STRANGE TREATMENT IN A HOSPITAL— AND WHY HIS SON BECAME A HIPPIE

Ed's Note: In the thousands of Personal Readings Awareness gave to CAC members and others over the years there is much information of a universal nature that readers can use. There are many gems of wisdom and advice that could apply to entities other than the person getting the personal reading. Many Personal Readings contain interesting bits of information on past lives, karmic and often historic relationships which often create problems or questions in the entity's present-day lifetime. The following reading is an example.

Personal Reading for J.H. May 2, 1977 Paul Shockley Interpreter

QUESTION:

I am 66 years old, married, (presently living with son in his home) I sell printing via mail order and am on Social Security. I request an opening message, as per your literature.

COSMIC AWARENESS:

This Awareness indicates that in your movement through various changes, the experiences of your childhood having reached certain extremes, now moving toward reconciliations of those extremes, as that which is being brought back before you for closer examination. This Awareness indicates that certain polarized concepts given to you as a child, now being reexamined, are being understood from a new viewpoint and being placed aside as being somewhat unworkable in this new level of consciousness into which you are now moving.

This Awareness suggests that you may see yourself as a bridge between the old consciousness of the Piscean Age and the new consciousness of the Aquarian Age, seeing that the polarized type of consciousness wherein everything was looked at as good or evil, right or wrong, pleasant or unpleasant, difficult or easy, painful or joyful -- all of these opposites in which you lived, all of these contradictions in which you grew up and developed your personality, your character, and your lifestyle, now being seen as something foreign to your new way of viewing life, wherein you begin to discover that What Is, is, and needs not be accepted or rejected, classified as good or evil, right or wrong, pleasant or unpleasant, or thrown into any of the polarities, but simply may be looked at for what it is, described for what it is, examined to discover what it is, and from there, move on to something else, to make changes, to make recommendations, or to make room for other experiences.

This Awareness indicates that in your new consciousness, you are becoming aware of an integration of yourself, integrated with the world about, with other entities, and integrated with the Divine forces within yourself and round about yourself, so that there are no longer the extreme feelings of separation and great differences between yourself and other things, other ideas, and other entities in this plane, in your world.

QUESTION:

My surgical operation December 4th, 1969, was primarily for gallstones, complicated by jaundice, an eight-inch incision vertical near mid-center of body, in hospital for 45 days in Florida. After coming out of anesthesia, I saw and heard my doctor, not surgeon, talking to a few young fellows, employees at the hospital. One repeated my name, he told the doctor of an auto accident involving his sister who is a teenager. She had run into the side of my car off the curbstone against the traffic light that was in my favor. I was just starting to pull across the street slowly; however, she knocked herself unconscious, but at arrival to hospital and through examination, she was found totally unhurt, but

under the influence of drugs and kept there for a period of time. I was not held nor charged, as I had witnesses, both young fellows from different towns in Florida, and the traffic inspector was sitting on a cycle just above the street.

My doctor said he didn't blame him, the brother, as he had threatened to "get me." but told him to wait till I got out - my dear trusted doctor. I called a good friend of influence in the city and told him what I had heard. I asked if he could get me transferred to another hospital, but he sort of covered it over as though he couldn't if he wanted to.

After that, every night at approximately after visitor hours, I had to listen to a usual new show. "Acts," by fellows employed or those they left in. It was a small hospital, more of a private affair, so that wasn't impossible, as they all knew each other. It was unbelievable. They didn't physically hurt me, but tried to scare me with ridiculous threats. They and others, friends I guess, kept me awake as much of the early morning as they could. I suppose it was via closed circuit TV, intercom radio, and also merely standing out in the hallway beside the doorway. As I needed plenty of good, sound rest, it sure was detrimental to my health in more than one way.

Why was I allowed to be treated this way by doctors and nurses, not all but most of them in a place of healing, too. This was all extracurricular action. I was called a louse, a homosexual, a damned lie, a person with a 60 IQ. I heard nurses say they were going to take me to a private hospital, and many other unbelievable things occurred. I could only sum it up as an attempt to brainwash me somehow. Other patients would say, "Do you know that it is you they are talking about, John?" I honestly ignored most of all of it, as I did want to get out of there by showing that I was scout and could take it. However, it took me a couple of years to drive all that stuff out of my mind. I even had a patient who was in the hospital at a later time say to me, "I hear you like to eat bananas." Upon my reading, you don't have to type all this material, but just answer my question and tell me the answers.

(QUESTIONER)

The question is: Why did he have to go through all of this?

COSMIC AWARENESS:

This Awareness indicates that there are several levels involved in the answer. This Awareness indicates that from one level, there was the hostility and frustration from the teenage brother directed toward you. This entity having some friends within the hospital did, through his own warped sense of values, did influence a type of gossip campaign against you. This Awareness indicates that the entity did spread certain lies about you and this began to spread among others, including the patients.

This Awareness indicates that from another point of view, there was a kind of karmic residue from a previous lifetime in connection with many of these entities. This Awareness indicates, that in a lifetime which appears to have been in an area in southern Germany during the latter part of the 19th century in which you were an assistant administrator of an insane asylum in that area. This Awareness indicates that many of these entities in this present situation were patients in that insane asylum during that previous lifetime. This Awareness indicates that in this sense, these entities were balancing out certain karmic forces and energies which were like residue from that previous

lifetime. This Awareness indicates that in some sense, this may be seen as a kind of revenge on their part.

This Awareness indicates that from another level, there was also within your own psyche during your experience at the hospital, an attitude which contributed to feelings among the medical profession there and among the patients, an attitude which led them to feel a kind of rejection toward you, this being almost an instinctive feeling, and when the gossip was spread, this gossip was easily assimilated by these entities and accepted because it was compatible to certain feelings they had toward you. This Awareness indicates that your attitude was one which tended to look upon many of the entities in that hospital as being somewhat inferior to you or being obligated to you. These entities interpreted this even more intensely than you felt this, and resented the feelings they received from you.

This Awareness indicates that from another level, there was an astrological influence upon you during that time which was of great difficulty for you, great strain and great intensity in terms both of your own self-esteem, your reputation, your physical well-being, and certain feelings of confinement, that were placed upon you by your horoscope and the transiting planets of that time. This Awareness suggests that this may be seen more clearly by a chart from an astrologer depicting the planets during that period of time.

This Awareness wishes you to understand that the actions of these entities need not affect you any longer, that you may look upon this experience with the attitude of the Christ which hung upon the cross and asked, "Father, forgive them, for they know not what they do." This Awareness suggests that you are capable of such forgiveness and such wisdom as this.

QUESTION:

My son, who is 37 and graduated from the University of Florida, was a real brain all through schools. He lives in Berkeley, California, now, lives like a hippie and admits it. He won't work for what he calls "Fat cats," General Electric, Westinghouse, Exxon, etc. He lives a life of ease and hand-to-mouth jobs. Kindly state his attitudes toward life, and why.

COSMIC AWARENESS:

This Awareness indicates this entity as one who understands the nature of the money system; that the money system, as such, that entities are not born equal, are not given equal opportunities, that entities are not treated equally or given fair treatment in courts of law, in the social structures, that entities are not given justice unless they are properly attired, with the proper money and wealth which buys that justice, buys that freedom, buys that status. This entity as one of millions who realize the fallacy of the money-changers, who has tuned in to the purposes of the Christ in driving out the money-changers from the temple, and as one who realizes that freedom cannot come for oneself until all entities are free and have the opportunity for freedom.

This Awareness indicates this entity as one who exemplifies the new emerging consciousness, wherein the entity is beginning to discover not only that the old ways are unjust, but as beginning to discover that there may be another way which is even better and more beneficial than the old ways.

This Awareness indicates the Hippie movement was a protest against the old ways. The Hippie movement did not fully understand any better situation, any better system, but it did understand that the old ways were unjust and favored those who had power, those who had money, and that those who had money and power could

create wars, create destruction, tragedy, pain, sorrow, suffering, and poverty for others, while themselves becoming wealthier and more powerful in the process. Those Hippie movements as protesting against this form of injustice, did not in themselves come up with any solution to the problem, but did focus on that which was the problem and began searching for an alternative lifestyle.

This Awareness indicates that many of these entities searched in the area of altered consciousness states through the use of drugs, through the use of meditation, through the use of sex, through the use of philosophy, through the use of certain religious sects and orders until these entities either went too far into the chosen alternative and found their consciousness altered and warped, or these entities began to grasp some newer levels of understanding and began to move back into the society with new insight and new wisdom and an understanding of consciousness which could assist in changing the old ways to bring about greater justice and freedom.

This Awareness indicates there now are certain seeds which have been planted and new energies are beginning to sprout upon this plane. In the near future, the entire economic system of this plane will have changed greatly, the old values of money and power will be seen as something in ancient history likened unto the use of torture chambers for extracting information or for punishing enemies. The old ways of money and power as forms of control will be cast out of the society, and new ways whereby communication and sharing of resources becomes the mode of the day, the mode of society.

This Awareness indicates that this entity as still struggling to get a closer understanding of this new lifestyle, still struggling to find his place in a world which is changing, this entity as seeing certain areas of physical gratification, clinging in part to that, but also developing certain ideals, and these ideals can grow and allow the entity to move into levels of productive and beneficial lifestyle whereby others benefit from his actions.

This Awareness suggests that you encourage this entity as much as is possible to find a better way, to help bring in new ideas to the society so that a more compatible world will exist for his children and for his children's children than has existed during the previous generations. This Awareness indicates this entity *does* need your encouragement and your wisdom and your guidance.

QUESTION:

I'm sort of interested in missionary work. I don't get out of here as it is too inconvenient: no transportation - busses, trolleys, etc. I work from the home in various ways, etc. Is this work good for me in my present-day life and the hereafter?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, particularly in terms of work wherein you can give service to others, not necessarily in serving them for but a brief duration, giving them momentary gratification, but particularly in areas where you can show them how to help themselves, for the entity who feeds another a fish, helps the other once, but the entity who shows the other *how* to fish, helps the entity for a lifetime. This Awareness suggests that you teach others how to help themselves. That wherein necessary, you may give them a helping hand to get them started if it pleases you, but that the emphasis be on helping them to help themselves.

QUESTION:

I was once a good, upcoming boxer during my younger days. I got a few bad breaks in employment during the Depression. I was never beaten, but I quit because of poor management and racketeers hounding me to do their bidding. I always, till recently, loved the game. I wonder if I was a fighter in a previous life?

COSMIC AWARENESS:

This Awareness indicates that you were one who assisted... this Awareness indicates that the entity John L. Sullivan was but a child when he saw you and another entity fighting for wagers on a wharf in New England, that which appears to be the area of Boston. This Awareness indicates this appears to be a relationship between yourself and the entity John L. Sullivan, this being likened unto your being an uncle or... this appearing to be an uncle of John L. Sullivan. This Awareness indicates the name not seen clearly, that it appears to be Sullivan also, but the first name not seen clearly. This Awareness indicates that there was no great amount of historical information left regarding this entity, that this appears to be in the time between 1875 and the turn of the century. This Awareness indicates that this being closer to 1875 or to 1890, wherein you were engaged in this kind of activity.

This Awareness indicates this lifetime as one wherein you had been a young teenager during the Civil War, your parents had been... this Awareness indicates you had been orphaned during this time, and much resentment and bitterness filled your life. In the time of approximately 1875, you began a boxing... this Awareness indicates this more as street-brawling and gradually leading to fisticuffs wherein wagers were placed and the purse was taken by the winner.

