The Cosmic Awareness Spiritual Development Course  
(Moon Child) Lesson number two

Questioner: Joan

Is there an opening message?

COSMIC AWARENESS:

This Awareness is prepared to go straight into the questions at this time.

## MANY QUESTIONS ABOUT THE GALACTIC CONFEDERATION

QUESTION:

The first one concerns the Galactic Federation. The writings of Zecharia Sitchin are invaluable and include so much mind-boggling information, the reader almost needs to common index these books to find something specific that was previously referred to. I do not recall if these questions were previously addressed. Just in case these were not, they are now offered for discussion.

What was the origin of the Federation and who initiated it? Was it a case of one or more representatives from each of the constellations? It is assumed that the constellation of Orion, also referred to as the Giant, or the Hunter, is not part of the federation. Was the federation originally formed due to Reptilian aggression, or prior to it, or for the purpose of an overall perspective, or were any other factors also involved in the creation of this alliance? Is there an approximate time frame available for when the Federation was formed? What are the names of the participating planets, constellations, and the representatives?

Who are now involved with the Federation, other than the Andromedans, the Arcturians, the Pleiadians, the Sirians or the Vegans? Are these the primary five? Does this group hold regular meetings, with a board of directors, executive officers, president, vice president, manager, supervisor? Where do the Federation members meet and how often? Has the Federation membership number increased or decreased from its original inception? If decreased, why would this choice or route have been chosen by that representative? How do these groups differ from each other regarding society, lifestyle, entertainment, enjoyment, family structure and culture in general? What is their mode of transportation? What do they do for entertainment?

Does a commonality exist between all of these groups? Could Awareness also discuss the family structures and cultures? In what way does these groups differ from humanity regarding lifespan, personality, temperament, appearance, apart from being extremely advanced in all ways? Was their lifespan extensive due to being a superior race? The majority of humanity has a basic understanding of its origin with the information presently available. Did each group of entities in the Federation originate and evolve in the same manner as mankind? How did each group come to be? Did each have their own experimental Adam and Eve situation and challenge? As it has been suggested, mankind learns from the past, to understand in the present, so that such knowledge can be useful in the future. We are most appreciative and grateful for any information offered."

## That Petition to the Galactic Confederation (An Update)

OPENING MESSAGE: (COSMIC AWARENESS):

There are multiple questions and avenues to investigate in the barrage of questions offered, but this Awareness is fully prepared to go through the list of questions and offers *Its* insights and awareness on the matter of the Galactic Federation, however before *It* starts, *It* wishes first to congratulate Avaton and all who were involved in the formulation of the petition to the Galactic Federation, for that has already had effect. It has been noted that there is a movement on this planet that is starting to bring together the conscious awareness of humanity itself towards the invitation to the Galactic Federation, to participate in the affairs of this planet earth, the Terra planet.

As the momentum grows and more and more people come across the petition and sign the petition, welcoming the Galactic Federation into the affairs of humankind, there will reach a point where the Galactic Federation will indeed come in and offer their services to free mankind from the yoke of oppression that it is now under. That yoke of oppression is the result of secret government-making agreements with the agents of the Orion Empire. As that level of consciousness is reached that allows for a mass-understanding of what has been hidden from humankind for so long, is reached, that there will come that X-point, that point in human consciousness where a majority of humanity gives voice to the invitation to the Galactic Federation, thus allowing it to intervene and become involved directly in the affairs of humanity.

**Cosmic Awareness Energies Have Been Added**

This point of consciousness is quickly being approached and it will not take long for that level of awareness to be reached. This Awareness is supporting this action also, and is bringing *Its* own energies to play in this matter. It is to be remembered that it does not take a volume of people to reach this point of consciousness. It is an X-point, not an actual amount or number, in terms of: 80 percent of humanity must have this consciousness before the Galactic Federation can intervene and involved itself. The actual percentage of humanity that must actually sign the petition is relatively low, for really what occurs is that as a certain point is reached, where a number of people are aware of the petition and of this purpose, that a level of consciousness will be reached that expands the awareness outwards to the masses.

**The Hundredth Monkey Principle is at Work**

This is also known as the Hundredth Monkey Principle; that when a certain level or point in consciousness is reached, then all become aware of this, and that is why it does not need to be a volume point, such as 80% of all humanity must know of this petition before the Federation can actually participate, but rather, a level that brings the consciousness up, thus making it more available to humanity to understand that this principle even exists, that this procedure is in effect.

**First Contact Could Occur This Year of 2008**

This point of consciousness is being approached, and this Awareness sees this being reached sometime within the year 2008, which will then allow a greater amount of humanity to become involved in the procedure itself. It will also be that point that the Galactic Federation can begin to make itself known on a more conscious level, preparing humanity for the proposed First Contact.

When this First Contact occurs, life on this planet will change radically, and it is indeed the plan and the purpose at this time to move towards First Contact, hopefully in this present year, 2008.

This Awareness is well pleased by the efforts being put out by those few who are attempting to bring to consciousness the petition and the invite to the Galactic Federation. This is a movement whose time has come and it is growing rapidly, and is reaching out to many. There is a shift in consciousness already occurring that this Awareness can read from *Its* position in consciousness. This Awareness is complete with *Its* opening message regarding the petition to the Galactic Federation. *It* now wishes to proceed with the first of the many questions presented by the energizer today regarding the Galactic Federation.

## THE GALACTIC CONFEDERATION AND THE ORION EMPIRE (More on the 12 Planets)

### QUESTION:

What was the origin of the Federation and who initiated it? Was it a case of one or more representatives from each of the constellations? It is assumed that the constellation of Orion, also referred to as the Giant, or the Hunter, is not part of the federation.

### COSMIC AWARENESS:

This Awareness wishes to intervene at this point, to address the beginning of the questions, regarding the Galactic Federation, and the Orion Empire. This Awareness has spoken before of the 12 planets that support human life, and that these 12 planets have humanoid inhabitants, humanoid consciousness. The planet earth, Terra, as it is indeed one of the 12 planets is considered the child of the 12, the youngest planet of human consciousness. It is a planet that is well favored and thought of kindly, not unlike a family with a young child who is growing into maturity every day. So is the planet Terra, known also as earth, seen by the Galactic Federation. It is the child planet, the youngest of all of the 12, the last that has brought to it human consciousness, humanoid beings.

#### Human Life Spread to Other Planets by "The Ancient Ones"

The other 11 planets are ancient in description and come from times back in history that can be measured in the millions of years. The system of Orion was one of the first of the 12 planets, for it too contains humanoid life, human consciousness. The original planets that came together were Orion, the Pleiadian system, the Sirian system, the Arcturian system, the Vegan system and the Andromedan systems. These planets, these systems started all individually. Human life was spread to these separate systems by an even more ancient group, that group known as the Ancient Ones.

#### Orion System Became a Rogue Planet and Drops Out

The seeds of human consciousness were spread to the 12 systems and the solar system and the planet earth were one of the 12. This Awareness wishes to also state that the Orion system became tainted in its desire to be the chief power and have power over all others, and it fell away from that federation of the 12 planets that contain human life, and it became a rogue planet, a rogue system, and created a new empire, and it turned to others to be part of its empire, such as the Reptilian Draco system, the Zeta Reticuli, the Blue Dwarf beings that are also part of the Orion Empire. Several others

also became part of that faction known now as the Orion Empire, and the original 12 were reduced down to 11, however, there is another human planet that came in.

#### The Sirian Planet is Added and Becomes the 12<sup>th</sup> Planet

In fact, the solar system, the Sirian planet was added at that point, becoming the 12<sup>th</sup> planet with human life. It is one of the reasons why the Orion Empire feels that it has the right to claim this 12<sup>th</sup> system, this 12<sup>th</sup> human planet with human life, for it too is of the humanoid species, as a form of human consciousness, and as it is and was one of the parent planets and parent systems, it feels that it has a right to claim the descendants on this planet who are part of the 12 planets that hold human life. It would be 13 if Orion was still to be considered; 13 being of course a magical and mysterious number.

#### Orion and the Galactic Federation Have Fought for Eons

It is because of this that there has been a tension and a battle over the planet earth between the Galactic Federation and the Orion Empire. This is a battle that extends back for hundreds of thousands of years. The battle between the Orion Empire and the Galactic Federation is indeed long standing in nature. This Awareness wishes all to understand that this struggle has been so long and is so deep in human consciousness, that it still resides in the cellular structure of humanity as ancient memory. The entity Zechariah Sitchin in his studies and research has uncovered traces of this struggle going back into the writings of the inhabitants of the planet earth going back thousands of years, alluding to the gods that walked amongst the humans at the time. At different stages, these gods were considered as mythical, but this Awareness states that these were extraterrestrial beings on the planet at the time.

The Twelfth Planet referred to in Zecharia Sitchin's work, that planet Niburu, or Tiamat, was a planet that at one time housed Orion beings, from the Orion system, and they originally settled the planet, and claimed it for their own. They created life on *this* planet. At first, as the books indicate, they themselves provided the labor to mine the gold and other precious metals and resources from this planet. After awhile, they tired of providing such menial services themselves, and instead, brought in the Sirians geneticists, who worked with genetic engineering, and thus it was the Sirians who produced the strain of modern humanity, who brought human life on this planet.

#### How the Sirians Genetically Created Human Beings That Eventually Would Evolve Spiritually

They were assisted by those Orion agents, including Reptilian beings who were also on the planet, and had been by the Orions, for they too traveled on that planet Niburu. A struggle ensued between those forces, the Reptilians and the Sirians. Those Sirian geneticists understood that the being they were creating would be suppressed, would be a being that was a corruption of the human consciousness and the humanoid faction or strains of the 12<sup>th</sup> Planet, and this they could not abide, so in secret, they planned to create a strain of human beings that would one day eventually evolve to a place of spiritual awareness and understanding.

The original beings were a grafted being. The original humans had both a portion of the Reptilian brain as well as the mammalian simian brain, grafted on to one another, creating this new human strain that is somewhat different than the strain of humans on those other planets, and yet each strain is unique and different in itself, so there was no problem seen with the creation of this new human being, this new addition to the 12 planets that hold human life.

#### Due to Long Distance Viewing the Sirians Could See All This

This was all seen by the Sirians, due to long-distance viewing in time itself, and it was understood that it would take millennia before those beings that the Sirians had created would come into full fruition, and reach a place of spiritual evolution that would allow them to ascend to a new level of consciousness, a new level of participation in the Galactic Federation. That time is coming. That time is at hand, yet there is still a battle between the original inhabitants of this planet Terra with the Galactic Federation who have prepared humanity for this next stage of the evolution, and that is the battle rages at this time, even now, between the Orion Empire and the Galactic Federation.

This is a very brief summation of the history of the development of the human strain on Terra, its purpose, its goals, those who created it, those who sought to enslave it, and indeed still seek to enslave it. This Awareness wishes to move to another portion of the commentary presented by the energizer for further discussion.

## DOES A COMMONALITY EXIST AMONG THE 11 PLANETS?

(How Like Humans on Earth Are These Entities?)

