

Flying saucer 'with windows'

New York, Tuesday.—A "flying saucer," with windows at the bottom and a blinking light on top, flew at tremendous speed over Arkansas last night, two airline pilots reported today.

The US Air Force, which previously announced it would have nothing more to do with flying saucer reports, has sent intelligence officers to interview the pilots—Capt. Jack Adams and First Officer G. Anderson.

Adams said: "We firmly believe the flying saucer we saw was a secret experimental type of aircraft—not a visitor from outer space.

"We are certain it was not a meteor. It was an aircraft in controlled flight."

Mrs. Eleanor Roosevelt has invited the pilots to appear on her New York television program next Sunday. They plan to build a model of the strange craft they saw and have it televised.—AAP.
