

MAN NEARLY HIT BY FLYING "SAUCER"

KALGOORLIE. — During the height of a terrific windstorm last night, a resident was horrified to see a vast circular shape bearing down on him in the gloom.

The "saucer" landed with an awful crash in the scrub by the roadside.

The man went for his life and a few minutes later was demanding a double brandy, and exclaiming, as the glass chattered against his teeth, "I've nearly been knocked by a flying saucer."

One curious soul investigated the locality where the alleged saucer had landed.

He found the wind had lifted the conical top of a 1,000-gallon tank, and hurled it through the air to its resting place 100 yards away.
