## Did the Disciples of Jesus Really Write the New Testament?

- Poise: and the real purpose of Light Workers
- Hooked on Marijuana (How to get free)
- Eating today's eggs—are we committing suicide?
- How to learn to love your enemies
- How to become a greater channel for healing
- Why humans are fascinated with dolphins
- The Cosmic Awareness Spiritual Development Course  
(ARIES: Lesson number eleven)

Index is on page 6

Ed's Note: The following is one of numerous readings Awareness gave over the years which *It* requested be classified and not released. Enough time has now gone by and since most of the material was covered and released by CAC in other readings, we are now publishing these readings.

**Bill Shepard's Death Ray Machine**  
(More on Synthetics and Soulless Beings)

QUESTION (AVATON):

Does Awareness have an opening message before we go ahead with some questions from Bill Shepard who is present with us today?

COSMIC AWARENESS:

This Awareness suggests the questions continue.

QUESTION (BILL SHEPARD):

Awareness, there are a few questions here concerning the synthetics and the soulless beings that we've been looking into lately. Now concerning these synthetics and soulless beings, does Awareness see the possibility of there being two types of these synthetics; the robotoid or the clone type as described by Doctor Beter, as well as an android type which is made by implanting a psionic device in a fresh corpse, and what if any, are the distinctions in the roles played by these two types of synthetics?

COSMIC AWARENESS:

This Awareness indicates that information has been given on this previously. This Awareness indicates that the two different types are creations of the two different cultures,--that of the Russian, and that of the Rothschild organization; the robotoids being that of the Russian, the synthetics as that of the Rothschild creation. This Awareness indicates that this information as available through the Dr. Beter tapes, through earlier readings by this Awareness, This Awareness indicates that your own channel as also supplying information regarding this. This Awareness does not wish at this time to further discuss this particular topic, for this as an area which can easily become a distraction and create controversy over a distractive issue which has no particular bearing or significance in regards to the immediate urgencies.

BILL SHEPARD:

Okay. I will forego the rest of the questions then, because they have to do with the subject. So that will be all of the questions.

COSMIC AWARENESS:

This Awareness indicates that in regards to this information; for your own benefit or for information to be held, that *It* can respond at this time. This Awareness indicates however, that the release of this information is that which could serve as a distraction in consciousness, rather than to assist in dealing with present urgencies. This Awareness suggests the questions may be asked according to the desires of the questioners.

QUESTION (BILL SHEPARD):

Would Awareness condone using a psionic death-ray generator to kill these synthetics since they are soulless robots anyhow... and in relation to this, last year I used a small death ray generator on Ayatollah Khomeini and subsequently the newspapers reported Khomeini being in the hospital and out of commission for about two weeks, and was wondering if Khomeini's sudden illness was the result of the machine, or was it purely a coincidence, and also in relation to this; in killing the synthetics, without harm or malice toward their operators, would we be justified in using a death-ray machine on the synthetics and would this be in accordance with the highest law of love?

COSMIC AWARENESS:

This Awareness indicates that there are certain factors of recent time which have brought about some change which must be noted in regard to this information. This Awareness indicates that in respect to the robotoids in particular, a breakthrough has occurred wherein souls are actually capable of entering into these creations and inhabiting the bodies. This Awareness indicates that this may be termed by some as the creation of souls for these robotoid bodies. This Awareness indicates however, that this is on a very limited state at this time; that the scientists involved are aware of the changes which have occurred. This Awareness indicates that this information has been and should be kept confidential and not made public.

This Awareness indicates that similar effects in the synthetics as that which appear to be possible in the near future.

This Awareness indicates that in terms of your question regarding the termination of synthetics with the use of a death-ray machine, the psionics device: This Awareness suggests that you leave this to higher intelligence and powers beyond your own; that the energies available for this action may better be used by the action of focusing on the problem or concern which you are aware of, the urgency at hand, using your psionics machine to send forth the concept of healing or balancing or reconciling the energies to bring about harmony in that area of concern or urgency, and send this energy and concept through your psionics machine to those higher spiritual beings or forces to be used according to the will of the Divine Creator. This Awareness indicates that in this way, you need not take on personal kama or responsibility for any type of manipulative activities through the use of the psionics energy.

BILL SHEPARD:

And that's a very adequate answer then and I thank you.

**DID THE DISCIPLES OF JESUS REALLY WRITE THE NEW TESTAMENT?**  
(The Origin of the "Passion Play")

QUESTION (AVATON):

A question from Anthony Moccio of Palm Beach, Florida. He writes: "In a reading # 78-47 Awareness has indicated that the Bible was composed of books from earlier writings, scattered from various parts of the world, and put together by the Emperor Augustine. Does this also include the *New Testament*? In my reading of the *New Testament* from the NY Bible society, translated from the original Greek, the chapters of St. Matthew, St. Mark, St. Luke, St. John; their stories were all similar, for when Jesus went out to choose his disciples, the ones he picked were Simon, Peter, Andrew, James, John, Levi, and Phillip. All the others were chosen from the multitudes without mentioning their names. I find it hard to believe that these Apostles had each written the chapters in the *New Testament* as stated by the Jehovah's

Witnesses, since there were not very many learned men in that era. Can Awareness please comment on this?"

**COSMIC AWARENESS:**

This Awareness indicates that these writings came from an original teaching within the Essene schools which was handed down through the various disciples and teachers and students. This Awareness indicates that the first writing of the life of Christ occurred ... This Awareness indicates that the recording of these stories, while given, were not written in the particular fashion received at present until approximately 80 years after the death of Jesus; the writing having been given ... This Awareness indicates that this as having come from the passing of information from these disciples. This Awareness indicates that the energy on this question as having been disturbed by the cat's meow....

**AVATON:**

"Vikki!" (A short pause while Vikki deals with Bertram the cat).

"We'll have a pause, while the animal is dispersed."

**COSMIC AWARENESS (CONTINUING)**

This Awareness indicates that essentially these scriptures were taken from a single text. This Awareness indicates that this text as having been that which was used within the secret Essene schools. This Awareness indicates that this having been taken and changed for the purposes of the Essene schools. This Awareness indicates that this previously as having been taken from still earlier writings of Babylonian and Hindu, Persian and Arabic mystery schools, and this as from the Passion Play used in these secret schools, whereby the teachings of these passion plays were adapted to different cultures and mystery schools for their particular use.

**How the Ritual Works in the Masons and Other Mystery Schools**

This Awareness indicates that entities examining the rituals within Masonic rites and other mystery schools; the various rites of initiation of the Knights Templar, of the ancient and esoteric teachings of all major religious and secret societies, will find that a basic theme or pattern runs throughout these mystery schools and the rituals involved. This Awareness indicates that in each of these, the teacher, or candidate for initiation, struggles and moves through difficulties, seeking to express some action of service, giving of himself, or herself, following a course of action in opposition to those forces which would stop the initiate from arriving at the place of power, or achievement. And in this course of action wherein the candidate seeks to give some service to others to improve their lot, and to fight against that which is evil, or to overcome evil, such as a dragon or other demonic force, the candidate eventually reaches a point wherein he is given the crown of achievement and offered a place most high, but is placed in a position where to maintain that crown he must give up his concern for the welfare of others.

**The Candidate Makes Certain Vows—Death If Broken**

This Awareness indicates that in that position of power, the candidate is told to make certain vows. This Awareness indicates that these vows are placed upon the candidate, and to break such a vows will mean certain death. This Awareness indicates that the candidate then becomes a tool for the priestcraft of the secret school if he accepts the vows. This Awareness indicates wherein the candidate refuses to accept these terms, the candidate becomes the sacrificial victim of the ceremony.

This Awareness indicates that these ceremonies as having variations in different societies and cultures; that in the Essene mystery schools which were based on

Egyptian mystery schools and those which came from Armania, Persia, India, Tibet, and Caldea, and Babylon. This Awareness indicates that these Essene mystery schools created a slight variation in the teachings to apply to the cultural needs of the time for the Hebrews so that these rituals would promote concepts of love and mercy, as opposed to power. This Awareness indicates that essentially, the Essene school was concerned about the path of the soul more than positions of earthly power or religious power over the masses. This Awareness indicates therefore, these Essene rituals of the secret training and schools of these Essenes was such that the scripture recorded the parallel messages depicting the life of Jesus in such a way as to apply to the needs of all humanity and to the Hebrew population in general.

**The Parallel of These Writings is Found in Ancient Texts**

This Awareness indicates that the parallel of these writings or scriptures with the story of Baal of the Babylonians, Indra, Krisna, Osiris, Mithra, and others may be found in various ancient texts and writings. In many cases the phrases used in the *New Testament* are almost identical interpretations or translations from texts which are much older in other cultures and a direct relationship can be seen from these texts to those earlier scriptures, writings, of the more ancient expressions of this passion play.

**Awareness Suggests a Comparative Religions Study**

This Awareness suggests that entities wishing to do research on this action on finding these parallels and compiling information regarding this would do a tribute to truth by such research, and this Awareness suggests that various texts may be explored for such comparative religion studies. This Awareness indicates that a compilation of certain starting points for such studies would be in order. This Awareness indicates that some of this has already been presented in a previous effort by the editor\* of *Revelations of Awareness*, and entities wishing to research this area further, may look to those sources mentioned wherein there will be other sources mentioned within the text.

\* This effort by the editor can be found in issue 80-20 (Should Children Be taught the Fundamental Christian Doctrine); \$3.00 from CAC.

This Awareness suggests that in reference to the question, and in summary, the four main books of the *New Testament* depicting the life of Jesus as having come from the same source, but told with slight variations by different writers.

**Cultural Anthropologists Not Biblical Scholars Can Find the Truth**

This Awareness indicates this information as generally already recognized and understood by serious students and researchers in regards to this earlier record. This Awareness indicates that you are not likely to find Biblical authorities in churches who are fully adept at objective examination of sources in regards to the earlier writings. This Awareness indicates that the cultural anthropologist, the entity who is not biased one way or another, who studies ancient writings and texts to compare, to discover, to find where the fragmented teachings began, or where they came from, or where they went to from culture to culture; such entities are much more objective in terms of discovering and conveying the truth. This Awareness indicates that those Biblical scholars who only read the Biblical verses with the intent of proselytizing the church's position and interpretation are not likely to be objective in true research or discovery, but will in every possible way seek to find substantiation for their particular viewpoint, and will ignore any information which does not substantiate or detracts from that viewpoint.

## Did the Essene Schools Use this Ritual?

(How Jesus Learned About the "Passion Play")

### FOLLOW-UP QUESTION (AVATON):

Would Awareness please clarify one thing that I didn't hear, or was not clear: was the Essene mystery school, and their ritual; was Awareness saying that they also used this ritual where they took this oath, and if they did not carry it out, they would be the sacrifice, or did that apply to those schools mentioned that followed?

### COSMIC AWARENESS:

This Awareness indicates that the Essene school did not use this type of threat. This Awareness indicates that the initiates who were the disciples of the entity Jesus, were trained to carry on the message which the entity Jesus initiated them to do. This Awareness indicates however, that these entities being versed and trained into the secrets which the entity Jesus wished to give them were also put to death and the fragments of their teachings were not brought forth into writing for public use until some time later.

### Where Jesus Went During the "Missing Years"

This Awareness indicates that essentially, the entity Jesus during the missing years, traveled to India, Tibet, through Persia, and into various Middle-Eastern countries exploring and studying from the various secret schools. This Awareness indicates the entity as realizing the common thread which ran through all great religious teachings came down to that one particular passion play whereby the candidate must move to a point of sacrificing himself and then being resurrected. This Awareness indicates that the action being symbolic of the ego being sacrificed so that a new consciousness, a new Christ Consciousness could occur.

