**LISMORE:** The flying saucer mystery which has puzzled residents of the Lismore district for two weeks was solved this morning when the "saucer" was identified as an aircraft.

A strange object appeared in the sky at 7.46 a.m. about the same time as on previous occasions, said Mr. C. Hetherington, of Bora Ridge.

His family said they could see a light which looked the size of a football in the sky.

Mr. Hetherington focussed a telescope on the object and when it began to fade into the distance it became clear that it was a plane.

It is now believed that seven or eight "saucers" that have been seen in the past two weeks were the morning newspaper plane coming to Casino.
