A CHRISTMAS MESSAGE FROM COSMIC AWARENESS

Paul Shockley, Interpreter

QUESTION (AVATON):

Does Awareness have a Christmas message?

COSMIC AWARENESS:

This Awareness indicates that action which occurred in that town of Bethlehem some 2000 years ago as that which is related unto the paradox; as that which ushered into the Piscean Age the crystal consciousness, being ushered in a form which would be palatable to entities during this era. This Awareness indicates that in each age there is a messiah who does personify the qualities and nature of that age; that these messiahs are often the creation of those around as much as of that force which is within. This Awareness indicates the messiah of any age as resulting from the needs of the entities of that age and in that flux of consciousness related to and associated with that age.

This Awareness suggests that the action of the paradox, wherein the microcosmic image reflects the macrocosm, that this is the nature of that action which occurred on this plane some 2000 years ago. This Awareness indicates that this also had steps between wherein the physical microcosmic creation of that birth of Christ, the Child, as also a representation of the Christ Consciousness, the purity, the clarity which was being emanated and brought about through certain rites, rituals, teachings and associations in relationship, which resulted from the actions and was involved in the actions of the Essenes. (This Awareness wishes you to understand the word 'Essene' as related to the word "Essence", and also related unto the word "seance".) This Awareness indicates that actions of that time by those Essenes did help to manifest that consciousness whereby the crystal consciousness of the Christ could emanate itself through the child known as Jesus. This Awareness indicates that this was done also in Java with the Buddha.

In this present time there is the possibility and the opportunity for entities to bring about those children of high levels of awareness by allowing these children the environment, the space, the vibratory situations, the faith and the proper social situations whereby the Christ Consciousness may manifest and develop without being driven out by excessive distortions, perversions and frustrations.

This Awareness suggests in the coming years there shall be many, many children who shall be likened unto the Holy Child. That the movement in this direction begins within the individual, wherein the child within, the Holy Being within each and every one of you which needs its nourishment and needs certain attention, does begin to grow and manifest and give you its blessing; and does begin to bring your life into order whereby you, yourself, may emanate the Christ Consciousness from within.

This Awareness indicates that Christmas begins at home within your own psyche, your own awareness, and does move outward to manifest its radiance into the world about. This Awareness indicates that the spirit of Christmas expresses the *Law of Love*, and the *Law of Gratitude* expresses the action of generosity and affection, and allows entities to cast their bread upon the waters without knowing where, how, whence, or if it shall return to them. This is the only true gift.

The Spirit of Christmas allows wise entities that opportunity to present their presents of gold, frankincense and myrrh to the Christ Consciousness within each other.

The Spirit of Christmas allows each entity the opportunity to graciously receive such gifts from others, even as the Christchild, (before his recognition as the Christ by the masses), received those gifts from the wisemen who recognized the Christ that lived behind the unlikely situation of the lowly stable, the manger, the camel and sheep, and the tiny babe in arms.

The Spirit of Christmas recognizes the Christchild growing behind each and every unlikely scene, each and every unlikely face and situation, and those who are wise will bring gifts to nurture and devotion to encourage the growth and development of that Christchild within each face, each scene, each situation.

The Spirit of Christmas is a dedication and devotion in mass to the Christ within yourself and others.

This Awareness suggests you keep this Holiday sacred and Holy and that you keep yourself sacred and Holy, and that you make each day a Holyday.

This Awareness indicates *The Law of Gratitude* is that sense of satisfaction where energy which has been given receives a certain reward. Energy that is given moves out on that curved and unequal line and when extended far enough can only return to its source bearing gifts.

This Awareness indicates *The Law of Love* is that Law which places the welfare and the concern and the feelings of others above self. *The Law of Love* is that close affinity with all forces that you associate with as good. *The Law of Love* is that force which denies the existence of evil in the world, that Resists Not. For love follows the course of least resistance.

This Awareness suggests the greatest gift that any entity can give to another is that portion of themselves which is given with love and which has no strings attached and no expectations. This Awareness suggests that in giving yourself, the spirit of Christ moves in communion between you and the other.

THE COSMIC TRIGGER EVENT

(Did It Really Occur or Was it Just a Hoax?)

Concerning the Cosmic Trigger of Oct 17; reclaiming the planet; defeating the dark cabal; speeding up evolution, the Quickening...etc)

Ed's Note: last October an anonymous and mysterious email message flooded the Internet around the world. It basically said: "A Cosmic Trigger Event will occur on the 17th of October 2006. This is the beginning, one of many trigger events to come between now and 2013. An ultraviolet (UV) pulse beam radiating from higher dimensions in Universe 2 will cross paths with Earth on this day. Earth will remain approximately within this UV beam for 17 hours of our time. The beam resonates with the heart chakra, it is radiant fluorescent in nature, blue/magenta in color and although it resonates in this frequency band, it is above the color frequency spectrum of our universe which Earth articulates in. However, due to the nature of your soul and soul groups it will have an effect.

The effect is every thought and emotion will be amplified intensely one million-fold; all will be amplified one million times and more. Every thought, every emotion, every intent, every will, no matter if it is good, bad, ill, positive, negative, will be amplified one million times in strength. What does this mean?

Since all matter manifest is due to your thoughts, i.e. what you focus on, this beam will accelerate these thoughts and solidify them at an accelerated rate making them manifest a million times faster than they normally would. For those that do not comprehend: Your thoughts, what you focus on create your reality. If you are focused on thoughts which are negative to our liking they can manifest into your reality almost instantly.

Then again this UV beam can be a gift if you choose it to be. Your thoughts can be of any nature of your choosing, but remember whatever you focus on will be made manifest in a relatively faster than anticipated time frame. To some the occurrences may almost be bordering on the miracle.

All that is asked is positive thoughts of love, prosperity, healing, wealth, kindness, gratitude be focused on. This UV beam comes into full effect for 17 hours on the 17th of October 2006, no matter what time zone you are in. You do not need to be in a meditative state throughout this time, though that would be beneficial. Perhaps at this time if you can find a peaceful spot or location to focus. The optimum is out in the vicinity of grounded nature, likened to that of a large tree or next to the ocean waves. Focus on whatever you desire. What is required for the benefit of Earth and Humanity is positive thoughts of loving nature. We call this UV beam event *8 818 Gateway*.

This is your opportunity to take back what is rightfully yours, i.e. Peace and Prosperity for all Earth and Mankind."

(A Count of 12 is given and the *Law of Love* is given)

COSMIC AWARENESS:

This Awareness is available and requests the energizer to send the Interpreter a little more energy, as he is going deeper unto the state of consciousness that will allow the strongest channeling of this Awareness...

This Awareness is ready to proceed at this time, and asks that the question that was discussed earlier be given to this Awareness at this time?

QUESTION (SHERRY):

What are your thoughts on the events of yesterday; the Cosmic Trigger ones?

COSMIC AWARENESS:

This Awareness asks for a little bit more clarity, in that the tape is to be paused for a moment.

SHERRY:

Awareness, will you please comment on the events of yesterday known as the Cosmic Trigger, and thoughts of the events. Did the event actually happen or was it just a hoax as some claimed?

COSMIC AWARENESS:

This Awareness does wish to talk about the event that was sent out on e-mails across the world; the event that was known as the Cosmic Trigger Event, wherein an ultraviolet ray was to supposed to have bathed the earth in energies that would cause the quickening of the power to manifest. The ultraviolet energy of this ray is somehow tied into the Mayan calendar and the quickening of the energies of the Mayan calendar, of the unfolding of the Mayan calendar. As mankind is moving towards the completion of the Mayan calendar, the space of time that it takes to manifest the individual's thought would quicken and reach a place where ultimately, instant manifestation is possible.

It was put out that a ray was to hit this planet on October 17th at 10:17, that would speed up that process; that would make available an energy that quickens the response time to manifest one million fold. In other words, it was given that this ray would cause a quickening to occur in the time it took to manifest the thought into reality, and therefore it was recommended that individuals be very careful and diligent in their thought process; to be aware of their thought process, especially in what they were putting out; especially in terms of putting out negative thoughts and negative energies.

It was recommended instead that entities concentrate on positive thoughts, positive energies, and understand that thought will be expressed into form and that the energies that were catalyzed by this cosmic ray would trigger that quickening that would assist in this movement forward as is put forth in the Mayan calendar's predictions; that has been predicted as that which is the Quickening, as we move to that place where mankind's consciousness is released from the limitations of beliefs and attitudes that have been inflicted upon it through the countless eons of time since the beginning of the Mayan calendar.

Mankind is Indeed At the End Times

It is known that mankind is in the last glyph of the Mayan calendar, and that being so, we are indeed in the End Times. Mankind is indeed at the End Times. The event known as the Cosmic Trigger event was an auspicious one, an important one, even if no such ray actually occurred. There were others who put out that the cosmic ultraviolet ray was indeed a hoax, and that there would be no such energy, no such availability to promote the events of the Mayan calendar, and that this was put out deliberately.