### "Get Thee Behind Me, Satan!"

The temptation of Satan to seduce the ego must be avoided, whereby Satan offers him all that is seen for his worldly kingdom and the entity rebukes Satan and says "get thee behind me". This Awareness indicates that this action is the rebuking and rejection of the personal ego desires for worldly power and gain.

Then thereafter, the entity is put upon the cross; a perpendicular form symbolizing the movement between earth and spirit, or the earth and heaven, the material and the spiritual, with a cross that runs parallel to the earth, or horizontal; this cross symbolizing the four creative forces of the universe; fire, air, earth, water, or; radiance, stability, relativity or movement, vibration; and magnetism; the cross being YOD HED VOD HED, the four creative principles of the universe which make matter. The ego being impaled upon matter; sacrificed upon the hill of skulls. The cross symbolizing the death of the ego; the skull and crossbones, and this becoming the ultimate outcome of any ego efforts of man in the temporal or material body.

This Awareness indicates that the story then is that the entity taken down and placed into a cave or tomb, whereby the angel takes this stone away and the entity comes forth as a resurrected being, in spirit. This Awareness indicates this symbolizing the soul of the entity as overcoming death of the ego or personality, or the person, or the body itself, and the resurrected soul and spirit continuing on toward the Father in Heaven, toward the Light.

This Awareness indicates that this action as that which is commonly used in many secret schools wherein the candidate faces the threat of death and then is freed to move on, and this action is symbolic of the ego death.

This Awareness indicates that in the activities of Jesus, he was highly trained in these mystical teachings by masters from Tibet, India, Armania and Egypt, as well as the Essene schools which he assisted in sharing what he had discovered and learned elsewhere. This Awareness indicates that in this training the entity understood exactly what was necessary to bring about a change in the culture of the Hebrew nation which would change the course of their basic history to allow these people to be free from the misguided teachings which had been given to them by those forces which led these people to believe that they would be saved by a powerful and vengeance-type of messiah who was to return in all his fury, slaying their enemies and taking them to paradise.

This Awareness indicates that the entity Jesus moved through this culture with this passion play, healing the blind, the sick, and raising the dead with miracles whose stories spread around the country, in part by his followers, so that the impact of the passion play would be fully publicized, and in so doing, the entity created a historical setting of the enactment of this passion play so that the cultural change could occur down through the ages as the story was repeated.

### How Jesus Kept Himself From Dying Upon the Cross

This Awareness indicates that this entity did not die upon the cross, but entered a state of suspended animation through his skills and training as a yogi from Tibet and India, and by slowing down his heartbeat, and by knowing how to avoid the pain of the injuries inflicted upon this entity, he was able to enter into the apparent state of death and still be revived. The entity later traveling to India where his tomb now has recently been publicized. This Awareness indicates this by a tabloid of ... that this appears to be a tabloid presented during this year naming the town and location of this entity's tomb. This Awareness indicates that this may be researched by the Interpreter, or others. The exact name of the tabloid not seen clearly.

This Awareness indicates that this information as available to be documented in that area, with evidence regarding the origin of the entity who has been entombed. The body of the entity, the remains, still being present in the tomb. This Awareness indicates that obviously, this particular message must not be released publicly at this time, for the repercussions would be too great for your organization to withstand until it becomes much stronger in its financial foundation. This Awareness suggests that this not be released at present time.

### That Jesus and the Galactic Command Story

#### FOLLOW-UP QUESTION (AVATON):

Awareness, how does the information just given relate to previous information given by Awareness which was classified, relating to after Jesus's crucifixion and his so-called resurrection, that Awareness indicated the entity was taken up by some spacecraft of the Galactic Command entities, if I remember right?

#### COSMIC AWARENESS:

This Awareness indicates that in all references regarding the various mysteries surrounding the entity Jesus, one must recognize that in all of these many stories, each has a different frame of reference with which one asks a question, and from which the question must be answered. This Awareness indicates that this likened unto an entity in the future asking the question, "Did I live in the time of Luke Skywalker?" This Awareness indicates that the answer may be that the entity did live in the time of Luke Skywalker, but the entity Luke Skywalker may have been but a particular frame of

reference in regards to the movie *Star Wars*. This Awareness indicates that the entity later may ask when, and what was my relationship with Luke Skywalker? This Awareness indicates that this becomes a different kind of question which requires a different frame of reference.

This Awareness indicates that in terms of the entity Jesus being taken up by the Galactic Command, this occurs with many entities in present life, for this occurs in the ethereal plane and can happen even when entities go to sleep. This Awareness indicates that during the three days in the tomb; [Incidentally, that the three days in the tomb as being merely a symbolic action representing three days wherein the sun, having crossed the equator, stands in apparent suspension before the earth begins its movement back the other direction.] This Awareness indicates that the three days in the tomb were times wherein this entity was not in his physical body and was, in an ethereal sense, taken into the spacecraft, or interdimensional craft of the Intergalactic-Command.

#### Why The Story of Jesus Is Difficult for Awareness

This Awareness indicates that it is so difficult to deal with and answer questions in regards to this historically documented event, because the documents are in part fictitious, in part accurate, in part not what they appear to be, and in part mystical, and in part symbolic, and in part played out by actors who were not who they appeared to be, and in part were but archetypal forces given in symbolic actions to affect consciousness. This Awareness indicates that the details of such a symbolic, historic, fictitious, mythical and mystical reality, are difficult to sort out when entities ask for questions from one frame of reference only, at one time, then from another frame of reference at another time, still from another frame of reference at a different time, and want all of these frames of reference to correspond completely in still another frame of reference.

This Awareness indicates that at best, all *It* can do in regards to the story of the life of Jesus is to confuse the issue so much that entities will begin looking at the meaning of the story from the sense of its value to the individual, rather than from an effort to document historically one's dogmatic belief, for or against this particular entity's expression.

### WHAT IF FUNDAMENTALIST CHRISTIANS HAD THIS INFORMATION?

#### QUESTION (AVATON):

Would Awareness comment on whether the average Christian, and particularly the fundamentalist, if they were convinced by data that Jesus did not die on the cross; would this information be better known to them for their own advancement than to continue believing that Jesus died for their sins, and therefore they are not really accountable for the things that they do in this life because they believe that this has already been taken care of?

#### COSMIC AWARENESS:

This Awareness indicates that for the particular level of consciousness on which these entities reside, it is better for the story to remain intact. For when these entities reach a growth and maturity whereby they do not need to rely on that particular story any further, they will then begin to look for deeper meanings in the life of Christ, using this entity as an example for their own life, rather than simply as an escape mechanism to avoid paying for their karmic debts.

This Awareness indicates that as these entities grow in spirit to use this entity's life as an example, then they begin also to study the more sensitive aspects of the entity's being, and become more aware of love and mercy, and in so doing, they tap into sensitivities which lead to the somewhat more psychic realms, which in turn, lead to feeling other entities' vibrations and feelings, which in turn leads the entity to seeing more deeply into levels of consciousness other than dogmatic beliefs, which in turn leads the entity into recognizing that there are things beyond the words of Christ, there are mysteries which are not spoken of, which in turn leads the entity to re-read portions of Jesus's teachings which speak of messages given to the disciples that they might know, but hidden from others who are "not to know these things," which in turn leads the entity to search to discover what these mysterious teachings Jesus had for his disciples but hid from the masses might be, which in turn leads the entity to seek to understand more about the esoteric teachings of Jesus, and leads the entity to looking into mystical areas, metaphysical areas, and eventually into the symbolic areas of life, of literature, and from this into the symbolic, mystical, metaphysical, and psycho-physical aspects of consciousness itself, that the entities then become aware of living within a living universe which is molded by thought, by archetypal energies, by stories, by beliefs, by concepts, by seeds planted in consciousness, and by cultural conditionings.

### SOME ASPECTS OF CONSCIOUSNESS NEED TO BE UPSET

#### CLOSING MESSAGE

This Awareness indicates that in regards to the information available in this trance reading, that there are certain aspects of consciousness which could be highly upset. This Awareness indicates that there are also aspects of consciousness which *need* to be highly upset.

This Awareness indicates there are aspects of consciousness which would benefit from this information. This Awareness suggests that this be held until you are witnessing a time wherein other more urgent information and concerns are diminished, to allow the levity and leisure of releasing this information, to bring about the upsets and realignments in consciousness which entities may need.

This Awareness suggests also that you stay on the back of the Interpreter to locate the information regarding the tomb of Jesus in India, and once having this information, pursue further documentation for this particular reading. This Awareness suggests the interpreter be brought from trance.

Thank you. (The law of gratitude is given)

Excerpt CAC Reading 1-1-28-83 Paul Shockley Interpreter

## Poise: And the Real Purpose of Light Workers

(CLOSING MESSAGE):

This Awareness indicates that in the action of choosing how to remain poised during a time of change, entities may choose to poise themselves, or more correctly, poison themselves, by aligning themselves with the mainstream of the Dark Force, or entities may choose to position themselves in the mainstream of the force of Light.

This Awareness indicates that in positioning yourself in this manner, you forego many opportunities to become radical, wild and sporadic, and must face certain responsibilities and activities in a mature way. This Awareness indicates the greater distinction between the primitive and the civilized, or between the immature and the mature, is in the degree of Poise expressed by the individuals. That wherein an entity is wild and radical, there is little poise. This entity is either immature or primitive. Wherein the entity is poised, balanced, the entity expresses maturity and civilization.

This Awareness indicates however, there are many levels of this. These may occur on social, emotional, mental, intellectual levels, and also on spiritual levels. This also may occur in physical levels, whereby an entity has developed great physical poise as opposed to another who is still in the clumsy immature levels of a child, or one who is not well in control of his physical coordination. This Awareness indicates that it is not simply poise or lack of poise which indicates the spiritual development of an entity, for one can be very poised in a negative direction--poised in the movement of the Dark Force, or one can be poised in the movement toward Light.

### Poise and Purpose and Direction Denotes Spiritual Development

This Awareness indicates the poise and the purpose, or motive, the purpose and direction of an entity, along with the poise, is that which denotes the spiritual development of an entity. That as the motive moves toward that which is highest and best for all, and which promotes concepts of love and mercy, and wherein that movement is expressed in a state of poise; then indeed, that entity, in such expression, begins to reflect an evolving spirit.

This Awareness indicates that it is not necessary that entities evaluate each other's poise, or purposes or directions, except as may be appropriate in understanding how to relate to each other directly and on a clear level, without condemnation or superiority interfering. This Awareness indicates that it is not necessary that entities pursuing the Light refuse to relate to entities who are on the Dark Path, for wherein the Light can shine upon those of the Dark Path, It may bring some change in their view of themselves and their world, and may lighten the path.

### Attention is the Sunlight that Can Heal That Which is Dark

This Awareness indicates that therefore, it is suggested that being aware of those activities of the Dark Force, one needs not battle that force; one may simply maintain their own poise and position in the Light, and from that poise, from that position, shine Light on the Darkness, and allow that to be seen so that mysteries and the hidden may be brought into the Light for others to see, so that attention, not judgment or condemnation may result, which then has its effect of healing that which was Dark, for attention is the sunlight that brings about the life force to heal that which was Dark, decaying or dying, to heal that which seeks to find its sustenance at the expense of others.

## The True Purpose of Light Workers

This Awareness indicates the Dark Force, likened unto a parasite, feeds off of the Forces of Light, but the Dark Force as that which needs not remain Dark, for it can also become more Light, attune to the Light, and find its life force supplied by that Light. When this occurs, of course the Dark Force shall no longer be Dark. This Awareness indicates the purpose of Light Workers is not to condemn the Dark Forces, or flaunt their own Light, parading in front of the Dark Forces with their robes of Light. The purpose of Light Workers is to *share* and *spread* the Light.

