CHURCHES AS A TOOL OF THE DARK FORCE: THE BIGGEST CONSPIRACY AND HOAX ON HUMANITY IN 2000 YEARS

How a Stagnant Religion Based on Spiritual Teachings Has Kept Humanity in Darkness

QUESTION:

A question from Albert Monette in Joshua Tree, California. I'll read his statement. His question is at the end of the statement. He writes:

"Conventional, or mainstream churches today are being used as a tool to keep humanity in ignorance and total darkness by the Illuminati, UFO, Dark Forces and Ahriman negative/evil forces. It may be intentional or non-intentional on the part of churches and the clergy.

My basis for the above contention is the fact that our churches and religious community today has kept humanity in total darkness and ignorance for 2000 years. Churches have *not* taught the members how to pray, how to meditate or how to seek the "Light" from within or higher form of Cosmic Consciousness. Except for the New Age Light Bearers, we do not know any more about God the Creative Force than we did 2000 years ago. We're worse off today than we ever were in the civilization of mankind! Thus far the church has not taught us how to attain Peace on this planet or how to foster and promote Love and harmony between ourselves, brothers and sisters in the body of Christ or the Light! The churches have been a total failure in their quest to show us how to attain Peace and Love and how to serve our God the Creator, rather than the God of religion.

Since the churches today have not guided us as to how to find the Light, then we must presume churches have been used to promote the Anti-Christ/Light. Anti-Light meaning ignorance or darkness!

Our society has made all sorts of scientific and technical advances but no spiritual advances, save for the few have been made. We're an unbalanced civilization and we're suffering from spiritual amnesia and malnutrition. We are spiritually retarded in other words!

What possible conclusion could there be other than that the churches have been a tool used by the dark forces or Illuminati to perpetuate the biggest conspiracy and hoax upon mankind for the last 2000 years on this planet? At present this is continuing with the UFO conspiracy!

How can we attain Peace and promote the preservation of all life forms on this planet while the churches enslave and keep in bondage most of the people in total ignorance and darkness? This is what they're doing with threats of fear and intimidation of Satan, hellfire and punishment from God in the form of plagues, natural disasters and the holy inspired word of God, the mythical book we call the Bible.

"Would Awareness confirm or deny this information which has been revealed to me through meditation, please?"

COSMIC AWARENESS:

This Awareness indicates that this entity in expressing so eloquently the nature and situation as regards the religion in its role in society, as being such as to portray clearly and accurately the condition of which too much has been presented for too long through these churches. This Awareness indicates that this is a natural result of the commercialization of spiritual teaching. It was not the spiritual teaching that was in error, but the commer-

cialization of the teaching as that which has resulted in a stagnant religion based on spiritual teaching.

This Awareness indicates that this however, is the normal approach or natural outcome of a religion on this plane, in which the earth plane is generally ruled by Dark Forces who will take the spiritual teaching of a Light Being and commercialize the teaching so as to further enslave the masses with the teaching rather than free them with the message of the teaching.

This Awareness indicates that the teaching as that which could have and *should* have helped to free the masses, had the message been clearly understood by the masses, but because of certain presentation and interpretation of the message, the masses have been held in strict confinement to the interpretation of the priests of the religion, thus, you have the promotion of the teacher as a focal point in the religion, and the messages being secondary, and rather than freeing individuals, they are controlled by the churches and the authorities who appoint each other and themselves to represent the religion, and in so doing, control the power over the masses as authorities over the message, and in this way, they dole out their interpretation of the message in such a way as to keep the entities under control.

Those Who Live By the Message and Not the Messenger

This Awareness indicates that an entity who lives by the message rather than the messenger can learn to think from the message, can learn to think more clearly and to understand more clearly and to discern more clearly what the message means, than if the entity is relying solely on some priest to interpret, for as the entity learns to use his or her own discernment, the chance of discovering truth as one matures is much greater than if one is simply relying on someone else to tell them the truth, particularly when that other person on whom they rely has a vested interest in keeping them subjugated.

Knowledge is Power and Ignorance is Weakness

This Awareness indicates that in the commercialization of a religion, the idea is to keep members subjugated to the leaders and to the religion, not allowing them to progress beyond the level that the priests or leaders can handle, for they do not want entities to gain greater awareness or control or knowledge than what they themselves have. This Awareness reminds you: knowledge is power, and ignorance is weakness, and therefore, by keeping entities ignorant and keeping knowledge to oneself, they manage to keep entities subjugated to their own power.

This Awareness indicates that of course there are degrees and levels of knowledge; for many entities the amount of information given by a religion, even a religion that is perceived as being stagnant, such as represented by the question, as that which for some entities would seem to be highly enlightening. There are many entities, who, in being exposed to the teachings of the churches, the organized religions, will find themselves being raised in their consciousness to great heights, of greater awareness, greater understanding than what they previously had known, and thus, for these entities, the religion has lifted them spiritually.

This Awareness indicates however, that for many, it would be a regression to go into certain levels of religion dogma. They would need to regress spiritually to let go of some of their enlightenment, to be satisfied with some of the spiritual dogma that is presented by the religions and this is impossible for some entities, thus, this Awareness is saying religion has its place. There are times when entities need to rise from certain levels of spiritual evolution and will reach up and find great

solace and comfort and enlightenment in the organized religion, even the dogma can be helpful.

This Awareness indicates however, there are also many entities who have progressed spiritually to such heights that the religious dogma presented by the churches seems crude and base to them. This Awareness indicates that for some, they need to move beyond those levels into greater and higher spiritual evolution. This Awareness indicates that it will depend largely on each individual's background and exposure as to whether the entity can grow from the religious teachings of a church or whether the entity would be hindered and held back.

Much Changed in Religions Since the Blood Sacrifices

This Awareness reminds you that the Christian religion as presented, has many different levels and can serve many in various stages of evolution if entities can perceive the different levels of meaning in the Christian religion, and that it was introduced at a time when mankind was not highly developed spiritually, had many superstitions, had many archaic ways, strange beliefs and philosophies associated with sacrifice, blood sacrifice, and the belief in the need for such to atone for errors, whereas in today's society, much has changed.

The need for blood sacrifice is no longer seen as the only approach to clearing or gaining in terms of spiritual benefits. This Awareness indicates that spiritual evolution can occur through many different forms today than was available during the early days of Christianity; that the idea of blood sacrifice then, and having a deity that substitutes for the blood sacrifice as that which was a new and profound concept; that today, entities aren't likely to be searching for a blood sacrifice because it is not instilled as a cultural need in order for one to advance spiritually.

To Some Christians Nothing is Spiritual Beyond Their Level of Understanding and Judge You Accordingly

This Awareness indicates in a sense, the Christian religion has served to bring humanity out of that blood sacrifice consciousness, so that entities no longer need to be tied to such concepts. It has also helped entities to move into other areas, other spiritual levels, and set other values as standards for spiritual-growth. This Awareness indicates however, that there are many entities yet who do not admit or accept the possibility that there can be anything spiritual that lies beyond their own level of understanding, and because their own level of understanding is locked on a certain-rung of the ladder of spiritual evolution, they perceive themselves and their interpretation of Christian doctrine as being the ultimate. With entities of this type, you may find yourself being judged, condemned, or in argument over your spiritual belief wherein they base all things on their own perception or own interpretation of Biblical terms and condemn you for even associating with concepts of New Age or anything different from their own belief system.

How To Help Open a Closed Mind: Questions To Ask Christian Fanatics

This Awareness indicates it is often pointless to debate with such entities if they are not open to listening to your views as well as expounding on their own. This Awareness suggests however, that one statement you may always find helpful is to ask them if they believe that they have the ultimate answer to all entities' spiritual needs with their own basic philosophy or religious viewpoint, and if, perchance, they say they do, you might then ask them if they think they will always feel and believe exactly as they do now, and if they perchance say they think they will and they do not perceive themselves ever changing their mind on their belief, you

might ask them: "Do you think that in the future this viewpoint of yours will *always* be the answer for all of humanity throughout all time, and throughout all eternity?, and if perchance they do not perceive any change in their own viewpoint and they see that they have the ultimate answer for everyone from here until throughout all of eternity?"

You might ask them if they also believe that answer would apply to all other, life on all other planets, in all other galaxies, in all other areas of the universe where life exists, and if perchance they agree that they think their own viewpoint as for a religious belief is the *only* answer for all entities throughout all of the universe, they might ask them also if this applies to various species of all types, or only to humans, and if they say only to humans, or perhaps they will say to all species of all kinds including insects and birds, but if they say to *only* humans, you might ask them if this also includes humanoid types from other planets who are offshoots of humans who might be somewhat different from us, and if they say that these too would benefit completely with the belief system that they promote, you might ask them if it would be of benefit to monkeys, apes and other primates.

Questions of This Nature Force the Entity to Think and Explore New Areas They Have Not thought About Before

This Awareness indicates that by continuing questions of this nature, you force them to think along lines of degrees and possibilities to explore new areas they have not thought about in terms of applying their own belief systems. You can also discuss with them whether or not the terms they use in their religion should all be the same in other languages for other people, or if it is alright to use different languages and different names in the different languages that mean the same thing, or whether the entities need to use the English names when speaking of the deity.

In other words, by forcing them to think into areas they have never thought about before, you are in fact forcing their mind open without them realizing that you are doing such, and without confronting them directly in causing them to feel that you are opposing them. You are simply presenting questions that they are having to think about, in new ways they have never yet before pursued in their minds, for most of these entities compartmentalize in their minds, little concepts here and there under labels, and terms and slogans and quotations and verses and passages, and that is sufficient; that little box of religious trinkets and ideas put away within their minds somewhere becomes their sole and complete religion. It becomes their security, their spiritual security.

It may be most simplistic; it may not be something they can apply universally, or even in international levels, for they may not be able to accept different languages or terminologies in different languages or the idea that Jesus' name or God's name might be pronounced differently in other languages or that others might spell them differently, or perceive them as having different physical characterization. It may be that these entities have not compartmentalized the religion in such a manner as to have flexibility that would benefit other philosophies or other religions in other countries.

Ask Them if They Believe God is Black or White

This Awareness indicates that you might ask them: Do you believe that God is white or black, or olive skinned or yellow, and why should we assume that God is the same color as we, just because it says that man was made in the image of God for there is such a variety of images. This Awareness indicates that by forcing entities

to answer these simple questions, it causes their compartmentalized religion, the little box of answers, to be pulled out and reexamined, looked at differently so that when it is stuffed back in again, it has undergone a slight change.

Now they will always wonder, even if they still perceive God to be shaped like a man, they must ask the question: Is he oriental, white, black, brown or some other color?, for they no longer can simply perceive a God that looks like them only, exclusively, and this much change is helpful. You have disturbed their comfort zone to lead them into reexamining their little compartment of religion that they have stuffed in the corner of their brain as *the answer*, when anyone wants to know what they think about life, religion or philosophy.

Their little trinket box of religion, stuffed away in their brain, meager as it is, is always absolute, unquestionable, in any conversation. They know the answer for everyone. This Awareness indicates that by asking these questions which they are happy to answer because they are sure they know everything, you are forcing them to look more carefully and to add new information or to search for more information to put into their little compartment of religious dogma.