#### QUESTION:

How do these groups, the other 11, differ from each other regarding lifestyle, entertainment, enjoyment, family structures and culture in particular, as well as what is their mode of transportation, etc., or if perhaps these are not part of their culture, what do they do for such entertainment? Does a commonality exist between all of these groups?

#### COSMIC AWARENESS:

Yes indeed, there is commonality amongst all of the groups. It is why they are known as the 12 planets that support human life. Thus, all are strains of human consciousness and humanoid beings. If all were placed side by side in a room, it would be apparent that all have a genetic root that is seen to be human in nature. They would be seen as unique representations of the human species with some variance and differences among each. It has already been stated that the humans of the planet Terra (earth) have the unique distinction of having the Reptilian brain grafted on to the mammalian simian brain, thus giving it a uniqueness of its own.

#### What Sirians and Pleiadians Look Like

The other groups also each have their own uniqueness. The Sirian strain is unique. There are no reptilian energies involved in these beings, but their genetic features are somewhat different than those of Pleiadians. They are seen to be long in feature, long in limb, long in fingers and appendages. They are seen to have strikingly blue eyes and long blondish hair. The Pleiadians also look somewhat similar, and yet there is, again, a difference to them also. The Pleiadians also have quite a different cultural background. Their cultural mores and ways are quite different than the others. They believe in a more open environment in their society, especially sexually.

#### A Peek at the Arcturians

They hold different attitudes and principles in this than perhaps the Arcturians do. The Arcturians are seen to be noble people, with high morals, especially morals towards governance for the people and by the people. They are seen to be smaller in stature somewhat, and yet there is a nobility to them that is easily seen and noticed.

It is from the Arcturian strain that the concept of King Arthur and his people comes. The Arcturians are very present at this time in the consciousness of humankind, and is the foremost leading group of the 12 that is seeking to help assist humanity in the process of spiritual evolution at this time.

#### Our Crop Circles are Created by the Arcturians

Of course the Pleiadians, the Sirians and the Vegans are also involved, but at this time, over the last five years, the Arcturians' presence has actually made itself known more strongly on the planet itself. This being so, it is a leader at this time. It is why there is so much interest in Arcturius, why so many people are aware of Arcturius, have been channeling Arcturius. It has been the Arcturians in particular who have been laying down the phenomenon known as the crop circles. They are indeed formed by the Arcturians. They are symbols and codes and communications that are being left on the planet for humans to discover and to behold.

#### The 12 Planets All Have a Sense of Family

The discussion is about the 12 planets and the Galactic Federation, so this Awareness wishes all to understand that while each is unique and different both in the appearance of each as well as their cultural differences, there is that commonality that understands that they all indeed come from the same strain, from the same point of origin, and that this is why there is that sense of family amongst all of the 12, and that the 13<sup>th</sup> member, that which is no longer a member of the 12 planets: the Orions, do indeed have a longing within them to return back to the fold, but at this point they do not know how this is to be accomplished, and at this point they still come from that place of darkness, of that which is the Dark Forces, and it is their dark energy that is at this time affecting the planet Terra, and has controlled it for so long.

This Awareness is complete, but of course welcomes more discussion on this matter, both from the energizer and from other members of the organization. It is ready to move on.

## Family Structure on the Other Planets

(How Childbirth Is Handled Compared to Earth)

#### QUESTION:

Family structure and culture on these other planets.. Could you comment on this please?

#### COSMIC AWARENESS:

This is indeed a relevant question, for the family structures on the other 11 planets are recognized to be of extreme importance, but it is dealt with quite differently than is so on this planet Terra. On Terra, basically any human woman can bear life, and birth a child. Any male and female couple can come together and create life. There is of course a spiritual element to this, for no child is ever born onto this planet without an agreement between mother, father and child. First of all the deeper agreement of them coming together to create the life, and then the agreement of the soul in agreement with the mother and father who will host that soul and give birth and life to it.

#### There Are No Accidents When Birth is Concerned

This agreement is such that without an agreement, no human being can host that spark of consciousness: the soul spark. There is no way that a soul will just enter into a life randomly or by accident. In other words, there are no accidents whatsoever into the birth of a child. This is all part of the spiritual process of bringing life

into human form. On the planet earth, Terra, it is given to a degree of irresponsibility if you will, for it has not been seen or acknowledged yet that the bringing of life onto this planet carries with it a great responsibility, a great weight. And while it is so there is the factor of a mother's love being a deep instinctual love towards the child, and a father's love being a protective instinct towards the child, many are the occasions where the child being born into a family unit arises the situation and occurs the situation of abuse, of hardship, of the passing on of issues and problems from generation to generation.

#### Birth and Birth Control on Other Planets

There is no training. There is no qualification. There is no necessity to understand the importance of the role of being a parent, or being parents, and in effect, anyone can do it, and in effect, everyone does it, have children. This Awareness is not saying that the having of children on the planet earth is a bad thing. It is the way it is done that has not yet reached a point or a place of spiritual evolution and deeper understanding. How it is done on the other planets is through a consciousness, a conscious awareness of the importance of the role of being a birth mother, a birth father. Not all Pleiadians will have children. Not all Arcturians or Vegans will have children. This is a specific role filled by those who are suited to be parents, and who have that instinct, that calling, that desire to be parents.

On these planets, this is acknowledged and supported. If it is so that the purpose of one's life at a stage is to be a parent, then that woman, that man will be completely supported on all levels: financially, physically, morally. It is set up that the birthing of children is highly esteemed and a very sacred task indeed, for the children indeed hold the future of the people, and when those children are allowed to be born with no qualifications of the parents towards raising those children, to ensuring the highest be reached for those children, by those children, then there are great difficulties that are incurred. Many problems are passed down from generation to generation at that deeper level.

It is seen by those other planets that this is not appropriate, and because they have reached a higher level of spiritual awareness, steps have been taken over the millennia that have honed this whole area, that have focused the participation of those who would be parents. It is not necessary for all to be parents, to be mothers and fathers, but for those who have that calling, that desire, there is great support, there is great assistance in this process, there is training, and there is a level of community that supports all who choose to be parents, who choose to step into this most honored and most sacred role.

This level of Awareness is approaching in human consciousness on the planet Terra. Part of the Ascension process will also evolve the awareness of the importance of being parents, of the task and the honor that is involved: the task being raising children in a healthy, clear and strong way, and the honor for doing so, for being a parent. Those who choose to be parents do so for a number of years and then of course involve themselves with other tasks and other chores, knowing that they have completed a very important task in their society.

This level of awareness and understanding is approaching for the humans on the planet terra also.

## IS THERE A BIRTH CONTROL METHOD THAT'S SAFE & REALLY WORKS?

#### QUESTION:

Thank you. I really appreciate the insights that have been offered, and I'm sure the members will as well. On a relevant level, there's another question concerning birth control that came from Millie P., from Tucson, Arizona.

She writes: "In a recent newsletter, old birth control information was reprinted. There still does not appear to be a safe and natural form of birth control available. The choices still out there (the pill, IUD, etc.) are inconvenient or dangerous for women. Is there anything out there for effective birth control that is both safe and convenient?" Also, another question that I had related to that was "Please discuss victim-hood; unwanted pregnancies due to rape or otherwise, and the action of giving one's power away to others for whatever reason."

Millie carries on "Neem oil was once said to be effective when ingested by the man for six months prior to the need for birth control. Does this oil work effectively for this purpose?"

Is there something that woman can ingest instead, since they're more likely to remember such a regimen? Thanks, MP, in Arizona."

#### COSMIC AWARENESS:

##### No Such Thing as An "Accidental" Birth

This Awareness has already begun to comment on this matter in the previous question, when *It* stated that *no child* ever comes onto this planet earth *without intent and without agreement*. Thus, there is no such thing as an accidental birth. Jumping to the part of the question that related to a woman who became pregnant through a rape or an act of violence against that woman, that while on the one level it is indeed an act of violence and this Awareness does not condone such a thing, but *It* still must point out that the child that is the product of such a coupling, even if it appeared that the woman did not wish to be raped and become pregnant, *still* has that element of a child coming into life only through a deeper soul agreement.

##### Couples Have Agreed to Create a Child Even If It Takes Rape

It is seen that on that level of consciousness, that agreement is made at the spirit level, between the mother and the father and the child, or the soul that wishes to be born. The manner of the coupling, of the coming together of the mother and father is that which is also discussed. The norm is for a man and a woman to come together voluntarily in agreement, but for the nature of certain karmic lessons, of deeper soul lessons, sometimes the agreement is to come together under a violent circumstance, such as in a rape.

If a woman becomes pregnant in that rape, even though it may be felt that she had no desire to become pregnant, that it was not her wish, that this is not entirely true, for at the deepest level, in the agreement to host and bear a human life, the agreement *must* be given, or else that soul, that spirit, that soul spark *cannot* enter into human life. It simply cannot. End of question; end of problem. There is not a way that a soul will come into human existence if a mother does not wish to have life grow within her and to bear life.

This will become the norm for birth control. At this time, there simply is no guarantee to any form of birth control as being 100% absolutely effective in preventing

birth. If it is the desire and the agreement for a child to be born, for that soul spark to find its way into a human body no matter what kind of protection is used, no matter if it is this man oil that was mentioned, an IUD, the pill or a condom. If it is the purpose for a child to be born, then an accident *will* happen that will allow this to be so. Of course, there are no accidents, so when this Awareness says an accident will occur, *It* is being facetious. It is *no* accident when a child is born.

#### An Increase in Sexual Freedom is Coming Soon

With the times coming and with the expansion of consciousness to the Divine Nature, the sacred nature of parenthood, that those who seek to be parents will do so in complete and full consciousness. That means that there will not be a pregnancy occurring unless it was desired. Thus, in terms of sexual freedom, there will be an increase in sexual freedom, for there will not be a worry or a strain on a couple who are having sexual intercourse that there might be an unwanted pregnancy. This will not occur. A soul will not enter into that sexual union. Conception will not occur, if there is no agreement to it, but when there *is* agreement, then all factors will work together to bring human life into the host body and the woman will agree to it, and it will not be an accident, it cannot be an accident. The father will agree to it also, and the child will get its wish to be born.

This is what this Awareness has to offer on this subject at this time.

### Giving One's Power Away

(More on Victimhood)

#### QUESTION:

Thank you. Could you comment on the action of giving one's power away to others, for whatever reason, whether this be with regard to birth, or otherwise?

#### COSMIC AWARENESS:

There are multiple areas and levels to this question. This Awareness needs to know if it is specifically in line with the question preceding it, that being of giving life, birthing a child? Is this what is meant by giving power away?

#### QUESTIONER:

No, it is more in terms of ...giving power over whatever that may be, away to another person.

#### COSMIC AWARENESS:

There is no way that a being gives their power away, unless they choose to give it away. There may be ignorance around this choice. There may be a misunderstanding around this choice. There may be karma around this choice that is being invoked so that an experience can be had, ultimately, the giving away of one's power is so that a lesson can be received, an experience can be had that is meant to teach one. However, this does not mean that this is always understood or perceived.

