--- A Spaceship Probe Lands in Her Back Yard

Chapter 12 of the Book of Revelation is Explained

--- Do Entities Really Have "Free Will"?

--- How Does Evolution Take Place?

--- Why Cremation is Best

INDEX IS ON PAGE 8

WHY AWARENESS SAYS CREMATION IS BEST (Ramtha Says Cremation Terrifies the Soul)

QUESTION:

A question from Dan Walters which relates to the subject we were on in the last reading about cremation and so forth. He writes: "According to previous teachings, it was advised by Ramtha not to be cremated since the soul records this fire as terror, which would affect an entity in the next life.

"Awareness indicated previously that cremation is better for regaining former selves in issue # 79-12," he says, and he adds, "Not looking for inconsistencies, but clarification."

COSMIC AWARENESS:

This Awareness indicates that *It* has suggested the preservation of the body and particularly mummification and bodies that do not decay quickly cause the soul to cling to those cells of the body in part so that the soul does not regain its totality. This Awareness indicates that in other words, the soul, in moving on from one life to another may still have lingering claims or holds on the previous life because of the body which has not fully decayed.

Cremation Frees the Soul to Go On

This Awareness indicates a way to avoid this is through cremation and that the cremation of the body frees the soul completely to go on and do what it is to do according to its own new destiny. This Awareness indicates that the cremation of the body after most of the soul has left is not viewed as something of a terror. There is no brain to record pain, to experience pain. It is simply the release of the soul energy from the body through the burning process that is desirable.

This Awareness indicates the use of cremation as a means of burial and discarding of the physical form is a common practice in the Orient; that the Western world in seeking to hold on to the dead began the practice of mummification and the continued embalming action and effort to keep the body intact after death is but a continuation of this emotional need to hold on to the dead.

Embalming the Dead is an Emotional Illusion

This Awareness indicates most entities want their loved ones to remain physically intact after their death so that they can remember them and have the knowledge that they are *lying out there in the field in terms of their body and therefore, they are still with us.* This Awareness indicates it is a kind of emotional illusion. They are trying to preserve for their own needs, and have no understanding of the needs of the dead.

This Awareness indicates it is not uncommon for Westerners to be in horror of the thought of cremation of a body. There are some entities who cannot bring themselves to imagine the body being totally destroyed when that is all that's left of the person who has passed over.

This Awareness indicates that if one needs some physical aspect of an entity to remember them by, one could cut a lock of hair and also cherish pictures or take the ashes, put them in an urn, and place them on the fireplace mantle, if that is desirable to them.

FOLLOW-UP QUESTION:

I wonder, since Ramtha is supposed to be such a high being; they promote him as such, why he would advise his students not to be cremated like that?

COSMIC AWARENESS:

This Awareness suggests this is not a question for this Awareness. It is a question for Ramtha or those who adhere to his messages.

Are Dark Forces Involved With Undertakers?

FOLLOW-UP QUESTION:

In light of what Awareness said about preserving, or mummifying the body these days, are dark forces somehow behind the undertaker's movement, or those who promote and obtain embalming laws?

COSMIC AWARENESS:

This Awareness indicates this is more of a general cultural movement than a sinister action. The embalming of the body was originally designed to keep the body from becoming foul prior to burial and to keep the loved ones from seeing a body that is starting to turn color and emit odors.

This Awareness indicates that it was more for that purpose than anything, and it also was seen as a way of keeping the body, preserving the body a little longer, at least until the body could be buried and out of sight. This Awareness indicates that this was important to many people, to have their loved one look much in death the way he or she looked in life.

This Awareness indicates in extremely hot weather, especially in times before air conditioning, bodies being stored for burial within three or four days could start to bloat and smell very rank. This Awareness indicates that by using the embalming fluid it would preserve these bodies for the burial to allow entities from around the country who knew the entity to come and view the corpse before being placed in the coffin underground for burial.

The tradition, once started, is hard to stop.

Does Embalming Have Any Effects on the Soul Even if Body is Cremated?

FOLLOW-UP QUESTION:

I have heard that some states, perhaps all of them, have these embalming laws the undertakers have pressed through; that even if you request to be cremated within 24 hours after your demise, you still have to get embalmed by these entities and someone has to pay them for it.

My question is: Does the embalming of someone who is going to be cremated have any effect at all on the spirit or soul?

COSMIC AWARENESS:

This Awareness indicates that it can have some effect; the body does not all die at the moment of death. Some of the organs continue to remain vital for certain periods of time. The fingernails and hair continue to grow. There are certain things that continue living off the nutrients of the body, and as long as there is some life there, there is some element of the individual that has not completely left the body.

This Awareness indicates, however, this is rather minor in the sense of the occupant of the body, except that within the cells; the entity whose cells are still preserved somewhat, either through embalming, mummification techniques or use of preservatives in excess, might still hold certain elements of the soul.

This Awareness indicates that in the embalming process, it keeps these elements of the soul within the cells for a longer period than if the embalming process were not used; however, if it is only an embalming process followed briefly thereafter by cremation, it would not

have much of an effect on the soul. The soul would be freed by the time the body was burned, regardless of any embalming that might have occurred prior to the cremation.

A Cleaner and Happier Alternative to Slow Lingering Decomposition

FOLLOW-UP QUESTION (VIKKI):

When I investigated the quality of fire as opposed to it being an idea that was repulsive, it seems to me to be a wonderful, purifying, almost joyous kind of release and process, something not to anticipate perhaps, but it seemed much better than the idea of the slow, lingering decomposition. It just seemed cleaner and happier somehow.

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. It is a means of disposing the body quickly, completely, and in a way that leaves everything pure and clean. There is no residue, no rot, no lingering stench for anyone to think about or wonder about or know about, or to imagine.

He Believes God Itself Is Coming In Some Shape Or Form to Fulfill Prophecy (Throughout History the Divine Presence Has Appeared)

QUESTION:

Paul Ruzicka, of Reading, Pennsylvania, sent in this question before, and I sent him a copy, and essentially, he believes he didn't make his point plain enough based on Awareness's response, which I don't have a copy of at the moment, so I'll read this revised version.

He writes, his original question was: "I believe that all religions are related more tightly than anyone can imagine, and the fact that most all speak of an End Time and a holy child to herald the times leads me to believe that it is not Jesus or Krishna or Buddha or Mohammed, et cetera, that is to come, but God himself in some way shape or form. Can Awareness comment on this?" he asks, and then he adds:

"I was referring to an energy, a force, when I mentioned God. Perhaps I mean to say that there may have been a condition that was present in the world at the time of Jesus with the sun acting as a focal point and/or distributor of this special condition.

"The condition acted as a catalyst or accelerator to transformation. This goes back to the term *Christ*, which means "Anointed One." I would call this special condition or energy a Christ Energy. I consider religion to have progressed over time. In Hebrew literature we read that the Divine Presence was carried in the Ark of the Covenant. Then Jesus was the receptacle for the Divine Presence. I am sticking with the Judeo-Christian progression.

"Now, in the final age, we have God as a force which cannot be killed off or disregarded. Is this correct thinking for what may be happening and what was predicted to come?" he asks.

COSMIC AWARENESS:

This Awareness indicates that if you visualize the Ultimate Creator of the universe as a force that permeates the entire universe and can be collected into various areas more completely or in pockets while also being absent from some areas to some degree, much like water might be more plentiful here and less plentiful there, and if you consider that this consciousness which is throughout the universe can move also into a stone, a rock, an Ark of the Covenant or an individual without necessarily

being the entire presence of the Universal Consciousness, then your concept of God as being these individual pockets of energy is basically correct.

God-Realized Beings Who Walk Among Us

This Awareness indicates that there can be individuals who express the energies of God, and these entities are usually referred to as God Realized Beings, meaning that they realize the presence of God in their beingness. This Awareness indicates that there are perhaps a great number of such beings in the world today and more in the past history. There are also many such beings on other planets.

These great spiritual avatars, leaders or teachers being identified with the presence of the Universal Creator, are frequently expressing Universal Messages and energies to others who have not yet learned to totally tune in to the Universal Creator.

The Meaning of the Child Coming in the End Times

This Awareness indicates that as far as the legends of a child coming in End Times, this is symbolic because the child represents the purity of consciousness, the Original Consciousness, that which is first, before it develops and grows into mature and less innocent levels of consciousness that is associated with the adult.

The pure consciousness is presumed to be more innocent and clear and therefore, the child is the symbolic representation of this kind of consciousness, so the story of a child or the metaphor of a child representing the coming of a new spiritual era is appropriate in its metaphorical value.

This Awareness indicates, however, it can also be interpreted as a time when entities purify their consciousness and the rapture can be a spirit of enrapturement, being enraptured by the spiritual energies of a purified consciousness. This Awareness indicates that this appears as the new Second Coming of the Christ Consciousness that will have its place in proper time.

This Awareness indicates that this does not exclude the possibility of an entity coming as a great teacher. In fact, there may be many who come as great teachers during such times, and there may be many who claim to be One with the Father or One with the Christ Consciousness.

This Awareness indicates that there may be those who simplify and say, "I am Jesus!" or "I am Jesus Ananda!" or "I am some other representative of the Divine Force." This Awareness indicates that these entities may have their identification with the Christ Force, the God Force, and it may be genuine. This Awareness indicates that just because these entities are representing the Divine Force does not mean that everyone else can not also represent the Divine Force if they find it possible to attune to the Divine Frequency, for anyone who can attune to the Divine Frequency becomes One with God, and attuning to the Divine Frequency occurs when entities surrender self totally to that Divine Frequency.

The Divine Frequency Permeates the Entire Universe

This Awareness uses the term 'frequency' so that entities do not get misinformation and think that the Divine is anything other than a frequency or a vibration. The Divine Frequency is an extremely high spiritual energy that permeates the entire universe.

If this Awareness referred to this as something with a name, such as God, or Jesus or the Christ, entities might presume it to be a physical anthropomorphic shape, likened unto human in form, even though God in reality, and try to surrender themselves to this imagined form and this Awareness indicates it would hinder their ability to truly surrender to the Divine Permeating Frequency of

Love, Life and Divinity that is everywhere present in the universe, in the entire creation of universes.

This Awareness indicates that there are in fact entities who walk the earth today in human form who are promoted as God Incarnate, and this is true in an allegorical or metaphorical sense, because these entities do in fact carry with them the spirit of God. This Awareness indicates they have attuned to the Divine Force and channel or relate that Divine Force.

You Limit the Definition of God When You Worship a Person

However, this Awareness wishes entities to realize that when you begin to worship that person as God, you limit your definition of God. You limit your definition of the Divine Force in such a way that distorts the reality of the Divine Divinity. This Awareness indicates the Divine Creator is not limited to any human form.

You cannot point to a person who has had a gallon of ocean water and say, "That man is the ocean!" He may contain ocean water, but he is no longer, and he never was the ocean itself, for the ocean is much greater and more vast than the man who has drunk the gallon of ocean water.

Yet, as the entity drinks the gallon of ocean water, he may say to himself: "I am one with the ocean," and this is true to a certain extent in a certain way, for he is becoming one with the ocean, as he partakes of the ocean. It is the same of the entity who partakes of God Realization and says: "I am one with God, therefore, I am God!"

Others, observing the entity may say: "Oh look! There's God! He's coming in for his lecture. We have come here to meet with him! And sure enough, he has shown up and will lecture to us and will give us guidance," and the lecture begins and the entities listen and they learn and they have good feelings, and they go away and say: "I saw God today!", and to a certain extent, in a limited way, there is truth in their claims.