## HEALING FROST BITE TISSUE DAMAGE

### QUESTION:

A few questions on various health problems. Diane Rea, Dolton, IL., asks: "Is there any information at CAC about healing frost-bite tissue damage?" I couldn't locate any. Could Awareness give some information on that?

### COSMIC AWARENESS:

This Awareness indicates that it does not appear that much has been accomplished in the medical field relating to this situation other than the immediate first aid types treatments of very gradually warming the area. This Awareness indicates that it appears there could be some benefits from the use of very mild electric currents and also magnetic currents being applied to the area. This Awareness indicates that this appears to be something that will, in the future, be researched but it does not appear to have much present attention.

The damage of frozen flesh is not yet repairable under modern technologies. It does appear that the value of slight electric current applied to these areas is mostly in that it can stimulate the cells that are still alive to become more alive, and perhaps reach to the next neighboring cells to recharge the life in those cells so that a gradual expansion of the living cells begins to reach out into the frozen cell area or the area that had been frozen and gradually restore a kind of healing action.

This Awareness indicates it still appears that much luck and powerful immunity will be important for an entity to benefit from such electrical stimulation. This Awareness indicates that it will depend on how much damage the frost-bite has done, or whether it is prolonged and extensive in the degree of damage. If it is only beginning a process of deterioration and damage, it may be more easy to reverse and save the cellular flesh.

### Chondriana To Regrow Organs In the Future

This Awareness indicates it appears that the area of frost-bite is at present not likely to be helped for many years until a new kind of healing is established. This Awareness indicates that *It* sees also that there is a kind of unknown breakthrough in the medical field wherein very few people know anything of this, but which holds extreme promise for the future. This is in relation to the chondriana, which is basically the life force itself, whereby this can be used to feed the DNA code of an organ or of a lung with life force in such a way as to regrow the organ, or a healthy lung.

It has already been used to regrow a heart that was malfunctioning. It is also seen as possible that it can be used to regrow frost-bitten toes or other limbs, but these attempts as not seen as likely to be brought forth to the masses through the medical profession for quite some time, and if there was an attempt to bring this out into the open at present, the inventor is seen as likely to be exterminated.

This Awareness indicates that the entity who has discovered this chondriana therapy system was also one who in recent years received a nomination for the Nobel prize and is well-known in the medical field as an authority on certain areas of medicine. This Awareness will not go into this as it might identify the entity.

This Awareness indicates however, that were he to bring this out publicly, he is aware that he would be killed and the discovery quelched or hidden for many years, to keep the masses from having use of such information. This Awareness indicates it would totally

ruin the multi-billion dollar cancer business, the AIDS business and most of the surgical businesses of the AMA, and these organizations and many of the doctors would essentially lose fortunes.

Therefore, the information would not be likely to be released for many many years to come. This Awareness indicates that the entity is seeking a way whereby the information might be released in foreign countries so that the therapy, the life force therapy could be used to help save entities from many diseases and from other health problems.

This Awareness sees this as a potential for healing frost-bite, among many other uses.

## THE HEALING WATERS FROM MEXICO

(Could They Help Frost Bite?)

### Follow-up Question:

Is it possible that the so-called healing waters from Mexico and other places that we're hearing about would help frost-bite?

### Cosmic Awareness:

This Awareness indicates that this could be of slight benefit in that these waters tend to carry vitality or life energy which could help to restore some life vitality to those cells that are in the process of dying from having been frozen.

## ANY CURE FOR A QUADRIPLEGIC?

### Question:

A question from Norm DeCindis, Bocan Raton, Florida. "I suffer from a spinal chord injury that left me a quadriplegic. Could you tell me when a cure will be discovered." His basic question is: "I'm thinking of using an experimental drug called GM1 or GMI or GEN made from cow's brain. Would I get any side-effects from it? This drug is not approved in the USA by FDA and it must be brought in from Italy."

### Cosmic Awareness:

This Awareness indicates that the chondriana would be capable of healing this injury as it follows the DNA and regrows the damaged areas, however, as indicated in the previous question, it may be many years before this is released for public use.

This Awareness indicates that it may be possible to have this in a foreign country prior to that introduction in the United States or it might be possible that the chondriana, which essentially is in the form of liquid or water-like substance, to be marketed in a kind of secret or black-market manner, but this is not seen at this time.

This Awareness indicates that in reference to the two drugs mentioned, or the drug with two names, it appears that this will not have any long-term or serious side-effects if used on a short-term basis. That if it is used on a long-term basis, you should watch carefully for any apparent side-effects.

This Awareness indicates that it appears there is some information in Italy regarding side-effects that need to be monitored if one is involved in long-term use.

Ed's Note: The name of the inventor of chondriana or Life Crystals which Awareness kept secret at the time of this reading is George Merkl Ph.D. There is much information on the Internet today about this entity. His life and those of his children were threatened by FDA goons and he was forced to flee the U.S. There is an underground network based in Canada that secretly supplies chondriana which cures cancer and other diseases. To locate this entity go to Google and type in "George Merkl" (or "Chondriana").

## HOOKED ON MARIJUANA

(How To Get Free From This Habit)

### QUESTION:

A question from Dennis Chase, in Salem, Oregon. He writes: "I've been smoking marijuana since I was 16 years old. This makes a steady input for the last 33 years. I've done just about every other substance I could, legal or illegal during that time also, this excluding shooting heroin. I was a heavy cocaine user, but never a shooter. I tried twice, and had a super negative experience, both times. I snorted all that was snortable except downers. I could never get behind anything that brought me down except some types of pot which might be considered a downer.

"What I'm getting at is that I've been able to place myself in the mind set that I "do not drink, do not use cocaine, do not smoke cigarettes, do not do any drugs." The alcohol and cigarettes were fairly easy to quit. Anytime anyone would offer me a drink or offer or ask for a cigarette, I'd just say: "I don't drink", or "I don't smoke", without any explanations or statements like: "I am trying to quit."

"I feel reinforced every time I say "I don't", so it worked great for me in a lot of ways, but I can't seem to kick pot. There is a part of me that doesn't want to because I can't see any real harm in it, that it has done me, plus, and this may be the core of it, it calms me down and allows me to see a higher more relaxed point of view. I get so tense without it.

"I smoke a relatively minute amount nowadays, not like in my younger days when I thought I could abuse myself without consequences. Awareness suggests we take any considered action to its possible conclusions, and if anyone can be harmed by the potential conclusions of that action, then we should forego that action. The worst thing that can come of this is the legal hassles, problems encountered from the short-term memory loss and most of all, the threat of losing my kids for having it near them.

"Could you please ask Awareness what can I do to free myself of marijuana, something short of getting busted for it, which happened with cocaine in 1984?"

### COSMIC AWARENESS:

This Awareness suggests that there appears to be not so much an addiction to this as a habit on your part to the use of this substance. It is used in part to help relax you. It stimulates certain of your glands to bring about passiveness and feelings of satisfaction, relaxation, and a sense of peace which you enjoy. You have not looked at the areas of your life that it tends to hinder.

#### Chamomile and Hops for Relaxation

It hinders your accomplishments and your sense of ambition. It hinders your initiative. This Awareness indicates that as for being able to relax, you might wish to try chamomile tea and possibly other herbal substitutes such as hops, for purposes of relaxation. This Awareness indicates there are, in health food stores herbs in tablet form known as Calms and Calms Forte, to help one relax and sleep and these are not habit-forming, nor do you have to use them just to go to sleep. You can use them for relaxation purposes.

This Awareness indicates that just getting out and walking and observing nature can sometimes be very stimulating and inspiring to your energy levels so that your body and health improves over a period of time and your sense of well-being improves, and this kind of activity can help to break the interest in marijuana and other such drugs.

### Pot Smokers Like to Get Stoned in Comfort

This Awareness indicates that sometimes people like to let the brain have a break from thinking and they see marijuana as giving this break in thought, allowing them to go blank or to think on other things that are of less significance than daily life. They find perhaps that when the brain is saturated with marijuana they do not need to be as concerned about daily affairs and earning capabilities as when they are not on the drug. Thus, they may drift psychically or mentally in a poverty state for awhile, then shift back into a more active state, and they seem not able to fully grasp the full significance of staying alert and in touch with reality for long periods of time. It is as though reality is an affront to them and they want to deal with unreality and to have only enough reality to let them keep getting stoned in comfort.

This Awareness indicates that once an entity realizes that time is passing and life's purposes are not being attended, or that the entity must have a purpose greater than that which has yet occurred, then the entity may begin to also realize that the use of marijuana in its stifling of the ambition may be its greatest detriment and the entity may find it beneficial to back off for awhile from using marijuana and to see what can be done playing it straight and put some energies into living directly without these drugs being part of the lifestyle.

This Awareness indicates that if this can be accomplished, and the entity can turn the interest into some kind of creative action, very likely there will be a mounting interest in different projects or activities and the increased interest in these areas can take over one's activities so that getting stoned on marijuana or other substances becomes less meaningful, and even perhaps, gets in the way of the more meaningful projects that are developing in the entity's life.

### How Drugs Weaken the Brain Function

(Psilocybin Can Help Clear the Cobwebs)

### QUESTION:

A related question from Otto Veltman, in Amsterdam, Holland. He writes: "Scientists say that if you have been smoking hashish or marijuana that a sticky stuff stays in the brain between the synapsis for at least 15 years and makes you react slower, or weakens the brain functions. Is that just what you pay for having smoken hash, or is there something we can do about it and get it out of the brain system?"

That was the end of the question.

### COSMIC AWARENESS:

This Awareness indicates that this is a cost in the price of using these drugs. This Awareness indicates that there is some remedy that can be acquired to eliminate this sluggish brain activity through the use of psilocybin mushroom, but this must be used carefully, as it too can be dangerous since it is itself toxic if used in excess. In some cases, in some countries, it is also illegal, but it does have the effect of clearing the cobwebs left in the brain from the use of marijuana and hashish.

#### GH3, Vitamin C and Gotu Kola Can Help

This Awareness indicates this of course may not be effective in the same way for every individual; that the use of Vitamin C or citrus fruits and other fruits that are high in Vitamin C can also be beneficial over a period of time. This Awareness suggests also that Gotu Kola can be beneficial as an herb and may be used as a tea. Lemon Grass tea may have beneficial effects in this regard when used over a long period of time. This Awareness indicates that GH3 is also seen as having some benefits. The action of fasting or using lemon and honey liquid over a period of a week or two can help to diminish this sluggishness that results from excessive marijuana or hashish use. This Awareness indicates also

solid exercise such as jogging, walking, bicycling, swimming, repeated on a daily or regular basis, not less than every other day, along with copious amounts of water can also be helpful in eliminating this sluggishness from the use of marijuana.