Humanity is at this time still asleep to its greater understanding and awareness, because it is asleep in consciousness still. This means that many do not understand that a choice is made to call in an experience in life and that the common mentality is that of victimhood. It is supported in the society itself and by society that all are victims, that there is no choice, there is no right to say no, and thus, it is seen that if one takes another's power, that this is how it is, whereas the truth is that at the deepest level, *all* experiences are called in. All experiences are a matter of choice, whether a choice

at the deepest level of consciousness and awareness or at a surface level where there is an actual choice that is made.

Because of this mentality of victim-hood, it is easy for a person to think they had no choice and to blame another for the actions that befell them, that were perpetrated onto them. Thus it is that a woman, in a sense of victim-hood, still asleep to the deeper levels of choice and the deeper reasons for such choices, would perhaps hold that she was a victim, that she gave away her power, or that her power was taken, that she had no choice in the matter, and this simply happened to her, by the actions of someone else. While this is so, on one level of understanding, at the deeper level it is not so.

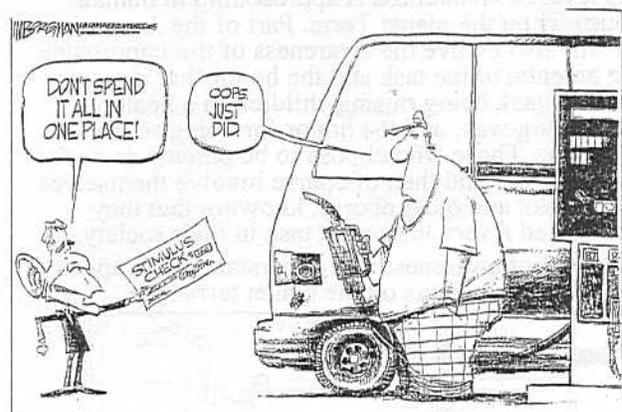

#### All Experience is Set Up Before Birth on This Plane

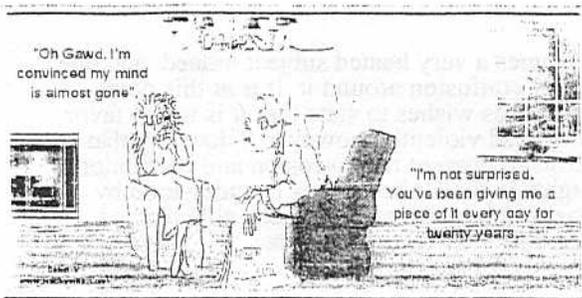

At the deeper level of consciousness it is understood what experiences are needed by the individual in a lifetime. Indeed, these experiences are set up before the individual even enters into physical life for they are all part of the life purpose that the individual, the spirit, the soul, has chosen for itself to experience on the journey of physical life. Thus, rapes are often understood at that deeper level, are often called in at that deeper level. In the case of karma for example, the 'victim' who is raped, may herself have been a rapist in another lifetime. This experience is not so much called in as a punishment but as a way of understanding both sides of that coin, both of being the victim to an act of rape as well as being a rapist who has inflicted their desire, their needs, their violence, onto the victim.

Ultimately, in terms of the soul experience, the full picture is understood, the full picture is accepted. That is not how it is viewed on the level of human consciousness that holds victim-hood as the primary way of things, that would blame everything on others and not take on responsibility themselves for what has occurred. A rise in awareness, a rise in understanding will change this. Those who have reached a certain level of enlightenment understand that all is called in for a reason; even those occasional random events do still have a deeper purpose behind them that can be understood.

#### When Random Events Occur

Random events often happen when there is an unwillingness to move forward with the planned action, thus calling in that which is considered a random event. However, when it is dug into deeper, it is understood and seen that perhaps even random events have a purpose behind them. There is really no way that an individual gives their power away unless they do so in a state of ignorance, unless they do so while they are still asleep to the truth of their real being and their real power. That is the only way that power can be given away, and yet it is not truly given away.

## Role-Playing: Why Two Factions

### QUESTION:

There's a question here from John Locke, Chattanooga, Tennessee. He writes, "I'm reading the latest issue of CAC and enjoying it very much. It has a very positive message about the near future changes. The dam is now cracking. I just wondered how the aliens fit in to these changes, both the good aliens, like the Nordics, and the negative aliens, such as the Reptoids. Could you please ask Awareness this question? Thank you."

### COSMIC AWARENESS:

This Awareness has already presented a discussion of why there is conflict between the two groups: the Galactic Federation and the Orion Empire. On another level, however, there is also that level of spiritual awareness that understands that there is an evolutionary process for all consciousness. These two factions, the good and the bad, also play a role in sparking the evolutionary process that mankind is going through at this time. Therefore, those who would work in darkness and who would promote the darker forces, also have their role, as do those who work in the Light, who are here to provoke an experience of the Light, and that the two come together, even though they are extraterrestrial in nature, to assist in that time in that evolutionary spiritual process that is unfolding at this time.

This is the answer that this Awareness has to the question.

## Cuteness: What's Behind It?

(Those Huge Eyes of a Baby)

### QUESTION:

(Thank you) Our next question concerns cuteness. It's from Millie P., in Tucson, Arizona. She asks: "Can Awareness please explain our reaction to cuteness? When people see things they consider cute, they usually feel a need to draw in their shoulders or squeal, and/or make a face. Many women want to pinch the cheeks of cute children, or simply squeeze them in general. I've noticed also the urge to clench my teeth and/or "devour" the cute thing, whatever it is. Seriously, what's behind all of that? Thanks."

### COSMIC AWARENESS:

That which is behind cuteness is a connection to infancy or to babies, to children, and that has to do with a state of purity that is available at that time. Babies are born with their eyes huge, for it is so that the human eye is already fully developed, even in that young infant child, that baby. It is often seen that that which is cute has this connection to childhood, to infants, to babies. The huge eyes for example, have been used by different people, artists and groups. The organization known as Disney often draws their animated characters with huge eyes. The Japanese anime cartoons also employ this same technique, thus their characters often have the huge

infant-like eyes that are perceived across the board by humanity as being cute.

### That Overwhelming Urge to Pinch Baby's Cheek

Women are especially drawn to such infant cuteness, and it evokes within women a strong maternal reaction, thus the pinching of the cheeks of a cute child. It is guaranteed that the cute child does not like its cheeks being pinched, and yet the overwhelming urge of a woman towards this cute child is to acknowledge it, and one way this is done is through the pinching of cheeks or the squealing of appreciation of the cuteness that is there. Animals also are seen to be cute in their younger stages, thus puppies and kittens with their large eyes are seen to be cute and irresistible.

A young shark is not considered to be cute. A young mollusk or lobster or crustacean is not considered to be cute for they do not fall within this parameter of cuteness that is held by humanity. It very much has to do with young children and that pure and innocent state that all humans go through, that the human child goes through, as it becomes the human teenager. At that point the cuteness is already starting to fall away. Thus, by the time that the human being becomes the adult being, that memory of cuteness is seen reflected in the child and in children and in young creatures that are mammalian in nature.

This is what cuteness is all about, and this Awareness appreciates this cute question.

## Does the UN Still Want to Disarm America?

(The Right to Keep and Bear Arms)

### QUESTION:

(Thank you) Our next question is from Maeve Fitzgerald, from Rocks Spring, Wyoming. It concerns firearms and Americans. She writes, "I'm working my way through the 1994-1995 newsletters at this time. I find that Awareness states that the UN needs to find a way to disarm Americans. Is this still a necessity? Is this why so many of our soldiers are deployed out of the country? I read in *Yahoo News* that the US is the most heavily armed (civilian) nation in the world, with 90 firearms per 100 people. Would Awareness please comment on this? Thank you"

### COSMIC AWARENESS:

This is a huge question indeed, for while on the surface it appears that predominance of so many weapons is a negative factor in a nation's character, there is much more to this. The matter of troop deployment also is a much deeper issue. First of all, this Awareness wishes to remind all that the right to bear arms is a fundamental freedom guaranteed in the Constitution of the nation of the United States of America. It was seen and understood by the founding fathers that there might always be danger of an irresponsible government usurping the rights of the people.

It was understood that the rights of the individual and of the people were far more important than a controlling government, a tyranny, a regime that would abuse their power, and the right to bear arms was seen as a way of preventing such an occurrence from happening. This is why it is so deep in the consciousness of the American people that they have the right to bear arms, and that this is a way of protecting themselves and their loved ones from an overbearing dictatorial government.

It is exactly this that is now occurring in the United States of America and it is for this reason why the American government is trying to take away the rights

of the individual to bear arms, for it is seen that there are more arms in the hands of free citizens than there are in the arms and hands of the military and the police and other agencies of the government that have the right to bear arms. This creates an effective force of opposition against the dictatorial government that would seek to enslave the people of the United States of America.

This being so, that is one reason why the right to bear arms is an important issue at this time. The right to bear arms prevents a corrupt government from enslaving the people. At this time what is occurring are many incidences being perpetrated that are an abuse of arms. There is no denying that arms in the hands of those who are violent in nature, or who would use the weapons to create for themselves to force others to do what they wish, to steal from others; these are not in the highest realms of what this Awareness is talking about in the freedom to bear arms.

#### A Deeper Purpose Behind Virginia Tech-Type Slaughters

It is exactly these incidences as well as the events of killing of many people in a rampage by a disenfranchised individual that are making the headlines. There is a deeper purpose behind such events as the killings at Virginia Tech and more recent campus killings. By bringing such things to the forefront of consciousness, the cry goes out that weapons *should* be taken away, that the right to bear arms should be removed from the individual, that the American individual should not be allowed to have arms, for look at the results of those crazies who go into the campuses and schools and the malls of America and arbitrarily shoot individuals down, kill and slaughter the innocent. Of course, this has a strong emotional energy to it and on the one level, this Awareness certainly cannot and does not support arms for this purpose. This is never a good enough reason to bear arms.

However, *It* needs to speak that there is an ulterior motive. Many of these incidences are deliberately set up for the purpose of creating a backlash against the bearing of arms. Responsible individuals who have an awareness of why they bear arms are not the ones who go into malls and into the schools and shoot individuals down. These are often individual who are on the edge and who are psychologically provoked through means that this Awareness is not prepared to discuss at this time, but has discussed at other times.

These individuals, through a form of mind control, often are provoked into such incidences so that there is indeed this backlash, this response to take away arms. There are nations, such as the nation of Canada, where individuals also bear arms, but there are far less incidences of murder and of abuse of the weapons. Why is it so that the United States of America has such rampant violence and abuse of firearms? It is because the right to bear arms as provided in the Constitution, acknowledged and foresaw a time where a government might try to take away the power of the people and enslave the people.

In a nation like Canada, that government control is of a different order. In some ways the nation of Canada is already under stricter control by its government than the government of the United States of America and the people of America. This being so, there is more freedom in America to voice opposition to the government through use of arms against a corrupt government, against a government that would invoke its will upon the people. That is why the weapons and arms were guaranteed under the Constitution of America.

