

THIS IS HOW IT ALL STARTED

SINCE two airline pilots in Arkansas reported on March 22 having seen a flying saucer about the size of a Dakota aircraft with windows at the bottom and a blinking light on top, there have been many suggestions that the object has a direct relation with America's atomic programme.

Mrs. Eleanor Roosevelt, who radio-interviewed the two pilots, said she had been impressed with the report.

Since 1947 there have been intermittent reports of flying saucers.