This Awareness wishes to indicate at this time that there was indeed an event on October 17th that was a Cosmic Trigger to the quickening of the thought process of mankind to manifest on individual levels and on a group or collective level; to quicken the process, to quicken the time of manifestation. This Awareness wishes all to understand that it really does not matter if

there was an ultraviolet ray that bathed the planet at that time, for what occurred was equally significant, and that was the coming together of the many with the intent of holding as positive a mind space as possible on the day, of being aware of their thoughts, of guarding against extreme negativity, to prevent the energizing of negative thoughts and negative beliefs, while at the other end of the spectrum, promoting more positive belief, both in terms of personal expectations and desires in one's life, as well as a more positive mind-set to the national, regional and global situations that individuals found themselves in.

It was this level of heightened awareness around the thought process that was the true Cosmic Trigger, not whether or not an ultraviolet ray descended upon the earth plane for 17 hours and promoted this energizing to the degree that was expressed one million fold. It was the energizing and the coming together of the millions of people who could hold such a possibility that was of true importance, true significance. This occurred whether or not an ultraviolet ray did infuse this planet at that time.

This Awareness however does wish to state that such a ray *did indeed occur*; that such an energy pulse did indeed imbue this planet with this energy that allows for a quickening of the thought process, of the manifestation process. Such a ray indeed did occur, and that there will indeed be other Cosmic Trigger events in the near future and over the next few years as the cosmic Mayan calendar plays itself out, as mankind comes to that jumping off point, to that point of division to the rainbow bridge, where the two planet Earths will separate and there will be the one planet that holds the highest possible vibrational energies of a new dawn and a new beginning, while the other stays in the heavy oppressive third dimensional energies, going deeper into the density of the third dimension and losing the spiritual light altogether, for a space of time.

Be Very Clear About the Kind of World You Wish to Create

It is indeed a time for all individuals to be very clear of what they wish to create in their lives and in their world, and to be very clear about what kind of world they wish to create. With the energies that are being made available, with the planet moving through certain portals of energy, that the different cosmic rays will indeed occur numerous times as the planet is shifting its vibration to a point where that splitting can occur, where that division can happen, where the two planets do indeed merge and move into different vibration directions.

Yesterday's energies were indeed real and significant ones, and those who became aware will see this manifesting more and more in their lives, become more and more focused on positive manifestation of creating in their lives that which they wish to see and experience and be part of, while those who did not create on that level of awareness, those who subjected themselves to their negativity, will indeed continue to experience that and that too will increase as they are being pulled in a stronger opposite direction.

The point of calling the blue ray a hoax was an action of disinformation, an action of shutting the gate after the horse had already bolted from the stable. This information of the Cosmic Trigger Ray Event was information that those who are in charge of the global world management team; the Dark Forces, the Dark Cabal, did not wish humanity to know at this time, but this information will be released, for such is the intent and design of spirit at this time to help many awaken to the truth; to make many understand that a time has come and is coming for the truth to be put out there, for the

truth to free those who are ready to be free. As the saying goes: "The truth shall set you free!"

Damage Control By the Dark Cabal

This dark cabal has at its intent to keep those ignorant whom they wish to continue to control and to manipulate. The point of this is that if too many awaken, then those who hold this power and use humanity for their own purpose, would be defeated, and lose their power over those individuals, the masses who they need desperately to fuel their lies with, to feed off of, and therefore, when the information went out of this event, this cabal needed to go into that which would be known as "damage control," of somehow defusing the event so that even if people heard of this Cosmic Trigger ray of ultraviolet light, it would not be seen as credible. Having been labeled as a hoax, it would not have been taken seriously.

Indeed, many who did receive that message did not participate in the day, did not open themselves up to the possibilities of taking on board the energies and the potentials that were possible yesterday. This Awareness wishes to say that rather than regret, if you did not participate, your lack of participation; the failed opportunity being capitalized on, that instead, one understand that more such events are coming, that more possibilities are available ahead to step into the energies that are starting more and more to exhibit themselves. More portals will be passed through, more cosmic triggering rays will imbue the earth and inspire those to understand who they are and what they are, and what they are capable of.

This Awareness wishes to take this opportunity to express to those who may have missed the chance yesterday, to not worry about this, to simply be aware that this was an act of deception by those in charge, an act of disinformation to mislead many who might have participated so that the powers stay in the balance of the negative, in the balance of the dark, in the balance of the misinformed and ignorant, so that the dark cabal can carry on controlling the energies of this planet, but enough entities already saw and see through it, and did therefore partake in the events yesterday, did indeed join their energies to the unfolding, did open up to receive the power of the day and the power of the energies.

Awareness Asks We All Participate in Future Cosmic Triggers

In one way, this Awareness wishes to state that this was an act of mind, an act of mindfulness, of being opened to the possibilities of redefining oneself and what is possible in one's life; an act of redefining what is possible in one's world and in one's environment. There will be future opportunities made available and that hearing about those opportunities, this Awareness does suggest that participation, either personally or in groups would be recommended, so that one can always take advantage of the mass energies that are being released at that time; the mass possibility of changing the world, and of changing one's life, because many are holding it to be so. Many are holding it to be possible.

"When Two Are Gathered In My Name...."

The saying "Where two are gathered in my name, there be I!" does indeed hold true in this situation. It is just that there are more than two, there are millions of people who have that thought, who are held together by a common denominator; that being the possibility of change, the power being available to make change, to bring change forward. This Awareness does indeed support the Cosmic Triggers that are there and it is part of the energies of this Awareness at this time, and does indeed encourage that the individuals who hear this

message be open to future Cosmic Trigger events and take advantage of them.

The agencies that try to cause the disinformation were truly frightened about too many individuals starting to get the message, starting to get the secret, and as this Awareness has already stated, had to go into damage control so that not everyone would partake in the opportunities. But this is all right. This is simply their efforts to try to hold back that which is inevitable. The tide is shifting and it is important to understand that as long as one holds a positive mind set, is aware of events such as Cosmic Triggers, and even more importantly, the individual's own strength and powers, then the dark agencies will not suppress or hold back that which is inevitable, that which is ordained, that which is totally held as a possible scenario for the future.

It is important for the individual to choose the future world they wish to reside on, the future reality they wish to incorporate into the fabric of their being, to create as their reality that matters the most. This day that was known as the Cosmic Trigger event, the ultraviolet blue ray was indeed an actual event that did occur, and this Awareness thanks the many, the millions who did participate in this event. It does wish to acknowledge that a profound and powerful shift has occurred. Whether the timing sped up a million fold, or simply sped up a degree, there has indeed been a speeding up, and that those who are aware will understand this and be even more aware of the effect of yesterday, of the day of the Cosmic Trigger, the day that changed so much.

This Awareness is complete at this time in *Its* review of that event known as the Cosmic Trigger event and wishes to conclude at this time.

The Law of Gratitude is given (A count of 12 is given)

"What?! Oh, that's just an expression. Of COURSE you can take it with you!"

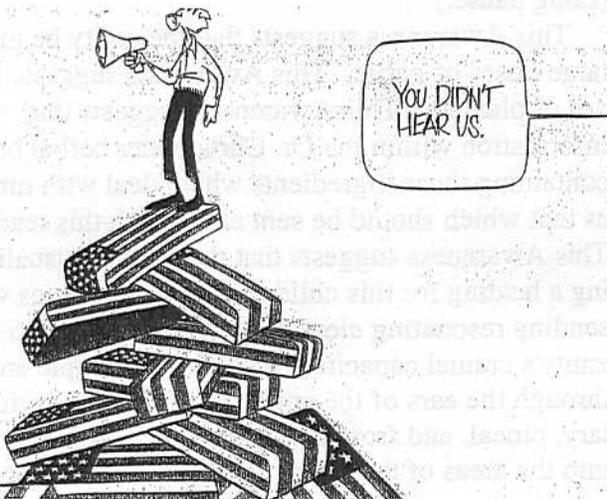

Health Readings: Paul Shockley Interpreter

BRAIN, TUMOR (CHILD)
(Two Readings on How to Heal Tumors)

Q: This is Wilma Baughman requesting a healing for a young friend, Indra Deerig, who is four and a half years old. About a month ago the parents were told he has an inoperable tumor of the brain, and is given about one year to live. He is being given a series of five cobalt treatments and has had three at this time.

Does Awareness have an opening message for the above situation?

CA: This Awareness indicates the entity can be helped. This Awareness suggests that both yourself, Mary Sipka, and parents and grandparents can be of much assistance in healing this entity. This Awareness suggests that the action of healing is one wherein one can give that healing agent to the cells and tissues which need healing, or one can send healing energy to the consciousness that resides within those cells and tissues. This Awareness suggests that the medical professions deal mostly with the action of finding those agents that can heal the tissues themselves, thus dealing with the material portions of the body. This Awareness suggests that the spiritual healing arts deals with sending that kind of energy to the consciousness which resides within the cells and tissues that need to be healed.

