

They're Seeing "Flying Saucers" Again

NEW YORK, Monday: The "flying saucer era" may have returned to the United States.

Two civil aeronautics administration employees and a farmer at Yakima (Washington) reported today they saw "a silvery moon-sized object" floating through the air over the city just after midday and again at 4 p.m.

"It could not have been a weather balloon because it was floating upwind," one said. "It was flying low and seemed to have flashing lights like a fog light."

Later hundreds of people telephoned the Civil Aeronautics offices, reporting that they had seen "a moon-sized blob" wheeling across the sky above the city.

Meanwhile, at Atlanta (Georgia), two pilots who claimed yesterday that they saw a huge flame-shooting "Speed Gordon" type sky monster while flying over Alabama stoutly maintained today that it was a "man-made

gadget."

They described it as "a wingless affair, with a circumference four times that of a Superfortress

four times that of a Superfortress fuselage."

"It was definitely jet-propelled and had two rows of windows, each about the size of ordinary house windows," they added.

The pilots say they will be flying along the route again this week and will take still and movie cameras in case the mystery monster appears again.

Two other airline crews in the southern United States now report that they saw "strange light" during Friday night.

The pilot of one aircraft said he was near Blackstone (Virginia) at the time and the pilot of the other said he was near Washington, DC.

"The times of the sighting in-

dicade that all three crews may have seen the same thing," said one of the pilots.

A Portland (Oregon) resident reported today that he saw a big, round, bright object going west. It suddenly veered southwest "in an awful hurry."

It bore no resemblance to an aircraft and was roundish, like a disc.

Mr R. Dewitt Millet, author of "Forgotten Mysteries," told the United Press at Los Angeles that the strange aircraft reported sighted over Alabama on Saturday by two Allied pilots might have been a space ship from another planet.

He said: "Our scientists inform us that we may soon build space rockets so why should not be

us that we may soon build space
rockets, so why should not be-
ings on some other world beat us
to it?"
