

FLYING SAUCERS COMING CLOSER

Mr. and Mrs. L. H. Anderson of Tumut, declare they saw a flying saucer five miles from town on a recent afternoon. It was shaped like a mushroom, moving at about 10 to 20 miles per hour and was silent in its movement. A flying saucer seen over Liverpool, and travelling south on a recent night, was subsequently declared to be a weather balloon by Sydney Observatory authorities, basing their calculations on the time it was released from the Observatory the time it was reported over Liverpool and direction and speed of wind
