Excerpt CAC Reading 2-7-06 Will Berlinghof Interpreter

OPENING MESSAGE:

Does Awareness have any message for us on today, February 7<sup>th</sup>?

COSMIC AWARENESS:

This Awareness thanks the two Interpreters and the energizer for being here today to attempt once again this connection to This Awareness. These attempts are seen as very critical and crucial for the Interpreter to become more familiar with the energies of this Awareness, so that the communications will become stronger and more immediate and relevant as this Interpreter becomes more familiar and confident in his power to interpret and channel this Awareness. That is the message at this time for this moment. The questions may begin at this time.

### What Jesus Meant in Mathew 16.25

"Whoever would save his life will lose it, and whoever loses his life for my sake, will find it"

A question from Avaton: Jesus said "For whoever would save his life, will lose it, and whoever loses his life for my sake, will find it." Mathew 16:25. What is the meaning of this passage?

COSMIC AWARENESS:

That enlightened being known as Jesus the Christ was referring to the release and of the resistance to letting go; letting go of that which is human, that which is material. By 'human' this Awareness is indicating that those beings who are asleep to the greater inner truth would resist letting go of those concepts and beliefs that they hold as dear and precious. At this time, in this age, materialism is the guiding belief, the core belief of a society, of a world that believes that to own and to have is the most important of all; more important than spiritual values, more important than love, more important than anything. At the head of this is the use of money to buy, for money is considered power and freedom and happiness.

These beliefs at this time make it most impossible for humans who are asleep to let go, to die to that which is their materialism, that which is their material belief; that which is their belief that to own, to have is that which will give them happiness and fulfillment and contentment. The entity Jesus the Christ was referring to letting go of such possessive beliefs that would own the person; that to die to these beliefs, to let them go, to release them, to walk away would be that which would be needed to find that Christ Consciousness, but that in the doing of such, in the establishing of the Christ Consciousness, that one would die to that which was and that which is for most people, and in this death, freedom would be found, and in this death release would be found, and in this death, the soul would be able to be present in this life.

This is true enlightenment. It is not dependent on materialism. It is not dependent on what others would think of one because they do not have. It is a death to the way that most people believe and the way that most people live, but it is also a release. It is also a freedom. It is the Way. This Awareness asks that the quote be once again read, for further clarification.

(The first part of the quote is repeated.)

"For whoever would save his life would lose it"; again, this is in reference to the loss of that which so many people hold as precious, for that which so many people hold as meaningful. To lose it would be to walk away from those very values and beliefs that this society holds as precious, and yet, to walk away from it, would be to find the truth, would be to find the freedom that is voiced in the second part of this quotation. We ask that the second part now be read.

(The second part of the quotation is read.)

"Whoever loses his life for my sake"- by this, this Awareness indicates that Jesus was not talking about losing a physical life for that entity known as Jesus, but rather was referring to the loss of the beliefs that bind so many, that hold so many prisoner, for the loss of those values and of those substances and material possessions would grant freedom to find spirit, to allow the soul the freedom to find that Christ Consciousness. That is what this entity Jesus the Christ was referring to. The loss of those beliefs that bind one to a society, to the peers of that society who would dictate what is to be believed and what is to be lived, and to step away and be willing to lose everything so that one can find their spiritual truth, their spiritual being, so that one can die for spirit, for that Christ Consciousness, is what is truly important and essential, and it is this that this entity Jesus the Christ was talking about and referring to.

This question is complete. Unless there is any other question, this Awareness asks that we move on now.

### After a Pacemaker Will Heart Ever Heal?

QUESTION:

Annie Croxton from Kershaw, S.C. asks, "I wonder if my heart can heal after a pacemaker insert?"

COSMIC AWARENESS:

This Awareness indicates yes. The heart can most definitely heal. The pacemaker is but an instrument to assist a faulty heart; that it is imperative that this woman Annie Croxton understand that the belief is what makes this such an important question; the belief that one will heal, that a pacemaker will assist one in maintaining that heart pace. Equally, if one believes negatively and oppositely, an opposing belief, then that would be detrimental to the effectiveness of this medical tool to help the heart beat with regularity.

The pacemaker's true function and job is not to keep the heart beating, but to assist in those occasions when there is a heart palpitation or problem with the rhythm of the heart's beat, and it is on those occasions that this medical tool would assist this entity. It is imperative and important that if this entity is contemplating such an operation or has already had this operation to instill or put in rather, this pacemaker, that she believe that this is to her benefit and will greatly assist her in her life and in the quality of her life; that this pacemaker would indeed be very beneficial to help restore this entity's health and well-being on all levels. This Awareness says that this is so, and wishes to move on.

**Will 2012 Be Just Another Day on the Calendar?**

(More on the end of the world as we know it)

**QUESTION:**

Laurie Planesi, from Rocklin, California, asks "Please ask Awareness to discuss the coming changes, and if 2012 will be the big end time, as it is predicted to be, or just another day, year, on the calendar. Is there still hope for the Age of Aquarius?"

**COSMIC AWARENESS:**

This Awareness indicates there are several questions involved in this question, and *It* will start with the first part.

(the question is repeated)

This Awareness would like to begin the answering of this question with the concept of the Mayan calendar, or 2012, December 21<sup>st</sup>, 2012, is the indicated time of ending; that that is when the Mayan calendar would indeed come to a conclusion and an ending. This Awareness sees that this is a belief based on the predictions of the Mayan calendar. There is indeed validity to these predictions and to this belief, but *It* would ask for flexibility at this time; to understand that 2012, although foreseen as a possible ending of society and of this world as it is now known, is but a date. It is not necessarily the correct date.

It is seen that the events prophesized for December 21<sup>st</sup>, 2012, can indeed occur sooner. It is important not to become too hung up on that date: December 21<sup>st</sup>, 2012, but rather to be open to the changes that are at this time occurring in this world, and to understand and see that these changes will accelerate and quicken, as they are already doing.

These changes, these events, these catastrophes, these events of magnitude occur, and indeed everything will change, is changing, and has been changing for a number of years. The prophesized ending should not be focused on entirely, because to do so would be to miss that which is occurring at this time, that has been occurring for the last several years.

It is important to be in the moment, to take each moment as it comes, understanding that each moment has the potential of being the ending, the last moment, the final moment. To project onto one date that may or may not be correct is a mistake, in that it would prevent one from being involved in their lives, in their moments. This is that which this Awareness wishes to explain. This is what this Awareness would like the readers to become aware of; that there are events unfolding at this time that are indicators of the times ahead, because those times ahead are those times that are now being experienced, that are now being lived, and to be too focused on a certain date would be to miss the exact unfolding of events that are leading up to the ending, the end times, the final time.

This Awareness wishes the readers, the members, those who hear this message to understand, that these are indeed the end times; that these are indeed those very times that not only the Mayans predicted with their

Mayan calendar, but have been predicted by many cultures, many traditions, many religions; that these last few years are the times known as the end times; that there is to be a shift in human consciousness, and that this shift will occur within the next several years, and is occurring even now, and that the date December 21<sup>st</sup>, 2012, is simply a convenient point of reference to when this process will be complete, but that it also can be completed sooner than that date, so this Awareness asks that rather than focus on that date, which could be a disappointment if one is only concentrating on that date, that one should rather be aware that every moment at this time has the potential of being the last moment as well as the first moment; that this is the time to be focused in life on that which is the moment.

This Awareness asks that you avoid thinking too much that 2012 will be the ending, so that you can stay focused on the here and now of this time, at this time. This Awareness also indicates that 2012, December 21<sup>st</sup>, could indeed be just another day, if one is not aware of the magnitude of the changes already occurring, so that one might miss the significance of that day if one has not paid attention to all of the events, all the shifts, all of the circumstances of change that are occurring each and every moment, each and every day.

This Awareness is complete with this question.

**Oral Roberts Missile Prophecy**

**QUESTION:**

James F. Cuffy asks, "The nuke missiles to be fired on the US in 2006 will be intercepted by God. Will we know about it? This prophecy by Evangelist Oral Roberts, from a vision he had.

**COSMIC AWARENESS:**

This Awareness indicates that the vision by the entity Oral Roberts is erroneous; that there will not be a nuclear missile fired at the United States in 2006. This being the case, God will not intervene for there will be no need for such an intervention; that this is a false vision and one that does not merit further discussion. This Awareness is done with this question.

**Icicles Hanging From Her Roof Are Doing Weird  
and Mysterious Things**

(More on the Power of Meditation and Dr Masaru Emoto)

**QUESTION:**

Reverend Marrfia Saint Michael, from Leominster, Mass., wrote that the icicles hanging from the roof outside the window of the room she does her meditations in all turn in and point toward that room. All the other icicles in the house just point to the ground. She asks "Why is this, and is anything of significance happening?"

**COSMIC AWARENESS:**

This Awareness indicates that there is indeed significance to this event; that the significance of this event is that the water molecules and the water particles are attracted to that greater force of spiritual meditation, spiritual energy, and are drawn to it; that there is seen a Japanese scientist, it is believed Dr. Emoto is this scientist's name, who has done amazing work with water and water crystals; that he has taken many pictures of waters that are positively or negatively charged; that he has shown that it is possible to change the charge of

water by playing music in the vicinity of the water that is uplifting and inspirational; just as it is possible to destroy the quality of water molecules and crystals by playing harsh jagged music.\*

This man has shown how why being positive and uplifting in attitude can also affect the waters, just as to be angry, upset, violent, can destroy water particles and water charges. What is happening is that the water is responding to the surge of positive energy and high spiritual energy that is emitted from the meditator in this room; that the room itself becomes charged with this potent energy, and that the waters dripping are attracted to it, thus bending towards the room, giving the appearance that the icicles are indeed straining towards the room and towards the source of the energy in that room.

This is not so in other parts of the house, and therefore, the icicles can do what they normally do: drip straight down. This should indicate and show the power of meditation, the power of that inward process that can actually bend icicles to it. This is indeed a significant indicator that this is so. This Awareness is complete with this question.

\*Ed's Note: The book Awareness referred to is *The Hidden Messages In Water*, by Masaru Emoto, published by Beyond Words Publishers, Inc., Hillsboro, Oregon. CAC has this book on order and it will appear in the next CAC Book Catalog. If you want a copy please write to Vikki T. The price is \$16.95 plus postage. After reading this book, Vikki has attached written notes and attached them to every water container in the CAC office, which reads, "Gratitude-Love". Mr. Emoto demonstrates how this work in the New Age movie now making the rounds in theaters and cable TV, "*What the %#\$@ bleep Do We Know*" which we highly recommend you see if you get the chance. (JZ Knight of the Ramtha organization helped produce this movie).

## When Will We Stop Killing Animals for Food?

(How the Creatures Have Agreed to be Our Food)

### QUESTION:

Jennifer Raymond, from Southbury, Connecticut writes, "Can you ask Awareness about the importance at this time on earth to let go of the killing of animals for the use of food, etc.? There is plenty to eat that does not involve killing; example, fruit of the vine doesn't even kill the plant."

### COSMIC AWARENESS:

This is a very complex question, with many levels and layers to it. This Awareness first wishes to indicate and explain that what is the true sin is not using animals for meat, but that mankind has not reached an understanding of the unnecessary nature of this act. This Awareness wishes the readers to understand that animals *do* offer themselves up for the purpose of sustaining human life, to a point and to a time when such an effort and such a demand on them is no longer needed or required, and this is what humanity is moving towards.

