## THE ROMAN SOLDIER WHO PIERCED JESUS

### QUESTION:

There was a question I had relating to the last reading about Jesus, and the question is: Was the legend of the Roman soldier who pierced Jesus with a spear, true?

### COSMIC AWARENESS:

This Awareness indicates that this in reference to the entity of Nazareth; that this as being in the affirmative; this at the time of the crucifixion of that entity.

### FOLLOW-UP QUESTION:

Obviously it wasn't fatal then, as some of the stories say.

### COSMIC AWARENESS:

This in the affirmative.

## THE LARGE EARLOBES OF A PHARAOH

(Is There a Connection With Aliens and Honduras?)

### QUESTION:

A question from Esther Hamel in Montana. She writes: "In issue 369, page 12, Awareness commented: 'the Pleiadeans have larger ear-lobes'. I have enclosed a copy of a picture taken from the September/October 1990 *Biblical Archaeological Review*. Please note the large lobes on the Egyptian Pharaoh Merenptah portrait. Several years ago I was in Honduras. While there I saw several Stelae carvings depicting people with extremely large lobes. Is there a connection between these entities?"

### COSMIC AWARENESS:

This Awareness indicates that this may be in connection with the direct visitations by such entities, or may be a result of genetic carry-over from earlier ancestry. This Awareness indicates you will note the name Osiris as closely resembling the name Sirius, referring to the constellation. This Awareness indicates that there were some connections in ancient times between these extraterrestrial civilizations and certain earth stations that were named after their home planets.

The name Tyre, the city of Tyre as having been named after the planet Tyrantor of Orion constellation; these from the Orion Greys. This Awareness indicates that the large ear-lobes seen in some of the ancient drawings reflect certain personages from Pleiades ancestry. This Awareness indicates also there were other entities in Egyptian time from other origins in the universe.

### Jackal-faced Aerya and Oans Fish People Aliens

You will note the entity Anubis having a kind of dog-face or jackal-face appearance. This as that which resembles the entities from Aerya. This Awareness indicates that the Aerya type entity is not familiar to modern civilization except through the ancient drawings. There were also those Ooans, or fish people, those who appeared or looked much like fish, including scaly skins.

### QUESTIONER:

In a reading given on May 9th, Awareness stated: "This Awareness reminds you of the god in Egyptian mythology known as Anubis, that those who have seen pictures of Anubis will note a general similarity with pictures of the Greys."

### COSMIC AWARENESS:

This Awareness indicates that this was a misreading. It should have stated 'with aliens'. That this in reference to the Aerya types. This Awareness indicates that there are also in other ancient drawings and writings from the Phoenicians and back and in Acadian and Mesopotamian and Babylonian writings, similar representations

of space or extraterrestrial types. Some appearing as having wings, some appearing as likened unto fish appearances, and others having Reptoid or reptilian appearances.

This Awareness indicates that in many of the representation of winged creatures it was not so much that the beings had wings, but symbolic representation in the drawings that these entities were capable of flight, and being capable of flight were given what appeared to be wings to symbolize that flight capacity, just as your present day pilots earn their wings to fly.

Picture of the Pharaoh Merenptah carved on a block found in the Valley of the Kings. Note the extra large earlobe.

## WHAT DID HUMANS START OUT TO BE AND HAVE FORGOTTEN?

(More on the Prism of Lyra and Mankind's Ancestry)

### QUESTION:

A question from Jack Katchmar. He writes: "The Pleiadian contact channel Barbara Marciniak said the human race has forgotten the 'glory' of what it was originally cloned to be: 'Earth sits on the edge of a doorway to the great guarded center from which Light emanates. The great war has been taking place for the entrance to this galaxy. The disruptive energies: (Lucifer Reptilian vampires) (this is Katchmar's parenthesis) have now managed to gain access, and they have been wreaking havoc.

'The Pleiadeans wish to bring us back to the glory of what it is we started out to be and have completely forgotten.'

His question is: "Please tell us exactly what was 'the glory of what it is we started out to be and have completely forgotten' and what made us forget?"

### COSMIC AWARENESS:

This Awareness indicates that these entities are referring to the original ancestry of the human race, that ancestry which includes the ancestry of the Pleiadians, the beings which were a race of deities in human form that came through that which has been termed the Prism of Lyra, a Light Star or white hole, whatever you wish to call it, a point in space from which emanated the creation of consciousness into this particular universe.

### Dark Holes that Become White Holes

This Awareness indicates that as there are black holes, on the far side of the black hole would be seen a white hole, from which the light emerges after it has been sucked into the black hole. This Awareness indicates that in this universe, light sucked into the black hole from another universe emerges into this one as light, and it passes through a kind of prism that fragments the lights into different colorations or frequencies, and some of these frequencies created the deity type, which most resemble the human Pleiadian Sirius creatures or creations, and some of the frequencies fragmented to form these more along the lines of the Reptoid and more unevolved types such as the so-called Moth Men.

#### The Dark Hierarchy and Its Order of Alien Members

This Awareness indicates the Moth Men types are recognized in the dark hierarchy as being more powerful in the hierarchical position in the dark hierarchy than even the Reptoids. The Reptoids being above in that hierarchy, above the Orion Greys and they, the Orion Greys, see themselves as being above the Zeta Reticuli Greys.

This Awareness indicates that the glory of the human types as having as ancestry the qualities of the deity types that were ancestor to the Pleiadians and the Sirius types. This Awareness indicates the Sirius types being a kind of cousin in that some of these alien Sirius types had reptilian qualities also, but that they carried with them a higher genetic quality that is more closely linked to the original Creator and are more closely aligned to humanoid beings than are the Reptoid types who are more closely associated with the lizard qualities in their genetic past.

#### The Prism of Lyra and the Origin of Mankind's Ancestry

This Awareness indicates that the origin of mankind's ancestry was that which carried through the Prism of Lyra the memory of the Creator from that place which has been called the 7th Realm or that which some call Sach Kahn. It is the origin of the creation of living beings in this universe. This Awareness indicates that it is there that souls were created, even prior to movement through the hole and through the Prism of Lyra.

This Awareness indicates that this is quite difficult to explain when all of these reference points are unfamiliar in terms of earthly disciplines and teachings, wherein the terms are quite confusing because there is so little familiarity with these terms or their concepts. This Awareness suggests the book *The Prism of Lyra\** may be used to help clarify this message; that also entities who have studied Eckankar or Sant Mot may have some reference points to that which is the Sound Current or vibration and frequency that entities may contact in meditation to move back to these realms, to that original place known as Sach Kahn wherein the souls were originally created prior to passing through the Prism of Lyra.

#### Sach Kahn Can Be Experienced Through Meditation

This Awareness indicates that *It* does not see in the Sant Mot teachings or Eckankar teachings any reference to the Prism of Lyra, but entities can perhaps find a similarity in these teachings of a place or situation that corresponds in quality to this Prism of Lyra wherein a split and fragmentation took place in the creation that followed. It is a place in which entities in meditation and moving back toward their source will find a feeling of unity with the Creative Light, the Divine Light, wherein they come together with the frequency of the Creator.

This Awareness indicates it may also be experienced by some as unification with this Awareness, or a feeling of becoming One with God, a feeling of becoming attuned to the Christ Consciousness, all of these different ways of expressing the experience are but terminologies to describe the same experience of coming back through the Prism of Lyra which was the original fragmentation of consciousness, and in moving back through that Prism creates the yoking or reunion of consciousness.

It is the reunion of personal and Divine Consciousness.

## HOMO SAPIENS, HOMO ASTROLIS, HOMO IMMORTALIS: HOW DO THESE DIFFER?

#### QUESTION:

Another question from Jack Katchmar. Actually there's a number of questions. I'll read his statement and then re-ask any of these that Awareness requests. He writes: "Brad Stieger mentions in his book, *The Fellowship*, a PhD in educational psychology who said he came to earth on a special mission to help his fellow human beings: (1) "Homo Sapiens," and (2) "Homo Astrolis."

The book *Keys of Enoch*, by J.J. Hurtak, also refers to a group called "Homo Immortalis." Please tell us how these three groups of human beings differ from each other: the (1) Homo Sapiens, (2) Homo Astrolis (3) Homo Immortalis and who cloned each group, and does each of these groups have a different potential, and if so, what is each potential, and how can each individual soul find out which of these three groups they belong to and how many different clones or codes like these three are there among the human race today?"

#### COSMIC AWARENESS:

This Awareness indicates the question is laden with questions, each reaching out like limbs of a tree into new areas. This Awareness will attempt to respond but may need to have the questions or parts reread.

#### Who the Homo Astrolis Entities Are

This Awareness indicates that Homo Astrolis as that which refers to what Brad Stieger calls the Star People, and this is given in his book by that title. This Awareness indicates it refers to entities who have reincarnated on earth but whose origins are elsewhere. They have chosen to be born to earthly parents.

They have lived elsewhere, and attempt to enter in to earth plane experience through earthly parents, the purpose being to help raise the vibration of this plane. This Awareness has referred to them as Wanderers in *Its* reference to such people.

#### Who the Homo Immortalis Entities Are

This Awareness indicates that Homo Immortalis referring to entities who do not die. This is a reference to entities on earth who have a capacity to move in or out of physical form at will, such as has been attributed to the entity known as Babaji.

These entities reach this state in evolution through discipline of spiritual qualities, through meditation and through special training or disciplines over long periods of time in which they totally devote their lives to becoming One with the Divine Consciousness.

#### The Origin of the Homo Sapiens

This Awareness indicates Homo Sapiens is a general term used for all human types on earth, though some of the human types tend to be still not quite Homo Sapiens.

This Awareness indicates that the sapient being as that which was the creation from the genetic influence of those gods from Sirius, who effected the original Adam and Eve which were created by the Reptoids as slaves for their mining and gardening work. The homo sapiens being these who became seduced by the serpent or that which was the Sirius gods to develop their own individuality and to learn to make choices, to know good and evil, right and wrong, and in general to think for themselves rather than being simply obedient to their master/creator, the Reptoid creature from Draco.