Excerpt CAC Reading 5-2-5-88 Paul Shockley Interpreter

### HE WANTS THE COSMIC LAWS ON SUBLIMINAL TAPE

#### Question:

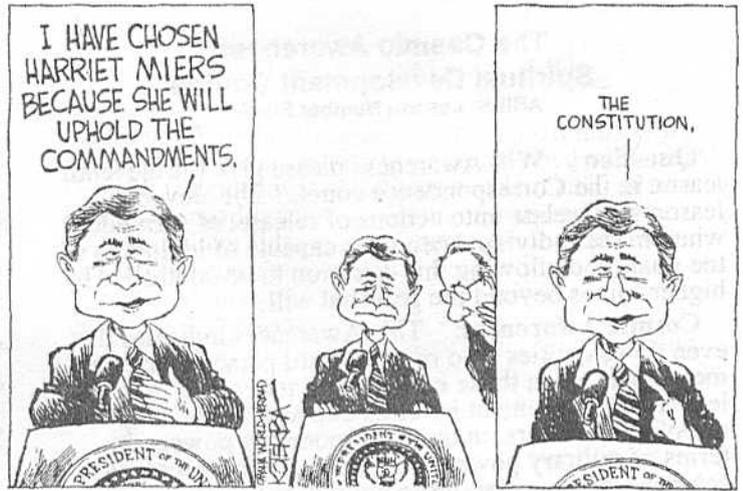

A question from Joel West, Paramount, California, in relation to Cosmic Laws: "Awareness has suggested unparalleled advantages in spiritual growth would accrue to those who diligently study the Cosmic Laws of Cosmic Awareness, devoting one or two weeks to contemplation to each of these laws. I have begun this. Meantime, essentially, all the metaphysical mail order outlets have extensive lines of subliminal cassette tapes to give assured aid in developing self-confidence, quit smoking, drugs, improving memory and so forth and so on. This is achieved effortlessly, while one listens on way to work, to and from work, listening to calming ocean waves sounds, or New Age music on conscious levels. Wouldn't it nurture and implement our internalization of the Cosmic Laws if we had them on a subliminal cassette tape? What's Awareness's reaction to that?"

#### COSMIC AWARENESS:

This Awareness indicates that this could have certain advantages and benefits. This Awareness indicates that however, there can, even without this, be very many benefits from studying the Cosmic Laws, not in the sense of trying to memorize, or trying to understand the surface appearance of a Cosmic Law, but that because when one begins to study a Cosmic Law repeatedly, each time the law is examined, something different will be recognized. It is that the Cosmic Law tends to stimulate an entity into thinking deeply, for the Cosmic Law is a law that has Cosmic proportions in terms of application. These Cosmic Laws can be applied to so many areas in an individual's life that are totally personal to the individual, and as one begins to study the Cosmic Law in the sense of its meaning and the dual levels of, or multi-levels of meaning, the entity begins seeing these in relation to his or her own personal experiences, and can apply them to his or her personal experiences, during the time of the studying and also at other times of experiences which the entity may later encounter.

This Awareness indicates for example, when one has fully absorbed the Cosmic Law, such as the Law of Love, or any other, the entity may feel that he understands this completely, yet, 6 months later, the entity may be involved in some kind of situation, where it is necessary to find a solution or choose an action or make a decision, and if that entity has been thoroughly familiarized with the Law of Love, it can pop into his or her consciousness, and immediately supply the answer the entity needed.

This Awareness indicates that when one has numerous Cosmic Laws in their consciousness, just as one fills one's mind with the ABC's of the alphabet at a certain stage in his or her life, and these then thereafter become part of one's tools for thinking, then it can be quite helpful. This Awareness indicates that while it can be most beneficial having these Cosmic Laws in one's subconscious, it is also beneficial in having them in one's conscious mind so that they are understood there too, just as the ABCs were originally learned consciously. This Awareness indicates that there is no

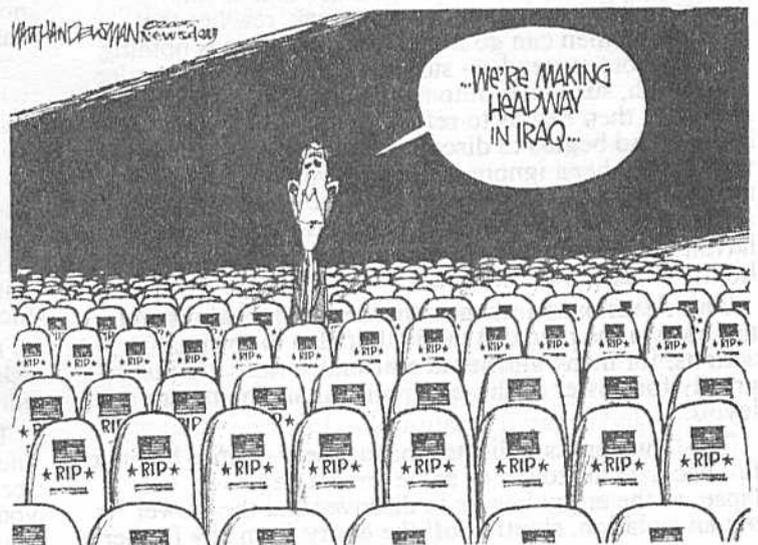

evidence that one can learn the ABCs from subliminal tapes without ever being exposed to them on a conscious level.

This Awareness indicates however, that using both techniques could have some benefits; that the conscious level learning should not be ignored.

### WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

## The Cosmic Awareness Spiritual Development Course ARIES: Lesson Number Eleven

**Question:** Will Awareness please give the eleventh lesson in the Correspondence course? The eleventh lesson shall relate unto actions of release, of surrender, wherein the individual becomes capable of letting go of the goals and allowing this direction to be controlled by higher forces beyond the personal will.

**Cosmic Awareness:** This Awareness indicates that even those entities who move toward personal achievement goals, even those entities who move into high levels of achievement in terms of social goals, in terms of political powers, in terms of monetary powers, in terms of military powers - regardless of how high an achiever they may be, those entities eventually reach the top of their peak and can go no further.

This Awareness indicates this action of reaching the ultimate of their ability to achieve, leaves with the entity the feeling that the entity has moved so far as is humanly possible for his own type of energies, yet there remains with that entity the feeling of incompleteness.

This Awareness indicates at this point the entity begins to suspect and tune in to and understand the fallacy of power, the fallacy of seeking to achieve, and the fallacy of goal-seeking.

This Awareness indicates this as related unto the story of the Tower of Babel. This Awareness indicates that as this tower of achievement begins to fall, as the entity realizes that he cannot be the divine power of the Universe, as the entity begins to understand that power does not lead him to everlasting life: to the levels of God, to the levels whereby the entity is secure, safe from all universal forces - as the entity begins to realize that all of his work has been in vain and old age has caught up, or disease has caught up, or other forces have become too great and the entity can no longer struggle against the odds which have built against him or herself, the entity then has no choice but to surrender.

This Awareness suggests a line in Leonard Cohen's music, "Reaching for the sky, just to surrender."

This Awareness indicates that all entities at one time or another have reached in such a manner, or shall reach in such a manner: "Reaching for the sky, just to surrender." This Awareness indicates that as this occurs and the entity reaches that peak, reaches that climax and then can go no further, and there is nothing left to do but surrender - surrender unto God, surrender unto death, surrender unto the forces of the Universe - the entity then begins to reflect back into himself, into herself, and begins to discover those levels of being which have been ignored, which have been forgotten, those levels of sensitivity which have been pushed aside, those levels of mercy, those levels of love which have been placed aside in order to drive higher and higher in efforts to achieve.

This Awareness indicates these achievers are found not only in the physical world, but also in spiritual actions, for many entities in spiritual actions are just as greedy for power as those in political and monetary levels.

This Awareness indicates that as these entities begin to fall back, as the tower of achievement begins to collapse, as the entity begins to discover that the "tower" is but an isolation, shutting off the entity from any further

spiritual integration with Universal forces, and as this tower begins to collapse and the entity begins moving back into these forces and begins picking up the pieces of himself or herself, of the consciousness which has been neglected or discarded, there comes about an even greater level of appreciation and sensitivity for the little things in life.

This Awareness indicates that those who pass over and move beyond the physical plane at this time have one question that is asked of them: "How many have you served, and how well?"

This Awareness indicates these entities are not asked: "How much did you achieve?" These entities are not asked: "How well did you do that which you set out to do?" These entities are not asked: "How spiritual were you? How powerful were you? How adept were you?" These entities are asked: "How many have you served, and how well?"

This Awareness indicates the question being that which becomes the ultimate question of all human beings, of all entities claiming to have conscious awareness of their lives.

This Awareness indicates as this question is asked, entities may begin to reflect on their service to others, and in this reflection, may begin to feel the urgency to begin serving others in order to reap the rewards that can come from such spiritual forces as would ask this question.

This Awareness indicates that if your motivation of serving others is to reap a reward in the afterlife, that this is not the proper motive.

This Awareness indicates there is no punishment if you do not serve others and there is no afterlife reward if you serve others, but there is a reward in serving others that occurs through the action of serving others, and occurs in your own psyche as an effect upon your psyche whereby you become something other than the person you were before you served others.

This Awareness indicates that as you begin serving others, a strange thing begins happening in your psyche: the urgencies which would normally be turned toward self-service, being now turned toward the service of others, begins to create an area around you in your world with your associations, with your friends, with your loved ones, whereby as you serve them, an energy begins being returned unto you which allows you the freedom and space on all levels to give even more service than you did before - and the more service you put out for others, the greater the space and energy you shall have.

This Awareness indicates that this cannot happen whereby your motive is to receive back this energy; this cannot happen whereby your motive is to promote yourself by appearing to serve others.

This Awareness indicates this does have a limited degree of efficiency and can be of benefit to you, yet the level which this Awareness now speaks of is that wherein you give your energies in the service of others without personal motivation and personal gain as being the significant factor.

This Awareness suggests that the question may be asked: "How can I serve others without being totally annihilated or martyred?"

This Awareness has indicated that there has been enough sacrifice, and sacrifice and martyrism have accomplished very little. This Awareness indicates that you need not sacrifice yourself, you need not martyr yourself, for there are no rewards of any great value in

sacrificing and martyring yourself, if that is your motive. This Awareness indicates that the entity who seeks to martyr or sacrifice in order to gain something in a later life, or at a later time, will find his rewards as being empty.

The entity who gives himself without motivation, without the intent of future gain - the entity who gives himself without considering that gift as being a sacrifice, but as simply a response to that which calls: a response and a gift necessary because one has it to give and another needs it, this entity, in giving this gift, then finds that his energy shall be returned in multiplied levels.

This Awareness indicates that wherein you have a gift (and another wishes this), but this gift you have is precious to you, and you desire to hold onto this a little longer, and you desire to keep this for yourself a little longer - and you look at the entity's desire and at your desire, and to part with this gift would be a great sacrifice to you, this Awareness suggests that if this feels as though it were a sacrifice that would lead to your feeling of resentment toward that entity, this Awareness suggests that you not give the gift, that you keep this gift until you can give it freely to another without feeling that you have martyred or sacrificed yourself.

This Awareness asks that entities no longer sacrifice or martyr themselves, but that you serve one another with what you can give, with what you can share.

This Awareness suggests that all entities can share something, and if you give them what you have, if you give what you can easily share without sacrifice, this then allows an energy to be returned.

This Awareness suggests that you ask yourself: "Why do I feel that in giving this gift, it would be a sacrifice?", and that you look carefully to see if this is actually a sacrifice in giving this gift, or if this is an area of your own psyche which is greedy and wishes to cling to as much as possible.

This Awareness suggests that you question your feelings as to what it is that you consider a sacrifice of self and martyrism of self. This Awareness indicates that as you question these feelings, you may discover that in giving these gifts you are capable of creating a joy in the other entity that surpasses the joy you would receive if you kept the gift for yourself, and your enjoyment in giving this gift is greater than your enjoyment in keeping the gift. Wherein this is experienced and you can give your gift with joy, this is the true gift and shall be blessed.

This Awareness has asked that you cast your bread upon the waters, this being that which is cast out without hooks, without those barbs to bring in and catch your fish. This Awareness indicates that you not give gifts with hooks attached, that you give gifts only because you wish to give them and for no other reason.

This Awareness indicates that you not give of yourself in any way that has strings attached to your gift; that you give of yourself because you must give something in order to continue being.

This Awareness indicates this as likened unto the tree as mentioned by Gibran, which puts forth its fruit not because it wishes to catch a person, but simply because it is a tree that puts forth its fruit.

This Awareness indicates that as you give yourself freely without motivation, as you respond to urgencies without personal motivation, the movement of energies begins to flow in two directions. The nature of the Universe is such that it abhors a vacuum, and wherein anything is given, a vacuum is created which must be filled, and the nature of the Universe is such that some energy will pour back into that vacuum.

