The S.B.I. REPORT is an official copyrighted publication of the Scientific Bureau of Investigation, Inc. (The S.B.I.), Staten Island, New York 10312 and is issued every month to members and subscribers. The Scientific Bureau of Investigation, Inc. is a non-profit corporation, established under the laws of the state of Delaware and is a federally recognized scientific and educational tax-exempt organization, and is dedicated to the solution of the enigma of Unidentified Flying Objects (UFO). Inquiries pertaining to membership, subscription, or consultant-ship may be made to the above address.

S.B.I. MEMBERSHIP including, The S.B.I. REPORT:

United States= \$12.00 per year
Canada & Mexico= \$15.00 per year
ALL other countries= \$17.00 per year
SUBSCRIPTION ONLY (12 issues)= \$12.00 per year

STRAIGHT TALK

by:
PETE MAZZOLA

This REPORT is dedicated to seeking the truth and telling it like it is! Therefore, I intend to set the record straight in reference to NBC radio-producer Lee Spiegel's proclamation of producing the next United Nations/ UFO discussions.

Mr. Spiegel, as you may or may not know, is employed by NBC-A.M. radio and broadcasts a 10 minute program, twice a night, Monday through Friday. The name

of this program is, "The UFO Report", whereas, Mr. Spiegel has been dubbed, "The Alien."

The program, which has been aired over a year, is alledged to be the most scientific, conclusive and comprehensive of its kind dealing with the UFO phenomena. Each night interviews with witnesses, abductees and/or UFO researchers take place. Some nights we're lucky enough to hear Mr. Spiegel's own views and opinions on the subject. For all of this hard work, Mr. Spiegel receives a generous salary from NBC, has become a self-acclaimed producer, appears regularly on numerous TV talk shows and has been noted as an authoritarian on the UFO enigma. Sounds very impressive doesn't it? We at the S.B.I. have this to say about it-----BALONEY!!!

We will attempt to show you the inside "tricks of the trade" and an actual look into his super-stardom. About two years ago Lee Spiegel was unheard of in the UFO circle. Low and behold, along comes the illustrious Dr. J. Allen Hynek (director of the Center of UFO Studies/CUFOS), who states, "he is a believer of UFO's and has established his Center for the sole purpose of the solvement of the UFO mystery." We believe Dr. Hynek (the Benedict Arnold of the U.S. Air Force) is the only one to believe this statement and even that is debatable. Hynek converted his opinions (supposedly) after a 22 year consultantship to the Air Force's Project Blue Book and membership/employment with the C.I.A. Subsequently he organized his band of disciples into CUFOS and uses Field Investigators from various UFO organizations to gather his information. By the way, we feel this information on UFO's is re-routed back to the place whence Hynek originated--the C.I.A.

Getting back to Spiegel, an abduction case involving a 13 year old boy from New Jersey naturally arrived to the attention of Hynek. In turn, Hynek requested another organization to send an Investigator to document the case. The Investigator (name known but being omitted) compiled the data and forwarded the same to Hynek. Shortly afterwards, Hynek set-up a number of TV appearances to promote the boy's story and at the same time infiltrate the public to submit further cases to his Center. Simultaneously, Spiegel heard of the case and went to investigate for his radio viewers. As you can deduce, "birds of a feather flock together."

All four appeared on several TV talk shows, Hynek, Spiegel, the Investigator and the boy. Somehow through all the appearances on TV and behind-the-scene talks, Hynek and Spiegel became attracted to one another. Each trying to utilize the other for their own goals. The next thing we hear is that Hynek claims, "Spiegel is a Field Investigator within his organization! The only thing wrong with this statement is Hynek has no Investigators within his organization!

Through their mutual admiration, Hynek's next plan of strategy was to become the domineering factor in the 1978 UN/UFO discussions. Needless to say, he completed his mission swiftly, cunningly and viciously.

As the "supreme king" of the UN/UFO debates, who do you think he chose as a producer to present a showing to 133 delegate members? You guessed it---Lee Spiegel. Hynek and Spiegel, in a combined effort, built up each others status within the realm of UFO's. Spiegel's radio program was boosted tremendously due to the publicity as UN/UFO producer and Hynek got what he wanted as well, total disruption of the debates and mockery towards the phenomena itself.

First, let's analyze Spiegel's status as a producer. As far as the U.N. is concerned, Spiegel did not spend a dime of his own money for the film/slide presentation. Hynek supplied several movie film footages of various UFO sightings taken in the U.S. While others were supplied to Hynek from England and Japan. Along with these film clippings Hynek supplied black and white slides of UFO's supposed to be convincing enough that UFO's exist. Impressive? Not at all! The movies were either too old to determine where the UFO's were on the screen or really not significant enough to show the objects in question were UFO's. The slide presentation consisted primarily of Hynek's archive collection from his Project Blue Book consultantship days when he used to tell these witnesses they were hallucinating or seeing "swamp gas." Now, nine years after the end of Blue Book, he contradicts himself totally and claims these photos are genuine.

To tell you the truth, our S.B.I. lecture/slide presentation is more informative and conclusive than what was presented to the distinguished representatives of the world. Thanks to Hynek's "supplying" and Spiegel's "producing" the 1978 UN/UFO discussions were a joke. If this wasn't enough to handle, Spiegel and Hynek were sponsored by the tiny nation called Grenada, under the leadership of Prime Minister Sir Eric Gairy (recently overthrown by new government). Gairy's 1½ hour speech to the General Assembly, which spoke of butterflies, flowers and peace instead of the hard-core data needed on UFO's presenting a treath to the world, was soon to become one of the U.N.'s most laughable orations on a serious matter. With a team like Hynek, Spiegel and Gairy it isn't hard to understand why the 1978 UN/UFO discussions were soon to be filed under "G"---for GARBAGE.