This Awareness indicates the question also asks how many types of beings are there on earth? This Awareness indicates that these are the more common; the Homo Immortalis being a creative term used to describe

the immortal being such as Babaji and this may or may not qualify as an earthly being even though it has the capacity to step into physical form; the entity is more of an etheric being than physical.

#### **Creatures Who Claim to be Terran-Types**

This Awareness indicates that the only other creatures are these that may be classed as nonhuman, being of alien nature, although some of these refer to themselves as Terran-types meaning they are from Earth. The Reptoids see themselves as Terran-types of beings, claiming themselves to be from Earth. This is but an argumentative position to help justify their right to be here on Earth, much like an argument of Saddam Hussein claiming that Kuwait is part of Iraq.

If one is to take ever a place, often they seek to justify the action by making a claim to the territory or claiming squatter's rights by saying they were their first. In the argument of the Reptilians, they were upon Earth first, for it was on Earth that they cloned the Homo Sapiens and the claim Homo Sapiens have to earth is best argued that the Reptilians abandoned their property, their domain, and gave up their claim in the abandonment and that humans now have ownership of the Earth by way of 'by right of adverse possession.'

#### **How the Legal Term "Right of Adverse Possession" Works**

This Awareness indicates that in legal terms, adverse possession allows an entity to claim property if they have lived on it for a certain amount of time, and no one has objected to their use and claim to the property during that time.

This Awareness indicates the alien mentality is quite concerned about claims to the property known as Earth because they realize the Galactic Space Confederation, using the laws of that which is the Andromedan Council has certain galactic laws or rules by which they demand all inhabitants of the galaxy abide by, and one of these rules is that they are not allowed to interfere with the progress of other people on their planets unless they are thus invited, as were the Orion types invited by treaty with the United States government and with the Russian or Soviet government, and they are not permitted to simply run roughshod over the inhabitants of a planet.

But if they have a legitimate claim of ownership to that planet, this of course would alter any argument that they had no right to be on Earth, for example. Thus, they are trying to present the argument that they were owners of Earth before mankind arrived. This Awareness indicates the argument for mankind in claiming Earth is that Earth had been abandoned and left to them. They were given the Earth as their domain over which to rule, as written in *Genesis*, along with the animals of the Earth, and also, mankind gained the right to claim Earth by adverse possession, the possession of ownership over long enough period of time that the abandoned owners, or the owners who abandoned the property should have no further claim to come back after mankind has put forth improvements and investments into the Earth's property.

#### **How Emissaries of the Galactic Command Return to Argue**

This Awareness indicates there are some entities in human form who as emissaries from the Galactic Command may present in their nocturnal visits to the Galactic Command, may present these arguments to assure that the Galactic Command understands fully the legal aspects involved and does not simply abandon the Earth to the Reptoids on the default of Earthians having no defense or proper claim.

This Awareness indicates that this is in reference to human Earthians; that the human Earthians indeed do have a legal and proper claim to the Earth, and when

those who are emissaries from the Galactic Command, (this in reference to the Homo Astrolis, the Star People) that these entities often return in their dreams at night to their home planets and this Awareness wishes to give them the understanding that they might present the case for Earth people to their associates in their home planets, that Earthian humans *do* have the claim of ownership to Earth via adverse possession and the improvements, the civilizations and the investments that have been enacted on the earth.

#### **The Reptoid Argument That Humans Have Damaged Earth**

This Awareness indicates there is also an argument the Reptoids could use in regard to damages to the Earth by these entities, except that the damage to the Earth by these entities have generally been perpetrated by the influence of the aliens, including the Orion types and the Reptoid types in their influence on the money system; thus, if they used that argument, it could backfire on them and work against them rather than for them.

This Awareness indicates were these aliens not operating and influencing humans, the greed factor would never have developed to the extent that it has which has led to the pillage and plunder of Earth treasures, and the damages to Earth. This Awareness indicates that humans are generally a more gentle people than would appear from their history, but their history is that which is filled with wars that were started by or influenced by effects of the aliens acting upon individuals through their agencies and secret societies, or directly, through their own agents.

### **ARE "WARRIOR LAWYERS" NEEDED?**

#### **FOLLOW-UP QUESTION:**

Some years back when Lee Michaels addressed the universe supposedly, he made the statement that he was a 'warrior lawyer' from a planet, I believe, that consisted of warrior lawyers. If such a place exists, would it not be that some entities from that place could argue the case for Earth, being that they are lawyers?

#### **COSMIC AWARENESS:**

This Awareness indicates this could occur. It is not necessary that it be done in this way. This Awareness indicates that a simple presentation by entities who understand the previous message is effective. When these entities go to sleep on Earth they often travel astrally to their home planet and are interviewed and questioned in regard to the conditions or situation on Earth, and their answers are used to help determine policy of that planet toward the Earth.

It does not have to be complicated legal jargon. It simply has to be understood. This Awareness indicates that the term 'adverse possession' is a legal term meaning that one may possess a piece of property that was previously owned by someone else, if the other does not object to the entity's claim to that property for a certain amount of time. Normally in earthly laws it is a period of 7 years.

This Awareness indicates in other words, if someone lives in an abandoned home for a period of 7 years or whatever time is allotted for the law, the entity may then claim ownership. Each state may have a different time period for this law, and in some countries the law may not even apply, especially those countries where private ownership is forbidden. This Awareness indicates that at any rate, the term adverse possession is one which entities can find relatively easy to remember, and if they cannot remember that, they can remember the concept of abandonment and the fact that the Reptoids abandoned humanity on earth, thinking that the Earth was unfit for survival after the flood, which they perpetrated

by melting the polar caps with their spaceships and in abandoning humans on a hostile planet, they assumed the planet would simply become lifeless, but the planet thrived, life thrived and humanity thrived also.

This Awareness indicates humanity did have help from other extraterrestrials during the interim, prior to the return of these Reptoids.

### HOW TO DISCOVER WHICH GROUP YOU BELONG TO

#### FOLLOW-UP QUESTION:

I'm not sure if Awareness covered this aspect of Jack Katchmar's question here. "And does each of these groups have a different potential, and if so what is each potential?"

#### COSMIC AWARENESS:

This Awareness indicates that this was essentially covered in, the description of each group and its nature.

#### FOLLOW-UP QUESTION:

And this part of the question: "And how can each individual soul find out which of these three groups they belong to?"

#### COSMIC AWARENESS:

This Awareness indicates that if you have the capacity to leave your body, take your body into another realm, or from that realm return to manifest in the physical realm, you would belong to the Homo Immortalis. If you have an interest in discovering whether you are Homo Astarist or one of the Star People, a clear description of these types is given in the book by Brad Stieger.

Basically, these entities are much the same as what this Awareness has described as Wanderers, and this information has also been given. These entities sense that they do not really belong on earth, and that they have a home elsewhere in the universe, and that they are here only for a short duration. This Awareness indicates they often find it extremely difficult to fit in with the way things are done on earth. They have difficulty finding or holding jobs and prefer to work on their own rather than work for others.

They tend to feel themselves as misfits in society especially during childhood and their teenage years. They often have sudden realization later in their adult life that they have a special mission, even if they cannot clearly see what the mission is. They tend to sense that they have a special mission.

This Awareness indicates that in the Stieger book, the descriptions vary somewhat from those given by this Awareness and you may search these out for further clarification to determine whether or not you are a Star Person. This Awareness indicates that all other types are Homo Sapiens unless you are a Zeta Reticuli, Dero, Orion Grey extraterrestrial, Swede or Blonde or Nordic type, Pleiadian, Sirius type or some other extraterrestrial type of being. If so, you would know.

### WHAT ABOUT EGO TRIPS?

#### FOLLOW-UP QUESTION:

I would think if entities actually had access to that information, that in some cases it could become sort of an ego thing and they might look down their noses at regular Earthlings, thinking that maybe they're more spiritually evolved than the regular Earth people.

#### COSMIC AWARENESS:

This Awareness indicates that this indeed can and often does become the case. This Awareness indicates, however, that this is not something unique, because almost all entities on Earth find some special thing on which to latch to make themselves more important than others, if they have a need for ego enhancement. This

Awareness indicates that it is important to understand the ego; that the ego has its rightful place in helping an entity to succeed in the field and world of activity.

It is only when the ego gets caught up in thought and in words, such as in discussions with others, that it is out of its proper element. If an ego is involved in competitive action or skillful action, wherein one seeks to do the very best one can, the ego is a great asset to the human being. You cannot do your best without having a healthy ego involved in the activity of the doing. It is only when the ego starts becoming involved in social interaction about how well you did, or what a great person you are in comparison to someone else, or how much better you did than the previous winner.

Making comparisons on a verbal level or in thoughts; it is only in these levels that the ego blunders and becomes the laughing stock and an embarrassment to the entity. When the ego seeks conquest, the seeking is not so much the problem, but the thinking about the seeking and the thinking about the conquest, especially in looking back at the conquest and glorying in one's conquests, this is where the error is most pronounced.

One needs an ego for proper action. It is simply self-esteem. But when one talks about their self-esteem to others, then they are opening themselves for rejection. They are embarrassing others and may be insulting others who do not have the same qualifications to brag about, and who feel belittled by the comparison involved.

This Awareness indicates that if one discovers oneself to be a Star Person, it may help the entity to better understand his or her purpose on earth, and if the entity does not attempt to make this into some expression of vanity, it may help the entity to become a better person in knowing why they are here, and what their purpose is. To know there is something special about you does not necessarily cause you to become egotistical or snooty.

It is only if you seek to find something special so that you can be egotistical and snooty that a problem will develop from such finding.

### AWARENESS CALLED TOM "AN OLD SOUL" (And He Somehow Felt Guilty About It)

#### FOLLOW-UP QUESTION:

In a sort of a reverse of that, in a reading years ago, I was told that my son Tom was the oldest soul in the family, and when I told him about this, I discovered later that this bothered him and he felt guilty, that he must have done a lot of things wrong to have to live so many lifetimes. I tried to explain to him that this didn't necessarily mean that. Could Awareness explain what that term actually means: "the oldest soul?"