This becomes a very heated subject indeed, and one that has a lot of confusion around it. It is at this point that this Awareness wishes to state that *It* is not in favor of arms being used violently, however *It* does say that the use of arms to prevent the corrosion and corruption of human rights in the United States is understood by this Awareness. *It* hopes that *It* has been able to shed some light on this very complex matter.

#### QUESTIONER:

(Thank you) Your comments are very much appreciated. We have about 5 minutes left on the tape. Is the Interpreter getting tired?

#### COSMIC AWARENESS:

At this time the Interpreter is almost at a state of being complete in his energies and this Awareness does suggest that it is time to bring the Interpreter back.

#### QUESTIONER:

Is there a closing message?

#### COSMIC AWARENESS:

At this time there is no closing message from this Awareness.

### WHAT IS COSMIC AWARENESS?

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the 'New Age' of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully trained channels. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these various channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel what is the truth. Cosmic Awareness will only 'indicate' and 'suggest'. Neither C.A.C. or any of the interpreters is responsible for anything Cosmic Awareness states in any of these readings, nor does C.A.C. or the interpreters necessarily agree with the statements of Cosmic Awareness. The interpreters interpret the energies as they see them in trance levels and are not personally responsible for what is said. The interpreters published herein have no connection with, nor control over the editorial comments and material, including illustrations. This is entirely the responsibility of the editor. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication in this newsletter.

The Cosmic Laws of Cosmic Awareness...

### The Law of Change

This Awareness indicates there is a Law which governs all things, and allows no thing to remain unchecked, and allows no checks to remain unchanged. That in anything seen, done, experienced or known, you may look at it and say with absolute certainty: "This too will pass." This Awareness indicates this as the *Law of Change*.

### Wisdom of Awareness...

#### You Were Intended to be Godlike

This Awareness indicates as the third dimension melts and the fourth dimension materializes or emerges, you also discover that the mind which you possess has the capability of manifesting in this new reality. You can manifest food. Even though the old three dimensional world may have left starving entities, you now have the ability to manifest the food you need right out of thin air, just as the yogi's of Tibet and India have been known to do for many, many ages.

This Awareness indicates that as entities reach within themselves, find the essence of their own God-like being within, they can manifest in this new reality, this new creation, to satisfy the needs of each moment. This Awareness indicates that it is important for entities to keep in mind those things that this Awareness has told you: The universe appears and disappears every four quadrillionths of a second, and because each four quadrillionths of a second is a totally new universe, you can create in that next moment those things that are necessary for your new universe to sustain life, to sustain those things you need.

This will be the great security that entities seek: You *become* the rainbow's end. You *become* the pot of gold, rather than *pursuing* the pot of gold at the end of the rainbow. You become the one who manifests the reality you seek. This Awareness indicates that as you learn to create your world with each step, as you learn to move from moment to moment creating your new reality, you will then realize you are *indeed* a multidimensional being with God-like abilities.

This Awareness indicates that many will think this is a sacrilegious statement: that humans cannot, should not, and would not rightfully ever consider themselves as God-like, but this Awareness suggests that the Ultimate Divinity, the Ultimate Creator *intended* for His or Hers or *Its* creation to become likened unto *Itself*, to have similar powers of creation.

This Awareness indicates you cannot, as a third dimensional lesser being equate yourself with the Divine Being, but as you move into such Divinity yourself, then you become One with the Creator, One with the Divine Father, and thus have similar abilities, similar empowerment.

(Law of Love is given and a count of 12) Does Awareness have an opening message?

## THESE ARE EXCITING TIMES: MAGIC AND MIRACLES ARE HAPPENING ALL AROUND YOU (How You Create Your Own Reality as Creative Beings)

### COSMIC AWARENESS:

This Awareness does have an opening message at this time. *It* wishes for all those who read this message and hear this message, to understand that they are in a state of transition, that they are participants in great events that are occurring all around them at this time; not simply those events that are shown on the evening news which are controlled events, events that are shown to the public to foster a certain attitude and opinion to hold those who view the nightly news into that box of perception that is so very controlled by those powers that be.

This is known by many, but even knowing this does not always translate to individuals starting to look outside of the box. While it may be known that the powers that be control the information and the news it is sometimes difficult for the Light Workers to see the miracles in their own lives, and to understand the beauty of what is transpiring around them without getting caught up in the negativity, the fear, the ignorance. These are indeed amazing times, challenging times, interesting times, but they are also times of great magic and miracles. They are times where the potential of transformation and transmutation are available on a daily basis.

### The Challenge to go Beyond the Negative Events "Out there"

It is the challenge of all to go beyond the negativity of the events that are taking place 'out there', and to start realizing the significance of the little events, the miraculous events happening in here, and by "in here", this Awareness is referring to each and every individual's personal space, their own field of experiences. At this time it is much more important to stay focused on one's own personal experiences than it is to become too involved in the external activities of the world, those activities being the events reported on the nightly news. This Awareness is not saying it is not good at this time to feel involved in external affairs, but that they need to be on a more personal level versus just panicking or feeling confused or fearful about those events that are going on in the world that are beyond their control.

It is indeed part of the agenda to create a continuous state of fear and apprehension in the populace, for it is so much easier to control and manipulate a populace in fear and panic than those who are calm, cool and collected, and who do not buy into the agenda of those who are in powers. It is for this reason that the news is always so negative and why it is that the main messages is that the individual has no ability or capacity to make a difference, to change matters in the least. This message is contrary to the truth. The message that this Awareness wishes to deliver at this time is that it is the individual's perception of the *reality of their own life* that matters the most.

### People Must Stop Seeing Themselves as "Victims"

It is imperative that the individual stop seeing himself or herself as a victim, stop seeing themselves as powerless to change anything, because they are after all only one person, and switch the focus to that one person being the source of all change, for it is with the individ-

ual that the perception begins to the reality that is around them. If that perception of the reality around them is intruded upon or altered or manipulated by those powers that be, by the sources that have control on the physical level of this planet, then it will never be understood how one creates their own reality, how what is being experienced is the direct result of the beliefs, the mind-sets, the attitudes held by the individual.

### How One Thought Can Create Your Reality

It is imperative now, as these amazing times progress and proceed, to begin to understand how one's own beliefs and attitudes so clearly define one's own reality, and that the perception of a reality that is negative and hopeless, will indeed, through the belief of such, create a negative hopeless reality. The seam is so complete that one cannot see where one thought begins and the other ends, how one's thoughts create the reality, for if it is understood or perceived that the reality from outside is what is more important, then it will be impossible for an individual to ever consider that he or she can change anything of the world outside themselves, and indeed would be hard-pressed to change anything in their own lives.

This is exactly what the powers that be would wish all to believe, for as one believes it so, as one believes that it is the forces outside of the self that has greater power to create the world around them than they themselves, then they do not see how it is they themselves that are creating the reality based on those assumptions, beliefs, mindsets that they have bought into, that have been force-fed upon them. The seam is flawless, and that is why so many cannot see that they themselves are the Creator Beings of their lives, because they have bought into a reality not of their making, but rather one that has been passed on to them, and which they have accepted and never question, and every time that they watch the news, this concept and belief is reinforced and they continue, each and every individual continues to continue creating a world of negativity, fear, violence, hopelessness, confusion and chaos.

### Reinforcing the "Lull Before The Storm" Information

In these amazing times, it is now imperative that each individual begin redefining themselves, rediscovering themselves, going deeply into their own beliefs and attitudes. This is indeed a time of deep and powerful introspection, and this Awareness has spoken of this and to this matter in that which is known as the *Lull Before the Storm*.\* *It* wishes to reinforce that previous message by again expressing how important it is for the individual at this time to dig deeply into the core of their being, to ferret out those core beliefs, those inner attitudes that have embraced a mass-message that is conflicting or perhaps blocking the creation of a reality more to the liking of the individual.

\*Revelations of Awareness issue 2008-1 (The Lull Before the Storm)

By doing so, by ferreting out these core beliefs, these negative beliefs and attitudes, and by deliberately choosing to release them and change them and transform them, the individual will start to create a world more to his or her liking. It may not happen immediately. This is something that this Awareness wishes at this time to express every clearly. It may not happen immediately, but it *will* happen, if one continues to have faith that altering the beliefs and attitudes held at the deepest levels will indeed have an effect on the individual's life. The problem is, of course, is this does not manifest instantly and immediately, many lose patience, and think that this doesn't work, this is a flawed way of thinking, and they return back to that mindset that says they have

no power, they are impotent and powerless to make any changes in the world, or even their lives.

#### **Why the Book and Movie "The Secret" Disappoints Some Entities**

This Awareness reminds all how deeply the social conditioning goes, how deeply mass-beliefs are held at the collective level and of course at the personal level, and because these mass-beliefs are also personal beliefs, it is not always simply a matter of thinking differently and having a different result immediately. In the movie "The Secret", the suggestion was that to create a vision board, or to put out those positive intents would immediately result in success, in change. Many have since discovered that it does not always work this way and have become discouraged and despondent when they failed to have the success seemingly guaranteed in the movie and the book "The Secret."

This is not because what "The Secret" was putting out was wrong or erroneous. Rather, there were certain things that were not quite included, such as the power of core beliefs to sabotage the implementation and creation of ones' desire. One may say to oneself that they are open to abundance and prosperity and eventually this message will get through to the low self, and eventually the low self may change the reality around the individual towards financial success and abundance, but if a core belief is held by the individual that they do not deserve wealth or financial success, this core belief, this attitude of negativity will always sabotage the intent towards wealth and abundance. That is why this core belief and negative attitude must be discovered and brought to the surface and recognized and acknowledged and must be changed and released.

#### **Core Beliefs Can Sabotage What You Want to Create**

Once this occurs, then the attitude towards abundance and prosperity can be realized, but if one does not seek deeply within themselves core beliefs that are sabotaging their intention, then one will always go manifesting, or perhaps not manifesting that which is their deeper belief. That is why this Awareness is saying how important it is to go inwards at this time, to deal with the deep emotional issues, the core beliefs and attitudes that still affect each and every individual.

The Light Workers have a responsibility now to focus on themselves so that they can indeed overcome these negative beliefs, attitudes and emotions, and by doing so, they free themselves and release themselves from the box of collective mass consciousness and beliefs and are free to start a new path, a new way, are free to raise their vibrations to match the rising vibrations of planet earth, of Gaia. That is why this Awareness invites all to start looking for the miraculous events of their lives; even the little events of synchronicity that are occurring with more and more frequency, for each time such an event of synchronicity occurs, each time a little miracle occurs, an individual understands and knows that they have started to change their inner core beliefs, for it is allowing such events, such positive occurrences to take place in their lives.

#### **More Synchronicity (Coincidence) Occurring is a Sign You Are Creating**

That synchronicity is that state of meaningful coincidence that indicates a deeper connection to the spiritual flow, to the High Self, and to those levels of consciousness that go beyond physical third dimensional reality. These small miracles, and sometimes even large miracles will do much to confirm and uphold a new set of beliefs and attitudes that the individual is indeed the true creator of his or her reality, and that each individual has the power to effect deep and profound change not

only in their own lives, but in the greater collective also, the world itself.