© 2006 JOURNAL OF THE FUTURE / PART BY UNIVERSAL PRESS SYDNEY

This Awareness suggests that you and Mary Sipka, the parents and grandparents, can send healing energy to those cells, to the consciousness within those cells. This Awareness suggests that wherein you send energy of confirmation that the entity has one year or less to live, that this kind of energy simply adds to the problem and verifies the prognosis. This Awareness suggests that wherein you send energy to the consciousness of those cells and those tissues that it is time for a healing, that this illness has gone on long enough and now is the time for this to come into balance to clear out and to become whole, clean, and light again. This Awareness suggests that you practice the sacramental healing, the action of visualizing clear light coming into that area of darkness and illness, wherein this clear and white light cooling those cells, comes in with healing energy to the atoms and indeed begins to make the proper alignment necessary to heal the atomic levels, the molecular levels, and the cellular levels of the tissues.

This Awareness suggests you visualize the tumor becoming smaller, smaller, smaller, and smaller, that this be done in a series of twelve sacramental healings wherein as many as possible come together in an imaging action around this child. This Awareness suggests that wherein this is not possible, that you do it alone or with any other who will participate with you and send that energy to the child doing the action through levels of imagination.

This Awareness indicates that all in the universe is composed of light particles, there is no such thing as matter in itself, for matter itself is but light particles condensed down into an atomic vibratory rate. This Awareness indicates that all light is consciousness, that therefore all consciousness and all matter are the same. This Awareness suggests that you then can send this kind of consciousness to these particles, for when you send energy directed to a certain source, indeed that energy does move, for you are part of the universal consciousness. This Awareness suggests that the entity is also part of the universal consciousness; from this level it is clear to see that all entities contact each other consciously and can influence each other's well-being.

This Awareness indicates this is why black magic and white magic do have their effects. This Awareness suggests that you can send energy from the brain to the finger and cause a healing. This Awareness suggests that wherein the head is cut off,

the finger will not heal on its own. This Awareness suggests that likewise, an entity can send energy from one portion of consciousness to another portion and heal that entity which receives that energy. This Awareness suggests that wherein a cell within your own body which is conscious of that which is occurring, sends forth its energy to another cell and creates a healing action, this is accepted as perfectly natural by yourself in relation to your body; that you can through an electrical impulse in your nervous and brain system, send energy that moves your finger. This Awareness suggests this is no more mysterious and no less natural than the action of sending energy to heal a child. This Awareness suggests that you concentrate on this kind of service toward this child.

This Awareness indicates that through this Interpreter, this Awareness now begins to send light energy to this child and asks that others participate in this same action according to their ability and inclination and understanding. This Awareness suggests this be done particularly during these times wherein entities can gather together for this purpose, placing all else aside, and during those times close to sleep wherein entities are of a subjective level prior to falling asleep and after awakening from sleep, wherein entities are in an emotional state, whether this be of a positive or negative nature.

This Awareness suggests that in emotional levels or near sleep time, entities are much more subjective, and the subjective energies when sent through consciousness are more powerful than energies that are of an objective nature. This Awareness suggests then that you send the sharp clear images of healing during those subjective periods. This Awareness suggests there shall now be a pause while this Awareness sends energy to this entity's situation. (Long pause.)

This Awareness suggests that the entity be given large doses of garlic. This Awareness suggests the use of plantain. This Awareness suggests that information within the Dr. Christopher herbal book containing those ingredients which deal with tumor, as that which should be sent along with this reading. This Awareness suggests that the entities visualizing a healing for this child concern themselves with sending resonating electromagnetic energy into the entity's cranial capacitors and into the temple and in through the ears of the entity, in through the pituitary, pineal, and from there, sending that energy into the areas of the brain. This Awareness sug-

gests that you visualize this white resonating electromagnetic energy flooding into the cells of the brain, clearing and cleansing the tissues and dissolving that dark area of the tumor.

This Awareness suggests that this is not that which needs to create fear and needs to cause great concern, but that this does need great attention as the healing takes place. This Awareness suggests that you not become discouraged or lax in your following through on these images and on these healings. This Awareness suggests that you may continue the resonating electromagnetic energy visualizations for as long as is necessary to bring about the healing.

This Awareness suggests there is one advantage to the situations wherein doctors give up hope and state that there is no longer any chance for the entity's survival. This Awareness indicates that this advantage is in the effect it has on those who are capable of healing with their consciousness. This Awareness indicates that wherein there is no more hope in medical fields and in the medical systems, then entities can turn to spiritual healing without feeling guilty or without feeling that they are lax in their activities. This Awareness indicates that they can put their entire soul and being and all of their energies into that kind of spiritual healing, into the visualization process, and they can put their faith in that action because there is no other action which will hold their faith, which they can put their faith into, as the other actions have given up all hope.

This Awareness suggests that this is an advantage in this work which you are to do, for you now have within yourself the ability to heal this entity, and you have no distractions from the medical system in doing so. This Awareness suggests that you give it all you have until the entity is healed. That this needs not take a long time; this is not an unusual case, this is not the only case, this is often called miracle when it is accomplished, but there are thousands of cases where entities heal themselves through visualization, where entities have healed others through visualization, and it is only in recent times that entities have become conditioned to believe that there is no other way of healing except by medical drugs and technology. This Awareness suggests that now is the time to move back to natural healing conditions for this entity and particularly in this case. This Awareness suggests you have no other alternative.

This Awareness suggests that you send your energies to this entity, visualizing healing until you

are satisfied within your own feeling level that the entity is clear and the tumor is dissolving. This Awareness suggests that when you feel satisfied and have eliminated your own anxiety and fear, that you have completed that particular session of a healing visualization. This Awareness suggests that you then repeat this the next time you begin to feel the anxiety or when anyone else feels an anxiety and needs to visualize in order to clear up that feeling. This Awareness suggests you not become apathetic to this entity's needs, not assume that one visualization or even ten visualizations shall clear the slate and heal the entity, but that you monitor this using the medical systems abilities to check this when you feel it is appropriate to check.

This Awareness suggests that after you have worked on this tumor, dissolving this tumor, watching the tumor disappear, seeing light enter into the child's head clearing these areas, healing this area - after you have done this for some time and feel confident that there is a change within the system and the situation is improving, then you may return to your doctor and have another check to see just how well you have done. This Awareness suggests that if this check proves beneficial, then you shall be encouraged to continue your work. If this check does not show any change, then it means you must work harder. This Awareness suggests that the entity has a very good chance of recovery because of the great concern of the many who can assist.

This Awareness indicates that in reference to karmic causes, that this as related unto a previous lifetime wherein the entity was shot through the head, this in the Vietnam war. This Awareness suggests that this left a wound which did not kill the entity instantaneously, but left a great scar tissue on the brain and allowed the entity to vegetate for some time before dying. This Awareness indicates this as carried over from that action.

This Awareness suggests any further questions may be asked.

Q: Does Awareness have a closing message?

CA: This Awareness suggests that this entity can recover; it is a question of how well entities can image the recovery, send clear energy to the entity, visualizing a healing. This Awareness suggests you visualize this entity recovering and going through his life talking about the time when he was given up for dead, and how through imagery, entities saved

his life and therefore he now is able to teach healing methods by imaging energy to those ill and sick parts of the body. This Awareness suggests you visualize this entity becoming well, growing into adulthood, and becoming a healer using the imagery techniques that healed him. This Awareness suggests that in visualizing in this manner, it becomes more simple for you to visualize the tumor disappearing and the entity becoming whole, healthy, vital, living, and living, and living.

BRAIN, Tumor, Child

(Note: Mary Farrell's voice was barely audible in this follow-up reading to F801014PC, so the content of the questions is presented as best as could be understood. The tape sound quality was very poor.)

Q: The doctors found a brain tumor deep in Leslie's brain. She is paralyzed and on a breathing machine at a hospital on Los Angeles. They removed an inch and a half of the tumor and Leslie can see and hear better now. The doctors say the radiation therapy and chemotherapy will only prolong her stay. They can't remove all of the tumor because it went down into the hypothalamus, which controls the temperature of the body. We think her hypothalamus has already been attacked by the tumor, because she needs many blankets to cover herself with in order to be comfortable. What actually was the cause of her ascending paralysis?

CA: This Awareness indicates that this appears to have been a combination of several factors. This Awareness indicates this also relates to her astrological chart at the time. This Awareness indicates a good astrologer could locate the astrological factors involved. This Awareness indicates the other factors also contributing to certain effects on the nerves and the muscles. This Awareness indicates that there appears to be some effects from the hormones involved in this also.

Q: The doctors took the pieces from the left part of the brain. How extensive is it? Does it go down to the spine? A psychic friend of one of the nurses said the cause of the trouble was a swelling in the base of the brain near the neck. Just where is the tumor located?

