OPENING MESSAGE:

This Awareness wishes to extend special energy to the energizers. This Awareness is gathering energy at this time to assist particularly the energizer Vikki. This Awareness indicates that this energy being sent to this entity at this time to give her an extra energy boost for the present and for the date tomorrow. This Awareness indicates that It also wishes to gather energy for the energizer and questioner Avaton.

This Awareness suggests that this energy will help these entities to get a good night's rest and to feel more energized tomorrow. This Awareness is also sending energy to the Interpreter. This Awareness suggests the entire membership be energized at this time. This Awareness wishes also to send protective energy to the membership and their families. (long, long, pause)

This Awareness suggests the questions continue.

**Are Humans Stuck in Their Evolution
Because of a Belief in God?**

(More on the Book *The Pleiadian Agenda*)

QUESTION:

A question from Bill C., in California, he sent over the Internet. He writes: "In a new book called *The Pleiadian Agenda*, by Barbara Hand Clow, one of the channeled entities, Dr. Lizard, says that we have been stuck in our evolution because of our beliefs in God. Specifically, Dr. Lizard says: "The amount of attention you pay to God is keeping you from focusing on your environment, thus destroying your environment."

"This is actually a program designed to keep you from sensitivity about yourselves and your planet. This is a main source of a great deal of the difficulty that our race, the Saurian race is experiencing. To put it bluntly, God is a program put upon the Saurians. We've noticed that you think God is superior to yourselves, but that is impossible because nothing is superior to you."

"The text goes on, (he says) but this alone is pretty shocking! Nothing is superior to us? God is not superior to us? More highly evolved beings from other galaxies are not superior to us? (These are questions Bill is asking) This raises striking questions, especially when we consider how we've always viewed God, even in other channeled material such as the book *Right Use Of Will*, God expresses His need to be acknowledged and respected as God: "All spirits must recognize me, and come to me for their Light. No spirits can deny me!"

And Bill asks: "I'd like to know from Awareness if the passage quoted above from *The Pleiadian Agenda* is accurate. If it is, how can we deal with this apparent contradiction? How can we view ourselves as equal to the Creator and at the same time acknowledge Him as the source of all Light?"

COSMIC AWARENESS:

This Awareness indicates this is another situation in which semantics is being bantered in a way that creates confusion. This Awareness indicates that when entities speak of God, they confuse different types of gods with one another, and the entity in this message is speaking of the traditional Judeo-Christian god, or the definition generally associated with this Judeo-Christian god as being a creation of the concept which is representative of a deity that wants worship from humans.

This Awareness indicates that the Judeo-Christian god is not necessarily the Creator of the universe. The first 13 verses in *Genesis* refers to the Creator, but from there on it is a different creature, or creation, a different god being represented in the Old Testament.

This Awareness indicates that essentially, you must

define what you mean by "God" in order to understand what these entities are trying to say in this passage from the channeling of this book on the Pleiadians.

This Awareness indicates that the Divine Creator does not need to have your total subservience, does not need to have you spending all of your time focusing on *It* and letting go of all your responsibilities to other things in regard to attending to the needs of the earth, attending to the needs of each other, but the Judeo-Christian deity as represented in Biblical passages gives the impression that *It* is a self-centered, jealous god that needs and wants and demands your obedience, your worship and your total subservience to *Its* ego.

This Awareness indicates that it is an egotistical god represented in the Biblical version of the so-called Creator, and therefore, entities are to fear it. It is said to be a jealous god, and entities are to be faithful and loyal to it, having no other gods before it.

This Awareness indicates that in the real world of spirit, in the Real World, not necessarily the Judeo-Christian version of the Real World as represented in Biblical passages, there is a physical reality that contains vibrations. These vibrations extend throughout the known realm of matter and into higher realms of that which is called anti-matter, and in these higher realms, the vibrations reach into that frequency that is known as consciousness, the frequency that is known as intelligence and awareness, and which is often equated with the term "love".

The Old Testament in its first verses, states that "In The Beginning Was The Word, and the Word Was God" and it goes on describing the word. It is essentially talking about this vibration that fills the universe, and this vibration is God, and without the 'Word,' God was not. Or in other words, without the vibration, there would be no God.

This Awareness indicates, however, the Cosmic Intelligence is found by the vibration that emanates throughout all things. This Awareness indicates that this vibration is *not* a personified being. It is not an entity that needs worship or needs obedience. It is not an entity that others should fear, as represented in the Judeo-Christian religion.

The Origin of the Judeo-Christian Religion

The Judeo-Christian religion actually was created by the tribes of Hebrews who wanted their god to be more powerful than other gods owned by other tribes of the time, because if entities had a strong god, they could frighten other tribes into staying away and leaving them alone. The Hebrew god, being invisible, was a convenience because tribes would raid each other and destroy each other's gods, and when the tribe had no god, they were seen as helpless and without any real cohesion to hold them together. They were seen as weak.

This Awareness indicates that the Hebrew god, served the people who were without any material god or idol. The Hebrews claimed that their god was more powerful because it was invisible, and the word got around that the Hebrew god had special powers. This Awareness indicates that in other words, it is likened unto playing poker and bluffing your hand over others who may have a better hand, but may not know that your hand is weaker than theirs because you play it so carefully and appear to be so much more in control. You bluff them into thinking your hand is better than theirs.

This Awareness indicates that essentially, this is where the Judeo-Christian god evolved from; from these kind of tribal bluffs. This Awareness suggests that it has nothing to do with the universal realities of what the

forces of creation are, the principles of creation, but there were some incorporated concepts into the Christian and Judeo god concepts, whereby the name Jehovah incorporated certain concepts that were held in some of the more secret teachings, teachings that came out of other cultures.

The name Jehovah being a creation of four letters of the Hebrew alphabet: YOD HE VAU HEH, and being called by certain priests in the sacred or secret sciences or secret schooling of the time, being called the Four Pillars of Creation. YOD HE VAU HEH simply symbolized the elements of fire, earth, air and water, or expansion or radiance, stability, vibration and magnetism.

All These Terms Were Really Descriptions of Extraterrestrials

These entities in these secret teachings or schools understood these qualities as elements of creation, the Four Pillars of Creation, and this it was presumed that the Four Pillars of Creation making up the name YOD HE VAU HEH symbolized the Creator God. But all other terms attributed to this Creator, such as the Fiery God, the Jealous God; all of these different terms that represented the god of the Hebrews were really descriptions of extraterrestrial beings at the time who were concerned with trying to proceed with their creation of the race which they had helped to clone through their genetic experiments.

This Awareness has touched on this previously in regard to the Jehovah experiments on Mars, in which entities were cloned and placed upon earth for future purposes. It has also touched upon further cloning processes in which entities were developed through genetic experimentation as described by Zecharia Sitchin in his book *The 12th Planet*, whereby the extraterrestrial geneticists worked with entities to help bring about a kind of slave that would work in the mines for the extraterrestrials.

This Awareness indicates in other words, these so-called "Gods of Eden" were not the same god that was the Creator of the universe, and man's fixation on the term "God" and all of the various roots for that term, all coming from different sources and different organizations of the past, leave the term "God" as a very confusing term, and in many cases, having nothing to do with the reality of present-day or present-time.

The Pleiadian Message refers to the fact that mankind has become so hung up or fixated on the term "God" and the various stories of legends that are distortions of the Creator, or may have nothing to do with the Divine Creator, in such a way that entities are simply worshipping a kind of imaginary leader, and the stories of having to please that imaginary leader in order to avoid spending mankind's future in an imaginary hell, preoccupy much of human thought and waste human energies.

The Bible Designed by the Priestcraft to Control the Masses

This Awareness indicates that this is essentially at the heart of this message from the Pleiadians. This Awareness indicates that there appears to be a need to go into this in a much deeper and prolonged manner in future readings, so that many of the confusing elements of religion can be sorted out, to help entities become free of the distortions brought about by the Biblical passages that do not really relate to Divine Truths but are simply creations of the priestcraft to keep people under control.

Much of the Old Testament and New Testament are designed strictly to control the masses through the religious teachings and concepts expressed in the Biblical stories. This Awareness indicates that a careful analysis of Biblical stories and passages can show that from its own statements, it is contradicting to itself on many different issues and levels so that those who claim

it is written by God are simply deceiving the people.

Many of those Biblical preachers, ministers and rabbis are promoting only certain messages from truly discovering the discrepancies in the Bible, wherein it *does* become contradictory to its own messages, and therefore, once entities see these discrepancies for themselves, it becomes very clear that it is a work designed to control the minds of entities, rather than to promote truth and understanding.

Although there are often passages that can help entities to have greater personal understanding or insight, there is also so much distortion of truth that entities can be warped in their view of life, so that truth cannot be found as long as entities are accepting without question all of the messages and teachings in Biblical passages.

The Book Your Church Doesn't Want You to Read

This Awareness indicates there is a book of great importance in helping entities to understand this more clearly. This book is called *The Book Your Church Doesn't Want You to Read*. This Awareness indicates that this is a recent book that covers many of the topics this Awareness has spoken of in earlier messages and draws from certain writings of earlier thinkers, rabbis, priests, and persons who are unafraid of being objective in their thinking, so that just following their thinking can help entities to throw off much of the brainwashing that has occurred in their lives from their religious backgrounds.

Much of this brainwashing keeps entities from being able to think clearly, but when someone finds themselves becoming free to think, then their action of thinking freely can help an entity who reads their work to also think more clearly. This Awareness indicates it is not likened unto giving a different opinion. It is more likened unto helping entities to analyze clearly through opinions that have been expressed, but whereby the expression is obviously distorted here or there by those who have an agenda in mind which they wish to promote.

When you see the agenda, and see what they are trying to distort in order to help you accept their agenda, then you can be more objective in viewing the clarity or analyzing the truth out of the distortions. This Awareness indicates that it is not simply some countering thinking. It is clarification that comes from *The Book That The Church Does Not Want You to Read*.

This Awareness indicates that it appears CAC has copies of this book, or can refer you to a source for ordering the book. This Awareness indicates that in reading this book, the message from the Pleiadians will become much more meaningful to you. It will be easily seen that from what they are saying, they understand clearly how the concept of God as promoted on earth has been used to waste time and distort energy and focus of human beings from those issues that are more meaningful and important.

Is God a Program Put Upon Earthlings?

QUESTION:

In this message from this book *The Pleiadian Agenda*, in addition to it telling about the problems with religion on earth, it also says "This is actually a program to keep you from sensitivity about yourselves and your planet. This is a main source of a great deal of the difficulty that *our* race, the Saurian race, is experiencing. To put it bluntly, God is a program put upon the Saurians!"

COSMIC AWARENESS:

This Awareness indicates that it has been promoted from ancient priestcraft teachings in a way that has been used not only on earth, but on other planets as well, to

keep people under control. This Awareness indicates that if you recall, the early secret schools that developed on earth were basically occult schools teaching certain religious messages that have been used by secret schools to control the masses through religion, and these came from extraterrestrial influences upon earth which led to the various earthly religions that evolved thereafter.

This Awareness indicates that the Hebrew religion followed from earlier messages that came out of Sumer and the Greek religions came from a similar culture, and the Egyptian religions also carried many of the parallels from these early Sumerian and Akkadian cultures so that these more modern cultures of Egypt, Greece and Hebrew reflected from Sumeria and Akkadia, which were influenced by extraterrestrial beings.

The Extraterrestrial Were Always Seen as Gods

In other words, the so-called influence of religion on earth came from extraterrestrial sources. There were, of course, changes and distortions that occurred in these secret schools stemming from that time, but the origins stem from these extraterrestrial sources. These extraterrestrial sources were seen as gods, and written of as gods in these religions, and the religions often were changed by subsequent cultures so that the names became different, though the message remained much the same, from one culture to another, from one religion to a subsequent religion.