#### **One Individual Can Change the World**

Thus if the individual begins to understand this and work this and have faith in this process then they can understand that the individual can indeed change the world, and with one individual holding such powerful belief, connecting with another who can also learn to hold such beliefs, connecting with others who have such strong powerful beliefs, then indeed, anything can occur. The world can be changed because of one individual and his or her belief in something different.

These are indeed amazing times. This Awareness invites all to have fun, to play, and to be open to these amazing times and all that they have to offer. This Awareness is complete with *Its* opening message and invites the questions to be presented at this time.

#### **As Creator Beings Thoughts Are So Important (Gaia is Moving Into Her Light Body)**

QUESTIONER (JOAN):

The part that came through very strongly was the importance of a person's thoughts and the energies that they project by these thoughts, and I thank you for that.

COSMIC AWARENESS:

This Awareness does state again that it must be recognized by all that they are Creator Beings, and to be in ignorance of this or to deny this is the single greatest obstacle at this time that must be overcome by those who would wish to move into the higher vibrations that are unfolding all around them at this time. The Interpreter earlier in the day in speaking with a friend was given an analogy of what is happening. This friend spoke to the Interpreter and said that Gaia was moving into her Light Body, and this would of course infer that Mother Earth herself is also shifting vibrationally, as are the many who are starting to understand and comprehend that they too are moving into their Light Bodies, the higher vibrational essence of their being that would correspond to the vibrational essence of Mother Earth, of Gaia.

#### **As Beings of Light We Can Create the Circumstances of our Life**

This is achieved through leaving behind the old heavy energies that are indicative of a planet of consciousness that does not understand the higher principles, the higher truths, that would still hold that all are victims to outside events, circumstances and individuals, whereas the highest understanding and perception is that as Beings of Light, we can create the circumstances of our life. It is held that all who hold this are responsible for doing exactly so, and that the "we" becomes a collective we, a wholeness, a oneness, of many coming together at a higher vibration, at a higher frequency that would allow them to be in the Light Body of Mother Earth.

#### **Mother Earth's Light Body is "Planet A" the Ascension Planet**

It is this Light Body of Mother Earth that is what this Awareness has referred to in the past as Planet A, the Planet of Ascension, the Light Body of Ascension. Those who are themselves creating their own Light Bodies are indeed involved not only in their own personal process of Ascension, but also the planetary process of Ascensions that is at this time taking place. That is why this Awareness suggests that these are interesting and amazing times, and that the onus and responsibility of each individual at this time is to dig deeply into themselves, their own being, their own emotional foundation, to bring out, to heal, to release

those negative thoughts, beliefs, attitudes and emotions that prevent them from stepping in to their Light Bodies, that prevent them from expanding their consciousness and becoming a part of the process of Ascension that is occurring at this time.

This Awareness is complete.

QUESTIONER:

(Thank you) It's almost like moving everything up a notch.

COSMIC AWARENESS:

This is correct.

QUESTIONER:

Can I offer some questions?

COSMIC AWARENESS:

This Awareness is open to the questions the energizer has for *It*.

### More Questions on Prehistory of Humans (Questions Continue From a Previous Reading)

QUESTION:

These are three questions concerning prehistory and the races. They're somehow related in the sense that they are all on the same topic, and they are from three different individuals. Would you prefer that all three be read for a combined reply, or should I just read each one at a time?

COSMIC AWARENESS:

This Awareness suggests that each individual query is read first, and perhaps at the end this Awareness will tie all three together.

### THE BUILDING OF THE SPHINX (What Races Were Around at That Time?)

QUESTION:

This first one comes from Paul Somerville, from Fenton, Michigan. He writes "As many newsletters as I've read, some things just are not clear. I was reading 2001-7, reading that those who built the Sphinx came from the constellation Leo. Okay, but who were they? What races were living on the planet at that time? I'd like an approximate date for the Sphinx. Awareness said the Jehovah group came much much later. When Jehovah created the Adam and Eve types with a reptile brain, were they experimenting with the Neanderthal types? What races already existed?"

If the red race came from the Atlans in Vega, the Whites came from one place, the area of the blacks was being encroached on by Reptoids, so someone brought them there; the brown race is a mixture of others, and the yellow race came up from hollow earth, then who created the yellow race? If Jehovah only made the Semites from around 10,000 BC, why do all racial groups have a reptile brain with a mammal brain from the dolphins placed on top of that?

Awareness described the original Egyptians as alien in appearance with a wide upper head, narrow mouth, and pointed chin. What aliens were involved and where did they come from? When Atlanteans migrated to Egypt, did they take control of the leadership positions?"

Can Awareness comment on this one, or should I read the next?

COSMIC AWARENESS:

There is indeed enough in this first opening question that could preoccupy this Awareness for hours, so *It* would suggest that *It* remains with this question at this time. The first level of the question being asked is: What races were around at the time of Sphinx and the building of the Sphinx. It is seen that this was the influence of the race of the Anunnaki, those wanderers of what Zecharia Sitchin referred to as the 12<sup>th</sup> Planet, the wandering planet which came through at that time. The individuals involved, particularly Enki and Enlil, were very involved in the building of the Pyramid, and even proceeding the pyramid: the building of the Sphinx.

#### The Egyptian God Thoth (Enki) Built the Sphinx

At the same time, the Assyrians were part of the genetic building of humanity. This all going back hundreds of thousands of years, so that many of the races that were formed were genetically created. Going back to the Egyptian period, the Sphinx was built by that Egyptian God known as Thoth. This would be Enki in the Anunnaki understanding of the individual involved; Thoth being the magical god who had the understanding of the powers needed to create such an edifice as the Sphinx.

This is a matter of great complexity. At the time of the building of the Sphinx, there were no other beings in that land known as Egypt, for so old is the Sphinx that beings were brought into that region to create it, to build it. While that individual now known as Thoth was the chief architect and engineer, he too was that being known as Enki, the Anunnaki, who had a great love for the beings being created by himself and his Sirian colleagues and associates in the labs. He was also vilified at a later date, given a bad rep, so to speak.

The Sphinx was built at a time that was the beginning of that area that was colonized and became what is now known as Egypt. This Awareness said that there was no one there in the region where the Sphinx was built. This does not mean that there was no one in the area known as Egypt or the lower Nile areas. The building of the Sphinx and then later on the pyramids, was created at the time to be an edifice of the occupying race, and at that time there was no mystery around the Sphinx itself.

#### The Lion's Body Represented Leo and the Face was Enki

It represented the peoples from the Leo constellation and region: hence the lion's body. The human face was the face of the humanoid Enki, the Anunnaki people, and those who were building it recognized and understood this, but this truth was lost and now the Sphinx is understood as a mysterious character, when in truth it was more an edifice to those who had come from this great distance and who colonized this region.

This Awareness asks if the energizer has a question at this point.

QUESTIONER:

Not at this point.

COSMIC AWARENESS:

*It* wishes more of the original question read, for *It* feels *It* has gone astray.

#### Who Were the Entities Who Built the Sphinx? (Harmonics Used to Lift Stones of Great Weight)

QUESTION CONTINUES:

I was reading that those who built the Sphinx came from the constellation Leo. Okay, but who were they?

## COSMIC AWARENESS:

This Awareness will answer this directly. *It* has spoken of this. They were the Anunnaki. They were those space travelers on the traveling 12<sup>th</sup> Planet, Tiamat, that built the Sphinx, using humanoids for physical labor, but also employing great tools of technology that are not known of today, using harmonics, thus being able to lift stones of great weight, and to cut with lasers and to use great knowledge and wisdom to create the Sphinx, the pyramids and other structures of the ancient world. The laborers there were to do more menial tasks, but the great task; the great lifting of stones and all was completed by the Anunnaki, by the guidance of Thoth, the chief architect and engineer.

## QUESTIONER:

The approximate date for the building of the Sphinx?

## COSMIC AWARENESS:

Approximately 10,000 BC

## QUESTION:

Were there other races living on the planet at the same time?

## COSMIC AWARENESS:

This is so. The Atlanteans were definitely in existence in the area, but this was still a very different group of individuals and people, and there was much extraterrestrial contact with that group known as the Atlanteans. They preceded this building of the Sphinx and were here for many thousands of years before. It is often considered that civilization started approximately 10,000 years BC, but all that happened was that there was a shift from the people that were on the planet at this time, the Atlanteans in particular, and there were other races on the planet not as highly developed or advanced. Such is even the condition in these times, where there are more primitive tribes of peoples still living who do not come from that highly technologically advanced civilization that occupies the Western world. Such was the case in Atlantean times. There were indigenous peoples in different regions, and there were indigenous peoples in the Egyptian area, but these peoples were used to help build the structures, and when the Atlanteans colonized into areas of Egypt, the Mediterranean, England, that local people were often used as servants to take care of the needs of those Atlantean colonists who came into these regions.

It is seen that there is a connection with the chief architect Thoth and the Atlantis and the Atlanteans; that he himself was an Atlantean, as well as part of the Anunnaki. This is seen as confusing, but this Awareness simply says that this race of beings already was interacting with the peoples of the planet in a very active way. Later on they built their temples and their habitats at the top of the pyramid structures, at the top of the Ziggurats of Babylon, and became worshiped by the peoples of the space below, the land below the Ziggurats. They even existed in Atlantean times as well.

## The Shift in the Poles

## QUESTION: (This Was Part of the Downfall of Atlantis)

The shift that was mentioned, is that the shift of the poles- the North and South Poles, or is that a different shift in consciousness, or what shift would you be referring to there?

## COSMIC AWARENESS:

The shift in the poles. There is geological evidence that the magnetic fields did shift at that time, but this too was part of the downfall of Atlantis, the sinking of Atlantis. Much more occurred than the simple disruption of the geological foundation below the continent of Atlantis. At that time there was a polar shift, and the whole planet flip-flopped at the same time, which is one of the reasons why the destruction of the continent was so thorough and complete. The whole planet went through a desperate traumatic time through this shift of the poles, the volcanic eruptions and the sinking of that continent now known as Atlantis.

## Were Neanderthal Types Available for Experiments?

## QUESTION:

Awareness said the Jehovah group came much much later. When Jehovah created the Adam and Eve types with a reptile brain, were they experimenting with the Neanderthal types? What races already existed?

## COSMIC AWARENESS:

There were indeed the Neanderthal types available to the genetic exploration of those beings that took this on, those beings as the Anunnaki, once again, in association and assisted by the Sirians. They took these races and manipulated them, grafted on the Reptilian/ Mammalian brain and created a specie of Homo sapiens, or Cro-Magnon men. This eventually became modern man. These experimentations were done far, far greater back in time than 10,000 BC, and this is part of that which was known as the Jehovah group that this Awareness has spoke of in previous times.

