to reach high ground survived and began again. There were also entities who were lifted from earth in spacecraft by those who were disloyal to the Reptoid types, and were lifted up above the waters and later returned.

This Awareness indicates but you understand, these waters did not rise and fall within a week or within a month or within a year. The Ark did not simply float

around for ten years. These waters rose and receded very slowly. ~~It took many years for these waters to recede.~~ There is a way of condensing reality into story form and giving the story precise description that makes it appear to be more shortened than what actually transpired.

This Awareness suggests the questions continue.

SITCHIN'S AND THE BIBLE'S REFERENCES TO "THE DELUGE"

(Melting the Ice Caps and Its Affect on the Weather)

FOLLOW-UP QUESTION (AVATON):

Well, I had one question about that. Did the melting of the icecaps to create this flood also affect the weather? There's so many references in the Bible and in Sitchin to "the deluge."

COSMIC AWARENESS:

This is in the affirmative; that this led to great changes in the weather on earth. It destroyed much of the fertile land and let water rise into mountainous areas. It also created swamps which remained for many centuries in areas where people had previously lived. This Awareness indicates that it also left the area of Antarctica more dry and arid and led to a tipping of the earth at the time, or during that time period.

This Awareness indicates that it helped to set off the rocking motion that the earth experiences even today. This Awareness indicates that references given in regard to it raining 40 days and 40 nights are inaccurate in terms of the actuality of the events that occurred at the time of the flood, but are accurate in terms of the allegorical second level meaning in regard to the flood in which the other astrological meaning of the story of the flood relates to 40 degrees in the arc of the sky, in which the time period of the age of Noah existed.

The Different Levels of Meaning in the Bible

This Awareness indicates that *It* will need at some later time to explain this kind of symbolism further. You must understand the Bible has different levels of meaning. The ancient writers in many of these stories created double meanings or code meanings wherein one would be for the masses, others would be for priests, and still others would be for those who had different fields of interest. There are numerous levels of meaning found often in the same story.

This Awareness indicates for example, the *Book of Revelation* not only has social meaning, historical meaning, it also has physiological meaning in which these seven candles or seven churches refer to certain levels and chakras in the body or certain endocrine system in the body, in some cases, referring to the etheric body, the astral body or the physical body. This Awareness indicates that likewise, in earlier Biblical texts taken from more ancient writings, much of this same kind of double, triple or quadruple meanings are found.

This Awareness indicates that in understanding this, the 12 tribes of Israel and the 12 disciples also equate to the 12 signs of the zodiac, and likewise with certain of the ancient patriarchs. This Awareness suggests the questions continue.

The Ark of the Covenant Emitted Radioactivity?

QUESTION: No.7

His last reference in this book: "The Ark of the Covenant was a powerful and portable transmitter and receiver for Moses to communicate with Jehovah on Mount Sinai. This device apparently emitted a lot of radioactivity as the workers around this device had to be properly trained and coached and others could not come near it."

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that this is a highly sophisticated device that allowed entities to communicate to those aboard ship. This Awareness indicates that there were also references in earlier writings from ancient Sumer and Akkadia to devices that allowed communication from earth to the heavens or to the gods on high. This was also in reference to these devices. If you will notice some of the ancient drawings indicate entities who have what appear to be headphones or in some cases microphones through which to speak, in these drawings; these being part of the gear these entities wore ten thousand years ago and further back.

This Awareness indicates that this Ark of the Covenant was also a weapon and could be used to radiate and burn the enemy. It could be used as a kind of ray.

Ed's Note: for more on the Ark, please refer to "Revelations of Awareness" issue 82-05 (Raiders of the Lost Ark); \$3.00 from CAC. In relation to the book "Flying Serpents and Dragons," CAC stocked this book for years and then it went out of print. It recently surfaced in a greatly revised and expanded version replete with many illustrations and was featured in the CAC Summer Book special recently. It is not listed on our current price-list book sheet, but will be next time it is printed. The book, however, IS available from CAC. Price: \$19.95.

THE LOBSANG RAMPA BOOKS

(More on the Life Underground)

QUESTION:

A question from Ralph Prokopy, Westminster, Colorado. He writes: "Lobsang Rampa books give a lot of information about the gardener aliens, the spiritual ones. He tells many stories. They brought life to the world 3 billion years ago. They colonized here themselves. They warred with each other. They mated with apes. The war they fought was because there were not enough females so after the war, some settled for apes as mates. Their technology was much greater then today, than the bug aliens or reptile aliens have now.

They could carve caverns in rock with small hand-held devices. These devices were very quick. No debris at all was created. The walls were glassy. Lobsang and his masters explored two caves in Tibet. One was recently accessible during Lobsang's boyhood due to a landslide which the monks resealed after exploring them. They were filled with our heritage, a museum of the Earth's entire history. Most of the machines were a mystery to them, though some were voice-activated and still functioned.

They also communicated telepathically to those from the Earth's center: Shambala. They wanted no contact from surface dwellers until they could be trusted. They were Atlantean refugees and native humans. Has Awareness ever given information about these people?" he asks.

COSMIC AWARENESS:

This Awareness indicates that this has not been discussed in depth through this channel, mostly because the information given by Lobsang Rampa as that which covers the information and subject matter quite deeply. His books are available to entities who wish to read into this further. This Awareness indicates that this having to do largely with earlier origins of many of the underground caverns; that later use of the caverns by aliens in present time as that which is more of a concern for modern humanity.

This Awareness indicates that the caverns being created underground by these entities referred to long before the actual creation of Homo sapiens is of great interest to many entities, but it is not a present urgency, and while entities are encouraged to read the works of Lobsang Rampa, it is not seen as being directly con-

nected with the present day dilemma or situation except as a further tie-in in regard to the caverns that circumvent, that run through the earth's subsurface and tie continents together in a subterranean network of tunnels and caverns.

This Awareness indicates that the more one looks into these areas which originally would have seemed absurd, the more evidence entities find to discover further verification. The works of this entity further verify the existence of underground tunnels and networks; that there are beings living under the surface, may seem totally absurd to the average person walking on the street, but as entities look more and more into this, the idea becomes more and more acceptable and logical.

This Awareness cautions entities, however, not to go to extremes in relating such information to those who are not ready for it. In the first place, you will be seen as a total nut. In the second place you could scare off others so that they would wish to reject and avoid you. In the third place, if they believed you, they could become excessively paranoid and afraid of the information without having proper time to prepare and to study on their own.

It is best simply to give them material to read in sources that they can absorb. A little here, a little there, gradually adding more and more as is requested by them.

Ed's Note: At one time years ago the T. Lobsang Rampa books were available and CAC stocked them. I think there were about 18 of them. Then they mysteriously disappeared from the bookstores, the publishers stopped printing them for some reason. We tracked some down printed in England but these too quickly disappeared. Samuel Weiser published one of them for a time, then a small outfit in New Jersey, Inner Light Publications, started to print a few of them. CAC still permanently stocks these when available. At the moment we have five of them listed in our Book Price Sheet Catalog and will continue to add any to our list that may be printed in the future. These are incredible "turn-on" books for entities first being introduced into metaphysical concepts, make great gifts to young people. They have the magic of the current Harry Potter books except the stories Rampa tells are all basically true, according to Awareness. (This is probably why most of the books were removed from bookstores. They simply reveal too much and the information they contain can be put together with present-day situations and conspiracies that the people are not supposed to know about.)

WHAT IS A ROOT RACE?

QUESTION:

Orrin Redman, Little Rock, Arkansas, writes: "I have questions for Cosmic Awareness. In the newsletter 90-6 Awareness states: "...that this does not apply at this time. It applies to the 7th Root Race. You are now only leaving the 5th Root Race." This was in reference to the *Book of Revelation* and humans versus aliens controlling world governments. And he asks:

(I'll read his 5 questions and then repeat them if Awareness requests.)

Question No. 1: What is a Root Race? No. 2: What are the characteristic of each Root Race? No. 3: What would effect a change from one level to another? No. 4: Do these levels in any way correspond to the chakras of human consciousness? No. 5: Are these Races manifest on other planets, and /or dimensions?

COSMIC AWARENESS:

This Awareness indicates that these do equate and relate to the chakras. They do manifest on various planets and dimensions. They also relate to certain evolutionary levels; that Root Races have to do in part with the types of unfolding of the soul in a race of entities. That the Neanderthal, for example, would be of a third Root Race. This Awareness indicates that the actuality in the comparison would be comparing these Neanderthal classifications as not quite suitable in regards to the equating of Root Races, but this as a

scientific classification, and trying to mix it with spiritual classifications does not fit well.

The Neanderthal being a 3rd or 4th Root Race, depending on the stage of development involved, and the Cro-Magnon being 4th or 5th; the Homo Sapiens being a 5th Root Race or moving toward the 6th. This Awareness indicates that there are certain aspects that do not correlate in this way of defining Root Race, so it is not the best way to do so. This Awareness indicates that much of this information can be found in Annie Besant's work, the work of Madame Blavatsky also. This Awareness indicates there are also other sources of information in regard to these Root race types .

It is essentially a general classification relating to group soul development, and that while there have been numerous events in history that could be seen as representing the allegorical overlay of the *Book of Revelation* on an historical time period, no one particular time period in the past, or in the near future is likely to make a perfect match for the *Book of Revelation*.

The Plan Today to Make the Book of Revelation Occur

There is likely to be a close overlay in the near future, but it will be artificially created in order to follow the *Book of Revelation* so that the masses will accept the expression desired by those who wish to overlay their plan with the belief system in the culture which they wish to dominate. This Awareness indicates that it is not a match that is made in time, space, and fate, but by artificial means. It will be attempted as a time to overlay a plan using the belief system of many in the culture, so that they will not resist what is occurring and will go along with the plan.