This Awareness indicates that Moses evolved from Meses, an earlier religion. This Awareness indicates that there are so many parallels in these cultures and their so-called religion, that one religion can be superimposed over the other and have like skeletons at the heart of each religion, so that the bones of the religion are identical with only some flesh being different.

This Awareness needs to get into this more deeply in future readings. At this time *It* is simply responding to a question and to get into this fully at this time would be inappropriate.

Back When Humans Were Engineered to be Worker/Slaves

QUESTION:

A question from JD in New York, along this line. Awareness has gone into some of this before in reference to Enki and Enlil. She writes: "A question about mankind having the urge for freedom rather than slavery was not really answered by references to individuals. I was thinking thus: If per Zecharia Sitchin, man was genetically engineered to be a worker, one would expect him to be made content to be a submissive herd animal with a slave mentality. Wasn't he? And if so, was he later engineered away from this by nobler beings?"

Was that the Enlil and Enki story?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the so-called serpent in the Eden story that tempted mankind with the forbidden fruit is actually the deity or extraterrestrial genetic engineer from Sirius who changed the engineering of the Reptoid genetic engineer so that a mammalian brain was set on top of the reptilian brain in the creation of man, the engineering of man.

This Awareness needs to distinguish: Man was not so much "created" by these genetic engineers. He was "modified". There was the earlier version of the human, but these entities modified this earlier version, one using genetic engineering along with reptilian or Reptoid genes from their own species to create a slave race; the other modifying that engineered creation by adding mammalian qualities from mammals and from their own

race, to help create the thinking capacity, the capacity for the human creation to think, to learn from mistakes, to learn from good and evil, or pleasure and pain.

Thus, the pleasure and pain that man could learn from helped him, the new genetically engineered creature, to make decisions, to have the ability to decide, to choose, to know; this giving that which is the gift of the gods, whereby man could, like these gods or extraterrestrials, choose, whereas previously, the Reptilian creation could not choose. They were simply programmed to obey, and the programming would have let them be perfect slaves for the mines and for the work that the Reptilians wanted done on earth.

The Sirians offered the genetically created man an opportunity to learn from his or her experiences. It is likened unto someone creating a robot to serve as a kind of slave, and someone coming along and modifying the robot so that it learns from its experiences and so that in time the robot can free itself from its slavery. To the first inventor, the new robot would be a great disappointment, and the inventor might want to scrap the entire model because it has that ability to learn from its mistakes, to choose and to decide; to make decisions for itself.

The second inventor playing with the robot, helping the robot learn from its mistakes or from its experiences, would be thinking more in terms of freeing the robot from obedient slavery and making it autonomous, making it independent. This Awareness indicates of course, in the case of mankind, the robots were flesh and blood, genetically engineered beings rather than simply metallic and mechanical creatures with computer chips inside.

This Awareness indicates that as humanity moves into the computer age, there will be a time when computers are modified to use biological substances. Already it is possible to program protein to be able to work as a computer chip that is living substance, and the programming of some protein substance in a computer leads to the potential for (the) creation of (a) living computer, a computer that begins to learn from its own experiences.

Today Man Approaching the Development Level of his Creators

This Awareness indicates that mankind has developed through time to a point wherein he is approaching the level of developments of his own creators. The technology that mankind approaches is very close to the technology that extraterrestrial beings used in creating the early mankind models from the prehistoric Neanderthal types which were used in earlier experiments by extraterrestrial genetic engineers.

WHAT ROLE WILL THE NEW HYBRID GREYS PLAY IN EARTH'S FUTURE?

QUESTION:

A question from Wes E., Mounds View, Minn. He writes: "Not much has been said recently about the hybrid entities created by the Zeta Reticuli to preserve their race. It is my understanding that as many as 60,000 of these entities have been transported off of this planet with the intention of being brought back when the time is ripe.

"Could Awareness please comment on what role the human/Gray hybrids will play in planet earth's entrance into a new dimensional reality? Will they become a part of the human experience on this planet, and will they eventually integrate among human entities?"

COSMIC AWARENESS:

This Awareness indicates that it appears these entities

have two purposes; one being to help the Greys return to that ability to reproduce sexually by the hybrid mixing with those who have been cloned. There is hoped to be still another fusion of the genetic pool so that cloning becomes less urgent and sexual reproduction becomes more possible.

The purpose behind the creation of the mixture of human/Grey hybrid was not as the Greys claimed, to preserve the human race against a catastrophe that humanity was approaching, whereby they were trying to save humanity by breeding humans and Greys: It was instead a desire, a need to preserve the *Grey culture and species by infusing human genes into their species so that they could again reproduce through sexual means*, because they had spent many, many thousands of years trying to breed out any emotion and any sexual activity from their race.

When all emotions were bred out of their race through various genetic activities, they found their reproductive organs atrophied and no longer allowed them to reproduce sexually, but by this time they had already developed cloning procedures that allowed them to reproduce through the cloning process, copies of copies of copies of copies of each other.

The Real Reason the Greys Abduct Humans

This Awareness indicates, however, over thousands of years, these copies began to produce more and more inferior reproductions. The reproductions were not the same quality of stock as they had been some generations before, and it was noted that their entire species was becoming weaker as generations passed. Thus, the searching for some new infusion of new genes from the human race would save their species and their race by creating half-breeds: Half-human/ Half-Grey, and bringing these entities back into their society, they could preserve their own society, strengthen their race, and improve the stock of their Reticulian people.

This was the *real* point or purpose in the many abductions and in the Greys' stealing of embryos of females and in bringing male and female species from human and Grey types together. This Awareness indicates a secondary plan was in the event of a war between Greys and humans, they would be able to use the hybrid-types to fight against the humans and save their own types from the danger of being destroyed.

This Awareness indicates essentially, these hybrids are in the thousands, but still not necessarily in large enough numbers to serve as a conquering army, though they could infiltrate society in some areas, to have an influence in subverting human civilizations, particularly if they can commingle with humans in spite of their difference in appearance, when humans are able to accept them as friendly aliens.

This Awareness indicates that this assumes that humans and aliens can get along at some point in the future, whereby when this occurs, these entities may become more and more commonplace on the surface of the earth and in the society. There can be a commingling and mixture of alien and human technologies in many of the social and technological fields of common interest to these two cultures.

The Greys Appear to Have Accepted Co-existence With Humans

This Awareness indicates that it *does* appear that the Greys have generally accepted the concept of co-existence as a way in which they and humans can eventually find common relationships, but the main purpose of the hybrids has to do with sending them back to the planets from which the Greys came, to commingle with their people in order to help bring about a stronger species there, among their population.

Do the New Hybrid Greys Now Have Emotions?

FOLLOW-UP QUESTION:

So, in the new engineering of the Greys, these entities are now getting more of what we would call 'emotions'?

COSMIC AWARENESS:

This is in reference to the hybrids, the human/Grey mixtures; that these half-human / half-Grey creatures *do* have emotions. This Awareness indicates there have been reports, for example, from entities that they have met, children that they contributed eggs for, and the meeting of a child by one woman was described as somewhat shocking to her because her hybrid daughter thought she was so ugly.

She did not want to be near her mother, because she thought her earthly mother was so ugly. This indicated the child had emotions.

Why Suddenly all the Alien Material on TV?

QUESTION:

A week or so ago, I was surprised to see on one of the major networks, NBC I think it was, a two-hour made-for-TV movie called something like *The Night Visitors*, and it concerned a mother and her daughter who had been abducted many, many times by the Greys and were being used as breeders. Toward the end of the story they were actually taken up into the spaceship and you saw these entities, which looked remarkably like the Greys which Awareness has described, and the story ended more or less with the mother holding the baby of a hybrid, and trying to explain to these Greys why they kept dying. That these half-breed babies had to be *held*, and they had to get love from the mother.

This particular movie was interesting in that it followed much of the description Awareness has given over the years of these entities, and I was just wondering if there's any significance about that particular movie coming out now on a major network.

COSMIC AWARENESS:

This Awareness indicates that the information that this Awareness has given does come from various sources, particularly from entities who have been abducted, who on return often tell a similar story of their captivity and of having their eggs taken or having babies taken from their womb prior to third trimester.

This Awareness indicates that this story may not have in any way been influenced by messages from this Awareness, for there are many other sources for this information to be made available, especially from entities who have experienced and have expressed their story to other.

This Awareness indicates as far as the importance of the information coming out at this time, there are seen many instances of release of information relating to UFOs being exposed through television and other media at this time, and this Awareness sees that this is part of a campaign to gradually legitimize and make more common the concept of extraterrestrial visitation to earth, so that it becomes more commonplace for entities to believe in extraterrestrials than for them to disbelieve.

If entities can gradually become accustomed to the concept of extraterrestrials on earth, then it becomes the official acknowledgment of extraterrestrials on earth, so that people do not panic at the time, because they had seen it in movies, heard about it in exposes, or otherwise been exposed to the concept in so many different ways, in so many different versions, that it is nothing new to them.

If such information had been given cold, without the kind of preparation that has been released over the past

decade or so, entities might have panicked and the panic could have created extreme problems for the government in trying to calm the people, in trying to keep the people informed without their getting over-excited or too distraught.

The Time Is Near for an "Official" Announcement of the Alien Presence on Earth

This Awareness reminds you of the 1938 broadcast of Orson Welles in his *War Of The Worlds* scenario, wherein many entities committed suicide because of the fictional broadcast, thinking that the earth was being invaded by aliens. This Awareness indicates it would have a major effect on religions and stock markets and other institutions if the information came too suddenly for people who could not adjust, but by conditioning the people gradually, ahead of time, eventually there will come a time when polls will indicate that most people believe in extraterrestrials on earth, and at that time, official announcements can be made without great fear of causing a panic among the masses. This Awareness indicates that such a time is near.

Fox Network's New Version of *The Invaders*

QUESTION:

The FOX network recently brought out a two hour version of an updated program, *The Invaders*, as a TV movie, in preparation for bringing back that series, an updated version of that one also. This is probably part of what Awareness is describing, is it not?

COSMIC AWARENESS:

This Awareness indicates that the FOX network also broadcast the film version of the autopsy report of what is purported to be the Roswell crash. It also brought out further information on that Roswell crash autopsy. This Awareness indicates that one of the more compelling bits of evidence was the notation and view of the alien being autopsied as having 6 toes and 6 fingers on each hand and foot.

Computer Keyboards In Alien Craft Gives Film Authenticity

This Awareness indicates also debris from the alien craft showing two keyboards, very similar to the latest technology of computer keyboards, wherein in the later technology of computer keyboards for earthly humans, there are keyboards in two parts, for each hand with five positions, one for each finger on each of the two keyboards, so that the keyboards for the hands are made to fit the shape of the hands, giving greater ease in use, and the people having made these keyboards were shown the instruments from the crashed craft as having a similar shape, but having six finger rests in two rows, so that each keyboard had 12 finger-rests or keys so that it fit with the 12 fingers and 12 toes of the alien being autopsied.

It was indicated that the instrument panels for piloting the craft was done through the use of the 6 fingers on each of the keyboards, having two positions for each finger, or the 12 keys on each of the keyboards. This Awareness indicates that this appeared to be quite a compelling bit of evidence in regard to the autopsy and the information, because humans having 6 fingers on each hand is a very rare phenomenon, and to have a craft crash that is made for such a hand or such hands, implies that the craft was made for that person who was being autopsied.

