

DOUBTS ON "FLYING SAUCER" SPECULATIONS

WASHINGTON, Friday.

"Flying saucers" may be a reality.

The United States Air Force, which has been investigating reports of strange luminous objects shooting through the skies at intervals over the past 18 months, last night said there had been no tangible evidence up to now that a foreign power was sending "flying saucers" over the United States.

But, it added: "On the other hand there is no evidence to deny categorically such a possibility."