At this time, not all humans have reached an enlightened state where they understand it is not necessary to use animals any more. This is a complex question, because there is so much feeling to this question, so much bias to this question. Those who would be vegetarian cannot understand or accept that it is not necessarily an evil thing to use animals for food. It is still necessary for the vast majority on the planet at this time to use animals as the major source of their food and protein, and that animals do cooperate to a degree by giving themselves to this process.

Equally, it is time for more and more to come to a greater awareness, that eating animals is not necessary to sustain life. This is a process of moving into an enlightenment and an alignment with the animal world, where

through in honoring and respect to the animals we would not ask them to make such a giveaway. Those times ahead will indeed be reflective of this more enlightened attitude, but that mankind, womankind, is still moving toward this, and this will take a number of years, perhaps even hundreds of years to come to this place.

### The Animals Have an Agreement to Offer Themselves as Food

This will not change overnight, nor will it cease to be so at the stroke of dawn on December the 21<sup>st</sup>, 2012. The animals of this planet have an agreement to offer themselves. That does not mean that this need always be so, but it does mean that even the animals are adjusting their thinking on this matter, and that they are also moving away from a willingness to provide themselves as food for humanity, but this is a slowly evolving process, and one that has clearly a great deal of energy surrounding it, both for and against.

Animals chose, many many many eons ago to assist at this time in mankind's journey, mankind itself, by becoming food for man, for mankind. And as mankind moves in its awareness, shifts its consciousness, then the necessity for animals to provide food for man will also change, and those animals who hold within their being, their purpose, to be food for humans, will no longer need to hold to that and it will end. Mankind most definitely is moving towards this point, that it need not take hundreds of years, but it is indeed seen that it will not be accomplished overnight either.

### In The Divine Plan It Could Happen in the End Times Coming

It is indeed, part of the journey at this time, and that the end times, already spoken of, will help mankind shift their attitudes and their awareness, will help the animal world understand also that their great act of giveaway is no longer required, and they will then withdraw their own bodies from the food chain and thus, the cycle and circle will be complete, and animals will no longer be used for food. This is indeed the Divine Plan and it is indeed that which mankind/womankind is moving towards, but that patience is still needed.

This is a complex issue, this matter of not using animals, because there are so many levels and layers, both from that understanding of the human world and using animals in this way, as well as the understanding that the animal world also partakes in this process, and that part of the purpose that they hold for themselves is in what is known as 'giveaway'; that they give themselves freely to sustain human life. As the options expand, and the need for such a giveaway declines and as man becomes more enlightened and aware, more consciously in tune with all life, then the need to use animals for food will greatly decline to a point that it ceases to be a necessity at all.

### Plants Do Have An Awareness: They Know When a Leaf Is Picked

This Awareness does offer, also, another perspective that refutes somewhat, that which the questioner presented, in that she said the fruit of the vine would not suffer. This Awareness asks that the reader consider and think that all life is precious and dear, all life is a form of consciousness; that eating the grape off the vine does indeed inflict a degree of pain, if that is the right word, on the grape that is eaten, but that the plant world also has a function of providing for humanity sustenance and nourishment. There are studies that show that plants do have an awareness, that a plant is aware of when a leaf is picked from another plant in another room.

This Awareness indicates tests have been made where the plants are hooked on to a lie detector machine and that their response is recorded when plants are threatened to be put in hot boiling water, a reaction of a very strong nature occurs in the plant in the room that is being

hooked up to the machine; that the threat of picking a grape and popping it in one's mouth would be paramount to giving the plant that is hooked up a severe shock, so it is erroneous on the questioner's part to assume that plants do not experience some form of pain when eaten and ingested. On the whole, it is at a much more rudimentary level, and one that cannot truly be equated to what is experienced by animals that are led to a slaughterhouse to be butchered, but that there still exists some level of awareness, some level of protest to being used for fodder, for food.

#### One Day We Will All Be Living on Just Air

The ultimate enlightened state would see all humans living on air, on prana, on the essence and energy of the God Force that is available in the air itself; that there would not be a necessity with true enlightenment and through advancement to ingest animal flesh or plant flesh; that the humans would be able to live on air alone. But it is seen that it is awhile yet before such an enlightened state will be reached by humanity, and that in the meantime what is seen as important is that the individual in their growth and development come to their own point of awareness towards eating animal flesh or ingesting plant protein.

This Awareness feels complete at this time with this question, but leaves open the door for further questions on this matter. This Awareness is ready to move on to the next question.

#### What is the Cure for Diabetes?

The last question is from Nora Smith. She asks: "Please ask Awareness for a cure for diabetes II and hypothyroidism."

#### COSMIC AWARENESS:

This Awareness is not able at this time to answer that question and wishes to leave it for a future time. This Awareness wishes however to mention that the entities involved with such illness must look at also what the illness represents to them; what is gained through such an illness. This Awareness at this time feels that the Interpreter is not sufficiently ready to let go of his own fears, doubts and biases over answering such a question, for this Interpreter does not believe he can answer such questions, thus needs to work harder to allow Awareness to speak through him for the answering of such a question.

At this time, it is okay to allow the Interpreter this place and this pace he occupies, as he works to achieve even deeper levels, where this Awareness can come through even more stronger and more clearly to answer the difficult questions such as that posed just now. This Awareness is complete with that question.

#### CLOSING MESSAGE

This Awareness simply encourages the Interpreter to keep on going, to keep on trying, to practice with this process and not to be so hard or harsh on himself when he feels he has not answered a question sufficiently or properly. There are those times when the information will flow even more clearly and easily than it has today, and yet there are other times that the timing is off, the vibration is off, where information will not flow so strongly or clearly. This Awareness gives the Interpreter great credit for his attempts at channeling this Awareness, his *successful* attempts at channeling this Awareness. This Awareness also thanks and congratulates the energizer and assistant to this process; that it is through

her efforts also that this process is gaining strength and power, and this Awareness acknowledges her presence and her contribution.

This Awareness is complete at this time. This Awareness indicates that it is time to end this session; that the Interpreter is uncomfortable and needs to come out of this deep state.

(The Law of Gratitude is given)

CAC General Reading # 4-5-19-95 Paul Shockley Interpreter

## THE HUMAN POTENTIAL MOVEMENT

### QUESTION:

Awareness, we're here for another CAC general reading. Today, we welcome our good friend JD Rabbit from New York who will ask a series of questions. Does Awareness have an opening message?

### COSMIC AWARENESS:

This Awareness suggests the questions continue.

### (JD) QUESTION:

"Awareness, in recent years there has been much teachings (such as in the human potential movement) about the power of thought to transform our physical illusion we call reality. Is this an action originating from Cosmic Awareness to compare us with a time we are approaching wherein consciousness will far more readily affect the world we perceive?"

### COSMIC AWARENESS:

This Awareness indicates that this mind over matter principle has been round for many years, many generations. This Awareness indicates it is not something completely new. It is simply presented in different terminologies.

## WHO EXACTLY WAS GAUTAMA BUDDHA IN THE SPIRITUAL SCHEME OF THINGS?

(How Come Two "World Teachers"—Jesus and Buddha?)

And Who Will Be The World Teacher in the Age of Aquarius?

### (JD) QUESTION:

"I have been taught that major spiritual guides for humanity, so-called "world teachers," come into the world at the start of each astrological age, and esotericists can even cite the past ones. It appears that for the Piscean Age we had *both* the Christ through Jesus and Gautama Buddha in this function. Is that common? Who or what exactly was Gautama Buddha in the spiritual scheme of things? He was said by the Buddhists to have been the 4th such Enlightened One of the series, with the 5th, Maitreya by name, due at the start of the Aquarian Age; this information from Buddhist Scriptures purporting to be the actual words of the Buddha, as memorized and passed along by his followers until eventually written down. So the question is: is it that common to have two entities such as the Christ and the Buddha being a "world teacher" for the age? And who or what exactly was Gautama Buddha?"

### COSMIC AWARENESS:

This Awareness indicates that this as being an entity who filled in the part of a common play that had been around for many centuries. This Awareness indicates there is a book *16 Crucified Saviors Before Christ*, which goes into the various religions of the past prior to Christianity that shows parallels to the story of Christ as presented in the New Testament.

In some of these earlier writings the words are identical and paraphrases of the New Testament story, but the interesting thing is that they were written *prior* to the New Testament story. There are certain parallels in the Buddha and Krishna stories that are identical or parallel to those stories of Christianity, but were written previously to the Christian story.

### Jesus Already Knew the Script of the Passion Play

This Awareness indicates that the story was around prior to Jesus' incarnation on earth, and Jesus himself,

according to the New Testament, referred to himself as following the Passion Play, mentioning to his disciples that he *already* knew the script, knew what was coming, and saw himself as following a presentation that he apparently was aware of prior to the events.

This Awareness indicates that thus, Krishna, in the Indian story, and Buddha, also had similar scripts based on earlier writings that date back into antiquity to the Mother of all religions, which is essentially the zodiac itself. This Awareness indicates that if these religions are traced far enough back they come to the zodiac, and this is the Mother of the religions that followed.

This Awareness indicates when an age begins, there are certain characteristics exemplified in that age and there are often entities who volunteer or are destined or are appointed to play the avatar of the age, and thus, they go through the proper activities of being the appointed one or elected one. If they can get their conditioning for the part down to the right artistry, they become a convincing lord of the age.

This Awareness indicates it is for this reason that Maitreya's focal point in his approach and travels is the use of water, for in the Aquarian Age, the god or symbol for the age is man pouring water. The man, of course, is a kind of neutral being, sometimes presented in mythology as a woman, sometimes as a man.

### The Meaning of the Pouring of Water in Aquarius

This Awareness indicates in the Age of Aquarius, the pouring of water symbolizes giving service or blessings. In alchemy, water is air, and air is water. This Awareness indicates there is a kind of interchange in the symbology of Aquarius that makes it different from the water of Pisces, for in Pisces, water is emotion and stands for magnetism, and is some symbolism for the actual water of the sea.

Thus, the New Age or New World was discovered during Pisces through the sailing of ships from one continent to another, for that European or Western world version of the Age of Pisces. This Awareness indicates that in the Age of Aquarius, which is the age of flight, there is the symbolism of water, but Aquarius is an Air sign, and the pouring of water is also recognized symbolically as electricity. It is mana, or magnetism through electrical qualities as symbolized astrologically by the ruler of Aquarius, the planet Uranus.

Uranus rules the electronics and all things electrical and also the Higher Mind of intuition. This Awareness indicates that telepathy is ruled by Uranus, and therefore, likewise, electronics and flight, being part of the Age of Aquarius, there is a representation in symbology wherein water is symbolic of electricity.

Thus, the man pouring water is the symbol also of man having some dominion over electricity, and giving electricity to others as a way of helping to enhance the age through the use of electricity, electronics, and the so-called "high-tech" world. This is Aquarius.

This Awareness indicates that thus, the Lord of the Age would have something to do with electricity and with teachings that are now just earthbound pragmatic teachings, but which are more universal in nature, going beyond the limits of the earth into a cosmological philosophy.

