

## **Flying Saucer At 191/1**

By "Substitute"

A newspaper story provided the name for the 50/1 chance, Flying Saucer, who won her first race (after four seasons' racing) in the first Trial Handicap at Morphettville last Saturday.

The mare's owners submitted many names to the registrar, but all were refused.

Reading the paper, one of them saw a story about Flying Saucers over America—and the name appealed to him.

Flying Saucer is no phenomenon, but she's likely to win more races over a distance.

The mare returned £192/4/ for £1 on the win totalisator. Only £4 was invested on her for a win.
