

The COSMIC LAWS

of COSMIC AWARENESS

COSMIC AWARENESS is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

The giving of the law

THE COSMIC LAWS AND PRECEPTS
OF COSMIC AWARENESS

(An Introduction)

Ever since Ralph Duby started to channel Cosmic Awareness, certain Cosmic Laws have been presented in the various readings. Through almost every Interpreter of Awareness, since 1963, some of these laws have been channeled. Most, however, have been channeled by Paul Shockley in the past few years, and these have been published by C.A.C. as they came through, mainly in the Revelations of Awareness newsletters.

This booklet contains all these laws to date that we were able to locate. There are probably more in personal readings, hundreds of tapes not yet transcribed. This is one reason why we ask all members who obtain Personal Readings or Trance Healing Readings from Awareness to send to C.A.C. headquarters a written transcription of their reading for our files. All this information is confidential, and if any is published, all reference to personal names and addresses is deleted. Awareness often gives valuable information in personal readings that should be shared by many. The Law of Love, in fact, first appeared in a Personal Reading. C.A.C. has on file all the original readings given through the Interpreters, Ralph Duby, David Worcester, and Paul Shockley. Most of the readings given through the Interpreters Dan Spivey and Tom Mooney we do not have on file as these were given when unaffiliated with an Awareness organization. Members who have readings from these Interpreters are requested to send xerox copies to C.A.C. for filing and research. If all of the thousands of readings given in the past 15 years could be gathered together, they may possibly equal the readings given by Edgar Cayce during his 50 years of interpreting.

Members are asked to study and meditate on these various Cosmic Laws and Precepts of Awareness. For within these Laws are the 'secrets of the ages' and the keys to 'survival' of the present age and the translation of your physical body into the New Age. Also, if one is to understand the basic philosophy of Awareness and Its terminology etc., these Laws and Precepts must be understood.

The following is an excerpt from a Personal Reading which instructs the entity regarding the Laws and Precepts:

COSMIC AWARENESS:

This Awareness indicates that this entity may also find much value in studying the new Laws which have been given by this Awareness; that these may be sent to you. This Awareness suggests that you take each of these Laws and spend approximately one or two weeks of meditation in your spare time, thinking about what is being said; really looking deeply at what is being said. This Awareness indicates in this manner you shall begin to discover levels of consciousness that few have ever glimpsed. This Awareness indicates by studying these Laws you can open your consciousness to a level which is likened unto a college education in comparison to a first or second grade education. This Awareness indicates that your wisdom shall expand ten-fold by studying these Laws with deep attention; that this is only the beginning.

THE LAWS OF COSMIC AWARENESS
(For Living in the New Age)

THE UNIVERSAL LAW

The Universal Law is that knowledge, that awareness, that all living things, that all life has within it that vitality, that strength, to gather from itself all things necessary for its growth and its fruition.

THE LAW OF LOVE

The Law of Love is that Law which places the welfare and the concern and the feeling for others above self. The Law of Love is that close affinity with all forces that you associate with as good. The Law of Love is that force which denies the existence of evil in the world, that resists not evil.

(ED's Note: Awareness has indicated that resistance only strengthens evil. Also refer to the Holy Bible: Matthew 6:38, 39).

THE LAW OF MERCY

The Law of Mercy is that Law which allows one to forgive all error; to forgive equally those who err against you as you err against them. This is to be merciful. To be merciful is akin to the Law of Love, and if one obeys the Law of Mercy there can be no error in the world.

THE LAW OF GRATITUDE

The Law of Gratitude is that sense of satisfaction where energy which has been given receives a certain reward. Energy that is given moves out on that curved and unequal line, and when extended far enough, can only return to its source bearing gifts.

(ED's Note: This Law is given after every trance reading and should be given by every entity who asks Awareness for anything: healings, information; after meditations etc.)

THE LAW OF REALITY

The Law of Reality is that Law which is measured by empirical formulae, which are set up in relation to dimension. If an object can be seen, can be heard, can be measured, can be felt, then this object is said to have reality. This is a measurable idea, something in the dimension of time as well as the dimension of energy and the dimension of form.

THE LAW OF ACTUALITY

The Law of Actuality is a very different idea. It is that Law which exists in the mind but not necessarily in the material form. It does not have to have dimension. It does not have to have form. It is what is believed.

THE LAW OF MACROCOSM AND MICROCOSM

The Law of Macrocosm and Microcosm is the first Law of infinity. This Law indicates that the whole is equal, more or less, to the sum of its parts, depending on the ordering of those parts. In each living thing, in everything that exists, there is within it some part of the whole. The whole is the grouping together of each of its parts in a certain order. An analogy of this is the sea or ocean in comparison with a drop of dew on the petal of a flower.