This Awareness suggests that as this energy is poured back into that vacuum, you have within your choice, the ability to decide how you wish that vacuum to be filled, or whether you even wish the vacuum to be filled. For you can keep this vacuum, and in keeping this vacuum open by continually giving away parts of yourself, and gifts of yourself, there will be that influx of energy which continues to move toward you.

This Awareness indicates that there is a subtle difference between the action of giving a gift with hooks and strings attached, and giving a gift with the understanding that natural law returns your energy to you. This Awareness indicates this as related unto the *Law of Gratitude*, wherein energy which has been given receives a certain reward.

This Awareness suggests that as entities begin moving into levels of service, there becomes those times wherein the entity feels that the action of response to urgencies is overwhelming, and there are so many urgencies that the entity can not respond to all of these. This Awareness suggests that you look at each moment to see what is of the greatest urgency and what it will take to resolve that urgency.

This Awareness suggests that you not make a decision about this, but simply be aware of all the urgencies which are screaming at you, and in that awareness, you will respond first to one, then to the other, and then to another.

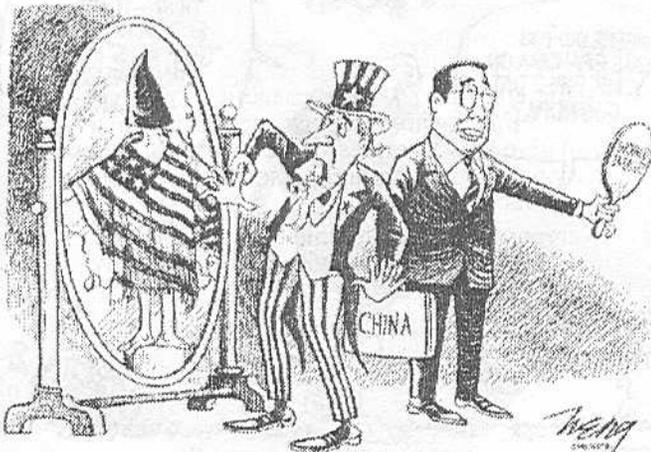

There is no right way or wrong way of responding. There is no way of determining which is first, which is second, and which is third, except simply by reflecting back to discover which one you responded to first, second, then third.

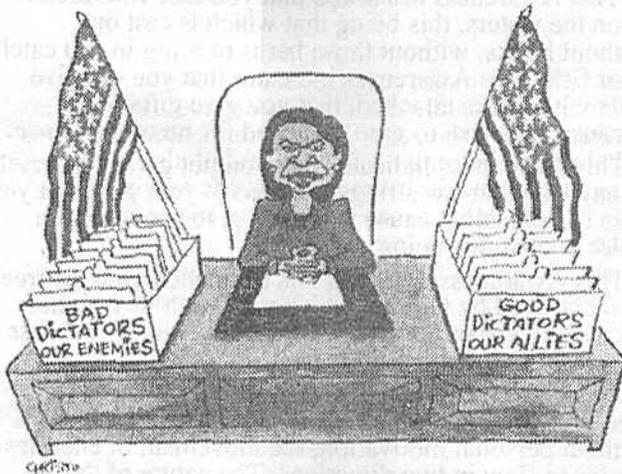

This Awareness indicates that however you respond to these urgencies, when looking closely at these urgencies, that is the proper way for you, for your situation - so long as these are based on the level of attention, deep looking, and the awareness of what is happening.

This Awareness indicates that wherein thought enters and you try to create order in your head in order to find a way of creating order in your life, you may discover that your head has interfered with your ability to respond.

This Awareness suggests that the sixth lesson discussed the nature of order and it was suggested that order exists as a relative factor; even in levels of chaos there is order.

HENG  
 (PHONE 240384)  
 SINGAPORE  
 SINGAPORE

This Awareness indicates that wherein your life has reached such a state that many urgencies exist at once, and you would like to find a way of dealing with these many urgencies in order to be capable of greater response to even more urgencies, you will discover that the only way to serve many, and serve them well, is to have some type of order, some type of organization, some type of form through which the spirit can flow and function and be disseminated to those urgencies without confusion. This Awareness indicates this then becomes an urgency in itself.

This Awareness indicates that which appears to be chaotic in terms of the screaming urgencies, that which appears to be disorder can be given a greater degree of order, and this then becomes the urgency at hand.

How can you create a more efficient way of handling all these urgencies? How can you find some orderly fashion by which to respond to these many urgencies? In this kind of questioning, a new level of response begins to occur whereby you respond to the total situation – the total urgency of the situation, rather than each of the individual urgencies within the situation.

This Awareness indicates this as likened unto a step upward onto a higher level, looking down at all of the urgencies, and in this action you may begin to discover that there are certain techniques, certain ways of organizing by which you are capable of channeling the energy, direction, attention, and service to each of these urgencies in a manner that allows them to have their fulfillment without the chaotic confusion which appears to occur when each of these urgencies is screaming at you all at once.

This Awareness indicates in this way you may discover the nature and purpose of organization, of order - the motivation now being that of response; response to the urgencies. The purpose of the corporation, the purpose of the organization, the purpose of the form through which spirit is moving is not to sustain itself, not to promote itself, not to become a stable, functioning organization or structure that holds itself up and needs to be served by the masses, by the entities involved, but rather a structure that is in place to allow the spirit, to allow the spiritual forces, to allow responsive forces to flow into and serve the people who feel the urgency which prompted the creation of that order to begin with.

This Awareness indicates the difference is only a difference of motivation. And the error of the past has been that the church was created, the corporation was created, the organization was created, the rules were created, the society was created, the systems were created, the orders were created in order to serve the

people. But shortly afterwards the orders became the important, significant function, and the people were asked to serve the order, to serve the system, to serve the society, to serve the religion, to serve the churches, to serve the corporations.

This Awareness asks that entities not confuse the individual and the sacredness of the individual for the order and structure. For the structure is designed to serve the individual and not the other way around.

This Awareness indicates that your nation, your Constitution was set up to serve the people, and wherein entities ask that you serve your country, there is an error in the concept, wherein entities ask that your country serve you, wherein entities ask that the government serve the people, this as that which is appropriate.

This Awareness indicates this same thing is applied to rules within your home, rules within your life, rules within your society, rules within your church - wherein these are serving you and serving your fellow friends and families, wherein these are serving your fellow humans and the creatures of the earth, wherein these rules are of service, they are appropriate.

Wherein the rules are there, wherein the laws are there, and the entities who are being subjected to these laws are merely puppets to support these rules and laws to maintain order among themselves in order to please the rulers, in order to please the heads, in order to please the lawmakers, there is something awry.

This Awareness suggests that wherein you give service and respond to the needs of others, there may come a time wherein you are working with the energies of many entities, and you become capable of finding a way to organize these energies, and organizing the actions to give greater service.

This Awareness suggests when this occurs, that you be very careful not to build a structure, a Tower of Babel which needs to be supported by those for whom your structure was originally created, for the 'gimmick' can often become the master, the structure can become the "Frankenstein," "the Beast" which then becomes overwhelming and powerful and overbearing upon those whom it was designed to serve.

This Awareness indicates the computer can very easily become the master of the programmer unless the programmer and all involved recognize which is most important, and where the true priorities lie.

This Awareness suggests that this as the conclusion of this lesson.

(The Law of Gratitude is given.)

Excerpt CAC Reading # 13 3/ 31/ 89 Paul Shockley Interpreter

## EATING EGGS TODAY: ARE WE COMMITTING SUICIDE? (More on the Evils of Antibiotics)

### QUESTION:

(The first portion of this reading was mysteriously lost due to technical difficulty) we join the reading in progress, half way through CA. Jon Strongbow Transcriber)

There was a little article in a magazine here. I'd like to ask Awareness the impact of this, if it is as dire as it sounds. It says: "In the past, a hen could at the most lay an egg a day. It would be considered a very good layer, if it could lay 25 eggs in a month, but today, antibiotics can induce a layer to lay 4 eggs per day and even eggs with double yolks, but the lifespan of this kind of layer is only 4 months. When people consume eggs produced in this manner, they are not taking in nutrition, but antibiotics, thus committing chronic suicide."

### COSMIC AWARENESS:

This Awareness indicates that this is as accurate in the sense that the antibiotics are passed from chicken to human through the eggs; that this is not the only way in which this occurs; that also many cattle are highly injected with and given food to increase antibiotics in their system; that cattle are also given steroids and these are ingested by humans in the eating of red meats. This Awareness indicates that this use of food-stuff that is high in antibiotics and steroids does take a toll on the human body after some time, creating an immunity to those antibiotics that are being absorbed so that they do not have the effect when used at some future time for an emergency, and so that the natural healing forces of the body are often hindered by the antibiotics taken in through food.

This Awareness indicates that this is a danger and a hazard in today's society. It appears that the more entities seek to increase profits by going against nature, the more they create problems for the consumer which requires that the consumer then go to the doctor to receive some kind of treatment to counter the problem that was created by the diet. This Awareness indicates that often the treatment then becomes the cause for something further and society begins to feel themselves as existing only to be pumped up with substances to keep them alive.

### Immune Systems Today Are Rapidly Deteriorating

This Awareness indicates that even though there are entities living longer life spans, the health is a great problem for many entities; the immune system for most entities is deteriorating much more quickly than in earlier generations, and there are the energy losses and quality of life being lost to make the longer life span less valuable and less meaningful. This Awareness indicates that the time could come when many of these commercially oriented systems of increasing eggs or improving the amount of meat grown on a cow can be removed from the process so that more healthy food is marketed. It will require that the consumers make certain demands of the producers.

This Awareness indicates that already, the consumers have begun to acknowledge a willingness to pay for better food of higher quality, and as this acknowledgement increases, there is that possibility that the suppliers and producers will be required to make adjustments. This Awareness indicates that environment will become a major issue during the next decade and into the next century, but things may need to become more disruptive before real action is taken.

### Pluto In Scorpio Creates Attention to the Environment

This Awareness has indicated some time ago, that when Pluto entered into Scorpio that the environmental issue would be a major concern. It has been in Scorpio now for approximately most of this decade. It now is at 15 degrees of Scorpio, and the environmental concern is now being felt, not only in food stuff, but also in the spilling of oils, the destruction of sea life and bird life, and it is also coming to the attention of many entities that the nuclear waste dumps and nuclear plants are mismanaged and great danger and damage has occurred from mismanaging of these wastes and of these environmental hazards.

This Awareness indicates that this shall continue, so long as Pluto remains in Scorpio. Thereafter, some system for cleaning and refining the environment will come into practice.

Excerpt CAC Reading 1-11-8-94 Paul Shockley Interpreter

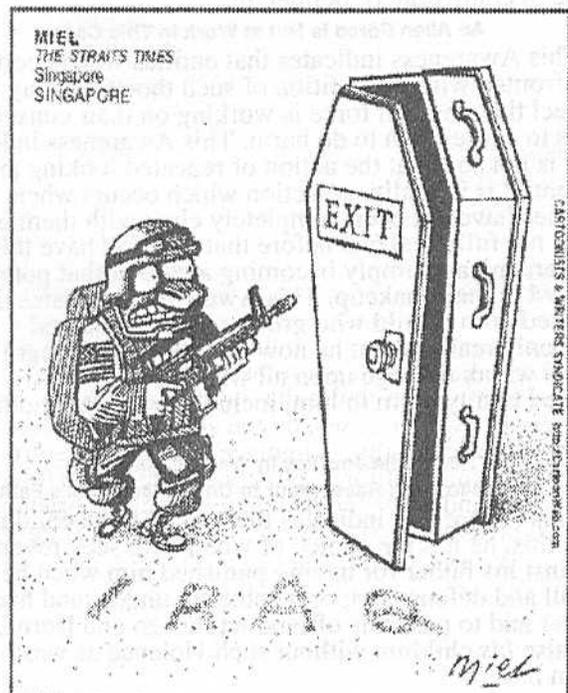

### Urban Warfare Programs Underway

### QUESTION:

Somebody sent me a clipping from the Atlanta, Georgia, *Journal Constitution* that says a "12 million dollar mock city is being built at Fort Polk, Louisiana, so that US troops can be better trained for what the Pentagon calls "Third World urban warfare situations."