This Awareness indicates the actual symbolism of the *Book of Revelation* is more likely to take final form in approximately 6 thousand to 75 hundred' years AD.

Do Root Races Relate to Density Levels?

FOLLOW-UP QUESTION:

Do these Root Races also relate to what they call the various density levels?

COSMIC AWARENESS:

This as in the affirmative; this having to do with consciousness and its ability to emanate into higher or lower frequencies. This Awareness should reword that: having to do with human ability to attune to higher and lower frequencies of the consciousness spectrum. The more gross levels of consciousness being those which have to do with self-centeredness, greed and personal appetite. The higher frequencies being those which have to do with expansion of consciousness, radiance, love and empathy toward all beings.

Space Worms Assault Cosmonauts

QUESTION:

One final item here, taken from the July *Nevada Aerial Research* Newsletter. They quoted from a Soviet news story. It says:

"In November, 1986, the Soviets reported that they had discovered a virulent kind of creature that exists in the vacuum of space. The discovery was evidently made public 16 years after it happened, in the 1970's. The announcement was made by Dr Leonid Repin, a Russian born space physicist who works in the space industry in Dusseldorf, Germany.

Two Cosmonauts were in orbit and walking in space when they became enveloped in a cloud of swarming objects that were exploding through their bodies. The objects appeared to be some sort of parasitic worms, about three inches long.

The discovery of the lifeforms has allegedly put the Soviets (public) space program, in jeopardy."

Could Awareness comment on that? Space worms? Is this story true?

COSMIC AWARENESS:

This Awareness indicates that this appears to have some distortion, but a certain degree of truth. It appears that the so-called space worm is actually a force rather than a creature. The force being capable of affecting matter in an adverse way. This Awareness indicates *It* does not see sufficiently at this time enough further energy to provide more information. The Interpreter as needing to come from trance.

Thank you. (The Law of Gratitude is given)

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Wherein your consciousness is clear, without beliefs, without confusions, without those distorted values and personal time-warps, then your consciousness is pure and clear, and you are a channel and are in tune with the Christ, or Crystal Clear Consciousness. (Issue 78-25)

PSYCHIC TELLS OF STRANGE EVENTS ABOUT BILL CLINTON

QUESTION:

Vikki received a rather bizarre letter from Ted Mahr, here in Olympia, who is a member, which I'd like to read to Awareness to see if there's any substance to it. He writes: "Vikki, I'd like to share some possibly very important information with you that a psychic friend of mine recently shared with me. He has amazing abilities with a near 100% track record of being correct in the ability to go backward and forward in time, to visualize events that have happened or may happen.

"I was visiting him last week when we started talking about how President Clinton seems to have had a vague look in his face since the summer, and that his voice seemed also to have dulled. He no longer seems to be the resilient vibrant man he was when he first was elected president a year ago. My friend then suddenly had a vision. It occurred to him when he was on vacation last July or August, 1993, when summer was turning into fall, just after or during Clinton's birthday, which he said was on July 19th.

"He was in an old Victorian house, gray trim with yellow walls. Hillary and the family are gone somewhere else. Clinton is in the bedroom. Two security guards suddenly hold him arms back. He asks: "What's happening guys? What's going on?" A doctor with a white cloak suddenly walked into the room and gave Clinton a shot in the arm with a long needle. The doctor had big feet and big hands.

"Clinton then slumps and the two security guards took Clinton down to the basement, and lay him out on a table. He was only partially clothed. The doctor goes out to a white Cadillac and opening the back door, reaches for a black briefcase full of various layers of surgical tools. The two security guards are trying to take a walk, which they do, and plan to come back at a certain time.

"The doctor then returns to Clinton in the basement and removes both of his eyes. The doctor has a lot of skill in this area. (My psychic friend described the doctor as an "evil man" and a "complete sell-out for money. He then pours a syrupy substance into Clinton's brain where the two eye sockets are located. (As the doctor does this, there are two Orion Grey aliens in the background observing everything.)

"The doctor then puts Clinton's eyes back, and puts on his shirt. The doctor knows he only has a half-hour to finish his work. He then leaves in his car. The security guards return and they stamp out the tire marks of the car. The two security guards then return to Clinton and put him in a big chair with big armrests. They put on the rest of his clothes. Clinton looks like he is resting. When he wakes up, it will seem like he has taken a nap.

"My psychic friend said you have to drive a long way along the shoreline to get to this place; it is not easy to get to. The name "Rocky Cliffs" or "Rocky" something comes to his mind as a possible name for the place or area. When you're in the house, you can see water. The house is on a little inlet. It is the only house around that particular area.

They got Clinton in one of the first floor rooms. It is like a guest bedroom and is pale yellow in color. There are back steps going to the porch. The house itself is an old Victorian house, but it is well preserved. The house is near water, with evergreen trees around it. There are no other houses around in the area. The color of the

house is white, grey, and yellow. It is two stories, and the front top part of the house is pointed.

"The driveway to the house is all or part dirt road, and cars park in the back. Inside the house there is really nice Victorian furniture. There are beautiful bedposts and beautiful antiques. There is also an oriental room in the house, and the house has a long hallway. The windows of the house are long and narrow, not wide, and look like this: The borders of the windows are white, with grey trim. The house number is 215.

"Vikki, could you please ask Awareness to verify this information? If you do not feel comfortable printing the results then please send me a letter if you can. I am very curious about my friend's vision.

"In earlier issues of the CAC newsletter, there had been information on how Carter and perhaps other American political leaders had been cloned, in order for the Orions to better control our government. I suppose it was only a matter of time before this also happened to Clinton. My intuition tells me my psychic friend is correct in his interpretation, especially now that Clinton has been vigorously pushing for NAFTA, the Brady Bill, and who knows what else for the 'New World Order.' Could Awareness comment on that letter, please?

COSMIC AWARENESS:

This Awareness indicates that *It* cannot verify the accuracy of this psychic's observation. This Awareness indicates it does appear that the entity, the president of your country has undergone some type of stress and change which may have come about either from the stress of office, or from some kind of interference with his normal biological energies, but *It* cannot verify this as being a correct accounting of the president's experience during the time indicated.

FOLLOW-UP QUESTION:

Could he have interpreted something similar, but symbolically?

COSMIC AWARENESS:

This Awareness indicates that this is a possibility, that the entity might have tuned in to some kind of energy shift and symbolically interpreted this. It could also be that the entity is correct, but this Awareness does not see it as being such.

The Dramatic Changes in Clinton's Face

QUESTION:

A question along this line from Biagio Conti, Carmel, New York. He writes: "There have been pictures of President Clinton before and after the election, and I don't know how a face can change so dramatically. I mean, the bone structure is so different. Is the new Clinton a robotoid or synthetic? There is an article in the Wisconsin Reporter about so many deaths around Clinton. If he is already duplicated, why should killing people around him make him react any differently? Just change the programming, or can't it be done once he's loose?"

COSMIC AWARENESS:

This Awareness has already given information previously on this topic. *It* does not wish to continue discussing this topic. This Awareness has done this in the past with various presidents, and it generally leads to great disturbance among the membership and this Awareness does not see it as being really necessary for the membership to have this Awareness give further information on this as to whether it is synthetic, robotoid, or whatever.

This Awareness indicates that it is too bizarre for most entities to consider. This Awareness suggests that you keep your eyes open, research and learn what you can. The only reason this Awareness has given information in

the past is to alert the membership as to what is going on in the world. *It* does not intend for this channel to be used forever after to inform the membership on who is and who isn't a robotoid or a synthetic, et cetera.

The fact that these things exist and that entities have been given this information should be enough to allow them to know whatever they need to know about their world in which they live, without this Awareness monitoring every individual or every president hereafter from time to time to determine whether he or she is real or is a synthetic.

Advances in High Technology Make Duplication Possible

This Awareness indicates *It* recognizes that entities want to have inside information because it gives them a sense of power to know what's going on. This Awareness indicates, however, that *It* does not see the need for this channel to be used in this manner. It is quite sufficient to know that this kind of thing can happen in your society. The purpose for this Awareness giving this information in the past was to inform entities of the level of technology that had been reached in this kind of political intrigue and in the area of duplication of humans.

The technology, the biotechnology involved in this has been discussed approximately 10 years ago or before, and that is sufficient for this topic.

FOLLOW-UP STATEMENT:

Well, that brief mention Awareness gave spawned several dozen questions which I won't ask.

COSMIC AWARENESS:

This Awareness indicates it is understandable that it would do so and this Awareness indicates that the questions are appreciated. It is just that *It* does not want to dabble in the can of worms that has been opened, for it can become endless. *It* could go deeper and deeper and get into areas which would be regrettable.

It is likened unto the UFO phenomena. When it starts, if you keep digging you get more than you ever bargained for.

Do Robotoids and Synthetics Have Souls?

FOLLOW-UP STATEMENT:

It isn't so much that they're asking Awareness to name politicians or names of people who have been altered or doubled, but they're curious about issues such as the soul, and are they guided to a higher spirituality?, and what about reincarnation and so on, of these doubles? I do have questions like that. Would those be ...

COSMIC AWARENESS:

This Awareness indicates that some of this has already been covered in that the robotoids, for one, have been given through advanced genetics, a rudimentary soul, in the sense that at first it was quite a small soul. It is now larger, filling the size of most souls, but it is not what would be termed an old soul. It is new in its creation.

It was originally an action whereby a portion of the old soul of the individual was broken off or split and put into the new body of the entity, whereas now it is more likened unto a field of energy taken off the original soul and transplanted into the new body so that there is more of a complete soul, but the complete soul is without the depth that was present in the original soul.

