

FLYING SAUCERS BACK AGAIN — WITH LIGHTS

MEMPHIS (Tennessee),
Tues (AAP): A flying saucer
with windows at the bottom
and a blinking light on top
was reported by two airline
pilots to have flown over Ark-
ansas last night at "a tremen-
dous speed."

The United States Air Force,
which previously announced
that it would have nothing
more to do with flying sau-
cers, sent intelligence officers
to interview Captain Jack
Adams and First Officer G.
Anderson.

Mrs. Eleanor Roosevelt in-
vited the pilots to appear on
her New York television pro-
gramme and the men plan to
build a model of the strange
craft and have it televised.

Said Captain Adams: "We
firmly believe the flying sau-
cer we saw was a secret ex-
perimental type aircraft—not
a visitor from outer space. We
are certain it was not a
meteor.

"There were no navigation
lights, but lights from eight
or 10 windows could be seen
on the lower side as it passed

on the lower side as it passed ahead of us and a strong blue-white light was flashing very rapidly on top. The object seemed to be about the size of a Dakota aircraft."