CA: This Awareness indicates this appears to move approximately one to one and a half inches. This Awareness indicates that the tumor appears to be narrow, but long in shape. This Awareness indicates that it appears to be growing downward at a more rapid rate than in its growth of width. This Awareness indicates that this in reference to its previous movements. This Awareness suggests the other questions be asked.

Q: What treatment would be best for Leslie? She wants extra vitamin C (1000 mg. per day). They have her on tube feeding, but she gets nauseous. When she can drink I give her the Bach remedy, but she is unable to assimilate the other vitamins, etc., you mentioned in last reading. We also rub her neck and head, etc.,....

CA: This Awareness indicates that homeopathic treatment for tumors as that which can be beneficial in helping to inhibit and heal the condition. This Awareness suggests that a good homeopathic doctor be consulted. This Awareness indicates there is a homeopathic hospital in the area of San Francisco which can supply information in regards to this. This Awareness indicates that the homeopathic cell salt, Kali Mur., which is available in most health food stores, as that which can be beneficial. This Awareness indicates however, this as not as beneficial as other homeopathic medicines which would be supplied with a regular treatment from the homeopathic doctor. This Awareness suggests that such a doctor may be consulted and perhaps to be brought in to assist the entity, particularly when the regular medical profession has given up any hope in saving the entity's life. This Awareness indicates however, this prolonged waiting as that which is hazardous.

This Awareness indicates the situation is such that the orthodox medical system is unable to treat the entity, yet so many have such faith in the orthodox system that when these entities give up, others also give up. This Awareness indicates that this creates difficulties, in that the prolonged waiting creates greater chance of the situation becoming incurable, even with the homeopathic treatments. This Awareness indicates that it appears there is much less opportunity for this entity than the previous attunement through this entity. This Awareness suggests however, that a good homeopathic doctor could be helpful and possibly, could present into this entity's system, the proper

homeopathic treatment which would begin shrinking the tumor.

Q: What got the tumor started? The water-skiing accident a year before, being put in the hospital? The point of an iron falling on the top of her head when she was two or three years old? Too much pressure on her job in school? Not getting along with her schoolmates? She broke her ear-drum in the water-skiing accident and got dirty lake water in it.

CA: This Awareness indicates that it appears to have begun with a combination of poor dietary... this Awareness indicates this appears to be related to certain substances in the bloodstream and tissues. This Awareness indicates that this appears to be associated with a lack of certain substances over a long period of time, from childhood, relating to the proper balance of vitamins, minerals, and the effects of such on the entity's general vitality level and immunity system, the ability to ward off and remove substances from the bloodstream through the normal channels. This Awareness indicates that over extended time, the general balance of the system was such that certain substances became depleted. This Awareness indicates it appears that the water-skiing incident was such as that it created a certain strain in the area where the tumor presently is. This Awareness indicates this strain as that which... this Awareness indicates that this appears to be associated in part with the entering of certain foreign substances, this perhaps, but not clearly seen, in terms of that mentioned, of the dirty water in the ear.

This Awareness indicates that some substance entered into the blood stream to certain tissues, and this substance began irritating the tissues and drawing forth certain collection of matter which was not properly eliminated, and which began growing as a tumor associated with that foreign substance. This Awareness indicates that this cause would not have occurred, except that the general condition of the entity's blood and nutritional balance was out of harmony. This Awareness indicates that it appears to also have been associated with certain psychological factors which occurred at approximately the same time; this appears to have contributed somewhat to the magnetic field of the general psyche, or that which may be referred to as the ethereal and astral body of the entity.

This Awareness indicates that the situation is such that the entity's chances of survival are unclear, but this Awareness indicates that It sees greater possibility through the use of homeopathic substances and herbal substances which would, through proper ingestion, begin decreasing the size of the tumor, the dissolving of the tumor as that which can be assisted by homeopathic medicine. This Awareness suggests also that certain herbal medicines, these available through the Dr. Christopher book, these also can be considered by the homeopathic doctor or others. This Awareness indicates that the entity Joseph, of Atlantis Rising, may also be of some assistance in providing further information regarding herbal combinations which may assist in the remission of this tumor.

This Awareness indicates that *It* will send healing energies to this entity, this to be used according to *Its* own purposes. This Awareness indicates that these energies to be presented to the superconscious, or Higher Self of this entity, to allow this Higher Self to use the energies according to that which is best for the entity's soul growth and spiritual growth; that this may be used for burning away that tumor, or for catapulting the entity through any areas of darkness, should the entity's destiny be to shed this body and move on. This Awareness indicates that the determination of what occurs with this entity lies in the control of the superconscious, of the Higher Self, the Christ Consciousness, which directly works with this entity. This Awareness indicates that *It* presents this energy at this time for purposes of benefit, but that *It* does not dictate the use of these energies through this Interpreter, but rather allows the Christ Consciousness, or Superconsciousness of the entity to determine its use. (Pause for healing.)

This Awareness indicates that on the etheric level, the tumor has been removed. This Awareness indicates that given enough time, this could change in the physical level. This Awareness indicates however, that it does still need time and physical treatment. This Awareness indicates that entities in prayers and meditations to their own Higher Self, to the Christ Light within themselves, to the Father in Heaven, to the Kingdom of Heaven which is within, in meditating and giving prayers and requests, can also assist in energizing a healing for this entity. This Awareness indicates that the energies given in these spiritual forces may be returned for purposes to assist in such healing. This Awareness suggests that wherein enough energy is given, miracles can

occur, and such is available for this situation if the energies can be given strong enough and soon enough.

This Awareness indicates that some energies in this direction have been given through this trance, but that it appears there is a need for as much energy as is possible in this situation. This Awareness indicates that daily meditations, visualizing the tumor becoming smaller, a clear White Healing Light descending into the head of this entity, lighting up and burning away the dross of this tumor, this is that which can be of much benefit. This Awareness indicates that daily visualizations of healing Light descending upon this person, along with supplication to the Divine, as that which can be as beneficial for such miracle as is needed. This Awareness suggests also the physical actions previously discussed.

Q: In grade school Leslie would come home with a stomach ache or a little scratch, or get very angry if we didn't come to watch her practice bicycle racing. She certainly is getting lots of attention now from doctors, friends, etc., though she says she would like to just go on a trip by herself. All day almost every 5 minutes someone comes to see her. If the mind controls the body's health, Awareness, could this be a psychosomatic problem of Leslie's, an attention-getting device gone out of control?

CA: This Awareness indicates that it appears that this is not the case, even though there may be some tendencies in this direction, whereby the significance as that which does create an attention-getting device. This Awareness indicates however, that it does not appear to have been triggered by a desire for attention. This Awareness indicates however, in another frame of reference, all behavior patterns contribute to future experiences; therefore, some contribution to this experience may be traced back in time to some degree, to that portion of the entity's attitude. This Awareness indicates however, this particular attitude appears to be of minimal contribution to the present situation.

Q: Does Awareness have any further messages for Leslie Violet?

CA: This Awareness indicates that *It* does care deeply for this entity's well-being, for the soul growth and spiritual growth of this entity. This Awareness indicates that there are certain factors

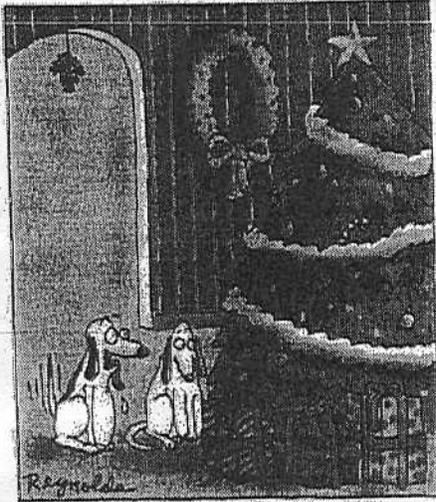

involved in this situation which are known to her own inner Divinity. This Awareness indicates that the entity does need the love and attention which has been given to her, and the entity shall continue being, whether in this particular body, or in another form.

This Awareness indicates that there are many entities on the physical plane who must pass through the door of physical death, yet the passageway as that which can be approached with different attitudes of dread, or terror, or of understanding and peace. This Awareness indicates that as time passes, each entity may experience these movements at one time or another, and discover the pathway through this door not to be so dreadful as one may imagine. This Awareness indicates that the pathway into this plane through the birth action, as that which is equally frightening to an entity, and may be of dreadful nature, or of peaceful circumstance, depending on the attitudes and circumstances surrounding the situation.

This Awareness indicates that this entity as one who has a deep sense of being and recognizes the oneness of all living things, and in her deeper levels, intuitively realizes her eternal being. This Awareness indicates the entity not one who lives in terror and fear of death, but as one who seeks to understand the depths of her being, and as one who can move from dimension to dimension, from life to life, learning, experiencing, sharing herself as she moves. This Awareness indicates that if this entity does indeed so choose, she has within her power the ability to heal herself, or to move on in her alternate direction and start anew in a different time, a different body, with other purposes which await her future.

