## Stargate Technology: the real reason Iraq was invaded

--- Ancient weapons of mass destruction do exist in Iraq

--- High-speed triangular spacecraft the size of football fields (who are they?)

--- Are energies of Atlantis still affecting us today?

--- The two types of individuals in the world

## The Cosmic Awareness Spiritual Development Course GEMINI: Volume 3 Lesson Number 1

Excerpt CAC Reading 12-13-06 Will Berlinghof Interpreter

## STARGATE TECHNOLOGY: THE REAL REASON IRAQ WAS INVADED

(The Law of Love is given)

### QUESTION:

This question is from Joseph Royack of Coaltownship, Pennsylvania. Beginning with the highlighted part; "she's been doing work with reverse speech, using regular people, as well as EVP recordings. She has concluded that the Reptilians that David Icke has been talking about were getting ready to leave the planet by the end of May, to avoid Planet X, and the removing of the net that is wound around this planet to destroy our higher functions as beings... well, that was her conclusion. As I listened, I decided I would do some surfing and just see what else was going on in the world. I stumbled upon a link claiming that a comet was to pass by the earth's elliptical orbit and rain fragments down on our planet. The estimated date of the arrival: May 25<sup>th</sup>, 2006.

Once again, I was wondering what this signifies. Why so much synchronion (sic) between events that are from unrelated sources. I forwarded the link to James as f to f, and asked if he had seen this story circulating yet. At almost the same time, he had received a comment on my article that he forwarded to a colleague who commented that a rumor had been circulating around the internet that the reason for the Iraqi war was so the American military could get their hands on Stargate technology. While you know that various ancient sites have been raided by the military, surely the black ops people would have developed their own Stargate technology by now. I think something more sinister is at work here." Your comment please.

### COSMIC AWARENESS:

This Awareness indicates that there is no direct question involved in the reading of the material just presented. This Awareness has several areas that *It* could discuss in relation to the events mentioned within the framework of the presentation of the information just provided, but first this Awareness wishes to confirm that there was *no* event on May the 25<sup>th</sup>, 2006 that rained down pieces of asteroid or comet onto the planet that caused mass destruction. This for those who may not have noticed, that most individuals of course were unaware of any such event happening, and thus, this Awareness simply wishes to confirm that no such event did indeed happen.

#### Sitchin's 'Twelfth Planet' is Indeed Heading Toward Earth

This Awareness does wish to make comment on the fact that the rogue planet, the 12<sup>th</sup> planet, as Zecharia Sitchin calls it, is indeed the planet that is referred to in the commentary, and this is the planet that is returning back into the proximity of planet earth at this time. Even Nostradamus made mention of this in his quatrains as the comet that would be available at the ending of the End Times. The name of this particular comet not being clear to this Awareness at this moment and that there are many traditions that hold that a comet or a comet-like planet would be returning back into the space of earth, and this is part of the predictions of the End Times, and that this is so.

What is known as the 12<sup>th</sup> planet is indeed making its way back and is indeed *very* close at this time, and is exerting pressures on the planet that are also involved in the shifting of energies and the changes that are happen-

ing on this planet at this time, that this Awareness spoke of, even in its opening comments,\* and that the vibrational energies are also being affected and impacted by the vibrational influence of this mass body that is moving towards it, and that is why many predictions in the past have stated that a rogue comet would come into earth's atmosphere, or at least in proximity of the earth and cause great damage.

\*The Opening Message referred to was an extension of the forecast for the year 2007 which CAC published in issue 2007-1 (on page 9) ED.

#### Our Moon Is All That Remains of Planet Tiamat

It was suggested that this 12<sup>th</sup> planet was responsible for the destruction of the planet known as Tiamat in the asteroid belt, many many eons ago, and that the moon that circles the planet earth at this time is indeed what is the biggest chunk of the planet that still remains. It was the 12<sup>th</sup> planet that collided with the planet in a way that caused its destruction and the ejection from the planetary orbit, of a chunk of molten material that eventually came into the orbit of this planet and was captured by the gravitational effect of planet earth and held in an extended orbit around the planet, and that molten pieces of material from that planet known as Tiamat coalesced into a spherical object that is now known as the moon, which is technically much larger a body orbiting this planet than should be the case if natural laws of physics applied.

The 12<sup>th</sup> planet, in its collision with the Tiamat suffered damage itself. Many of its inhabitants at that time had left the planet so that they would not be in danger, because these beings had advanced technology and were able to avoid any effects on personal levels of this collision, and they were able to return for the planetary damage was not as bad as that which occurred on the planet Tiamat, which indeed, was destroyed at that time. This is information from the past, but that again, with the ten to 12 thousand year cycle of the 12<sup>th</sup> planet coming back into periphery with planet earth; that the past is brought forward into the present and into future predictions. It may once again happen, but this time it would happen to the planet earth.

This Awareness is seeing also that the collision that *It* has just spoken need not have been entirely a physical collision of the two bodies, but rather even the bouncing off of the atmospheres, being so densely compacted, that the planets were radically affected, without the two planets smashing into each other directly. It is seen that it was more of a glancing motion, and this caused a chain reaction on the planet Tiamat that caused for its implosion and destruction, more so than the planet that glanced off of it, that which is known as the 12<sup>th</sup> planet glancing off of it, and not sustaining quite the damage, and yet enough damage was created that the civilizations on that planet then had to spend a great period of time repairing the planet and regaining what once was.

#### Our Cellular Memory Causes Us to Fear the 12<sup>th</sup> Planet (It's Responsible for Many Earth Changes and Violent Weather)

This Awareness does understand that the cellular memory, the racial memory that is held in the human condition, remembers this event and is fearful of it happening again, especially since the erratic elliptical orbit of the 12<sup>th</sup> planet does bring it often into proximity with planet earth and does often cause disruptions, as are happening now, of the planet and its climates and its geological earth masses, and that it is the effect of the planet coming close that is also initiating many of the earth changes that are being observed at this time, and that this Awareness has predicted will increase over the next several years. The 2012 period, often cited and talked about by the Mayan calendar is in conjunction

with the return of the 12<sup>th</sup> planet and its effects on this planet, so that it is seen that there is indeed an effect that is caused by the rogue planet or comet, as it is often referred to, and its return to this planet.

#### **One Reason for Invading Iraq Was to Obtain Stargate Technology**

This Awareness asks for a pause at this time. This Awareness wishes to make comment on the latter part of the letter presented, and that being around the matter of the American military capturing stargate technology in Iraq. Indeed, that part of the reason for going into Iraq was to capture such technologies, to expose these areas, and to capture the areas where the former aliens resided in the times of the Sumer civilization, or the Sumerian civilization. These aliens from planet X, the 12<sup>th</sup> planet, had placed themselves there and created a civilization to serve them, so that they would live in the lap of luxury and opulence, having a mass of people below them that were underlings to them, that these were servants and the priesthood, and those that they would use as they deemed necessary and appropriate to maintain their social status and structure.

#### **Stargates Allowed the Aliens Rapid Interdimensional Travel**

These reptilian aliens, and other aliens who were there at the time, were seen as gods and demons and those who superseded them, far superior to them, who were able to do miraculous things indeed. The miracles were often because of advanced technology and this included the stargate technology that has been popularized through movies and the TV program. Indeed, the stargate technology being available allowed for travel interdimensionally to other stargates planted in other regions of the universe and the galaxy, and that this being so, was a means for rapid travel. One of the stargates was indeed planted on the rogue planet, the 12<sup>th</sup> planet, that which was referred to as planet X earlier in the commentary and thus, the inhabitants, the Anunnaki of the 12<sup>th</sup> planet, the Nefilim, could travel from that planet onto this planet and could directly enter into the spaces where the alien gods occupied at that time, that being the Mesopotamia region that was between the Euphrates and the Tigris rivers; that which is the alleged birthplace of modern civilization, not civilizations that predated the modern period that mankind is currently experiencing.

#### **Not Saddam Hussein's Weapons-The U.S. Was Looking For Ancient Weapons of Mass Destruction They Could Use**

The stargate technology still held information and technology that the American military and the American powers that be did not entirely possess. The sinister component that the Joseph Royack is referring to is the fact that there were weapons contained in these areas, weapons of mass destruction that supposedly were still available. There was a joke played on the peoples of the world and the American people in giving as the reason for going into Iraq to discover that Saddam Hussein's weapons of mass-destruction being given as the reason that the American forces needed to invade this country so that those weapons could not be used against America and Americans.

The joke was that they were actually looking for weapons of mass destruction that they themselves could use, could harness, could have at their command. *They* being not the military per se but those forces, those powers behind the military might that understood the true weapons that were being sought after, the true weapons of mass destruction based on alien technology, from the very aliens that at one time resided in the area, that dominated the area and the peoples of the time, and that had at their command amazing weapons that were used at the time, that had been used in battles of the

different factions of the aliens that were in existence at that time.

#### **Weapons Secluded in Deep Sites of Ancient Antiquity**

It is alleged in those circles of those who have this information, that these weapons were still there, still hidden in deep caches, in deep sites of ancient antiquity, and that it was as much part of the reason and part of the goal to go there and discover this technology once again and to bring it back so that it might be used by these very same people who have as their excuse, the fact that they were "saving" the country of the United States of America from any actions taken against them by Saddam Hussein and Arab terrorists who would use the weapons of mass destruction that were available in that country to launch against America and American peoples.

It is not seen however, that they achieved their goals of finding these ancient weapons of mass destruction, for it is seen that these are in deep caches that have protection around them that is superior to anything that is known by the modern military. Most of these weapons are hidden in an interdimensional cache or a place where they are hidden from a third dimensional intrusion. In other words, they are not physically available in the third dimension, even though it is so that these weapons do exist. They are hidden, they are protected in a manner that is very similar to the caches that are available in ancient Egypt; also that which was created of the extraterrestrials of the time who were able to work with technology in such a way that they could open interdimensional gateways and create regions and spaces where they could store their records, their technology, their weapons. These two regions are indeed very connected and there are even now tunnels that connect these underground spaces, but that is the closest that is available at this time: underground storage areas, but there is another layer of and level of protection beyond that which also involves guardians that are energetic in nature; that which would have been referred to as demon guardians or guardians that would not allow any casual intrusion into these spaces. Indeed, often those who would try to do the grave robbing of these areas would meet their death and their destruction, and this is still so, that many cannot enter into these spaces.

It was perceived and understood that there would come again, certain individuals who had indeed been in those areas before and hold the right frequencies, who would be able to enter into these spaces and to regain the technology and the information that is stored in these caches, but the American military does not at this time have any of these individuals who could regain this. These individuals are those who have nothing to do at this time with the powers that be, but who have not yet come forward, because it is not the time for them to come forward, but they will come forward when the time is right.