Keeping within the scope of a producer, let's analyze Spiegel's radio program. The program is sponsored by OMNI magazine, the same magazine company which publishes Penthouse. The S.B.I. thinks Penthouse should stick with their original idea--NUDES-- instead of speaking about a subject which is fully clothed--UFO's. However, OMNI pays "X" amount of dollars to NBC for their aired commercials. In turn, NBC pays Spiegel's salary. We won't tell you just how much that is since it is confidentially given to us, but we will state, "he is overpaid for what he does." Spiegel is given free use of a studio to broadcast his program, so there's no money involved here as we previously saw in the UN/UFO producer-ship. But isn't a producer supposed to lay out money for a production we think to ourselves? This is a correct assumption and Spiegel does it fact spend money as a producer. Spiegel purchases either 30 or 60 minute tape cassettes to record his interviews on the telephone. As a big-time spender Spiegel pre-records most, if not all, of his interviews, thereby, avoiding to actually be present during air

time and having this time allotted to appearing on TV.

On recent programs and in the private circle of the UFO world Speigel is proclaiming, "to be producing the 1979 UN/UFO discussions in July." Enclosed on the last page of this article are two pages of the latest UN General Assembly agenda from June 18th to July of 1979. (Generously supplied by Maj. (Ret.) Coleman Von Keviczky, director of I.C.U.F.O.N.) As we can all denote, we see no such discussions on the agenda. It seems Speigel forgot to tell the General Assembly about his so-called, "new production." Of course, if Speigel wishes to change this alledged debates to the latter part of the year, we can accommodate our readers here also. We have the entire U.N. schedule of the year 1979 and we see no UN/UFO production by Lee Speigel.

At this time we can safely state, "Coleman VonKeviczky not Lee Speigel is secretly meeting with several important delegates of powerful nations to attempt to introduce a proposal into the agenda for UN/UFO talks late in October." If anyone can accomplish this feat, it is Coleman not Speigel. And by the same token, the S.B.I. not Lee Speigel will help produce the next presentation to General Assembly. With our confidential resource backing, our vast multitude of recent UFO photos/slides, our reliable and credible UFO witnesses and abductees, and our recently authenticated 7½ minutes of color movie film showing a variation of UFO activity in the form of several shapes and sizes---it is the S.B.I. not Speigel who will convince the delegates of the world UFO's present a treath to the world as a whole.

In conclusion, what we see is not always what we get? As a producer, Speigel spends nearly \$10.00 a week for his radio show. As an interviewer, Speigel shows us nothing which has not been aired, written, or spoken of previously. As an investigator, Speigel must be the best in his class since he is Chief-of-Field Investigations for UFO Review. UFO Review is a 20 page newspaper, inwhich its publisher Timothy Green Beckley calls a UFO magazines of the highest caliber. Beckley earned the title of "Mr. UFO" back in the sixties after no one who was anyone in the UFO world would listen to him. His self-appointed name immediately brings to mind a marvelous case which brought him a new nick-name from the S.B.I.--Mr. Flake. The case I refer to is one of an alien glove, alledgedly found by a jogger on his way from California to New York in a desert, & brought directly to Beckley's plush New York Office situated in the heart of the Garment District directly over a parking garage. The glove which has never actually made newspaper headlines was never shown to us in reality, except in a photo and when we asked if we could analyze the glove free-of-charge for authenticity, Beckley replied, "the glove doesn't need analyzation since he has seen it and has it in his possession." His newspaper is a classic and recommended for purchase. Twenty exciting pages which include 10 pages of advertising for Beckley's other ventures: books, tapes, records, posters, jewelry and of course the subscription to his paper; leaving 10 pages for unheard of, uninvestigated by a UFO organization, unanalyzed, totally unreliable cases which may earn him the "Flake of the Year Award." We however do recommend you purchase this 20 page newspaper inwhich Speigel is the head-of-investigations. It comes in very handy if you have a dog or cat. (A copy of this newspaper's index clearly showing Speigel's name is provided.) If Speigel knows nothing of this association, we suggest he contact a lawyer and sue Beckley. As a

researcher, Spiegel leaves alot to be desired. What are his goals, theories and just what has he researched? As the "alien", Spiegel has us there! He certainly is alien: alien to friends, alien to other peoples credits and rights, alien to other opinions, alien to Hynek's strategies and alien to the subject of UFO's.

COMMITTEE ON THE PEACEFUL USES
 OF OUTER SPACE

I. PROVISIONAL AGENDA FOR THE TWENTY-SECOND SESSION 1/

To be convened at United Nations Headquarters,
 New York, on Monday 18 June 1979, at 10.30 a.m.

1. Adoption of the agenda
2. Statement by the Chairman
3. General exchange of views
4. Applications of space science and technology and activities in outer space
 - (a) Remote sensing of the earth by satellites
 - (b) Direct television broadcasting by satellites
 - (c) Definition and/or delimitation of outer space and outer space activities
 - (d) Space transportation systems
 - (e) Use of nuclear power sources in outer space
 - (f) Examination of the physical nature and technical attributes of the geostationary orbit
 - (g) Draft treaty relating to the moon
5. Programmes and activities relating to outer space in the United Nations
 - (a) United Nations programme on space applications
 - (b) Co-ordination of outer space activities within the United Nations system

1/ Prepared in accordance with paragraph 83 of the report of the United Nations Committee on the Peaceful Uses of Outer Space on its twenty-first session (A/33/20).