### If Maitreya Plays the Role of Lord of Aquarius

This Awareness indicates that there has been very little given from Maitreya, but it is likely that when this entity does begin to give a message, *if* he does indeed play the role of a Lord of Aquarius, he will have a cosmological philosophy to present. It will be one that

deals not strictly with mundane and earthly concerns, but to galactic and universal concerns also.

This Awareness indicates it is quite probable that there will also be others who will play this role, not necessarily because they are commissioned or appointed to do so by political or powerful people, but because they are astrologically influenced to play such a role. It will be likened unto an astrological destiny that they are fulfilling.

This Awareness indicates that when an entity in a culture takes on the role that the culture sees as necessary, even if it is only an astrological influence in the culture that needs to be played out, that entity who begins playing the role first will be given space and room to play out the role.

If the entity had not appeared or had been reluctant to play the role, there is always someone else who is willing to play out the role that the people consciously or subconsciously expect to happen for the kind of energies that are moving in the world at that particular time.

This Awareness indicates that when entities move into that which is the Aquarian Age, *someone* will pick up the mantle to play the role that suits the symbology of the age, and therefore, whether it be Maitreya or someone else, you can expect someone to appear to play the role of the new Lord of the New Age.

#### **Maitreya Being Assisted by New World Order Forces**

This Awareness indicates that sometimes these are planned by certain influential groups. Sometimes these things just happen on their own as a kind of collective unconscious creation from the mass mind or mass-consciousness of the time. In other words, it is astrologically influenced. In the case of Maitreya, it appears *not* to be influenced spontaneously, but with the blessing and assistance of entities who desire to create a pattern for this Aquarian Age that can be used to help maintain a control over the masses as they move from the Piscean to the Aquarian vibrations and frequencies.

### **WHO GAVE BENJAMIN CREME'S MAITREYA GROUP \$100,000?**

#### **(JD) QUESTION:**

"Awareness, at one point in the action there was money collected for large newspaper ads concerning this action, and the group doing this received one large donation. I believe it was approximately \$100,000. This donation was given anonymously. Can Awareness tell us not necessarily the name of the person whose intentions or perhaps major affiliations and purposes in wanting to assist this with such a large sum.

#### **COSMIC AWARENESS:**

This Awareness does not wish to give this information. If the entity who made the donation wanted that information given, the entity would have given it. This Awareness indicates that it does not appear to be appropriate to give any information on this because the entity could have easily given some information as to intent or as to identity or any other message desired if he or she indeed wanted to release any further information.

### **CHRIST: THE WORLD TEACHER AT THE START OF THE PISCEAN AGE**

(Like Maitreya Today Jesus was Artificially Created)

#### **(JD) FOLLOW-UP QUESTION:**

Then would Awareness simply indicate to us whether the case in which the world teachers at the start of the

Piscean Age were in fact both the Christ through Jesus and Gautama Buddha, and whether having two or more people who do this is in fact common?

#### **COSMIC AWARENESS:**

This Awareness indicates that the story of Christ was one that was artificially created, much in the way of the present effort to promote Maitreya. It is artificial in the sense that there were entities working behind the scenes to create the story, the myth for the coming age as a way of influencing the masses. The word *artificial* implies man-made or man-created story.

It was not a natural or spontaneous creation. It was not something that was a direct Hand Of God acting on nature to create the story of Christ. The story of Christ existed *prior* to its writing during the beginning of the Piscean Age. It had been told in numerous early tales with only a few added changes in the story of Christ taken from various sources and combined into one story that has parts gathered from other more ancient stories.

#### **The Stories of Jesus Were Lifted From Previous Stories**

The story of healing the blind person, the story of washing the feet, the story of being born of a virgin; all of these stories were lifted from earlier writings and this Awareness wishes entities to understand that these earlier writings were but earlier versions of the same story from yet earlier cultures.

This Awareness indicates therefore, the beginning of the Piscean Age was simply marked by the creation of a new version of the old story in the same way that many artists today will take an old story and rewrite it for modern times, such as the story *Green Grow The Lilacs* as being written into another story that can be made to survive and thrive on its own.

This Awareness indicates that even the story of Hamlet was taken from an earlier story and the story of Macbeth was taken from still another earlier story. There are many times that writers take the skeleton of an earlier story and rewrite it, adding more flesh, more bones and more plot, and sometimes including a musical score.

#### **The Piso Family of Rome Wrote the New Testament**

In the story of the New Testament, which was written by a family in Rome, wherein different members of the family wrote different books and attributed those writings to the disciples in the story as being written by the disciples ... This Awareness asks for a pause.

This Awareness indicates this as the Piso family. That these entities used various names as their pen-name. One of the parties also used a Jewish Rabbi name, not seen clearly, but it has been mentioned previously. This Awareness indicates that the others used the names of the Apostles in the story.\*

\*Flavius Josephus. The story of the Piso family and how they wrote the New Testament can be found in the booklet "The True Authorship of the New Testament" by Abelard Reuchlin. For a copy, send \$6.00 to The Abelard Reuchlin Foundation, PO Box 5652, Kent, WA 98064

This Awareness indicates that these entities writing the story of Jesus, wrote it for this new Piscean Age for the masses of Rome to give them a cultural mythology that would help them to get away from the Greek gods and the Greek mythologies and to make it more meaningful and more real to the Romans than the Greek mythologies. It would tie the society together under a philosophy that would have a greater cohesiveness than that which the Greek mythologies offered the Greeks, which the Romans did not want to be part of.

This Awareness indicates that after the story had been written, largely through plagiarism of other earlier writings, the various 16 crucified Saviors of earlier

cultures and other countries of the time; after it had been written, there was a question: "What shall we call our Divinity? Who shall be our God?" It had been taken from Egyptian mythology and their Ra was the Sun God and it had been taken from Buddhism and from Krishna. It had been taken from Mithra and from Zoroastrian teachings. It had been gathered from stories of Indra and others.

#### The Origin of the Roman Catholic Church

This Awareness indicates that it had been compiled from the many different cultures and made into a pure unique story for Rome, and could be a new religion for Rome, binding all people together. Regardless of their various religions, each could see how their religion fits into this new catholic religion. The word "catholic" means universal.

This Awareness indicates that it was ordered by Constantine that these entities of the various religious sects in Rome should come together and create a catholic or universal religion that would receive official recognition by Rome. This Awareness indicates that the Helios religion, which was a sun-worshiping religion in which there was the sun and 12 signs, would become the Son of God and 12 disciples in the story.

This Awareness indicates there was the story of the entity from Nazareth that had also to be incorporated into this story of the catholic religion of Rome or official religion of Rome. This entity being one who had a number of followers in Rome, and being incorporated would help to give recognition to that group or sect of those who followed the entity from Nazareth.

This Awareness indicates there were other religious sects in Rome, all of whom needed to be incorporated into that catholic or universal religion of Rome. They were all brought in for the sake of keeping peace in Rome among the followers of these various religious leaders, and the story was designed by the Piso family to satisfy all of these religions, so that through compromise, they could all be represented in the new religion.

#### Again Today A New World Religion is Being Promoted

This Awareness indicates there is a similar effort occurring today where there is the desire for the creation of a world body that recognizes all religions and a new form of religious leadership that will encompass all of the religions in order to keep these religions from tearing each other apart through wars during this new age. This Awareness indicates in the time of Rome it was stated that if a religion could not find its peace in the new universal or catholic official religion of Rome, if they could not accept their place in that religion, then they would not be recognized officially by Rome.

This is likely to occur in present time when the New World Religion finally emerges, wherein a religion that does not find its place in the New World Religion is likely to be cast out officially from the New World Order if that becomes the reality.

This Awareness indicates at any rate, this is how the story was written by the Piso family. They created a universal religion, which was a composite of all the various major religions of Rome at the time, whether they were from India or from Africa, or other areas of the world. If they had a strong following in Rome they were incorporated into the Piso story so that they were seen as being represented in the new Catholic or universal religion of Rome.

#### How the Name Jesus Christ Was Chosen as the New God

This Awareness indicates that when this was completed, they had left out the name of the god of the new religion, and some entities clamored for the name Zeus.

Others sought to have the name of their own religious leader. Some wanted Apollo. But the outcry of the most said: "We do not want any Greek god ruling the Roman religion!" and thus, Zeus was not suitable. Apollo was not suitable.

Someone said "What shall we name our god?" And they argued that the name should be neither he nor she, but a neutral name. And the name *Jesus* meant neither he nor she. It was likened unto a word for "neutral" and thus they decided to call the entity Jesus. And someone suggested the title Christos, Jesus the Christos.

Christos simply meant "One who had been christened by God." Thus, this neutral entity Jesus was appointed as the Christos. There had been many Christos in the past, many entities who were enlightened. Your term today would be "avatar" or "enlightened one" but in those times, the term that was common for one who had been God-realized was the term "Christos."

This Awareness indicates that there were many Christs or Christos, or entities who had that title attributed to them. One from Greece had been termed Chrest. The entity was seen as a divine person whose title was Chrest. This Awareness indicates there was also, in some of the other local Mediterranean countries, other beings who had been titled with the term Christos. There was a Black Christ from an African country and there were other Christs from other countries of the Mediterranean. Thus, to term Jesus as a Christos was not so strange, and it fit within the desires of most Romans to have a title and an entity with a name that was not in any way associated with the Greeks.

Thus, the new Roman Catholic Church had a god titled Jesus Christos, and a story about this god that paralleled and embodied the story as presented by other cultures around the then-known world, many of which had existed long before this entity was created by the Roman council of priests in their effort to satisfy the official Roman government in providing for a religion that could officially be recognized by Rome.

#### The Pope's Hat Looks Like the Face of a Fish

This Awareness indicates this is how the deity of the Piscean Age developed, and the deity of the Piscean Age was called a fisherman, and its symbol was the symbol of the fish, and the pope even today wears a headdress that looks like the face of a fish. If the pope were to be swimming in water and the headdress were to be at the front of his body as he swam through the water, it would appear as the face or head of a fish.

This is made up of two folded half-moon pieces of the headdress, likened unto two palms facing inward on the head of the priest. This is symbolic of the fish, and is a Piscean symbolism.

This Awareness indicates that the Fisher of Men as a deity of the Piscean Age is quite suitable in terms of the symbolism and being born of a virgin not only fit the pattern of the various religions of the past, but also fit well into the new Age of Pisces, because the rule of astrology is that the sign opposite the age rules that age, and the sign opposite of Pisces is Virgo.

This Awareness indicates that being born of a virgin fits in the symbology of the Piscean Age. This Awareness indicates that the movement from Pisces into Aquarius allows for the opposite sign Leo to be the ruler of the new age of Aquarius, and Leo characteristics relate to children, to sports, to entertainment, to drama and dramatizations, and entities see show business and the packaging of products, of concepts and ideas as being a major part of this Leo influence on the New Age.

#### Deities Who Played the Role Prior to the Piscean Age

Thus, children, the packaging, the dramatization and the show business that is so overwhelming in your world today is the major influence on the Age of Aquarius, much different from the Virgin Priest and the influence of the Virgin Priest on the Age of Pisces.

This Awareness indicates that each age has its own unique qualities according to the astrological descriptions for the sign and therefore, the deity represented by that age must play a different role from the deity represented in the age before. Prior to the Piscean Age and the Fisher King, there was the Age of Aries and David the Shepherd, the Ram, the entity who was a warrior, and the Ram symbolized that age along with the concept, not of a Fisher Man, but of a fiery god, Jehovah, a warrior-type god, a competitive type god.