This Awareness indicates, however, that this entity, having partaken of the spirit of God, having drunk a gallon of the spirit, is no more God himself, or Itself, than is the man who drank the gallon of ocean water, the ocean itself, for the God, the Divine Force and Creator of the Universe, is still out there everywhere, permeating all of creation.

WHAT DOES CHAPTER 12 OF THE BOOK OF REVELATION MEAN?

(The True Meanings of the Dragon, the Child and Satan)

QUESTIONER:

This entity, Paul Ruzicka, also wrote, in regard to the Holy Child, that "I am referring specifically in the Christian religion to chapter 12 of *Revelation*, which I have included here," and there's a typewritten page of references to chapter 12, which I won't read, some of which mentions this Holy Child, and he ends up by saying: "Perhaps we could get Awareness to comment on chapter 12. I do not usually accept literal translations, but in this case, I feel there would have to be physical signs to herald in the times under consideration, this child being one of them.

"Awareness has already commented that the child is symbolic, but what does chapter 12 of *Revelation* mean?"

COSMIC AWARENESS:

This Awareness suggests that you read at least a portion of this so that it can be clarified as to the wording.

QUESTIONER:

Okay. This is from the King James version, Revelation 12: "And there appeared a great wonder in heaven; a woman clothed with the sun, and the moon under her feet, and upon her head a crown of twelve stars:

(2) And she being with child cried, travailing in birth, and pained to be delivered.

(3) And there appeared another wonder in heaven; and behold a great red dragon, having seven heads and ten horns, and seven crowns upon his heads.

(4) And his tail drew the third part of the stars of heaven, and did cast them to the earth: and the dragon stood before the woman which was ready to be delivered, for to devour her child as soon as it was born.

(5) And she brought forth a man child, who was to rule all nations with a rod of iron: and her child was caught up unto God, and to his throne.

(6) And the women fled into the wilderness, where she hath a place prepared of God, that they should feed her there a thousand two hundred and threescore days.

(7) And there was war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels,

(8) And prevailed not; neither was their place found any more in heaven.

(9) And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him.

(10) And I heard a loud voice saying in heaven, Now is come salvation, and strength, and the kingdom of our God, and the power of his Christ: for the accuser of our brethren is cast down, which accused them before our God day and night.

(11) And they overcame him by the blood of the lamb, and by the word of their testimony; and they loved not their lives unto the death.

(12) Therefore rejoice, ye heavens, and ye that dwell in them. Woe to the inhabitants of the earth and of the sea! for the devil is come down unto you, having great wrath, because he knoweth that he hath but a short time.

(13) And when the dragon saw that he was cast unto the earth, he persecuted the woman which brought forth the man child.

(14) And to the woman were given two wings of a great eagle, that she might fly into the wilderness, into her place, where she is nourished for a time, and times, and half a time, from the face of the serpent.

(15) And the serpent cast out of his mouth water as a flood after the woman, that he might cause her to be carried away of the flood.

(16) And the earth helped the woman, and the earth opened her mouth, and swallowed up the flood which the dragon cast out of his mouth.

(17) And the dragon was wrath with the woman, and went to make war with the remnant of her seed, which keep the commandments of God, and have the testimony of Jesus Christ."

COSMIC AWARENESS:

This Awareness indicates the reference to the dragon as that which refers to Draco and those Reptilians which this Awareness has spoken of in recent months. This Awareness indicates the reference to the woman as that which represents humanity and the earth in its more spiritual aspects and the reference to the child is the

evolving human spirit on earth that is being nurtured by earth.

This Awareness indicates that this is the reference to the chosen people or the people of spiritual nature who are growing and developing in or on earth. This Awareness indicates that the casting of the dragon onto the earth; this is referring to the earth as it sinks into its lower vibratory rate in the coming years as opposed to that woman who rises as Mother Earth into higher vibratory rates.

This Awareness indicates that the development of the human's spirit and spiritual evolution of humanity, rising above the darker deeper regions of lower earth and the so-called devil or Satan which is also the symbol for the Reptilian or Reptoid creation as that which is also represented in this symbology.

Did the Book of Revelation Forecast the 2012 Density Change?

This Awareness indicates that in general it is a very symbolic vision; that even the writer did not understand, nor interpret for his own needs. This Awareness indicates that it basically states that there is coming a time when the spiritual people will rise into higher frequencies and vibrations and the heavier, deeper, more negative forces, or that which the Bible would refer to as evil forces, will be cast into lower regions or vibrations.

This Awareness indicates that the 12 stars representing the 12 signs or directions of the heavens and the woman having this as a crown symbolizes the completion of spiritual evolution for her. In other words, the earth, having completed its spiritual evolution is now graduated to join the rest of the heavens or galaxy or universes as a completely evolved creation.

Yet, at the same time there is that lower earth that is falling away to carry those lower vibrations and energies of the dragon with it, and the dragon's time is short in this lower vibration for it knows it cannot for long have any dominion or influence on these higher levels and will eventually be isolated and stuck with its own negativity, its own kind, its own collection of negative consciousness.

This Awareness indicates the so-called 7 horns of the dragon representing the 7 chakras which is an incomplete being. The seven chakras that are pointed and protruding as weapons, symbolize ambition and a lack of inner strength, of inner discipline, these being focuses on exterior things.

Book of Revelation Based on Extraterrestrial Messages

This Awareness indicates that the entire *Book of Revelation* is an ancient Masonic writing. It is not something that came from God, but something that came from early Masons or secret schools that were focused on rituals and metaphysical concepts and ideas which helped to form secret schools that led to different secret societies, including the Knights Templar, and eventually to the Masonic lodges of today.

This Awareness indicates that these secret schools and ancient secret texts and information originally was derived from alien messages from Sumer and Akkadia and is from extraterrestrial teachings of ancient times. If entities wish to think of these extraterrestrial teachers as gods then you can think of the *Book of Revelation* as a message from God, but this Awareness has suggested that these entities are actually mortal beings though some of their lifespans are much longer than entities on earth.

This Awareness wishes to clarify. The entity John, in working on the writing of the *Book of Revelation*, used earlier manuscripts and these earlier manuscripts were derived from Sumer and Akkadia. This Awareness

indicates that it is not that the writings came directly as they are from these ancient times.

This Awareness indicates also that the writings appear to have come from messengers from Sirius and the Pleiades and also Lyra, from a kind of conventional grouping of entities who were in alliance against the Draconian forces and who, together, brought certain symbolic information to earth which was presented to priests.

The priests organized into a kind of secret school society on earth to help spread their teaching, religious or metaphysical teaching down through history, and the Biblical messages were derived from earlier writings stemming from the Sumer messages of these entities.

How John Put Together the Book of Revelation

This Awareness indicates that these messages went from Sumer to Akkadia and then to other civilizations such as Ur, and the Greeks, and then into Hebrew schools for translation and modification by those Hebrew priests. The entity John, in the writing of this particular interpretation, had studied some of these writings and modified the messages to carry some of the symbology, but he rearranged the information in his own predictive style, whereby he drew from these ancient writings certain information but rearranged it into an original work.

This Awareness indicates that it is much like Shakespeare drawing from ancient Greek texts to bring into his present day stories information that relates to earlier Greek writings. The writings were original but drew from earlier writings.

Is the Whore of Babylon the Catholic Church? (The Problem With Using Symbols)

FOLLOW-UP QUESTION:

That reference in the *Book of Revelation* to the Whore of Babylon; many writers and interpreters of that Scripture claim this is in reference to the Roman Catholic Church. Is that true?

COSMIC AWARENESS:

This Awareness indicates the problem with symbols and metaphors is that they can be applied to almost anything that entities want to apply them to. It is also one of the reasons why metaphorical predictions will almost always be accurate, because you can apply them any way you want to what is happening at the present time.

This Awareness indicates of course, hindsight always is better and the allegorical or metaphorical image, when looking back, can be placed accurately here or there on a particular event. One could, for example, say the Whore of Babylon equated to Nazi Germany, and who would argue? Who could say that wasn't so, in that context of World War Two?

This Awareness indicates that it depends on the context that you wish to place this and it also depends on how much credence you want to give to an allegorical and metaphorical symbolism. This Awareness indicates it is also true that the Whore of Babylon can be equated to the Tarot card: The Empress, the one which follows the High Priestess, the pregnant lady sitting in the garden with the city in the background.

This Awareness indicates that anyone who wants to apply the Tarot cards to the situation of the world can find with any of these cards a particular circumstance in the world that would be symbolized by the card. This Awareness indicates that one person might symbolize the Catholic Church by using one of the cards of the Tarot, but to ask: "Is that card truly representative of the

church?", it can be answered, yes, and be accurate within the context of a particular interpretation of the cards, or it can be said, "No, this does not symbolize the Catholic Church. It symbolizes the Protestant churches." And it can still be accurate in that context within that particular interpretation.

Or, you could even say that it symbolizes the CIA, and who could argue? This Awareness indicates the problem with symbols is that you can stick them anywhere where there is anything that resembles the symbol in some manner. This Awareness indicates that you can also say the Whore of Babylon symbolizes Baghdad in Iraq, for that area used to be much likened unto the qualities describing Babylon, or you could put it in some other city in the Middle East or elsewhere.

It depends on where you want to stick these symbols. They are like words or labels that can be applied to anyone or anything. This Awareness indicates that many entities stick words on people: "He is a jerk! Is that not so?" This Awareness indicates an answer of, "This is in the affirmative," could be very true, could be accurate. Or this Awareness could say, "This is in the negative. He is not a jerk." This Awareness indicates that it depends on how you wish to interpret the label that is attached.

It depends on how you wish to interpret the symbol, that is presented. Entities who want to present Babylon as a label for the Catholic Church can find many ways to argue its rightness, and others who would prefer to attach the label "Babylon" as a symbol for capitalism can find many ways to argue that point. This Awareness indicates you can even attach the label "Babylon" as a symbol for all religion, or you can attach it to Hollywood.

This Awareness indicates *It* simply cannot attach the label to the Catholic Church without attaching it elsewhere also, and *It* prefers not to attach it anywhere at this time.

THAT GREAT FORCE COMING THAT WOULD PROSTITUTE ITSELF (The Whore of Babylon Could Be Many Things)

FOLLOW-UP QUESTION:

But did the original writer intend that symbol to be the church that would rise up?

COSMIC AWARENESS:

This Awareness indicates this as negative. The church did not exist at that time, and this entity did not foresee the rising of the church at that time. It simply foresaw that there would be the great force coming that would prostitute itself and the prostitution of the money system, the prostitution of commercialism, the prostitution of money-changing, the banks, and religion, all could fit under this same symbol of Babylon.

Many also think Babylon is New York. Many think Babylon is Hollywood. Babylon can also be a description of any type of corruption that exists anywhere in the world, based on prostituting and selling out one's values. It can, in that sense, represent the Catholic Church for those who see the Church in that light.

This Awareness indicates there is no question that there is some corruption in the Catholic Church. *It* is not saying the Catholic Church is free of corruption. There is corruption there. There is corruption in most organizations after they have been around that long, for there are always entities who are more interested in preserving the establishment, the organization and structure, than in preserving its stated purposes and values.

Even if the organization promotes compassion, there will be people who are not compassionate to one another working within the organization trying to preserve certain rules and certain structures in a manner that is not compassionate. There are always these negative sides that exhibit themselves in any positive movement.

Fortunately, there are also positive sides and aspects that often come out of or exhibit themselves during negative movements. That is where much of the hope of the future lies; that even within negative movements that are very profound and well organized, certain positive entities and forces will come out of those movements to help turn things toward a greater and more positive direction.

Has the Catholic Church Created More good Than Bad Over the Years?