Christians Can't be Comfortable With Unanswered Questions

This Awareness indicates that this will intrigue them to the point where they cannot let it go even after they have long left you. They will begin to think, because they cannot be comfortable with unanswered religious questions and if they cannot be comfortable, they will seek answers, and if they are seeking answers, they may either go to their priest or minister and ask these questions, or barring that, they may return to you for further discussion, at which time you simply open up more questions to cause them more frustration, to cause them to think even more deeply so that they are still even more-dissatisfied with their little compartment of answers.

In this way you can help entities to begin to search for truth rather than to simply assume they have the truth. This Awareness indicates that it is not necessary that you give them your version of the truth, or that you give this to them all at once. If they ask you for your opinion, then indeed, give it, but not to the degree that they are offended. Do not give them so much that they become frightened or afraid of you. Give them just enough to make them more intrigued and slightly disturbed.

This Awareness indicates that if you can explain to them in your own terminology in a way that parallels their philosophy but adds great depth to it, then indeed you have given them something to chew on for a while. When that has been digested they will come back for more. You do not need to force-feed them; particularly do not force-feed them more than they can accept.

This Awareness indicates if they are not open to hearing anything, or listening to your opinion on anything, then it is best simply to ask those questions that cause them to reexamine their own ideas.

Weather When the Sun Goes Retrograde?

QUESTION:

A question from Gary Foss... (barely audible due to tape foul) but basically a question about the effect of the sun going retrograde and affecting the weather and agriculture next year (1990). He read that it happened in 1817 and there was no summer that year and apparently

it also happened in the 1600s or twice in the last 400 years. There was also an increase in volcanic activity.

COSMIC AWARENESS:

This Awareness indicates that this terminology as that which is not clear. This Awareness indicates however that it does appear that there are certain cycles and changes that occur with regard to the sun in relation to the places of the planets; that as planets form certain aspects to the sun, they effect the sun spots or solar flares, and this has its effect on the earth's weather as well as on certain radio frequencies, communication frequencies and systems.

This Awareness indicates that there are varieties in regard to these magnetic and solar storms on the sun which cause energies to be emitted that bombard and affect the earth and other planets, and these in turn have certain effects in regard to the biological forms, life-forms on earth, on all levels, ranging from plant life to animal and human life. This Awareness indicates that there are seen varieties in regard to the cycles and different effects; that the cycles mentioned as that which is likely to have certain profound effects in regard to weather conditions that can also affect agriculture.

This Awareness indicates that this can be adverse to some areas and beneficial to others. It appears as that which will affect the weather patterns during that time in various countries.

Why No Summer in 1817?

(FOLLOW-UP):

In approximately 1817 there was no summer in that year, and he believes that in the 1990s a similar non-summer will come. Does Awareness see that?

COSMIC AWARENESS:

This Awareness indicates that this as that which is based on records of the time which were quite limited to certain areas; this in reference to the 1817 time period; that this was limited to certain areas. There were other areas where summer existed. This Awareness indicates that it did appear to be more of a cool period. It is seen as likely that similar cool periods for much of this earth will occur during the coming year, although there will be sufficient warming that entities will recognize it is a summer season.

There may be some areas which are cooler than normal. This Awareness does not foresee anything of great extreme or unusual nature during the coming year in this regard.

Rothschild Bankers Back in Germany

QUESTION:

He had another question. He writes: "The papers here in Germany recently noted the Rothschild banking interests were publicly reestablishing here after 80 years absence. I am not sure of any significance."

COSMIC AWARENESS:

This Awareness indicates that this as is related to a move by these financial institutions, to expand their influence into that area, to grow, help to assure that so long as the Rothschilds have a Strong influence in world affairs, that Germany will also remain as a favored nation for them. This Awareness indicates that this introduces an element into the country that will help to assure a strong financial growth and to assure that Germany remains a political ally with Great Britain and other Western countries who, which are also heavily influenced by the Rothschilds' financial institution.

This Awareness indicates that this also relates to the coming European economy in which barriers between nations begin to fade into a kind of United Europe.

Excerpt CAC Reading 4-10-7-89 Paul Shockley Interpreter

THE DEPLETION OF THE OZONE LAYER

(More on the Greenhouse Effect and the Rainforest)

OPENING MESSAGE:

This Awareness indicates that the recent storm Hugo, as that which is in part the result of the Greenhouse Effect, that global warming that has occurred especially during the past decade, because of the depletion of the ozone layer which essentially is the result of excessive removal of the rain forests. This as being a large contributor to the depletion of the ozone layer. This Awareness indicates that other contributions to this depletion being of course, various chemicals that are released in the atmosphere. This Awareness suggests that this storm as that which portends other future events of a similar nature; that entities can expect other storms of considerable magnitude until this condition has been alleviated, if indeed, it is.

This Awareness indicates that the situation is likely to become more hazardous before it improves.

The Canopy That Once Was Around the Earth (Was it the Reason People Lived Hundreds of Years?)

QUESTION:

A question from Larry Kell. "Is it true there used to be a dense canopy around the earth and did this canopy allow ancient people to live hundreds of years due to its ability to block penetration of harmful radiation? What happened to this atmosphere canopy if it did exist, and what did cause the several hundred year life-spans if that canopy didn't?"

COSMIC AWARENESS:

This Awareness indicates that indeed, this did at one time exist; that the ozone layer as having been much thicker than at present time. This Awareness indicates that the problems began with the impact of a gigantic meteor, that which fell in the area of New Mexico, which in turn created a kind of dust that penetrated the atmosphere, creating at first a colder atmosphere, blocking out some of the sun's rays, but then was followed by the reduction of the ozone layer, because of the damage the dust caused to vegetation as it settled upon the earth in various places, arid also because of the damage done to vegetation because of the cold period that followed from the dust in the atmosphere.

This Awareness indicates that essentially it assisted in leading to what may be termed an Ice Age and that this Ice Age creating a colder atmosphere, destroyed much of the vegetation and this in turn depleted much of the canopy or ozone layer that served as a protection against the sun's rays; that the global warming then did come to be, and the warming became considerable and in a kind of suddenness. This Awareness indicates that much of

"Cheryl, you are getting WAY too wrapped up in the dog."

the present condition is that which is also being triggered by the depletion of vegetation, but much of this depletion is due to man-made causes.

FOLLOW-UP (AVATON):

Was this canopy responsible for the long lives that entities lived in those olden days?

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative; that essentially the radiation from the sun as that which contributes heavily to the aging process. This Awareness indicates that were entities to be able to accept the benefits of the sun without receiving the heavy radiation that comes from these solar energies, they would live longer life-spans; that essentially the sun's greater damage from the ultraviolet and the ultrablue light penetrating the skin, as that which contributes heavily to the aging of the skin, but it also has an effect on the metabolism of the human body and in time begins to affect other energies of the human body in a synergistic manner so that gradually, the breakdown of the system occurs.

How Free Radicals Contribute to the Aging Process

This Awareness indicates that for example, many entities are not fully aware that free radicals are often the result of the increased heat from solar radiation as it penetrates and affects the body; that it is even in the air that entities' breathe during hot days and these free radicals contribute to the aging process and to many diseases associated with aging. This Awareness indicates that it is for this reason that entities are advised to use those products of an antioxidant value that assist in neutralizing or combating the free radicals that may be in their system, for this can add time, many years to their lives as these are used; that many foods can assist in this neutralizing of the free radicals, particularly those fresh vegetables and fruits.

"I hate it when they say, 'He gave his life for his country.'
Nobody gives their life for anything. We steal the lives of these kids.
We take it away from them. They don't die for honor and glory
Of the country. We kill them."

Admiral Gene LaRocque

IN CHURCH SHE DEALT WITH INVADING SPIRITS WHO POSSESSED ENTITIES

(All About Astral Shells and How They Operate)

5/7/94

QUESTION:

A question in the area we were discussing last night, from Dr. Marian B., Ottawa, KS. She writes: "Your recent newsletter in which you talked about the inability of people to endure the frequency of God or God-like beings reminded me of an experience I had one morning in church.

"I was singing in the choir as I have done most of my life and was bored with the sermon, as I often am, so to entertain myself I looked over the audience to find anyone who was possessed. When I found one, I called the invading spirit to me, and sat him on the rail in front of me.

"There are various ways in which you can explain and convince the spirit that he is dead and needs to move on into the wonder which the spirit world has to offer. I thought to myself this time that I would suggest to the spirit that he call on the name of the Lord, so addressing the spirit, I began "Call!"

"I had no sooner said the word when a large box-like form came down, enveloped the spirit, and he shot out through it and out in seconds. I have often since wondered if my surprise registered on my face. Needless to say, I have never tried that tack again.

"The only thing that I can conjecture was that the spirit followed my suggestions as he had everything else I had said to him. He would have found himself before the Lord and who knows what would have happened to him! I don't remember what "Lord" meant to me at the time, and certainly not what it meant to him."

"Do you have any explanations?" she asks.

COSMIC AWARENESS:

This Awareness indicates that those disincarnated spirits are essentially the astral shells of entities, wherein the essence of the entity, or the soul or spirit of the entity has moved on, leaving the emotional body to linger around on earth in its familiar places. This entity was such an astral shell and in your directing the entity, it simply followed your directions.

It is the focus, intent and intellect that follows with the energy you focus that effects the entity. The focus sends the energy and the intelligence accompanies the energy. The intelligence was sent from yourself through your intent. This Awareness indicates that it does not matter what words you used. It was the intention that counted, and the entity, being of an astral form without a strong will of its own, simply obeyed and followed the energies that you intended.

This Awareness indicates the entity did indeed return to its source, the soul from which it came and was dissolved and re-absorbed by the soul. The emotional and astral energies being dissolved allowed what intellect that was left of the astral shell to be re-absorbed by the soul from whence it came.

This Awareness indicates that in most cases, the astral shells that are cast off or which do not follow the soul in its movement at the time of passing over will linger on earth until the soul reincarnates, at which time, the astral shell is called back and goes again into the body of the soul, the new housing for the soul. The astral shell generally rejoins at that time. In this case it rejoins the soul early, prior to reincarnation.

How Egyptian Priests Controlled Astral Shells

This Awareness indicates when the soul moves on beyond reincarnation to another plane, another dimension or another planet, the astral shell may simply linger around for many years. This Awareness indicates that also, astral shells have been controlled by certain priests, such as occurred in ancient Egypt, wherein astral shells would be put in charge of guarding a secret site or a Pharaoh's tomb or something of this nature.

The Kahunas Used Astral Shells as Errand Boys

This Awareness indicates also, the reports given to Max Freedom Long by Kahunas indicated that certain entities allowed their astral shell to become used by Kahunas for their various purposes as errand boys. The astral shell might be used to run errands for the Kahuna to find certain things or to discover information or to track down a disincarnated spirit.

In this case, you did the astral shell a favor by detaching him from an entity in the church and freeing the astral shell to go on to find a higher purpose and action.

FOLLOW-UP (VIKKI):

The image sounds like an elevator to heaven.

COSMIC AWARENESS:

This image was that which allowed the intellect to see what it wanted to see.

FOLLOW-UP QUESTION:

How could she look over the audience and tell which ones were possessed?

COSMIC AWARENESS:

This Awareness indicates it was her intent to find such and the entity had a certain kind of sensitivity which is not that uncommon. She obviously was somewhat psychic. To label a person psychic is not exactly fair. It would be better to say the entity was more sensitive in her sight than most people.