Therefore, the original soul of the entity goes on in its deeper level with the leftover of a kind of shallow soul being put into the new robotoid body. This Awareness indicates that other questions along these lines may be asked. *It* simply does not wish to get into actions that would expose top-secret information, even if the top-secret information is held by negative forces. It is too dangerous to be giving such information.

What Happens to the Souls of Those Replaced by Robotoids and Clones?

QUESTION:

Okay. A question from Virginia Butler. She writes: "Then there is the question of what happens to the souls of those who are replaced by robotoids and clones. Do they stay in limbo while some of their cell tissue is kept for further cloning, or do aliens use their souls or are they guided toward a higher spirituality and perhaps another reincarnation? Or, could the soul, on realizing what has happened, scatter itself like Hitler's soul did so that its energies could not polarize again in the same way?"

COSMIC AWARENESS:

This Awareness indicates that the aliens have indeed experimented in the past with the splitting of souls, and have had a certain degree of success. That the present course is generally to skim off the surface layers of the soul, if that is a way of presenting it, to take off energies of the soul for use in the duplicate body.

It is not that they want to allow the main portion of the soul to move on separately and independently, it is more that their technology cannot have the control over the entire soul and the technology only allows them to skim off part of the soul as it departs and goes elsewhere. They have a certain kind of technology that allows them to capture, through vibrations and magnetics, to capture a portion of the soul of an entity, but the greater portion of the soul, the deeper more profound portion stays together, stays intact and moves on.

It is somewhat likened unto what you might call skinning the soul and keeping the skin of the soul for the new creation, the new robotoid or synthetic. The other soul part, the greater portion, would go on to other experiences, just as any soul would on the passing over.

This Awareness indicates it appears there is a section in the Hamilton book on *Alien Magic* that discusses the concept of splitting the soul, how the aliens have used this splitting of the soul for their purposes.

DOES AWARENESS ASSIST ENTITIES FINANCIALLY? IF NOT, WHY NOT?

QUESTION:

A question from D.S. Hoon JR., Saint Petersburg, Florida. He writes: "Dear Awareness, at times you have indicated that you were aware only, and that you do not interfere or influence man's circumstances, and yet at one time, I forget which issue, a man wrote to you, asking for a positive influence with his gambling so that he could win more money to use for charitable causes.

"You said that you would assist him in this regard. You have also assisted our Interpreter with regard to his financial and court dealings. This is not to find fault with you, but only a clarification as to whether you can actually help persons. I often wonder why the 'powers that be' cannot step in and assist persons who are unfairly attacked or injured by negative sources."

COSMIC AWARENESS:

This Awareness does not see the validity of the first part of the statement in regard to the man seeking help in his gambling efforts. This Awareness does not recognize when this occurred, or if it is being portrayed accurately in the question. This Awareness indicates that in the second part, all this Awareness can do is help entities to become more aware, and in assisting the Interpreter, *It* sought to bring about a way by which the organizations that are sponsoring and are serving the work and messages of this Awareness to help make these entities

more aware, so that they can function in their fund-raising efforts.

This Awareness indicates *It* can give them energy when needed, *It* can give them faith, *It* can give them hope, *It* can give them reason to persist, to continue in their effort. *It* cannot interfere with the natural flow of energies in the world. *It* can only ask entities to help give or generate energy to a project.

This Awareness indicates that *It* sought to find ways to help the Interpreter energize a certain project that was very promising and which might have, in certain circumstances, allowed for the project to fund many of the programs that entities would have liked to see, would have enjoyed working with and for programs that this Awareness sees would have been beneficial to the people of earth, but the energies simply did not manifest to the correct timing, at the right time, or did not manifest sufficiently.

Why the Higher Forces Can't Deal With Monetary Things

There were also some entities who detracted and diverted those energies so that it did not come together and time was not properly met with the right energies and the project essentially failed. This Awareness indicates that in a sense, you are correct, that the Higher Forces cannot deal well with monetary circumstances on your earth because the monetary system is controlled by Dark Forces, it is a creation of Dark Forces, and the Light Forces do not have any control over that monetary weapon of the Dark Forces.

This Awareness indicates that all the Light Forces can do is energize spiritual and physical and emotional energy for individuals so that they can have the strength to do what they need to do to carry on their work and activities. This Awareness indicates it is the way it should be in that entities should not expect the Light Forces to provide them with money to combat the Dark Forces when the money itself is part of the program of the Dark Forces.

This Awareness indicates that the action of focusing energy to entities, whereby they can put forth their efforts to accomplishing something which may require the use of money is what the Light Forces can do. This Awareness indicates that the Light Forces cannot simply hand you money. They can only *encourage* you to persist and give you the energy, the strength, the determination, the hope or whatever other characteristics might be needed in attempting to resolve your problems.

The Interpreter Paul Shockley Lawsuit Debacle

This Awareness indicates that entities who wait for the Light Forces to come up with millions of dollars are likely to wait in vain. Even when opportunities exist as indicated by the efforts recently by the Interpreter. The opportunity may be there, even the court ruling may be there. In fact, the energizing process worked for the Interpreter when the membership got behind the Interpreter, and visualized the Interpreter being awarded shares of stock and being awarded a winning of the court action; all of these things were provided.

The energizing was a positive nature. The shares of stock were given, but those shares of stock which were turned over to the Interpreter were counterfeit. They never had any value to them because the partner had written them on a company that had not issued any shares in over ten years, and while the Interpreter was awarded those shares by the court, the shares never had any true value in a legal sense, and therefore, when the court discovered this, they awarded the Interpreter and his company a hundred and twenty million dollar judgment against the ex-partner.

Well, can you spend a hundred and twenty million dollar judgment when the ex-partner is in prison and has absolutely no money whatsoever, and a chance of collecting on that hundred and twenty million dollars is absolutely nil? If the ex-partner realizes, and surely he will or does, that he has a hundred and twenty million dollar judgment against him, will he ever have anything in his personal name thereafter? For if he does, then the Interpreter could collect on whatever he owns as part of that hundred and twenty million-dollar judgment.

The Interpreter Paul Shockley's Diamond Mine Debacle

But the likelihood is that he will never more put anything in his name. This Awareness indicates therefore, the Interpreter won the lawsuit, but gained nothing. It is also to be noted that the diamond mine, which also came as a situation that was part of the trial, the Interpreter had the right to any contracts of the diamond, but could not pursue finding the documentations of the transfer of the diamond mine to the stock company. The stock company refused to turn over any documents and was not part of any lawsuit, and therefore, in order to pursue any further the Interpreter would have to file suit against the stock company.

Already unable to pay the cost of his attorney, he does not have the funds to sue the stock company and also does not know whether it would be of any value to do so, because he has discovered that there were certain obligations his company had in the contract with the mining owner, and was supposed to make certain monthly payments and because he did not have copies of the contract, did not know about this, and it is said that the ex-partner failed to make those payments, thus, the contract was voided.

Whether this is true or not, whether there is still a possibility of the contract being restored or still being good, is not known to the Interpreter, and to be sure, he would almost have to make a trip to Ghana to talk to the mine owner. This Awareness indicates that the Interpreter does not have this kind of time or money, and therefore, it all appears to have gone moot.

This Awareness indicates that it is shameful that this occurred, because it has apparently not only failed to raise money for CAC or the Aquarian church, but has even hindered their operation by implying to the membership that they were somehow suddenly rich, when indeed, they lost money and people stopped donating or sending money to them, and instead, many entities have written asking for money, which is of course, not available.

This Awareness indicates that therefore, the question of: How can some things be done to help entities when it is to their benefit, and not to others?, is really not applicable to this situation or to the examples given.

This Awareness indicates if this question has not been clearly answered, that further questions may be asked in its regard.

QUESTIONER:

I think *It* answered it. Mr. Hoon's basic question is: "I often wonder why 'the powers that be' cannot step in and assist persons who are unfairly attacked or injured by negative sources." I think Awareness basically answered that.

He Marries a Devout Catholic and Leaves CAC

QUESTION:

We received a letter from Richard Bock, Fortuna, California, who's been a member ever since we started, I believe. He's not asking a question, but I'd like to read a little of his letter to Awareness and ask if this is the appropriate thing he is doing.

He writes: "At age 59, I recently married for the first time in my life. My wife is a devout Catholic and takes her religion seriously. Since my wife and I are not compatible in our religious beliefs, I do not wish to renew my membership with CAC, to keep our marriage as harmonious as possible.

"I am thankful for the Awareness teachings I've received over the years, and also for the personal Awareness reading some years ago."

Now, I can see what this entity is saying, but it strikes me that that's not really the way to start a relationship, by sort of censoring one's reading material. What does Awareness think about that?

COSMIC AWARENESS:

This Awareness indicates that considering that it is the first time the entity has married, and the entity obviously has studied metaphysics for many years of his lifetime, he is probably well saturated and hopefully understands the basic premises and messages from this Awareness so that perhaps he does not feel he needs to further study anymore in this regard.

It is likely that his primary focus now is on the new adventure, something he has never experienced before, a close personal relationship with another entity. This Awareness indicates that it appears the entity wants to put everything he can into this new venture, to make sure that it works out well, that he does nothing to offend her, to cause a problem in their new relationship.

This Awareness indicates that being a person yourself, (referring to Avaton) who has had much experience in terms of marriage, you can understand the potential flaw in giving too much to a marriage whereby the entity might experience a later resentment or feeling of having been used or sacrificed too much and expecting some kind of miracle response from the partner, and you can see that this might be more hazardous to his marriage than if he stuck with his personality and lifestyle as it is and let her make adjustments to him, even as he makes adjustments to her.