FOLLOW-UP QUESTION:

Despite its long history of disinformation, and violation to entities, would Awareness say, over the centuries, that the Catholic Church has created more good than bad?

COSMIC AWARENESS:

This Awareness indicates that it has inspired many individuals toward a more spiritual and beneficial life, and in their living their beneficial and inspired spiritual life, these entities may have brought about greater good for the earth. There has been a great amount of harm done by the Catholic Church also. It has, in many ways, promoted ignorance and slavery to some, the tearing away and destruction of certain cultures, the confiscation of wealth from many, and leaving people in poverty, in suffering, in tragedy; the burning of heretics, those who did not agree or adhere to the rules.

It has done much harm and has done much good. Perhaps one of its most dastardly acts has been its involvement in promoting wars and creating armaments for wars around the world. In part, for the purpose of spreading its own philosophy into areas that did not, had not yet, accepted its philosophy.

The promotion of religion by gun, by weaponry, the promotion of hostilities through one group or religion over another; the silence when the Nazis persecuted the Jews; all of these things are part of the karma of the Catholic Church. There are many things that have never been brought out in regard to the Catholic Church.

There have been many intrigues involving the Catholic Church in political and war-like activities. This Awareness indicates, however, these things were done as political actions of the church and not as religious tenets or spiritual intent of the church. This Awareness indicates it is also a fact that the Mormon Church has harassed people who tried to leave it, even to the threat of death. It is not unique to the Catholic Church, but the Catholic Church, being larger, can become more of a target for such criticisms and its activities in many respect *do* need to be criticized, but there are also many good entities within the Catholic Church. It is not much different from your own nation.

The Church Like Governments Manipulate People to Violate

Your own nation has had elements that were corrupt and diabolical, and yet your own nation has its charter, promotes ideals, and the citizens are for the most part decent loving people who would not like war or violence, but can be manipulated into partaking of such things, just as most Catholics would not want to violate others, but can be manipulated by corrupt officials in the church into violating other cultures.

This Awareness indicates that *It* cannot simply condemn the entire church for the corruption of some who are involved in the church. *It* does recognize there is corruption. There is also corruption in most large organizations and the greater the power of the organization, the greater the opportunity for corruption.

She Sees the Reptoids as Cosmic Scavengers (More on Chapter 12 of the Book of Revelation)

FOLLOW-UP QUESTION (VIKKI):

When Awareness was discussing the symbology of Chapter 12 of *Revelation*, and the dragon reference applying to the Draconian Reptoids, it brought to mind a role they perhaps are playing in the universe, as being a cosmic wrecking crew or scavengers that come in and feed off of the chaff or growth produced, or fresh meat so to speak, when a planet is as its transition point, as earth is now.

Is there any truth to that?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the earlier names for the constellation of Draco were the constellation of the Dragon. This Awareness indicates it was only in approximately 1920 that the name Draco became fashionable, and that occurred only because the map being created, did not have room for the "n" or the full name, thus, it was called Drago, and later changed to Draco.

The "n" on the name dragon went off the map on the original and from that time on, it was called Drago or Draco, and now it is called the constellation of Draco. This Awareness indicates that these Draconian Reptoids or reptiles; Reptoids in the sense that they are reptilian type entities, humanoid in shape, but of reptile origin; these entities have traveled throughout the galaxies, pillaging one planet after another.

Their particular interest in the earth has to do with its minerals and its location, and of course, its food source. This Awareness indicates that its location is particularly valuable as it is situated in an area that allows it to be used as a kind of military base for other launchings into other areas of the galaxy that become targets for further conquests by these entities.

This Awareness indicates that symbolically, the references to Michael and certain angels fighting the dragon have to do with those forces of human-like extraterrestrials from Sirius, Lyra, Vega and other places who will be involved in the conflict when these Reptoids attempt their final takeover of earth.

Is It Time For the Garbage Man to Show (Their Coming Is Not a Fluke—A Cosmic Cycle Is Occurring)

FOLLOW-UP QUESTION (VIKKI):

Is their arrival at a place, like in this case earth, does it coincide with like the garbage man arriving, when the vibration gets low enough, that they can come in? Is there a place where it's now time for them to show up?

COSMIC AWARENESS:

This Awareness indicates that this particular time is matched by a star in the Orion cluster that is in a particular position, which affects the vibration of earth as the solar system moves into that alignment, 180 degrees opposite of the orbit that the solar system takes in its cycle.

This Awareness indicates the 25,000 plus years cycle that the solar system moves in during 12 Ages, as that which puts the system at this time in a 180 degree opposition to a kind of what you might call "sister" star

system in the Orion area, which has a corresponding vibration to the solar system.

This Awareness indicates that this corresponding vibration sets off the changes that will occur within the solar system during these coming years. In other words, the changes are cyclic and not haphazard accidental flukes based on human evolution, but human evolution follows the cyclic vibrations of this movement.

A Spaceship Probe Lands in Her Back Yard (She Calls It The "Angel and the Light")

QUESTION:

Michele Bodine, a member who lives on the island of Maui, and who channels music from Pleiadians, I believe, and markets this music; she sent a photograph taken of her back yard, that shows a bird-bath fountain with no birds, and alongside of this is what looks like a glowing white ball with a sort of an orange aura around it, and she writes and calls it the "Angel and the Light."

She writes: "Birds have not been going in my bird-bath for over two months. Now I know why. I'm getting that it is a probe from a space ship I have connections with." And she asks if Awareness has any comments.

COSMIC AWARENESS:

This Awareness indicates that it appears there is some kind of probe that visits your area. It is not seen clearly that the light in the picture is that particular probe though this may be the case. This Awareness indicates however, that it does appear that the probe can glow in that manner and gathers information through some form of radiant energy reading system, whereby radiant energy is emitted and it reads whatever is in its range, reading for certain vibrations and frequencies and motives.

Giza Intelligences Tried to Destroy Billy Meiers

In other words, it can sense the motives of entities in the area, whether they are friendly or not and it appears to be of a friendly nature itself. This Awareness indicates that one should always be cautious however, because even a friendly probe, if it begins to make headway in a certain area may be watched by negative aliens, just as Billy Meiers with his Pleiadian contacts was once shot at from a ship that tried to kill him, that was not one of the Pleiadians but was masquerading as a Pleiadian ship and wanted the entity destroyed before he could have excessive information given to him from the Pleiadians.

This effort to kill him was generated from the Giza Intelligences, but the entity was spared and the information from the Pleiadians was given to him in spite of the efforts of these Giza Intelligences to terminate Billy Meiers. You too may find, over the next several years, that contacts from Pleiadians are a possibility. It may occur, but you still need to be cautious in regard to each contact to be sure it is from the Pleiadians and not from an imposter.

FOLLOW-UP QUESTION:

Is there any significance at all that the birds avoid their bird-bath while that probe is there?

COSMIC AWARENESS:

This Awareness indicates that the birds recognize the energies, even after the probe has left. There is a certain kind of radiation that lingers for awhile and the birds stay away. It does not appear to be a strong radiation nor does it appear to be harmful, in terms of amount, but it would be best to avoid the area for a period of time until the birds return after its visit.

Once the birds return, you can feel assured that the radiation has depleted to a safe level.

Do Probes Come and Go Interdimensionally?

FOLLOW-UP QUESTION:

As a general rule, when probes are sent to this planet, do they come and go in a physical manner, or do they come and go interdimensionally, or by some other means?

COSMIC AWARENESS:

Generally, they will be sent interdimensionally, until they are in the area of observation where they wish to explore, then they will materialize. They may of course send them without moving into other dimensions, but the more common approach is to simply put them in the area materialized without seeing a tracking action from the place of origin to the destination.

Ed's Note: The photograph showing the glowing globe space probe in the back yard of Michele Bodine in Maui is on the cover of this newsletter. I recently wrote Michele and told her I planned to use her question in an upcoming newsletter. She immediately mailed me a full-colored photo of the space probe, along with 4 cassette tapes containing the music she channels from the Pleiades. On the back of the photograph she wrote:

"Taken prior to sunset in 1992. The glowing orb is a "probe" from a space ship placed there to monitor me. The birds used to flock to that bird bath but all of a sudden wouldn't use it and never did for the year remaining that I lived there. It was because it was radioactive. Put a bird bath out back and they used that instead. The probe was put there because these space beings were interested in the energy that surrounded me when I channeled music. That is an angel statue in the bird bath. I swear this all to be true. In Light and Divine Love, Michele Bodine."

Both Vikki and I were very impressed with the music on the tapes. It is very relaxing and has an "out-of-this-world" quality. It puts me into a meditative state. It's piano music with some kind of electronic accompaniment and extremely pleasant to listen to. I play it often when working on the computer and I noticed also that it lowers my blood-pressure when it gets elevated. The first time I played the tape, Vikki had just let the Bear into the shop. He started to trot over to say hello to me but suddenly stopped in his tracks, cocked his head toward the music, then collapsed on the floor flat on his back with all four legs up in the air. His eyes were closed and he had his tongue out and a big grin. The music had stoned him. (The Beethoven and Mozart which is usually playing in the shop never produced this effect on the Bear).

I asked Michele if she could make her tapes available for CAC readers who might want to hear what music from another planet sounds like. She said she could but they would have to be on cassette tape, not CD. The price: \$15 which includes postage. Michele mentioned she can also tune into people and bring through music for them. They need not be present, but it is more enjoyable if they are. She says she has hours and hours of beautiful music which space entities brought to this plane through her channel, including children's music. To order a tape or get more information regarding a reading, please write:

UNIVERSAL ENERGIES AND E.T. RAP OPENS UP NEW AREAS

CLOSING MESSAGE:

This Awareness indicates that in discussing the Universal Energies and extraterrestrial involvement of earth and potential involvement with earth, *It realizes this has opened many new questions and that there may be some who want to know more and others who want to know less, and some who do not want to hear another thing about any alien whatsoever, for any reason whatsoever.*

This Awareness indicates whatever comes in the future, this Awareness, as usual, will attempt to give truth to questions asked and to avoid offending any who are reasonable in their search for information. *It may inadvertently offend some who cannot tolerate anything further in order to answer questions that others may raise.*

This Awareness indicates that if *It does* offend entities for speaking of topics that they are not interested in, *It wishes to inform you that it is not the will of this Awareness to offend anyone, but it is the will of this Awareness to provide information that entities may find useful in their spiritual development, in their movement as spiritual beings into the higher dimension that will be coming in the next couple of decades.*

For more information on the Giza group, please refer to "Revelations of Awareness" issues No. 92-07 (Gods Gone Mad); 95-07;

Can Only A Limited Number of Individuals Achieve a High Level of Awareness? (G.I. Gurdjieff Says This Is So)

QUESTION:

I'm going to read this question from Deborah Shenk, Berkley, California. She writes: "I would like to know if Awareness has spoken of G.I. Gurdjieff or commented on any of the aspects of his teachings. In particular, I would ask Awareness to comment on this quote, taken from *The Gurdjieff Work*, by Kathleen Riordan Speeth who says: "According to Gurdjieff we live in a very poor place in the universe, from the point of view of our possible evolution. Self-realization is almost maximally difficult owing to the extreme density of mechanical laws that operate on our planet, so that, although human beings are designed, so to speak, with a potential for increasing the level of their being, the chances that any particular individual will succeed in doing so is very slim.

"One of the obstacles facing those who seek to liberate themselves, is that humanity exists on this planet for a definite purpose, and that purpose would not be served if more than a certain percentage of people attained extraordinary levels of being; in fact, the flow of substance from the highest levels to the lowest would be disrupted if mankind's general level of consciousness were to change. The biosphere serves as an energy transducer at a critical place in a constantly evolving universe, serving to bridge the gap between sun and solar system and our own moon."