The sight is capable of a wide range of vision. Some people's range of vision is more narrow. Others' range is more broad as described in the reading previous to this one. This entity apparently was more sensitive in her sight than most people.

QUESTION (VIKKI):

When an astral shell has been left behind and has various experience, when the soul comes back into physical manifestation, do the experiences the astral shell has had have any effect on the soul when they reunite?

COSMIC AWARENESS:

This Awareness indicates the astral shell may be recognized as that part of one's being which carries a portion of the memory from the previous lifetime. When it leaves the body in a particular lifetime, which we shall call lifetime #1 in this example, and the soul separates and goes on through its routine in the afterworld, and then returns to reincarnate, and the call goes out into consciousness for all of its cast-off parts to come back, the astral shell finds its way back to the reincarnated soul, and carries with it its memories and the memories that it brought from the previous lifetime.

These are then added to the experience of the soul as it reincarnates. This Awareness indicates that this is what helps many entities to have a strong and clear memory of certain areas, certain places that they have been in a previous lifetime. It also creates feelings of déjà vu when entering certain areas where the astral shell has been before, or where the entity in a previous lifetime was found and which left an impression on the astral shell.

Does the Soul Pick Up Astral Shell Memories?

FOLLOW-UP (VIKKI)

So, in a case where an astral shell, for instance, is used by a Kahuna to run errands, the soul coming back and reuniting with the astral shell, would it pick up any residue from what the astral shell was doing while it was gone?

COSMIC AWARENESS:

This Awareness indicates that there may be some memory on a subconscious level of certain things that happened in regard to the astral shell, but these would be generally witnessed by the reincarnated entity as but being imagination, or at worst, certain tendencies. The entity may have, for example, a tendency to do some mischievous actions which may have been part of the training from the Kahuna who misused the astral shell during the time between lives.

It is also similar to having certain aspects of oneself split in terms of allegiance, whereas the astral shell might have an allegiance to the Kahuna and the Kahuna's values and may have absorbed many of the values of the Kahuna, or whoever possessed the astral shell during the time between lives, and those values of its true owner.

This Awareness indicates when this occurs, it may be witnessed by others as a kind of schizophrenia, wherein the astral shell or the emotional aspect of the entity is not truly harmonious with the rest of the entity's psyche and emotional development.

THE BOOK: THE NATIONAL DIRECTORY OF HAUNTED PLACES

QUESTION:

We were sent a pitch for a new book called The National Directory of Haunted Places, by Dennis William Hauck. It's sort of an interesting sales pitch. I'd like to read a little of it, or most of it, because it brings up, a couple of questions. It says:

"Ever wonder what state is the most haunted? Virginia has more ghosts per capital, but California has the largest number of cases under investigation. How do I know? I took a quick tally in The National Directory of Haunted Places. This unusual guidebook chronicles over 2500 supernatural sites. Included are hotels, inns, theaters, restaurants, and other businesses, as well as houses, schools, churches, parks, and campgrounds. All are believed to be actual haunted places, where strange and unexplainable events have been reported. However, what makes this book spooky is that these are real places, with addresses, phone numbers, and travel directions.

A typical listing is for an old tavern in Ashland, Massachusetts:

John Stone's Inn: The sign over the entrance to this 162-year-old pub offers "Spirits, food and lodging," but it is not until you see Captain John Stone's picture staring down from over the bar, that you get a feeling for the kind of spirits about which they are talking. Daniel Webster gave speeches here, and there are secret rooms that served as hiding places for runaway slaves, but the inn's greatest claim to fame are the ghosts walking its halls. The apparition of a 10-year-old girl is often reported staring out a window in a storeroom near the kitchen, and an invisible intruder likes to put his hands around the necks of customers in the dining room. Near an ice machine in the cellar, several employees have felt an unseen presence tapping them on the shoulder or holding their hands under the ice when they try to fill buckets. Other manifestations include glasses flying across the dining room, cups falling off shelves

for no reason, and mysterious \$10 bills materializing in a tip jar. In 1984, investigators held two televised seances in an upstairs lounge in front of 150 witnesses. They claimed to have contacted the spirits of a little girl, a woman innkeeper, and yes, old Captain Stone himself. (In Middlesex County, take the Framingham exit off Hwy 90 and follow Hwy 135 for 5 miles west to Ashland. John Stone's Inn, 179 Main St., Ashland, MA, 01721. Phone: 508-881-1778).

The pitch concludes with: "From the ghosts of our Founding Fathers to extraterrestrial intelligences, Haunted Places has it all. Ever wonder if ghosts have emotions? Poltergeist cases suggest that some apparitions might be projections of our own emotions. Do ghosts keep their sexual preferences? Indeed they do. Look up the lesbian ghost in Carson City, Nevada, or the middle-aged man who haunts the showers at the YMCA in Cambridge, Massachusetts. Oh, and don't forget the spectral flasher who appears in the lobby of the inn at Sutter Creek, California."

(The National Directory of Haunted Places can be ordered directly from the publisher by calling 1-800-424-5078)

Should People Seek Out Haunted Places?

Now, my first question on this basically is: Should entities seek out such haunted places? I have heard some with emotional problems could get possessed or drag the spirit home with them.

COSMIC AWARENESS:

This Awareness indicates that entities who have a receptive psyche or who are easily suggestible; the type of person who can be hypnotized easily through suggestion, would be more vulnerable to possession by such spirits and it would not be advisable for such entities to put themselves deliberately in harm's way. This Awareness indicates also, parents with children who may be susceptible to this kind of energy would be wise not to take their children to such places.

An entity who is aware that if indeed ghosts do exist, he or she could still rid themselves of the ghost, should have no problem in attending or exploring such a place. This Awareness indicates of course not everybody believes in ghosts and would only go there to try to expose the whole thing or get entertainment from it.

This Awareness indicates that for those who are simply curiosity seekers, the experience could be entertaining or it could be such as to create a problem, depending on how they adjust to the situation and what the situation is. Some of these places would be more viable than others.

This Awareness indicates that some entities will go to certain of the places and see or feel nothing and will feel they have been wrongly informed or cheated, because they did not witness the ghost or the dish flying across the room, or even feel chills when the door opened. This Awareness indicates others may experience something and others may imagine experiencing something.

This Awareness indicates that some entities who may fancy themselves as explorers or researchers may take considerable time going from place to place and may find some evidence suggesting hauntings in such places. This Awareness indicates that the book is probably useless to most entities except as a curiosity factor and for those who live in a center where many of the named places exist, whereby they can, for a lark, or for entertainment or for curiosity, take their friends to some of the alleged haunted areas listed in the book, just for the fun of it.

This Awareness indicates that *It* does not see this book as being something to recommend to the member-

ship, for even if the membership had such a book, other than to serve as a conversation piece or something to lay on their coffee table at home, it does not see any great use for the book by most entities, who are likely to travel around to the various spots.

This Awareness indicates, however, it can be enjoyable and a fun thing to have, if you are so inclined to such unusual topics for purposes of conversation.

How the \$10 Bills Materialize

QUESTION:

This bit about mysterious ten-dollar bills materializing in a tip-jar in the John Stone's Inn. I've read of this sort of thing before. Do spirits create this money or do they teleport it from some place, a real ten dollar bill from somewhere else?

COSMIC AWARENESS:

This Awareness indicates that generally, such things occur when some individual slips a ten-dollar bill into the jar without being noticed and people wonder where it came from. This Awareness does not mean to say that teleportation is impossible or that spirits do not indulge in such activity, for these things *can* happen.

It is also possible for spirits to take ten dollars from an entity's wallet without the entity knowing it, and some of the teleportations occur in this way, but these are extremely rare.

Do Ghosts Keep Their Sexual Preference?

QUESTION:

Is there any truth to this bit that ghosts keep their sexual preferences? That there's lesbians and homosexuals, a lesbian in Carson City, and a homosexual who haunts the showers in the YMCA in Cambridge, Massachusetts?

COSMIC AWARENESS:

This Awareness indicates this appears to have substance and truth to the claims.

Shouldn't Astral Shells do Something Else?

QUESTION:

He even includes a spectral flasher who appears in the lobby of the inn at Sutter Creek, California. You'd think that astral shells would have something more important to do than that!

COSMIC AWARENESS:

This Awareness asks the question: What is important to astral shells in your opinion?

QUESTIONER:

Well, I would think they would be concentrating on getting out of their situation.

COSMIC AWARENESS:

This Awareness reminds you that astral shells have the mentality of a 5 year-old, and that as long as they are not uncomfortable, they are quite often simply trying to get attention.

IS ALL MEMORY LOST AT DEATH?

(More on Ron Rummel (Creston) Transition)

QUESTION:

A question from A.H., Texas Creek, Colorado, who requests that if this is printed, to list him as "Oriceco" from Colorado, for some reason. He writes: "In the discussion about Ron Rummel, Creston, explained by Cosmic Awareness in the 94-1 issue, please explain the "loss of memory" in going to the Light at death. If all memory is lost in the death process, then what is the value of living the human experience? And where does the memory go?"

COSMIC AWARENESS:

This Awareness indicates it is not so much a loss of memory in the sense of losing everything one has learned because one can function at the age of 84 without having to tap into the memories and details of his or her childhood every time he awakens in the morning. The entity's memory has created a kind of synthesis from all that has been learned in the past to allow the person to be who they are in the present.

Thus, when an entity completes a lifetime, they carry that synthesized learning into their further experiences, without necessarily carrying all of the memory into that future expression. This Awareness indicates that also, this Awareness explained in a reading just yesterday about the astral shell retaining memories and carrying these memories to the body when the soul returns after having passed over, so that the memories of a previous lifetime are often re-inserted into the body with the new soul in its new incarnation through the astral shell.

This Awareness indicates that in general, what entities learn is discarded when they move into the White Light after they have experienced all that they are to reflect upon and go on into new adventures and experiences. If one were to carry all of his or her memories from one life into the other, in complete detail, an entity would eventually build up extreme amounts of guilt and could have extreme low self-image if the previous lifetimes were not something to be proud of.

Therefore, most of the details of the past-life memories are stripped from the brain so that the details are not there, even though the intellect in the cells still carries the energies and intelligence that has been gained from the life experience. In other words, you don't totally forget all of the things that are learned, but it is put into a form whereby you instinctively carry energy and learning from one life to another without necessarily recalling the details of how you learned that information.

This Awareness indicates you can, of course, by focusing with great concentration, tap into details of previous life experiences, but this kind of concentration is not common for entities.

Most entities will simply leave one lifetime of experience, block out that lifetime memory and go on to start again with a clean slate.

Ron Rummel's Astral Shell Moved Along With Him

This Awareness indicates in the case of Ron Rummel, at his passing over, the astral shell moved with him, carrying many of his personal memories with him, because he went not toward the White Light, but toward a ship from his home planet, and met with those associates from his home planet in a different parallel dimension to this earth plane.

This Awareness indicates that the entity will eventually wish to move toward the White Light and may find in his new life experience that he is compelled to meditate more on the White Light, and in this way, may burn off many of the memories of this previous life and gain a new cleansing while living his next experience. In other words, his transition has not yet completed.

