

## **“FLYING SAUCER” WAS COMET**

**BRISBANE, Thursday:** A comet was seen by several people in Brisbane today and was at first thought to be a “flying saucer.”

The object was of a strange red color and was seen at 4.5 p.m.

A Brisbane astronomer (Mr. A. K. Chapman) said the object was certainly a comet, but it must have been particularly bright to be seen in the daytime.