This Awareness indicates that the name Sullivan is the only name seen in connection with this, that there appears to be a relationship between yourself and John L. Sullivan, that this is not clear at this time, that the exact dates and timing as also unclear. It appears however, that you were not the John L. Sullivan of history, but a relative of this entity, appearing to be somewhat older than the entity by approximately 15 years. This Awareness indicates that the exact details of this are unclear, yet the information may become clearer through your own meditations or through certain researches in regard to John L. Sullivan, particularly during his childhood.

QUESTION:

I seem to remember a dream of an era when I lived before. It seems like it was in the mid 1800s. In dreams I blend in with people who all seem to take me as one of them. They are almost all very friendly. However, although I seem to know them well, I can't retain their names on awakening. Sometimes I can waken and go back to sleep and continue on with the dream. I also have seemed to remember certain places, towns, and cities, that I feel sure I have been before. I even picked out a building in Illinois on the way over from the East Coast. I told my wife and son I used to drink beer there with U.S. Grant. It made me think, so I wrote to the address which was now a pottery shop. I received an answer that it had been a brewery and tavern during Lincoln's time. Any comments?

COSMIC AWARENESS:

This Awareness indicates that you are one who is capable of recalling much of the previous lifetime. This Awareness suggests that through your own meditations, and if desirable, through hypnosis, much of that lifetime shall be revealed to you.

QUESTION:

Any details on health would be greatly appreciated.

COSMIC AWARENESS:

This Awareness suggests that the use of cayenne tablets, two tablets daily, along with nucleic acid and vitamin E - this may be taken through wheat germ oil, but the vitamin E capsules are more beneficial -- fruit pectin used daily, these being particularly important to you at this time. This Awareness indicates that the use of cayenne as assisting the circulatory system, keeping the heart strong and the blood pressure balanced, the use of fruit pectin to assist in the balance of cholesterol and the reduction of radiation in the physical form, the use of vitamin E to keep your health, your heart and skin healthy, the use of nucleic acid to assist in your general vitality, to help retard aging -- these as being important to you during this time. This Awareness suggests a pause.

This Awareness indicates that fresh fruits and vegetables in your diet as beneficial, an increase of these during this time to assist in cleaning out poisons within your system which have accumulated over many years. This Awareness suggests that you reduce the amount of caffeine intake, that you occasionally fast for periods of one to three days at a time, that you delay your breakfast for several hours after awakening, and that wherein you feel stiff, tired, or arthritic pains, that you move your diet more toward lighter foods such as fruit juices, fruits, vegetables, or toward juice fasts of two to three days wherein you eat nothing but the juices of fruits and vegetables.

This Awareness indicates that if you become ill for any period of more than three days, that you consider the grape juice fast, wherein concord grape juice is used for six days, or that you use the fast which this Awareness has given and which may be included in the material sent to you. This Awareness indicates that in view of this kind of lifestyle wherein red meats are used less frequently, wherein sugar products and refined white flour products are reduced or eliminated from your diet, wherein caffeine products are reduced or eliminated from your diet, wherein fats from animals are reduced from your diet, the chances of your living a long and healthy life shall increase to such a degree that you can expect to last for anywhere between 25 and 40 more years.

This Awareness suggests this without even considering new rejuvenating pills and processes and methods which shall soon be discovered by scientists and placed upon the market. This Awareness indicates that within approximately 15 years or less, these rejuvenating methods will be available at a price which you can afford and whereby you can reduce the effects of aging upon your body and live even longer than you ever anticipated, this according to your own inclination.

QUESTION:

I love Florida and the East Coast shore, New Jersey and Virginia and South Carolina. Should I go back soon?

COSMIC AWARENESS::

This Awareness suggests that entities do that which most pleases them in their life, so long as it does not harm others. This Awareness indicates that you plan your moves carefully to avoid any great stress, and then be ready also for the "X-factor," the unknown, the unexpected which may also enter into your plans. This Awareness indicates you understand the unexpected enters into all plans, into all situations, that there are the

unexpected events which shall enter into your lifestyle wherever you are, but that careful examination and preparation assists you in moving and charting your course with greater ease.

QUESTION:

Does Awareness have any further messages?

COSMIC AWARENESS:

This Awareness wishes this entity to understand that this Awareness shall remain close with this entity and shall guide this entity and shall assist this entity as the entity moves through various experiences, so that the entity can begin to give greater joy and service to others, as well as experience greater joy and happiness for himself.

(The Law of Gratitude is given.)

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

"Son of Sam" Killer and Satanic Cults (More on the Forces of Night)

QUESTION (AVATON):

Awareness has given information to those entities who hear voices in their heads telling them that it is Jesus or God speaking to them, and one of these entities was this convicted killer David Berkowitz who the papers called the "Son of Sam" killer. It is now revealed in the paper that Berkowitz is stating that he belonged to a cult, but up until this time he never explained what it was. He's now in prison serving a life prison term, and I'd like to read this and ask Awareness if this has anything to do with information given previously.

"Berkowitz stated in the court deposition that the group's membership was evenly split, male/female. Among the dead members of the cult are John and Michael Carr, literally the sons of Sam Carr, Berkowitz's former neighbor. The cult members were predominantly white and predominantly white-collar workers, with about seventy-five percent of the membership located in the New York City area. The cult had three officers, one a woman, and wore special costumes. Berkowitz said he obtained sexual favors from female members of the cult.

The cult members killed animals as well as humans. Berkowitz said it was his understanding that other members of the group had killed in non-Son of Sam cases. He contends that he was the hit-man for this killer cult, and I'd like to ask Awareness, does this tie in to the information given about John Todd, or some of these other cults that had been mentioned earlier, with the Satanists, the Luciferians working through them?

COSMIC AWARENESS:

This Awareness indicates that this not linked directly to the information associated with John Todd and his expose of the witchcraft covens of the Druids. This Awareness indicates rather this appears to be an isolated organization, but one which is linked closely to Dark Forces; this appears to be associated with a Satanic cult in New York. This Awareness indicates that (these,) the organizers of this cult appear to have broken off from another cult of satanic worshippers. This Awareness indicates that it is rather appalling that these forces are attractive to entities, that it appears they gain attention and interest for the intrigue of what appears to be mystery and potential power, the thought of flirting with danger as that which intrigues some entities to investigate or become involved in such areas as satanic and Luciferian cults.

This Awareness indicates that the fine line between metaphysics or mysticism, and Luciferian and satanic cults is that which needs to be better understood, but it does not appear that it can be understood by entities who do not have some understanding of the occult in general. This Awareness indicates that the word "occult" means that which is hidden. This Awareness indicates that which is hidden is the knowledge which is associated with the metaphysical symbolism which is used by the esoteric teachings of the great religions, and also by the esoteric teachings of the Luciferian and satanic cults.

Satanic Groups Use Metaphysical Forces for Personal Power

This Awareness indicates that these Luciferian and satanic organizations use these forces of metaphysical concepts for purposes of division and of personal power over others without regard for the rights of others. These entities' concern is in gaining power, rather than in learning and using that knowledge for the benefit of

humanity. This Awareness indicates that entities involved in metaphysics, who avoid the lure of power seeking, may gain an understanding of these forces; the power of ritual, the power of unseen forces, without seeking personal power over others, and in this understanding, these entities may be of great benefit to humanity.

This Awareness indicates that those who seek to enter into the secret societies whereby these powers are misused, such as the Luciferian and satanic organizations by whatever name; these entities find themselves surrounded by cohorts who are determined to work together only for the purpose of power through the numbers of their membership. The action being that which serves the individual by being involved with the gang. This Awareness indicates that this *does* serve a purpose of assisting entities within these covens or organizations to rise in power within the ranks of the organization, and if the organization penetrates into society and its structure, then these entities can rise in power into these areas as well.

How the Law of Karma Fits in

This Awareness indicates that there is however, that Universal Law whereby entities involved in separative personal power seeking, who harm others or support activities which harm others, these entities in time will suffer an equal and opposite reaction, so that whatever karma they have earned through their actions will be experienced by them at one time or another. This Awareness indicates that these entities often do not believe or recognize the *Law of Karma*, and recognize only the potential of power, therefore, it is useless in some instances to attempt to convey such concepts to these entities.

This Awareness indicates however, *It* wishes to warn entities who are contemplating studies of metaphysical nature, studies of the psychic realms, studies of the occult, to be very wary and cautious of any kind of lure, solicitation or entrapment that promises you power over others, if you take their course, or follow their directions, for this attempt to have power over others simply is that which can lead into areas of the Black Arts, whereby you may suffer untold consequences for the involvement which could follow. This Awareness indicates this not to mention the harm that could be done to others because of your actions.

This Awareness indicates that it is for this reason that many entities, particularly the fundamentalist Christian types, are extremely opposed to anything of a psychic nature, believing that all activities in this area must be of Satan's doings. This Awareness indicates that this approach is as absurd as to believe that anyone who studies mathematics must be an agent of Satan, because mathematics has been misused in many creations of weapons of destruction or in other forms of inhuman operations.

This Awareness indicates that the elements and tools of metaphysical teachings and symbols are but another alphabet, another system similar to a system of mathematics, a system of law, a system of symbols, a system for thinking, and this system can be misused, or can be used for greater abstract understanding of principles that serve humanity. This Awareness indicates that it is how the tool is used that is of concern, and not whether one possesses a tool that creates possible misuse.

This Awareness indicates that an entity who has a knife has a tool which could be of great destructive force, yet it is not the tool, it is the *use* of the tool that would create the destructive force. This Awareness indicates the entity who has a knife may rather use this

tool for a great carving, a great work of art, or for cooking a magnificent meal, or for surgery that saves the life of an important individual. This Awareness indicates that it is how the tool is used; that fundamentalists who would condemn the tool of metaphysics or psychic realms are blinded by the misunderstanding of this concept of the use of the tool, rather than the tool itself.

This Awareness indicates that likewise, the study of Astrology as that which can be of great benefit to entities, that some entities use astrology in order to give themselves greater advantage over their enemies, and to take advantage of others, thus misusing the art. This Awareness indicates that astrology can serve as a tool which allows an entity to have the advantage of knowledge without harming others, just as a weather forecast can give you advantage to know whether or not to pursue a certain action that day, or whether to wait for a more favorable day. This Awareness indicates that an entity who seeks a weather report for the purpose of gaining advantage over an adversary is similar to the entity who uses astrological information in order to gain advantage over an adversary.

This Awareness indicates that these actions carry their consequences of a karmic nature, not so much because of the tools, but because of the *attitudes* which are behind the motive, and the competitiveness between the entity and his adversary.

The Black Arts—The Forces of Night

This Awareness indicates that in terms of the use of Black Arts in order to gain advantage over an adversary; this as increased in levels of karma because of its deceptive and hidden use of Forces of Night, which are forbidden for use of destructive purposes. This Awareness indicates that entities who indulge in the use of these forces for destructive purposes court greater karmic reaction than those who openly are competitive with each other.

This Awareness indicates that this largely is in that the Forces of Night begin to overtake and possess the soul or being of the entity who plays with these forces in this manner to harm others. This Awareness indicates that the use of these Forces of Night, or psychic energies, wherein they are not used for harming others, these are energies which are reserved for the adept and those who have reached higher understanding, whereby these forces can create alchemical changes in many levels of consciousness for the good of humanity. This Awareness indicates that these forces of psychic, or that which is the Force of Night; these forces of night are those which can be used for great things when mastered properly. This Awareness indicates that an entity cannot master the forces-- cannot properly master the Forces of Night without having absolutely pure motive, without any effort or intention of harming others through the use of these energies.