This Awareness indicates, however, it is understandable, since the man has never been married before that he is embarking on this new venture as though it were a total change in his life and most likely, it will be. This Awareness indicates that hopefully the entity will not forego too many of his own personal qualities and values and hobbies in order to make the marriage work for he will find after some time that he is nothing but a servant to her, catering to her and getting nothing in return; at which time he may find some very strong resentments.

This Awareness indicates that time will tell, and perhaps the entity will not find himself giving away too much of himself too soon.

Can We Do Anything Once We Are "Saved and Forgiven by Jesus"?

QUESTION:

Another question from D.S. Hoon Jr. I think Awareness has covered this already, but I'll read it. He writes: "Our preacher, Presbyterian, constantly harps upon the subject that since we are "saved" and forgiven, that there is absolutely nothing that we can or must do toward our salvation and that it has all been done for us by His Saving Grace.

"To me it doesn't seem right that I should be able to sit back and get a free ride and not be required to do anything on the plus side. Or, what if I did some things on the negative side? Would this thesis still hold?"

COSMIC AWARENESS:

This Awareness indicates that it is not correct that a person can be saved, and then go out and do all of the negative things that the entity wants to do, or can dream of doing and not have salvation affect it. The entire action of salvation is based upon constant surrender to the Divine Force, and you cannot constantly serve God while also serving the Dark Forces, in doing Dark deeds.

This Awareness indicates that indeed, even if your salvation is assured, as taught by these tenets of the church you belong to, even if your salvation is assured, doing good things for others is not going to harm your future karma, your actions of self-improvement, or the gains you might receive just for doing things for others.

This Awareness indicates that it is said: "Good works do not save entities; that only devotion to Christ will save entities", in this kind of teaching, and if entities buy the premise that this is so, then they can further argue that being good or being negative in their behavior as long as they give their lives to Jesus and accept salvation, but most entities think it is a one-time thing.

How Awareness Sees "Salvation"

All they have to do is to be saved once, and then they can go out and, according to this teaching, do anything they want, negative or positive, and nothing matters any further. It appears that this is the message your minister is giving, and it can have some appealing factors to entities. This Awareness indicates, however, that this Awareness sees salvation as not something that comes from a onetime devotion or loyalty or promise, and followed by a life of debauchery or whatever, but of a process of continual surrender to the Highest, so that you give yourself not just today, but eternally, to the Divine Forces.

This Awareness indicates that some of the Fundamental Christian churches promote the concept that one can backslide; this meaning that you can have salvation today, but that if you do not follow the examples of Christ, that you turn your back on God, if you turn back and delve into Dark Forces or Dark behavior, then you can lose your salvation and need to be re-saved.

This Awareness indicates that this does make sense, for if you give yourself to God and then turn your back on God and become a Satanist, are you still saved, even though you have totally backed away from your salvation? Even though you've denounced it? This Awareness indicates that you must think this through carefully, if it is important to you, and you will see that it leaves much to be questioned in this concept as to whether you can be saved once and never again need to care about how you behave.

This Awareness indicates of course the premise is that which may not be accepted by everyone, particularly those who recognize or believe in reincarnation, for if one is saved in one lifetime, and reincarnates several times further, does that salvation continue to hold, even in future lifetimes, when the entity might become extremely evil, or vice versa? If one devotes his life to negativity, for example, Satan worship, in one lifetime, is the entity condemned to Satan worship in all future lifetimes, or could the entity perhaps undergo change and perhaps become Christian?

This Awareness indicates that adding the element of reincarnation can make the subject even more complex and require still further thinking. This Awareness indicates perhaps this is why the Christians under Constantine removed all references to reincarnation from the Bible, or at least attempted to.

Can People Be FAXED From Phone to Phone?

QUESTION:

In another area, Biagio Conti writes: "There was a recent article that said an inventor discovered a method to "FAX" people from phone to phone. After years of investigating alien information, I can believe anything! Is there any truth to this story? My first response would be that the military would confiscate it to be used for war purposes as opposed to developing civilization."

COSMIC AWARENESS:

This Awareness indicates that the terminology: "FAX-ing people from phone to phone" is totally erroneous. This Awareness indicates conceivably it is possible and indeed it is quite likely that the time will come wherein the molecules that make up a human being, the atomic patterns that are present in a human being which all are made from vibrations and frequencies, could somehow be capsulated and encoded electronically, to be transported into another place and reassembled.

It is likened unto the concept of a teleporter. This Awareness indicates that in the Star Trek series, they have this type of mechanism. This Awareness indicates it is indeed probable that this will be developed. It does not see that this has been developed yet. It does not see that this is yet a manifested reality, but that it is in its conceptual stage, which, with development can become a reality in the future.

HOW THE COLD WAR AND NUCLEAR BOMBS WERE ALL A HOAX

QUESTION:

A question, or questions from John Snyder, Pacifica, California. It's a rather long letter. I'll read it in order to get to the questions. He writes: "As far back as 1988, before the collapse of Communism and the end of the cold war, I had received in meditation some rather strange ideas. I often wondered if these thoughts came from my own inner contact with Cosmic Awareness.

"At that time, news stories were often published or televised which describe the enormous number --tens of thousands--of nuclear weapons possessed by the United States and the Soviet Union, said to be enough to destroy the earth twenty times over. Horrendous scenarios of destruction were envisioned as the consequence of the use of these weapons.

"The arms race was pictured as keeping us on the brink of a worldwide fiery holocaust that would destroy all or most of the planet. Everybody lived under a constant cloud of fear that these weapons would inevitably be used, since we were frequently told that no weapon in history had been developed that was not eventually used.

"Many people had the attitude that there was no point in planning for the future, or bringing children into the world because we were all going to be blown up anyway. It was in this climate of doomsday thinking that I began telling friends about my belief that there were no vast arsenals of nuclear weapons in the U.S. and the USSR.

"I believe that *some* nuclear weapons did exist, as we have seen many pictures of test explosions, but these were mainly used to reinforce a deliberate program of deception and terror to justify the extortion of vast sums of money for the nuclear arms race; that most of the bombs and missile warheads were dummies, designed to deceive the military personnel charged with their keeping.

"Dummy warheads could be produced at a fraction of the cost of real H-bombs, so much of the money appro-

riated from the defense budget could be siphoned off by the entities responsible for the deception. Conspiracy buffs know that the Soviet Union and the United States were secretly controlled by the same entities: the hidden government, and it was not necessary to have real nuclear weapons aimed at each other, since they never intended to use them anyway.

"They only needed to promote the *belief* in vast nuclear arsenals to justify huge expenditures of money in the name of defense. It would not serve the purposes of the hidden government to destroy the planet which they also inhabited, and which they sought to control. But it *would* serve their purposes to create a climate of fear whereby they could justify extorting vast sums of money from a terrorized populace.

"What does Awareness have to say about all of this? Was the image of huge nuclear arsenals and the Domsday scenarios promoted by our governments and the media mostly untrue and the result of a conspiracy to deceive the people to keep them in a state of fear?"

COSMIC AWARENESS:

This Awareness indicates that the main purpose of the cold war was to raise money and the use of nuclear weapons as a threat was to keep entities in fear so that they would release their money through taxation and other means to allow the government to raise money. The raising of money had to do with the alien aspect, and this Awareness has discussed this at other times.

Much of the Money Went to Underground Bases

The underground network of tunnels and bases within the United States and around the world as that which has received a great portion of that collected money over the decades. The continued collection of money from people being afraid of an enemy with too many weapons, and need to catch up with the numbers, encouraged the masses to continue building more and more armaments by the continued payments of more and more money.

It was a money collection action sponsored by the super-wealthy, and it is also that which has put the United States in debt by trillions of dollars so that there can never be freedom for the people of the United States because of the debt that was made out of fear of these weapons. The questioner is correct, that most of these weapons never existed and that the whole thing was a sham to extort money from the peoples of the United States and from the people in the Soviet Union.

This Awareness indicates that it has been a great humungous scam against the people of the world, and that this may yet become reconciled. This Awareness indicates that there are murmurings and rumors of lawsuits being perpetrated against the Federal Reserve bank, and against certain forces of government to return the power to the people because of fraud in regard to the national debt.

There is much that may come out at some point. It is likely that much of this can remain hidden for many years, perhaps decades, but that at some point in the future, the whole story will come to light, and entities will become aware of how they have been duped on a grand scale. This Awareness indicates that the problem with this kind of situation is that time passing, obscures who is responsible, and whether those entities knew what was going on.

For example, how many of the presidents knew the cold war was a fraud, was a fake? Most of them probably believed the cold war was a reality, and that the enemy had enormous numbers of weapons. This Awareness indicates that there were of course those behind the scenes who knew the truth, but those behind

the scenes generally remained elusive and quiet and unknown to the masses and to most entities.

Therefore, they will be more difficult to find, when a true investigation into these matters is launched, if it ever is launched.

HOW TO PREVENT KARMA FROM UNPLEASANT RELATIONSHIPS FROM CARRYING OVER TO NEXT LIFETIME

QUESTION:

A question from Joyce Williams. She writes: "People we may have had unpleasant relationships with: former husbands, employers, parents and so forth; what can we do so that karma from these isn't carried over to another lifetime? Sometimes it isn't wise to contact these people directly."

COSMIC AWARENESS:

This Awareness indicates that it is only necessary to totally forgive the entity in the sense of not holding any hostile feelings and to wish the other person well, to recognize the other person may have been all right, but the combination of your own energy and that other person's energy just didn't work well together, likened unto two chemicals that don't work well together, and to see yourself and that person parting ways without remorse, and without a need to get back together to work things out or to get revenge for anything else.

This Awareness indicates that with this kind of attitude, the "Ta-ta! I'll see you later!", or "Good luck! Godspeed! But *don't* come back!"; with that kind of attitude, you are not likely to have to return and work out karma again in a heavy way. You may meet the entity in a future lifetime, you may have a brief encounter, but unless you start something over in a karmic sense, you are not likely to need the full trip with the entity again.