THE LAW OF THERMO-DYNAMICS

The Law of Thermo-Dynamics states that a body of higher heat or energy can transfer heat or energy to a lower body of heat or energy, but the lower body of heat or energy cannot transfer heat or energy to the higher body of heat or energy unless the lower body exerts enough energy to do so.

NEWTON'S LAWS OF MOTION

Newton's Laws of Motion: (1) Bodies of matter do not alter their motions in any way except as the result of forces applied to them. A body at rest remains at rest, or if in motion, it continues to move in the same direction with the same speed, unless a force is impressed upon it. (2) The second Law is made up of two distinct parts: (a) When different forces are allowed to act upon free bodies, the rates at which the momentum changes are proportional to the force applied. (b) The direction of the change in momentum by a force is that of line of action of the force. (3) The third Law is the Law that asserts the equality of 'action' and the 'reaction'. That is to say, that each action has its equal and opposite reaction.

VICO'S LAW OF 'RICORSI'

Vico's Law of 'Ricorsi' (1) To recur, to return upon the start of itself; to be cyclical. (2) 'Ricorsi' is the pure form of reflection; the turning or bending back of mind upon itself.

THE LAW OF ONE

This Awareness indicates all is one; there is the Law of One and all reside within this Law: That all souls are cells of the body of this Awareness; and when this Law is obeyed, there is no need for any entity to struggle or compete; for this is likened unto the parts of one's body fighting the other parts of one's body, and in general the body being at war with itself. With the Law of One you may be at peace in the body of this Awareness.

THE ARCHETYPAL LAW

The Archetypal Law is that Law which is the prototype for the echoing reflections of other laws. The Law of Archetypes as that which serves as the skeleton or framework for other laws. The first Archetypal Law as the Law of One. The second as the Law of Two, the third as the Law of Three. This apparent division as never-ending so long as the Law of Description is in effect. Concepts and personalities, numbers, shapes, forms, situations that serve as patterns for others to follow are archetypes, even as the pyramid was an archetype for the hierarchy systems, and the zodiac shall be the archetype for the new world order.

THE LAW OF DESCRIPTION

The Law of Description is that Law which serves as a tool for creative purposes. This as likened unto the paint brush of the artist, the chisel of the sculptor. Description as that which carves out images, creates boundaries, creates shapes and forms, creates limitations, creates confinements, and creates also those concepts which expand those boundaries to release from confinement. The Law of Description knows no morality. The Law of Description is capable of creating anything for any entity. This relates unto the Law of Magic in that anything described is on its course toward creating a manifestation to the degree of impact on its description. The nature of that manifestation depends upon the intensity of the collective or disruptive energies involved.

THE LAW OF AWARENESS

This Awareness indicates there is that Law of Awareness wherein this Awareness may observe that which is the illusion of separateness, yet not be confused by this illusion; whereby this Awareness may be aware of the illusion of tragedy, yet not be caught in that illusion; whereby this Awareness may be aware of that which is the illusion of death, yet not be caught in that illusion; whereby this Awareness may observe that which is the illusion of free will, yet not be caught in that illusion. There are certain limitations placed upon this Awareness which It cannot break. One of these being It cannot break Its own principles and laws; It cannot deny or reject those who would appear to separate themselves from this Awareness nor the movement and illusion of free will whereby they would do so.

THE LAW OF KARMA

The Law of Karma is that Law wherein entities arrange within themselves, on any level, to make just payment for any action committed that affects the welfare of oneself or another. The Law of Karma is irrevocable and may be depended upon to bring those who stray from the Law of Unity back into balance through this Divine Justice of the universe.

THE LAW OF UNITY

The Law of Unity is that Law which recognizes no separateness, which ignores the appearance and seemingness of separateness in the apparent divisions of polarities, gender, cause and effects, the part and the whole, the one and the many; but realizing these each as integrated parts of the total picture. The Law of Unity identifies with the over-all viewpoint and sees neither night nor day, but the night-day process; neither right nor wrong, but the right-wrong process; neither the pleasure nor the pain, but the pleasure-pain process; neither the one nor the all, but the At-One-Ment process of the All One Being, whose cells and souls work together even in the seemingness of division. The Law of Unity acknowledges such division, but stresses the oneness of the parts. The Law of Unity sees loss and gain, life and death as nothing but the spinning wheel of fortune that is based on the Law of Change, which is itself a unified process known as the Law of Magic.