This Awareness does not wish to go any deeper into who those individuals might be, but simply to say that it is part of the release of consciousness that is long-standing, that has at its origin even the times of the mummification. *It* has spoken before of entities who chose to return at certain times. The 'consciousness' of these entities perhaps is more accurate; the consciousness of advanced souls who would be here at this time to release certain technologies and information that will be needed, is even needed now, and will be released in the time ahead. The time ahead being that which is even seen to be *this* time, at this time.

This Awareness feels that *It* has made sufficient comment to the information presented by the entity

Joseph Royack, and suggests that unless anything further is needed, that *It* wishes to move on at this time.

### Why Many CAC Members Dropped Out When Grace Became Interpreter

#### QUESTION:

The next question is from Mary and Bruce Axelrod, from Fort Collins, Colorado, who write: "We have been subscribers to the CAC newsletter for many years and we thank you and bless you for your work. CAC has given us so much over the years, and at this time we have decided to discontinue our subscription. The reason being that we are looking for current information, not readings given 10 to 15 years ago, some of which have been discussed before. We know that you have stated that there is a great deal from the past that could not be released at that time, and so you are releasing it now, however, we would like to see the focus on current information, and then a bit of the past information.

Over the past years we've received each newsletter, we have even wondered if there are current readings still being given. What happened to the past channelers? We also thought that perhaps very brief information could be given about the past events ten to twenty years ago, and that people could refer to the website for more depth or order that issue. There's so much happening in the world so fast, and we're looking for a focus of spiritual information and insight about that, based on today's issues, and especially since we are only seven years away from 2012, whatever that may bring!

We would like to know what Awareness has to say about current events: tsunami, Katrina, Iraq, Homeland Security, the changing vibration, Indigo and Crystal children, the magnetic and grid realignment, the spiritual focus for the next few years, and so much more."

That's a lot of questions in one.

#### COSMIC AWARENESS:

This Awareness thanks the entities, Mary and Bruce Axelrod for their support over the years. Before answering any of the questions at the end of their letter, this Awareness wishes to make comment on their opening statements of the information not being current for their needs. This Awareness simply wishes to explain that the Interpreters who were available to channel this Awareness were the Interpreters that reflected the membership itself. The membership also at that time was such that there seemed to be a need for the Interpreters who were available, to channel this Awareness in the way that was channeled. Perhaps this is better understood by explaining that the Interpreters themselves were reflections of the membership, and as such, if there was a time where the information was not current, it was because, at some level, the membership had had enough for a while of the pressing information that had been given earlier during the time of the *Gathering Storm*.

#### Even the Wanderers Needed a Break

This Awareness reminds the membership that many of the members are those that *It* has called the Wanderers in past issues, and the Wanderers have been an advance party, so to speak, to disseminate into the consciousness of this planet, certain information and knowledge. Often this information would be very challenging and very pressing, and even the Wanderers themselves were challenged and pressed by it, so much so, that a point was reached where a pause was needed, a break was needed that would allow a catching of the breath, so to speak. It was this catching of the breath that was seen as a period of time when the Interpreter at that time was

unable or unwilling to present some of the heavy duty information that has been the mainstay of the organization CAC and of the Interpreter known as Paul Shockley.

Grace was not of that persuasion, and her information sought to take matters in different directions, because this was on some a reflection of the withdrawal of energies of the membership itself. She was there, not simply as a woman driven to do it her way, but she was also the voice of this Awareness, and this Awareness was monitoring on a deep level the mood of the membership, and the mood was one that needed a pause or a break from the heavy duty materials that were presented. Those individuals who are not satisfied with the type of information presented at that time, individuals such as Mary and Bruce, made a decision to withdraw from the organization, and thus, many individuals at that time, who wanted that fix that they had become used to, that fix of the current information that somehow seemed to put them in a different category of individuals who "knew stuff"; these entities were not being satisfied, and thus they withdrew from the organization because their needs were not being met. This was okay at the time, and remains okay at this time also, but for whatever reason, the membership as a whole needed a break and this break was provided in that period of time when the entity Grace was the main Interpreter for this Awareness, and that break continued when the entity Grace withdrew her services and withdrew from the organization.\*

#### Awareness Now Asks You to Send in More Questions

The mood and the energies of the organization known as CAC have changed and have shifted once again, and in the present Interpreter, there is once again an energy available that will allow this Awareness to speak of current issues, to speak on matters that are topical at this time, and this Awareness puts out to the membership to submit the questions once again, that the membership would like answered that are of a current nature, and this Awareness once again reminds the membership that it is the nature of the questions themselves that defines the availability of information to the membership.

Questions of pertinence to modern times, to current issues will be the ones that this Awareness will be able to thus give modern and pertinent answers to. Often this Awareness can only deal with that which is presented to *It*, so that if questions are pertinent and modern to the times, then *It* can provide pertinent and modern information. If the questions are frivolous and secondary, then the level of information is often of that nature also. This Awareness challenges the membership to provide good questions for the Interpreter and for this Awareness so that *It* once again can provide the information that is relevant to these times and to the membership, and to the Wanderers.

The Wanderers did have a hard go at it for many years, being a main conduit of the CAC energy, of the Cosmic Awareness energies, so that they did feel drained and used up to some degree. This Awareness is prepared once again to take a leading edge in presenting information of a controversial nature, as *It* has done for the many years of the history of this organization known as CAC, and *It* is again once available for this purpose. This Awareness is complete with *Its* discussion of the events of recent times for the organization of *Cosmic Awareness Communications* and of the members who have left the ranks, so to speak, because the information was not pertinent to them, for what they needed and for what they were seeking. This Awareness is back on line for that purpose through the present Interpreter.

The many many many questions presented at the end of the letter seems to be to this Awareness a categorization of the areas that the two entities wish comment to be made on, wish this Awareness to speak on. *It* does not see them at this moment as being questions to this Awareness, so much as a categorization of the types of subject areas that the two entities would like Awareness to once again comment on. Therefore, this Awareness will not comment on the specifics at this time, unless or until they are presented to this Awareness, or a request is made of this Awareness to actually make a comment on the categories and the subjects that were listed at the end of the letter.

*It* simply wishes to state that *It* is fully prepared to talk about any and all of those subjects at any time in the future, and asks once again that questions reflecting those subjects be presented specifically to this Awareness, upon which *It* will again turn *Its* focus and attention to answering such matters and such questions. This Awareness is complete with this letter at this time, and wishes to go on from this point.

\*Ed's Note: When Grace became a temporary Interpreter, CAC lost approximately 1/3<sup>rd</sup> of its membership. The major complaint was not always that she refused to address current events, it was the convoluted syntax that emerged when a question was addressed. In other words, readers, including this editor, were often left scratching their heads and asking, "What in the hell did she just say?" Not understandable is putting it lightly, *incomprehensible* is a better description. Awareness was indeed sending her information but her mental process of verbalizing that information was very difficult to follow, to track, to understand.

## ARE ENERGIES FROM ATLANTIS STILL AFFECTING US TODAY? (More On The Effects of Mummification)

### QUESTION:

This is from Betty Lambert, from Bryon, Ohio. She writes: "Since the 10,800 BC period (ancient Egypt-Atlantean colony) was important to both CAC and ARE (The Edgar Cayce Research Association). How might that period be affecting everyone ( global awareness) as well, at present? Time sequences can be tampered with, and so many energy changes are occurring anyway. I sense this Ra-Ta period, as ARE labels it, remains a crucial foundation for certain leaps in awareness needed at this time. Are they still linked?"

### COSMIC AWARENESS:

This Awareness greets the entity Betty Lambert from Bryon Ohio, at this time, and thanks her for her excellent question. Indeed, the Ra-Ta period and the present period are very very much linked. It is at that time that the mummification process that this Awareness has spoken of in the past, was begun and was implemented. The purpose of that future projected task taken on by the enlightened beings of that time. It was seen that a true spiritual dark age would be reached in and around these times, and that the End Times would need elevated awareness and raised consciousness to help accelerate the consciousness of humanity, so that the quantum leap could be made that is necessary for the planet to evolve.

There was a recognition way back then, ten thousand plus BC, of that which would occur in the times ahead and this mummification process of the Ra-Ta period was then undertaken. Many chose to become mummified, thus capturing the consciousness of entities; not simply one or two entities, but rather thousands, who would allow themselves to become human time capsules, who would allow their consciousness, that was meant for the times present, to be released at this time, and this

process of release has been happening for the past 170 years, but it is accelerating now, as the majority of those who choose to participate in this endeavor are at this time being released.

In the past it was spoken that many are becoming aware of information now at an accelerated rate, that simply was not available ten or twenty years ago, and many individuals who are alive at this time, were at one time those individuals who chose to be mummified, who chose to become part of this massive project of releasing consciousness into the energies of the planet, into the human consciousness of the planet at this time. Those who are alive now are having restored to them awareness and understanding that simply was not available in the last ten/twenty years, but now is being made available, so that certain individuals (the entity Betty Lambert being one of those individuals) have at their command, information and knowledge and insight that simply was not available a short time ago.

### Betty Lambert Has Opened Up the Ra-Ta Information

The individual Betty Lambert actually has opened up this information; her connections to the Ra-Ta period, many many many years ago, and thus has been one of those who awoke early in time in order to hold a space for many who are awakening at this time. She has been hard challenged over the many years because of the isolation she has experienced along the way, and of not finding many who truly understood the time then and the time now, and this Awareness congratulates and approves of this individual and her efforts, because she has indeed held a very strong space for the many who have followed and has often been seriously challenged to continue to hold that space, to hold the energies open, even though she is continually attacked herself, time and time again.

This Awareness applauds her effort and approves of her efforts along the way.

This Awareness speaks again of that Ra-Ta period as being a time of great wisdom and great knowing; a time where it was seen that a great sleep was about to descend upon humanity, a great period of darkness and spiritual isolation that could not really be prevented, for it was part of a greater design and plan, but that there would indeed come a time of awakening, where it would be needed again: the consciousness, the understanding and the awareness that was held at the time of the Ra-Ta period, and that a request was put out for volunteers who would allow themselves to die in the physical, so to speak, so that their consciousness could be suspended and held in stasis over the lengthy period that followed, so that the consciousness which would be needed at a time in the distant future, could be held in stasis and suspended animation, so that when the time was right, it would once again be released.

### Now In the End Times the Consciousness is Being Re-Released

It is now, in these times known as the End Times, as being that period in the distant future that was seen back then; *this* is the time when the consciousness is being re-released and the effect will be that of a surge of awareness that will sweep through mankind, that will accelerate the process that is even happening now, accelerate the awakening that is happening even now, and this process will open up mankind, will open up the possibility of a quantum leap forward. This Awareness has spoken of the Hundredth Monkey principle in the past, and this is involved in that process.