This Awareness indicates that most people whom you meet in this lifetime, you have already met elsewhere in other lifetimes, and have had karmic relationships with them, but you also should recognize that most people you meet in this lifetime, do not develop deep relationships with you. They generally remain casual and pass quickly.

This Awareness indicates that these are examples of situations in which the karma you had with someone may have been generally worked out in a previous lifetime with only echoes of it carried over into this lifetime, and you do not get involved with these entities in this lifetime because you have already experienced the involvement and you subconsciously know that another deep involvement with this entity can lead to serious karmic problems resurfacing, before you pass on and let the entity go his way, and you yours.

This Awareness indicates in other words do not feel it is necessary to work out all of your karma with an entity so that you become close friends again, just because you don't want to carry the karma over into another lifetime. This Awareness indicates when you are incompatible, you are generally incompatible regardless of how much you try to make things work, and to go back to a former husband whom you were incompatible with in order that you try to patch things up, to get along, to become compatible so that you do not have to carry over the negative karma into another lifetime, would be most futile and would probably create more karma in this lifetime than is necessary.

The likelihood is that whatever karma you worked out, whatever conflict you have in this lifetime, is not likely to carry great energy into the next lifetime, if you can

break it off so that you yourself are not still harboring a grudge, carrying a torch or holding some kind of an extreme hostility toward this person so that the person is still part of you emotionally or psychically as you move on through life.

This Awareness indicates that most children who have great hostilities toward their parents, even though their parents may have died, and who carry this hostility toward their parents on through their lifetime, may have a karmic reoccurrence in a future lifetime wherein they are tied in again with that parent, but there is no need for an entity to carry hostility, especially after the parent has died or after you have left home. You do not need to keep carrying that hostility toward your parent beyond the relationship.

So, when the relationship ceases, the hostility can also begin to diminish and you can become free of any karmic tie to the entity. This Awareness indicates that this would be the approach you would want to take to diminish any carry-over karma into future lifetimes.

Any Karma if You Change Your Sexual Gender?

QUESTION:

A question from Fern Glasscoe, Ocean Shores, Washington. She writes: "Well, I don't know why I watched this particular show on Joan Rivers, but here goes! There was this couple: a woman, had changed herself to a man and the man had changed his sex to female. If this is their wish, then so be it. I have no quarrel with what one does with his or her lives, but I am curious to know how it will work out after this life."

"What is the karma, if any, for those who change their sex. When they cross over, is there a sorting out as to who this person really is?"

COSMIC AWARENESS:

This Awareness indicates that the mind is the builder, and if the entity has such a strong feeling and self-identify as a person of the opposite sex so as to have the operation that changes his or her gender, the likelihood is that the entity's mind would then perceive themselves to be that of the opposite gender which they have become through the operation, and upon passing over, it is unlikely that they would mentally return to their old sex, but more likely that they would retain their new sex in their mental image of themselves.

This Awareness indicates, therefore, the likelihood is that they would probably continue into the next life as a member of that sex which they had prepared for. This Awareness indicates that often when entities enter into a body with a conflict in regard to their personal sex or gender, the cause is based on psychic confusion, wherein the entity can't really make up his or her emotional mind, emotional determination as to what gender he or she really wants to be.

This Awareness indicates that sometimes an entity is generally well-balanced between the two genders, has certain feminine qualities and has certain masculine qualities, and the entity may become confused as to whether to keep the masculine physical form, or go for the feminine physical form, and in that confusion, rather than getting it settled prior to birth, they enter into the physical form while still having emotional turmoil about what sex they really want to be, and this can lead them to experience a resentment toward the sex they have been given, at some later time in their life, particularly if there is some kind of environmental influence that also affects them, so that they want a change in their gender.

They do not feel comfortable, perhaps as a man or perhaps as a woman, because of some aspect of their personal life. Perhaps they do not feel pretty enough to

be a woman, and think they would be better as a man, or perhaps as a man, they do not feel manly enough or aggressive enough and feel that they would rather be a woman so that they do not have to prove themselves as a man.

Therefore, they may wish to change their given sex to that of the other gender. This Awareness indicates that in this sense, the environment an entity finds himself or herself in can have a strong influence on their preference after they have been born to the other sex or gender. This Awareness indicates therefore, when entities come in to physical form, it is good if they have a strong inclination toward one sex or another, rather than feeling uncertain at the time of their choosing of their gender.

This Awareness indicates that it is not so much a problem of karma as a problem of being nondescript or being confused in that regard. This is that which occurs particularly in the womb, while the sexual determination of the fetus is still being formed physically.

Do "The New Jersey Devils" Really Exist? (Their Story Appeared on TV's "The X-Files")

QUESTION:

A question from Ralph Prokopy, Westminster, Colorado. I'll ask his question, although he's assuming this TV show is an honest portrayal. He writes: "A new TV show, 'The X-Files', had a story about the New Jersey Devils. They were white Homo sapiens existing in the pine barrens of New Jersey. They wore no clothes, used no tools or fire. They are extraordinarily strong. Who are they?" (he asks)

"They are not Neanderthals. Why are they so strong? Are there any more? The two in the show were killed." He's assuming the story 'The X-Files' is not fiction, obviously.

COSMIC AWARENESS:

This Awareness indicates that it appears these entities were indeed real. That there was a total isolation of these entities from human contact when they were young, that they stayed away from human contact. It appears there was an underground residence. This may have been in a kind of sewer-like residence, or deep in some kind of cavern and that these entities remained in those areas throughout most of their childhood and adolescence. It appears these entities were abandoned in those areas.

This Awareness indicates that they rarely ventured out, and only at night, and only to get food. They had qualities more likened unto animals than human, because their emotions and their mind were not developed as human, but they did have inherent intelligence to learn from experiences, and it appears that these entities began to venture out more as they became older and to find food in garbage and in other places.

It appears they eventually even learned to kill small animals and humans for food. This Awareness indicates that these entities appear to have been abandoned as very young children, locked away in some underground place where they were only able to escape by going deeper into the caverns or sewer-systems. They totally forgot how to speak. The one could not speak at all, the other barely could speak as children, and the speech that was available to the one was soon forgotten as these entities lived deep in this cavern, in these underground sewers or caverns.

FOLLOW-UP QUESTION:

Approximately when were they first there?

COSMIC AWARENESS:

This Awareness indicates that the ages appear to be approximately 1 and 1/2 and 4 years of age.

FOLLOW-UP QUESTION:

Is this the original colony of these entities, or do they reproduce themselves?

COSMIC AWARENESS:

This Awareness indicates *It* does not see that there was a colony. *It* sees that there were simply two entities abandoned and they stayed together out of necessity. It appears they were brother and sister.

Keep Negativity Out of Group Energizing (Fragile Energies Are Involved in Manifesting)

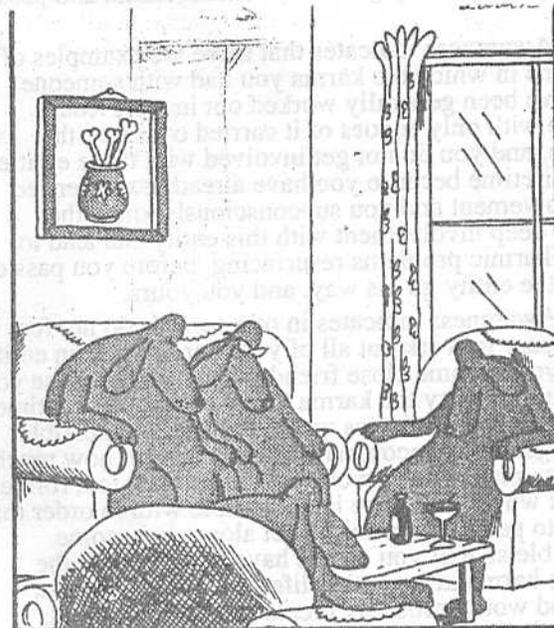

CLOSING MESSAGE:

This Awareness indicates that in the process of energizing from a spiritual sense, the energies that entities give toward a project are very fragile, particularly in the early stages and must be given with great care. When there are efforts by numbers of entities in energizing something, if even one entity throws in a negative remark, the entire field of energy that has been generated may be shattered.

Therefore, when you work together to manifest or energize something of value in terms of your Light Work, it is very important to attempt to keep those forces of negativity from working through any of your group. The negative powers look for the weakest link in the chain. Usually it is someone who drinks heavily, uses drugs or sometimes a child or teen-ager who begins to serve unwittingly as a channel for negative forces, or it may be someone who is envious, hostile, or bears a grudge and these are the types of energy-conduits that the negative force sends its negative message through, to disrupt or destroy the efforts of Light Forces to manifest something of importance.

This Awareness indicates that it is important for entities to understand this so that there can be some protection toward the manifestation attempts. Otherwise, all of your efforts can come to nothing. Even though you may have great potential and great opportunity, they may amount to nothing if the Dark Force energies destroy the energy built for the manifestation, or even if the timing is disrupted by these Dark Force energies.

THE CURSE OF KING TUT'S TOMB

QUESTION:

There was an interesting article in the paper the other day. It's sort of a post script to an article on Howard Carter, the man who discovered the tomb of King Tutankhamun. This post script says: "The Curse of the Mummy. The discovery of Tut's tomb in November 1922 was a godsend for those in search of mystery, black magic and death. King Tut's curse was born with the death of the Earl of Carnarvon April 6th, 1923, from the effects of an inflamed mosquito bite.