THE LAW OF MAGIC

The Law of Magic is that Law which creates change. Physical change comes about through the change of consciousness. Consciousness changes in response to anticipation. Anticipation results from imagery and preparation, fears and desires, based on fallacies or facts. Preparation for change, changes consciousness, which results in physical change. The quality and quantity of description and imagery, the intensity and consistency of attitudes and actions, the collective or disruptive energies of others, all work together to influence the direction and course of the change. Every entity to some degree, for good or for ill, is both victim and master of the Law of Magic. The Law of Magic is an extension of the Law of Unity.

THE LAW OF NEW BEING

The Law of New Being lessens polarities and reconciles oppositions. The Law of New Being reconciles the 'yes' and 'no', right and wrong, good and evil, and brings the concepts of God and Satan together in harmonious resolution, integrated totally under the Law of One. The Law of New Being acknowledges the return of Lucifer to the Godhead or Source of all Being, and realizes there is no longer a force of evil in the world; that there is only the echo, the memory and the fear of evil remaining, and that these are also fading from consciousness. Those who follow the Law of New Being are beings who may transcend matter, or any situation that appears to matter, and may move into new states of being with greater freedom and energies to create the New World of the New Being: The Unified States of Awareness.

THE LAW OF EXPANSION OR INCLUSION

This Awareness indicates that the Law of Expansion is that inclusion which results when the definition and description of a part or situation is expanded to include something else. The Law of Expansion is that which is never-ending as long as there is more which may be included by re-describing. Those who understand the Law of Expansion will understand that they are more than a body, more than a name, more than a social being, more than a life of action, more than a center of a society, more than an observer and an observed, more than the symbol for humanity, more than the awareness of the earth and solar system, more than the confines of form: that they are all that is and all that can possibly be. They are what is and what they may include in describing themselves. Those who move from the Law of Expansion into the Law of Exclusion or Contraction would describe themselves as being something less than all that is. This being an exclusive Law which describes them as being this, but not that; this but not that; and this but not that until they are almost nothing at all in a universe of overwhelming forces. Beware the Law of Exclusion, lest you exclude yourself from all else into the oblivion of the bottomless pit.

THE LAW OF FREEDOM

The Law of Freedom is that movement which gives entities the space to expand and grow in their ability to function in a manner that will allow others their freedom and space to grow in order to free still others. Freedom is not a final state of being, but an ever-expanding action of giving each other the space to create spaces for others to create more spaces for still others yet to come. Freedom may be helped or hindered by laws, definitions, principles, descriptions, disciplines and boundaries. Universal Laws free each and everyone; any law which does less is subject to the rule of a greater law. No one is free until each is free, and all are freeing each other.

THE LAW OF CHANCE

The Law of Chance is that Law that results when the Law of Magic is initiated without being in harmony with the Law of Unity. This Awareness indicates the Law of Gratitude is that Law which does bring justice and balance for those actions which occur under the Law of Chance.

THE LAW OF SUBSTANCE

The Law of Substance is that which is likened unto an 'onion' wherein one layer of description is surrounded by another layer of description, encased within another layer of description, held in the arms of another layer of description, and embraced within another layer of description. This onion-like substance does float within more layers of description and appears to be reality. Descriptions of any nature intended to change any substance must permeate each layer, one level at a time, until the entire 'onion' has been touched and permeated by the new description. At that time the substance will have changed dramatically.

THE LAW OF CHANGE

This Awareness indicates there is a Law which governs all things, and allows no thing to remain unchecked, and allows no checks to remain unchanged. That in anything seen, done, experienced or known, you may look at it and say with absolute certainty: 'This, too, will pass.' This Awareness indicates this as the Law of Change.

THE LAW OF RELATIONSHIP

The Law of Relationship states that all parts or partners are in relationship, though some are close and some remote. A close relationship insists that gears and wheels must mesh in workable arrangements; all hubs, axles, hooks and levers must be properly secured according to any function or relationship arrangement or agreement. Their driving forces must be derived from a common, or compatible, source of energy, and any new innovations, arrangements or activities of any part or partner that changes the general relationship, or any part or partner of that relationship must be noted, acknowledged and discussed, and agreements must be made to allow, disallow or rearrange the relationship to accommodate that change. And any part or partner suffering excess pressure, pain or friction from the arrangement must learn to squeak and moan or gripe and groan until its needs are noticed, discussed and attended to the satisfaction of all parties of the relationship; and all parties must have their time for regular lubricating oils of smooth communication. For without the oil of clear communication, even the best relationships will generate friction, grit, grime, dirt, heat, and will grind to a screaming halt.