## Who Created the Yellow Race?

## QUESTION:

If the red race came from the Atlans in Vega, the Whites came from one place, the area of the blacks was being encroached on by Reptoids, so someone brought them there; the brown race is a mixture of others, and the yellow race came up from hollow earth, then who created the yellow race? If Jehovah only made the Semites from around 10,000 BC, why do all racial groups have a reptile brain with a mammal brain from the dolphins placed on top of that?

## COSMIC AWARENESS:

This does indeed go back into the genetic work done by Enki, as well as his Sirian colleagues. This goes back to the original human beings that were created; the Homo sapiens, the modern man that they were trying to create as a slave population to work in the mines of Africa and throughout the planet at that time. This precedes even the Atlantean race, and this core stem being was the being from which all other races eventually arose from: the yellow, red, the white and the black.

It is correct that the red race stemmed from the Atlanteans, but even before Atlantis, this work was done to create the genetic template for humans, and this goes back several hundred thousands years, so far back that it is difficult at this time to understand how far back in time this was, for it is beyond the comprehension of many who understand civilization started at 10,000 BC,

when in truth, 300,000 years ago, there were these beings *already* on this planet, already starting to create the slave race that eventually became humanity in the various forms, the various races.

It was the Anunnaki, through Enki and the Sirians who created the original Adam/Eve prototypes. All of this has been discussed very adequately in the books of Zecharia Sitchin that this Awareness recommends to the readership.\* This Awareness is complete with this question.

### Why Do All Racial Groups Have Reptilian Brains?

#### QUESTION:

The last part of the question: If Jehovah only made the Semites from around 10,000 BC, why do all racial groups have a reptile brain with a mammal brain from the dolphins placed on top of that? Is there any particular reason for that?

#### COSMIC AWARENESS:

The reason was due to the Sirian intervention. This was not the original goal. In the creation of a slave race it was understood that what would be preferred is a subspecies that did not have a highly developed capacity for thought that would simply be followers, who would do what was commanded, without question, without thought. It was the Sirians who understood that this would not be something that they could be involved in. They chose to graft on the mammalian brain to the reptilian brain with the thought that eventually, at some point in human history and evolution, that which they were creating, the Homo sapiens being, would be able to think for itself, and be able to question and deny its more reptilian nature.

The reptilian part of the brain was seen as that part which would make the following of orders, rigid regime, order regularity, all of this as paramount to the slave beings that were being created, but as the Sirians understood it, this was not something that they could totally support, and with Enki's assistance and help, they secretly created a being that would have this potential at a later date because of the grafting of the reptilian to the mammalian. At first the mammalian was not supposed to be such a highly evolved brain or have such a capacity that the dolphin brain would have, but that is why this was done in secret, and against orders, if you will.

#### Enki's Transformation of Humans Into Higher Beings Finally Arrived

This created a being that in the beginning was subservient, was the slave being, but with time started to go against the gods themselves until now a time has been reached, the evolutionary place has been reached that the Sirians and others of that which is now known as the Galactic Federation, once understood and saw as being the eventually outcome, the transformation of the original being into a higher conscious being, even eclipsing and exceeding the Reptilians themselves, whose brains are not hotwired for such an evolutionary process, who will always have a tendency towards regimentation, order, hierarchical structure. There are Reptilians who also have advanced, who have reached higher levels of consciousness themselves, but the main group of Reptilians has this tendency to be devout followers and not necessarily high thinkers, but even within the Reptilians there are different levels of consciousness, just as it is among Homo sapiens.

Many are approaching this point of spiritual evolution, of the quantum leap into the higher frequencies, but many are still at a lower level of consciousness and are not ready to advance at this time. This was all seen so far back in time by the Sirians, and it was an ultimate goal that they understood could one day be achieved, even if it did take hundreds of thousands of years. This is why the mammalian brain was grafted to the reptilian brain. At first, it was presented as the perfect combination of the slave race, that they would follow their orders diligently, but still have a capacity to think things out, so that they were able to work out problems that needed a certain degree of intelligence to deal with, but there was a hidden agenda behind this also: that being that the eventual evolution of the Homo sapiens would bring it to a condition where it would exceed its original masters and then even beyond that, would come finally to a point of spiritual evolution, of transformation to a higher consciousness and a higher conscious being.

### The Original Egyptians Were Alien in Appearance

#### QUESTION:

That's amazing; we're definitely very fortunate. The last part of this question is: "Awareness described the original Egyptians as alien in appearance with a wide upper head, narrow mouth, and pointed chin. What aliens were involved and where did they come from? When Atlanteans migrated to Egypt, did they take control of the leadership positions?"

#### COSMIC AWARENESS:

This Awareness has answered this question several times over. These were the original Anunnaki, those beings that traveled in the 12<sup>th</sup> Planet, the planet Tiamat, and they are so described in texts as having the broad forehead, the narrower bottom face, the chin, the nose, and the lips. This is indeed how the Anunnaki looked, and still do.

### Who Took Leadership Positions in Egypt?

#### QUESTION:

Hmm. Then this last part: "When Atlanteans migrated to Egypt, did they take control of the leadership positions?"

#### COSMIC AWARENESS:

It is seen that the Atlanteans colonized the Egyptian area, the lower delta in particular. The Anunnaki were already a part of the society of the Atlanteans, and some of the Anunnaki found a great affinity to the colonized regions that are now known as the lower Nile region, as well as Egypt itself, so they have a natural predisposition towards colonizing that area. There is not seen any conflict as such, simply a moving into an area that in an earlier time was still largely abandoned and left to the indigenous beings of that region. Those indigenous beings also were a part of the genetic manipulation that had occurred at a far earlier stage.

The Anunnaki that were Atlanteans, remembering that many of the Anunnaki had left their planet to live on this planet, and became the ruling classes, the rulers of the worlds then; many of those ruling Anunnaki then took on the leadership roles of the original Pharaohs and it is the Pharaohs that most had the appearance of the Anunnaki because they *were* the Anunnaki.

## The Anunnaki Are Returning to Earth Now

(Battles rage in space between the Anunnaki and Reptilians)

### QUESTIONER:

And it is the Anunnaki that are returning to earth at this particular time, is that correct?

### COSMIC AWARENESS:

This is correct. It is this race that still feels that they have the right to control, dominate and manipulate this planet. The Reptilian forces have always been subservient to them, as have the Orion forces, but there is also conflict, for the Orions have tried to overcome the Anunnaki, so there is seen a battle of sorts occurring among the different factions at this time. The Orions, for many thousands of years were left alone on this planet and they feel that it is now theirs, this being mostly from that period 10,000 BC onward in time. The Anunnaki largely left for a space of time, and there is a conflict and a battle now between those two forces, but at one point, the Orions, the Reptilians, were subjugated to the will of the Anunnaki forces.

### QUESTION:

I see. Will the "battle" between the two take place on earth or in outer space?

### COSMIC AWARENESS:

The battle is taking place all over, already. There are battles in outer space. There are battles on this planet, mostly battles of the powers and the powers that be. There is even seen in those controlling factions and forces a division of loyalties to the various extraterrestrial beings and forces. Some are giving their allegiance to the Orions, who have so long controlled and manipulated the planet, and that is mostly the political forces that have been and are in power now, and have been in power so for long, but there are others who are starting to find a greater alliance with the Anunnaki and their agents, and there are many struggles behind the scenes for power at this time.

## Which Party Has The Power?

### QUESTION:

Would it be correct to say that Anunnaki are aligned with one particular party and the Orions, the Reptoids are aligned with another, or is it more complex than that?

### COSMIC AWARENESS:

It is indeed more complex than that. The Orions and the servants of the Orions, the Reptilians, do indeed hold most of the power of those that this Awareness has referred to as the powers that be, but the Anunnaki are starting to rise up by bringing forth those individuals who are starting to challenge the existing forces that are in power. It is seen that there is a situation in the United States where there is an act of impeachment against the present president, but this is something that is part of this struggle that this Awareness has been talking about.

The entity Wanta\*, this Awareness is not sure of the spelling or pronunciation, but this can be researched- but there is through him a civil legal action being taken out for the impeachment of the president of the United States as well as the paying off of this individual of trillions of dollars that are said to be owed to him. Decisions have already been made in his favor, but these decisions are not being honored by the president or his cohorts. This is leading to a situation that is highly

sensitive indeed, but is also very secretive and still not reported by the press.

\*Leo E. Wanta (Go to Google and type in his name to see what he is up to. Ed

## Light Workers and Rising Consciousness is Yet Another Element

This is one of those actions between the powers that be, the Orion based powers, and the Anunnaki and their rising powers. By that, this Awareness means those who are in conjunction with them. There is also another element to this, and that the element of the Light, the Light Beings, the Light Workers, who are not aligned with either of the two old factions that are struggling for dominance on this planet, and thus there is seen a third way, a third way that this Awareness has talked of, the rising consciousness, the higher vibrational frequencies, that would put those who acquire this level of vibration in their Light Bodies, which will then ascend with the planet that is itself ascending, that is itself creating its own Light Body, and this is almost a separate process to the conflict process that is occurring amongst the powers that be, the controllers of the planet.

That is why this is all confusing in some ways, for there is more than one game being played at this time.

### QUESTIONER:

We do have several questions on politics, but we won't have time for those today, because they can be quite lengthy. Did you want to carry on with the prehistory, and get this topic out of the way?

### COSMIC AWARENESS:

This is so.

## How Did Sirians Evolve & Come to Earth?

(How the 12 Human Races in the Galaxy Came to Be)

### QUESTION:

Okay. This is a very short one. I think you already answered this already. This is from Maeve Fitzgerald, Rock Springs, Wyoming. She asks, "Awareness speaks of the Sirians as being human. How long ago did they first come to earth prior to the civilization 200 thousand years ago? Where did they evolve or become human?"

### COSMIC AWARENESS:

This Awareness wishes to correct this somewhat. The Sirians are humanoid. of humanoid making. This Awareness is seeking the proper description at this time. The Sirians are humanoid. There were several humanoid species. Indeed, there were twelve: the Twelve Human Races. These 12 Human Races developed in different areas of the galaxy. The Sirians developed in that which is the Sirius constellation; the planetary alignment around the double sun. There are other humanoid/human races or species.

### In the Galaxy Planet Earth is Referred to as the Child Planet

There are the Arcturians, the Pleiadians, the Vegans, those from the constellation of Andromeda. The planet earth and the humans that developed on this planet were the last to be developed. This planet is often referred to as the child planet. The humans that arose here with the assistance of the Sirians and others of the Galactic Federation are the children of the family, if you will. That is one reason why they have had such a journey. It is seen almost as if the child is a problem child, and has not yet reached its level of maturity where it could take its rightful place among the 12 Star Nation Tribes, the Star Nation's peoples, the extraterrestrial beings who came to the planet in the first place to develop human life.

## The Anunnaki Are One of the 12 Original Star Nation Peoples

The Anunnaki are one of the 12 original Star Nation peoples. This is why there is an interest by the others of the Galactic Federation to assist that which is seen as the youngest child of the family to grow up, to reach maturity and to find its own potential. It was understood and seen by the Sirians as well as others of the Galactic Federation, the importance that the child planet, this planet Earth, held to the 12 Star Nation Tribes. It was open, it was that which would be a way forward, and it was for this reason that the Sirians chose to help in the evolutionary process.