#### COSMIC AWARENESS:

This Awareness indicates that it is simply a reference to the activities of soul experience on Earth, that the souls of entities may have existed elsewhere, but in general, what was meant in this particular instance especially is that the entity had more experience on Earth than did the others of your children. This Awareness indicates that it is likened unto the concept of seniority. If one has worked at a job longer than others, who has put more hours into the job than any others, they are said to have more seniority.

This Awareness indicates that it does not necessarily mean that they are more skilled or that they have made more errors because they have worked there longer, it simply is a term indicating time spent. It should imply more experience, and therefore more wisdom acquired, but as indicated in this example, the information was misunderstood and felt as being of negative or con-

demning value to the entity. It was felt as criticism, when it could as easily have been interpreted as complimentary if the entity had understood it correctly.

### BODIES THAT NEVER DECAY

( Are Canonized Saints Unawakened Starseeds? )

#### QUESTION:

A rather strange question here from Albert Monette. He writes: "Is it possible that the majority of 144,000 Light Emissaries who will remain on earth until the cleansing has been completed, that most of these will come from those who were buried but whose bodies never decayed? One such example would be Paramahansa Yogananda, whose body never decayed after 25 years in Forest Lawn cemetery.

Others of course would be canonized saints that were dug up after 100 years whose bodies never decayed. Is this one of the few explanations of what is meant by those Starseeds who are still asleep and have not awakened yet? In the prayer, the Apostle's Creed, it mentions the resurrection of the flesh, and it doesn't say the resurrection of the ashes.

If these buried bodies who have never decayed do not eventually resurrect, then why are they being preserved by the divine Spiritual Hierarchy? Would Awareness comment or elaborate on any of these topics please?"

#### COSMIC AWARENESS:

This Awareness indicates that there are a number of questions involved. This Awareness indicates that the first question involved be restated. (First part is read again, including the one about Starseeds who are still asleep).

This Awareness indicates the reference to the Starseeds as that which refers to entities who have come here from other planets through reincarnation through earthly parents but who do not recall who they are or where they came from or what their purpose is. This is in reference to the Star People.

This Awareness indicates that in regard to the first question, this may be seen as a possibility as indicated in the question. It is not seen clearly that this is the fact of some future scenario. This Awareness indicates that *It* does not at this time see clearly what the facts are in this regard; that this may appear at some later date.

#### FOLLOW-UP QUESTION:

What would be the purpose and how is such accomplished that a canonized saint or whoever, could be planted in the ground or wherever they put them, and their body not decay?

#### COSMIC AWARENESS:

This Awareness indicates that this is not seen at this time, that it is not seen that this is fact. That this may be made more clear at a later time. This Awareness prefers not to answer a question without clarity being offered, for the answer.

### "THE RESURRECTION OF THE FLESH"

#### FOLLOW-UP QUESTION:

In the part of the question where Albert says: 'In the prayer, The Apostle's Creed, it mentions the resurrection of the flesh and it doesn't say the resurrection of the ashes. Could Awareness explain that?'

#### COSMIC AWARENESS:

This Awareness indicates that it was not the custom in the early Christian church to cremate bodies. This Awareness indicates that it was the custom in the Western world to preserve the body; this having come from Egyptian tradition. The idea of preserving the body as though the preserved body would rise again as in Egyptian religion, to give future life to the departed. This Awareness indicates that this as part of the early

Christian thinking in which the belief that because the entity Jesus was resurrected in the flesh, it was to be an example for other Christians, that they too might find themselves cheating death through resurrection of the flesh.

It was the hope of entities that eternal life would be theirs and they perceived the idea of eternal life as that which would be lived in the flesh.

### THE CONCEPT OF LIFE AND DEATH

#### CLOSING MESSAGE:

This Awareness indicates that the concept of life and death as that which takes on many different facets in accordance with the intellect of the time, the potential understanding of those who are being addressed and this often is a central part of any religious expression thus, ancient religions from around the world each have their own unique interpretation of life and death or life after death, or what it all means.

This Awareness indicates that from the viewpoint of this Awareness *It* wishes to share with entities that all is alive, but that forms are often created around life and fill up the space around life, and these forms are often mistaken for life so that entities believe the form creates and carries the life, when in fact the life creates and carries the form, and that the form can be set aside, dropped, dissolved, blown apart, hacked to pieces, or otherwise destroyed and the life will still remain, invisible to the eyes, to the sense of those who are locked into form and operating through the senses.

This Awareness indicates that until entities become more familiar with and aware of the nature of consciousness itself and how information processes energy, and how energy is the processing of information and that these processing information fields of energy make up the essences of beings that are manifested or unmanifested in the universe; until entities realize that these things have a life of their own, they will never understand fully the concept of life after death, for **life goes on. Forms die.**

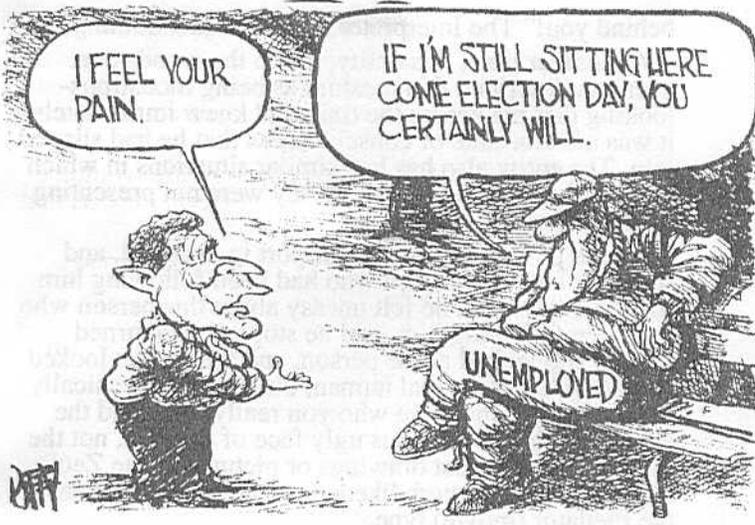

The containers often decays but the water always remains. It may evaporates but it will remain somewhere and come back together as water or ice. The same is so for life, and when an entity develops individuality, that individuality holds together as a kind of soul force, and is not broken apart and does not lose its self-identity, even if the form is broken, for it can at will mold its own new form and come back together as a new being in a totally new form or new expression in a new experience.

### THE HEALING PROPERTIES OF PARSLEY TEA

**QUESTION:**

We received a newsletter called the *Swannanoa Health Report*, and the premiere issue is extracted from *The Layman's Course on Killing Cancer*. This is put out by Sam Bizer in conjunction with the Swannanoa Institute which I think is affiliated with the Walter Russell people. Anyway, there's an interesting thing in here about parsley, making a parsley tea in relation to not only healing, but curing serious kidney infections, wiping out bladder pains and problems, all of this when drug therapies fail. I'd like to ask Awareness if this information on these remarkable testimonials is valid information in relation to parsley tea?

**COSMIC AWARENESS:**

This Awareness indicates that this is in the affirmative; this as being highly beneficial as a cleansing substance; that it does require continued use for enough time to have its effect; that there are many values from the use of herbs in healing different illnesses and diseases that many entities believe cannot be healed without radical medical treatments. This Awareness indicates that for centuries, for millennia, herbs have been used throughout the world for healing different illnesses. It is only in the past few years that the pharmaceutical companies, in an effort to monopolize the healing industry have attempted to diminish the significance of herbs as healing agents.

**FOLLOW-UP QUESTION:**

### PARSLEY TEA FOR GALL STONES?

I gave this information to a friend of ours, Michael Murphy, who entered a hospital because of intense pain last week, and they told him he had gall stones, and the only thing he could actually do to get rid of them was surgery, and he didn't want to do that, and they gave him morphine for the pain. I'd like to ask: Will this tea help in the case of gall stones?

**COSMIC AWARENESS:**

This Awareness indicates that this can be beneficial; that this may be used several times daily for a period of approximately three weeks and should by that time have helped considerably. It may require more time for complete remission. This Awareness suggests also there are other suggestions available for this situation. This Awareness suggests the herbal remedies of Dr. Christopher may be also considered.

**QUESTIONER:**

Is there any particular herbal remedy Awareness would suggest ?

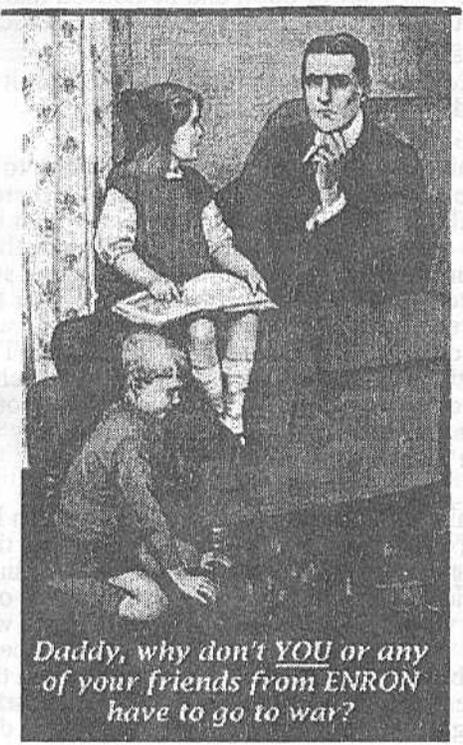

**COSMIC AWARENESS:**

This would be listed under gall stones. This Awareness indicates also that apple cider vinegar is seen as having some benefits, that EDTA as used in chelation could be beneficial.

**WISDOM OF AWARENESS...**

### ON THE NEED TO BE ETERNALLY VIGILANT

"...One protest or millions of protesting entities over a short period of time may have an effect during that time, but this does not mean that a future time is to be affected by that protest. Entities must ever and always be aware and awake and vigilant in the pursuit of liberty and peace." (82-2)

### What Strange Entity Scared Albert Bender?

(More on the Various States of Consciousness)

#### QUESTION:

A question from Robert S. in Vancouver, British Columbia. He writes: "In chapter 15 of *Albert K. Bender's* book *Flying Saucers & The Three Men*, he mentioned a frightening incident in which an invisible and odorless entity, having been sitting in an armchair, rose in response to Bender asking: "Who are you? I know you are there!"

