

Saw Flying Saucer

MEMPHIS (Tennessee),
March 21 (A.A.P.): A flying saucer with windows at the bottom and a blinking light on top flew over Arkansas last night at tremendous speed, two air line pilots reported today.

The United States Air Force, which previously announced that it would have nothing more to do with flying saucers, sent intelligence officers to interview Captain Jack Adams and First Officer G. Anderson and Mrs. Eleanor Roosevelt invited them to appear on her New York television programme on Sunday.

The pilots plan to build a model of the strange craft and have it televised.