Mankind is very close at this time to reaching the X-point, where consciousness will accelerate in an exponential manner and that those powers that be that still seek to control and dominate will simply be swept away,

because they too will step into a new level of awareness and understanding, if they so desire, and those that do not so desire will go their way on the planet that does not move forward.

#### When the Planet Earth Splits in 2012

This Awareness has spoken of the two planets and the vibrations that are changing so that one planet will become a planet of awareness and enlightenment, where the consciousness expands and reaches new levels, new points of understanding, whereas the other planet will not expand, will not move forward, will fall in density, and become much more dense.

The powers that be will continue to be in control of that planet that chooses not to advance at this time. This too is seen as part of a greater plan. This Awareness suggests that the Ra-Ta level of awareness and consciousness that is emerging once again will fuel the fires of expanded awareness and allow those who have made the leap forward and upward, to move vibrationally forward also, and to be part of the planet that leaps forward in awareness, in consciousness, in its form, on all levels.

#### Many CAC Members Gave Themselves to This Ancient Project

This Awareness therefore does confirm that there is indeed a very strong link between the Ra-Ta period of ancient Egypt and these present times. This Awareness suggests that many many of the members of the organization of CAC are indeed those who gave themselves to this project, to this task, those many eons ago, who this Awareness has called Wanderers on many occasions and are again finding their way and awakening even more into the new understanding and awareness.

#### Wanderers Are Starting to Use a Higher Percentage of Their Brain

This Awareness reminds the readership that there is only a small portion of the brain, of the mind, that is being used. This is an area that is to change and is changing. Many entities in opening to the expanded awareness and consciousness, that knowledge and the knowing, from their own aspects of being from that earlier age, will start to use a higher percentage of the brain as the vibrational energies shift and expand, and this too is part of the process, of the unfolding that is currently taking place at this time, and this is an area to be investigated in times ahead, but that for now, this Awareness feels complete in the answering of this entity's question and wishes to move on at this time.

### REVERSE SPEECH

(Like a Dog With a Bone Manley Just Can't Let Go)

#### QUESTION:

This is a question from Manley Grooms, from Florida. He writes: "Hello Avaton! This is Manley! Like a dog with a bone, I cannot let go of the idea that reverse speech can be a very useful path to check when it comes to discovering more, rather than less, what a person is really thinking, and like a dog with a bone, I cannot seem to stop asking you to ask Awareness about: "Does reverse speech reveal and prove what a person is really thinking when a person speaks?" Yesterday, June 9<sup>th</sup>, 2003, Jeff Rense had David John Oates, the discoverer of reverse speech, were on for first and second hours.

Jeff and John played some examples of reverse speech and discussed what they think reverse speech is and proves. David John Oates was on Art Bell radio program a lot, until they had an on-air fight that was headed to court, until they settled the problem out of court. Anyway, John Noory has taken Art Bell's place on the radio seat and I was looking at his guest list for the coming shows and noticed that tonight's program,

Tuesday, 10<sup>th</sup> of June, 2003, is going to have a person that I do not know, and that by looking at this show notes on [www.coasttocoasatam.com](http://www.coasttocoasatam.com), appears to be an expert on what may be reverse speech.

The guest will be Jon Kelly (your inner voice.com) who is billed as a speech analyst who plays human speech in reverse to reveal uncensored unconscious messages from world leading newsmakers. One of the reasons that I plan to listen to the program tonight is to see if he has any reversals on the frat-boy in the White House. Unlike Clinton, David John Oates has a few reversals on George Bush's speech. This fact has made both Oates and Rense on many past Rense programs to wonder who and how Bush's brain was fixed so that he doesn't reveal as few reversals as possible. This would be an interesting question for Awareness to ponder, wouldn't it? Well, that is enough chewing on this bone for now! Good luck!"

#### COSMIC AWARENESS:

This Awareness suggests that this matter and this topic of reverse speech is not so much a bone to be chewed, but a red herring, a red herring to be chewed perhaps. Much can be found in reverse speech because much is put into the interpretation of the interpreters to what they are hearing, and thus, much is projected into the reversal of the speech that is given by any individual, that being world leaders and famous people. But this Awareness does not support this as being an important matter or issue. It is simply an issue of curiosity, that sometimes, apparently, things of significance seem to be there when a tape is run backwards and the speech is heard in reverse. More often than not, the reverse speech is simply a garbled mass of incomprehensible nonsense, that makes no sense whatsoever. Occasionally something comes through that the interpreter points to and says "See? This is of significance! This is interesting!" It is interesting for what is projected into that, which is pointed out, but on the whole, this Awareness does not see that much significance in this matter.

It wishes the entity to perhaps stop chewing on this particular bone, if he has not done so already. More can be gained from simply hearing the words that are given by the individuals in question, be they the president of the United States or anyone else for that matter, to hear what is spoken, and truly listen to what is being spoken; to hear between the lines. It is not necessary to play a tape backwards to get the real meaning, but to simply hear the words, hear what is being spoken, not only with the physical ears, but with the deeper inner perception that will always give the true meaning of what is being spoken, that will always allow an individual to see through the lies and deceptions that are spoken to one, or that are spoken unconsciously.

#### Listen to What An Entity is Saying—Nothing More is Needed

It does not require an elaborate technique or method of playing a tape, a speech backwards to determine what is being said, but rather simply allowing the inner perception to work, to be able to perceive and to understand what is really being spoken, what is really being said. This Awareness supports the individual's need to chew on the bone if he so desires, but does recommend rather that it instead be the case that he starts to truly hear and know from the inner level what is being spoken, what is being said, and that he will find this much more rewarding in the long run. This Awareness in conclusion says "Listen to what a person is saying first before one goes playing their words backwards and telling and saying "This is what is said here!" Individuals will be much better served by truly developing the human capacity of

hearing what is said, of listening to what is said versus elaborate techniques that are very subjective in the long run.

This Awareness is complete with this question by the individual Grooms and wishes to move on at this time.

### **Silent High-Speed Triangular Spacecrafts the Size of a Football Field: Who Are They?**

#### **QUESTION:**

There is an article with this question entitled "Close Encounters with Silent Ultrasonic Flying Triangles in the Indian Side of the Himalayas." The question was sent in from John Dansdill, from Broderick, California. The article says: "A little girl in Sanskar, near the majestic Dran Drung Glacier first reported a silent triangular, very high-speed, very large airship in the sky. This is the area near the India/China border, the Indian side of the Himalayas, very high in altitude and very strategic for China and India. Sources say, here is the concentration of Asia's largest number of nuke missiles from China and India, hidden deep in the earth. Neither Chinese or Indians allow anyone to go close to these installations. According to recent publications, America has witnessed silent high speed triangular spacecrafts of the size of football fields in the sky that could travel silently. Definitely these are frictionless antigravity propelled flying machines that are UFOs. The aircrafts are said to be either extraterrestrial or secret US Air force planes.

During Kemri-engcock Festival in Lenka last week, several local villagers gathered to discuss these strange objects. Indian news reporters are curious. According to the villagers, these strange triangular objects are visiting since the last 5 years and their numbers are increasing. They are silent. They can move through the air extremely slowly, so slowly that any conventional aircraft would stall and crash. They can suddenly vanish at tremendous speed, far faster allegedly than any known machine built by man could ever possibly move. They are translucent; their flying beacons don't project light, as would a normal earth made stream of light would do, and so on.

Are these extraterrestrial UFO's, or spy machines of some unknown country? The area is sensitive and it is possible that some countries are watching this area. Also, it is possible that the extraterrestrials are watching the nuke installations of India and China also."

Now from Jon: "Don't like Grace's style of channeling, but see if you can get a straight answer to all the black triangular spacecraft seen quite frequently all over the world. Ours, or theirs? And who, or what race of beings is piloting them? Thanks, Jon."

#### **COSMIC AWARENESS:**

This Awareness thanks this entity Jon for presenting this question at this time. The black triangular extraterrestrial aircraft or UFO's that are seen are part of the Galactic Federation of extraterrestrial agents and agencies that are monitoring the planet at this time, that are helping to bring consciousness forward. There are many extraterrestrial beings involved in this process, some of whom are actually humans who have chosen to be here at this time.

This Awareness wishes to present this knowledge thusly: There are many humans who are extraterrestrial in nature, who are what would be known as Star People, who have chosen human consciousness, so that they can participate directly in the planet's events and affairs at this time. This is one level of extraterrestrial participa-

tion at this time; the other being the UFO's and the presence of these craft that are participating also in neutralizing some of the effects of the black government's actions to dominate and create deadly situations.

These are the same craft that often neutralize chemical trails, that often have sent down images to the planet that are to be interpreted as crop circles, that are showing themselves more and more and more, so that they are recognized and understood as being available. Normally, these crafts, through the bending of light and light rays, stay invisible, so that they are not seen, so that the masses are not aware of their presence, but these craft are in the skies all the time, in great numbers, and there is more to it than is normally presumed.

#### **The Time of "First Contact" is Very Near (How You Can Make UFOs Visible to You)**

These black triangular silent craft are part of the Galactic Federation that is here to help mankind at this time to leap forward in consciousness. This is part of the whole process of the expansion of the vibrations so that consciousness can take the quantum leap at this time. It is their purpose to participate and to assist those many who are ready to move forward, and that the time of First Contact is drawing near, and that is part of the reason that these craft are showing themselves more and more.

It is available for those who wish to see, to look into the skies, to simply ask to be shown these crafts, and if they have reached a certain degree of perception and their own personal frequency vibration being high enough, their request to see these crafts will be heard telepathically by the extraterrestrial inhabitants who occupy those crafts and they will indeed show themselves to those who are ready to see, those who are capable of seeing.

This is not necessarily something that will happen to anyone who simply says "Show yourself!", because a true determination will first of all be made as to whether those asking are ready to see, are at a high enough level in their own personal frequency or vibration to see, and that those who are seeing, such as this child in India, already are at that level, because of the fact that many of the children being born at this time are of an extremely high vibration.

#### **Crystal Children and Rainbow Children Can See Them**

One of the questions that was asked earlier was a reference to Indigo Children and Crystal Children and Rainbow Children, and it is indeed the Rainbow Children and Crystal children in particular who have the capacity to see such events and see such craft, and this child in India is one of the Crystal Children who could see the alien crafts above her; she being like the child in the story of the emperor who wore no clothing, who could see that the emperor was indeed naked, and in trust and innocence simply said "The emperor is wearing no clothes!", much to the shock of the many who chose not to see that fact.

Such is the case that many choose not to see the vehicles that are above them, the extraterrestrial vehicles that hover in the skies on a daily basis. The masses choose not to see these vessels. They are indeed there and available to be seen, if one wishes, and that many of the Crystal Children, Rainbow Children, and Indigo Children have the natural capacity to see these vessels if they so desire to look up and point out these vessels who are around them, who choose not to see them.