III. PROVISIONAL SCHEDULE OF WORK

Committee on the Peaceful Uses of Outer Space - Twenty-second session, 18 June-6 July 1979

Date	A.M.	P.M.
Monday, 18 June	Item 1 - Adoption of the agenda Item 2 - Statement by the Chairman Item 3 - General exchange of views	Item 4 - Applications of space science and technology and activities in outer space (a) Remote sensing of the earth by satellites (b) Direct television broadcasting by satellites (c) Definition and/or delimitation of outer space and outer space activities (d) Space transportation systems (e) Use of nuclear power sources in outer space (f) Examination of the physical nature and technical attributes of the geostationary orbit (g) Draft treaty relating to the moon
Tuesday, 19 June- Friday, 22 June	Item 3	Item 4
Monday, 25 June	Item 5 - Programmes and activities relating to outer space in the United Nations (a) United Nations programme on space applications (b) Co-ordination of outer space activities within the United Nations system	Item 4
Tuesday, 26 June	Working Group on the Conference*	Working Group on the Conference
Wednesday, 27 June	Working Group on the Conference	Working Group on the Conference
Thursday, 28 June	Item 6 - (The Committee acting in its capacity as the Preparatory Committee for the Conference) Preparation for the United Nations Conference on the Exploration and Peaceful Uses of Outer Space	Item 6 - Preparation for the United Nations Conference on the Exploration and Peaceful Uses of Outer Space
Friday, 29 June	Item 7 - Future work of the Sub-Committees	Item 8 - Other matters
Monday, 2 July	Item 9 - Report to the General Assembly	Item 9 - Report to the General Assembly
Tuesday, 3 July	Item 9	Item 9
Wednesday, 4 July	United Nations holiday	
Thursday, 5 July- Friday, 6 July	Available if required to complete the work of the Committee on the Peaceful Uses of Outer Space	

* Discharging responsibility as the Preparatory Committee for the United Nations Conference on the Exploration and Peaceful Uses of Outer Space, the Committee may wish to establish a working group. If so, and if time permits, the working group can begin its consideration of the item during the first week of the Committee's session whenever meetings adjourn early.

GRAPEVINE

by: MARTY CANNON

DATELINE: New York---The S.B.I. is preparing a confidential report to CBS news correspondent Roland Smith. Pete. Mazzola & Jim Fallow have met with the reporter on several prior occasions in preparation of a five(5) day special documentary. The report (CONFIDENTIAL) contains documentation of UFO presence on the East Coast in which no other member of the S.B.I. is aware of.

DATELINE: Wantaque, New Jersey---International Directors Mazzola & Fallow, a few leaders of a group called, Vestiga and two S.B.I. witnesses gathered together on June 22nd. The stake-out was conducted at the Wantaque Reservoir in order to try and capture photos of UFO's in the notorious location. It is understood all was successful and photos are being analyzed at present.

DATELINE: New Jersey---S.B.I. International Director Jim Fallow will begin writing "feature articles" for the new magazine called, CENTRAL JERSEY. His first UFO article will be seen in September of this year.

DATELINE: Old Bridge, New Jersey---At this time, we at the S.B.I. would like to thank Mr. Phillip Fallow (yes folk's he's Jim's father), for the gift he recently donated to the S.B.I.-a pair of RCA Walkie Talkies. The radios will come in handy for field work in the wilderness area. (AS SOON AS BATMAN & ROBIN FIGURE OUT HOW TO INSTALL THE BATTERIES)! Only kidding Pete & Jim...
Once again, Thank You Mr. Fallow.

DATELINE: East Brunswick, New Jersey---CONGRADULATIONS are in order to S.B.I. Legal Advisor Edward J. Ramp on his recent announcement of engagement to Yasmine Larson. The couple plan to marry in July 1980. Everyone at the S.B.I. Staff wish them all the good fortune that they can handle during their future years as "man and wife." Just a word to the wise to Ed: How do you think Pete & Jim got their nicknames of Batman & Robin? (Ans.) After many long years of marriage the only way they could get out of the house was by use of capes and masks....

DATELINE: New York City, New York--- Pete & Jim have been honored by being invited to the Hayden Planetarium of the American Museum of Natural History on July 19th. The engagement is in the honor on the Celebration of the 10th Anniversary of the MOON LANDING. The program being sponsored by the American Institute of Aeronautics & Astronautics will award two guests that evening, WALTER CRONKITE and JULES BERGMAN. They as well as Pete & Jim are members of the Institute (A.I.A.A.).

Aid Tells UN: Prepare for Visitors From Outer Space

By PETER WALLEBERG

(Staff of THE NEWS-TIMES Bureau)

The United Nations is the only agency that can establish contact and represent mankind in face-to-face meetings with visitors from outer space, UN Secretary General U Thant was told yesterday by one of his staff members.

Colman VonKeviczky, a technician in the UN public information office, said in a press release that he was also a researcher in unidentified flying objects, or flying saucers. VonKeviczky, 36, is a Hungarian-born U.S. citizen who has worked for the UN for nine years.

The release—not authorized by the UN—contained a letter to Thant asking him to establish an observer

network among member nations of the UN to keep extraterrestrial UFOs under permanent control.

"Manned by Intelligent Beings"

VonKeviczky apologized to Thant for making his "odd proposal." He had written him only after discovering that the UN had no UFO information in its files. But he surmised that perhaps the UN had a confidential file on saucer activities.

As for himself, he said that his data was based on 11 years of scientific research activities in "ufology."

He explained to Thant that UFOs "are manned and piloted by intelligent beings from the solar system, horrifying by their dangerous radiations and frequent

landings our peoples, air and ground security organs, military installations, air-rocket-guided missile and atom bases.

Says Test Landings Go On

VonKeviczky said that UFOs were currently experimenting with test landings on the earth's surface and their next logical step might hold dangers to the world.

Who but the UN was best qualified to investigate "this strange and unknown activity around us?" he said.

The letter was received by Thant's office, a UN spokesman confirmed. But Thant was too busy with earthly affairs to read it. It probably will be referred to the UN's outer space affairs section.