"Bender saw a slight movement in the chair, backed away fearfully, and felt an icy hand on his shoulder that felt like a cake of ice. For a few seconds, he got the worse scare of his life when he saw a ten foot tall green creature with a glowing red face, and glowing red eyes. This fright caused Bender to faint, but when he came to, there was a sulfur odor, and he noticed that the place on the rug where the creature had stood was scorched as though by a hot iron.

"Could Awareness please explain what it was that Bender saw and frightened him so?"

#### COSMIC AWARENESS

This Awareness indicates it is difficult to explain these things. This Awareness indicates there is that which is called Beta consciousness, which is the normal state of an awakened person, and there is that which is Alpha consciousness, and that is a mental state in which the consciousness is of a somewhat higher frequency. There is the Delta level of consciousness, which is more subconscious and deeper, and there is the Theta level, and this is a state of consciousness in which entities see into other dimensions, and some of those other dimensional beings can take on any shape or any feature they wish to take on.

#### When Ron Rummel Saw Spirits

This Awareness indicates the entity Ron Rummel used to have experiences in which he saw these Theta beings in certain Theta states of consciousness. They would be quite ugly at times. He also saw other beings who were quite beautiful. At one point he was speaking with the Interpreter, his mouth dropped open, he looked up above the Interpreter's head, and when the Interpreter said, "What is happening?" he remarked, "There is a great big tall Egyptian standing in the doorway

behind you!" The Interpreter of course saw nothing.

At another time, this entity, out in the woods one evening, described this creature as being monstrous-looking that ran across the trail, and knew immediately it was a Theta state of consciousness that he had slipped into. The entity also has had similar situations in which he would see entities and feel they were not presenting themselves properly to him.

At one point he was in the airport in Portland, and someone came up to him who had been following him for some time, and he felt uneasy about this person who had been following him, and he stopped and turned around and looked at the person, and the person looked like an ordinary normal human, but he said psychically, not verbally: "Show me who you really are!" and the entity had this horrendous ugly face of an alien, not the kind you see in most drawings or pictures of the Zeta Reticuli type, but more likened unto those ugly aliens of the *Predator* (movie) type.

This Awareness indicates it was simply his mind being more capable of flipping from Alpha, Beta, Delta and Theta levels than most entities could do. The entity, having this ability to shift levels, could occasionally see into other dimensions, and could see spirits or beings that other entities would miss, and apparently this was a situation in which the entity Bender also experienced a similar shift in his mental dimension or frequency.

### Whatever Became of Albert K. Bender?

(A Device That Enables One to Eavesdrop on Aliens)

#### FOLLOW-UP QUESTION:

Robert has another question here. The book *Flying Saucers & The Three Men*, annotated and with introduction and epilogue by Gray Barker, doesn't end with any certainty that Bender's harassment by the Men in Black is over. Could Awareness please inform us on whatever became of Albert K. Bender?"

#### COSMIC AWARENESS:

This Awareness indicates this entity appears to have been hounded by government agents. The entity having created a machine which allowed him to have communication with aliens; not have communication, but tap into their communications, and hear or read their communications and know things they were giving or saying to each other; and the entity took this information and passed it on to government agents.

But instead of the government being appreciative and helping to encourage the entity's work of eavesdropping on the aliens, the government brought him into a circumstance in which he was monitored and attended by therapists to help deal with his "insanity." The entity eventually was put in a position where he was unable to function in his research. It appears the entity is no longer living. This appearance is not totally strong, but it appears that he is no longer living.

His work has been preserved, but is not published as of yet. It has been hidden so that the government agents will not destroy it.

### Is Reagan's Senility Karma for Killing Others?

#### QUESTION:

Another question from Robert S. "Is the Alzheimer's disease Ronald Reagan suffers from a partial karmic payment he has chosen for such past evil acts as arming and training the murderous Contras in Nicaragua and the equally sadistic government death squads of El Salvador?"

#### COSMIC AWARENESS:

This Awareness indicates that an accumulation of a lifetime of activities in terms of behavior, diet, genetics,

and exercise and environmental matters and personal stress all contribute to create certain circumstances that result in disease. This Awareness indicates that there are many factors that can contribute to Alzheimer's. This Awareness indicates that even such things as aluminum that is in cookware, or aluminum in deodorants can help to cause or encourage or develop the Alzheimer's disease.

#### Chelation Has Cured Many of Alzheimer's Disease

Many people have been treated for Alzheimer's and cured by the use of chelation which takes heavy metals out of the system, and by the removal of aluminum from their system, the Alzheimer's disease would be diminished or cured. This Awareness indicates this is not always the cause of the Alzheimer's disease, however. There can be other factors including parasites. Also certain vitamin/mineral deficiencies can contribute to this disease.

The entity Ronald Reagan **did** take bee pollen which helped to preserve his youth and vitality longer than most people his age. Keep in mind that this entity is quite elderly at this time, having been 70 years of age at the time he became president. That is not exactly a karmic punishment for an entity to live such a long life and to end up near its end with Alzheimer's disease.

## KARMA CAN BE INSTANT OR SPREAD OUT OVER MANY LIFETIMES

#### CLOSING MESSAGE:

This Awareness indicates the concept of karma is not always administered in a particular lifetime in which the karma is earned. It can be passed over into the next lifetime, or it can be spread out over several lifetimes. It is simply cause and effect, and the effect may not be fully experienced or realized in a single lifetime.

Much has to do with an entity's level of awareness and remorse. If an entity takes an action that is negative in terms of karma and earns some kind of karmic punishment, then the entity may or may not even be aware of his deserving a punishment. He may simply be focused on getting by without getting caught or without being exposed to the point where he does not admit or acknowledge that he deserves some kind of karmic punishment.

At some point in his life, or in the afterlife experience, he will reflect back on his life from a different perspective and may recognize that this was wrong, it was not the right thing to do, and in evaluating his life, will see that he owes something to someone, and must repay in some way to balance things out, and thus the entity may accept or prepare to accept some kind of karmic repercussions for his previous behavior.

Thus, in the afterlife, and perhaps before the next life, he agrees to accept certain karmic influences which he will need to work out in order to have a clear and balanced soul. This Awareness indicates this entity may choose to live a single life, repaying karma for many things done, or may choose to spread the karma out over 'installment plans' of many lifetimes.

This Awareness indicates it largely depends on what the entity decides when he is in the high state of Awareness, the White Light, at the time and moment of his passing over, and prior to any rebirth cycle.

This Awareness indicates, however, in some instances, karma is more quick, and in some cases can be 'instant.' An entity may be active in a certain way and have an immediate reaction or injury from the activity which could be considered as Instant Karma. If an entity is, for example, extremely careless and gets his or her

finger chopped off because of that carelessness, it is instant karma, and these things can occur so that one acts in a certain way and his present lifetime is then affected by the karma of the action.

#### Most Karma Is Created Between Ages 17 and 27

This Awareness indicates also that most entities rack up most of their lifetime karma between the age of 17 and 30, and even 17 and 27 could be a more precise period for the racking up of karma for a particular lifetime. Entities become extremely wild and careless during those years, lacking responsibility, but going after the pleasures of adulthood, being irresponsible for the actions they pursue, and thus, they rack up extreme debts or possibly criminal records, or unwanted or unplanned-for children, or some kind of record that does not do well with their reputation, or other types of problems with relationships or with close family members, and their wildness and irresponsibility is strong during those years and may cause karmic results that last throughout much of their future lifetime.

This Awareness indicates of course, this can be avoided by entities who are more cautious, more reserved, more careful about planning their lives.

## CELIBATE WOMEN TODAY: WHY SO MANY? WHAT KARMA CREATED THIS?

( From a CAC General Reading 7-16-93) Paul Shockley, Interpreter

### QUESTION:

A question from Joyce Williams. There's several questions in it. I'll read her statement. "Several of my female friends are celibate, and have been for several years. They are making lives for themselves but say they would prefer to be involved with a male. I think a lot of this generation's potential husbands were lost to Vietnam. Of the 58,000 who died there, at least twice that number have committed suicide and many more are lost in drugs, alcohol and flashbacks.

"What karma, or set of circumstances led to this state of being for many women? What are the positive and negative effects of celibacy for women on a personal basis as well as in a sociological sense? What is the impact on male/female relationships in general?"

"PS. More potential husbands or mates have been lost to the Gay Movement now that it is becoming socially acceptable to be Gay."

### COSMIC AWARENESS:

This Awareness indicates that the entity did not mention the Feminist Movement and its effect on many potential husbands. This Awareness indicates that this is also an important fact. This Awareness indicates that another factor is the high rise in divorce during the past 50 years, after World War II, especially, wherein entities' children growing up found themselves in broken homes, and most of these children upon reaching adulthood, did not have examples of loving parents who stood by each other regardless of whatever happened.

#### Some See Divorce In Their Family as a Solution

This Awareness indicates that when children have parents who stick together, they are more inclined to seek the same kind of long-term marriage for themselves, and for their family. This Awareness indicates with more and more entities passing through the generations that have divorce as part of their home life, they see divorce as a solution to difficulties in marriage, and many of these entities, expecting divorce to come from marriage, simply decide they would rather not have that kind of experience in their lives and stay away from marriage altogether.

This Awareness indicates that often they will try to have a relationship without the marriage which has been a great contributor to the unmarried partnerships that are common today, the unmarried household, and also to the rise of unmarried women with children, who find themselves living much alone with their children and having great difficulty in finding a mate that they can bring into their home to play the role of father.

#### Women's Movement Frightening to Some Men

This Awareness indicates that with the Women's Movement there has been some value in that women have helped to take certain personal power that they might have given previously to men so that they feel more personally empowered, but at the same time, they have also frightened many men who would perhaps have otherwise made good husbands and providers. Many women do not care to have a provider or husband but would rather do it for themselves.