This Awareness indicates that there were many other bits of compelling evidence in the film that would have never been shown in the past, such as ten years ago, or even 5 years ago. This showing of this film is certain to have caused many skeptics to rethink their position on the issue of whether aliens have visited earth.

Will Secret Government Use all the Advanced Technologies to Enslave Entities?

QUESTION:

Another question from Wes. He writes: "I've received some startling information from the *Sedona Journal of Emergence* magazine concerning the nefarious plans of the secret government. It seems there is another "hostile" or renegade group of extraterrestrials called the Xpotaz, who have furnished the secret government with technologies far more advanced and deadly than what Awareness has previously described.

"Now that the destined entrance of this planet into the fourth dimension is close at hand, it is my fear that the elite members of the secret government will go all out to enslave humanity, using *all* the advanced technologies at their disposal. Up to the present, all of their activities have been clandestine and secretive, but like a trapped animal who must fight for its life for survival, the secret government, when their backs are against the wall, may decide to use their advanced technologies against humanity in order to survive and keep on line their plans of ultimate domination.

"What are the chances that a confrontation between the secret government forces and the resistance movement toward sovereignty would involve technologies that have been furnished by extraterrestrials?" he asks. "I'm thinking in terms on a global scale, rather than a skirmish here and there."

COSMIC AWARENESS:

This Awareness indicates that there *are* unseen forces working in behalf of those Patriots and in behalf of the American people who are very much aware of the hidden government and its plans, and of those renegade CIA operatives, and some of these entities have been very active in working behind the scenes to sabotage many of the plans and designs of the hidden government.

This Awareness indicates that *It* will not go into any of this in detail, but it does appear that there are people in very high places who are aware of the alien/ hidden government connections, and who are capable of dealing with the relationship so as to do something to help defuse this relationship when the time is right.

In other words, it is not simply a situation in which people sit behind closed doors plotting destruction without any resistance being available to counter their plan. This Awareness indicates, of course, the question may be "Who, and how much can we depend on the resistance to these plans?", and this Awareness cannot comment on this, but this Awareness reminds you that there are higher forces that often look out for humanity in general so that the worst of the plans of the dark forces do not work out in the end.

This Awareness indicates that entities do not need to know everything, do not need to know the threats and dangers that are being plotted behind closed doors. It would simply cause them grief and anxiety. This Awareness indicates that they would then want to know *who* is doing *what* about it. What this Awareness wishes you to know is that *there are forces of the kind that represent the Light and the Good in humans who have abilities and powers to deal with whatever dark forces come up with.*

Who are the Xpotaz?

QUESTION:

These renegade groups of extraterrestrials he refers to as the Xpotaz, who furnish the secret government with advanced technology: are these Xpotaz really as described, or is that simply another name for Zeta

Reticuli, or perhaps the Reptilian...

COSMIC AWARENESS:

This Awareness indicates that these appear to be of the Zeta type, and as entities who are not cooperative with the majority of Zeta who have determined that since the Reptoids have not the power over them at the present time, they will try to be cooperative with humans. They enjoy working with humans better than with their Reptoid masters, and the Reptoid masters' plans have been hindered from the Jupiter crashes.

This Awareness indicates that these particular hostile Greys or renegades appear to be expecting further help from the incoming planet from Reptoids aboard. If this does not provide them with the support they expect, these entities will be in considerable difficulty from their other associates. The other Greys have determined they would rather form an alliance with humans than with the Reptoids.

Will Galactic Command Intercede?

QUESTION:

One last question here from Wes E. He writes: "I've also heard that the Forces of Light have brought back, through time, an ancient Pleiadian warship to counteract whatever harm the secret government may inflict on humanity. Will the Galactic Confederation be forced to intervene if destructive technologies given to the secret government are used to subjugate humanity?"

COSMIC AWARENESS:

This Awareness indicates that it does not appear that the secret government will have the opportunity to subjugate humanity with its technology as available to it without interference preventing its efforts; that this may be from the Galactic Command, and from other friendly of the extraterrestrial nature, including particularly the Sirians and the Vegans and Pleiadian allies of humanity.

This Awareness suggests the Interpreter be brought from trance.

THE STORY OF A WANDERER

QUESTION (AVATON):

The entity Bill Sheppard is with us today, and would personally like to ask a couple of questions of Awareness, and if Awareness has a message for this entity.

COSMIC AWARENESS:

This Awareness indicates this entity as having taken that voyage from the unified field out into areas of separation, and having returned to the unified field. This Awareness indicates this action as likened unto the Prodigal Son: that the energies moving out as that which allowed the entity an opportunity of discovering the concepts of separateness and isolation, of division, and to assist in finding the path for others who have also moved out from the unified field, that they might return to the unified field by a path which this entity has clearly discerned/discovered, and which the entity clearly marked within his consciousness as he left on his voyage into the unknown. This Awareness indicates this journey having taken many lifetimes; that the entity as having moved out through many lifetimes into unknown realms of separation, isolation, moving into individuality, but always retaining deep within himself, the knowledge of how he got where he was and how to return.

This Awareness indicates this entity as essentially having been sent out on a voluntary mission to those areas in consciousness which were separated, which were alone, which had been isolated from the unified field, with the directive, with the purpose of bringing back those forces which were lost. This Awareness indicates this entity as having returned to the unified field, That the entity does, on occasion feel a great need to again move and journey to and from place to place, as an action of wandering, as an action of attunement, that the entity might lead parts of his own consciousness which have gone astray, back to the unified field, or in a more unconscious programming, lead others back to the unified field by the use of information which comes to this entity during those periods of isolation, during those periods of attunement with the unified field.

This Awareness indicates that for this entity, the isolation from the affairs of the material allow the entity to attune to the spiritual, and from the spiritual attunement, the entity brings forth gifts to the material. This Awareness indicates that this as a kind of movement between the spheres of the figure eight, of the hourglass, wherein the sand moves from one sphere into another, then is turned over and again rushes to the other side.

This Awareness indicates that the action as that which, over a period of many lifetimes, has resulted in extremes of experiences in the material levels and in the spiritual levels. This Awareness indicates that in this present lifetime these energies are such that the polarities of the movement between spiritual and material as that which is growing closer and closer, whereby the entity may have the opportunity of integrating the spiritual and the material together in one perfect lifestyle.

RHYMES WITH ORANGE By Hilary Price

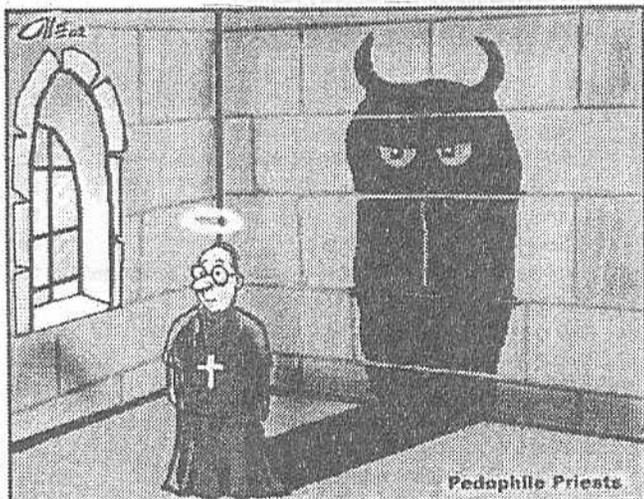

Wisdom of Awareness...

ON THE NEW BEING

This Awareness indicates that the New Being as that which is any entity who converts, who transmutes, who recognizes who in fact who he or she truly is. The twinkling of an eye, this as a capital I. That when an entity recognizes the fact of one's own divinity, the entity becomes the New Being, and all entities who can recognize this become the New Being.

This Awareness indicates that once an entity recognizes the divinity of oneself, recognizes oneself to be One with God, at one, at-one-ment, the atonement with God, when entities recognize their own atonement with universal forces, with the spiritual energies of the universe, these entities become the New Being, and begin to grow and develop the qualities of such a New Being, these entities become the Christed entities, christened with Christ Consciousness, that they may become even as was the Christ who came as an example in ancient times. This Awareness indicates that the day, the hour, the year as that which is purely individual and occurs when the entity recognizes the divinity of one's being. (Issue 82-22: What is the New Being?)

(How to Heal Mother Earth...Continued)

Is the Magical Analogue of a Mechanical Pyramid Set Up With a Globe Inside a Potent and Viable Instrument?

QUESTION (BILL SHEPARD):

Would Awareness comment on the validity or non-validity of the following proposal? An alter in the form of a pyramid is set up with a globe of the earth inside. This alter would not be a free-running machine, but would be energized only at the time an actual rite was being conducted. To bring the machine into operation, a separate drive unit is connected to it. This drive unit is a specially made core of logarithmic spirals which resonate to the Alpha-Omega, or Father-Mother energies of the universe. By tuning and concentrating these Alpha-Omega energies, the pyramid is made to develop a power level which is far higher than in the unconnected state. Since the globe of the world is inside this light field, the laws of *Sympathetic Magic* decree that the actual earth is inside a similar light field.

This light field is then charged or modulated for the healing of the planet and for the raising of consciousness throughout the world. The whole object is to radiate the planet with light and with love and to speed up the transit time into the New Age. The aim is not specifically to attack the antichrist forces.

To charge the light field, the operator uses direct hand radiation into the Alpha-Omega drive core which sits on top of the pyramid. The operator then opens the crown chakra by meditating on the OM or on any other pure mantra or song. The result is a completed circuit, drawing energies of pure bliss, and love and ecstasy from the heart of the universe, and by sympathetic magic, radiating the earth with them.

The right hand is always used for energizing the pyramid's drive core. In addition, a group of like-minded people could join hands in a circle and the last person in the circle has his or her left hand under the pyramid, picking up the residual energies and feeding it around the circle, which ends in the operator's right hand. Such a group rite would be optional and would only be effective if everyone in the circle can groove on the common mantra or song. If anybody in the circle has negative feelings toward this, the circle would be broken and would not be effective, but with everyone in agreement, such a prayer circle could greatly enhance the planetary radiations. Common mantras might be John Denver songs, Christian hymns, patriotic songs, or Vedic hymns.

The object is to develop a common grace or ecstasy and a passion to infuse the world with love. This light would carry compassion and mercy, even for the antichrist forces, with a desire that they, too, should repent and turn to the light before probation completely closes on them. The rite would always open by intoning the pure syllable of the OM, and the pyramid altar incidentally, would be marked in the 12 tiers and 12 divisions depicting the 144 pulses of the light field;---and that is the proposal.

COSMIC AWARENESS:

This Awareness indicates that the concept as that which is valid, that which can be put into ritual form. This Awareness suggests that this ritual action may be implemented through entities within the Aquarian Church, perhaps for a time within the coming month. That wherein this occurs within that time, much energy can be emitted from this ritual to have a powerful effect

on the coming events. This Awareness indicates that also, individuals themselves may use this and enhance the power of their own creative images for the good of humanity.

This Awareness indicates that there appears to be certain energies moving in such a manner as to allow this to become a practical expression as a ritual. That this action as a ritual as that which shall bring forth other openings for even greater services and activities in regards to allowing further information of healing value to come forth upon this plane. This Awareness suggests that more information in regards to this may be forthcoming in the near future.

Any Transmutation of Planetary Karma?

QUESTION (BILL SHEPARD):

Does Awareness see there having been a transmutation of planetary karma on or about the 17th of November, and if so, what was the nature of the change?