IRREFUTABLE EVIDENCES:

① UPI - AP - REUTERS Ltd. issues on February 8, 1966, which prove that Maj. Ret. Colman S. VonKeviczky, member of the staff of the United Nations Secretariat Office of Public Information submitted the first Memorandum to Sec. Gen. U Thant - to keep the UFOs global operation under United Nations control.

Prof. J. Allen Hynek visited the UN Secretary General only AFTER this historical evidence, on June 18, 1966.

Prof. James McDonald appeared before the Outer Space Affairs Group (NOT BEFORE THE COMMITTEE) on June 7, 1967. (Letter is in ICUFON Archives)

*

② that Dr. J. A. Hynek an ATIC (Air Technical Intelligence Center) consultant was also a

consultant

of the CIA's OFFICE OF SCIENTIFIC INTELLIGENCE.

Declassified by 058975
Date 20 APR 1977

27 January 1953

Acting Chief, P.E. Division, SI
THRU: Chief, SP Branch, P.E. Division, SI
Lt. Col. F. C. E. Oder, OP Branch

Meetings of OSI Advisory Group on Unidentified Flying Objects,
14-17 January 1953

1. At your request I represented P.E. Division at the subject meetings. I was present at nearly all meetings of the group with the exception of the afternoon of Friday, the 16th and the session on Saturday, the 17th. During the latter two sessions the Advisory Group went into executive session for the preparation of their report to AD/SI.

2. The following OSI Consultants formed the Advisory Group:

Dr. H. P. Robertson, Chairman
Dr. Sam Goudsmit
Dr. Louis Alvarez
Dr. Thornton Page (missed morning session on 16th)
Dr. Lloyd Berkner (present only on afternoon of 16th and 17th)
Dr. J. A. Hynek (an ATIC consultant - he sat in all the sessions after the first day, but did not sign the report to AD/SI as an official group member)

3. The following OSI staff members attended:

Dr. H. M. Chadwell (most of the first day only)
Mr. P. G. Strong (first day only)
Mr. F. C. Durant (although now an OSI consultant, he functioned as a staff member for the conference and attended all sessions including the executive sessions)
Mr. D. D. Stevenson, Weapons Division
Lt. Col. F. C. E. Oder, P.E. Division

4. The following persons were invited to present certain background information to the Advisory Group:

Captain Edward Ruppelt, ATIC who presented information on the work of Proj. Bluebook (and its predecessors "Grudge", "Saucer", and "Sign") and discussed in detail many of their specific investigations.

Major Fournier, APOIN (by now on inactive status and with The Ethyl Corp.) who presented findings independent of ATIC, representatives of the Navy Photographic Labs who presented their analysis of films of a "Sighting."

B-3

42

ICUFON CONFIDENTIAL

On June 16, 1978, Prime Minister of Grenada, Sir Eric M. GAIRY assigned ICUFON to prepare exhibited analytic evidences (shown at Acapulco, Mex., First International UFO Congress) to reinforce through a visual presentation his UFO statement before the coming U.N. General Assembly, Thirty-Third Session.

On July 13th Prime Minister Gairy surprisingly stated:

"Regarding your exhibition project - my government is aware that your ICUFON Network posses the strongest evidences about the UFOs existence and operation - B U T, my cabinet, myself and our sponsored scientists () would never agree to present and prove before the General Assembly any facts and indications that the UFO forces are endangering the international security."*

Major (Ret.) Colman S. VonKeviczky, the Director of ICUFON Inc. replied:

"The United Nations was constituted by the Nations to maintain the global peace and security, and not sustain scientific study of UFOs. This would be rather due to the UNESCO's scientists, than for the diplomats of the General Assembly."

(*) Drs. J. Allen Hynek, Jaques Vallee, David R. Saunders and Astronaut Gordon Cooper)

Question: WHO PRESSURED PRIME MINISTER GAIRY TO ABANDON HIS PRESENTATION OF FACTUAL EVIDENCES TO THE UNITED NATIONS GENERAL ASSEMBLY?

*

HOW THE "GREAT SCIENTISTS" DEFEATED THEIR SPONSOR AND DISCREDITED THE UFO PROBLEM BEFORE THE UNITED NATIONS SPECIAL POLITICAL COMMITTEE:

Dr. J. Allen Hynek, former US AF UFO consultant and former consultant of the CIA's Office of Scientific Intelligence said:

"The UFO phenomenon even after competent examination by qualified persons REMAINED UNEXPLAINED and IS NOT YET UNDERSTOOD."

Dr. Jaques Vallee, astrophysicist, computer expert said: *"That belief (in UFO) was in many ways as EMOTIONAL one, and there was as yet NO EVIDENCE THAT THE UFO PHENOMENON REPRESENTED THE ARRIVAL OF VISITORS FROM OUTER SPACE."*

How an astronomer and director of a private UFO organization (CUFOS) encouraged to inform on November 28, 1978, the United Nations Special Political Committee about "HIS" "competent examiners and qualified persons" irrefutable facts on UFOs - AGAINST GENERAL GEORGE C. MARSHALL, CHIEF OF STAFF OF THE U.S. FORCES IN W.W. II. up to 1947, then SECRETARY OF STATE to 1949, WHO ISSUED IN 1955, TO THE MEDIA:

"THE UNITED STATES AUTHORITIES HAD ESTABLISHED THE FACT that flying saucers were manned visitors from outer space, and these visitors were trying to world out a method of breathing and staying alive in our atmosphere before landing and establishing contact."

Dr. J. Allen Hynek and his scientist associates are self appointed examiners and qualified persons in UFO research. Their scientifically derailed research and misguiding statements on the UFO problem means nothing at all in comparison to the U.S. Department of Defense ONLY QUALIFIED AUTHORITIES OFFICIAL ESTABLISHMENTS, which reflect in the orders of the JOINT CHIEFS OF STAFF.

