

PRIEST FINDS A "FLYING SAUCER"

THE ONLY MAN in the U.S. to find a "flying saucer." Father Joseph Brasky reported last week that a "flying saucer" had landed in his church grounds "with a great roar and was too hot to handle." It was a circular-saw blade, which flew from its mountings in a nearby mill, hit a lightning conductor on top of his church in Grafton, Wisconsin, and spun to the ground.