This Awareness indicates that much of this shall be determined by that core being, her own Higher Self, when it reaches that threshold of the door, and at such time the entity will move with clear purpose and direction. 1-6_F810304P [See related reading GUILLIAN-BARR SYNDROME.]

Wisdom of Awareness...

You Were Intended to be Godlike

This Awareness indicates as the third dimension melts and the fourth dimension materializes or emerges, you also discover that the mind which you possess has the capability of manifesting in this new reality. You can manifest food. Even though the old three dimensional world may have left starving entities, you now have the ability to manifest the food you need right out of thin air, just as the yogi's of Tibet and India have been known to do for many, many ages.

This Awareness indicates that as entities reach within themselves, find the essence of their own God-like being within, they can manifest in this new reality, this new creation, to satisfy the needs of each moment. This Awareness indicates that it is important for entities to keep in mind those things that this Awareness has told you: The universe appears and disappears every four quadrillionths of a second, and because each four quadrillionths of a second is a totally new universe, you can create in that next moment those things that are necessary for your new universe to sustain life, to sustain those things you need.

This will be the great security that entities seek: You *become* the rainbow's end. You *become* the pot of gold, rather than *pursuing* the pot of gold at the end of the rainbow. You become the one who manifests the reality you seek. This Awareness indicates that as you learn to create your world with each step, as you learn to move from moment to moment creating your new reality, you will then realize you are *indeed* a multidimensional being with God-like abilities.

This Awareness indicates that many will think this is a sacrilegious statement: that humans cannot, should not, and would not rightfully ever consider themselves as God-like, but this Awareness suggests that the Ultimate Divinity, the Ultimate Creator *intended* for His or Hers or *Its* creation to become likened unto *Itself*, to have similar powers of creation.

This Awareness indicates you cannot, as a third dimensional lesser being equate yourself with the Divine Being, but as you move into such Divinity yourself, then you become One with the Creator, One with the Divine Father, and thus have similar abilities, similar empowerment.

WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The Interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

How to Spread New Age Knowledge?

QUESTION:

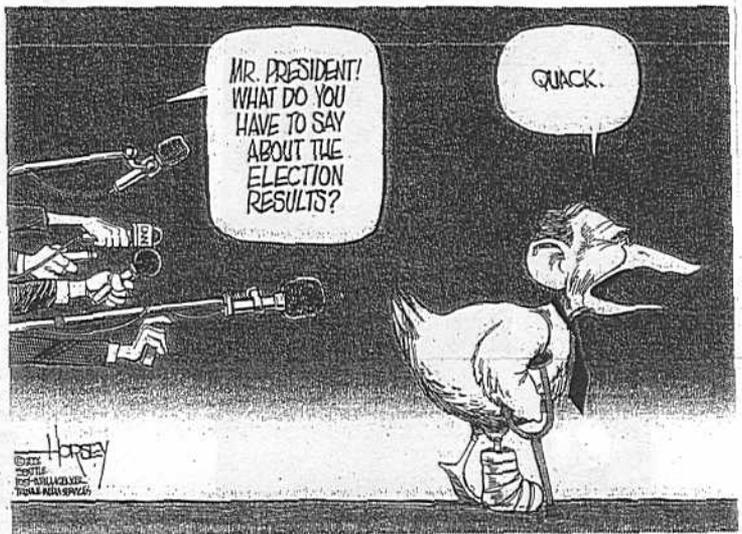

A question from Wes Elder, St. Paul, Minnesota. He writes: "I have a question, that I hope is pertinent for a future *Revelations of Awareness* issue - Question: Through the last several years, I have accumulated a large amount of knowledge pertaining to the New Age movement, its implications upon this planet's future transcendence into the New Age, information about UFOs, the Space Confederation and why they are here, and information about reincarnation and the after death transition. I want to ask Awareness this: What would Awareness feel is the best or most convenient way to spread this information to the widest area/ peoples/ groups possible? I want to devote as much time to this endeavor as I can, although I realize I could not make a living in this fashion. What is the best way to give people the knowledge so that they may open their minds to This Awareness?"

COSMIC AWARENESS:

This Awareness indicates that the information being put into booklets, under various topics, or being put out in messages on tape or in magazines, or in films. This Awareness indicates that this can also be presented in story-forms, wherein characters act out certain roles and certain plots are formed. This Awareness indicates that there are many ways whereby messages can be conveyed. This may be also conveyed through talks, through speeches, or through group studies.

This Awareness indicates that it is not so much a question of how this can be done, as it is a question of what method would you prefer, according to your own talents, abilities, inclinations and preference? This Awareness suggests that obviously there is no point in reproducing the same material as is, as you would simply be duplicating the same material. This Awareness suggests however, that you may see a value in presenting the messages through a different medium, in your own words, in your own way, not copying the exact wording, but conveying the ideas in your own words.

This Awareness indicates that you may, for example, present the ideas through comic books, or through short stories, or perhaps through discussions, wherein you teach, or have meetings, wherein entities share information. This Awareness suggests you simply determine which is most suitable for you, according to the time and energy you wish to devote to this action.

THE COSMIC AWARENESS SPIRITUAL DEVELOPMENT COURSE

Taurus: Volume 2 Lesson Number 12

QUESTION(AVATON):

Would Awareness please give lesson number twelve in the second volume of the Correspondence Course under Taurus? The twelfth lesson relating unto the concept of security and foundations in terms of those efforts of the entity to rise into new levels of reality which extend beyond that which appears to be the secure levels, and move into other areas of more nebulous nature whereby the entity finds a lifestyle that does not depend on the normal roles and levels known as security, but extends into levels of Cosmic attunement. This Awareness indicates that these aspects of security being examined shall follow the entity's life from childhood on through into mature years, and leads on beyond this physical plane.

COSMIC AWARENESS:

This Awareness indicates that the entity may move through levels seeking security to the degree that the need for security becomes so great, so intense, that the entity becomes a mattoid idiot in terms of needing and desiring security - this as one extreme. This type of security, then, can also lead into other areas as indicated in previous readings, whereby the mattoid idiot seeks to specialize in certain areas of security.

This Awareness indicates that once the entity is moved into such an extreme and is overtly secure, there may be the feeling that the entity is trapped within his own walls and his own confines and the securities which were intended to protect the entity from the outside environment. This Awareness indicates that this feeling of entrapment then may cause the entity to wish to be free from all this security, this maximum security which hangs like a ball around the leg of the entity, which stands like prison walls around the entity, whereby the entity is afraid to move out from his own security, his own secure confines, the confinements of this maximum security section. This Awareness indicates that the entity in seeking to escape from this, may move into realms of illusions, into realms of fantasies, into realms of abstract experiences, into realms of vicarious living. And the entity feeling a need to escape from the 'comfort zone' which is within the confines of the security, may feel that the confines of the security, the walls, are too great and therefore there is no physical way out, and the

entity then becomes involved in mental, emotional, or abstract and vicarious escape. The entity then can become involved in escape through drugs, through meditation, through hallucination, through fantasy, through religion, through concepts of day-dreaming, through sleeping, through fantasy relationships of various kinds, or through the action of suicide.

This Awareness indicates that this form of escapism can also include various other types of insanity to greater degree. This Awareness suggests that this can also express itself in types of physical illness, in type of behavior that deteriorates the physical reality even more and creates an even greater form of confinement for the entity.

This Awareness wishes entities to look carefully at the concept of confinement and imprisonment, the concept of rules, of regulations, and at the concept of escapism and freedom. This Awareness indicates these two are opposite sides of the same coin. That wherein entities pursue too much freedom, pursue too much escape, they automatically bring upon themselves some form of restriction, some form of confinement, and that confinement becomes a securing action which does not allow the entity the freedom to move too far.

This Awareness indicates that entities who seek too much security shall end up bringing upon themselves the need and urgency to escape from that security by moving into various forms of fantasy or whatever. This Awareness indicates the entity who seeks security in fantasy shall find himself being insecure and escaping from the fantasy security through actions that fall upon the material plane, and the entity will be forced into a grounded and materially appropriate type of security, this being an escape from the world of fantasy. This Awareness indicates this occurs for certain individuals who seek security, who first seek escape from reality, move into insanity, and then find themselves escaping from insanity back into the physical through some form of action that shakes them up, either through the action of others or through certain experiences that are forced upon them from their own insane behavior.

This Awareness indicates that the escape from one form of security creates a security in the other level; but wherein that becomes strong enough, the entity will be forced into another area, and escaping that second area shall find themselves moving again into another extreme.