COSMIC AWARENESS:

This Awareness indicates it appears that this as having been a turning point whereby the confrontative energies of the Skoptsis and the Bolsheviks as that which reached a crescendo, and whereby the 17th of November as having been a selected date for the destruction of New York City, but that the Skoptsis as having been unable to bring themselves to pull the trigger, so to speak, and in hesitating, allowed the date to pass, and felt satisfied in simply having the power to destroy New York City, rather than in actually doing so.

This Awareness indicates that this appears to be an action wherein the heart of the Beast, (of this particular Beast) as that which was the target, but which was spared from destruction because of the mere awareness of how easy it would be, and therefore the need for such was diminished. This Awareness indicates that while the threat still remains, it appears that energies are such that the Skoptsis are attempting to be somewhat more discerning about the use of power in solving affairs while retaining the option and ability to use such power as may become necessary.

This Awareness indicates that this turning point, in a cosmic sense, is that which has allowed certain frequencies, certain vibrations upon this plane to enter in and to effect a kind of minor reconciliation of forces, of polarities,--this likened unto energies jumping approximately one octave closer toward harmonious resonance. This Awareness indicates that the resonating energies are stronger while the conflicting energies or dissonant energies have been compressed also in a tighter expression, so that intensities have increased; and the increase of intensities may lead to a kind of explosive expression or may lead to greater awareness and therefore, surrender. That the dissonance has increased in certain areas while harmony has increased in other areas.

This Awareness indicates this likened unto outside forces forcing a note or sound to move through a more intense channel, causing its tone to alter, so that it becomes more harmonious with the other tones. This Awareness indicates that this as an action which is such that should the tone be stretched too tightly, chaos could occur, and disharmony be the result. This Awareness indicates that the tension involved is that which also can weaken the strength of the cause which would create the disharmony; and therefore, in weakening the cause which would create the disharmony, the tension wears down these forces and may lead to a kind of resignation or surrender into the harmonious stream of consciousness, or vibrations, or tones.

This Awareness indicates that your action in regards to this as that which assisted in grounding certain anti-matter energies onto this plane, which were used in creating the tensions.* This Awareness indicates also, that these energies were being created by certain forces from the inner planes by astrological forces and by changes in consciousness and by the bio-computer of the mass-consciousness in such a way as to use your physical and mental, emotional and causal body as a channel for such energies at the time when such was needed. This Awareness indicates that this energy also emanated through others who would allow themselves to be open at that time to any degree of openness which was available. This Awareness indicates that your channel as one which was quite open and allowed great amounts of energy through onto this plane.

*Ed's Note: At the time Bill was in the Arizona desert doing this ritual every night and the skoptsis were about to destroy New York city in an earthquake created by small nuclear bombs sunk in the waters around Manhattan island and the CAC membership was bombarding the media and politicians with letters to stop a planned nuclear war. (Incidentally, the energies in motion at that time were from the same source as those promoting the Armageddon scenario today.) New readers can find information on this in Revelations of Awareness 80-33 (Hotline) Help Save Manhattan; also 80-4 (What to expect this coming year); \$3.00 each from CAC.

Problems Facing Wanderers

(Why Do They Have to Suffer in Childhood?)

QUESTION (BILL SHEPARD):

When karma-free entities or Wanderers come into embodiment to do karmic intercession for the world, do their sufferings sometimes begin in early childhood, or even before birth?

COSMIC AWARENESS:

This Awareness indicates that these sufferings seldom begin before birth. This Awareness indicates however that they often do *begin* at birth. This Awareness indicates that in some cases, the fetus suffers and certain scars may remain in the cellular programming or memory of the fetus. This Awareness indicates however, that the Wanderers generally do not actually enter the body of the child until after the birth, often at an early age, soon after the birth.

This Awareness indicates that they do generally, however, inherit a physical body which is not particularly strong during youth, but which has a good constitution in the sense of being able to grow and develop and repair itself from injury and damage or illness and weakness. This Awareness indicates therefore, these entities generally are weak or ill or hindered in their physical form as children, but as they develop and grow older, they take command of the body, improve its abilities, and the body strengthens as time passes. This Awareness indicates this appears to be the opposite of others who enter and have strong bodies as children but who, as they mature, find their bodies often giving out prematurely.

Wanderers Often Become the Garbage-Cans of Humanity

This Awareness indicates that generally, these Wanderers are quick to become the garbage-can of humanity for hostilities, for violence, for insults, for ridicule, and for misunderstanding, and generally, these entities tend to, rather than fight back with similar violence, hostility, or manipulative tactics, will generally believe that they are doing something wrong and must correct themselves. This Awareness indicates that these entities then begin searching about for that which is right in order to discover how they should behave in order to be right.

This Awareness indicates that this search for being right becomes a life-long effort. The search for discover-

ing what is right becomes a life-long effort. This Awareness indicates this instills a sense of truth-seeking in the core of these entities' consciousness, and this desire to find the truth as that which is at the base of everything the entities do.

This Awareness indicates that these entities often cannot understand or comprehend the ridicule and violence perpetrated against themselves by others. These entities often have a very low self-esteem, but do have a kind of determination to continue searching for ways to improve, for ways to find freedom, for ways to be free of ridicule and rejection.

This Awareness indicates these entities often are unable to perform their rational duties properly, may be in some difficulties in public schools or with their local associates and peer group level, so that they find themselves in conflict with particularly those who are boisterous, bullying, and non-sensitive in their expression. These entities often find it difficult to maintain an average work-a-day job, and that they are only satisfied and happy when they can be on their own, able to have freedom and time to think about life, about relationships, and about truth, of some particular matter of interest.

Eventually Wanderers Discover Others Like Themselves

This Awareness indicates that these entities, in time, may discover others like themselves and join forces to the extent of recognizing each other, and in such recognition, recognizing themselves as having a place, a purpose, and a right to be who they are. This begins to change the entity from feeling that there is something basically wrong with his or her being, discovering that there is something very special about his or her being, which needs to be cultivated and better understood. This Awareness indicates that when these entities move through this realization, they then begin to emerge into the kind of consciousness for which they came to this planet, and can then begin affecting those vibrations and changes which are part of their purpose in being on this planet.

This Awareness indicates that generally, such entities at that time, begin gradually escaping or overcoming those hostile vibrations which were so heavily experienced as children, for the entities then begin to avoid associations or competition with such vibratory rates as would ridicule or would become violent; or such entities, rather than simply avoiding, may confront those forces with a higher consciousness or sensitivity to truth, in such a manner as to diffuse those forces.

The Greatest Problem is to Maintain Self-Respect

This Awareness indicates that the greatest problem, which remains a kind of chronic problem for Wanderers of this type, is that of maintaining a self-respect. This Awareness indicates that in order to maintain a self-respect, an entity must feel that he or she has a right to be, a purpose for being, and something of value and use to society in general. This Awareness indicates an entity also must feel that this right to be, this purpose and use and value, should be acknowledged and respected by others, enough so that the entity does not need to apologize for being, apologize for having particular needs for such expression, and whereby the entity isn't concerned about the opinions of others who might reject him or her, or who might criticize him or her; for the entity knows himself or herself well enough to realize that there is something of value, and a purpose in being, which others may not recognize, and even though they criticize, that criticism need not be taken as a rejection, but may be looked at for discerning anything of value, or for discerning the critic as to what is occurring in the mind of the critic.

This Awareness indicates that therefore, the entity may experience much criticism without the criticism being a devastating energy on the entity, without the criticism causing the entity to lose track of his or her purpose, direction, or sense of personal value.

This Awareness indicates that these entities, being more sensitive and taking on the garbage of the world, do not dump this off on others, do not throw this out to be recycled as further garbage for others to pick up and carry and dump and recycle for still others, but these entities transmute that garbage which others dump in such a manner as to change the thinking, change the consciousness of those around, to become more aware of what they are doing with their garbage.

This Awareness indicates that in some instances a Wanderer who has garbage dumped upon him, or upon his or her lawn or properties, may choose to simply clean this up and make no notice of it, setting an example of good behavior, and the ability to overcome adversity without murmur. Still another Wanderer may decide that this has gone on long enough and may take the garbage back and place it upon the steps of those who first threw the garbage, and explain clearly: "Here, this is *your* problem. You have given it to me to solve, but basically it is *your* problem, and I let you solve this."

Wanderers End Up As Teachers One Way or Another

This Awareness indicates that in this action, the entity puts the responsibility where it belongs, not to punish another, out to teach the other, and in so teaching, creates the opportunity for another to grow more responsible. This Awareness indicates that therefore, these Wanderers become teachers, and not only accept the garbage of others, but may also teach others how to deal with their garbage, how to tend their own affairs, without dumping garbage on others.

This Awareness indicates that this becomes a stage of development for such entities so that after having much garbage dumped upon themselves, the Wanderers then begin to clean themselves off, clean up their properties and their own lives, then they begin to look about to discover who the pollutants are, and to discover where all of this garbage is coming from, and how to deal with these pollutants, and in so dealing with these polluted areas in consciousness, how to raise the vibrations so that these entities need not be harmed for their ignorance, but rather can learn to avoid such ignorance, so that all can benefit and enjoy the fruits of life.

This Awareness indicates that these Wanderers then discover that they have a purpose, which being is to assist in training others to give respect to life in general, then set about to do their business. This Awareness indicates the next stage is that wherein these entities discover that there are also others in the society, in the life-stream, who are likewise Wanderers, seeking to improve conditions for all. This Awareness indicates when this occurs these entities may begin to coordinate their activities in such a manner as will allow the energies not to be duplicated or wasted, but to harmonize and to bring an efficient system or method in cleaning up the planet from the pollutants and their garbage.

This Awareness indicates this includes the action of educating people who have not yet been trained to think of the entire human family, but who have been conditioned to think and work and strive for self-promotion, without respect to the needs or rights of others. This Awareness indicates such education becomes the action of the group of Wanderers; that an organization which wishes to change a planet can best be effective through actions of teaching and healing, and serving.

Conflicts Confronting Wanderers

(How to Reconcile With Family and World Responsibilities)

QUESTION (BILL SHEPARD):

When a Wanderer decides to follow the spiritual path and finds that it comes in conflict with family responsibilities and worldly responsibilities, how is the best way to reconcile those two extremes?

COSMIC AWARENESS:

This Awareness indicates that this generally is a kind of transition state wherein the family may be in conflict with the spiritual drive of an entity, and therefore, the transition as that which is presenting for the entity a need to become integrated, materially and spiritually.

"Surely I Have Made a Mistake and Landed in the Wrong Place"

This Awareness indicates that a Wanderer generally seeks to escape the material plane shortly after arriving. With the unawareness of the total purpose of the mission, the entity begins to feel that "Surely I have made a mistake and landed in the wrong place". This Awareness indicates that it often takes many years before the entity quits seeking to escape from the problems and learns to turn and face those problems of the material world. This Awareness indicates that in facing these, the entity may discover that the demons which the entity sought to escape are simply in his own mind, and are not so frightening when really observed, but are really simply energies needing help.

This Awareness indicates that a Wanderer seldom recognizes his or her own true power to negotiate, to assist, and to deal with problems, but generally feels himself to be a victim of unusual and difficult circumstances. This Awareness indicates that wherein the entity eventually begins to recognize that in order to be complete, the entity must integrate the material world and the spiritual world, and that this is the real purpose of the entity, for it is through this action that the entity truly begins to raise the vibration of the planet. This Awareness indicates that in integrating the material, the entity must not lose hold of the spiritual connection, but must find a way whereby that spiritual connection satisfies the material needs and obligations. This Awareness indicates that this is not as difficult as it may appear to be; it only requires recognition of the necessity to do so, and the faith to realize that one can do so.