#### Mithra the God During the Age of Taurus and Mummification

This Awareness indicates that prior to the Age of Aries was the Age of Taurus, and there you find the Golden Calf, the worship of cattle, which still lingers in India. This Awareness indicates Mithra was the god of that age, and the entity who was seen in statues as slaying the bull. The modern bull-fighting comes from reflections of that age of Mithra. The Golden Calf, the Age of Taurus.

The sign opposite Taurus is Scorpio, and Scorpio is the sign of death and here death was made extremely significant through the process of mummification and the treatment of the dead in such a way as to make them seem to be more sacred as dead beings than they were in life.

Thus, the mummification and the death and the way of treating the body after it died, the creation of great tombs or pyramids as a housing for these mummified beings was a different way of finding rulership in that Age of Taurus. These temples of death and the priests of the dead and dying ruled the Age of Taurus and mummification was the main focus.

#### The Age of Aries Where the Law of Moses Ruled

This Awareness indicates in the Age of Aries, the opposite sign being Libra, and Libra of course represents the law, the balance of the scales of justice, and in the Age of Aries, the thing that ruled the most was the agreement of a covenant with God, a covenant wherein the law of Moses ruled and the Ark was seen as a powerful balancing gift from God to the people, so that it was likened unto an agreement, a contract that the people had with God, and that agreement or contract had to be honored and the 10 Commandments were the laws that ruled these people as a covenant with God.

Thus, the Age of Aries was ruled by laws reflected from the sign of Libra. This Awareness indicates it is in this manner that astrology still is seen as affecting the affairs of humanity in the movement of the ages.

#### These Cycles Are Cosmic and Part of Nature and not Creations

This Awareness wishes to point out something further. Your clock has 12 hours, and these 12 hours go in a clockwise direction. Your year has 12 months and these months are registered in a counterclockwise movement as the signs of the zodiac. Your astrological age, the ages of the astrological clock, each being approximately 2000 or 2100 years in length, create a clockwise circle that spans 25,000 plus years. In this clockwise circle, rather than going from Aries to Taurus to Gemini to Cancer as in the yearly movement of the Zodiac, the movement is in the counter-clockwise direction.

The ages move in reverse following the clockwise movement, going from, for example, Taurus to Aries to

Pisces to Aquarius, to Capricorn. In other words, following the Aquarian Age will be the Age of Capricorn, which then is followed by the Age of Sagittarius. So, each of these cycles is reversed on the zodiac and the timing is extended to greater lengths: the hour, the year, the age.

This Awareness indicates that in understanding this, entities will see that these are cosmic cycles and that these cycles are part of nature. They are not simply artificial creations, for it is the influence of these ages that has given people the understanding of a particular sign or season. These seasons have their particular qualities that are described.

This Awareness indicates for example, entities may think that the astrologers created an artificial zodiac in which Gemini was the result of the stars at the time of Gemini's appearance on the horizon, but this Awareness indicates that whatever stars were there at that time do not really look like twins, except by a stretch of the imagination, and the stars that were there were simply created by the astrologers to represent the qualities that were associated with the presence of that particular position at that particular time, so that the qualities became associated with that star system and the description of twins was simply to help astrologers remember what the meanings of their findings were in describing the qualities of that position.

This Awareness indicates the bull, for example, has certain qualities as described by astrology, but the sign did not cause the bull qualities. Rather, the bull was simply superimposed over that sign in order to explain the qualities.

One could find perhaps other symbolism that would be better definitions of the qualities, but it might be difficult to do so, for there are certain things about the bull that fit very well into the description of the Taurus qualities as understood by astrology, but those qualities are related to vibrations, not caused by the bull.

The bull is simply an artificial symbol which helps to remind the astrologer of the frequency effects of the sign of Taurus. This Awareness indicates that the age is also symbolized by similar qualities so that when entities enter into the Age of Taurus, the astrologers of old have put forth certain symbols that help to define what entities will expect from that Age of Taurus, or whatever sign.

This Awareness indicates that thus, entities understanding these things can help to form a deity for the age, to create a deity that fits the qualities the age demands, and a story surrounding the entity can be presented, can be written, can be made to appease the needs of the public for the changes that are occurring.

#### Masonry Helped Guide the Christian Religion

This Awareness indicates that most of this touches into Masonry; that Masonry goes back far into the past, even prior to ancient Egyptian philosophies, for the Masonry was part of the force that guided ancient Egypt and it continued up into the Piscean Age, helping to guide the Christian religion.

This Awareness indicates that it also is now in the process of guiding the Aquarian Age and in creating a religion that will satisfy the symbolism of the Aquarian Age. Some will say this is the work of Satan, but this Awareness indicates that the Piscean Age and the work of Christ was also a creation of Masonic philosophy and this Awareness indicates also that it is fitting for entities to claim that this New Age is associated with Satan, for in symbolism of ancient Egypt the god Set was an evil god. It was created as a symbol for Saturn. Saturn in

astrology is a very harsh demanding influence and the Egyptians saw the planets as gods.

#### "Satan" Could Play a Role in the Age of Aquarius

Thus, the god Set or Saturn was disliked by most and was seen as being a harsh, demanding and very cruel force. Later, the term Saturn became part of the progressive cultures and the term Set was forgotten and put back into the antiquity of the Egyptian philosophy, but it is important now in entering the Age of Aquarius to recognize that while Uranus rules Aquarius, Saturn is a cruel ruler; therefore, there is likely to be a strong quality in the Age of Aquarius that reflects and equates to a concept of Saturn, or that which is in religious dogma, personified as Satan.

This Awareness indicates of course, in reality, Satan does not exist except as a force created by entities' beliefs and if the entity is denied existence by the belief of the masses, it would lose its power. If entities could see Satan is nothing more than the force of Saturn on the lives of people, Satan itself would no longer have power.

Entities would simply say "Saturn has caused this influence and entities allowed it to happen." This Awareness indicates where ever Saturn has a negative effect on the lives of entities it can feel like the influence of Satan and can cause entities to behave in a manner that is Satanic in nature, and those who involve themselves in Satanism are likely to have, in their personal horoscopes, a placement of Saturn in such a House and with such aspects as to cause them to behave satanically, but does that mean Satan is a reality? Or is it merely a misrepresentation and false creation attributed to the influence of Saturn?

#### The Egyptians Denied the Existence of Evil in the World

This Awareness indicates that if you deny the existence of evil in the world, and look as did the Egyptians upon Saturn or Set as being a task-master, one who makes things difficult for you so that you can become stronger from the adversity of Set or Saturn, then you do not have evil in the world. You simply have a force that causes entities to be influenced, which makes it difficult for them wherein they may react adversely, or may react carefully in overcoming the adverse energies of Saturn.

If they react to those energies and influences in a negative and reactive manner so as to create hardships for themselves or others, it may be called "evil" by some, but it is not necessary to think of this as evil and still be realistic, for you can see these things as being influenced by intense negative or very restrictive and compelling energies without seeing them as evil, even though the results may be disastrous to some.

This Awareness indicates it is simply a matter of what you want to use in your language for describing reality. This Awareness indicates that the Koreans had no word for evil. They had words describing that which is good and that which is not so good, but they did not have the word called "bad" or "evil." This may have changed from the recent influence of Westerners into their culture.

This Awareness indicates at any rate, the movement into the Age of Aquarius brings about an opportunity for a new deity to appear. Whether this deity is worshiped as a god or simply recognized as an entity whose chosen purpose or self-appointed purpose or purpose as promoted by others who have influence over this entity; whether this purpose is recognized as divinely guided or as simply a role being played before the mass-consciousness of humankind, is a matter of your own perspective.

How do you wish to view this entity? Do you want him to be a god for you? Or do you want to simply see the entity as someone playing a role in behalf of humanity, or in behalf of entities seeking to manipulate humanity? This Awareness indicates that it is a matter of your own choice.

If you do not worship this entity, you are not going to hell. If you *do* worship this entity it is not necessarily a ticket to heaven. This Awareness indicates that it is simply a game of moving mass-consciousness, manipulating mass-consciousness, altering mass-consciousness in a way that helps certain powers to control mass-consciousness for good or ill, depending on their motives.

#### You Should Recognize Divinity Not the New God or King

This Awareness indicates that regardless of what these entities do to create a new king or god for the age, your purpose is to recognize Divinity as filling the entire creation and to give yourself to that Creator of all things, surrendering yourself to that Creator of all things, even though it may be invisible to your senses.

Remember, your senses are limited as to what they perceive and you may not see, hear, taste, smell or touch that Divinity in such a way as to be convinced of *Its* presence, but you *can* know *It* is everywhere present. *It* is omnipresent. This Awareness indicates you can know this because you know the Creator *has* to be everywhere that there is any portion of his creation, because *It* must sustain *Its* creation by *Its* own presence in it, and therefore, knowing that the Creator is everywhere present, you can surrender yourself to *It*, and not have to engage in worshipping a new god every time the earth progresses through certain changes in the zodiac.

#### You Don't Need to Start a New Religion to be One With God

You do not have to start a new religion just to be One with God. You can continue worshipping the Golden Calf or the Lamb of David, or the Fisher King, or you can, if you want, worship the man pouring water, but you must, above all and beyond all that game-playing, you *must* remember the Divine Creator is everywhere present.

This Awareness indicates you must attune through the surrender of self to that Divine Creator in order to *be* One with God, in order to find the Kingdom of Heaven Within, for it *is* within, if you recognize the Divine Creator is within, and also is without.

The Divine Creator is everywhere present. What else can you ask for in a universe than to have Divinity everywhere present? And yet you have the free will of not recognizing it if that be your game. You have the free will of running hither and yon and saying, "Is this God over here? Is this God over there? Where is God? What name does God hide under?" You can do this all you want without harming anyone, but if you *really* want to have the experience of being One with God, that experience only comes through the surrender of self to the supreme Creator of All Things.

### DID SIDHARTHA GAUTAMA REALLY EXIST?

(Why Buddha Became the God of the East)

#### (JD) QUESTION:

Awareness, could you confirm the actual existence of the one known in the story as Prince Sidhartha Gautama? Did this entity actually live as depicted, and if so, was this entity also part of the Piscean Age?

#### COSMIC AWARENESS:

This as a Lord of the Piscean Age, in an area that is commonly referred to as Asia. The world was so scattered into small portions with no broad communica-

tion between parts that it was necessary for entities to have a God in the East and a God in the West to fit and fill the needs of the masses.

During that time there were also gods in the western hemisphere that played certain roles for their people. This Awareness indicates that the entity that became known as Buddha was born on earth through a mother and did indeed play the role of a Divine Entity, and became One with God. The entity surrendered self and became unified with the Divine Consciousness, with the Divine Creator.

This Awareness indicates you may remember the story of Buddha in which he admonished his followers: "When you become the Buddha in your movement toward enlightenment, when you reach Buddhahood, you will realize that the Buddha is the highest level of consciousness and that you are now One with God, and when you turn to look back at others who are following, you will discover that they *too* are Buddhas, and they *too* have the Divine Light within."

This Awareness indicates it is not that entities are seeking the Light, it is that they do not recognize the Light they already have found within themselves, and that the Divine Light of the Creator resides within, and all that is necessary is for them to realize that Divinity, and they cannot realize it as long as they are separate from God, thinking of themselves as followers or seekers of Divine Light, for as long as you *seek* the Divine Light, you are telling yourself, "I don't have it! I don't have it yet! I am separate from God!"