THE LAW OF HARMONY AND AGREEMENT

The Law of Harmony and Agreement states that efforts to manipulate, trick, coerce or force another to behave in harmony and agreement will only disrupt previously established areas of harmony and agreement. Yet, even between the most hostile enemies, some areas of harmony and agreement can be discovered when there is an agreement to discover these areas. Ever increasing harmony and agreement grows from the mutual agreement to discover more areas of agreement. This Law is based on discovering harmony and agreement rather than on its enforcement.

THE LAW OF PROJECTION

The Law of Projection states that the film that projects, depicts, and creates the events of one's life story, is stored within one's consciousness, and can only be changed from within. The intimate conversations, attitudes, and the relationship one has within one's own consciousness, is reflected in experiences on the outer screen of life; one is both camera and projector of his life story. Those who wish to see a world premier of new and joyous experiences instead of reruns, trash films, soap operas, tragedies, illness and hostilities, must refuse to bring or to allow such films, concepts or images to enter their theatres or be filed into their storage banks. Those who seek out, allow, or enjoy filming such trash do surely fill their cameras with the material that may eventually become part of their outward life. Those who allow only the highest, clearest and the best thoughts, ideas, words, experiences and images to enter their studio shall create and project films that show a life of joy and art.

THE LAW OF RESPECT

The Law of Respect is that principle of looking twice, or, more precisely, looking twice as deeply; for respect goes beyond the surface appearances and superficial glances to discover a deeper meaning, purpose or basis for discovery. Without the principle of respect, the Book of Love will never be read, the Tree of Life will never be seen in full bloom, and the thousands of rainbows of the Land of Essence will never be viewed. But with the Law of Respect in action, the mysteries of the universe, or any part, will open layer after layer, like the unfolding of a thousand-petaled lotus.

THE LAW OF PATIENCE

The Law of Patience states that all things must have their time and their season whereby they may work their action to proper fruition.

THE LAW OF THE VACUUM

The Law of the Vacuum states that all material forces of the universe abhor the vacuum and rush to fill each hole, opening, void, blank page, field of clarity, or empty moment with image, garbage, sound and fury, often signifying nothing so precious as the original voidness. This Law states that space allows movement, and that when all space is filled the solidarity prevents further movement or growth. By reducing bit by bit the inappropriate and the unnecessary aspects of one's lifestyle, one can create the time, space, atmosphere and opportunities to move, grow, replenish and to rebuild on a more solid foundation. This Law creates the spaces in which to place only the highest and only the best with the least amount of energy expense.

THE LAW OF PROSPERITY

The Law of Prosperity states that one prospers in direct proportion to the enjoyment one receives in seeing the prosperity of oneself and others. And that one's prosperity is denied in direct proportion to one's own feeling of guilt for being prosperous, or at the envy and hostility one feels on witnessing other's prosperity. This Law states that when one prospers all may prosper. The Law of Prosperity works for those who hold images, feelings, actions, dialogue, and attitudes associated with beauty, joy, love and prosperity, and works against those who hold images, feelings, actions, dialogues and attitudes associated with ugliness, self-pity, complaints, envy and hostility toward oneself or any other person, group, race or class. Those who think, feel, act and speak of themselves as being poor and needy must spend three times the energy for the same prosperity received by those who think, feel, act, and speak of themselves as being wealthy and prosperous. An attitude that dwells in depression leads the way to physical, spiritual, mental, social and financial depression. Those who maintain prosperous attitudes, even in states of poverty, are foreign to such states and will not be allowed to remain out of place in those poverty situations, but will instead be deported to those prosperous states where such prosperous attitudes belong.

THE LAW OF CURRENCY EXCHANGE

The Law of Currency Exchange states that energy flows like water or electricity in currents which may be tapped for use elsewhere, may be exchanged for other energies, or may be stored in containers such as bottles, cups, foods, batteries, notes, valuables, ideas, bodies, properties, words, monies, contracts, friendships, banks, gardens, arrangements, music, titles, talents, and all other areas of consciousness--to be used or exchanged at another time or place. An excess of energy in a container unable to handle it, creates heat, friction, temper, fever, combustion, rashes, rash behavior, an over-load on the circulation or circuitry, or an inflamed, short-circuited, or explosive situation. Containers vary in nature, purpose, durability, dependability, utility and adaptability; they may leak, lose, use, transform, diffuse, absorb or deplete energies. Containers may give, take, store or deny energies from others, but energy in movement serves to move other energies. Energy currents are alive, while stored energy is dead until moved. A few small energies, carefully placed, can tap into greater energies in such a way that multitudes are fed, clothed and sheltered, and entire civilizations are raised to higher energy levels at minimal expense to anyone.

