

Flying Saucer Got Away

NEW YORK, Sunday: Flying saucers hit the front pages of the Sunday papers, with a report from a National Guard pilot, who told of a half-hour encounter with an illuminated disc in North Dakota on Friday.

In a statement to Air Force intelligence, the pilot, who was flying an F 51 fighter, said he encountered the disc at 4500 feet.

It out-ran and out-manoeuvered him until he lost it at 17,500 feet.

The performance was watched by two control tower operators and the pilot of another plane.