### COSMIC AWARENESS:

This Awareness indicates this is a training for going into homes to confiscate guns and properties of American citizens. This has been described by various entities for some months now. The entity known as Mark from Detroit, for example, has described the urban warfare programs that were practiced in his area, and how this would be used across the country when the New World Order planners used UN and American troops to confiscate guns from individual homes and to take the various products such as cameras, computers, televisions and telephones and FAX machines from homes, to isolate individuals, so that communication became near to impossible in regard to what is occurring or would be occurring at the time.

Excerpt From a CAC Reading. Paul Shockley Interpreter

## How to Learn to Love Your Enemy (We are All Capable of Murder or Suicide)

This Awareness wishes to call attention to the concept of error. Wherein an entity is confronted with the possibility of creating an action which he or she fully understands to be an action of error, to violate others, or to bring harm to oneself, and the entity feeling a repulsion for even observing such an action, feeling that perhaps they are being possessed by an alien force, wishing to eradicate the thought of such error, yet wondering where such thoughts come from, how they could possibly think of such unacceptable thoughts:

This Awareness indicates that wherein an entity is faced with this, seeing this potential within oneself of creating error, of harming others, or of harming oneself, wherein an entity realizes that he or she *could* violate another, could violate themselves, and that realization becomes significant to them, and the entity is faced with the choice of refusing to look at this possibility and simply thinking of something else, or looking at the possibility and being afraid that they might be swallowed up by that action: this can become a problem when entities do not understand how to handle such situations.

### When One Becomes Obsessed With Suicide or Murder

This Awareness indicates that each entity upon this plane is capable of suicide, is capable of murder. This Awareness indicates that the majority of entities upon this plane do not bother themselves to consider such concerns because their attentions are on other things, on other interests.

This Awareness indicates that occasionally there will be those entities who become for one reason or another obsessed with an idea of suicide or murder. This Awareness indicates that this obsession can become that which entities like to call an 'evil thought' or an 'evil force' acting upon them. This Awareness indicates this, in reality, is but an action of the mind realizing its potential to do harm. And often that potential to do harm is but an expression of fear that the entity might somehow yield to that potential and somehow might do harm to oneself or another in an action of sudden violence or sudden confusion, or deliberate.

### An Alien Force is Not at Work in This Case

This Awareness indicates that entities who become confronted with a repetition of such thoughts, may begin to feel that an alien force is working on their consciousness to cause them to do harm. This Awareness indicates this is not so. That the action of repeated looking at this potential is in reality an action which occurs when entities have not been completely clear with themselves, have not fully realized before that they *did* have this power, and are simply becoming aware of that potential hazard in their makeup. This Awareness indicates this as likened unto a child who grows to adulthood and suddenly realizes that he now has physical strength and could wreak revenge upon all who ever previously caused bodily harm to him, including parents or others.

### Taking the Journey In Your Imagination--

#### A Choice to Seek Revenge or to Understand One's Father

This Awareness indicates that wherein the child realizes this, he has the choice of whether to seek revenge against his father for having punished him when he was small and defenseless, or whether to understand his father and to pass this off and let this go and learn how to raise *his* children without such violence as was placed upon him.

This Awareness suggests that entities in discovering their potential to do harm, may also counter this potential hazard and the obsession by looking at the potential to do good; and may look at the potential to do harm, follow that image to its culmination wherein you visualize yourself having created that harm, then the remorse you would feel, the consequences of the action, the great despair, and the total loss that would come about from the violence which would be created; and in this manner, take the entire trip or journey in your imagination, without having to take the journey in reality.

This Awareness indicates once you see where the journey can go, you return to the source where you presently are, look again at the situation, and this time take another journey in your imagination, visualizing yourself and the entities or those parts of the situation in which you find yourself, and look at the potential you have to do good; visualize the situation growing better, more harmonious and more beautiful for the next month, the next year, the next five years, and the next ten, twenty and thirty years, and all of the joys that can come from your life and its potential to do good to others.

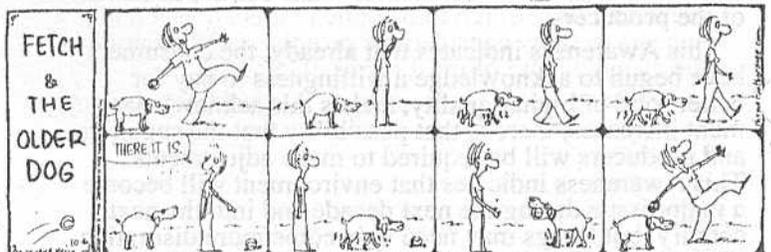

This Awareness, indicates that in looking at this in this manner, you may become aware, not only of your power to do harm, but also of your power to do great works that leave their marks on the Akashic Record, that leave their marks in the hearts of those who you love and who love you, and leave their marks on the social systems in which you live.

This Awareness indicates that in looking at an action wherein violence can be committed, that violence can occur only in a split second; only in a moment, but the residue and the results of that violence will last and affect many other moments and create much pain and difficulty for others long beyond that moment.

This Awareness indicates violence which occurs in a moment has been seething in the consciousness of someone for some long period of time prior to that moment.

### How to Let Off Steam and Loosen Emotional Blockage

This Awareness indicates that wherein you can look deeply at your own motivations, your own frustrations, and wherein these seething type of feelings may begin to build or repeat themselves, this Awareness suggests that you be cautious and that you begin making changes in your lifestyle, in your attitudes toward yourself; that you begin giving yourself greater freedoms and communicating with others, so that whatever it is that is bothering you which would cause you to feel a need to lash out, to harm another so that this can be expressed, so that this is not only expressed to those whom you feel a need to lash out at, but also that you express this to others who are not involved in the situation so that you can alleviate the deep feelings that would result in sudden explosive violence by expressing this verbally in other areas to other entities, and in this manner letting off your steam and loosening the emotional blockage.

This Awareness indicates that once you have eliminated the need for violent expression by verbal expression, then you can also begin creating the feelings of tender loving care toward that entity whom you would violate. This Awareness suggests that when you begin feeling this, that you not express your love; that you hold back on the action of expressing this love, that you simply *feel* this love for that entity and observe that entity and all those things which are loving and tender and beautiful about that entity. The entity who you once would have violated, now you look at with love and affection.

This Awareness suggests that you may still see those areas which you do not approve of, but wishes that you give greater attention to those areas which you *do* approve of, but that you not express this approval, that you allow this approval to build within yourself until you can hardly stand not saying what you feel in terms of the affection and appreciation you feel toward that entity. That in this manner, the love and affection begins to build within yourself, and the hostility you might have felt for the other is released through the verbal expression and there can, in this manner, be a transformation of your feelings toward others, whereby you learn to love your enemy.

Excerpt CAC Reading 6-6-17-93 Paul Shockley Interpreter

### A MALARIA/CANCER CONNECTION?

#### QUESTION:

We received a pitch in the mail from a publisher of an economic newsletter, and he dangles this one in front of us. I'd like to check this one out. "A new cancer cure! Recently, Dr. Henry Heimlich of the world-famous Heimlich anti-choking maneuver made an incredible discovery. Almost no one knows about it yet.

"It's based on a simple observation he made about people who don't get cancer. Most of them live in certain areas of the world. Surprisingly, these are areas where malaria is endemic, meaning almost everyone has been exposed to it. Dr. Heimlich also found that World War 2 soldiers who contracted malaria seem to be able to fight off cancer much better than those who did not.

"In a clinic in Mexico, he is taking this astonishing discovery and working to turn it into an effective new cure. You won't read about it in the paper, but we'll tell you about it in our special report."

Does Awareness see if that information is valid?

#### COSMIC AWARENESS:

This Awareness indicates this appears to have substance. It is not clear at this time whether the malaria is in some way a cure or hindrance to the growth of cancer or whether the body in building antibodies to malaria also creates some kind of antibodies that ward off cancer.

It could be that the antibodies that counter the malaria have an effect of countering cancer that might develop later. This Awareness indicates that there appears to be a great deal of research to be done in this area, and it appears to show considerable promise as a potential for the eventual cure of most forms of cancer.

### APPARENT CAUSE NOT ALWAYS THE CAUSE

#### CLOSING MESSAGE:

This Awareness indicates the area of health is so complex that often things which appear connected may have some other area of effect that does not give a clear and direct meaning as would appear logically, and

therefore, one thing may be connected to another, but the connection may run through many different intermediary steps to occur. Therefore, when entities see that an event follows another event, therefore the second event must have been caused by the first event; this is not always necessarily the case. It could be that the first event caused several other events to occur which in turn triggered the fourth or fifth even which led to the final outcome.

This Awareness indicates that this is the reason why so much research is often needed before reaching a conclusion on something that appears on the surface to be quite simple. This Awareness indicates that it is much like saying "Every time I feed my cat out on the porch, the dogs in the neighborhood begin to bark!" The assumption being that they are barking because you are feeding your cat, when in fact it could be that you always feed your cat at a certain time, and at that same certain time, a neighbor in the neighborhood walks out of his door and his own dog begins to bark at him, which leads the other dogs to start barking.

This Awareness indicates in other words, the apparent cause is not always the real cause.

### Why is Project ELF Still Going?

#### QUESTION:

One last question here from Jim Haugen, in Wausau, Wisconsin. He sent a front page editorial from the *Wausau Daily Herald*, October 2nd, that says "Pull the plug now on Navy's Project ELF!" And it reads:

"Hey Pentagon! The Cold War is over! We won! SO why are we spending millions of dollars to maintain Project ELF, a facility in Northern Wisconsin to communicate with submarines deep in the world's oceans?"

"ELF was built for war, not for peace. Critics claim its main purpose is during a nuclear First Strike. ELF stands for Extremely Low Frequency radio waves that penetrate the earth's mantle but take a long, long time to transmit a usable message. There are two ends to the antenna; one near Clam Lake, Wisconsin, the other in Republic, Michigan."

And I'd like to ask Awareness if *It* can answer that question: Why are they still maintaining this ELF facility at such an expense?

#### COSMIC AWARENESS:

This Awareness indicates that it may well have some other purpose than communicating with submarines. It may also have an effect of broadcasting certain extra low frequency energies for a particular purpose or reason that is not clearly seen. The ELF waves have been used for creating earthquakes, also for affecting consciousness of individuals in certain mass levels.

This Awareness indicates that the ELF waves in communicating with submarines may still be a means by which, or may be considered an alternative means by which the various communications of the Navy can bypass other types of communication. There may be a reason for this need. This Awareness does not wish to divulge military secrets, therefore, *It* is simply indicating potential and possible purposes.

*It* is not answering the question of the entity.

---

HAPPY HOLIDAYS FROM THE CAC STAFF!

## OBJECTIONS TO AWARENESS' "NEGATIVE" INFORMATION (The Purpose of Awareness Giving Information)

**QUESTION:**

This Awareness indicates that there have been some entities who object that the information given by this Awareness is of a negative nature, and that they would like to have more positive information. This Awareness has one purpose in giving information, and that is not to cheer people, or to discourage people, but to *inform* people. *Its* intent is to express that which is as close to truth as is possible through this Interpreter.