ED's Note: Bill Shepard answered our classified ad in FATE magazine and was so astounded by the Awareness messages in our booklet "Cosmic Awareness Speaks" that he handwrote a very impressive 20 page letter to us about his search for God, which I read to Awareness who responded:

"This Awareness indicates this entity as having spanned the gap of consciousness, from the old ways to the new, with perfect clarity, perfect understanding, perfect research, perfect presentation as necessary for his perfect message.

"This Awareness suggests that this message be printed in its entirety, preserved as a special document, and made available to all who desire copies of this message."

Bill's message appeared in "Revelations of Awareness" 81-2 as "A Search For God: The Chronicle of a Wanderer in the New Age." (\$3 from CAC). Awareness explained that Bill was a natural channel for the Christ Consciousness and had an important role in the CAC family (even though he never joined) and we should share his ideas and channelings with the membership. This resulted with the CAC newsletter including a section called "Letters From Bill" which appeared in issues 81-6; 81-7; 81-10; 81-12; 81-14; 82-12 and others; (\$3.00 each from CAC). Newer CAC readers who have never read the insights from Bill Shepard should certainly do so, for like the Cosmic Awareness material we publish these are just as immediate and pertinent today as when originally given.

The Nazi Holocaust: A Grand Deception?

QUESTION:

Gary Foss has one more question. He writes: "I live in Germany now for 3 years and have lived here before from 1975-1978. I personally visited Dachau concentration camp near Munich. I've seen the photos of many dead bodies in mass graves, the ovens that were never used, and gas chambers that laborers supposedly made inoperative during construction of Dachau. My question is, if the holocaust story is a grand deception, how and by whom was it done? Given all the photographic evidence, somebody died—be they Jewish or non-Jewish. How can so-called "survivors" be so wrong?"

COSMIC AWARENESS:

This Awareness has *never* indicated that the holocaust was a grand deception. This Awareness has indicated that there were not as many entities of Jewish background put through those ovens as has been claimed. This Awareness suggested that there have been other entities, including gypsies and entities from various other countries who were also included in part of that holocaust.

This Awareness indicates that it is simply an historical exaggeration, but nevertheless, the holocaust existed, and even if it were only a few, it still was an atrocity to humanity and should never have occurred, and should not be forgotten, and entities should be ever alert for the kind of consciousness that might again take hold of the masses, or leaders of countries, to influence such atrocities, so that such consciousness could never again rise to such a repetition of that behavior.

This Awareness indicates that the arguments of some that these concentration camps were never used, as that which is fallacious; that in reality these concentration camps were used frequently and that entities were put to death there; that it is an effort to change history, to claim otherwise. The only comment this Awareness has given in regard to questions asked of this nature, is that the number of entities claimed to have been executed through these execution camps has been exaggerated and that many of these entities were not Jews only; that there were millions of others also exterminated in this war.

What About The Revisionists' Claim?

FOLLOW-UP (AVATON):

There's a number of books out by the so-called revisionists. They don't argue that the holocaust didn't happen, but they argue that they've never been able to prove that Hitler actually had a program to exterminate the Jewish race; that this was an invention of the press or other people, after the war; that the concentration camps, when they installed these furnaces were used primarily to get rid of the bodies of these hundreds and thousands of laborers who were forced to work on little food, and who would die of starvation and exhaustion, and they burned the bodies to keep cholera and other disease from going through the camps, and they go on to say that certain forces took advantage of this when these concentration camps were discovered, to install additional furnaces in some of them and to make it look like a concerted program had been going on by Hitler to cremate, to kill all of these Jewish people in Europe, and in that respect, they said this was an attempt at the time

to get sympathy for the state of Israel, which was being born shortly after the war.

Is that more or less the scenario, or is that true?

COSMIC AWARENESS:

This Awareness indicates that the truth lies somewhere in between. This Awareness indicates that it was the Zionists who set Hitler up to begin with, who put him into power as well as they who put Stalin and Trotsky and Lenin into power. It was this action that led to World War 2, and from this there was a considerable backlash against the Zionists, when Hitler, gaining sufficient power to his satisfaction believed that he could work a deal with Stalin, to go against what he believed to be the Jews who were creating the wars at the time and who he believed were the people behind the power that caused nations to rise and fall.

In forming his deal with Stalin, believing they would both go after these (what he believed to be) powers, the Jewish powers, he set about a pogrom and a kind of secret war against the Jews. His understanding of the situation classed the Zionists and the Jews as one, believing them to be the same, therefore, he had great antagonism toward Jews in general, even though individually he liked certain Jewish persons and in fact was a close friend with one, having lived with one for some time.

This Awareness indicates that Stalin agreed to go along with Hitler, but then Hitler later began to feel Germany could gain control of Russia and have it all; this partly based on Hitler's own mind deteriorating into a kind of megalomania; that as he became more incensed with power and ambition and seeing weakness in other countries, he began to believe that Germany could have it all, and that he would thereafter create the super-state to rule the known world in Europe. His one dread was to avoid confrontation and war with the United States.

This Awareness indicates that after the war had ended, there were forces that exaggerated the emphasis and holocaust situation in various ways by bringing out pictures, newsreels, other information, showing these bodies. This Awareness indicates that the majority of entities who were burned in the chambers were entities who had worked with little or no food until they dropped as cadavers and were then killed, or were then burned or buried in mass graves, but those entities who had been slave laborers were useful to the German war machine and were used to conduct many of the experiments on by various researches, which Germany was engaged in.

This Awareness indicates that it was not expedient for Nazi Germany to destroy entities who were reasonably able to work until they had gotten as much work out of them as was possible, but once these entities became a greater liability than benefit to the Nazi war machinery, then they were exterminated. It is not correct to say that the ovens were used only to burn the bodies of those who died. There were many who were seen as weak upon arrival at these camps and were then sent into the gas chambers and were then burned in the furnaces.

This Awareness indicates that even though there are no clear records of the program for destroying the millions of people who died this way, the process was enacted and set in motion, and the records, if kept, were kept in ways that were coded or defined so that they did not appear as directly related to the program. Many of these records, being destroyed, the idea being not to leave a trace for others to follow. Exterminating groups of individuals for the purpose of ridding the world of them does not require or does not encourage those who

are behind such effort, to keep records or names of individuals thus destroyed.

This Awareness indicates that it appears there will be arguments going on regarding this for many years to come. The further away from the event the more uncertain will be the answer; that there are however, entities living today who know these events took place but that there are none who know the extent of the events, as to how many or as to the effectiveness of the program. This Awareness indicates that the element that seems to have been forgotten is that there were those who were exterminated who were not Jewish; these being many Poles, Czechs, Hungarians, French, Gypsies, and weak people who were seen as liabilities to the German plans for conquest.

This Awareness indicates *It* should use the term *Nazi plans* for conquest.

FOLLOW-UP (AVATON):

Hitler was also supposed to have killed off all of the homosexuals in Europe along with the gypsies, mental retards, Jehovah's Witnesses, Blacks etc.

COSMIC AWARENESS:

This is in the affirmative; and also many Communists, whom he saw as threats to his political controls.

Did Hitler Have a Deliberate Plan?

(More on the book: "Why Did The Heavens Not Darken"?)

FOLLOW-UP (AVATON):

Along this line line, in the May 15, 1989 issue of *New American View* magazine, they mention a book, and I'll read what it says.

"While some American Jews are growing weary of holocaust hysteria and the corny *kitsch* of "shoah" business, at least one respected member of the community has recently committed heresy by questioning the previously accepted facts concerning this historical phenomenon.

Princeton professor Arno Mayer, regarded as a first-rate diplomatic historian and himself a refugee from Hitler's Third Reich, has just published a new book which argues that there was no deliberate Nazi policy to murder all the Jews of Europe. (*Why Did the Heavens Not Darken?* Pantheon Books, 492 pp. \$27.95)

Mayer sees the Holocaust as a product of circumstances, an unplanned consequence of other Nazi policies, particularly the war against communist Russia. For Mayer, the wellspring of that war was the anti-Bolshevism of the German elite—the industrialists and military, as well as the Nazi leadership. In his view the destruction of the Jews came about only as an indirect result of this anti-communism.

"Had the blitzkrieg succeeded in the East," he writes, "the Jews instead of being massacred probably would have been deported."

Mayer believes that only when the Germans are bogged down in Russia in the fall of 1941 did the Nazis begin killing large numbers of Jews—and then only to "vent" their frustration. However, he says the Nazis were more concerned with exploiting the Jews as workers than in exterminating them. Thus, many, if not most, of those who perished actually died of overwork, disease and starvation.

Of Auschwitz the holiest of the holocaust shrines, he writes that "more Jews were killed by these so-called 'natural causes' than by unnatural ones."

Mayer's book has, of course, caused an uproar in both the American Jewish and academic communities. Naturally Jewish academics have been the most vehem-

ent in their rejection of his views, claiming that it is "a very dishonest book" and that it displays a pattern of falsification and distortion."

COSMIC AWARENESS:

This Awareness indicates that this book as being the more accurate of any of these various scenarios; that in reference to the Bolshevik concerns of Hitler, entities must understand that the term *Bolshevik* as relating to the Russian Revolution; Bolsheviks of the Russian Revolution were fostered by Zionism and that essentially, the Zionists and the Bolsheviks are one and the same, and therefore, the concept of Hitler being opposed to Bolshevism as that which is essentially the same as his being opposed to Zionism.

The Term "Zionism" is Defined

When this Awareness uses the term *Zionism*, *It* refers to the political movement of Zionist philosophy, and not to Jews in the sense of a religious or social or national grouping. This Awareness indicates that not all Zionists are Jewish, and not all Jews are Zionists. It is a political organization seeking world domination. This Awareness indicates that this force as that which was behind the Bolshevik revolution in Russia, and at the time of Hitler's ascension there was great question as to whether Germany was to become a Communist country or a Socialist country, this in terms of the Fascist approach.

The National Socialist party, which was the Nazi party, as that which tended to become more dominant in its expression of Fascism, but it was almost equally balanced by Communist or Bolshevik influence in Germany and this was Hitler's greatest concern at the time of his ascension to power. This Awareness indicates that it was of such concern in fact, that though he had a very small party of only approximately 500 members, and those 500 members presenting themselves in parades and such, attracted great attention and the entity in so attracting attention with their goose-stepping marches, looking so precise and clear and certain in their ideas and the promotion of their concepts and the confidence of their ability to govern Germany, swayed the masses to vote Hitler into power.

At the time he was voted into power, he did not feel at all secure, and went forth in a kind of negotiating approach to bring about some kind of meeting with his former enemies, political enemies, as a pretense of the effort to bring them into a joint venturing of governing with them, pretending that they could work together, called a meeting, and rather than actually working to bring these entities together to help govern Germany, proceeded to use his troops to destroy those former political enemies. It is in this manner that he began his campaign against his various enemies, especially the Bolshevik or Communist enemies in Germany.

Germany Could Just As Easily Become Communist

This Awareness indicates the account in the book of this professor as that which essentially is a more accurate description of what occurred in terms of the historical record or reality; that the turmoil in Germany, the uncertainty in Germany played a great role that is often overlooked, for Germany could have just as easily become Communist as to have become Fascist, except for the actions of Hitler and the Nazi party, and because of this extreme uncertainty, extreme measures were taken by extreme actions of entities who were in themselves extreme.

This Awareness indicates that had World War I brought about some kind of reorganization of Germany much as Japan after World War 2 or Germany after World War 2, so that the country itself could have been

restored, there would not have been the chaos that allowed for an entity such as Hitler to gain control and to gain the power that he gained.

