

FLYING SAUCER

REPORTED BY U.S. PILOTS

NEW YORK, Wednesday —
A flying saucer, with a window
at the bottom and a blinking
light on top, flew over Arkan-
sas on Monday night at a trem-
endous speed, two airline pilots
reported today.

The Air Force sent Intelli-
gence officers to interview
them.

One pilot, Captain Jack
Adams, said: "We firmly be-
lieve that the flying saucer was
a secret experimental type of
aircraft, not a visitor from outer
space.