She asks: "I am troubled by the idea that only a limited number of individual can attain a high level of awareness. It deals quite a blow to my vision of the future, and I wonder if there is truth to this concept. Could we not use technological means to accomplish this energy transducing function rather than having it tied to low-level awareness in humans? Please ask Awareness to comment."

COSMIC AWARENESS:

This Awareness indicates that the entity Gurdjieff had a rather low opinion of humankind, based on his travels and observations, and especially due to the level of consciousness at the time of his writing and teachings. This Awareness indicates that there have been considerable advances during the past half century which were not present at the time this entity first began his teachings. This Awareness indicates that when you look at old movies, in comparison to the expression of actors in present movies, they appear to be more stilted and more mechanical in their expression, even if they are those old classics. This Awareness indicates that in the more modern movies, the actors generally appear to be more lifelike, more common, more of the type you know.

This Awareness indicates this is because the acting, the acceptable acting techniques evolved out of stage and now into movies, wherein there are close ups. The stage acting had to be stilted, using gestures and so forth, because the audience was so far back that it had to be told in body language rather than in the muscle twitch of an eye, or the slight movement of one's lip, whereas in today's movies, that slight movement may tell more than words could tell.

The Same Thing in Terms of the Evolution of the Soul

This Awareness indicates that it is the same in terms of the evolution of the soul; that during the time of Gurdjieff's teachings, entities were concerned about material things, about profit and gain, and there was their own personal religious belief which took care of all spiritual concerns. They were not concerned about

learning anything more; they were not concerned about self-discovery, or about self-programming, or about anything having to do with how they got to be what they are.

This Awareness indicates that in the last 50 years, since World War 2, there has been more of an introspection, wherein entities began looking inward, although before they had always looked outward, in search of other things in the world, in search of new lands, new areas, new cultures, new things, new inventions. Now entities have begun looking at the inner frontier, the frontier of exploration which is known as self, and they begin examining themselves. An entire generation became neurotic; the music reflected their neurosis; the drinking patterns reflected the neurosis of the entities who were looking at self and worried about self.

This Awareness indicates that since that generation, the next generation began to move into self discovery, and they began looking for aspects within the self, that could give clues to a better understanding of who in fact they really are, and in so doing, techniques were discovered, and many entities participated in these various seminars, to help them discover more about themselves. This Awareness indicates that Gurdjieff knew naught about these coming seminars, and there are many entities whose new discoveries led to books, led to further understanding that children might be raised in a manner that would allow them not to be so self-centered or self-confined or programmed with a poor self-image.

Times Have Changed: Plane of Limbo Is Being Cleared Out

This Awareness indicates that in fact, there has been a major change in the past two or three generations, so that even though, on the one hand, many have become more degraded and debased in their behavior because of drugs and lack of direction in their lives; on the other hand, there have been many people who have developed very high qualities, skills and talents and spiritual understanding. This Awareness indicates that this planet has served as a kind of mediator between different frequencies, and that these frequencies can be stepped down or raised up through the biosphere, whereby lower frequencies often are present, and those who are acting on these lower frequencies become the scourge of humanity, and act out and express these energies, and those who are reaching for something higher, become the transformers of that energy and raise the energy into something higher which then can be moved into the cosmos, to have its effect as needed elsewhere, and gradually, through this process, much of that which has been termed limbo, is being cleared out, and as the plane of limbo is cleared, it presents the opportunity for this planet to rise to higher frequency rates so that a more harmonious purpose and scenario can come about for those living on earth, so that entities can find greater happiness on this earth plane.

An Action of Transformation Is Occurring On This Plane

This Awareness indicates that the plane of limbo as that which has held locked up for many eons of time, those energies of great negativity, of sorrow and tragedy. This Awareness indicates that as this is cleaned, as these energies are released upon this earth, those negativities are often expressed through the weaker beings on earth, and once expressed, they are often then transformed by the higher beings on earth, and in this manner, the negativities of limbo are being transmuted. This Awareness indicates that it is an action of transformation that is occurring on your planet in this century and it is not something wherein each entity does not in some way, participate in. Each entity has his or her role.

This Awareness indicates that the great evolution that entities would like to see on the earth moves very

slowly; the saying that the mill grinds slowly is true, but the mill continues to grind and the gods will have their way. The evolution will take place at its own necessary pace. This Awareness indicates that your concern that you may not be evolving fast enough or that it is too difficult, is an unnecessary concern, for if you evolve somewhat on this plane, it carries great weight in other areas or other planes, that you have managed to evolve even that much here.

Even the Smallest Amount of Evolvement Helps Many Others

This Awareness indicates that whereas you may move up the ladder one inch while living on this plane, that one inch can be compared to twenty or thirty feet on the next plane, because of the density here. It is likened unto being in a place where gravity is too heavy and you can barely move, but whatever amount you move shows your strength, your determination, your ability, and your medal of honor for this is waiting. This Awareness indicates that it is important to evolve as much as you can in this place, for you will either evolve, or you will move downward on the ladder. It is very difficult to remain stagnant, and if you are not putting forth the effort to evolve, it is very easy to start sinking, and moving into more degraded activities.

This Awareness encourages entities to continue to evolve, accepting the highest and best in each moment, even if the fruits of your labor do not turn you immediately into some kind of master or god, or heavenly angel. Whatever headway you make is significant.

ARE THOSE PASSING OVER STILL HELPING TO CLEAN OUT LIMBO?

FOLLOW-UP QUESTION:

In reference to the cleaning out of limbo, some years back Awareness gave information on that and explained that as entities pass over, in the passing over and going by that area of limbo, that entities on limbo can come forth and sort of attach themselves to the spirit as it is passing over, and sometimes there is many that can attach and so you would be bringing a whole string of entities out of limbo. Is this practice still going on, or are there other methods that are cleaning out limbo at this time?

COSMIC AWARENESS:

This Awareness indicates this is in reference to those entities who are of a high vibration who move not into limbo to be stuck there, as so do many, to be drawn down by the grasping hands of those who are caught in limbo, it is in reference to those entities who go on beyond the land of limbo to that land of a thousand rainbows, and in that movement, wherein they move toward that land of Essence, the grasping hands of those who are stuck in limbo may be such as to grab hold or sucked in to the vacuum one creates as one moves toward the land of a thousand rainbows, and in that movement there are many who are brought out of limbo and toward the Light.

Entities on Earth Moving Toward the Light Help Those in Limbo

This Awareness indicates that this is of course symbolic of the movement of energies; that it is not necessarily to be perceived as a place, but more as a state of mind; that when one is moving toward the Light on your plane, it automatically creates a suction for those entities who are stuck in limbo-type energies, creates a suction that helps them to move toward the Light with you. This Awareness indicates as long as there are examples, as long as there are entities who move toward the Light, who evolve toward the higher spiritual goal or purpose, there will be many who are affected and who will be caught in that movement, and who will rise from those

limbo-like frequencies or vibrations into that which is the higher levels of Awareness.

What Happens to Limbo Entities Who Don't Make It To the Light?

(Limbo, Heaven and Hell Are All Within Us Right Now)

FOLLOW-UP QUESTION:

Do most of those entities coming out of limbo toward the Light, if they don't make it through the Clear Light, then they go to some frequency where they could have the choice of reincarnating for another life experience; is that correct?

COSMIC AWARENESS:

This Awareness indicates that they may move in increments up the ladder to a better status, or they may again, for some reason, revert and go down the ladder. Entities always have that choice in terms of their attitude and the formation of values as to whether they are progressing or regressing in the spiritual sense. This Awareness wishes entities to understand that the land of limbo and the land of Essence are within you, that you can easily move into and be stuck in limbo in your daily life right now, or you can just as easily move on to the land of Essence, the land of a thousand rainbows; that heaven and hell reside within you; the kingdom of God is within you; that it is up to you as to which of these aspects of yourself you wish to nurture and bring out and dwell upon. If you dwell upon the hell of your life, then indeed you are caught in those regions. If you dwell upon the limbo qualities that you experience in your psyche, then you are stuck in limbo. If you feel stuck, you *are* stuck. If you feel confined, you *are* confined. No one can confine you but yourself.

Freedom Comes Only By Accepting Yourself as You Are

One entity can be placed in a prison and still be free within the soul; another entity can be on the open planes and his soul can still be entrapped. This Awareness indicates it is not where you are physically, it is how you are psychically, and if you are to be free, you must be free inside, and freedom can only come through accepting yourself as you are, for what you are, and being responsible to attend properly that freedom which you have. This Awareness indicates if you have had freedom taken from you, nurture whatever freedom is left within you and it shall give you greater freedom.

This Awareness indicates that the kingdom of heaven is within, the kingdom of hell, and the limbo, the land of Essence; all of these things reside within you. This Awareness indicates the mind is a place of its own, and it can make a heaven, can make a hell. This Awareness suggests that you focus and dwell upon that which is heavenly within yourself. Dwell upon that which is freedom within yourself, for wherein your mind dwells, and upon whatever concepts you dwell; there you are.

Doesn't the Genetic Code Build An Entity's Body Before It Enters the Physical Plane?

QUESTION:

A question from Dan Chilinski, Toledo, Ohio. He writes: "Awareness stated that the subconscious emotional aspects of the entity create and build the body according to its design and plan. The doer, or conscious mind, waiting until the vehicle is built before entering. Isn't the building of the body an automatic process preprogrammed by the genetic code of the parents? What possible influence does an entity not connected to the material world have over this preprogrammed process? How, and in what way does the entity being reincarnated influence this automatic process?"

COSMIC AWARENESS:

This Awareness indicates that entity keeps it alive and nourishes this process to continue growing according to its will. This Awareness indicates the genetic actions which bring forth one child will produce a totally different child for the next entity who is born of the same parents. This Awareness indicates that indeed the genetic code has its place and influence in the production of that child, but the distinctive differences relate to the influence of the individual involved in nurturing those energies of a physical level. The sperm and egg are not necessarily the only cause of an offspring from parents. If it were not from that life-force of the entity working to develop that sperm and egg into an embryo for itself, these energies would simply abort, or not even begin the process of growth.

How Does Evolution Take Place?

(Are we first rocks, then plants, then animals, then humans?)

FOLLOW-UP QUESTION:

He had another question along the same line: He writes: "Awareness stated it takes eons of time for a soul to develop to that which is the subconscious of the individual, and that it develops through a series of lifetimes, the magnetic center moving in and out of many different physical forms or embodiments. Awareness did not state what sort of 'different physical forms' these were, therefore, is the series of occult books written on theosophy by H.P. Blavatsky and others correct in stating that human souls develop first by reincarnating into physical rocks, then plants, then animals, then finally the human physical form. Is this how evolution takes place?"

COSMIC AWARENESS:

This Awareness indicates that this is not necessarily the path for development of an energy field that can become a soul. This Awareness indicates that essentially, the majority of human souls were created long ago, as what may be termed energy fields, or Thought-forms of a Divine Consciousness. They are likened unto fragments of that consciousness that were set forth. This Awareness indicates, however, it is possible, in regard to rocks and animals and plants, for souls to come out of this energy because all energy is energy of the Divine Mind, and if *It* wishes to bring a portion of *Itself* into that which may be termed a human soul, *It* can draw from rocks, animals, plants and such sources those energies that are necessary for the creation of a soul.

How Phillip Was Conjured Up

This Awareness indicates that *It* has referred to the experiment conducted some years ago known as conjuring up Phillip. This Awareness wishes you to understand that these entities, in fact, conjured up out of accidental qualities that each attributed to Phillip on sheets of paper, slips of paper, thrown into a pile, neither entities knowing what the others had written, then writing down all of the qualities expressed by the group which they would attribute to Phillip. This Awareness indicates that after some several seances, lasting several weeks, they finally got in touch with Phillip who began to exhibit all of the qualities that they had expressed on paper. The entity appeared to have his own personality and his own mischievous expressions, but always contained those qualities which they had attributed to him.