Henry Ford Assisted Greatly in Hitler's Buildup

This Awareness indicates another factor which many entities do not normally realize is that Henry Ford contributed heavily to the buildup of Hitler prior to World War 2, sending much equipment, money and arms and assisting in the creation of factories for this entity, for Germany to restore its military might.

This Awareness indicates the entity Henry Ford as having also had paranoia in regard to the Jews, particularly based on the Bolshevik types. This Awareness indicates this entity as having written a book: *The International Jew*;* that this book as being rare and hard to find, but the entity espousing the view that a kind of conspiracy among Jews was a threat to the rest of humanity. This Awareness indicates this entity not realizing the distinction between Bolsheviks, Zionists and Jews, so that he could clarify his own thinking. This Awareness indicates that the Bolshevik movement as that which, indeed, creating much confusion among entities who saw them as Jews, and helped to create much of the prejudice against Jews in general.

*Today Ford's book "The International Jew" is available from Edward R. Hamilton Bookseller, Falls Village, Ct. 06031. Write for their free catalog of over 100,000 bargain books.

A Brief History of the Khazar Jews

(More on the Protocols and Zionism)

FOLLOW-UP (AVATON):

That book, *The Protocols Of The Learned Elders of Zion* didn't help any either, did it?

COSMIC AWARENESS:

This as in the affirmative. This Awareness indicates that this as that which in being spread throughout Europe, helped to create mass-paranoia of Jews; that the book itself as that which had considerable validity but in regard only to the political movement growing as Zionism. It was not representative of Judaism.

This Awareness wishes entities to understand that the Zionist movement essentially sprung from the Khazars. The Khazars were not even Jewish to begin with, but were blue-eyed yellow-haired entities living in and along the area of the Volga river, and these entities being of Finnish descent.

The Khazars were under great pressure from the church to embrace Christianity from Rome. They were also under pressure to embrace Christianity from the Greek orthodox church, the Byzantine empire, and under pressure from both sides, elected to avoid both, and instead, embraced Judaism, the Hebrew philosophy of the Cabala and the Old Testament. In embracing Judaism, the Khazars then set themselves up not only as good business men, wherein they stopped every boat going up and down the river for tolls and taxes, they also raided and pirated some of the boats for supplies, allowed others to go through only if they so chose, and in a sense became the scourge of the area, and gradually expanded into other countries, calling themselves Jews, gaining controls of banks, gaining political controls, gaining control of money in various countries through various means, engaging in such things as pawn-brokers, such as the Rothschilds.

The Rothschilds Were Khazars With Red Shields

The Rothschilds as being Khazars who used a red shield as their shield, thus, the name Rothschilds. These entities as pawnbrokers collected money from people, goods from people, and gradually, over periods of time, gained great wealth, then began to spread their influence

with their great wealth by loaning to countries, loans to England to fight the Spanish War, the war with Spain, and in so doing, they gained control of the banks of England, and later, of its colonies in the United States.

This Awareness indicates that throughout history, the Khazars were those who worked in various subterfuge in different ways, gaining influence and control through money manipulations and through the promotion of revolution and war. This Awareness indicates it was the Khazars who trained in lower East side New York, who were put on boats, sent to Saint Petersburg to start the Bolshevik revolution in Russia. This Awareness indicates these Khazars were also prevalent in Germany, prior to Hitler's ascension to power, and it was the Khazars whom Hitler rightfully should have, by his standards, focused his hostilities toward, but the entity, not understanding the difference between a Khazar and a Jew, a Bolshevik or a Zionist, simply called them Jews and saw them as the cause of great problems, and in his books labeled them with such hostility.

This Awareness indicates that this as that which led to much of the Nazi hysteria against Jews in general. This Awareness indicates that it was the Khazars who had helped set Hitler up into power. It was their attempt to go against Stalin who had betrayed them, in terms of the Russian /Bolshevik revolution. Stalin ceased being cooperative with them, and therefore, they set up Hitler to go after Stalin, but Hitler went to Stalin instead to seek agreement with Stalin to go after the Khazars, or in his terminology, to go after the Jews. Upon his return to Germany he began working toward that end. The visit from Chamberlain and further visits from Khazars or the Bolshevik Jews, led Hitler to change his approach and to work instead to go after Stalin, being promised Poland and other countries, if indeed he could crush Stalin.

This Awareness indicates that of course, Hitler was unable to crush Stalin and instead, Russia began to drive Hitler back to Germany. This Awareness indicates that essentially is the scenario that led to many innocents being slaughtered as bystanders.

History Often Turns Into Myth

CLOSING MESSAGE?

This Awareness indicates that history as a strange thing. There is a dispute and then there is the shouting afterwards, and then there is the telling of it, by witnesses, and then there is the telling of it by entities who have heard the witnesses, and then there is the recording of it, and then there is the dispute in regard to the recording of it, and then there is the critic who criticizes the dispute, and then there is the next recording of a different version, and there is the disputed remarks of those who do not agree, and then there is more and more viewpoints, discussions, additions, deletions, and changes and different interpretations, and if it was not filmed, or if it was not recorded precisely at the time, then there will be different views and different versions of the telling of the event and therefore, as time passes, the stories change, the events change, and as time continues on, entities begin to hear so many different versions, they may wonder if the event even occurred at all, and generations later the event may be told as some kind of myth, of gods doing battle with one another, of great armies that had superpowers, and were engaged in great enormous conflict and vile deeds, which may have absolutely nothing to do with the reality that occurred, and in this way history often turns into myth, or becomes something totally different from what it is supposed to portray.

This Awareness indicates that you have not yet, nor will you hear the last version of World War 2, of the atrocities, of the holocaust, for it is unlikely that it will ever become totally clarified as to the reality. This Awareness indicates however, that truth will come out among the various versions, and entities will need to be discerning to know which one is truth and which is a diversion, and that will be difficult. This Awareness indicates that if entities have questions now, in regard to those events that occurred in this century, then indeed it is the time to ask those questions of those who were truly witness to the events, for there will always be someone who will tell the story who may not have even been there, but who simply has a theory. There will be those who tell the story because they want something to be interpreted differently, for some hidden reason of their own.

This Awareness indicates that history is a thing that changes according to the times and according to the motives of those who write about the events.

HE'S BEEN "MONITORED" SINCE AGE 10 (Why? And By Whom?)

QUESTION:

A question from Michael Beckley in McMinnville, Oregon. He writes: "Awareness, I have been what I now know is 'monitored' since 10 to 12 years old, somewhere in there. It still occurs sporadically. Is there a different function when the ringing occurs only in the left ear, and other times only in the right ear? Is this monitoring a general broadcast to which certain individuals tune to, or is it specific to an individual?"

COSMIC AWARENESS:

This Awareness suggests the last sentence of the question be repeated.

AVATON:

"Is this monitoring a general broadcast to which certain individuals tune to, or is it specific to one individual?"

COSMIC AWARENESS:

This Awareness indicates that depending on who is doing the monitoring, it is generally, but not always tailored to the individual. This Awareness indicates that in your case it appears that this has to do with certain benevolent beings who have assisted you in moving into this dimension and lifetime and who, on occasion, check up on you to see how you are doing.

This Awareness indicates that this as being a monitoring that comes from your home planet. This Awareness indicates that this appears to be a planet in the constellation of Vega, and that these entities are monitoring you as well as others who have come to earth in order to determine where they are in terms of their spiritual progress and in terms of their particular mission on earth.

This Awareness indicates that they are also being monitored as to whether they should remain on earth or be called back. This Awareness indicates in your case, they are leaving you on earth. There is seen no reason to call you back and the check-ups are simply to determine whether you are experiencing difficulties or if things are going relatively well.

This Awareness indicates that those on Vega do not understand that a person can be healthy and still have difficulties financially or socially because they do not

understand the economics that are used on earth which can be strict and can cause entities to be tied down with obligations to the point of being incapable of doing what they wish to do or what they might otherwise be doing if it were not for economic demands.

Vegans Do Not Understand How Earth Economics Work

The Vegans simply do not understand economic demands, thus, when entities are busy doing their work and occupations, the Vegans may see them as avoiding their real purpose simply because they don't see them working at the mission they came to do and instead see them working at some occupation. In the occupational work they misunderstand and believe that the occupations are chosen by choice rather than by necessity.

This Awareness indicates that there are not too many who realize the nature of earth's economic system unless they are well familiar with the Orion political/economic control techniques and understand that the earth has adopted these techniques.

Billy Meiers Arrested Over Semjase's Jewelry

This Awareness indicates the entity Billy Meiers had a similar problem with Semjase in that she could not understand why he has so much trouble getting things done and when he attempted to explain to her that there were economic restrictions that needed attending, she did not understand this and he had to explain it in great detail. She then offered him jewelry that he could sell, but upon his attempt to sell the jewelry he was arrested because the jewelry had no title accompanying it to allow him to sell such unusual and unique jewelry and the purchasers presumed the jewelry had been stolen.

Thus, the assistance was of little value to Billy Meiers. This Awareness indicates that this is a problem between the various groups of the galactic confederacy, and earthlings who are contactees because the Galactic Confederacy presumes that the system here on earth is similar to theirs and that entities have lots of time to do certain things. This Awareness indicates they do not understand that most entities are locked in to commitments of a financial nature and survival, and must work at jobs to pay rent or to purchase their homes or to feed their families.

Many Entities Came to Earth From Other Planets to Alert Us To An Extraterrestrial War Which Is On The Horizon

This Awareness indicates that there are a number of entities on earth from Vega who came to the earth planet for the purpose of alerting earthians in regard to the alien presence because of the increasing encroachment of these entities on various planets and the general galactic war between these Greys and Reptilians against the Galactic Confederation, and the Vegans, Pleiadians and others have each contributed in the way they have chosen to contribute, either as military contributions or as individuals who can incarnate into human form to help during a crisis and during an extraterrestrial war which is on the horizon.

This Awareness indicates that these entities as being contributed from different volunteer groups of various planets, may be likened unto the UN contributions of troops from various nations to a particularly troubled hot spot on the earth, but the Galactic Confederation as that which is also made up of volunteers. No entities are drafted for this kind of duty. Those who are involved in the United Forces of the Galactic Confederation to assist the earth are volunteers, and may have missions that are nonpolitical in many cases.

Others may have more political or military type missions. Many of those who reincarnate on earth from

these other planets do not recall their origins or mission on earth.

Are Some in the Pentagon?

FOLLOW-UP (AVATON):

Awareness mentioned the military. Could it be that some of these entities are even in the Pentagon?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that most of these entities are in various civilian occupations or in schoolings or in private businesses, but there are a few who are in the military. This Awareness indicates that essentially, the Galactic Military Forces do not directly intervene in the affairs of other planets. This is a rule which is carefully followed by those of the Galactic Confederation. This rule is not adhered to by - the Orion Empire.

The Orion Empire will get involved in the affairs of other planets through contracts and their negotiations. Even if deception is part of techniques, they generally do not engage in the use of force to get involved in the affairs of others. The Draco types do not hesitate to use force if they so desire, if it is to their advantage, in taking control of a planet.

Orion Empire Controls Reptoids of Draco and the Grey Reticuli

This Awareness indicates that the Zeta Reticuli work generally under directions from the Draco Reptilians and the Draco Reptilians generally are controlled by the Orion politics and those from the Orion Empire. This Awareness indicates the Orion Empire controls the Draco Federation and the Grey Reticuli are more or less hired by the Reptilians for preparing things as advanced troops going ahead and making things ready for the Reptoids of Draco.

