

STRANGE LIGHT IN SKY

London, Oct. 20.

The passengers and crew on the Canadian Pacific Steamships liner Montclare throughout the voyage to Liverpool eagerly watched for signs of Lieutenant Commander Macdonald. They report seeing a strange light in the sky astern of the ship at 6.30 p.m. on Thursday when the Montclare was 150 miles west of Tory Island (off the north-west coast of Ireland). A light was later seen to drop from the sky with a streaming tail.