THE LAW OF ETERNAL UNFULFILLMENT

The Law of Eternal Unfulfillment states that there can never be completion or fulfillment in any moment, for if there were, there would be no further moment; and as each moment contains within itself all that is essential for that moment, so also each moment contains within itself an emptiness, an unfulfillment that is essential and necessary to lead into the following moments. The Law of Eternal Unfulfillment states that every moment has something missing and is incomplete, and every moment has something that is present, total and complete; and when one can accept this Law of Eternal Unfulfillment, the greed-creating obsession to be fulfilled will cease to be.

THE LAW OF AFFECTION

The Law of Affection states that affection is a beam of love which may light upon a subject and create an object of adoration. The Law of Affection holds closely but with open arms; one wishing to see all creatures free beings by freeing other from oneself, then from themselves, their fears, their guilts and inhibitions, and from those blocks that hide their preciousness. The Law of Affection possesses not, yet sacrifices nothing of itself, for it gives without an expectation--even from the joy of giving. As the sun must shine to be the sun, so affection must be given if one is to be affectionate. The Law of Affection cannot be manipulated or controlled, for its only purpose is to give. Nor can it be possessed or used, but when one's heart is open, it enters and possesses it and uses it to shine its warmth of love upon the world.

THE LAW OF PORTRAYAL

The Law of Portrayal is that Law which states that any action portrayed cultivates the attitude of that action to the degree and impact of the energy involved in that portrayal; and, with repetition, can mold a real-life character quality that emanates and expresses the qualities of that action, with all its accompanying feelings, behaviors, and patterns of expression. The Law of Portrayal states that anyone's gimmick, role or characteristic, when repeatedly used and mastered, may easily become the master of the one who used it; and may, as habit, begin to use that person or personality. That behavioral pattern or characteristic can reinforce itself in patterns of belief until an entire lifestyle and philosophy is built around that role-seed which once originated only as a game, a portrayal or imitation of something or character who exemplified that image.

THE LAW OF EXAMPLE

The Law of Example states that any person, concept or thing which is placed in a position of significance, may serve as an example for others to follow. Those who have served as examples of power, lust and greed, have helped to create the tragedies which they and their followers have spawned. Those who have served as examples of love, service, and the sharing of their better parts, have helped to bring about freedom, joy, beauty and peace that has been allowed upon this plane. Entities who wish a better world are cautioned to exemplify and portray only those better qualities of love, joy, peace and service to others, particularly to the children who are searching for examples in their world.

THE LAW OF CO-CREATION

The Law of Co-Creation states that two working in co-creative action have the power of four working individually; and three working in co-creative action have the power of nine; and four working in co-creative activity have the power of sixteen; and one-hundred and forty-four working in harmony can change the world. Wherein large groups of entities believe and agree on certain images as being real and being stable, this agreement does hold the power of many times that number of energies, if such energies were held by individuals working separately. Wherein groups of entities agree upon certain images, these images do tend to manifest and hold their being in a magnified manner.

THE LAW OF SUBSTITUTION

The Law of Substitution states that a part may signify the whole, a genus may be signified by a species, a cause may be signified by an effect, or vice-versa. That there can be any item substituted for the concept, or any concept substituted for the item, and the substituted article, concept or event can affect that which it was substituted for. This Awareness indicates action taken upon the substitute can have an effect upon the other.

THE LAW OF PARADOX

The Law of Paradox is that Law which recognizes the movement of energies in four dimensions simultaneously. This Awareness indicates the Law of Paradox as that which combines the Law of Cause and Effect along with the Law of Inertia, the Law of Microcosm and Macrocosm, and the Law of Vibration. This Awareness indicates the Law of Paradox does relate to that which is the focus of attention whereby energies do come together in a collision at a certain point, whereby that point does create a relationship using the Law of Relativity as a type of, as a part of itself, whereby this point in relationship does reflect that which is the microcosm and macrocosm, does relate to movements which are occurring at a certain momentum, this as the Law of Intertia, whereby an equal and opposite reaction does occur which moves entities into another dimension on the macrocosmic level and on those vibrations in between. This relating to the echoing effect of an action. The Law of Paradox, seen in a flat plane, would be likened unto a stone dropped in a stream, and watching the ripples move out. The Law of Paradox in a cube of space would create vibrations in all directions whereby that stone was emanating an energy, though not being dropped, but simply vibrating, and that energy would be felt in various places within that cube of space. The Law of Paradox in the fourth dimensional level as that which occurs in all places simultaneously on certain vibratory rates likened unto the ringing of a bell which vibrates every particle of energy within its periphery. The Law of Paradox is that which touches into such high levels of vibration and such dense levels of vibration simultaneously that the entire area appears to be alive, and whatever is said about one level, can also hold true about the next, yet, can also appear to be untrue.