This Awareness indicates the integrated entity shall find himself somewhere in between the extremes, finding freedom in the confines of whatever setting there is. This Awareness indicates the poet has said: "The mind creates the prison, or liberates from the prison." This Awareness indicates that there can be no prison except wherein you consider yourself imprisoned. For even in the smallest room, the attitude toward that room determines what concept is placed upon your being. And wherein you consider yourself free in the smallest room, then surely you are free, and that room cannot continue to hold your being.

This Awareness indicates that wherein you seek security and there are no confines to give you that security, yet you can feel secure, even on the vast ocean of life without the sight of land anywhere about - then indeed you are secure. For it is the attitude, not the environment, which creates security or insecurity, freedom or entrapment.

This Awareness indicates that there is a way whereby entities in any situation, under any circumstances, can feel freedom from the problem of security

and the need for security. This Awareness indicates this way is through the acceptance of insecurity as a way of life.

This Awareness indicates there is no security guaranteed to any entity when that entity enters into this physical plane. There is no security earned by any entity as the entity moves into this physical plane. This Awareness indicates you come into this physical plane insecure, and all pursuits for security are but an addition, an appendage to your being, and have nothing to do with the fact that you 'are.'

This Awareness indicates that wherein an entity could enter this physical plane - or at any moment, could enter that moment with the insecurity of the moment of one's existence and accept the fact that there is no such thing as absolute security, and accept the fact that there is always insecurity in every moment, in every experience - the entity then, in accepting insecurity as a way of life, can then be free of the emotional need for security. When an entity is free of the need for security, then the problem of being secure no longer exists.

This Awareness suggests you admit to yourself that you are insecure, but it doesn't matter. This Awareness indicates that this suggestion does not mean that you now must go out and walk in front of cars, or allow your bank account to be emptied, or your home to be taken from you, or any such thing. It simply means that you not concern yourself with being secure, but that you admit to yourself that you are eternally insecure and to accept that eternal insecurity so that you can turn your attention away from the problem of seeking security, and toward the actions of doing what is necessary in order to live fully.

This Awareness suggests that if it is necessary in order for you to live fully to have a bank account, to have a caution in crossing the streets, to have certain rules and regulations and walls to protect your sphere of action - then, that you have these walls and these certain forms of protection so that you can function and live properly and fulfill your role in life. But that in classifying this type of protection as security-seeking, in classifying this as trying to make yourself more secure in seeking greater personal security, this kind of classification does create within yourself a feeling of fear which stifles your creative abilities.

This Awareness suggests that wherein you can accept the reality that you are insecure, that it doesn't matter, that there is no guarantee that you will survive, that there is no absolute security in terms of your identifications that any aspect of your being can continue forever - once you accept that reality in totality, then you can turn your attention to living, you can turn your attention to expressing, and you can turn your attention away from the gathering of protective walls in order to preserve your security and instead, place up various protective walls or definitions or certain types of forces that are necessary for you in order for you to promote your purpose, promote your lifestyle, promote your need for expression, and promote your direction in this life. This Awareness indicates the actions may appear to be the same, but the attitude involved is different. And it is this change of attitude which makes the entire situation grow or diminish - grow spiritually with enthusiasm, or diminish with fear of being placed in jeopardy.

This Awareness suggests that any entity who can have a relationship with another and seeks security in the relationship, will stifle the relationship. But any entity who can have a relationship with another, accepting insecurity as part of themselves and still relating clearly,

will assist greatly in helping that relationship to grow stronger and stronger. There is a *Law of Paradox* involved here, yet this as that which must be understood in order for entities to be free from the need of security and the confines that come from the pursuit of security.

This Awareness is not suggesting that you give up material pursuits, that you give up spiritual pursuits, that you give up any form of action or pursuit other than that you give up the pursuit of security and accept instead the fact of insecurity as an eternal fact of being. And in accepting insecurity, that you continue serving your own purpose and direction with the walls, rules, clothing, material goods, spiritual concepts, or whatever is necessary to allow you to continue your action.

This Awareness suggests that there is another way whereby entities can be free. This being to look at the entire Universe as but an energy field and yourself as being a cell within that energy field. And your being a cell within that energy field, there is the possibility that you may recognize a divine mind at work, moving and signaling your body, moving and signaling to your soul and your consciousness, directing it, allowing it to move. And in this action you may acquire that which is called faith in some form of divine energy. And when you acquire this type of faith, there may be that action whereby you can gradually let go of the control of your being and turn this control over to the Divine Forces, trusting the Divine Forces to make you an instrument. This Awareness suggests this not be done hastily. That there are those who turn themselves over to what they believe to be a Divine Force only to discover that they have been used as an instrument for some negative force to commit a crime against another.

This Awareness indicates that there are those who turn themselves over to what may appear to be a spiritual force, finding instead that this spiritual force has led them into great tragedy in their own life.

This Awareness suggests that you not trust any force that calls itself spiritual. That you discover that force and learn all there is to know about that force. That you question that force; that you doubt that force. This Awareness suggests that you doubt everything this Awareness tells you. This Awareness suggests you question everything this Awareness gives you. This Awareness suggests that you probe deeply into these words, into these concepts, that you become critical, that you ask questions, that you raise questions within your own experience and consciousness. This Awareness suggests in doing this, you gradually shall come to the position of becoming aware of some form of truth, of some form of energy whereby you look and say: "I can see this clearly and can give up this particular amount of control in my life and can surrender this particular amount of control of myself to the Divine Being, yet I cannot give up any more than this at this particular time."

This Awareness suggests that as you give up that small amount of self-control, surrendering yourself to that degree unto the Divine Force, at that time you then may begin a slightly new lifestyle: giving up the control, accepting some insecurity, and gaining a little bit of faith as the Divine Force moves you in its course. This Awareness suggests that wherein there becomes any suspicion of your consciousness that the Divine Force is misleading you, that you question and back off. This Awareness suggests that you not become a blind follower of some concept, of some belief, of some platitude or line from some holy book which tells you that this is so and you are not to question this. This Awareness suggests that this kind of blindness - the

blind leading the blind - has caused many tragedies, generally to those who are around the fanatic believer.

This Awareness suggests that the self-righteous believer who believes himself to be proper and places his belief in some divine force without question, is but a fool. This Awareness suggests that the entity who steps carefully, questioningly, openly, without belief, without preconceived ideas, into a situation whereby there is that which is called discovery - this entity can grow, step by step, into levels of wisdom, and moves carefully toward the Divine Forces.

This Awareness suggests you not be hasty in any action. This Awareness indicates that wherein you move in this manner over a period of several years, you shall find that you have given up more and more control of yourself to the Divine Forces of the Universe, and that you are becoming aware of the difference between suggestions from the Divine Forces and the deceiving forces which call themselves divine, yet lead only into tragedy, violence, or despair.

This Awareness suggests that you be careful, for there are many forces who masquerade as divine forces, yet have their own intentions of personal gain in devouring your being. This Awareness suggests that you understand no truly Divine Force will allow any entity to commit violence against another.

This Awareness suggests that as you give up more and more control of yourself and turn yourself more and more over to the forces of the Divine Being, then your life becomes likened unto the instrument of God, which moves and is moved by the forces toward its purpose and direction, whereby you do that which is the Will of God, rather than your own will. Yet in the process, your will becomes the Will of God.

This Awareness suggests that you orient yourself to the Akasha, to the highest and the best, and that you not place your trust in seeking personal security, in seeking to discover how you can survive longer or better, but that you place your trust in discovering how to be more alive.

This Awareness suggests this as the completion of this twelfth lesson in the Sea of Taurus.

QUESTION(AVATON):

May we ask a question concerning the course at this time?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative.

QUESTION:

Awareness, when preparing these lessons in printed form for our members, would it be all right to drop some of the repetition of "this Awareness indicates"?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. the term "this Awareness indicates" as being likened unto a springboard whereby energies can be experienced more quickly and easily. That in many instances the term should be left in, to allow entities to understand that the information from this Awareness is but an indication and not to be considered as an absolute fact which needs no further questioning. This Awareness is but an

direction of the search which they, themselves, must carry on within their consciousness.

(The *Law of Gratitude* is given.)

HOW CAN PARENTS RESPOND TO THE YOUNGER GENERATION?

(Awareness Explains How the Gap Occurred)

QUESTION:

A question from Tom Krueger, Santa Clara, California. I'll read his statement: "There has always been what has been termed a "generation gap" between the upcoming generation and the previous generation. The younger generation has things to express which are uniquely theirs. Until recent years it has been generally harmonious in that with young people trying to develop their own understanding, they do not forsake their parents and the older generations.

"However, it appears that things have changed. Many young people have no respect or sense of attachment to parents or grandparents in these times. It is as if they are following a kind of anarchy which is unique to them. My question is: What is causing this? Is it astrological, that it is unique to this generation to do this? Have the parents of this generation caused this to happen, and how can parents and the older generations respond to the younger generation that there may be more understanding and dialogue?"