This too is a contribution to the break-up of married families, for a man who is with an aggressive and assertive woman may find it much more easy for him to be either controlled, or to object to being controlled, and want equal or greater say and therefore, will want to enter a marriage in which the woman controls things, or

will want equality or will want to avoid relationship altogether with such a woman.

This Awareness indicates that for those who want control of a marriage, the men can sometimes become overly abusive and in a kind of tug-of-war over who is going to control whom in a marriage where the woman is more assertive. This Awareness indicates that all of this contributes to the problem the questioner spoke of and has narrowed more and more the choices of women who want to have a traditional family, wherein there is a husband who cares for the family, a mother who cares for the nurturing of the children and husband's needs and the general harmony of a household.

#### Many Women and Men Now Turning to Foreigners

This Awareness indicates that in this regard, many women are turning to foreigners. They look for the entities of Spanish or English or European or African or other racial and national origins different from themselves, in hopes that they will find someone who is more inclined to the traditional family role-playing. There are a great number of men in the United States of various racial background or national origins, who simply don't feel they can cope with the American woman because she is too demanding, or is too difficult to please or wants too much control, and therefore, they turn toward foreign women, toward the Oriental or toward some European or other entity, and therefore, many American men are searching for the traditional wife and many American women are searching for the traditional husband, but neither finds these in the American marketplace.

They are not for sale in the American marketplace because each seeks too much from the other. This Awareness indicates that it is a problem, and there are many causes for it. This Awareness does not see any real solution developing, but it appears that when the problem reaches a peak, many of these entities will turn and look at each other and be willing to compromise to some degree in order to be with someone who they are culturally harmonious with, even if they still have ideas of supremacy over the other that cause some disharmony.

It will likely work itself out in time. This Awareness indicates that the hostility between the sexes, based on those ideas of supremacy over each other is likely to diminish as time passes, however, an entire generation may have lived in a lifetime of loneliness while this play runs its course.

## WHAT KARMA LED TO THIS CELIBACY?

( Homosexuality In Woman's Movement Behind the Problem )

### FOLLOW-UP QUESTION:

Did Awareness cover that part of the question of what karma, if any, or set of circumstances led to this state of being for many women who now find themselves celibate?

### COSMIC AWARENESS:

This Awareness indicates that it appears the karma being a group karma based on homosexuality, the women's movement, which set up considerably strong polarities against men in general, and which only recently is beginning to soften its hostile stand towards men and which also is allowing men to soften their hostile stand against women.

This Awareness indicates that these things which you mentioned are basically the factors involved in creating the situation that has led women to find it difficult to relate to men because men have been taught by the women's movement to fear the assertive woman, and to fear the independent woman.

#### **Old Polite Attitudes by Men Denied to Liberated Women**

This Awareness indicates that there was a time when men would open the door for a woman, to let her pass, or to pick up packages she dropped, or in other ways be supportive of her. Most men now, particularly the younger men who were not raised that way, see the woman struggling, and could help, but think to themselves: "She wants to be liberated. Let her be liberated. Let her do it for herself. I'm not giving up my seat or putting out my energy for her."

This Awareness indicates that this is much more prevalent in the younger generation than in the older generation of men, to the point wherein the younger generation does not have even the desire to support his wife or girlfriend in a monetary sense when setting up a household. They prefer to make the woman pay for her own expenses, her own living costs, and put her in the workplace so that he can keep his money and do with his money whatever he pleases, and he feels this is justified because women have sought equality.

This Awareness indicates that in his mind it is simply allowing her to have what women have proclaimed is their right. Thus, he sees that she has the right to take a job and work, but there is often a double standard, wherein he wants to keep his money and he would like her to pay for the food which she cooks for him, and only when it is pointed out to him that it isn't fair that she should both cook and feed him and supply the food for the meal; only then does he decide that he should pay something toward the household.

This Awareness indicates that it is simply that entities have begun to proclaim their particular concerns about fairness in a relationship so that they cannot any longer allow generosity and activities to spontaneously happen. This Awareness indicates that in some cases, when the woman goes to work and the man has had a tradition of supporting the family, the woman then keeps all of her money and allows the traditional father role to continue, but she does not want to pitch in with the household expenses, and therefore, she is benefiting while living off of his energies.

#### **Resentment Over Having to Share Money**

There is the attitude: "What's mine is mine! I earned it! And what's yours is mine also, because you married me and vowed to take care of me!" This Awareness indicates that this is not really uncommon with some women, and when the man's efforts to care for the family become difficult, the expenses increase and he cannot keep up, the woman may be very resentful at having to give up any of her wages.

This, of course, is an ideal situation for the woman who wants her cake and wants to eat it also. It is of course not fair to the man, but when entities began to think this way: "How can I get more than my share from this relationship?" then the marriages begin to fall apart. The very reason for coming together begins to fall apart.

It is only when entities say: "I love this person! I want to live with this person. What can I do to help this person have a more comfortable life?" and it is mutually experienced by the two entities so that both entities seek to make each other's life more comfortable; that is the only time marriages can grow in a healthy manner, so that they can be more enduring and can last through hardships and difficulties. Where has this value gone? Do you hear it or see it being promoted in the women's movement?

#### **In Recent Times: The Beginning of the Men's Movement**

This Awareness indicates that in recent times there have been the beginnings of a man's movement. When these men will start looking at such concerns and values

is yet to be seen. Whether they will talk about: "How can I help women to be more satisfied? How can I give them what they need?" or whether this is part of their movement, or whether they begin discussing how women take from them and give nothing in return, remains to be seen.

#### **Men's Movement Promoted by Homosexuals**

This Awareness indicates there are many women who are very hostile to the fact that a man's movement has begun to happen. This Awareness indicates there are many men who are suspicious of the men's movement and see it as a collection of disillusioned men who do not care for women, or who are afraid of women and who are potentially endangered of becoming homosexuals, if they aren't already, and there are many men who see these men's movement groups as being pockets of homosexual men seeking companionship with each other and they are dissuaded to have anything to do with men's groups or of men's movements.

The questioner has pointed out the problems that have led to this situation she perceives. There are growing numbers of men who turn to each other because they cannot turn to the woman and there are growing numbers of women who are hostile to men because they cannot manipulate and control them to their satisfaction, and there are growing numbers of men who would like to have a relationship with the woman but can't get her to submit to his control and domination, and there are growing numbers of men who would like the receptive and comforting woman who do not see it in the American woman and thus look elsewhere.

#### **Many Leaders in Women's Movement are Lesbians**

This Awareness indicates that it is a problem that has yet to be resolved. It is a problem that needs to be addressed by more women, that needs to be brought out. There are many in the women's movement who are lesbian and many of these are leaders of the women's movement and they attempt to program and condition the masses of women to avoid men, to dislike men, and they express much of their own hostility toward men, and that spreads to others in the women's movement so that many of these entities influencing women add to the emotional polarity that builds between men and women so that there is increasing conflict that is not really necessary.

#### **Macho Attitudes Learned From Mom Often Backfire**

This Awareness indicates that when the women begin to take on macho attitudes and conflict toward men, men are not going to stay around such women for any great length of time. There are many young girls who have watched their mothers brow-beat their husbands, the girls' fathers, and they think that this is the way to keep the man under control, so they begin doing this to their friends, and the boyfriends, having no commitment, find it distasteful and leave, and the young girls are hurt. They wonder why things never worked out.

This Awareness indicates that there's a question whether this was better, or whether it was better for the girl to be totally submissive to the man. This Awareness indicates, of course, both methods are extreme and neither is correct, and each entity needs to keep his or her dignity and insist on being treated with dignity.

This Awareness indicates that entities truly need to learn how to treat each other with respect and dignity, regardless of sex, regardless of gender, for it is not the gender of the entity that makes him or her a good or bad person. It is the behavior that entities need to consider first. The gender does not mean that the entity fits into this or that category, for the entity may behave entirely

different from others who are of that gender that one seeks to categorize.

#### Do Not Classify Gender as Good or Bad

This Awareness indicates that type-casting all men as being a certain way is illogical, for there are many different types of men and type-casting women as all being complainers and grippers or hen-pecking entities only classifies them falsely, because there are many who are not that way. Therefore, do not classify gender as good or bad, but get to know the person for what he or she is and how he or she treats you.

This Awareness indicates that it is important for entities to respect each other for what you each are.

### She Experienced "Internal Earthquakes"

(Are They Transmuting Future Earthquakes?)

#### QUESTION:

Another question from Joyce Williams: "Many of my friends and acquaintances are experiencing "internal earthquakes" which one friend states was rearranging things on the cellular level, with a lot of balancing of male and female energies, and at the time it balanced out to the best relationship between man and woman it has ever been. I am wondering if this is valid, and also if it is valid that these internal earthquakes are transmuting the energies of the potential California earthquake?"

#### COSMIC AWARENESS:

This Awareness indicates that it is very difficult for one entity to understand what another entity means in such terminology. That it appears the entities are speaking of certain energies within themselves that are neutralizing polarity, or balancing out extremes in the physical sense, or that they are balancing out emotional blocks and therefore, moving into more inner harmony.

This Awareness indicates, of course, any kind of inner peace that entities experience, to some degree will affect the physical earth and the environment around an entity. This Awareness indicates that the degree of that effect may not be as significant as one would like to think. There are many entities who are quite narcissistic and believe that if they have a hang-nail, for example, that it means there is some problem with the United States that needs to be cleared up.

If they trip and fall, they see it as an indication that somewhere in the world there is going to be a disaster, and often these things will happen. For one thing, disasters happen quite frequently somewhere in the world, so if a person is narcissistic and thinks that they are reflecting the rest of the world, and they fall and sprain an ankle, and an airplane crashes two weeks later, they will link it to the sprained ankle, and if this is repeated enough times, wherein they do something and something happens in the world, they begin to believe there is a connection and it reinforces their way of viewing things.

#### Playing Mind Games for Self-Importance

This Awareness indicates that in one case, an entity, for example, missed a turn-off when driving the belt line around Washington DC, and quite by accident ended up circling the Pentagon three times, and thereafter, a scandal came forth relating to hammers and toilet seats being too expensive, and the entity took credit for the scandal; that he had circled the Pentagon three times and this information then came forth and the entity believed it was because of his accidental ritual.

