

Flying Saucers Reported Over Adelaide

ADELAIDE, Saturday.—
Three flying saucers have been reported over Adelaide in the past week.

At 1.30 p.m. on Friday Mr. Eddie Lock, of Largs North, saw a round, bright yellow object travelling east.

At about 9 p.m. on Thursday Mrs. A. Stratford, of Eliza Street, Gilberton, saw a pale gold disc, also going east.

Last Saturday afternoon Mrs. E. Sierp, of Rose Park, reported what she thought was a flying saucer.

The Government Astronomer, Mr. G. F. Dodwell, has said that daylight meteors could be mistaken for flying saucers