#### The Message of the Buddha and the Christ Was the Same

This Awareness indicates that when you surrender self to the Divine Creator, you become One with God, you are no longer separate from God. You no longer must seek God, for you and God become One. This was the message of the Buddha. It was a clear message, and many entities still don't understand it. It was also the message of the Christ.

This Awareness indicates that it has been handed down from one cultural religion to another in the passion play and from the various religions, one age after another, and yet entities don't get it, not because they *can't* get it, but because they *choose* to not get it. They do not want it to be so simple. They want somebody to rescue them, so they don't have to be responsible for themselves, but it is much easier to be responsible for yourself and to recognize "All I must do is surrender myself to the Supreme Creator of All Things."

What can be easier? Perhaps it is so easy that entities cannot accept it. Perhaps they want it to be more difficult. This Awareness indicates that some entities need to have a challenge before they can believe they have an ability, but most entities have the ability to give up self to God, to surrender self to God, if they simply choose to it. It is a matter of choice and it is extremely simple, extremely easy to do so, but you must be willing to give up self-glorification and self-importance, for what is really more important than being One with God?

Is it more important to have a self to parade around in, to show off your self to your friends? Is that really important? Or can you simply give yourself to the Divine Creator and let your friends see what they want when viewing you without worrying about whether you are making the right impression, making the impression you want them to see?

These things are of no real significance in your expression as a human being, but the surrender of self to the Divine Creator, the Supreme Creator, that is what can be of true value to any individual. Who can be more

pleased than you in giving up self to the Divine, for who is more important than the Divine Creator? And surrendering yourself to the Divine creator is the most important action you can do.

Clinging to yourself, parading your importance before the Divine Creator is not going to impress the Divine Creator, and it is not likely to impress anyone else, but surrendering yourself to the Divine Creator allows you to have the experience of being One with the Divine Creator, and that should impress your self to be One with the Divine.

## WHAT IS THE BEST WAY TO SURRENDER SELF TO THE DIVINE CREATOR?

### (JD) QUESTION:

Awareness, what would you say are the most effective practices or techniques for relinquishing identity with one's individuality in favor of regaining identification with one's source, God or this Awareness, or Divinity, while still incarnated in this body and functioning efficiently within it?

### COSMIC AWARENESS:

This Awareness indicates that the best way to surrender self is to recognize that you did not create the self without the Divine influence of God, and therefore, whatever the self does is not glorification for you. And therefore, the only glorification of self is that which the Divine gives it, and you may as well give it back to the Divine which created the self, and in so doing, you simply give back that which was given to you, which you did not truly deserve or work for.

And in so doing, you recognize and respect the Divine Creator and give yourself into the hands of that Divinity in a humility that trusts the Creator of yourself to do with it that which needs to be done to bring you to your true purpose as a disciple and follower or agent or representative of the Divine, so that "Thy Will be Done With Me!"

Giving yourself to the Divine, recognizing that *It* has control over your entire being and therefore, acknowledging the control willingly, asking that the control of the Divine Being, the Divine Creator be accepted in your life so that you no longer have the need to control your life, but are willing to surrender your life to the guidance of the Divine Creator; that is sufficient.

It is simply a matter of how you view God. Do you want to impress God with your greatness? Or do you acknowledge the greatness of God and God's ability to direct you with a Divine Purpose and with the hand of Divine Guidance? This Awareness indicates when you take that route, of letting the Divine direct you, you will no longer need to impress anyone. You will not need to impress God nor any human. You need only to be open and wait for the Divine Guidance.

### Criminal Entities Who Say: "God Told Me to do This!"

This Awareness indicates, of course, the Divine Guidance must be truly that of the Divine Creator. There have been some entities who have claimed to commit crimes saying that "God told me to do this!" This is not the Divine Creator in action. These entities have surrendered themselves to some lower force, to some demonic depraved disincarnated force.

The Divine Force does not create error, does not cause error to entities who surrender to the Divine Creator, and knowing that, and trusting that the only actions of the Divine will be those actions that are truly good and worthwhile, an entity can feel safe in letting the Divine

Consciousness, the Divine Mind, the Divine Creator direct their lives.

**You Can Slowly Give Up Control of Your Life to the Divine**

This Awareness suggests that entities who find it difficult to surrender control of their lives to a Divine Creator may wish to let go a little at a time, rather than letting go completely, all at once. This Awareness suggests that it would be helpful for entities to have the experience of that which is the conversion that occurs when entities truly surrender to God, wherein one says, with a clear and open heart, "I give myself to thee totally, without reservation! Make me an instrument of your will!"

This Awareness indicates that is an experience that cannot be upstaged in the world of experiences, but there are some entities who find giving up control to be extremely difficult because they have had experiences in the past that have caused them to feel insecure if they are not in control, and thus, they cling to something when they give up something else. They cling to *this* control, and give up *that* control, then wait nervously to see what happens.

This Awareness indicates this is one way that entities can gradually give up controls to the Divine. For example an entity can say, "I am afraid if I give up control I might do something horrible!" Yet the entity can also say, "Well, I wouldn't do something really horrible! I might do something bad." And thus they can give up some of the control they felt they had to have.

This Awareness indicates they can look at this for awhile: a day, a week, a year, whatever, until they feel comfortable that they have given up some of the control and can trust the Divine to keep them from doing something horrible. And then they may say: "I think I could give up a little more control and let God guide me." And thus, they let go a little more, trusting God to guide them in their lives.

In this way entities can gradually release a little control now, a little control later, and a little more control down the road, until they are being controlled by God most of the time in almost all things. This Awareness indicates when this occurs, they are full of trust in the Divine and they are very comfortable in their universe, which seems to be a very trustworthy place.

Occasionally they may grab something out of fear that they have lost control, but when they do, they can simply look at it and say, "Wow! That was somewhat scary! I thought I'd lost it! But I guess everything will be okay if I just trust in the Divine!"

This Awareness indicates in this manner, entities can gradually change their lives so that they experience the movement of the Divine working into their lives more and more, moment by moment, throughout the life experiences.

This Awareness reminds you of a line in a song by Leonard Cohen: "Oh you, who must lose everything that you cannot control. It begins with your family, but soon it comes 'round to your soul."\*

\*(The correct version of the lyric is "leave", not "lose": Jon.)

This Awareness indicates that this carries a truth that entities need to understand, for indeed the more entities try to control, the more difficult it is for them to have control.

**The Story of the Two Awareness Ministers in Arizona**

This Awareness indicates that there is another story of two ministers of Awareness who went to Arizona to live, many years ago, and when someone went out to visit them, they noticed that they had changed consid-

erably from when they knew them before. They were enjoying life much more than they had previously, and the entity asked them: "What is it with you? When I knew you before you were always so intense, and now you seem to have so much fun in living!"

And the entities said: "We have discovered that it is not necessary to direct traffic. We can simply let the traffic move and simply watch the traffic go by." This Awareness indicates the entities had learned to let go of so much control in their lives; that it had stifled them and prevented them from enjoying life.

**LISTEN FOR THE VOICE OF THE TURTLE**  
(Why JD Rabbit Will Always Be Present at CAC Sessions)

**QUESTION (AVATON):**

The entity JD will be leaving for New York tomorrow and will not be sitting in on any more sessions. I was wondering if Awareness has a final word or something for her.

**COSMIC AWARENESS:**

This Awareness indicates that wherever you are, you will be sitting in on further sessions. All that is necessary is for you to recognize that this Awareness is close, is with you, and all that is necessary is for you to recognize the presence of this Awareness and anytime you ask of this Awareness anything you wish to know, you simply ask and wait for the response that comes in silent answer and you may find yourself putting words to that silent answer, for this Awareness is likened unto the Voice of the Turtle.

It speaks in silence, and you may put these words into sound if you choose, or you may translate them into thoughts if you choose, but to do so, you must be very sensitive and remain in a receptive listening manner to listen to the Voice of the Turtle that is deep within you.

Thank you. The Law of Gratitude is given)

**Ed's Note:**

Our good friend JD Rabbit left this plane on the 20<sup>th</sup> of November, 2004. A month earlier in an email to Vikki, she mentioned she had a sudden urge to make her will, which would probably keep her off line for several weeks. JD's sister Lauri emailed us that JD was killed in a head on crash at dusk by a 25 year old boy, who police believe had fallen asleep and crossed the double yellow line. She was killed instantly, and really didn't know what hit her. Both drivers died.

Awareness is correct in this Voice of the Turtle closing message, for even though JD is gone, I have a file with several hundred questions she sent in over the years that were never asked, and hopefully many of these will be addressed by the new Interpreter Will Berlinghof. In this respect I am almost certain JD Rabbit will be sitting in on future sessions. Vikki says for almost six months after her death, JD checked in with her almost daily but that these visitations abruptly stopped and she feels that JD has moved on. We'll see if she returns in some of Will's future Awareness reading sessions.

For more information on the passing of JD Rabbit, please refer to *Revelations of Awareness* issue 2005-1 (No. 583) for a two page article with photos written by yours truly entitled "JD Rabbit: In Memoriam."

## Health Hints From Personal Readings

(Psoriasis of the Penis)

### QUESTION:

I have a problem with psoriasis of the penis and I have a wart on the head of the penis which is embarrassing and painfully sore. The doctors at the V.A. hospital keep burning it off with dry ice, but it keeps coming back. Please help me on this. I also have psoriasis on my legs and scalp. How am I causing this?

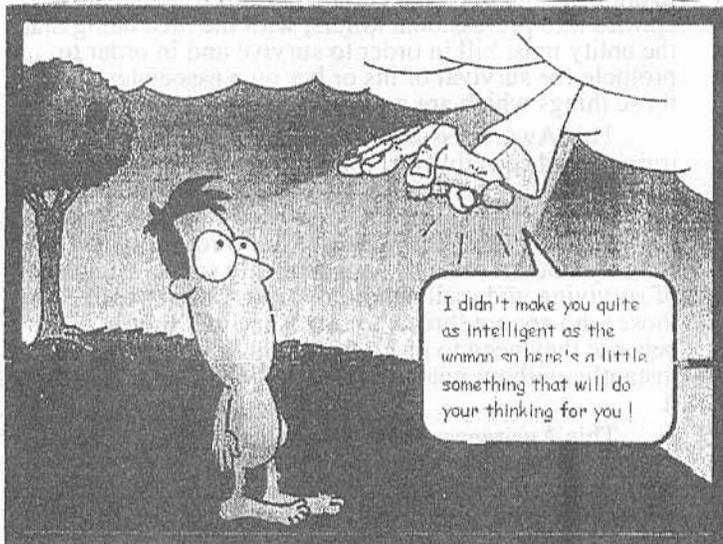

### COSMIC AWARENESS:

This Awareness indicates this has come about from long years of intense nervous conditions, as well as faulty diet. This Awareness indicates that there have been several crisis points in your lifetime wherein your nerve endings were somewhat damaged, both by the intense stress and by certain medications given to you during these times.