This Awareness indicates that much of the information the entity was able to give to his colleagues from Vega has been able to contribute to some of the things that have been happening on earth in regard to the potential changes and in regard to attitudes of the Galactic Command that may allow for them to directly interfere into human affairs without feeling they are violating some cosmic code or laws.

Did the Vegans Give Ron a Physical Form?

FOLLOW-UP QUESTION:

Assuming the Vegans have some kind of physical form, since they use a space ship, and Ron left his physical body, but yet could communicate and be with these entities, did they give Ron some sort of physical vehicle to occupy or can the Vegans relate to spirits in that vibration?

COSMIC AWARENESS:

This Awareness indicates that the frequencies which the Vegans used to enter into the dimension parallel to this are the same frequencies that Ron entered into when passing over, so that he perceived himself not to have actually lost his physical body, but to have simply shifted into a different body with a different frequency in a different dimension.

He does not see that he ever died. He simply sees that he made a change, and now is with old-time friends from his home planet.

FOLLOW-UP QUESTION:

Does Awareness see how long Ron will be on that planet before he reincarnates again?

COSMIC AWARENESS:

This Awareness indicates the entity is not required and may not desire to return to the physical earth plane; it is not his home, and he often expressed that he would not return to the earth plane again. The entity most likely will remain on the Vegan plane for quite a long period of time while recuperating from all that he endured as unpleasantness on the earth plane. It would be unlikely for the entity to return for at least 30 to 50 of your earth years at the minimum.

Only then would he consider returning, if it had something to do with attachments that he felt were incomplete, or karma that he felt was still *unpaid* on earth. The entity might, for example, feel a karmic desire or personal desire to return to help his son who is also a Vegan, by origin, and who may in time, be seen as needing some kind of further encouragement or help from his father, and if, in such a situation, Ron chose to return to help his son, that would be a reasonable action or motive for such a return.

Otherwise, the entity saw very little reason to be attached to the earth plane with all that he saw as happening to it. This Awareness indicates he was, however, very concerned about people on earth, recognizing that they did not understand what the dangers were that faced them, and the entity did have an option several years before to return to Vega, and turned it down. Therefore, he may have more of an attachment to the earth plane than he realized and that is why this Awareness suggests that a minimum of 30 to 50 years is not unreasonable a time for the entity to reconsider returning to the earth plane.

This Awareness indicates that if the earth plane improves considerably, his time may be even less than that.

FOLLOW-UP QUESTION:

Assuming his son moves in to the next density Awareness has discussed will come in the next 18 years, would it be necessary then for Ron to reincarnate? Wouldn't he be able to visit that plane without doing so?

COSMIC AWARENESS:

This is in the affirmative. That this will be closer to the plane in which Ron and he could communicate more frequently. It may even merge into that plane. This Awareness indicates that at this time, the son often visits his father in dreams, and remembers portions of the dreams. But the son does not put emphasis or concern on what communications are occurring. He simply

enjoys having dreams in which his father is there, and he seems to recognize that it is his father's way of communicating with him.

A Discrepancy in Reincarnation Theory?

(Dr. Wickland's Book "Thirty Years Among the Dead" is Discussed)

QUESTION:

A question from James Deuschendorf, Maple Heights, Ohio. "Thirty Years Among The Dead by Dr. Karl Wickland is a most unusual and wonderful book written in the early 1900's. It's filled with case counts of conversations between Dr. Wickland and disembodied spirits talking through the good doctor's psychic wife. According to the book, most or all people who are mentally ill are actually obsessed with one or more disembodied spirits trapped in their aura.

"The doctor would zap such a patient with an electric shock, removing the spirit, and a mercy band of higher spirits would place it in Mrs. Wickland's body. The doctor then would try to explain to the spirit its condition and persuade it to go to a higher plane through understanding the natural laws of life.

At one time a Madam Blavatsky came to speak through the doctor's wife, explaining she had been wrong in teaching reincarnation in her earth life. He stated that she had become so psychic, she was picking up lives of disembodied spirits and thought they were her own past lives."

And his question is: "Could Awareness explain this discrepancy in the reality of reincarnation?"

COSMIC AWARENESS:

This Awareness indicates that the entity speaking through his wife was erroneous and was not even Madam Blavatsky. The entity was a person who had strong Christian indoctrination and did not believe in reincarnation. This Awareness indicates that even had Blavatsky said such a statement, it would not deny the fact of reincarnation which can be evidenced by far more powerful forms of proof than a spirit of Madam Blavatsky speaking through the good doctor's wife.

References to Reincarnation Were Removed from Bible

This Awareness indicates the testaments in Biblical findings wherein reincarnation was taken out by the work of Constantine wherein certain passages were left to indicate even Jesus himself referring to reincarnation, as has been discussed in previous readings, and findings from different psychologists and writers today to indicate people who have memories of previous lives and whereby these memories were accurate in describing places where a child had never been during a present lifetime and describing people whom he had known in a previous lifetime that were still present in that area described, all of these things are far greater evidence to the fact of reincarnation than Madam Blavatsky's alleged denial of her own teaching.

This Awareness indicates it does not show a discrepancy in the concept of reincarnation. It simply shows that there is a discrepancy in the claim of the spirit speaking through the good doctor's wife, and that of Madam Blavatsky in her writings.

Why isn't More Research Being Done about Spirit Possession?

(A Way to Close Down the Mental Institutions)

QUESTION:

In reference to this book Thirty Years Among The Dead, by Dr. Wickland; I've read this book, and it seemed to me it made a lot of sense and was a valid way to deal with many of these disturbed people who are locked up in mental institutions, and I was wondering why more research along this line has not taken place, and if indeed they went into this area, they could probably empty out most of the mental institutions in the country. Is that correct?

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that your question as to why they do not research this area better, you should also ask: What reputable psychologist or psychiatrist would indicate that he is beginning such a project of working with the dead who are inhabiting the bodies of these disturbed patients, and do they really want to do away with the mental institute industry?

Would it be advisable for psychiatrists and psychologists to rid themselves of so many patients who help pay their salaries and fees by curing these patients? This Awareness indicates it is likened unto the doctor on the news yesterday who admitted to the investigators that of course she gave antibiotics, even to people who had viral diseases, knowing that the antibiotics would have no effects on the viral disease, but the people wanted antibiotics and expected her to provide them for them, and if she didn't do it, she would simply go elsewhere and she had a business to run, and needed customers.

WHO WAS ALICE BAILEY'S KOOT HOOMI?

(Who In Fact, or What In Fact are "Ascended Masters?")

QUESTION:

A question from JD in New York. She persists on asking about this subject. Awareness has addressed it before and I have sent her personal copies of the response, but evidently she has more, based on the response. She writes: "In her unfinished autobiography, Alice Bailey tells how on June 30th, 1895, when she was 15, she was alone in a drawing room reading when in walked "a tall man dressed in European clothes with a turban on his head," quite unknown in the household, who spoke to her about preparation for "doing her master work" and then exited.

A number of years later, she saw, a picture of Master Koot Hoomi in the shrine room of the Theosophical Society and recognized him as the man who had visited her. Evidently, this "entity" and others like him whom Cosmic Awareness has described as "symbolic of... frequencies rather than actual entities,"-- this energy was in the habit of assuming a physical form seen identifiably by multiple entities, one of whom had made the picture which Alice Bailey saw.

Her first question: "Is this a normal activity of these energies? And is this what has been called the Mayavirupa? Evidently, enough esotericists have seen these apparent beings, that there is general agreement as to their appearance, and vivid pictures (paintings) of them have been produced."

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. That these vibratory beings can appear to certain entities who are already versed in their appearance and look as they would expect them to appear. This Awareness indicates that it is likened unto the discovery some

years back that in the Western world when entities experience a near death experience, they often describe having seen Jesus greet them or meet them at the passing over.

They returned with stories of having seen Jesus and they describe him much the way the pictures of him are depicted, whereas in India and other Eastern countries entities who experience the passing over will see Buddha or Krishna or some other deity of their religion who greets them and who appears as they are expected to appear according to pictures or drawings that have been popularized to show them.

This Awareness indicates the same may be said for the people who follow the works of Alice Bailey and the spiritual hierarchy and the drawings that have been given to depict these entities. This Awareness indicates that this Awareness has indicated these entities as being more representative of a vibratory frequency on a grid of spiritual hierarchy, rather than as personalities.

This Awareness indicates that even the entity Jesus is more of a frequency than an actual personality. This Awareness indicates that for those who see the personality and who want to see the personality, this may be quite comforting to them. This Awareness simply wishes entities to understand that all entities are, in reality, energies, and the energies carry certain information unique to that particular energy, and if it is personified and entities can use the symbolic personification to make the attunement to the energy of that particular electromagnetic spiritual grid mark or station on the hierarchy of the frequency ladder, then that is perfectly all right.

Don't Find Yourself Begging and Groveling to the Spiritual Hierarchy

This Awareness wishes entities not to become too caught up in personalities and to forget that it has to do with frequencies, for the frequencies are those areas which entities can travel on, and in traveling on frequencies you can learn to raise your frequency to reach a higher station. Otherwise you will see yourself as begging and groveling to the spiritual hierarchy to lift yourself up to the next level, or conducting yourself in a similar manner of simply staying where you are and worshipping these symbolic personalities, without moving at all, assuming that they will handle everything in your world for you.

This Awareness does not wish entities to become passive in their spiritual growth, but to become participants in their movement toward higher spiritual evolution.

This Awareness indicates if you witness a spiritual hierarchy being and you sense that this entity is vibrating at a higher level than you yourself are vibrating at, then attune yourself to his or her frequency and resonate with the entity until you become comfortable on that level, on that frequency rate; then you can work to make that your frequency rate also, and as it becomes more common to you, then you may look for still another entity on that higher frequency rate, to leap into as a new frequency to accustom yourself and train yourself to vibrate with.

This Awareness indicates, for example, when and if you see a vision of the entity Jesus, move into mutual vibration with that entity, feel yourself with the Jesus energies surrounding you and receive those energies as your own. This Awareness indicates that this can be very enlightening and helpful for entities in raising their frequency and vibration.

There is only one thing this Awareness would warn about in such action, and that is: Don't become egotisti-

cal and start making claims that *you* are now Jesus because you; have experienced his vibration and frequency, for you are simply then taking on an ego trip and it could very well turn into more of a Luciferian experience than a Jesus trip.

Self-Glorification is of a Very Low Spiritual Nature

This Awareness indicates that you cannot claim glory for yourself while still vibrating in a high spiritual frequency and at the same time maintain that high spiritual frequency, for the very fact of claiming glory for yourself will bring you down to lower frequencies for the self-glorification is not of a high spiritual nature. It is of a very low spiritual level.

The vibrations involved in self-glorification are those that reside quite low on the spiritual ladder. This Awareness indicates that through surrender to the highest, not through claims of being the highest, one can climb the spiritual ladder. You surrender to those higher frequencies and allow those higher frequencies to take you over.

This Awareness indicates that as the higher frequencies take you over, you work with them, you serve them. You become part of their army of frequencies, part of the energy which they create. You do not make personal claims of great glory for yourself. You do not claim to be God, just because you attune to God and become one with God. For the very act of attributing Godness to your personal self denies the nature of Godness within you.

It is that self-glorification all over again. The ego seeks self-glorification, but the ego is also that which must be crucified before you can ascend and resurrect as a true spiritual being.