THE LAW OF TOLERANCE

The Law of Tolerance is that Law which recognizes the divinity in others even when covered by the masks and armour of demonic imagery and activities, or hidden behind the walls of apparent ignorance, sleep, and stupidity; or residing in the bowels of lust, greed, and power. The Law of Tolerance is that Law which allows one to speak through these walls and barriers to the divine God-Cell which lies buried behind these outer layers, and awaits liberation from the deep confines and imprisonment at the center of the self. This Awareness suggests you are all gods, and must in time learn to speak to each other as though you were addressing gods.

THE LAW OF SILENCE

This Awareness indicates the Law or Principle of Silence is that which allows entities the space and peace and time to rest and recuperate from the noises and chatterings outside. This Awareness indicates the silence is found within the soul and is not limited to sound, but also relates to silence in terms of motion, emotion and feelings. This Awareness indicates that the Law of Silence contains also the chaos which can exist in any moment when that chaos is experienced from levels of non-resistance.

THE LAW OF ENTHUSIASM

This Awareness indicates that essentially, when an entity begins to stagnate and move through life in a robot type of behavior pattern, the entity also begins to lose enthusiasm for life; this becoming purely mechanical in nature wherein the entity has indulged in all the thrills desired and nothing seems to change and the entity does not progress. This Awareness indicates when entities move along in actions wherein new discoveries relating to self, new self-discoveries are made, the entity then purges himself of the old and brings in the new energies of the discovery. This Awareness indicates this action increases enthusiasm. This Awareness indicates the word 'enthusiasm' relates unto spirit within, and the spirit within is that which enhances the life-force factor. This Awareness indicates wherein an entity begins to lose that enthusiasm, the entity's life is essentially stagnating, and as the stagnation continues, the entity begins to lose more and more of the protective aura around the body and around the psyche and the entity begins to lose more and more of the vitality of the physical and spiritual body. This Awareness suggests that as this vitality is lost through this stagnation, boredom, and the lack of personal and spiritual growth, the entity's depleted aura tends to draw in the forces which result in illness or accident or further weakening of the spiritual and physical body. This becomes likened unto an invitation to the higher forces, the so-called Lords of Karma, to take action to remove the entity from this plane.

This Awareness indicates the Law of Enthusiasm is that Law which allows entities to be filled with Spirit which then, in turn, may be used for purposes that can create greater expressions of Spirit. This Awareness indicates that those who use enthusiasm for destructive purposes are those who shall reap the whirlwind of devastation on many planes and many levels thereafter.

(Excerpt from a Trance Healing for a lady who almost died from Asian Flu)

This Awareness suggests that you understand the close contact with that which you call 'death' as that which was a shift in your psyche on several levels simultaneously, to the point wherein many changes on different levels occurred, and there was a giving up of certain descriptions of yourself on one level while being forced to re-identify and re-describe yourself on another level. Wherein you are capable of looking at your health and seeing it as it is, and then seeing it change as it becomes better, more to your ideal liking; as you visualize yourself, so you are. This is a matter of how long and how intensely do you see yourself, in what vision. That the longer and the more intense--this in terms of the Law of Duration and Density--then the more substance you have in that new visualization. As you look to discover what you are, and from then begin looking to discover other images of yourself, so you shall change. It is necessary for entities to see themselves as they are, for otherwise they know not what they change from, and toward; they are rather a scattered set of images that are constantly fleeting. This Awareness indicates you are one who sees yourself as you are, and therefore are capable of holding an image of yourself changing slightly, toward that which you would become. Think not in terms of becoming so much as in terms of being, for when you are imaging something, you image it best by being it.

THE LAW OF SUGGESTION

The Law of Suggestion states that a statement carries with it an impact associated with the Law of Description. When given through certain levels of consciousness and moments of expression and situations of experience, such suggestions may have a terrific impact upon the psyche of oneself or another.

THE PRECEPTS OF COSMIC AWARENESS

Judge Not

Be Humble

Never Do Anything Contrary to the Law of Love

Resist Not Evil

Do Nothing Contrary to the Law of Mercy

THE LAW OF CHAOS...AND THE LAW OF ORDER

This Awareness suggests the Law of Chaos is that Law which states that chaos exists when the observing mind cannot accept what is.