Maj. Ret. VonKeviczky, Director of ICUFON originator of the SILENCED and SUPPRESSED United Nations Memorandum rebutted Drs Hynek and Vallee's deceptive explanations with the following overwhelming highest military evidences:

1/ US AF General Nathaniel F. TWINING, Commanding General and Chief of Staff of the US Air Force (a bit higher rank as an astronomer or computer programer):

Official Report on Sept 23, 1947, to the Chief of Staff: *"The phenomenon reported is something real and not visionary or fictitious." "Circular or elliptical in shape, flat on bottom and domed on top." "The reported operating characteristics such as extreme rates of climb, maneuverability (particularly in roll), and action which must be considered evasive when sighted or contacted by friendly aircraft and radar, lend belief to the possibility that some of the objects are controlled either manually, automatically or remotely."*

2/ Harry S. TRUMAN, President of United States and Highest Commander of the US Forces as a highest "qualified person" informed the public during his Press Conference on April 4, 1950:

"I can assure you that flying saucers, given that they exist, are not constructed by any power on Earth."

3/ Central Intelligence Agency (CIA) Memorandum declassified by # 058375 20 Apr. 1977, paragraph 2./3. sounds as follows:

"(3) A world-wide reporting system has been instituted and major Air Force bases have been ordered to make interceptions of unidentified flying objects."

4/ February, 1953. U.S. General Benjain CHIDLAW, in charge of United States Continental Air Defense:

"We have stacks of reports about flying saucers. WE TAKE THEM SERIOUSLY WHEN YOU CONSIDER WE HAVE LOST MANY MEN AND PLANES TRYING TO INTERCEPT THEM."

5/ National Aeronautics and Space Administration (NASA) correspondence with ICUFON. Letter dated February 8, 1978. Information Sheet Number 78-1.:

"Reports of unidentified objects entering United States air space are of interest to the military as a regular part of defense surveillance. Beyond that the U.S. Air Force no longer investigates reports of UFO sightings."

6/ Michael A.G. MICHAUD, DEPUTY DIRECTOR OF UNITED STATES' STATE DEPARTMENT OFFICE OF INTERNATIONAL SECURITY on June, 1978, d e c l a r e d,

"ALIENS FROM OTHER SOLAR SYSTEMS ARE A POTENTIAL THREAT TO US, AND WE ARE A POTENTIAL THREAT TO THEM."

"Mr. Michaud statement is a crystal clear answer to the question, why the two military and space exploring mighty powers were constrained to build in a hurry the potentially deadliest and costliest strategic arms in our environment and under construction to the outer space. They are aimed for armed control and global defense of our celestial body against the frightfully increased galactic Task Forces (UFOs) strategic earthbound operation." - Established Major Ret. Coleman VonKeviczky, Director of ICUFON, to THE SBI REPORT.

"What is your view Major on the SALT treaty between USA and USSR?", asked

Pete Mazzola and Jim Fallow, International Directors of THE SBI.

"THE STRATEGIC ARMS LIMITATION TREATY WAS A BLINDFOLD, TO DISRUPT THE PUBLIC ATTENTION FROM THE IMMINENT DANGER STEMMING FROM THE OUTER SPACE, RESULTED OF OUR DECADES LONG HOSTILE CONFRONTATION TO THE GALACTIC FORCES. - There is no nation, which would trigger a bomb beneath her own feet or celestial body. These are the further reasons also, why USA and USSR from 1966, hampered to place the UFOs global security problem on the agenda of the United Nations."

DOVER ABDUCTION PRE-DATES THE
BETTY AND BARNEY HILL EXPERIENCE
by Jim Fallow

On September 15, 1978, I recieved a phone call from a man in Upstate N.J. The caller identified himself as John Herbert (John Herbert is a pseudo name, actual name on file with the S.B.I.). It seems as Mr. Herbert explained on telephone that he had contact with Alien Life Forms or as he called them a none Earth type, some twenty years previous and he felt that he would like to talk to the S.B.I. and get this off his chest. After setting a date and place that was convenient for all concerned, I next telephone Pete Mazzola and informed him of the conversation. Pete and I set about our strategy as well as checking the background of this individual before we were to meet him. With the help of a Police Sargent in Upstate N.J., I was able to ascertain that Mr. Herbert was not a known criminal, was not a known drug abuser, and in general had a very clean background.

On September the 19th at 1:00 P.M. Mr. Herbert, Pete Mazzola, and myself met at the Ramada Inn Conference room and after six hours of questions and answers the most incredible tale was revealed. Here for the first time are portions of the sixty-eight page transcript that resulted from our first meeting with Mr. Herbert.

"My name is James Herbert, I am thirty-eight years old and am employed by (confidential). In the late 1950's - 1958 or 1959 while still a teenager, I remember I woke up on board some kind of craft, some kind of vehicle. I can't actually say woke up, it was more like coming to from an unconscious state. In other words I became vaguely aware of the things around me. And I noticed there were also two other human beings with me. We were all on the floor of some type of metallic room. The first person I noticed was a women, a matronly type and I would say she was in her thirties or early forties, and there was a man and it looks when I recall back on the event that he was still crumpled on the floor and when he came to he was either very agitated or very upset, I couldn't say for sure. When we came to or shortly thereafter, someone came into the room and ushered us into a larger room through a small narrow hallway, where we met two other people actually two other Aliens, because they weren't like human earth people at all. After some introductions, I can't recall exactly what was said, they told us that we were there to be shown certain relationships of the Universe (uncertainty here, he can't recall). There was a larger Alien whom seemed to be the leader, he was male, they were all males, definately males, and though I can't remember distinctive features on their faces or on their hands or anything. Anyway, I tried to tell the leader that he had the wrong man, and that I didn't know anything about the Stars or the Planets, or anything about the Universe, and it was funny because he kind of smiled and said 'we know'. I went on and tried