Giza Group Plans to Present Artifacts Buried Under the Pyramid and Claim to be Christ's Angels During the False Rapture

This Awareness indicates that there is another UFO alien piece of information that fits into the puzzle which this Awareness has not yet given, relating to the Giza Group. That the Giza Group had part of its planned scenario for the false rapture, had as part of its plan, a series of artifacts under the pyramid that would be brought out as Christian ornaments to be used for the false rapture, to give false credentials to the intruders who would claim to be Christ's angels.

The idea was to present these religious artifacts as proof that Jesus had returned to earth and that they were his representatives. These artifacts included a cross and other religious artifacts associated with Jesus and the Christian story. This was planned to be brought out and made public during the fake invasion warning which would also be seen as the time of rapture, wherein they would offer to rapture certain people, take them away and simultaneously uses these artifacts as proof of their being representatives of the Christian God, while simultaneously warning about the upcoming invasion of others.

This was to assist them in helping to take away voluntarily many of those on earth to other places; that Draco would have been one of the places that these entities might be raptured to. This Awareness indicates that fortunately, the Pleiadians have thrown a block into this plan by taking each of these of the Giza Group away and isolating them in different planets within the galaxy, each being separated from the other so as to make it very much more difficult for them to conspire together to have any great influence on earth during this coming decade.

This Awareness indicates that the questioner's inquiry has triggered a number of diversions; that the questioner essentially being from Vega for a cosmic purpose of alerting the masses to the presence of aliens on earth, to warn them, the masses, regarding these earthly aliens. This Awareness indicates that it appears this will become more of the entity's vocation in approximately 3 or 4 years. That the entity needs to be alert for the opportunity to begin working on his true mission.

This Awareness indicates that *It* does not imply that the entity is bound by this mission as an obligation. The Vegans send far more entities than necessary in hopes that a few will recall their true purpose and act to bring on the mission they have chosen. This Awareness indicates there is no cosmic stigma or even requirement that you must fulfill the mission. It was a voluntary action and you have the right to alter your purposes in this lifetime if you so desire.

This Awareness indicates this message being specifically to the questioner, Michael Beckley.

Will the Reptilians Locate the Giza Group?

FOLLOW-UP (AVATON):

Awareness has indicated the Reptilians are tracking or attempting to track the Giza Group entities. Does it look now, since they have been isolated in various places that these Reptilians will be able to find them and return them to earth?

COSMIC AWARENESS:

This Awareness indicates that this does not appear to be a likelihood during this decade and it appears that this will not occur for several decades, and by that time it will be too late for these entities to have any major effect in the present plans.

The Role of New Zealand and the Aliens

QUESTION:

Michael Beckley had one other question: "Can Awareness tell us a little bit more about the role of New Zealand in reference to the alien situation?"

COSMIC AWARENESS:

This Awareness indicates that New Zealand as a place wherein there are certain military bases that have underwater openings and these being of a secret nature. This Awareness indicates that there does appear to be some UFO contact and connections in regard to some area in New Zealand in which these bases operate. This Awareness indicates however, *It* does not see that the New Zealand area is a major alien base, but more of a military base which does allow for some alien contact to occur in the area.

This Awareness indicates that likewise, Australia has alien bases, these being underground. It appears there are two such bases. These are combined bases in which the aliens and the Americans are in agreement and use the bases. These are not as extensive as the Dulce, New Mexico base or even some of the lesser bases in the United States.

Should CAC Staff Find Haven in New Zealand?

FOLLOW-UP (AVATON):

Several times over the past few years, Vikki and I have discussed New Zealand as a possible place to go in case things really came down heavy and we were put out of business. Would Awareness recommend that particular island as being any better than perhaps staying somewhere in the United States?

COSMIC AWARENESS:

This Awareness indicates that it appears that New Zealand could be a beneficial haven. It appears that Australia could also have much to offer. This Awareness indicates there is also seen benefits in other areas. This Awareness indicates that whatever location it would be advisable to change your identification if you were seeking to avoid being caught, especially if for some reason your names were on a list for the work you have done with *Cosmic Awareness Communications*.

This Awareness indicates that depending on how intense things become may determine whether the messages that this Awareness has given through your organization will be cause for government harassment or abduction or imprisonment or execution. It is too early to know which way these things may go. This Awareness indicates however, that there were people in England prior to World War 2 who objected to British policies relating to the World War 2 developments and these entities were by certain English laws that were brought to bear, these entities were picked up, imprisoned without trial, and held until the war was over.

This Awareness indicates that if there is a sense of crisis such as a national emergency, these critical situations can lead entities in government to start making mass arrests as occurred with the Japanese during World War 2 in the United States, and entities could be arrested merely because of statements they had made in the past if martial law or national emergency is declared.

Do not be fooled into thinking your freedoms of speech and constitutional rights will protect you against such a potential if it is enacted. This Awareness indicates that *It* has attempted to keep questions and answers that might have military significance at a level which would not endanger those working at CAC, but that this has not been easy, and the urgency to inform the masses of the organization about potential events of the future has occasionally resulted in giving away information that might later be called "forbidden" information.

It is not forbidden at this time, but there are those forces that do not want the masses to know anything about their potential fate or about things that may be planned without their knowledge. This Awareness indicates that *It* has found it necessary to alert entities in regard to potential hazards and dangers in future events.

A Strong Force Exists in U.S. of a Dangerous Nature

This Awareness indicates that *It* has done so with some recognition as to the decency of your national leaders in the hopes that they will continue as decent individuals, which they appear to be, and will not become the totalitarian dictatorial types that emerged in Nazi Germany which clamped down on any freedom of speech and began arresting people for thinking and speaking out at times, and in regard to their political ambitions.

This Awareness indicates that *It* still sees a hopeful potential that these entities will continue to promote the ideals on which the United States was founded, in regard to the Bill Of Rights and Constitution, but *It* also sees there is a force within the country that is of a dangerous nature that has much the same face as that which arose in Germany in the 1930s, leading to the dictatorial expressions that led to the violation of the many masses of people in the country and in other areas nearby.

There is a strong Nazi movement in this country that goes under different names. The Neo-Nazis are but the most prominent looking of the group, but there are many who operate within the government itself, even in the White House, who are tied to Nazis or Nazi philoso-

phies. This Awareness indicates that even the World War 2 period had these entities in your country as stooges helping to finance the Nazi powers.

Germany, after World War 1 did not have the economy or the ability to develop an economy that could purchase the armaments or build the armaments that became the Nazi war machine, without the help of certain American individuals and others from other countries. This Awareness indicates that the history of who in America financed Hitler's war machine can be quite shocking to the masses.

Could Minority Races in US Be Taken Out?

FOLLOW-UP (AVATON):

It could never get so bad in this country as it did in Hitler's Germany, could it, as to try to take out entire minority races like Jews and Blacks?

COSMIC AWARENESS:

This Awareness indicates that it appears the intention will be to take out the patriots who support or cling to the Constitution and the concepts of democracy. This Awareness indicates that this will be the first target, if this totalitarian New World Order is implemented. The New World Order as planned by these Neo-Nazi types is likely to take on the law associated with that which is called Admiralty Law. It is much likened unto the Law of the Sea, or the Law of the Military, and the Constitution of New States is essentially a reflection in a more enhanced view of the Admiralty Laws.

Admiralty Laws Can be Called to Eliminate Rights

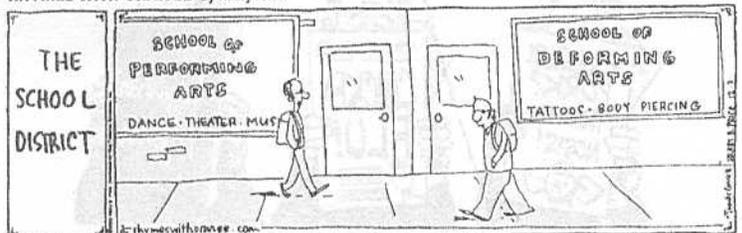

This Awareness indicates the Admiralty Laws are simply based on Executive Laws without legislature or vote or the use of constitutional principles or the Bill Of Rights. It is a system in which individuals are seen as but contributors to the total of society and if they are not contributing or if they are in any way causing problems in the society, then the Admiralty Laws can be called to eliminate their rights or freedoms, imprison them or exterminate them by whatever means.

This Awareness indicates that the entities would have no constitutional rights for redress because the Constitution would have been set aside. This nation is at the present time, even though it is not apparent to the masses, is being moved toward a kind of dictatorship, very much the way Nazi Germany was moved in the early 30s, and things are likely to become clearly marked by the dictatorial patterns quite sooner than entities could believe.

This Awareness indicates that it will come very quickly after the Crime Bill is passed. At that time, entities will realize they have already lost their constitutional guarantees and their Bill Of Rights. This Awareness indicates this is in reference to the Genrich Bill. This Awareness indicates that it is possible that the Genrich Bill will be watered down or neutralized enough so that this may not have the power that would create such a dictatorship, but it is not likely this will occur.

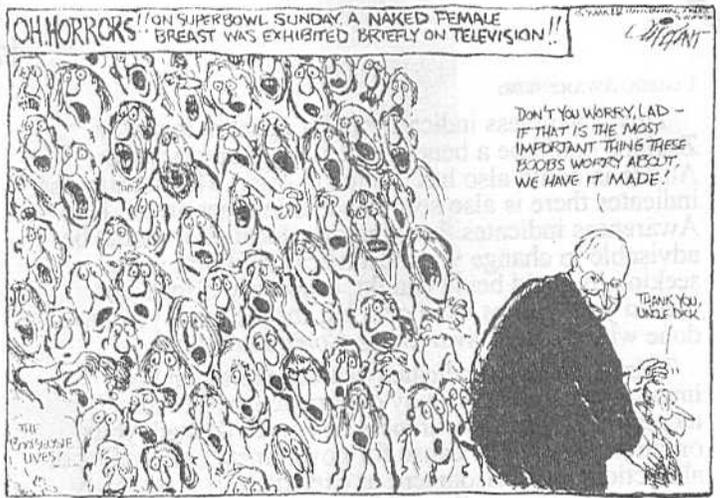

It is more likely that the Senators and Congresspeople will accept the Bill, very much as it has been written.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. JOHN LENNON'S AFTER-DEATH EXPERIENCE (How Psychic Channelers Connect With Departed Entities)

QUESTION:

We've received, a flyer from a publisher called Illuminations Arts, in Issaquah, Washington, that's asking us to stock a book called *Peace At Last*, the after-death experiences of John Lennon, as revealed through Jason Lee, "a book meant to impact the entire planet". It says: "*Peace At Last*, is Lennon's fascinating narrative of his adventure in other realms of experience. He has returned to share vital information concerning the dimensional shift now in process, within ourselves and the planet.

"There is to be Divine Intervention in the human experience", he says: "No longer shall mankind fear death". I'd like to ask Awareness, is this book *Peace At Last* an authentic account by John Lennon?

COSMIC AWARENESS:

This Awareness indicates that this is a kind of channeling of energy purported to be the entity John Lennon. This Awareness indicates that you must understand that an entity in channeling can tune into the vibrations and feel or sense from the vibrations certain information; the information is then interpreted by the one who is channeling or serving as a medium. It is not necessarily the words of the one emanating the vibration, it is more often the words of the one who is channeling, but the words of the channeler will be influenced by the vibration itself, therefore, in this sense, this can be thought of as messages emanating from the frequency of vibration that is perceived as the John Lennon energy or vibration frequencies.

tapping Into the Vibrations of a Tree and Getting Messages

This Awareness indicates that it is difficult for entities to understand the nature of frequencies and vibrations as carrying information. This Awareness indicates you can actually, for example, tune into the vibration of a tree, and from that vibration, if someone were to ask you how the tree feels, in regard to snow or to a storm, or to some experience the tree is now undergoing, the one who is attuned to the vibration of the tree can put into words certain information to express the tree's feelings in regard to the question that was asked, thus, one can say: "The tree feels the excitement of the storm", or "the tree feels the tension from the cold."