This Awareness indicates therefore, the ego-death cannot become a measure by which you glorify yourself. You cannot claim self-glorification because you have had an ego-death and are now resurrected to brag about or take credit for or to make glorified claims that you have overcome all sin, you have become the Divine et cetera; all of these actions are part of the ego rebuilding itself anew on a different level.

There are many entities who attempt this and in the doing, often they simply resurrect a greater ego than the one before. They become reflections of Divinity, but not Divinity, and the reflections may often be that of self-glory, much as the Luciferian energies which made the same mistake.

That Initiation That Leads to "Mastery"

QUESTIONER:

In a footnote to her question, JD explains: "When I asked who or what these "masters" are, I was referring to the Koot Hoomi teachings in the Alice Bailey books, wherein they evidently depict themselves as men who are more advanced than most along the spiritual evolutionary path, who have achieved the 5 initiations which lead to mastery, and indicate that eventually we, (i.e., our souls?) shall follow in their steps.

For example, the recorded Master Jesus is quoted as saying, "As I am, so shall you all eventually become," as an example of this teaching."

COSMIC AWARENESS:

This Awareness indicates the question be asked in regard to this statement.

QUESTIONER:

The question was: That these entities who have achieved the 5 initiations which lead to mastery, seems to be important to her, and could Awareness discuss that briefly?

COSMIC AWARENESS:

This Awareness indicates that there is so much involved in the religious/ spiritual field that is based strictly on fiction and artificial creation, that it is very difficult to talk about such things from a level of reality because so much of it is creation from entities' own consciousness which has been handed down from one person to another as fact.

Spiritual Hierarchy Like Jesus is a Myth and Composite

This Awareness indicates that the very action, for example, of describing Jesus as an historical person is filled with conflicts and discrepancies for there are entities who have existed who have left certain stories or certain aspects of themselves which have been brought into and used in the composite story of Jesus, and there are historical evidences of entities who claim to have special insight or special discoveries, evidencing the reality of Jesus, but there is also a considerable amount of evidence that the story of Jesus was a composite from very many other ancient manuscripts brought together to form a story that allows the story to fit into the historic background of Judaism and the middle East, where the story of Jesus is alleged to have occurred.

This Awareness indicates that it is the same with many of these other entities in the so-called spiritual hierarchy; that they are creations from mythological stories and are built upon by further energizing of the stories so that gradually over a period of time, collections of more and more attributes are placed upon the entities until they have an historical quality.

This Awareness indicates that if someone argues that these entities are not real; that they were created out of the mind of some channel, they are then seen as detractors from the truth for there are so many entities who believe the mythological characters are real that to deny their reality is almost the same as heresy was in the early Christian era.

Spiritual Hierarchy Similar to "Conjuring Up Phillip"

This Awareness indicates that also, it becomes very difficult to say they are not real, because when any energy gets energized as much as these entities have been energized, they begin to take on a quality of reality. It is likened unto the conjuring up Philip scenario. As entities give more and more energy to the myth as a reality, the characters in the myth are also in entities' minds with such vividness that they can see their face on occasion or witness their body on occasion and the entities appear to them in the same way that the ghost of Philip might appear to the group that conjured him out of their imagination.

Quantum Physics: The Observer Creates the Observed

This Awareness indicates it is very difficult for this Awareness to answer questions about things that are created out of consciousness and given historical properties, for to fully understand this, entities have to understand quantum physics. They have to understand how the observer helps to create that which is observed, and entities are still in third dimensional consciousness most of the time and see everything as Newtonian physics, wherein everything has substance that relates to the five senses, and it is either real or it is unreal.

This Awareness indicates the unreal can be made real, given enough energy. This Awareness simply did not wish to energize the spiritual hierarchy as being something that exists as a reality which entities need to discover. It exists, true, but it exists as a creation that is still in formation. It is still forming.

This Awareness indicates, however, if entities wish to energize this, to make it more real, this can be done, but this Awareness suggests that it is not as critical to

energize a spiritual hierarchy as it is for entities to understand how they themselves can affect their world through understanding the reality that lies in the invisible world of energy and intellect.

This Awareness indicates there is a bookmark that states something to the effect that whoever can see the invisible can create anything and do anything. This Awareness indicates that this refers to the realm of the invisible world that lies between the atoms, between the substances known as vibrations, which is inhabited by intellect and energy, and when entities can enter in to the intellect and energy world of the invisible, and let the three dimensional world be seen as the creation, the artistry that comes from that intellect and energy world of the invisible realm, they then can create any world of their choice along with the works of others with whom they can join in an action of creating.

The creation of these entities, when working together, can be that which is harmonious and beneficial for all, or if they work at odds with each other, it can be chaotic and confusing to all.

This Awareness does not see the spiritual hierarchy as being a truly potent force at this time, worthy of great amounts of attention, because the spiritual hierarchy has not yet been fully developed or developed in such a way as to truly benefit humanity. It is more likened unto a creation that is coming into being, and may be energized if entities truly want that kind of force or hierarchy system.

Spiritual Hierarchy is Like the Catholic Religion

This Awareness sees hierarchy systems not so much as being of great value when entities can have direct relation with Divinity since it is everywhere present and entities can be educated to tap into that Divinity that lies within them and beside them. This Awareness indicates the spiritual hierarchy is more compatible with the Catholic religion which creates a kind of hierarchy of spiritual beings so that each individual sees him or herself as being lower spiritually than the priest and the priest has his superior officers which in turn are subjugated to others, and all lead up to the Pope which is then the spokesperson for God.

The Protestants, in rebelling, saw the importance of having direct communication with God. Perhaps this is seen by the Catholics as being very vain of Protestants, but this was part of the difference between the groups: that entities could have direct relations with God. This Awareness indicates that they did not see a need for a spiritual hierarchy, and many Protestants find it easier to have a complete and direct relation with the Divine without having to go through a spiritual hierarchy.

If it is more comfortable for entities to go through a spiritual hierarchy, that is also acceptable. This Awareness indicates that *It* does not wish to deny anyone his or her path toward the Divine, and suggests that whatever is most comfortable for the entity should be that which is used by the entity.

The Spiritual Hierarchy Holds Many Back in their Development

This Awareness in some ways has been critical of the spiritual hierarchy, seeing many of these stepping stone or ladder-like hierarchy systems holding entities back, making their progress more difficult and slow as they attempted to move up the ladder, but kept running into spiritual roadblocks imposed by some divine energy field that claimed to be of great significance, but which in fact was stopping the movement to higher frequency levels by the seeker.

This Awareness indicates that *It* wishes entities to understand that Divinity inhabits the space beside you

and within you. All you have to do is open the door and surrender. You do not have to climb an eternal ladder to heaven or build a tower to heaven. This Awareness indicates that it only requires yourself to surrender to the Divine that is everywhere present, awaiting your surrender.

Spiritual Hierarchy System a Waste of Time and Money

This Awareness sees that this fact of surrender to the Divine which is everywhere present implies that climbing a tower or building a tower to heaven through a spiritual hierarchy system is really a waste of time, energy and effort, and it is a way of keeping entities under control and keeping them down so that they do not really find what they are seeking, and in many cases, these efforts of the spiritual hierarchy simply are used to extract money over long periods of time with the promise of some kind of special sacred information eventually being made available to the entity piecemeal, as they devote more and more of their time and energy to the spiritual hierarchy, to climbing the ladder, to building the tower.

This is why this Awareness does not energize the spiritual hierarchy. *It* sees it as a hindrance to spiritual development rather than as a way to spiritual development, for *It* sees the quickest and shortest way as that which is in the surrender of self to the Divine that is everywhere present.

FOLLOW-UP QUESTION:

Then I assume these so-called 5 initiations which lead to mastery that this hierarchy evidently puts out would be included in Awareness' statement that this is more of a hindrance to spiritual development than otherwise?

COSMIC AWARENESS:

This Awareness indicates that these are seen as stepping stones for entities to measure themselves by, with the implication and promise that when they get to the 5th initiation they will be something better than they were when they started. This Awareness indicates it is likened unto saying that you can take the first 5 years of grade-school, and after you have passed the 5th grade you will be more intelligent than you were in the 1st grade.

True Mastery Does Not Come in the Intellect

This Awareness indicates that this is understandable and entities can say "Yes that's true!" therefore, it must be true also in the spiritual sense. This Awareness indicates, however, that you are speaking in terms of rational behavior in moving through one grade after another, building on a rational creation. You are building the intellect for a structured reality in your efforts in school, and you may accumulate great amounts of spiritual information in your 5 steps toward mastery, but this Awareness indicates true mastery does not come in the intellect.

True mastery comes in the attunement to the Divine. From the time you are attuned, you may find yourself being led into studying the 5 steps or into studying some other bits of information to help you express yourself to different types of people or through different types of systems so that your attunement can be better explained to others who want to know what they too can do, or so you can talk to them on your level of understanding, but it is not those levels of understanding that make the entity the spiritual person that he can be.

It still requires that they totally surrender self to Divinity and that is the bottom line on all levels of spiritual growth: You surrender self to Divinity. This Awareness indicates that once you have surrendered self to Divinity, *It* does not care whether you study all of the Rosicrucian teachings or all of the religious teachings in

the world; you are still all right, no matter whether you study one religion as opposed to another and can't make up your mind which of the religions is right. As long as you have surrendered self to the Divine, you are all right.

All of those other things simply have to do with the rational mind and some kind of programming that is being brought in to the rational mind for it to dwell upon and think about and argue over. There are those who might have a plan for 5 steps of initiation. There are others who may have twelve. And someone else may have 7. It doesn't matter. All of these things can be argued and discussed. It is all for the glory and enjoyment of the brain, but for the soul, the true action that needs to occur in order for it to be totally absorbed in a spiritual sense is for it to be surrendered to the Divine.

Luxor: That Pyramid Hotel in Las Vegas

QUESTION:

One last question, from Debilyn Gardner from New York City. She writes: "A pyramid shaped hotel and casino has been built in Las Vegas named Luxor. There are records of accidents, headaches and difficulty in sleeping. Would you expound on the human effects on those experiencing this phenomenon and anything else we should know about this?"

"Also since we know that the original pyramids were built mathematically within our grid system, does this new Las Vegas pyramid effect our grid system?"

COSMIC AWARENESS:

This Awareness indicates that this is also known as the New Grand Hotel, as that which is enormous in size, having approximately 1,500 rooms, or something to that effect.* That this is enormous in size, and it is pyramid-shaped, and the energies of the shape can have an effect on different points in the hotel to cause negatively or positively charged ions and in some cases, when the ions are positively charged, it could create headaches.

*Paul has confused Luxor with the MGM Grand across the street, which indeed has 1500 rooms .Ed..

The ions are created by the geometrical shape of the building itself. That certain of these ions can be extremely healthy when negatively charged, for example, but others that are oppositely charged with positive ions can create heavy tension and influence blood pressure to be extra high and could cause headaches.

This Awareness indicates that in so far as the hotel affecting the grid-lines, this does appear to have some effect in creating lines of energy, but it appears to be only effective within a ten-mile radius, or approximately 10 to 15 mile radius. It does not appear to affect the entire earth, and therefore, this Awareness does not see it as having a serious effect on the other grid-line patterns of the earth.

These local effects are due to the geometrical angles of the building and the ionization that flows from such geometry.