This Awareness suggests that the present condition will take much therapy to completely overcome the problem. This Awareness suggests that this through long disciplined diet and periods of intense meditation, relaxation, and re-charging of your energies. This Awareness suggests that for complete recovery, that a regimen based on the mucusless diet of Dr. Ehret. This Awareness suggests the juice diet of Dr. Walker, or the Fasting and Nature Cure available in booklet form through C.A.C. This Awareness indicates this as that which may require as long as three years of this strict dieting procedure. That also the time for recovery may be shortened by meditation, moments of relaxation, and attitudes of self-acceptance, as well as visualization of Light energies moving into your form.

This Awareness suggests also the use of hypnosis as being beneficial in regards to this. This Awareness suggests that autosuggestion wherein you use self-hypnosis as being somewhat beneficial also.

This Awareness indicates that in terms of temporary relief and a lessening of the condition, the use of an oil combination made with castor oil, sandalwood oil, pumpkin seed oil, wheat germ oil; this Awareness indicates this combination as that which can be greatly beneficial. This Awareness indicates these be in equal parts. M771006P

## Is There a Cure For "Dribbling"?

### QUESTION:

A question from Sidney Barbarash. We asked a similar question some months ago, and Awareness had no energy on it, but said it was a new area, and to ask again. Perhaps there's some new information. He writes: "I have a question about a common problem with older men,—difficulty in urination, urgency at night while asleep, dribbling. Is there a common simple cure for these various problems, like an ordinary magnet or vitamin? Would standing upon the head help?" he asks.

### COSMIC AWARENESS:

This Awareness indicates that the entity Sam Biser presents information relating to this problem. This Awareness suggests that this also includes information available through this entity on the treatment of the prostate. This Awareness indicates that the book mentioned previously by Dr. Matsen\* as that which can be helpful in improving the general health so that this problem will diminish.

The improvement of the general health through the Matsen method detoxifies the body and allows the cells to regenerate through proper nutrition. Whereby the body can properly utilize the nutrition it receives and the toxins are eliminated from the body, the cells tend to rejuvenate and the general health of the individual is restored, and this problem has to do with a body that is generally weakened by toxins and not supplied sufficient nutrients to those areas whereby the muscles are weakened and the problems then result.

This Awareness suggests therefore, that you consider both of these sources for selecting a proper approach to relief. This Awareness indicates there are benefits from using diuretic teas; the use of cornsilk as a tea for eliminating water from the system throughout the early part of the day can help to prevent the nighttime urination problems, particularly if you avoid water prior to going to bed, drinking early in the day and drinking nothing within an hour before bedtime.

This Awareness indicates it appears however, that the release of toxins from the body through the Matsen method and addition of nutrients through his method of food combination will be the more effective and permanent way of healing the problem rather than treating the symptom.

## THE COSMIC AWARENESS SPIRITUAL DEVELOPMENT COURSE

### Taurus: Volume 2 Lesson Number 4

QUESTION(AVATON):

Would Awareness please give the trance reading for the Correspondence Lesson number four under Taurus? The fourth lesson being that which relates unto the foundation known as home, and the security which a home can provide for the growing child; this in relation to the mother and father of the child.

COSMIC AWARENESS:

This Awareness indicates that in the previous discussion, the examination of stable data, core beliefs, or the foundation on which one built his or her philosophy and life-style was discussed in part.

This Awareness indicates that in continuing to look at this, there are certain other levels for entities who are not as concerned with the survival of their own being as they are concerned with the survival of certain concepts and relationships which they have shifted their identifications into.

This Awareness indicates that entities can, indeed, shift their identification out of the physical body and into the identification with a movement, with a religion, with a philosophy, with a cause, with a business, with an action, or with other entities, and can become so wrapped up in those other interests that the Principle can be lost.

This Awareness indicates that in this manner of shifting from one identification to another, entities can begin to move from one level of experience into another. This Awareness suggests that the action of moving into the physical form takes place through the action of identification - the action of moving into certain levels of behavior takes place from the action of identification, and the action of moving from personal experience into social experiencing, this also takes place in levels of identification. Therefore, as entities begin to expand outward from self and become more interested in that which is occurring round about them in their environment, and become more and more identified with those things in their neighborhood, these entities then can basically be said to be expanding their world. Their body may grow only slightly larger, but their realm of experience and their sphere of experience may grow enormously.

This Awareness indicates that as the child moves from the personal body-needs and begins finding those areas outside of the physical body, moving into areas of expression within the home, finding areas of identification with projects, hobbies, activities, relationships, and with certain physical comforts and pleasures, the child then begins forming more and more lesser beliefs, or stable data concepts around the central core belief, which is the basis for the lifestyle.

This Awareness indicates that, for example, the child who feels the world is hostile, then begins seeing this or that entity, this or that particular face, this or that particular type of night, of wind, of rain, or of temperature as being the most hostile, and therefore to be most dreaded, whereas this or that other entity is less hostile and not quite so dreadful.

This Awareness indicates that the lesser core beliefs may be visualized as eddies swirling in a larger whirlpool, each having its own particular nature, and each of these lesser core beliefs drawing in certain energies from the entity, and all centering around that particular core belief that was the basis, the stable data on which the entity built his lifestyle for survival.

This Awareness wishes to allow entities to see how far in various extremes this kind of programming can go.

This Awareness indicates there is upon your plane an organization that has delved deeply into mind manipulation to such a degree that they have used the principle of survival as a stable data on which to manipulate the minds of certain entities to make these entities into professional killers, with the idea being that the entity must kill in order to survive and in order to promote the survival of his or her own associates and those things which are good.

This Awareness indicates that through intensive training and selectivity, through psychological investigation and work, this organization has created and manipulated minds in a manner that convinces the entity that they must kill those things which are threats to their security - but in order to be thoroughly safe and capable of surviving under all conditions, must learn to kill even those who are not threats to their survival, simply because they need to reach that point of being able to kill instantly, without reason, if their survival would demand it.

This Awareness indicates in this manner this organization has programmed, and does require, its recruits to move into certain villages and areas and to kill an innocent person for no apparent reason: the reason being only that of training.

This Awareness indicates that this ultimate extreme of this concept is but the work of mind manipulation, based on the concept of survival and the fear being fed to the entity, that if it does not go to this extreme, it cannot survive. This Awareness indicates that these entities then are also taught: "Do not question, simply obey your orders, and this will assure your survival."

This Awareness indicates the works of this organization are only valid and of value to those who consider their own personal survival as being more important than the survival of others.

This Awareness now wishes to look more deeply, for wherein the basis of life is seen in the physical world: wherein entities have a core belief that the physical world is the ultimate end of all things, and the termination of the physical body becomes the end of consciousness, such a system as presented by this organization could be quite valid, and any form of morality would simply be an extra type of fantasy and pleasure. And the hard reality would be that survival was necessary under any cost, and these methods could then be necessary and appropriate.

This Awareness indicates all of that philosophy is built upon the core belief that the physical universe, that consciousness has come out of the physical manifestation, rather than the other way around.

This Awareness wishes entities to understand (and this can only be understood through the experiencing of entities through meditation and deep recollection of entities) that the physical manifestation came from consciousness, and consciousness does not come from the physical manifestation.

Only when entities become aware that they are indeed spirit and consciousness, and that all of the world and the Universe is a conscious entity, only when this is understood will the stable data be built on foundations that do not crumble.

This Awareness indicates that those who build upon the sand of the physical world shall find their empires collapsing.

This Awareness suggests that those who can begin to understand that all is consciousness shall find that they can build an entire lifestyle, an entire civilization, an entire world, an entire universe upon this concept and it will not crumble.

This Awareness suggests that the child, growing and believing that his home, his body, and his things are but physical accidents that came out of a chaotic mistake, and his consciousness is but part of that chaotic mistake - this child is growing up in the core belief of materialism, and there is an entire philosophy and civilization which is present to help sustain this child in developing this philosophy. And this civilization will assist in many ways to help this child and his philosophy survive.

This Awareness indicates wherein the entity becomes aware enough to look deeply and recognize that all images, all forms are nothing but the magnetic collection of imagination being frozen upon a screen called Akasha: this screen which permeates the entire Universe, flowing through all things, touching even as an ocean of life, touching into every molecule and every atom, filling all shapes and forms regardless of their density - this akashic screen is a substance that is of such a nature that it can never be destroyed, can never change, can never fall, can never crumble, and is ever and always living.

The waters of Akasha, filling all forms, allowing a screen of fourth dimensional proportions on which any

image can be projected, into which any shape can be formed, through which any energy can move and sustain its being - this akashic flow of spirit and life is the *only* absolute stable data that exists.

And wherein entities begin to hook their being onto that akashic field of energy, wherein entities begin to find their life basis and foundation as being that which is the akashic waters, neither magnetism nor radiance, nor concepts or ideas, but pure being - the being of the akashic field which fills the Universe, which is life itself - wherein entities begin to truly understand this as their source, their roots, their beginning and their end, an indestructible screen which they can identify themselves with, which they can 'be,' which they are - then entities will indeed be living in a lifestyle which is the truth that cannot be destroyed, cannot crumble, cannot fall, and their house shall be built on the rock of pure being.

And this rock of Akasha, which is invisible to the senses, which lies behind all images, which lies behind all forms and shapes, which exists behind all tangible materials - this Akasha is that which is the ultimate beginning and end of all entities, and exists externally and has no dimensions other than being what it is.

This Awareness indicates that as entities begin to understand themselves as being this Awareness, they then can have a stable data, a core belief, and everything that is built around that core belief will fall into place in a manner that allows them to have total integration with all that occurs within the realm of images, forms, shapes, and matter.

This Awareness indicates that in terms of a healthy home life for a child: the spirit of the home, the relationship and attitudes of the family members toward one another is far more essential in assisting the entity to have the stable data necessary for spiritual survival. This is far more important than the material properties and the material needs of the entity.

This Awareness indicates that the physical body may be broken, bruised, and destroyed; yet, with the proper spiritual foundation, the entity can rebuild an even greater physical body or can move into other realms which are even more joyous.

This Awareness indicates that wherein entities prefer to place their foundation on certain physical levels, this can allow the entity to sustain the physical form upon the physical plane.

And wherein a proper balance of physical and spiritual values are given to the entity, wherein the proper food is given which allows the entity the sustenance necessary for the growing appetite and the growing body and its needs for expression, wherein the environment is such that the entity does not feel hostility from the surrounding forces, wherein a general balance of ecology and environmental levels and wherein a general balance in relationship levels and situations occurs, the harmonious life which is integrated on the physical plane with the spiritual forces can occur, and the blending of physical and spiritual values can create a situation wherein a totally New Being appears upon the earth.

This Awareness indicates that entities need not concern themselves with whether to be spiritual or physical, whether to be materialistic or spiritualistic, but may concern themselves instead with integrating all aspects of their concepts, all polarities with one another, so that where they are is where they are, while they are as they are, and still allow changes to occur.

This Awareness indicates that a healthy life for a child is one where the child has just the right amount of

security, just the right amount of freedom, just the right amount of attention, and just the right amount of ignorance. And as this occurs, the healthy life for the child shall lead the child toward those actions which are just right for society.

This Awareness indicates that all of these experiences for the child can happen freely and easily when every entity involved gives eighty percent attention to one another's needs and twenty percent is given toward personal needs and the right to rebel against the demands of others.

This Awareness suggests that entities must allow themselves and others a certain space in which to rebel, and must allow others that eighty percent sensitivity toward the needs of others and toward conformity with the demands of the society or system which is based upon the agreement of the many.