This Awareness does suggest that the time of First Contact is drawing closer and closer. There have been times when such contact was to have been initiated, but

for various reasons this did not occur. But this is becoming less and less an event that can be delayed or fobbed off or canceled. Indeed, it is an *inevitable* event that is very close to happening, and it too ties in to the many many many events that are occurring in the world at this time.

#### Orion's Last Gasp Comes During The First 7 Months of 2007

This Awareness wishes to make reference to something *It* spoke of in terms of the forecast for 2007. The first seven months of the year would be the last desperate attempts of the powers that be to maintain control of the planet, to maintain their level of power over the masses, to keep them ignorant. These death row actions will come to a conclusion soon, and the events that are meant to unfold can commence doing so, and that one of those events, although it is not seen as an event in 2007, that the First Contact event that has long been planned can proceed and can happen, and this Awareness sees this as an event that may happen in 2008 or 2009, but the sightings of UFO's is on the increase and will explode in the latter part of 2007, as the energies of control and manipulation are weakened considerably, thus allowing more to see these crafts that are in the skies above, to hear the voice of these very special children as they speak their truth, that there are craft in the airs above us, and people will finally begin to see that this is indeed so.

This Awareness is complete with this question and asks the energizer if there is anything more to the question that needs to be answered at this time.

#### ENRGIZER:

No.

#### CLOSING MESSAGE:

### Many Will Be Severely Challenged As Their Personal Worlds Fall Apart

#### COSMIC AWARENESS:

This Awareness is ready to complete this session at this time and wishes to provide a closing comment. This Awareness suggests that everything is moving forward and coming together at this time: events from ancient antiquity are emerging in this time frame as are extraterrestrial events and connections and contacts. These are indeed very very unique times, and in these unique times, many challenges will be presented to individuals; challenges to individual's faith, to their belief system, to their maintenance of a reality that has been set in concrete for them for a long long time, indeed for many: all of their lives.

#### Awareness Asks CAC People to Lend a Hand, Share Your Info

As events present themselves, many individuals will be so severely challenged that their personal worlds will fall apart as they do not understand or even begin to know how to comprehend or deal with the new realities that present themselves. This Awareness asks those who have a greater capacity to understand, who have been working with this information for a long time, to be available to the many who will not understand, who will be severely challenged at these times; to be available, to be there as an anchor for individuals, to express to those individuals that these events are in order to that which has been spoken of, that which has long been predicted, and that what is needed is simply to be flexible at these times and not to hold on to the old patterns, the old beliefs, the old truths, but to be willing to be flexible, and to allow new truths and new patterns to present themselves.

In the flexibility that is required at this time, it will serve to go through the trials and tribulations that are presenting themselves even now. The fear and the confusion that is being given to many at this time can be released so that the individual can make it through, and those who hold this advanced knowledge, this advanced awareness: be prepared to share with many, so that many can make it through. This Awareness reminds all that an exponential leap forward in consciousness is ready to occur on the planet in the times ahead, and what is needed is the flexibility to hold to the path, to stay the course, as the President is prone to say with great regularity; to stay the course, to understand that great changes are afoot and great changes are happening even now. This Awareness supports the changes; indeed, is *behind* the changes, and asks individuals to stay the course, to hold on to that understanding and belief that "the times they are a'changing", and these are the changing times.

This Awareness is complete at this time, and wishes the Interpreter to be brought out of this deep state of trance.

### The Two Types of Individuals in the World ( Those "Absolutely Certain" and Those "Pretty Sure" )

**OPENING MESSAGE:**

This Awareness indicates there are two types of individuals in the world. There are those who are absolutely certain, and there are those who are pretty sure. This Awareness indicates that the more moderate entity is the one who is pretty sure of his opinion. The entity who is absolutely certain in a general sense, tends to be one who is extreme in his or her opinion. This Awareness indicates that these two types of individuals are also associated with the concept of polarity. The entity who is polarized to the extreme on every single concept which he or she speaks of, who always is extremely certain, extremely right, and absolutely sure of the rightness or wrongness of things, wherein the entity does not see any shades of gray or any degrees of rightness or wrongness, this entity may be considered as one who is highly polarized.

**Another Indication of Polarization**

This Awareness indicates that another level, another indication of polarization is that the entity always sees the opposite view in extreme also. An entity will recognize extreme rightness and extreme wrongness in various activities, in opinions about things or in the behavior of other people. This Awareness indicates the more moderate individual will tolerate certain degrees of rightness or wrongness without being too highly disturbed or emotional about the degree of rightness or wrongness, especially if it isn't too serious. This Awareness indicates that the entity who is more moderate has the ability to explore with a more tolerant form of judgment, the degree of rightness, wrongness or extremeness of situations.

This Awareness indicates that it is important that entities determine which of these two types of people they are, so that they can be more able to understand themselves. This Awareness indicates that the entity who is never really absolutely sure that something is extremely wrong or extremely right or extremely correct or extremely incorrect; the entity who is able to look at a situation and judge it with a slight preference over something else without becoming too extreme in the judging, is likely be more confident in his or her beliefs, and in his or her attitude toward life in general,

Although most entities would think this entity is wishy-washy and unable to really form a strong opinion, and would not tend to follow this entity because the entity doesn't have a strong opinion, the fact remains that the entity is probably more confident in himself or herself and really doesn't see the significance in polarizing a position, in being absolutely, or appearing absolutely sure of himself, yet the entity who is highly

polarized will tend to develop a following of people who can't quite make up their minds, and believe that this entity who appears to be absolutely certain must have some knowledge that they don't have themselves, and therefore, they follow this entity who is absolutely certain about everything he or she does, or holds opinion about.

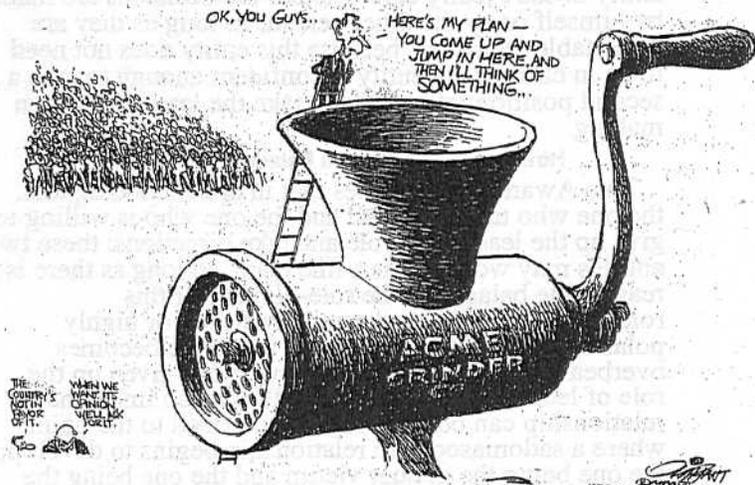

**Those Overly Confident Become Leaders—But They Are Bluffing**

This Awareness indicates that these entities who are so sure, so confident in their opinions tend to be leaders of others. This Awareness indicates the irony is that these entities are generally bluffing; that they have no more insight than anyone else, but they enjoy the action of appearing to be more insightful. This Awareness indicates that as these entities give the appearance of having some kind of inside information, or extra special knowledge wherein they can express themselves with absoluteness, these entities appear to have great confidence.

This Awareness indicates that anything which is expressed in extreme may be considered as bluff, for 99 times out of a hundred, the entity is in fact bluffing or pretending, for no one can in fact be 100% accurate in terms of all of his expressions and opinions about various things. This Awareness indicates, however, that these entities tend to become the leaders because so many entities can't be that sure, and they want to follow whoever is sure. This Awareness indicates that it is ironic that the entities who are most bluffing in their appearance of confidence, are in fact the least confident in terms of their own inner security.

This Awareness indicates it actually takes more confidence within an individual to admit, to acknowledge, to realize that: "I don't know this for sure. I don't have any absolute answers. I am willing to look more deeply to find the truth. I do not wish to kid myself that I have the truth." Such an entity is much more honest than the one who says: "I'm absolutely certain that it won't rain today," when in fact the entity has no certainty. There are so many things these entities always are certain about, without really having anything to back up their certainty, and when in fact it rains, they are absolutely certain that it will quit soon, and when in fact it continues, they are absolutely certain that it doesn't really matter, everything is going to be sunshiny tomorrow, and they continue on and on being absolutely certain, regardless of how many times they error.

This Awareness indicates that these entities tend to develop followers, regardless of how many times the entity makes mistakes and the followers are disappointed. In time, eventually, the followers may begin to distrust the entity's beliefs and certainties, yet throughout most of the entity's expression of certainty, more people will follow this entity's advice than will avoid following the entity's advice, and most of the time, these entities

are, in fact, rather weak inside. They are bluffing, and giving the appearance of having answers, when in fact they don't. They often appear to be strong and not needing any support, when in fact they do. They often have strong opinions and advise you and criticize you, when in fact, they really feel insecure themselves but dare not admit it, and they are struggling to survive and find that by impressing others with their certainties, with their absoluteness, with their appearance of being in charge, that they can somehow maintain a degree of control over their environment, because if they were to be honest, they would be terrified of giving up that control to anyone else, for fear that they could not survive well with someone else in charge or doing things that might affect them.

This Awareness indicates they are in fact frightened and mistrustful entities. This is not always in every case, but this is a generality which entities should realize and it is important to understand that these entities who seem to be most critical, most demanding, most certain, and most strong in their position are in fact in need of assurances, are in fact insecure as to whether they are safe, as to whether they are lovable, as to whether they might not be betrayed by others. This Awareness indicates generally, this pattern of behavior develops when entities have been deserted or betrayed by loved ones as children, or in some way need to put on the front of not caring, whereby they are hurt because they were not cared for, they developed this shell, this false appearance of not caring whether anyone likes them or not, of not caring whether they are loved or not, and they pretend that they don't need anyone. They pretend that they are strong within themselves and are in charge of themselves, and they keep their relationships based more on controlling others than on relating to others, for they fear the action of letting go, and having an equal relationship with others.

This Awareness indicates the other side, the side which is more confident, which is trusting, which is willing to hand over the controls to another, these entities are probably better adjusted, but they may not be good leaders. They may prefer to let someone else take the load, simply because it doesn't really matter to them, or because they don't really care to handle the responsibility for making decisions, especially if someone else demands that right to decide for you. They may instead decide to let the other make the decisions, for these things are of no significance anyway. These entities may of course, rebel against the one who takes charge, if those decisions begin to adversely affect the entity in a way that is excessive or unfair.

This Awareness indicates that just because an entity turns over the decision making to another, does not mean that the entity is unable to make the same decisions as well, or even better, it simply means that the entity doesn't really care whether the decisions are made by himself or by the other person, so long as they are reasonable decisions, because this entity does not need to be in charge; the entity is confident enough to take a second position rather than to take the lead in decision making.