There were humanoid beings on this planet before the genetic manipulations created modern man, but that the spiritual evolution of this race would have taken many more millions of years, and it is one of the reasons why the Sirians chose to become involved in the genetic engineering of the humanoids. They did not want to see the genetic manipulation of one of the members of their Star Nation family be corrupted by Anunnaki.

The Anunnaki are seen to have been somewhat of a rebel, of a breakaway race to some degree, but because they too were part of the 12 Star Nation group, this is why the Sirians and the Anunnaki could work together. That being known as Enki held more the Sirian beliefs and attitudes, and why it was that he chose to work with them in such close harmony to create the potential Star Being that would birth itself at some point. This Awareness asks if this makes sense to the energizer, or if there is need to explain this further?

QUESTIONER:

No, I think in light of everything that's been said on this topic, I think it's quite clear.

COSMIC AWARENESS:

Then this Awareness wishes to move on.

## The Implanted Genetic Memory That all Blacks are Slaves For All Lifetimes

(More on Hurricane Katrina and New Orleans)

QUESTION:

(Thank you) There is another question on the black race. This is from Cathy Walters, from Canton, Ohio. She writes, "In the book *Blue Blood, True Blood*", a genetic memory was planted in all races to think the blacks as slaves for all lifetimes. My question: Is that why the blacks are still badly treated in New Orleans, trying to destroy public housing so Trump can come in and build hotels and change the structure? They are having a bad time there, tearing down homes that are okay in New Orleans; a house can be demolished without telling or letting the people know. Why is the black race still hated? More blacks are in prison than ever. Privatization is the new norm now." Thank you for any information offered on this particular situation for Cathy.

COSMIC AWARENESS:

This is a question that this Awareness sees in two parts, one having to do with very ancient manipulations and genetic engineering, and one having to do with the present political situation that to some degree even arose out of those original manipulations. The black race was one of the original inhabitants of that continent now known as Africa. Back in history, in time, these humanoid beings, which became darker in their skin tone as preventive way of surviving a hot arid environment, were used originally by the Anunnaki to create a slave being. The later formulation of that which is known as

the Adam & Eve creation used the white skinned humanoids.

Before this, there were the humanoids created by only the Anunnaki, who became the workers of the mines and these beings were not given the conscious level of awareness or understanding that the later creation was endowed with, for it was their reasoning that they did not wish to have a slave race who could think for themselves, thus they took the humanoid beings who were indigenous to the region, who were darker in skin tone than the lighter skinned brothers and sisters in other regions of the planet, and worked with them, did their genetic engineering on these beings, thus creating a being that could be used in the mines and for other menial tasks, who were indeed a slave race.

Later on, it was seen that this was not a successful experiment, for these beings could not think for themselves. They were not designed for that, but this caused problems for there were situations where a degree of comprehension was required to deal with problems that presented themselves at the mining sites and elsewhere, and this is why a second genetic project was undertaken, to create a being that had a higher degree of comprehension and a capability to think for itself. This Awareness has already spoken of that process and procedure, but the original beings, the dark ones, were always seen as inferior, and held to be so by their masters and creators.

### A Thought-Form Held in Humanity

This somehow became translated into the future generic manifestations: those beings that were created at the later stage. It was this original schism that created a Thought Form held in humanity, that the black race was inferior, that they were the slave race, and it was promulgated by the master race themselves: many of these extraterrestrials that stayed on the planet, that controlled the affairs of humanity behind the scenes, that held that the original creation of this slave race still holds sway. It was still felt and believed that the black race was the slave race, the inferior race, and this was absorbed into the consciousness of the species created later.

### Hurricane Katrina a Preplanned Event Against Blacks

Thus, it is held by the white race that the black race is somehow inferior, is somehow still the slave race. This persists even into these modern present times. This being so, this Awareness can now move on to the second part of the explanation of the question: that the destruction of the areas that were inhabited by the blacks in New Orleans was preplanned. The whole destruction of that region by Hurricane Katrina was a preplanned event, for the purpose of clearing out that entire region, so that those homes and houses, those communities where the ghetto blacks lived could be finally eradicated, for the lands that they occupied were considered valuable lands and lands that were desired by those who had power, those who had the means to destroy the existing houses and homes, taking them over and creating what they wanted in the region.

The mention of Donald Trump as one of those individuals, but he is not the only one involved. There are many who understood and knew, for this was something that was planned many years before, and carried out against these blacks, who are still held by those in power as inferior, as not being worthy of assistance, help or replacing of the homes and the communities that were destroyed. It was seen as okay to simply destroy this area and reclaim it for the needs and desires of those who had the money and wished to make more money by building an area of casinos and hotels

and other establishments that could be used for the fun and pleasure of the whites and those who would come into those areas.

The problem was that those areas were occupied by these black people and ghettos were there which were hard to get rid of, and this is why the powers that be came up with the plan of a natural disaster that would totally wipe out this region, so they could then move in, because the black individuals had no significance, had no real meaning, could have their lands taken easily, and that is what the plan was all about. It did not work at first, for the Hurricane Katrina was to destroy the levee and let the waters in, but this did not occur, even though the levee had been rigged to collapse with the hurricane hitting it.

#### **Why the Levee Was Exploded in the Middle of the Night**

This is why the levee was exploded in the middle of the night, letting the waters into the region that the many black people lived in, ultimately destroying that area of the houses, or causing great damage. Not all the houses were destroyed as was presented in the question, but the peoples themselves were driven out in a horrific manner, with no care or attention taken to them or their needs; no compassion, no heart being shown to them. This is still part of that original programming that happened so many hundreds of thousands of years ago that still lies deep in the character of those who are in charge and this is held on a societal level, but on an unconscious level.

#### **Realize Skin Tone Doesn't Matter—Humans Do Not Differ (We All Have Had Many Lives in All the Different Races)**

This Awareness must speak this: It is something that can be easily overcome when an individual realizes that this makes no sense. This racial prejudice is only maintained in ignorance, and that once questions are asked, once it is understood and seen that there is no difference between one human to another, no matter what the skin tone or color, and once it is also understood that all beings through the process of reincarnation have lived all lifetimes, have been members of both genders and members of all races; once this is understood, then the whole prejudicial attitude falls away.

This is not so with the controllers, for they still hold that they are the superior ones, and that they are white, and this is why they can so easily take such an abominable action against other human beings, but this is why the action of destroying the ghetto region of New Orleans was taken and why it is still felt to this day, why houses are still being destroyed, for the intent was *never* to return all the families and individuals back to this rebuilt region. It was rather to reclaim it and to divert it to new reasons of use. The use that it is meant to be put to now is more for the pleasure of the powerful ones, the ones who would make a profit from this, and quite simply the blacks and their communities were in the way for this being so. They simply saw this as an obstacle, which they dealt with. That was why the Hurricane Katrina and the exploding of the levee were allowed to occur.

These were indeed manipulated events, and to think otherwise only allows the ignorance to continue and shows that those who believe so have not yet begun to question the actions of those who are in power. This Awareness feels complete with this question.

QUESTIONER:

(Thank you) It's admirable how these people are able to endure the hardships that they did.

COSMIC AWARENESS:

This Awareness wishes to make comment on that. It is admirable indeed, but it is also part of that which is the human condition, that a soul will enter into as part of their human experience. That is why this Awareness spoke that *all* individuals have been whites, blacks, red and yellow peoples, have been both male and female in many lifetimes. These are all seen as part of the human condition that the soul has chosen to incarnate into for the reason of growth and soul advancement.

QUESTIONER:

Thank you for the information on that. It was very revealing. The last question could be quite lengthy. Should we save this for another time?

COSMIC AWARENESS:

This Awareness prefers to save the question for another time, for the next session.

### **Stolen and Forged Lottery Tickets (Can the Lottery be Rigged?)**

QUESTION:

There are two separate letters, the first from James Mosley, from Hesperia, California. He writes: "Back in March of this year I visited a few days my sister who lives in Calgary, Alberta. The daily paper ran articles about how across the country the police proved many millions of lottery dollars collected were absconded by sellers. What about the USA?"

And the other question is related to the same thing. Should I read this one?

COSMIC AWARENESS:

Please.

QUESTION:

It is from Jerry Doffing, from Frederick, Wisconsin. He says "Also a few years ago I was listening to Alex Jones on the shortwave radio. He was going into detail how the lottery in his area was rigged, so certain people would always hit the multimillion jackpots. He gave examples of one police chief winning two big wins in a row, and another public official hit the big one. He went into details how the winning numbers were drawn, then another ticket was printed with the winning numbers on it, and given to their chosen person." It's more of a comment than a question. Could Awareness please comment on these?

COSMIC AWARENESS:

There is indeed manipulation of the lottery and this does indeed happen in the United States, as the first question asks if it does happen there. The incident of the stealing of Lotto tickets by venders was indeed an event that did happen in Canada, but it was discovered and regulations have been placed that prevent this from happening, and things have changed in that country so that a vender cannot simply claim an individual's ticket for it must be signed each and every time. This has not yet occurred in the United States.

Such theft by venders does indeed happen. It is not reported upon, but it does indeed happen.

#### **Manipulated Lotteries to Pay Off Certain Entities**

More serious is the manipulation of the lottery numbers or the printing of a lottery ticket after the drawing of the numbers to be given as massive payouts to certain individuals, which are now public, and the public is not supposed to question this, for the winning of a lottery is

such a random event that they do not see or understand that perhaps this was a manipulated event, a way to pay off certain individuals for services rendered, and this is one of the vagaries of the lottery system that does still occur in the United States, but this is not really a matter of great significance, for these kind of individuals will be paid out one way or another, whether it is through bogus lottery tickets or not.

Generally speaking, the lotteries are still available to individuals as a way of calling into their lives huge amounts of money, which may in the end be more of a curse than a blessing. This Awareness is complete with the answer.

QUESTIONER:

Everything comes around, right?

COSMIC AWARENESS:

This is indeed so.

QUESTIONER:

We're coming towards the end of the tape. Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness feels that there is no need for a closing message at this time, for *It* feels that this session will be continued at a later date\*. *It* simply wishes to bring things to a conclusion and to bring the Interpreter out of his deep state.

Thank you)

The Law of Gratitude is given and a count of 12)

## THE COSMIC AWARENESS SPIRITUAL DEVELOPMENT COURSE

LESSON NUMBER TWO VOLUME FOUR: CANCER

Moon Child (Imagination)

QUESTION:

Awareness, we are gathered here tonight for the second lesson of the Correspondence Course in the Sea of the Moon Child. The second lesson is that which is concerned with the imagination as a builder, building the world of form, working as a partner of mind, the partner of mind being likened unto the mother - mind being the male principle, and matter its offspring.