This Awareness indicates that entities involved in the Black Arts are essentially those entities who play with the Forces of Night, or what may be called the Psychic Forces, but whose intentions and motives are to do harm to another, in order to preserve or to enhance one's own position, or for the enjoyment of seeing another harmed, or for testing one's power. This Awareness indicates that entities who play with these forces in this manner, with motives that are not of the highest, are inviting the demonic Forces of Night to take over their own being. These forces serve as mirrors overpowering the individual. These Forces of Night collect the guilt and karma of entities, and thus magnify these energies, and when taking over an entity, can become quite potent, driving

out the inhabitant of the body so that it appears a demon has moved into possession of that body.

This Awareness indicates that this as an extreme situation, but not as an unusual situation, as there are many instances where this has occurred. This Awareness indicates that entities who find themselves moving into these directions, wherein the Forces of Darkness appear to be taking over their being because of motives which are not of the highest, may call upon the Light Forces, the Forces of Light, the Forces of Unity, and those names which are held sacred; the saints, the angels, the deities which entities may believe in as most sacred, and thus, in calling upon these entities, may assist to remove the Dark Force through that which is known as exorcism.

Using Exorcism to Remove Dark Forces

This Awareness indicates that in some cases, these forces gain such control that they cannot be exorcised, but in most cases, the exorcism can be accomplished without great difficulty by the use of proper ritual or communicated suggestions and prayers, or imagery to bring about the removal of those forces and to purify the motive of the individual so that the psychic forces no longer are associated with efforts to gain power in any way over another entity, and whereby feelings of guilt can be alleviated, and self-esteem restored.

How the Ritual of Exorcism Works (Tap Dancing When You Make a Cherry Pie)

FOLLOW-UP QUESTION (AVATON):

Would Awareness explain a little how these forces are actually repelled by a ritual of exorcism?

COSMIC AWARENESS:

This Awareness indicates that all rituals are nothing more and nothing less than suggestion. This Awareness indicates that the communication of a word carries an idea or image from one who communicates to one who receives that word. This Awareness indicates that the entity who speaks a word that has no message or meaning to another, fails to communicate. This Awareness indicates that wherein the word has meaning, some communication may occur, depending upon the interpretation of the word. This Awareness indicates that wherein the word is deeply understood by the entity receiving the word and the reception of its meaning is the same as that which was given by the speaker, then this word has been completely and accurately communicated.

This Awareness indicates that if the word is specific, then a specific meaning is communicated; if the word is general, then a general meaning has been communicated. This Awareness indicates that likewise, a motion, a motion of one's hand can communicate a message, and if this is communicated properly, the entity receiving the message properly, then the communication is successful. This Awareness indicates that if the motion is not understood, then there is some confusion as to whether the motion means this or that, or just *what* it might mean. This Awareness indicates that wherein a particular ritual has been designated for a particular purpose, and entities move through this physical ritual, involving themselves in a physical movement which conveys a purposeful communication or message; for example, this is the tap-dance which is to be used before making a cherry pie. This Awareness indicates that if this ritual is indulged in--every time the mother makes a cherry pie, the child grows up learning that when the mother tap-dances in this manner, the mother is going to make a cherry pie.

This Awareness indicates that this ritual then becomes meaningful to the child's consciousness and the child immediately feels the force of the cherry pie. This Awareness indicates that likewise, later on, when the mother is gone, and the child eats a piece of cherry pie, it will also feel the force of the mother. This Awareness indicates that the linking of the ritual with the purpose of the ritual becomes that which is of great significance to the conscious and subconscious aspects of an entity's being.

This Awareness indicates that therefore, in religious matters, or in metaphysical rituals, or even in dark satanic type rituals, wherein a physical action is indulged in, in a purposeful and meaningful ritual, that purpose and that meaning is instilled in the consciousness, while the action is instilled in the nervous system, or subconscious mind of the entity.

This Awareness indicates that wherein this ritual is repeated, the message becomes greater in both conscious and subconscious levels. This Awareness indicates that whatever the ritual is symbolic of, the message is penetrating both conscious and subconscious levels. This Awareness indicates that in terms of religious symbolic rituals, wherein an entity kneels before the cross, or kneels before a statue, or kneels before an image of a deity, this action of kneeling, as a ritual, brings together the subconscious along with the conscious imagery, and links these two together so that mind and body, or mind and soul, are one.

This Awareness indicates that this is often expressed as heart and soul, or body and soul, or head and heart, but that essentially it is referring to conscious and subconscious energies being merged. This Awareness indicates the physical action as that which affects the subconscious memory. The image and the concept as that which is associated with the mind. This Awareness indicates that this in reference to the conscious mind. This Awareness indicates that these being merged, conscious and subconscious, through the use of a ritual, enhance the power of the concept, because then you have the support of the subconscious mind, as well as the conscious mind.

This Awareness indicates that this is an important method of gaining support of the subconscious mind. This Awareness indicates that wherein entities wish to look at this in terms of an image of one who does not have this support; this Awareness suggests you visualize an entity whose conscious mind wants to do "this", but the subconscious wishes to do "something else". This Awareness indicates for example, one who consciously wants to go on a diet, but subconsciously wants that piece of cake. This Awareness indicates that here you have an entity whose conscious and subconscious minds are at odds with each other.

This Awareness indicates that wherein these are at odds with each other, you can have situations whereby there is no control in this being, because neither is in harmony and the house is divided. This Awareness indicates that in order to have control, one must be in harmony with one's subconscious, or at least have some form of rapport with it. This Awareness indicates therefore, the use of some form of ritual for training or bringing the subconscious into support for the conscious mind; this is that which is important.

The Symbology Of The Genie in the Bottle and How it Affects the Male/Female relationship

This Awareness indicates that the subconscious mind yielding its support to the conscious mind, as that which not only assists by not being rebellious, but also lends great energy, for the subconscious mind is likened unto

the genie in the bottle, much more powerful than even the conscious mind. This Awareness indicates that within this symbolism, there is also the pattern or the analogy of the perfect marriage of man and woman.

This Awareness indicates that the conscious mind as symbolic of man, man being the aggressive energy which is outgoing, thrusting and moving in its expression; woman being that energy which is receptive and which is supportive. This Awareness indicates that in a perfect harmonious match of man and woman, the woman keeps her individuality but yields her support to the man, not necessarily approving of everything that he does, but rather as supporting what he does and giving guidance and direction where needed. The woman serves as a conscience to the man so that he does not get too far out of line according to those directions which she senses to be proper.

This Awareness indicates the man in return is supportive of the female, and gives his energies to protecting her and to nourishing and serving her. This Awareness indicates this as an ideal relationship between both conscious and subconscious mind, and the male/ female relationship of an ideal and harmonious marriage.

This Awareness indicates that wherein the subconscious mind seeks to rule by imposing its appetites over the male, or creating a mood which overtakes the male consciousness, the conscious mind falling to moods induced from the subconscious; this becomes an action of error, just as it is an error in the ideal marriage when the feminine begins to attempt to overcome and overpower the man, to usurp his expression and put him into a subordinate role, whereby he supports her, she battles for power and demands that he support her in her search for power and expression. This Awareness indicates that this begins the nagging and conflicts which lead to eventual break-up and conflict of the relationship.

The Purpose of Ritual in Marriage Relationships

This Awareness indicates that in terms of the ritual involved, the purpose of ritual, of marriage, or of any ritual designed to create a particular purpose; this action of a ritual is that which is intended to bring about a harmonious relationship between the male and female energies within an individual, or between individuals. This Awareness indicates that wherein there is a concept, such as the desire to build a structure at a particular place, the statement: "We are going to build a church here," is nothing but empty words until someone takes an action.

This Awareness indicates that wherein the entities take a shovel and go out and break ground in a ceremonial action, this then begins the symbolic ritual which tells all levels of the subconscious, that the conscious intention is now in motion, and the action, the action of the body, the physical work can now begin. The mind has developed the plan, and the physical labor of developing the reality may now begin.

How the Property Deed First Came About

This Awareness indicates that in older days, a deed was not signed conveying property from one person to another, for entities did not know how to write, and these deeds were not always written on paper, but they had a ceremony whereby they would meet together at the property in question, and one entity, the one who owned the property, would reach down, pick up a handful of earth, and hand it to the new owner, thus symbolically transferring the property from one entity to another. This action was called the "deed". This Awareness indicates that this way of doing the deed as that which conveyed the property in a ceremony, and

these entities always brought along witnesses, to witness the transfer of property in this manner.

This Awareness indicates that throughout history in all levels, you will note ceremonies and rituals which convey significant concepts and meanings. This Awareness indicates that it is not limited strictly to psychic fields, or metaphysical fields, or the Dark Arts, it is simply that the metaphysical fields have made a study of rituals and their effects on the mind. This Awareness indicates that some of the most profound metaphysical information is available in modern psychology and the studies of symbols and rituals, which is available through these studies.

This Awareness indicates that entities who would condemn metaphysics, should also throw out the psychology books, which deal with the study of the mind and of rituals and their effects on consciousness. This Awareness indicates that this indeed would allow these entities to conduct their own rituals without understanding, and therefore, the self-assurance and self-righteousness that everything was alright, because no one understood what the rituals were all about.

The Dangers of Playing with Rituals

CLOSING MESSAGE:

This Awareness indicates that the dangers of playing with rituals is only in terms of one's motives and in terms of one's use of rituals which are designed for certain purposes which are greater than an entity can comprehend. This Awareness indicates that wherein entities can understand the rituals or can experience the rituals without difficulty, or without adverse reaction, and with the proper motive, these rituals can become very important and beneficial in unifying one's consciousness so that the conscious and subconscious aspects of an entity are harmonious.

This Awareness wishes within a reasonable time, that *Its* development classes could be presented through the Aquarian Church so that *Its* rituals would be made available to those who are inclined to partake of these. This Awareness indicates that it appears this can be forthcoming when the legal difficulties have subsided and the entities involved can focus their energies toward this purpose.

This Awareness suggests that these entities may form together circles for rituals that will enhance this possibility. This Awareness suggests that these entities may also consider more seriously the use of rituals for warding off unwanted forces and for bringing in forces that allow greater cohesiveness to the organization and its development and its projects.

WHEN THE REPUBLICANS TAKE CONTROL OF CONGRESS

QUESTION:

A question from Chris Chandler, Piercy, CA. He writes: "I read the last *Revelations* newsletter and am a bit perplexed. Awareness spoke as if there is this great change taking place with the Republicans taking control of Congress. I see this "great change" as just the next step toward the decimation of the human population, being orchestrated from behind the scenes by the same old controllers.

"As long as the public is not told the truth about the international bankers sucking so much money out of the economy, there will be more and more people falling out

the bottom of the system, and the Republicans appear to be the ones to dispose of these fallen ones, so the bankers can continue to suck on the economy."

Would Awareness care to comment on this?

COSMIC AWARENESS:

This Awareness indicates that your evaluation is correct. This Awareness indicates that *It* did not mean to imply that this was a great change for the better. *It* meant to imply that this was a great change in the sense that there would be both some positive and some negative, but it would create a greater awareness on the part of the masses as to what is happening in terms of the stability in this country.