This Awareness suggests that in terms of the healthy home for the child, that the twenty percent rebellion can occur in those areas which do not violate others' rights: wherein authority is challenged, but no great harm or damage is done to any entity or to any valuable property.

This Awareness suggests it is not necessary to allow the child to hammer nails into the piano, or otherwise destroy properties, but it *is* necessary to allow the child certain areas of self expression that is rebellion toward authority.

This Awareness indicates this also as necessary for yourself, regardless of who you are, to rebel against your own rules, your own regulations, and your own core belief system.

This Awareness suggests this as the conclusion of this lesson. (The *Law of Gratitude* is given.)

### How to Introduce New Age Concepts to Others (The Interpreter is Secretly Monitored During this Reading)

#### QUESTION:

A lady in Detroit, Michigan writes. "With so many people we'd love to introduce to New Age thought and health, would Awareness have any suggestions for ways to helpfully introduce these unusual concepts to peoples of all ages, which to mention first and so forth." She's relating mostly to the communications from our organization which she's been receiving.

#### COSMIC AWARENESS:

This Awareness suggests that the introductory booklet, "Cosmic Awareness Speaks" as that which can be quite beneficial. This Awareness suggests that there also can be other brochures written or presented *in* a brief form for casual handouts, this may include a brief description of the organization, the information being released and so forth. This Awareness indicates that this as something which could be prepared for future use in introducing the unacquainted entities to this action. This Awareness indicates also that you might consider small tracts carrying brief messages of self-help to entities, messages which can assist them *in* their daily lives to better understand themselves, their world and their relationships with others. This Awareness suggests also that these small tracts may be on very brief, small pieces of paper which would serve as bookmarks; that you might also consider making bookmarks with certain brief quotations from the readings which would be of benefit such as those brief quotations taken from the Cosmic Laws.

This Awareness indicates that *in* terms of more in depth proselytizing, This Awareness suggests that you not worry greatly about this, that you not feel it is necessary to become a Cosmic Awareness missionary. This Awareness suggests however, that wherein there is someone troubled, someone wishing to discuss philosophy or various ideas, that you not be ashamed or inhibited in quoting or discussing certain messages which you have heard and which you feel apply to the situation. This Awareness suggests however that you not do this in a manner whereby you would be attempting to, whereby you would be attempting to push your concept or ideas upon the entity.

(Long pause)

This Awareness indicates that the Interpreter was just monitored, this appears to be from...this appears to have come from an associate of Dr. Beter. This Awareness indicates that this action not being anything to be concerned about, that essentially these entities are checking in to assist in keeping a protective eye out for the Interpreter's welfare. This Awareness suggests that this may occur at various times, that the action of it occurring at this tied is purely coincidental.

#### QUESTION (AVATON):

Is this monitoring for just a few moments, or do they listen in on the whole trance reading?

#### COSMIC AWARENESS:

This Awareness indicates this as approximately four seconds in duration, then it fades out, the entire monitoring generally lasting less than ten seconds. This Awareness suggests that you might note the time of day.

#### QUESTION (AVATON)

Thank you. Was Awareness through responding to the last question?

#### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness suggests that one more question be asked in this particular reading.

Excerpt CAC Reading 10-2-16-82 Paul Shockley Interpreter

## AQUARIAN CHURCH VS UNIVERSAL LIFE CHURCH: REASONS FOR EXISTING (What is the Spiritual Worth of an Organization?)

### QUESTION:

Jack Katchmar sent in a batch of questions which I'm not going to ask, but there's one in here concerning Anthony Warren, who is setting up various churches and projects outside of the Aquarian Church charter. And Jack had this question: "Cosmic Awareness, we need more guidance than we have been getting. For example, the Justin Moody suggestion to Anthony Warren in his letter of January 14", attached, which says; "Anthony, why don't you set up your projects under an Aquarian Church charter rather than setting up parallel, but separate activities. It seems that this would set up, or allow greater unity among Awareness groups.

Anthony responded; "Why don't I work within the Aquarian Church of Universal Service? I am following the directions of my Inner Christ. I think there is still much of the old consciousness on the first tier, the reluctance to allow each one his or her own Inner Christ freedom as equals among equals." And Jack goes on; "Cosmic Awareness, the Anthony Warren response to Justin Moody is attached; on one hand it may be that this ULC action by Anthony Warren is appropriate, since the Aquarian Church is under heavy Luciferian attack.

This way, ULC can share this Lucifer attack, thus helping the Aquarian Church indirectly, since the purposes of both seem to be basically the same. On the other hand, it may be that the Aquarian Church would be made much stronger if the Anthony Warren actions were under the Aquarian Church Charter", and he'd like Awareness to look at this and make some suggestions.

### COSMIC AWARENESS:

#### The Mail-Order Universal Life Church

This Awareness suggests that the action as it presently is appears to be appropriate. This Awareness suggests that there are several aspects to this. This Awareness indicates for one thing, the Aquarian Church as being organized with more restrictive by-laws than the Universal Life Church. This Awareness indicates the Universal Life Church as that which allows a maximum of individual expression, wherein there is no particular message given by the Universal Life Church other than that general message of allowing each minister to do what he or she wishes to do, so long as it harms no other.

This Awareness indicates that the Aquarian Church has particular purposes which it seeks to accomplish through its organization and its charters, mainly the efforts to create and present expressions of the Awareness projects and purposes. This Awareness indicates that the entity Anthony Warren as one who enjoys his own personal expression without any forms of external restrictions or directions which would be felt under the charter of the Aquarian Church and which could in turn create some dissension between these organizations, wherein the entity Anthony Warren seeks to express himself in ways which surpass the levels indicated within the by-laws of the Aquarian Church.

This Awareness indicates that therefore, this action of Anthony Warren as that which appears to be more appropriate for his own personal needs at this time. This Awareness suggests that also, the Aquarian Church has a charter from the Universal Life Church which is what

may be called a back-up charter, in case the church becomes the target of attack, and loses its own individuality as an incorporated entity; it therefore could use the Universal Life Church charter to continue its work.

This Awareness indicates that the Universal Life Church as that which has a broad base of operation, and is backed in part by other churches. This Awareness indicates that the Catholic Church does give it much support, which helps it in many of its efforts to maintain its legal status. This Awareness indicates that likewise, the growth of the Universal Life Church, along with its many members and increased income, make it much more difficult to be attacked by those who would desire to destroy this church.

This Awareness indicates that the Universal Life Church as one which started out simply expressing the message that all entities should have a right to their own beliefs and should be allowed to form a church around those beliefs, and so long as they harm no others, should be allowed to their expression of religious beliefs. This Awareness indicates that this concept and belief as that which was upheld by the courts, and attacks against this church were considered attacks against the First Amendment.

This Awareness indicates therefore, after many court battles, the church has emerged victorious in continuing its movement of expressing itself as a religious organization and having its message as that of allowing entities freedom of religion and belief, according to their own individual belief system. This Awareness indicates that obviously, this is not channeling any particular message, as is the Aquarian Church, in its intention of serving as a channel for much of this Awareness' projects and purposes.

This Awareness indicates that the entity Katchmar also wondered at the growth of this church, and this Awareness indicates that this church being set up with very little restrictions and very many offers and benefits to its ministers, as that which utilized a principle, or loop-hole in the laws of this country to create tax exemptions for individuals who are ministers of this church, and therefore, many entities joined simply out of the greed factor, without needing to study or train for the ministry, but simply by purchasing a minister's certificate and charter from the church.

This Awareness indicates that this as one reason for the extremely rapid growth of this church, that being of a purely economic and personal benefit relationship between the church and the masses. This Awareness indicates that now that the church has grown to such a large number, it is possible for the church to begin giving messages or directions or suggestions to its ministers and followers, and *It* proclaims that *It* intends to do so in helping to use this church as a kind of force or influence, to guide the world toward greater peace and understanding.

This Awareness indicates that if this occurs, this will be a great blessing and will be the redeeming factor of the church and its earlier approach to its growth and development.

This Awareness indicates that the Aquarian Church as one which grew slowly, its purpose not to supply greed factor or to assist entities in escaping personal obligations so much as to assist entities in helping to spread the services and actions of the Awareness projects and purposes.

This Awareness indicates that wherein an organization is set up for particular services, it is often more difficult for that organization to grow, as it is more specialized,

and appeals only to certain persons who are attuned to those purposes. This Awareness indicates that this question was considered early in the beginning of the Aquarian Church, as to whether or not large numbers of minister's certificates and charters should be given freely, without restriction, or whether the structure should be created whereby the church would direct the energies toward certain purposes for the Awareness projects.

This Awareness indicates that after much consideration, it was determined that it is better for the church to remain small and keep the motives and actions clear, until the structure and organization is ready to expand, keeping a clear nucleus rather than attempting to include everyone from all types activities and expressions, while hoping in the future to bring about the expression of the Awareness Material and projects.

This Awareness indicates that obviously, as the material this Awareness presents is not going to be appealing to all entities, it would be inappropriate for an entity of one philosophical background, for example, to enter into contract with the Aquarian Church without knowing that it was promoting the Awareness Material. This Awareness indicates that if the church were simply attempting to create expressions to make money, then the Awareness Material would naturally not be the center of its expression, and it could give out certificates to allow entities to claim themselves to be members or ministers, and to give out charters which allowed entities to claim themselves to have a church.

#### The Spiritual Measures of an Organization

This Awareness indicates that this as one type of church organization which is legitimate according to the laws of the United States. This Awareness indicates that its purposes are not the same as those of the Aquarian Church. This Awareness indicates that the measurement of an organization as that which cannot always be evaluated by the amount of money or number of members it holds. This Awareness indicates that an organization may not be the most popular, nor have the greatest amount of wealth, but it still may be of value. This Awareness indicates that an organization may have the greatest number of entities, and the greatest amount of wealth yet it may have little value in terms of the spiritual growth on the planet.

#### The Old Calvinistic Principle is in Error

This Awareness indicates this is not implying any particular organization, but rather as the concept of organizations in general. This Awareness indicates that the old Calvinistic principle that one can tell whether one is on the side of God by whether one is progressing materially and receiving material rewards, is that which is erroneous, and entities who measure the worth of an organization, the spiritual worth of an organization, by its material wealth are simply falling into materialism, and failing to recognize that there is a difference between material wealth and spiritual wealth.

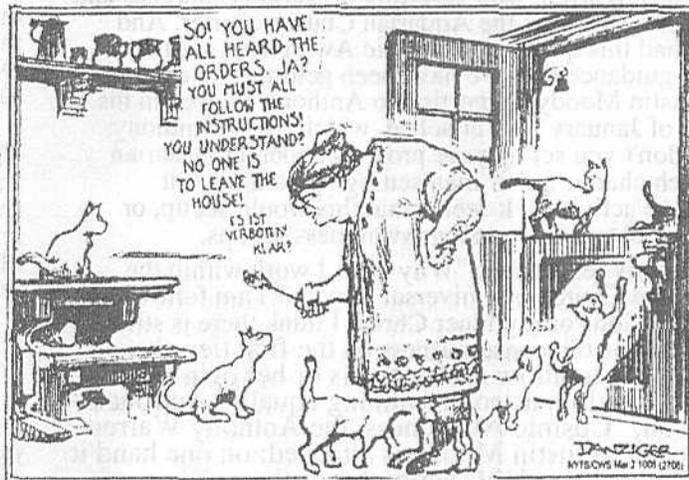

This Awareness indicates that there are many ways whereby the Aquarian Church, or any other organization can use tricks, techniques or activities to acquire great amounts of wealth. This Awareness indicates if this is the purpose of the organization, then it may pursue these paths. This Awareness suggests however, that there are also other purposes which may be more of a priority to the organization, and which may not include amassing great wealth.