#### How A Sadomasochism Relationship Can Start

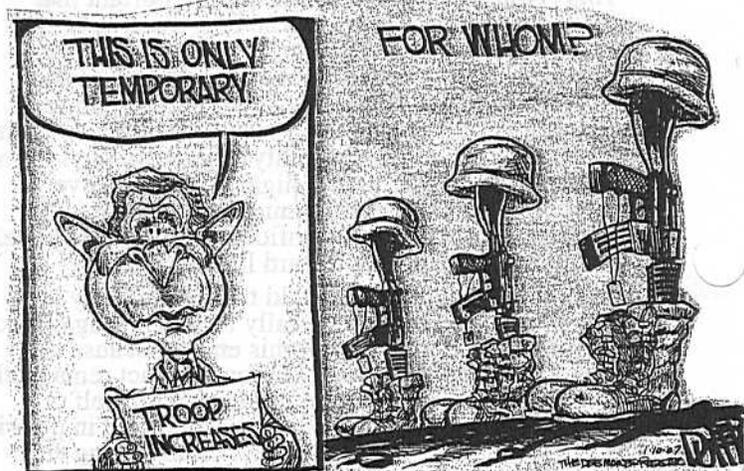

This Awareness indicates that in understanding this, the one who takes the lead and the one who is willing to give up the leadership role and take directions; these two entities may work out as a fine team, so long as there is a reasonable balance in the role-playing. If this role-playing becomes excessively strong or highly polarized, where the one who is in charge becomes overbearing and pushes the one who has given up the role of leadership, to play the follower, an imbalanced relationship can become highly polarized to the point where a sadomasochism relationship begins to develop; the one being the greater victim and the one being the greater persecutor.

This Awareness indicates that this kind of excessive or extreme role-playing can be very dangerous and harmful to either party or to both parties, and therefore, entities should be most cautious. It is possible for the entity who is well balanced, who does not need to take the leadership, who is willing and trusting enough to give up the leadership; that this entity can then become brow-beaten, put down, insulted, belittled and made to feel inferior so that the self-image begins to yield to where the entity loses all confidence for himself or herself, and feels he or she is so unworthy, so incompetent, so unable to do anything right, that a contempt for that lowly individual becomes even stronger in the oppressive tyrannical leader who looks down then on that individual in the masochistic position, and a fear develops in the masochist, fearing the extreme hostility and contempt in the sadistic individual who has taken leadership.

This Awareness indicates that this kind of relationship can become most harmful to most individuals, most harmful in many levels, and it is this type of relationship that often develops, particularly between men and women, particularly among those who allow themselves to become too obedient, too recessive, and others on the other side, allow themselves to feel they are too much in charge of that person's life. This Awareness indicates it is a great error for entities to hand over leadership of their life to another, to put another in charge of their life. It is possible to call forth an expert to assist you and to trust the entity who is an expert in the field you need, to take care of those needs you have, as one who hires an attorney, who hires a minister or counselor, who hires someone to assist you because of their expertise. This may be fine, unless you become so dependent on that entity that you cease to think or learn or act or remain in charge of your life.

#### You Are Responsible For Your Own Life Regardless of Any Experts You Turn Yourself Over To

This Awareness indicates it is a terrible thing when an entity becomes so subjected to a hypnotist that the entity's life is totally in the hands of the hypnotist, yet this can occur; that it also is much the same when one turns over his or her life to the expert who is perhaps even an official, who is perhaps an attorney representing you, or an official or an authority in your society, wherein you turn your life over to that entity, trusting that entity without question. This Awareness indicates you are responsible for your life, regardless of whether an expert has informed you of this or that, whether it be your doctor, your banker, your attorney your CPA, or your tax collector, or your parent; whoever you turn your life over to immediately becomes your master, and can do with you as they will and it puts an unfair burden on those entities if they fail in carrying out your best interest, and you have trusted them; you have no one to blame but yourself.

**The Wife Who Turns Herself Over to Her Abusive Husband**

You must always be willing to look for a second opinion, to check with others, to find out if the one you trust is actually being honest with you, to find out if the one you trust is competent to handle your affairs. This Awareness indicates that if you, as a wife, turn over your life to your husband and find that your husband is doing things that are not proper as a husband, it is your right and your duty to preserve yourself, your sanity and your good will, and the proper life giving energies available to you to preserve these even if you must leave this entity and find shelter elsewhere.

This Awareness suggests that if you cannot work things out, save yourself from the cruelties of your mate. This Awareness indicates that this is not sin, this is not error to save your own sanity, to save your life, to preserve your children if you are being abused. It is only right. Your first obligation is to your own soul, your own self, and your own children. This Awareness indicates that there are too many women who think that they must stay with their abusive husband, and likewise, there are some men whose wives are unfair, who cheat, and who abuse them. They do not have to stay with such entities.

**If The Marriage Does Not Work—End It!**

This Awareness indicates that marriage is a human institution. It is not an institution ordained by God. It is for the convenience of people. It is for the convenience of society. This Awareness indicates that it is important that when you are in marriage, that you preserve the marriage as a sacred trust, but if the marriage does not work, if the marriage is not proper, if the entities cannot benefit and cannot survive intact from the marriage, then it is time for that relationship to be severed, in order that both entities can find something else in life that can bring joy, happiness and growth to their life, rather than some kind of hazard and pain and agony.

This Awareness suggests that entities in difficult relationships should first seek counseling, but if counseling doesn't work, or if the mate doesn't attend, then you may need to take more drastic actions and sever the relationship. This Awareness indicates it is the same with any relationship, whether it be with your attorney, your CPA, your boss, or your minister, or any other entity to whom you have entrusted parts of your life. If these entities violate that trust, you have the right and the need to take proper action to preserve your sanity and the attachments that benefit yourself and your life.

**Rapport: How to Reflect and Mirror The Extreme Behavior of Another to Establish Communication**

This Awareness indicates that often, however, if entities simply stand up to their oppressor to the point where if the oppressor is going to be extreme, you yourself can find a position and reflect that extreme behavior, if this can be done without the threat of violence to you, or yourself threatening violence to the other. This can often lead to a balance. This Awareness wishes entities to

consider that which is rapport. Rapport is the behavior that reflects one to the other party, in such a manner that communication follows, whereby there is a kinship.

This Awareness indicates that most entities who cannot reach rapport, who are polarized in some way against each other can in fact experiment with the technique of mirroring, wherein if the entity growls at you, you simply growl back in the same way. If the entity starts objecting and criticizing you, you simply object and criticize back in the same tonality, in the same voice, as near as possible; that you continue this mirroring action until the entity begins to alter his or her tone towards you, and as soon as this occurs, you alter your tone toward this other entity, and as this mirroring action continues, you will find that the entity's tone begins to calm down, or if it doesn't calm down, and becomes louder and more hostile and more shouting, mirror that too, until the entity then becomes more quiet.

This Awareness indicates that there is some degree of caution necessary. You have to be dealing with a relatively sane person, or you may end up triggering off certain violent behavior, but wherein possible, wherein you know the entity well enough, or you are in a setting that allows this kind of mirroring to occur without threat of violence, it can be very helpful in letting the entity recognize himself through the mirror of yourself, so that a rapport begins to take shape, so that gradual change begins to occur and entities begin to communicate in a more calm and rational voice. You simply lead the entity. You lead the entity, not only by voice and intonation, but also by body language; the way you stand, the way you hold yourself, mirroring that entity.

If the entity speaks down to you with contempt with head hold high, speak the same way to that entity. It is much better to do this than to hang your head in shame while the entity berates you. This Awareness indicates that most entities have a kind of masochism/sadistic game playing wherein one plays the role of being on top, and the other automatically shifts to being on the down-side, wherein one takes on the role of being positive and the other automatically says: "Oh! I'm supposed to be dejected and negative and sorrowful."

This Awareness indicates it is not the proper way to relate. It is not proper to become subordinate just because someone seeks to play the superior. It is better that if someone is going to play the superior that you argue over the role and play the superior back to that

Troop levels will be decided by commanders - not by politicians in Washington, D.C.  
George Bush 2008

entity, and when that entity seeks to exceed your superiority, you simply step up one more rung and play back the exact same superiority that was dumped on you, and gradually, the entity may insist on being superior and might find himself shouting at you, and you simply shout back.

#### When the Entity Catches On Continue to Mirror Him

This Awareness indicates that at some point, the entity will catch on that no matter how hard he tries to be superior, you are going to mirror back, therefore, the entity will shift tactics. Isn't that the smart thing to do? The entity will suddenly calm down, and you follow. You follow and speak in the same calm voice as that entity spoke to you. This Awareness indicates this is the way to establish rapport. It is not establishing rapport when someone insults you and you hang your head in shame or break into tears. That does not establish rapport, it establishes a sick relationship which if continued becomes even more polarized and more sick.

This Awareness suggests that the questions begin.

#### She's Been On The Healing List For 10 Years And "It Didn't Do Much Good!"

##### QUESTION:

Beverly S., in Colorado, has a question. She writes to Vikki and says; "Do you realize that I and my family have been on the healing list in its various forms for ten years now? Actually, last month was my 10th anniversary. It doesn't seem to have done much good, and I wonder if you have an explanation for this?" We don't, and we wondered if Awareness did.

##### COSMIC AWARENESS:

This Awareness indicates that this entity does not fully understand the kind of situation that might have occurred had she *not* been on the healing list. This Awareness indicates also that in order for healing lists to be effective, entities must put forth some of their own energies toward the healing; that one cannot pick up the karma for another if the other isn't willing to put forth considerable energy of their own to deal with the karma. This Awareness indicates, however, that the healing which has been given to this entity has done much for the entity, even though the entity may not recognize this. The entity thinks perhaps, that healings are supposed to make everything easy and comfortable in life, when in fact, life is difficult for everyone; even those who receive blessings often endure much in their life that is difficult. There is no free lunch in the sense that one can demand from spiritual sources perfection and happiness and comfort on all levels and expect that to be provided.

This entity expects too much of others outside herself. Let this entity find the healing through contact with her own Higher Self, that is the way which would be most appropriate for this entity.

This Awareness suggests the entity should be more open to receive healings rather than demanding that others do it for her. This Awareness has waited for some 10 years for this entity to understand the way these things work; that it is largely her own responsibility to accept the healings. This Awareness indicates this entity has repeatedly demanded that others heal her without yet being fully opened to receive those energies which have been given to her, nor has this entity been fully appreciative of the energies which have been given to her. The entity is too quick to blame others for things that are her own responsibility.

This Awareness indicates also that as this entity ages, the aging process alone tends to create more and more problems in terms of health, and she is not herself immune to the aging process which all other entities on this plane do and have always endured. It is not that one can simply say: "I am special. I don't want to age, and I expect the higher powers to prevent me from aging!" Such things are not provided to one who simply makes demands; even the great saints, the great teachers on this plane have endured the process of aging and gradually diminishing health.