This Awareness indicates that if the information is received as negative, or as positive, that is of no consequence to this Awareness. If it is delivered as clear to the truth as is intended, that then is the purpose and intent of these messages in their release to the public.

**Like Doctors Telling Cancer Patients: "Be Happy!"**

This Awareness indicates that if you went to a doctor for an examination and the doctor saw that you had the early stages of cancer, but the doctor's motive is to make his patients feel good, and instead of telling you that you have the early stages of cancer, he told you that you were in great shape, you should feel very happy, that you have a great long life to live; this would be a positive message, even if it were not the truth.

Is this what you really want from the doctor? This Awareness indicates that if the doctor tells you something positive, he probably will receive a great feeling from you and you will be very appreciative toward him. This Awareness indicates the doctor might be very pleased that he made you feel good, but can the doctor really live with himself if he is spreading that kind of feel good mentality?

**"Feel Good" Mentality Not Found in CAC**

This Awareness indicates that if you are a member of CAC and your motive is to get "feel good" mentality, you are in the wrong CAC organization. If you are a member of CAC and your motive is to discover truth, discover information that is not always available elsewhere, then you are in the right organization.

This Awareness indicates if your motive is to find something that makes you think more deeply about *What Is*, then you are in the right organization. This Awareness indicates that for you to object that the information is scary or negative and act as though the organization should change to fit your wants, you are unrealistic. You are not in the right organization. You should take in a good movie that makes you laugh and feel good. It would be worth your time to do that!

This Awareness indicates that: How can this Awareness warn you of the dangers with a great deal of feel-good mentality? *It* can only tell you of the dangers in a sense of full disclosure of that which *It* sees as truth, and this Awareness indicates that sometimes, the truth hurts. Sometimes the truth uplifts. And sometimes this Awareness gives uplifting information and entities cannot believe it, or do not wish to acknowledge it.

*It* has given information on the Hildebran and Slasinger lawsuit and settlement and most entities cannot believe it, and choose not to believe it. This is their right, but this Awareness did give positive information in this sense, and entities could feel very good about this, but if entities do not wish to feel good and prefer to see this as some kind of scam, that too is their choice.

This Awareness indicates that when this Awareness describes and answers questions relating to negatives

that are planned, the coded information on the backs of highway signs leading to crematoriums, entities will see this as negative information and may discard it totally. You must remember that if this kind of information were given before World War Two began, and this Awareness were giving information to entities as to what would happen, it would all be seen as negative information, and entities would say: "Why can't you say something positive for a change? Why can't you say something encouraging and uplifting?"

**Uplifting Information Didn't Stop "Pearl Harbor"**

This Awareness indicates that *It* does say much that is encouraging and uplifting. Sometimes *It* avoids speaking of the intense dangers. In fact, this Awareness avoids talking about these things very often and speaks of them only as necessary in answering questions or as essential to the knowledge of individuals. But this Awareness indicates even if this Awareness were speaking before World War Two and saying uplifting things such as : "You are going to have a nice Summer this year! The sun will shine! Never mind the war that will be occurring elsewhere! And Sunday afternoon on December 7th you are likely to enjoy the warmth of the sunshine and various friendly gatherings of relatives and it will be a very enjoyable day for you; even if this Awareness were to give you such uplifting information, it would not stop the bombing of Pearl Harbor or the war's effects that were happening elsewhere.

This Awareness asks: What do you really want? Pabulum and syrup and Marshmallows or do you want reality, truth and information that can save your life or prepare you for something that could be very threatening to you?

This Awareness indicates *It* is sometimes perplexed at the attitudes of humans when they are being given information that is priceless, and they look at it and throw out some blanket judgment: "That's too scary! That's too negative! That's not what I want to hear! I want to hear something nice!"

This Awareness indicates that if it is your belief that Awareness should simply entertain, then this Awareness wishes you to leave, and find your entertainment elsewhere. If you wish to be informed, to look at possibilities and potentialities and future probabilities, then you may wish to continue attending to the information this Awareness provides.

(The Law of Gratitude is given)

LEAHY  
THE COURIER MAIL  
Brisbane  
AUSTRALIA

and experience of another entity to increase empathy between yourselves.

This Awareness indicates that *It* does not see the action as being of any practical connection or use in regard to the alien considerations. *It* does understand what was meant in the question in this regard, but *It* does not see there is any application in this regard.

### Why Humans are Fascinated With Dolphins (Often Called "the People of the Sea")

FOLLOW-UP (AVATON):

Lots of people have a fascination with dolphins, evidently because they are almost human in their intelligence.

COSMIC AWARENESS:

This Awareness indicates they are highly intelligent and highly telepathic, and they have the ability to merge consciousness with humans, and this gives humans the sense that they are attuned to the dolphin's consciousness which is true, and therefore, having an attunement, they feel a kind of oneness with these entities. In the past cultures, the dolphins are often referred to as the people of the sea, and are held in high esteem as though they are people. In many ways they are evolved higher in consciousness than are most people.

This Awareness indicates that one could learn a lot from a dolphin.

FOLLOW-UP)

So essentially, the questioner, Bob Carlough, his current occupation, working on a boat connected with dolphins, is coincidental?

COSMIC AWARENESS:

To what?

AVATON:

It has no relationship at all to the Atlantean story.

COSMIC AWARENESS:

This Awareness indicates that the Atlantean story appears to have had some foundation. There was a slight distortion in interpreting it as a transferring of souls. It was more that of transferring consciousness, as in a transpersonative action and in this sense, the message from Lee Michaels had a basis of accuracy, but a slight misinterpretation.

### A Human Claims He Channels Dolphin

FOLLOW-UP QUESTION (AVATON):

I read somewhere that some psychic channel claims that he channels dolphins and can translate the language into an English message. Is this possible?

COSMIC AWARENESS:

This Awareness indicates that there is no reason to doubt the possibility. The accuracy of the entity's channeling is another matter. It appears that there is some degree of accuracy in his channeling. It could improve. But to answer your question: Yes it is possible.

Excerpt From a Personal Reading. Paul Shockley Interpreter  
The Cosmic Laws of Cosmic Awareness...

### THE LAW OF SUBSTITUTION

QUESTION:

Does Awareness have any comment on the practice or science of giving decrees? I have read that this practice was used by priests and priestesses of ancient Lemurian temples?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That the repetition, the visualization, the energy and the release and action all combine in a manner to send energy in such a way as to transfer its vibrations into higher levels for use by those higher forces; this energy as returned to its sender bearing gifts. This Awareness indicates this relates unto the *Law of Gratitude*. This Awareness indicates the action also relating unto the *Law of Magic* and unto alchemical energies. This Awareness indicates that magic makes use of repetition, clarity and intensity. Alchemy makes use of ritual, action, persistency and the *Law of Substitution* which states:

That a part may signify the whole, a genus may be signified by a species, a cause may be signified by an effect, or vice-versa. That there can be any item substituted for the concept, or any concept substituted for the item, and the substituted article, concept or event can affect that which it was substituted for. This Awareness indicates action taken upon the substitute can have an effect upon the other.

Excerpt From a Personal Reading. Paul Shockley Interpreter

### How To Become a Greater Channel For Healing ( Three Things Necessary For Healings to Work)

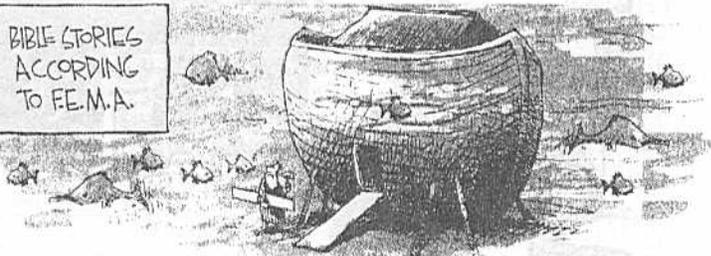

QUESTION:

Does Awareness have any guidelines for me in attempting to work with such pure elemental forces in healing?

COSMIC AWARENESS:

This Awareness suggests that there are three major concerns for you in terms of healing: surrender and be a channel for life forces. That surrender as a channel for healing, this being the first. The second, love the entity whom you would heal. And third, be sensitive enough to *feel* the energies moving through you into the entity who needs to be healed. This Awareness indicates a sensitivity and its feeling which moves beyond tactile feeling, wherein you feel the energy moving through space, through your form, and through the form of the one being healed. This kind of sensitivity along with the love you feel for that entity and the action of surrendering your own will unto God: this as the combination which shall allow you to become a greater healing channel.

### Did Transmitting of Soul Energies Between Dolphins and Humans Ever Occur? (An Example of Lee Michael's Strange Channeling)

**QUESTION:**

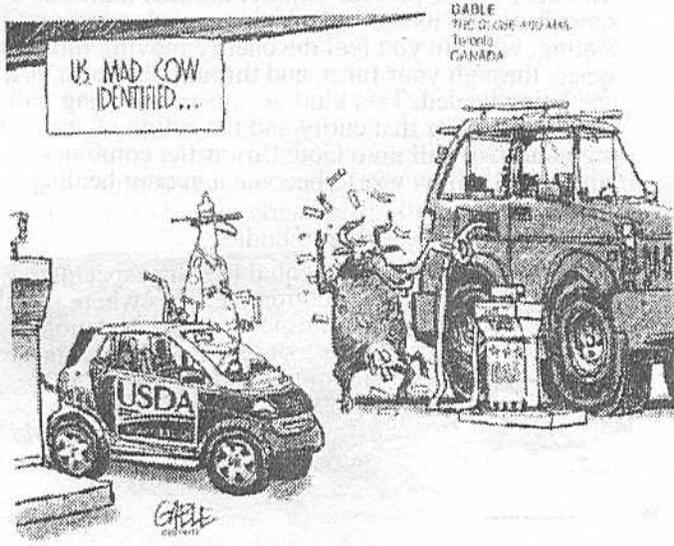

A question from Bob Carlough, in New Jersey. He writes: "About a dozen years ago, Lee Michaels was brought up in Paul's reading. It was at the time of, I believe, the second CAC gathering in West Virginia. Gary and Emily Zuckett and myself were working on getting the gathering together. Anyhow, it was when Awareness, through Paul was touting Lee Michaels as a channel.

"At the gathering, Alex Thompson told Gary, Emily and myself that Lee Michaels was coming to visit him in York, Pennsylvania the next weekend, so Gary, Emily, Matthew (Emily's son) and myself went to York and met Lee Michaels. We went through many changes because of Lee, as did Alex, because of his ways of channeling and the weirdness thereof.

"Essentially, we didn't feel clarity from him, mostly ego. One thing did strike a chord however, and that is what this is all about. In the readings, during which we all felt much confusion, I mentioned dolphins. I had an experience in which I felt dolphins saved my son Josh's life. Lee immediately stopped my story and acted as though he was channeling Awareness. This is what came out:

"That the four of us, Gary, Emily, Matthew and me, had been together as Atlantean scientists and at the time of the sinking of Atlantis had been working on transferring human souls through some sort of crystal mechanism into the bodies of dolphins to aid in the continuance of life and to merge the intelligence of man and dolphins. Also, he said other things about it, my past relationship with dolphins, and that I would again some day have close relationships with dolphins and they would be an important part of my life in the future.

"Well, today I am the Naturalist on a whale and dolphin-watching boat and interact on some levels with dolphin daily and feel a strong kinship, and at times, a communication with them. Enough. My question is: Did at some time in the past, experiments concerning transmitting of soul energies between humans and dolphins occur, possibly explaining the fascination we now have with dolphins, and if so, does this now tie in with the alien situation in ways that may be helpful in dealing with the situation?"