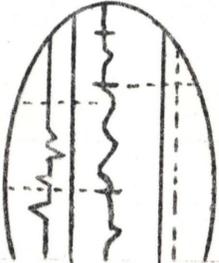

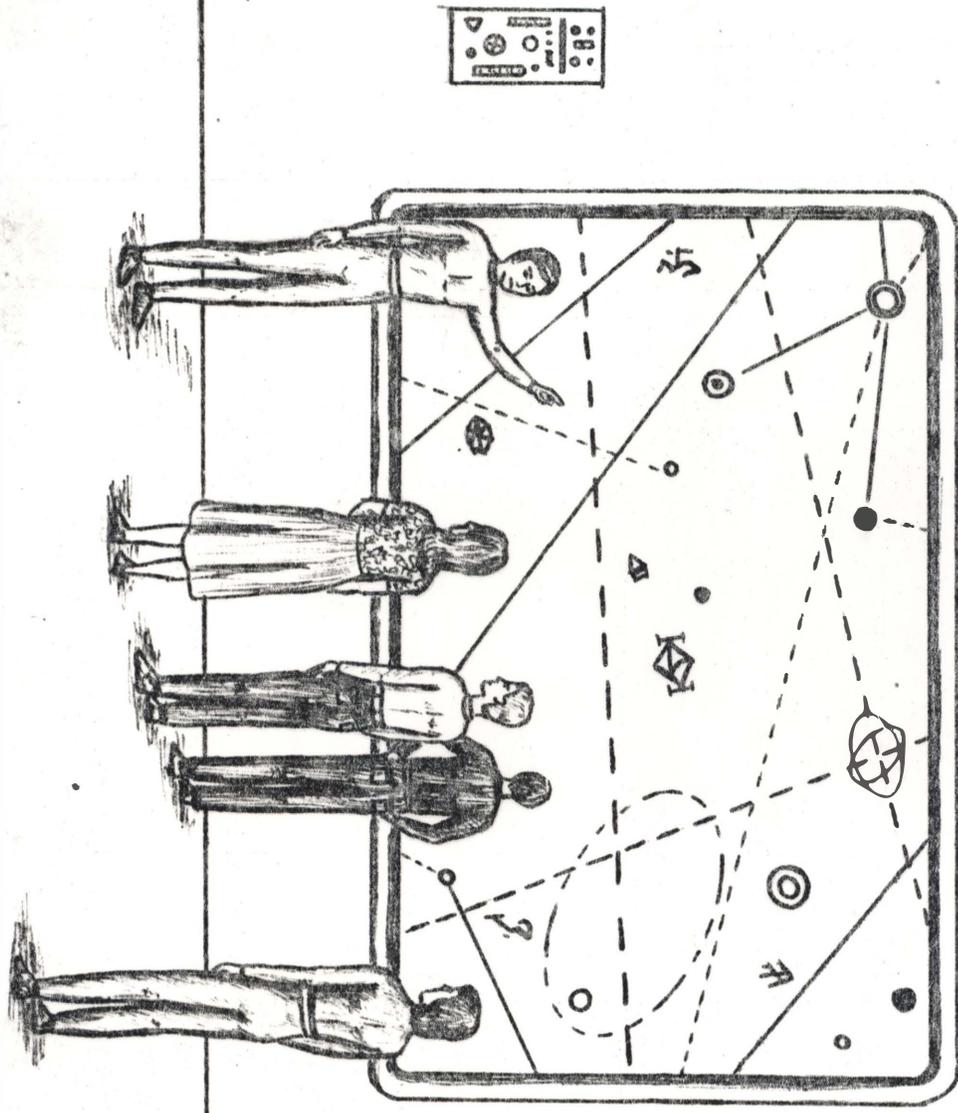

to explain to them that there were people on earth like scientists, astronomers, radio astronomers, you know like that, but it didn't seem that they were interested in these people, they were interested in us. He had a screen, it was a screen in which they showed various relationships to a central planet. Now this central planet, according to the leader dealt with our solar system, I believe it was our solar system because he said our planet was involved in it. I also distinctly remember seeing both solid lines and broken red lines emanating from different points on this chart they were showing us. We were just about to understand or be explained what the relationships were on the chart when the man, the human man who was with me mention something about religion, I distinctly remember him mentioning the name Jesus Christ, in which the leader became very upset. And Gentlemen this is all I can tell you about the episode, I can't remember a conscious thing after that. That's it, that's all I can remember about the episode, except for a dream, a dream that has been bothering me for years." Pete Mazzola asked Mr. Herbert to explain about this "dream" that was bothering him, and Mr. Herbert went on to explain; "Well I really can't be sure what it all means and whether it was sparked by the initial episode or not, but this dream as well as this first experience has already cost me a marriage." I then asked Mr. Herbert to define what he had meant by costing him a marriage, and he explained for years after this first episode he had nightmares, his wife had become upset because Mr. Herbert would not confide in her what these dreams or nightmares were all about. Mr. Herbert went on to explain; "Well about this nightmare or dream or whatever the hell it is, I was in a large grassy field and there was another man with me, definitely human plus an alien guide. We were on another planet and he said, the alien said, and I don't remember his lips moving when he said it, but anyway I know this sounds crazy, but anyway he said he was going to take us to a town or a village. So we starting walking. I'd say we were walking about an hour. We started climbing up an incline than as we got closer to this town it became very, very steep and very hard to negotiate up this hill. There was a path that went into this town, a dirt path. When we got into this town, it was more like a small village, and the houses were just like human houses. But I noticed it was very, very quiet. The whole episode was quiet, no birds, no dogs, nothing, just quietness. Well anyway when we got to this town the people started coming out of their homes and they gather around myself and this other man, they wore clothes very much like ours, in fact I couldn't tell anything different about them other than someone pointed out they had six digits on each hand and foot. I looked at someones foot and sure enough I saw six toes." I asked Mr. Herbert, if he saw six fingers or six digits on anyone's hand, he could not recall. "It was bright, it was a bright sunny day but everything seemed red, the ground, the sky, even these houses all seemed red. I never understood this dream or whatever the hell it is. Anyway there was some commotion around the people who had gathered around to view us or look at us, and the next thing that I could remember is running down that hill

away from that hill, away from town running for my life. I thought they were going to catch me and I could see a disc on the bottom portion on a big field and I ran for it, I ran for my life, I knew if I got to that vehicle I was going to be ok, and thats where I wake up, thats where I woke up in this dream."