#### The Pain is Part of the Learning On This Plane: We Create It!

This Awareness indicates that there is no guarantee that just because someone sends a request to this Awareness that their life is going to be some kind of forever-after pleasant experience. How could you learn if everything was pure pleasure? The pain is part of the learning which entities endure on this plane. The lessons that entities learn through the pain are as important as the benefits entities gain through the pleasure. When entities can accept reality and can work to better their lives, they are learning, but when entities expect others to make the improvements in their lives to help them to avoid them to avoid the pains and when they themselves continue to create those circumstances that have caused

the pains or fail to deal with the circumstances that lead to pain through ignoring or through improper actions, or attitudes, they are still going to experience the repercussion of their actions, of their behavior, of their choices, regardless of whether they get healing energies.

This Awareness indicates that this entity has received many healings, much energy, and much assistance in helping her to understand and solve many of the problems in her life, but this entity has very high expectations and an ideal of a life that is heavenly on earth, and this is unrealistic for her to expect others to provide this for her.

#### The Entity Who Sent \$50 For "Total Enlightenment"

This Awareness wishes to comment further on this last question. This Awareness indicates that this is much like the entity who sent for a reading, sending 50 dollars and asking that this Awareness make the entity enlightened, so that the entity wouldn't have to go through years of meditating. This Awareness indicates that this entity would be willing to offer fifty dollars to avoid having to go through the steps of growth in order to achieve high and powerful spiritual growth and great enlightenment. This Awareness indicates such entities have excessive expectations and there is nothing this Awareness can do for such entities except to sigh and shrug *Its* shoulders (if *It* had shoulders) and let the entities find out the hard way, that there is no such thing as stealing your way into heaven on the coat-tails of others.

This Awareness suggests the questions continue.

## THE COSMIC AWARENESS SPIRITUAL DEVELOPMENT COURSE

## INTRODUCTION

### QUESTION(AVATON):

We have the outline from Awareness for volume three of the Correspondence Course. Would Awareness have an opening message before beginning Lesson number one?

### COSMIC AWARENESS:

This Awareness indicates this begins with an exploration of the nature of communication, followed by the foundation for clear communication, followed by the polarization of communicative words, ideas, thoughts, and concepts, followed by the use of communication for manipulative purposes, followed by the use of demonstration and self-dramatization and the confiding with self as a way of communicating. That this then be followed by the use of logic, reason, rational thinking, likened unto classification and computerizing as a way of thinking and communicating: these be the first six trance lessons.

This Awareness indicates that the seventh being that which explores rules, laws, procedures, structured arrangements and contracts, agreements, and systems as forms of communication.

The eighth being that which explores transference, transactions, and the storage of information, likened unto storage banks, libraries, whereby information is stored and made available through exchange as forms of communication.

The ninth being that which considers extension, expansion, and inclusiveness as forms of communication, whereby entities move beyond certain levels of communication into other languages, cross-cultural communication, and moving out of their own sphere into the unknown for discovering new ways of communicating.

The tenth being that lesson which relates unto communication being used for power, promotion, and self-gain as well as the application being applied to the group, the corporation, the culture, the nation, or to the general well-being of the society.

The eleventh being communication through giving service, and service through the use of communication.

The twelfth lesson being that which recognizes the confusion and chaos in the use of communication, and yet seeing that confusion, does explore the ways by which entities can bring it all together.

This Awareness indicates this also including the realms of pathos, emotion, as well as the realms of thought. This Awareness indicates the first trance lesson may now begin. This relating unto the nature of communication.

What is God? How did God begin? "As above so below; The Many Mansions

## LESSON NUMBER ONE

This Awareness indicates the first trance lesson may now begin. This relating unto the nature of communication. This Awareness suggests a count of twelve. (Count given.)

This Awareness indicates it has been given that in the beginning was the Word and the Word was "God." This in reference to that which is known as the manifested Universe, the manifested creation, this in reference to the beginning of creation.

This Awareness indicates that prior to the beginning of creation there was a Universe. There was a presence which filled all time and space, which continues even today to express *Its* presence. This Awareness indicates that Presence which is the Universe and which lies behind the manifested shapes and forms known as the tangible Universe, that Presence continues even today as pure Being.

This Awareness indicates that until there is a being which recognizes and acknowledges an existence, there is no possible way of conceiving that anything has been manifested or created. This Awareness indicates that until there is a being which recognizes an existence, there is no possible way for the recognition of existence or creation to be.

This Awareness indicates that in a Universe of pure presence, of pure beingness, without any form of separation or observation apart from that experiential action of purely being, without a part which can move or step aside and look back at itself and say, "I Am," without a part which can step aside and look and say, "It Is," without such a part there is no possible way in which the conception, the idea, the belief can occur which allows that portion of itself to recognize its existence.

This Awareness indicates that before the beginning there was a Being. After the beginning, the Being continued and continues eternally, even today and even in the eternal future. This Awareness indicates the only action which occurred in terms of the manifested creation was an action whereby a portion of that Being separated Itself long enough to recognize Itself in relation to the other portion and to say, "I Am." This Awareness indicates this portion which separated Itself then became the vibration which was different from the remaining Being, from the remaining portion. This Awareness indicates this creating a duality in consciousness whereby one portion could recognize itself as existing in relation to the other portion, and in this action a concept was created.

That concept being a vibration, a Word: the Word being the Creator. For the concept of a Creator could not occur until a separation from that which was created could be conceived.

This Awareness indicates that as the separation occurred and the distinctions between that which was created - the vibration, the creation of God, the creation of the beginning, the creation of duality, the creation of the Creator and the uncreated, the creation of these concepts - as this began, there became an action by these forces, the uncreated which always was, and the created which came about through concepts and ideas, words and vibrations, whereby a duality which may be called Yin and Yang, began to experience itself through the reflection of one part into the other and from the other.

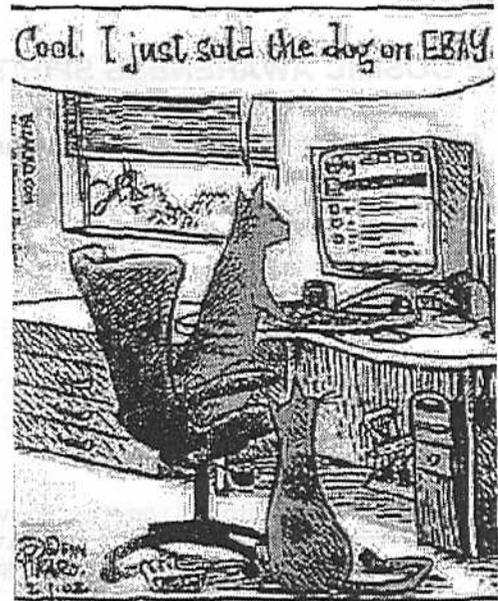

This Awareness indicates that this duality then became multiplied by further creation, further concepts, further ideas, as though someone had pushed the multitude button and ideas began to multiply themselves and the dualities begin to multiply themselves, and an entire array of dualities appeared within the consciousness of the Being and the Presence which filled the universe in terms of time and space.

This Awareness indicates that an ancient axiom of Hermetics states: 'As above, so below.' This Awareness indicates that in ancient times this *Law of Correspondences* was clearly understood by entities because entities were not bombarded by thought, words, and ideas to the extent that they are today in this present plane. This Awareness indicates, 'As above, so it is below,' to the Ancient, was a clear and meaningful experience. For prior to the multiplication of words, where few words were used and the words were simple, entities know how to look beyond the words at the meanings, whereby the words stood halfway between the seeker and the sought, and the words themselves were like signposts pointing toward a city, rather than the final destination for the questioner as in present time, whereby the question is asked and the words are answered, and the answer is the final movement of the mind which perceives no further than the word which was given as an answer.

This Awareness indicates that for the present mind, this Awareness shall elaborate on the true meaning of the *Law of Correspondences*: 'As above, so below.' As it is above, so likewise there is a corresponding action below. As it is within, so likewise there is a corresponding action without. As it is in the past, so likewise there shall be a corresponding action in the future and in the present. Yet these correspondences are not exact - are distorted, likened unto a reflective mirror which does not have a perfectly flat surface.

This Awareness indicates that as the cycle of one level is in correspondence to the cycle of another level, so likewise the souls of one entity have a correspondence to the souls of others. The cells of the physical body have a correspondence to the souls of humanity which make up the cells of the body of this Awareness.

This Awareness indicates that in understanding this *Law of Correspondences*, entities may begin to conceive the differences of the present mind and the mind of the Ancient. For in earlier times, the Ancient, in hearing the phrase, 'As above, so it is below,' would look and see all of these levels in that phrase, yet in modern times entities hear that phrase and immediately begin to

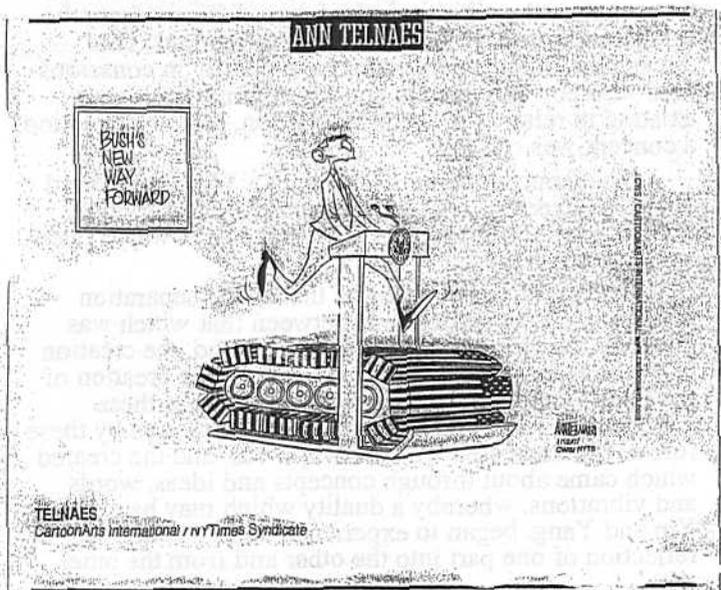

question and doubt the validity of the phrase, looking above and seeing the stars, looking down and seeing the earth and saying: "No, it is not the same above as it is below." This Awareness indicates that entities in present time tend to take words at their face value and are ready to criticize and to object and to doubt and to argue in the name of truth, rather than to look at words and seek to understand what was meant by the one who uttered the words. This Awareness indicates this as the great difference between the entities who began using words to communicate and those who now use words as weapons against others in order to promote themselves as being truthful and right, and to demote others as being wrong and false.