This Awareness indicates that these are things that entities can do with their minds if they wish to play games for creating self-importance. This Awareness indicates another entity might circle the Pentagon three

times and feel extremely embarrassed that he had missed his turn, when he should have been more alert and watchful, and the entity could feel very embarrassed by the event, rather than making himself feel that he was somehow a major key in world affairs.

#### "Internal Earthquakes" Relieved by Passing Wind

This Awareness indicates that it is difficult to know what an entity experiences, and it could be simply a matter of gas in the stomach or intestines that causes this movement that is interpreted as an internal earthquake, or it could be something more profound, such as an emotional release of energies that have been blocked within the entity's body.

Many times, certain massage techniques go to a pain in the body and when that pain is massaged, certain emotional memories come forth and the entity may have a crying fit, a laughing fit, or some other emotional reaction because the pain was directly linked to the emotional trauma or situation of a certain time.

#### The Person Who is a "Pain in the Neck"

This Awareness indicates that in such cases, the entity might feel that the release of that emotion was physically related to that particular spot and in many cases, it is. For example, an entity might have a pain in the neck, and the old saying that "You are a pain in the neck!" may actually be tied with that pain, whereby the person may have tension in a particular area that was created subconsciously because of a conflict with someone during the day or prior to the pain being formed, and when the pain is massaged and released, the entity may flash on that particular person who caused the pain and may feel that the pain in the neck was that person.

This Awareness indicates that whether these internal earthquakes are valid or are simply one's interpretation is not really too important, if they do not get interpreted in such a way that causes the entity problems. This Awareness indicates that if an entity becomes obnoxious in terms of bragging about her internal earthquakes and begins to speak of this to the point where others begin to dislike her, or feel hostile toward her or jealous of her, then perhaps the concepts are more harmful than good for her.

If the entity, however, simply confides to someone about this experience, it can become interesting, worthy of discussion, a topic of interest between them, and it can be fun and totally harmless. It might even turn out that there is some merit to it.

This Awareness suggests you not worry about such claims or such concepts unless they become a problem to yourself or to others who relate to you; this in reference to the person making such claims. This Awareness indicates, however, if it is simply a claim for attention, for ego-building, one might question: "Why do I need this? Is it really important for me to be special in *this* manner?"

This Awareness suggests if, on the other hand, it appears as a real internal earthquake and you do not understand it, and your curiosity is behind the claim or the concern, you might wish to explore it. "What does an 'internal earthquake' actually mean?" This Awareness indicates that you may have had a chakra opened, and the opening of a chakra can indeed have some effect on the external world, the world about you. It might even have some effect on any energies built that might somehow relate to the earth energies, so that your concern as to whether it could effect an earthquake might have some remote validity.

The only problem is that it is very difficult, if not impossible, to get evidence of this. One can get an idea

or a belief without evidence, but to seek evidence to prove such is totally different from a belief. This Awareness cannot provide you with that evidence, as whatever this Awareness would say would also be a matter of whether to believe or not.

### **A Serial Killer: Was He Activated by an Implant? (One Reason So Many Senseless Killings Are Occurring)**

#### **QUESTION:**

A question from Wilma Baughman, in Atwater, Ohio. "In the Canton, Ohio, area, is a man who has confessed to murdering five men who were jogging or hunting. He had killed as a hunter himself and then five years ago, changed to killing humans. My question is: Are these types of crimes committed by people with implants that have been activated?"

#### **COSMIC AWARENESS:**

This Awareness indicates in some instances this is correct. This Awareness indicates that there are ways by which entities can be implanted so that they can have the implant triggered and the implant can then direct them into doing something that they would not otherwise have considered. This Awareness indicates that in this particular instance, it does not appear to be the case.

This Awareness indicates, however, that there have been other instances in which an implant was given to an entity and activated at a later time, causing or influencing the entity to commit violent crimes. This Awareness indicates the purpose for this is often simply to keep violent crimes happening in society as an excuse to make certain changes to deal with those violent crimes, such as attempting to generate a repression of guns in the society through gun control, or attempting to keep society frightened and impress on society the need for more police, more social controls, more crime control laws.

#### **Violent Killings Precede Gun Control Bills**

Often, when there is a Bill pressing for crime control or gun control, you will hear about some violence that has occurred or someone will kill a number of people. These situations are generally triggered by those implants or mind control techniques to help influence the passage of a particular Bill for gun control or crime control.

This Awareness indicates that is one reason why you have so many of these incidents happening during this recent decade.

### **STALKING GAME, THEN HUMANS: ANY CONNECTION?**

#### **FOLLOW-UP QUESTION:**

There have been books and movies and stories put out about men who stalk the ultimate game, this being the human, and I was wondering, is it possible, or is it just coincidental, that there might be a link between entities who are brought up as hunters who are taught to go out and stalk and kill animals and later start stalking the ultimate game, which would be the human. Is there any link at all to that?

#### **COSMIC AWARENESS:**

This Awareness indicates that this is much like the argument that entities who smoke marijuana are likely to use harder drugs. There is generally this kind of truth that entities who use harder drugs may more likely have started off using the milder drugs. This Awareness indicates that in other words, an entity who uses heroin probably used marijuana before graduating to heroin.

This Awareness indicates that likely also, the entity who stalks humans most likely began by killing animals at some point in his or her life. It is not seen as an

indication or connection that a person who hunts animals is going to go further and start hunting or stalking humans nor is it likely that an entity who uses marijuana is likely to go further and get into using other hard drugs.

This Awareness indicates, however, you can see there is some connection. You do not start eating steak right from drinking mother's milk. There are steps in between. Likewise, there are steps in between in these other matters also, and if you never pass the earlier steps, you are not likely to reach the latter steps, but passing the earlier steps does not necessarily suggest or lead to or cause activity toward the latter steps.

### **Are Credit Unions in Danger Like the Banks?**

#### **QUESTION:**

A question from Stephanie Saint Claire, in Tucson, Arizona. Awareness may have given this information. It sounds vaguely familiar. "Most of the reader know of the precarious nature of the banking system, but to my knowledge no one has asked about credit unions, which are employee owned. Are they in as much danger as the banks? And if the banks go under, are the credit unions likely to do the same? Is there a general rule of thumb that one should investigate with the credit unions as you advised should be done with the banks?"

#### **COSMIC AWARENESS:**

This Awareness indicates that in general, the credit union is more likely to be run with greater efficiency than the bank. There are certain rules under which a credit union must operate, and they are not as likely to be quite so independent as is a bank. This Awareness indicates that it appears the credit union in a general sense would be a safe place to put your money when you do not trust the bank, but that it also is important to keep tabs on your credit union in terms of its well-being.

You can seek, you can ask for and expect to get a printout of the worth in terms of assets and liabilities of your credit union. This Awareness indicates that as long as the assets are well ahead of the liabilities of the credit union, your money should be safe. This Awareness indicates that by well ahead *It* suggests at least 4 to 3 in terms of assets over liabilities.

### **THE INVASION OF GNATS: WHAT TO DO?**

#### **QUESTION:**

A question from R.P. Burns, Ewing Township, New Jersey. He writes: "In the last few years, our immediate area has been plagued with gnats. Clouds of them can be seen in the yards. It is extremely difficult to work in the yard and now impossible to sit in the yard to enjoy and relax. We use very little chemical pesticides, fertilizers, et cetera, but we are becoming desperate for a solution.

"We have put mosquito netting about our heads and they become covered with the gnats. This is a strange question for Awareness, but *how* do we rid our property of these gnats?"

#### **COSMIC AWARENESS:**

This Awareness suggests that you may wish to consider some of the pest repellent electronic devices that are commonly sold by mail through some of the magazines that work on vibration or frequency. This Awareness indicates that generally, flying pests such as gnats only come to those areas wherein there is a great deal of infra-red in the fields or location. Infra-red is picked up by these insects and seen as an indication of rotting foods or rotting vegetation and they come in great numbers.

This Awareness indicates that if you can get rid of some of the rot in the area such as ridding your area of

dead or dying vegetation or field crops, or if you can find an electronic device that vibrates at a rate which repels those gnats, you can have reasonable peace. This Awareness indicates also, yellow lights, yellow bulbs tends to repel many of those insects that are drawn to infra-red energies.

This Awareness indicates on the other hand, you can also get those electronic traps that coax bugs in and then zaps them, but it appears the number of gnats you are speaking of would cause a trap of this kind to overflow very quickly and it does not appear that you could ever be able to trap all of the gnats in the area.

This Awareness suggests, therefore, finding a vibration type of insect repellent, one based on electronics or light appears to be the way to go. This Awareness suggests you may look in farm catalogues, or contact a feed store for information or ask in some of the electronic catalogues. This Awareness indicates if you find no help there, this Awareness suggests you contact the entity Gary Zuckett in West Virginia, who has information on this kind of subject and may be able to direct you further.

This entity is a CAC member and has spent considerable amount of time helping to install towers in farmers' fields to help protect crops against insects. These towers are copper and are based on providing an electronic frequency to repel these insects.

### THE LOST BOOKS OF THE BIBLE CLAIMS THE BOY JESUS KILLED 2 YOUTHS (Any Truth to Those Accusations?)

#### Question:

A question from Eugene O'leary, in Saskatoon, Saskatchewan, Canada. He writes: "I wouldn't ask this question, except Awareness has recommended this book several times. In the book *The Lost Books of the Bible*, in the Infancy chapter, Jesus is said to have killed a boy who pushed him, another because he broke down his fish pools and partly restores him, causing blindness to fall on his accusers, page 56 and page 61, also, the school master, about to whip Jesus, lifted his hand to whip him, and the hand withered and he died. Could Awareness tell us if any of this is factual? If yes, then why did he do this? Also, was any karma involved, or was this all forgiven when he truly became the Christ? Myself, I find it hard to believe he could do such a thing."