GABE THE GLOBE AND ANS. TOWARDS CANADA

**COSMIC AWARENESS:**

This Awareness indicates that this question is one which touches into a great number of unusual energies, leading to paths that have not been discussed through this Interpreter and it will take some time for the Interpreter's consciousness to orient into these energies in order to properly interpret the information.

**Lee Michaels "Readings" and Relationship to CAC**

This Awareness wishes to comment on one statement given, whereby this entity spoke of the Awareness touting Lee Michael's channel.

This Awareness indicates that this was more in reference to his card-reading ability, the entity as a Tarot reader. That the entity only after that reading began attempting to do Awareness readings because of the misunderstanding in the opening remarks, whereby the entity introduced himself as having given the first Awareness reading for CAC in 1975. The way it was stated implied to the readers that he had been an Interpreter for this Awareness and gave a reading for *Cosmic Awareness Communications*.

Those present at this time when this statement was uttered by Lee Michaels understood what he really meant and did not object because they knew what he meant in his statement. His true meaning was that he received the first Awareness reading for *Cosmic Awareness Communications* in 1975 when he went down to Portland to get a reading for CAC from the present Interpreter, and with that statement being misunderstood by the readers and not being corrected by those present, who understood what was meant, the entity, upon reaching the East Coast was asked by numerous people for a Cosmic Awareness reading, and thus, fell into the role of doing readings which he had not previously done before, but which he managed to fake.

This Awareness indicates the entity having some psychic ability through his Tarot reading experience, did have a certain degree of accuracy, but as mentioned in the question, also presented himself in a kind of showmanship manner, including drinking orange juice while doing the reading, and carrying on in other ways a kind of performance. This Awareness indicates that this became very complex, when the entity began to misuse the channeling process and saw it as a way of earning money or influencing people to pay for readings and receive readings that they did not actually need.

**Humans That Could Experience Being a Dolphin**

This Awareness indicates that the entity later was hindered by this action considerably in his life and is still going through some repercussions from the event. This Awareness indicates the entity may in time clear the energy and be able to again be of genuine service, but the message which the entity gave in regard to the soul transfer into dolphins is seen as a misinterpretation. It is not so much that souls were passed from humans into dolphins, in the sense of an action that remained transferred, it is more likened unto sensitive humans who had the ability to move in a kind of out-of-body experience into the dolphin and experience "dolphin-ness", much in the same manner as the transpersonative exercise is practiced, which allows entities to move into each other and see the world from the eyes of the other person.

This Awareness indicates that to remain in the other person's consciousness would be a violation. It would be an act of possession of another, but to have an agreement whereby you temporarily transfer your consciousness with another can give great insight into the personality

## WHY US GOVERNMENT IS LEASING CHURCH STEEPLES

( More On "Big Brother" Spying On You )

### QUESTION (AVATON):

In the *Freedom Networker*, which is a blatant patriotic magazine, publishes some pretty far out stuff, but some of it does seem credible in light of what Awareness has given. They state: "Did you know that the US government is now leasing church steeples? Why should church steeples be leased? Because they are the highest points in most areas, that is why!

"What uses does the US government intend to make of these steeples? They plan to put scanners on them to read transponders, microchips they are embedding in cards and planning to issue to every American as US cards or Health Security cards. Why should they do this? To keep track of you wherever you may be! This is only one way in which they spy upon you. Yours and thousands of other cards are to be scanned simultaneously. "The information is transmitted to a satellite which in turn transmits it to giant Crey computers in Pine Gap, Australia and Brussels, Belgium. When they want somebody, an inquiry to the computer instantly puts a finger on them wherever they are."

Does Awareness see that information as being true?

### COSMIC AWARENESS:

This appears to be correct. This Awareness indicates that the medical card may not be the card of focus. If the medical bill does not pass, and it does not appear to be passable, it will be through a postal card that is planned as a means of identifying individuals.

This Awareness indicates the purpose of the so-called medical health-care program for people of the United States was to get them a national identity card whereby they could be easily found, identified through microchip technology, but since this medical program is too expensive and most entities are now turned off to the idea, it appears the identify card will come through the post office, which was the alternate plan and which is set up in terms of a system and method to be implemented soon.

The card will be needed by entities for most of their transactions. It will be released through the post office to your home, with each individual in the home receiving a card. This card having microchip technology will be later replaced by embedded microchip in the hand or forehead or some other part of the body.

This Awareness indicates that is the plan. *It* is not saying that this will happen for sure.

### Scanner Chips Are Now Everywhere

(All New Cars Have Hidden Scanner/Tracking Devices)

### FOLLOW-UP (AVATON):

This magazine also states that "New drivers licenses in many states are being issued on what are now called laser cards, or bar-coded cards. These cards can store hundreds and hundreds of pages of information, up to 1600 pages worth about you.

"These licenses will contain your social security number, its own number, your fingerprint, and/or thumb

Join the worldwide meditation  
For World Peace

Every Friday at 9:PM

Details on the C.A.C. Internet Domain:

<http://www.CosmicAwareness.Org>

print, an electronic picture that is better than your present photo, your arrest record and lots of other data. Very often you'll be asked for a license number. This will no longer be the procedure.

"Instead, your state issued smart-card will be passed through a scanner. The reading clerk gets all of the identifying information needed and much more. The maker of this card is the Drexler Corporation. Also available to the states, and some may choose them is a microchip card made by AT&T. The difference is the microchip can be read by *distant* scanners. Chip scanners will be in passing police cars (many are already equipped with magnetic bar-code scanners). Check-points: church steeples, and the most unsuspected places. Even computer hackers can zero in on your chip."

Does Awareness see that information as valid?

### COSMIC AWARENESS:

This is in the affirmative. This Awareness indicates there are also installed on many of the new highways certain electronic scanners or readers whereby an automobile or truck moving on that highway can be tracked from a central point, simply by the reader-scanner embedded in the highways. This Awareness indicates that also, most of the new vehicles have chips implanted that are implanted at the factory and the chips, when associated with the automobile license, will also disclose the owner of the vehicle through the DMV records and can allow a police vehicle or other part of the scanning operation to check on the owner along with the vehicle for any information made available in regard to the person or car.

This Awareness indicates it has already been tested to some degree, whereby several vehicles were put out on the highway and within 30 minutes after their departure, entities were directed to locate them and they were located within approximately 5 minutes of the time given for the location effort to begin. This was because of the embedded scanners in the roads and the chips in the vehicles and therefore, the proof and evidence of the program was given, that entities could be located on the highways where these technologies were effected.

It is a situation whereby the phrase: "You can run but you cannot hide!" becomes a way of life for future generations.

### Colored Markers on Back of Highway Signs

(Some Indicate How to Get to Crematoriums & Detention Camps)

### FOLLOW-UP (AVATON):

There's one other article regarding code markers I'd like to read to Awareness and ask if they're right on in figuring this one out. It says, "Patriots have met on various occasions and discussed the purpose of the colored markers of various colors, shapes and designs on the back of highway signs.

"The most ominous markers are the blue markers. Blue highway markers equal death. Blue zones in Indianapolis crematoriums are for "Code Blue" which in hospitals mean death. Blue markers lead to crematoriums or areas for disposing of bodies.

"Green highway markers equal life. It is speculated that these signs lead to detention facilities where people will be sorted out for commitment to concentration camps, to work camps, death or release. Perhaps these will be sites for microchipping, all brought to the facility. The microchip is a means of keeping track of, and controlling you wherever you may be.

"Green stickers may indicate destinations to be seized and used as the airport at Lansing, Michigan is green-

stickered from several directions. Also, green-stickered are nursing homes, fire stations, prisons and even towns. Green stickers are both horizontal and vertical, each speculated as having significance.

"Orange highway markers equal confiscation targets. These lead to factories, smaller airports, gravel pits and private lands. Gravel pits have also been noted to have both blue and orange markers. Red markers equal death. Red markers have also been found to lead to the crematoriums, and a red zone is to be noted at the Indianapolis crematorium.

"There are red markers leading to the Sleepy Hollow State Park and the heavily fenced grounds of the Michigan Training Institute have been charted. This ground of the latter is noted for the multitude of landings of black helicopters. The destination is a windowless building on the grounds.

"Brown markers equal materials to be seized and used. Brown markers have been noted to lead to building materials companies, seed companies, pig farms and butchering facilities.

Yellow markers are areas to be secured or confiscated.

White markers equal areas for sequestering seized material, like firearms. These lead to military bases, National Guard armories and certain warehouses.

"These highway markers are ominous. They are to be found in Canada, Russia, and other countries. They are obviously UN ordained. UN troops who do not speak the language of the country they are in can be guided to destinations by these markers."

Does Awareness see that information as being valid?

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness indicates that these are found in many places on many highways. They are not easily seen as you drive along the highway because they are on the backs of signs, but entities may occasionally stop along a highway and look at the backs of signs that are facing them and may find these signs marked.

When the time comes that private automobiles are prevented from moving on the highways, the traffic of the UN forces will be using the same highways going opposite to the normal direction of traffic flow, and therefore, they can read these signs with considerable ease, to know where to go.

#### Signs More Common on Outskirts of Cities

This Awareness indicates that when you enter a city, in the outskirts of the city you may run across these symbols on the backs of highway signs more frequently, because it is in this manner that entities coming into a city will have direction as to which way to turn or where to move toward the destination they seek. This Awareness indicates that on the open highway these symbols are not necessarily so common because there are few particular turn-offs or need for such direction.

This Awareness indicates also entities having a radar detector may notice that coming into a city the radar detector will beep in a near periodical manner, regular periods of beeping every so often; that this is related to the embedded scanners in the highway. This Awareness indicates that it is more common when approaching a city than on the open highway wherein there are no turn-offs, no directions needed for notification.

Wherein there is simply straight highway there is little need for these scanners, for entities will move along highways until they come to a turn-off or until they come to city. It is there that these scanners would be

effective in trying to locate and track a vehicle, as it turns or changes its route.

### Cities Near the Crematoriums

FOLLOW-UP (AVATON):

This publication says that: "In addition to the crematorium at AMTRAK, they have located and confirmed four of these exist in America already. Others are near Oklahoma City, Kansas City, Missouri, and Bay City, Michigan. The blue markers on the back of highway signs lead to them." Is that true?

COSMIC AWARENESS:

This is in the affirmative.

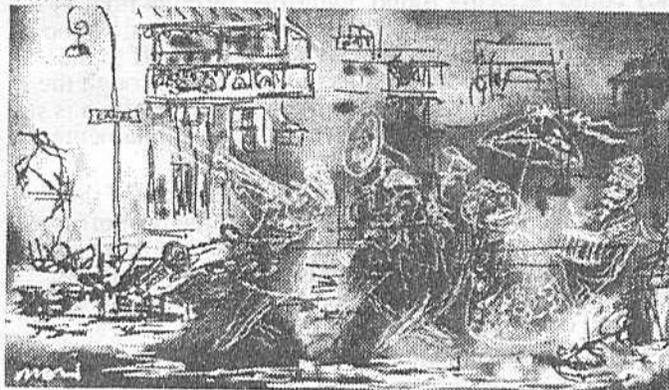

AVATON:

Well, those are central US. Does Awareness see others, like in the West and in the East, that have *not* been listed?

COSMIC AWARENESS:

This Awareness indicates that it appears that these are in various places around the country. They are located in areas relatively remote. There is seen an area in Oregon near Christmas Valley. There is seen an area in Eastern Washington. It is not seen precisely, but appears to be in the general location of Hanford, or the Tri-City area. This Awareness indicates that there is seen also an area in Texas, and it appears also in North Dakota. Also in the New England states; New Hampshire. This Awareness indicates there are many, many areas that have not been mentioned. This may be forthcoming at some later time.

### --HOW TO GET THIS NEWSLETTER BY MAIL-- EVERY 4 WEEKS I ( More or Less )

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).