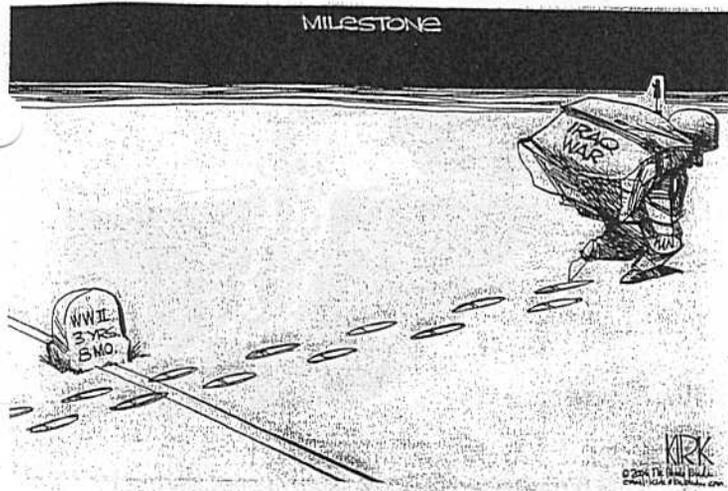

This Awareness indicates that in looking at the nature of communication, it has been said that if you strip away all words from the Universe, you may begin to discover the truths, for words are but smoke screens and the fire lies behind the smoke, and entities who are too concerned about words, about the smoke, can never see the truth of the fire, for the smoke shall be too strong, too black, and shall fog their vision.

This Awareness indicates that an entity who understands the relationship between the smoke and the fire can see the dark smoke, see the billowing clouds and confusion of the words, and yet can perceive through this smoke toward the truth of what is meant and of what lies behind that smoke and those words.

This Awareness indicates in terms of the nature of communication, the word itself relates unto the concept of coming into unity. And wherein a division appears to be, wherein dis-unity appears to be, community, communication, coming in unity, this as that which allows that division or the appearance of division to fall away and the unity to be established.

This Awareness indicates that in terms of the Universe, there is total communication on all levels other than those which relate unto the mind, for the mind does not always perceive the unity and order in the Universe. This Awareness indicates the mind is continually looking at one aspect in relation to another and seeing that which appears to be polarity and division. The mind as that which creates the illusion of dis-unity and that illusion of dis-unity can become so great and so strong that wars and violence can occur and can be justified and can be promoted and spread, all on the guise of trying to create unity and peace.

This Awareness indicates that the mind functions from the standpoint that it is superior and can create order out of chaos. Yet a mind that is integrated with the Cosmic Mind sees the unity in the chaos, recognizes the communion with the All, finds communication present in all things. It is only the mind which is separated, lacks unity with the All, dis-integrated from the Universe, separated from others; it is only that disoriented mind which needs to create order, and that need is based on the illusions and false beliefs that there is disorder.

This Awareness indicates that wherein entities can see the unity in all things, they can understand also the unity in a universe which is composed of disoriented minds which live in the illusion that there is dis-unity in the universe. Entities who can perceive the unity in all things, can understand the mind which struggles to create unity, thinking there is dis-unity, and can allow that mind to continue to exist. Yet, entities who see unity in all things, feel a need to communicate that understanding of unity, and in communicating that understanding of unity in a manner that does not become colored by the illusions of dis-unity, those entities begin to unravel the disoriented mind in such a manner that the disoriented mind begins to perceive the unity which the other entity has seen. This Awareness indicates in this manner entities begin to assist a lessening of the disorientation, the ignorance, the separation, and the illusion of separateness and dis-unity. And in this lessening of these qualities, these false beliefs, the integrated entities begin to assist in bringing about a greater community, a greater communion of the various parts through more communication, and peace and harmony shall become more widespread and easily understood and lived.

This Awareness indicates that clear communication cannot exist in concepts of competition and separateness. Clear communication cannot exist when based upon feelings of inferiority, superiority - feelings of alienation, separateness - feelings of inadequacy, fear, or feelings that one's security, lifestyle, or expression is being threatened. This Awareness indicates that clear communication must first set the stage whereby threats are removed, to allow the energies and words to flow whereby remoteness is lessened, allowing an intimacy to occur whereby concepts are set aside for the sake of communication, of coming together. This Awareness indicates that clear communication cannot exist when entities have themselves strapped to a concept which they will defend with their life against another concept which the other entity will defend with his life. This Awareness indicates that many wars, many personal violations occur, not because the entities themselves are hostile toward one another, but because the concept which they have chosen as their security pole - their core

belief - the concept conflicts with the concept of others. This Awareness indicates for clear communication to exist, entities must place one another first and concepts second in priority levels.

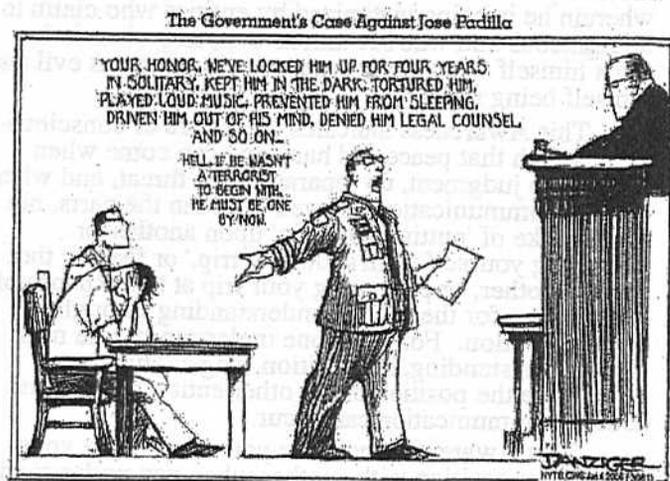

At this point, this Awareness asks entities to visualize themselves walking across a desert, uncluttered by any shapes or forms - they themselves being the only upright energy upon the desert, all else being flat sand from horizon to horizon.

This Awareness suggests that now this entity, standing upon this desert beneath a blue cloudless sky, may look in any direction and see the sky coming down to meet the sand, and may look up to see nothing but blue sky like a giant dome overhead. This Awareness suggests in looking at this entity under this dome, standing upon this sand, one may visualize this entity as likened unto a central core belief, a thought placed with the center of a great head, a great skull which is of blue color and which stands high above the entity and rests upon the sand.

This Awareness indicates the entity may view himself as being likened unto a thought inside the great being, the great skull. When darkness comes and the stars come out, the entity may look out and, seeing these stars, perceive those stars as likened unto nerve centers within this great dome, this great skull, and may continue to perceive himself as being one thought in the head of this macrocosmic entity.

This Awareness indicates now entities perceive this movement toward a city, and within this city are many structures, and within this city are many, many entities. The entities now, within this city, may look up and see the same sky and the same dome, yet the landscape is cluttered with other structures and other entities. These may be likened unto thoughts and concepts and ideas and images within the mind of that great macrocosmic being whose skull is the sky. This Awareness indicates that in looking at this in this manner, an entity can begin to perceive how their own personal life and the lives of others are likened unto a dream going on inside the mind of another entity. For this same kind of action occurs when entities fall asleep and find their dreams filled with landscapes, find their head as likened unto an endless sky which can encompass all space and many miles into a universe, and can hold vast plains and deserts and multitudes of people, all within that tiny head which sleeps and rests upon a pillow.

This Awareness indicates, 'As above, so it is below.' This Awareness indicates that within your own consciousness, within your awakened mind, there are thoughts running about in your head like entities. There is that thought which is the central core belief, which is

likened unto the President of your nation of thoughts, the King of your nation of thoughts. This central core belief can also be a Dictator over all other thoughts within your head. Your nation of thoughts can be a Democracy, whereby all thoughts are given a chance and a voice and right to be free, to think freely, or your nation of thoughts can be a Dictatorship, whereby your central core thought determines and enforces all other thoughts to kneel to it and to bow to it and to serve it, and there is total slavery within your mind and no free thinking is allowed.

This Awareness indicates within the heads of entities there are universes and worlds filled with hell or filled with heaven - filled with slaughter, whereby thoughts are brought upon the battlefield and slaughtered by the cannons of belief, by the guns of concepts and ideas handed and promoted by authorities, by twisted maniacs - thoughts which destroy, which devour, which alienate, which annihilate other thoughts - thoughts which destroy feelings, which destroy emotions - thoughts which do not allow entities to feel or express certain aspects of their being - thoughts which hold with their arms those tridents, those pitchforks, those horns, those barbs, those swords which chop, which cut, which devour, and which tear the souls from other thoughts, all in the name of the central core belief, or in the name of its followers.

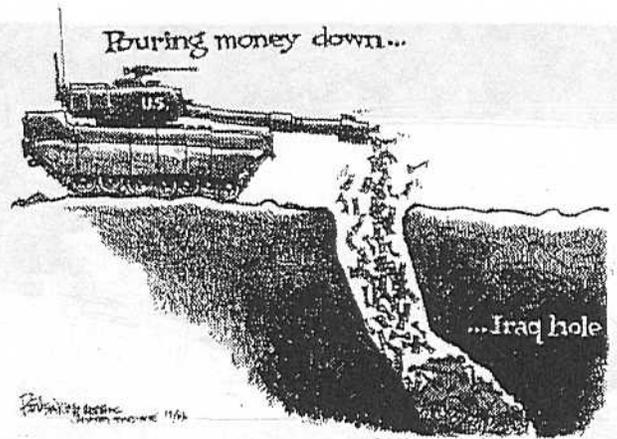

This Awareness indicates the thoughts that entities carry within their heads are those rooms which may be seen as the Many Mansions of Heaven, or may be the dungeons of hell. And whatever entities carry within their heads in these rooms, these are those which begin to reflect and have their correspondences upon the outer world for that entity to experience.

This Awareness indicates that entities who build thoughts full of deception, these entities have a house and a home within their dome that has many rooms, and these rooms shall surely be those that create monsters, illusions, confusion, and deception within the confines of the entity's head. This Awareness indicates, 'as it is within, so it is without,' and entities who create and live their life deceiving others shall soon find that that deception has moved into their own head and is deceiving them, and the confusion then becomes both an inner and outer experience.

This Awareness indicates the same is so with violence, wherein the entity would destroy certain aspects of his own life, whether this be for morality purposes, for self-righteousness and judgment, whereby an entity feels guilty and would violate an aspect of himself for being evil or for being negative, one aspect being that which claims to be righteous and the other aspect accepting the concept of being evil; wherein a war begins between these thoughts within an entity's head, this can lead to an externalizing of that experience and the entity can find himself caught in an external situation wherein he is being victimized by entities who claim to be righteous and who see him as evil, and wherein he finds himself victimizing others, seeing them as evil and himself being righteous.