#### Cosmic Awareness:

This Awareness indicates that this as having been information that was distorted in the sense that it was written many years after the entity Jesus had lived. This Awareness indicates that even the New Testaments were assembled after the death of the entity. This Awareness indicates that many of these things were written by individuals as (an) effort to have their writings included in some kind of schooling system. This Awareness indicates there were thousands of writings or booklets of this nature written on various topics in (an) effort to have the writers information included as some kind of text for teaching.

This Awareness indicates that many of these were discarded at the time; others were discarded later, some have been preserved, some have been altered, or some were mere fiction to begin with. This Awareness indicates in the case of this book, this was in a kind of story, like as one might write the story of Mark Twain as a child without really knowing the facts. This Awareness indicates that it should not be considered seriously.

### THE ANCIENT BOOK 'NECRONOMICON' (The Most Dangerous Black Book in the World)

#### Question:

Another question from Eugene O'leary. "How valid is the book *Necronomicon*? It was written in Demascus in the 8<sup>th</sup> Century, by the mad Arab Abdul Alhazred, said to be the most dangerous black book known to the Western World, filled with myths that have survived the darkest day of magic and occultism.

#### Cosmic Awareness:

This Awareness indicates that the term *valid*, as in: how valid is the book?, as that which is not clear. This Awareness indicates the information attributed to the book as being from antiquity, and as containing information that did come from those black rites. This Awareness indicates that this does have historic value, and does contain information that in the past related to some of the techniques used in their magic ceremonies. This Awareness indicates that it is presently of little value other than historic.

This Awareness indicates there is much that has been left out of the book in order to prevent others who read the material to be able to actually gain from using those techniques. This Awareness indicates that from an historical sense, for those who wish to study ancient manuscripts of this type, it can be of significant value, but for the practice of the black arts, it does not include all that was necessary to be proficient in the arts.

Essentially, it is alleged to be using spirits of the dead to carry out wishes of the magician.

## WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

### SOVIET JEWS WHO CAME TO AMERICA (Once a Communist Always a Communist?)

#### QUESTION:

Ted Pike, who has an organization called the National Prayer Network in Oregon City, has put out a video called *Israel: Our Duty, Our Dilemma*, and he sent out a newsletter which brings up an interesting question. He writes that: "As you are probably aware from reading my book, *Israel: Our Duty, Our Dilemma*, Jews not only played the central role in establishing Communism in Russia, but during the last 40 years have been given rights to immigrate out of the Soviet Union in percentages vastly greater than their gentile neighbors. For example, in 1979, 52,000 Soviet Jews were allowed to come to the West. During that year, less than 200 gentiles were so privileged. Since 1948, it is estimated that more than a million Jews have legally left the Iron Curtain. Adding to such disproportion is the fact that Jews constitute less than 3% of those living under Communist tyranny.

This year, roughly 50,000 Soviet Jews will come to the Free World, primarily to America. These will be followed by similar numbers in years to come. Further, you and I will help pay to establish them here. Every arriving Jew who says he is a political refugee will be

entitled to \$5,500 of Federal assistance. A Jewish family of 5 would thus be paid \$27,500 dollars.

In my book I point out that the great majority of Soviet Jews have an abhorrence of moving to Israel. Their new "Promised Land" is the USA. Further, far from constituting the "poor immigrant" stereotype, most Soviet Jews have been successful professionals such as teachers, accountants, professors, even scientists in the USSR. **EXODUS OF GIFTED JEWS**

Why is Russia allowing such a "brain drain" of some of its most talented citizens? What are their intentions once they come here? Jewish sources say that most will settle in such large Jewish centers as New York, Philadelphia, Chicago and Los Angeles. Many will be trained by American Jews and incorporated into their businesses. A friend of mine from Chicago told me that large Jewish real estate agencies, buy up some of the poshest properties in the Chicago area, are already adding such Soviet Jews to their staffs—at handsome beginning salaries.

Clearly, the presence of such massive numbers of Soviet Jews, born and bred in Marxist ideology, is a legitimate cause of concern for Americans. No one succeeds as a professional in Russia unless he or she makes it clear that they are in passionate agreement with the Communist system. Does coming to America with Soviet-approved passport suddenly make the Soviet Jew no longer a Communist.

There is a good possibility that these large numbers of Russian Jews, are in fact part of a long range trend to redistribute the centers of Jewish global power, preparing the world for a new order in the years ahead." and the newsletter goes on quite a bit, but that basically is the question. Would Awareness comment on that?

#### COSMIC AWARENESS:

##### How The Skoptsis Overthrew the Jewish Rulers of Russia

This Awareness reminds you of some information a few years back from Dr Beter, in which this entity referred to the Skoptsis in Russia as having taken control over Russia from the Bolsheviks. This Awareness reminds you also that the Bolsheviks, in taking control of Russia in the 1917-18 area, that these entities were in fact established as or by the Jewish Zionists. This Awareness indicates that the native Russians, if any know such people who lived during such times, will inform you that you were not allowed to speak the word 'Jewish', or to say anything in regard to Zionism or Jews during this time because these were the people who were in power in the establishment of the Communist regime in that time period; that Trotsky himself was Jewish; that Stalin was Jewish; that these were not their original and true names.

This Awareness indicates that as entities through this period of time, from 1917 up to the late '70's, as these established groups in Russia known as the Bolsheviks held their power, there are many who realized and understand that these in fact were Jewish officials, holding power in Russia. These were the Zionists, but they did not use the term 'Zionism'. They used the name 'Bolshevik'. They were Bolsheviks, which is essentially the equivalent in Russia of what Zionism is in the United States and Europe.

##### Skoptsis Castrated Themselves to Avoid Sex

This Awareness indicates that if you recall the Dr Beter information that was released in the late '70's, the Bolsheviks having had and held control for some 60 years were finally overthrown by a group, a secret group of so-called Christians in Russia; that these entities

called themselves Skoptsis. The Skoptsis were a secret society established in the latter part of the 19th Century, wherein part of their religion required that the man be castrated; that this is the meaning of Skoptsis, relating to the word scissor, or to cut.

This Awareness indicates that these entities, in castrating themselves, attempted to follow what they believed were the teachings of Christ to avoid sex, and in so doing, some of the Skoptsis wiped out their future generations, whereas others allowed a certain number of children, one or two, before the castration took place. This Awareness indicates that at the time of the Bolshevik revolution, the Skoptsis were involved in assisting the Bolsheviks to gain power, but these entities gradually, over a period of time, realized they had made a great mistake and began struggling, quietly and carefully, to regain power. This power was finally regained in the late '70s, as they began to overcome the control held by the Bolsheviks.

This Awareness indicates that this control held by the Bolsheviks as that which culminated in the detente, in which Kissinger was in part assisting in setting up and establishing. This Awareness indicates that this detente began to break down in the same time period as Dr Beter indicated the Skoptsis began to take over. This Awareness indicates that the Skoptsis were taking over the positions held by the Bolsheviks through the action of replacing a government official with a Skoptsis double. These doubles were used to replace the Bolshevik official; in some cases plastic surgery would need to be done, using the latest techniques to make the double appear to be the same person who was replaced.

This Awareness indicates in some cases, the entire family would need to be replaced. In other cases, the lower echelon Bolsheviks would simply be removed from their positions and someone else put in their stead. This Awareness indicates that it was in this manner that a complete overturning of the government in Russia took place, wherein the Skoptsis became the rulers, the new rulers of Russia. This Awareness indicates that as this occurred, you will recall also that there came to be the persecution of the Jews in Russia and the expulsion of Jews from Russia. This Awareness indicates that many of the Jews in Russia sought to escape, to leave, to avoid persecution. Others were expelled from Russia.

This Awareness indicates that this was the beginning of the action of the Skoptsis to rid Russia of the Bolsheviks that had been ruling Russia for so many years. This Awareness indicates there were those entities during that time in which Dr Beter gave this information who asked if all of these Bolsheviks are being kicked out of Russia and are coming to the United States, where are they? Why haven't we seen them? This Awareness indicates that this questioner's letter, and the information revealed in this questioner's letter is information that expresses clearly how these entities come to the United States and how they are paid and how they can pick up their checks simply for being expelled from Russia.

This Awareness indicates that these are the so-called Bolsheviks that Dr Beter spoke of. The entity did not wish to use the term 'Zionism', because it is too emotionally loaded for most people and would imply or give an excuse to some entities to call him bigoted or anti Semitic. This Awareness indicates however you will recall that many Jews are opposed to Zionism, for Zionism is a political-party, and is not necessarily Jewish, any more than is the body of Freemasonry necessarily associated as representing or implying Anglo-Saxon. This Awareness indicates there are many English and Anglo-Saxons who are not Freemasons.

Likewise there are many Jews who are not Zionists. There are approximately 200,000 Zionists. There are millions of Jews.

This Awareness indicates that 'Bolsheviks' is but another term, a Russian term reflecting their version of Zionism. This Awareness indicates that these entities which are addressed and mentioned in the questioner's letter are those entities described and referred to in Dr Beter's earlier works in reference to Bolsheviks being expelled from Russia. This Awareness indicates that many of these entities are relocating in the Palm Springs area. This Awareness indicates that the influx of such a great number of people will naturally have an impact in the sense of political lobbying power and will become a political force in this country; just where that political force will take the country is another matter that is not at present seen; that there are indeed many different types, cultures, groups and people of various persuasion in this nation and it tends to melt or balance out the variations of differences in terms of political expressions.

This Awareness indicates that the number mentioned, while seeming to be a great number in proportion to the number of people in this nation is a very small percentage. It is something to be aware of, but not something which entities should become overly alarmed about, or feel any particular fear in regard to these entities. These entities are simply grateful to have a place of this nature wherein they can come and reestablish their lives.

#### FOLLOW-UP (AVATON):

Well, his argument basically was that these Jews coming in now are not just workers and dissidents; these are professional people, and his statement there's a good possibility that these large numbers of Russian Jews are in fact part of a long-range trend to redistribute the centers of Jewish global power, preparing the world for a new order in the years ahead.