This Awareness has explained previously that this occurs as a kind of information processing device, not so much device as system, in which energy was put into a concept defined in terminologies and that energy began to process itself into that which became known as Phillip. This Awareness indicates these entities had, in fact,

created a rudimentary soul or energy field known as Phillip. This Awareness indicates that this energy field, unless for some reason dispersed by the group, or some other force, will continue to experience, will move on, and will experience things, gradually adding to the accumulation of the experience in a manner that is basically developing from scratch that which may some day be a new soul.

That is not to say that Phillip cannot attach himself to a mosquito, a dog, a cat, a stone, a tree, and reside in those creatures for some time before returning to become the subconscious for a human. This Awareness indicates that this is a possibility; that these energy fields and forces can also be devoured by some other soul, so that Phillip becomes part of another individual at some point, and this is more likely. It is quite likely in fact that Phillip may attach itself or himself to someone connected to the group who conjured him up.

This Awareness indicates that this Phillip may become part of an individual's subconscious, and may have some influence at some time in that individual's behavior on a subconscious level. It is not something that entities should play around with lightly, for they may inherit the wind of their creation. This Awareness indicates that the soul is the invisible energy that serves as a magnetic center for a being. The being can be a concept, thus, the soul of a concept or idea, the being can be an animal or insect, thus, there is the soul of the animal, or insect, but the human soul is of a totally different nature than any of these others, for it is compiled of such a myriad of experiences generally dating back to the source and time in which the universe was created so that it has a greater scope than those found in insects, animals or trees or concepts.

The Difference Between "New" Souls and "Old" Souls

For this reason it is generally distinguished and referred to as the soul, whereas those magnetic centers associated with the life force of the insect or the animal, the plant, the rock, are generally not thought of as souls; essentially *It* is speaking, however, of the same energy, except that those things of lesser soul are more simplified in their nature, without the complexity that is associated with the human soul. This Awareness indicates there are also among humans degrees of soul development. There are those who are called new souls, those who are called old souls. It has nothing to do with your chronological age. It has to do with the depth of your accumulated past-life experiences, and the density of your individuality.

Are you one who is truly individual? or are you seeking to find identity? Do you wonder who you are, or do you know who you are? All of these things affect whether you are truly attuned to the soul you have, or whether your soul is somewhat being dissipated. This Awareness indicates that if you are easily, much too easily dissipated in your identify of self and your connection with the Divine, then you are perhaps not holding your soul together sufficiently. Your magnetic center is not as strong as it could be.

This Awareness suggests that when your magnetic center is strong, you draw to yourself that which you need for your purposes. This Awareness suggests that the magnetic center of yourself and the self-identity go hand in hand, and these are the seeds or core of your being which allows you to move with purpose in a manner that is effective, and not easily dissipated.

The Conscious and Subconscious Mind (Do They Transmute Into the Christ Consciousness?)

QUESTION:

Another question from Dan Chilinski. He writes: "Awareness has stated that the conscious mind transmutes into a Christ Consciousness, and that the previous subconscious mind of the entity transmutes into a new conscious mind, and there is another subconscious mind that follows and takes the place of the subconscious mind that just transmuted into a conscious mind!"

COSMIC AWARENESS:

This Awareness wishes to modify slightly this statement to its more precise expression.

The subconscious mind is not entirely separate from the conscious mind, nor is the conscious mind entirely separate from the superconscious mind. They tend rather, to flow, one into the other, much as ice can turn to water and water can turn to steam. This Awareness indicates that as this temperature of spirituality rises, the mind moves into higher expression, moving from subconscious to conscious and then to super conscious.

This Awareness indicates that the conscious mind is likened unto that part of an iceberg which sticks up out of the water into the atmosphere. It emerges out of subconscious levels. One can be conscious of certain things and have a small level of conscious awareness, or one can look more carefully at things within the psyche, becoming more and more aware of self, and of those things that have previously been unconscious or subconscious, and bring these things out, looking at these things, discover those things that have been hidden within self, and in so doing, enlarge the conscious mind.

This Awareness indicates that one can also enlarge the subconscious mind by pushing things down and out of sight of the conscious mind so that you do not need to deal with it, see it or think about it, and in so doing, the subconscious mind increases in its size and capacity, thus, if you consciously shove information, memories, traumas and things into your subconscious mind, it may grow and grow, containing more and more information that is no longer conscious in your memory, of which you are no longer aware.

You may also develop a greater higher mind, the higher consciousness, by putting attention on those things which are of a higher quality, higher nature, more abstract, and that which is the more spiritual aspects of your life. As you put conscious attention in that direction, your spiritual higher self grows and is nourished, therefore, certain conscious aspects within your psyche are moved into spiritual realms, and in this manner, your conscious mind begins to flow into that which is a higher consciousness.

Now, if you draw from the subconscious by being able to give attention consciously to this area, and you unlock and undo some of those things which have been locked up inside you, you then begin to pull from the subconscious aspects, memories, qualities, energies, into the conscious mind, and in this manner the subconscious begins to flow into consciousness.

This Awareness indicates it is all mind, it is all consciousness, but some is hidden and this is called the subconscious. Some is before you, and this is called the consciousness, and some is above you as a kind of guiding light or higher principles of consciousness.

Thus, you have your subconscious, which has its effect on you without your knowing about it. You have your consciousness, which you can manipulate and you have the higher principles or higher mind which automatically responds to your needs according to the higher

principles which you have fed it; the higher qualities, the higher laws under which it resides. This Awareness indicates it works with these higher laws to direct you, or to hinder your movement if you begin an effort to break those higher laws which it has been given.

This Awareness indicates in other words, it is not quite like the totem pole, wherein there is the subconscious animal, the middle-self man, and the higher bird-like superconscious; those are but symbolic of these stages of movement. It is better to think of it, if you need a metaphor, as that which is ice, water and steam, or the same substance in three different presentations: the subconscious, the conscious and the superconscious, flowing one into the other.

This Awareness indicates that if you do not feed the superconscious with the heat of spirituality it begins to rain down its energies, loses its strength, and you may have a very small superconscious mind, while having a larger conscious mind, or perhaps shoving it on down into the subconscious. There are many entities who operate almost entirely subconsciously, having just enough conscious mind to grunt, to yell, to cry out, to make some effort to get something for the subconscious needs.

Your Handwriting Reveals Your Spirituality

This Awareness indicates that you can observe where you are in this regard by looking at your handwriting. Those who have large lower loops in their handwriting, whose handwriting extends deep below the line, are those who have strong large subconscious minds, and those who have large central loops and writing, taking up greater portion in the middle of the letters, may have large conscious interests and conscious mind. Those who have high loops and characters extending up above the line, in the higher levels of the letters being written show an interest in the abstract and development of the higher qualities, therefore, the superconscious mind is energized.

This Awareness indicates that many entities have very low upper loops and very low short lower loops but have large loops in the center. This means they are operating mostly from a conscious level, and their interest generally is only in the Here and Now. They do not think in terms of the future, which is shown by the upper loop or the spiritual, which is shown by the upper loops, nor do they have much influence from the subconscious, which is shown by lower loops, nor do they have much interest in the past which is shown by the lower loops.

Others will have those deep lower loops and extenders, which indicate strong ties and influence from the past and from the subconscious, and they may have small loops in the center, wherein letters such as 'o', 'a', 'n', 'm', those letters without extenders, up or down, may be rather short. This means that their conscious mind is not so much engaged, but the subconscious, shown by large extenders below the line, may be quite active. Things of the past may be influencing them greatly.

This Awareness indicates likewise, there are those whose upper loops are predominant and the middle letters such as 'm', 'n', 'o', 'e', 'r', may be small, and they may have no significant lower loops. This means these entities are living in the future, are living in the abstract; their interests are in terms of spiritual or religious, and abstract concepts, and they have little time for here and now, and less time for the past.

This Awareness indicates that in the handwriting, one can see where one puts one's energies. It is valuable that you place energy into the abstract, giving it to the Higher

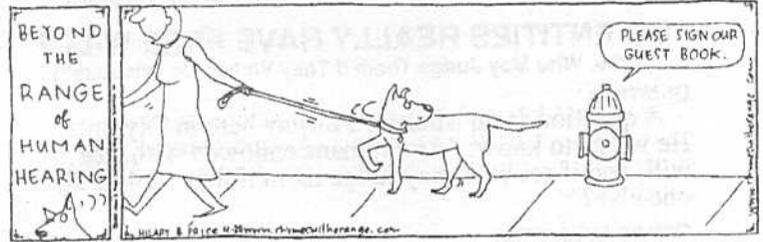

Self so that you might receive the awards and rewards that are available from the Higher Self. It is also important that you hold a balance with that which is the lower loops; those lines below the line, those loops below the line, those extenders that are below the line, so that you have some touch with your roots, with your subconscious and with the past to draw from, so that you have an interest in old friends and past relationships, for these can be valuable, and it is also important that you have your conscious and social life which is shown by the middle letters in harmony, in large enough perspective or balance so that you do not forget the Here and Now and live in the past or future, for the Here and Now is equally, if not more important than past and future.

It is important that you realize the Here and Now is in your consciousness, whereas the past and future are in your subconscious and superconsciousness. This Awareness indicates your handwriting can be most helpful in telling you where you are in terms of your soul growth and the balance of your soul. This Awareness suggests the Interpreter be brought from trance.

Thank you.

(The Law of Gratitude is given)

VISIT THE NEW C.A.C. HOME PAGE AND DOMAIN ON THE INTERNET

Much is happening here and new changes are an ongoing thing. We have combined our 2 sites with Dave Alexander's newest C.A.C. Home Page link. Just type in <http://www.CosmicAwareness.org> or <http://www.CosmicAwareness.com>

This site contains current information which is changed often. On this page you can click on our regular staff Home Site as well as a list of current books and resources, various topics in back-issues of the newsletter and Dave Alexander's terrific revitalized Cosmic Awareness site! Dave's site has a wealth of information on the Awareness Movement, the philosophy, the newsletters, readings on Christianity and many other subjects, plus the famous Dr. Beter transcriptions.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Wisdom of Awareness: On Freedom of Morality

"When this Awareness speaks of freedom of morality... It means that entities should be allowed the freedom of choosing the morality or customs which they desire, so long as those customs or that morality does not harm others. This Awareness indicates that 'so long as it hurts no one else' is an area which needs to be looked at carefully, for it becomes very subtle, and the more entities look at their action to ask themselves: 'What am I doing that hurts others?' This can lead entities into a much more disciplined life..." (Issue No 84-20)

DO ENTITIES REALLY HAVE FREE WILL?

(If So, Who May Judge Them If They Violate No One Else?)

QUESTION:

A question from Michael Murphy here in Olympia. He wants to know: "Are humans endowed with free will, and if so, who may judge them if they violate no one else?"

COSMIC AWARENESS:

This Awareness suggests that humans are their own judge. This Awareness indicates that in the concept of free will, most of what entities refer to as free will, does not really exist, because it is in most cases only conditioning, and entities have conditioning and make their choices based on conditions that they are under, or have been conditioned to accept.

This Awareness indicates that an entity who is First Born has the ability to express feelings through laughter or tears in certain ways of expression. This Awareness indicates, however, as time passes, the child at an early age begins to experience a conditioning of his or her feelings so as to salivate when certain experiences begin to occur and eating time is likely so as to quiet down when mother or someone familiar comes close to the child or picks up the child, or whereby the child cries when put down or when roughly handled or when sensing that mother is eating, and this of reaction to environment becomes a conditioned reaction in a very short time.

