

## **'FLYING SAUCER' WAS TANK TOP**

**KALGOORLIE, Sat — A**  
"flying saucer" narrowly  
missed a Marvel Loch resi-  
dent during a recent storm.

The man fled when he saw  
the "saucer" whirl past him  
into the scrub a few yards  
away.

A later investigation dis-  
closed that the "saucer" was  
the conical top of a 1000-gal-  
lon tank. It had been torn  
from the tank by the terrific  
wind and hurled through  
the air for more than 100  
yards.