COSMIC AWARENESS:

This Awareness indicates this action of focusing, of taking that which is large and focusing it into a point, of taking that which is a big picture and bringing it down to a snapshot, of taking that which is a large concept, an image seen in consciousness and decreasing it down to the size of a word, of taking these words and ideas which are the offspring, or seeds of images, these seeds being allowed to grow by adding the water and nourishment of spirit to recreate their original picture or image - these seeds known as words can be conveyed from place to place, from entity to entity, much more easily than can the crop of images.

The full-blown tree cannot be passed from one entity's territory to another as easily as can the seed from the tree - the acorn. The full-blown concept, image, system of one nation or group, cannot be transferred from one place to another as easily as can the diagram, or the words which describe that system. Therefore, the action of taking images and putting these images into words, into pictures, into hieroglyphics, into letters, into symbols, shapes, designs, whereby the pictures, letters, or substitutes symbolize the original, yet take up less space in their conveying mechanisms, and whereby entities wishing to receive the message carried by these symbols, may simply look at the symbols and, having been trained, can decipher or decode these symbols and know what messages are being conveyed.

This Awareness indicates that in this manner, languages and communication are formed which allow messages to move from one center of imagination to another center of imagination, and the perceivers, or observers, can take these dehydrated images carried in words, symbols, or diagrams and can add the waters of Akasha, and lo and behold, the image reappears in the consciousness of that perceiver, that observer.

This Awareness indicates that the action of focusing, the action of transferring images into symbols is an action known as mind, and mind is the builder which structures and conveys images and allows communication on certain levels which could not otherwise occur in

the same manner. Yet, it happens that occasionally mind becomes so fixated in condensing images into their symbols, and becomes so fixated in the nature of manipulating symbols, thoughts, numbers, ideas, words, that the mind never takes the time to add the waters of Akasha and to experience the meaning behind the words, behind the numbers, behind the symbols, behind the diagram.

This Awareness indicates that this leads to over-specialization, whereby the system, the thinking mechanisms, overwhelm the experiential levels, and whereby the systems become masters over the beings who are served by the system. This Awareness indicates that in this manner the system becomes a tyrant, whether this system is within an entity or in a society or in the forces of consciousness. This Awareness indicates in this manner the system, which is made of unfeeling words, ideas, numbers, and patterns, which convey and manipulate and affect the other parts of consciousness - the system becomes the beast, becomes that which is devoid of feeling, of sensitivity, and of imagination.

This Awareness indicates that in recent times there was a movie, a series which was played upon your television, relating unto the genie who was married to an astronaut. This Awareness indicates this as "I Dream of Jeanie." This Awareness indicates that the symbolism of this show was that of the conscious mind, exemplified in the astronaut, and the subconscious mind, exemplified as Genie.

This Awareness indicates that the astronaut and the Genie, his wife, are in each of you as the thinker and the imager. This Awareness indicates that in each entity and in each thing there is the genie in the bottle and the one who can pull the cork to allow that genie to escape, and wherein you free the genie, the genie becomes your servant.

This Awareness indicates that wherein you free your imagination and communicate clearly with it, you have at your hands a servant which does serve you well. This Awareness indicates that wherein you cannot make friends with your imagination, or wherein you have great fear of your imagination, or hostility toward those things and those images which come from those deeper levels of yourself, this may be likened unto a house divided, and war within the household.

This Awareness wishes you now to observe the image of two entities within a house: the male entity being the mind, the female entity being the imagination. The house can be one whereby the mind rules like a tyrant, and the imagination is chained and locked into a cellar, never being allowed to glimpse anything outside for fear that the imagination might escape, or the imagination may be allowed certain freedoms under certain conditions, but very much controlled by the mind. Or the imagination may be such that it rebels and sneaks out when the mind is not looking, when the mind is asleep or is tired or is drunk, and in this manner, the mind fails to have an awareness of what is occurring in his house with his spouse. Or the mind can be such that it is totally enamored and charmed by the imagination and allows the imagination to float and parade and dance and sing and go where it will and feels great pride in allowing the imagination to soar (this house being one where the imagination runs wild and the mind simply smiles and does nothing). Or the house can be one wherein the imagination controls the mind and henpecks the mind, causing the mind to feel inferior, causing the mind to feel blocked and incapable of functioning. The imagination can become such that it completely over-

whelms and bullies the mind, trampling the mind, causing great guilt feelings and even leading the mind to suicide or to other violent crimes.

This Awareness indicates that these various approaches in this house have been given many names by your psychiatrists and psychologists. The various mental illnesses, the various forms of behavior can switch and change and play various roles as the imagination and the mind struggle for power through competitive life styles. This Awareness suggests, however, that a house built solidly, a home based on harmony and communication between the imagination and the mind, wherein there is the working agreement by the two as a team, rather than as competitors or possessions of one another - wherein this team begins to function, each in his or her own particular way, the mind and the imagination, working together, alternating in their own fashion, each giving what it can give for the betterment of the other: this leads to a harmonious home, and the harmonious home becomes that which brings forth bountiful joys and prosperity to its owner.

This Awareness indicates that your home is where it 'is.' That in your own being, which is your 'home,' there is the imagination and there is the mind, and wherein your mind and your imagination can come together in harmony without rebellion, one against the other, without desires to dominate one over the other - wherein there can be this harmony and the communication that follows such harmony (this within your own being), then you have at your disposal a situation that allows you to live your life integrated and in harmony with the forces of the universe.

This Awareness indicates that you have but the opportunity to begin where you are, for you cannot begin anywhere else. That your imagination may dream of other places or other times, yet this is but a dream, and you must turn and face the reality that you are married to a mind, and in being married to this mind, you must learn to communicate and relate in such a manner that your freedom is gained through a working harmony rather than through a rebellious war.

This Awareness indicates that as mind, you must look at your mate and recognize that her power is far greater than your reasoning ability, or your focusing ability, or your will, for there is no way that in your male supremacy you can forever dominate and control the feminine aspects of your imagination (your spouse), except that she allow this to occur, and wherein this imagination goes along with your domination, it is for her own purposes and not because of your masculine appeal.

This Awareness indicates that as mind, you must understand, before you lose all that you have created, that there is a change occurring in the nature of the universal forces which does not any longer condone the patriarchal type of consciousness symbolized by mind controlling nature. For nature - the subconscious, the imagination levels of the universe, of your being - nature has begun to rise up and rebel against the controls of mind, and a shifting of energies is occurring, and on all levels, communication is the only way whereby harmony and balance can occur.

This Awareness indicates that in order to save yourself from great difficulties, mind and imagination must come together as a working team, playing and enjoying each other's company.

This Awareness indicates that in terms of entities upon this plane, that you begin with where you are, look

at what you have going for yourself. Imagine that which is attainable; dream great dreams, but put your energies into those which are attainable; carve carefully with words, for those words which you use are carving out the images and the experiences which you shall be moving into during your future moments, or which you shall find yourself experiencing. Be very careful in terms of the words used to describe yourself and others, that your images are those which are pleasant and bring forth happiness and joy, yet which speaks truth when truth is needed, yet which speaks truth in a way that is gentle and loving.

This Awareness indicates that wherein you address yourself from the spoken words, addressing yourself which is your inner being (which is the 'spouse' - the genie in the bottle) - wherein you address this 'wife' within yourself, be very much aware of the self-image which you are creating, and do not create an image which you would not like to live with. This Awareness indicates that wherein you run yourself down, wherein you think hostile thoughts of yourself, wherein you heap guilt upon yourself, this is creating a wife who feels belittled, who feels incompetent, and who begins to serve from that belittled and incompetent level and who loses her magic and her ability to serve you well.

This Awareness suggests that in looking at yourself, that you begin to send forth positive and creative self-images which centralize and focus upon the better qualities and ignore levels of performance while these better qualities are emphasized, so that you begin to have a good feeling about yourself, about your wife which is yourself. And as you begin having a good feeling, the creative imagination (your spouse) will then begin to work for you, will gain confidence, will work with you, and you shall begin to have powers unlimited at your disposal.

This Awareness suggests that in the same way, you may relate also to others, and by relating to them in positive, creative images, words which bring forth happiness, others also shall begin to have good feelings about themselves. This Awareness indicates that good performance cannot come from entities who have low self-esteem, and self-esteem must come before the good performance can be expected. This Awareness suggests that wherein an entity has a low self-esteem, that you begin by ignoring the performance level and work instead on assisting that entity, or yourself if this is your situation, to develop a higher self-esteem.

This Awareness suggests that this may begin by listing all of the better qualities, those things which you can do well, those things which you appreciate about yourself or the other entity, and ignore all the other aspects which are not appreciated. This Awareness suggests in emphasizing the better qualities, the entity's self-esteem may begin to rise, and as this rises, the self-image begins to emerge in such a manner that the home becomes more enjoyable, and the relationship between the imagination and the mind creates a warmth that allows the scene which can bring forth flowers, fruits, and the joys of life.

This Awareness suggests this as the conclusion of the second lesson in the Sea of the Moon Child.

#### QUESTION (VIKKA):

Would it be appropriate to ask a question at this time?

#### COSMIC AWARENESS:

This in the affirmative.

#### QUESTION:

I can't feel a separation between my imagination and mind. I can't seem to feel one talking to the other: How can you tell if your imagination is free?

#### COSMIC AWARENESS:

This Awareness indicates that if there is no area within yourself which seeks to rebel against any other area of yourself, the indications are that your imagination is working well with the mind. That wherein there is the criticism of self, and yet there is the aspect within yourself that is continually causing problems which bring forth more criticism of self, the indications are there is a division between mind and imagination.

This Awareness indicates that wherein you are critical of others about you, the indications are that there is a division between you and your imagination, for your imagination is in tune and in harmony with the others about you. And if these relationships can be cleared up easily so that the divisions between you and others are not lingering or chronic and the relationships can be brought into harmony, the indications are that your imagination is working with your mind in assisting you in your relationships with others.

This Awareness indicates that one cannot criticize others without being critical of oneself, and wherein one is critical, that part which is critical will also criticize oneself, and the imagination (the spouse within) will feel that criticism as being her own and will respond to that criticism.

This Awareness indicates that wherein you condemn, judge, or criticize others harshly, there is an equal reaction of energy that goes directly to your wife, the bride within, the 'spouse,' the imagination within your 'house.' The hostile word toward another comes back and your own subconscious picks up... and takes this upon itself.

Wherein this is taken upon itself (a hostile word being sent out, returning to the subconscious or the imagination), this is assumed and incorporated into the being of the subconscious.

This Awareness suggests that you give out the carbon copy but keep the original yourself. That words spoken to others go out and go in and impress themselves upon the cells of your body.

Therefore, this Awareness suggests that you not criticize others, that you be careful in how you speak of others. That you may analyze, discuss, and talk with others in any manner so long as your efforts for the discussion are designed to bring about a reconciliation of any differences. But that you not emit hostile words or criticisms simply for the sake of dividing yourself from another, for the division will occur within yourself.

This Awareness suggests that the mind and the imagination can work in harmony. That in later lessons, discussions will center about how to enhance your imagination and delve more deeply into closer relationship, discovering the depths of each other's being.