This Awareness indicates that as the child grows older and gets more familiar with the events that occur to it, the conditioning gets more detailed and the reaction of the child becomes more tied with the conditions of the child's situation. Therefore, the conditioning and the child's reaction become related. What is happening causes the child to react.

Is the child expressing free will or is the child simply conditioned to react when mother leaves the child or when mother comes close. This Awareness indicates that as the child still grows older the conditioning becomes more complex and a series of evaluations may lead the child to realize that mother is only going to the other room. "I don't have to worry. She'll be right back!" or: "Mother just went out the door. Is she coming back? or is she going to the car?" and the child may react differently in one or the other situation.

It is again a matter of condition. What is the condition of my life at this moment? Is mama leaving me? Or is she coming back soon?" This Awareness indicates the reaction again is tied to the condition. It is not simply a reaction based on free will, it is a reaction based on the evaluation of a condition and the child evaluates one condition after another and the reaction is tied to the evaluation of the condition.

This Awareness indicates that over long periods of time, the complexity of one's condition becomes much more difficult in terms of evaluation so that the person, at a later time, may sense that the tone of the voice of another indicates or threatens a particular condition in the entity's life, or may give hope of a better condition so that as the entity gets older and the situation grows different, the entity senses, consciously or subconsciously, a change either for the better or for the worse, according to tone of the voice or a look on the face, and the entity responds or reacts according to the conditioned evaluation.

The entity evaluates his or her circumstances according to conditioning that has developed over the years, and the entity either feels hostile, threatened, or con-

cerned or perhaps feels gratified, pleased and relieved and reacts accordingly. The question is: Does this person have free will or has the entity simply developed a conditioning over periods of years that lead the entity to react in certain way that the entity thinks is a matter of personal choice?

This Awareness suggests that free will is a possibility for everyone, but generally, the decisions entities make are based on conditioning they have acquired and developed over their lifetime and they make their decisions based on the way by which they have been conditioned to make a decision. Therefore, from the viewpoint of this Awareness, entities don't really have free will, and only believe that they have free will, but they have the potential for free will if they can overcome their own personal conditioning.

This Awareness indicates that it is difficult for entities to rise above their own personal conditioning and create an unconditioned self, create a self that responds to the Here and Now without being influenced by things they have learned from the past. This Awareness indicates that in regard to the question: Who judges entities? in terms of one's behavior, the most common judge of entities is themselves, but there is a tendency among entities also to judge others by their own conditioning, their own value system that they have developed over their lifetime so that not only does the entity judge himself, but is usually being judged by others in society to one degree or another.

Those Who Think That God Judges Them

This Awareness indicates that the idea that God will judge you as worthy or unworthy is usually simply a human projection on the idea of God. This Awareness indicates God discerns *What Is*, generally doing so with an understanding of how *What Is* became the way it is; usually with the understanding that an entity behaves because of the conditioning that led to the behavior. The events, pro or con, pleasant or unpleasant, leading an entity to behave in a certain way, is seen in accordance with the behavior.

Therefore, it is a matter of discernment, rather than judgment. This Awareness suggests that *It* does not judge in the sense of evaluating worth, but *It* discerns the activities, the behavior, and recognizes causes and effects of such behavior, not only to the person, but to society and to the moment as well as to the lifetime of those affected by the behavior.

This Awareness indicates that in the event the questioner is concerned about the judgment from a Divine sense, he does not need to concern himself further. He himself is the greater judge of himself. This Awareness asks entities to judge not, but to discern clearly. The more you can discern, the better will be your evaluating process. The more you can set aside judgment in the sense of condemning type of judgment, the better will be the process of your understanding.

This Awareness indicates it is a somewhat complex topic. This Awareness hopes this makes it more clear.

The Book: "To Hell And Back"**QUESTION:**

A question from Clarence Nelson, Fort Lyons, Colorado. He writes: "I'm reading a book called *To Hell And Back* by Maurice Rawlings MD., in which he associates all the encounters people have with the Christ as actually being Lucifer or the devil, who imitates the Christ, and not the Christ spirit. He gives all the credit to Lucifer. I don't go along with this and I wonder what Awareness would say."

COSMIC AWARENESS:

This Awareness indicates that this appears to be a book with good intentions in which the entity who has written the book recognizes the different between the concept of Christ as a loving non-judgmental, non-vain consciousness, and whereby the entity sees the definition of Lucifer pretending to be Christ as being vain in lapping up the worship of entities and being one who is judgmental of them in wanting to see them grovel for his affection.

This Awareness indicates the entity has not clearly defined much from the book, but it does appear to have certain value in terms of helping entities to better understanding the difference between the Luciferian type of Christ promoted by many of the churches and religions and the true Christ, that is a type of consciousness of mercy and compassion.

This Awareness indicates that this is the distinction the author wishes to promote.

A Religion That Excuses Hurting Others

(All You Need to Do is Say: "I Forgive Myself!")

QUESTION:

Clarence had another question here. "I've read about a so-called religion in which if you hurt someone, all you have to do is say: "I forgive myself!" and hunt up the next victim. I do not believe that is true, but some people *must* believe it.

COSMIC AWARENESS:

This Awareness indicates that this is essentially a psychological technique of forgiving oneself without really expressing remorse for harm done to others. In itself, it may help to alleviate some of one's own guilt, but this is not sufficient to totally undo an incident in which error occurred.

It sounds more like something created by a psychologist to help an entity as an individual overcome the concept of guilt. This would suppose or presume that guilt is the only thing in the world that is a problem. This Awareness indicates this would allow an entity who slaughters millions to alleviate his guilt, by saying "I forgive myself!" and then go on, and such a religion, to be working in this manner, is obviously not a complete religion.

It does not solve the problems that might occur to humanity. Therefore, it is a limiting religion, helping only the one person, giving only the person who commits a crime or sin against others an excuse or a way, a method to get away from the consequences of his actions, or to avoid confronting the reality of his behavior.

This Awareness does not see this as being anything other than a self-gratification type of religion, and to promote such is very immature. It allows entities to avoid responsibility to others and claim salvation for self regardless of what it does to others. It is a kind of religion for a very immature person.

This Awareness indicates of course, entities can create any type of philosophy or religion that they may feel is helpful to themselves if they have no regard for others. This does not mean the religion or philosophy is wholesome. It can be quite damaging. Just as there are Satanic philosophies and religions, there can also be religions which are selfish, as is this one.

WILL SOME BANKERS HAVE TO PAY FOR THEIR UNLIMITED GREED?

QUESTION:

Another question from Clarence. "When any of the international banks and their followers dies, do they

have to "pay" for all the results of their unlimited greed, like when taking over businesses and even governments for their greedy, money-grabbing plans?"

COSMIC AWARENESS:

This Awareness indicates that the entities will have to come face to face with the reality of their inadequacies as a human being. If they have behaved in a manner that is not wholesome to all of humanity, they must be confronted by that reality, by that fact, and in being confronted on a higher level of reality by the fact of their having benefited at the expense of others, they are faced with a truth about themselves that shows them they are inadequate as a human being, and thus, they will be influenced into returning to the earth plane to have another chance at living a wholesome life, and to do those things that are necessary to bring about a better situation for those entities whom they have injured in their previous and more greedy life.

This Awareness indicates in other words, the *Law of Karma* affects them in such a way that they have to return and experience much of what they have caused others, and may have opportunities to help others in those ways which they have previously hurt others. This will go on and on repeatedly, from one lifetime to another, until a proper balance of their behavior has resulted in a balancing of the karma, so that others have benefited from their behavior to the extent that others were hurt from their earlier behavior.

Where Does the Power that Answers a Pendulum come From?

QUESTION:

A question from Pearl Nelson. She asks: "Can you tell me where the power that answers the questions I ask my pendulum comes from? Also, the healing energy that it has?"

COSMIC AWARENESS:

This Awareness indicates that throughout the universe there is that highest frequency or vibration and the lowest frequency or vibration, and multi-levels of frequencies and vibrations in between. Each of these many different levels of frequencies or vibrations have their own level of self-awareness.

The lowest frequencies composing the most gross matter, have a certain degree of self-awareness, enough to make the matter they represent maintain itself as it is as a kind of base matter, and the highest vibration has at its essence, a self-awareness of its own particular nature. This Awareness suggests that the highest frequencies in the universe are those of Universal Consciousness and love.

Wherein if you can perceive love as a feeling, it also contains a self-awareness of Universal Consciousness so that its love, its feeling, permeates all of the other frequencies from the highest to the lowest. It is ultra-aware of all the frequencies in the universe.

This Awareness indicates that your pendulum in itself has its own vibration, but the way in which you use it adds frequency from levels of your attunement to other frequencies in the universe so that you can project and send those higher frequencies of your attunement to the pendulum, around the pendulum, to give it a higher than normal frequency or vibration, so that it appears to have a kind of higher understanding than the pendulum might have when it is simply lying upon a shelf or sitting in a box.

In other words, you imbue it with higher frequencies from your attunement to those higher frequencies and give it a higher life than what it inherently possessed before you picked it up to use it. In other words, it does

not contains its highest potential until you as a medium or interpreter or agent of translation use your attunement to higher levels, and bring that attunement of energy into the pendulum for its highest effect and activity.

This Awareness indicates if you put a name to it when it is being used in this way, the name simply serves to define or to represent the action of your own psyche in its role-playing in the process of your use of the pendulum. It does not actually give the pendulum a life of its own, for that life depends on you as a medium working in behalf of the higher forces through the pendulum.

Low Spirits Can Also Use the Pendulum?

FOLLOW-UP QUESTION:

It's possible is it not, that low spirits can interfere when using the pendulum?

COSMIC AWARENESS:

This Awareness indicates that there is always a possibility of some disincarnated spirit coming in tune with the operator and attuning to the operator, affecting the pendulum and its outcome. This Awareness indicates that this can occur particularly when the operator does not in a conscious level clear the air so to speak and seek only the highest of frequencies.

If the operator tunes in to the highest frequencies possible, the entity can keep these energies clear. Otherwise, the entity can pick up disincarnated spirits and be fooled by them. Such disincarnated spirits may have no higher spirituality than a drunk on the corner of skid row.

This Awareness indicates that it is important for entities to avoid playing with Ouija boards or pendulums without the realization that their own consciousness must be attuned to the highest frequencies possible and not simply passive in allowing some spirit to take control of them or their instrument.

Back to the Subject of Free Will Mentioned Earlier

This Awareness indicates that in relation to the concept of free will which was discussed previously, one of the only areas really left in which free will can be easily exercised is in the ability of the mind to reach for higher quality as opposed to letting things of any level occur without discernment.

Thus, an entity who has free will may choose the highest and best at any moment, and even though the entity may be conditioned toward certain behavioral patterns, by choosing the highest and best, the entity's choices can become better, even if the choice chooses something that the entity has been conditioned to accept.

This Awareness indicates that in choosing higher quality, you have the greatest ease and opportunity of expressing free will in any given situation. If an entity does not express the free will of choosing high quality, but is simply ready, willing and able to accept whatever comes, the entity could very well attune to a disincarnated spirit, mischievous or even hostile in nature and reap a whirlwind of difficulties through attunement to a lesser spirit.

Looking for the Silver Lining

(Selecting the Highest and Best in a Situation)

FOLLOW-UP QUESTION (VIKKI):

Would another example of selecting the highest in a situation be compared to always looking for the silver lining?