Carnarvon financed archaeologist Howard Carter's trips to the royal burial grounds for almost 20 years and joined him in the treasure-filled room of Tutankhamun. Two weeks before Carnarvon's death, novelist Marie Corelli said: "Dire punishment follows any rash intruder into a sealed tomb." Enter King Tut's curse and death by association.

Every spine-chilling rumor was avidly reported. A sandstorm appeared as the last man climbed from the tomb and into the sunshine. A hawk appeared heading west--the spirit of the Pharaoh cursing those who have violated his tomb. A cobra swallowed Carter's pet canary on the day the tomb was opened. In ancient Egypt a cobra symbolized royal power.

Cairo's lights went out the instant Carnarvon died. At the same time, in England, Carnarvon's pet terrier Susie, howled and dropped dead. Doctors examining King Tut's mummy found a scarab-like depression on the left cheek, corresponding to Carnarvon's mosquito bite.

Carter, who died quietly at 64, scoffed at the idea of a curse, saying: "All sane people should dismiss such inventions with contempt."

Could Awareness comment on that?

COSMIC AWARENESS:

This Awareness indicates that there are a list of every-day occurrences that might have occurred in New York city after someone opened a vault of diamonds, if there had been someone around to look for these things. This Awareness indicates that these things could be simply coincidental. There is no evidence that these were tied in any way to the so-called curse of the opening of the tomb.

This Awareness indicates that if one seeks to find something, one generally finds evidence of it. The trick is to try to find some way of making it appear that any event of a negative nature is somehow linked to the event in question.

Thus, if an auto accident occurs outside the bank when you open the box of diamonds or the safety deposit box in which the diamonds are stashed in the bank, and if someone says there is some kind of curse on anyone who opens such safety deposit box and it is released for the press to print and then you have reports coming in from all over the city because of that press release, you may find that there are all kinds of negativities happening around the city, precisely at the time the safety deposit box was opened.

It could be that some of these events even have some linkage to the safety deposit box opening. Perhaps a person who is involved in some negative event knew the person who opened the safety deposit box or knew the clerk who gave him the key, and such coincidence would appear to be part of the curse. It would be part of the proof or evidence that there was some kind of truth to the curse.

This Awareness indicates that there are so many ways whereby one entity can be linked with another, or one thing can be linked with another, because, take for example, *one* individual. That one individual must have millions of connecting points to the world outside of himself, and if this one individual, having millions of connecting points to the world outside is somehow linked to one of those events that occurs outside, it then becomes evident that the entity and the event must be connected.

This Awareness indicates that it is like saying: "I used this particular gel on my face, and 14 days later I met the man of my dream!" This Awareness indicates the gel may have had nothing to do with whom you met 14 days later, but because you say it in the same sentence, the implication is that there is a connection.

This Awareness suggests that if you say: "I dropped a nail on my shoe and 4 days later my grandfather died!", you can see obviously that there must be some connection between dropping that cursed nail and the death of your grandfather even though it may not be clear what the connection is. There surely is a connection because both of them occurred in the same sentence.

This Awareness indicates that it is so easy to make implications where implications do not actually belong, and most advertising programs use this kind of implication effectively because it works with the human mind. "I used Palmolive soap, and had a wonderful date that evening!" The fact that you used Palmolive soap and had a wonderful date may have no connection whatsoever. You might have used some other soap and still had a wonderful date.

Or, it's possible you could have used Palmolive soap and perhaps not had a wonderful date at all. The use of Palmolive soap does not guarantee a wonderful date, but because it is stated in the same sentence, there is an implication that the one caused the other.

It is the same with the curse of Tutankhamun, because someone died of some bee sting or bite of a fly or something of this nature within days after the opening of a tomb does not prove that the tomb was the cause of the death or was the cause of the fly biting the person. This Awareness indicates that these connections are made by the mind to make implications that may not have any connection at all.

This Awareness indicates that the mind likes to link things and it always buys into things that are linked, and assumes that since they are linked, there must be some reason or connection between them. In fact, the linking is simply created by another mind in verbal form or written form that carries over to the other minds who read it.

This Awareness indicates that It does not see that there was any curse involved in the opening of the tomb, even though people died after the tomb was opened. They should also realize that people died *before* the tomb was opened. It is possible that there were deaths, if anyone wishes to research this, that there were deaths within days before the tomb was opened.

It is also possible that if one were to have said: "The opening of this tomb will assure that many people who were destined to die will now live longer lives!" and if entities bought into that, they could find evidence that there were entities living longer lives simply because they helped to open the tomb.

This Awareness indicates evidence by implication, spoken, written implication, is not proof. It may simply be illusion caused by suggestion.

How Come All Involved Met Violent Deaths?

FOLLOW-UP QUESTION:

And yet, over the years, there has been documentation to the effect that *all* of the principals and, if I recall correctly, almost *everybody* involved in that operation eventually met a violent death of some sort or another. Was this just coincidence as Awareness just described?

COSMIC AWARENESS:

This Awareness indicates that this opening occurred in the early Twenties and this is not clear; that it appears this opening occurred in the early Twenties. It is possible that it occurred at some other date. This is irrelevant, except that it occurred quite some time ago and all of the principals involved aged and would have died anyway, and to argue that there was a connection in their death and the opening of the tomb is stretching and reaching for an assumption.

This Awareness indicates that there are a great number of people who die violent deaths or strange deaths in one way or another. Actually, to be bitten by a fly and to get some kind of disease from this is not exactly a violent death. It is unusual, but to say that these entities all died violent deaths and therefore, did not die peaceful deaths or natural deaths implies that some curse forced them to die a violent death.

This Awareness indicates that it should be understood also, that people who are involved in adventurous type of occupations in foreign countries, digging into tombs, may be more inclined to die a more violent or unusual death than those who sit at home or go to work and come home and sit in their armchair on a daily basis, living a more sedentary life. Such entities die of heart attacks, or of possibly getting run over on the street, or some other city-type of accident or violence, or they may die of cancer.

This Awareness indicates that one would have to look at the list of how these participants in the opening of the tomb actually did die; to determine whether the statement that they died violent deaths is truly accurate, for it could well be that they died as a group, they died the way many groups in the area or in that occupation, would have died normally.

This Awareness indicates that if any of these entities died of a heart attack or of cancer, would that classify them as having died a violent death? And if so, what is so unusual about that kind of death compared to the deaths of other people in the general walks of life?

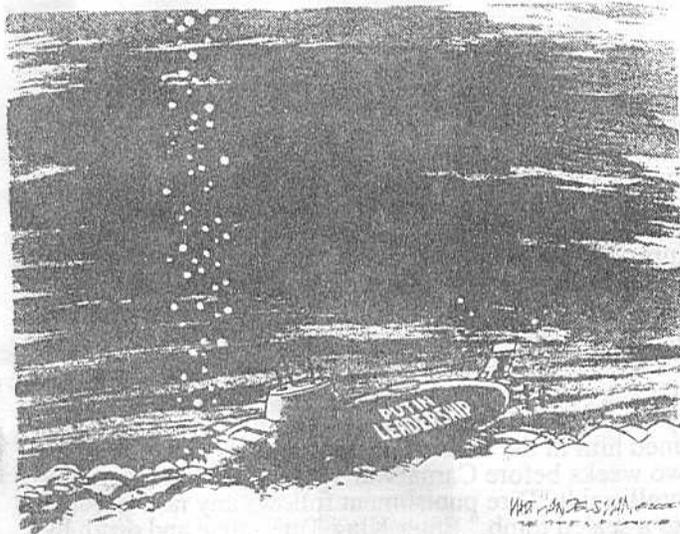

This Awareness indicates *It* does not see that this was anything unusual, even if there might have been some greater degree of violent deaths for the number than in the mainstream of society. There are probably a number of other groups of people who have unusual or violent deaths percentage in their ranks, even though they did not open the tomb.

This Awareness indicates *It* does not see this curse as having been real.

THE RUSSIAN SUBMARINE TRAGEDY

QUESTION:

At this moment, there are over a hundred Russian sailors trapped in a Russian submarine in the Barents Sea near the Arctic. It's a nuclear submarine with warheads and so on, and the Russians have said the chance of having a happy ending is not very high. They said the sub was involved in a collision, but it doesn't say with what, and so far they have not asked for help from the United States, which does have equipment that could help assist getting those sailors out of their submarine, and they claim they've only got hours to live because of the air supply. Does Awareness have any insights on that situation, what caused it and possibly how it will come out?

COSMIC AWARENESS:

This Awareness suggests that probabilities continue to unfold continuously as each entity makes individual creative choices which lend toward one solution or another. This Awareness suggests, however, that this event is yet one more manifestation of the changes occurring in the public consciousness, specifically given the relations between the former Soviet Union and the United States.

This Awareness suggests that after years of the cold war tension, wherein each side scrambled for power in a win/lose posture against the other, wherein the build-up of nuclear arsenals reached serious as well as ridiculous proportion, that the turnabout of events where the economic realities forced the collapse of the Soviet Union, opens the opportunity for cooperative relations to commence.

This Awareness suggests that playing out the previous patterns of superiority, isolationists, and judgment regarding their communal approach, that the United States has missed opportunities to develop stronger relations regarding the economic crisis of the Soviet Union.

This particular event is yet another opportunity for the United States to step up to its leadership role and instigate cooperative efforts which can negate the perception of alternate countries recognizing the imperialist and aggressive nature of the United States as the only country to have aggressively used nuclear weaponry.

This Awareness suggests that it is the responsibility of the United States to rectify this mistake and send a clear message that it is interested in cooperative unified

solutions and in connected brotherhood with other communities in the global environment. This Awareness suggests that there shall be interventions to the degree that better relations will result.

This Awareness suggests that it is no accident that it is a nuclear vessel at issue, for it is the nature of defense, power and the ripples of continued emotional dissonance between these brother nations which can now set the course for a cooperative global community.