This Awareness indicates the Law of Order exists when the observing mind can accept what is, regardless of the appearance of chaos.

THE LAW OF MOTIVATION

This Awareness indicates that entities following the Law of Gratitude, following the Law of Motivation, wherein the motivation is the means and the end, may discover the Law of Gratitude returning more quickly to them, with greater abundance, the energy that has been given.

THE LAW OF SUGGESTION

This Awareness indicates the Law of Suggestion is such that a statement carries with it an impact associated with the Law of Description. When given through certain levels of consciousness and moments of expression and situations of experience, such suggestion may have a terrific impact upon the psyche of oneself or another.

(Example):

This Awareness suggests that when a healing is given for entities, that the healer also give the suggestion. This Awareness indicates this in particular to these who find it difficult to accept a healing for any particular length of time or a permanent healing. This Awareness suggests that when an entity gives a healing to such entities, that it be stated that "This healing appears to be good for "X" number of months, at which time other forces within your own psyche are capable of taking over and continuing the healing." This Awareness indicates that such a suggestion has that which can be beneficial for these entities, that this as related unto the Law of Suggestion.

THE LAW OF PENETRATION

The Law of Penetration states that anything which is looked at with great attention by great quality of consciousness, penetrates to the heart, and then emanates into all of consciousness.

(Example):

This Awareness indicates that in the present action of focusing upon these various projects, entities may not have the capability of following through to the ultimate end of a project of such magnitude, yet wherein five or six entities gather together and focus and penetrate the heart of the problem, and see the solution to the problem, that energy which has been generated is in movement in consciousness as an independent being, and that energy also begins having its offspring and reproducing itself throughout consciousness wherein others likewise begin to experience and see the same results as seen by the original group. This Awareness indicates this as an explanation of the Law of Penetration.

THE LAW OF CORRESPONDENCE

This Awareness indicates that an ancient axiom of Hermetics states:
"As above, so below."

This Awareness indicates that in ancient times this Law of Correspondence was clearly understood by entities because entities were not bombarded by thought, words and ideas to the extent that they are today in this present plane. This Awareness indicates, "As above, so below," to the ancient was a clear and meaningful experience. For prior to the multiplication of words, where few words were used and the words were simple, entities knew how to look beyond the words at the meanings, whereby the words stood halfway between the seeker and the sought, and the words themselves were like signposts pointing toward a city, rather than the final destination for the questioner, as in present time, whereby the question is asked and the words are answered, and the answer is the final movement of the mind which perceives no further than the word which was given as an answer.

This Awareness indicates that for the present mind, this Awareness shall elaborate on the true meaning of the Law of Correspondences: 'As above, so below.' As it is above, so likewise there is a corresponding action below. As it is within, so likewise there is a corresponding action without. As it is in the past, so likewise there shall be a corresponding action in the future and in the present. Yet these correspondences are not exact; are distorted, likened unto a reflective mirror which does not have a perfectly flat surface. This Awareness indicates that as the cycle of one level is in correspondence to the cycle of another level, so likewise the souls of one entity have a correspondence to the souls of humanity which make up the cells of the body of this Awareness.

(ED'S Note: For further elaboration on this Law, please refer to Vol. 3 Lesson No. 1 of the Correspondence Course).

THE LAW OF SEX

The Law of Sex is that Law which states that all things shall balance themselves out if left to the forces of Universal Law as guidance and untampered by mind of a conscious control.

(Example):

This Awareness indicates that wherein an entity can simply be happy with being who he or she is, the opportunities for interchange between sexes is greatly magnified. This Awareness indicates that as the opportunities are magnified, the significance of the act itself is minimized. As the opportunities are minimized and it becomes more difficult for the entity to have close contact with another from the opposite sex, the significance is magnified. This Awareness indicates this as the nature of the dilemma known as sex.

This Awareness indicates the normal way to bridge this dilemma is through fantasy. This Awareness indicates that there are entities whose experiences are such that whenever they wish to become less polarized in their masculine or

feminine energy levels, they can easily come together with another and de-polarize by sharing themselves with the other. This Awareness indicates this kind of relationship generally evolves to the point wherein such entities no longer even need to engage in sex, the sexual act itself, in order to relieve those polarities in their own being, but by simply coming together in close communication can exchange these levels and energies and move into balance with the other entity and their general situation and circumstances.