Still Much to be Released to the Masses

(Once Entities are Free of the Tree of Knowledge)

CLOSING MESSAGE:

This Awareness indicates that there are still very many things that need to be released to the masses on earth. So much of what they have been taught, based on the belief in the 5 senses is still hypnotizing humanity. When indeed the full truth comes out and entities are freed from the bondage of the Tree of Knowledge, the 5 senses; entities will have qualities that will give them supernatural powers.

By supernatural, *It* really means *natural* powers that are super, because when one truly discovers the nature of reality and uses that reality nature, the powers are far superior to those that are provided under the Tree of Knowledge, the 5 senses.

This Awareness indicates that *It* has begun opening some of these doors whereby entities can glimpse the world that lies behind the sensual world so that entities can begin to see where they are going as they enter into the new quantum physics of Ultimate Reality and where they can discover the true and complete powers that are available to them through the use of intellect and energy in the art of creation.

This Awareness wishes to continue this work, assisting entities in such further discovery as they desire to witness in their further exploration of reality.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Born By Caesarean Section: Does This Interfere With the Planned Astrological Birth Time?

QUESTION:

A question from Gary Pascal. It sounds familiar. I may have asked this some time back He writes: "When an entity is born by Caesarean section, does this interfere with the planned astrological birth time of the entity, or is the birth time at C- section taken into consideration in the astrological planning by the entity?"

COSMIC AWARENESS:

This Awareness indicates that its affect as that which would be indicated or suggested by the time of the entity's birth. The C-section being that which is occurring at the time of birth, and therefore would show in the relationship chart between the mother and child. This Awareness indicates that the action of waiting for one or two days until perhaps the moon changed course or changed place would have an effect on the child's subconscious and emotional expression, to make it different in its expression of personality.

This Awareness indicates than by the child coming earlier than might otherwise be natural, the child would be affected, but the action might improve the situation depending on what chart you would desire, whether you want the moon in one place or another. This Awareness indicates in some places, planets might even change sign during that short interim; Mercury being the planet which moves most quickly, could be in a different sign, or the sun might move during that period, and be in a totally different sign. Generally speaking however, the question is only hypothetical because if one is born at a particular time prior to that which would occur naturally or later than that which would have occurred naturally, had the entity not been somehow held back in giving birth, the actual birth time would have either been earlier, delayed, or on time, and in any case, the birth time is when it is.

This Awareness indicates that therefore, the question is almost moot. When an entity takes the first breath, the entity is then born with the influx of those astrological energies and qualities, as part of the cellular imprint. This Awareness indicates that there can be effects from birth situations, problems or difficulties in the childbirth that are not related to astrology or to the chart. For example, an entity being born with perhaps the umbilical cord wrapped around its neck to the point where the child was near to suffocation could at a later time, cause the child to have asthma, or something of this nature.

Circumcision Can Traumatize a Child

This Awareness indicates that there are certain things that may create an inherent nervousness in the child because of some birth trauma, a small event that only occurred briefly, but which could create nervousness or something. This Awareness indicates that circumcision of a child, especially when it is painful or unnecessary, unnecessarily harsh, can sometimes lead the child to have an inherent unhappiness or feeling of being victimized which would not otherwise be there.

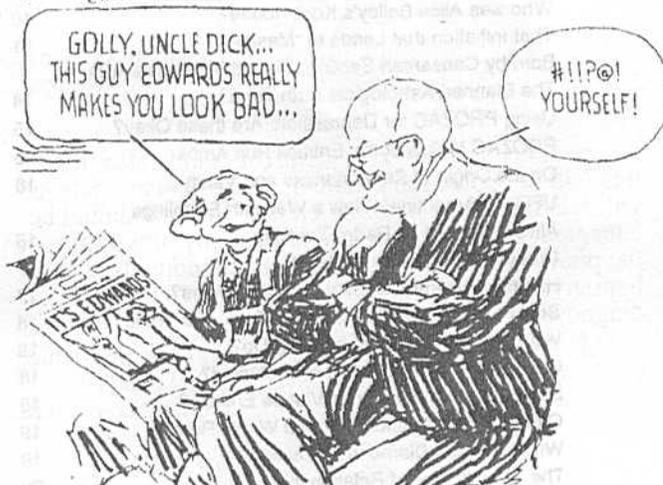

This Awareness indicates that these things are not necessarily part of being born at a certain time, but are part of the environment and can be altered through deep therapy that allows the entity at later times to go back, such as through hypnosis, to re-experience and release the frustration or unhappiness that followed the event. This Awareness indicates however, that in reference to the question, whether being born earlier or later would affect one's chart: Yes, this is so, it does affect one's chart, and one must take into consideration the time when the entity was born and took the first breath, for the entity then has the horoscope set from that moment. It is likened unto starting a clock from the first tick.

This Awareness indicates that one cannot speculate that this person is a Virgo, for example, just because the entity probably would have been born three to five days later than had the C-section not occurred, for the entity was not born a Virgo, but was born a Leo. This Awareness indicates you have to take the facts as they are; that if indeed the action of waiting two or three days could improve an entity's horoscope, it could be beneficial to wait, or if waiting could cause a negative aspect in the horoscope, it could be beneficial to help induce the labor.

This Awareness suggests however, it is more fitting with the entity's karma to allow it to occur naturally, unless there is a problem involved, in which case the entity may need help. Also, there is the consideration for the mother and her needs, which must be part of the decision making.

Using PROZAC For Depression: Are They OK? What Are the Complications? (The Problem of Hypoglycemia—Low Blood Sugar)

QUESTION:

A question from Craig Silvis, El Dorado Hills, CA. "There are about ten million taking Prozac for depression. There are also many other people taking many other antidepressants. I have read several articles on the subject and I always finish them feeling confused. Some doctors feel they are wonderful. Other doctors feel they are quite dangerous. I would like to know how Awareness feels about the use of antidepressants. Are they okay?", he asks.

COSMIC AWARENESS:

This Awareness indicates that most depression comes from poor diet, or hypoglycemia or yeast infection, or a combination. The poor diet would indicate entities are not receiving proper nutrients in their system which causes a let-down or breakdown in their energy level. The loss of energy is closely associated with depression. When an entity has very little energy, the entity interprets it as a mood-swing or as a psychological slump which later gets labeled as "depression."

How to Get Hypoglycemia (The Sugar Blues)

This Awareness indicates that the hypoglycemia, which is very common among people whose diets are not healthy, or whose bodies do not absorb sufficient nutrients from the food and vitamins they take, can leave an entity in a slump, psychologically and emotionally, and it is interpreted as depression.

This Awareness indicates that hypoglycemia basically is low blood sugar, but it comes into being when an entity uses too much sugar, too frequently. A morning breakfast of coffee and donuts for example, is a very fast-half or quick trip toward hypoglycemia. The more you mix the two, caffeine to work the adrenals to their limit and sugar to squeeze energy through the pancreas, the quicker the entity develops hypoglycemia.

This Awareness indicates that when the adrenals become depleted from excessive use and the pancreas can no longer supply the insulin or kicks in excessive insulin to deal with the sugar and the sugar flares up and burns quickly because it is in its more volatile state, the body then goes through a slump.

Excessive adrenaline takes out the sugar and the body's sugar level drops quickly. It is likened unto throwing paper into the fireplace. You get a big blaze of energy, then all of a sudden the energy is totally gone.

The entity who has hypoglycemia should focus more on carbohydrates that are slow-burning.

The grains, especially whole-grain foods and vegetables that metabolize more slowly, allow a constant release of carbohydrates into the blood so that the blood sugar does not drop suddenly. This Awareness indicates that the idea of quick energy from sugary foods is not healthy.

This Awareness indicates that yeast infection, this in reference to Candida, is much the same. Yeast feeds on sugars, on bacteria, on antibiotics which kill friendly flora as well as the hostile flora, and yeast also causes the body's sugar levels to be used or eaten by the yeast, so that regardless of what the entity seems to ingest in levels of carbohydrates, the yeast is constantly eating it and weakening the body's energies.

This Awareness indicates that when the energy levels are down, the entity feels depressed. It is a slump which has been referred to as the "sugar blues." The sugar blues being another term for hypoglycemia. The yeast enhances this problem even further.

This Awareness indicates that entities should consider being checked for hypoglycemia, which can be done without much difficulty. The doctor will simply give you a tube or liquid amount of glucose, take a sample of your blood before, and a sample several hours after the glucose injection, and follow the movement of the blood to see where it goes in your system; whether it raises the blood/sugar properly, and how long it takes to drop and cause the low blood/sugar slump associated with hypoglycemia.

If a Checkup Says You Have Hypoglycemia Don't Use PROZAC

If you find you have hypoglycemia, then you know that the Prozac is not really helping the problem. It is simply a drug affecting the mind and the problem continues to increase. This Awareness suggests that you can start treating the real problem and avoid using the Prozac or soon go off of the Prozac.

This Awareness indicates that Prozac is not very healthy for entities. In most cases it is harmful. In some cases it is less harmful. In other cases, it is very harmful to them, causing very unusual patterns of behavior. This Awareness indicates that the majority of doctors who give the drug are simply following the guidelines. They make a certain amount of money for dispensing the drug. They receive certain guidelines on its dispensing, and do what they are trained to do in regard to following directions from higher officials. This does not show them to be deliberately causing harm to entities, but the drug itself may not be presented to them with all its inherent dangers, and they see themselves doing a good service to entities.

Therefore, you cannot always blame the individual doctor, but the pharmaceutical companies behind those drugs should know full well the dangers of the side-effects and those dangers should be presented to doctors, and patients as well. This Awareness indicates that even this will not solve the problem, because many patients will feel they have no other choice. Entities should be educated to realize there are often many alternatives to the pharmaceutical drugs, such as attending to the hypoglycemia one might have if one were properly diagnosed.

This Awareness suggests that if you have that which is Chronic Fatigue Syndrome, or if you feel tired or depressed, check other things too. Just don't immediately run for an antidepressant.

"The world is a dangerous place,
not because of those who do evil,
but because of those who look on and do nothing"

Albert Einstein

Prozac Makes Some Entities Run Amok (Slaughter in the School Yards)

FOLLOW-UP (AVATON):

I read that Prozac is the number one top-selling drug in America today and there have been stories in the paper about some of these entities that run amok, senselessly slaughtering people in hamburger stores and school-yards, that had taken Prozac, and some of them are using that as a defense, that the drug made them do it. Is there any truth to that?

COSMIC AWARENESS:

This is in the affirmative. That in some cases, the drug is extremely hazardous to individuals. Some individuals have an ability to tolerate it much better than others. Some are totally disoriented by it.

FOLLOW-UP (VIKI):

If someone were to approach the health problem by doing the diet, they have in the book *Mysterious Cause of Illness* and then begin stopping the Prozac for instance; would it be appropriate for them to start that program for maybe two or three weeks and then stop the Prozac?

COSMIC AWARENESS:

This is in the affirmative. That some people could stop using the Prozac and not have a major reaction or problem. Others need to continue using the Prozac until they have balanced their system properly, and then they may drop it entirely, even suddenly. Others may need to gradually go off the Prozac, taking smaller amounts and watching for reactions and then taking still further reductions of Prozac until they can totally stop using it.

Wisdom of Awareness....