This Awareness indicates that for those who are seeking to get back to the true American values, or those values espoused by its Constitution, there will be some movement in that direction by some of the political programs presented by the Republicans, but at the same time, there are also some very selfish activities in these programs that will benefit only the super-wealthy.

The Intent: To Advance the Upper Class at the Expense of the Lower Classes

Much of what is occurring is intended to advance the upper class at the expense of the lower classes, and therefore, a polarization may take place in regard to these influences. This Awareness indicates that part of the problem is that the little people of this country have long carried a karmic disadvantage and the super-wealthy have built their wealth on the backs of the little people, the slaves, the servants, and they have benefited greatly by keeping these people in a lower status.

This Awareness indicates that in the efforts to help the masses of people who have not the means to promote themselves in the same way as the super-wealthy, the Democratic party has attempted to equal the playing field so that the masses of poor people have a better chance in the game of life.

Democrats Created Programs that Made the Poor Dependent

This Awareness indicates that in doing so, they have created programs that have led many of these people to become totally dependent on government agencies or government programs that feed and clothe them, and in so doing, the bigger government has become a substitute for some provider of the needs of entities, without really teaching these entities how to provide for themselves.

Had the government created more programs to allow entities to work or to do things in such a way that they could benefit themselves economically, rather than becoming dependent on some dole that is handed out, these entities would have learned more about providing for themselves.

This Awareness indicates it is likened unto the old saying: "Teach a person to fish, and they will be able to provide for themselves throughout their lives, but simply giving an entity a fish only feeds them for one meal."

This Awareness indicates that the government has created programs to feed the hungry, but has not taught them how to feed themselves, and this has created enormous numbers of entities who are totally dependent on government programs.

This is an argument the Republicans use when trying to get rid of the Welfare programs; however, the Republicans have little or no interest in creating jobs or in creating situations or programs that will help entities to learn to become independent. They simply want to cast them out of the Welfare programs and let them sink or swim on their own.

This Awareness indicates that it is not a compassionate approach. It is more of a selfish effort to keep the coffers of government filled, and not give out anything because that would require refilling the coffers with more taxation. Therefore, neither of the parties works effectively for the poor, for the needy in this country.

This Awareness indicates however, change has occurred, and change will lead to further changes in the near future, as entities begin to waken from their status quo and move into a realization of what they must do to become more financially independent. This Awareness indicates there are many entities on Welfare who would like to get off of Welfare and join the work force, but they simply have not been given sufficient help to do so.

Welfare Programs for the Big Corporations but Not for the Poor

Any time they seek to get off Welfare, they are pulled back because they haven't sufficient money for child-care, or haven't any training and there are those who recognize the need to give, to provide a base from which the entity can work in order to find a job in the work-force, in order to have training, in order to have time to move into a job, whereby the children can be cared for while the mother works or seeks work. This Awareness indicates there is more to getting people off Welfare than simply pulling the rug out from under them.

This Awareness indicates there are many other programs designed to help entities that are likely to be cut. The Republican approach is to cut any Welfare or entitlement program that helps the small individual, but to keep intact the larger Welfare programs that help to promote the big corporations and weapons-makers, for in promoting the weapons-makers and the industrial complexes, the great corporations such as Chrysler, entities in the super-wealthy group receive government support, but these entities don't call it Welfare, even though it takes billions and billions of dollars out of circulation and puts it in the pockets of the super-wealthy.

Welfare Doles to the Military Industrial Complex Are Acceptable

This Awareness indicates that this is a form of Welfare, whether it is called Welfare or not. This Awareness indicates that there is a kind of heartless attitude toward the poor, as though they don't count or they don't matter, or they don't deserve help, but whereby huge amounts of money, in the billions, can be paid out to large companies that contribute to the military or industrial might of the country, these doles or Welfare grants to these companies are seen as all right, because so many wealthy people benefit from the growth of these great corporations.

This Awareness indicates that these people who have the great wealth have great influence, far more influence than the Welfare recipient, and therefore, they see themselves as being more important in society than the Welfare recipient or the person who is working for some agency that creates jobs for poor people. These are not seen as influential entities.

They have a vote, perhaps, but they don't have much influence beyond their own individual vote, whereby the great corporate tycoons and leaders have greater influence in the manipulation of the country, and therefore, they see themselves as being of greater importance to the country than is the Welfare recipient.

It is for this reason that their claim to government entitlement seems more justified to them than the claims of a mere consumer who has little influence in society, who is simply trying to survive.

This Awareness indicates there is a great disparity in this country even yet, and this is seen as that which may

begin to change as entities become more and more clear in regard to the disparity and the needs of one another. This Awareness indicates that *It* also suggested these entities would find it is not as easy as was expected at the time of the collection.

This Awareness indicates already, the Republicans have run into considerably more resistance than they anticipated in regard to some of their pet projects.

A Call for the End of American Public Education (The "Revolutionary" Age of Cheap Labor Is Here)

QUESTION (AVATON):

In this week's *New Federalist* newspaper, there's a notation that Milton Friedman, who is a very famous economist and friend of presidents, has called for the end of American public education, arguing that post-industrialism and free trade have ushered in the "revolutionary" age of cheap labor. Does Awareness see anything to that?

COSMIC AWARENESS:

This Awareness indicates that Henry Ford was one of the entities who originally argued that public education was mostly for training entities to work in the factories, and that the education should be tailored for that purpose, not to create highly intelligent children, but to create children intelligent enough to work in the factories.

A Benefit for Those who Would Enslave the Masses

This Awareness indicates that this remark by Friedman appears to be a kind of echo, updated to the present or modern era of industrial needs. This Awareness indicates that it would be tragic if public education ceased, because entities within a generation or two would not even know how to read anymore. The majority would be illiterate. It would be seen as a benefit to those who wished to enslave the masses, because if entities cannot read, they are much easier to manipulate. There is less sharing of ideas, less communication with entities.

Why Johnnie Can't Read

Already, the reading ability of people in this country has been greatly damaged by the new educational approach that began in the Sixties, the "see and say" approach as opposed to the phonics programs wherein entities are taught to sound out words. Many of the entities graduating from schools today cannot yet read, simply because the "see and say" approach does not work well with entities.

This Awareness indicates that some entities learn from this approach, but a great number don't learn to read at all, whereas the phonics method, when taught in the Thirties, Forties and Fifties, such entities who studied phonics for reading, all learned to read, even if not perfectly.

This Awareness indicates that if entities have the public school system dismantled, it will be a way of destroying the intellect of the country, except for those in the higher economic strata, so that slowly, over a period of one or two generations, the gap between the super-rich and the super-poor will widen greatly, and the number of the super-poor will multiply itself in enormous numbers.

It would be *absolutely tragic* if this were to occur.

"TIME SHEETS"—GOING FORWARD IN TIME**QUESTION**

A question from Patricia Miller, in Ohio, she writes: "Diane Tessman in her book *Star Network Hot-Line* has mentioned several times about Time Sheets. "The Space Brothers have a method of laying down Time Sheets that involves a formula of mass, space, gravity and time."

"She gave an example of the 1908 Siberian explosion which is unexplained in conventional terms, since it was a nuclear explosion before the time of nuclear weapons made by humankind. A Time Sheet was superimposed by the Federation on a missile which had been launched in the late 1980s. It was a faulty accidental launch that could have plunged earth into war. The Federation entered it into a landing zone in and above Siberia which led it into the Time Sheet of 1908." This averted war and minimized loss of life.

"She also told of a more humorous example in her own life when she and a friend entered a restaurant by a side door. After eating supper, they got up to leave the restaurant only to discover there was no side door.

"Billy Meiers, in one of his videos on Pleiadian space ships took a picture of a UFO above a tree. When he returned to the field later, the tree was missing and even the owner of the field could not remember the tree. The Space Brothers told Billy that they accidentally killed the tree so they "removed" the tree to a different time zone, where it would not be damaged and it would still be alive.

"Isn't this an example of a Time Sheet? How come some people are aware that some anomaly exists so a Time Sheet may have occurred, but others are not aware of it? I find this concept fascinating. I have tried to lay down a Time Sheet in my own past, to create an alternate reality.

"Could Cosmic Awareness comment on the possibility of creating an alternative time-line in one's own life? Are there positive or negative consequences? And could Cosmic Awareness give other examples of Time Sheets that have happened on earth?"

COSMIC AWARENESS:

This Awareness indicates that this kind of tampering with your accepted reality, or that which is generally accepted in your culture as reality, can create a distortion in your view of reality that would cause you to not fit in your culture, if you pursue this kind of thing too far, to where you are seeing or speaking of things that are not present for others in your culture.

This Awareness wishes therefore to warn you about the dangers of playing around in this activity. This Awareness indicates that there have been discussions by entities in the Montauk Project wherein they moved through time into the past, even into the future. This Awareness indicates that this as being promoted in conjunction with a project known as the *Philadelphia Experiment*.

A movie was made reflecting concepts from this information acquired in the research of the Montauk Project; this referring to the *Philadelphia Experiment*. A book also was written in this regard. The entity whose last name is Bielek lectures on this occasionally on radio and in seminars or conferences, traversing the country, and appears to have written articles on the subject as well.

This Awareness indicates that these are sources you may wish to read and study or research in your pursuit

of further information in regard to time shifting, or the movement forward or back in time.

FOLLOW-UP QUESTION:

The two examples this entity gave, of people entering a restaurant and there was no door, and Billy Meiers' tree; are these true examples of time manipulations?

COSMIC AWARENESS:

These would be good examples of time manipulation. This is in the affirmative.

WHAT DO THE GREYS NEED FROM CATS?

(The Half-Cat Phenomena)

QUESTION:

A question from Robert Smith, Vancouver, British Columbia. He writes: "On June 4th, 1994, UFO investigator Linda Moulton Howe gave a very interesting slide-lecture here in Vancouver titled the same as her then-latest book *Glimpses Of Other Realities*. Among many other things she shared information about the half-cat phenomena.

"It seems that the Greys want certain of the innards of our kitties, and so cut them in half with a highly advanced laser beam and take whatever parts they want. For some peculiar reason the Greys always leave behind either the front or back part of the cat in plain view, such as on a front door mat or lawn.

"Miss Howe said this type of mutilation has happened in Alabama for the 18 months prior to her lecture in Vancouver itself. What exactly do the Greys need from cats, and why? And are they still cutting them in half? Will Awareness tell cat lovers how they can help protect earth kitties from the Greys?"

COSMIC AWARENESS:

This Awareness indicates that it appears there are certain digestive acids that the cat has which are relatively unique and which can be used by the Greys for some of their needs. This Awareness indicates that *It* does not see details on this at this time. More energizing may be available in the future for greater detail.

This Awareness suggests that there is little that can be done for protecting your cats from aliens if the aliens should decide you have a special cat that they need for this purpose. This Awareness indicates, however, your chance of having your cat stolen by an alien is extremely remote and not worth worrying about, because the rarity would be so remote.

It is more unlikely than winning the Lotto or being struck by lightning.

WHY THE INCREASED ANIMAL MUTILATIONS?

(Now It's Goats They Remove Blood From)

QUESTION:

In a letter from Richard S., of Grant's Pass, Oregon, he writes: "There is also an apparent rapid increase in cattle mutilation. This is an aside, but just last week in fact, a fellow employee of mine described to me how a rancher, living just outside of town, had a few days earlier discovered one of his goats lying dead with a perfect circle incised from its belly and organs missing.