#### COSMIC AWARENESS:

This Awareness indicates that this can be. This Awareness reminds you also, however, that there are other forces in action. At this time the Rockefeller forces have greater control over the direction of the US government and they are working in cooperation with the Skoptsis in Russia. This Awareness indicates that this is not necessarily a permanent balance of power, and it is possible that these Bolshevik influences in the United States could, at a time in the future, gain a kind of upper hand and create a different form of political power forces.

This Awareness also wishes to remind you that the Bolshevik and Communist influences actually represent and stem from the influence of the Rothschild forces of England and Europe; that these banking powers have the influence that tends to direct the Zionist movement. This Awareness indicates that these movements are strong and in competition but they are also operating within certain boundaries of cooperation between the Rockefeller forces, or those which Dr Beter referred to as the State Capitalists as compared to the Rothschild forces which may be thought of more as the State Socialists.

This Awareness indicates that these forces or camps tend to balance each other out in such a manner that the average person is not caught in the intrigue except in rare occasions, such as when a nation experiences war or economic collapse or some other similar type influence which affects all of the masses.

## THE POOR SURGEON

### The New Developing 8<sup>th</sup> Chakra: How Will Its Energies Protect Us From Dark Forces?

#### QUESTION:

A question from Joyce Bismack, Riverside, California. She writes: "Regarding the 8<sup>th</sup> Chakra some of us are developing. Awareness spoke of a few months ago: how will the spiritual energy emanating from this Chakra protect us from the dark forces?"

#### COSMIC AWARENESS:

This Awareness indicates that the 8th Chakra is that which lifts you into union with the Divine. It is in fact what entities refer to as the Higher Self. The 8th Chakra is that which is the Christ Consciousness.

This Awareness indicates that by being one with the 8th Chakra, or by being attuned to the 8th Chakra, you have less chance of falling into temptation and less chance of being manipulated by things of the flesh or by things of mammon, materialism.

This Awareness indicates that when your 8th Chakra is open, you are essentially open to the Divine Energies. This Awareness indicates it is through this doorway of the 8th Chakra that you can attune to the higher levels of consciousness with greater ease, and you need not have the great fear of falling in your consciousness levels or falling victim to temptations because in these higher frequencies, the joy is so much greater to move into the higher spiritual energies, that you do not find an attraction to those lower frequencies and lower chakra energies.

This Awareness indicates you may still make use of lower chakras. They may still help to energize your needs, but they are not the masters of your spirit, of your soul, and you are not a victim of them. This Awareness indicates your higher chakra energies tend to enhance your spirituality to the point wherein you are not drawn into the obsession or entrapment of lower frequencies and lower chakra concerns, nor are you so easily manipulated by lower chakra controls.

#### The Military as an Example of Chakra Manipulation

This Awareness indicates that often entities can be

manipulated through the stimulation of lower chakras to the point where an entity will actually move from a higher chakra to a lower chakra and may be drawn down to lower chakras and find themselves controlled by these lower chakras to the point wherein they feel entrapped.

This Awareness indicates an example of this is seen in some of the approaches in terms of military recruiting. You watch the parades, you see the soldiers marching in perfect unison. It all appears to be very important, very significant; the pomp and circumstance of the marching bands and the routine makes one feel proud to watch and even more proud to be involved in such marching, and thus, entities decide to join the military.

All this parade and pomp, all this show and the posturing of individuals in their posing and in their military costumes makes entities feel that there is something very important about their activities, about their lives, and that they as military beings, are very important, and thus, the Heart Chakra is stimulated, along with a sense of personal pride.

This Awareness indicates this goes on for awhile, and then the entities go into training to kill, training for war, and the energies then move into lower chakras. They are taught to operate from gut-level behavior, from levels of "Kill or be killed!", and the lower chakras begin to become the active centers for their behavior.

The war comes along, they become participants in the slaughter. They have reached to the bottom chakras. It is a life and death scenario. They may even become messengers of death to the point where things they would never have done before when operating from higher chakras, they now do, because they are operating from lower chakras.

This Awareness indicates that this is an example of how entities may be seduced by higher chakra expressions; being brought into the military through concepts of honor and pride, and brought into actions that are debased and animalistic and very close to that which is termed debauchery.

#### Still Higher Chakras Create Higher Levels of Spiritual Evolution

This Awareness indicates that the entity who goes into still higher chakras, higher than the heart chakra, into the throat chakra, wherein they learn to communicate, to work with verbal expression rather than physical expression, and in the verbal expression they learn to negotiate peace or negotiate transactions; this is a movement to a higher level of expression, in which there is a different level of spiritual evolution.

This Awareness indicates the entity may move into still other higher frequencies of the pineal and pituitary chakras to the point wherein they are now intuitive and they are now interested and focused on spiritual things, on things that are of an abstract nature.

#### A New Meaning to the Crucifixion of the Ego

This Awareness indicates that when they move into that state of consciousness in which the pineal and pituitary tend to merge, there is an opening that occurs in consciousness that allows a shaft of light to go from the pineal/pituitary up through the top of the skull. Think of the skull as being Golgotha, which means the skull, so that the crucifixion of the ego now takes on a new meaning.

Then there is a resurrection of the self into that which is the 8th Chakra, the High Self, the Divine Self and the entity now is attuned to that Divine Self, the High Self, the God Self. This Awareness indicates once the entity becomes familiar with the 8th Chakra, the Divine Self, and speaks from that level, and observes at that level,

there later may become an opportunity to move into that which is the 9th Chakra.

#### The 9<sup>th</sup> Chakra Creates a New Being From the Unity of Many

The 9th Chakra is that which has to do with the joining of the High Self into Group Soul activities, or High Selves joining together so that your connection with others in that level of spiritual evolution creates a New Being, from the unity of the many.

This Awareness indicates if you can connect with that 9th Chakra, you have the energies of many spiritual beings working in harmony, so that you become part of a network. They become part of a network and your activities merge and create without your individual self necessarily knowing the full plan of the Divine Forces involved in your general network of Higher Selves.

This Awareness indicates that this continues on through the chakras as they rise to higher and higher connections with higher Selves, when they merge with other High Selves, forming group Oversouls, which have been called the higher chakras beyond the 8th Chakra.

In a general sense, the 8th Chakra is the highest chakra exclusive to an individual. When it goes beyond the 8th Chakra, the connections begin to link different individuals together in a kind of networking of these energies. This forms group consciousness connections.

### What is the Function of Oversouls?

#### FOLLOW-UP QUESTION:

Is there a particular function for these Oversouls, once they get together, this group consciousness?

#### COSMIC AWARENESS:

This helps to guide individuals along certain lines of activity which in turn has effects on society, to lead to groups in society for spiritual purposes, projects, activities. Often the result of these networking actions are seen as coincidences, wherein an entity may work on a particular project, and at some point in the future, meet up with someone else who is working on a project that dovetails with the first entity's project in such a way as to make both of these projects much more important than either is singularly.

This Awareness indicates by bringing them together, the two projects amount to more than just two, and become of far greater importance than either of them or both of them would consider to be important, because the combination creates a totally new value. It is likened unto "one and one doesn't add to two, it may add to four, or six," in terms of quantity, if not quality, because the two together may create a totally new invention that is far beyond the value of each of these inventions by themselves.

#### How the High Selves Work Together

This is that which comes about by the High Selves working together, knowing what each other is doing and bringing the individual agents over which they function to do things that bring about a greater invention that neither by themselves even dreams of.

In other words, these High Selves are likened unto supervisors of secret compartmentalized creative projects which may be understood from a much higher level, but whereby the individual entities involved in the project haven't the slightest idea as to the importance of their own job or their own activities in the sense of some greater scheme of things.

This Awareness indicates that in the Manhattan Project, there were many scientists. They worked on certain parts of the atomic bomb. Any individual in that group

had no idea as to the total operation. They only knew their own particular job. Therefore, if any one of these individuals tried to do something on their own, they would not be successful, but as they worked together and approached the final steps of the operation, there began to be a joining of the various compartments or departments of the project, until it was completed.

#### Oversoul Individuals Often Don't Understand Their Project

No one individual in the group knew all of the components and parts of the operation, but regardless of that, they had the completed project. This Awareness indicates that this also is very similar to what this Awareness describes as the overview of what may be called Oversouls, as they work together for purposes that are not necessarily understood or known by the individuals who make up the compartments or departments of the Oversoul activities and projects.

This Awareness indicates to put it another way, your liver does not have to know how the kidney functions, nor does the kidney have to know how the bladder functions, nor does the brain have to know how the heart functions. All they have to know is *how* to function and do their own duties, and there *is* part of their activity that needs to coordinate these different organs of the body so that they function properly together, but this coordinating action does not necessarily understand all of the behavior of each of the organs or what makes the organ do what it does.

This Awareness indicates in the same way the Higher Selves work together, but do not necessarily have all knowledge about each other.

This Awareness indicates that in the human body, if one organ becomes weak or ineffective, the others tend to take on some of the functions of that organ, and carry on while it has a rest or while it recuperates, or at least giving it a chance to recuperate. This Awareness indicates if it does not recuperate, the other organs may be overworked trying to function partly on its behalf, while carrying on their own duties.

#### If One Spiritual Group in the Oversoul Becomes a Laggard

This Awareness indicates that this makes their work more difficult, and it is much the same with the Higher Selves, wherein a group of entities in their spiritual evolution who are linked together spiritually, may find that a number of these entities are networked through their Higher Selves, but someone in their group is a laggard, has fallen behind, and is not spiritually progressing, and it makes the work of the Oversoul more difficult because there is a drag on the spiritual energies from the entity or group of entities who are not progressing at the same rate as the others.

This Awareness indicates usually, those who are progressing more quickly will slow down and turn their attention to those who are progressing more slowly, giving attention, and trying to find ways to speed up those who are laggards and eventually, the group begins to coordinate and function at its proper spiritually evolving pace.

This Awareness indicates that once this spiritual group has evolved to its purposeful level, it then may turn and wait for other similar groups to reach that same level, so that they can join together in still a higher frequency as a greater group. When enough have joined together, these forces can uplift all of humanity to a higher plane of existence, to a higher spiritual frequency.