This Awareness indicates that wherein this kind of clear relationship with entities of the opposite sex, or entities close by are not fully experienced by an entity, the entity then begins feeling himself apart and separated and begins to become polarized in the masculine or feminine realm of consciousness and seeks to find the de-polarization situation known as sexual intercourse or sexual exchange, whether it reaches the level of intercourse or not. This Awareness indicates this is the normal action of universal forces, and as such, is in harmony with universal forces. That this Law of Sex which states that 'all things shall balance themselves out if left to the forces of Universal Law as guidances and untampered by mind of a conscious control. All forces will balance themselves out. Yet, forces of universal proportion which are controlled by ideals, controlled by desire, by moralities, cultures, feelings being imaged and brought into being through the male and female principles and forces, this Awareness indicates this breakdown of these polarities, wherein the 'yes' and 'no' are being reconciled; this breakdown between the male and female principles in the consciousness of entities upon this plane and other planes, is that which shall transform the material plane into a plane of spiritual experience whereby the mind has dominion over matter.

This Awareness indicates that for this to occur, the forces which have been in separation, the male and female principles, wherein there was the waiting and there was the probing, and the action of dominance; wherein the male and female principles have been standing apart from one another as though there were a wall separating these, this has created and maintained and held the physical universe as a material reality for thousands of years, for millions of years, and for billions of years in certain areas of your universe.

This Awareness indicates that at this present time, these forces are beginning to reconcile. That for a reconciliation between male and female forces to occur, there must be that coming together, that sexual interchange between the forces so that all feelings of difference begin to become less significant and begin to shift and mold and mix together in a blending of male and female forces, so that the separation is no longer apparent. This Awareness indicates this is occurring on the human level upon this plane at this time. That there are still many entities who are holding on to their masculine or their feminine image for the significance in relation to the opposite sex that this polarized image may give them. This Awareness indicates that entities experiencing extreme masculine image or extreme feminine image generally have very little happiness in terms of their sexual experiences with others, for their image does not allow them to mix with the opposite sex, for they would lose some of their sexual potency.

THE LAW OF CAUSE AND EFFECT

This Awareness indicates that wherein the individual, the entity, the vibratory rate, the force, begins to move toward its own personal growth and fruition in expressing itself through its own will and volition, through its own creative energies, there comes about a time wherein that force becomes aware of resistances to its energies whereby the force becomes aware that its energies and its expression is being hindered. This Awareness indicates that this as the beginnings of the experience of the Law of Cause and Effect.

(For more information, refer to Vol. 1 Lesson 6)

THE LAW OF RELATIVITY

This Awareness indicates the Law of Relativity is but the relationship of all things understood by the particular viewpoint from which they are seen.

(Example): From Vol. 1 Lesson #6 of the Correspondence Course.

....As the experience continues, greater awareness and the desire for more understanding increases. The entity, the force, then begins to probe into the nature of those forces outside of its own control, outside of its own understanding. This Awareness indicates as this occurs, the quality of reason, the rational approach begins to develop. And in this development, there comes about that aspect of consciousness which desires to put things in order: to classify, to see things in retrospect, to see things in the order of cause and effect, in the order of polarities and their relationship to one another and in the order of relative placement and relationship.

This Awareness indicates that the consciousness then begins to observe from a particular viewpoint, and that particular viewpoint brings forth an observation and an understanding of the nature of outside forces which are peculiar to that particular viewpoint.

This Awareness indicates this as the basis for the Law of Relativity, which in simplified terms is but the relationship of all things understood by the particular viewpoint from which they are seen. This Awareness indicates as the viewpoint shifts, the relative relationship of those things also becomes different. The train moving at a particular rate of speed in relation to the entity standing beside the tracks is somewhat different from the rate of speed of another train passing in the opposite direction, or of an automobile traveling in the same direction as the train. This Awareness indicates the relative viewpoint of an entity looking at an elephant from the front is somewhat different from the entity looking at an elephant from an airplane; or the entity from beneath the elephant, or the entity from behind the elephant. This Awareness indicates that each viewpoint is relative, and each is accurate, and yet the descriptions will be totally different.

THE LAW OF LOVE (Revised)

The Law of Love is that Law which places the welfare and concern and feeling for others above self. The Law of Love is that close affinity with all forces that entities associate with good. The Law of Love is that force that denies the existence of evil in the world, that resists not. Love follows the course of least resistance.

(Ed's note):

In the opening message of a C.A.C. reading given July 28, 1978, Awareness made the above changes in the Law of Love. A full explanation of why this was done at this time will appear in a future 'Revelations of Awareness' Newsletter. However, the Laws in this booklet were printed just prior to the above change, so please pen in the changes as indicated above on the Law of Love as printed on page 2 of this booklet.

As new Laws are given, we will publish them, continuing the numerical page numbers. When you receive these new Laws, please just add them to this booklet in the future.