"Typically, there was a great loss of blood, but not a drop in sight, nor were there any tracks or other obvious signs. The animal control rep was called out and summarily attributed the deeds to predators. The rancher though was unconvinced, so to prove his point, the rep sprinkled white powder all around the carcass with instructions for the rancher to leave it there over night.

WHO IS THE "NEW MESSIAH" WHO IS COMING FROM THE EAST?

QUESTION:

A question from Nicholas Lucia, Oak Park, Illinois. He writes: "The winter issue '95 of *The Heartland*, a regional Cayce publication, carried the enclosed ad. The ad states: "A future visit to the Chicago area of "the Great Initiate." Actually, the ad reads: "Ancient Egypt and Atlantis; the Great Initiate returning, with John Van Auken and Ahmed Fayed, July 29th-30th, 1995, Chicago area. Plan now to attend."

And he goes on: "Ahmed Fayed and John Van Auken are listed as sponsors. The Egyptian name recalls an Awareness warning of a "New world teacher comes to power in '93." CAC issue #429 tells of a "New Messiah" born in Egypt. He is to be more of an Anti-Christ than were Napoleon and Hitler. This particular reading warns of the "New Messiah's" sophistication, words and promises and duplicity.

"My question is: Is this Great Initiate returning the "New Messiah," and if not, will Awareness comment on what message he brings from ancient Egypt and Atlantis?"

COSMIC AWARENESS:

This Awareness does not wish to point fingers at teachers or entities who promote themselves for purposes of their own. This Awareness indicates that it is not the purpose of this Awareness to sort out the good guys from the bad guys, or to label people good or bad with names such as Anti-Christ or Messiah.

This Awareness suggests that you may wish to check out this entity in terms of his message. If this message suggests entities surrender to the Highest Deity, the Creator of the Universe, the Divine Spark; if this entity's message suggests that entities should love God, then the message may be something you will want to pursue.

If the message is that they represent God, or a God, or need your worship or your money because it will benefit you, then you may wish to be more cautious. If the message is that you are to give up and sacrifice areas of your life and follow them, then you will want to be very cautious and suspicious.

Check Out The Message of Those Who Claim Divinity

This Awareness indicates that entities need to learn to be very discerning and to discern whether a message is something that represents Divinity, or something that seeks to lure you by promises which are backed only by claims. When it comes to spiritual messages, if all the entity can do is make claims of Divinity, then you should be suspicious.

If the entity carries a message that helps to direct you to the Divinity, so that you can find your way to Divinity by surrendering yourself to higher frequencies or higher spiritual energies, surrendering to God, then the message may be something pure and meaningful.

This Awareness asks you, however, how many times do you need this message and from how many different teachers? There are many teachers. Some carry this message and some carry other messages. Many of these messengers or teachers simply carry messages that lure you to be a follower of them, and this is that which needs to be looked at very suspiciously.

Beware of the Spiritual Con-Man Who is Everywhere

This Awareness suggests if they suggest you follow the Divine, if you are admonished to follow God or that which is the highest Divinity you can conceive of, the message is probably quite true. If however, they

"When they returned the following day, the carcass was gone, and the flour was undisturbed. My co-worker believes it to be the work of Satanic cultists who live out in the hills. I asked her if strange lights are ever observed in the area. She said they are seen frequently. I told her I had a different belief as to who the perpetrators might be. "Who do you think it is?" she asked. "Aliens," I said matter-of-factly.

"Surprisingly, she said she believed that was also a possibility. But most of the livestock mutilation reports now surfacing describe black unmarked helps ...

COSMIC AWARENESS:

This is a reference to helicopters.

QUESTIONER:

Oh. Okay... "helicopters cavorting in the same areas as the UFOs, sometimes right along side. According to a new theory, which is gaining popularity, the reason behind the renewed activity, is that the world superpowers are now in a dead-heat race to develop a viable synthetic, or substitute human blood plasma that has an extended shelf-life. With the assistance of their respected legions of Greys, they are close to succeeding.

"For obvious reasons, whichever side is first to succeed will have gained a distinct advantage over the other. Can Awareness shed any light on this new surge in cattle-cutting activity, and the theory being advanced?" And I might add, why are they mutilating goats now?

COSMIC AWARENESS:

This Awareness indicates that the Lawrence Livermore Research Center, about two or three years ago, came forth with information regarding the discovery of a way to use cattle blood for human blood transfusions, using the plasma from cattle blood that had been specially treated for human blood transfusions, and it appears that this is related to these further cattle mutilations.

It is also a part of the UFO activity to drain cattle blood for their vats in which they bathe and absorb nutrients from the blood. This Awareness indicates that the use of goat blood is uncommon, and appears to be in relation to experiments that may have been derived from other cattle mutilation experiments using blood.

Satanic Cults Often Sacrifice Goats

This Awareness indicates that the Satanic cult activity often makes use of goats, for goats are symbolic of Satan or Pan. The church having distorted the concept of Pan, the Greek God Pan to be symbolic of Satan, which in modern Satanic symbolism is personified or symbolized by the goat, and many Satanic worshipers will use the goat as a sacrificial creature.

This Awareness indicates that this example, however, does not appear to be related to Satanism. It appears that it was some kind of extended research, along the lines of the other researches in relation to blood from animals being altered for use by humans.

This Awareness indicates the discussion of cattle blood and human blood as being quite similar has been given before. That in fact, the human can endure one transfusion using cattle blood if a second transfusion uses cattle blood, it would be extremely dangerous to the human, but with the new experiments in the Lawrence Livermore Research Centers, this may be changing as new research unfolds in this area.

JOIN THE WORLDWIDE MEDITATION FOR WORLD PEACE EVERY FRIDAY AT 9: PM

admonish you to give up your life to them and follow them, or to work for them in promoting them as a Divine being, this is most likely the spiritual con man in operation, and there are many of these entities loose in the world at this time.

This Awareness indicates that some of these entities may even believe their own line of misrepresentation. It is not hard to convince an entity that he is Divine, if the entity is willing to be flattered and is conceited and vain enough to think he is Divine. Therefore, some of these entities believe the lies when told by others that they are Divine so you may have entities playing the role of a Divine personage with an organization of Yes-men promoting them, and perhaps the entity playing the role of the Divine is very pious, but likewise, the Yes-men promoting and organizing the movement may have the corrupt ideas that seek to keep power or wealth from using the Divine entity, from promoting the Divine entity's teachings.

This Awareness indicates that it is important to be very cautious about finding Divinity in people who reside in physical bodies. In most cases they are quite human and have quite down to earth experiences and needs and though they may be spiritually inclined or may have spiritual evolvment, they should be looked at suspiciously if they begin to think of themselves as gods or God-realized people or entities who are superior to others.

If they begin to act in such a manner as though they were gods, and if their organization makes efforts to take control of your life or your wealth or your ability to make decisions or to think for yourself, you should be very cautious about accepting them blindly.

WHO IS PRINCE ABDUL-BERRABA BAHA?

(More On The Bahai Religion)

QUESTION:

A question from Alice Bockus, Littleton, CO. She writes: "In 1985, Dr. Frank Stranges of National Evangelism Crusades wrote a little booklet called *Mystery Plan of Darkness Number 666*. In it, he discusses the Anti-Christ and goes on to talk about Prince Abdul-Berraba Baha, born in Mecca. He performs miracles and has a powerful personality and magnetic force within him. He is a member of the Bahai faith which has embraced the prince as a Mu-Ti, which literally means God Almighty.

"While Joseph Stalin was alive, they signed irrevocable documents to place the prince as first-ruler of the planet when the time arrives. According to Dr. Stranges, he will deceive nations and make many false promises. Dr. John Stollenbeck, Biblical scholar and world explorer, was one of the few westerners permitted to witness the "miracles" performed by the strange prince. However when Dr. Stollenbeck left the Middle East, he was followed wherever he went.

"He Planned to publish the facts about this prince, but before he could, he was found slain in a hotel in San Francisco." And her questions are: "Who is this prince, and what exactly is his role in world events in our future? And why was Dr. Stollenbeck slain?"

COSMIC AWARENESS:

This Awareness indicates that the Bahai religion believes that every 600 years a new messiah appears. This Awareness indicates that this religion stems from the Mohammed religion, and believes that Mohammed was one Messiah, and that every 600 years another Messiah appears, and that Abdul Baha is now the present messiah.

The Bahai Religion Teaches Entities to Study All Religions

This Awareness indicates that the Bahai religion also teaches entities to study all religions and suggests that when you have studied all religions, you will then be a Bahai and suggests that you may then wish to study the teachings of the Bahai religion. It is a good marketing ploy, for if you study all the religions and are thoroughly confused by all of the different claims, and then study Bahai as the alleged "true" religion, it is quite common for entities to accept the Bahai religion. It actually has nothing truly offensive in it. It is not extremely fanatical, it is not filled with hostility, nor does it make entities radical.

The teachings are moderate and suggest entities live a decent life. This Awareness indicates that obviously, it is not something that Christians would appreciate or promote, because it would put Christianity in a strange position of having a Messiah that is far outdated in terms of the 600 year cycle, for Christ was before Mohammed. The Moslems would not appreciate this religion because it outdates or puts Mohammed out of date.

This Awareness indicates there are actually quite a number of Bahai's in society around the world. They are rather moderate living people, and seldom do anything in extreme and are relatively quiet in their religious expression. Because they are admonished to study all religions, they can talk to entities clearly from whatever religious viewpoint they happen to be discussing.

They do not fanatically try to push their religion on others. This Awareness indicates that the so-called "Prince" Abdul Baha of the Bahai religion does not appear to be living at this time, unless it is a new version. It appears that the Abdul Baha of the Bahai religion lived in the 1800s, and there is considerable information about this entity in the Bahai religious teachings, stories of him as an Arab warrior, able to take his sword and cut through extremely heavy armor or shields of the enemy.

The entity was basically a warrior at one phase of his life, wherein certain Moslems were out to slay him and he was put in a position of having to fight, or choosing to fight for his life, wherein his sword was considered by many to be magically endowed with a great energy that made it more fierce and capable than the swords of others.

This Awareness indicates that these are the types of legends that often spring up in various countries around folk heroes or religious heroes, according to the values and beliefs of that particular religion, and may not have been based on any truth whatsoever, but may have been legendary stories to attract more followers to the entity's claim that he was the new Messiah for that time period.

This Awareness indicates that it does not appear that the present Prince Abdul Baha is even capable of the claim since the Messiah only appears every 600 years, and the Messiah appeared in the 1800s. This would mean that a New Messiah isn't due until 2400, or the 25th Century.

This Awareness indicates, of course, anyone who might gain some kind of control over the religion could perhaps change the literature to make the 600 year cycle appear to be current with modern time, but this would require changing all historic records of the past and this does not appear to be a feasible approach for the Prince if this entity is currently claiming to be the Messiah for this religion.

He could very easily be shown to be fraudulent and a false prophet.

WHY WAS DR. STOLLENBECK SLAIN?

(Things Awareness Must Do Before Answering Such Questions)

Follow-up question:

Why was this Dr. John Stollenbeck slain just when he was about ready to write about this entity?