This Awareness indicates that the tree can even be interpreted as speaking for itself. The interpreter or medium or channeler can say: "I am the tree. I feel great warmth and joy from the sun touching my leaves, from the wind caressing and blowing my leaves, my branches", and the entity may be portraying in these

Wisdom of Awareness...

On Group Meditation

This Awareness indicates that groups of meditators can have their profound effect upon consciousness, and can, through meditation, even affect weather, violence, crime rate, and can have an effect on ending wars.

(Issue 78-39)

words, the feelings that he or she, as a channeler attuned to in their attunement to the frequency or vibration of the tree, and it can be considered as accurate. It can be considered as accurate enough that one can say: "Is this an authentic message from the tree?"

This Awareness indicates that yes, it is an authentic message from the tree, in so much as the interpreter, who is portraying the message is sensing the tree's vibrations, but does the tree actually speak English or whatever language is being spoken? In this sense it is not an authentic message from the tree, because the tree does not even speak, let alone speak English or use those particular words.

This Awareness indicates likewise, one can attune to the vibrational frequency of John Lennon and one can speak for John Lennon, and represent those frequencies, but just because the entity speaks the same language as John Lennon, does not mean that the words coming out are John Lennon's words. The entity is simply interpreting from the frequency experienced in tapping in to that energy of the John Lennon vibration, and the interpretation is that of the medium. This Awareness indicates this does not mean that the message does not reflect John Lennon's experiences. The message can indeed reflect his experiences, depending on how well the medium is able to tap and attune to the frequencies, just as the interpreter who attempts to read the vibrations of the tree may indeed be reflecting the experiences of the tree. It does not mean that the interpreter is putting words in the mouth of the tree or saying things that are not true. It means rather that the interpreter is portraying in his or her own best effort what he or she perceives as being the message received by those vibrations of the tree, or of John Lennon.

This Awareness indicates however, that the information in this book as that which can be quite enlightening to many entities, which can give much insight into things that lie beyond the senses. This Awareness suggests however, that you read this with an open mind, and not perceive it to be an absolute and unquestionable account of what happened to John Lennon, after his leaving of this plane. Rather, see it as an interesting account of the interpreter or medium as he perceives John Lennon's vibrations after they left this plane.

This Awareness indicates that this is in fact the best way to understand any type of channeling, even the messages from this Awareness. This Awareness suggests that you perceive this as being the Interpreter's interpretation of this Awareness and *It's* messages.

Channeling Jesus Christ or Ramtha

This Awareness indicates there are too many entities nowadays, who, in listening to channels who speak in behalf of someone else, hear the message not as an interpretation by the channeler, but look beyond the channeler to the alleged source. For example, the entity who claims to be channeling Jesus the Christ; if this entity says: "I am Jesus the Christ speaking through this entity", how many entities are going to look at the channeler and say: "This channeler is interpreting for Jesus the Christ, which is in fact the real situation, and how many are simply going to look and say: "Oh, Jesus the Christ is speaking!"?

This Awareness indicates it is best for entities to recognize that the channeler is interpreting in behalf of the being whom he claims or whom she claims she is channeling. This Awareness indicates the entity Ramtha, for example; is it truly Ramtha speaking?, or is it the interpreter speaking for Ramtha? Is the interpreter speaking in behalf of Ramtha? The fact is, the interpreters, the channelers are the ones who are speaking,

depending on how good they are at their job of channeling. They may be well attuned to the frequency or vibration of the being they claim to be channeling, but you must not forget that there is the interpreter between the source and the listener, and you must remember that the interpreter can alter or influence the message.

This Awareness suggests therefore, that you never forget there is an interpreter in-between, and ask yourself: Does this message ring true?, rather than simply saying: "Oh! He's channeling George Washington." Well, I've always wanted to hear what George Washington had to say about this and that! This Awareness suggests maybe it is and maybe it isn't George Washington. Don't assume, just because someone says they are speaking as George Washington or as Jesus the Christ or as Ramtha, or as Cosmic Awareness, that they truly are such beings, Listen to the message. See if it rings true. See if it is consistent. If it is consistent with the energies that you associate with that being, then perhaps it is a true reflection of the vibration of that being, or perhaps the channeler is a good enough perceiver that he can attune to the energies associated and convey a message that appears to represent that being.

When Three Channel Jesus and Get Different Messages

This Awareness indicates that there are too many channelers and too many entities who are adamant and certain that the messages that are coming through are truly from the being that they claim they are channeling. This Awareness indicates that in most instances, the channeler is simply attuning to the frequency at best, attuning to the vibration of the being. There are too many channelers who channel Jesus, or some other great being; Saint Germaine, or some galactic being, and yet, while they are busy channeling Jesus here, someone over there is channeling Jesus and giving a different message, and someone else may be channeling Jesus and getting still another message. How can Jesus be giving so many different messages which do not necessarily agree with each other?

This Awareness indicates it is the interpreter, attempting to attune to the frequency and vibration, for that is how you attune to a being, is through that being's frequency and vibration, and if you properly attune to that person, or entity's frequency and vibration, you may then receive information on a psychic level that is not necessarily carried in words, but may be interpreted into words. In some instances the words just come to the interpreter.

This Awareness indicates that all of these messages need to be listened to or read with an open mind, not simply accepted as being gospel because "this person said this was Jesus, he said he was Jesus! What am I to do? I'm not going to question Jesus." Why not? This Awareness asks: Why not? If an entity says this is Cosmic Awareness speaking through this Interpreter, ask yourself: Is it truly Cosmic Awareness? This Awareness indicates you may never know for sure, but you can look at the message and see if the message rings true for you, if the message has something of value for you. If there is something of value, does it matter whether it came from Cosmic Awareness, Jesus, or from Uncle Bill?

This Awareness indicates that Uncle Bill may have just as good a source of advice as does the entity who is claiming to channel Jesus or who is claiming to channel Cosmic Awareness. You may want to speak with Uncle Bill and find out if Uncle Bill can answer your question. If Uncle Bill can't answer your question, and the channeler who channels Jesus, or the channeler who channels Cosmic Awareness or John Lennon can answer

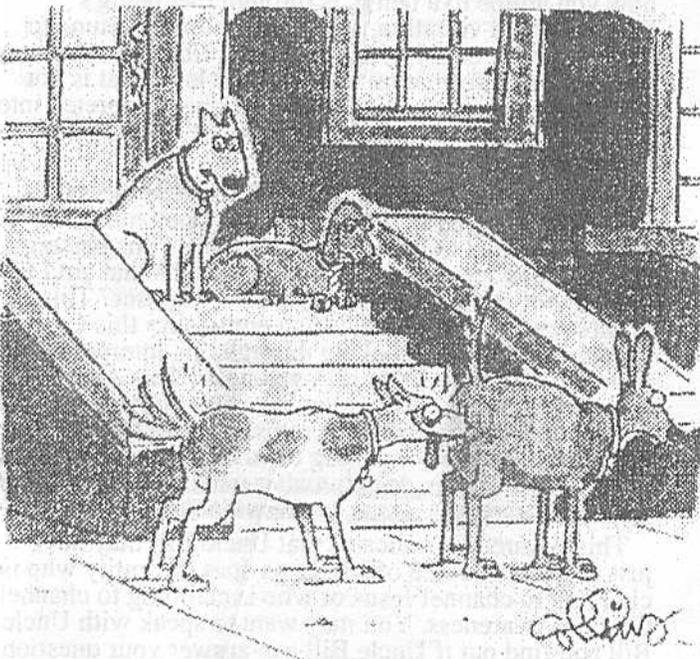

your question, then indeed, go to these sources, read the material, listen to them. If it answers your questions to your satisfaction, then indeed there is some value. It doesn't matter where it came from; if the answer is valuable, then indeed you have been fortunate.

This Awareness suggests you need not worry so much about the claim or name of the source, or presume that just because something claims to be from Ezra or Hesachiah or George Washington or Martin Luther, or Jesus, or Zarathustra, or Ramtha, that it is absolutely and positively valid. It may, or it may not be. The channeler needs to be observed. Has the channeler been consistent? Has the one who is channeling been accurate? Have the messages that have come through been accurate? To what degree has the accuracy been, for none is 100%. It cannot be that information can be channeled with 100% accuracy, for no two people will hear the same message, will hear the same information. Even though they listen to the same message, they will hear something different. If they're hearing something different, which one is hearing the accurate message and which one is not?

Likewise, if a channeler is listening to information that is being carried by vibration and frequency and the entity is interpreting it through his or her own form of interpretation, can that entity interpret 100% accurately? He is not even hearing words. He is not even hearing the voice of Jesus, or Cosmic Awareness. He is simply perceiving some kind of feeling, some kind of vibration that indicates information, and in the feeling of that, his own interpretive capacity puts it into words, puts it into thoughts, into concepts and images that can then be expressed so others can hear, can perceive, can understand these frequencies and vibrations.

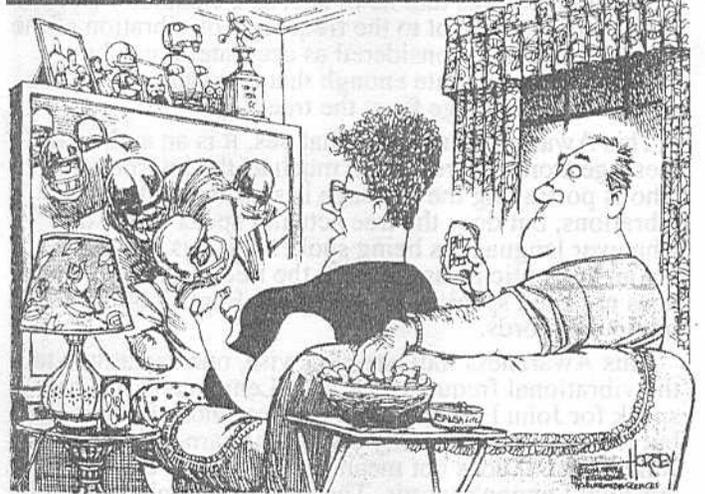

This Awareness indicates that the book as that which carries much valuable insight and information and can be quite helpful to many entities. Do not presume however, that it is a gospel account of John Lennon after he passed over. Read it as you would fiction, for you can learn much from fiction, even if it is just fiction.

Ed's Note: CAC does not stock the book *Peace At Last* but it is still available. If your local bookstore can't get it for you, go to Google on the Internet and type in "Peace at Last" by Jason Leen. There are numerous places listed where you can order this book.

Cosmic Laws of Cosmic Awareness...

THE LAW OF PROJECTION

The *Law of Projection* states that the film that projects, depicts, and creates the events of one's life story, is stored within one's consciousness, and can only be changed from within. The intimate conversations, attitudes, and the relationship one has within one's own consciousness is reflected in experience on the outer screen of life; one is both camera and projector of his life story.

Those who wish to see a world premier of new and joyous experiences instead of reruns, trash films, soap operas, tragedies, illness and hostilities, must refuse to bring or to allow such films, concepts or images to enter their theatres or be filed into their storage banks. Those who seek out, allow, or enjoy filming such trash do surely fill their cameras with the material that may eventually become part of their outward life. Those who allow only the highest, clearest and best thoughts, ideas, words, experiences and images to the highest, clearest and best thoughts, ideas, words, experiences and images to enter their studio shall create and project films that show a life of joy and art.