If we have completion we can continue.

FOLLOW-UP QUESTION:

What did the Russian sub collide with to cause it to sink?

COSMIC AWARENESS:

This Awareness suggests the energies of mechanical and human error with the specific details far less salient and important than the meaning within the event and the opportunity and the spiritual calling for which it stands. If we have completion we can continue.

Ed's Note: A few days after this reading was given, British and Norwegian submariners reached the Russian sub and discovered massive damage had caused the sub to sink almost instantly. There had been no collision. Evidently they had tried to launch a missile and something backfired and exploded, suddenly causing the sub to become flooded and sink. None of the sailors survived.

WHAT CAUSED EGYPT AIR FLIGHT 990 TO CRASH?

QUESTION:

Last Halloween, when the EgyptAir flight 990 crashed killing everybody on board, it was assumed from the voice recorder that the co-pilot there had deliberately crashed the plane. Egypt immediately denied this, saying instead it was a mechanical failure on the Boeing plane, and no failure has been found. Recently, the FBI focused on the co-pilot and they released taped information that during the last few minutes, the jet had been flying without problems on auto-pilot.

At 1:48 AM, the captain says: "Excuse me Jimmy, while I take a quick trip to the toilet." Some 45 seconds later the auto-pilot was disconnected, and co-pilot Gameel Batouty, says for the second time, "I rely on God." A master alarm can be heard sounding in the cockpit. Batouty utters the phrase, "I rely on God" nine more times before the captain can be heard again on the tape, having returned to the cockpit. "What's happening? What's happening?" he asks.

"I rely on God!" Batouty says, twice more.

"What's happening Gameel? What's happening?" the captain asked.

"I rely on God!" Batouty says.

"What is this? What is this?" the captain says. "Did you shut the engines?"

About 7 seconds later the captain says "Pull! Pull with me! Pull with me! Pull with me!"

The transcript ends there. Now that sounds pretty clear, if this is true information, that this co-pilot did deliberately crash that airplane, for whatever reason. It sounds like there is a religious connection. Does Awareness see this as being valid as a reason?

COSMIC AWARENESS:

This Awareness suggests that there was indeed human intent involved, intent that was not a very accurate reception of the creative intention of the entity involved.

This Awareness suggests that questions of faith had plagued this individual, for specific tenets set forth within the prepackaged belief system created dissonance within this individual to the degree of a fracturing between aspects of the personality, part of which exhibited undying and unimpeachable faith, yet a fractured portion struggled with neglected self-needs and specific injustices which created fear, anger and deep sadness.

This Awareness suggests that this event offers an example for the world to examine belief structures and to acknowledge the difference between conceptualized faith driven by fear and the legitimate feeling of faith in the meaning of each event, faith and the empowerment of the creative will, and faith in the guidance readily available within each and every feeling signal. If we have completion, we can continue.

Ed's Note: It appears the co-pilot's sexual nature was in conflict with the strict tenets of his Muslim faith as the FBI report detailed allegations about Batouty when he stayed at a New York hotel with other crew members during layovers. A hotel security guard said Batouty was "a constant problem" and that he was suspected of following teenage girls in the hotel and exposing himself in a hotel window. The incidents happened on several occasions during layovers. At least 10 hotel workers interviewed by the FBI linked Batouty to lewd acts. In one instance, a maid claimed Batouty propositioned her as many as 20 times, most recently the night before the crash.

Been Feeling Like You Are Dying?

(Doing the Past Life Review Now While Alive)

QUESTION:

A question from Lillian Boothe, Clarkdale, AZ. She writes: "Have you had any members say they have experienced episodes in which they feel as though they are dying? It has been happening to me for weeks, and I am having this life recall, in which I'm for all of this period of time remembering my entire lifetime, a bit at a time, plus a wave of energy seems to collect in my solar plexus.

It has occurred to me that if we're going through the 4th dimension alive, without the body dying; is this the way, or a way to buy a ticket to cross the barrier? Doing the past life review while alive? We're always "alive," but without dropping the physical carcass. My contract doesn't expire until 2009." She adds. "Thank you for listening."

COSMIC AWARENESS:

This Awareness suggests that many entities do indeed experience what has been described, but that it might more accurately be identified as a successful refocusing of consciousness in one of the many mobile directions and dimensions into which consciousness can venture.

This Awareness suggests that this entity has indeed globalized her consciousness, although perhaps inadvertently, to an outermost or innermost, depending on perspective, of the present personality structure, wherein time has begun to collapse in a specific manner that encapsulates the personality's incarnate experience.

This Awareness suggests that upon the transition, the valid death experience, that such an encapsulation and a re-experiencing within one specious present moment, the life experiences, do indeed occur, as the personality, its memories, its experiences, its qualities and characteristics becomes encapsulated and relegated into the recesses of the larger personal wherein the entity can then select another incarnate experience, or, depending upon its abilities, venture into alternate existences.

This Awareness suggests, however, that when entities experience such projections and mobility's of consciousness, that they not be overly concerned that they are indeed about to die. As the entity mentions, she recognizes that her ticket shall not be up for approximately 9 more years, and this faith and assurance in one's empowerment and choice of control, indeed makes it so.

If we have completion, we can continue.

HEALING BY LAYING ON OF HANDS

(Is This a Gift Or Can Anyone Learn How To Do It?)

QUESTION:

A question from David LeVasseur, Fair Oaks, California. There's a number of questions in it. I'll read the statement and then re-ask any questions that Awareness requests. "Awareness has said that healing the sick is one reason for being on this physical plane. Considering the expansion of consciousness being experienced on the planet and the acceptance of alternative forms of healing, should we be seeing more and more people practicing the art of laying on of hands, and/or therapeutic touch therapy accessible to the many throughout this country?"

"Is this an example of the healing reasons? A person's sense that this is what they would like to do for others, as I myself do; is this something that needs to be learned? A belief in oneself? What barriers of self must one conquer to gain this ability? I have heard of others acquiring their "gift" only after an accident of some kind to their physical bodies, such as a lightning strike.

"Can anyone with a desire be expected to gain this ability, or is it something that you bring with you into this life? Can Awareness discuss this subject?"

COSMIC AWARENESS:

This Awareness indicates that first one must consider the laws of the land and what is allowed under the law in terms of the healing arts for there are some states that are more restrictive than others and there are some states that require certain types of healing activity to be licensed after vigorous training and schooling, and depending on the type of healing that an entity may wish to engage in, the entity needs to know whether or not he or she is breaking a law.

Some States See Laying On Of Hands as Being Fraud

This Awareness indicates that the laying on of hands, even if an entity is effective, in some states can be seen as a kind of fraudulent activity and the entity might find himself or herself in trouble with the law for this kind of activity, especially if the entity does not have credentials such as a ministerial certificate, or training in some form of divinity school or of a nature that allows the entity to practice his art.

This Awareness indicates that in others words, one cannot simply go out and put up a shingle and say, "I am a spiritual healer! I heal people by my art!" and expect not to be harassed by local municipal, county, or state or federal authorities. This Awareness indicates that there are certain limits and certain limited expressions that an entity may be able to do that will not bring down the wrath of authority.

Becoming a Minister Offers Some Protection

This Awareness indicates as a minister, you have some protection under the religious laws of the land. How long these protections will last is uncertain. Things have tightened up considerably since the reading was given admonishing entities to heal the sick. This Awareness indicates that even still today, however, within certain restrictive boundaries, entities can help to heal each other through the various healing techniques given by this Awareness.

This Awareness suggests that you wish to study these healing techniques: the charismatic healing, the sacramental healing, and the other types of healing as given by this Awareness; that many of these are still valid and can be useful, particularly if you do not make a big show

of it, if you do not step out and charge fees for your healing.

This Awareness indicates if you receive a donation, that is generally acceptable, but if you set out to charge fees for healing others without being licensed as a medical or professional health practitioner, you are likely to run into trouble with the laws of the land. This Awareness suggests that therefore, you may wish, rather than to think of yourself as a professional or commercial healer, as instead being one who helps others within the law in a way that assists them without promoting yourself as a professional, or commercial healer.

In other words, you do not do it for pay. This Awareness indicates if you are going to do it for pay, you need to be either licensed or have a minister's credentials so that you are working within the law. This Awareness indicates that the laying on of hands requires an entity learn how to use the energy flow that is available to all entities in the right and left hands, whereby this energy can be strengthened or built between the right and left hands to become stronger so that the energy can flow when these hands are placed on the patient.

This Awareness does not wish to go through these techniques again as this has already been given some twenty years ago and is still valid, and the details are still available to entities who wish to study these healing techniques. This Awareness indicates that *It* does wish to say, however, that there are more ways of healing the sick than treating the body alone.

Lots of Ways to Heal Others Without Laying on the Hands

You can heal entities psychologically, you can heal them spiritually, you can heal them socially, and in dealing with their immediate traumas, you can help them to heal themselves. This Awareness indicates in some instances you may find that healing them financially heals their physical problems as well, particularly if the physical problem is based on stress caused by the financial problems.

This Awareness indicates that likewise, healing entities in terms of their relationship needs, helping them to find answers to their questions or relationship problems can ease stress and emotional problems so that the entity will also find healing of physical reaction to that emotional stress.

This Awareness indicates the whole of an individual, when traumatized in one area, may have traumatic effects in other areas, so that the healing of one particular area may also heal other areas. The healing of one's attitude or mind or emotions or social life may have an effect on the entity's physical well-being also.

Considering this, there are many ways to heal entities, and to make life more comfortable for them. The idea of healing has to do with bringing them into balance and harmony and when you can assist an entity to find harmony, you have healed them in that degree, and in that manner.