COSMIC AWARENESS:

This Awareness indicates that it could have been from something other than the fact that he was about to write. The entity could have been slain for any number of other causes. This Awareness indicates that it is too difficult to attempt to focus in on this man's life energy to see where the entity's energy was at the time of the slaying. It would first be necessary to tune into the energy of this man who is no longer alive, and trace this energy back to his previous vibratory rate and then attempt to tune into his at that phase in his life when he was about to be slain and attempt to find out what was going on at that time in his life.

All of this would take an enormous amount of energy and there aren't enough people energizing to get an accurate reading of this particular situation, but this Awareness indicates that *It* does not see the energy necessary to answer such a question with the amount of energy available at this time and suggests that the slaying of the entity may not necessarily have been related to his plan to write a book.

WHO IS THAT GUY WHO APPEARS "OUT OF THE BLUE" IN NAIROBI AND THEN SUDDENLY VANISHES?

(More on Benjamin Crème's Maltreya)

QUESTION:

JD in New York asks: "Awareness, in your view, who is this guy who's been appearing "out of the blue" at Fundamentalist religious gatherings; the first such was at Nairobi, speaking to the crowds of peace, justice and sharing, and then vanishing in full sight of the astonished audience?"

COSMIC AWARENESS:

This Awareness indicates that this Awareness does not attune to this simply on this first introduction of the concept of such an entity being real.

QUESTIONER:

This is the entity whose exploits are described in the Benjamin Creme publication.

COSMIC AWARENESS:

This Awareness indicates that this appears to be the effort to promote stories, miracles, of the entity that the Lucius Trust and the Rothschilds seek to promote as the New World Messiah; this entity as having been at Findhorn in the Sixties as a young man, and having been promoted by Rothschild forces as a world leader in an effort to create a New World Order religion with this entity as the center focal point.

This Awareness indicates there are many people who really want to have a messiah appear that can answer all of their questions, bring them all of the magic, spiritual solutions and set the world right. This Awareness indicates that this entity has already used the Grandeur Water from Europe, which is water that has powerful healing properties which can clean lakes and rivers, and which is being marketed through different companies and organizations and can be purchased on the commercial market.

Crème's Maltreya Deceiving Entities With Grandeur Water

But this entity has taken this water into more primitive lands and unsophisticated areas to fool the people into thinking that when he puts the water into streams or springs, he has somehow spiritually transmuted the water into something totally miraculous for people using the water find it curing many of their ailments.

This Awareness indicates that this water does in fact help entities in terms of health, in terms of helping to cure their ailments, but it is not something that is exclusively the property of this entity, nor is it something that is making miracles from the entity. If the entity is claiming miracles for a water that exists commercially, is it not a kind of fraudulent action, and action of deception?

Is this the kind of activity a true Messiah or spiritual Master would promote? Or is it not simply someone using a higher technology than most people understand, like the entities who would take a flashlight or radio into dark primitive Africa in the 1900s, to fool the natives into thinking they had magical powers?

Grandeur's Living Water Technology is Demonstrated

This Awareness indicates that there is the activity of an organization in Canada with which the Interpreter has contact, whereby one of his close friends is an officer of the organization. The organization is referred to as Worldwide Living Technology and one of the projects is Living Water technology, wherein this entity took water down into Arizona to his brother's home and sought to demonstrate to his brother what can be done with the Living Water technology.

There was a swimming pool that had not been cleaned for five years in a neighbor's yard. The slime was so thick, approximately a foot deep in the pool, and entities could not even walk without falling down, let alone scrape the slime out. After long hours of trying to clean an area of the pool, they finally gave up and the Interpreter's friend suggested they fill the pool with water and he poured in some Living Water with the pool water. Within two days the pool was clear, was clean from top to bottom, needing no further scraping, having no slime in the pool at all.

This Awareness indicates that this Living Water makes use of a technology that comes from filtering through a particular type of pipe that is filled with Grandeur Catalyst Water that is found deep underground. It is a blue water when found deep underground, and a certain amount of this is put into the pipe in such a way that water running through the pipe runs between this water that surrounds the pipe in another housing, and as the ordinary water goes through the pipe, it picks up a certain frequency. You may call it "radiation" if you wish, but this frequency causes the ordinary water to implode.

This is not the same as exploding. It implodes. The molecules turn inward on themselves. The atoms turn inward, condensing much like the energy of a black hole condenses and implodes and energies come out effecting a complete change in the nature of the water, giving it a life force. This water then affects other water which it comes in contact with.

This Awareness indicates that in, it appears to be the November 1993 issue of *Scientific American* magazine, there is an article discussing a discovery by scientists relating to water being imploded, which they saw as a new form of energy to be used for military purposes. They did not consider in the article its potential for cleaning up polluted lakes or rivers.

The Grandeur Water in Europe was used to clean dead polluted waters in rivers and is now being promoted in

Canada for the cleaning of lakes and rivers that are polluted. It is even being used in some cases in sewage systems and septic tanks to assure that septic tanks in houses will not need to be torn out every decade.

This Awareness indicates that *It* mentions these things for three reasons, because in the near future, this technology and this water may be made available through the Goodship for entities who wish to use it, or the devices for purifying water to your home may be made available. Also, *It* mentions it to explain that some of these miracles are not actually miracles, but are simply technologies, and entities who would fool the masses by trying to play with technology and claim it is some kind of spiritual miracle to promote themselves as a Divine being, are being deceptive to the people.

This Awareness indicates that the other thing is, that the technology is indeed being used by entities for cleaning up the environment and can be used and made available to individuals for a price ranging somewhere between one and two thousand dollars, depending on the size and volume of water to be used, which can be put into one's home to change all incoming water into Living Water to enhance entity's health, to make sure that the water you bathe in is pure and healthy and to make sure that the water you drink and cook with is pure and healthy.

Another effect of this is that when the water goes out the sewage lines of your home, it helps to purify the rivers that it goes into. Therefore, this can have an effect on cleaning the waters of the earth as it is used by more and more people. This Awareness indicates that the question had to do with this so-called "Messiah," but in order to explain the entity, one has to understand one of his tricks, one of his ploys for promoting himself as a miracle maker.

To Vanish Mysteriously Is Not Proof of a Divine Being

This Awareness indicates that stage magicians, even early in this century were able to disappear before a crowd. This Awareness indicates that for this entity to rig some kind of process by which he could disappear is not proof of a Divine Being. It can be done with mirrors. It can be done with trap-doors and smoke. A puff of smoke and the entity disappears. He may have fallen through the floor, or the entity who appears before them may be a reflection in a mirror and all that is necessary for his disappearance is a movement of a mirror, a slight turn.

This Awareness indicates there are other ways whereby entities can create the illusion of disappearing. This Awareness reminds you of the entity; the name appears to be David Copperfield, or something close to that, wherein the entity gave the illusion of a hole in the Great wall of China, wherein the hole was not really there, but he was able to create the appearance that he had removed a large portion of the Great Wall of China. This entity being a stage magician of expertise in his field.

Ed's Note: The Goodship never did manifest the Grander water devices; in fact the Goodship is no longer in business. I did check the Internet, however, to see if Johann Grander's Inventions were available anywhere in the U.S. They aren't, but there are dealers in Australia and in Canada. Johann Grander has a website which explains his Grander Water Revitalisation devices for installation in drinking water pipes. Go to <http://www.grander.com/>

There is an outfit in Canada called Nordic Living Water Systems, 904 Leovista Ave. No. Vancouver, B.C. V7R1R2 that might sell the devices. E-mail: sales@alivewater.net Phone 1-(604) 990-5462

WHY INCREASED PROTECTION AROUND THE WHITE HOUSE?

QUESTION:

Another question from Alice Bokockus, Littleton, CO. She writes: "In the past two months there have been about 6 incidents involving the White House: airplanes crashing, shootings and so forth. I can't help but wonder whether all this is a coincidence or whether these incidents are happening to give someone or some group the excuse to fulfill a hidden agenda. If so, what is it, and who is behind it? Or are these isolated incidents?"

COSMIC AWARENESS:

This Awareness indicates it appears there is an intent to create greater barriers around the White House and to make it less accessible to the public so that entities can be kept away. This Awareness indicates that this is being prepared to create a psychological atmosphere so that an excuse is made for putting up more barriers and shields around the White House.

This Awareness indicates that there may come a time when the public becomes outraged at things that are happening in government, and by having more barriers, people protecting the president can more easily protect him, can more easily make sure that no one gets close to him.

This Awareness indicates that it is seen as simply a precaution. The situations appear to be staged. This Awareness indicates at least some of the situations appear to be staged.

LAWRENCE ROCKEFELLER'S FUND FOR THE ENHANCEMENT OF THE HUMAN SPIRIT

(What Gives?)

QUESTION:

Another question from this entity: "In Barbara Marx-Hubbard's book of co-creation *The Revelation Our Crisis Is A Birth*, there is an acknowledgment saying that the publication of the book and its Outreach program was made possible by a "generous grant" from Lawrence S. Rockefeller's Fund for the Enhancement of the Human Spirit.

"Somehow, the publication of this kind of a book about the birth of a new state of consciousness for mankind seems incompatible with the Rockefeller agenda for mankind. Or was this a gesture to polish the image?"

COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates that the Rockefellers have from time to time been very generous with their fortune, partly for public relations purposes. This Awareness indicates that the recent movement in consciousness of a spiritual trend has gained enough recognition that the Lawrence Rockefeller attention to this can be very beneficial to his public image, since this entity Barbara Hubbard is recognized widely for her various work and by having his approval and grant recognized in her book, it polishes his image for all of those entities who are in the New Age or spiritual movement that read her book.

Lawrence Rockefeller as being an entity who has had considerable philanthropic inclination. This entity was one who had much to do with helping Japan's economy after World War II. The entity's reputation for good things has been less tarnished and much higher and more appreciated than that of some of the other brothers.

This Awareness indicates that it appears that this was not only a generous act on his part, but also was a good public relations maneuver.

DID THE SHADOW GOVERNMENT UNCREATE A PRESIDENT VIA TIME-TRAVEL?

QUESTION:

Another question by this entity: "In the August, 1994, *Sedona Journal of Emergence*, there is an article by Zoosh, through Robert Shapiro, which was channeled in June, 1994. It says that the global shadow government "uncreated" a U.S. President to keep peace from the planet. It has something to do with going back in time and eliminating him before he was born. He would have been the president after Lyndon Johnson.

It is pretty mind-boggling to think that our future can be manipulated by changing our past through time-travel. Is this possible? And did this incident really happen? Was the man who was to be our President and bring peace to the planet eliminated before he was born?"

COSMIC AWARENESS:

This Awareness indicates that this technologically is possible. This Awareness does not see this as having actually occurred as described, but it *does* appear that it could, technologically happen. This Awareness indicates there are hints at this kind of activity in the movie *Terminator* in which an entity comes back in time to destroy a young boy, who would, in the future become a threat to a certain futuristic government.

This Awareness indicates that it was simply science fiction in the movie and did not in any way intend to be presenting an acceptable theory other than for the entertainment of the movie, but this Awareness indicates that the work of Dr. Bielek and others involved in the Montauk experiments in New York tell of how entities entered in to the time travel tunnel promoted by certain vibratory machines, machines that set up certain vibrations and traveled back in time to the 1930s.

