

FLYING SAUCER REPORTS IN N.Z.

**WELLINGTON (N.Z.),
Monday.**

(A.A.P.-Reuter)

Four men and a woman claim to have seen "flying saucers" over the lower part of the North Island recently.

They described the saucers as being about half the size of the moon.

One report said it had a "winking orange light."

Another report said that a man had seen a 30ft. row of lighted portholes flashing through the sky on a moonless night."