This Awareness indicates the nature of consciousness is such that peace and harmony can come when there is no judgment, no separation, no threat, and when there is communication allowed between the parts, not for the sake of 'putting your trip' upon another or defending yourself from another's 'trip,' or fearing the trip of another, or promoting your trip at the expense of another, but for the sake of understanding through communication. For when one understands, one must give up his standing, his position long enough to experience the position of the other entity, and in this action, communication can occur.

This Awareness indicates you cannot take your stand in opposition with another when you understand the other.

This Awareness suggests that *It* is not saying for you to give up your stand, but *It* is asking you to be willing to communicate whereby you can stand where the other stands and ask the other to stand where you stand in a mutual agreement whereby the actions can be looked at mutually through communication, and whereby each can experience the standing of the other long enough to communicate their own feelings, needs, desires, and to find some way whereby they may share their lives and feelings with others.

This Awareness indicates that you need not give up your stand, but you do need to be able to share with one another what your standing is, and in this manner understanding shall occur, and the understanding between you and the other shall make possible an agreement which allows each to have his or her own expression and to stand where he or she feels comfortable in relation to the other entities.

This Awareness indicates communication as that which shall play the major role in bringing about the New Age harmonies, for the use of rules, the use of power, the use of authority has brought greater tragedies upon this plane than any other factor apart from greed, lust, and hatred. Yet, even the greed, lust, and hatred has been fostered and brought about largely by the rules, authorities, and powers and their intensities and influences upon the lives of entities in a manner that stifled their expression.

This Awareness suggests that the key that unlocks the door to harmony for the New Age is the key to communication.

This Awareness suggests this concludes the first lesson in the Sea of Gemini.

### Health Hints From Personal Readings

(A Healing Request to Heal Father's Cancer)

This is a request for a trance healing for her father, E. L. P., of Colebrook, Ohio.

#### COSMIC AWARENESS:

This Awareness indicates that the energies shall be sent this entity; that there is no guarantee by this Awareness that these energies shall be used for healing purposes by this entity, that the entity does have the ability to block any healing which this Awareness would send. This Awareness indicates that wherein entities request their own healing, this as having greater likelihood of success, but wherein an entity is open to healing, this also as conducive to successful healing. This Awareness indicates that wherein this entity can accept a healing and to the degree that the entity can accept such, this Awareness shall send now that which is the energy to bring forth such health, vitality, happiness, and financial well-being and harmonious life to this entity. This Awareness suggests a pause.

This Awareness suggests that you also may assist in healing this entity by visualizing this entity pulsating as light, a pulsating light over the entity moving down through the entity's being, around the entity, giving this entity energy, giving this entity light and understanding, assisting the entity to feel greater health, greater harmony, and greater desire to live. This Awareness indicates that each night before falling asleep, you may visualize this entity's health returning. This Awareness indicates at this present time, the image is such that light has entered the entity's physical form and the condition has reversed and the entity is moving toward greater health. The entity is moving away from that which was the danger and is moving back toward that which is life.

This Awareness indicates that this entity can help this action along by using the seven day grape juice fast, wherein grape juice is used for seven days, grape juice and nothing else. This Awareness suggests this fast begin after the use of prune juice, this being approximately one quart or one-half gallon used the day before the grape juice fast. That grape juice may be used at approximately one quart to... this Awareness suggests this being close to one-half gallon daily for seven days, with water, distilled water used alternatively with the

grape juice. This Awareness indicates that the seven day fast given by this Awareness may be included. That can follow the seven day grape juice diet, or the entity may prefer to begin with the Awareness fast and move into the grape juice diet after this fast has been completed. That either way, the situation shall be greatly benefited and the healing shall be much quicker through the fasting procedure.

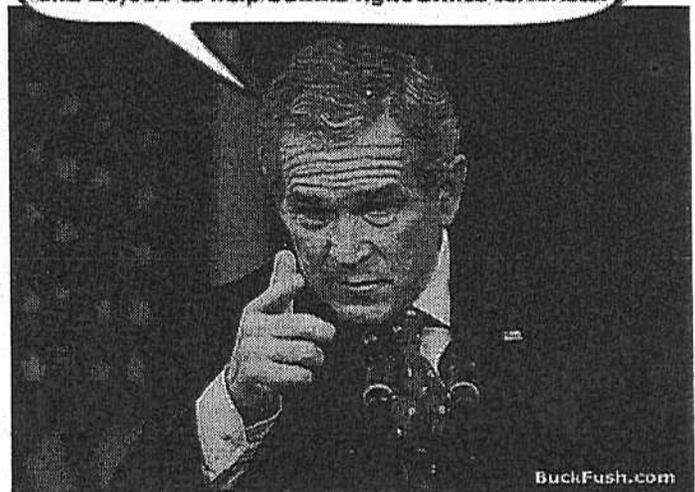

This Awareness indicates that the danger of reversal shall be greatly lessened if the fast is followed. This Awareness suggests that 14 days of grape juice fast will literally cure the situation, but that this may be very difficult for the entity on other levels. This Awareness suggests that the two fasts may be combined; that after these two fasts have been completed, the entity may choose to continue on juices for several days longer - that this shall be of great benefit. This Awareness indicates that also there is seen a place in Boston, the Hippocrates Center of Ann Wigmore, wherein wheat grasses are used, this being a place where this entity could be cured. This Awareness indicates the use of chaparral, laetrile as found in apricot pits, these also being beneficial, almonds being beneficial.

This Awareness indicates that mostly, in terms of attitude, the desire to live shall be of benefit; in terms of diet, the fast shall be of benefit. This Awareness indicates the entity does need to feel that he is truly loved, for this lack of the feeling that the entity is not truly loved contributes greatly to his situation.

### WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the Interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the Interpreters necessarily agree with the statements of Cosmic Awareness. The Interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

I figure I need about 40,000 more troops.  
20,000 to help Shiites fight Sunni terrorists  
and 20,000 to help Sunnis fight Shiite terrorists.

## Who Does Cosmic Awareness Love?

This Awareness wishes entities to understand that *It* love the troubled soul.

*It* loves the guilty soul.

*It* loves the evil soul.

*It* loves the downtrodden soul.

*It* loves those who are good.

*It* loves those who are bad.

*It* loves those who hate.

*It* loves those who love.

*It* loves those who are merciful.

*It* loves those who are hostile.

*It* loves those who rebel against *It*.

*It* loves those who work close with *It*

This Awareness wishes entities to understand that *It* loves all of *Its* creation and all entities within *Its* creation and all of the immortal realms as well as the mortal realms.

*It* loves those who followed Lucifer and those who remained behind to await for Lucifer's return.

This Awareness indicates that Lucifer was the Prodigal Son, and the purpose of the separation was to allow entities to discover their own individuality as well as to discover the workings of the creative forces for themselves. That there were those who loved to be obedient and to follow. There were those who loved to rebel and to strike out on their own.

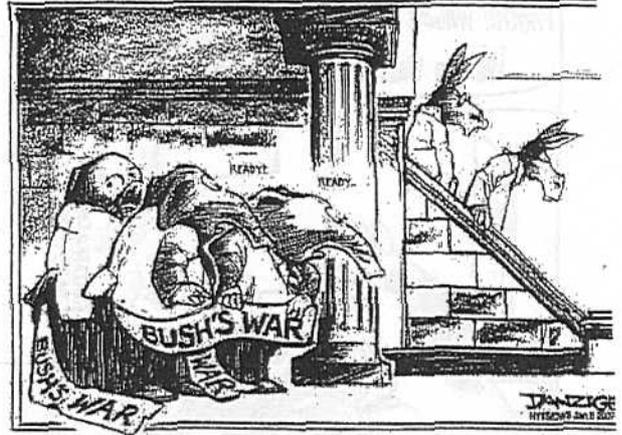

This Awareness indicates that all of these have had the opportunity for complete expression, and in that expression, have been given many lessons and many experiences from which to learn.

This Awareness indicates that there has been much tragedy, sorrow and suffering, and that it now is time whereby entities begin to discover for themselves, without having to rely on authority, without having to be obedient to authority, without needing to bow and worship a Divine King outside of themselves:

It is time that entities know the truth, that they are all ONE, and that love and mercy, kindness and sensitivity of one to another, brings about the greatest type of joy in being; and that the joy in being is the ultimate experience.

This Awareness indicates that this lesson cannot be taught, but that entities now are capable of discovering this for themselves.

Fin the Tail

Cosmic Laws of Cosmic Awareness...

## THE LAW OF PROJECTION

The *Law of Projection* states that the film that projects, depicts, and creates the events of one's life story, is stored within one's consciousness, and can only be changed from within. The intimate conversations, attitudes, and the relationship one has within one's own consciousness is reflected in experience on the outer screen of life; one is both camera and projector of his life story.

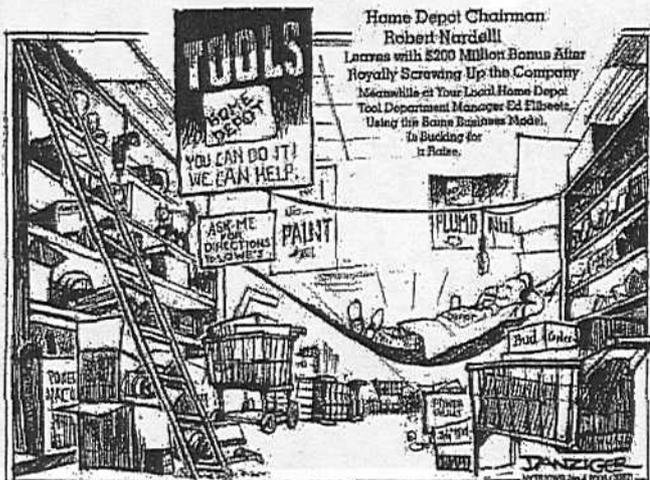

Those who wish to see a world premier of new and joyous experiences instead of reruns, trash films, soap operas, tragedies, illness and hostilities, must refuse to bring or to allow such films, concepts or images to enter their theatres or be filed into their storage banks. Those who seek out, allow, or enjoy filming such trash do surely fill their cameras with the material that may eventually become part of their outward life. Those who allow only the highest, clearest and best thoughts, ideas, words, experiences and images to the highest, clearest and best thoughts, ideas, words, experiences and images to enter their studio shall create and project films that show a life of joy and art.

### Prayer for Balance

Start your day and end your day by saying the following aloud:

**I AM ONE WITH ALL THAT IS!**

**Thank you God**

## —HOW TO GET THIS NEWSLETTER BY MAIL— EVERY 4 WEEKS! ( More or Less )

REVELATIONS OF AWARENESS is a cosmic newsletter, published by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington, 98507, U.S.A. (A not-for-profit organization). Membership fees and donations are deductible from your Federal Income Tax. Try to remember Cosmic Awareness in your will if you wish to have these messages preserved and available to others in years to come. ("How many have you served, and how well?" is the question we will all be asked at the Passing Over).