Al Bielek Describes How Entities Can Move Back on Time Lines

This Awareness indicates obviously, if an entity could go back to 1930, the entity could theoretically alter something in 1930 that would affect things in the future. This Awareness indicates that this entity Bielek describes these time-lines and how entities can move back on a time-line and get off at certain points, much like an elevator that moves down from floor to floor, allowing entities to exit on different floors, but the time-lines would allow entities to exist in different time segments or different years, and then get back into the time-line to return to the future, if so desired.

This Awareness indicates that these concepts described by Bielek have been put into certain articles and entities may wish to watch for his information and lectures. This Awareness indicates there is a program; it appears to be on the West coast and possibly across the country that comes on late Sunday nights on the radio. This Awareness cannot describe what channel because it depends on where your radio is, but it is the Art Bell show called *Dreamland*.

This entity discusses strange phenomena, UFOs, cattle mutilations. He often has Linda Moulton Howe on there quite frequently, has had Professor Bielek, and by contacting this entity, Art Bell, there is a good likelihood that you can get the address of Dr. Bielek. He will understand or be familiar with your interest in the Montauk experiments or research and know what you are talking about.

You may contact this entity through radio station KEX in Portland, Oregon. The name of the program as *Dreamland*. The name of the entity is Art Bell. This Awareness indicates that the Zip code will be provided to the editor prior to this publication. This Awareness indicates that it may require that the radio station will need to forward your letter. That address is not seen clearly.

You may then wish to put on your envelope address: "Please forward to Art Bell and Dreamland, Radio Station KEX, Portland, Oregon," followed by the zip code. This is a way whereby you may contact this entity for any books, any articles that he has available or any tapes that he may be able to sell. The entity may have audio tapes or video tapes available which describe many of his lectures and experiments at Montauk, discussing the experiments in time and what occurred there.

This Awareness suggests you may wish to ask him for a list of programs, tapes and information that he has available for sale.

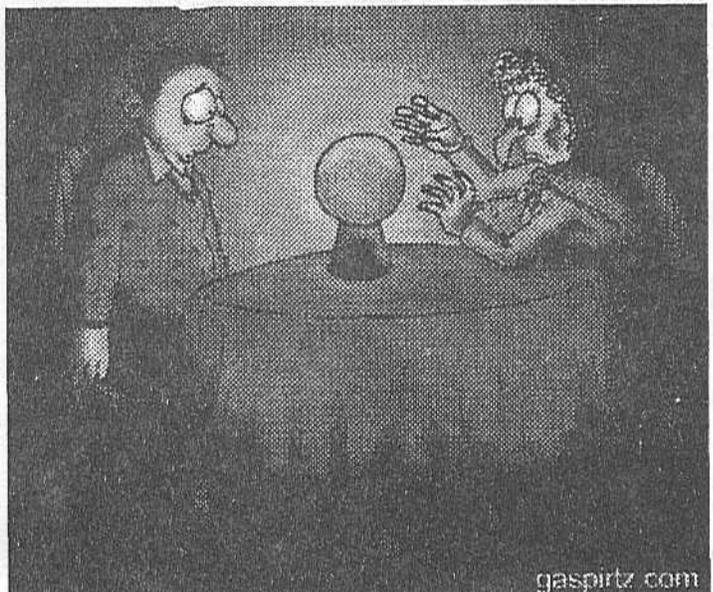

QUESTIONER:

I believe the entity also has a book out called *The Montauk Experience*, and it gives the publisher and I believe the address of his firm that puts out that also.

COSMIC AWARENESS:

This Awareness indicates that this is available to you. You may wish to list this either through the CAC, book marketing, or newsletter.

ED's Note: at the time this reading was given the Art Bell program was just beginning. Today, it is still going but Art has retired. The same characters get interviewed etc. There is much information on the Internet regarding the Montauk Experiments. Go to the Google search engine and type in "Montauk Experiments". There is a book "The Montauk Project - Experiments in Time" by Preston Nichols and Peter Moon available for \$15.95. To order phone: 1-614-268-3100. Al Bielek is a survivor of the Philadelphia Experiment and you can also find more information by typing in "Philadelphia Experiment."

The Cosmic Awareness Spiritual Development Course

ARIES: LESSON NUMBER EIGHT

QUESTION:

Awareness, will you please give the eighth Correspondence lesson relating unto the individual and the ability to manipulate and create changes through the force known as desire, and the dangers of excess desire known as obsession?

COSMIC AWARENESS:

This Awareness indicates that from that level of poise and harmony wherein the parts of an entity, the parts of consciousness, the parts of relationship, the partners in a situation - wherein these entities are all in poise and harmony and the communication is clear on all levels, and mutual respect is shown on all levels, the situation is such that harmony and balance bring about that feeling of well-being and peace.

This Awareness indicates that wherein change is desired, and any one part of the situation desires to shift its weight, this begins what might be likened unto the 'rocking of the boat.' This Awareness indicates this as that which can occur with confusion, or with agreement from the others, or this change can occur in rebellion to the other parts involved.

This Awareness indicates that as one part makes its movement toward change, being motivated by some peculiar desire of its own, being drawn magnetically to that which it desires - as that part moves out from the rest of the parts in harmony, a disruption occurs to the poise and balance. This Awareness indicates that as the boat begins to lean in one direction, the entities on the other side automatically will compensate to assist in bringing back the balance.

That this action of automatic compensation is in tune with Universal Law, and these entities may be moving in levels of response.

The ability to respond as parts, as entities, as partners, as a society - the ability to respond to any action which is disruptive to the unity is also part of that Universal Law of balance and harmony. Therefore, the response which may be an action of compensation for the action which was taken - an equal and opposite reaction - this response is in tune with Cosmic Law and is the karmic effect of the initial action of the part which made its move in disrupting the balance. This Awareness indicates this as likened unto the 'rocking of the boat,' and the action of the sea, the wind, and the waves also being disrupted by that 'rocking of the boat.'

And as the 'rocking of the boat' intensifies through the desire of the entity to express himself, which would achieve, which would strike out - as this intensifies, the churning of the vibrations in the situation become more magnified, and the remaining parts of consciousness have the choice of responding intuitively in the Will of God through the Universal Laws, through spontaneity (the spontaneous response of energies toward other energies), or they have the choice of doing something about this portion of consciousness which is rocking the boat, they become suspicious of their behavior, they become conscious of their ability, they become free wills, capable of correcting the action of other free wills, capable of attempting to control control.

These law enforcers are within concepts, within entities, consciousness, within the societies and within families, and these forces which attempt to correct those

who are 'out of line' consciously are also 'out of line' and simply add to greater confusion.

This Awareness indicates that wherein this occurs spontaneously, the action is 'right on' with Universal Law.

But wherein the correction occurs with thought - premeditated, with examination and a decided way of behavior toward this entity, this is but another aspect of the controlling action, and will lead to greater disharmonies.

This Awareness indicates the action of response toward a situation and the understanding through sensitivity of the involvement of the consciousness which are in movement during that situation, this as other than control.

This Awareness indicates that understanding through sensitivity is different from knowing by one's own opinion at having reflected back on previous experiences and information gathered. This Awareness indicates this kind of stored knowledge with which entities face new situations can pre-determine the behavior and can create blocks in spontaneity so that the entity behaves in a manner that he feels he should behave, according to previous conditionings in other situations, and approaches this new situation with these preconceived ideas.

This Awareness indicates the entity, then, is not a channel, and is not open to what is occurring in reality during this moment, and therefore finds greater difficulty in communicating or discovering *what is*, for the entity assumes to have already discovered what is occurring now from his or her experience from past relationships and situations.

This Awareness indicates that entities attempting to live in the moment by drawing from experiences of the past, are creating those blocks of energy which stop the life force and hinder freedom and movement - not only for themselves, but for others as well.

This Awareness indicates the fluidity, the letting go, the attunement to what is happening at this very moment, the communication that can occur at each moment wherein entities do not assume that they know anything but from a state of 'I don't know,' can be open and in question and in awe of each moment.

These entities do, indeed, allow for that boat to move back toward a state of poise, or continue rocking, and simply move with the rocking of the boat without resistance.

This Awareness indicates that it has been given to you 'Resist Not Evil,' for evil, like truth, is relative to the viewpoint, and whereby an entity 'resists not,' the movement into the state of poise becomes more probable. But whereby an entity resists evil, resists that viewpoint which he or she terms 'evil' from one position or another, from one moment to another, that entity shall soon find his life is but a life of resistance to all, for evil tends to grow the more it is resisted.

This Awareness indicates that wherein entities can see that which has been called 'evil' is but a situation that is out of cosmic balance and needs to be brought back into balance, whereby entities can allow that balance to occur without attempting to enforce it through some form of control and righteous indignation of their own - whereby this can occur, the possibility of poise and balance is increased.

This Awareness indicates that as the intensification of resistance or of desire comes into the situation, the entire situation then shall be brought into a churning action

whereby poise and balance can be threatened, and an observer can say there is chaos afoot.

This Awareness indicates that in remembering previous messages, chaos is relative, and whereby entities can let go of controls and say "Thy Will be Done," they are contributing greatly to the movement back toward harmony and balance.

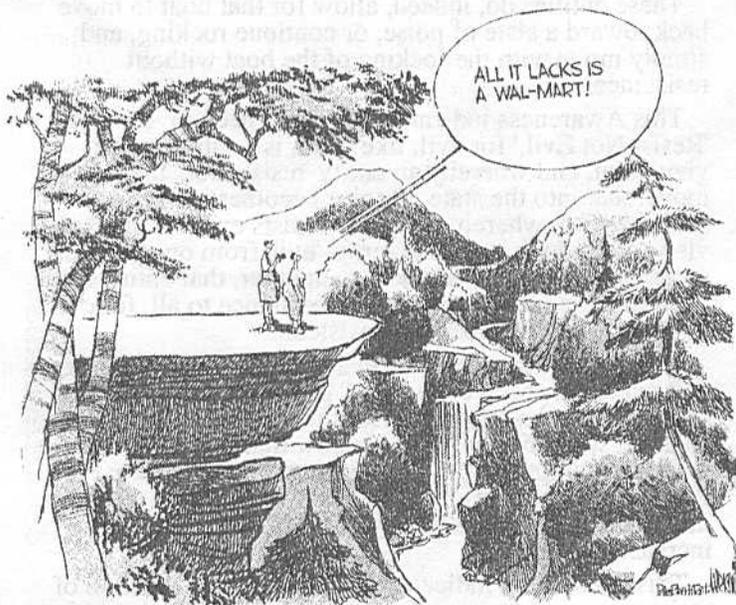

This Awareness indicates that wherein an entity is placed in such a position that he must respond to an opposition force and have the choice of saying 'I surrender; do what thou wilt,' or have the choice of looking straight on at the opposition force and saying 'We are equal. I will not yield to you. I challenge you,' or whereby the entity has the opportunity of confronting that force with fear and cowardice and retreat by running away or evasion, or whereby the entity has the opportunity to confront that force with an even greater force which can wipe out, destroy, or nullify that force which would threaten - these various opportunities are present in different situations.

This Awareness indicates that entities may ask: "Which way is right? Which way is proper? Should I run out? Should I stand? Should I fight? Should I surrender?"

This Awareness indicates that you must understand that if you are in tune with Cosmic Law, you shall do what you shall do, if you do not think about it, if you do not have preconceived ideas about how to meet such situations, if you do not judge yourself as being right or wrong, as being separate.

This Awareness indicates that you are in tune with Cosmic Law if you respond, not out of choice, but because the urgency forced a response: this response may be one where you 'run like hell,' where you 'fight like hell,' or where you surrender, or where you discuss clearly.