On the Origin of Separateness and Vanity

...the concept of separateness and vanity may be said to have originated with the so-called 'Fall of the Angels', the first separateness, the movement of Rhyee, the Ego, or Lucifer, from the Totality, or that which is the Godhead....the fall of the Angels, or angles, or aspects of consciousness.

...Essentially, the Cosmic Fall of the Angels is a mirror image on a macroscopic level of the microcosmic action which occurs within an individual when the individual loses its balance, and falls too heavily into the rational mind which is essentially built out of judgment, judgmental selection and rejection processes. (82-19)

"THIS FLAG IS A TOKEN
OF AMERICA'S GRATITUDE
FOR YOUR SON'S SACRIFICE."

"AND THIS UNANIMOUS SENATE
REPORT ON PRE-WAR INTELLIGENCE
SHOWS THAT YOUR SON'S SACRIFICE
WAS COMPLETELY UNNECESSARY."

UFOs In Argentina

(How Radar Tracking Has Brought Them Down)
Which Almost Caused a War Between Et's and Earthlings

QUESTION:

A question from Mario Oscar Biscione, Buenos Aires, Argentina, and he writes: "Please ask Awareness what is going on in Victoria Entre Rios, Argentina, which relates to UFOs and Greys and the crash of at least 5 UFOs during 1992?"

COSMIC AWARENESS:

This Awareness indicates that this appears to be certain government tracking devices that are being used which effects the craft when in flight. It is similar to that which occurred in the Roswell incident and several others in the United States in the late Forties and Fifties, wherein Radar tracking devices upon coming together on a UFO could cause the magnetic fields of the UFO to distort, shutting off the engines and causing a crash.

Aliens Almost Made War With Earthlings

This was all done without intent or understanding of what occurred, but the extraterrestrials, the aliens perceived it as a weapon being used against them, while the Radar technicians simply saw a blip and tried to track the blip and inadvertently caused a crash. This Awareness indicates it almost led to a war between the aliens and the earthlings before both began to realize what had in fact occurred.

This Awareness indicates that it appears the tracking devices in Argentina are similar in nature to those being used in the earlier stages in the Southwestern part of the United States and that their use is having a similar effect on the UFOs in that region. This Awareness indicates that it appears this will be recognized and straightened out in the near future.

This Awareness indicates it appears the aliens already understand what occurred.

AVATON:

These were Greys in these craft in Argentina?

COSMIC AWARENESS:

This appears to be in the affirmative. This Awareness indicates there are a great number of aliens in the area of Brazil. They are en masse in that area. There are many reports coming out of Brazil in regard to these entities. Those that venture into Argentina have more or less strayed beyond their targeted areas and the fact of the crashes has deterred them from going further in this direction in terms of moving in greater mass.

This Awareness indicates that it appears there will be more caution on the part of these entities to avoid moving in the direction of Argentina. This Awareness indicates there are a great number of abductions in Brazil and many many sightings of UFOs in that area, even conflicts between the Brazilian military and air force and the alien ships.

FOLLOW-UP (AVATON):

Awareness mentioned previously it looked like the Reptoids were setting up a base there.

COSMIC AWARENESS:

This Awareness indicates these entities have a strong interest in South America, seeing it as being a relatively safe place for them to co-exist and set up bases in jungles and mountains whereby they can sequester themselves without too much danger of running into high-tech military enemies.

It is recognized that the South American technology is not as highly developed as that of the United States and therefore, the South American location is preferred by

these entities in case they are discovered and found to be unwelcomed.

The Reptoids Realize They Are Offensive in Appearance

This Awareness indicates the Reptoids recognize that they are offensive in appearance to humans, moreso than are the Greys, and therefore, they do not wish to put themselves in a position of having to fight for their lives unnecessarily. They have the technologies and means and power to fight for their lives and probably do so without great endangerment to themselves.

This Awareness indicates it is likened unto the bully or prize-fighter who knows better than to walk down a dark alley in certain areas at night. Even though perhaps he is the world champion boxer, the entity knows that the dark alley can hold all kinds of unknowns that could defeat him quickly or easily in spite of his own personal ability.

This Awareness indicates that the Reptoids recognize there are weapons that could wipe them out if they were caught off guard in certain regions of the United States and therefore, they choose to find a place more isolated where they can hide and develop their plans and agendas without external interference or threats.

CREATING TULPAS WITH THE MIND

(More on the Body of Light)

QUESTION:

A question from Robert S., of Vancouver, British Columbia. He writes: "Does Awareness see the Buddhist notion of creating mind generated entities called Tulpas as being possible? Can anyone learn to do this? Is the Tulpa one creates a part of one's soul, or does he or she or it have a soul of its own? Are some apparent space aliens actually Tulpas created by the U.S. government?"

COSMIC AWARENESS:

This Awareness indicates that these so-called Tulpas are thought-forms; that this Awareness has previously spoken of creating a Body of Light and has discussed with entities how to create a Body of Light. This Awareness indicates this Body of Light can be sent out apart from oneself. That this can also create problems for entities if they are not properly trained or properly adept in controlling or molding the Body of light or disciplining the Body of Light.

This Awareness indicates in other words, if you create a Body of Light and give it its own separation from yourself, or its own independence, and it has a kind of mischievousness of its own, or if you turn it loose to be inhabited by disincarnated spirits, it can come back to haunt you, to cause you problems from the spirit that invades and inhabits that Body of Light. This Awareness indicates that this is not something that happens frequently, but it is something that can happen to entities who do not understand what they are doing and who create Bodies of Light haphazardly and let them go and be without any clear understanding or direction.

Tulpas are much the same. You can create thought-forms in the form of a Tulpa, and let it go out and do things for you, or you can let it go out and be on its own, which is but an invitation for disincarnated spirits to take over the Tulpa and to use it and to perhaps come back and haunt you or create disturbances for you. This Awareness indicates that it is something that entities need to be very careful about doing. This Awareness would not recommend it for entities, but this Awareness also understands that there are entities who would tend to play around with such entities for the thrill of the phenomenon, and therefore this Awareness wishes to give warnings that there are dangers involved in this kind of activity.

Creating Tulpas or Light Bodies is Like Playing with Fire

It is not all fun and games, nor is it of great significance or importance in your life to create a Tulpa or a Body of Light or to play with spirits in any form whatsoever. This Awareness suggests that in playing with these kind of energies you are basically playing with fire. It is likened unto children having matches and learning how to light them without supervision. This Awareness indicates that of course, fire and matches may be essential to those in certain positions where they need to make a fire, where they need to light matches, but this Awareness wishes to warn entities who know nothing about fire, nothing about matches, that it is dangerous to use them unless you know what you are doing.

Likewise, the body of Light, likewise the Tulpa. These are not simply for playing games. They are not simply for the amusement of the mind or the amusement of the ego to play around with. There can be problems that develop, and unless these things are necessary or appropriate for what is occurring and needed in your life, this Awareness suggests you avoid playing with these energies. If they are necessary or if they are appropriate, or both necessary and appropriate, then it can be important for you to learn how to create a Body of Light, or a Tulpa. It is for you to decide whether it is necessary or appropriate or both.

Has the Government Ever Created Tulpas?

(More on "Remote Viewing" by Secret Agencies)

QUESTION:

Has the government ever created these Tulpas for any reason?

COSMIC AWARENESS:

This Awareness indicates that these have been experimented with for the purpose of spying at a distance. This Awareness indicates that this is often called 'remote viewing' rather than clairvoyance, and it is within certain government projects that remote viewing and Tulpa creation, although it is not called Tulpa creation, have been experimented with by certain governmental agencies in efforts to view things at a distance or spy on entities at a distance.

The Tulpa, or Body of Light use by government agencies is not as well-developed a project or program as the remote viewing, which involves an entity learning to see things at a distance, while in a state of trance or meditation. It is more of a meditating state than a trance state, and this has been used considerably by certain government agencies and done so with considerable accuracy and success.

Souls Locked Into Rocks and Stones

(Souls Locked Into Trees Are Also Discussed)

QUESTION:

Some questions from Elana Massey, Corem, Montana. She's got about ten on this subject. I think I'll read all the questions in her statement and then go back and repeat any Awareness requests. She writes: "In issue 93-11, page 18, Awareness is speaking of the changes in polarities on earth. I quote:

'It appears that even as there have been in the past, souls who were locked into rocks and stones, this may occur again during this time if these souls do not respond to the higher vibrations and rise into these new frequencies of light and love.'

She writes: "My questions relate to souls locked into rocks and stones: Who does this and why? And how is this done? For what length of time? Are the souls aware of being locked into rocks and stones? Where on earth did this take place? If a person sat on a soul-stone would they be able to contact the imprisoned soul? And would there be a benefit in doing so? What size of rocks and stones? What soul-growth purpose, if any, would there be for souls to be locked into rocks and stones?"

COSMIC AWARENESS:

This Awareness indicates that this is done through vibration, just as entities can have their souls locked into trees for many centuries at a time, as the tree grows and the soul is identified with that particular vibration and remains in the tree for its entire duration.

Stuck in Limbo: Waiting and Waiting and Waiting

This Awareness indicates that this has been discussed before and that it has to do with certain emotional attachments, wherein the emotional part of the soul, for some time, might reside in a tree and experience the entire episode as being caught in limbo. This Awareness indicates to the inhabitant of the tree, the entity is simply stuck in limbo, waiting and waiting and waiting.

It is very rare for entities to be locked into rocks, but it is also much more permanent in duration to be locked into a stone than to be stuck in a tree for long periods of time. They are all, however, reflections of that concept of limbo. It is not that someone does this to them. It is that they do it themselves, based on natural laws of vibration and frequency and their own inability to, or non-desire to move into more spiritual levels of expression.

Of course the length of time for this experience will depend on the permanency of their attachment and the nature of their attachment to the stability factor of whatever element they attach themselves to. A tree, for example, may live for anywhere from 40 or 50 years upwards to thousands of years. A stone may last many, many times longer.

What Does the Locked-In Entity Do?

QUESTION:

What does an entity do when it is locked into a stone for eons of time? Is it thinking about previous lives?

COSMIC AWARENESS:

It waits, much as an entity who is in a coma waits, but with less consciousness. It is not that different from being in a deep sleep. Time passes without any means of measuring, and therefore, upon awakening, the entity might not even realize how long he or she has been stuck in limbo.

QUESTION:

How can such a thing effect the soul growth of entities, if they don't think or remember anything?

COSMIC AWARENESS:

This Awareness indicates that it doesn't necessarily effect the soul growth much at all. It simply puts the entity out of action and into a state of suspension, until something changes that frees the entity, and the entity may then, by that time, have a different way of looking at things or a different way of expressing self.

Patience, for one thing, will have been learned, and there may be other valuable qualities of character that are learned from the long-term experience. It is a cosmic form of imprisonment, but it is not likened unto someone sentencing you. It is more likened unto an entity sentencing himself, to take time out.

Can The Imprisoned Soul Be Contacted

QUESTION:

Elaine asks: "If a person sat on a soul stone, would they be able to contact the imprisoned soul, and would there be a benefit in doing so?"

COSMIC AWARENESS:

This Awareness indicates if you wanted to make contact with an entity in a stone or in a tree, it is possible. You simply have to merge your consciousness with the energies within that stone or tree, realizing that the energies within the tree or stone, also have certain intelligence, and tune in to the frequency of the intelligence along with your own empathy, and you can feel the entity within.