COSMIC AWARENESS:

This Awareness suggests that it is more than simply looking for the highest and best. It is also a matter of *selecting* the highest and best so that when you are discerning, you choose the highest and best at any

moment. This Awareness indicates that many entities can look at garbage and because they are searching so hard for gold, they may see the yellow shiny stuff as gold, deluding themselves and jumping full force into the garbage to discover that it is simply discarded corn, and rotten corn at that.

This Awareness indicates that in other words, looking for the silver lining is a matter of hoping for the best. This Awareness suggests more than mere hope. This Awareness suggests *choosing* the best, searching for and finding and choosing the best in any given situation. This Awareness indicates that if one finds oneself in a situation it may be that the corn in the garbage is the highest and best that is available.

It may be that the entity cannot extract himself or herself from the garbage, and maybe needs to select the highest and best wherever he or she is, and perhaps the corn is the highest and best selection available. Then indeed the entity needs to make that choice and choose the corn, but it is important for the entity to discern carefully before making such a choice, not simply hope that the corn is gold or hope that something else is there, but to really discern *what is*, and then choose the highest and best available.

This Awareness indicates, of course, there is always the possibility that the highest and best choice is to avoid selecting any of it, and moving on elsewhere, to further one's search.

FOLLOW-UP QUESTION (VIKKI):

In selecting the highest and best in a given situation, then if the facts are in front of you, is your highest and best choice how you interpret the situation then?

COSMIC AWARENESS:

This is in the affirmative. According to your ability to discern clearly. If you are extremely poor in your decision and discernment and you don't know that the things before you are rotten and you think that the rotten thing is the highest and best, and you make that choice, that then is your problem of not being able to discern clearly, and of course you must learn from your mistakes over a period of time.

Eventually, you will learn to discern *What Is* more clearly and to make better decisions based on better discernment.

Are Assisted Suicides a No-No?

(Why Enduring Pain Is Important to Some Entities)

QUESTION:

One last question from Pearl Nelson. Awareness has covered this before. Anyway, I'll ask it. "Are assisted suicides a no-no, or does God forgive when one has excessive pain?"

COSMIC AWARENESS:

This Awareness indicates that it is simply a matter of a karmic reality. If one is in a situation in which one suffers, and one is too wimpy to accept the suffering and opts for a wimpy out, then the entity has not gained from the opportunity of the situation to become courageous or strong and the entity has avoided facing reality, has learned to escape by taking his or her life, to escape from the result of some previous action that led to this situation.

This Awareness indicates that in other words, the suicide carries its own karma. It does not necessarily mean that the entity will be punished for the deed of suicide, but rather that the action of failing to deal with *What Is* does not bring about a stronger character, which could have resulted, had the entity faced the situation and gone through it in the way that, for example, an

animal or another human being might do in a similar situation.

This Awareness indicates that in other words, there is no judge standing there saying, "No! Don't kill yourself! Stay with it! You'll be stronger! You'll be a horrible person if you kill yourself! You'll be condemned for doing so! It is wrong!" There is no one standing there watching this take place with the attitude of judge and jury.

Rather, there is the reality of circumstance in which an entity is suffering and the entity knows that the suffering won't stop until the entity dies. The entity may also know that he is not going to die until he has suffered many long hopes in this way, from these pains, and the entity may also see that the suffering does not seem to be alleviated by drugs or various salves or creams or anything that is supposed to ease the pain, and the entity simply concludes: "I want to get it over with! I wish I was dead! I cannot stand the pain!"

The entity may then select suicide or the entity may have the choice of "What's the difference? I'm going to die anyway! Once I'm dead, does it matter whether I suffered? I might as well continue to suffer until I'm dead, and maybe I can simply get into the pain and not resist it."

And then the entity may select to live out the pain, not resisting the pain, but accepting it, and experiencing it totally without resistance. In so doing, the entity may become a much stronger person, being able to accept pain that is unforgiving. The entity continues to live and survive, right up to the moment of death in such a way as to not resist the pain, but to experience it totally.

This Awareness indicates that when the entity *does* eventually pass over, the entity will be all the stronger for having endured the pain rather than cutting out and committing suicide to avoid it. This Awareness indicates that in other words, there is pain that is placed in the path of entities and they can either avoid it one way or another, through drugs or through suicide, or through hypnosis or through blocking the nerves or they can experience the pain fully in such a way that it becomes them and they *are* the pain of their being.

They have no further identification other than the experience of pain which they see as being themselves. These entities then being the pain, and eventually increasing or changing so that the pain begins to cease and their consciousness begins to move out of the pain into another state; the entities begin to learn how to accept or handle pain in such a way that it no longer controls them, whereby they control the pain. They can turn it on or turn it off.

These entities become much greater and much stronger for having endured the experience. In other words, your experience has given you an opportunity to become stronger than the pain you endure or has given you an excuse to skip out, to avoid facing any unpleasantness. This Awareness indicates that it is not so much that you do an awful thing by committing suicide when things are unforgiving and inevitable; that kind of suicide does not carry the same heavy karma as the suicide in which one has accepted or participated based on some unpleasantness or a vengeance concept such as when one says, "I'll fix them! I'll kill myself! Then they'll be sorry!"

This kind of suicide, when the entity is quite healthy, has a potential for further joyous living experiences or activities; this kind of suicide, to get revenge on someone, or to avoid the loss of some crisis in one's life: "My girlfriend left me, therefore, I'm committing suicide!"

this kind of suicide is much more karma-laden than that which comes at the end of one's life when one is so heavily laden with disease and there is no cure and there is no hope of recovering.

This Awareness indicates that everything is a matter of quality. The life that is damaged by some emotional frustration in which an entity doesn't get what he wants may be used as an excuse for suicide, and the entity says: "If I don't have the quality of life I enjoy, then I will not allow life to continue in my body! I wanted that person, and that person did not want me! I'll show them! I'll kill myself if I can't have what I want!" This kind of reasoning leading to a suicide is much different from the reasoning that an entity reaches when he knows that there is no recovery, there is no release, there is only waiting for the death knell.

This Awareness indicates the karma is quite different. In one case the quality of life is diminished somewhat, but there is still the opportunity for further life. In the other case, the quality of life is gone and there is no opportunity for further life other than the moment it takes to suffer and die. This Awareness indicates therefore, a great difference in karmic circumstance exists in the two different scenarios so that the one choice is unforgivable in a sense, and the other choice is probably forgivable somewhat, with very little karma resulting.

This Awareness indicates, of course, if one can suffer it out, fully experience the pain, then one becomes stronger and will not likely need to go through the same learning lesson again. The entity who can go through a lesson and learn everything it has to teach, who can go through an experience and learn everything the experience has to offer, generally does not have to repeat the experience again.

If an entity commits suicide to avoid the suffering, there is a good chance the entity will have to come back and do it again, do it over until the entity has experienced whatever suffering was part of his or her karma. Likewise, for the entity who, in good health, chooses to commit suicide because he simply can't live without that person. The entity is almost certainly destined to return to the same point in a future experience and have the same choice to do over again, wherein he must learn that he can live without that person.

What Mundane Value of Pain?

FOLLOW-UP QUESTION (VIKKI):

How mundane a level does this value of pain carry to? Are we wimping out and losing chances for strengthening our character each time we take a pill for a headache, rather than toughing it out, for instance?"

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates for example, if you are prone to repeated headaches and you learn to rely on a pill, you may be neglecting to discover the cause of the headache, or maybe failing to realize that your mind is capable of healing certain aspects of the headache simply by relaxing or by taking some kind of attitude change.

This Awareness indicates in other words, perhaps it is simply a tension headache. Have you learned to release the tension that the headache is telling you about? Or do you keep the tension and take the pill? Is there any learning that has occurred when you take the pill to diminish the headache that is attempting to warn you of the excessive tension?

This Awareness indicates of course there are also other things that may be the cause of the headache. Perhaps your circulatory system is clogged. You are not

getting enough blood, or you are getting too much blood in certain areas and the veins cannot pass the blood through because they are clogged.

This Awareness indicates in other words, the headache is a warning of something dangerous that is occurring in your body, and you fail to heed the warning by taking the pill, by taking the aspirins or whatever. This Awareness indicates that perhaps you do not know how to heed the warning, you do not know what to do for the circumstance, but because you have a pill you don't even need to take the trouble to find out or try to find another solution.

This Awareness does not advocate or suggest that you are committing a sin by taking pain-killers, but *It* does wish to let you think about the fact that most pain is there for a reason and if you aren't doing something other than simply killing the pain, you may be neglecting something that is very important to your life and energy and good health.

This Awareness indicates in some instances, the pain of a headache may simply be poor eyesight, and corrective lenses or nutrients or eye exercises can be in order and could alleviate the headaches, but if you do not consider these things and simply rely on painkillers for the headache, the eyes may worsen, the situation may grow worse over time.

This Awareness suggests you do whatever you can to improve the cause of the pain, rather than simply masking the pain and letting the cause continue.

"Mad Cow Disease"—Is It Coming to the U.S.?

QUESTION:

A question from Harold Hayashida, in Hawaii. I'll read his question and then read a little of the article he sent in. "In Acres USA magazine, there is an article about Prion and Spongy brain disease. It says that 40% of the cattle in England are affected; that meat is banned in hospitals, schools and old people's homes. Milk is banned in schools. Will Americans be troubled with this disaster too, and did Global 2000 introduce this disease?"

And in Acres USA it says: "This disease is caused by a Prion which is not a virus or a bacteria, but more like a protein similar to a small DNA particle. It cannot be cultured, nor does it bring about antibodies. There are no tests to detect it and scientists have found it extremely difficult to kill, even with high temperatures.

"Pasteurization of the milk and cooking of meat does not kill the Prion. There was very much concern in the United Kingdom, when in August, 1992, more than 60,000 cattle were identified as infected with Mad Cow Disease and Syndrome, which causes dementia and lethal degeneration of the brain. The brain becomes riddled with small holes and causes unpredictable and dangerous behavior.

"In Britain, over 1,000 new cases were being identified each week. They stopped giving milk to children in the schools and they also stopped eating meat in the schools, hospitals, old folks homes, et cetera. In Britain it was discovered by the involved vets that the cattle died after eating meat and bone meal from diseased sheep which had the spongy brain disease.

"The diseased cattle, when they died, were in turn made into animal feed, and this feed further affected healthy cattle. The Prion can change or mutate and has the ability to cross to other species."

It's a long article which goes on and on, but his basic question is: Will Americans be troubled with this

disease also? And did Global 2000 introduce this disease?

COSMIC AWARENESS:

This Awareness indicates that there is a good chance that this will be spread into the United States some time in the next half-decade. This Awareness indicates that it appears the disease came about from some unintentional but irresponsible acts of individuals. This Awareness indicates it appears to relate to a kind of cancer-like condition or where you have a background related to fungus which is similar to a cancer.

This Awareness indicates it is not fully clear as to how it evolved, or who should be held responsible but it appears it was not spread intentionally. It was more of an incident that occurred through a lack of understanding and certain circumstances. This Awareness indicates that *It* sees there is more, but *It* does not see anything clearly. Perhaps in a future time it will become more clear.

Will Lemuria Rise on December 7th 1999?

(Will the Islands of Oahu, Hawaii, and Kauai be Inundated?)

Another question from Harold H. "A spiritual psychic reader named Quasi Yaw Hooi Terry said on the radio that in the year 1999, December 7th, that the capital of Lemuria will rise between the islands of Lanai and Maui and two thirds of the island of Hawaii, Oahu and Kauai will be inundated. Please ask Awareness if this is true?" And will it inundate their home in Pearl Harbor, and the Arizona Memorial?

COSMIC AWARENESS:

This Awareness does not see this as being correct. There appears to be no substance to this prediction.