It is interesting to note here that Mr. Herbert recalls the ships walls and some fixtures inside the disc from the first experience. He remembers the screen being approximately ten feet by twelve feet, and that it was more affixed to the wall than a regular home type movie screen. On March 3, 1979, Mr. Herbert was interviewed by a noted New Jersey psychiatrist, for the purpose of regressive hypnosis. The session lasted approximately two hours in which time the doctor put Mr. Herbert into a deep trance and regressed him to the point of time where the alleged abduction initially started. The doctor was able to ascertain from statements made by the witness that the abduction took place in Dover, N.J. approximately in the summer of 1959. Although Mr. Herbert could not consciously recall and did not make any statements to the effect of a physical examination on board, it is interesting to note, that while under regressive hypnosis he started to recall incidents of an examination that had taken place. It was during this time that Mr. Herbert became violently ill, and in the words of the Doctor; "I thought he was going to have a heart attack due to extreme fright and a definite negative reaction to the whole experience", contrary to Mr. Herbert's statements about the entire experience. At a point in time where the Doctor had regressed Mr. Herbert to the examination part of the abduction, Mr. Herbert started to vomit on himself as well as the Doctor's Office, at this point the Doctor thought that he had struck a raw nerve and it was best for all concern to stop the session in order to help Mr. Herbert clean himself up and regain some dignity.

It is interesting to note here, although the case is still under investigation that the abduction sequence took place approximately two years before the Betty and Barney Hill abduction in 1961. Although this is interesting onto itself, it is also interesting to note the similarities in both the Hill abduction and the Herbert abduction, in that both abduction cases, the abductees were shown a series of charts in relationship to our own universe as well as possible trade routes indicated by broken red lines and solid red lines. Another interesting fact to note is the nightmares that preceded Mr. Herberts coming to the S.B.I.; if the reader will recall he will note that the Hills had suffered from nightmares and unusual dreams immediately after their episode and it was that single fact that prompted them to seek out the help of a noted Boston Psychiatrist. Even though certain portions of the investigation had revealed striking similarities to the Betty Hill and Barney Hill abduction, it is also surprising to see the parallel in the Andreason abduction in which Betty Andreason was abducted from her home in 1967 and allegedly taken to a different planet very similar in description to what Mr. Herbert described.

Mr. Herbert has fully recovered from the episode in the psychiatrist's office and is further willing to explore more portions of the abduction sequence. Perhaps the most interesting fact of this whole alleged abduction would be the point of reference "Jesus Christ", and the extreme negative reaction from the Aliens that was brought about by this name. The S.B.I. right now is scheduling Mr. Herbert for more in depth regression sessions in which we will explore the reasons or possible reasons for this negative reaction to the name Jesus Christ as well as trying to retrieve the names of the two human individuals that accompanied Mr. Herbert in the abduction in Dover, N.J.

As we informed you in our last monthly report, the S.B.I. will have a booth in the Science Section of the Mind, Body and Spirit Festival, to be held on September 26-30, 1979 at the New York Coliseum. The Festival is an import from England where it has ran with tremendous success for the past three (3) years. Attendance this year was well over 80,000. The scope of the Festival is broad; its varied categories and participants fall comfortably under the umbrella best titled, "NEW AGE." The Festival endeavors to offer a wide range of new lifestyles, alternative systems, sciences, arts and philosophies in order to show their practical application to everyday living.

The S.B.I. plans to uphold the awareness raising spirit of the Festival by offering a totally honest view of UFO's, as we are thus far been able to ascertain. Pete & Jim have all our current UFO Documents available to enlighten the public. Memberships will be available and Marc Brinkerhoff (artist & abductee) will have some of his fantastic artwork there too. We know the energy will be high with Pete & Jim teaming up to infuse awareness into the thousands seeking to know more on UFO's.

As of this writting, we are informed the S.B.I. is the ONLY UFO Organization occupying a booth at the Festival. That doesn't surprise us, but it'll probably surprise the other UFO organizations that appear to be sleeping lately. (PLEASANT DREAMS FELLAS!)

Don't forget to tell your friends who live near New York City or who will be in town during the Festival dates stated above. By the same token don't forget to include yourself to see the Science Festival--there will be something for everyone. Categories include:

- Sciences,
- Arts,
- Crafts,
- Human Potential,
- Spiritualism,
- Technology,
- Sports,
- Esoterisicm,
- Commerce,
- Environment,
- Survival,
- Healing Arts,
- Alternative Medicine,
- Ecology,
- Nutrition,
- Organic Gardening,
- Cooking Demonstrations,
- and the Dome of Ancient British Mysteries.

There will be ongoing live demonstrations ranging from traditional and contemporary dance, music, physical disciplines (yoga, gymnastics, jogging, etc.) and a host of other enlightenments. There will also be artist at work, astrologers, dream analysts and many more paranormal specialists. It surely shall be a great day for you(r) and/or family to enjoy and attain knowledge at the same time. With the soaring cost of gasoline, this seems like an inexpensive way to utilize a day off from work.