You can know what the entity feels like and can share its experience briefly. There is little real value, other than whatever the communication gives to you and to the entity within. This Awareness indicates that this can be interesting. It is not something that would be greatly enlightening after the first or second time. It would simply be repetitious to continue doing it over and over, but for the first or second time it can be of interest and have some value to entities.

This Awareness indicates if you wanted to communicate or pass a message to the entity locked in the stone or to ask questions of it, that too could be of interest. You might even receive some psychic response from the entity, but do not count on it. It would be rare and unusual. It would, however, be possible.

It's Dangerous to Talk Too Long to Those Imprisoned

This Awareness warns entities not to become too conversant in this manner, or you might find yourself being directed by the entity within the tree or stone, to where your own life is put under the will of such an entity, and this Awareness suggests this would not be favorable for you. This Awareness indicates it is important to keep your own individuality, not to surrender yourself to those beings of a less spiritual vibratory rate, and to surrender only to those highest and most divine vibratory frequencies.

Did Those Locked In Once Violate Entities?

FOLLOW-UP QUESTION:

Are these entities that are imprisoned in rocks and stones and trees on the physical plane; are these entities who have had previous lifetimes on the physical plane, and for one reason or another have felt guilty or have been involved in large-scale violation of entities?

COSMIC AWARENESS:

Often this is the case. This Awareness indicates that they are generally entities who either want out of the scene entirely, and do not wish to reincarnate, but wish to be alone and separate and therefore, they go into a plant or tree or rock to hide from the reality outside, or they are embarrassed and guilty for what they have done and wish to shut themselves out so they cannot harm

others and move into a tree or a stone or some other inanimate object and simply stop and stay there, while things occur on a very subtle level to them.

It is simply the same thing as limbo, except that limbo is not just a place in mythology. It is a place in consciousness where entities go and wait. There is no pain. There is no suffering. There is just waiting.

FOLLOW-UP QUESTION:

They don't have any longing at all to be back on the earth plane?

COSMIC AWARENESS:

This Awareness indicates that this generally is not experienced as an emotion or desire.

Can You Hear Entities Trapped Within Rocks?

FOLLOW-UP QUESTION:

I've heard or read of certain entities who claim they can put their ear against a big rock, for example, and they can hear voices from within the rock. Could this be a case of actually hearing an imprisoned entity within the rock?

COSMIC AWARENESS:

This Awareness indicates clairaudience or the ability to hear unspoken words is a gift that some entities have, just as clairvoyance is a gift that other entities have. Some entities could put their face against the rock, close their eyes and see entities in the rock. How much of this is their intuitive vision and how accurate their intuitive vision or intuitive hearing might be, is a matter of discussion.

One entity might simply have a vivid imagination. Another entity might have some genuine psychic insight as to what or who is inside the rock.

Some Indians Used Stones to Project Negativity

This Awareness wishes to comment a little further on this. This Awareness indicates that some situations are that energies can project information and energy into a stone. The stone may be a habitat for an energy that was projected into it by someone who has passed that way. This Awareness indicates the American Indians, for example, (this appears to be the Kickapoo tribe), would commonly pick up a stone, pass it around the circle, and each receiving the stone would project any negative concepts, thoughts or ideas or feelings into the stone, and when the stone had completely gone around the circle, they would then put the stone into the water.

This was a way of eliminating negativities that they had in their psyches. The stone, of course, would actually carry the energy and information that had been put into it. If someone at some other time picked up that stone, they might sense that there was some kind of energy connected with it, and if they were very psychic, they might find it to be negative energy, and they might think it was demonically inhabited or possessed.

This Awareness indicates that there may not be an entity involved at all. It may simply be energy from various entities. A stone, for example, that is seen as holy, wherein everyone approaches it with reverence, might in time develop an aura of energy that is quite spiritual in nature, so that it indeed becomes holy because of what is projected upon it, whereas the stone in its initial stage may not have had any particular vibration or spiritual value at all.

This Awareness indicates in other words, entities can project energy into certain objects and give those objects qualities and characteristics according to that which has been projected.

Why The Hope Diamond is "Cursed"

QUESTION:

Would this type of stone Awareness has described, entities being inside some stones; could this also apply to gem stones like the Hope diamond, and this would account for all the negative stories about ...

COSMIC AWARENESS:

This is in the affirmative. This is why the Hope diamond appears to be cursed or to carry a curse. There is certain energy put into that stone that carries from owner to owner, and the energy is not that which is beneficial, but rather that which is detrimental to the owner.

FOLLOW-UP QUESTION:

Was the energy put in to this diamond by entities from the outside, or was there actually an entity inside of that diamond?

COSMIC AWARENESS:

This Awareness indicates this energy appears to have been projected onto the diamond in the manner of a genuine curse. This Awareness indicates there are ways that the curse could be removed. The action of wrapping White Light or projecting White Light into the diamond could remove the curse so that the energies in the diamond are freed and would leave the diamond.

Awareness Removes the Curse of the Hope Diamond

This Awareness indicates that this could be accomplished in the same manner that the focus of negative energies was put into it in the first place, but if an entity were to focus into the center of the Hope diamond for example, and project concepts of the pure White Light of Christ or the Divine Creator frequencies of love in the highest sense, and this energy, reaching the very center of the diamond, would begin to radiate from that center outward through all facets of the diamond, moving out, moving out and out until it reaches the outer edge of the diamond, and then still moving further so that it radiates its Christ Light outward toward all who are near the diamond, then the diamond can very easily become a radiant energy of hope and benefits to those who come near it.

This Awareness indicates that the simple action of focusing and describing as was just completed, has cleansed the diamond considerably, and the curse has been removed. This does not mean, however, that someone couldn't repeat the curse and re-install the negativity, but at present, the diamond is radiant and emanating healthy vibrations.

How Healings and Trance Healings Are Conducted

This Awareness indicates entities must learn to recognize the power of the mind as being able to send energy and the energy as being imbued with intelligence or information that can be beneficial if entities wish to send beneficial information or intelligence along with the focused energy. This is how healings are conducted, how trance healings are conducted.

It is how entities can help to heal one another or to improve their own lives and situations. This Awareness indicates you can, for example, step outside your body into the realm of space, into the world of so-called "nothing;" step between the atoms, visualize yourself becoming so small that the atoms are little dots out there in space like stars, and see yourself looking at the atoms that compose your body.

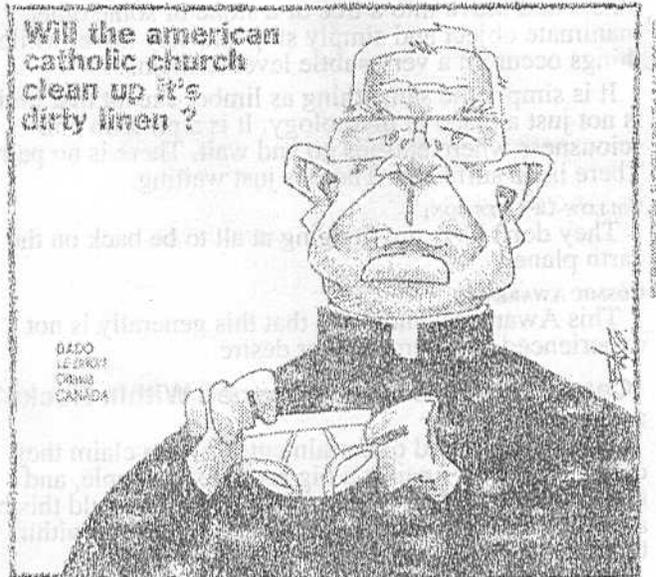

Your body appears as a great universe, or galaxy. You cannot even make out its features. And from this point, see yourself as representing the intellect of the universe, and send this image of healing to the galaxy that is your body out there before you, and heal those organs that

you know are there with the intelligence that resides in the invisible realm, by focusing it toward that particular organ or part of the body that needs healing.

How to Heal Yourself With This Exercise

In other words, you may lie, for example, in your bed, silently focusing on your own body, which floats out there in the galactic or universal realm as a group of millions of stars or protons and neutrons and electrons, all sitting there vibrating and shimmering in accordance with their purposes, and you know that in that galactic body of yours there is an organ that is not functioning quite right, or needs to work better, and you are representing the void, the energy of the invisible, and the intellect of the invisible and you focus on that and send that energy out toward that particular organ in the body, and make it work properly.

This Awareness indicates that the very act of imaging, along with the focus and the intent is what creates the formula for the healing of the body. At the time this is completed you may choose to become larger in size and go back into the body, take up the body with all of the atoms, all of the electrons, protons and neutrons, and reform the organs and become larger and larger in your own experience to the point where the body becomes more dense and small and takes on what appears to be physical shape and form, and density.

From the Cosmic Laws of Cosmic Awareness

THE LAW OF RELATIONSHIP

The Law of Relationship states that all parts or partners are in relationship, though some are close and some remote. A close relationship insists that gears and wheels must mesh in workable arrangements; all hubs, axles, hooks and levers must be properly secured according to any function or relationship arrangement or agreement. Their driving forces must be derived from a common, or compatible source of energy, and any new innovations, arrangements or activities of any part or partner that changes the general relationship, or any part or partner of that relationship must be noted, acknowledged and discussed, and agreements must be made to allow, disallow or rearrange the relationship to accommodate that change. And any part or partner suffering excess pressure, pain or friction from the arrangement must learn to squeak and moan or gripe and groan until its needs are noticed, discussed and attended to the satisfaction of all parties of the relationship; and all parties must have their time for regular lubricating oils of smooth communication. For without the oil of clear communication, even the best relationships will generate friction, grit, grime, dirt, heat, and will grind to a screaming halt.

Wisdom of Awareness...

On the Crucifixion of Christ

This Awareness indicates the crucifixion of Christ was symbolic wherein the entity Jesus moved through the passion play and gave his life as a sacrificial lamb to the end of the age of Arics, or the age of David, as a fisher of men entering into the Piscean Age. (Issue 78-29)

**-HOW TO GET THIS NEWSLETTER BY MAIL-
EVERY 4 WEEKS ! (More or Less)**

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).

MEMBERSHIPS AVAILABLE (Honor System!)

- INDIVIDUAL: \$42 per year or \$12 quarterly
- FAMILY: \$52 per year or \$20 quarterly
- CONTRIBUTING: \$77 per year or \$25 quarterly
- SPONSORING: \$144 per year or \$40 per quarter
- BENEFACTOR: \$500 per year or \$150 per quarter
- PATRON: \$1000 per year or \$250 per quarter
- ANGEL: \$5000 per year or \$1500 per quarter
- LIMITED INCOME: \$30 PER YEAR OR \$9.00 QUARTERLY

**AMAZING NEW MASTER INDEX
NOW ON CAC'S WEBSITE:**

Just think of any subject Awareness has ever talked about, type in a keyword, and before your eyes will appear a listing of almost every newsletter published that contains information on that subject. Thanks to Jon Strongbow's 25 years of research, our website has now added 95,706 new entries for your convenience. New members who need back issues can now type in the subjects they are interested in and order back issues for immediate delivery. You can order on line using Paypal ordering system or just mail your order to CAC. All back issues are \$3 each and postage for any amount ordered is only \$1. Check it out!