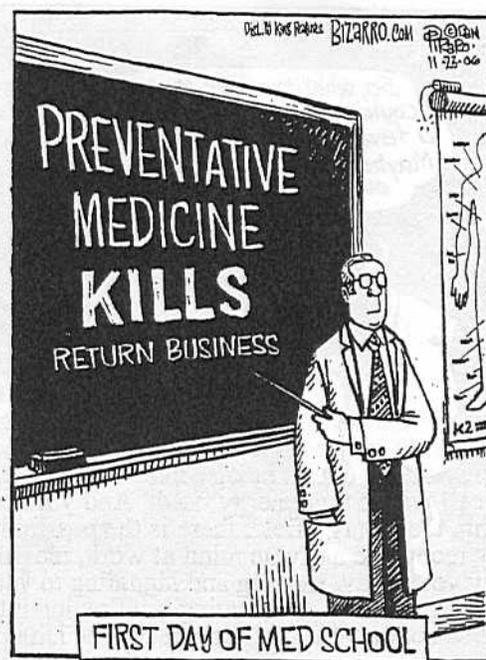

COSMIC AWARENESS:

This Awareness indicates that in the past generations, young people had role models in their parents or in society's heroes and leaders. In this present generation, the young people often find little time or little relationship with their parents; the parents being too wrapped up in trying to earn a living or gaining enough money to support the family.

In this present time it takes two entities to run a family, to support a family. In earlier times, one working entity could support a family. The mother generally stayed home and the father worked. Today, the mother and father both work, and neither parent has much time for the children, so the children turn their attention to television or to their peers, other children, and they find many of their values through these children or television heroes.

Many of these television heroes are basically shallow, meaningless, and detached and cold in relation to the viewer, and in many cases they are cold in relation to other persons in the script. Therefore, the child begins to develop relationships that have very little intimacy or warm contact. The child does not have close contact with the mother or father.

The television characters which may be warm in some cases toward their other television friend, will give them a vicarious recognition of what a warm relationship could be like, but much of the reality of a child's life is based on cool and detached relationships, particularly relationships in which the child promotes himself in order to be accepted and approved by others.

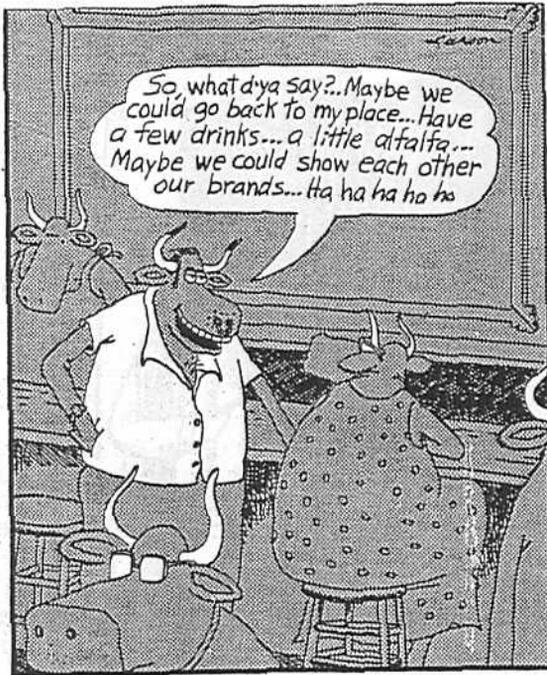

And the child learns what appears to be the way to get approval, by watching others, by watching those on television, and by watching his or her peers. If the child watches those on television, he may see the hero of the story beating someone up, or killing several villainous types, so that the child develops a sense of combativeness toward those that he does not particularly care for, and the child in developing these ways of getting through life, may develop a personality that brings some kind of praise from his peers as one who is courageous or gutsy or exciting or adventurous, so that he is encouraged toward more violence, or the child may draw attention in such a way that is hostile and condemning so that he is rejected, criticized and seen as out of favor by the peers, and in either case, the entity gets the wrong message or gets a message that does not help him to develop healthy relationships.

Depending on what kind of messages the entity gets out of all of this, will determine whether the entity becomes more antisocial or becomes a leader of antisocial people, or somehow manages to develop some worthwhile social values from all of this, but the entity is not likely to be truly clear in his relationships unless he has some kind of special guardians or role models in his life to pattern his behavior after.

This Awareness indicates that when entities can take the time to be with younger people, with children, and to give them through example, healthy values; these younger generation people will develop within themselves naturally, those higher and more meaningful social values.

It is easier and it is desirable to children to develop good healthy social values, than to develop those antisocial behavioral patterns which comes about through neglect or abuse in terms of value abusiveness, wherein entities put false and abusive values on young people.

This Awareness indicates there are more ways to abuse young people than physical or sexual abuse. There is also mental abuse and social abuse. There of course can also be spiritual abuse, and these can all have negative effects on young people.

Wisdom of Awareness...

ON LIVING THE GAME OF LIFE

This Awareness wishes entities to understand that the game of life is but a game, and it is not necessary for entities in life to play the game. Entities may simply *be*. Entities may simply recognize their divinity... their innocence until proven guilty... their intelligence until proven ignorant... their Divine Right to happiness in the future and a Divine Right to avoid being made fearful.

U.S. IMMIGRATION POLICY: DO WE HAVE A SAY ABOUT ILLEGAL IMMIGRANTS?

QUESTION:

Another question from Tom Krueger. "The United States has for many years been considered to be the "promised land" for many who would immigrate or arrive illegally in this country. Political asylum is the current catch-word. The government has in the past promoted many from South-East Asia to immigrate here, perhaps as a "result" of the Vietnam war.

"With the conditions of contention arising between many foreigners and many foreign Americans, it seems that immigration and human alien acceptance policies have created a great contention in this country. I would appreciate Awareness's discussion of the United States' acceptance policy of 'foreigners' and whether it is constructive or destructive to the integrity of this country.

"Is it merely confronting our biases against "foreigners" or is there something which is perhaps calculated to create dissension for overt or covert purposes and that all these entities are allowed to reside here? Is it appropriate for us, the born residents of this country to have a say in the immigration policy of our country?"

COSMIC AWARENESS:

This Awareness indicates that there is always in this country as is created and defined by the Constitutional Law, the opportunity for entities to lobby through the ballot, or through their Senators, or Representatives, any issue of concern, in which enough people together can bring about their voice to raise a question for Senate and House to evaluate, or for the press to make an issue of.

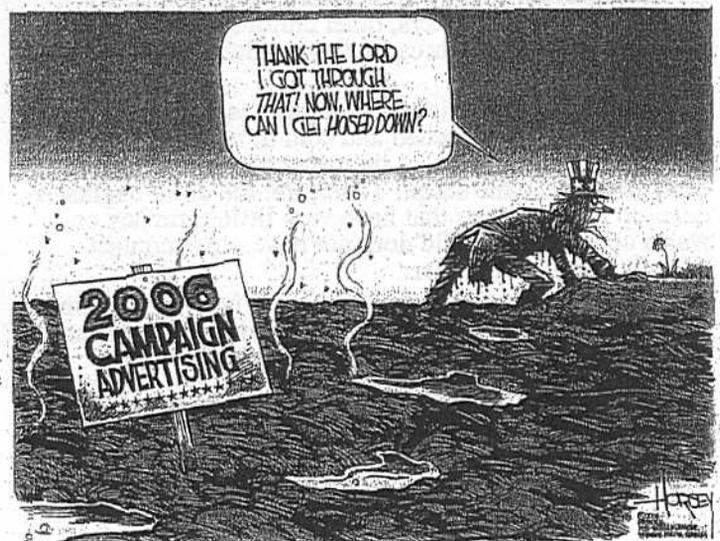

Therefore, entities ever and always, as long as this country is governed by Constitutional Law are capable of changing a situation that is seen as uneffectable. This Awareness indicates that thus, in response to your question, whether people have a right, a voice in the immigration of foreigners; indeed, you have the opportunity to voice your opinion in many different ways, either through the press or through lobbying your Congress, or your House of Representatives and you also have the right to organize to get more voices.

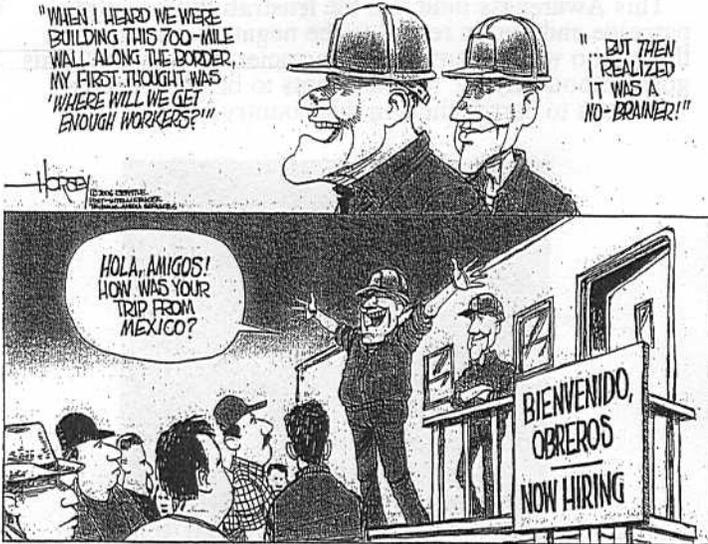

The Question of A Conspiracy Going On

This Awareness indicates that in regard to the high number of foreigners entering this country and the question of whether there is a conspiracy, this has been discussed at different times, dating back even to the Carter administration, wherein there is the opportunity for entities to be put on the spot by this potential problem, to be used as an excuse to require citizens of this country to have a national security number or card, whereby they can and must carry such identifying card for purposes of identification, so that if someone is picked up and has no such card, they are perceived to be foreigners and can be ejected from the country.

