

# C.R. Workmen See Phenomenon

## FIVE STRANGE OBJECTS PASS OVER PORT AUGUSTA

While working in the yard at the Commonwealth Railways workshops between 9 o'clock and 9.30 on Wednesday morning, Mr. Ron Ellis and a workmate saw five strange objects, in formation, pass across the sky from north to south.

In the rays of the sun, the objects where of a white or light pink color and were shaped like an egg. When interviewed, Mr. Ellis said that he could not give an accurate estimate of the size of the objects, but they were casting shadows and judging by his experience with aircraft during the years he was serving in the RAAF, he would say they were of similar dimensions to the locomotive near where they were working.

Although the objects kept on a direct course at a height of about 6,000 feet, they were moving erratically, but owing to their great speed, were out of sight within a few seconds.

Any question of the phenomenon being an optical illusion was dispelled by the fact that a few minutes later,

by the fact that a few minutes later, both Mr. Ellis and his companion, without any hesitation, gave an identical description of what they had seen.