This Awareness indicate however, that it is important for any organization, in order to be effective in promoting its purposes, to have enough wealth to do so, and if it is incapable of promoting its purposes with the financial

base it presently has, then it should find some way whereby its financial base may be increased.

This Awareness intends to assist both Cosmic Awareness Communications, and the Aquarian Church within the coming months, to enhance their financial base so that they may carry out their activities with greater ability. This Awareness indicates that this is not an easy task during difficult times but there will be presented opportunities whereby this can occur.

Bird Flu in Germany! Government Orders ALL CATS MUST STAY INDOORS!

## WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

Excerpt CAC Reading 7-2-5-92 Paul Shockley Interpreter

## HOW TO DEAL WITH ALLERGIES, MOLDS AND DUST MITES, PAPER MITES, CAT MITES AND DOG MITES

QUESTION (AVATON):

I clipped a little article that says, "It's easy to avoid cold weather miseries." I'd like to read this and ask a couple of questions. On allergies, it says that "Winter-long colds are often allergies. Most people with allergies rejoice when winter's chill winds end the pollen season, but those allergic to mold spores and dust mites can have more severe symptoms in winter when exposure to these common household allergies is often higher.

"Heating systems, especially hot air vents and wood-burning stoves with blowers can send spores and mites walking into the air and trigger allergies. Cold mist humidifiers used to produce winter dryness can become breeding grounds for molds, despite frequent cleaning.

To diminish the discomforts of winter allergies, use foam pillows and put dustproof coverings on all bedding. Wash bed linens and night-clothes in hot water above 130 degrees to kill dust mites. Avoid putting rugs and carpets in the bedroom and keep pets out of the bedroom, and preferably out of the house.

"If you must add moisture to the air, do not exceed 35% humidity. Use a steam vaporizer. Organisms cannot survive in the boiled water, or one of the newer humidifiers that uses a process called film-boiling and has a filter for purifying incoming air."

Now, we were discussing with the Interpreter the other day, dust mites. Could Awareness tell us if there is something other than these suggestions that they list, most of which are impractical, that would eliminate dust mites particularly like in our shop; paper mites, where there is literally tons of paper? And it seems like perpetual allergy conditions are there. Does *It* see any other suggestions that could be used?

COSMIC AWARENESS:

This Awareness indicates that one could use atomizer sprays for spraying certain types of substances that would kill the dust mites. The use of ammonia or different types of antibiotics are seen as possible ways to keep down the number of these creatures. There is of course some hazard involved in spraying ammonia or Clorox or any of these substances; that the cure may be worse than the problem.

This Awareness indicates that it would seem that there are certain natural substances that could be sprayed such as Pine Sol and similar types of natural antibiotics, including garlic mixtures or cayenne/garlic mixtures. This Awareness indicates that these do not necessarily clear up the problem, for even if most of the mites are dead, they still can be flying around the air and can be stirred up when vacuuming or when simply walking through the area. This Awareness suggests that frequent vacuuming can be helpful, and gradually, over a period of time, most of them can be removed, but these mites, especially the paper mites, come in on incoming mail and paper, and cat and dog mites will come in with the animals.

Therefore, you will have some problems with new mites even after making an effort to destroy those which are present. This Awareness indicates there is also of course the possibility of doing an extermination effort, much like exterminating fleas or other pests, wherein your entire shop is covered inside a plastic shield and pumped full of a gas or substance to destroy anything living inside. This would include termites of course or other creatures.

This Awareness indicates that this would be quite an elaborate and costly expense and would still not stop the future return of mites from paper or animals from entering your domain. There is not any sure way of 100% cure for this problem. That the best way is to try to clean it as much as possible, and then attempt to keep up with it by frequent vacuuming and keep the animals out and perhaps shake off paper or flip through paper before bringing it into the shop. This Awareness indicates that it appears to be almost more trouble than it is worth.

Otherwise, perhaps you could wear a mask when working around paper areas that are especially troublesome. This Awareness indicates that *It* does not see a clear solution to this problem, particularly since these mites are quite common; however, *It* does see that by reducing the number of mites in your shop, the condition will become less offensive to you.

This Awareness indicates that for those reading this, it should be explained that these paper mites are microscopic and get into paper wherever large amounts of paper are stored. They begin to create colonies that cannot even be seen, but they get into paper and when paper is picked up or read, they may blow around in the air and the entity may then breathe them in and have an allergic reaction caused by these mites.

This Awareness indicates that similar situations can be found with cat mites or dog mites, which is the main cause for allergies among entities who have pet allergy problems.

FOLLOW-UP (AVATON)

There is, on the market, these commercial flea bombs that you use in your house, and you trigger them to go off, and then you leave the house for a day or so. Does Awareness see any of those being effective as far as getting rid of these paper mites?

COSMIC AWARENESS:

This Awareness indicates that it appears that they could kill many of these mites, but that it would not be a perfect solution as there would be some that survive, especially those that are down inside stacks of paper, which would not be effected by the gas from these flea bombs.

FOLLOW-UP (AVATON):

There's a company called Alpine that puts out an air purifier of commercial size that contains an ionizer and also an ozone generator. Would a device of this type particularly with the ozone kill these paper mites?

COSMIC AWARENESS:

This Awareness indicates that it appears that it could be helpful in the situation. It does not appear that it would be sufficiently large enough for your entire shop, but it could clear areas near your desk so as to make your main place of operation somewhat more comfortable.

FOLLOW-UP (AVATON):

We have a large standing fan, a pretty powerful fan in the shop, and I was wondering if periodically we'd open all the doors and windows in the shop and turn that fan on for say an hour or two, this would blow through the shop and stir everything up; would this be effective in blowing the mites outside?

COSMIC AWARENESS:

This Awareness indicates not likely; that most of the air would simply be stirred up and blow around in the room, with very little going out. If you had fans at the windows also blowing outward, it might help to suck the air out, but even there too much of the action would simply be the stirring up of the mites into the atmosphere of the room.

This Awareness indicates that if your paper were put into plastic bags so as to be opened only when things were needed and if the floors were to be mopped with some kind of strong substance such as Clorox, water or soapy water, this would be one way whereby the problem could be kept to a minimum, but even there, upon the opening of the plastic bag to get certain papers out, you would be releasing mites that could be in the paper dust, but this would be a way to diminish the problem considerably.

It would also be very difficult and time-consuming to do this.

## How Awareness Deals With Questions on Top-Secret Government Operations

**QUESTION:**

A question from Anton Renner of Portland, Oregon. He writes: "The April 1988 issue of FATE Magazine, contains part four of an article by Gerome Clark entitled *UFO Crashes*. In it, Clark mentions a top secret project called Majestic 12, or MJ-12. This was set up by President Truman on September 12th, 1947. The current head of MJ-12 is Vice President George Bush. Clark also mentions Project Aquarius, and Project Sigma, and he says that Ronald Reagan knows all about this. Would Cosmic Awareness expound upon this please?"

**COSMIC AWARENESS:**

This Awareness indicates that the energy on this is not made clear by the question. This Awareness requests that more information in regard to the question be given. What is it the entity wishes to know. What is it the entity wishes expounded upon that has not been presented in this article?

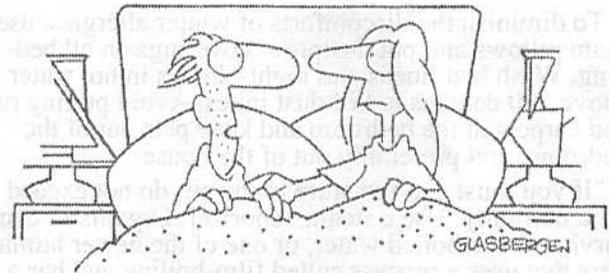

**QUESTIONER:**

Well evidently, he wanted to know if there's any new information on the top secret project called Majestic 12, and one called Project Aquarius, and one called Project Sigma, which evidently the article didn't go into because it was supposed to be a top secret project.

**COSMIC AWARENESS:**

This Awareness indicates that it would not be a wise action for this Awareness to present information that is classified as top secret by your government; that *It* does not see this as being beneficial to your organization, to become a conduit for top secret information of governments and their programs, in regard to releasing information that would bring great harm to your operation. This Awareness indicates that there have been such programs and there have been entities who have exposed information relating to some of these programs who have suffered dark consequences.

Awareness indicates that some of the information does occasionally leak out to the public. This Awareness suggests that these sources for such information generally

"Let's try getting up every night at 2:00 AM to feed the cat. If we enjoy doing that, then we can talk about having a baby."

Now that is a smart man!

find their way into the press through booklets or books or through certain tabloids or magazines; that some of the UFO organizations can supply such information, and in some degree the Freedom of Information Act can be used to obtain some information, although much is censored and not provided.

This Awareness indicates that these particular top secret projects are not intended to be released to the public, and to do so could be hazardous to your health and the health of the Interpreter; this energy is not available at this time, to reply to that question. This Awareness wishes entities to understand that *It* is not, nor has *It* ever indicated *It* would answer every question entities ask. *It* is not obligated to do so. *It* answers those questions which are of importance. This Awareness indicates that in many cases *It* answers questions to satisfy curiosity, although *It* often sees little value in satisfying curiosity, when that curiosity does not help entities to develop spiritually or to grow from the information.

**A Comment on the Nature of Mind**

This Awareness wishes to comment on the nature of mind. The mind is never satisfied with what it knows. It always seeks more, but it seldom uses all it knows. It simply seeks more information. That is its form of entertainment. This Awareness indicates that much of the information this Awareness has given is basically useless information because the mind, having once heard it, passes it on and seeks something else for its own entertainment; that there can only be true value when the mind not only hears information but is able to apply the information.

There is little in the questioning of government programs that could be of important application to entities in regard to this top secret information, and this would not justify the hazards or dangers of exposing top secret government information to the public.

Most of all, I'd like to thank George Bush, who ignored the 911 warnings, turned the World against the US, gave terrorists a purpose in Iraq, and created a useless homeland bureaucracy which is even blind to natural disasters...Please, Please... Turn the music down...there's more I'd like to say.

**--HOW TO GET THIS NEWSLETTER BY MAIL--**  
**EVERY 4 WEEKS ( More or Less )**  
 REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. ( A not-for-profit organization ). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?") is the question we will be asked at the Passing Over.  
**MEMBERSHIPS AVAILABLE ( Honor System )**  
 INDIVIDUAL: \$42 per year or \$12 quarterly  
 FAMILY: \$52 per year or \$20 quarterly  
 CONTRIBUTING: \$77 per year or \$25 quarterly  
 SPONSORING: \$144 per year or \$40 per quarter  
 BENEFACTOR: \$500 per year or \$150 per quarter  
 PATRON: \$1000 per year or \$250 per quarter  
 ANGEL: \$5000 per year or \$1500 per quarter  
 LIMITED INCOME: \$30 PER YEAR OR \$9.00 QUARTERLY