This Awareness indicates that Arizona and California have just recently introduced their version of an identity card as an excuse for keeping illegal aliens out of the country and a way of keeping illegal aliens out of the country, so that not only the Latin and Hispanic people living in the states will need the card to assure that they are not illegal aliens, but all other people in the states also will be required to carry some identifying card to show that they have citizenship.

This Awareness indicates that the entity's question leads to the concern that the illegal alien issue may be part of a conspiracy to help bring about a national identity card for all people in this country and this Awareness indicates that this is a legitimate concern. This Awareness indicates the entity also expresses concern that so many illegal aliens are allowed in the country or that so many foreigners are allowed legally to enter the country and that it takes jobs from citizens who have been here before these illegal aliens arrived, and he sees this as unfair, or not beneficial to the people who were here first.

which in turn broke down many of the traditional values in this country, led to an alteration of values in the nation.

The introduction of more and more Mexican Latin types into the country without the requirement that they speak English introduces another element into the culture, the element particularly of language barriers for many, whereby the communication factor is damaged.

The entry prior to the civil war, of slaves into this country, had its effect in bringing in the blacks and their influence and the changing influence that has followed because of this, which has led to many conflicts between the blacks and the whites over the decades, and the introduction into this country of more Asians, particularly after the Vietnam war, has added still another element of foreign quality to the cultural mix, and thus, coupling that with the influence of drugs on the young people and the drug culture of the Sixties and its values that have been influencing the traditional value system of this country, gives a country that is totally different from that of the Fifties.

When Cultures Mix Both Good and Bad Things Occur

It creates a country that has many different elements, all of which are fragmented, many of which are trying to work out relationships or communication between multicultural differences. This Awareness indicates that this in itself is neither bad nor good. It is potentially a problem and potentially a blessing for when cultures mingle and entities listen and learn from one another, new ideas come from these multicultural interchanges, new ways of doing things, new inventions, new approaches and new wisdom comes from multicultural relationships, but there is always the opportunity to feel hostility toward those who are different, rather than feel curious and seek to know more about the unusual person or group or culture.

Those who seek to exclude the various cultural differences generally lead to cultural clashes and potential violations toward one group or another, and those who seek to understand more about the opposing culture may discover new insight, new ideas, new ways and methods of dealing with circumstances, with problems, with social issues.

It is simply a question of whether entities can adapt to change or whether they will seek to hold on to the old traditional ways and clash with that new element in one's society.

This Awareness indicates that these are concerns that many entities share with him. This Awareness indicates if, however, you were on the other side, in a country that is very repressive toward its people and you sought asylum in the United States, you would be most happy that they allow you safe entry. This Awareness indicates it simply is a matter of where you fit in the situation as to whether you like it or don't like it.

This Awareness indicates that all entities want their personal lives improved. Most entities want their personal lives improved even at the expense of others. And if by keeping aliens out of the country, they perceive this as a way of improving their own personal lives, then they would like to see aliens excluded and kept out of this country, or if they see themselves as seeking to get into the country in order to improve their lives, they will want the laws and circumstances to allow them entry.

It is a matter of personal preference in accordance with the laws that are already enacted, and what entities can actually get by with. This Awareness cannot blame those who would like to enter the country, nor can it condemn entities who would like to keep them out. It is simply a matter of growth, understanding, recognition of a situation, and a need for some kind of justice in determining how to proceed in the least offensive way toward entities involved.

It is not likely that either side of the issue will be satisfied with the general outcome of this situation. Regardless of how few are allowed in, many entities will feel there are still too many, and many will feel there are still too few being allowed into this country.

Increased Immigration a Conspiracy?

FOLLOW-UP QUESTION (VIKKI):

As I read his question, one of the concerns that he seemed to be expressing as to why the increased immigration could be part of a conspiracy, seemed to relate to the fabric of the way the American way of life is seen to be disruptive by and falling apart, because there's so many things being put into the mix, and he considered that was a possible type conspiracy aspect.

COSMIC AWARENESS:

This Awareness indicates that this is a way of altering a culture of a country. The country as already having gone through an alteration of its culture in the Sixties movement, whereby the use of drugs introduced into the younger generation creating the Hippie movement,

Asian Gangs Are Killing People Here (Misuse of Law By Politicians Are Letting Them In)

FOLLOW-UP QUESTION:

I think also what this questioner found disturbing was what seems to be the growing misuse by the politicians of the immigration laws; for example, Reagan let Cuban criminals, thousands of them, into the United States, because they said they were political prisoners, and these people came over here and got involved in drugs and murder and all that, and now you see Asian gangs in practically every town.

There's Chinese gangs now and Vietnamese gangs that are killing people, involved in drugs and so on, and there's a movement now to petition Clinton to allow entities from Haiti to come over that have HIV and AIDS and that sort of thing. I suspect one of the things in between the lines that he was worried about, was this type of thing that seems to be a very flagrant abuse of immigration laws, in that so many who are coming in aren't hard workers, like the Mexicans, but are entities who want to indulge in illegal activities.

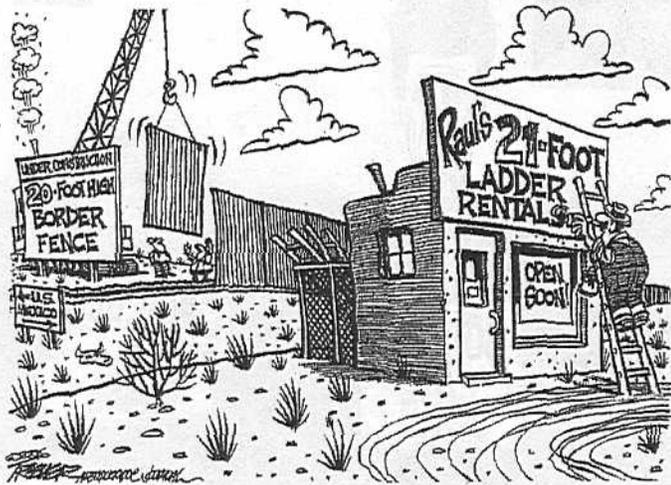

COSMIC AWARENESS:

This Awareness indicates this is seen as probably correct in terms of the entity's view and the entity expresses concerns that most Americans would share in common. This Awareness indicates that the American people have generally been relatively generous in attempting to help those who are experiencing difficulties in other countries or in need of asylum or help.

There is, however, the frustration that many see when their land becomes over-burdened with entities who simply seek to use it for purposes that are not compatible with the higher values that many in society hold, whereby the use of this land for criminal purposes or for avoiding work through eating on the welfare system; these things are a frustration to many entities.

A Sinister Plan to Use These Entities Later to Disarm America?

This Awareness indicates that it is unclear that there is a need for such coddling of immigrants of this type. It appears that there should be rules to be more selective. It appears also that the allowance of such criminal types to enter this country may be part of some sinister plan to use these entities at some future date, to help arm these entities and direct these entities into society to create a greater excuse for disarming the American people, because of the excessive violence these entities might propagate. It appears the majority of people entering the United States are sincerely seeking a better life and do not intend to bring harm on this country and many of these entities are quite willing to settle into a legitimate job, work ethic and opportunity, and become good citizens of this country.

This Awareness indicates the frustration that entities perceive and feel in regard to the negative immigrants, those who would harm others in society is justified. This goes without saying. No one wants to bring in people who want to harm others in this country.

If You Don't Like It You Can Lobby Your Congresspeople

CLOSING MESSAGE:

This Awareness indicates that these many situations that frustrate entities may be quite legitimate, in most cases are reasonable frustrations. This Awareness indicates that they are also part of the reality in regard to current times. This Awareness indicates it is unclear what can be done, if anything other than to gripe, complain, and vent your frustration about these things.

This Awareness indicates you must always keep in mind that if it really troubles you, as a citizen of this country you have a right to lobby your Congress person and Representatives and to voice your frustration to these entities so that the next time there is a vote, your influence, your expression may be remembered by your Congressperson or Representatives prior to their voting.

Thank you. (The Law of Gratitude is given)
