

More Flying Saucers Sighted In U.S.

NEW YORK, March 27.— A veteran private pilot reported he saw a flying saucer within 25 miles of Washington yesterday.

Bertram Totten, a clerk at the Congressional library, said he was flying at 5000ft. when he sighted an aluminium colored saucer, 40ft. wide and 10ft. thick. It was whirling along at 1000ft. below his plane.

Totten said: "I dived towards it, but before I could get very close it zoomed up into space at several hundred miles an hour."

The saucer gave off vapor trails like those from aircraft engines.

IN MEDITERRANEAN

CAIRO, March 27.—Captain Ali Basyouni, a pilot of Egyptian Misr Airlines, told in Cairo yesterday of three silver flying saucers which he saw on Saturday over the Mediterranean, 35 miles southwest of Haifa.

He added that they were flying in perfect triangular formation, at great speed, at a height of about 1200ft.

"I was flying from Cairo to Beirut when suddenly the second pilot pointed to the west, where I saw three metallic discs travelling at staggering speed."

He estimated they were about the size of fighter aircraft.