Teaching Those Who Do Not Know Is Extremely Important

This Awareness indicates that *It* has stated that entities heal the sick, teach those who do not know, and to show by example, the force of creative love. All of these are important. This Awareness indicates that teaching those who do not know is likewise important and particularly teaching those who wish to know is of considerable importance.

This Awareness indicates you may find it an awkward task, teaching someone who does not know, particularly if they do not wish to know what you have to teach them, and it is often better not to push your knowledge

onto someone who is uninterested in what you have to teach.

Spiritual Healing Manual From Awareness Still Available

It is better that you share what you have with those who wish to learn from you. This Awareness suggests that you request information relating to the book of healing given by Dr Ralph DUBY in the 1960s, available through Cosmic Awareness Communications. That there are three or four healing techniques listed there. This Awareness indicates that there are other techniques given through this entity when he served as Interpreter for this Awareness, but many of these are restricted for use of ministers.

This Awareness indicates that you may wish to think about becoming a minister of Awareness if you wish to follow through further into the study of the various healing techniques.

FOLLOW-UP QUESTION:

Most people can gain this ability, can they not? It's not something that you bring with you into this life necessarily?

COSMIC AWARENESS:

This Awareness suggests it is something that can be learned through practice and through following the techniques that have been given by this Awareness in the earlier readings as presented in these books. This Awareness indicates that the techniques are defined clearly; that entities practicing from the books can learn the techniques. Once they learn the techniques they should then stop thinking in terms of the directions and simply start practicing the action and focusing on the attention to the energy that they are moving, and then it becomes a matter of directed consciousness to bring energies in through the body, through the hands, into the patient.

This Awareness indicates that in other words, you first master the specifics through the instructions, then throw away the instructions, forget the instructions and work on the intuitive and feeling level as you perform the healings.

Ed's Note: The Spiritual Healing Manual is always available from CAC (\$3 plus postage). One of the techniques, Charismatic Healing, is highly recommended for CAC members, particularly if they have animals and children, for we have seen this technique work time and again and it is easy to master. In relation to the laying on of hands, even with restrictive laws, there are ways around them. Our chiropractor, for example, visualizes healing energy coming from above, and down through his hands, as he makes chiropractic adjustments on his patients, who are unaware he is doing this. Another chiropractor told me that healing of this type is actually being taught in the chiropractic schools these days.

THE ACTION OF BLESSING

(Is It Similar to a Function of Money?)

QUESTION:

A question from Jim Cloonan, from Austin, Texas. Maybe Awareness can see the question here. He writes: "Please ask Awareness about the relationship in so much as blessings are similar in function to money? Blessings can be felt as a displacement for negativity. Then you feel light and spiritual and loving." Is that a question?

I think the basic question is if *It* would discuss the relationship or discuss the action of blessing and is it similar to a function as is money?

COSMIC AWARENESS:

This Awareness indicates that this is likened unto seeing the concept of a blessing as metaphorical or paralleling the concept of money; that money is a form of wealth, is a form of stored energy that give you certain benefits or lightens your load and that blessings also lighten your load and give you certain benefits.

It is likened unto seeing the concept of a blessing as spiritual wealth, whereas the concept of money serves as physical wealth. This is a relatively fair evaluation in an allegorical or metaphorical sense.

This Awareness indicates that of course, the concept of a blessing is different for different individuals. For one individual it may mean good fortune; that God has granted a blessing which will represent good fortune. This Awareness indicates for another, it simply means that the entity is praised for something that has occurred as a result of the entity's action.

A Blessing Sometimes Is Like a Pat on the Back From the Lord

In other words, the entity does something good and the Lord blesses him for it. It then becomes likened unto a pat on the back from the Lord, and for that entity a blessing does not necessarily bring physical wealth, but does perhaps bring a healing of self-importance in the eyes of God.

This Awareness indicates that another entity might see a blessing as being a sign of encouragement and take the blessing as a kind of permission to continue in whatever direction the entity has moved, or whatever thing the entity is doing. In other words, one may bless someone for doing something and the entity then is encouraged to keep doing it. Again, this is more likened unto praise and encouragement.

This Awareness indicates that a great majority of people, when told they are blessed, or when asking for a blessing, actually seek some kind of special reward or favor for whatever it is they do to get the blessing, and thus, many entities seeking a blessing expect it to reward them for good behavior. In this sense it is interpreted metaphorically much the way money serves on a physical level as a payment for services rendered.

WHAT HAPPENS WHEN THE POPE BLESSES A CROWD?

FOLLOW-UP QUESTION:

Over the years I've seen in magazines and television at certain times of the year, thousands of entities pouring into the Saint Peter's Basilica, and anxiously awaiting the Pope to come out on a balcony and bless the crowd. What is accomplished for these entities when the Pope blesses them?

COSMIC AWARENESS:

This Awareness indicates that mostly it is a sense of well-being suggested by the action of a Pope blessing them. The blessing gives them the feeling that they are special and all right, whereas perhaps they were feeling unimportant and less than fulfilled or perhaps even useless and maybe filled with guilt about some action in their lives that they regretted, but when the Pope blesses them they feel honored and special and clean, for the idea of a blessing from the Pope means that they are spiritually acceptable and basically all right.

This Awareness indicates there is less supernatural power in this blessing than there is psychological power. The psychological power outweighs any supernatural power in the blessing. In other words, the effect is more of a psychological lift than actual spiritual and physical improvement.

How Do Masters Dematerialize Their Body and Teleport to a Different Location?

QUESTION:

A couple of questions from Dan Walters of Winter, Wisconsin. He wants to know: "How is an Advanced Master able to dematerialize his body and teleport to a different location? I do know the vibration is increased, but how is this actually done?"

COSMIC AWARENESS:

This Awareness indicates it is just "done." To ask how is to undo the ability to do it. If the Master asked how it was done, as though there were some kind of instructions, the entity would never be able to do it. This Awareness has described these things many times, and the descriptions cannot affect the event. You cannot describe how it is done any more than you can describe: How does one wake up in the morning? They just wake up!

This Awareness indicates there is no formula. It is a psychological act of consciousness, and when one can do it through the power of concentration and understanding of how their cells and the aspects of the atoms of their body all work together, they just *do it*. These entities themselves could not explain how they do it.

The Meditation of Disappearance Can Make Entities Disappear

This Awareness did give entities, in the past, the *Meditation of Disappearance*, and there have been a few instances in which entities use this *Meditation of Disappearance* and were able to effect a disappearance before the eyes of others, even though they themselves did not know they had become invisible to others, until later.

This Awareness indicates that all they were doing is going through the *Meditation of Disappearance*, the steps that were given by this Awareness, and they were told later that they had become invisible, even while being watched. One entity was told, "I saw you sitting out there, outside the hotel, on that rock meditating, and then you just disappeared!"

This Awareness indicates the entity himself did not know he had disappeared. All he knew was that he was sitting there meditating for about an hour. There have been other instances wherein entities using the *Meditation of Disappearance* passed by other beings unnoticed. Others did not know they were even present. The question may be asked: Were they really present? Were they just unnoticed? or were they truly invisible?

This Awareness suggests that the *Meditation of Disappearance* allows entities to change their vibration and the vibration makes them invisible to those who do not change vibration along with them. It is possible for entities who know that these beings are trying to disappear or practicing the *Meditation of Disappearance*, it is possible that anyone watching them and aware of this could follow the entity as the vibrations are changed, and not see any disappearance, because the onlooker would lock in on the vibrations, even as they move into other states or levels, and the entity would still be seen as physical.

This Awareness indicates, however, if the entity did not know that the meditator was practicing the *Meditation of Disappearance*, they could be staring directly at the entity and suddenly discover that the entity fades out of sight, out of view. This Awareness indicates that the same principle lies behind teleportation. It is very uncommon for entities to be involved in teleporting.

How to Teleport Your Consciousness to Other Places

The first thing is that entities must project their consciousness to another place so totally that they feel the other place around them and they see all of the details in that other place, and then they begin to experience their body materializing around their consciousness until it appears to be absolutely solid, much like a dream coming into solidity.

When this occurs, the entity is, to that degree, teleported, and will have manifested in that new place. This Awareness indicates that Krishnamurti was once asked a

question: "How do you do this thing?" The entity responded: "*How* is the most mischievous word in the universe. Don't ask how, just do it! Do it! Do it!"

This Awareness indicates that when it comes down to reality, eventually the mind, the consciousness of an entity does it without knowing how. If it is done, it is done by *doing*, not by understanding how. This Awareness indicates that none of these so-called magical things can happen simply by analyzing the "how," they can only occur by the action, not by thought, but by deed, and the action may not be completed on the first effort or the second, or the fiftieth.

Entities may have to practice, practice, practice, before they ever succeed, and even upon succeeding, they may not always be aware that they have succeeded in some magical feat, unless someone has witnessed it, or unless by chance they are perceptive enough to know when they have slipped from one area of reality into another.

How Does Power-Breathing Increase Vibration?

QUESTION:

Dan Walters has one other question. "How does power breathing in the triad position with palms open, hands out over the fourth chakra, eyes closed, increase vibration and cause transmutation?"

COSMIC AWARENESS:

This Awareness indicates there is the charging of oxygen into the system throughout the body into all of the cells. Oxygen contains light energy. The light energy is higher frequency vibration and gives the body its own increase in vibratory frequencies which in turn charges the chakras with greater energies and what you may call voltage, to make them brighter and stronger in their effect, and thus, the entire system becomes spiritually super-charged.

This Awareness indicates that this raises the consciousness of an entity to allow the consciousness to experience into higher vibrations and frequencies so that the limitations of the physical realm are diminished, and the spiritual energies of the entity are greatly enhanced.
