

More Reports Of Flying Saucers

FROM WASHINGTON AND MEDITERRANEAN

Washington, March 27. — A veteran private pilot reported that he saw a flying saucer within 25 miles of Washington yesterday. Bertram Totten, clerk at the Congressional Library, said he was flying at 5,000 feet when he sighted an ~~aluminum-colored~~ "one about 30 feet wide and ten feet thick. It was whirling along 1,000 feet below his plane.

Totten said: "I dived toward it but before I could get very close it zoomed up into space at several hundred miles an hour." The saucer gave off vapor trails like those from aircraft engines, added Totten.

Capt. Ali Beyound, pilot of Egyptian Airlines, told in Cairo yesterday of three silver flying saucers which he saw on Saturday over the Mediterranean 25 miles south-west of Haifa. He added that they were flying in perfect triangular formation at great speed at a height of about 1,200 feet.

"I was flying from Cairo to Beirut when suddenly the second pilot pointed to west where I saw three metallic discs travelling at a staggering speed," he said. He estimated they were about the size of a fighter aircraft.

Buenos Aires, March 27.—Authoritative sources say that Britain has notified Argentina that she declines to pay any more for frozen meat exports than the price laid down in the Anglo-Argentine meat pact.