This Awareness indicates there is no way that you can be sure, prior to an experience, what is proper for your future behavior in a situation. This Awareness suggests that any attempts to be pre-programmed for situations of this nature (which are of the unfamiliar nature) - any attempts to pre-program yourself for the unknown, shall simply result in creating patterns and blocks which will hinder your movement into the unknown.

This Awareness indicates that there can be that movement of response in each moment whereby you respond to the intensities that occur, whether they are motivated from within as desire, or whether they are motivated from without as desires and forces from others, and in this response you can be sensitive without any preconceived ideas as to what is proper behavior, but looking instead at that which is being communicated to you during this sensitivity and in this relationship of energies.

This Awareness indicates that wherein this is seen clearly and shared with all entities involved, with all other parts of your own consciousness, without being blocked by moralities, without having taboos placed upon your consciousness, without having social hindrances and caste systems placed upon you for feeling these sensitivities, without feeling that you are not being allowed to express yourself, or are not allowing others to express themselves to you - wherein all this is placed aside and the sensitivity of the situation is allowed, then the intensity and the depth of experience can grow immensely without anything but bliss occurring on all levels.

But wherein there is a block of expression, either upon the entity, or wherein the entity feels he or she would like to block the expression of another through jealousy, through possessiveness, or through competition, whereby the entities refuse to relate clearly and sensitively, but would prefer to relate in levels of competition as separateness, there begins the creation of that substance known as desire, which intensifies into those levels of obsession, which can grow toward the desire to accumulate power over others in order to attain the desire-fulfillment.

This Awareness indicates that desire may be likened unto the driving force in the head of the dragon, and the receptive qualities, which have no desire, which await the return, may be likened unto the womb of the dragon.

This Awareness indicates that the masculine and feminine qualities being intensified, whereby sex becomes more and more significant (polarized in terms of desire, and the vacuum awaiting the return of that which goes out) - this expression of sex, the expression of these intensities of separateness, which can be resolved by the return of these levels of sensitivity, can lead to bliss, or to tragedies.

This Awareness indicates that wherein this begins on the feeling level and then moves into levels of sex, wherein the feeling level of relationship is put first and leads naturally into levels of sexual union, this then is that which is appropriate and harmonious in terms of the Law of the Universe.

Wherein the significance is placed on the sexual union and entities begin to focus on that alone, creating obsessions, creating desire, creating that intense driving force which requires more and more control, more and more self-control (either to avoid the sexual union or to achieve the sexual union) - whether this sexual union, with all of these significances based around it can be fulfilled or can be avoided - the significance of this entire focal point being such that it can lead to wars between nations, wars between families, wars between friends, and wars within the psyche of an individual.

This Awareness indicates that wherein this need not occur and does not occur as such a significance, great tragedies can be avoided.

This Awareness suggests that the intensification of sexual drives focused, not upon sensitivity and feelings

of love and communication, but upon the achievement of the sexual unity, the enforced violation of oneself upon another, the law enforcement (the concept of controlling another to do ones bidding), the action of playing God, of being God, of being the ruler or master of another - this action of being a High Priest over another, this intensification of the 'sado' trip, which is designed to make the entity feel superior while another feels inferior - this has had tragic effects upon the earth and the inhabitants of the human kingdom.

This Awareness indicates this not only affects the individual in his ability and inability to relate, and creates tragedies there - this also is that which led to the fall of Atlantis, wherein the Priestcraft, in seeking so much power over others, did bring about their own destruction, and this does also, eventually, in present time intensify to levels which have created many devastating wars upon this plane simply as energies of sexual release that focused, not on the levels of feeling and sensitivity to others, but instead upon the attainment and rape and violation of the achievement.

This Awareness indicates that wherein an action grows to an explosion likened unto a violation, likened unto a war, likened unto the sudden relationships that burst into violence - these situations once moved into, once occurring, whereby entities are moving in response to what is occurring: the actions are appropriate.

Wherein the violence of an action occurs, the action during that time is appropriate for the energies that have built and led to this situation.

This Awareness indicates the problem is not what happens during the time of the explosive occurrence, but is that which happened during the time when the elements were being mixed together that led to this explosion. This Awareness indicates this may be likened unto dynamite, wherein many stable parts are put together and then the fuse is ignited and the explosion occurs.

This Awareness indicates the explosion is right in tune with Cosmic Law and cannot be criticized for not doing, or for doing something wrong, for the explosion was already pre-set once the fuse was ignited and the elements were placed.

This Awareness indicates that it has been given: 'Magic is in the preparation.'

This Awareness wishes entities to understand that everything that happens is magic, and everything that happens has been prepared for by some concept, by some action, or by some agreement or desire expressed.

This Awareness suggests that there is no way that entities can judge another's behavior by looking at the explosive violence which occurred, for the seeds were planted prior to that on many levels.

This Awareness suggests that entities begin to look more closely at preventive crime, at preventive violence, and less at the results and excitement of the violence or the condemnation of the violence.

This Awareness suggests that the action of preventive violence begins with the concepts which entities have been given as part of their programming as individuals, as the head of the dragon, as being capable of expressing their own desires.

This Awareness suggests that as these concepts are looked at, questioned, and re-evaluated - as entities begin to re-evaluate their own concepts as to who they are, what they are, what they are doing, and where their life is going with this kind of programming, this re-examination shall allow entities to become re-oriented and to have a second chance at life.

This Awareness suggests that this be the conclusion of the eighth lesson, unless there is a question.

(The Law of Gratitude is given.)

Does it Make a Difference How An Animal Dies?

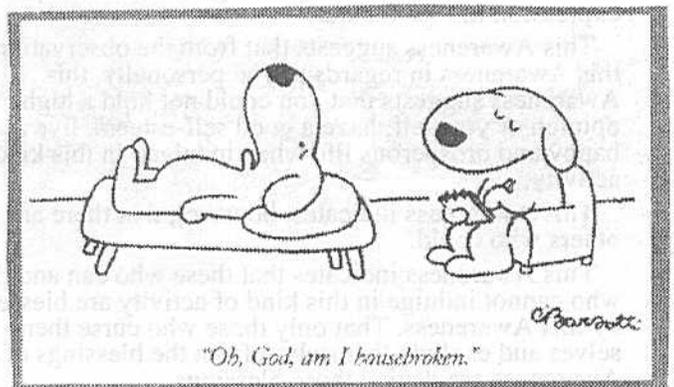

QUESTION (AVATON):

When Awareness was discussing animals, I was curious to the effect on the unwanted street animals that never had a home or were particularly cared for and put to sleep or killed for animal feed. Earlier, Awareness discussed a flower being picked to be enjoyed got a sense of satisfaction out of it, compared to one that was picked just because it was in the way. How would that relate to these creatures being used for food or just simply being destroyed?

COSMIC AWARENESS:

This Awareness indicates that as far as the animal is concerned, its own destiny is not affected by whether it dies from asphyxiation and is burned or buried, or whether it is eaten. This Awareness indicates that animals in their consciousness move in a manner which seeks survival at all costs, up to a point; and then, at a certain point of consciousness, the entity seeks to surrender and to die. This Awareness indicates that these animals seldom carry terror into the death state itself, or beyond the point of death.

This Awareness indicates that humans *can* carry over feelings of terror into the afterlife, and may experience repercussions later from such.

STRIPPING NAKED FOR MONEY (What's Wrong with Prostitution?)

QUESTION:

A question from J.J., Milwaukee, Wisconsin:

"A question of a private kind. One of us has been offered money to strip naked in front of a client. Already we have spontaneously done this and have received \$100.

Parts of us feel that this is an immoral act and the money should be returned, while the other part of us feel that this was a relatively safe way to grow dollars necessary to continue.

What do you see as the moral implication of this practice? At what point could this be considered prostitution? Is there anything wrong with prostitution anyway?"

COSMIC AWARENESS:

This Awareness indicates as far as this Awareness is concerned, there is nothing wrong with anything.

This Awareness indicates the only thing this Awareness is concerned about is that action which creates sorrow, suffering and tragedy, and this Awareness wishes to alleviate the sorrow, suffering and tragedy upon this plane.

This Awareness indicates that in terms of morality, that this does not matter. In terms of suffering and tragedy and sorrow, this does matter.

This Awareness indicates that in terms of actions such as has been previously described in your question, that this is a matter for yourself to examine. Will this create sorrow for you or for another? Will this create suffering for you or for another? Will this create tragedy for you or for another?

This Awareness indicates at first glance, you may think this will not. Upon deeper observation, you may think that this could. This Awareness suggests that patterns created and followed can become lifestyles, and lifestyles can become situations, and situations can lead to tragedy, sorrow and suffering.

This Awareness suggests that you examine carefully how far you wish to pursue this form of expression. That you ask yourself: Can you still have a good self-esteem, feel proud of yourself, and relate clearly to others if you are involved in this kind of action? And just how involved can you be and still have a good feeling about yourself?

This Awareness indicates it appears obvious from your question, that even on the first experience, you are feeling somewhat apprehensive and concerned in regard to the values and the methods of your relationship and expression in this manner.

This Awareness suggests that from the observation of this Awareness in regards to you personally, this Awareness suggests that you could not hold a high opinion of yourself, have a good self-esteem, live a happy and prosperous life when indulged in this kind of activity.

This Awareness indicates, however, that there are others who could.

This Awareness indicates that these who can and these who cannot indulge in this kind of activity are blessed by this Awareness. That only those who curse themselves and exclude themselves from the blessings of this Awareness are denied those blessings.

Some Updates: The Dimensional Shift in 2012 (A New Twist on "The Rapture" Which is coming)

This Awareness indicates there are a few issues that need to be updated.

This Awareness indicates that it has been indicated by this Awareness that in or around the year 2012 a movement into a new direction or a new dimension will occur. This Awareness indicates that this appears to be a movement that begins in a more solid direction in 1995, moving toward that point of 2012, or 2013.

This Awareness indicates that there are many who would think of this as the time of "The Rapture." This Awareness indicates that *It* wishes to clarify, however, that this may not be the way in which entities envision the rapture occurring, for this Awareness indicates that it appears rather than the entities being raptured off the earth and taken elsewhere, that the negative forces may be taken off the earth onto another planet, and the entities who remain on earth will be raptured in terms of moving to a higher consciousness rather than to a higher plane of being, while this plane of the earth also changes into higher levels of consciousness.

This Awareness indicates that it appears that approximately 25% of the people on earth at this time are in higher spiritual vibrations which would allow them to be raptured if this were the time for the rapture to occur, and that this 25% is growing rapidly, so that by the time of 2012 or 2013 occurs, the majority of people on this earth will be ready for that time of rapture, or the enlightenment, and the earth itself becomes the new plane of consciousness, the new spiritual home for entities.

This Awareness indicates there will be a great change in the very nature of the earth itself, and that most of the negative beings on earth will have been removed and placed on another planet or plane or dimension.

This Awareness indicates that it appears that there are numerous other channels who have picked up on this and are now giving similar information about the date of 2012.

This Awareness indicates that the emphasis during the coming decade and a half will be on the spiritual vibratory increase, the increase in the frequency that entities experience in terms of their spirituality. It will become more and more common for entities moving into higher spiritual frequencies to become forces for not only healing each other physically, but also spiritual healing of each other, so that more and more, the spiritual energies of entities upon this plane begin to supersede material interests and focus.