Hawaiian "Psychic" Puts Out Hooi

Okay. One other question about this psychic Quasi Yaw Hooi Terry. Harold writes: "This spiritual reader and healer said my poor health is caused by some woman who put a curse on me 43 years ago, and that my home was possessed by earthbound Hawaiian spirits; that I was a Hawaiian in seven of my previous lifetimes and that the spirits of four of my children are in my second bedroom.

"This reading was given to me from her office and store where she sells minerals, stones and crystals. She also charges for removing spells and curses. Could Awareness comment on this?"

COSMIC AWARENESS:

This Awareness indicates it appears to be a lucrative business for the entity. It appears that she finds many entities willing to pay relatively high prices for such service and that it is a commercial business and has very little to do with reality. This Awareness indicates *It* does not see that it has any substance in reality in your case whatsoever.

(In other words: Hooi is Hooey! :Strongbow the transcriber)

A Healing for Harold and a Curse Removal

This Awareness indicates that *It* wishes at this time to send this entity a blessing and a healing and to assert and assure the entity that the energies and suggestive force of this "curse" will be removed. The suggestion of a curse, often becomes the curse itself. This Awareness suggests that *It* now wishes to remove this "curse" suggestion from the entity's consciousness, freeing the entity of any suggestion of a curse, freeing the energy so that no curse can affect the entity, either real or imagined.

This Awareness indicates that *It* now wishes to send this entity healing energy to assist in his full recovery. This Awareness suggests the entity also participate in

the meditation that was given yesterday relating to the quantum consciousness attunement. This Awareness is gathering energy at this time to be sent to the entity for purposes of healing and has gathered this energy. *It* is now sending this energy to the entity.

This energy is that which goes down over the head of the entity, permeates into his body completely, moving down to the shoulders, through the chest, through the stomach, and torso, down through the hips, thighs, into the legs, down through the lower legs, calves, ankles, feet, toes; also out the arms into the elbows, forearms and hands and fingers, as light healing energy entering the cells, touching the cells throughout his entire body, lighting them up, giving them life force and life energy to heal all of the entity's pains, all of the entity's problems of ill health, healing the energies, bringing about greater health, vitality, bringing about energy and a pleasant sense of well-being.

This Awareness indicates that this energy, having filled the entity, now is to be fixed and set as permanent Light Force Energy to give the entity good health and strength and rejuvenation. This Awareness indicates that this has been completed. The entity may reinforce this by reading this information over occasionally. The entity will also experience a growth and movement toward renewed health over the coming weeks.

Is Great Wealth the Only Way to Tell Who's a Member of the Elite Ruling Class?

QUESTION:

A question from Biagio Conti, Carmel, New York. He asks: "Is great wealth the only way to tell who is a member of the "elite and ruling class?" Is great wealth the only way to tell?"

COSMIC AWARENESS:

This Awareness indicates that this is not to be the way by which one measures or judges another. Many entities acquire great wealth without being part of the elite. The entity, for example, Michael Jordan, Charles Barkley or many of the movie stars who receive good pay for their work could be said to have great wealth, but this does not necessarily imply that they are part of the ruling party or elite group.

This Awareness indicates that many of those in the elite who are children of the bankers may not have personal great wealth, but may be heirs to the great wealth. This Awareness indicates that this is not truly a way of discerning who these entities are.

Who Created the Negative Learning System?

QUESTION:

Another question from Biagio. "Who created the system in which we learn more through negativity than through positive experiences?"

COSMIC AWARENESS:

This Awareness suggests the questions implies there was some professor or teacher or expert that worked on this, which is not the case. This Awareness indicates that essentially the system evolved from human behavior and from certain elements of humanity in terms of greed or in terms of certain actions taken.

It is not a matter of pointing the finger at some particular entity. This Awareness will tell you, however, it certainly was not Humphrey Bogart! This Awareness indicates it was not Popeye! *It* cannot tell you who it was, if you want a name.

QUESTION:

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that *It* was not intending to make light of the question just asked. It was just that Humphrey Bogart's face popped up, and this Awareness saw that he was not the one. Then Popeye's face popped up, and this Awareness knew that he was not the one. This Awareness indicates it seemed to be a message indicating that anyone could be accused, but no one person caused this system to evolve in terms of its negativity.

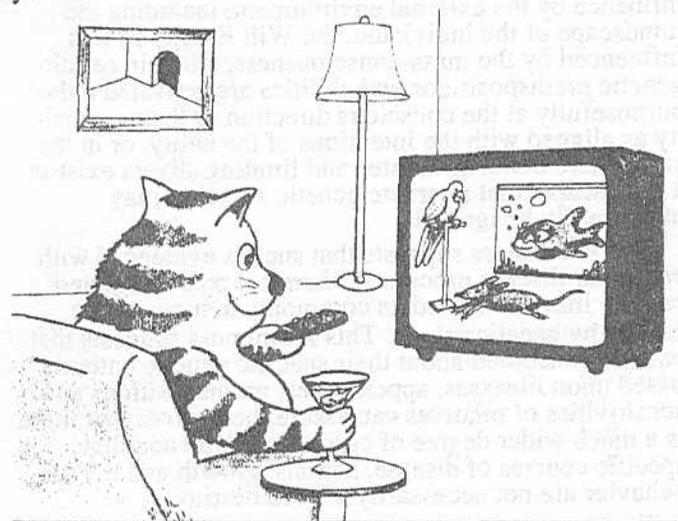

This Awareness wishes entities to recognize that every action, every thought any individual expresses has a potential for improving the world in which they live, or has the potential for causing more difficulties. This Awareness asks entities to express themselves as much as possible to bring about improvement.

This Awareness suggests, for example, not as trying to improve the world by trying to criticize the flaws so much as improving the world by adding joy to your expression so that others enjoy your expression and so that they feel better about themselves because of your expression.

This Awareness suggests you could, for example, chastise a child for improper behavior, or you could also, in seeing a child behaving improperly, walk over, put your arm over the entity's shoulder and ask, "Are you having fun? What is happening with you?" or ask: "Would you like to walk with me to the ice cream shop?" Or some other statement that indicates to the child that you are friendly, you are interested in his welfare.

This Awareness indicates this assumes you know the child, the child knows you and you are permitted to put your arm around the child. It is so much easier for entities to scream at the child than to hold the child in a loving manner, particularly when the child is being somewhat outrageous in behavior.

This Awareness suggests you may find that you can add more joy to life and calm entities by taking the positive path rather than by reacting in a negative way to a negative expression. If you can learn to speak with a positive expression when someone is being negative, it often creates a totally different situation, and is far more effective than meeting negativity with further negativity.

BEFORE ENTERING A PHYSICAL BODY CAN A SOUL INFLUENCE THE GENETIC CODING?

QUESTION:

A question from Curtis Lemmon, in Italy. He writes: "Could you asked Awareness: Before entering a physical body, can a soul influence the genetic coding of that newly conceived baby? If so, could Awareness provide some examples, or for what purpose this might be done?"

COSMIC AWARENESS:

This Awareness suggests that indeed, the creation of the physical form is wholly influenced by the entity, the soul energy, as defined in the question, whereas the specific Destiny Path and spiritual challenges chosen for the personality are suitably matched with existing genetic lines.

This Awareness suggests that as with earth families, spiritual families often perfect specific genetic lines to carry forth specific abilities and tendencies and sensitivities in order to conduct long-term and multiple incarnation achievements. This Awareness suggests however, that once the entity embodies as the personality, a portion of energy, that there indeed is a continuous interaction between the mindscape of the personality and the environment: physiological, chemical and social, in terms of the limitations within mass-consciousness, that continue to influence the existing genetic make-up of the individual.

This Awareness suggests that although it is assumed that the genetics themselves are causal in terms of most physiological phenomenon: chemical interactions, bodily processes, and even behavior, this Awareness suggests that this is only a partial piece of a much more complicated scenario.

This Awareness suggests that the consciousness, the Will Energy and focus through the mindscape of the personality which has been created by willful choice under the guidance of the entity, (assuming the emotional communication exists between entity and personality) that the specific destiny challenges and desirable genetic switching on and off of specific attributes, tendencies and sensitivities can then occur.

This Awareness suggests that causality is indeed influence by the external environment, including the mindscape of the individual, the Will Energy as it is influenced by the mass-consciousness, wherein certain genetic predispositions and abilities are activated either purposefully at the conscious direction of the personality as aligned with the intentions of the entity, or in the case where belief structures and limiting slivers exist in a mindscape, that alternate genetic switches may haphazardly be ignited.

This Awareness suggests that such is evidenced with particular disease processes, chemical poisonings and certain immune disorders commonly assumed to be caused by genetics alone. This Awareness suggests that entities concerned about their specific genetic patterns based upon illnesses, appearances, predispositions and sensitivities of relatives can assure themselves that there is a much wider degree of choice involved and that specific courses of disease, actions, growth and even behavior are not necessarily a fixed destiny.

This Awareness suggests also that once entities re-connect with the spiritual language between personality and entity and strive to design a mindscape filled with belief structures which elicit positive emotions, that a tremendous amount of will empowerment and ability for genetic manipulation can begin to unfold.

THE CRACKING OF THE GENETIC CODE

QUESTION:

They just recently announced that the genetic code has been cracked by scientists and that this is a monumental discovery, or moment in consciousness, and that it means that entities are going to find many news ways to either cure or prevent diseases that they have, genetic or otherwise; others say this is going to be controlled by the drug industry and the citizens will get less benefit than the drug profits.

Does Awareness have any comments on this breakthrough in genetics they've just announced?

COSMIC AWARENESS:

This Awareness suggests that concerns over the hoarding and misuse of certain information can be minimized and eliminated with the realization and understanding of the heightened communicative complexity and connection with the mass-consciousness of humanity.

This Awareness suggests that the manifestation of the Internet provides outlets for information, leaks and exchanges on a global basis so that those fear-driven individuals attempting to power-monger and hoard information have little energy supporting such activities.

This Awareness suggests that instead, the information made available regarding the human genetic structure will instead allow scientists and medical practitioners to recognize the interactive nature of causality and the role that the individual consciousness and perceptions plays in information processes and energy transfer, which underlies all bodily processes including genetic mutation and replication.

This Awareness suggests that the genetic code in and of itself is much more universal in that the human form is genetically similar to lesser complex animal forms, and that since the human species has, in terms of percentage, nearly identical genetic coding, it shall become apparent that the unique differences and adaptive mutations arise from alternate sources.

This Awareness suggests that this information coming out at the current time is indeed associated with the Quickening, the gathering energies of enlightenment wherein a critical mass shall vault the mass-consciousness into a much more full and complete human experience and away from the brutish unconscious instinctive animal survival level experience.

This Awareness suggests, however, that scientists will be greeted with many astounding surprises and those open to alternate explanations shall bring additional energy to counteract those who insist and deny the fact of human creative Will Energy and its causal participation in ongoing co-creation and evolution.

We have completion.

—HOW TO GET THIS NEWSLETTER BY MAIL— EVERY 4 WEEKS! (More or Less)

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).

MEMBERSHIPS AVAILABLE (Honor System)

INDIVIDUAL: \$42 per year or \$12 quarterly
 FAMILY: \$52 per year or \$20 quarterly
 CONTRIBUTING: \$77 per year or \$25 quarterly
 SPONSORING: \$144 per year or \$40 per quarter
 BENEFACTOR: \$500 per year or \$150 per quarter
 PATRON: \$1000 per year or \$250 per quarter
 ANGEL: \$5000 per year or \$1500 per quarter
 LIMITED INCOME: \$30 PER YEAR OR \$9.00 QUARTERLY