About 20% of the exhibitors are expected to be European, but the Festival's primary purpose is to act as a show-case for American groups, individuals or corporations. Our S.B.I. Staff Artist (Marc Brinkerhoff), attended the Festival last year while in England and told us, "it was an incredible experience, uplifting, highly educational and entertaining." So once again, don't miss the Festival and of course, don't miss Pete & Jim at the S.B.I. booth in the Science Section. It'll be an event to remember...

For your convenience and knowledge the next page of this REPORT gives a detailed description of the booth locations and shows clearly just where the S.B.I. Booth will be situated. More info on the Festival will come as a reminder as the Festival nears.

As from our very first issue of the S.B.I. REPORT I will make mention of our formal petition to the White House. The petition itself is doing nicely, with thousands of names of supporters from our Investigatory Body. However, it has been brought to our attention that member/subscribers have never received a petition form to aid us in our campaign to have the White House release ALL UFO data they contain suppressed. Therefore, all our member/subscribers will be issued one copy of our petition as they may join our campaign effort. This form may be reproduced (before signatures acquired) in as many quantities the member/subscriber deems appropriate. We know our Investigating Team and Staff have done a splendid job acquiring supporter signatures--let's see what our member/subscriber body can do.

As you can plainly see from this issue as compared to the very first issue of the S.B.I. REPORT: the report has become more comprehensive; has become more attractive and legible; and has added more writers to its staff. In a whole, SPOTLIGHT should dedicate its article to "Luck and Destiny." Luck and destiny have equally contributed to the strength and popularity of the S.B.I. REPORT as well as the organization.

The S.B.I.'s popularity (luck) has attracted the attention of many professional people; thereby, increasing the organization's strength (destiny) to where it is at the moment. For example, we have recently accepted Luis Molina into the S.B.I. as a Consultant of Photography. Mr. Molina, who has a B.A. in History and a Masters in Regional Planning & Urban Communications from Rutgers University, is highly skilled in the following categories: Urban Planning, Video Productions, Filmmaking, Photography, Darkroom Techniques, Researcher and Instructor of Colleges. His professionalism ranges from that of Assistant to the Dean at Livingston College, Research Co-ordinator at Rutgers University, Adjunct Professor at Jersey City State College and Planning Advisor of several urban affairs programs. Mr. Molina's professional experience in the field of art, media and communication has lead him to become a Co-ordinator/Producer/Director of at least 20 nationally acclaimed documentaries. It goes without saying, Mr. Molina's qualifications cannot hinder the S.B.I. in any way, rather only add to its strength of professional Consultants. It is foreseen Mr. Molina's talents will be invaluable and prove rewarding for the S.B.I. It is an honor to have Luis Molina on our team.

Another lucky break for the S.B.I. came when William J. Flynn was accepted into the organization. Bill is a New Jersey Police Officer (area of employment-CONFIDENTIAL) who has been trained in Forensic Hypnosis. It is a must to have qualified Consultants in the field of Hypnosis when dealing with the UFO phenomena. Therefore, Bill's services are a required and necessary function of any UFO organization when trying to establish the truthfulness of a witness, a pattern for UFO abductees, or an answer to the mystery altogether. William Flynn's function within the S.B.I. will surely be read or heard about in the coming months. The S.B.I. staff truly welcomes Bill's consultantship in a time when the need is great.

Another stroke of luck appeared when the S.B.I. accepted William W. Bundy, Sr. as an Investigator in Schenectady, New York. Mr. Bundy, Sr.'s resume is also quite impressive. He was a Counselor/Instructor for the New York State Police Academy for 5 years; at present is employed as Associate Professor of Business & Law at Schenectady County Community College. His activities range from that of: Chairman of Academic Policies at Schenectady College, Representative to the Criminal Justice Advisory Committee, Former Vice-Chairman of the Faculty, Former Chairman of the Nominations Committee Advisor to the Club of Police Science, Committeeman for Conservative Party, member of Northwestern University Alumni Association (same college as Dr. J. Allen Hynek), and a proof reader for Prentice-Hall (N.Y.). Mr. Bundy is a co-author of a text entitled, "An Introduction to the Courts & Judicial Process" (Prentice-Hall, N.Y., 1978). It is indeed a privilege and pleasure to welcome William Bundy, Sr. to our long line of professional Investigators across the country who are either at present or formerly of Law Enforcement background.

Through "luck and destiny" the S.B.I. is acquiring the support of professional people in all fields of science, establishing a network of Investigators across the U.S. who are employed as Police Officers, in contact with the major newspapers and magazines of the world in reference to the UFO phenomena, and administered an affiliation with 30 other UFO organizations within the U.S. and abroad. In retrospect, the S.B.I. REPORT is slowly becoming one of world's finest UFO monthly periodicals around. There is no other UFO organization in the world which publishes a 20-30 page monthly newsletter, bulletin or report except, the S.B.I. There is no other UFO publication on the market which tells in detail the entire behind-the-scenes stories related to the organization, the membership, the feedback on UFO's around the world, comprehensive abduction cases, editorial comments, and special guest writers except, The S.B.I. REPORT. Pete & Jim state, (quote) "Our organization and monthly report is like a bottle of wine, it will improve with age."

So, given time and age the S.B.I. and its REPORT can only improve---as we have all seen in the last six (6) months. We can only reassure those of you who may have any doubts, the S.B.I. (Pete and Jim) will not stop to reach their goals unless they are stopped by an extermination of their existence. The organization will never cease to function as long as we have "luck and destiny" on our side. "For the moment we cannot repay all those who have original started with us", exclaim Pete & Jim. "But that will someday change from that of thank you in printed words to that of financial and other just rewards," they add. Only time will tell and being part of this rapidly growing organization has made me personally feel, "the S.B.I. will one day soon be the largest, most professional staffed and most worldly recognized UFO organization in the world.

'Til next month...stay healthy and happy, and never give up hope!
